General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at https://www.ipos.gov.sg. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

adapted for filtering machines; crankcases for machines, motors and engines; reels [parts of machines], in particular plastic parts adapted for mechanical reeling apparatus, in particular for fixing windings; turbines, parts therefor, except for land vehicles, in particular structural components of plastic for turbines; electrical generators and parts thereof, in particular structural components of plastic for current generators; compressors for gases, parts thereof, in particular structural components of plastic for compressors for gases; filter housings being parts of machines.

Class 09

Apparatus, instruments and cables for electricity supply; apparatus, instruments and cables of plastic and in particular for electricity supply for use in relation to batteries and battery systems; cell holders for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; spacers for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; covers, for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; electric cables for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; holders adapted for battery modules and battery systems, in particular for batteries for vehicles and for vehicle battery systems; housings, for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; stands adapted for batteries and battery systems in the form of supporting rails, in particular for batteries for vehicles and for vehicle battery systems; holders in the form of holding profiles adapted for battery modules and battery systems, in particular for batteries for vehicles and for vehicle battery systems; interconnectors for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; structural components for mechanical integration for battery modules and battery systems, in particular for batteries for vehicles and for vehicle battery systems; structural components with cooling function for batteries and battery systems, in particular for batteries for vehicles and for vehicle battery systems; parts

for batteries and battery systems having electrical insulating property, in particular for batteries for vehicles and for vehicle battery systems; stands in the form of supporting rails adapted for electric conductors; insulating rails for electric conductors in the form of stands; measuring devices, in particular extruded plastic components being parts of measuring devices; monitoring instruments, in particular extruded plastic components being parts of monitoring instruments; sensors and detectors, in particular extruded plastic components being parts of sensors and detectors; electrical switch cabinets; electric coils, in particular structural components of plastic for holding electric coils, in particular for fixing windings; electrical rotary converters, in particular structural components of plastic for use in relation to electrical rotary converters.

Class 11
Filters for waste gas purification, in particular plastic parts adapted for filters for waste-gas purification; flues and filtering installations for conveying flue gases; fittings for flues, namely, plastic parts adapted for flues and filtering installations for conveying flue gases; heat exchangers for the removal of exhaust gases, in particular plastic parts adapted for heat exchangers for the removal of exhaust gases.

Goods and/or Services:

Class 01

Mold inhibiting chemicals for preventing growth of mold; chemical preparations to prevent mildew; plasterers' putty; chemical preparations for preventing scale formation; anti-freezing preparations; coolants for vehicle engines; chemical preparations for removing moisture; windshield de-icer fluids; pollution-proofing chemicals; preparations for preventing the tarnishing of glass; glaziers' putty; glass coating agents; de-icing sprays for windscreens; chemical preparations for protecting automotive glass membranes; preparations for coating automotive glass membranes [chemicals], other than paints; coating agents for automotive tire; chemical-based

rain repellent preparation to be applied to windshields; water-repellent coating agents for automotive windows; preparations for preventing the tarnishing of automotive glass; decontamination chemicals for automotive window glass.

Class 03

Adhesives for affixing false hair; bleaching preparations [decolorants] for household purposes; creams for leather; polishing preparations; shaving preparations; non-medicated mouthwashes and gargles; non-medicated toiletry preparations; shower preparations; cleaning and polishing preparations; cleaning, polishing, scouring and abrasive preparations; cleaning preparations; laundry starch; room fragrances; aromatics [essential oils]; deodorants for human beings or for animals; soaps for personal use; essential oils for personal use; cosmetics for personal use; automobile polishes; pre-moistened cleaning tissues of paper; teeth whitening preparations; facial packs; perfumes and colognes; preparations for setting hair; cosmetic sun-protecting preparations; impregnated cleaning pads impregnated with cosmetics.

Class 06

Adhesive tags of metal for bags; bag hangers of metal; latches of metal; bindings of metal; hooks [metal hardware]; metal fastening rings; rings of metal; non-electric latches of metal; metal karabiners; cup hooks of metal; metal rings for keys; buckles of common metal [hardware].

