REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Internal combustion engines and parts thereof (excluding those for land vehicles); compressors; internal combustion engines intended for testing with or without an exhaust gas turbocharger, with exhaust gas recirculation and with storage of combustion gases.

Class 09

Actuators, probes, apparatus, devices and installations, all these products being for measuring, checking and monitoring in research; piezoelectric crystals, devices for creating and processing piezoelectric crystals, extensometers, piezoelectric and electroacoustic components, piezoelectric resonators, pressure sensors, high-pressure sensors, static and dynamic calibration installations for high-pressure sensors, acceleration sensors, measuring installations for determining the reaction of piezoelectric pressure sensors in the field of resonance, force transducers, displacement sensors, optical probes, capacitive and inductive measuring transformers; microwave probes; measuring apparatus and probes for biotechnology and environmental protection, apparatus for the analysis of environmental samples and microcomputers, and microprocessors for such apparatus; ion-selective probes based on opto-fluorescent measurement principles, fluorescence photometers and installations for spectroscopic analyses; measuring apparatus and probes for the monitoring of installations for water clarification and protection; devices for determining the concentration of a material contained in a substance; luminescence indicators, electrooptical measuring installations, electrochemical electrodes, microelectrodes, microoptical and micro-electrochemical probes with electronic evaluation, scientific measuring apparatus, measuring apparatus, measuring installations and evaluation installations for such apparatus and installations, gauges, precision measuring apparatus for determining internal diameters of pipes, measuring machines, verifiers, checking apparatus, testing machines, apparatus for weighing, signaling and monitoring, flow meters, thermometers, instruments for measuring the noise of a body and noise transmitted by air, flow regulators, manometric pressure regulators, electronic apparatus for measuring liquid levels, instruments for measuring pressure waves in liquids, installations for measuring torsion vibrations, capacitive apparatus for measuring the distance from the upper dead center of piston machines, instruments for measuring the structure of lost gas, densitometers, angle sensors, photoelectric bars, microwave interferometers, speed indicators, apparatus for measuring the number of shots in an unit of time; calibration devices for probes and measuring apparatus, electric charge amplifiers, optical laser instruments for analysis of gas and liquid flow phenomena; diagnostic installations for internal combustion engines operated by their own force or by an external force, installations for monitoring the operating state of internal combustion engines, measuring installations for the thermodynamic evaluation of internal combustion engines; brake

dynamometers for inspection or test benches, installations for controlling internal combustion engines, fully automatic or semi-automatic inspection or test benches for motors and inspection or test benches for aggregates and components thereof, inspection or test benches for examining aircraft components; ballistic data recorders, installations for processing ballistic data, fire-control installations, installations for powder analysis, instruments for ballistic measurement, internal ballistic installations for munitions control; computers and control programs for the operation and testing of internal combustion engines and for the analysis of exhaust gas emissions, the origin and the reduction thereof, and for the stresses, extensions, vibrations, origin, transmission and radiation of noise; computer programs for flow and combustion processes in engines and for mixture stratification and formation processes; computer programs for the simulation of thermodynamic processes, computer programs for the simulation of current, the development of pressure and temperature; computer programs for the simulation of temperature in the field of solids, particularly in components of internal combustion engines and mixtures thereof; computer programs for the simulation of operation and combustion processes, computer programs for flow and combustion processes in engines and for mixture formation, loading or stratification processes; computer programs for the external solenation of moving parts and bodies, particularly apparatus for locomotion by land, air or water; computer programs relating to currents in spaces, particularly for air conditioning technology; computer programs for analysis of exhaust gas emissions, the origin and the reduction thereof; measuring heads and measuring apparatus for biotechnology, beverage technology, foodstuffs and the environment, parts thereof, and micro-computers and microprocessors for such apparatus; detectors and measuring heads for measuring partial oxygen pressure, that of carbon dioxide, hydrogen ion concentration, electrolyte concentration, the level of metabolites and substrates in bioreactors, fermenters and apparatus relating to foodstuff and beverage technology; fiber optic instruments and detectors for simultaneously measuring various parameters, for example partial oxygen pressure, that of carbon dioxide, hydrogen ion concentration, electrolyte concentration; biodectors and ion detectors switches based on principles of optical measuring by luminescence, luminescence photometers, detectors and instruments for trace analysis in the foodstuff and beverage industry; optical detectors, reference voltage electrodes, capillary electrodes, checking apparatus for electrodes; test benches, checking and test devices for medical biotechnological apparatus and for apparatus relating to beverage and foodstuff technology; microcomputers and microprocessors for medical use.

