GENERAL INFORMATION

Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules.

It is published weekly on Fridays and on other days when necessary, upon giving notice by way of circulars found on our website.

Requests for past issues of journals published more than three months ago may be made at <http://bit.ly/paymentipos> and is chargeable at \$12 per issue.

Instructions on payment will be provided to you via email within 7 working days after we receive your online request. Payment shall be made via IP²SG's payment platform. Acceptable modes of payment include Internet Banking, Visa/Master credit and debit cards and GIRO.

The journal(s) will be reproduced in CD-ROM and we will arrange an appointment with you to collect the CD-ROM at the following address:

Address: Intellectual Property Office of Singapore
1 Paya Lebar Link, #11-03

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Date of Protection in Singapore: 18/05/2018

Date of Notification: 18/10/2018

Class 09

Mobile apps; all the aforesaid exclusively in relation to trade fairs, exhibitions, congresses and events in connection therewith.

Class 16

Instructional and teaching material (except apparatus); catalogues; posters; prospectuses; agendas; all the aforesaid exclusively in relation to trade fairs, exhibitions, congresses and events in connection therewith.

Class 35

Employment agencies; updating of advertising material; consultancy and advisory services relating to personnel placement; providing recruitment information via a global computer network; personnel recruitment agency services; exhibitions (conducting -) for business purposes; developing promotional campaigns for business; publication of publicity texts; job matching services; career networking services; market research; market analysis; marketing studies; market studies; trade show management services; organisation of exhibitions and events for commercial or advertising purposes; arranging and conducting of exhibitions for business purposes; organization of exhibitions for commercial or advertising purposes; arranging of demonstrations for advertising purposes; planning and conducting of trade fairs, exhibitions and presentations for economic or advertising purposes; arranging of exhibitions for business purposes; promoting the goods and services of others over the internet; arranging of commercial and business contacts;

arranging of business introductions; demonstration of goods for promotional purposes; rental of advertising space; advertising; online promotion of computer networks and websites; advertising, including on-line advertising on a computer network; provision of advertising space; provision of advertising space on electronic media; compilation of statistics; sales promotion (for others).

Class 41

Exhibition services for entertainment purposes; exhibition services for educational purposes; organisation of congresses and conferences for cultural and educational purposes; arranging of conventions for training purposes; arranging and conducting of conferences, congresses, symposia, workshops; conducting of seminars and congresses; organisation of conferences; arrangement of conventions for recreational purposes; arranging of conventions for business purposes; arrangement of conventions for educational purposes; arranging of conventions for business purposes; training and further training consultancy; arranging and conducting educational conferences; arranging of exhibitions for cultural or educational purposes; arranging of displays for educational purposes; organising of exhibitions for entertainment purposes; arranging and conducting competitions.

Class 42

Software design and development; web site design and creation services; all the aforesaid exclusively in relation to trade fairs, exhibitions, congresses and events in connection therewith.

Class 45

Consultancy relating to trademark licensing; all the aforesaid exclusively in relation to trade fairs, exhibitions, congresses and events in connection therewith.

MOBILE SEASONS GMBH

MESSEDAMM 22 14055 BERLIN GERMANY

Youniverse 40201822738S (09 35 42)
(International Registration No. 1432379)

Date of International Registration: 10/01/2018
Date of Protection in Singapore: 10/01/2018
Date of Notification: 01/11/2018

Class 09

Software and software libraries for use in the development, performance and the operation of other software on mobile devices, computers, in computer networks and in worldwide telecommunication networks; compiler programs; computer programs for implementing of a computer programming language; development tools for computer software; computer software libraries; software for the access to a cloud computing network and the use thereof; software for the development of websites; computer software for the provision of web based access to applications and services via a web-operating system or a portal interface; computer software for database management; computer software for cloud computing networks and applications; application software for wireless devices; computer software, recorded; electronic publications, downloadable; mobile apps; software; computer software applications, downloadable.

Class 35

Provision of an on-line marketplace for buyers and sellers of goods and services; procurement services for others [purchasing goods and services for other businesses]; ordering services for third parties; import-export agencies; marketing, market research and market analysis; merchandising services; presentation of goods on communication media, for retail purposes; product demonstration and product presentation services; sales promotion for others; negotiation and conclusion of commercial transactions for third parties; procurement of contracts for others; administrative processing of purchase orders; compilation of directories for publishing on the internet; advertising, marketing and promotional services; all aforementioned services only for and in the field of software, computer programs and mobile apps; the bringing together, for the benefit of others, of a variety of goods, excluding the transport thereof, namely of the following goods: application software for mobile devices, electronic publications, mobile apps, software, software applications for computers (downloadable) to enable customers to conveniently view and purchase those goods; retail and wholesale services for the following goods: application software for mobile devices, electronic publications, mobile apps, software, software applications for computers (downloadable); commercial information and advice for consumers [consumer advice shop].

Class 42

Consultancy and development services with regard to software programming; providing technical information for the design, the development and the programming, the selection and the implementation of computers, computer software and computer networks; providing temporary use of non-downloadable software accessible via a website for the development of software and websites; providing temporary use of non-downloadable software accessible via a website for the operation and maintenance of computer networks and computer servers; providing temporary use of on-line non-downloadable software; services of an application hosting provider; software as a service [SaaS]; hosting a platform for the development of software, especially in the form of Software as a Service [SaaS]; Platform as a Service [PaaS]; Infrastructure as a Service [IaaS]; cloud computing; providing temporary use of on-line non-downloadable operation software for the access to cloud computing networks and the use thereof.

Priority Claims:

Class 09

12/07/2017

Germany

Software and software libraries for use in the development, performance and the operation of other software on mobile devices, computers, in computer networks and in worldwide telecommunication networks; compiler programs; computer programs for implementing of a computer programming language; development tools for computer software; computer software libraries; software for the access to a cloud-computing network and the use thereof; software for the development of websites; computer software for the provision of web based access to applications and services via a web-operating system or a portal interface; computer software for database management; computer software for cloud-computing-networks and applications.

