REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

control, operation, automation and optimization of, and interaction with, building, facility and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware, software and automated process control systems comprised of wireless and wired controllers and controlled devices for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data; computer hardware, software and systems comprised of wireless and wired controllers and controlled devices for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems comprised of wireless and wired controllers and controlled devices for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices, monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer software for configuring wide area networks used in energy and security management systems and graphical user interface software; software for use in the creation, configuration, engineering, installation and operation of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and operation of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset

management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone or other mobile device.

Class 37

Installation, maintenance and repair of electrical and electronic controls and control, automation and optimization devices, apparatus and systems comprising wireless and wired controllers and controlled devices for buildings, facilities and plants; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems, the foregoing not including installation, maintenance and repair of software; installation, maintenance and repair of electrical and electronic controls and control systems comprising computer hardware for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection.

Class 38

Transmission of data, information and data analytics via electronic communications networks pertaining to the control, automation, optimization and performance of building, facility and plant apparatus and systems, and building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems.

Class 41

Training services in the field of building, facility and plant control, automation and optimization devices, apparatus and systems.

Class 42

Engineering, design and development of building, facility and plant controls, control devices, wireless and wired controllers, and building, facility and plant control, automation and optimization software; technical consultation in the field of design and development of computer hardware, software, and peripherals used for building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant automation and optimization devices, apparatus and systems; monitoring of computer systems to detect breakdowns via electronically gathering, analyzing and formatting data and reporting to others on the performance of building, facility and plant controls, control devices, apparatus and systems, and building, facility and plant, automation and optimization devices, apparatus and systems to ensure proper functioning; providing temporary use of on-line, non-downloadable computer applications and computer software for use in database management and coordinated control of energy management systems and security systems for building, facility, and plant controls, control devices, apparatus and systems, and

building, facility and plant automation and optimization devices, apparatus and systems; technical support services, namely, technical advice in the field of information technology via 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems related to building, facility, and plant controls, control devices, apparatus and systems, and building, facility and plant control, automation and optimization software, devices, apparatus and systems; installation, maintenance and repair of systems comprising computer software for buildings, facilities and plants; installation, maintenance and repair of automation and optimization systems comprising computer software for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; installation, maintenance and repair of control systems comprising computer software for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; monitoring of computer systems to detect breakdowns in building, facility and plant automation and optimization systems to ensure proper functioning.

Class 45

Monitoring security alarm systems for building, facility and plant automation and optimization systems; monitoring building security alarm systems for facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; monitoring of security alarm systems from building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems.

Class 06

Transportable buildings of metal; bins, containers, above-ground vessels, barrels, terminals, vats and receptacles of metal for urban residues, waste and refuse; traffic, information and road safety signs of metal; signaling totems and columns of metal; pipes and poles of metal for supporting equipment for information and signaling; crash barriers of metal;

installations of metal for parking mechanical bicycles; all the aforesaid goods being non-luminous and non-mechanical.

Class 07

Machines, namely, machines for gluing, welding, punching, cutting and processing, machine tools; guns for dispensing glue; mechanical apparatus and tools for the automotive industry and the manufacture of parts for motor vehicles; anti-pollution devices for engines; automatic distribution machines; painting machines; spray guns for paint; robots for the automotive industry and the manufacture of parts for motor vehicles; industrial presses for the manufacture of parts for motor vehicles; molds (parts of machines) for the automotive industry and for the manufacture of parts for motor vehicles; electric machines and apparatus for cleaning; machines and machine tools for cleaning, removing, crushing, moving, dusting and treating urban residues, waste and refuse (disposers/sweepers); electric, pneumatic and hydraulic devices for opening vehicle roofs, windows and doors; calenders.

Class 09

Registered on-board computer and calculator programs; software (recorded programs); gasoline gages; electric regulating apparatus; electric monitoring apparatus; voltage regulators for vehicles; sensors; electric batteries including battery housing for electric vehicles, plug-in hybrid electric vehicle and fuel storage cells and component parts therefor; control units, sensors and actuators used to control, monitor, regulate and diagnose, on board vehicles, systems, modules and components relating to the production, storage, supply and transformation of energy, and the decontamination of vehicles; on-board computer and calculator programs and software for the control, monitoring, regulation and diagnosis, on board vehicles, of systems, modules, control units and vehicle components relating to the production, storage, supply and conversion of energy, and the decontamination of vehicles; electric and electronic apparatus and instruments for weighing, measuring and control; apparatus for reading, recording, transmitting and reproducing data; software, particularly for managing the pre-collection, mechanized collection, recovery and processing of industrial and household waste; luminous and/or mechanical traffic, information and road safety (signaling) signs; luminous and/or mechanical signaling columns and totems; traffic-light apparatus [signaling devices]; warning triangles; reflective strips (signaling); fuel cells for vehicles, energy conversion apparatus for vehicles; control units, namely, all parts relating to the production, storage, supply and conversion of all forms of energy on board vehicles, and decontamination.

Class 11

Incinerators; disinfectant apparatus; sanitary installations.

Class 12

Vehicles; apparatus for locomotion by land, air or water; vehicles for the maintenance of roads, street furniture and play areas; vehicles for transportation of waste; garbage trucks; dumpsters for the transport of household or industrial waste and refuse; sprinkling trucks; motor vehicles, motorcycles, vans, trucks; spare parts for vehicles; parts and constituents for vehicles, namely, body parts, constituent parts of bodies, bumpers, shields, hoods, tailgates, doors, fenders, fender extensions, protective panels, spoilers, roofs, trunk floors, floors, shock absorbers; vehicle modules; structural parts for vehicles; aerodynamic elements for vehicles, deflectors, spoilers, air guides for vehicles; cladding parts for vehicles; vehicle chassis; fuel tanks for vehicles; caps for vehicle gasoline tanks; vehicle components, spare parts, systems and modules included in this class,