Class 08

Household knives; electric depilators for personal use; sand trap rakes; golf shoe spike wrenches; knife bags; multi-purpose shears; pocket knives with multi-purpose attachments; multi-tool knives; ice axes for mountaineering; cases for razors; razors; emergency hammers; shovels; manicure sets; electric flat irons; knives; knife sheaths; utility knife; portable multi-function hand tools; hand-held hoes.

Class 09

Inspecting apparatus for secondary batteries chargers; 3D spectacles; cameras for CCTVs; speakers for TV; virtual reality game software; goggles for virtual reality and augmented reality experiences; software for exploring virtual and augmented reality environments; electronic imaging devices for virtual reality and augmented reality; electronic controllers for virtual reality and augmented reality; headset for virtual reality and augmented reality; virtual reality headsets; headsets/goggles/glasses/controllers/remotes/displays for virtual reality; straps for distance meters; range finders for golf; cases for rangefinders; laptop computer bags; mouse pads; power strips with moveable sockets; application software for mobile devices (mobile apps); straps for wireless earphones; wireless headsets; auxiliary battery packs; wearable computer peripherals for video game play; biometric identification apparatus; selfie sticks [hand-held monopods]; protective films for smartwatches incorporating an applicator adapted for applying such films; protective films adapted for smartwatches; covers and cases adapted for personal digital assistants in the shape of a watch; smart rings; smartglasses; bezel rings for smartwatches; protective covers for smartwatches; protective films adapted for smartwatches; straps for smart watches; holders/straps/armbands/lanyards/clips for smartwatches; protective films adapted for smartphone lenses; mobile phone ring holders; armbands being cases for smartphones; docking stations for smartphones/mobile phones; interface for smartphones/mobile phones; protective cases for integrated batteries used in smartphones, cell phones, mobile computers, earphones, tablet computers, and portable devices; waterproof cases for smartphones; bezel ring for watch-like smartphones; watch-like smartphone cases; LED signal lanterns; glasses-shaped wearable computer; docking station for eyeglasses-shaped wearable computers; adapters for eyeglasses-shaped wearable computers; coupler for wearable computers in the shape of glasses; wearable display screens; docking station for wearable smartwatches; adapters for wearable smartwatches; wearable computers; wearable computer hardware; docking stations for wearable communication devices; cases/stands for wearable computer

peripherals; mobile telephones; devices for hands-free use of mobile phones; audio speakers with artificial intelligence; magnetic mounts for magnetic gps devices; magnetic mounting devices for magnetic rangefinders; magnets; charging devices for electric transportation machinery; charging stations for electric vehicles; electrical adapters; electric vehicle charging cables; electrical and electronic connectors; cable holders for electric vehicle charging; cable covers for charging electric vehicles; carrying case featuring a power supply connector and charging device for mobile digital electronics/wearable electronics/earphones/headphones/earbuds/headsets; charging case for earphones/headphones/earbuds/headsets, namely earphones/headphones/earbuds/headsets; wearable headsets for augmented reality experiences; augmented reality headsets/goggles/glasses/controllers/remotes/displays; telecommunication apparatus for use in cars; charging devices; computer operating system software; keyboard stand; tablet pc bag; remote control cases for televisions; head-mounted displays; cases for headsets; headphones; portable telecommunications equipment; pocket translators.

Class 11

LED lanterns; USB-powered hand warmers; gas lighters; humidifiers; non-electric water purifiers for household purposes; drying furnaces; irrigation sprinklers; apparatus for heating/ventilating and air conditioning; heating and air conditioning apparatus; freezers; tobacco roasters; luminous house numbers; toilet bowls; curing lamps, not for medical purposes; air cleaners for industrial purpose; showers; fiber drying machines; water control valves for faucets; washers for water taps; aquarium heaters; indoor fans; ice boxes (except for portable); air-conditioning, air cooling and ventilation apparatus and instruments; garment steamers; cooking apparatus and installations; cookers; sterilizing and disinfection apparatus for medical purposes; toilets, portable; tanning beds; LED lanterns for bicycles; electric track lighting units; footwarmers, electric or non-electric; ice making machines; dehumidifiers; coils [parts

of distilling, heating or cooling installations]; wearable electric fans; heated polymerization units for dental restoration compounds; toasters; apparatus for ventilating; whirlpool-jet apparatus; bee smokers; portable paper lanterns (chochin); heat guns.