Class 09

25/07/2017

Germany

Application software for wireless devices; Computer software, recorded; Electronic publications, downloadable; Mobile apps; Software; Computer software applications, downloadable

Class 35

25/07/2017

Germany

provision of an on-line marketplace for buyers and sellers of goods and services; Providing evaluative feedback and ratings of sellers' goods and services and buyers' and sellers' performance; Procurement services for others [purchasing goods and services for other businesses]; Ordering services for third parties; Import-export agencies; Marketing, market research and market analysis; Merchandising services; Presentation of goods on communication media, for retail purposes; Product demonstrations and product display services; Sales promotion for others; Negotiation and conclusion of commercial transactions for third parties; Procurement of contracts for others; Administrative processing of purchase orders; Compilation of directories for publishing on the internet; Advertising, marketing and promotional services; all aforementioned services only for and in the field of software, computer programs and mobile apps; The bringing together, for the benefit of others, of a variety of goods, excluding the transport thereof, namely of the following goods: application software for mobile devices, electronic publications, mobile apps, software, software applications for computers (downloadable) to enable customers to conveniently view and purchase

those goods; Retail and wholesale services with the following goods: application software for wireless devices, electronic publications, mobile apps, software, software applications for computers (downloadable); Commercial information and advice for consumers [consumer advice shop]

Class 42

12/07/2017

Germany

Consultancy and development services with regard to software programming; providing technical information for the drafting, the development and the programming, the selection and the implementation of computers, computer software and computer networks; providing online access to non-downloadable software for the development of software and websites; online access to non-downloadable software for the operation and maintenance of computer networks and computer servers; providing temporary use of on-line non-downloadable software; services of an application hosting provider; software as a service [SaaS]; providing a platform for the development of software, especially in the form of Software as a Service [SaaS]; Platform as a Service [PaaS]; Infrastructure as a Service [IaaS]; Cloud computing; providing temporary use of on-line non- downloadable online operation software for the access to cloud-computing-networks and the use thereof

Class 09

Computer software; software for editing text files; file sharing software; computer software for document management and for sharing of documents; downloadable contracts and clauses and other downloadable documents in electronic form; databases; computer software for encryption; downloadable software for editing and word processing.

Class 35

Provision of business data in the form of standard and/or template contracts and clauses for others; providing commercial information from online databases; provision of business data in the form of standard and/or template contracts, clauses and documents for others, for online retail purposes; compilation and systemization of information into computer databases; records management services, namely, document indexing for others; arranging of commercial transactions and procurement of commercial contracts.

Class 38

Provision of access to an electronic online network for retrieval and exchange of information; electronic data interchange services; providing access to content, websites and portals; providing access to portals on the

internet for sharing documents; providing access to portals on the internet; online document delivery via a global computer network; provision of access to data or documents stored electronically in central files for remote consultation; electronic exchange of data stored in databases accessible via telecommunication networks; providing access to databases on the internet; providing telecommunications connections to the internet or databases; secure transmission of data, sound or images; computer aided transmission of information and images; transmission of computerised documents; electronic document transmission services; electronic transmission of messages, data and documents; communication services, namely, electronic transmission of data and documents among users of computers; online delivery of contracts, clauses and documents via a global computer network; provision of access to databases of contracts, clauses and documents.

Class 42

Providing non-downloadable software on a global computer network; providing online non-downloadable software for editing and word processing; providing computer facilities for the electronic storage of digital data; digitalisation of documents; electronic storage and logging of files and documents; encryption and decryption of information, messages and data; authentication of messages and data in electronic form.

Date of Notification: 13/09/2018

Class 09

Computer programs; computer software; application software; computer databases; software, for the creation, management, updating and operating of databases; downloadable software for use in connection with computers; computer software and application software for teaching, training, education, examination and assessment; software and application software for use in computer assisted and computer mediated services for the provision of distance learning programmes; downloadable educational and training materials; educational computer software packages; software and application software for the provision of services relating to business, advertising, marketing and recruitment; computer software for downloading text, graphics, images and electronic publications; educational and instructional tapes, videos, sound recordings, CD ROMs, DVDs, high definition discs; downloadable electronic books, publications, texts, calendars, brochures, periodicals, prospectuses, catalogues, diaries, newsletters, magazines, documents, training materials, educational materials and teaching materials; downloadable digital materials; e-tools, namely, electronic and online work manuals and guides; parts and fittings for all the foresaid goods.

Class 16

Printed matter, books, publications, paper, texts, calendars, stationery, brochures, periodicals, prospectuses, catalogues, diaries, newsletters, magazines, documents, training materials, educational materials and teaching materials; printed matter, books, publications, texts, periodicals, newsletters, magazines, documents, brochures, training materials, educational materials and teaching materials for the purpose of teaching, training, education, examination and assessment; printed matter, books, publications, texts, periodicals, newsletters, magazines, documents and brochures for the provision of services relating to business, advertising, marketing and recruitment.

Class 35

Business information and advisory services; marketing; organising and arranging business and marketing competitions; database management; organization of events, exhibitions, fairs and shows for promotional, marketing and advertising purposes; organization of events, exhibitions, fairs and shows to promote careers in marketing; business consultancy services; information services relating to business, business networking and marketing; information and advice services relating to jobs and career opportunities; recruitment; online recruitment; information and advice services relating to recruitment; career placement; job placement; information and advice services relating to advertising, promotional and marketing services; information, advice and consultancy services relating to all of the aforesaid.

Class 41

Educational and training services; educational and training services relating to marketing and business; teaching and tuition services; school services; academic examination services; organisation of educational

examinations; organisation of educational courses and programmes which result in the awarding of diplomas and certificates; organisation of award ceremonies; organisation of educational competitions and awarding of prizes; preparation, design, development, validation, accreditation, administration, hosting, managing, organising and provision of educational courses, training courses, seminars, workshops, lectures, exhibitions, conferences, summer schools, award ceremonies, competitions, examinations, assessments, tests, diplomas, certificates and awards; preparation, design, development, validation, accreditation, administration, hosting, managing, organising and provision of computer assisted and computer mediated educational courses, training courses, seminars, workshops and lectures to allow distance learning programmes; distance learning services; provision of education online from a computer database or via the Internet or extranets; providing non-downloadable electronic publications; providing non-downloadable educational and training materials; publication of books, texts and other printed matter; publication of educational and training materials, examination materials, examination papers and syllabuses; vocational skills training; career and vocational counselling; information, advice and consultancy services relating to all of the aforesaid.

