REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address <http://www.ipos.gov.sg> download the eTrademarks Account Holder Registration Form.

The person may appoint an Administrator to administer and manage his eTrademarks Account through the Maintenance of Authorised Representatives" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online trans GIRO Application Form and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and scientific apparatus and instruments for use in analysis; precision measuring apparatus; measuring, counting and calibrating instruments; alignment equipment for electronic audio apparatus; monitoring apparatus, electric; probes for scientific purposes; temperature sensing apparatus for scientific use; imaging devices for scientific purposes; image analyzers; apparatus for capturing and developing images; central processing units for processing information, data, sound or images; image scanners, computer programs for image processing; cameras; camcorders; high-resolution stereo cameras; automatic steering apparatus; steering apparatus, automatic, for vehicles, optical apparatus and instruments; physics (apparatus and instruments for -); teaching apparatus; surveying apparatus and instruments for the switching, transforming, accumulating, regulating or controlling electricity; frequency meters; sound locating instruments; masts for wireless aerials; gas testing instruments; speed checking apparatus for vehicles; apparatus for recording, transmission or reproduction of sound or images; digital recording media; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing equipment; computers; data processing equipment, encoders (data processing), computer software, computer programs (recorded and downloadable); computer software applications, downloadable; CD-ROMs [compact discs read-only memory] bearing sound and images; compact disc audio reproducers; compact discs [audio-video]; compact discs [read-only memory]; computer memory devices; downloadable image files; optical data carriers; electronic publications, downloadable; interfaces for computers; microprocessors; testing and testing (for trial) apparatus for air travel, space travel and motor vehicles; wind tunnels (testing or measuring installations), including transonic, high enthalpy or cryogenic wind tunnels; wind tunnels being measuring installation; Wind tunnels being testing installations; test benches for motors, engines and rockets; space simulation chambers, decompression chambers, navigation apparatus, navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus; aeronautical communications apparatus; data acquisition apparatus for air travel; radio communications devices and radio communications apparatus for air travel; computers for managing control devices for aircraft; flight simulators for aircraft; medical simulators [teaching aids]; scientific research and laboratory apparatus, educational apparatus and simulators; radar apparatus; radar systems; radar apparatus; radar antennas; radar receivers; radar detectors; radar apparatus; microwave detectors [radar]; communications equipment; on-board computers; measuring and regulating apparatus; data recording machines; sound recording machines; tape recording machines; frequency stabilising apparatus and voltage stabilising apparatus for air and space vehicles; apparatus for analysis [other than for medical use]; diagnostic apparatus, not for medical purposes; chemistry apparatus and instruments; astronomy (apparatus and instruments for -); distance measuring

apparatus; apparatus and instruments for recording distance; breathing apparatus (except for artificial respiration); observation instruments; chemistry apparatus and instruments; transmitters and receivers of electric signals, in particular for telecommunications; signals, luminous or mechanical; electro-dynamic apparatus for the remote control of signals; solar energy collectors for power generation; solar modules for electricity generation; particle accelerators; telescopes; monitoring apparatus, electric; printed circuit boards; printed circuits; electrical conductors; semiconductors; electrical inductors; electric installations for the remote control of industrial operations; ignition (electric apparatus for remote -); transistors [electronic]; accumulators (electric), in particular for vehicles; electrical connecting parts; antennas, in particular for receiving data and/or for data transmission, command transmission and rail surveying by satellites; antennae for communication with space vehicles; traffic control apparatus (electronic); traffic guidance apparatus [electronic]; steering apparatus, automatic, for vehicles; intelligent, cognitive controls, namely cognitive wireless communications systems, intelligent electronics systems for use in apparatus and installation construction for control of machines; voltage regulators for vehicles; electric batteries, in particular lithium ions and lithium metal batteries, lithium-air or lithium-sulphur batteries, in particular for motor vehicles; fuel cells, in particular solid oxide fuel cells and polymer membrane fuel cells, in particular for vehicles; fuel cell electrodes; electrolyzers; electric converters, in particular in the form of electro-chemical energy converters, in particular batteries and fuel cells and electrolyzers; furnaces for laboratory use; electricity transformers; step-up transformers; capacitors; electronic notice boards; lasers, not for medical purposes; laser scalpels, other than for medical use; solid state lasers, in particular disc lasers, with continuous-wave or pulsed operation; carbon dioxide (co2) lasers; eye-safe lasers; high-energy lasers, in particular chemical oxygen iodine lasers; high-power laser sources; satellites for scientific purposes; commutation (electric apparatus for -); electric distribution consoles; integrated circuits, electrical control boards; signals, luminous or mechanical; electro-dynamic apparatus for the remote control of signals; instrumentation simulators; instrumentation simulators; instrumentation simulators; simulators for the steering and control of vehicles; simulators for operation of cars, trains, air and space vehicles; simulators for training personnel in the flying of aircraft; laser pointers for advertising purposes; mousepads (mouse mats) for advertising purposes; magnets; magnets for decorative purposes, including fridge magnets and magnets for pinning to clothing for advertising purposes; apparatus and instruments for communications and high-frequency engineering; apparatus and instruments for measurement and for transmission of commands (signals); scanners (data processing equipment), in particular body scanners, in particular with terahertz technology; computer programs and software, irrespective of the recording or broadcast medium, namely software which can be recorded on a magnetic medium or downloaded from an external computer network, preferably in the field of energy technology, in particular in the field of thermal and chemical energy storage and of ceramic materials and in the field of fibre-reinforced ceramic composite materials; optical apparatus and instruments, communication devices and instruments and telecommunications apparatus for measuring traffic in regions and towns with test vehicles; apparatus for recording, transmission or reproduction of sound or images for laboratory use, research relating to traffic in regions and towns; scientific apparatus and instruments; apparatus and instruments for scientific research in laboratories; laboratory apparatus for use in scientific specimens; electric and electronic control apparatus and instruments for controlling rockets, in particular apparatus and instruments for transmitting commands (signals) and for measurement in

