Dear Solomon and Joanne,

We would like to express our sincere gratitude and appreciation for a job well done by your team members. From the start till the finish of our trademark applications, we could see that they were relentless in ensuring a smooth process. We thoroughly enjoyed working with your company and we look forward to many more working relationships together.

It is really refreshing to know that Intellect is a company that stays true to its tagline – *your trusted IPeople*. We would gladly attest to that because they never failed to show their professionalism, honesty and virtue. If there is any IP service provider that we would recommend over and over again, it would definitely be Intellect.

Yours truly,
