General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at https://www.ipos.gov.sg. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Artificial intelligence software; data processing apparatus with artificial intelligence;

artificial intelligence and machine learning software; artificial intelligence software for driverless cars; interactive software based on artificial intelligence; electronic interactive whiteboards; electronic devices for displaying messages; interfaces (for computers); computer chatbot software for simulating conversations with artificial intelligence; computer platforms in the form of recorded or downloadable software; downloadable computer software applications; downloadable game software; downloadable computer programs; computer screen saver software, recorded or downloadable; downloadable electronic publications; downloadable computer programs using artificial intelligence to develop predictive models; software (recorded programs); recorded computer programs; recorded computer operating system programs; computer servers; network servers; internet servers; cloud servers; computer hardware; computer hardware and computer peripherals; computer hardware for high-speed processing and storage of data using multiple cpu's; supercomputers; computer software applications for use with artificial intelligence; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; accumulators, electric; accumulators, electric, for vehicles; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; monitoring apparatus, other than for medical purposes; sound recording apparatus; global positioning system [GPS] apparatus; remote control apparatus; galvanic batteries; batteries for lighting; solar batteries; batteries, electric; electronic key fobs being remote control apparatus; internal cooling fans for computers; camcorders; gauges; parking sensors for vehicles; vehicle sensors for detecting presence of objects in the environment and measuring the speed, trajectory and direction of objects; sensors for determining position, speed, direction and acceleration of ground vehicles; detectors; smoke detectors; infrared detectors; light-emitting diodes [LED]; quantum dot light-emitting diodes [QLED]; organic light-emitting diodes [OLED]; electronic numeric displays; electric wire harnesses for automobiles; biometric locks; padlocks, electronic; locks, electric; bells [warning

devices]; alarm bells, electric; electric door bells; signal bells; warning signs [luminous]; signs, luminous; downloadable emoticons for mobile phones; eyewear; reflective articles for wear, for the prevention of accidents; simulators for the steering and control of vehicles; inverters [electricity]; automatic indicators of low pressure in vehicle tires; interfaces for computers; audio interfaces; rearview cameras for vehicles; identity cards, magnetic; encoded key cards; computers; tablet computers; notebook computers; electronic controllers for servo motors; accumulator jars; downloadable e-wallets; laser object detectors for use on vehicles; laser device for determining distance to objects; laser measuring systems; microprocessors; monitors [computer hardware]; monitors [computer programs]; sound recording carriers; magnetic data media; software for autonomous vehicle management; software for artificial intelligence systems for unmanned vehicles; devices and apparatus for control of unmanned vehicles; downloadable computer software for managing crypto asset transactions using blockchain technology; downloadable software for autonomous vehicle navigation, steering, calibration and vehicle control; computer software for operating and management of delivery services; downloadable mobile applications for planning and booking transportation and delivery services; computer software for artificial intelligence, machine learning; computer software for management and operation of a fleet of vehicles; computer software for use in Light Detection and Ranging (LiDAR) operation and calibration; Light Detection and Ranging (LiDAR) equipment for autonomous vehicles; signalling panels, luminous or mechanical; biometric passports; transmitters [telecommunication]; transmitters of electronic signals; software platforms, recorded or downloaded, for autonomous vehicle control; wafers for integrated circuits; printed circuit boards; personal digital assistants [PDAs]; circuit breakers; converters, electric; distance measuring apparatus; speed measuring apparatus [photography]; speed checking apparatus for vehicles; time recording apparatus; nautical apparatus and instruments; optical apparatus and instruments; navigation apparatus for vehicles [on-board computers]; satellite navigational apparatus; regulating apparatus, electric;

prisms [optics]; computer software applications, downloadable, for the management and control of unmanned vehicles; computer programs for autonomous vehicle control; computer programs for planning and sending autonomous vehicles to passengers; operating programs for computers, for monitoring the speed, trajectory and direction of movement of objects; central processing units [processors]; radar apparatus; transmitting sets [telecommunication]; vehicle radios; voltage regulators for vehicles; security surveillance robots; laboratory robots; teaching robots; telepresence robots; humanoid robots with artificial intelligence for use in scientific research; signals, luminous or mechanical; scanners [apparatus] for performing automotive diagnostics; smart speakers; integrated circuit cards [smart cards]; sonars; audiovisual teaching apparatus; charging stations for electric vehicles; kilometer recorders for vehicles; taximeters; interactive touchscreen terminals; thermostats for vehicles; amplifiers for servo motors; electric installations for the remote control of industrial operations; steering apparatus, automatic, for vehicles; data processing apparatus; theft prevention installations, electric; optical character readers; battery chargers; chargers for electric batteries; sound alarms; alarms; whistle alarms; readers [data processing equipment]; head-up display apparatus for vehicles; downloadable image files; downloadable music files; animated cartoons; USB flash drives; computer network routers; humanoid robots having communication and learning functions for assisting and entertaining people; user-programmable humanoid robots, not configured; downloadable digital files authenticated by non-fungible tokens [NFTs] audio and visual recordings featuring education in the field of digital professions, including computer programming, IT design, data analysis, marketing, management, foreign languages; downloadable educational series in the field of digital professions, including computer programming, IT design, data analysis, marketing, management, foreign languages; interactive software application relating to education in the field of digital professions, including computer programming, IT design, data analysis, marketing, management, foreign languages; downloadable books featuring education in the field of digital professions, including computer

