REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 09

Computer hardware; Software for social networking and interacting with online communities; Computer software development tools; Software for use as an application programming interface (API); Application programming interface (API) for use in building software applications; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Software for creating, managing, and interacting with an online community; Software for organizing events, searching for events, calendaring and managing events; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Downloadable e-commerce computer software to allow users to perform electronic business transactions via a global computer and communication networks; Software for sending and receiving electronic messages, alerts, notifications and reminders; Search engine software; Magnetically encoded gift cards; Software for use in creating, managing, measuring, and disseminating advertising of others; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Virtual reality game software; Augmented reality game software; Mixed reality game software; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Computer peripheral devices; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to

provide virtual reality experiences; Electronic game software for wireless devices; Electronic game software for handheld electronic devices; Electronic game software; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Virtual reality software; Augmented reality software; Mixed reality software; Video game software; Interactive multimedia computer game programs; Downloadable electronic game programs; Computer game software; Headsets for use with computers; Laser equipment for non-medical purposes; Computer peripherals; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Software for converting natural language into machine-executable commands; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software; Personal assistant software; Social assistant software; Software development tools to enable mobile software applications to access backend services, namely, data storage, push notifications, and user management; Software for mapping services; Software for planning activities with other users and making recommendations; Software for social and destination mapping; Software for making reservations and bookings; Software for ordering and/or purchasing goods and services; Location-aware software for searching, determining and sharing locations; Software for wireless content, data and information delivery; Software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Software, namely, an application providing social networking functionalities; Software for creating, managing and accessing groups within virtual communities; Software for location-based searching and alerts; Software for searching and identifying employment opportunities; Software for identifying and allowing users to contact government representatives; Software providing a virtual marketplace; Software providing location-based weather information; Software providing, linking to, or streaming news or current events information; Parental control software; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Software in the nature of a mobile application for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Application programming interface (API) software for allowing data retrieval, upload, access and management; Software for viewing and interacting with a feed of images, audio-visual and video content, and associated text and data; Downloadable computer software for finding content and content publishers, and for subscribing to content; Software for organizing images, video, and audio-visual content using metadata tags; Software for creating and managing social media profiles and user accounts; Software for uploading, downloading, streaming, archiving, transmitting, and sharing images, audio-visual and video content and associated text and data; Interactive photo and video equipment in the form of kiosks for capturing, uploading, editing, printing and sharing digital images and video; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software for advertisers to communicate and interact with online communities; Software for streaming multimedia entertainment content; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Software for organizing events; Computer software, downloadable

computer software and mobile application software for use in taking and editing photographs and recording and editing videos; Virtual reality computer hardware; Virtual reality game computer hardware; Virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; Computer game software for home video game consoles; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Headsets for use with video game consoles; Computer software; Augmented reality computer hardware; Virtual reality headsets; Augmented reality headsets; Virtual reality glasses; Augmented reality glasses; Virtual reality software for navigating a virtual reality environment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; Headsets for virtual reality games; Headsets for augmented reality games; Handheld virtual reality controllers; Handheld augmented reality controllers; Video and computer game programs; Interactive entertainment software; Gesture recognition software; Motion tracking sensors for virtual reality technology; Motion tracking sensors for augmented reality technology; Computer software for controlling the operation of audio and video devices; Digital media streaming devices; Earphones; Headphones; Video display software; Video display hardware, namely, video drivers for video eyewear; Software for navigating a virtual reality environment; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Virtual reality software for object tracking, motion control and content visualization; Augmented reality software for object tracking, motion control and content visualization; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Virtual reality software for operating virtual reality headsets; Augmented reality software for operating augmented reality headsets; Virtual reality software for interactive entertainment; Headsets; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Goggles for enabling virtual reality, augmented reality world experiences; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Software and firmware for operating system programs; Computer operating systems; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Computer hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Computer hardware and software for detecting objects, user gestures and commands; Software and firmware for controlling, configuring and managing controllers; Software and firmware for enabling electronic devices to share data and communicate with each other; Computer operating system software; Software driver programs for electronic devices for enabling computer hardware and electronic devices

to communicate with each other; Cameras; Batteries; Battery chargers; Battery cases; Battery packs; Power charging and power management devices for mobile electronic devices; Charging docks; Charging stands for mobile electronic devices; Base chargers for mobile electronic devices; Portable power supplies; External chargers; Wireless charging cases; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Rechargeable external battery packs for use with mobile electronic devices; Chargers for batteries; Power adapters; Electrical adapters; Electrical and electronic connectors; Power adapters; Bags and cases specially adapted for mobile electronic devices; Briefcases, backpacks and carrying cases for mobile electronic devices; Cases for mobile electronic devices; Protective covers and cases for mobile electronic devices; Protective sleeves for mobile electronic devices; Holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Electrical audio and speaker cables and connectors; Audio speakers; Docking stations for mobile electronic devices; Loudspeakers; Electronic cables parts and fittings; Electric cables; Connection cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Wireless computer peripherals; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; Software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; Software in the nature of a mobile application; SIM cards; Software for processing images, graphics, audio, video, and text; Software, namely, instant messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; Software for personal information management, and data synchronization software; Software for managing social networking content, interacting with a virtual community, and transmission of images, audio, audio-visual and video content, photographs, videos, data, text, messages, comments, advertisements, media advertising communications and information; Software for displaying and sharing a user's location and finding, locating, and interacting with other users and places; Software for use in customer relationship management (CRM); Software for providing consumer information; Messaging software; Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and apparatus for computer network for collection, transmission and management of data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Software development kit

("SDK"), consisting of computer software development tools, to write application programs for the block chain.