the form of signals (including telemetry, telecommand and radar); navigation apparatus for satellite and rockets; aircraft landing guidance apparatus; satellites for scientific purposes; flight controlling apparatus; in-flight testing equipment; apparatus for checking flight parameters; electronic flight altitude control systems consisting of cold gas regulators; thermoelectric sensors; magnetic sensors, optoelectronic sensors for observing the earth and space exploration, sun sensors, star trackers and gyro platforms for orientating objects in space, in particular for rockets and satellites; satellite earth stations, receiving antennas for satellite broadcast, satellite broadcasting instruments, small satellites; satellites for signal transmission, satellites for communication purposes, satellites for navigation purposes, satellites for scientific purposes, satellite antennas, satellite receivers, satellite receiving apparatus, satellite receiving devices, satellite apparatus, satellite communications apparatus, satellite navigation apparatus, satellite processors, satellite dishes, satellite broadcasting and receiving apparatus, satellite transmission apparatus, satellite transmission equipment, satellite transmission devices, satellite transmission instruments, computer software for control of satellites, encryption apparatus for satellite television signals; computer software for access to databases, in particular with information relating to measurement technology and test installations; recorded computer programmes [programs], recorded computer software; computer software, in particular for radiation identification and recording and reproduction of radiation identification or in the field of data capture, use and analysis of space weather conditions and warning in the event of unusual space weather, including solar storms; thermal energy measuring apparatus; devices for measuring energy; energy control devices; energy regulators; apparatus for managing energy supplies; robotic operating systems, automated control installations and optical information communication systems for energy technology, thermal and chemical energy storage; Electronic remote sensors for receiving and recording of data by means of antennae systems; electronic remote sensors for archiving remote sensing data in a data archive for visualisation, evaluation and reproduction of geographical information, satellite-based crisis information and atmospheric information; electronic remote sensors for archiving data in a data archive, visualisation, evaluation and reproduction of geographical information, providing traffic information and traffic routing, and directing of passenger flow and aircraft; Air traffic control apparatus; Sensing devices for the control of air currents; Air analysis apparatus; Remote control apparatus; electronic systems analysis and technological evaluation apparatus for air transport systems; Receivers for satellites; Navigation systems using satellite reference; Earth satellites for use in the security surveillance of spacecraft; Apparatus for localisation for vehicles via satellites; Satellite transceivers; Satellite transmitters; Digital image processors for the evaluation of imagery data; Evaluation apparatus; Programs for recording data in reproduction technology; Programs for the electronic arrangement of graphics in reproduction technology; Objectives for photographic reproduction; Carriers in the form of chips for the reproduction of data; Programs for the design of control information systems; Test instruments for temperature measuring sensors; Meters for testing humidity; Programs for recording data in reproduction technology; Instruments for monitoring traffic; Testing apparatus for motor land vehicles; Test apparatus for industrial use; Portable testing apparatus for aircraft; Portable test apparatus; Monitoring apparatus, electric, for testing vehicle bodies; Automotive performance testing apparatus; Map measuring instruments; Scientific apparatus for use in analytical tests; Reference apparatus for use in testing [laboratory or scientific apparatus]; Reference standards apparatus for use in test comparisons [laboratory or scientific apparatus]; Electronic remote sensors for atmospheric

correction of optical image data, in particular for archiving of data in a data archive, visualisation of geographical information, and atmospheric correction of data; Apparatus for monitoring atmospheric conditions; Weather information apparatus; Electronic remote sensors for receiving and recording of data by means of antennae systems to archive remote sensing data in a data archive for visualisation, evaluation and reproduction of geographical information, satellite-based crisis information and atmospheric information; electronic remote sensors for archiving data in a data archive, visualisation, evaluation and reproduction of geographical information, satellite-based crisis information and atmospheric information; Electronic apparatus for providing information and traffic routing, directing of passenger flow and aircraft; Electronic apparatus for providing communication links; Computer programs for providing a graphical presentation of data; Apparatus for climatic technology; Apparatus for managing energy supplies; Electric control devices for energy management; Thermal energy measuring apparatus; Solar energy collectors for electricity generation; Energy control devices in particular for the field of solar thermal technology; Test instruments for temperature measuring sensors; Apparatus for recording radiation; Apparatus for the recording and reproduction of radiation identification; Identification apparatus, electric or electronic; human-machine interfaces (computer interfaces).

Class 41

Providing of training, providing of further training, in particular for junior scientists, school children, students and doctoral students, including for industrial mechanics, electricians, in particular providing of further training for technical staff for test bench mechanics; technical training relating to safety; consultancy services relating to engineering education; conducting of engineering courses, teaching events, information events and symposia; conducting of information events (educational) in relation to engineering, particularly in the fields of air and space travel, energy, traffic and security; training services relating to the use of computer aided engineering systems; publishing of printed matter, in particular books, non-fiction books, children's books and school books, magazines, notebooks, newspapers (including in electronic form); education, including in the form of practical training; writing of texts, other than publicity texts; online publication of electronic, non-downloadable publications and of books and magazines; publication of electronic books and journals on-line; electronic desktop publishing; layout services other than for advertising purposes; arranging and conducting of conferences, congresses, symposia, seminars and workshops for training; organising of education exhibitions; performances (presentation of live -); movie studio services; film production, other than advertising films; creating image, film and sound representations for illustrating the material (film production); photography; photographic reporting; providing on-line videos, not downloadable; organisation of competitions, in particular in the form of prize contests and in particular in the form of selection the best representation of a research theme; organisation of sports competitions; education; providing of training; personnel training; personnel training, the aforesaid services being in particular in relation to personnel selection and/or personnel training in different professional groups and sectors, in particular for selection of employees to work in the fields of air and space travel, in particular pilots, air traffic controllers, astronauts and astronaut support staff; film production services involving creating image, film and sound representations using remote sensing data (including satellite image data, or image data from airborne platforms, including radio data and radar data) for illustrating the material; the aforesaid services in this class being in particular in the field of air travel, space travel, satellite technology for use in environmental science and

geoscience, in climate research, traffic research and energy research; entertainment; sporting and cultural activities; archive libraries for archiving of data in a data archive.