Class 12

Internal combustion engines for land vehicles.

Class 37

Maintenance of internal combustion engines and of vehicles, maintenance of electronic apparatus for measuring, testing and monitoring, and maintenance of electronic installations for measuring, testing and monitoring; maintenance of medical and biotechnological devices and apparatus and of apparatus relating to beverage and foodstuff technology.

Class 41

Training courses for further training of guest engineers and personnel in the field of engine construction, research and development of engines and in the field of measuring technology, all these services also being provided by means of cinema and video film screening.

Class 42

Research in the fields of engine construction and measuring technology, engineering, expert work and appraisals; development, project studies, calculations on internal combustion engines, test engines and parts thereof, computer calculations, development of machines and equipment, dynamic inspection or test benches, inspection or test benches for simulation, inspection or test benches with refrigerating installations, inspection benches for the manufacture of test devices, measuring apparatus and test installations for engines, for driven machines and for ballistics; component development for internal combustion engines and other categories of machines, calculation and development of low exhaust gas processes, calculation and development of auxiliary engines; development of engine equipment; development of vehicles; calculation and development of fuel systems for engines, for liquid, solid and gaseous fuels and for injection engines, for used fuels and for substitute fuels; calculations and analyses of the effect of fuels and lubricating oils on exhaust gas emissions and on abrasion and erosion of engine parts and resulting particle emissions; calculations, analyses and assessments of oil consumption based on parts of metal within particle emissions; transient technical measurement of exhaust gas emissions, chemical and spectroscopic analysis of exhaust gases and particle emissions; analysis of overall behavior, of noise development and sound insulation; development and calculations for noise reduction in engines and cogs, and for entire installations; analysis and advice relating to internal combustion engines and installations operated by internal combustion engines, and for cogs; preparation of macroprograms for automated construction and automated manufacturing, and for computer programs for application in data centers; development of computer and management programs for the control and testing of internal combustion engines and for the analysis of exhaust gas emissions, the origin and the reduction thereof, and for the stresses, rotations, vibrations, origin, transmission and radiation of noise; development of computer programs for flow and combustion processes in engines and for mixture formation and stratification processes; development of computer programs for the simulation of thermodynamic processes; development of computer programs for the simulation of flow, temperature and pressure processes; development of computer programs for the simulation of temperature distribution in solid bodies, particularly in components of internal combustion machines and aggregates thereof, development of computer programs for the simulation of explosion and combustion processes; development of computer programs for combustion processes and combustion processes in engines and for mixture formation, loading and/or stratification processes; development of computer programs for the external solenation of moving parts and bodies, particularly apparatus for locomotion by land, air or water; development of computer programs in connection with currents in spaces, particularly for air conditioning technology; development of computer programs for analysis of exhaust gas emissions, the origin and the reduction thereof; rental of data processing installations, and of computer programs, simulation programs, control programs and macroprograms for development and research, for construction and manufacturing by means of computing, for applications in data centers and for the operation and testing of internal combustion engines; research and development of equipment, apparatus, measuring probes, measuring apparatus, development of test benches, inspection and test devices; development of computer and control programs, performing analysis and consultancy, all these services being in the field of biotechnology, medicine, foodstuff and beverage technology and in the field of environmental protection; rental of apparatus for environmental protection.