(International Registration No. 1424186)

NBH 630

Date of International Registration: 20/04/2018
Date of Protection in Singapore: 20/04/2018
Date of Notification: 27/09/2018

Class 07

Machine tools for material processing and production and tools therefor as well as their component parts and accessories; machine housings; housings for machines and motors; metalworking machines; metalworking machine tools; machine tools for drilling; machines and machine tools for material processing and production; numerically controlled machine tools; turret lathes [machine tools]; robots for machine tools; turrets with radially extending machine tools; machine tools for thread-cutting; machine tools for grindings; machine tools for cutting; numerically controlled machines [NC machines]; numerically controlled processing stations [machines] with automatic tool changers for drilling processes with palletization systems; numerically controlled turning machines; numerically positionable universal milling machines; thread-cutting machines with numeric positioning; production plants consisting of interlinked machine tools and production plants for industrial purposes consisting of interlinked machine tools; radial feeding machines [machines]; machine stands; machine controls [machine parts]; tables for machines; spindle adapter flanges for machine tools; spindles for machine tools; spindle shafts [machine parts]; spindle shafts [parts of motors]; truing devices for blades [machine tools]; drive mechanisms for machine tools; drives for machines; electric drives for machines; electric drive motors for machines; gear mechanisms for machines; linear actuators [machine parts]; drills for machine tools; drill bits [machine

tools]; milling machines [machine tools]; thread milling cutters [machine tools]; chisel heads [machine tools]; ring hole milling cutters [machine tools]; grinding wheels [machine tools]; cutting inserts for machine tools; cutting tools for machine tools; masonry drills [machine tools]; gear cutters [machine tools]; hydraulically driven tools [machine tools]; mechanically actuated tools; modular tools [machines]; pneumatic tools for machines; rotating tools [machines]; tools [machine parts]; milling tools [parts of machines]; precision turning tools [machine parts]; rotating metal cutting tools [machine parts]; rotating milling machines [machine parts]; guiding frames for machine tools; handles as parts of machine tools; ball races for machine tools; magnetic holders for machine tools; dies for use with machine tools; pallet changing devices for machine tools; depalletisers [machines]; lathes [machine tools]; rotating tables for machine tools; electric drives for machine tools; clamping devices for machine tools; workpiece clamping devices for machine tools; mounting parts for machines used for clamping of workpieces; XY positioning tables [machines]; workpiece carriers [machines]; robots; tensioners [machines]; rotating indexing machines; fixers for workpieces [machine parts]; gliding carriages for workpieces [machine parts]; sled supports [machine parts]; drums [parts of machines]; workpiece consoles [machine parts]; workpiece carriers [machine parts]; machine tool holders; mechanical controls for motors and machines; mechanical process controllers for machines and motors; mechanical process control units for machines and motors; hydraulic process controllers for machines and motors; hydraulic process control units for machines and motors; pneumatic process controllers for machines and motors; control units for machines or motors; feeding devices for machines; lubricating devices [machine parts]; modular couplings for machine tools; multi-purpose spindle heads for drilling [machine parts]; hydraulic door openers [machine parts]; hydraulic door closers [machine parts]; pneumatic door openers and closers [machine parts]; parts of the previously mentioned goods; all goods mentioned hereinbefore not for use in the dental sector.

Class 09

Measuring and test equipment and instruments; electric control, measuring, registering and monitoring devices, in particular control, measuring, registering and monitoring devices for numerically controlled machine tools; measuring, identification and monitoring instruments, equipment as well as controllers; measuring apparatuses; measuring instruments; sensors for machine tools; sensors for the use in the control of engines; numeric control devices; automatic control devices; electric controls; electric control devices; connection modules for electric controls; programmable controls; electronic control systems; temperature control devices [electric switches] for machines; temperature control devices [thermostats] for machines; temperature limiters for machines; temperature regulation devices for machines; machine monitors; material testing instruments and machines; electromotive testing equipment [monitoring or controlling]; electric testing instruments; testing equipment for electronic instruments; testing equipment for hydraulic systems; control apparatuses [electric]; electric measuring devices; electronic measuring devices; industrial process control software; software for use in combination with the industrial manufacture and/or for production planning, in particular numeric control programmes and machine tool operating programmes; computer software for data processing; data processing programmes; data processing systems; data processing equipment; data processing devices; apparatuses and instruments for controlling electricity; numeric electromechanical, electric and electronic controls and/or data processing devices for machine tools and/or turning machines and/or for assemblies of machine tools.

Class 42

Design of machines, devices, instruments [including their parts] or of plants consisting of such machines, devices and instruments; engineering services for the design of machines; development and generation of computer programs for data processing; services for the design of electronic data processing software; design of data processing systems; design of data processing programmes; programming of electronic control systems; generation of programs for industrial manufacture and/or for production planning, in particular the generation of programmes for numeric control of machine tools; technological consultation with respect to performance and operation of machines, for which differentiated expert knowledge, techniques and experience is required in order to ensure correct operation together with computers, motor vehicles and for other purposes; engineering testing and research with regard to machines and apparatus.

