REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Magnetic supports for software; Magnetic platforms for software; Recorded computer game software; Computer search engine software; Computer chess games [software]; Children's educational software; Computer bridge games [software]; Computer software for encryption; Programmed video games [software]; Graphical user interface software; Computer operating system software; Computer software for time control; Industrial process control software; Downloadable computer game software; Computer software development tools; Software for GPS navigation systems; Network management computer software; Computer games cartridges [software]; Computer games programmes [software]; Computer backgammon games [software]; Cleaning discs for computer software; Cartridges for video games [software]; Computer games entertainment software; Industrial computer software programs; Games software for use with computers; Downloadable computer utility software; Multimedia software recorded on CD-ROM; Magnetic cards being computer software; Security devices for computer software; Software for processing digital images; Video games on disc [computer software]; Video games on tape [computer software]; Computer software for business purposes; Downloadable computer security software; Network access server operating software; Video games programs [computer software]; Computer software for accounting systems; Cartridges for computer games [software]; Software for satellite navigation systems; Cards encoded to access computer software; Computer programs [downloadable software]; Computer software for database management; Computer software for document management; Software for optical character recognition; WAN [wide area network] operating software; Controlling software for computer printers; Electronic game software for mobile phones; Industrial controls incorporating software; LAN [local area network] operating software; Downloadable computer software applications; Communications processing computer software; Software for diagnostics and troubleshooting; Software and applications for mobile devices; Data processing software for word processing; Cartridges [software] for use with computers; Augmented reality software for creating maps; Computer software applications, downloadable; Computer software designed to estimate costs; Computer software to enable searching of data; Computer software for analysing address files; Computer software for the analysis of defects; Electronic game software for wireless devices; Operating software for network access servers; Virtual reality software for medical teaching; USB [universal serial bus] operating software; Computer software to automate data warehousing; Computer software for processing address files; Computer software downloaded from the internet; Computer software for processing digital images; Computer software for the creation of firewalls; Computer software for wireless content delivery; Computer application software for mobile phones; Magnetic tapes for memorising software programs; Simulation software for use in digital computers; VPN [virtual private network] operating software; Computer software for producing financial models; Interactive multimedia software for playing games; Computer software for use in controlling machines; Boxes adapted for storing computer software disks; Magnetic storage materials incorporating software; Software applications for use with mobile devices; Software for processing images, graphics and text; Computer software programs for database management; Computer software for analysing market information; Personal computers incorporating computer software; Computer software for processing market information; Computer application software for mobile telephones; Data processing software for graphic representations; Augmented reality software for use in mobile devices; Computer games programs recorded on tapes [software]; Computer software for processing digital music files; Computer software for use in computer access control; Operating computer software for main frame computers; Computer software for wireless network

communications; Computer software for authorising access to databases; Computer software programs for spreadsheet management; Computer software platforms, recorded or downloadable; Personal computer software applications, downloadable; Software for ensuring the security of electronic mail; Computer software for authorising access to data bases; Boxes adapted for transporting computer software disks; Computer chatbot software for simulating conversations; Electronic game software for handheld electronic devices; Computer screen saver software, recorded or downloadable; Computer software for controlling self-service terminals; Interactive entertainment software for use with computers; Installations for the remote loading of computer software; Computer software to maintain and operate computer system; Software for facilitating secure credit card transactions; Programmed video games contained on cartridges [software]; Computer software for application and database integration; Computer programs and recorded software distributed online; Installations for the remote unloading of computer software; Computer software for administration of local area networks; Computer software for creating and editing music and sounds; Computer software for use in programming facsimile machines; Data carriers for computers having software recorded thereon; Computer software for use in creating and designing websites; Computer software for use in processing semiconductor wafers; Computer game software for use on mobile and cellular phones; Computer software designed to estimate resource requirements; Communication software for connecting computer network users; Software for dosimetry purposes in the field of radiotherapy; Software to control and improve audio equipment sound quality; Communication software for connecting global computer networks; Computer games programs downloaded via the internet [software]; Computer software for communication between computer processes; Computer software adapted for use in the operation of computers; Downloadable computer software for remote monitoring and analysis; Games software for use with an external display screen or monitor; Network software applications being downloadable computer programs; Computer game software downloadable from a global computer network; Computer hardware for use in computer-assisted software engineering; Computer software for communicating purposes between microcomputers; Computer software for communicating with users of hand-held computers; Downloadable interactive entertainment software for playing video games; Computer software for converting document images into electronic formats; Computer software for controlling and managing access server applications; Computer software for controlling the operation of audio and video devices; Computer programs and software for image processing used for mobile phones; Downloadable interactive entertainment software for playing computer games; Computer software for organizing and viewing digital images and photographs; Recorded software and programmes for use with electronic games of all kinds; Software for searching and retrieving information across a computer network; Computer software to enable the transmission of photographs to mobile telephones; Software for the operational management of portable magnetic and electronic cards; Game programmes [programs] and software for use with electronic games of all kinds; Downloadable computer game software via a global computer network and wireless devices; Computer software for use in relation to digital animation and special effects of images; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Computer software for use in providing multiple user access to a global computer information network; Computer software that assists computers in deploying parallel applications and performing parallel computations; Computer communication software to allow customers to access bank account information and transact bank business; Augmented reality software for use in mobile devices for integrating electronic data with real

world environments; Operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROM; Kits comprising recorded materials in the form of discs, software, tapes and other recordings and manuals in electronic format, sold together as a unit; Computers; Computer mice; Computer discs; Computer disks; Computer mouse; Computer buses; Computer cases; Computer chips; Computer tapes; Home computers; Trip computers; Micro-computer; Computer cables; Computer mouses; Computer modems; Micro-computers; Tablet computer; Stick computers; Computer modules; Computer keypads; Computer buffers; Computer chassis; Computer screens; Computer servers; Computer systems; Tablet computers; Mobile computers; Laptop computers; Computer memories; Computer monitors; Computer networks; Computer firmware; Computer housings; Computer hardware; Computer plotters; Computer printers; Computer chipsets; Computer circuits; Computer controls; Computer styluses; Computer software; Desktop computers; Netbook computers; Palmtop computers; Process computers; Tablets computers; Computer apparatus; Computer databases; Computer groupware; Computer diskettes; Computer joysticks; Computer keyboards; Computer terminals; Computer shareware; Handheld computers; Wearable computers; Personal computers; Portable computers; On-board computers; Notebook computers; Mice for computers; LAN computer cards; Computer heat sinks; Computer interfaces; Computer mouse pads; Computer mainframes; Computer game discs; Computer components; Laptops [computers]; Computer whiteboards; Computer peripherals; Computer disk drives; Computer disc drives; Computer controllers; Blank computer discs; Processing computers; Computer serial ports; Computer swivel bases; Computer touchscreens; Computer motherboards; Computer network hubs; Computer digital maps; Thin client computers; Translation computers; Housings for computers; Computer control units; Circuits for computers; Computer add-on boards; Computer linking units; Computer game programs; Computer game software; Computer input devices; Computer installations; Computer program discs; Computer program tapes; Wireless computer mice; Speakers for computers; Software for computers; Memories for computers; Printers for computers; Programmable computers; Programs for computers; Plotters for computers; Computer sub-assemblies; Computer screen filters; Joysticks for computers; Computer parallel ports; Computer games software; Computer graphics cards; Computer game cassettes; Computer daughterboards; Computer memory devices; Computer network server; Computer monitor frames; Computer carrying cases; Computer cards, encoded; Computer circuit boards; Personal home computers; Touchpads for computers; Terminals for computers; Computer swivelling arms; Interfaces for computers; Juke boxes for computers; Computer cards, magnetic; Computer control devices; Components for computers; Communications computers; Car navigation computers; Computer network bridges; Computer network routers; Computer interface units; Computer interface cards; Computer design hardware; Computer driven printers; Computer game programmes; Computer game cartridges; Computer fax modem cards; Computer graphics boards; Computer imaging systems; Computer input apparatus; Touch pads for computers; Ring nodes for computers; Linked computer networks; Computer expansion boards; Computer display monitors; Disc drives for computers; Disk drives for computers; Dust covers for computers; Process control computers; Work stations [computers]; Underwater dive computers; Computer interface boards; Computer memory apparatus; Computer network switches; Computer network adapters; Computer swivelling stands; Computer software programs; Computer storage apparatus; Computer software packages; Computer software products; Computer network apparatus; Computer magnetic memories; Computer interface

