GENERAL INFORMATION

Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules.

It is published weekly on Fridays and on other days when necessary, upon giving notice by way of circulars found on our website.

Requests for past issues of journals published more than three months ago may be made at <http://bit.ly/paymentipos> and is chargeable at \$12 per issue.

Instructions on payment will be provided to you via email within 7 working days after we receive your online request. Payment shall be made via IP²SG's payment platform. Acceptable modes of payment include Internet Banking, Visa/Master credit and debit cards and GIRO.

The journal(s) will be reproduced in CD-ROM and we will arrange an appointment with you to collect the CD-ROM at the following address:

Address: Intellectual Property Office of Singapore
1 Paya Lebar Link, #11-03
PLQ 1, Paya Lebar Quarter
Singapore 408533

Business Hours: Monday to Friday: 8:30am to 5:30pm

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 09
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and laboratory examination apparatus and instruments; precision measuring

apparatus; measuring, counting, alignment and calibrating instruments; monitoring apparatus, electric; probes for scientific purposes; temperature sensing apparatus for scientific use; imaging devices for scientific purposes; image analyzers; apparatus for capturing and developing images; central processing units for processing information, data, sound or images; image scanners, computer programs for image processing; cameras; camcorders; in particular high-resolution stereo cameras; apparatus and instruments for steering, optical apparatus and instruments; physics (apparatus and instruments for -); teaching apparatus; surveying apparatus and instruments for the switching, transforming, accumulating, regulating or controlling electricity; frequency meters; sound locating instruments; masts for wireless aerials; gas testing instruments; speed checking apparatus for vehicles; apparatus for recording, transmission or reproduction of sound or images; digital recording media; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing equipment; computers; data processing equipment, encoders (data processing), computer software, computer programs (recorded and downloadable); computer software applications, downloadable; compact discs (CD-roms, sound, images); computer memory devices; downloadable image files; optical data carriers; electronic publications, downloadable; interfaces for computers; microprocessors; testing and trial apparatus for air travel, space travel and motor vehicles; wind tunnels, including transonic, high enthalpy or cryogenic wind tunnels; test benches for rocket engines and rocket motors; space simulation chambers, pressure chambers, navigation apparatus, navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus; aeronautical communications apparatus; data acquisition apparatus for air travel; radio communications devices and radio communications apparatus for air travel; computers for managing control devices for aircraft; flight simulators for aircraft; medical simulators [teaching aids]; scientific research and laboratory apparatus, educational apparatus and simulators; radar apparatus; radar systems; radar apparatus; radar antennas; radar receivers; radar detectors; radar apparatus; microwave detectors [radar]; communications equipment; on-board computers; measuring and regulating apparatus; recording machines; stabilising apparatus for air and space vehicles; apparatus for analysis [other than for medical use]; diagnostic apparatus, not for medical purposes; chemistry apparatus and instruments; astronomy (apparatus and instruments for -); distance measuring apparatus; apparatus and instruments for recording distance; breathing apparatus (except for artificial respiration); observation instruments; chemistry apparatus and instruments; transmitters and receivers of electric signals, in particular for telecommunications; signals, luminous or mechanical; electro-dynamic apparatus for the remote control of signals; solar energy collectors for power generation; solar modules for electricity generation; particle accelerators; telescopes; monitoring apparatus, electric; printed circuit boards; printed circuits; electrical conductors; semiconductors; electrical inductors; electric installations for the remote control of industrial operations; ignition (electric apparatus for remote -); transistors [electronic]; accumulators (electric), in particular for vehicles; electrical connecting parts; antennas, in particular for receiving data and/or for data transmission, command transmission and rail surveying by satellites; antennae for communication with space vehicles; traffic control apparatus (electronic); traffic guidance apparatus [electronic]; steering apparatus, automatic, for vehicles; intelligent, cognitive controls, namely cognitive wireless communications systems, intelligent electronics systems for use in apparatus and installation construction for control of machines; voltage regulators for vehicles; electric batteries, in particular

lithium ions and lithium metal batteries, lithium-air or lithium-sulphur batteries, in particular for motor vehicles; fuel cells, in particular solid oxide fuel cells and polymer membrane fuel cells, in particular for vehicles; fuel cell electrodes; electrolyzers; electric converters, in particular in the form of electro-chemical energy converters, in particular batteries and fuel cells and electrolyzers; furnaces for laboratory use; electricity transformers; step-up transformers; capacitors; electronic notice boards; lasers, not for medical purposes; laser scalpels, other than for medical use; solid state lasers, in particular disc lasers, with continuous-wave or pulsed operation; carbon dioxide (co2) lasers; eye-safe lasers; high-energy lasers, in particular chemical oxygen iodine lasers; high-power laser sources; satellites for scientific purposes; commutation (electric apparatus for -); electric distribution consoles; integrated circuits, electrical control boards; signals, luminous or mechanical; electro-dynamic apparatus for the remote control of signals; instrumentation simulators; instrumentation simulators; instrumentation simulators; simulators for the steering and control of vehicles; simulators for operation of cars, trains, air and space vehicles; simulators for training personnel in the flying of aircraft; laser pointers for advertising purposes; mousepads (mouse mats) for advertising purposes; magnets; magnets for decorative purposes, including fridge magnets and magnets for pinning to clothing for advertising purposes; apparatus and instruments for communications and high-frequency engineering; in particular apparatus and instruments for measurement and for transmission of commands; scanners (data processing equipment), in particular body scanners, in particular with terahertz technology; computer programs and software, irrespective of the recording or broadcast medium, namely software which can be recorded on a magnetic medium or downloaded from an external computer network, preferably in the field of energy technology, in particular in the field of thermal and chemical energy storage and of ceramic materials and in the field of fibre-reinforced ceramic composite materials; optical apparatus and instruments, communication devices and instruments and telecommunications apparatus for measuring traffic in regions and towns with test vehicles; apparatus for recording, transmission or reproduction of sound or images for laboratory use, research relating to traffic in regions and towns; scientific apparatus and instruments; apparatus and instruments for scientific research in laboratories; laboratory apparatus for use in scientific specimens; apparatus and instruments for controlling rockets, in particular apparatus and instruments for transmitting commands and for measurement in the form of signals (including telemetry, telecommand and radar); navigation apparatus for satellite and rockets; aircraft landing guidance apparatus; satellites for scientific purposes; flight controlling apparatus; in-flight testing equipment; apparatus for checking flight parameters; attitude control systems; thermoelectric sensors; magnetic sensors, optoelectronic sensors for observing the earth and space exploration, sun sensors, star trackers and gyro platforms for orientating objects in space, in particular for rockets and satellites; satellite earth stations, receiving antennas for satellite broadcast, satellite broadcasting instruments, small satellites; satellites for signal transmission, satellites for communication purposes, satellites for navigation purposes, satellites for scientific purposes, satellite antennas, satellite receivers, satellite receiving apparatus, satellite receiving devices, satellite apparatus, satellite communications apparatus, satellite navigation apparatus, satellite processors, satellite dishes, satellite broadcasting and receiving apparatus, satellite transmission apparatus, satellite transmission equipment, satellite transmission devices, satellite transmission instruments, computer software for control of satellites, encryption apparatus for satellite television signals; computer software for access to databases, in particular with information relating to

