REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 09

Telecommunications, telephonic and communications apparatus and instruments; mobile and fixed telephones; digital telecommunications apparatus; computer software; computer software downloadable from global computer information networks; communication software; telecommunication software; telephony software; apparatus for recording, transmission, processing and reproduction of sound, images or data, and software for use in relation thereto; apparatus for speech recording; apparatus for recording SMS message texts; software and hardware for recording and processing digital and analogue signals; computer software enabling the recordal of sound, data and images; computer software enabling the automatic recordal of sound, data and images; computer software enabling the automatic recordal of sound, data and images in the course of person-to-person or peer-to-peer communication; software for communication apparatus and instruments; software that provides customers with access to and use of global wireless communication and computer networks via computers, portable computers, personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; software and apparatus featuring voice over Internet protocol (VOIP) technology; software that enables the location of wireless communication networks and computer networks; software incorporating address book management systems and contact management systems; electrical and electronic accessories and peripheral equipment designed for use with telecommunications and communications apparatus, computers, portable computers, personal computers and other wireless devices, cellular phones or handheld and personal digital assistants, and with computer networks; dongles; software for secure data storage and retrieval and transmission of confidential customer information used by

individuals, companies and financial institutions; hardware and software used to identify subscribers on telecommunications apparatus and SIM cards; caller display software; caller identification software; payment cards including cards containing an integrated circuit chip ("smartcards"); SIM cards; radio frequency identification devices (transponders); media for storage and/or reproduction of sound and/or visual images; interactive and multi-media software; electronic media apparatus; data storage apparatus; data processing apparatus; memory storage devices; software featuring voice over Internet protocol (VOIP) technology.

Class 35

Marketing services; analysis of market research data; analysis of business data; data processing including database creation and management services; marketing of computer software, hardware, and telecommunications, telephonic and communications apparatus and instruments; marketing of telecommunications services; marketing services provided via telecommunications; marketing services provided via a global network; data based stock control; retail services connected with the sale of computer software, hardware, and telecommunications, telephonic and communications apparatus and instruments, and parts and fittings therefor; presentation of communications goods on communication media, for retail purposes; arranging subscriptions to telecommunication services for others; providing on-line directory information services also featuring hyperlinks to other websites; the bringing together, for the benefit of others, of computer software, hardware, and telecommunications, telephonic and communications apparatus and instruments, and parts and fittings therefor, enabling customers to conveniently view and purchase those goods in a retail store, from an Internet website, from a mail order catalogue or by means of telecommunications; services comprising the recording, transcription, composition, compilation and systematization of written and digital communications and recordings, as well as the compilation of statistical data; business management of electronic communications systems for others; business management of telecommunications systems for others; business management of telecommunications networks for others, namely, managing telecommunications service for other carriers.

Class 38

Telecommunications; telecommunications services; communications; communications services; providing access to telecommunications networks via wireless communications and computer networks; operation of telecommunications systems; operation of telecommunications systems featuring voice over Internet protocol (VOIP) technology; operation of telecommunications systems featuring Global System for Mobile Communications (GSM); operation of telecommunications systems featuring Code Division Multiple Access (CDMA); communications services, namely, telephone, mobile telephone, message collection and transmission, call diversion, answer phone, directory enquiries and electronic mail services; transmission, delivery and reception of sound, data, images, music and information; telecommunication services featuring automatic recordal of sound, data and images; personal numbering services (telephony); call recording services; operation of telecommunication systems featuring multiple mobile subscriber identity module technology; providing telecommunications connections to computer databases, the Internet or other electronic networks; providing user access to the Internet; providing access to databases including through wireless networks; delivery of audio, video and data by telecommunications; voice message storage services; providing access to online directory information services also featuring hyperlinks to other websites; leasing of access time to a computer database via a dedicated line; operation of electronic

communications systems for others; operation of telecommunications systems for others; provision of advice and information in relation to communications and communication technologies.

Class 39

Storage services; storage information services; leasing of storage units; physical storage of electronically stored data, documents, digital photographs, music, images, video, and computer games; storage consultancy.

Class 41

Audio and visual recording services.

Class 42

Cloud computer services; computer software services; analysis and research services relating to telecommunications services; analysis and research services relating to computer hardware and software; design and development of telecommunications hardware and software, and parts and fittings therefor; design and development of computer hardware and computer software, and parts and fittings therefor; design, development and commissioning of websites; creating, maintaining or hosting web sites; installation, maintenance and repair of computer software; cloud computing; rental of operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud computing network; software as a service; application services provider [ASP], namely, hosting computer software applications of others; design and development of online programming content and interactive media; operating search engines; provision of search engines for the Internet; recording data for others on optical, digital and magnetic media for electronic storage; computerised data storage; electronic data storage; electronic data storage services; development of systems for the storage of data; electronic data storage and data back-up services; provision or rental of electronic storage space [web space] on the Internet; design and development of software and hardware for producing, recording and processing digital and analogue signals.