devices; Computer operating systems; Computer programming units; Recorded computer programs; Recorded computer software; Add-on-cards for computers; Computer display apparatus; Computer firewall software; Computer input instruments; Computer graphics software; Computer control apparatus; Computer software, recorded; Computer software platforms; Computer telephony software; Upgrade cards for computers; Covers for tablet computers; Computer operating software; Computer operating programs; Computer peripheral devices; Computer interface software; Computer memory drive units; Computer memory instruments; Computer programs, recorded; Computer data input devices; Cases adapted for computers; Computer accelerator boards; Anti-static computer covers; Backup drives for computers; Blank floppy computer discs; Swivel stands for computers; Shaped covers for computers; Input devices for computers; Fonts for computer printers; Handheld personal computers; Program discs for computers; Linking units for computers; Mouse [computer peripheral]; Computer whiteboard software; Computer video game software; Video game computer programs; Computer interface apparatus; Computer instruction records; Computer networking hardware; Computer operated digitisers; Magnetic disks for computers; Monitors [computer hardware]; Monitors [computer programs]; Power supplies for computers; Recorded computer programmes; Reconditioned computer parts; Navigation computers for cars; Mouses [computer peripherals]; Stands for computer equipment; Trackers [computer apparatus]; Wearable computer peripherals; Wireless computer peripherals; Input apparatus for computers; Interactive computer software; Interface cards for computers; External computer hard drives; Electronic computer apparatus; Electrical computer apparatus; Computer programmes, recorded; Computer peripheral apparatus; Computer operating programmes; Computer outputting apparatus; Computer peripheral equipment; Computer networking apparatus; Computer monitoring apparatus; Computer data input apparatus; Component parts for computers; Blank magnetic computer tapes; Accounting computer terminals; Screens for use with computers; Interface boards for computers; Microchips [computer hardware]; Notebook computer cooling pads; Downloadable computer graphics; Downloadable computer programs; Downloadable computer software; Encoded programs for computers; Computer screen saver software; Computer network installations; Computer interface instruments; Computer interfacing apparatus; Computer programs for printers; Computer programs for printing; Computer programs for scanners; Computer aided design programs; Clock generators for computers; Blank hard disks for computers; Computer apparatus for drawing; Computer data in recorded form; Computer communications modems; Monitors for use with computers; Memories for use with computers; On-board computers for vehicles; Printers for use with computers; Programs for personal computers; Recorded computer game programs; Recorded computer game software; Recorded programs for computers; Trackballs [computer apparatus]; Apparatus for linking computers; Computer chess games [software]; Computer data storage apparatus; Computer cards containing chips; Computer monitoring instruments; Discs bearing computer programs; Document printers for computers; Headsets for use with computers; Control apparatus for computers; Consoles for use with computers; Computer search engine software; Security apparatus for computers; Storage racks for computer discs; Storage racks for computer disks; Video and computer game programs; Programs for computers, recorded; Program cartridges for computers; Pre-recorded computer programmes; Plug-in components for computers; Pocket computers for note-taking; Personal computer cards, encoded; Personal computer cards, punched; Notebook computer carrying cases; Multifunction computer keyboards; Mobile work stations [computers]; Computer workstations [hardware];

Computer software for encryption; Disc [disk] drives for computers; Encoded programmes for computers; Keyboards for use with computers; Joysticks for use with computers; Computer aided design programmes; Cleaning guns for computer disks; Arm rests for use with computers; Add-in cards for micro computers; Computer communication apparatus; Computer bridge games [software]; Computer graphic input apparatus; Computer programs for office use; Digitizers for use with computers; Electronic memories for computers; Computer programs stored on discs; Computer programs for translating; Computer programs for video games; Computer programs for calculators; Computer programs for tape drives; Computer networking installations; Computer memory storage apparatus; Business programmes for computers; Computer based training apparatus; Computer apparatus for addressing; Computer central processing units; Tape decks for use with computers; Voice actuated computer apparatus; Magnetic tape units for computers; Local area computer installations; Multiprocessor computer apparatus; Personal computer cards, magnetic; Print heads for computer printers; Print out apparatus for computers; Tracker balls [computer apparatus]; Tape drives for use with computers; Work stations [computer apparatus]; Wrist rests for use with computers; Remote control units for computers; Mats for use with a computer mouse; Machine readable computer programs; Magnetic tape drives for computers; Computer graphics display stations; Computer operating system software; Computer aided facsimile apparatus; Cabinets adapted to hold computers; Assembler programmes for computers; Computer software for time control; Computer programs recorded on disc; Computer programs relating to food; Interactive computer game programs; Disc drives for use with computers; Computer image projection apparatus; Computer output microfilm recorders; Computer operating systems programs; Computer programs for playing games; Breadboards for computer programmes; Carriers adapted for computer discs; Cases adapted for netbook computers; Computer data interchange apparatus; Computer data recording instruments; Computer controlled sound apparatus; Computer programs recorded on tapes; Computer programs recorded on drums; Computer programs recorded on cards; Computer software development tools; Filter screens for computer screens; Floppy discs drives [for computers]; Electronic components for computers; Internal cooling fans for computers; Downloadable computer game programs; Downloadable computer game software; Stands adapted for tablet computers; Voice actuated computer instruments; Storage apparatus for computer data; Transmitters for use with computers; Recorded computer operating programs; Storage discs for use with computers; Storage racks for computer diskettes; Wrist rests for computer mouse users; Mounting racks for computer hardware; Network management computer software; Programs for use with computer games; Printed circuit boards for computers; Computer programs for computer games; Computer programs for sales purposes; Computer games cartridges [software]; Computer games programmes [software]; Computer interfaces for clinical use; Computer apparatus for personalising; Computer backgammon games [software]; Cases adapted for notebook computers; Cleaning discs for computer software; Computer aided teleprinter apparatus; Computer programs for use in farming; Computers for use in data management; Encoded tapes for use with computers; Data storage apparatus for computers; Magnetic cards for use with computers; Laser printers for use with computers; Programs for computer generated music; Program cartridges for computer games; Computer assisted language programmes; Computer apparatus for remote billing; Computer controlled drafting machines; Computer controlled sound instruments; Circuit boards for use with computers; Battery chargers for laptop computers; Battery chargers for tablet computers; Computer games entertainment software; Computer operating programs, recorded;