measurement technology and test installations; recorded computer programmes [programs], recorded computer software; computer software, in particular for radiation identification and recording and reproduction of radiation identification or in the field of data capture, use and analysis of space weather conditions and warning in the event of unusual space weather, including solar storms; all of the aforesaid goods being in particular for robots, automation devices and optical information systems, and being in particular for the field of energy technology, in particular for the field of thermal and chemical energy storage; antennae apparatus for remote sensing, receiving and recording of data, archiving remote sensing data in a data archive for visualisation, evaluation and reproduction of geographical information, satellite-based crisis information and atmospheric information; antennae apparatus for archiving data in a data archive, visualisation, evaluation and reproduction of geographical information, traffic information and traffic routing and directing of passenger flow and aircraft; air traffic control apparatus; sensing devices for the control of air currents; air analysis apparatus; barometers; remote control apparatus; evaluation apparatus for systems analysis and technological evaluation of air transport systems; receivers for satellites; navigation systems using satellite reference; earth satellites for use in the security surveillance of spacecraft; apparatus for localisation for vehicles via satellites; satellite transceivers; satellite transmitters; digital image processors for the evaluation of imagery data; evaluation apparatus; programs for recording data in reproduction technology; programs for the electronic arrangement of graphics in reproduction technology; objectives for photographic reproduction; carriers in the form of chips for the reproduction of data; programs for the design of control information systems; test instruments for temperature measuring sensors; meters for testing humidity; programs for recording data in reproduction technology; instruments for monitoring traffic; Testing apparatus for motor land vehicles; test apparatus for industrial use; portable testing apparatus for aircraft; portable test apparatus; monitoring apparatus, electric, for testing vehicle bodies; automotive performance testing apparatus; map measuring instruments; scientific apparatus for use in analytical tests; reference apparatus for use in testing [laboratory or scientific apparatus]; reference standards apparatus for use in test comparisons [laboratory or scientific apparatus]; remote sensing devices for atmospheric correction of optical image data, and in particular devices for archiving of data in a data archive, visualisation of geographical information, atmospheric correction of data; apparatus for monitoring atmospheric conditions; weather information apparatus; antennae apparatus for remote sensing, receiving and recording of data, devices for archiving remote sensing data in a data archive for visualisation, evaluation and reproduction of geographical information, for satellite-based crisis information and atmospheric information; antennae apparatus for archiving data in a data archive, visualisation, evaluation and reproduction of geographical information, satellite-based crisis information and atmospheric information; electronic apparatus for providing information and traffic routing, directing of passenger flow and aircraft; electronic apparatus for providing communication links; computer programs for providing a graphical presentation of data; apparatus for climatic technology; apparatus for managing energy supplies; electric control devices for energy management; thermal energy measuring apparatus; solar energy collectors for electricity generation; energy control devices in particular for the field of solar thermal technology; test instruments for temperature measuring sensors; apparatus for recording radiation; apparatus for the recording and reproduction of radiation identification; identification apparatus, electric or electronic; human-machine interfaces.

Class 41

Providing of training, providing of further training, in particular for junior scientists, school children, students and doctoral students, including for industrial mechanics, electricians, in particular providing of further training for technical staff for test bench mechanics; technical training relating to safety; consultancy services relating to engineering education; conducting of engineering courses, teaching events, educational information events and symposia; conducting of educational information events in relation to engineering, preferably in the fields of air and space travel, energy, traffic and security; training services relating to the use of computer aided engineering systems; publishing of printed matter, in particular books, non-fiction books, children's books and school books, magazines, notebooks, newspapers (including in electronic form); education, including in the form of practical training; writing of texts, other than publicity texts; online publication of electronic, non-downloadable publications and of books and magazines; publication of electronic books and journals on-line; electronic desktop publishing; layout services, other than for advertising purposes; arranging and conducting of conferences, congresses, symposia, seminars and workshops for training; organising of education exhibitions; performances (presentation of live -); movie studios; film production, other than advertising films; creating image, film and sound representations for illustrating the material (film production); photography; photographic reporting; videotaping, including in the form of live streaming; providing on-line videos, not downloadable; organisation of competitions in the form of prize contests relating to the selection of the best representation of educational research; organisation of sports competitions; education; providing of training; personnel training; the aforesaid services being in particular in relation to personnel selection and/or personnel training in different professional groups and sectors, in particular for selection of employees to work in the fields of air and space travel, in particular pilots, air traffic controllers, astronauts and astronaut support staff; film production services namely creating image, film and sound representations using remote sensing data (including satellite image data, or image data from airborne platforms, including radio data and radar data) for illustrating the material; the aforesaid services in this class being in particular in the field of air travel, space travel, satellite technology for use in environmental science and geoscience, in climate research, traffic research and energy research; entertainment; sporting and cultural activities; archive libraries for archiving of data in a data archive.

Class 42

Engineering services, engineering services for others; technical engineering; engineering services; engineering consultancy services; preparation of engineering reports; technical inspection services; technical project studies; engineering project management services; technological consultation services; technical research; conducting technical research projects and technical research studies; development of new technology for others; technical data analysis services; technical data analysis services; technical testing services; technical survey services; technical writing; writing of technological research reports; technical testing; professional consultancy relating to technology exploitation; engineering research; technological engineering analysis; engineering consultancy services; engineering services for the analysis of machinery; telecommunications engineering; technical design and planning of telecommunications networks; technical design and planning of telecommunications equipment; development of land vehicles, aeroplanes, aircraft, space vehicles and of rockets and satellites; engineering in the field of energy technology, energy production, in the field of alternative energy production and energy usage, in the field of production of