Class 12

Tow bars; golf cars [vehicles]; gear lever knobs; parachutes; tractors for agricultural purposes; vessels [boats and ships]; license plate frames [parts of vehicles]; door guards for vehicles; shaped covers for vehicles; shaped steering wheel covers for vehicles; fitted vehicle covers; motors and engines for vehicles; numberplate covers adapted for vehicles; brakes for vehicles; sun visors for automobiles; seat covers for vehicles; suspension shock absorbers for vehicles; windshield sunshades for vehicles; axles for vehicles; window sun blinds for vehicles; sleeping berths for vehicles; cup holders for vehicles; console boxes being parts of vehicles; covers for pedals on vehicles; mudguards for vehicles; parts and fittings for vehicles; prams; tyres; wheelchairs.

Class 14

Leather key rings; leather key chains; key rings of precious metals; key holders of precious metals; metal key rings; metal key chains; chokers of metal; straps for wristwatches; bracelets for wristwatches; watch bands; retractable key rings; charms for key rings; imitation leather key chains; imitation leather key holders; watch straps of plastic; plastic key chains; plastic key holders.

Class 16

Plastic bags for household; plastic bags for household purposes; passport holders of leather; money clips of precious metal; metal money clips; money clips, not of metal; passport cases; passport holders; paper hangtags; paper labels; paper bags for packaging; envelopes of paper for packaging; passport holders in leather or imitation leather.

Class 17

Rigid polyester films for building insulation; vulcanized fibre; cords of rubber; washers of rubber or vulcanized fiber; rubber stoppers; statuettes of rubber; shock-absorbing buffers of rubber; electrical insulators made of rubber; packing containers of rubber; foam supports for flower arrangements [semi-finished products]; industrial masking tape; mica [raw or partly processed]; semi-processed plastics; synthetic resins, semi-processed; waterproof packings; rubber thread and covered rubber yarn, not for textile use; aramid fibers, not for textile use; watering hose; asbestos; asbestos nets; safety curtains of asbestos; asbestos felt; asbestos paper; asbestos fabrics; plastic wrap for exterior of transportation machinery for insulation; polymer scratch protection films for use in manufacture; plastic scratch protection films for use in manufacture; tinted films; urethane films for covering automobile; sew-on tags of rubber for clothing; plastic anti-fogging films for automobile rearview mirrors; automotive paint protection plastic film for insulation; polymer films for sun protection; plastic films for sun protection; semi-processed thermoplastic polymer resins for use in manufacture; thermal cutoffs films for vehicles; packing, stopping and insulating materials; polyurethane film; polyurethane sheets; plastic sheet materials for use in manufacture; plastic film, other than for wrapping; protective films of plastic, other than for wrapping or packagingpa; shaped vinyl wraps for vehicles.

Class 18

Bags; adhesive tags of leather for bags; business card wallets of leather; leather credit card wallets; credit card cases of leather; leather credit card holder; leather pouches; collars for animals; briefcases for documents; bags for sports; credit card cases; credit card cases [wallets]; purses; banknote holders [leatherware]; card wallets; business card holders in the nature of card cases; wallets including card holders; leather or leather-board boxes; parasols for golf; golf umbrellas; waterproof backpacks; bags for parasols; covers for parasols; parasols [sun umbrellas]; key

case; umbrellas and their parts; parasols; bags [envelopes, pouches] of leather for packaging; suitcase packing organisers in leather or imitation leather; bags of leather or imitation leather.

Class 19

Non-metal vent covers for automotive ventilation systems; non-metal vent covers for ventilation (air conditioning) devices and equipment.