Computer programs for text processing; Computer programs for processing data; Computer programs for data processing; Computer programs for laser machining; Electric leads for use with computers; Games software for use with computers; Industrial computer software programs; Electronic memory units for computers; Computer programs for use in insurance; Computer programs recorded on carriers; Data collection computer installations; Downloadable computer utility programs; Downloadable computer utility software; Input apparatus for use with computers; Computer programs for image processing; Computer programs for medical purposes; Computer programs for use by air lines; Computer graphics plotting instruments; Computer apparatus for educational use; Computer apparatus for process control; Computer apparatus for processing data; Computer controlled desk top recording; Protective covers for tablet computers; Plug-in electronic cards for computers; Peripheral control cards for computers; Magnetic cards being computer software; Security devices for computer hardware; Security devices for computer software; Recorded material for use by computers; Publications in computer readable form; Computer software for business purposes; Computer programs recorded on filaments; Computer terminals for banking purposes; Downloadable computer security software; Ink jet printers for use with computers; Computer programmes for data processing; Computer programs for planning seminars; Computer programs for managing seminars; Computer programs for measuring colours; Computer programs for detecting colours; Computer programs for comparing colours; Computer apparatus for generating noise; Computer apparatus for medical purposes; Computer data recorded on optical discs; Cards bearing data for use in computers; Cleaning discs for computer disk drives; Wrist supports for computer mouse users; Video games on disc [computer software]; Video games on tape [computer software]; Storage apparatus for computer programs; Swivelling stands adapted for computers; Personal computer enhancement circuitry; Pointing devices for use with computers; Mounting brackets adapted for computers; Magnetically recorded computer programs; Computer network operating installations; Computer hardware for telecommunications; Computer programs for orchestral staging; Computer programs for network management; Computer programs for pre-recorded games; Computer programs for project management; Computer programs for studying languages; Computer apparatus for generating images; Computer apparatus for transmitting data; Computer controls for lighting apparatus; Communications electronics for computers; Cartridges for computer games [software]; Blank tapes for storage of computer data; Anti-glare filters for computer monitors; Electrically recorded data for computers; Document printers for use with computers; Display terminals for use with computers; Display apparatus for use with computers; Interactive multimedia computer programs; Computer programs stored in digital form; Computer software for accounting systems; Video games programs [computer software]; Video game programs for use in computers; Peripheral control devices for computers; Peripheral interface units for computers; Peripheral sharing devices for computers; Printer apparatus for use with computers; Magnetic cards bearing computer programs; Magnetically recorded data for computers; Scanners for entering data into computers; Tapes encoded with computer readable data; Memory controllers for use with computers; Printout apparatus for use with computers; Printing apparatus for use with computers; Programs for computer print out apparatus; Programs for processing data on computers; Plug-in cards bearing computer programmes; Keyboard apparatus for use with computers; Interactive computers for use in training; Computer software for database management; Computer software for document management; Computer programs stored on data carriers; Computer programs recorded on paper

tapes; Computers and electronic processing units; Data carriers bearing computer programmes; Data recorded in computer accessible form; Computer programs [downloadable software]; Computer programs for positioning of text; Computer programs for document management; Computer programs for financial reporting; Computer programs for graphic elaborators; Computer documentation in electronic form; Computer networks for the storage of data; Automatic printers for use with computers; Cards encoded to access computer software; Computer apparatus for filing information; Computer programmes stored in digital form; Computer programs for financial management; Computer programs for planning conferences; Computer programs for planning exhibitions; Computer programs for managing conferences; Computer programs for managing exhibitions; Computer programs for promotional purposes; Computer measuring devices containing data; Communications servers [computer hardware]; Computer apparatus for the control of data; Computer apparatus for the storage of data; Computer controls for lighting instruments; Electronic circuits for use with computers; Electrical cables for connecting computers; Instruments adapted for use with computers; Electronic printers for use with computers; Flexible flat panel displays for computers; Data carriers containing computer programs; Controlling software for computer printers; Computer terminals for accounting purposes; Computer programs recorded on floppy discs; Computer programs in machine readable form; Television monitors for use with computers; Video game programs for use with computers; Non-impact printers for use with computers; Mouse mats for use with computer apparatus; Magnetic recordings of computer programmes; Magnetic computer tapes for recording data; Magnetic discs bearing computer programmes; Print out apparatus for use with computers; Compact disc players for use with computers; Computer aided automobile driving apparatus; Communications processing computer software; Computer apparatus for remote meter reading; Computer programs for use by tour operators; Computer programs for the creation of masks; Computer programmes for document management; Electronic memories being computer programs; Downloadable computer software applications; Data stored for access by computer programs; Computer workstations for electronic design; Data being optically recorded for computers; Data input apparatus for use with computers; Data interconnecting computer installations; Computer programs for user interface design; Computer programs recorded on data carriers; Computer programs for use in communications; Computer programs recorded on magnetic tape; Computer programs recorded on magnetic wire; Computer programs used in molecular biology; Television receivers for use with computers; Motor vehicle diagnostic computer apparatus; Print trimmers [parts of computer printers]; Cartridges [software] for use with computers; Computer apparatus for modifying video games; Computer apparatus for gathering information; Computer apparatus for generating characters; Computer apparatus for computer aided design; Computer programs for use by travel agencies; Computer programs for processing information; Computer networks for the processing of data; Electric apparatus for storing computer data; Electronic materials being computer programs; Computer software applications, downloadable; Computer software designed to estimate costs; Computer programs recorded on magnetic media; Screen filters for computers and televisions; Materials bearing recorded computer programs; Network controllers being computer apparatus; Programming apparatus for use with computers; Computer software to enable searching of data; Data carriers incorporating computer programs; Computer utility programs for file management; Computer programs relating to word processing; Computer related data communication apparatus; Computer software for analysing address files; Computer software for the analysis of defects; Instruction programmes for use with computers; Instructional

materials for computer programs; Interactive multimedia computer game programs; Encoded data in the form of computer listings; Encoded programs for weapon systems computers; Digital video adaptors for use with computers; Apparatus for linking computers into networks; Apparatus for controlling computer programmes; Computer apparatus for computer aided testing; Computer apparatus for converting video games; Computer based control apparatus for machines; Computer programs for commercial transactions; Computer programs for the management of sales; Computer interface units for translating data; Protective films adapted for computer screens; Unfilled ink cartridges for computer printers; Wheel balancing apparatus utilising computers; Wrist rests for use with computer peripherals; Circuit boards for use with computer keyboards; Computer apparatus for computer aided drafting; Computer programs for the creation of networks; Computer programs for scientific data analysis; Computer installations for the storage of data; Connection graphics language computer programs; Data being electrically recorded for computers; Data being magnetically recorded for computers; Computer software to automate data warehousing; Computer utility programs for data compression; Computer software for processing address files; Computer software downloaded from the internet; Computer related voice communication apparatus; Computer programs stored on magnetic materials; Computer programs for use in molecular biology; Computer programs for video and computer games; Devices for use in the networking of computers; Electrical data output apparatus for computers; Semiconductor apparatus for use with computers; Punched tapes [encoded] for use with computers; Punched cards [encoded] for use with computers; Punched disks [encoded] for use with computers; Punched paper [encoded] for use with computers; Recording material bearing computer programmes; Magnetic tapes for storing computer programmes; Magnetic tapes for visual electronic computers; Magnetic discs for storing computer programmes; Memory devices for use with computer apparatus; Plug-in cartridges bearing computer programmes; Computer networks for the communication of data; Computer programs for testing computer hardware; Computer programs for designing control systems; Computer application software for mobile phones; Computer controlled workstations for data entry; Computer controlled automatic testing apparatus; Computer software for wireless content delivery; Computer programs for use in telecommunications; Computer programs for use in fitting spectacles; Computer programs relating to motorcycle racing; Computer programs relating to computer networks; Computer programs relating to financial matters; Computer software for processing digital images; Computer software for the creation of firewalls; Electronic databases recorded on computer media; Units adapted for the storage of computer disks; Visual display apparatus for use with computers; Recorded computer programs in the form of cards; Recorded computer programs in the form of disks; Recorded computer programs in the form of tapes; Recorded computer programs in the form of wires; Magnetic tape for recording computer programmes; Mounting brackets adapted for computer monitors; Plastic insulated electric cables for computers; Magnetic cards for recording computer programmes; Magnetic tapes for recording computer programmes; Magnetic discs for recording computer programmes; Printed circuit boards for mounting in computers; Prerecorded data carriers for use with computers; Wrist supports for use with computer peripherals; Recording discs for use with computer programmes; Record carriers for computer programmes, optical; Semiconductor memories being computer programmes; Simulation software for use in digital computers; Electronic data apparatus for use with computers; Electronic memories comprising computer programs; Computer programs relating to housing management; Computer programs for use in fluid flow analysis; Computer programs for use in desk top