programming, IT design, data analysis, marketing, management, foreign languages; audio books; downloadable podcast relating to education in the field of digital professions, including computer programming, IT design, data analysis, marketing, management, foreign languages software; platform software; computer software platforms for social networking; machine learning software; communication, networking and social networking software; data and file management and database software; downloadable software for use, analysis, encoding, development and training of generative artificial intelligence; downloadable software for use, analysis, encoding and development of large language models; deep learning downloadable software; software for searching and connecting with freelancers providing services for machine learning and training artificial intelligence models, ensuring artificial intelligence content is credible, writing texts used to train artificial intelligence models, evaluating and refining artificial intelligence responses, researching, verifying and proofreading content, and monitoring task completion and earnings, viewing projects and seeking technical assistance and support services for projects.

Class 12

Autonomous and semi-autonomous vehicles and their structural parts; driverless cars [autonomous cars]; trucks; cars; robotic cars; horns for vehicles; doors for vehicles; engines for land vehicles; driving motors for land vehicles; vehicle wheels; gear boxes for land vehicles; propulsion mechanisms for land vehicles; pneumatic or hydraulic linear actuators for land vehicles; vehicle suspension springs; self-driving robots for delivery; anti-theft alarms for vehicles; vehicles for locomotion by land, air, water or rail namely cars, lorries, motorcycles, bicycles, electric scooters, motor scooters, pedal scooters, buses; autonomous land vehicles; remote control vehicles, other than toys; electric vehicles; vehicle chassis; motors, electric, for land vehicles.

Class 35

Updating and maintenance of information in registers; updating and maintenance of

data in computer databases; word processing; online retail services for downloadable and pre-recorded music and movies; online retail services for downloadable ring tones; online retail services for downloadable digital music; data search in computer files for others; providing commercial information via websites; providing online marketplaces for buyers and sellers of goods and services; advertising and commercial services, namely, promoting the services or goods of others by means of a web page featuring links to the websites of others; sales promotion for third parties; direct mail advertising; online advertising on a computer network; compilation of statistics; compilation of information into computer databases; systematization of information in computer databases; compilation of information indexes for commercial or advertising purposes; administration of consumer loyalty programs; website traffic optimization; search engine optimization for sales promotion purposes; pay per click advertising services; retail or wholesale services for merchandise, including via the Internet; marketing in the framework of software publishing; presentation of goods on all communication media for retailing; business intermediary services for selection of potential private investors and entrepreneurs; computerized file management; business analysis and strategic business planning services in the technology industry; updating and maintenance of information in registries; arranging subscriptions to electronic toll collection [ETC] services for others; statistical analysis and reporting services for business purposes; business management services in the field of vehicle fleet; providing business information via a web site; presentation of goods on communication media, for retail purposes; sales promotion for others; compilation of statistics; business inquiries; systemization of information into computer databases; online ordering services in the field of restaurant take-out and delivery; advertising services, namely, creating, planning, and placing advertisements on robots and vehicles acting as media or platforms; data processing; data transcription; compilation of information into computer databases; database management; providing an online marketplace for freelancers offering services in the fields of machine learning and training artificial intelligence

models, ensuring the credibility of artificial intelligence content, writing texts used to train artificial intelligence models, evaluating and refining artificial intelligence responses, and researching, verifying and proofreading content; business consultancy in the field of machine learning and artificial intelligence; holding company services, namely, business management services and business administration services for subsidiaries and affiliates.

Class 36

Holding company services for subsidiaries and affiliated companies, namely, provision of investment capital, financial reporting and financial advising; financial services for subsidiaries and affiliated companies, namely, financial management, financial planning, financial forecasting, financial portfolio management and financial analysis and consultation.

Class 37

Information technology consultancy relating to installation, maintenance and repair of computer hardware; installation, maintenance and repair of computer hardware; installation, repair and physical modification consultancy relating to customization of computer hardware through installation and replacement of new components using artificial intelligence (AI); rebuilding engines that have been worn or partially destroyed; rebuilding machines that have been worn or partially destroyed; retreading of tires; vulcanization of tires [repair]; vehicle battery charging; charging of electric vehicles; anti-rust treatment for vehicles; vehicle maintenance; vehicle breakdown repair services; rental of battery chargers; vehicle service stations [refuelling and maintenance]; tuning of bodies for automobiles; burglar alarm installation and repair; electric appliance installation and repair; custom installation of exterior, interior and mechanical parts of vehicles [tuning]; machinery installation, maintenance and repair; interference suppression in electrical apparatus.