Class 35

Marketing, advertising and promotion services; Provision of market research and information services; Promoting the goods and services of others via computer and communication networks; Business and advertising services, namely, media planning and media buying for others; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Consulting services in the fields of advertising and marketing; Business intermediary services in facilitating the exchange and sale of services and products of third parties via computer and communication networks; Online retail store services featuring a wide variety of consumer goods of others, gift cards, and delivery of digital media, virtual reality headsets, and virtual reality content and data; Providing online marketplaces for sellers of goods and/or services; Business networking; Employment and recruiting services; Advertising and information distribution services, namely, providing classified advertising space via the global computer network; Charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Providing business competitions and incentive award programs designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Association services, namely, promoting the interests of professionals and businesses in the field of mobile software application development; Online advertising and promoting the goods and services of others via the internet; Marketing and advertising consultation services; Market research services; Advertising, marketing and promoting the goods and services of others by means of providing photo and video equipment at special events; Arranging and conducting special events for commercial, promotional or advertising purposes; Advertising via electronic media; Organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; Organizing and conducting events, exhibitions and expositions for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; Online retail store services featuring virtual reality and augmented reality headsets, games, content and digital media; Providing telephone directory information via global communications networks; The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by means of online facilities; Customer relationship management; Business assistance and consulting services; Advertising services; Dissemination of advertising for others via a global computer network; Advertising services, namely, advertising campaign management, targeting, implementation and optimization services; Marketing research, namely, advertising campaign and consumer preferences research and analysis; Promoting the goods and services of others by means of distributing video advertising on the internet; Advertising services, namely, scheduling, tracking, and reporting advertising for others; Preparation and implementation of media and advertising plans and concepts; Ad serving, namely, placing advertisements on websites for others; Advertising services, namely, targeting and optimization of online advertising; Business information management, namely, reporting of business information and business analytics in the

fields of advertising and marketing; Business management; Business administration, office functions; Business consultation regarding marketing activities; Media planning and media buying services; Brand consulting; Design of advertising materials for others; Providing online business directories featuring restaurants, bars, movie theaters, dance clubs, museums, art galleries, and other cultural and social spaces; Promoting the public interest and awareness of issues involving access to the internet for the global population; Business consultation in the field of telecommunications; Business management consulting services to enable business entities, non-governmental organizations and non-profit organizations to develop, organize, and administer programs to offer greater access to global communications networks; Organising of incentive schemes designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; Organising of incentive schemes for software developers; Organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; Providing concierge services for others, namely, providing consumer information in the form of recommendation relating to goods and services.

Class 36

Financial transaction processing services, namely, providing secure commercial transactions and payment options; Electronic payment services facilitated by electronic processing and transmission of bill payment data for users of the internet and communication networks; Electronic funds transfer services; Credit card, debit card, and gift card transaction processing services; Merchant services, namely, payment transaction processing services; Providing electronic mobile payment services for others; Financial services; Payment processing services; Financial transaction services; Facilitating and arranging for the financing and distribution of fundraising and donations; Online charitable fundraising services and financial donation services; Pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; Financial sponsorship of contest and incentive award programs for software developers.

Class 38

Photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; Telecommunications; Providing access to computer, electronic and online databases; Telecommunications services, namely, electronic transmission of electronic media, data, messages, graphics, images, audio, video and information; Providing online forums for communication on topics of general interest; Providing online communications links which transfer mobile device and internet users to other local and global online locations; Facilitating access to third party websites or to other electronic third party content via a universal login; Providing online chat rooms, instant messaging services, and electronic bulletin boards; Audio, text and video broadcasting services over the internet or other communications networks; Voice over internet protocol (VOIP) services; Telephony communication services; Providing access to computer databases in the fields of social networking and social introduction and dating; Peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo files, graphics and audio content among internet users; Telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Chatroom services for social networking; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the

internet; Telecommunications services, namely, electronic transmission of virtual reality content and data; Providing electronic bulletin boards for transmission of messages among users in the field of general interest; Video conferencing services; Providing technical support services regarding the usage of communications equipment; Providing facilities and equipment for video conferencing; Teleconferencing; Providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Telecommunication services, namely, data transmission and reception services via telecommunication networks; Mobile phone communication services; Web messaging; Video teleconferencing; Instant messaging services; Electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunications networks; Encrypted electronic transmission and delivery of recovered data; Provision of access to telecommunication networks and the internet; Providing access to the Internet and other communications networks; Information about telecommunication; Consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks; Providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; Encrypted electronic transmission and delivery of recovered data.

Class 41

Entertainment services; Providing entertainment via photosharing and video sharing; Electronic publishing services for others; Entertainment services, namely, facilitating interactive and multiplayer and single player game services for games played via the internet or communication networks; Providing information about online computer games and video games via computer or communication networks; Arranging and conducting competitions and facilitating entertainment events for video gamers and computer game players; Providing online educational resources for software developers; Arranging of contest designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; Arranging of contest for software developers; Publication of educational materials, namely, publishing of books, journals, newsletters, and electronic publications; Educational services, in particular, organizing and conducting conferences, courses, seminars, and online training in the fields of advertising, marketing, social networking, the internet, and social media, and distribution of course material in connection therewith; Providing publications in the nature of online journals, namely, weblogs (blogs) featuring user-defined content; Entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content; Entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content; Entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content; Providing a computer game for use network-wide by network users; Providing online virtual reality games; Providing online augmented reality games; Providing online mixed reality games; Entertainment services, namely, providing online video games; Organizing exhibitions in the field of interactive entertainment, virtual reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Arranging and conducting educational conferences; Organizing exhibitions and events in the field of software development for educational purposes; Educational services, namely, organizing and conducting conferences and seminars in the fields of

artificial intelligence and the internet of things; Training in the field of design, advertising and communication technologies; Training in the field of strategic media planning relating to advertising, marketing and business; Providing publications in the nature of online journals, namely, blogs featuring advertising, marketing and business; Providing entertainment via computer, electronic and online databases; Publishing services, namely, publishing of electronic publications for others; Rental of photography and/or videography kiosks for capturing, uploading, editing and sharing of pictures and videos; Entertainment services, namely, providing streamed entertainment content and live video of entertainment events via online platform; Organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; Providing online games; Entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content and experiences; Entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content and experiences; Entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content and experiences; Entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, consumer electronics, and video game entertainment software and hardware; Organizing exhibitions and events for cultural, educational, or entertainment purposes; Virtual reality arcade services; Augmented reality arcade services; Virtual reality game services provided online from a computer network; Augmented reality game services provided online from a computer network; Providing online computer games and interactive games; Augmented reality video production; Virtual reality video production; Entertainment services, namely, providing interactive games; Multimedia production services; Entertainment services in the nature of development, creation, production and postproduction services of multimedia entertainment content; Entertainment services, namely, providing augmented reality games and interactive entertainment content; Entertainment services provided via online virtual reality environments; Entertainment services provided via online augmented reality environments; Providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; Providing information about online computer games and video games via computer or communication networks; Organizing exhibitions in the field of interactive entertainment, virtual reality, consumer electronics and video game entertainment industries for cultural or educational purposes; arranging and conducting educational conferences organizing exhibitions and events in the field of software development for educational purposes; Providing non-downloadable publications about virtual reality technology via a website; Providing non-downloadable publications about augmented reality technology via a website; Education; Providing of training; Sporting and cultural activities; Entertainment and educational services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; Providing educational, recreational and amusement materials for use in the field of entertainment and in the fields of secondary, collegiate, social and community interest groups via computer, electronic and online databases; organizing and conducting conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; Educational services, namely, organizing and

conducting conferences and seminars in the fields of artificial intelligence and the internet of things.