Scientific, optical, weighing, and measuring apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; data processing equipment, computers; computer software; electricity grid apparatus; electronic apparatus and instruments relating to consumption, production and measurement of energy; apparatus for smart electricity grid relating to consumption, production, measurement of production, adjustment and control, safety, convenience of use and use of energy; constructional measuring and supervision equipment; apparatus and instruments for electrochemical storage of electricity; apparatus for control and transformation of power; accumulators; electric apparatus and instruments used with batteries in the field of energy consumption, production, measurement of production, regulation and control, safety, convenience of use and use; solar batteries; turbine vibration measurement systems; meters; electricity meters; remotely read electricity meters; electrical systems consisting of regulators, thermostats and electrical resistance filaments; electrical coupling panels; electrical connectors; multipole connectors; electrical sockets; power switchboards; electrical detectors; remote control units; remote controllers; timers; electronic alarm systems and devices; solar panels for electricity generation; azimuth instruments; electric cables; optical cables; fiber optical cables; electric cable tubes; charging apparatus; charging poles; charging apparatus and charging poles for electric vehicles; battery charging devices; battery charging monitors; battery charging indicators; software for management of energy information/data, process control, production planning, optimization and data collection; programs for simulation and modeling of power plant processes; power plant simulators; programs for modeling combustion in power plant boilers; software for remote monitoring of power plants; revision optimization software; programs for document management and management of archived data; terminals; energy consumption display units; electronic and computer devices for wireless data transmission; terminals for electronic payments with credit and debit cards; electronic publications, handbooks, and manuals in electronic form; electronic bulletin boards; data processing equipment, computers, computer hardware and computer software relating to the use of energy, distribution of energy, energy efficiency and energy technology.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; nuclear power plants; boilers for power plants; boilers for central heating units; combustion chambers; burners; oil heating apparatus; heat pumps; valves (faucets); collectors of solar thermal energy, heating installations consisting of regulators, thermostats and electrical resistance filaments; steam accumulators; water purification plants; clarification plants, namely, water filtering installations, chemical sterilization installations and water filtration installations; purification plants for industrial wastewater; apparatus for processing wastewater; wastewater processing apparatus (purification); purification apparatus for waste materials; water filtering

units; water treatment plants; sewage treatment plants; purification installations and apparatus for waste material and liquids; machines and devices for processing sewage water; sewage treatment machines and apparatus.

Class 16

Paper and cardboard; printed matter; photographs; instructional and teaching material (except apparatus); pens; brochures, magazines, posters, postcards, stickers, handbooks and manuals in paper form; company magazines; news reported in printed form; newsletters; periodicals; lecture folders, educational folders.

Class 17

Plastics in extruded form for use in manufacture; semi-worked plastic substances; recycled plastics; granules and aggregate of recycled polyethylene, polypropylene and polyethylene terephthalate.

Class 19

Building materials (non-metallic); non-metallic rigid pipes for building; buildings, non-metallic; utility poles, non-metallic; chimneys, not of metal; electrical substation buildings, non-metallic, transportable; doors, windows, not of metal; glass for buildings; building materials of recycled plastic; planks, plank boards, interlocking plank boards, beams and posts of plastic.

Class 31

Agricultural, horticultural and forestry products; litter for animals.

Class 35

Advertising; business management; business administration; office functions; marketing; arrangement of electronic transactions for others; arranging commerce or electronic commerce transactions relating to sales, purchasing of energy (electricity, heat, steam, district heating, district cooling; electronic retailing and wholesaling of different types of meters, monitoring and control devices relating to energy via Internet or extranet; electronic presentation of goods; presentation of services relating to sales of energy; negotiation and conclusion of commercial transactions for third parties; arranging of trading transactions and commercial contracts; arranging contracts for the purchase and sale of products, for others; business management assistance and consultation in the field of energy intensive industry and energy industry; compilation of information relating to business; advising relating to business management; research relating to business management; business appraisal and auditing services; business efficiency expert services; compilation, systematization, organization of information; search and retrieval of data and information for others from computer files; collection of information for databases; compilation of data into databases; updating of databases; systematization of databases; database maintenance and management; consultation relating to data processing; services organized online or via Internet extranet networks, namely search, retrieval, indexing and organization of data in electronic telecommunication networks; online advertising in data networks; production of audio-visual recordings or material for use in advertising; publication of advertising leaflets; business analysis and management relating to the optimization of costs relating to the use and maintenance of machines, devices and power plants; data processing services; electricity meter reading for billing purposes.