Class 21

Holders for household irons; loofahs for household purposes; glass fibers for reinforcing plastics; brushes for cleaning golf equipment; buttonhooks; china ornaments; animal grooming gloves; semi-worked glass; bottle openers; isothermic bags; tempered glass, not for building; soap dispensing bottles; non-electric traps for insects; place mats, not of paper or textile; fiberglass thread, other than for textile use; coal scuttles; car washing mitts; cleaning tools and washing utensils (other than electric); brushes; material for brush-making; aquariums; squeegees [cleaning instruments]; spectacle cleaning cloths; cleaning cloths for spectacles; glass vials [receptacles]; glass stoppers; boxes of glass; works of art made of glass; signboards of porcelain or glass; porcelain eggs; commemorative statuary cups of porcelain, ceramic, earthenware, terra-cotta or glass; automobile wheel cleaning brushes; coin banks; electric apparatus having a light to attract insects to an electrified grid; electric brushes, except parts of machines; kitchen utensils; rat traps; cotton waste for cleaning; microfiber cloths for cleaning; candelabra [candlesticks]; cloths for cleaning camera lenses; portable pots and pans for camping; covers for tissue boxes; incense burners; flower pots.

Class 22

Snare nets; nets; cocoons; dust sheets; textile fibers; seaweed for stuffing; padding materials, not of rubber, plastics, paper or cardboard; canopies for tents; camping swags; tarpaulins; tents; non-metal bands for wrapping or binding; awnings of

synthetic materials; hammocks; chemical fiber bags.

Class 24

Furniture coverings of textile; golf towels; draperies [thick drop curtains]; tea towels; knitted fabric; cotton towels; non-woven textile fabrics; beach towels; shower curtains; narrow woven fabrics; blankets for household pets; traced cloths for embroidery; flags of textile or plastic; labels of textile; fitted toilet seat covers of textile; wall hanging scrolls of textile; cloth; sleeping bags; bed and table covers; cloths for removing make-up.

Class 25

Belts made of leather; golf clothing, other than gloves; golf cleats; golf shoes; climbing gloves; leotards and tights; money belts [clothing]; caps being headwear; face masks [clothing], not for medical or sanitary purposes; sports socks; aqua shoes; clothing; panties, shorts and briefs; gloves with conductive fingertips that may be worn while using handheld electronic touch screen devices.

Class 27

Mats made of straw, rush and/or vinyl; mats; wallpaper and carpet; non-textile hanging scrolls; floor mats for vehicles; sports mats; pet feeding mats; bath mats; artificial turf; floor mats for automobiles.

Class 28

Pouch for LCD portable gaming machines; gaming console holders; peripherals and accessories for gaming machines, namely, stands for controllers for video games, keyboards for video game consoles, computer game joysticks and gaming keypads; butterfly nets; golf bag tags; driving practice mats [golf articles]; golf bags with or without wheels; sporting equipment for the dispensing of golf balls; golf ball retrievers; golf balls; golf ball markers; electric golf bag trolleys; golf bag carts; sporting equipment for improving one's golf swing; golf irons; golf practice nets; divot repair

tools [golf accessories]; gloves for golf; markers for golf balls; golf equipment; golf club grips; golf club shafts; golf club heads; golf clubs; grip tapes for golf clubs; fitted protective covers specially adapted for golf clubs; covers for golf clubs; golf tees; golf putters; fishing tackle; golf bag trolleys, motorized; toys for pets; toys (playthings); amusement park rides; artificial Christmas trees; gymnastics and sporting articles; putting practice mats [golf implement]; protective carrying cases specially adapted for handheld video games; protective films adapted for screens for portable games; bags specially adapted for hand-held video game apparatus.