Class 07

3D printers and printers for additive manufacturing; adjusting stands [parts of machines] for driver assistance systems; adjusting stands [parts of machines] for vehicles and vehicle components, in particular vehicle function test stands and combined roll, brake and abs test stands; air brushes [paint spraying]; apparatus and installations for filling vehicles with equipment; assembly and disassembly apparatus for vehicle components and assemblies; assembly apron conveyors; assembly devices and assembly installations for motor vehicles or airplanes; assembly platforms; automated machines for loading materials; automatic sprayers for electrostatic painting; chain conveyors; clamping tools for balancing machines and mounting apparatus; coating robots; control apparatus for conveyors; control apparatus for paint treatment systems; control mechanisms for machinery or engines; conveyor devices and installations; conveyor devices for transporting objects in painting installations; conveyor suspension gear; conveyors [machines], conveyors and conveyors belts; cross belt conveyors; devices for the initial filling of motor vehicles with fuel; drilling and milling machines; drives for conveyors; drives for machines and motors; dye filters (parts of machines); elevating platforms; equipment for mechanical engineering, namely for manufacturing plants, robotics, heating and cooling systems and transport systems for processing materials and for manufacturing, which is remotely controlled, tuned, optimized and/or monitored in connection with cloud computing, cloud networks or IOT (Internet of Things) communications; catalytic converters for exhaust air; exhausters being suction ventilators; filling apparatus; fittings for paint-spraying installations; floor conveyors; grippers being parts of machines; handling devices (machines); headlamp adjustment stands [parts of machines]; hydraulic and pneumatic controls for machines; industrial robots; industrial robots for working metal; industrial robots for working wood; installations and apparatus for lacquer treatment, lacquer care and/or lacquer distribution; installations and apparatus for the application of lacquers, adhesives and/or sealing materials; installations and apparatus for the assembly of vehicle components, in particular front ends, discs, cockpits, seats, wheels or doors; installations and equipment for removing lacquer from components of all kinds, using high-pressure water or chemical substances; installations and equipment for the preservation of components and car bodies using spray and/or flood methods; installations for impregnating components of all kinds; installations for processing and storing impregnating resins for impregnating components of all kinds [machines]; installations for the assembly and disassembly of vehicle components and assemblies; installations for the treatment and storage of wax for preserving components and car bodies [machines]; lacquering robots; lifting and hoisting equipment, elevators and escalators; lifting conveyor apparatus; lifting devices; lifting platforms for vehicles; loaders [conveyors]; machine parts, namely cylinders (machine parts), breaks for industrial machines, belt drives, belt pulleys, clutch levers, other than for land vehicles, drive mechanisms, industrial process controllers (pneumatic), industrial process controllers (hydraulic), pressure regulating apparatus being parts of machines, regulators (parts

of machines), valves (parts of machines), heat exchangers; machinery for the handling of materials; machines and equipment for the processing of cooling lubricants; machines and machine tools; machines and machine tools for the preparation of materials and for production; machines and machine tools that are remotely controlled, tuned, optimized and/or monitored via cloud computing, cloud networks or IOT (Internet of Things) communications; machines for loading; machines for metal processing; machines for the drying and hardening of lacquers and coats on lacquered or coated objects, in particular vehicle bodies; machines for the handling of cargo; machines for the processing of workpieces; machines for the supply of air; machines for use in assembly; matching machines for wheels and tires; mechanical and/or electric lacquering apparatus and automatic lacquering machines being components for lacquering installations; mechanical devices and installations for handling vehicle components; mechanical railed lifting conveyors; mechanically-operated lifting trucks and elevators; mounting apparatus for vehicle tires and tire-inflating valves; mufflers [parts of exhaust systems]; mufflers [parts of machines]; overhead conveyors; overhead monorail equipment (conveyor devices); paint spraying apparatus; paint spraying guns; paint treatment installations and apparatus; painting machines; paint-spraying installations; pneumatic tire-inflating apparatus; positioning tables [machines]; process control mechanisms for manufacturing installations; production facilities for the manufacture of material production machines that are remotely controlled, monitored and/or optimized via cloud computing, cloud networks or IOT (Internet of Things) communications; production installations consisting of machines for material treatment and production facilities for the manufacture of automobiles; pulleys [parts of machines]; retractable platforms [machines]; robotic filling machines; robotic guns for compressed air spraying machines; robotic handling apparatus; robotic loaders for diffusion furnaces; robots [machines]; robots [machines] that are remotely controlled, tuned, optimized and/or monitored via cloud computing, cloud networks or IOT (Internet of Things) communications; robots for applying sealing material; robots for applying glue; robots with articulated arms for manipulating workpieces; industrial robots with artificial intelligence; roller channels [machines]; roller conveyors; rotary conveyor apparatus; screw conveyors; skid steer loaders; sorting apparatus, appropriate to the unbalance or weight, size or designation of the objects being sorted; sorting machines for industry; spray boxes as a part of machines; spray cubicles and spraying apparatus as a part of machines, in particular for scouring, disinfecting, phosphating, passivating, chromating and/or varnishing; spray guns; spray nozzles as a part of machines; spray tables as a part of machines; spraying apparatus for paints and/or lacquers for industrial purposes; spraying machines; stacking machines; stirring apparatus for dyes; supply and disposal installations for installations and apparatus using high-pressure media; tools for machines; track and king pin angle adjusting tools (machine parts); transportation robots; transporters [conveyors]; vehicle conveyors; workpiece clamping attachments [machines].

Class 09

3D spectacles; access points on a local area network (LAN) for connecting network computers; apparatus and fittings for balancing machines; apparatus and installations for testing motor vehicles; apparatus and installations for testing status-oriented machine maintenance; apparatus and installations for testing vehicle electrics and electronics; apparatus and software for testing vehicle electronics and for the programming of, and communication with, vehicle control apparatus and installations constructed from the aforesaid apparatus; apparatus for conducting unbalance alignment, apparatus for detecting play; apparatus for

