REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Registration of this mark shall give no right to the exclusive use, separately of the words "Artisanal Wine Coolers" and "Pink Grapefruit".

The following claim is made in the International Registration: Colour(s) claimed: The color(s) pink, white, orange, black, and gray is/are claimed as a feature of the mark. The mark consists of the stylized wording "RAMONA ARTISANAL WINE COOLERS PINK GRAPEFRUIT" and a photograph of a woman wearing sunglasses and holding a slice of grapefruit in her mouth all inside a circle with bars radiating out from the circle creating the appearance of a sunburst. The word "RAMONA" appears in black inside a pink banner with a white outline. The banner is vertically oriented with the letters in "RAMONA" rotated clockwise 45 degrees down the banner. The bottom of the banner connects to a black circle with a white outline. Inside the circle, appears a black and white photograph of a light haired woman wearing patterned sunglasses and holding a slice of grapefruit in her mouth. The woman appears in shades of gray while the lenses of her sunglasses are black and the slice of grapefruit is orange. The wording "ARTISANAL WINE COOLERS" appears in white around the left side of the circle. The wording "PINK GRAPEFRUIT" appears in pink along the bottom of the circle. The banner and circle appear on a pink, orange, and white vertically oriented rectangular background. The bottom portion of the circle is superimposed on a pink horizontal bar. The top portion of the circle and banner appear superimposed on an orange and white background consisting of alternating rays of orange and white bars radiating out from the circle resembling a sunburst. Five orange rays and four white rays appear on either side of the banner.

Class 07

Machines for industrialization in the aeronautics and space fields, machines for production of composite or non-composite parts in the aeronautics and space fields, machine tools, machines for producing and repairing parts for use in aeronautical and space propulsion systems (turbojets, ramjets, pulse jets, rocket propulsion machines); motors and engines (other than for land vehicles) and particularly airplane engines, jet engines, turbojets, turboprop engines and thrusters for rockets and spacecraft, as well as parts and accessories thereof, included in this class; compressors (machines); lubrication systems for airplane engines and other thrusters (machines); assembly lines for aircraft engines and components thereof; industrial robots; all these goods used and/or intended for the aeronautical and space field.

Class 09

Scientific, optical, weighing, measuring and checking (supervision) apparatus and instruments; electrical and electronic apparatus and instruments, namely potential calculators, calculators for digital regulation of speed and fuel flow (FADEC / full authority digital engine controls), braking, temperature, pressure, vibration analysis and flight control calculators; electrical, electronic and magnetic sensors for pressure, speed, displacement, temperature, position, vibration; electronic cards for processing parameters; electronic systems and equipment, whether on board or not, for acquiring and processing data; calculation and operating software for simulation, running and storage of test programs; computer programs and software for exploitation of test benches and other measuring apparatus; monitoring systems comprised of computer hardware and software for evaluation of security and performance as well as of maintenance and servicing requirements for aircraft engines and/or their modules and parts; electrical and electronic devices and equipment for maintenance and monitoring (on board aircraft or engines, fixed on test benches or portable for ground interventions) for reading and interpreting data from computers and sensors; apparatus for recording, transmission, reproduction of sound, images and/or data; software, particularly computer programs and software providing information on aircraft engines, operation, maintenance, servicing and repair in relation to aircraft engines and/or their modules and parts; software for management of the operation and testing, repair, overhaul, servicing, maintenance and reconditioning operations conducted on an aircraft engine and/or on its modules and parts; magnetic, optical and digital recording media, CD-ROMs, DVDs; data banks, containing, in particular, information concerning aircraft engines, their operation, the repair, overhaul, servicing, maintenance and reconditioning of engines, modules and parts of aircraft engines; test benches; all these goods used and/or intended for the aeronautical and space field.

Class 37

Repair and maintenance of aeronautical and astronautical vehicles, space launchers, aircraft and their components, including propulsion systems for aeronautical vehicles, engines, thrusters, nacelles, thrust reversers,

transmission and propulsion couplings and units; installation, repair and maintenance of electrical and electronic apparatus, instruments, systems, equipment and material; construction, repair, installation services, mounting, assembly, maintenance, repair and servicing of engines and of complete propulsion systems and their sub-assemblies; on-site construction and installation of test benches for engines and complete propulsion systems and their sub-assemblies.

Class 42

Technical, scientific and industrial research; research and development (engineering) in the field of aeronautics and space; analysis of technical data; services provided by engineers relating to evaluations, estimates and research in connection with the technologies used in systems, equipment and parts for aeronautical and space vehicles; testing of machines and materials; design and development of software and computer programming; product analysis and preparation of technical reports by experts on equipment and aircraft parts; provision of online non-downloadable software for the acquisition and downloading aircraft flight data; technological analysis and expert evaluation of aircraft equipment and parts to assure compliance with industry standards; test bench services for engines and complete propulsion systems and their sub-assemblies; engineering services, namely, technical project studies; technical studies; technical, scientific and industrial research for test benches in the aeronautical and space field; programming for computers; computer software development and design in the aeronautical and space field; engineering work (surveying); engineering, research and development relating to aerodynamics, turbo-machines, high-temperature metallurgy, special industrial soldering processes, welding techniques, laser applications and data acquisition systems for test benches.