publishing; Computer programs for use in database management; Computer software for producing financial models; Computer systems designed for project management; Data processing apparatus for use with computers; Ancillary input and output devices for computers; Computer controlled apparatus for voting systems; Computer apparatus for recording telephone calls; Computer discs containing business documentation; Computer network-attached storage (NAS) hardware; Computer installations for the processing of data; Computer hardware publications in electronic form; Computer hardware for use with drilling apparatus; Computer programs for electronic image processing; Computer programs for management of manufacturing; Computer programs for producing computer graphics; Computer programs for use by travel organisations; Computer programmes for use in telecommunications; Computer programs for analysing computer hardware; Computer apparatus for computer aided engineering; Computer apparatus for use with computer networks; Computer apparatus for use in local area networks; Boxes adapted for storing computer software disks; Cards for use with computers, encoded or magnetic; Image processing apparatus for personal computers; Keyboards for entering information into computers; Computer software for use in controlling machines; Computer programs in the field of design analysis; Computer programs relating to local area networks; Pre-recorded data carriers for use with computers; Paging interface apparatus for use with computers; Record carriers for computer programmes, magnetic; Storage file units for computer program recording; Training guides in the form of a computer program; Recorded computer programs for scientific research; Training manuals in the form of a computer program; Television display monitors for use with computers; Personal computers for use with video game devices; Personal computers incorporating computer software; Magnetic tape drives for storing computer programs; Microprocessor based computer compatible apparatus; Computer software programs for database management; Computer utility programs for computer maintenance; Computer programs stored on magnetic data carriers; Computer programs for use with facsimile apparatus; Computer programs for use in computer-aided design; Computer programs for use as reporting directories; Computer programs for use as searching directories; Computer software for analysing market information; Input apparatus for transferring data to computers; Installations for use in forming computer networks; Electronic publications recorded on computer media; Electronic memories for the input of computer data; Electronic memories comprising computer programmes; Data storage media for recording computer programs; Computer based control apparatus for machine tools; Computer programs for the petrochemical industries; Computer programs for electronic design automation; Computer hardware for use with drilling instrument; Computer hardware for use with drilling operations; Computer apparatus for computer aided manufacturing; Computer based control apparatus for assembly lines; Computer application software for mobile telephones; Apparatus for receiving information from a computer; Apparatus for data communications between computers; Apparatus for inputting information into a computer; Communication devices for linking computer networks; Computers for managing control devices for aircraft; Computer software for processing market information; Computer programs relating to computer aided design; Electronic memories for the output of computer data; Electronic memories incorporating computer programs; Television display apparatus for use with computers; Magnetic cards for the storage of computer programs; Materials bearing computer programs in encoded form; Paper handling devices [parts of computer printers]; Credit card encoding machines [computer peripherals]; Computer programs recorded on magnetic data carriers; Computer programs recorded on data storage materials; Computer software for processing digital music files; Computer

software for use in computer access control; Data storage devices for recording computer programs; Electrical control apparatus being computer operated; Installations for use in the networking of computers; Input apparatus for transferring data from computers; Electronic memories for the storage of computer data; Electronic printing apparatus for use with computers; Electronic memories for the control of computer data; Electronic control apparatus for computer programmes; Industrial controls incorporating computer apparatus; Audiovisual display apparatus for use with computers; Apparatus for computer numerical control of machines; Ancillary input and output controllers for computers; Computer controllers for operating sound instruments; Computer component testing and calibrating equipment; Computer programs for integrated circuit diagnostics; Computer programs for processing digital music files; Computer installations for the communication of data; Computer games programs recorded on tapes [software]; Materials bearing computer programs in magnetic form; Materials for carrying computer data in optical form; Operating computer software for main frame computers; Paper guiding apparatus [parts of computer printers]; Protective films adapted for tablet computer screens; Apparatus for use in communications between computers; Broadband data interconnecting computer installations; Computer controllers for operating lighting apparatus; Computer games programmes downloaded via the internet; Computer programs for editing images, sound and video; Electrical print out apparatus for use with computers; Devices for linking terminals on a computer apparatus; Electronic print out apparatus for use with computers; Credit card embossing machines [computer peripherals]; Computer software programs for spreadsheet management; Computer software platforms, recorded or downloadable; Computer software for wireless network communications; Computer software for authorising access to databases; Computer programs in the field of molecular modelling; Computer programs in the field of communication links; Personal computer software applications, downloadable; Process control units using process control computers; Materials for carrying computer data in magnetic form; Technical literature in the form of computer programs; Personal computer work stations [electronic apparatus]; Magnetic carriers for the storage of computer programs; Navigation apparatus for vehicles [on-board computers]; Computer software for authorising access to data bases; Computer programs recorded in computer accessible form; Computer programs for the creation of elementary cells; Electrical data input apparatus for use with computers; Electronic data input apparatus for use with computers; Boxes adapted for transporting computer software disks; Computer chatbot software for simulating conversations; Computer apparatus for plain language text recognition; Computer programs for designing printed circuit boards; Computer programs for accessing and using the internet; Optical discs bearing machine readable computer program; Memory cartridges on which computer programs are stored; Recorded computer programs in the form of punched cards; Tape units for backing up computer data storage devices; Tape units for backing up computer data storage systems; Apparatus controlled by computers for analysing samples; Computer installations for the control of machine tools; Computer programs for use in computer aided engineering; Computer programs for use in defining machineable parts; Computer programs relating to the training of personnel; Electronic data output apparatus for use with computers; Electronic memory units for bearing computer programmes; Integrated circuit cards storing computer game programs; Paper strips bearing punched [encoded] computer programs; Memory devices bearing programmes for use with computers; Machine readable materials for bearing computer programs; Machine readable carriers for stored computer programmes; Magnetic recording apparatus bearing computer

programmes; Magnetic recording materials bearing computer programmes; Tapes bearing computer programs in machine readable form; Anti-glare filters for televisions and computer monitors; Computer apparatus for the management of telephone calls; Computer apparatus having speech generation capabilities; Computer controlled mechanisms for coin operated lockers; Computer software for controlling self-service terminals; Computer screen saver software, recorded or downloadable; Input apparatus for use with computers for handling data; Electronic apparatus for linking televisions to computers; Digital interactive video adaptors for use with computers; Installations for the remote loading of computer software; Interactive entertainment software for use with computers; Computer programs for use in computer-aided manufacturing; Computer programs for use in developing computer programs; Computer programs for use with structured system analysis; Computer software to maintain and operate computer system; Computer based electrophoresis image processing apparatus; Computer controlled telecommunications exchange apparatus; Computer programs for enabling access or entrance control; Programs for setting up performance analysis in computers; Magnetic supports containing recorded computer programmes; Machine readable material for bearing computer programmes; Semiconductor memory cartridges bearing computer programmes; Punched paper tape rolls [encoded] for use with computers; Remote control apparatus connected by modems to computers; Electronic visual display apparatus for use with computers; Electronic components for the storage of computer programs; Computer software for application and database integration; Computer programs and recorded software distributed online; Computer installations for the control of laundry machines; Computer apparatus for the transmission of telephone calls; Solid-state electrical apparatus for storing computer data; Electrically punched [encoded] cards for use with computers; Electrically punched [encoded] tapes for use with computers; Electric devices for transmission of data between computers; Installations for the remote unloading of computer software; Computer software for administration of local area networks; Computer software for use in programming facsimile machines; Computer software for creating and editing music and sounds; Computer programs used for electronic cash register systems; Computer programs for establishing pump operating schedules; Cartridges of magnetic tape for recording computer programs; Utility programs for performing computer system diagnostics; Optical discs for bearing machine readable computer program; Joysticks for use with computers, other than for video games; Display screen filters adapted for use with tablet computers; Computer programs relating to the creation of graphic images; Computer software for use in creating and designing websites; Computer software for use in processing semiconductor wafers; Computer software designed to estimate resource requirements; Computer terminals for use with debit cards at point of sale; Cursor control devices for use with computer display systems; Data carriers for computers having software recorded thereon; Computer controlled installations of video display apparatus; Computer apparatus for controlling the operation of machines; Computer apparatus adapted for use with visual display units; Audiovisual display apparatus adapted for use with computers; Communication software for connecting computer network users; Computer game software for use on mobile and cellular phones; Circuit boards for use in the emulation of computer terminals; Apparatus for collecting encoded data for supply to computers; Computer apparatus for planning patterns for weaving machines; Computer programs for dynamic simulation of oil well drilling; Computer programs for monitoring computer systems performance; Computer programs for the rating of plate fin heat exchangers; Computer programs for the design of plate fin heat exchangers; Display screen filters adapted for use with computer monitors; Computer terminals for use with credit cards at point of sale; Materials