Class 36

Insurance; financial affairs; monetary affairs; real estate affairs; electronic

stock exchange services relating to energy; transfer and dissemination of capital via data networks; electronic payment services; electronic transfer services for capital; electronic transfer services for funds; investment management and consultation services; financial services for investment analysis, appraisal and consultation; electronic payment services involving electronic processing and subsequent transmission of payment data.

Class 37

Repair of machines, devices and instruments used in the field of energy industry; installation services for machines, devices and instruments used in the field of energy industry; construction, overhaul, repair and installation services relating to production, transmission and supply of energy; assessment and inspection services relating to construction, overhaul, maintenance and repair in power plant operations and energy intensive industry; installation, overhaul and maintenance services for equipment relating to production, use, transmission and supply of energy; power plant construction; mobilization services of power plants, namely, installation, maintenance and repair services including the installation, maintenance and repair of power plant safety systems; installation, overhaul, maintenance and advisory services thereof for different types of power plants and industrial production plants; maintenance planning; advisory services for maintenance to optimise the maintenance process of power plants and electricity grid apparatus; construction, installation, overhaul and repair of power plant boilers; construction and installation of power plant air ducts; construction and installation of power plant burners; overhaul and repair of burners; overhaul of turbines; overhaul of generators; condition management [repair] relating to power plants and energy intensive industry; reliability and condition management [maintenance and repair] of power plants and industrial machinery as well as process equipment; building and construction services relating to energy solutions for buildings as well as to cooling solutions for computer rooms and industrial processes; installation and overhaul services for solar electricity systems and advisory services relating thereto; installation and overhaul services for solar heat systems and advisory services relating thereto; construction of waste incineration plants and waste processing plants; construction, overhaul, repair and installation of waste incineration equipment; installation and repair of electrical, heating and central heating equipment; maintenance services of equipment and hardware for process automation systems and computer systems; maintenance and improvement [construction] services for electric power transmission networks; cabling; cabling beneath ground; drilling of pipelines; drilling of pipes; inspection for maintenance and repair of oil burners; charging point and charging station services for electric vehicles; installation, maintenance and repair of charging apparatus and electric monitoring apparatus; battery charging relating to computers; installation, maintenance and repair of district heating apparatus; construction of nuclear reactors; cleaning of nuclear plant.

Class 38

Telecommunications; electronic transmission of measured data; providing Internet connections for supplying information, making orders and concluding contracts and for reclamations; computer aided data transmission; data network services in the nature of digital network telecommunications services; electronic, electric and digital transmission and distribution of data, signals and messages via data networks; providing connections and rental of connection time for data networks and computer databases; rental of connection access time for databases; electronic data interchange services; electronic communication services; delivery of messages as electronic data transmission; transfer of digital files; electronic bulletin board services; providing telecommunication connections and links

to databases, computer networks and Internet; providing Internet and extranet connections; providing access and connections to global data network; transmission of digital data for enabling booking, activation and payment of charging station visits for electric vehicles; broadcasting of radio and television programs; broadcasting of programs relating to the energy industry via Internet; providing access to extranet accounts for management of customer data; remote transmission of data by means of telecommunications; providing access to databases; providing access to the web sites on the internet; data network services namely, transmission of data.

Class 39

Transport; packaging and storage of goods; transmission, delivery and distribution of energy; transmission and distribution of electricity; transmission and distribution of heat; distribution of natural gas; consultation services relating to transmission and distribution of energy; storage of energy; storage of electricity; storage of heat; delivery of reserve power, steam, pressurized air or water; carbon dioxide storage; electricity and heat supply; land, air and water transport services; supply of natural gas; supply of energy; supply of electricity; heat supply services; supply of district cooling.

Class 40

Treatment of materials and objects in the field of energy industry; production of energy; production of electricity; production of heat; production of steam; production of energy for use in district heating or district cooling; combined production of electricity and heat; combined production of heat/steam and electricity; consultation services relating to production of energy; production of energy via combustion, namely, control of combustion for different kinds of combustion and burning technologies and boilers; capture and treatment of carbon dioxide; ash treatment; waste treatment; incineration of waste and trash for production of energy; consultation services relating to waste treatment; nuclear waste processing services; decontamination of nuclear waste; treatment of water, waste water, sewage water and liquids; services for removing components from liquids by selective ion exchange materials; water purification for nuclear power plants; services for removing radioactive components from radioactive waters in nuclear power plants; treatment of hazardous waste; rental of water treatment equipment; refining of materials by catalytic pyrolysis process; flue gas purification; consultation relating to the production of energy via remotely controlled power plants; processing of nuclear fuels; nuclear fuel recycling; treatment of contaminated soil; high temperature incineration of hazardous waste; carbon dioxide capture.

