Malaysia

Testimonial from a satisfied customer

Sim Educare & Learning (SIM) is very contented and satisfied with services rendered by Intellect Group of IP Companies. Their attentiveness to my company's needs and accurate advice and guidance helped me to achieve a better understanding on licensing matters and trade mark protection. This brings SIM to a whole new level especially on business expansion side.

It is definitely a good experience working with team of professionals from Intellect as they are really a good consultant who are able to provide excellent and yet trustworthy services which is beyond my expectation.

Intellect is highly recommended to anyone who is interested in licensing and or trade mark registration matters.

Thank you.

Regards,

Winston Yeoh
Company Director