electricity and natural gas; technical advice in connection with energy-saving measures; development of integrated energy concepts; consultancy in relation to energy usage; technological consulting services in the field of alternative energy generation; research and technical project planning and preparing of technical project studies in relation to use of natural or alternative energy sources; design and development of regenerative energy generation systems; energy auditing; development of energy and power management systems; technical design and planning of water purifying installations, including with the help of solar energy; technological consultancy in the field of solar thermal production of synthetic fuels; technical information in relation to environmentally friendly and ecological innovations; technical design and planning of power plants, including of solar thermal power plants, wind parks, wind power plants or of hybrid power plants or power plant components, including of gas turbines or of combustion chamber systems; physics (research), industrial design, software development and chemistry services; technical measuring and testing; conducting of measurements in wind tunnels on space, air and land vehicles; model measurements of electric motors in wind tunnels; conducting of aerodynamic, aeroelastic, fluidic, aeroacoustic and aerothermodynamic measurements in wind tunnels; conducting of (stationary) vibration tests for structural dynamic examinations of aircraft and individual components for aircraft; conducting of tests on engine and gas turbine components in high pressure combustion chamber test rigs; conducting of laser-optic measuring procedures, in particular for fluid flow analysis; material testing; fire tests for fire protection qualifications, in particular for engine and aeroplane components; material testing; technical project studies; planning of technical projects in the engineering sector; design and development of new technology for others; scientific research services; research in the field of engineering; research in the field of natural science; scientific research; research relating to technology; advisory services relating to technological research; advisory services relating to scientific research; consultancy services relating to technological research; advisory services relating to scientific instruments; technological analysis services; technical project studies; research relating to technology; scientific testing services; scientific testing services; conducting of scientific studies; conducting of technical feasibility studies; preparation of project analysis studies; provision of scientific information; providing science technology information; preparation of scientific reports; preparation of technological reports; conducting engineering surveys; technological consultancy; provision of technological information; technological services and design relating thereto; engineering design and consultancy; technical scientific consultancy and research and (engineering) research in relation to fluid dynamics, in relation to flow technology, to aeroelastics, drive technology, building purposes, structural technology, vehicle design, lightweight fibre composite structures, adaptive systems, flight guidance, airports, energy, energy technology, energy production, energy usage, oceanography, geophysics, seismology, hydrology, glaciology, biology, planetary geology, air traffic, flight systems, high-frequency technology, radar systems, microwave sensors, communication and navigation in air and space travel, and in marine travel, medicine, in particular in the field of aviation and space medicine; scientific research in the field of materials physics in space, in particular research into the properties of melts and the solidification thereof, astrophysics, methodology for remote sensing, meteorology, climatology, optical sensor systems, atmosphere physics, planetary exploration, space travel drives, space travel systems, telecommunications technology, robotics and mechatronics, solar systems, system dynamics, regulation technology, technical physics, technical thermodynamics, aeroplane engine acoustics, combustion technology, traffic on land, water and air, transport systems technology, materials, air

transport systems, space flights and astronaut training, simulation and software technology, in relation to ergonomics, in relation to electrical energy, energy technology, in particular in relation to energy supply systems and in relation to environmental technology, in relation to security, including in relation to security of information systems and in relation to maritime security, air traffic control and preventing collisions between aeroplanes, ships and trains; technical consultancy in the field of environmental engineering and environmental science; industrial engineering design services; scientific and industrial research; technical assessments relating to design; technical surveying; scientific analysis; airborne remote monitoring of scientific explorations and investigations; laboratory (scientific -) services; chemical laboratories, laboratory (scientific -) services; chemical analysis; advisory services relating to science; physics [research]; biological research; research in the field of technology and engineering; mechanical research; technical research in the field of air and space travel; technical consultation in the field of aerospace engineering; design of aircraft, space vehicles and land vehicles and of parts for aircraft, space vehicles and land vehicles; bacteriological research; solar research; research in the field of environmental protection; underwater exploration; research relating to security; research and development for others; preparation of technical and scientific surveys, (engineering) scientific consultancy in the field of energy saving and environmental technology; consultancy in the area of information technology (IT); design and development of navigation systems, including for navigation of aeroplanes and ships; conducting of tests and measurements, in particular of models, conducting of research assignments in the fields of natural science, engineering and medicine; scientific testing services, determining concentrations of emissions and hazardous substances; planning and design of test installations; rental of test installations, machines, in particular measuring vehicles, transportable rocket launch pads, satellite control devices, antennae for conducting scientific space missions; cartography services; research in the field of earth observation; construction drafting; testing [inspection] of vehicles for roadworthiness; weather forecasting; computer hardware and software consultancy; design and development of computer hardware and software; technical research relating to computers; research relating to the computerised automation of technical processes; consultancy in the design and development of computer hardware; providing information on computer technology and programming via a web site; cloud computing; advisory services relating to computer programming; technical consultancy relating to the installation and maintenance of computer software; computer system analysis; computer virus protection services; provision of search engines for the internet; providing on-line information in the field of technological research from a computer database or the internet; electronic storage of scientific, scientific and technical, and professional business news and information; computerised data storage services for retrieval of information from the internet; monitoring of computer systems by remote access; digitalization of documents [scanning]; rental of computers and computer software; design of computer software and computerised systems; design of information systems relating to management; updating of computer software; scientific computer programming; computer aided scientific research services; computer aided scientific analysis services; computer-assisted technical data analysis; computer-aided engineering; providing numeric simulation software for development of aerodynamically efficient land and air and space vehicles, in particular conducting of numeric aerophysical simulation; development of computer software for flow simulation and for aerophysical simulation; testing of aeroelastic stability limits of aeroplanes, helicopters and turbomachines by means of numeric simulation; designing, installing, copying, updating, maintaining and

rental of computer software and computer programs; preparation of data processing programmes; computer programming; computer programming; engineering services, surveying, technical project management in the field of electronic data processing; engineering in relation to energy supply systems; data conversion of computer programs and data [not physical conversion]; conversion of data or documents from physical to electronic media; recovery of computer data; engineering services for applications on large and medium-sized computer systems; engineering services relating to computers; engineering services relating to computer programming; engineering services relating to automatic data processing; engineering relating to data processing and information technology; computer programming for data processing and communication systems; consultancy relating to software for communication systems; image processing software design; design and development of computer software for controlling, regulating and monitoring of solar energy systems, design, development and programming of energy management software; creation of computer programs for the energy industry; engineering services relating to information technology; engineering services relating to the design of communications systems; scientific computer programming services; engineering in relation to communications technology; engineering services relating to the design of communications systems; engineering relating to robot technology or robotics; consultancy relating to software for communication systems; maintenance and updating of software for communication systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development of methods for simulation of a complete air transport system; technological analysis services; technological consultation services; technological consultation services; technological services relating to computers; technological services and design relating thereto; technological services and research relating thereto; technological research relating to computers; research relating to technology; safety technological testing services; IT security services in the nature of protection and recovery of computer data; design and development of software for control, regulation and monitoring of solar energy systems; design and development of computer software for regulating the position of satellites; leasing of scientific instruments; rental of scientific equipment, in particular of antennae for operation of scientific space missions; advisory services relating to science; advisory services relating to science; scientific services and design relating thereto; scientific services and research relating thereto; laboratory research services; scientific research; scientific research; scientific and industrial research; scientific and technological services and research and design relating thereto; industrial analysis and research; technological services for the development of mechatronic components, automation processes, for integration of mechanics, optics, electronics and software development for creating "intelligent mechanisms", including robots, for development of man-machine interfaces, for development of robotic astronauts, humanoid robots for extra-vehicular activities during space missions and planetary rovers for supporting people in space, in particular robot servicing and exploration, for development of autonomous rovers for the moon and for mars, for development and conception of robotics for production of fibre composite structures, for highly integral production of fibre composite structures, and related technologies for automated assembly of large aviation structures, for development of mechatronic systems for aeroplane technology and vehicle technology, for development of automation devices and optical information systems, in particular of real time information systems, design and regulation of multi-body systems and aircraft ; engineering, physics (research), chemistry services, natural sciences research, in particular quality auditing, accreditation and certification in