Class 42

Design and development of computer hardware and software; Computer services, namely, providing an online platform for creating virtual communities for registered users to organize groups, meetings, and events, participate in discussions and engage in social, business and community networking; Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services in the nature of providing webpages and software applications with customized electronic personal and group profiles featuring user-defined or specified information, including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; Providing software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Application service provider (ASP) services, namely, hosting software applications of others; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; Providing an online platform that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing searchable databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; Providing non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; Computer services, namely, application service provider featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; Providing software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Application service provider featuring application programming interface (API) software for managing, tracking, reporting and measuring media planning, media buying and advertising of others; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software for use in designing and managing online advertising and marketing campaigns; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Development of hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive

multimedia game development services; Providing online sites that gives users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online sites that gives users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online sites that gives users the ability to upload, modify and share mixed reality content, information, experiences and data; Design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; Technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; Providing software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform business and ecommerce transactions; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Platform as a service (PAAS) featuring computer software platforms for electronic messaging and transmission of audio, video, photographic images, text, graphics and data; Providing software for electronic messaging; Mapping services; Providing software for mapping services; Application service provider (ASP) featuring software for mapping services; Providing software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Providing software for social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Providing software for making reservations and bookings; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Providing location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing software for searching and identifying employment opportunities; Providing software for identifying and allowing users to contact government representatives; Providing software for providing a virtual marketplace; Providing software for providing location-based weather information; Providing software for providing, linking to, or streaming news or current events information; Providing software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; Design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; Providing online

sites that gives users the ability to upload, modify and share virtual reality content and data; Providing online sites that gives users the ability to upload, modify and share augmented reality content and data; Providing online sites that gives users the ability to upload, modify and share mixed reality content and data; Online video ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online video advertising to purchase and sell video advertising inventory; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Application service provider (ASP) featuring software for use in buying, selling, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software for use in designing and managing online video advertising and marketing campaigns; Providing a website online facilities that give users the ability to engage in social networking and manage their social networking content; Providing software for creating and managing social media profiles and user accounts; Providing software for modifying photographs, images and audio, video, and audio-video content with photographic filters and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing software for finding content and content publishers, and for subscribing to content; Providing an online platform for organizing images, video, and audiovisual content using metadata tags; Computer services, namely, providing an online platform for creating a virtual community for registered users to share, view, subscribe to and interact with images, audio-visual and video content and related data and information; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Rental of software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Computer services, namely, programming for curating online user-defined content and advertisements and creating social media feeds; Providing software for taking photographs and recording audio, audio-visual and video content; Providing software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing software for streaming multimedia entertainment content; Providing software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing software for advertisers to communicate and interact with online communities; Providing personal assistant software; Providing social assistant software; Providing online facilities featuring temporary use of non-downloadable software for sending and receiving electronic messages, instant messages, electronic message alerts and reminders, photographs, images, graphics, data, audio, videos and audio-visual content via the internet and communication networks; Providing e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying,

editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Computer services, namely, providing information in the fields of technology and software development via the internet and communication networks; Providing software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Design and development of computer game hardware and software; Design and development of virtual reality hardware and software; Design and development of mixed reality hardware and software; Design and development of video game hardware and software; Providing temporary use of non-downloadable software applications for social networking, creating a virtual community, and transmission of virtual reality content and data; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; Computer programming services for creating virtual reality videos and games; Design and development of augmented reality hardware and software; Software development; Development of interactive multimedia software; Maintenance and repair of computer software; Providing temporary use of non-downloadable computer software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Computer services, namely, providing information in the fields of technology and software development via a global computer network; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer services, namely, cloud hosting provider services; Providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Computer services, namely, hosting electronic facilities for others for interactive discussions via communication networks; Providing online non-downloadable software; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider (ASP); Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Computer services, namely, providing an online platform for creating an online community for registered users to engage in social networking; Data encryption services; Providing software and applications for customer relationship management (CRM); Application service provider (ASP) featuring software for customer relationship management (CRM);

Providing online software platform services that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; Computer services, namely, application service provider featuring application programming interface (API) software for customer relationship management (CRM); Hosting of digital [virtual reality and augmented reality] content on the internet; Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing software as a service (SAAS) services that allows data queries to be accessed from multiple Blockchain or distributed ledger implementations, which queries are made against data services, referencing equities, interest rates, currency exchanges rates data and providing attestation of the query results by cryptographic signature; Providing online facilities for connecting sellers with buyers; Providing online computer databases and online searchable databases in the field of classifieds; Providing online facilities for live streaming video of promotional events; Providing online facilities featuring user comments concerning business organizations, service providers, and other resources; Design and development of video and computer game software; Providing online game software; Design and development of multimedia entertainment software.

Class 45

Social introduction and networking and dating services; Providing social networking, social introduction and dating services via computer databases and online searchable databases; Providing social networking information for people interested in personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities; Providing concierge services for others, namely, provision of personal electronic reminders; Online social networking services; Providing information in the form of databases featuring information in the fields of social networking and social introduction; User verification services; Identification verification services; Business identity verification services; Legal services.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

40201708210T (09 10 11)
(International Registration No. 1342601)

Date of International Registration: 11/08/2016

Date of Protection in Singapore: 11/08/2016

Date of Notification: 04/05/2017

The following claim is made in the International Registration: Colour(s) claimed: Blue and gray.

By consent of the registered proprietor of TM No. 40201503116X.

Class 09

Scientific apparatus and instruments and parts thereof made of quartz glass, namely bowls, glass tubes, vials, crucibles, Petri dishes, containers for physical and chemical analysis on materials, spot plates, multi-socket lids for reaction flasks, diffusion pipes, diffusion bell jars, boats for deposition processes (scientific glassware), catalyst carriers [parts of scientific instruments], for use in the chemical, electronics, semiconductor industries and for laboratories; quartz glass products for optical apparatus, namely optical lenses, prisms, substrate plates, filters, mirrors, photo-conductors and optical fibers made of quartz glass; ultrasonic and radiological apparatus and instruments, ultraviolet detection apparatus and instruments, infrared detection apparatus and instruments, and parts and accessories thereof, for the chemical, electronics, semiconductor industries and for laboratories.