bearing data in encoded form for use with computers; Insert cards [printed circuit boards] being parts of computers; Computer terminals for use with encoded cards at point of sale; Computer software for communication between computer processes; Computer programs for using the internet and the worldwide web; Computer games programs downloaded via the internet [software]; Computer installations incorporating a central processing unit; Computer apparatus for use in monitoring biochemical reactions; Acoustic receivers for telephonic communication with computers; Communication software for connecting global computer networks; Solid-state electrical apparatus for storing computer programs; Data processing programmes for editing in computer aided design; Computer terminals for use with magnetic cards at point of sale; Computer programs recorded on diskettes for producing lettering; Computer software adapted for use in the operation of computers; Interface instruments for computer control of knitting machines; Computer programs for automating molecular biological processes; Telecommunications apparatus for transferring data to computers; Computer programs relating to the manipulation of graphic images; Drawing apparatus and instruments adapted for use with computers; Electronic data carriers with computer programs [machine script]; Fibre optics communications installations for use with computers; Computer controlled apparatus for testing printed circuit boards; Computer programs for the enabling of access or entrance control; Computer programs for the evaluation of thermal radiation levels; Computer programs for the analysis of data processing efficiency; Computer programs for the analysis of data processing procedures; Computer programs for the control of telecommunication apparatus; Computer programs for providing a graphical presentation of data; Solid-state electrical apparatus for storing computer programmes; Recording materials for the storage of digital computer programs; Personal computers for use with coin operated video game devices; Videotext computer terminals incorporating alphanumeric keyboards; Computer programs for the analysis of data processing performance; Electronic devices for the transmission of data between computers; Downloadable computer software for remote monitoring and analysis; Data terminals for the entry of data to a central computer system; Computer programs relating to the creation of photographic images; Computer programs in machine readable form recorded on paper tape; Data processing programmes for archiving in computer aided design; Computer programs for the control of telecommunication instruments; Computer game software downloadable from a global computer network; Computer apparatus for the measurement of brakes on motor vehicles; Network software applications being downloadable computer programs; Computer software for communicating purposes between microcomputers; Computer programs for the management of the manufacturing processes; Computer programs for simulating the trading in futures and options; Computer hardware for use in computer-assisted software engineering; Computer controlled installations of liquid crystal display screens; Computer based apparatus for use in the enhancement of video signals; Computer based development apparatus for testing electronic circuits; Computer software for communicating with users of hand-held computers; Data carriers incorporating computer programs written in machine code; Computer aided teleprinter apparatus having word processing functions; Materials bearing information in magnetic form for use with computers; Mosaic-type heads for impact printing machines for use with computers; Interactive computers for use in certifying airport security personnel; Computer utility programs [program performs computer maintenance work]; Apparatus for protecting computers from electrical power supply faults; Computer based apparatus for the implementation of electronic circuits; Computer apparatus for the measurement of suspension on motor vehicles; Computer

programs in machine readable form recorded on electronic media; Computer based development apparatus for testing printed circuit boards; Machine readable computer programs for use in the reproduction of music; Electrical connectors for connecting laptop computers to telephone lines; Computer software for converting document images into electronic formats; Computer based apparatus for designing the layout of electronic circuits; Computer software for controlling and managing access server applications; Devices for converting image information to digital signals for computers; Data terminals for the communication of data to a central computer system; Electronic data processing apparatus for the storage of computer programs; Fibre optics communications apparatus for use with computer work stations; Computer based apparatus for the implementation of printed circuit boards; Telecommunications apparatus for transmitting data for use with computers; Computer software for controlling the operation of audio and video devices; Computer programs for use in processing data relating to financial records; Electrical communications apparatus for use with interconnecting computers; Downloadable interactive entertainment software for playing computer games; Cash registers, calculating machines, data processing equipment, computers; Computer based development apparatus for the design of electronic circuits; Computer programs and software for image processing used for mobile phones; Programs written on data carriers for processing encoded data on computers; Interfaces between application programs and firmware on real-time computers; Computer software for organizing and viewing digital images and photographs; Computer programs for connecting remotely to computers or computer networks; Computer based apparatus for designing the layout of printed circuit boards; Computer controlled apparatus for furnishing voice responses to data inputs; Software for searching and retrieving information across a computer network; Simulators incorporating digital computers for industrial training purposes; LAN [local area network] access points for connecting network computer users; Educational materials in the form of computer programs for teaching languages; Computer based development apparatus for the design of printed circuit boards; Computer programs for use with computer integrated manufacturing installations; Computer software to enable the transmission of photographs to mobile telephones; Computer apparatus for the measurement of exhaust gas emissions on motor vehicles; Miniature hard disk drive storage units on a plug-in card being computer apparatus; Computer chipsets for use in transmitting data to and from a central processing unit; Downloadable computer game software via a global computer network and wireless devices; Computer programs for searching remotely for content on computers and computer networks; Computer software for use in relation to digital animation and special effects of images; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Computer programs for searching the contents of computers and computer networks by remote control; Video game computer programs for use with game apparatus not requiring a separate means of display; Computer software for use in providing multiple user access to a global computer information network; LAN [local area network] computer cards for connecting portable computer devices to computer networks; Racks and mountings specifically adapted for use with audio, visual, computer and telecommunications equipment; Computer software that assists computers in deploying parallel applications and performing parallel computations; Computer communication software to allow customers to access bank account information and transact bank business; Operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROM; Apparatus for climatic technology; Vacuum physics technology apparatus; Plotters employing ink-jet technology; Plotters employing electrostatic technology; Plotters employing thermal-