accordance with national and international standards, guidelines and legal norms in the field of technology, and the development of these standards, guidelines and legal norms, in particular in the field of energy technology, preferably solar technology, preferably solar thermal technology; computer programming, data processing (electronic data storage) by means of computers, development of computer software, preferably in the field of solar thermal technology and in the field of operation, control and monitoring of satellites; German aerospace technical planning, to be adopted by the German government; scientific research, in particular for medical purposes and in particular robotics for medical purposes; contract research for others, tests for rocket engines, in particular liquid rocket engines, tests for development, qualification and trialling of rocket engines and small engines for satellites and space probes; research and development for others; construction drafting; material testing; quality control; technical project studies; research in the field of environmental protection; water analysis; scientific research services; agricultural research services; biological research and research in the field of environmental protection; development of technologies for processing renewable raw materials; engineering, physics (research), chemistry research services, natural science (research), in particular consultancy, assessment, research, testing, monitoring, quality auditing, accreditation and certification in accordance with national and international standards, guidelines and legal norms in the field of technology, quality testing, quality control, product specification and product monitoring, technical consultancy and analysis of space weather situations; analysis of weather processes (including for efficient and safe air travel), analysis of climate processes (including climate impact of emissions from air travel and of contrails); weather forecasting or reporting services, including solar storm information; scientific and technical analysis and advisory services relating to radiation protection; provision of weather information, including provision of space weather information that are geomagnetic and electromagnetic conditions in the magnetosphere, ionosphere, thermosphere, and in the exosphere; development of computer software for radiation identification and recording and reproduction of radiation identification, and in the field of data capture, use and analysis of space weather conditions, warning in the event of specific space weather conditions, including solar storms; engineering services in the field of energy technology; engineering services in the field of energy storage systems including chemical energy storage systems and thermal energy storage systems; electronic storage services for archiving databases; electronic storage services for archiving databases, images and other electronic data; visualisation of geodata; technical analysis of satellite-based crisis information, using radar; design and implementation of high-resolution imaging radar systems, in particular based on the principle of synthetic aperture radar (SAR), in particular in the field of SAR interferometry for generation of digital elevation models and for analysis of movements and in particular in the field of image analysis and photogrammetric methods for interpretation of high-resolution optical satellite image data, including 3d mapping of town areas and for automated finding of concealed information, including photorealistic 3d world modelling by means of cameras carried by satellites and aeroplanes, including for monitoring of biological and ecological conditions of coastal and inland waters; calibration of instruments; calibration services; monitoring of telecommunication apparatus; monitoring of computer systems to detect breakdowns; testing, analysis and monitoring of navigation apparatus; machine condition monitoring; development of a new generation of aircraft radio with complete cross linkage of aeroplanes and ground control, including partially via satellite; development of vehicles; development of test equipment; development of engines; development of aircraft; design of computer programs and software

relating to aircraft; aircraft design; design and development of software and hardware for signal amplification and transmission; electronic storage data in a data archive for visualisation of geographical information, satellite-based crisis information, humanitarian aid activities in the event of natural disasters; electronic storage of data of data from satellites, similar space travel and flight systems, airborne platforms for remote sensing of image data from earth or of image data from other planets in a data archive; electronic storage of remote sensing data received from for optical transmission of satellite and air carrier data through the atmosphere; scientific research relating to planets inside and outside of our solar system, in particular researching the structure and age of planetary crusts, analysing the chemical composition and physical surface characteristics of planets and in relation to geological processes and interactions of planet surfaces with their atmospheres and cosmic radiation environment; scientific research for the development of remote sensing instruments and conducting of space experiments and researching the risk potential to the earth from possible collisions with asteroids entering the earth's orbit; development of algorithms, processors, procedures and software for processing of satellite data, development of technologies for transmission procedures, receiving systems, data management, archives and validating and test environments for satellite data for operational multi-satellite missions in particular earth observation satellites; development and testing of computing methods, algorithms and software; development of software systems for determining atmospheric state variables from satellite data, including for identifying trace gases relevant to the climate, remote detection using lasers, including for detecting chemical, biological and explosive hazardous materials, for locating space debris or for laser-based tracking of the flight paths of debris parts in the universe; technological analysis for calculating of future transport demand, intelligent and environmentally friendly transport and mobility, and for traffic flow optimization; preparation of technical reports for flight noise prognoses and intermodal mobility; development of technical reports for future mobility concepts, traffic planning and control; development of hosting platforms for transport applications and related data capture, data management, data processing and data visualization, determining of driving behaviour in real-life traffic and testing the acceptance of driver assistance systems; preparation of technical reports relating to the cost effectiveness of rail transport in terms of railway and vehicle infrastructure, including increasing security and efficiency of road and rail transport; preparation of technical reports for the development of methods for influencing traffic flows and ensuring sufficient traffic flow; provision of design services for designing program in relation to traffic information, traffic observation and traffic routing; technological analysis and assessment of new air transport concepts in relation to airports and transport links thereto, in relation to flight safety, including navigation and communications technology, flight operation and in relation to aeroplanes for technical, ecological and monetary assessment of air transport systems and for multi-disciplinary conception of virtual goods for the air transport system; technological services for traffic in regions and towns; technical analysis for measurement of traffic in regions and towns; conducting research for traffic in regions and towns; compilation of data-processing programs; visual design and development of systems for the transmission of data; development of systems for the storage of data; research on city planning; commissioning [testing and inspection] services; development of test equipment; development of testing methods; engineering testing; quality control testing; testing of vehicles; consultancy in the field of energy-saving; research services relating to non-autoclave infusion technology, robotics, in particular in the field of production of fibre composite structures, sensor systems, mechatronics, durometer and

thermoplast processing, production integrated quality assurance, and assembly and connection technologies, volume components-RTM technology, online quality assurance for autoclave processes, mould technology, process simulation and aerodynamics, contract development of fibre composite materials; design and development of software for high-precision path calculation, monitoring of satellite functions and ground systems related thereto, development of applications for navigation for landing of aeroplanes and for preventing collisions between aeroplanes, trains or ships by means of satellite signals; scientific consultancy for researchers and inventors regarding establishment, maintenance and exploitation of intellectual property rights; scientific consultancy for entrepreneurs; construction engineering consultancy; consultancy in relation to development and validation of production processes on industrial scale; consultancy in relation to design of process chains in the field of lightweight production technology; quality assurance of production methods, in particular in the field of lightweight production technology; technological consultancy in relation to development and production of carbon fibre-reinforced plastic components; electronic storage services for archiving data in a data archive; technical design, analysis and evaluation of air transport concepts, in particular in relation to airports and transport links thereto, aircraft, air traffic control, including navigation and communications technology, and in relation to flight operation; technical and ecological assessment of air transport systems; design of individual virtual goods for air transport systems; operation of satellite control centres and control and monitoring of satellites; development of terminal management systems for airports; development of simulation of manufacturing processes and imaging and modelling of passenger flow; providing of scientific information.