headlamp adjustment; apparatus for measuring axels; apparatus for measuring radial run out; apparatus for measuring relative steering angles; apparatus for measuring the angle of track and king-pins; apparatus for separating balancing compositions [parts of balancing apparatus]; testing apparatus for adjusting vehicle components; apparatus for transmitting data and data communication; apparatus for vibration measuring and/or vibration monitoring and/or machine monitoring purposes; apparatus to test the function, performance, exhaust gas and brakes of vehicles, motors and engines; application software for cloud computing services; application software for the planning and control of products, production processes and/or machines by means of a cloud; application software to monitor data in a cloud; artificial intelligence apparatus, audio- and video-receivers; audio- and video-recorders; augmented reality software for use in mobile devices for integrating electronic data with real world environments; automation software for test and adjustment stands for vehicles and vehicle components, for apparatus for testing vehicle electronics, and for installations for the assembly and disassembly of vehicle components and assemblies, including editable process control, process visualization, process documentation, job management and communication with master computers; balance and material testing machines; balance centering machines; balances; balancing machines [gravitational]; batteries; batteries, electric; camcorders; chargeable batteries; chassis testers; cloud network monitoring software; communication interface units; communication networks; communication software for connecting computer network users; communication software for connecting global computer networks; computer database servers, data entry and data output terminals; computer programs and programs for data processing, data transmission and data analysis; computer programs for browsing and searching online databases; computer programs for data storage; computer programs for operating systems and network operating systems; computer software for mobile phones; computer software for remote controls; computer utility programs for data compression, computer programs for accessing online databases; data and image processing software for making three dimensional models; data collection devices; data communication software; data compression software; data loggers and recorders, data terminals; data networks and networks for data transmission; data storage devices; data storage media for smartphones; devices for cloud computing, cloud networks or IOT (Internet-of-Things) for mechanical engineering; devices for computer networks and data communication; devices for network management control; diagnostic apparatus and installations constructed thereof; digital data storage media; displays for smartphones; downloadable software applications for use with three dimensional printers; downloadable software for the transmission of data; dynamometers with and without balances; electric and electronic computers for controlling and regulating printers, test desks and remote control apparatus; electric and electronic controls for dryers for drying and hardening lacquers and paints on lacquered or painted objects; electricity conduits; electronic navigational and positioning apparatus and instruments; electronic sensors and sensor controllers; electronically stored data; electrotechnical and electronic apparatus; encryption devices; global positioning systems (gps); hardware and computer hardware, computing equipment and databases for computer systems; hydraulic dynamometric and eddy current brake testing apparatus; installations and apparatus for testing electronic components in vehicles; installations and apparatus for testing pedal assemblies and hydraulic systems; interface devices; network-attached storage [nas], local network [LAN local area network]; optical sensors; peripheral devices for data duplication; apparatus and instruments for physics, optical apparatus; radio transmission devices; recorded content

(recorded data); remote control apparatus; remote control receivers; remote control transmitters; safety devices, namely light barriers, switches, shielding hoods (within this class) and actuating devices therefor; sensors for measurement technology related to cloud computing, cloud networks or IOT (Internet-of-Things); sensors for measuring technology; smartphones; software; software (interactive) for the exchange of information; software [virtual reality]; software and applications for mobile terminals; software for authorizing access to databases; software for communication between computers over a local network; software for communication with electronic vehicle assemblies; software for computer-aided design (CAD); software for data processing; software for data research; software for database management; software for embedded systems within the framework of electronic assemblies for testing systems; software for filling, assembly and testing systems; software for generating an augmented reality experiences; software for graphical user interfaces; software for host and gateway systems; software for industrial applications; software for industrial process control; software for machine tools; software for managing local networks; software for manufacturing; software for mechanical engineering; software for numerical control; software for predictive maintenance; software for processing data from measuring systems of test and adjustment stands for vehicles, in particular for imaging, power measurement, position measurement, exhaust gas measurement and for light intensity measurement; software for transport technology applications and for the control of workpiece transport cars; software for use in conjunction with industrial production and/or production planning; steering wheel balances; switch cabinets; tablet monitors; test apparatus [vibroacoustic]; test stands for examining vehicles and vehicle components, in particular brake test stands; test stands for testing couplings, gears, drive trains, tension, electric motors and shock absorbers; test stands for tires; test stands for vehicle geometry; test stands for vehicles and vehicle components, in particular vehicle function test stands and combined roll, brake and abs test stands, three dimensional viewers; transducers, namely displacement, vibration speed and acceleration transducers; virtual reality glasses; virtual reality hardware; smart wristbands that communicate data to smartphone.

Class 37

Advisory services in relation to the installation of fire prevention equipment; advisory services relating to building demolition; advisory services relating to the alteration of buildings; application of coatings to tunnels; application of protective coatings for buildings; application of protective paint to wood; application of surface coatings; assembling [installation] of building framework; automobile painting; beneath ground construction work relating to foundation laying; bricklaying; building construction and repair; building construction consultancy; installation of building insulation; construction of industrial furnaces; construction of manufacturing and industrial buildings; construction of steel fabrications; construction of steel structures for buildings; construction of tunnels; construction of ventilation shafts; construction of walls; construction, maintenance, cleaning and repair services; custom construction of factories; installation of conveyors; installation of energy-saving apparatus; installation of lighting systems; installation, maintenance and repair of compressors, air pumps, vacuum pumps, airblowers, air filters, alternators, pressure regulators and oil separators; installation, maintenance and repair of air-conditioning, cooling, drying and ventilation installations and systems, and of air treatment installations and ventilation systems; maintenance of water pollution control equipment; masonry; pipe installation services; installation and maintenance of automobile production plants; installation and

maintenance of plants for manufacturing; pump repair; repair or maintenance of conveyors; repair or maintenance of painting machines and apparatus; repair or maintenance of power distribution or control machines and apparatus; storage tank cleaning; tunneling; maintenance of production plants and facilities.

Class 38

Data communication services; data streaming; data transmission; data transmission via a worldwide remote-controlled computing network, including the Internet; providing access to electronic communications networks and services for the electronic transmission of data; electronic transmission and retransmission of sounds, images, documents, messages and data; electronic transmission of data and electronic data exchange services; electronic transmission of encrypted data; electronic transmission of voices (services for the -); network transmission of sounds, images, signals and/or other data; providing access to information about networks, on-line; providing access to on-line forums for exchange of data among computer users; provision of access to an Internet platform; provision of access to clouds, web pages and Internet portals; provision of access to computer programs in data networks; provision of access to data or documents that are stored electronically in central files for remote consultation; provision of access to databases in computer networks; provision of access to global computer networks and other computer networks; provision of access to data in networks and provision of access to data via communication networks; provision of access to platforms and portals on the Internet; electronic communications services in connection with cloud computing for mechanical engineering; provision of telecommunications connections for telephone hotlines and call centers; renting and arranging access times to databases and clouds on the Internet; electronic communications services in the field or in connection with cloud computing, cloud networks or IOT (Internet of Things); telecommunications via computer terminals, telematics, satellites, radios, telegrams, telephones; telematics services; transmission of data by means of telecommunications networks; transmission of sound, picture and/or other data signals; voice mail services; wireless broadcasting.