Class 42

Engineering services, engineering services for others; technical engineering; engineering services; engineering consultancy services; preparation of engineering reports; technical inspection services; technical project studies; engineering project management services; technological consultation services; technical research; conducting technical research projects and technical research studies; development of new technology for others; technical data analysis services; technical data analysis services; technical testing services; technical survey services; technical writing; writing of technological research reports; technical testing; professional consultancy relating to technology exploitation; engineering research; technological engineering analysis; engineering consultancy services; engineering services for the analysis of machinery; telecommunications engineering; technical design and planning of telecommunications networks; technical design and planning of telecommunications equipment; development of land vehicles, aeroplanes, aircraft, space vehicles and of rockets and satellites; engineering in the field of energy technology, energy production, in the field of alternative energy production and energy usage, in the field of production of electricity and natural gas; technical advice in connection with energy-saving measures; development of integrated energy concepts; consultancy in relation to energy usage; technological consulting services in the field of alternative energy generation; research and technical project planning and preparing of technical project studies in relation to use of natural or alternative energy sources; design and development of regenerative energy generation systems; energy auditing; development of energy and power management systems; technical design and planning of water purifying installations, including with the help of solar energy; technological consultancy in the field of solar thermal production of synthetic fuels; technical information in the field of environmental science relating to environmentally friendly and ecological innovations; technical design and technological planning of power plants, including of solar thermal power plants, wind parks, wind power plants or of hybrid power plants or power plant components, including of gas turbines or of combustion chamber systems; physics (research), industrial design, software development and chemistry services; technical measuring and testing; conducting of measurements in wind tunnels on space, air and land vehicles; model measurements of electric motors in wind tunnels; conducting of aerodynamic, aeroelastic, fluidic, aeroacoustic and aerothermodynamic measurements in wind tunnels; conducting of (stationary) vibration tests for structural dynamic examinations of aircraft and individual components for aircraft; conducting of tests on engine and gas turbine components in high pressure combustion chamber test rigs; conducting of laser-optic measuring procedures, in particular for fluid flow analysis; material testing; fire safety testing for fire protection qualifications, in particular for engine and aeroplane components; material testing; technical project studies; planning of technical projects in the engineering sector; design and development of new technology for others; scientific research services; research in the field of engineering; research in the field of natural science; scientific research; research relating to technology; advisory services relating to technological research; advisory services relating to scientific research; consultancy services relating to technological research; scientific consultancy services relating to scientific instruments; technological analysis services; technical project studies; research relating to technology; scientific testing services; scientific testing services; conducting of scientific studies; conducting of

technical feasibility studies; preparation of technical project analysis studies; provision of scientific information; providing science technology information; preparation of scientific reports; preparation of technological reports; conducting engineering surveys; technological consultancy; provision of technological information; technological services and design relating thereto; engineering design and consultancy; technical scientific consultancy and research and (engineering) research in relation to fluid dynamics, in relation to flow technology, to aeroelastics, drive technology, building purposes, structural technology, vehicle design, lightweight fibre composite structures, adaptive systems, flight guidance, airports, energy, energy technology, energy production, energy usage, oceanography, geophysics, seismology, hydrology, glaciology, biology, planetary geology, air traffic, flight systems, high-frequency technology, radar systems, microwave sensors, communication and navigation in air and space travel, and in marine travel, medicine, in particular in the field of aviation and space medicine; scientific research in the field of materials physics in space, in particular research into the properties of melts and the solidification thereof, astrophysics, methodology for remote sensing, meteorology, climatology, optical sensor systems, atmosphere physics, planetary exploration, space travel drives, space travel systems, telecommunications technology, robotics and mechatronics, solar systems, system dynamics, regulation technology, technical physics, technical thermodynamics, aeroplane engine acoustics, combustion technology, traffic on land, water and air, transport systems technology, materials, air transport systems, space flights and astronaut training, simulation and software technology, in relation to ergonomics, in relation to electrical energy, energy technology, in particular in relation to energy supply systems and in relation to environmental technology, in relation to security, including in relation to security of information systems and in relation to maritime security, air traffic control and preventing collisions between aeroplanes, ships and trains; technical consultancy in the field of environmental engineering and environmental science; industrial engineering design services; scientific and industrial research; technical assessments relating to design; technical surveying; scientific analysis; airborne remote monitoring of scientific explorations and investigations; laboratory (scientific -) services; chemical laboratories services, laboratory (scientific -) services; chemical analysis; advisory services relating to science; physics [research]; biological research; research in the field of technology and engineering; mechanical research; technical research in the field of air and space travel; technical consultation in the field of aerospace engineering; design of aircraft, space vehicles and land vehicles and of parts for aircraft, space vehicles and land vehicles; bacteriological research; solar research; research in the field of environmental protection; underwater exploration; research relating to security; research and development for others; technological consultancy and preparation of technical and scientific surveys, engineering and scientific consultancy in the field of energy saving and environmental technology; consultancy in the area of information technology (IT); design and development of navigation systems, including for navigation of aeroplanes and ships; conducting of tests and measurements, in particular of models, conducting of research assignments in the fields of natural science, engineering and medicine; scientific testing services, pollutions emissions testing for determining concentrations of emissions and hazardous substances; planning and design of test installations; rental of test installations, machines, in particular measuring vehicles, transportable rocket launch pads, satellite control devices, antennae for conducting scientific space missions; rental of electronic equipment, driving motors, measuring and research aircraft, data processing installations, test equipment, in particular for air and space travel and for energy production and conversion and for recording of traffic data, all for