transfer technology; Programs for recording data in reproduction technology; Integrated circuit diagnostic apparatus employing electron beam technology; Programs for the electronic arrangement of graphics in reproduction technology; Biometric scanners; Biometric hand readers; Biometric hand scanners; Biometric iris scanners; Biometric retinal scanners; Biometric fingerprint readers; Biometric fingerprint scanners; Biometric access control systems; Biometric fingerprint door locks; Biometric identification systems; Biometric identification apparatus; Biometric voice recognition systems; Fingerprint imagers; Fingerprint scanners; Fingerprint door locks; Computerised time clocks with fingerprint recognition; Computerized time clocks with fingerprint recognition; Computer software designed to estimate resource requirements; Accounting computer terminals; Computer software for accounting systems; Computer terminals for accounting purposes; Computer communication software to allow customers to access bank account information and transact bank business; LAN access points; Internet access software; Random access memory cards; Network access server hardware; Electric access control systems; Automatic access control systems; Electric access control apparatus; Electric access security apparatus; Automatic access control apparatus; Apparatus for use in access control; Automatic access security apparatus; Electrical access control apparatus; Coin-operated access control systems; Coin-operated access control apparatus; Coin-operated access security apparatus; Electrical access control installations; Electronic access control installations; Network access server operating software; Public access information data terminals; Access control cards, encoded or magnetic; Cards encoded to access computer software; Electronic apparatus for controlling access; Data stored for access by computer programs; Random access memory [RAM] electronic discs; Operating software for network access servers; Electric controlled access security apparatus; Electronic controlled access security apparatus; Random access memory [RAM] electronic cartridges; Computer software for use in computer access control; Computer software for authorising access to databases; Remote access online electronic information apparatus; Computer software for authorising access to data bases; Computer programs for accessing and using the internet; Access interfaces for managed private circuit networks; Sensors for securing rooms against unauthorised access; Electronic access control systems for interlocking doors; Electrical converters for controlling access to premises; Closed circuit video apparatus for use in access control; Sensors for securing grounds against unauthorised access; Sensors for monitoring rooms against unauthorised access; Computer programs for enabling access or entrance control; Sensors for securing buildings against unauthorised access; Sensors for monitoring grounds against unauthorised access; Sensors for monitoring buildings against unauthorised access; Data access apparatus for use in accessing stored information; Electric access control installations for use with encoded cards; Installations, electric or electronic, for use in access control; Computer programs for the enabling of access or entrance control; Controlled access security apparatus [closed circuit television]; Computer software for controlling and managing access server applications; Electronic access control systems for doors in combination with an intercom; Electronic access control systems for doors in combination with a telephone; LAN [local area network] access points for connecting network computer users; Apparatus for guarding data communication systems against unauthorised access; Electronic access control systems for doors in combination with a video camera; Computer software for use in providing multiple user access to a global computer information network; Network cards; Data networks; Network boards; Network routers; Network servers; Optical networks; Resistor networks; Computer networks; Wide area networks; Local area networks; Computer network hubs; Computer network server; Communications networks;

Interface network modems; Computer network bridges; Computer network routers; Linked computer networks; Network facsimile servers; Packet switching networks; Computer network adapters; Computer network switches; Computer network apparatus; Data transmission networks; Telecommunications networks; Network management apparatus; Local optical fibre networks; Computer networking hardware; Computer networking apparatus; Network controlling apparatus; Value added network apparatus; Computer network installations; Capacitance resistance networks; Wide area network (WAN) routers; WAN [wide area network] hardware; Apparatus for telephone networks; Local area network installations; Network anti-interference filters; Network operating system programs; Computer networking installations; Modems for communications networks; Apparatus for network communication; Network protection devices, electric; Network management computer software; Network management control apparatus; Network connector for radio networks; Repeaters for use in data networking; Video local area network controllers; Network protection devices, electronic; Radio for radio communication networks; Crossover networks for audio apparatus; VPN [virtual private network] hardware; Aerials for telecommunications networks; Computer network operating installations; Computer programs for network management; Antennas for telecommunications networks; Computer networks for the storage of data; WAN [wide area network] operating software; LAN [local area network] operating software; Apparatus for use in communications networks; Computer networks for the processing of data; Network controllers being computer apparatus; Apparatus for linking computers into networks; Voice apparatus for digital network apparatus; Computer programs for the creation of networks; Integrated services digital network components; Connecting elements for communication networks; Devices for use in the networking of computers; Voice apparatus for analogue network apparatus; Computer programs relating to computer networks; Computer networks for the communication of data; Integrated service digital network installations; Computer network-attached storage (NAS) hardware; VPN [virtual private network] operating software; Sampling network analysers [scientific apparatus]; Computer apparatus for use in local area networks; Computer apparatus for use with computer networks; Computer programs relating to local area networks; Installations for use in forming computer networks; Communication devices for linking computer networks; Telecommunications network management installations; Installations for use in the networking of computers; Electronic networking apparatus for telephone systems; Computer software for wireless network communications; Network terminating apparatus, electric or electronic; Memory apparatus for telecommunications network design; Network junction points for telephone exchange networks; Apparatus for transmitting data by the telephone network; Local area networking apparatus for the switching of data; Networks for the interconnection of communication systems; Telecommunications apparatus for use with mobile networks; Receiving devices for connection to communication networks; Memory apparatus for telecommunications network management; Integrated circuits for networks for use in identification; Intercom key apparatus for connection to telephone networks; Computer software for administration of local area networks; Local area networking apparatus for the transmission of data; Communication software for connecting computer network users; Intercom key terminals for connection to a telephone network; Communication software for connecting global computer networks; Telecommunications apparatus for use in cellular radio networks; Telecommunications instruments for use in cellular radio networks; Cabling networks [installations] incorporating fibre optic cables; Network software applications being downloadable computer programs; Computer game software downloadable from a global computer network;

Installations for use in the networking of communications apparatus; Electronic industrial network apparatus for high speed data transmission; Computer programs for connecting remotely to computers or computer networks; Diagnostic viewing transceivers for evaluating local area network apparatus; Software for searching and retrieving information across a computer network; Diagnostic viewers for evaluating the condition of local area network installations; Downloadable computer game software via a global computer network and wireless devices; Computer programs for searching remotely for content on computers and computer networks; Computer programs for searching the contents of computers and computer networks by remote control; LAN [local area network] computer cards for connecting portable computer devices to computer networks; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Alarms; Gas alarms; Fire alarms; Pool alarms; Baby alarms; Alarm panels; Smoke alarms; Sound alarms; Theft alarms; Alarm sensors; Alarm systems; Burglar alarms; Whistle alarms; Security alarms; Acoustic alarms; Personal alarms; Gas leak alarms; Radio alarm clocks; Fire alarm systems; Alarm central units; Alarm installations; Smoke alarm testers; Radio alarm apparatus; Anti-intrusion alarms; Acoustic sound alarms; Alarm bells, electric; Elevator alarm systems; Gas leak alarm systems; Metal bells for alarms; Alarm control apparatus; Electric alarms for fire; Personal alarm apparatus; Personal security alarms; Electric alarms for smoke; Electronic burglar alarms; Electric locks with alarms; Alarm management apparatus; Alarm signalling apparatus; Alarm signalling receivers; Keypads for security alarms; Radios incorporating alarms; Alarm signalling transmitters; Water leakage detection alarms; Alarm management installations; Electric metal bells for alarms; Panels for fire alarm apparatus; Remotely controlled alarm locks; Electronic personal alarm devices; Radios incorporating alarm clocks; Alarm installations for buildings; Commercial alarm systems for shops; Control panels for security alarms; Anti-theft alarms not for vehicles; Telecommunications alarm apparatus; Personal alarms incorporating lights; Sound alarms, other than for vehicles; Commercial alarm systems for buildings; Alarm devices, other than for vehicles; Safety alarms, other than for vehicles; Audible alarms, other than for vehicles; Warning alarms, other than for vehicles; Electrical and electronic burglar alarms; Intruder alarms, other than for vehicles; Security alarms, other than for vehicles; Electronic alarms, other than for vehicles; Alarm instruments, other than for vehicles; Anti-theft alarms, other than for vehicles; Control centres being parts of alarm systems; Central alarm units, other than for vehicles; Cellular radio alarm communication apparatus; Entry alarm systems, other than for vehicles; Remote controls for operating vehicle alarms; Piezo alarm devices, other than for vehicles; Alarms for the detection of inflammable gases; Cellular radio alarm communication instruments; Precision sensors being parts of alarm systems; Reverse motion alarms, other than for vehicles; Security alarm systems, other than for vehicles; Personal protection devices [electronic alarms]; Electrical control panels for fire alarm systems; Burglar alarm apparatus, other than for vehicles; Vibrating alarms as reminders to take medication; Theft prevention alarms, other than for vehicles; Telephones incorporating radios and alarm clocks; Commercial alarm systems, other than for vehicles; Alarms for detecting the movement of human beings; Electrical control panels for smoke alarm systems; Remote alarms, other than anti-theft for vehicles; Tele-radio controls for electronic burglar alarms; Electrical control panels for burglar alarm systems; Anti-theft alarm apparatus, other than for vehicles; Fire alarms in the shape of Christmas tree ornaments; Electrically operated alarms, other than for vehicles; Anti-theft alarms adapted for use with video apparatus; Anti-theft alarm installations, other than for vehicles; Anti-theft electrical alarm systems, other than for vehicles; Magnetic sensors being