Class 10

Apparatus and instruments for medical use, parts and accessories thereof, in particular lamps, lasers, optical radiators for medical use; reflectors and anti-glare devices as parts or accessories for lamps, lasers, optical radiators for medical use; ultraviolet and infrared quartz lamps for medical use; filters for ultraviolet rays for medical use; lamps for the treatment of skin diseases; ultraviolet disinfection lamps for use in medical environments and hospital rooms.

Class 11

Heating and lighting apparatus, parts and accessories thereof, in particular electric lamps, infrared radiators, UV radiators, furnaces; electric lamp reflectors; reflectors for laser light projectors; anti-glare devices as accessories for lamps; lamp casings made of quartz glass, in particular for ultraviolet radiators and infrared radiators; lamps for polymerization processes; lamps to test the behavior of materials and for industrial maintenance; lamps for the analysis and chromatography of short-wave and long-wave black light; bactericidal lamps for industrial use; quartz epiradiators (evaporators for scientific use); apparatus for ultraviolet photo-polymerization; black light apparatus; quartz distillers and evaporators.

Date of Protection in Singapore: 12/10/2016

Date of Notification: 22/06/2017

Class 07

Machine tools for the treatment of materials, production installations comprising linked machine tools for the treatment of materials, as well as their component parts and fittings; machine housings; crankcases for machines, motors and engines; metalworking machines; metalworking machine tools; machine tools for drilling; machines and machine tools for the treatment of materials and production of materials in strip form and/or in sheet form; numerically controlled machine tools; turret lathes [machine tools]; robots for machine tools; turrets with radially extending machine tools; machine tools for thread-cutting; machine tools for grinding; machine tools for cutting; numerically controlled machines [NC machines]; numerically controlled machining stations having an automatic tool changer; numerically controlled turning machines; numerically positioned universal milling machines; thread-cutting machines with numeric positioning; production plants consisting of interlinked machine tools and production plants for industrial purposes consisting of interlinked machines; radial feeding machines [machines]; machine stands; machine guides [machine parts]; tables for machines; spindle adapter flanges for machine tools; spindles for machine tools; spindle shafts [machine parts]; spindle shafts [parts of motors]; truing devices for blades [machine tools]; drive mechanisms for machine tools; drives for machines; electric drives for machines; electric drive motors for machines; gear units for machines; linear actuators [machine parts]; drills for machine tools; drill bits [machine tools]; milling machines [machine tools]; thread milling cutters [machine tools]; chisel heads [machine tools]; ring hole milling cutters [machine tools]; abrasive disks [machine tools]; cutting inserts for machine tools; cutting tools for machine tools; rock drills [machine tools]; gear cutters [machine tools]; hydraulically driven tools [machine tools]; mechanically actuated tools; modular tools for machines; pneumatic tools for machines; rotating tools [machines]; tools [machine parts]; milling tools [parts of machines]; precision turning tools [machine parts]; rotating metal cutting tools [machine parts]; rotating milling machines [machine parts]; guidance frameworks for machine tools; handles as parts of machine tools; ball races for machine tools; magnetic holders for machine tools; matrices for use with machine tools; pallet changing devices for machine tools; depalletisers [machines]; lathes [machine tools]; rotary tables for machine tools; electric drives for machine tools; clamping devices for use with machine tools; workpiece clamping devices for machine tools; workpieces clamping attachments [machines]; XY positioning tables [machines]; workpiece carriers [machines]; robots; tighteners [machines]; rotating indexing machines; workpiece locators [machine parts]; workpiece slide tables [machine parts]; slide rests [machine parts]; drums [parts of machines]; workpiece indexing devices [machine parts]; workpiece carriers [machine parts]; machine tool holders; mechanical system control elements for motors and machines; mechanical process controllers for machines and motors; mechanical process control instruments for machines and motors; hydraulic process control elements for machines and motors; hydraulic process controls for machines and motors; pneumatic process control elements for machines and motors; pneumatic process controls for machines and motors; control mechanism for machines, engines or motors; feeders for machines; lubricators [machine parts]; modular couplings for machine tools; multi-purpose spindle head for drilling [machine parts]; hydraulic door openers [machine parts]; hydraulic door closers [machine

parts]; pneumatic door openers and closers [machine parts]; parts of the previously mentioned goods; all above-mentioned goods not for use in the dental sector.

Class 09

Measuring and test equipment and instruments; electric control, measuring, recording and monitoring devices, in particular control, measuring, recording and monitoring devices for numerically controlled machine tools; measuring, identification and monitoring instruments, equipment as well as controllers; measuring apparatuses; measuring instruments; sensors for machine tools; sensors for use in the control of engines; numeric control devices; automatic control devices; electric controls; electric control devices; connection modules for electric controls; programmable controls; electronic control systems; temperature control devices [electric switches] for machines; temperature control devices [thermostats] for machines; temperature limiter for machines; temperature regulation devices for machines; machine monitors; material testing instruments and machines; electromotive testing equipment [monitoring or controlling]; electric testing instruments; testing equipment for electronic instruments; testing equipment for hydraulic systems; control apparatuses [electric]; electric measuring devices; electronic measuring devices; numerical position indicating apparatus; industrial process control software; software to be used in combination with the industrial manufacture and/or for production planning, in particular numeric control programmes and machine tool operating programmes; computer software for data processing; data processing programmes; data processing systems; data processing equipment; data processing devices; storage devices for data processing equipment; apparatuses and instrument to control electricity; numeric electromechanical, electric and electronic controls and/or data processing devices for machine tools and/or turning machines and/or for assemblies of machine tools.

Class 42

Technological studies relating to machine tools; engineering services relating to machine tools design; design of machines, devices, instruments [including their parts] or of plants consisting of such machines, devices and instruments; engineering services for the design of machines; development of computer programs [software] recorded on data carriers for the use in the construction and automated CAD/CAM/CNC production; development and creation of computer programs for data processing; services for the design of electronic data processing software; design of data processing systems; design of data processing programmes; programming of electronic control systems; computer programming for industrial manufacture and/or for production planning, in particular computer programming for the numeric control of machine tools; technological consultancy with respect to the performance and operation of machines, for which differentiated expert knowledge, techniques and experience are required in order to ensure correct operation together with computers, motor vehicles and other purposes; engineering testing and research with regard to machines and apparatus.