quality and technical testing; cartography services; research in the field of earth observation; construction drafting; testing [inspection] of vehicles for roadworthiness; weather forecasting; computer hardware and software consultancy; design and development of computer hardware and software; technical research relating to computers; research relating to the computerised automation of technical processes; consultancy in the design and development of computer hardware; providing information on computer technology and programming via a web site; cloud computing; development of systems for the processing of data; data security consultancy; advisory services relating to computer programming; technical consultancy relating to the installation and maintenance of computer software; computer system analysis; computer virus protection services; provision of search engines for the internet; providing on-line information in the field of technological research from a computer database or the internet; electronic storage of scientific, scientific and technical, and professional business news and information; computerised data storage services for retrieval of information from the internet; monitoring of computer systems by remote access; digitalization of documents [scanning]; rental of computers and computer software; design of computer software and computerised systems; design of information systems relating to management; updating of computer software; scientific computer programming; computer aided scientific research services; computer aided scientific analysis services; computer-assisted technical data analysis; computer-aided engineering; providing numeric simulation software for development of aerodynamically efficient land and air and space vehicles, in particular for conducting of numeric aerophysical simulation; development of computer software for flow simulation and for aerophysical simulation; testing of aeroelastic stability limits of aeroplanes, helicopters and turbomachines by means of numeric simulation; designing, installing, copying, updating, maintaining and rental of computer software and computer programs; development of computer data processing programmes; computer programming; computer programming; engineering services, surveying, technical project management in the field of electronic data processing; engineering in relation to energy supply systems; data conversion of computer programs and data [not physical conversion]; conversion of data or documents from physical to electronic media; recovery of computer data; engineering services for applications on large and medium-sized computer systems; engineering services relating to computers; engineering services relating to computer programming; engineering services relating to automatic data processing; engineering relating to data processing and information technology; computer programming for data processing and communication systems; consultancy relating to software for communication systems; image processing software design; design and development of computer software for controlling, regulating and monitoring of solar energy systems, design, development and programming of energy management software; creation of computer programs for the energy industry; engineering services relating to information technology; engineering services relating to the design of communications systems; scientific computer programming services; engineering in relation to communications technology; engineering services relating to the design of communications systems; engineering relating to robot technology or robotics; consultancy relating to software for communication systems; maintenance and updating of software for communication systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development of methods for simulation of a complete air transport system; technological analysis services; technological consultation services; technological consultation services; technological services relating to computers; technological services and design relating thereto; technological services

and research relating thereto; technological research relating to computers; research relating to technology; safety technological testing services; IT security services in the nature of protection and recovery of computer data; design and development of software for control, regulation and monitoring of solar energy systems; design and development of computer software for regulating the position of satellites; technical advice relating to safety evaluation; technical advice relating to computer security; leasing of scientific instruments; rental of scientific equipment, in particular of antennae for operation of scientific space missions; advisory services relating to science; advisory services relating to science; scientific services and design relating thereto; scientific services and research relating thereto; scientific research; scientific research; scientific and industrial research; scientific and technological services and research and design relating thereto; industrial analysis and research; all of the aforesaid services in this class being in particular for the development of mechatronic components, automation processes, for integration of mechanics, optics, electronics and software development for creating "intelligent mechanisms", including robots, for development of man-machine interfaces, for development of robotic astronauts, humanoid robots for extra-vehicular activities during space missions and planetary rovers for supporting people in space, in particular robot servicing and exploration, for development of autonomous rovers for the moon and for mars, for development and conception of robotics for production of fibre composite structures, for highly integral production of fibre composite structures, and related technologies for automated assembly of large aviation structures, for development of mechatronic systems for aeroplane technology and vehicle technology, for development of automation devices and optical information systems, in particular of real time information systems, design and regulation of multi-body systems and aircraft; engineering, physics (research), chemistry research services, natural science (research), all being for the purpose of auditing, accreditation and certification in accordance with national and international standards, guidelines and legal norms in the field of technology, and the development of these standards, guidelines and legal norms, in particular in the field of energy technology, preferably solar technology, preferably solar thermal technology; computer programming, data processing (electronic data storage) by means of computers, development of computer software, preferably in the field of solar thermal technology; all of the aforesaid services in this class being preferably for operation of a satellite control centre, control and monitoring of satellites and for conducting of scientific space missions; German aerospace technical project planning to be adopted by the German government; scientific research, in particular for medical purposes and in particular robotics for medical purposes; engineering contract research for others and engineering testing of rocket engines, in particular liquid rocket engines, engineering testing for development, qualification and trialling of rocket engines and small engines for satellites and space probes; research and development for others; construction drafting; material testing; quality control; technical project studies; research in the field of environmental protection; water analysis; research services; agricultural research services; biological research and research in the field of environmental protection; development of technologies for processing renewable raw materials; engineering, physics (research), chemistry services, natural sciences research, all being for the purpose of consultancy, assessment, research, testing, monitoring, auditing, accreditation and certification in accordance with national and international standards, guidelines and legal norms in the field of technology, quality testing, quality control, product specification and product monitoring; technological consultancy of space weather situations; technical analysis of space weather situations; technical analysis of weather processes (including for efficient and safe air

travel), technical analysis of climate processes (including climate impact of emissions from air travel and of contrails); weather forecasting or reporting services, including solar storm information; the aforesaid services in this class, in particular in the field of radiation protection, in particular in the field of radiation dosimetry and/or space weather identification; development of computer software for radiation identification and recording and reproduction of radiation identification, and in the field of data capture, use and analysis of space weather conditions, warning in the event of specific space weather conditions, including solar storms; the aforesaid services in this class being in particular in the field of power technology and energy technology, in particular in the field of thermal and chemical energy accumulation, in particular with ceramic materials; all of the aforesaid services in this class being in particular in the field of remote sensing, in particular archiving of data in a data archive; provision of geodata (geographical information); technical analysis of satellite-based crisis information, using radar; design and implementation (development) of high-resolution imaging radar systems, in particular based on the principle of synthetic aperture radar (SAR), in particular in the field of SAR interferometry for generation of digital elevation models and for analysis of movements and in particular in the field of image analysis and photogrammetric methods for interpretation of high-resolution optical satellite image data, including 3d mapping of town areas and for automated finding of concealed information, including photorealistic 3d world modelling by means of cameras carried by satellites and aeroplanes, including for monitoring of biological and ecological conditions of coastal and inland waters; Calibration of instruments; Calibration services; Monitoring of telecommunication apparatus; Monitoring of computer systems to detect breakdowns; Testing, technical analysis and monitoring of satellite navigation apparatus; Machine condition monitoring; Development of a new generation of aircraft radio with complete cross-linkage of aeroplanes and ground control, including partially via satellite; Development of vehicles; Development of test equipment; Development of engines; Development of aircraft; Design of computer programs and software relating to aircraft; Aircraft design; Design and development of software and hardware for signal amplification and transmission; Electronic conversion of data in a data archive for visualisation of geographical information, satellite-based crisis information and humanitarian aid activities in the event of natural disasters; electronic conversion of data from satellites, similar space travel and flight systems, airborne platforms for remote sensing of image data from earth or of image data from other planets in a data archive; electronic conversion of remote sensing data received from satellites and airborne platforms in a data archive for optical transmission of satellite and air carrier data through the atmosphere; Research relating to planets inside and outside of our solar system, in particular researching the structure and age of planetary crusts, analysing the chemical composition and physical surface characteristics of planets and in relation to geological processes and interactions of planet surfaces with their atmospheres and cosmic radiation environment, developing remote sensing instruments for conducting of space experiments and researching the risk potential to the earth from possible collisions with asteroids entering the earth's orbit; Development of algorithms, processors, procedures and software for processing of satellite data, development of technologies for transmission procedures, receiving systems, data management, archives and validating and test environments for satellite data for operational multi-satellite missions in particular earth observation satellites; Development and testing of computing methods, algorithms and software; development of software systems for determining atmospheric state variables from satellite data, including for identifying trace gases relevant to the climate,