Software; mobile apps; artificial intelligence and machine learning software; computer chatbot software for simulating conversations; communication and networking software; server software; interactive software; interactive software based on artificial intelligence; artificial intelligence software for analysis; computer software development tools; interfaces for computers; computer software for use as an application programming interface [API]; computer software for application and database integration; downloadable and recorded content; software for the integration of artificial intelligence and machine learning in the field of big data; cloud server software; downloadable computer programs and downloadable computer software using artificial intelligence for the processing, generation, understanding and analysis of natural language; downloadable computer programs and downloadable computer software for machine learning; downloadable computer programs and downloadable computer software for image recognition and generation; downloadable computer programs and downloadable computer software using artificial intelligence for music generation; downloadable computer programs and downloadable computer software for artificial intelligence, namely computer software for the development, execution and analysis of algorithms capable of learning, analyzing, classifying and taking action in response to data; downloadable computer software for simulation environments for testing agents, algorithms or artificial intelligence programs; computer hardware; computers; computer peripheral devices; computer systems; data processing apparatus; computer servers; cloud servers; computer networking and data communications equipment; database servers; database engines; interactive databases; humanoid robots with artificial

intelligence; apparatus and instruments in relation to the following fields: artificial intelligence, namely data processing equipment, data processing systems, data processing software for the following applications: human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, economic monitoring and predictive analytics; instrumentation simulators in relation to the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, economic monitoring and predictive analytics; electronic publications, downloadable; image, audiovisual, audio and video recordings [stored and downloadable]; devices and apparatus, namely devices for the collection, recording, measurement, processing, transmission and reproduction of media, data and information in relation to the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, economic monitoring and predictive analytics; electric installations for the remote control of industrial operations, for the collection, recording, measurement, processing, transmission and reproduction of media, data and information in relation to the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-

performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, economic monitoring and predictive analytics.

Class 35

Business consultancy and advisory services; collection of data; data management services; provision of business and commercial information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, business intelligence and predictive analytics; management and compilation of computerized databases; collection of commercial and business data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, business intelligence and predictive analytics.

Class 42

Software as a service [SaaS]; platform as a service [PaaS]; platforms for artificial intelligence as software as a service [SaaS]; AI as a service [AIaaS]; cloud computing; application service provider [ASP] services featuring software; providing online non-downloadable computer software; providing artificial intelligence computer

programs on data networks; providing online non-downloadable computer programs and non-downloadable computer software using artificial intelligence for the processing, generation, understanding and analysis of natural language; providing online non-downloadable computer programs and non-downloadable computer software for machine learning; providing online non-downloadable computer programs and non-downloadable computer software for image recognition and generation; providing online non-downloadable computer programs and non-downloadable computer software using artificial intelligence for music generation; providing online non-downloadable computer programs and non-downloadable computer software for artificial intelligence, namely computer software for the development, execution and analysis of algorithms capable of learning, analyzing, classifying and taking action in response to data; providing online non-downloadable computer programs and non-downloadable computer software for simulation environments for the testing artificial intelligence agents, algorithms or programs; data center services, namely provision of data center facilities, rental of data center facilities; server administration; hosting of servers and hosting of software; hosting services; rental in relation to the following goods: computer, computer hardware [and parts and accessories therefor]; public cloud hosting provider services; private cloud hosting provider services; IT services; IT project management; software design, development, programming, implementation, installation, updating and maintenance; design and development of computer hardware, design of computer hardware; technological services in the following fields: collection, recording, measurement, processing, transmission and reproduction of media, data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive

analytics; research and development services in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; development and testing of computing methods, algorithms and software; recording of technical data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; technical processing of media, data and information using computer programs in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; IT services for the providing of media, data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; consultancy and providing of information relating to the aforesaid services.

human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, economic monitoring and predictive analytics; electric installations for the remote control of industrial operations, for the collection, recording, measurement, processing, transmission and reproduction of media, data and information in relation to the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, economic monitoring and predictive analytics.

Class 35

Business consultancy and advisory services; collection of data; data management services; provision of business and commercial information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, business intelligence and predictive analytics; management and compilation of computerized databases; collection of commercial and business data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning and deep neural networks, distributed computing, high-performance computing, data mining, natural

language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications in relation to the following fields: company information, business intelligence and predictive analytics.