Date of Notification: 07/06/2018

Class 09

Antennas, namely, base station antennas, dual-polarized antennas, remote electrical tilt antennas, point to point antennas, microwave antennas, radio frequency antennas, and broadband antennas; radiating radio frequency telecommunication cables; base station and in-building wireless equipment, namely, indoor antennas, distributed antennas, fiber-based distributed antennas, and radio-over-fiber distributed antennas; wireless radio transmitters, and receivers, transceivers, sound amplifiers and digital signal processors for repeating, reshaping and reformatting data signals; control and diagnostic systems for wireless telecommunications base station antennas, namely, handheld remote electrical downtilt diagnostic electric controllers; cable assemblies, namely, copper telecommunications cable

assemblies, fiber optic cable assemblies, pre-terminated fiber-optic cables, and pre-terminated RF jumper cables; cable routing and management equipment, namely, horizontal and vertical cable manager racks for supporting, organizing and protecting multiple telecommunication cables, fiber optic cable raceways, cable runway racks for supporting, organizing and protecting multiple telecommunication cables, and shelving mounting racks for telecommunications hardware; communications cable accessories, namely, surge protectors and cable pathway plastic conduits for holding coaxial cables, fiber optic cables, twisted pair cables and hybrids thereof; metal cabinets specially adapted to protect telecommunications equipment in the nature of telecommunication cables and runway and horizontal and vertical cable manager housings for supporting, organizing and protecting multiple telecommunication cables; optical cable parts, namely, fiber optic cable outlets, and fiber optic cable termination units; blank fiber optic storage devices, namely, storage racks for storing fiber optic cables; communications cables, namely, coaxial cables, fiber optic cables, twisted pair telecommunication cables and hybrid fiber optic cables, patch telecommunication cables, jumper cables and trunk cables in the nature of telecommunication cables; electrical transmission lines used for wireless applications; remote electrical tilt cables; communications cable connectors for coaxial, fiber optic and twisted pair cables and hybrids thereof; electrical and fiber optic connector plugs; fiber-optic closures and terminals in the nature of fiber-optic cable junction box housings and telecommunication cable connecting blocks for connecting the terminal ends of cables; plug adaptors; coaxial and fiber-optic cable taps; communications and data cable connector accessories, namely, protective weatherproofing silicone rubber molded boot sheaths designed to seal and protect electrical, RF, and fiber optic cable connections; telecommunication wall jacks; radio access network products, namely, distributed antenna systems consisting of radio-frequency antennas, RF repeater systems consisting of repeaters for cellular radio communication, small RF cells, and associated software for powering, managing, designing and testing these systems; wireless distribution system comprising waveguides, elliptical waveguides, rigid and flexible waveguides, and elliptical waveguide cables; portable reading apparatus for radio frequency identification (RFID), namely, RFID readers; cased or framed control apparatus consisting of system electrical controllers, logic analyzers, and gateways mounted on electrical switch plates and frames that unite and group data to communicate with software; portable communication and power modules, namely, integrated circuit modules for the operation of a data communication system within a fiberglass hub and enabling communication via wireless connection with software and mobile devices; products for radio frequency identification (RFID), namely, labels in the nature of radio frequency identification tags, RFID readers, and handheld RFID readers; apparatus for monitoring, measuring, testing and controlling electrical signals; computer systems software for processing communications signals associated with geolocation devices, managing and controlling telecommunications equipment and systems from remote locations and evaluating wireless voice and data transmissions; software for use in designing, installing, operating, optimizing and maintaining telecommunications equipment; data transmission apparatus in the field of telecommunication transmission; digital optical transmission apparatus for transmission of telecommunications data; apparatus for transmission of sound and images; optical electronic communications equipment, namely, optical amplifiers, optical transmitters, optical electronic components in the nature of optical cables, optical data links, and optical transceivers; data processing apparatus in the field of telecommunication transmission; computers for use in the field of telecommunication transmission; computer software for managing, monitoring, visualizing and optimizing data center infrastructure and its performance and for centralized control and

management of computing and network devices distributed throughout an organization providing networking and storage services; signal splitters, including fiber-optic signal splitters; optical couplers including outside plant optical coupler; RF signal splitters, terminations in the nature of electrical terminators, and electrical signal attenuators; optical filters and electronic combiners for connecting antennas and receivers; multiplexers; tower mounted amplifiers; drop amplifiers; electrical termination blocks; RF conditioning products for outdoor cell sites, namely, radio-frequency controlled transmitters; distribution enclosures, namely, electrical distribution boxes; copper splice closures, namely, splices for electrical transmission lines; fiber splice enclosures namely, splices for fiber optic transmission lines; FTTA enclosures, namely, junction boxes; FTTA shelves, namely, mounting racks for fiber optic junction boxes; fiber panels and cassettes, namely, fiber-optic control panels for connecting multiple data and fiber optic devices; copper panels and cassettes, namely, copper telecommunications signal control panels for connecting multiple data and electrical devices; mounting racks and cabinets for telecommunications hardware; fiber-optic mounting racks and panels for telecommunication hardware; telecommunication fiber optic and copper telecommunications control patch panels for housing patch telecommunication cables; battery cases for housing back-up batteries; metal cabinets specially adapted to protect telecommunications equipment in the nature of power supplies and electronic equipment for telecommunications systems; DC-DC power convertors for use with patch panels in communications and data infrastructure network systems; power supply converters for use with antennas and transceivers; telecommunications apparatus and instruments, namely, mechanical splices for optical or telecommunications transmission lines, tool-less splices for optical or telecommunications transmission lines, modular building termination optical or electrical blocks, fiber management hardware in the nature of fiber optic cable raceways, fiber optic distribution frames, namely, fiber optic distribution boxes; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electrical or optical signals, namely, telecommunications equipment in the nature of fiber optic splice closures, fiber optic splice or telecommunications cable housings, fiber optic splice or telecommunications cable distribution boxes, fiber management hardware in the nature of fiber optic cable raceways, fiber optic or telecommunications cable distribution frame housings, fiber optic or telecommunications cable connectors, fiber optic or telecommunications cable plugs, fiber optic or telecommunications cable adapters, fiber optic splices for optical transmission lines, fiber optic splice trays in the nature of fiber optic splice closures, and fiber optic splice cassettes; fiber storage baskets, namely, mounting racks for telecommunications hardware; cable and wiring face plates, namely, telecommunications cable faceplates for telecommunication cables and wiring, surface mount zone electrical distribution boxes, and wall switches.

Date of Notification: 30/11/2017

LiquA

The following claim is made in the International Registration: Colour(s) claimed: There is a teal color on the white background; there is also a white line on the writing.

