Computer services; computer programming; computer programming for others; interconnection of computer hardware and software, namely, integration of computer systems and networks; downloading, installation and maintenance of security software applications, software applications for screening and blocking unwanted e-mail, and software applications for parental controls of internet activities provided by communication devices, e-mail, and on-line via the internet; computer services, namely, monitoring, regulating, and analyzing computer and internet usage for others, and generating reports regarding same; computer services, namely, providing information concerning the encryption and authentication of electronic data, namely, authentication of email and documents; encryption and decryption of data and communications; computer services, namely, integration of private and public cloud computing environments; computer services, namely, cloud hosting provider services; computer services, namely, platform as a service (paas) featuring computer software platforms for use in computer network management and monitoring, for alerting and reporting on computer network status, for computer network configuration backup, for updating computer network firmware, for assessment and inventory of networked devices, and for monitoring and management of security, wireless, voice and video networks; computer services, namely, remote and on-site management of virtual private or public cloud (vpc), vpc networks, vpc environment, vpc infrastructure, thin client, cloud client, phones, pda, voip systems, tablets, notebooks, desktops, servers, printers, routers, storage and security appliances, operating systems, virtual servers, mailservers, web servers, application servers, file and print servers, datacenter servers, storage servers, remote access servers, social media servers, managed services, remote management and monitoring, helpdesk, noc services, business continuity, offsite or remote backup, business applications, erp, antivirus, antispayware and anti-malware systems of others; provision of computer program via local and global computer information networks; providing temporary use of non-downloadable database management computer software program via the global information networks; providing temporary use of non-downloadable computer software for recognizing images; providing temporary use of non-downloadable computer software for providing detailed information on a wide range of subjects that appear in photos taken with mobile device; providing temporary use of non-downloadable computer software for biometric systems for the identification and authentication of persons fingerprint and/or finger vein authentication system; providing on-line non-downloadable software in the field of business process management for use by manufacturers; providing temporary use of on-line non-downloadable software applications, namely, monitoring social networking sites, providing a filtering mechanism on internet searches separating desired results from unwanted and inappropriate websites, providing a parental control function on obscene and inappropriate websites; providing on-line, non-downloadable, internet-based software application for medical billing for physicians and health care institutions; providing on-line non-downloadable software in the field of data management software, namely, database management software for organizing, synthesizing and collecting data from the manufacturing plant floor for use by manufacturers; providing on-line non-downloadable software in the field of decision support software to aid in the factory floor decisions of personnel for use by manufacturers; providing on-line non-downloadable software in the field of manufacturing plant floor management, namely, software used to integrate and configure the existing manufacturing execution system (mes) data of a manufacturing plant with upgraded plant floor management software; providing on-line non-downloadable software in the field of manufacturing plant floor management, namely, software used to identify and evaluate the root causes of process variation that provides real time information to plant floor personnel to avoid the manufacture of defective products; providing on-line non-downloadable software in the field of manufacturing plant floor management in the fields of plant efficiency, plant assessment, plant optimization, and virtual plant modeling; hosting a computer website featuring a wide variety of topics of general interest to consuming public, business and private institutions via web sites on global computer networks; technical services and technical consulting services for creating, designing and maintaining web site for others, technical services and technical consultation for computer programming and computer

CLASS : 42—cont.

hardware; computer software consulting services; consultancy in the field of computer hardware, namely, consultancy regarding computer research and development; scientific and industrial research, namely, research and development of new products, biological research, technical research in the field of a computer system that integrates natural language processing (nlp), computational linguistics (cl), machine learning (ml), and information retrieval (ir), including text analysis, pattern recognition and image analysis and which is capable of understanding general human queries and formulating responses, and scientific research for medical purpose; computer systems integration services; consultancy in the field of design of computer programs for unified communication services; consultancy in the field of ict infrastructures; consulting services in the field of energy management; computer consultation services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; technical consultation in the field of electrical power generation and storage systems; technical computer consulting services and technical consultation for computer programming and computer hardware; computer consultation in the field of computer security; computer consultation services of information and communication technology (ict) specialists for facilitating of data traffic and for providing access to networks and data bases; consulting services in the fields of computer network support, the use and operation of computer software, systems analysis and integration, installation of computer networks, computer security and the planning, design, and optimization of computer network systems; consulting services in the field of design of computer programs for cloud computing; consulting services in the field of design of computer programs for computer-based information systems for business; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; consulting services in the field of hosting computer software applications; technical consulting in the field of data center security; consulting services in the field of cloud computing; consulting in the field of infrastructure-as-a-service (iaas) cloud computing technology, software-as-a-service (saas) cloud computing technology, platform-as-a-service (paas) cloud computing technology, and software-as-a-service (saas) cloud computing technology; technical consulting services relating to the search for active ingredients; providing temporary use of on-line non-downloadable software in the field of primary medical, biological and chemical research and analysis ; consulting in the field of the design and development of technologies for virtualized and automated delivery of it services for enterprises, public organizations and service providers; scientific and technological research services in the field of medical, biological and chemical research; industrial analysis and research services in the field of primary medical, biological and chemical research and analysis; medical, biology and chemical engineering services; chemical and biological analyses of proteins and genes; research and development of medical equipment and accessories for others; quality assurance services for others for medical equipment and accessories; design of computer hardware, computer software, web sites and computer network system for others; providing others with information relating to computer hardware and computer software; providing others with the above information via local and global computer information networks; providing information via computer networks in the fields of computer networking, computer networks, computer systems, computer and network security and cloud computing; providing on-line information in the field of technical information relating to computer software; providing others with information in the field of computer hardware and computer software; hosting a computer website featuring information in the field of paternity, immigration control, criminal, other identity investigations, citizen services, law enforcement, public administration services, critical infrastructure management, information management, emergency and disaster management, inter-agency collaboration and natural calamities; hosting an on-line computer web site notifying individuals of natural and manmade disasters or acts of terrorism and how to respond to such disasters or acts of terrorism; hosting a computer web site featuring information about global warming, its effect on nature and the environment, suspended particles in the atmosphere, the reflectance of the earth's surface, rain measurement, amount of water vapour and sea surface temperature; hosting a computer website featuring non-downloadable software for accounting functions, bill payment, and facilitating management of invoices, management of payables, and the integration of enterprise resource planning (erp) systems; hosting a computer website featuring non-downloadable software for workflows, and shared workspaces for the purposes of product lifecycle management (plm), collaboration, configuration and change management, requirements management, and manufacturing planning; maintenance and updating of computer software and web sites; installation, updating and maintenance of computer software; software as a service (saas) services featuring software that performs text analysis, pattern recognition and image analysis, on information in diverse fields and that is capable of understanding general human queries and formulating responses; energy monitoring services for others, namely, viewing or recording the timing or level of use and control of