Class 45

Security consultancy; safety auditing; information services relating to safety; security services, in particular for airlines; fire-fighting; alternative dispute resolution services; safety consultancy relating to the integration of all German space travel activities at a national, European and international level into the German space travel programme, in particular consultancy with regard to the German national space and innovation programme, the German space research and development programme, and with regard to German contributions towards the European space agency (ESA) and the European organisation for the exploitation of meteorological satellites (EUMETSAT), safety consultancy with regard to space travel in the EU framework programme for research, in particular with regard to earth observation, navigation and satellite communications, safety consultancy in all matters relating to EU space policy, compilation and annotation of all available information regarding the safety evaluation of space travel activities in the EU, providing of safety information and consultancy to German companies and research facilities relating to tenders and funding opportunities in the horizon 2020 EU research programme, legal support services for companies in planning and preparing applications, development of a safety exploration strategy in collaboration with international partners outlining exploration targets in the solar system; licensing of technology; licensing of intellectual property; consultancy relating to intellectual property management; legal services; security services for the protection of property and individuals.

Date of Notification: 27/06/2019

The following claim is made in the International Registration: Colour(s) claimed: Blue: CMYK C: 97; M: 69; Y: 13; B: 2- RGB #005192 and grey: CMYK C: 0; M: 0; Y: 0; B: 70 RGB #6d6e71.

Class 09

Spectacles (optics); sunglasses; goggles for sports; spectacle frames; ophthalmic lenses; spectacle lenses, including organic (plastic) lenses, mineral lenses, corrective lenses, progressive lenses, sunglass lenses, polarized lenses, filtering lenses, tinted lenses, colored lenses, light-sensitive lenses, photochromic lenses, treated lenses, coated lenses, anti-reflective lenses, semi-finished lenses; blanks for spectacle lenses; semi-finished blanks for spectacle lenses; contact lenses; cases for spectacle lenses; cases for ophthalmic lenses; spectacle cases; cords and chains for spectacles; apparatus and instruments for optical, ophthalmic and/or facial measurement; software for measuring and displaying ophthalmic, optical and/or facial parameters; software (recorded programs); magnetic recording media, sound recording disks, compact disks, DVDs and other digital recording media; downloadable electronic publications, namely, downloadable electronic information guides and documents; quality certificates for spectacle frames, spectacles and ophthalmic lenses; control certificates for spectacle frames, spectacles and ophthalmic lenses; analysis reports and certification documents in relation to the manufacture and the treatment of spectacle frames, spectacles and ophthalmic lenses; information leaflets with respect to certification, standardization and normalization regarding the manufacture and the treatment of spectacle frames, spectacles and ophthalmic lenses; all of the aforementioned products being in downloadable electronic form.

Class 16

Printed publications; catalogs; leaflets; pamphlets; books; magazines; manuals [handbooks]; newspapers; business cards; calendars; albums;

journals (magazines); booklets; prospectuses; printed guides; posters; signboards of paper or cardboard; bags, envelopes and pouches for packaging purposes, made of paper or plastic materials; quality certificates for spectacle frames, spectacles and ophthalmic lenses; control certificates for spectacle frames, spectacles and ophthalmic lenses; analysis reports and certification documents in relation to the manufacture and the treatment of spectacle frames, spectacles and ophthalmic lenses; information leaflets with respect to certification, standardization and normalization regarding the manufacture and the treatment of spectacle frames, spectacles and ophthalmic lenses; all of the aforesaid goods being in printed form.

Class 35

Compilation and updating of commercial and advertising literature and catalogs of goods and services, including in electronic form online; distribution of goods for promotional and advertising purposes; publication of advertising texts; dissemination of advertisements; dissemination of advertising material, namely, leaflets, prospectuses, printed matter, samples; compilation of statistics; collection and systematization of data in a central file; computer file management; opinion polling; sponsorship search; organization of competitions in connection with advertising; public relations; inventory management assistance; marketing service; presentation of goods on all communication media, for retail purposes; selection (promotion) of goods and services (for others); demonstration of goods; organization of sales and service promotion activities to build customer loyalty; customer loyalty services and customer club services, for commercial, promotional and/or advertising purposes; advertising and sales promotion for others, including via telecommunications and/or computer networks; organization of exhibitions and events for commercial and/or promotional and/or advertising purposes; retail, wholesale and on-line retail services of the following goods: sanitary preparations for medical purposes, cleaning solutions for medical purposes, aseptic solutions; retail, wholesale and on-line retail services of the following goods: preparations for cleaning contact lenses and spectacle lenses, products for cleaning contact lenses and spectacle lenses, preparations for holding and storing contact lenses and glasses; retail, wholesale and on-line retail services of the following goods: machines for working, machining, pruning, cutting, drilling, grinding, overflowing, outlining, grooving, engraving, bevelling, counter-bevelling, chamfering, surfacing, finishing, smoothing, polishing, retouching and/or stripping spectacle lenses and ophthalmic lenses; retail, wholesale and on-line retail services of the following goods: blocking machines for spectacle lenses and ophthalmic lenses, grinding machines for spectacle lenses and ophthalmic lenses, parts and fittings for all the aforesaid goods; retail, wholesale and on-line retail services of the following goods: spectacles (optics), sunglasses, sports eyewear, spectacle frames, ophthalmic lenses, spectacle lenses, including organic lenses; retail, wholesale and on-line retail services of the following goods: mineral lenses, corrective lenses, progressive lenses, lenses for sunglasses, polarizing lenses, filtering lenses; retail, wholesale and on-line retail services of the following goods: tinted lenses, colored lenses, light-sensitive lenses, photochromic lenses, treated lenses, coated lenses, anti-reflection lenses, semi-finished lenses, blanks for spectacle lenses, semi-finished blanks for spectacle lenses, contact lenses; retail, wholesale and on-line retail services of the following goods: cases for spectacle lenses, cases for ophthalmic lenses, spectacle cases, cords and chains for spectacles, apparatus and instruments for optical, ophthalmic and/or facial measurement; retail, wholesale and on-line retail services of the following goods: software for measuring and displaying optical, ophthalmic and/or facial parameters, software (recorded programs); retail, wholesale and on-

line retail services of the following goods: medical apparatus and instruments, ophthalmic examination instruments; retail, wholesale and on-line retail services of the following goods: medical imaging apparatus for ophthalmic use, pupillometers, light reflex pupillometers, photometers, vertical angle refractionometers, ophthalmoscopes, keratometers, ophthalmometers; retail, wholesale and on-line retail services of the following goods: apparatus for detecting eyesight defects and disorders, apparatus for measuring and testing visual acuity and vision, apparatus and instruments for testing the eyes, in particular for the examination of visual behavior; retail, wholesale and on-line retail services of the following goods: apparatus and instruments for detecting and measuring eye movements and the head in response to visual stimuli, parts and fittings for all the aforesaid goods, apparatus for detecting hearing defects and disorders, audiometers.