Class 42

Software as a service [SaaS]; platform as a service [PaaS]; platforms for artificial intelligence as software as a service [SaaS]; AI as a service [AIaas]; cloud computing; application service provider [ASP] services featuring software; providing online non-downloadable computer software; providing artificial intelligence computer programs on data networks; providing online non-downloadable computer programs and non-downloadable computer software using artificial intelligence for the processing, generation, understanding and analysis of natural language; providing online non-downloadable computer programs and non-downloadable computer software for machine learning; providing online non-downloadable computer programs and non-downloadable computer software for image recognition and generation; providing online non-downloadable computer programs and non-downloadable computer software using artificial intelligence for music generation; providing online non-downloadable computer programs and non-downloadable computer software for artificial intelligence, namely computer software for the development, execution and analysis of algorithms capable of learning, analyzing, classifying and taking action in response to data; providing online non-downloadable computer programs and non-downloadable computer software for simulation environments for the testing artificial intelligence agents, algorithms or programs; data center services, namely provision of data center facilities, rental of data center facilities; server administration; hosting of servers and hosting of software; hosting services; rental in relation to the following goods: computer, computer hardware [and parts and accessories therefor]; public cloud hosting provider services; private cloud hosting provider services; IT services; IT project management; software design, development, programming,

implementation, installation, updating and maintenance; design and development of computer hardware, design of computer hardware; technological services in the following fields: collection, recording, measurement, processing, transmission and reproduction of media, data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; research and development services in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; development and testing of computing methods, algorithms and software; recording of technical data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; technical processing of media, data and information using computer programs in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive

analytics; IT services for the providing of media, data and information in the following fields: artificial intelligence, human-machine interfaces, machine learning, deep learning, and deep neural networks, distributed computing, high-performance computing, data mining, natural language generation, statistical learning, supervised learning, unsupervised learning, the analysis of large amounts of data in relation to the connections between the data, predictive analyses and applications relating to the following sectors: company information, economic monitoring and predictive analytics; consultancy and providing of information relating to the aforesaid services.

Goods and/or Services:

Class 09

Electronic devices for locating individuals and mobile objects, in particular, vehicles, containers and goods, through use of GPS, cellular telephone networks and radio frequency ranging and triangulation; electronic transponder devices for property protection; signaling and checking apparatus and instruments utilizing tracking and positioning technologies, namely, transponders, GPS receivers, cellular modems, radio ranging devices, laser or other ray-based distance measuring devices which enable positioning by triangulation for use in the dispatch, control, as well as the prevention of unauthorized use of movable objects, namely, persons, land, air, rail, ship, and space vehicles, boxes, parcels, trailers, swap trailers, containers of all types and sizes; electronic location transponders, in particular for satellites and GPS systems; apparatus for tracking and positioning of mobile objects, namely, individuals, equipment, land, air, rail and space vehicles, boats, boxes, parcels, trailers, swap trailers, containers of all types and sizes; computer program for smartphones or other electronic devices featuring technology enabling users to remotely view, monitor, program, operate, dispatch and control fleet vehicles or other mobile logistics objects; Internet of Things gateways; Internet of Things sensors; computer hardware modules for use with the Internet of Things; computer application software for use in implementing the Internet of Things; data processing systems; data processing software; computer software for the remote control of office machines and equipment; machine control software; environmental control software; application software to control lighting; software to control building environmental, access and security systems; software for monitoring, analyzing, controlling and

running physical world operations, Lighting control software for use in commercial and industrial facilities; wireless controllers to remotely monitor and control the function and status of security systems; wireless controllers to remotely monitor and control the function and status of electrical, electronic, and mechanical devices or systems; measuring and control devices for air conditioning technology; remote control telemetering machines and instruments; vehicle tracking apparatus; vehicle tracking systems; navigation, guidance, tracking, targeting and map making devices; automatic solar tracking sensors; downloadable computer software for remote monitoring and analysis; environmental monitoring software; computer software for use in remote meter monitoring; cameras for monitoring and inspecting equipment in a nuclear power station; sensors, detectors and monitoring instruments; measuring, detecting, monitoring and controlling devices; liquid level monitoring apparatus; apparatus for monitoring gas consumption; apparatus for monitoring heat consumption; apparatus for monitoring water consumption; sensors for monitoring physical movements; apparatus for monitoring electrical energy consumption.