Class 38

Providing access to databases; providing chat rooms on the Internet; connection by telecommunications to a global computer network; message transmission; computer-aided transmission of messages and images; transmission of digital files; providing forums online; videoconferencing services; transmission of emails; streaming of data; providing temporary telecommunication access to a supercomputer for the purpose of running software programs; telecommunications; providing access to platforms on the Internet; transmission of user-generated content via the Internet; data streaming; provision of access to an Internet platform for the purpose of using, analysing, encoding, developing and training artificial intelligence models; provision of access to an Internet platform for the purpose of using, analysing, encoding, and developing large language models; transmission of data, images, messages and images; electronic bulletin board services; provision of access to databases; providing Internet discussion forums; providing access to platforms and portals on the Internet; electronic transmission of data, messages and images; message sending; provision of access to databases for the purposes of machine learning and training artificial intelligence models, ensuring artificial intelligence content is credible, writing texts used to train artificial intelligence models, evaluating and refining artificial intelligence responses, researching, verifying and proofreading content; providing Internet discussion forums in the field of machine learning and artificial intelligence.

Class 39

Physical storage of electronically-stored data or documents; provision of transportation services, ride sharing, taxi hailing and delivery by autonomous vehicles; transport reservation; delivery of goods by autonomous vehicles; delivery of newspapers; message delivery; parcel delivery; delivery of goods; delivery of goods by mail order; flower delivery; locating and tracking of cargo for transportation purposes; locating and tracking of people for transportation purposes; arranging of passenger transportation services for others via an online application; hauling; bus transport; car transport; passenger transport; piloting of civilian drones; providing

driving directions for travel purposes; providing traffic information; providing transportation information; car rental; rental of unmanned vehicles; carpooling services; transportation services and booking of transportation services, transportation by autonomous vehicles; transportation of passengers by autonomous vehicles; car parking; car subscription services; chauffeur services; car sharing services; courier services [messages or merchandise]; services for transporting legal documents; taxi transport; transport; physical storage of electronically stored data or documents; short-term rental of vehicles and robotic cars; long-term rental of vehicles and robotic cars; tracking, locating and monitoring of vehicles, maritime vessels and aircraft.

Class 41

Organization and conducting of colloquiums; arranging and conducting of congresses; arranging and conducting of conferences; organization and conducting of concerts; organization and conducting of workshops [training]; organization and conducting of non-virtual educational forums; arranging and conducting of seminars; organization and conducting of symposiums; organization of competitions (education or entertainment); providing non-downloadable videos online; providing non-downloadable music online; providing non-downloadable films via video-on-demand services; providing user reviews for entertainment or cultural purposes; providing user rankings for entertainment or cultural purposes; providing non-downloadable electronic publications online; advanced training services, vocational guidance, and vocational training, formal and non-formal educational services in the field of digital professions, including computer programming, IT design, data analysis, marketing, management, foreign languages; arranging and conducting of colloquiums, conferences, congresses, seminars, symposiums, workshops in the field of machine learning and artificial intelligence; providing on-line electronic publications in the field of machine learning and artificial intelligence; publication of electronic books and journals on-line in the field of machine learning and artificial intelligence; publication

of texts in the field of machine learning and artificial intelligence [other than publicity texts]; services of media libraries in the field of machine learning and artificial intelligence; on-line publication of journals or diaries [blog services] in the field of machine learning and artificial intelligence.

Class 42

Artificial intelligence consultancy; computer system analysis; computer data recovery; computer hardware design; computer virus protection services; software installation; consultation with respect to computer security; consultant services relating to Internet security; consultation with respect to software; consultant services with respect to data security; updating of software; monitoring of computer systems for the detection of unauthorized access or data protection breaches; remote monitoring of computer systems; research in the field of artificial intelligence; Software as a Service (SaaS); maintenance of computer software; digitization of documents (scanning); conversion of data or documents from physical to electronic media; providing information on computer technology and programming via a web site; provision of Internet search engines; computer Platform as a Service (PaaS); conversion of computer programs and data, other than physical conversion; computer system design; rental of web servers; rental of computer software; website hosting; server hosting; development of computer platforms; software development (design); creation and maintenance of websites for third parties; computer programming; technical writing; duplication of computer programs; providing virtual computer systems through cloud computing; off-site data backup; user authentication services using single sign-on technology for online software applications; user authentication services using technology for e-commerce transactions; data encryption services; electronic data storage; electronic monitoring of credit card transactions for the detection of fraud via the Internet; electronic monitoring of personal identification information for the detection of identity theft via the Internet; consultancy in the field of artificial intelligence technology; outsourced services in the field of artificial intelligence; technology consultancy in the

