Dear Solomon,

We are very pleased to inform you that our company has had a pleasant experience dealing with your company. We have successfully gotten our trademarks registered and it is all thanks to your staffs. They definitely worked with much precision and care in ensuring that the applications undergo a smooth process.

We would definitely come to you again should we need to do anymore trademark registrations and we would not think twice in recommending Intellect to our family members, friends, business associates and anyone who are looking for a reliable and capable IP service provider.

Thank you once again!

Yours sincerely,