Class 16

Paper and cardboard; paper and cardboard for packaging and wrapping purposes, cardboard boxes; paper towels; toilet paper; paper napkins; plastic materials for packaging and wrapping purposes; printing blocks and types; bookbinding material; printed publications; printed matter; books, magazines, newspapers, bill books, printed dispatch notes, printed vouchers, calendars; posters; photographs [printed]; paintings; stickers [stationery]; postage stamps; stationery, office stationery, instructional and teaching material [except furniture and apparatus]; writing and drawing implements; artists' materials; paper products for stationery purposes; adhesives for stationery purposes, pens, pencils, erasers, adhesive tapes for stationery purposes, cardboard cartons [artists' materials], writing paper, copying paper, paper rolls for cash registers, drawing materials,

chalkboards, painting pencils, watercolors [paintings]; office requisites; paint rollers and paintbrushes for painting.

Class 22

Ropes; strings; rope ladders; hammocks; fishing nets; tents; awnings; tarpaulins; sails; vehicle covers, not fitted; bags of textile, for packaging; padding and stuffing materials of wool and cotton, except of rubber, plastics, paper and cardboard; textile fibers; raw spun fiber; glass fibers for textile use.

Class 39

Land, water and air transport services; rental of land, water or air vehicles; arranging of travel tours; travel reservation; issuing of tickets for travel; courier services (messages or merchandise); car parking; garage rental; boat storage; transport by pipeline; electricity distribution; water supplying; rescue operations [transport] for vehicles and goods vehicles; storage, wrapping and packaging of goods; transport and storage of trash; transport and storage of waste.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), emergency (life-saving) and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic recording media, sound recording disks; compact discs, DVDs and other digital recording media, data processing equipment, computers; software; diffraction apparatus [microscopy]; nautical apparatus and instruments; navigational instruments; satellite navigation apparatus; Global Positioning System [GPS] apparatus; global navigation satellite systems (GNSS), global navigation satellite instruments and global navigation satellite apparatus; measuring and surveying instruments and apparatus, namely, positioning infrastructure systems of GPS/GNSS comprising a transmitter, receiver, reference station, power supply, wired and wireless communications link, cabling, computer hardware and computer software for automatic determination of geographic position, both indoor and outdoor, for instruments for surveying; navigation apparatus for vehicles [on-board computers]; components, devices, software for Global Navigation Satellite Systems (GNSS) and components, devices, software for Global Positioning Systems (GPS); GNSS and GPS receivers for guidance, heading, machine control, mapping and position control; anti-jamming devices for satellite navigation and positioning systems, namely, antennas, computer hardware, software, and firmware for attenuating interfering signals and allowing global navigation satellite system receivers to acquire and track signals from satellite positioning systems; locating devices consisting of software,

firmware and hardware components; global navigation satellite system receivers, software for operating global navigation satellite system receivers, receiver circuit boards; components for GPS systems and devices (GNSS), namely electronic docking stations, antennae, transmitters, and receivers; positioning systems consisting of software, firmware and hardware components, the aforementioned positioning systems for calculating real-time global navigation satellite system (GNSS) and inertial measurement unit (IMU) integrating information based on data of position, speed and altitude from global navigation satellite systems (GNSS) and inertial measurement units (IMU); graphical user interfaces for global navigation satellite system (GNSS) receivers; global positioning receivers; Global Navigation Satellite System (GNSS) receivers; wearable activity trackers; directional compasses; signaling panels, luminous or mechanical; electronic tags for goods; security tokens [encryption devices]; measuring devices; electric measuring apparatus; measuring instruments; surveying apparatus and instruments; total stations [surveying instruments]; electronic distance measuring apparatus; data collectors; surveying instruments, coordinate measuring apparatus, coordinate measuring machines and coordinate measuring instruments; absolute encoders; tilt sensors; laser range finders; levels; telescopes for distance measurements; motorized-adjustable focusing optical unit; laser scanners; electric monitoring apparatus; leveling instruments; surveyors' levels; theodolites; precision measuring apparatus; telemetry-based measuring apparatus, telemetry-based measuring instruments; computer hardware, computer software and hardware with embedded programs for measuring apparatus and for measuring instruments; diagnostic apparatus not for medical use; hygrometers; temperature indicators; hydrometers; air analysis apparatus; levels [instruments for determining the horizontal]; salinometers; photometers; apparatus and instruments for physics; radar apparatus; pressure measuring apparatus; pressure indicators; speed checking apparatus for vehicles; speed indicators; ergometers; remote control apparatus; electric installations for the remote control of industrial operations; counters; frequency meters; quantity indicators; flow meters; clinometers; avionics systems (electronic control systems) for remote-piloted vehicles or unmanned air vehicles (UAV); measures; jigs [measuring instruments]; gauges; rulers [measuring instruments]; rules [measuring instruments]; detectors; infrared detectors; sensors for measuring depth; sensors for unmanned aerial vehicles (UAV); distance measuring apparatus; distance recording apparatus; range finders (telemeters); micrometers; optical goods; optical lenses; close-up lenses; mirrors [optics]; prisms [optics]; observation instruments; optical apparatus and instruments; lasers not for medical use; simulators for the steering and control of vehicles; intercommunication apparatus; apparatus for use in phototelegraphy; anode batteries; apparatus for charging electric accumulators; connectors [electricity]; electric regulating apparatus; inductors [electricity]; comparators; integrated circuits, chips [integrated circuits] and integrated circuit cards [smart cards]; integrated circuit cards [smart cards]; radio transmitters, radio receivers, combined radio transmitter and receiver devices, radio equipment, wireless telegraphic and telecommunication equipment, parts and accessories for all the aforementioned goods; cellular telephones, wireless modems and routers, telecommunications systems; interactive touch-screen terminals; scanners [data processing equipment]; humanoid robots with artificial intelligence; central processing units [processors]; electronic agendas; electronic notice boards; electronic interactive whiteboards; electronic book readers; magnetic identity cards; encoded magnetic cards; photographic apparatus [cameras]; photographic viewfinders; cases especially made for photographic apparatus and instruments; devices for editing cinematographic film; projection apparatus; monitors [computer hardware]; local area networks [IT]; wide area networks; antennas;