parts of intruder detection alarm systems; Alarm systems incorporating control and visual display apparatus; Dynamic filters for use in the control panels of fire alarm systems; Electric reversing alarms for self propelled machines, other than vehicles; Security helmets; Handheld security wands; Data security apparatus; Electronic security tags; Security passes, encoded; Data security instruments; Security passes, magnetic; Security control apparatus; Security warning apparatus; Automatic security barriers; Security control instruments; Security surveillance robots; Paper security tapes, encoded; Security systems for buildings; Security systems for elevators; Telephone security instruments; Paper security tapes, magnetic; Holographic security apparatus; Plastic security tapes, encoded; Security surveillance apparatus; Video camera security apparatus; Security apparatus for computers; Security apparatus for elevators; Plastic security tapes, magnetic; Adhesive security tapes, encoded; Transmitters for use in security; Adhesive security tapes, magnetic; Video camera security instruments; Motion sensors for security lights; Electric access security apparatus; Automatic access security apparatus; Video camera security installations; Security tokens [encryption devices]; Apparatus for use in security control; Security devices for computer hardware; Security devices for computer software; Downloadable computer security software; Coin-operated access security apparatus; Telecommunications security instruments; Photocells for use with security lighting; Security devices for windows of buildings; Electric security apparatus for buildings; Security systems, other than for vehicles; Mirrors used for security and surveillance; Value cards for security purposes, encoded; Value cards for security purposes, magnetic; Video cameras adapted for security purposes; Closed circuit television security apparatus; Heat sensitive cameras for security purposes; Heat sensitive devices for security purposes; Security apparatus for storing audio signals; Security apparatus for storing video signals; Electronic tags for security control purposes; Electric controlled access security apparatus; Security apparatus for receiving audio signals; Security apparatus for receiving video signals; Encoded cards for operating security apparatus; Electronic security apparatus for use in homes; Electronic controlled access security apparatus; Security installations, other than for vehicles; Security apparatus for processing audio signals; Electronic security apparatus for use in offices; Electronic components for security installations; Security apparatus for transmitting audio signals; Security apparatus for transmitting video signals; Electronic security devices, other than for vehicles; Electrical security devices, other than for vehicles; Electric security locking devices for armoured doors; Door security devices of metal for buildings, optical; Software for ensuring the security of electronic mail; Door security devices of metal for buildings, electric; Electronic security equipment, other than for vehicles; Electronic security installations for use in buildings; Electrical security apparatus, other than for vehicles; Electronic security apparatus, other than for vehicles; Electric security locking devices for the doors of safes; Installations, electric or electronic, for use in security; Security apparatus incorporating lights for use in buildings; Security apparatus for processing video and/or audio signals; Cards encoded with security features for authentication purposes; Cards encoded with security features for identification purposes; Controlled access security apparatus [closed circuit television]; Electrical devices for security purposes, other than for vehicles; Electrically operated security apparatus, other than for vehicles; Security devices for doors of buildings [electric locking devices]; Electrical apparatus for security purposes, other than for vehicles; Security devices for windows of buildings [electric locking devices]; Labels, magnetic or encoded, for use in marking products for security; Domestic security installations for buildings, electric or electronic; Electric security apparatus for the prevention of theft from buildings; Interactive computers for use in certifying airport security personnel; Metal security [anti-theft] devices

[electric, other than for vehicles]; Electric security apparatus for the detection of intruders in buildings; Electric security monitoring apparatus incorporating fibre optic cables; Security apparatus incorporating lights for use on the exterior of buildings; Earth satellites for use in the security surveillance of national spacecraft; Apparatus for scanning the retina for the security identification of persons; Encoded programs; Printer programs; Program cassettes; Database programs; Programs, recorded; Video game programs; Programming machines; Pre-programmed discs; Pre-programmed tapes; Programming apparatus; Programs for scanners; Informational programs; Programs for computers; Computer program tapes; Computer program discs; Computer game programs; Programs for calculators; Electronic game programs; Optical program carriers; Data processing programs; Program control apparatus; Operating system programs; Magnetic program carriers; Operating systems programs; Electric programming units; Recorded computer programs; Computer programming units; Computer software programs; Programs for microcomputers; Program discs for computers; Computer programs, recorded; Computer operating programs; Video game computer programs; Programs for data-processing; Programs for word-processing; Programmed control apparatus; Electronic programming units; Encoded computation programs; Monitors [computer programs]; Program discs for video games; Downloadable computer programs; Computer aided design programs; Apparatus for programming data; Apparatus for storing programs; Computer programs for printers; Computer programs for printing; Computer programs for scanners; Encoded programs for computers; Interactive video game programs; Recorded programs for computers; Programs for personal computers; Recorded computer game programs; Automatic programming apparatus; Discs bearing computer programs; Computer programs for office use; Programs recorded on paper tapes; Programs for computers, recorded; Video and computer game programs; Programmed electronic components; Program cartridges for computers; Computer programs for translating; Computer programs for video games; Computer programs stored on discs; Computer programs for calculators; Computer programs for tape drives; Information distribution programs; Programmed video games [software]; Network operating system programs; Interactive computer game programs; Machine readable computer programs; Magnetic program storage apparatus; Programs for use in communications; Programs recorded on data carriers; Computer programs relating to food; Computer programs recorded on disc; Programs recorded on magnetic cards; Programs recorded on magnetic tapes; Computer operating systems programs; Computer programs for playing games; Computer programs recorded on cards; Computer programs recorded on drums; Computer programs recorded on tapes; Downloadable computer game programs; Control programs for data terminals; Recorded computer operating programs; Programs for use with computer games; Programs bearing encoded information; Computer programs for sales purposes; Computer programs for computer games; Data carriers incorporating programs; Computer programs for use in farming; Programs for computer generated music; Programs for use with data processors; Program cartridges for computer games; Industrial computer software programs; Downloadable electronic game programs; Computer operating programs, recorded; Computer programs for data processing; Computer programs for laser machining; Computer programs for text processing; Computer programs for processing data; Computer programs for image processing; Computer programs for medical purposes; Downloadable computer utility programs; Computer programs for use in insurance; Computer programs for use by air lines; Computer programs recorded on carriers; Programs recorded on card data carriers; Storage apparatus for computer programs; Magnetically recorded computer programs; Computer programs recorded on filaments; Computer