Class 42

Technical analysis of large amounts of data with respect to the relationships between data, targeted data search; chemical analysis; chemical engineering; cloud computing; cloud computing services; computer programming for data processing; computer security system monitoring services; computer software consultancy; computer system design; computer technology consultancy; computer virus protection services; computerized data storage; consultancy and research services in the fields of science, engineering and information technology; consultancy in the design and development of computer hardware; consulting and information services relating to information technology architecture and infrastructure; consulting in the field of computer and information technology (IT); consulting services in connection with computer programming; consulting services in connection with human-machine interfaces and machine-machine interfaces for software; process and quality control of production plants and facilities; creating and maintaining web sites; creation of control programs for automated measurement, assembly, adjustment and related visualization; data conversion of electronic information; data warehousing; design of homepages and websites; design and development of computer cluster configurations; design and development of computer hardware and software for industrial applications; design and development of computer hardware for the processing industry; design and development of computer systems; design and development of navigation systems; design

and development of operating software to access and use a cloud computing network; design and development of route planning software; design and development of software; design and development of software for mechanical engineering and for automated production (cad/cam); design and development of software for the control and operation of numerically controlled machine tools; design and development of virtual reality software; design and implementation of network web pages; design of installations for application of coatings to vehicles and vehicle parts and components; design, development, maintenance and updating of software for process control; development of computer equipment; development of computer-based networks; development of data programs; electronic data storage; engineering and engineering services; engineering services related to the design and development of programs and software for data processing for use on or in conjunction with numerically controlled machine tools; engineering services relating to the design of machine tools; engineering services relating to robotics; engineering services for the analysis of machines; extracting information from large data collections (data mining); server hosting; hosting of databases; hosting of platforms on the internet; implementation, installation, maintenance and updating of software; information technology engineering; infrastructure as a service (IaaS); installation of software, in particular software for transport technology applications; IT programming services; maintenance of software; maintenance of software for communication systems; maintenance of software, in particular software for transport technology applications; mechanical research in the field of machine building and mechanics; migration of data; monitoring of network systems; online data storage; planning, design and development of air-conditioning, air treatment, cooling, drying and ventilation installations and systems; construction planning of automobile production plants; construction and process planning of installations; construction and process planning of production facilities; process monitoring for quality assurance; programming of operating software for the use of a cloud computing network and access to it; programming of operating software to access and use a cloud computing network; programming of software for data processing; programming software; project management in the field of IT; providing technical advice relating to energy-saving measures; information technology consultancy; provision of online information on industrial analysis and research; quality control; research and development of new products for others; research in the field of data processing; research in the field of information technology; research relating to mechanical engineering; safety technology services relating to land vehicles; server hosting; services and IT services related to technical data analysis; services in the field of data security; services of an application service provider (ASP); services of an industrial designer; services related to computerized industrial analysis; services related to IOT (Internet of Things) in the field of mechanical engineering; services related to IOT (Internet-of-Things); services related to technical data analysis; services with regard to data encryption; software as a service (SaaS); technological consultancy relating to remote control and monitoring of manufacturing processes and project planning; technical design services relating to cooling appliances and installations; technological services in connection with data processing; technological consulting in the field of mechanical engineering analysis; updating of computer software; vehicle road worthiness testing; web hosting.

Priority Claims:

Class 07

18/09/2017

Germany

Machines and machine tools for material processing and production;

Machines and machine tools for material processing and production that are remotely controlled, adjusted, optimized and / or monitored by means of cloud computing, cloud networks or IOT [Internet of Things] communication; Machines and machine tools for the processing of materials and for production; Machines for handling workpieces; Production plants consisting of machines for material processing and production; Production plants consisting of equipment for manufacturing and production that is remotely controlled, monitored and / or optimized by means of cloud computing, cloud networks or IOT [Internet of Things] communication; Machines for use in assembly; Machines for handling materials; Machines for handling cargo; Machines for metalworking; Robots [machines]; Robots [machines] remotely controlled, adjusted, optimized and / or monitored by means of cloud computing, cloud networks or IOT [Internet of Things] communication; Drives for machines and motors; Electric drives for machines; Tools for machines; hydraulic and pneumatic controls for machines; Control mechanisms for machines or motors [machine parts]

Class 07

16/03/2018

European Union

Printers and printers for additive manufacturing; adjusting stands for driver assistance systems; adjusting stands for vehicles and vehicle components, in particular vehicle function test stands and combined roll, brake and abs test stands; air brushes [paint spraying]; apparatus and installations for filling vehicles with equipment; assembly and disassembly apparatus for vehicle components and assemblies; assembly apron conveyors; assembly devices and assembly installations for motor vehicles or airplanes; assembly platforms; automated machines for loading materials; automatic sprayers for electrostatic painting; chain conveyors, clamping tools for balancing machines and mounting apparatus; coating robots; control apparatus for conveyors; control apparatus for paint treatment systems; conveyor devices and installations; conveyor devices for transporting objects in painting installations; conveyor suspension gear; conveyors [machines]; conveyors and conveyor belts; cross belt conveyors; devices for the initial filling of motor vehicles with fuel; drilling and milling machines; drives for conveyors; dye filters (parts of machines); elevating platforms; exhaust air purifying devices; exhausters being suction ventilators; filling apparatus; fittings for paint-spraying installations; floor conveyors; grippers being parts of machines; handling devices (machines); headlamp adjustment stands; industrial robots; industrial robots for working metal; industrial robots for working wood; installations and apparatus for lacquer treatment, lacquer care and/or lacquer distribution; installations and apparatus for the application of lacquers, adhesives and/or sealing materials; installations and apparatus for the assembly of vehicle components, in particular front ends, discs, cockpits, seats, wheels or doors, installations and equipment for removing lacquer from components of all kinds, using high-pressure water or chemical substances; installations and equipment for the preservation of components and car bodies using spray and/or flood methods; installations for impregnating components of all kinds; installations for processing and storing impregnating resins for impregnating components of all kinds, and treatment installations for rinse water; installations for the assembly and disassembly of vehicle components and assemblies; installations for the treatment and storage of wax for preserving components and car bodies; lacquering robots; lifting and hoisting equipment, elevators and escalators; lifting conveyor apparatus; lifting devices; lifting platforms for vehicles; loaders [conveyors]; machines and equipment for the processing of cooling lubricants; machines for loading; machines for the drying and hardening of lacquers and coats on lacquered