remote detection using lasers, including for detecting chemical, biological and explosive hazardous materials, for locating space debris or for laser-based tracking of the flight paths of debris parts in the universe; technical analysis relating to traffic and development of in-house procedures for calculating of future transport demand; preparation of technical reports relating to intelligent and environmentally friendly transport and mobility, and for traffic flow optimisation; preparation of technical reports relating to flight noise prognosis; technological development of future mobility concepts; design planning relating to traffic and control; development of systems for research platforms for transport applications and related data capture, data management, data processing and data visualisation; technical analysis relating to determining of driving behaviour in real-life traffic; testing the acceptance of driver assistance systems; preparation of technical reports relating to the cost effectiveness of rail transport in terms of railway and vehicle infrastructure, including increasing security and efficiency of road and rail transport, development of methods for influencing traffic flows and ensuring sufficient traffic flow; design planning incorporating traffic information, traffic observation and traffic routing; design of program for traffic information, traffic observation and traffic routing; technical analysis and assessment of new air transport concepts in relation to airports and transport links thereto, in relation to flight safety, including navigation and communications technology, flight operation and in relation to aeroplanes for technical and ecological assessment of air transport systems and for multi-disciplinary conception of virtual goods for the air transport system; technology services for measuring of traffic in regions and towns; technical analysis for measurement of traffic in regions and towns; conducting research for traffic in regions and towns; Compilation of data-processing programs; Visual design; Development of systems for the transmission of data; Development of systems for the storage of data; Research on city planning; Advisory services relating to product testing; Commissioning [testing and inspection] services; Development of test equipment; Development of testing methods; Engineering testing; Quality control testing; Testing of vehicles; Consultancy in the field of energy-saving; Research services relating to textile and non-autoclave infusion technology, robotics, in particular in the field of production of fibre composite structures, sensor systems, mechatronics, duromer and thermoplast processing, production integrated quality assurance, and assembly and connection technologies, volume components-RTM technology, online quality assurance for autoclave processes, mould technology, process simulation and aerodynamics, contract development of fibre composite materials; Textile design services; Textile testing; Design and development of computer software for evaluation and calculation of data; Design and development of software for control and monitoring of solar energy systems; Monitoring of telecommunication apparatus; Testing, technical analysis and monitoring of satellite navigation apparatus; scientific consultancy for researchers and inventors regarding establishment, maintenance and exploitation of intellectual property rights; scientific consultancy for entrepreneurs; technical consultancy relating to product development for entrepreneurs; technical consultancy in the field of environmental science for entrepreneurs; technical consulting in the field of environmental engineering for entrepreneurs; consultancy in the field of engineering construction drafting; engineering construction planning; preparation of reports relating to technical project studies for engineering construction projects; conducting technical project studies for engineering construction projects; consultancy in relation to development and validation (assessment of technical feasibility and functionality) of production processes on industrial scale; consultancy in relation to design of process chains in the field of lightweight production technology; quality assurance of

production methods, in particular in the field of lightweight production technology; technological consultancy in relation to development and production of carbon fibre-reinforced plastic components; electronic storage services for archiving data in a data archive; technical design, analysis and safety evaluation of air transport concepts, in particular in relation to airports and transport links thereto, aircraft, air traffic control, including navigation and communications technology, and in relation to flight operation; technical analysis and quality assessment relating to ecology of air transport systems; design of individual virtual goods for air transport systems; scientific services for control (steering) of satellites through operation of satellite control centres; scientific services for monitoring of satellites through operation of satellite control centres; quality control of satellites; quality control testing of satellites; testing, analysis and monitoring of telecommunication signals of satellites; development of terminal management systems for airports; development of simulation of manufacturing processes and imaging and modelling of passenger flow; providing of scientific information.

Class 45

Security consultancy; consultancy on regulations on safety of aeroplanes, spacecraft and land vehicles and computer systems; information services relating to safety; security services, in particular for airlines; fire-fighting; alternative dispute resolution services; licensing of technology; licensing of intellectual property; consultancy relating to intellectual property management; legal services; security services for the protection of property and individuals; safety consultancy in relation to safeguarding of German space travel interests at an international level by means of representing the federal government in matters relating to space travel, namely safety consultancy in relation to designing the German space travel programme on behalf of the federal government, safety consultancy relating to the integration of all German space travel activities at a national, European and international level into the German space travel programme; safety consultancy in all matters relating to EU space policy, compilation and annotation of all available information regarding space travel activities in the EU; providing of safety information and consultancy services to German companies and research facilities relating to tenders and funding opportunities in the Horizon 2020 EU research programme, relating to support for companies in planning and preparing applications, relating to development of an exploration strategy in collaboration with international partners outlining exploration targets in the solar system.

Class 01

Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry; glues in this class; chemicals for use in swimming pools; plant foods; plant growing media; plant growing substances; plant growth regulating preparations; plant growth regulators; plant growth stimulants; plant nutrients; hydraulic brake fluids.

