Speakers with artificial intelligence; rod shaped electronic translator with artificial intelligence; computer software; computer hardware; face recognition equipment; wearable computers; wearable electronic devices; non-medical surveillance devices with artificial intelligence; electronic doorbell with artificial intelligence; smart socket; scales; weighing instruments; smart lamp; computer game software; bluetooth headset; humanoid robot; entertainment robots; laboratory robots; humanoid robots with artificial intelligence; multilingual electronic hand-held translators; cameras; video cameras; cable television installations; computers; battery chargers; wearable video display monitors; security surveillance robots; monitors; electronic access control systems for interlocking doors; scales with body mass analysers; weighing devices; air analysis apparatus; smartphones; electronically encoded identity bracelets; programmed video games contained on cartridges; computer printers; downloadable electronic books; smartwatches; electronic book readers; computer chatbot software for simulating conversations; computer memory devices; personal digital assistants; audio-video receivers; audio transmitter units; video transmitters; cases for smartphones; smartglasses; teaching robots; humanoid robot with artificial intelligence; speakers with artificial intelligence; rod shaped electronic translator with artificial intelligence; camera; video camera; television installations; computer; computer software; computer hardware; face recognition equipment; charger; wearable smart display; wearable computers; wearable video display; wearable electronic devices; safety surveillance robot; non-medical surveillance devices with artificial intelligence; monitor; electronic storage control device for interlocking doors; electronic doorbell with artificial intelligence; smart socket; scales; electronic scale. A scale having body mass analysis and measurement/a scale having body mass analysis and measurement; weighing equipment; weighing instruments; air analysis instruments; smart lamp; smart phones; smart bracelet; computer software for game console video; computer game software; bluetooth headset; computer printer; e-book; smart watches; e-book readers; chatbot software for simulating conversations; computer memory; personal digital assistant; audio and video receiver; audio and video transmitter; smart phone case; smart glasses; humanoid robot; entertainment robots; laboratory robots; teaching robot; computer software, namely, electronic financial platform that processes cryptocurrencies, support side-chain transactions, currency conversion, split transactions, tokenization, price stabilization, scalability, digital wallets, multiple consumer marketplace uses, valuation of digital content, online messaging, digital information; payment software for joining private digital channels and viewing private digital content; computer software for the public blockchain content

CLASS : 9—cont.

distribution; software to facilitate the use of a blockchain or distributed ledger to execute and record financial transactions, including trades, in connection with the use of a cryptocurrency; computer software for file storage, cloud storage, end-to-end encrypted and blockchain supported data storage, security and distributed database management; computer software for cryptocurrency, crypto tokens, utility tokens; providing temporary use of non-downloadable computer software used to secure, encrypt, distributed, store and share data, documents, files, information, text, photos, images, graphics, music, audio, video, and multimedia content with others via global computer networks, mobile telephones, and other communications networks for the purpose of file storage, back up and synchronization; downloadable software for uploading and transferring files for the purpose of storage, file back up and synchronization; computer software for providing access to virtual currencies, digital currencies, cryptocurrencies and application tokens; computer software for developing, deploying, and managing applications, integrating applications, data, and services all for use of a crypto-currency; computer software and mobile applications for transmitting, storing, processing, exchanging, and securing cryptocurrency, digital currency, virtual currency, digital tokens; downloadable computer software and mobile applications for cryptocurrency management; computer software and mobile applications for encrypting and decrypting cryptocurrency, digital currency, virtual currency, digital tokens; computer software and mobile applications for buying, selling, storing, transacting, exchanging, sending and receiving cryptocurrency, digital currency, virtual currency, digital tokens; computer software and mobile applications for enabling development, exchange, and analytics of blockchain based technology; downloadable computer software and mobile applications for use with distributed cryptographic systems including blockchains, namely, platforms used to provide access to and interact with cryptocurrencies, cryptographic tokens, and data from distributed cryptographic systems; computer software tool for providing access to or interacting with the data from distributed cryptographic systems including blockchains and blockchain-based applications; computer software for monitoring and summarizing data for any cryptocurrency address, including smart contracts; computer software for retrieving and processing information from distributed cryptographic systems, distributed ledgers, and peer-to-peer transaction and cryptographic payment networks; computer software for the representation of data involved in and/or described in data transactions; application programming interface (api) software for developers for use in accessing and interacting with cryptocurrencies, cryptographic tokens, and data in the fields of distributed cryptographic systems, distributed ledgers, and cryptographic peer-to-peer payment networks in the fields of financial management, asset management, resource management; and application programming interface (api) software for use with decentralized applications for creating, managing, and analyzing data on distributed cryptographic systems, distributed ledgers, and peer-to-peer transaction and cryptographic payment networks; computer software and computer software platforms for the security, automation or encryption of communications, business processes and financial transactions using smart contract systems, blockchain, and distributed ledger technology; computer software and computer software platforms for managing and verifying digital identities, digital asset ownership, communications, and transactions on blockchain; computer software platforms for developing, building, and operating distributed applications; computer software platforms for distributed computing platforms; computer software platforms for blockchain; computer software for use in the administration of a virtual currency used by an online community via a global computer network; computer and mobile device software and hardware systems comprised of computer hardware for operating software for distributed ledger databases; computer and mobile device application software, systems software, and embedded software for performing data processing utilizing blockchain or distributed ledger technologies; computer and mobile device software or software systems for use in blockchain or distributed ledger technology; computer and mobile device software for settling financial transactions, maintaining financial books and ledgers, or authenticating parties to financial transactions; computer and mobile device software for defining, issuing, tracking and holding digital assets and asset tokens; computer and mobile device software for facilitating blockchain or distributed ledger transactions via telecommunications systems, data communication systems or global networks; computer and mobile device software for the management of cryptographic security of electronic transmissions across computer networks; computer and mobile device software for automating processes for authentication of party identity in connection with the issuance and management of cryptographic keys used for authentication or encryption of digital communications in an electronic transaction or communication over the internet and other computer networks; computer software, software platforms and mobile device software for enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; computer and mobile device software for authentication and identity management information security; distributed ledger platform

software for use in processing financial transactions, electronic funds transfer, currency conversion, identity management, authentication, authorization, and/or access controls; distributed ledger platform software for use in an online network to allow users to perform electronic communications or transactions via a global computer or mobile device network; distributed ledger platform software for use in general-purpose event stream processing, data processing, and information lifecycle management; distributed ledger platform software for use in data management, data governance, data distribution, data storage, and data archiving; distributed ledger platform software for use in workflow definition and workflow automation; distributed ledger platform software for use in document management, document digitization, and document authentication; all included in class 9.