or coated objects, in particular vehicle bodies; machines for the supply of air; matching machines for wheels and tyres; mechanical and/or electric lacquering apparatus and automatic lacquering machines being components for lacquering installations; mechanical devices and installations for handling vehicle components; mechanical railed lifting conveyors; mechanically-operated lifting trucks and elevators; mounting apparatus for vehicle tyres and tyre-inflating valves; mufflers [parts of exhaust systems]; mufflers [parts of machines], overhead conveyors; overhead monorail equipment (conveyor devices); paint spraying apparatus; paint spraying guns; paint treatment installations and apparatus; painting machines; paint-spraying installations; pneumatic tyre-inflating apparatus; positioning tables [machines]; process control mechanisms for manufacturing installations; pulleys [parts of machines]; retractable platforms; robotic filling machines; robotic guns for compressed air spraying machines; robotic handling apparatus; robotic loaders for diffusion furnaces; robots [machines]; robots for applying sealing material; robots for applying glue; robots with articulated arms for manipulating workpieces; robots with artificial intelligence; roller channels; roller conveyors; rotary conveyor apparatus; screw conveyors; skid steer loaders; sorting apparatus, appropriate to the unbalance or weight, size or designation of the objects being sorted; sorting machines for industry; spray boxes; spray cubicles and spraying apparatus, in particular for scouring, disinfecting, phosphating, passivating, chromating and/or varnishing; spray guns; spray nozzles; spray tables; spraying apparatus for paints and/or lacquers for industrial purposes; spraying machines; stacking machines; stirring apparatus for dyes; supply and disposal installations for installations and apparatus using high-pressure media; track and king pin angle adjusting tools (machine parts); transportation robots; transporters [conveyors]; vehicle conveyors; workpiece clamping attachments [machines]

Class 09

18/09/2017

Germany

Computer software; Software for mechanical engineering; Data communication devices for cloud computing, cloud networks or IOT [Internet of Things] for mechanical engineering; Application software for cloud computing services; Application software for the planning and control of products, production processes and / or machines by means of a cloud; Application software for monitoring data in a cloud; electronically stored data; Interface devices; Downloadable computer software for the transmission of data; interactive computer software for the exchange of information; Software for data compression; Computer software for authorizing access to databases; Computer software for communication between computers over a local area network; Data communications software; Computer software for data processing; Computer software for data search; Computer software for database management; Software for use in connection with industrial manufacturing and / or production planning; Computer software for numerical control; Software for machine tools; Communication software for connecting computer network users; Communication software for connecting global computer networks; Cloud network monitoring software; Computer software for managing local area networks; Software for mechanical engineering; Software for industrial applications; Software and applications for mobile devices; Software for industrial process control; Software for graphical user interfaces; Computer manufacturing software; Software for computeraided design [CAD]; Computer programs and programs for data processing, data transmission and data analysis; Computer programs for data storage; Computer utility programs for data compression; Computer programs for accessing online databases; Computer programs

for browsing and searching online databases; Programs for operating systems and network operating systems; Data networks and networks for data transmission; Network-attached storage [NAS]; local area networks [LAN Local Area Network]; Control units for network management; Access points on a LAN [Local Area Network] for connecting network computer users; Computer network and data communication equipment; Iecommunication devices for establishing communication networks; Data storage media and storage devices; Data CDs; Data DVDs; recorded content [recorded data]; electronic data carriers; machine-readable data carriers; digital storage media; Hardware and computer hardware; Data processing equipment and databases for computer systems; Data loggers and data recorders; Computer terminals for collecting data; Computer database servers; Computer terminals for data entry and data output; Data storage devices; Devices for data acquisition; Apparatus for the transmission of data and data communications; Encryption devices; Peripherals for data duplication; Units for communication interfaces; electronic sensors and sensor control

Class 09

16/03/2018

European Union

3D spectacles; apparatus and fittings for balancing machines; apparatus and installations for testing motor vehicles; apparatus and installations for testing status-oriented machine maintenance; apparatus and installations for testing vehicle electrics and electronics; apparatus and software for testing vehicle electronics and for the programming of, and communication with, vehicle control apparatus and installations constructed from the aforesaid apparatus; apparatus for conducting unbalance alignment; apparatus for detecting play; apparatus for headlamp adjustment; apparatus for measuring axels; apparatus for measuring radial runout; apparatus for measuring relative steering angles; apparatus for measuring the angle of track and king pins; apparatus for separating balancing compositions; apparatus for testing and adjusting vehicle components; apparatus for vibration measuring and/or vibration monitoring and/or machine monitoring purposes; apparatus to test the function, performance, exhaust gas and brakes of vehicles, motors and engines; artificial intelligence apparatus; audio - and video-receivers; audio- and video-recorders; augmented reality software; augmented reality software for use in mobile devices for integrating electronic data with real world environments; automation software for test and adjustment stands for vehicles and vehicle components, for apparatus for testing vehicle electronics, and for installations for the assembly and disassembly of vehicle components and assemblies, including editable process control, process visualisation, process documentation, job management and communication with master computers; balance and material testing machines; balance centering machines; balances; balancing machines [gravitational], batteries; batteries, electric; camcorders; chargeable batteries; chassis testers; computer software for mobile phones; computer software for the remote controls; data and image processing software for making three dimensional models; data storage media for smartphones; diagnostic apparatus and installations constructed thereof; displays for smartphones; downloadable software applications for use with three dimensional printers; dynamometers with and without balances; electric and electronic computers for controlling and regulating printers, test desks and remote control apparatus; electric and electronic controls for dryers for drying and hardening lacquers and paints on lacquered or painted objects; electricity conduits; electronic navigational and positioning apparatus and instruments; electrotechnical and electronic apparatus; global positioning systems (GPS); hydraulic dynamometric