Class 03

Cosmetics, toiletries; preparations for the hair; essential oils; perfumes and other perfumed products; bubble bath; bath and shower gel, soaps for personal use; body creams; body oils; personal care products (cosmetics) and beauty products; aftershave gels and lotions; antiperspirant; artificial nails; artificial lashes; bath oil; beauty masks; facial masks (cosmetics); cleaning masks for the face; body paint; bath beads; bath salts; blush; body and skin lotions; body glitter; body cleanser; body wash; body scrub; body gel; body bronzers; bubble bath; cleanser for the face; cologne; cotton swabs; creams for the body; cream for cuticles; cream for the eyes; cream for the face; creams including, cream for hands or feet; deodorant; exfoliators; eye gels; eye makeup; eye makeup pencils; eye shadow; eyeliner; eye lashes; false eye lashes; face mist; facial wipes impregnated with cleansers; face scrub; face toner; foundation; body splash; body mist; hair conditioner; hair dyes; hair shampoo; hair removal creams; hair spray; hair styling gel; hair styling mousse; lotion for the body; lotion for the hands; lotion for the face; lotion for the feet; lip balm; lip gloss; lip makeup pencils; lipstick; lip liner; makeup; makeup remover; mascara; massage cream; massage oils; nail corrector pens; nail polish; nail polish remover; non-medicated blemish stick; non-medicated cleanser for the face; non medicated body sprays; non medicated hair sprays; non medicated mouth spray; non-medicated massage ointment; oil blotting sheets for the skin; cosmetics in the form of powders including powders for the body face or the feet; pumice stones; rouge; shaving cream; salt scrubs for the skin; shower gel and cream; skin bronzing cream; soaps, including soaps for the face, the hands or body;

sun block for the body and face, suntan lotion for the body, suntan lotion for the face, sunless tanning lotion, pre sun tanning lotion, post-sun tanning lotion, powder and talcum powder; adhesive tapes for affixing false hair; adhesives for affixing false hair; bleaches for use on the hair; bleaching preparations for the hair; non-medicated cosmetic preparations in the form of chemicals for the hair; colour rinses (for the hair); colouring lotions for the hair; conditioners for treating the hair; conditioners for use on the hair; conditioning preparations for the hair; cosmetics for the use on the hair; cosmetics for the use on the hair; creams for the hair; dyes for the hair; fixatives for the hair; gels for use on the hair; hair balm; hair bleaching preparations; hair care agents; hair care products; hair colorants; hair conditioning rinses; hair cream; hair cosmetics; hair curling preparations; hair dyes; hair fixers; hair fixing oil; hair gel; hair grooming preparations; hair moisturisers; hair mousse; hair setting lotion; hair styling aids; hair permanent treatments; hair wave solutions; hair thickeners; spirit gum for affixing false hair; topical preparations for promoting hair growth; tints for the hair; hair removing preparations; hair protection creams; bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; dentifrices; all purpose cleaning and cleansing preparations, including, surface cleaning preparations, glass cleaning preparations and hand cleaning preparations; all purpose polishing, preserving, beautifying and protecting preparations namely preservatives for leather; carpet cleaning preparations; laundry detergents; tyre dressing preparations (shining preparations); wheel and tyre cleaners; brake parts cleaner; carburettor cleaner; disposable wipes impregnated with chemicals for cleaning and protecting automobiles; degreasing preparations for engines and motor vehicles; windshield cleaning preparations; car cleaning preparations; car polish; room and car fragrancing preparations; deodorants for pets; shampoos for pets.

Class 04

Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting; engine oils, engine starting sprays; non-chemical additives for engines; shock absorber oils; waxes in this class; petroleum jelly in this class; paraffin base lubricating oils; lubricating oils; fuel oils, kerosene and greases; gas in this class, including bottled gas, fuel gas, gas oil, liquefied petroleum gas; petroleum (raw or refined); petroleum coke.

Class 05

Algaecides (chemicals for swimming pool maintenance); disinfectants for use in swimming pools.

Class 06

Common metals and their alloys; container of metal (other than for household use); metal boxes and organisers for metal boxes (partitions of metal); metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; safes; goods of common metal not included in other classes; ores; doors and shutters of metal; security doors, garage doors, grilles; door frames and doors of metal; door handles and door levers of metal; insect screens of metal, including, insect screens for doors and insect screens for windows; outdoor blinds of metal; metal blinds (outdoor); awnings of metal; sun screens (outdoor) of metal; rods of metal; storage apparatus (structures) of metal; shelving parts of metal;

hanging storage racks of metal; metal brackets, including, metal shelf brackets; metal containers, including, containers for storage or transport; articles made of metal for anchoring carpets; articles made of metal for edging carpets; cover strips of metal for covering joints between adjacent carpets; metal fencing; metal fencing posts; metal fencing wire; small items of metal hardware; metal frames, being door frames and frames for windows; parts and fittings in this class for any of the aforementioned goods.

Class 07

Machines and machine tools; electric power tools, including, impact wrenches, impact drills, sanding machines, nibblers, grinding machines, band saws, reciprocating saws, cut-off machines; glue gun; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); portable electric power tools, including, grinding apparatus, drilling apparatus, reamers, hammers, nailers, staplers, chippers, riveters, concrete breakers, screw, bolt and nut drivers, polishers and buffers, saws, shears and nibblers, tappers, stud setters, wrenches, sanding machines, planers, routers, paint stripping machines, sharpeners for drill bits, saw blades and router cutters; portable electric domestic gardening apparatus, including, string trimmers and hedge trimmers; agricultural implements other than hand-operated; incubators for eggs; portable electric power tools included in this class and including grinding apparatus, drilling apparatus, reamers, hammers, nailers, staplers, chippers, riveters, concrete breakers, screw, bolt and nut drivers, polishers and buffers, saws, shears and nibblers, tappers, stud setters, wrenches, sanding machines, planers, routers, paint stripping machines, sharpeners for drill bits, saw blades and router cutters, domestic gardening apparatus including string trimmers, hedge trimmers and blower vacs; machine mowers, including, motor driven lawn mowers, seated (ride on) lawn mowers and self-propelled mowers; apparatus for electric welding; electrodes for welding; finished welding tips; welding torches (electric); parts and fittings in this class for any of the aforementioned goods.

