Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking, life-saving and teaching apparatus and instruments including parts for all the aforementioned products; Apparatus and instruments for the management, distribution, conversion, storage, regulation or control of electricity including parts for all the aforesaid goods; Data processing equipment and computers; computer software; microprocessors; Lasers not for medical purposes; Chargers for electric accumulators; Timers (not for clocks); electrical capacitors; Electric collectors; Electrical terminals; Electrical cables, wires and wires; Accumulator boxes and junction boxes; Cable grommets for electrical wires and cable filaments for electrical wires; Cable channels; inductors; magnetic recording medium; Semiconductors; Electronic and electrical apparatus, apparatus and instruments including their parts for the distribution and supply of energy, in particular alternative energy; Electronic and electrical apparatus, apparatus and instruments including their parts for the production of energy, in particular alternative energy by photovoltaics; Fuel cells; Electronic, magnetic and optical memories, diskettes, magnetic disks, optical disks; data protection devices; computer peripherals; Current and / or voltage converters; Current and / or voltage rectifiers; power converters; Electrical connecting parts; Connecting sleeves for electrical cables; Electrical transistors, thyristors, diodes; power semiconductor devices; Electrical transformers; Electrical resistance; Distribution boards and distribution cabinets; batteries; Integrated circuits (chips); circuit boards; Diagnostic apparatus (not for medical purposes); interference suppression devices; Memory for data processing equipment; Switchgear, in particular switching panels and control panels, switching cables and buttons; Switch; Electrical relays; modems; Electrical conduit pipes; Connection parts for electrical cables; Electrical measuring and regulating devices in the form of voltage regulators; sensors; Fuses included in class 9; circuit breaker; Switchgear; voltage meter; Electrical and electronic installations for (remote) control of automated industrial processes; Automatic control devices for vehicles; Installations and equipment for power transmission, distribution and control as far as included in Class 9; power supply lines; power cable; transformers; sockets; solar cells; Electronic control units for machines and motors; electronic controllers for machines and engines; control systems; facilities management control system products, namely, electronic controllers for heating, air conditioning, ventilating, energy, lighting, fire alarm, and security access systems; facilities management control system products, namely, electric control devices for heating and energy management, lighting controls, fire alarms; security access controls in the nature of security alarm controllers, and climate control systems consisting of digital thermostats, air conditioning, heating, and ventilation control devices; controllers for ventilating, air-conditioning and cooling systems (HVAC controllers) for controlling, gauging and monitoring climate control, air flow, heating, ventilating and air conditioning equipment; home security and automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, audio, HVAC, security, safety, home appliances, network devices, internet of things applications and other home and office monitoring and control applications; downloadable mobile application for remotely managing, administering, modifying, and controlling home security and automation devices and internet of things applications; building automation systems comprising heating, air conditioning, ventilating, energy, lighting, fire alarm, and security access controls and software for building automation systems; building automation equipment, namely, electric actuators, electrical controllers, control circuit boards and control supervisory systems consisting primarily of electrical actuators; computer software and hardware enabling wireless connections of electronic devices, systems and appliances to smart-devices for remote monitoring and control; software platform for use in asset optimization, industrial automation, machine diagnostics, and optimization of industrial, healthcare, manufacturing and infrastructure management processes; computer software for collecting and distributing data within computer networks and enabling data communication among application programs, consumer devices and industrial devices; downloadable cloud computer software for information management, data collection and data analysis in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, healthcare, manufacturing and infrastructure management processes; downloadable software for information management, data collection and data analysis in

CLASS : 9—cont.

the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, healthcare, manufacturing and infrastructure management processes; downloadable software application for information management, data collection and data analysis in the fields of asset optimization, industrial automation, machine diagnostics, and optimization of industrial, healthcare, manufacturing and infrastructure management processes; sensors, computer hardware and software for use in the collection, organization, distribution and analysis of data, and for use in the management, control, automation, and network connectivity between devices, appliances, sensors and control systems for use in home automation, facilities and building management, power grids, power generation, industrial automation, industrial process automation, transportation and infrastructure; internet of things applications and other monitoring and control applications; remote monitoring apparatus; computer software for capturing data originating from records generated not solely but also by machines and humans; software for control and monitoring of communication between computers in automatic machine systems; software platform for use in the collection, organization, distribution and analysis of data, automation, diagnostics, and optimization of processes in the fields of home automation, facilities and building management, power grids, power generation, industrial automation, industrial process automation, transportation and infrastructure; downloadable cloud computer software for use in the collection, organization, distribution and analysis of data, and for use in the management, control of, automation of, and network connectivity between devices, appliances, sensors and control systems in the fields of home automation, facilities and building management, power grids, power generation, industrial automation, industrial process automation, transportation and infrastructure; downloadable application software for use in the collection, organization, distribution and analysis of data, and for use in the management, control of, automation of, and network connectivity between devices, appliances, sensors and control systems in the fields of home automation, facilities and building management, power grids, power generation, industrial automation, industrial process automation, transportation and infrastructure; downloadable software use in the collection, organization, distribution and analysis of data, and for use in the control of, automation of, and network connectivity between devices, appliances, sensors and control systems in the fields of home automation, facilities and building management, power grids, power generation, industrial automation, industrial process automation, transportation and infrastructure.