Class 41

Education; providing of training; providing of educational briefing and information occasions; arranging and conducting seminars and workshops; publication of magazines and electronic magazines; audio-visual recording services; production of radio news broadcasts; production of audio-visual recordings and presentations; publication of books and periodicals provided in electronic form (online); provision of non-downloadable electronic publications; news reporting; providing on-line publications, not downloadable, in the nature of news articles; production of radio broadcasts.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; scientific and industrial research

relating to production, transmission and distribution of energy; providing and analysis of scientific or industrial research data; design services relating to production, transmission and distribution of energy; smart house and smart electricity grid design services; design services for hydropower and consultation services relating thereto; design services relating to energy solutions in buildings as well as to cooling solutions in computer rooms and industrial processes; thermal performance design services and consultation and expert services relating to thermal performance; technical monitoring services, namely monitoring technological functions of power plants relating to production, transmission and distribution of energy; energy auditing; technical inspection services for power plants; engineering services; quality control engineering services; technical consultancy in the field of energy saving and energy efficiency in the electrical and energy industry; product development; design of power plant boilers; design of burners; design and optimization of a maintenance strategy for power plants; improvement and optimization of energy efficiency based on measurement and appraisal of energy efficiency in power and industrial plants; engineering services to improve and optimise the maintenance efficiency in power and industrial plants based on measurement and appraisal of maintenance efficiency; measurement of maintenance efficiency in power plants; engineering technical operation services for power plants or industrial production plants; consultancy services in relation to advisory and research in the field of environmental protection relating to power plants and industry; technological consultancy provided to companies' in the field of energy use and environmental issues; providing engineering information, consultation and advisory services relating to energy efficiency, use and saving of energy as well as to sustainable development; engineering services in relation to development of integrated energy plans; life time and life cycle industrial analyses; life cycle analyses for machines, devices and plants; technical analyses of life cycle cost effects; analysis of technical risks relating to operation and processes of machines and devices; technical analysis of hazards relating to processes; technical project management and control; remote monitoring and reporting services for buildings, power plants and devices relating thereto; remote environmental monitoring and reporting of monitoring findings for parameters in energy production; debugging and troubleshooting of computer software via information/data networks; technical research services relating to the prediction of damages relating to operation of power plants as well as to environmental conservation; automatic checking and inspection of meters and electricity meters; remote quality control for voltage load; engineering services relating to dimensioning of electrical, heating and central heating devices; rental of instruments relating to monitoring and supervision of energy meters and energy in buildings; chemical analyses; chemical research; chemistry services; analysis of water; oil analysis; fiber-technical research and design services; testing services and technological consultation relating to production, transmission and distribution of energy as well as to dam and concrete construction; geological prospecting, geological assessment, geological research, geological surveys; technical services and consultation relating to emission control; provision of scientific data, advice and consultation relating to carbon dioxide offsetting; engineering project and engineering design services relating to telecommunication equipment; design, testing and technical research services, all relating to data processing, programming of computers and global computer networks; design, maintenance and consultation services relating to computer programs and software; information/data system analysis, design and testing services; installation and implementation of software for data systems; design and testing services for process automation systems and related computer systems; services relating to modeling and simulation of power plants and processes; services relating to simulation of combustion processes and emissions in

power plants; development of computer programs; overhaul, updating and support services for computer programs and software; rental of computer programs; technical support services for computer software providing access to computer software, data networks and Internet; rental of computers for data processing; database services, namely development of database programs; database content design services; rental of database programs; technological development of infrastructure for charging stations of electric vehicles; design of charging network stations for electric cars; testing of electric cars; design services for a network environment, computer systems and computer programs relating to payment of charging fees for electric cars; services relating to helpdesk operation, namely providing technical information regarding software or software support services in emergency and special situations via telephone, email, Internet or short message (SMS); technological consultation services; technological analysis and research services; computer software support and maintenance; energy use and conservation consultancy; remote metering of energy; testing of nuclear material; nuclear engineering services; consulting services in the field of energy usage management and energy efficiency; storage of information in a database.

Class 45

Security services for the protection of property and individuals; consultation services relating to safety of production, transmission and distribution of energy; nuclear safety consultation services for nuclear power plants; safety surveys for power plants; identification and analysis of safety risks relating to the operation and processes of machines and devices; licensing of intellectual property rights; copyright management services; security control relating to industrial plants; security consultation; emergency alert services for emergency situations and situations of threat.