Class 08

Hand tools and implements (hand-operated); cutlery; side arms; razors; garden tools and implements; saws; trowels; fertilizer scoops; spades; shovels; rakes; screwdrivers; shears; jigsaws; cutters; plant parasite killing apparatus; nail orange sticks (nail manicure implements); gaff (hand tools); parts and fittings in this class for any of the aforementioned goods.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electronic apparatus; batteries; electrical security and surveillance apparatus; compact disks, DVDs and other digital recording media; calculating machines; data processing equipment; video and/or audio electronic apparatus; electronic communication apparatus; computer programs; downloadable audio, video and image music file; downloadable software; computers; computer software; computer peripherals; laptop computers, tablet computers; personal digital assistants, computer terminals, electronic reading devices, electronic publications; network media players, helmet-mounted displays; wireless and wired remote controls for portable digital electronic devices, telephones, mobile telephones; smart phones, audio and video recorders and/or players for the home; portable and personal audio and video

recorders and/or players; players and/or recorders for MP3 and other digital audio and video formats; earphones, headphones; sports helmets; safety helmets; riding helmets; protective helmets; motorcycle helmets; crash helmets, cameras, video cameras, television apparatus, mobile television sets, electronic circuits, magnetic disks, optical discs, magnetic and optical disks, CD-Roms, (ROM compact discs), magnetic tapes and encoded DVD-ROMs; electronic circuits, magnetic disks, optical disks, optical and magnetic disks, CD-ROMs (ROM compact discs), magnetic tapes and encoded DVD-ROMs containing video game programs for professional use; control modules, distributor boards (electricity); portable electric sockets (power boards); cable for electrical transmission; apparatus for locating electrical cables; apparatus for recording, transmission or reproduction of sound or images; fire-extinguishing apparatus; goggles for personal protection; protective helmets; protective masks; measuring tools; measuring calipers; digital calipers; vernier callipers; tape measures; spirit levels; protractors (measuring instruments); counters; gauges; marking gauges; magnets; mirrors for security and surveillance; scales, including, bathroom scales, electrical scales and kitchen scales; eyewear; parts and fittings in this class for any of the aforementioned goods.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; lighting equipment and apparatus including light bulbs, torches including rechargeable torches, lamps, lampholders, lanterns; lighting installations including garden lighting, fairy lighting, LED lighting, luminous house numbers, security lighting including halogen floodlights and spotlight units, motion activated lights; Christmas lighting including coloured bulbs, flashing lights, musical flashing lights, sequential flashing lights; festoon lighting including moulded, harnessed and colour lamps; apparatus for heating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; gas barbecues and grills and structural parts therefor; stands for barbecues, with and without wheels; outdoor gas heaters and structural parts therefor, parts and fittings in this class for any of the aforementioned goods; heat guns; lighting equipment for automobiles, namely lamps and lamps for directional signals.

Class 12

Vehicles for locomotion by land; automobiles; accessories, parts and fittings for automobiles, namely, axels, brakes, brake linings, bumpers, clutches for land vehicles and tires; engines and motors for land vehicles; suspension systems for land vehicles; shock absorbers and springs for land vehicles; shafts for land vehicles; wheel bearings and shaft couplings for land vehicles; seat covers for vehicles; transmissions for land vehicles; wheels; wheel hubs; windcreens; windscreen wipers; rims for land vehicle wheels; alarm systems for vehicles; anti-theft devices for vehicles; alarm systems for land vehicles; anti-theft devices for land vehicles; parts and fittings for the aforementioned products.

Class 16

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; book covers of leather or imitation leather.

Class 17

Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal; insulating adhesives, sealants and seals in this class, including, rubber stops and rubber rings; flexible tubes of plastic, flexible pipes (not of metal) and fittings thereof in this class; draught excluder and draught excluder strips; plastic film other than for wrapping and threads of plastic for soldering; plastic film for window tinting; glazing film of plastic for solar control, insulation; protective plastic films for application to surfaces of material including glass, metal, fabric, vinyl and leather; sound proofing materials in this class; window films, including window films for tinting, glare reduction, solar control, ultra violet light protection, insulation, strengthening, security, protection and other purposes; decorative films for windows; decorative panels made of vinyl and polyester [semi-worked] for windows; parts and fittings for the aforementioned products.

Class 18

Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins, hides; trunks and travelling bags; luggage and carrying cases; back packs; handbags; purses; belt bags; sports bags; school bags; tool bags (empty); soft sided tool bags; briefcase-type portfolios; cases, wallets, holders, and all of either leather or imitation leather; clothing for pets; umbrellas and parasols; walking sticks; whips, harness and saddlery; parts and fittings in this class for any of the aforementioned goods.

Class 19

Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal; non-metallic flooring, including, ceramic tiles, parquet flooring and concrete flooring blocks; non metallic screens, including, insect screens, insect screens for windows, acoustic screens and glass screens; non-metallic screens (partitions) for bathrooms; walls (non-metallic structures); sun screens (outdoor), not of metal or textile; horizontal slatted blinds (outdoor), not of metal or textile; non-metallic blinds for exterior use; outdoor blinds, not of metal or of textile; roller blinds for external use (not of metal or textile); vertical blinds (outdoor) of non-metallic materials; window blinds (outdoor) not of metal or textile; non-metallic shutters; roller shades (outdoor) of plastic; sun screens (outdoor), not of metal or textile; plastic reinforcement rods for construction purposes; doors in this class, including, non metallic doors and shutters; security doors, garage doors, grilles; non metallic roller doors and roller shutters, insulated doors, sectional doors; overhead doors; insulated sectional overhead doors; wooden doors; non metallic door frames and doors; shelf units (structures) not of metal; non-metallic storage racks (structures); wooden racks (structures); components of non-metallic materials for fencing namely fencing, fencing panels, fencing posts and fencing rails; concrete fencing components; non-metallic fencing; non-metallic fencing materials; non-metallic fencing panels; non-metallic fencing posts; non-metallic fencing rails; interior window shutters; parts and fittings in this class for any of the aforementioned goods.

Class 20

Furniture, mirrors, picture frames; goods (not included in other classes) of wood, cork, reed, cane, wicker, horn, bone, ivory, whalebone, shell, amber, mother-of-pearl, meerschaum and substitutes for all these materials, or of plastics; plastic and wooden tool boxes and cabinets;