Class 36

Financing services; financial sponsorship; collection and distribution of funds for charitable purposes; emergency fund management; organization of collections.

Class 44

Services of opticians, optometrists and other professionals in the field of ophthalmic optics; information and advice in the field of ophthalmic optics; information and advice relating to protecting the eyes and sight and to visual correction and comfort; eyesight testing and visual diagnosis services; services for detecting eyesight defects and disorders.

Class 16

Paper, cardboard; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except furniture); instructional or teaching material (except apparatus); wrapping paper; plastic materials for packaging (not included in other classes); printing type; printing blocks; paper and cardboard articles, namely, tablecloths, place mats, towels; place mats of paper; table napkins of paper; tissues of paper; paper menus; plastic menus; signboards of paper or cardboard; boxes made of cardboard or paper; bottle envelopes of cardboard or paper; mats for beer glasses; table linen of paper; table mats of paper; paper and paperboard bags; coasters of paper; pennants (flags) of paper; coffee filters of paper; paper decorations; packaging material made of paper; boxes and small bags of paper or plastic for packaging; bottle packaging of cardboard or paper; plastic menus; magazines; publications; pamphlets; diaries (planners); calendars; catalogs; pictures; printed matter; newspapers; prospectuses; pictures; printed matter; recipes; menus; books; books in the area of cooking; kitchen recipe books; writing or drawing books; booklets; bookmarks; bookends; greeting cards; flags of paper; advertisement boards of paper or cardboard; stickers; bibs of paper; coasters; hand towels of paper.

Class 30

Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour and preparations made from cereals; bread, pastry and confectionery; edible ices; sugar, honey, golden syrup; yeast, baking powder; salt; mustard; vinegar, sauces (condiments); spices; ice for refreshment; chocolate, beverages based on coffee, tea, cocoa or chocolate; potato flour; flour and preparations made from rice, corn; potato, corn flour for food use; cereal flakes; biscuits, cookies; cookies; almond-based confectionery; macaroons; pralines; gingerbread; rusks; custard; mint for confectionery; cakes; pancakes; waffles; sugar confectionery; sugar; almond paste; candy; natural sweeteners; glucose for food; panacotta; royal jelly for human consumption not for medical use; aniseed; star aniseed; malt extract for food; sandwiches; custom sandwiches; club sandwiches; bagels; croque-monsieur; paninis; dishes, prepared meals and prepared dishes made with pasta, rice; pasta; raw, deep-frozen and preserved food pastes; tart pastry; bread dough; cake dough; cookie dough; dough for Viennese pastries such as dough for croissants, dough for chocolate breads, raisin bread dough, brioche dough; Viennese pastries; croissant; pains au chocolat; raisin breads; buns; petits fours (cakes); pastry dough, tarts, pies, puff pastries; pizza dough, pizzas; breads; couscous (semolina);

cake dough; biscuit and cookie dough, biscuits and cookies; sweet and savory pastries; meat pies; petit-beurre biscuits; puddings; edible decorations for cakes; glutamate; flavorings for cakes other than essential oils; flavorings for beverages (other than essential oils); curry; celery salt; cloves [spice]; tarts; quiches; pies; puff pastries; ginger; cinnamon; vanilla; meat gravies; rice-based snacks; ravioli; noodles and products made with cereals; semolina; couscous (semolina); thickening agents for cooking foodstuffs; preparations for stiffening whipped cream; salt for preserving foodstuffs; flavorings other than essential oils; aromatic preparations for food; pepper; peppers; sauces (condiments); tomato sauce; hot sauce; soy sauces; seasonings; condiments; salad dressings; tomato ketchup; mayonnaise; infusions made with plants, not medicinal; edible ices; ice for refreshment; edible ice creams; sherbets (ices); food preparations particularly toppings and fillings based on flour, sugar, cocoa, vanilla, chocolate, sauces and/or condiments; dietetic foodstuffs not for medical use based on coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee, flours, honey, treacle; corn flakes; high-protein cereal bars; stick liquorice [confectionery]; cocoa-based beverages; coffee-based beverages; chocolate-based beverages; tea-based beverages; flavorings, other than essential oils, for beverages; candy; thickeners for cooking foods; chocolate mousses; dessert mousses [confectionery]; semolina; hominy grits; sugar confectionery; confectionery for decorating Christmas trees; sushi; tabbouleh; tacos; tea; iced tea; tortillas; frozen yogurt [confectionery ices]; waffles; candy; chewing gum and chewing gums not for medical use; custards [baked desserts]; edible decorations for cakes; croque-monsieur, croque-madame; hot dogs.

Class 43

Services for providing food and drink; temporary accommodation; self-service restaurants; snack bars; banqueting services; preparation of sandwiches; preparation of meals, prepared meals and/or takeaway dishes; services for preparing beverages, for take-away or not; services for preparing bread, pastries, Viennese pastries, confectionery, sandwiches and preparations made with cereals, for take-away or not; catering services; bar services; coffee shops; coffee shops; cafeterias; canteens; tea room services; brasseries; hotel services; temporary provision of restaurants for films or television programs; rental of table linen, tableware and glassware; rental of cooking apparatus; advice (electronic or not) in culinary matters.

ZUSE HÜLLER HILLE
WERKZEUGMASCHINEN

Date of International Registration: 03/05/2018
Date of Protection in Singapore: 03/05/2018
Date of Notification: 13/09/2018

The German word "Werkzeugmaschinen" in the mark means "Machine Tools".