computer hardware; data processing apparatus; computer peripheral devices; virtual reality headsets, mathematical instruments; smart glasses; recorded computer programs; software [recorded programs]; recorded computer operating system programs; computer programs [downloadable software]; downloadable computer software applications; graphics software for computers; interfaces [for computers]; monitors [computer programs]; downloadable electronic publications; software for scanning images and documents; software for the management and visual representation of complex information; software for extracting, analyzing and reporting business intelligence data; software for integration and information management; software for the design, engineering, construction, production, operation, maintenance and lifecycle management of manufacturing, power and process plants, ships, offshore platforms and other marine structures; software for incident and response management; software for jail records management, video enhancement and analysis, alarm display and common operational picture display; software for the management of infrastructure, facilities, assets, land information, outages and mobile workforce; software for processing global positioning and navigation data for surveying, mapping, trajectory reconstruction and other control point and base station positioning applications; geospatial data and image management software; software for geospatial mapping, terrestrial imaging, development and deployment of a spatial data infrastructure; software for geospatial intelligence exploitation and product generation; software for navigating and determining position, velocity, alignment and attitude for post-mission determination of navigation parameters and sensor orientation from data in land, air and sea applications; software for calculating correction factors for use with global navigation satellite systems; economic planning software; software for agricultural applications and purposes; software applications and web-based tools for agricultural use; software for use in the fields of farming, agriculture, horticulture, crop protection and fertilizers, crop simulation software; software for the agricultural industry; computer software and hardware for the agricultural sector; computer hardware and software for tracking, recording, storing, monitoring, and analyzing farming data; software for the management, presentation and analysis of agricultural data, software for the creation of control regimes for all of the aforementioned control systems; software for use in connection with agricultural machines and apparatus; software for use with agricultural machines, equipment and vehicles; software for testing, monitoring and operating vehicles, equipment, machines, and parts therefor, for use in agriculture, forestry and mining; electronic equipment and parts therefor for locating, positioning and controlling machines, machine tools and parts therefor, for use in agriculture, forestry and mining; software for transportation management, scheduling and dispatching; software for engaging and coordinating transportation services; software, namely software for logistics, software for freight forwarding, software for route planning, software for routing, software for vehicle fleet management; electronic control mechanism used with a global positioning system (GPS) receiver to provide automatic shutoff on agricultural spray equipment; software for geologic modeling, mine design, mine planning and surveying and mining operations in the field of mineral mining applications; computer software and microcontroller software and programmable controls, in particular for transport vehicle control, track optimization, route control, collision avoidance, points adjustment, lift control, location, swarm control, communication between transport vehicles within a swarming storage systems, as well as logistics software; fatigue detection systems not for medical purposes, for informing the driver to remain vigilant and/or of his/her fatigue levels, comprised of cameras, electronic sensors, namely electric sensors for monitoring eye movements to gather data, and computer software for recording, analyzing, communication and

interpretation of the eye movements, as well as of a web interface; electronic collision avoidance systems (software); electronic instruction manuals sold with software.

Class 12

Vehicles; apparatus for locomotion by land, air or water; civilian drones; unmanned aerial vehicles (UAV) and components thereof.

Class 37

Construction; repair; installation services; rental of construction equipment; construction management [supervision]; construction information; construction consultancy; installation and repair of electric apparatus; machinery installation, maintenance and repair; installation, maintenance and repair of computer hardware, systems and networks; maintenance of computer hardware for network security.

Class 42

Scientific and technological services as well as research and design services relating thereto; industrial analysis and research services; design and development of computers and software; analysis for oil-field exploitation; technical research; engineering; calibration (measuring); computer project management services in the field of electronic data processing; quality control; surveying [engineering work]; advice related to energy saving; water analysis; mapping services [geography]; information technology consultancy services; telecommunication technology consultancy services; computer-aided industrial design, research, testing and analysis services in the field of geospatial computer systems; GNSS correction services, namely providing technological information in the form of corrections data via geostationary satellites for scaleable accuracy and seamless real time kinematic (RTK) assistance for land, marine and airborne applications; architectural services; architectural consultancy; construction drafting; urban planning; industrial design; software development for creation of simulations and models, business process simulation and visualization of objects to enhance situational understanding, and consultancy services relating thereto; data model development services; computer system design; website design consultancy; computer-aided design services (CAD); design of software for use with computer-aided manufacture; computer-aided engineering services (CAE); design of software for use with computer-aided quality control; geological surveys; oil-field surveys; geological research services; underwater exploration; computer services, namely data migration and complete data integration services; computer system and software analysis; monitoring of computer systems by remote access; outsourced services relating to information technology; services provided by consultants relating to Internet security; services provided by consultants relating to data security; duplication of computer programs; conversion of data or documents from physical to electronic media; digitization of documents [scanning]; conversion of computer programs and data, other than physical conversion; data encryption services; computer rental; rental of computer hardware and software; rental of computer software; hosting of computer sites [Web sites]; software as a service [SaaS]; hosting of servers; off-site data backup; electronic data storage; cloud computing; programming for computers; software development [design]; updating of software; computer system integration; development of web sites, namely design and implementation of web applications for others; creating and designing website-based indexes of information for others [information technology services]; research and development of new products for others; maintenance of computer software; software installation; Technical support services relating to software; installation, maintenance and repair of agricultural software; services provided by consultants relating to computer hardware design and

development; design and development of computers and software for the agricultural sector; services provided by consultants in the field of computer system integration; consultancy in the field of network security services, namely design, assessment, evaluation, selection, implementation, monitoring and management of computer hardware and software for network security for others; network security software maintenance; computer system security monitoring services for others for technical purposes; recovery of computer data; monitoring of computer systems to detect breakdowns; monitoring of computer systems for detecting unauthorized access or data breach; computer network analysis, design, configuration, integration of computer networks for others, and consultancy thereon; computer systems integration; Quality control and testing of computer hardware and software in the context of technical network management; computer services, namely monitoring of network application software and testing of optimal software performance; software consultancy; computer software consultation for others, design, development, installation, configuration, integration, maintenance, upgrading, testing, repair; helpdesk services consisting of computer software technical support services for others; consultancy services relating to the development and use of computer hardware; information technology (IT) consultancy; information relating to information technology and programming by means of websites; computer security consultancy.

Priority Claims:

Class 09

09/02/2017

Switzerland

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), emergency (life-saving) and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic recording media, sound recording disks; compact discs, DVDs and other digital recording media, data processing equipment, computers; software.

