sticks; key fobs; smart cards; pki smart cards; wearable electronic apparatus; parts and fittings for all the aforesaid goods; electronic data storage devices; electronic data capture apparatus; electronic encoding and decoding apparatus and instruments; electronic coding units; electronic decoders; electronic apparatus, usb hardware, usb tokens, encoded smart cards containing programming used for security, authentication and encryption; cards encoded with security features for identification purposes; data encryption apparatus; electronic encryption units; electronic security tags; electronic identification tags; electronic apparatus, computer peripheral equipment, usb hardware, usb tokens, smart cards, smart card readers, authentication tokens and software, server software and mobile application software, for use in the field of cyber security, internet security, computer security, computer network security and cryptography; electronic apparatus, computer peripheral equipment, usb hardware, usb tokens, smart cards, smart card readers, authentication tokens and software, server software and mobile application software, used all for the protection of online transactions and data transfer by electronic means; electronic apparatus, computer peripheral equipment, usb hardware, usb tokens, smart cards, smart card readers, authentication tokens and software, server software and mobile application software, all for electronic generation and verification of authentication credentials and signatures; electronic apparatus, computer peripheral equipment, usb hardware, usb tokens, smart cards, smart card readers, authentication tokens and software, server software and mobile application software, all for use in, for connecting to and for providing public key infrastructures (pki); electronic identification devices programmed with specific parameters to obtain an authentication code for securing electronic transactions, bank operations, remote application access and securing data transfers; electronic security tokens in the nature of a fob-like device used by an authorized user of a computer system to facilitate authentication to access computers, web sites, remote computer based applications, electronic networks and databases; software, mobile application software, electronic apparatus, authentication tokens and smart card readers adapted to optically capture digital information; software, mobile application software, electronic apparatus, authentication tokens and smart card readers for capturing and decoding 2d-barcodes; electronic apparatus and software for use in the field of biometric verification; electronic apparatus and software for biometric systems for the identification and authentication of persons; biometric access control systems; biometric identification systems; biometric voice recognition systems; electronic apparatus and software for capturing, analyzing and verifying biometric traits; electronic apparatus and software for capturing, analyzing and verifying fingerprints, retinal scan, voice, heartbeat, gait and vein patterns; biometric readers; fingerprint readers; biometric retinal scanners; face recognition software; electronic apparatus and software for use in the field of behavioral biometrics; electronic apparatus and software for capturing, analyzing and verifying behavioral biometrics; behavioral authentication software; electronic apparatus and software for behavioural biometrics, including dynamic keystrokes and swiping patterns; electronic apparatus and software for capturing, analyzing and verifying geolocation data; electronic apparatus and software for recording, processing, manipulating and analyzing sounds and images; electronic apparatus and software for use in the field of cyber security, internet security, computer security, computer network security, data security and cryptography; electronic apparatus, authentication tokens and smart card readers and software, server software and mobile application software for security, data security, authentication and data encryption; electronic apparatus and software for providing multi-factor authentication; electronic apparatus and software for providing layered security; electronic apparatus and software for continuous, transparent and frictionless authentication; software for coordinating and orchestrating authentication and cyber security; electronic apparatus and software for protecting digital channels; electronic apparatus and software for securing telecommunications, data communications, electronic communications and digital communications; electronic apparatus and software for securing access to and operation on the internet; electronic apparatus and software for the security of data-transfer by electronic means and via computer networks; electronic apparatus and software for identification of persons; electronic apparatus and software for providing, verifying and proving the identity of persons; electronic apparatus and computer software used to identify and authenticate users of intranet and internet websites and used to authenticate user access to intranet and internet sites, wide area networks (wan) and local area networks (lan) in order to secure online communications and transactions; electronic apparatus and software for the security of physical and virtual objects; electronic apparatus and software for controlling user access; electronic apparatus and software for access control to physical and virtual spaces, to electronic systems, to computers, to electronic networks, to websites, to computer based applications and to electronic databases; electronic apparatus and computer software used for remote control of access to computers, computer based applications and telecommunications networks; electronic apparatus and software for use in the field of public key infrastructures (pki); electronic apparatus and software used for securing electronic

and online transactions; electronic apparatus and software for providing non-repudiation of electronic and online transactions; electronic apparatus and software for the certification of orders given via computer and certifying electronic instructions; electronic apparatus and software for secure transaction authentication for use in the field of banking and online consumer transactions; electronic apparatus and software used for ensuring the security of banking operations and bank transactions; electronic apparatus and software for securing internet banking; electronic apparatus and software used for ensuring the security and authentication of orders given by computer; electronic apparatus and software for use in the field of risk analysis, including risk analysis of electronic and remote transactions, transaction requests, and access requests; software for assessing the risk associated with end user identities; electronic apparatus and software in the field of fraud detection, risk detection, risk management, fraud management, risk analysis, fraud analysis and fraud prevention, all related to electronic, digital, online and remote transactions; electronic apparatus and software for securing and protecting virtual, electronic and digital assets; electronic apparatus and software in the field of digital money, electronic and digital currencies and cryptocurrencies; electronic apparatus and software in the field of distributed ledgers and blockchains; electronic apparatus and software in the field of protecting digital data; electronic apparatus and software for ensuring the confidentiality, integrity and authenticity of digital data; electronic apparatus and software in the field of digital rights management; electronic apparatus and software for controlling the use, modification, and distribution of copyrighted works; electronic apparatus and software in the field of protecting personal data; electronic apparatus and software in the field of privacy protection; electronic apparatus and software in the field of identity management; electronic apparatus and software for trusted identity