Class 07

Machine tools for material processing and production; machine housing; housing for machines and motors; metal processing machines; machine tools for metal processing; machine tools for drilling; machines and machine tools for material processing and production; numerically controlled machine tools; turret lathes [machine tools]; robots for machine tools; turrets with radially reaching machine tools; machine tools for thread-cutting; machine tools for grinding; machine tools for cutting; numerically controlled machines [NC machines]; numerically controlled processing station [machines] with automatic tool changer for drilling processes with palletization system; numerically controlled turning machines; numerically positioning universal milling machines; thread-cutting machines with numeric positioning; production plants consisting of interlinked machine tools and production plants for industrial purposes consisting of interlinked machine tools; radial feeding machines [machines]; machine stands; machine controls [machine parts]; spindle adapter flange for machine tools; spindles for machine tools; spindle shafts [machine parts]; spindle shafts [parts of motors]; truing devices for blades [machine tools]; drive mechanisms for machine tools; drives for machines; electric drives for machines; electric drive motors for machines; gear mechanisms for machines; linear actuators [machine parts]; drills for machine tools; drill bits [machine tools]; milling machines [machine tools]; thread milling cutters [machine tools]; pick heads [machine tools]; ring hole milling cutters [machine tools]; grinding wheels [machine tools]; cutting inserts for machine tools; masonry drills [machine tools]; gear cutters [machine tools]; hydraulically driven tools [machine tools]; mechanically actuated tools; module tools [machines]; pneumatic tools for machines; rotating tools [machines]; tools [machine parts]; milling tools [parts of machines]; precision turning tools [machine parts]; rotating metal cutting tools [machine parts]; rotating milling machines [machine parts]; guiding frames for machine tools; handles as parts of machine tools; sphere rings for machine tools; magnetic holders for machine tools; dies for use with machine tools; plate changing devices for machine tools; depalletisers [machines]; turning lathes [machine tools]; rotating tables for machine tools; electric drives for machine tools; clamping devices for machine tools; workpiece clamping devices for machine tools; mounting parts for machines used for clamping of workpieces; XY positioning tables [machines]; workpiece carriers [machines]; robots; tensioners [machines]; rotating indexing machines; fixer for tools [machine parts]; gliding carriage for tools [machine parts]; sled supports [machine parts]; drum for machines; workpiece consoles [machine parts]; workpiece carrier [machine parts]; workpiece holder for machines; mechanical controls for motors and machines; mechanical process controllers for machines and motors; mechanical processing

controls for machines and motors; hydraulic process controllers for machines and motors; hydraulic processing controls for machines and motors; pneumatic process controller for machines and motors; pneumatic process controller for machines and motors; control units for machines or motors; feeding devices for machines; lubricating devices [machine parts]; modular coupling for machine tools; multi-purpose spindle head for drilling [machine parts]; hydraulic door opener [machine parts]; hydraulic door closer [machine parts]; pneumatic door opener and closer [machine parts]; parts of the previously mentioned goods; all goods mentioned hereinbefore not in dental sector.

Class 09

Measuring and test equipment and instruments; electric control, measuring and monitoring devices, in particular control, measuring and monitoring devices for numerically controlled machine tools; measuring, identification and monitoring instruments, equipment as well as controllers; measuring apparatuses; measuring instruments; sensors for machine tools; sensors for control of motors; numeric control devices; automatic control devices; electric controls; electric control devices; connection modules for electric controls; programmable controls; electronic control systems; temperature control devices [electric switches] for machines; temperature control devices [thermostats] for machines; temperature limiter for machines; temperature regulation devices for machines; machine monitors; material testing instruments and machines; electromotive testing equipment [monitoring or controlling]; electric testing instruments; testing equipment for electronic instruments; testing equipment for hydraulic systems; control apparatuses [electric]; electric measuring devices; electronic measuring devices; numeric position displays; software for the control of industrial processes; software to be used in combination with the industrial manufacture and/or for production planning, in particular numeric control programmes and machine tool operating programmes; computer software for data processing; data processing programmes; data processing systems; data processing equipment; data processing devices; storage devices for data processing equipment; apparatuses and instrument to control electricity; numeric electromechanical, electric and electronic controls and/or data processing devices for machine tools and/or turning machines and/or for assemblies of machine tools.

Class 42

Conducting of technological studies relating to machine tools; engineering services regarding the design of machine tools; design of machines, devices, instruments [including their parts] or of plants consisting of such machines, devices and instruments; engineering services for the design of machines; development of computer programs [software] saved on data carriers for the use in the construction and the automated CAD/CAM/CNC production; creation and development of computer programs for data processing; services for the design of software for electronic data processing; design of data processing systems; design of data processing programmes; programming of electronic control systems; creation of programs for industrial manufacture and/or for production planning, namely for numeric control of machine tools; technological and technical consultation with respect to performance and operation of machines, for which differentiated expert knowledge, techniques and experience is required in order to ensure correct operation together with computers, motor vehicles and other purposes; performance of technical tests and research with regard to machines and appliances.

Date of International Registration: 21/05/2018
Date of Protection in Singapore: 21/05/2018
Date of Notification: 18/10/2018

The following claim is made in the International Registration: Colour(s) claimed: Blue.

Class 07

Motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); separators; centrifuge machines; decaners (horizontal separators for separation of particles in fluids and gas); filters and filter membranes (parts of machines or engines); pumps (machines); valves (parts of machines); heat exchangers (parts of machines); machines, namely food manufacturing machines; packaging machines for sterile and non-sterile packaging; filling machines for packaging; filling machines for bag-in-box and bag-in-drum containers; installation washing and cleaning machines for process systems; processing machines and pipes and tanks being parts of machines, as well as parts and fittings therefor for use in food, dairy, beverage and starch process industries, for use in chemical, petrochemical, biochemical and other process industries; machines for use in power distribution installations, on ships and in particular machine rooms; machines for use in breweries; machines for use in the pharmaceuticals industry; machines for use in the pulp and paper industries; machines for use in oil, gas and offshore installations; machines for use in refineries and sewage treatment plants; control mechanisms for machines; de-aerators for water; parts and components of the aforementioned goods.

Class 09

Scientific, nautical, photographic, cinematographic and optical apparatus and instruments; inspection, weighing, measuring, signalling and checking (supervision) apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; data processing devices and computers; electric and electronic control, regulating and monitoring equipment, including thermal and hygrometric control apparatus; electric and electronic apparatus and sampling instruments; capacitors and flow control equipment, parts and fittings of the aforesaid goods.

Class 11

Apparatus for heating, steam generating, cooking, cooling, refrigerating, drying, ventilating, water supply and sanitary purposes, including heat exchangers for chemical processing, heat exchangers [other than parts of machines]; distillation apparatus, heat exchangers, storage water heaters, sterilisers, pasteurisers, evaporators, desalination plants and equipment, water purification tanks, water purification and filtration apparatus, filters, water and oil-scrubbing apparatus and installations, parts and spare parts for all of the aforesaid apparatus.

Class 14

Precious metals and alloys thereof and earrings, necklaces [jewellery], rings, jewel chains, brooches (jewellery) and bracelets of precious metal or coated therewith, not included in other classes; jewelry; gemstones; horological and chronometric instruments.

Class 18

Leather and imitation leather, and bags, wallets and key cases made from the aforesaid materials and not included in other classes; animal skins and hides, bags, trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.

Class 25

Clothing, footwear, headgear.

The French word “Le” in the mark means “The”.

Class 09

Educational software.

Class 41

Electronic games services provided by means of the internet; advice with regard to medical training; company training provided via a game; educational services in the field of health (making available -); education and educational services; training personnel in the use of electronic equipment; training courses for personal development; training with regard to professional skills; trainings via global computer networks; training for staff; educational courses (providing -); education; providing online training; training with regard to health and safety; information regarding physical training via an online website; games (electronic -) via the internet or via a global computer network; providing a computer game to which users of a worldwide network and / or the internet have access; provision of information regarding permanent education via the internet; educational information delivered online from a computer database or the internet.