ladders of plastic, fibreglass or wood; work benches; wall mirrors; pocket mirrors; cable clips (not of metal); caps and closures for bottles (not of metal); crates; racks; valves (not of metal); tables; trays, not of metal; trestles; trolleys (furniture); storage containers (not of metal); storage bins; toolboxes of plastic and plastic inserts [trays] for toolboxes; plastic rods for curtains; tote boxes (plastic containers); clips made of plastics and room dividers in this class; cable and cord clips of plastics; cord management systems (non-metallic window hardware for organising and securing cords) for use with window shades and blinds; Austrian blinds; window blinds; window shades; roller blinds for use indoors; Venetian indoor blinds; vertical blinds (indoor); rods in this class, namely, curtain rods, drapery rods, non-metallic suspension rods for hanging up articles, picture rods (frames) and support rods for curtains; furniture, being desks, tables and chairs; work benches; coat hangers, including, scented coat hangers; doors in this class, including, cabinet doors, cupboard doors, doors for furniture, flipper doors for storage units, wardrobe doors and paper screen doors; door handles; non-metallic shelf bars, brackets and dividers; non-metallic shelf supports; shelf units (furniture); frames in this class, being carved picture frames, display frames, frames for mirrors, frames for photographs and picture frames; brackets for frames; non metallic containers in this class including, containers made of plastic; scented coat hangers for discharging room or closet fragrances; beds for domestic pets and household pets; carriers for transporting domestic pets (other than cages); hutches and kennels for pets; non metallic articles for anchoring carpets; non metallic frames, being non metallic pictures frames and display frames; non metallic articles for edging carpets; non metallic cover strips for covering joins between adjacent carpets; shelving not of metal; metal pictures frames, display frames, non metallic door handles; stools; parts and fittings in this class for any of the aforementioned goods.

Class 21

Household or kitchen utensils and containers; combs and sponges; waste bins for household purposes; laundry bins for household purposes; brushes (except paint brushes); brushware; brush-making materials; articles for cleaning purposes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes; tooth brush holders; racks in this class, being clothes racks, ironing racks, towel racks and drying racks; containers in this class, being containers for beverages, cosmetics, domestic use, flowers, food, soap, storage purposes (household or kitchen use) and toothbrushes; pots, including, flower pots, pots made of plastic and pots made of earthenware; clothes horses (airers); buckets; containers made of mesh; cages for household pets; food bowls for pets; litter boxes (trays) for pets; plastic containers for pets; parts and fittings in this class for any of the aforementioned goods.

Class 22

Ropes, string, nets, tents, awnings, tarpaulins, sails, sacks and bags (sacks), not included in other classes; padding and stuffing materials (except of rubber or plastics); raw fibrous textile materials.

Class 24

Textiles and textile goods, not included in other classes; bed covers; table covers; towels, including, bath towels, beach towels and face towels, covers for cushions; blanket throws; shams; tea towels; napkins; place mats; table cloths; bed skirts; curtains; textiles and textile goods, not included in other classes; table covers; furniture and upholstery fabrics; bed linen, including sheets, bed skirts, valances, pillow cases, cushion covers, bedspreads, bed covers, comforters, quilts, quilt covers, blankets, curtains,

drapes, shower curtains; bath linen, including bath towels, hand towels and facecloths; table linen, including table cloths, napkins, table runners and place mats; fabrics for clothing and dressmaking; wall hangings made of textiles; lining fabric for shoes; parts and fittings in this class for any of the aforementioned goods.

Class 27

Carpets, rugs, mats and matting, linoleum and other materials for covering existing floors; wall hangings (non-textile); mats in this class, including, bath mats, door mats, non-slip mats and rubber-backed mats; bath mats; feeding mats for domestic pets; parts and fittings in this class for any of the aforementioned goods.

Class 28

Games and playthings; gymnastic and sporting apparatus; gymnastic and sporting articles, balls for games, tennis rackets, cricket bats, cricket pads, golf clubs, hockey sticks, rackets for table tennis, badminton and squash; bags for carrying sports equipment and sports balls; roller skates and ice skates; surf boards; body boards; skate boards; tables and nets for table tennis; shin guards, elbow supports, knee supports, ankle supports; gloves made specifically for use in playing sports; protective padding for playing sports; martial arts equipment and accessories thereof; boxing equipment and accessories thereof; articles, equipment, machines and apparatus for physical exercise; fitness articles, machines and apparatus; yoga and stretching exercise equipment and apparatus; machines incorporating weights for use in physical exercise; weights for physical exercise; weight lifting belts (sports articles); wrist bands for use in playing sports; sporting equipment for the disabled; apparatus for use in fishing; fishing articles; apparatus for use in fishing; fishing equipment in this class; artificial fishing bait; audible indicating apparatus for use in fishing; bags adapted for fishing; bags adapted to hold fishing tackle; bite indicators (fishing tackle); bite sensors (fishing tackle); cases for fishing rods; creels (fishing traps); decoys for hunting or fishing; fishing bags; fishing bait (synthetic), artificial fishing bait; fishing floats; fishing hooks, fishing holdalls; fishing ground baits; fishing lines; fishing line casts; fishing plumbs; fishing lures; fishing rod guides; fishing leaders; fishing reels; fishing reel cases; fishing rigs; fishing rods; fishing rod blanks; fishing rod cases; fishing rod rests; fishing rod supports; fishing sinkers; fishing tackle; fishing tackle boxes; fishing tackle float swivels; fishing tackle holdalls; fishing tackle wallets; fishing weights; flies for fishing; fly-tying materials for making flies for fishing; gut for fishing; landing nets for fishing; lures (artificial) for fishing; paternosters (fishing tackle) poles for fishing; swivels (fishing tackle); toys for pets; balloons (toys); parts and fittings in this class for any of the aforementioned goods.

Class 29

Meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats; chips (French fries); low-fat potato chips; potato chips.

Class 30

Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour and preparations made from cereals; bread, pastry and confectionery; biscuits; popcorn including flavoured popcorn; chips (cereal products); corn chips; rice chips; edible ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar, sauces (condiments); spices; ice.

Class 31

Grains and agricultural, horticultural and forestry products and grains not included in other classes; live animals; fresh fruits and vegetables; seeds; natural plants and flowers; foodstuffs for animals, malt; beverages for pets; pet food; pet animals; raw popcorn (unprocessed kernels).

Class 32

Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages.

Class 35

Wholesaling and retailing services, including, such services provided online; department store, specialty store and direct mail and online retailing services, advertising and business management services, retail and online marketing and sales promotions including sales promotions at point of sale or purchase, sales promotions by means of display, presentation and demonstration; marketing services, including, direct mail marketing and marketing by electronic means; loyalty related services in this class, namely organisation, operation and supervision of customer loyalty schemes; registry services (administration services being recording and maintaining lists and information for others); presentation of gift hampers for sale including online; retailing of gift hampers and business management for delivery thereof, excluding delivery services.