and eddy current brake testing apparatus; installations and apparatus for testing electronic components in vehicles; installations and apparatus for testing pedal assemblies and hydraulic systems; optical sensors; physical and optical apparatus; radio transmission devices; remote control apparatus; remote control receivers; remote control transmitters; safety devices, namely light barriers, switches, shielding hoods and actuating devices therefor; smartphones; software; software [virtual reality]; software for communication with electronic vehicle assemblies; software for embedded systems within the framework of electronic assemblies for testing systems; software for filling, assembly and testing systems; software for host and gateway systems; software for predictive maintenance, software for processing data from measuring systems of test and adjustment stands for vehicles, in particular for imaging, power measurement, position measurement, exhaust gas measurement and for light intensity measurement; software for transport technology applications and for the control of workpiece transport cars; steering wheel balances; switch cabinets; tablet monitors; test apparatus [vibroacoustic]; test stands for examining vehicles and vehicle components, in particular brake test stands; test stands for testing couplings, gears, drive trains, tension, electric motors and shock absorbers; test stands for tires; test stands for vehicle geometry; test stands for vehicles and vehicle components, in particular vehicle function test stands and combined roll, brake and abs test stands; three dimensional viewers; transducers, namely displacement, vibration speed and acceleration transducers; virtual reality glasses; virtual reality hardware; watchbands that communicate data to smartphones

Date of Protection in Singapore: 14/11/2017
Date of Notification: 04/10/2018

Class 07

Machines, machine tools and industrial robots for processing and shaping wood, metals, glass, plastics and minerals, construction machines and robotic mechanisms (machines) for use in construction, lifting, loading and transmission machines and robotic mechanisms (machines) for lifting, loading and transmission purposes, namely, elevators, escalators and cranes, machines and robotic mechanisms (machines) for use in agriculture and animal breeding, machines and robotic mechanisms (machines) for processing cereals, fruits, vegetables and food, engines and motors, other than for land vehicles, parts and fittings therefor, bearings (parts of machines), roller or ball bearings, machines for mounting and detaching tires, alternators, current generators, electric generators, current generators operated with solar energy, painting machines,

automatic spray guns for paint, electric, hydraulic and pneumatic punching machines and guns, electric adhesive tape dispensers (machines), electric guns for compressed gas or liquid spraying machines, electric hand drills, electric hand saws, electric jigsaw machines, spiral machines, compressed air machines, compressors (machines), vehicle washing installations, robotic mechanisms (machines) with the abovementioned functions, welding apparatus, electric arc welding apparatus, electric soldering apparatus, electric arc cutting apparatus, electrodes for welding machines, industrial robots (machines) with the abovementioned functions, printing machines, packaging machines, filling, plugging and sealing machines, labellers (machines), sorting machines, industrial robots (machines) with the abovementioned functions, electric packing machines for plugging and sealing of plastics, machines for textile processing, sewing machines, industrial robots (machines) with the abovementioned functions, electric pumps, fuel dispensing pumps for service stations, self-regulating fuel pumps, electric kitchen machines for chopping, grinding, crushing, mixing and mincing foodstuff, washing machines, laundry washing machines, dishwashers, spin driers (not heated), electric cleaning machines for cleaning floors, carpets or floorings, vacuum cleaners and parts thereof, automatic vending machines, galvanizing and electroplating machines, electric door openers and closers.

Class 08

Forks, spoons, knives and non-electric cutters, slicers, peelers for kitchen use, including those made of precious metals, side arms and blades (weapons), tools and apparatus included in this class for personal beauty care use, namely, tools and apparatus included in this class for shaving, epilation, manicure and pedicure, electric hand implements for straightening and curling hair, scissors, hand-operated [non-electric] hand tools included in this class for the repair of machines, apparatus and vehicles and for use in construction, agriculture, horticultural and forestry, none of them being power tools, electric or non-electric irons; steam irons.

Class 09

Measurement apparatus, equipment, indicators and laboratory apparatus including those for scientific and laboratory purposes, apparatus for recording, transmission or reproduction of sound or images (equipment for data processing, communication, replication, computer peripheral equipment, including speaker and earphones), magnetic and optic data carriers and computer software and programmes recorded thereto, applications for television and telephones, downloadable and recordable electronic publications, encoded magnetic and optic cards, antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods, ticket dispensers, automatic teller machines (ATM), electronic components used in the electronic parts of machines and apparatus, counters and quantity indicators for measuring the quantity of consumption, clothing for protection against accidents and irradiation, safety vests and life-saving apparatus and equipment, eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof; electric and electronic cables, batteries, electric accumulators, alarms and anti-theft alarms, other than for vehicles, electric bells, signalling apparatus and instruments, luminous or mechanical signs for traffic use, radar apparatus, sonars, night vision apparatus and instruments, decorative magnets, electric remote control mechanisms for opening and closing.

Class 11

Lighting installations; lights for vehicles and interior-exterior spaces,

stoves, kitchen stoves, installations for air-conditioning and ventilating, cooling installations and freezers, electric and gas-powered devices, installations and apparatus for cooking and drying; electric laundry driers; hair driers; hand drying apparatus, sanitary installations, taps [faucets], shower installations, toilets [water-closets], shower and bathing cubicles, bath tubs, toilet seats, sinks, wash-hand basins [parts of sanitary installations], water softening apparatus; water purification apparatus; water purification installations; waste water purification installations, electric bed warmers and electric blankets, not for medical use; electric pillow warmers; electric or non-electric footwarmers; hot water bottles, filters for aquariums and aquarium filtration apparatus, industrial type installations for cooking, drying and cooling purposes, pasteurizers and sterilizers.

Collective and Certification Marks Published For Opposition Purposes

Registration has been accepted in respect of the following Collective and Certification Marks filed under the provisions of the Trade Marks Act (Cap. 332, 1992 Ed.), Trade Marks Act (Cap. 332, 2005 Ed.) and the Madrid Protocol.

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

40201707338V 20/12/2016 (31)

The transliteration of the Chinese characters in the mark is “Gao You Hu” which is a freshwater lake in Jiangsu Province, China and “Da Zha Xie” meaning “Chinese Mitten Crab”.

Class 31

Crabs (live) originating from Lake Gao You, China.
