software and hardware for internet of things; speakers with software and hardware for internet of things; tv with software and hardware for internet of things; wireless communication devices for internet of things; remote control apparatus for internet of things; application software for internet of things; mobile application software for internet of things; computer software for remote control of electronic apparatus; computer software for data sharing and communication between electronic devices; interface for a computer that enables internet of things; pre-recorded usb flash drives featuring software used to allow electronic devices to share data and communicate with each other; computer hardware modules for use in internet of things (iot) electronic devices; application software for automobiles for internet of things; biochips with software and hardware for internet of things; blood glucose testing apparatus with software and hardware for internet of things; weight scales with software and hardware for internet of things; breathing masks with software and hardware for internet of things; wearable telecommunication machines and implements with software and hardware for internet of things; software interfaces with multi health devices to record health conditions; sensors for the internet of things; digital signage; computer software for personal information management; interactive entertainment software for use with computers; interactive computer software; computer software for dictation; computer software used to process voice commands; speech to text conversion software; voice recognition software; computer software used for the control of voice controlled information and communication devices; computer software for users to share information to provide interactive and personalized intelligence for use by their computer hard devices and software for interfacing with the internet; computer software for scheduling appointments, reminders, and events on an electronic calendar; computer software to enable the provision of information via communications networks; character recognition software; gesture recognition software; computer software for biometric systems for the identification and authentication of persons; computer software development tools for use in the fields of artificial intelligence; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software and computer programs for use in relation to artificial intelligence, machine learning, deep learning and building neural networks; data synchronization software; computer software for the synchronization of data between a remote station or device and a fixed or remote station or device; application development software; operating system software; robot operating computer programs; computer programs used as software development tools for robot operating programs; computer programs used as software development tools for control devices that perform sequence control, servo control, control of industrial robots, numerical control, control of energy conversion, inverter control or electronic control; computer programs for control devices that perform sequence control, servo control, control of industrial robots, numerical control, control of energy conversion, inverter control or electronic control; computer software used for setup, maintenance or test operation of control devices that perform sequence control, servo control, control of industrial robots, numerical control, control of energy conversion, inverter control or electronic control; inverter control computer programs; computer programs for controlling electronic power converters; electronic servo motor control computer programs; computer programs for electronic control units; industrial process control software; electronic apparatus with artificial intelligence, in particular for controlling, regulating and operating robots; computer hardware and software, in particular with artificial intelligence for controlling, regulating and simulating robots, mobile platforms and tools; computer software for use in big data analysis; computer software for collecting, editing, modifying, organizing, synchronizing, integrating, monitoring, transmitting, storage and sharing of data and information; computer software for data backup, recovery and archiving; computer software for data warehousing; computer software for data protection and data security; computer software for data transfer and migration; computer software for logging changes within a database; computer software for searching databases; database management software; computer software for creating, configuring, provisioning and scaling databases; computer software for improving database performance; computer software for configuring, provisioning and scaling data cache storage for databases; computer software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to data; business intelligence software; business analytics software for collecting and analyzing data to facilitate business decision making; computer software for speech, facial and optical character recognition; computer software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; computer software for event logging, reporting, analysis and alert generation; computer software for creating searchable databases of information and data; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software for enabling electronic devices to operate and communicate locally while retaining the benefits of analytics