Class 09

12/05/2017

Switzerland

Diffraction apparatus [microscopy]; nautical apparatus and instruments; navigational instruments; satellite navigation apparatus; Global Positioning System [GPS] apparatus; global navigation satellite systems (GNSS), global navigation satellite instruments and global navigation satellite apparatus; measuring and surveying instruments and apparatus, namely, positioning infrastructure systems of GPS/GNSS comprising a transmitter, receiver, reference station, power supply, wired and wireless communications link, cabling, computer hardware and computer software for automatic determination of geographic position, both indoor and outdoor, for instruments for surveying; navigation apparatus for vehicles [on-board computers]; components, devices, software for Global Navigation Satellite Systems (GNSS) and components, devices, software for Global Positioning Systems (GPS); GNSS and GPS receivers for guidance, heading, machine control, mapping and position control; anti-jamming devices for satellite navigation and positioning systems, namely, antennas, computer hardware, software, and firmware for attenuating interfering signals and allowing global navigation satellite system receivers to acquire and track signals from satellite positioning systems; locating devices consisting of software, firmware and hardware components; global navigation satellite system receivers, software for operating global navigation satellite system receivers, receiver circuit boards; components

for GPS systems and devices (GNSS), namely electronic docking stations, antennae, transmitters, and receivers; positioning systems consisting of software, firmware and hardware components, the aforementioned positioning systems for calculating real-time global navigation satellite system (GNSS) and inertial measurement unit (IMU) integrating information based on data of position, speed and altitude from global navigation satellite systems (GNSS) and inertial measurement units (IMU); graphical user interfaces for global navigation satellite system (GNSS) receivers; global positioning receivers; Global Navigation Satellite System (GNSS) receivers; wearable activity trackers; directional compasses; signaling panels, luminous or mechanical; electronic tags for goods; safety tokens [encryption devices]; measuring devices; electric measuring apparatus; measuring instruments; surveying apparatus and instruments; total stations [surveying instruments]; electronic distance measuring apparatus; data collectors; coordinate measurements; absolute encoders; tilt sensors; laser range finders; levels; telescopes for distance measurements; automatic focusing devices; laser scanners; electric monitoring apparatus; leveling instruments; surveyors' levels; theodolites; precision measuring apparatus; telemetry-based measuring apparatus, telemetry-based measuring instruments; computer hardware, computer software and hardware with embedded programs for measuring apparatus and for measuring instruments; diagnostic apparatus not for medical use; hygrometers; temperature indicators; hydrometers; air analysis apparatus; levels [instruments for determining the horizontal]; salinometers; photometers; apparatus and instruments for physics; radar apparatus; pressure measuring apparatus; pressure indicators; speed checking apparatus for vehicles; speed indicators; ergometers; remote control apparatus; electric installations for the remote control of industrial operations; counters; frequency meters; quantity indicators; flow meters; gradient indicators; avionics systems for remote-piloted vehicles or unmanned air vehicles (UAV); measures ; jigs [measuring instruments]; gauges; rulers [measuring instruments]; rules [measuring instruments]; detectors; infrared detectors; sensors for measuring depth; sensors for unmanned aerial vehicles (UAV); distance measuring apparatus; distance recording apparatus; range finders (telemeters); micrometers; optical goods; optical lenses; close-up lenses; mirrors [optics]; prisms [optics]; observation instruments; optical apparatus and instruments; lasers not for medical use; simulators for the steering and control of vehicles; intercommunication apparatus; apparatus for use in phototelegraphy; anode batteries; apparatus for charging electric accumulators; connectors [electricity]; electric regulating apparatus; inductors [electricity]; comparators; integrated circuits, chips [integrated circuits] and integrated circuit cards [smart cards] ; integrated circuit cards [smart cards]; radio transmitters, radio receivers, combined radio transmitter and receiver devices, radio equipment, wireless telegraphic and telecommunication equipment, parts and accessories for all the aforementioned goods; cellular telephones, wireless modems and routers, telecommunications systems; interactive touch-screen terminals; scanners [data processing equipment]; humanoid robots with artificial intelligence; central processing units [processors]; electronic agendas; electronic notice boards; interactive electronic whiteboards; electronic book readers; magnetic identity cards; encoded magnetic cards; photographic apparatus; photographic viewfinders; cases especially made for photographic apparatus and instruments; devices for editing cinematographic films; projection apparatus; monitors [computer hardware]; local area networks [computer]; wide area networks; antennas; computer hardware; data processing apparatus; computer peripheral devices; virtual reality headsets, mathematical instruments; smart glasses; recorded computer programs; software [recorded programs]; recorded computer operating system programs; computer programs [downloadable software];

downloadable computer software applications; graphics software for computers; interfaces [for computers]; monitors [computer programs]; downloadable electronic publications; software for scanning images and documents; software for the management and visual representation of complex information; software for extracting, analyzing and reporting business intelligence data; software for integration and information management; software for the design, engineering, construction, production, operation, maintenance and lifecycle management of manufacturing, power and process plants, ships, offshore platforms and other marine structures; software for incident and response management; software for management of prison records, video enhancement and analysis, alarm indication and display of common operational images; software for the management of infrastructure, facilities, assets, land information, outages and mobile workforce; software for processing global positioning and navigation data for surveying, mapping, trajectory reconstruction and other control point and base station positioning applications; geospatial data and image management software; software for geospatial mapping, terrestrial imaging, development and deployment of a spatial data infrastructure; software for use of geospatial information and product development; software for navigating and determining position, velocity, alignment and attitude for post-mission determination of navigation parameters and sensor orientation from data in land, air and sea applications; software for calculating correction factors for use with global navigation satellite systems; economic planning software; software for agricultural applications and purposes; software applications and web-based tools for agricultural use; software for use in the fields of farming, agriculture, horticulture, crop protection and fertilizers, crop simulation software; software for the agricultural industry; computer software and hardware for the agricultural sector; computer hardware and software for tracking, recording, storing, monitoring, and analyzing farming data; software for the management, presentation and analysis of agricultural data, software for the creation of control regimes for all of the aforementioned control systems; software for use in connection with agricultural machines and apparatus; software for use with agricultural machines, equipment and vehicles; software for testing, monitoring and operating vehicles, equipment, machines, and parts therefor, for use in agriculture, forestry and mining; electronic equipment and parts therefor for locating, positioning and controlling machines, machine tools and parts therefor, for use in agriculture, forestry and mining; software for transportation management, scheduling and dispatching; software for engaging and coordinating transportation services; software, namely software for logistics, software for freight forwarding, software for route planning, software for routing, software for vehicle fleet management; electronic control mechanism used with a global positioning system (GPS) receiver to provide automatic shutoff on agricultural spray equipment; software for geologic modeling, mine design, mine planning and surveying and mining operations in the field of mineral mining applications; computer software and microcontroller software and programmable controls, in particular for transport vehicle control, track optimization, route control, collision avoidance, points adjustment, lift control, location, swarm control, communication between transport vehicles within a swarming storage systems, as well as logistics software; fatigue detection systems not for medical purposes, for informing the driver to remain vigilant and/or of his/her fatigue levels, comprised of cameras, electronic sensors, namely electric sensors for monitoring eye movements to gather data, and computer software for recording, analyzing, communication and interpretation of the eye movements, as well as of a web interface; electronic collision avoidance systems (software); electronic instruction manuals sold with software