programs for managing seminars; Computer programs for measuring colours; Computer programs for comparing colours; Computer programs for detecting colours; Computer programs for planning seminars; Computer programs for pre-recorded games; Computer programs for project management; Computer programs for studying languages; Computer programs for network management; Computer programs for orchestral staging; Computer programs stored in digital form; Paper program carriers, machine readable; Magnetic cards bearing computer programs; Interactive multimedia computer programs; Video games programs [computer software]; Video game programs for use in computers; Programs for electronic image processing; Programs recorded on paper data carriers; Computer programs [downloadable software]; Computer programs for document management; Computer programs for financial reporting; Computer programs for graphic elaborators; Computer programs for positioning of text; Computer programs stored on data carriers; Computer programs recorded on paper tapes; Programs for processing data on computers; Programs for computer print out apparatus; Encoded programs for processing apparatus; Computer programs for promotional purposes; Computer programs for planning conferences; Computer programs for planning exhibitions; Computer programs for financial management; Computer programs for managing conferences; Computer programs for managing exhibitions; Computer programs recorded on floppy discs; Computer programs in machine readable form; Data carriers containing computer programs; Video game programs for use with computers; Programs recorded on optical data carriers; Electronic memories being computer programs; Video game liquid program memory cartridges; Programs recorded on magnetic data carriers; Computer programs used in molecular biology; Data stored for access by computer programs; Computer programs for user interface design; Computer programs for use by tour operators; Computer programs for use in communications; Computer programs recorded on magnetic tape; Computer programs recorded on magnetic wire; Computer programs recorded on data carriers; Computer programs for the creation of masks; Programming apparatus for use with computers; Electronic materials being computer programs; Game programs for arcade video game machines; Materials bearing recorded computer programs; Programs recorded on cardboard data carriers; Computer programs for processing information; Computer programs recorded on magnetic media; Computer programs for use by travel agencies; Computer programs for the management of sales; Computer programs for commercial transactions; Discs containing programs for data processing; Computer programs relating to word processing; Data carriers incorporating computer programs; Computer utility programs for file management; Pre-programmed read only memory compact discs; Encoded programs for weapon systems computers; Interactive multimedia computer game programs; Instructional materials for computer programs; Data carriers equipped with governing programs; Computer utility programs for data compression; Connection graphics language computer programs; Computer programs for video and computer games; Computer programs for use in molecular biology; Computer programs stored on magnetic materials; Computer programs for the creation of networks; Computer programs for scientific data analysis; Encoded programs for data processing apparatus; Program carriers in the form of magnetic discs; Program carriers in the form of magnetic wires; Programmed controls for flame cutting machines; Program libraries for traction control systems; Recorded computer programs in the form of cards; Recorded computer programs in the form of disks; Recorded computer programs in the form of tapes; Recorded computer programs in the form of wires; Video game programs for coin-operated apparatus; Electric devices for programming machine cycles; Magnetic tapes for memorising software programs;

Computer programs for testing computer hardware; Computer programs for designing control systems; Computer programs relating to computer networks; Computer programs relating to financial matters; Computer programs relating to motorcycle racing; Computer programs for use in fitting spectacles; Computer programs for use in telecommunications; Data carriers incorporating regulating programs; Data carriers bearing machine readable programs; Data carriers provided with regulating programs; Programs for data processing apparatus, recorded; Programs for the recording of images in printing; Electronic memories comprising computer programs; Data processing programs stored on data carriers; Data carriers provided with controlling programs; Data carriers incorporating controlling programs; Data carriers equipped with controlling programs; Computer programs for use in fluid flow analysis; Computer programs for use in database management; Computer programs for use in desk top publishing; Computer programs relating to housing management; Training guides in the form of a computer program; Storage file units for computer program recording; Computer programs relating to local area networks; Computer programs in the field of design analysis; Computer programs for use by travel organisations; Computer programs for analysing computer hardware; Computer programs for electronic image processing; Computer programs for management of manufacturing; Computer programs for producing computer graphics; Training manuals in the form of a computer program; Recorded computer programs for scientific research; Program memory cartridges for television game sets; Magnetic tape drives for storing computer programs; Computer programs for electronic design automation; Computer programs for use as reporting directories; Computer programs for use as searching directories; Computer programs for the petrochemical industries; Computer programs for use in computer-aided design; Computer programs for use with facsimile apparatus; Computer programs stored on magnetic data carriers; Computer utility programs for computer maintenance; Computer software programs for database management; Data storage media for recording computer programs; Data processing programs recorded on data carriers; Computer programs relating to computer aided design; Magnetic cards for the storage of computer programs; Materials bearing computer programs in encoded form; Electronic memories incorporating computer programs; Programs recorded on machine readable data carriers; Materials bearing computer programs in magnetic form; Carriers in the form of tapes provided with programs; Computer games programs recorded on tapes [software]; Computer programs for integrated circuit diagnostics; Computer programs for processing digital music files; Computer programs recorded on data storage materials; Computer programs recorded on magnetic data carriers; Data storage devices for recording computer programs; Computer software programs for spreadsheet management; Computer programs in the field of molecular modelling; Computer programs in the field of communication links; Computer programs for editing images, sound and video; Machine-readable data carriers recorded with programs; Machine readable data carriers incorporating programs; Technical literature in the form of computer programs; Magnetic carriers for the storage of computer programs; Programs for the design of control information systems; Programs for recording data in reproduction technology; Computer programs for designing printed circuit boards; Computer programs for accessing and using the internet; Computer programs for the creation of elementary cells; Apparatus for programming electronic control apparatus; Computer programs recorded in computer accessible form; Recorded computer programs in the form of punched cards; Memory cartridges on which computer programs are stored; Optical discs bearing machine readable computer program; Integrated circuit cards storing computer game programs; Computer programs relating to the training of personnel; Computer programs for use in

computer aided engineering; Computer programs for use in defining machineable parts; Tapes bearing computer programs in machine readable form; Programs for data processing apparatus recorded on cards; Programs for data processing apparatus recorded on disks; Programs for data processing apparatus recorded on tapes; Paper strips bearing punched [encoded] computer programs; Machine readable materials for bearing computer programs; Computer programs for use in developing computer programs; Computer programs for use in computer-aided manufacturing; Computer programs for use with structured system analysis; Apparatus for programming machine tools for the machining; Computer programs for enabling access or entrance control; Program carriers for electronic data processing apparatus; Programmed video games contained on cartridges [software]; Programs for setting up performance analysis in computers; Programs for the processing of information on calculators; Plugs for connecting hearing aids to programming apparatus; Electronic components for the storage of computer programs; Computer programs and recorded software distributed online; Utility programs for performing computer system diagnostics; Indicators showing programming of electronic switching gear; Optical discs for bearing machine readable computer program; Cartridges of magnetic tape for recording computer programs; Computer programs for establishing pump operating schedules; Computer programs used for electronic cash register systems; Computer software for use in programming facsimile machines; Computer programs relating to the creation of graphic images; Computer programs for the rating of plate fin heat exchangers; Computer programs for dynamic simulation of oil well drilling; Computer programs for monitoring computer systems performance; Computer programs for the design of plate fin heat exchangers; Computer programs for using the internet and the worldwide web; Computer games programs downloaded via the internet [software]; Solid-state electrical apparatus for storing computer programs; Computer programs for automating molecular biological processes; Computer programs recorded on diskettes for producing lettering; Computer programs relating to the manipulation of graphic images; Computer programs for the enabling of access or entrance control; Computer programs for the evaluation of thermal radiation levels; Computer programs for the analysis of data processing efficiency; Computer programs for the analysis of data processing procedures; Computer programs for the control of telecommunication apparatus; Computer programs for providing a graphical presentation of data; Recording materials for the storage of digital computer programs; Programming instructions for data processing apparatus, recorded; Electronic data carriers with computer programs [machine script]; Computer programs for the analysis of data processing performance; Computer programs relating to the creation of photographic images; Computer programs in machine readable form recorded on paper tape; Network software applications being downloadable computer programs; Recorded programs for hand-held games with liquid crystal displays; Timers for switching on electrical devices at pre-programmed times; Computer programs for the control of telecommunication instruments; Computer programs for simulating the trading in futures and options; Computer programs for the management of the manufacturing processes; Data processing programs recorded on machine-readable data carriers; Data carriers recorded with programs to enable data to be displayed; Encoded programs for processors for use in the manufacture of goods; USB web keys for automatically launching pre-programmed website URLs; Data carriers incorporating computer programs written in machine code; Computer utility programs [program performs computer maintenance work]; Machine readable computer programs for use in the reproduction

of music; Computer programs in machine readable form recorded on electronic media.

Collective and Certification Marks Published For Opposition Purposes

Registration has been accepted in respect of the following Collective and Certification Marks filed under the provisions of the Trade Marks Act (Cap. 332, 1992 Ed.), Trade Marks Act (Cap. 332, 2005 Ed.) and the Madrid Protocol.

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.