Class 10

Medical diagnostic, examination, and monitoring equipment; patient monitoring sensors and alarms; sensor apparatus for medical use in monitoring the vital signs of patients; heart rate monitoring apparatus; blood glucose monitoring apparatus; patient monitoring instruments.

Class 35

Data processing; data processing management; data processing services; automated data processing; data processing, systematization and management; administrative support and data processing services.

Class 37

Installation, maintenance and repair of temperature control apparatus; advisory services relating to the maintenance of environmental control systems; advisory

services relating to the repair of environmental control systems; providing information relating to the repair or maintenance of water pollution control equipment; repair of water pollution control equipment; maintenance of water pollution control equipment; maintenance and repair of physical access control apparatus; maintenance and repair of access control systems [hardware]; repair or maintenance of water pollution control equipment; maintenance of passenger lifts via remote monitoring systems.

Class 38

Providing telecommunications connections to the internet, databases and software platforms for tracking, tracing, positioning, visualizing on digital maps, and remote-control of mobile objects; online services, namely, electronic transmission of messages, in particular for computer-assisted management and tracking, dispatching, and controlling movable objects, namely, individuals, equipment, land, air, rail and space vehicles, boats, boxes, parcels, trailers, swap trailers, containers of all types and sizes.

Class 39

Location tracking of individuals and mobile objects using computers, PCs, notebooks, tablets, cellphones or similar devices; tracking of automobile fleets and containers by means of electronic navigation and tracking apparatus; computer-aided tracking of motor vehicles, ships, containers, installations, machines and individuals; information relating to transport services by a website; cargo tracking services; tracking and tracing of shipments; electronic tracking of parcels for third parties; locating and tracking of cargo for transportation purposes; tracking of passenger vehicles by computer or via GPS; tracking of passenger or freight vehicles by computer or via GPS; advisory services relating to the tracking of goods in transit; tracking, locating and monitoring of mobile objects and devices, namely, individuals, equipment, land, air, rail and space vehicles, boats, boxes, parcels, trailers, swap trailers, containers of all types and sizes, for transportation purposes, with the use of computers, PCs,

notebooks, tablets, cellphones or similar devices.

Class 42

Providing temporary use of non-downloadable computer software in combination with online mapping services, for tracking the location of individuals and mobile objects over computer networks, intranet and the internet; hosting a website featuring technology enabling users to remotely view, monitor, program, operate, dispatch and control fleet vehicles or other mobile logistics objects; creation of control programs for automated measurement, assembly, adjustment, and related visualization; design and development of computer software for process control; providing temporary use of non-downloadable computer software for tracking packages over computer networks, intranets and the internet; providing temporary use of non-downloadable computer software for tracking freight over computer networks, intranets and the internet; design and development of software for control, regulation and monitoring of solar energy systems; providing temporary use of online, non-downloadable computer software for use in broadcast monitoring applications; monitoring of computer systems for security purposes; monitoring of computer systems to detect breakdowns; monitoring of computer systems for detecting unauthorized access or data breach; machine condition monitoring; monitoring of contaminated land for environmental purposes; condition monitoring relating to fluids; condition monitoring relating to greases; condition monitoring relating to lubricants; condition monitoring relating to oils; services for monitoring industrial processes; monitoring of contaminated land for gas; airborne remote monitoring relating to scientific explorations; monitoring the quality control of seismic procedures; monitoring of activities which influence the environment within buildings; monitoring of events which influence the environment within buildings; monitoring of events which influence the environment within civil engineering structures; monitoring of activities which influence the environment within civil engineering structures; monitoring of commercial and industrial sites for detection of volatile and non-volatile

organic compounds; environmental monitoring services; environmental monitoring of waste storage areas; environmental monitoring of waste treatment areas; airborne remote monitoring relating to environmental explorations; monitoring of water quality; monitoring of stream water quality; process monitoring for quality assurance.