field of artificial intelligence; research in the field of artificial intelligence technology; providing artificial intelligence computer programs on data networks; advanced product research in the field of artificial intelligence; artificial intelligence technology services provided on an outsourcing basis; platforms for artificial intelligence as software as a service [SaaS]; technical consulting in the field of artificial intelligence (AI) software customization; Software as a service [SaaS] featuring artificial intelligence software for machine learning; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; providing non-downloadable computer software development tools in the field of artificial intelligence; Software as a service [SaaS] featuring software using artificial intelligence for machine learning; Software as a service [SaaS] featuring software using artificial intelligence for software development; computer systems analysis; installation of computer software; mechanical research; research in the field of telecommunications technology; technological research; computer security consultancy; information technology [IT] support services [troubleshooting of software]; computer technology consultancy; consultancy in the design and development of computer hardware; internet security consultancy; computer software consultancy; data security consultancy; technological consultancy; vehicle roadworthiness testing; updating of computer software; monitoring of computer systems to detect breakdowns; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer system operation by remote access; writing computer codes for autonomous vehicle control; software as a service [SaaS], namely software for autonomous vehicle management; maintenance of computer software, in the field of autonomous vehicle management, as well as for planning and sending autonomous vehicles to passengers; platform as a service [PaaS], namely computer platform enabling planning and sending of autonomous vehicles to passengers; providing online geographic maps, not downloadable; providing geographic information; conducting technical project studies; computer system design for autonomous vehicle management; rental of software for autonomous vehicle management;

design of prototypes; hosting computer websites; development of computer platforms for autonomous vehicle control; software development for autonomous vehicle navigation, steering, calibration and vehicle control; user authentication services using blockchain technology; computer graphic design for video projection mapping; design of computer-simulated models; development of computer programs for autonomous vehicle control; computer programming services for data processing; telecommunications technology consultancy; cartography services; software engineering services for data processing; Providing software as a service (Saas) featuring computer software in the field of education; providing platform as a service (PaaS) featuring computer software for in the field of education; providing temporary use of on-line non-downloadable software for use in the field of education; cloud hosting provider services; design and development of computer software for others; computer programming services in the field of education; cloud computing services; computer software design; writing of computer code; providing non-downloadable software; providing non-downloadable application development software; providing non-downloadable software for processing, transmitting and displaying text, data, images, audio, audio visual content, and other multimedia content; providing non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; providing information relating to computer programs; providing information relating to computer technology; providing information relating to computer programming; providing online information regarding the design and development of computer hardware and software; application service provider featuring application programming interface (API) software; application service provider featuring application programming interface (API) software for transmission of text, data, and images by wireless communication networks and the internet Software as a service [SaaS]; platform as a service [PaaS]; hosting of platforms on the Internet; hosting software platforms for work collaboration; platform as a service [PaaS] featuring software platforms for transmission of images, audio-visual content, video content and messages; software as a service [SaaS] services featuring

software for machine learning; technology consultation in the field of artificial intelligence; providing temporary use of online non-downloadable computer software in relation to generative artificial intelligence; providing temporary use of online non-downloadable computer software in relation to large language model; providing temporary use of a web-based software application for searching and connecting with freelancers who offer services in the fields of machine learning and artificial intelligence model training, ensuring artificial intelligence content is credible, writing texts used to train artificial intelligence models, and evaluating and refining artificial intelligence responses; providing temporary use of a web-based software application for searching and connecting with freelancers who offer services in machine learning and artificial intelligence model training, researching, verifying and proofreading content, and monitoring task completion and earnings, viewing projects and seeking technical assistance and support services for projects; providing temporary use of a web-based software application (software as a service) for enabling online marketplaces that connect buyers and sellers of services in the fields of machine learning and artificial intelligence model training, ensuring artificial intelligence content is credible, writing texts used to train artificial intelligence models, evaluating and refining artificial intelligence responses, researching, verifying and proofreading content.

Class 43

Food and drink catering, including by means of autonomous vehicles; organization and provision of the above services, including through a mobile or online application.

Class 45

Security monitoring and video surveillance services for the protection of property and individuals, using vehicles and robots; leasing of internet domain names; video monitoring of facilities, viewable through a global computer network [on-line monitoring]; licensing [legal services] in the framework of software publishing;

licensing of intellectual property; licensing of computer software [legal services]; registration of domain names [legal services]; personal background investigations; surveillance services by drone; security guarding of facilities via remote monitoring systems; on-line social networking services; legal services relating to licences; content moderation for internet chatrooms; online social networking services; online social networking services in the field of machine learning and artificial intelligence provided through a web-based software application.