management; electronic apparatus and software for digital identity management; software for customer enrollment, customer management and electronic transaction facilitation; electronic apparatus and software for securing electronic payment services, internet banking and mobile banking services; electronic apparatus and software in the field of e-government; software for electronic signature applications and systems, including administrative and user applications and digital storage systems; software programs allowing users to electronically approve documents using secure electronic signatures; electronic apparatus and software for the recording, the manipulation, the archiving, the security, the encoding of sound, images and data, including via the internet; software for capturing an approval of an electronic or online transaction; software for generating and capturing electronic proof of authorization of electronic and online transactions and documents; software for generating electronic signatures; software for electronically signing electronic and online transactions; software for signing electronic documents; software for capturing electronic document signatures; electronic signature software; transaction management software programs; software for electronic document management; software allowing users to electronically send, sign, receive and manage documents as part of an electronic business transaction; software for ensuring the legal enforceability, regulatory compliance and auditability of documents or transactions; software for obtaining secure electronic forensic evidence relating to the business transaction process and documents; electronic signature and transaction management software programs allowing users to electronically send, sign, receive and manage documents as part of an electronic business transaction, to ensure the legal enforceability, regulatory compliance and auditability of the documents and transactions, and to obtain secure electronic forensic evidence relating to the business transaction process and documents; software for capturing and storing electronic evidence data; software for capturing and storing audit trail data; software for capturing and storing electronic signature data; software for capturing and storing electronic evidence data that allows reproducing exactly what a signer saw and did; software for capturing and storing audit trail data that allows reproducing exactly what a signer of an electronic document saw and did; software for capturing and storing data documenting an electronic signature process; software for capturing and storing data documenting electronic delivery of documents and information; software for viewing and reviewing electronic evidence data; software for viewing and reviewing audit trail data; software for viewing and reviewing electronic signature data; software for viewing and reviewing electronic evidence data that allows reproducing exactly what a signer saw and did; software for viewing and reviewing audit trail data that allows reproducing exactly what a signer of an electronic document saw and did; software for viewing and reviewing data documenting an electronic signature process; software for viewing and reviewing data documenting electronic delivery of documents and information; software for reviewing and verifying electronic forensic evidence; software for reproducing an authorization and approval process of electronic transactions and documents; software for reproducing a signing process of electronic transactions and documents. Software for securely storing electronic documents; electronic vaulting software; all included in class 09.

electric cable spreading boxes for electric cable glands; electric cables for use with telecommunication apparatus; electric cables for the transmission of sounds and images; cable conduits of plastics materials for wiring harnesses; wiring looms and harnesses for vehicles (electric cables); non-metallic flexible ducting for holding electric cables; sensors in the form of panels containing fibre optic cable; pulse code modulation apparatus for transmission via cable; articles adapted for use in the ducting of computer cables; articles adapted for use in the support of computer cables; cabling for transmitting signals over mains wiring systems; flexible sheaths of plastics materials for electric cables; flat electrical cable for multipin interconnection systems; cable management installations for data signal transmission; cable connectors for use in the data communications industry; pulse code modulation instruments for transmission via cable; cable reels (non-mechanical) incorporating electrical sockets; flexible sheaths of elastomeric materials for electric cables; cables for transmitting and receiving cable television signals; transmission cables adapted for coupling to vehicle instruments; meters for measurement of the characteristics of electric cables; cabling networks (installations) incorporating fibre optic cables; cable converters for television being telecommunications apparatus; port racks being terminals for use in electrical cable installations; electric security monitoring apparatus incorporating fibre optic cables; plug sockets (electric); sockets for electric plugs; boxes adapted for use with electric plug sockets; safety devices for use with electric plugs and sockets; plugs, sockets and other contacts [electric connections]; sockets, plugs and other contacts [electric connections]; sockets for electric plugs for use on domestic electrical apparatus; electric plugs; plug connectors; plugs (electric); electrical plugs; plug-in cards (encoded); plug-in cards (memories); plug-in cards (electric); plug ferrules (electric); electronic plugin cards; patch panel looping plugs; electric connecting plugs; electric connection plugs; plug-in blocks (electric); plug-in cards (electronic); plug connectors (electric); electrical plug connectors; plug connections (electric); plug-in cartridges (encoded); plug-in printed card holders; plug adaptors for headphones; two-way plugs for headphones; plug-in cartridges (electric); plug-in connectors (electric); plug-in electrical connectors; plug-in cartridges (memories); plug-in connections (electric); plug-in cartridges (electronic); plug-in components for computers; electromechanical plug-in relays; light-emitting diodes with plugs; travel adaptors for electric plugs; dust proof plugs for earphone jacks; pressure indicator plugs for valves; plugs for electric connection leads; adaptors for use with electric plugs; plug-in electronic cards for computers; plug-in electronic construction modules; high tension connectors for spark plugs; plug-in cards bearing computer programmes; dustproof plugs for jacks of mobile phones; plug-in cartridges bearing computer programmes; plug-in connectors of precious metal (electric); plug-in cards bearing magnetically stored information; plugs for connecting hearing aids to programming apparatus; plug-in cartridges bearing magnetically stored information; electrical plug-in apparatus comprising supporting and guide rails; plates with an arrangement of plugs for producing electrical connections; multipole connectors as matrix plugs (program heads) for data processing machines; miniature hard disk drive storage units on a plug-in card being computer apparatus; civil sockets; relay sockets; aerial sockets; electric sockets; moveable sockets; electrical sockets; transistor sockets; sockets (electrical); electric shaver sockets; electric socket outlets; telephone socket outlets; electric connector sockets; multi-outlet socket blocks; electric power supply sockets; switch socket outlets (electric); electric extension outlet sockets; test sockets for integrated circuits; sockets for testing integrated circuits; portable electric sockets (power boards); containers incorporating electric sockets; earth leakage protected socket outlet boxes; electrical socket outlets protected by residual current devices; all included in class 9.