Class 44

Monitoring of patients; remote monitoring of medical data for medical diagnosis and treatment.

Class 45

Stolen property tracking and location services through computer-assisted locating of vehicles, ships, equipment, machines and individual; stolen property tracking and location services via the determination of the location of individuals and mobile objects by means of computers, PCs, notebooks, tablets, cellphones or similar electronic devices; locating and tracking of lost property; monitoring fire alarms; monitoring of alarms; medical alarm monitoring; monitoring of security systems; monitoring fire detection systems; home security alarm monitoring; monitoring burglar and security alarms; monitoring of burglar and security alarms; electronic monitoring services for security purposes; monitoring of building structures for tracking and surveillance of goods.

Goods and/or Services:

Class 01

Chemical products for use in industry; industrial chemicals; gaseous chemicals for use as propellants and dispersants; fluorocarbon refrigerants; refrigerants; refrigerants for use in commercial refrigeration applications; foam blowing agents for use in commercial products; coolant gases; chemicals for the manufacture of pigments; asphalt additives; chemical additives; synthetic resins and polymers; oxidized polyethylenes; maleated polyethylene; maleated polypropylenes; ethylene vinyl acetate copolymers; high-density oxidized polyethylene; ethylene acrylic acetate copolymers; low molecular weight ionomers; synthetic polymers for use in electrical and electronic applications, electronic displays, electrophoretic displays, organic light-emitting diode (OLED) displays, active-matrix organic light-emitting diode (AMOLED) displays, electronic sensors, electronic touch screens, electronic logic circuitry, radio frequency identification devices, conductors, semi-conductors or di-electric insulators; polymers for use in the production of coatings and surface coatings used in electronic devices; high purity solvents for high-performance liquid chromatography (HPLC), gas chromatography, pesticide residue analysis and spectrophotometry, analytical labs and lab applications, and pharmaceutical manufacturing; chemicals used for cleaning and etching semiconductors during manufacturing; stannous fluoride; coolant gases; refrigerants.

Class 04

Industrial oils and greases; fuel gases; thermal greases for use as an interface between CPU heat sinks and heat sources; waxes; polyethylene waxes; polypropylene waxes; polyolefin waxes; wax blends; micronized polyolefin waxes.

Class 05

Stannous fluoride for dental use.

Class 06

Common metals and their alloys excluding metal materials for building and construction; metal sputtering targets; semiconductor packaging parts in the nature of precision metal components, namely, heat spreaders; high purity metals for use in manufacturing semiconductor materials.

Class 09

Anodes for use in lithography machines.

Class 17

Synthetic fibers for use in manufacturing; plastics and resins in extruded form for use in manufacture; packing, stopping and insulating materials; composite materials composed of high-performance fibers in the nature of fibre-reinforced plastics material for use in manufacture, aramid fibers, not for textile use, synthetic fibres, not for textile use and microporous synthetic sheets for the manufacture of protective clothing; fiber reinforcing materials for vehicle armor and other ballistic applications; thermal insulating materials for industrial and commercial use, namely, low thermal resistance interface pads, phase change thermal conducting materials, polymer-based hybrid thermally conductive fillers, and thermally conductive silicone gap pads for use as heat transfer interfaces between electronic components and thermal dissipation members.

Class 22

Raw fibrous textile materials; polyethylene fibers; raw fibrous textile materials including polyethylene fiber; synthetic textile fibers; textile fibers; natural fibers; composite materials composed of high-performance synthetic textile fibers for use as reinforced textile materials in bullet proof vests and military helmets.

Class 24

Textile fabrics made of synthetic fibers for use in the manufacture of industrial

protective clothing, aprons and protective gear; laminated fabrics; textiles and substitutes for textiles; ballistic resistant fabrics for use in the production of bulletproof and blast proof clothing, shoes and bullet proof and blast proof garments and shields; semi-finished plastic products, namely, fabrics for use in the manufacture of protective clothing and helmets and clothing and helmets in hard armor.
