electronic equipment for monitoring and controlling conditions at different locations; equipment for producing transmitting receiving and processing telecommunications and data communication and signals, namely, transmitters, receivers, transceivers, amplifiers, converters, repeaters, suppressors, modems, multiplexers, station selectors; telecommunications equipment namely, terminal buffers, voice couplers, and frequency transmitters; computer networking and data communication equipment; data communication system comprising transmitter and receiver hardware and software for use in connection with conveyors for collecting and measuring performance and providing control such as safety input for shutting down conveyors; traffic signal electric switches, electrical transmission and substation disconnect electric switches; electrical wiring device primarily for power supply connection for light-emitting diodes lighting and led video displays; surge arresters for electric power lines and circuits; electrical connection devices with welded wire leads; indicator lights for emergency light fixtures; industrial and commercial electrical lighting control panels; lighting fixtures and lighting control apparatus, namely, communication and control devices for use with lighting fixtures; photoelectric controls and sensors; photoelectric control for varying the intensity of electric lamps; electric power switch packs; electronic sensor devices, namely, occupancy sensors for ceiling mount for use in determining whether a person is inside a room; motion sensors; motion sensors for lighting; dimmers; lighting dimmers; light meters; exposure meters; sensors for use in detecting motion and dimming or brightening lights electric light switches; power supplies for building controls, light sensors, occupancy sensors, power sensors, lighting timers and building control timers; electric light dimmers; electrical controllers; electrical controls for use in dimming ballasts; electronic monitors and meters for use in measuring the amount of energy expended; and electric monitors and meters for use in measuring light intensity, electronic timer switches and control systems for lighting; wireless lighting control system for roadway lighting applications; led luminaire for lighting fixture; led luminaire for backlit mirror light and light fixture; and flat panel lighting apparatus for mirror apparatus or fixture; inverters, cover plates for electric switches and receptacles and electric outlet boxes; enclosures, comprised in whole or in part of steel, for utility, telecommunications, fiber optic and cable lines, namely, splice boxes and bases therefor, and parts, comprised in whole or in part of steel, for underground splice boxes, namely, extensions and lids; wiring devices, namely, electrical plugs, electrical receptacles, electrical inlets, electrical pin and sleeve plugs and receptacles, all designed to withstand harsh environmental and industrial conditions; explosion-proof junction boxes; fittings for electrical enclosures, electrical conduit systems, and cable connectors, namely, electric connectors and metal threaded fasteners that have been specially adapted for electrical enclosures, electricity conduits, and cable connectors; electricity conduit boxes; electric switch housings; housings for electrical motor controllers; flexible electric couplings; explosion-proof electric switches; explosion-proof electric control panels; reducer fittings for electrical enclosures and electricity conduits, namely, small metal hardware specially adapted for electrical enclosures and electricity conduits that enables

electricity conduits of different widths to be connected together; electric close-up plugs; sealing fittings for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to prevent the passage of gases, vapors, or flames from one portion of an electrical installation to another through such conduits; unions for electrical conduit systems, namely, small metal hardware specially adapted for electricity conduits used to connect electricity conduits together; electric couplings and connectors; cast electric outlet boxes; electric cord and cable connectors; explosion-proof electrical terminal housings; drain-breathers, namely, metal hardware specially adapted for electrical enclosures for the prevention and/or release of condensation; distribution equipment, namely, circuit breaker enclosures, disconnect switches and panelboards; computer application software; computer hardware; computer application software and computer hardware for use in connection with mobile phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones and hand-held computing apparatuses; electrical raceways; apparatus and instruments for controlling lighting; lighting controls; light transforming lenses; and optics in the nature of optical lenses for focused illumination of medical examination areas; programmable led drivers for use in lighting fixtures; ground fault circuit interrupter units for indoor and outdoor electrical installations in industrial, residential, and swimming pool areas for sensing ground faults in and cutting off the electrical power supply to such installations; computer application software and computer hardware for use in connection with mobile devices, phones and other hand-held computing apparatuses that allow wireless connectivity to various electronic devices and that enable applications to be run on such mobile phones, devices and hand-held computing apparatuses; downloadable home automation software app for electric and ambient lighting, hvac, climate control and monitoring, power control and monitoring, security, safety, and other home monitoring and control applications; lot (internet of things) and m2m (machine to machine) software for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; downloadable mobile applications for monitoring, managing and controlling internet of things (lot) enabled devices; downloadable software and software applications permitting users to remotely control electronic locks, alarm systems, lights, garage door openers, electric gates, wireless local area network enabled plug outlets, televisions, video streaming devices, digital video recorders and receivers, wireless local area network enabled cameras and other electronic devices; thermostats that incorporate wireless connectivity; computer software for mobile devices, namely, software for programming and controlling the aforementioned thermostats; electronic devices, namely, kitchen thermometers, cooking thermometers, electrical switches, digital audio players, and wireless transmitters and receivers; wired or wireless control system, connected to wired and wireless networks in buildings, software applications; wired and wireless connected components; wall switches and dimmers, receptacles, occupancy sensors, motion sensors, vacancy sensors, daylight sensors, luminaires with integrated controls, lighting control panels, room controllers, control interface and network modules; voice-activated, and remotely-activated ip (internet protocol) cameras, smoke detectors, carbon monoxide detectors, anti-intrusion alarms, burglar alarms, motion detectors, electronic glass break detectors, remote control units, keypads and control panels for security systems and home automation devices, electronic door locks, lights, namely, light systems comprising light sensors and switches, lighting systems, namely, lighting controls; electrical and electronic circuits, computers, wireless devices and equipment, audio devices, video devices, computer network devices, headsets, speakers, internet of things (lot) devices, wearable electrical and electronic devices, microphones, speech recognition devices; semiconductors and packages thereof; internet of things (lot) enabled devices namely, lamps, leds, electrical outlets, sprinkler controllers, water leak sensors, mirrors, cameras, open/close sensors, computer modules, smoke and fire sensors and smoke and fire alarms; lot (internet of things) and m2m (machine to machine) hardware, namely, electronic sensor devices for the remote electronic control, tracking, monitoring and management of machines, devices, people, pets and things; vehicle locator device programmed to use gps tracking; navigational system, comprising electronic transmitters, receivers, circuitry, microprocessors, mobile telephone and computer software; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images and videos to remote locations; video cameras; electric and electronic sensors for motion, humidity, temperature, and light; smart home dashboard comprised of computer hardware and software used to control electronics in the home; automated lighting installations featuring motion detection, slim design for use on multi-throw switch plates, timers, welcome home and random-away lighting features, and manual control; dual independent electric socket control receptacle, namely, multimedia outlets with dual usb ports and backlight/nightlight; wireless enabled electrical plug outlets; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely,