CLASS : 42—cont.

electricity used by selected devices; computer implementation services, namely, integration of computer systems and networks aimed at measuring and providing analysis and reports on utility costs in order to assist businesses in achieving cost savings and environmental sustainability; customization of computer hardware and software; computer network systems analysis; integration of computer systems and networks, computer programming for others all for use in commercial interactions over global computer networks; computer software development, computer programming and maintenance of computer software in the field of energy usage management and energy efficiency; cloud computing services featuring software for use in database management; computer services, namely, remote and on-site management of cloud computing systems and applications for others; cloud computing featuring software for use in database management, security management, analytical computing, data processing, and business analytics; computer software and hardware testing services; technical project studies in the field of computer hardware and software, namely, computer system analysis studies; computer software and hardware testing services, namely, testing of computer software, computers and servers; design, updating and maintenance of computer software; computer software and hardware design for others, and consultation services in the field of computers; computer systems design services for others; design of home and business electric energy control systems for others and engineering services in the field of computerized temperature, fire, safety, security and light control, energy usage management monitoring; design of computer hardware, computer software, web sites and computer network system for others; design and development of computer systems, namely, computer hardware and software; design and development of computer systems, namely, computer hardware and software for unified communication services; software development and product development for others in the fields of computer software for integrated circuit cards, chip cards, chip card reading devices, namely, smart card readers, smart card terminals, radio frequency identification (rfid) readers and biometric readers; design for others in the field of computer networks, software, and engineering for the network virtualization and software defined networking; computer network design and computer software design for the network virtualization and the software defined networking (sdn); services relating to the technical supervision and inspection of electronic apparatus and instruments including electronic computers; services in the field of the technical technology supervision and inspection of electronic apparatus and instruments in the nature of electronic computers; troubleshooting of computer hardware and software problems via telephone; e-mail, in person and local and global computer information networks; computer services, namely, technology support services, namely, troubleshooting in the nature of diagnosing of computer hardware and computer software problems for a computer system that integrates natural language processing (nlp), computational linguistics (cl), machine learning (ml), and information retrieval (ir), including text analysis, pattern recognition and image analysis and which is capable of understanding general human queries and formulating responses; internet security services, namely, development of software for internet security; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the internet, and computer networks; providing information in the fields of computer internet security, prevention of computer threats, and information about computer hardware and software applications in security, namely, information about assessing computer security and threats, and design and development of computer security hardware and software applications; providing secure remote access to sensitive data by select individuals or groups by means of a computer network; technical support services, namely, deployment, migration and updating of software applications; development and updating of computer software for others; creation of data-processing software programs for others; software services for businesses, namely, development of software for processing and managing transactions conducted using near field communication (nfc) technology for identification, access control, tracking, payment, coupon, and loyalty systems; data mining services; rental services of electric and electronic apparatus, instruments and implements; rental services of computers and electronic measuring apparatus; repair services of computer software program and web site; hosting of web sites; hosting of digital content on the internet and other computer and electronic communication networks; providing search engines for obtaining data via the internet and other computer and electronic communication networks; recovering of computer data; data automation services using proprietary software to evaluate, analyze and collect service data, including such services in the field of data security, data traffic and communication networks, providing on-demand resource allocation for computer systems including access to virtual servers and virtual machines; application service provider (asp) featuring software to enable uploading, posting, showing, displaying, sharing or otherwise providing electronic media or information over the internet or other communications network; a web-based service featuring technology that enables users to view and manage data from networks of wired and wireless sensors

CLASS : 42—cont.

and rfid tags; application service provider featuring software for use in speech and voice recognition, software for call automation, software used to create, execute, and administer voice activated systems used for transaction processing and the classification, navigation, search, retrieval, display and distribution of information in computer databases and over computer networks, and software for analyzing the effectiveness of speech and voice recognition software, call automation software and software used to create, execute, and administer voice activated systems used for transaction processing and the classification, navigation, search, retrieval, display and distribution of information in computer databases and over computer networks; research consultation regarding building construction; all included in class 42.