Class 42

Providing software as a service [SaaS]; updating software; maintenance of software; programming educational software; research in the field of software; designing, maintaining and modernizing software; design, development and implementation of software; research (scientific -); technical research; research related to technology; technological services and research relating to technological services; scientific services and research related to scientific services; services in the field of scientific research; services for providing technological information; design and development of data input systems; programming of software for internet platforms; programming of software for e-commerce platforms; platform as a service (PaaS); hosting platforms on the internet; development of measuring and testing methods.

LEQUEST BV

HOFPLEIN 20 NL-3032 AC ROTTERDAM NETHERLANDS

40201823387U (09 35 37)
(International Registration No. 1433313)

Date of International Registration: 23/08/2018
Date of Protection in Singapore: 23/08/2018
Date of Notification: 08/11/2018

Class 09

Electronic apparatus for non-destructive testing and testing of materials; electronic apparatus for non-destructive testing of materials by means of magnetic field determination; electronic apparatus for non-destructive testing of materials by means of eddy current testing; electronic apparatus for non-destructive testing of materials by means of ultrasound measurement; electronic apparatus for non-destructive testing of materials by means of imaging methods, in particular by means of thermography; electronic apparatus for measuring electric, magnetic and other physical material properties; electronic apparatus for measuring

magnetic flow density and relative magnetic permeability; apparatus for testing conductive materials, in particular metallic materials, for material defects, surface defects and material inhomogeneities; electronic apparatus for measuring the magnetisation, saturation induction and coercive field strength; detectors for metallic objects; probes, sensors, test heads and exploring coils for the aforesaid apparatus; electronic data processing equipment for controlling electronic apparatus, and for evaluating information therefrom; parts and fittings of the aforesaid goods; software and programs recorded on data carriers for controlling electronic apparatus and for evaluating and presenting the information therefrom.

Class 35

Advertising, marketing and promotional services; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for non-destructive testing and testing of materials; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for non-destructive testing of materials by means of magnetic field determination; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for non-destructive testing of materials by means of eddy current testing; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for non-destructive testing of materials by means of ultrasound measurement; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for non-destructive testing of materials by means of imaging methods, in particular by means of thermography; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for measuring electric, magnetic and other physical material properties; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for measuring magnetic flow density and relative magnetic permeability; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to apparatus for testing conductive materials, in particular metallic materials, for material defects, surface defects and material inhomogeneities; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic apparatus for measuring the magnetisation, saturation induction and coercive field strength; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to detectors for metallic objects; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to probes, sensors, test heads and exploring coils for the aforesaid apparatus; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to electronic data processing equipment for controlling electronic apparatus, and for evaluating information therefrom; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to parts and accessories of the aforesaid goods; wholesale services and retail services and mail order retail services, the aforesaid services also provided online, in relation to software and programs recorded on data carriers for controlling electronic apparatus and for evaluating and presenting the information therefrom.

Class 37

Installation, maintenance, repair and restoration of electronic apparatus for non-destructive testing and testing of materials; installation, maintenance, repair and restoration of electronic apparatus for non-destructive testing of materials by means of magnetic field determination; installation, maintenance, repair and restoration of electronic apparatus for non-destructive testing of materials by means of eddy current testing; installation, maintenance, repair and restoration of electronic apparatus for non-destructive testing of materials by means of ultrasound measurement; installation, maintenance, repair and restoration of electronic apparatus for non-destructive testing of materials by means of imaging methods, in particular by means of thermography; installation, maintenance, repair and restoration of electronic apparatus for measuring electric, magnetic and other physical material properties; installation, maintenance, repair and restoration of electronic apparatus for measuring magnetic flow density and relative magnetic permeability; installation, maintenance, repair and restoration of apparatus for testing conductive materials, in particular metallic materials, for material defects, surface defects and material inhomogeneities; installation, maintenance, repair and restoration of electronic apparatus for measuring the magnetisation, saturation induction and coercive field strength; installation, maintenance, repair and restoration of detectors for metallic objects; installation, maintenance, repair and restoration of probes, sensors, test heads and exploring coils for the aforesaid apparatus; installation, maintenance, repair and restoration of electronic data processing equipment for controlling electronic apparatus, and for evaluating information therefrom; installation, maintenance, repair and restoration of parts and accessories of the aforesaid goods.

Date of Notification: 22/11/2018

Class 09

Compact discs (read-only memory); compact discs (audio-video);

computers; computer operating programs, recorded; computer peripheral devices; computer software (recorded); computer programs (downloadable); computer software (recorded); computer keyboards; data-processing apparatus; electronic publications (downloadable); electronic diaries; interfaces (for computers); laptops (computers); the aforesaid goods limited in each case to the field of enterprise resource planning (ERP).

Class 35

Updating and maintenance of data in computer databases; cost-price analysis; business management and organization consultancy services; business management advisory and consultancy services; business management consultancy; procurement services, for others (purchasing of goods and services for other businesses); business consultancy and advisory services; computerised file managing; compilation of statistics; drawing up of statement of accounts (office functions); drawing up of business expert reports; efficiency experts; commercial information services; business information services; marketing research; market research; searches in computer data files (for others); business research; public relations; on-line advertising in computer networks; business organisation consultancy; organisational consultancy; planning and monitoring of business developments with regard to organisational matters; business management assistance; presentation of companies on the internet and other media; publication of printed matter (including in electronic form), for advertising purposes; radio advertising; collecting and arranging of topic-referred press articles; systematization of data in computer databases; business consultancy; collating of data in computer databases; the aforesaid goods limited in each case to the field of enterprise resource planning (ERP); EDP consultancy.

Class 38

Information about telecommunications; providing access to a worldwide computer network; providing telecommunications connections to a global computer network; providing access to computer programs on data networks; providing access to information on the internet; telecommunications; telecommunications by means of platforms and portals on the internet; rental of telecommunication equipment; leasing of access time to global computer networks; providing access to databases; the aforesaid goods limited in each case to the field of enterprise resource planning (ERP).

Class 41

Consultancy regarding training, further training and education; providing electronic publications (not downloadable); coaching; practical training demonstrations; desktop publishing; services of a publishing firm, except printing; educational services; correspondence courses; providing of training, including through international computer networks; on-line publishing of electronic books and magazines; arranging and conducting of conferences; arranging and conducting of congresses; arranging and conducting of symposiums; basic and advanced training for human resources development; publication of printed matter (also in electronic form), except for advertising purposes; publication of magazines and books in electronic form, also on the internet; training; sports training; arranging and conducting of seminars; arranging and conducting of workshops (training); arranging and conducting of colloquiums; editing of texts (except publicity texts); publication of books; the aforesaid goods limited in each case to the field of enterprise resource planning (ERP).

Class 42

Computer software (updating of-); updating of computer software; updating of internet pages; administration of user rights in computer networks; consultancy in the field of computers; computer hardware and software consultancy; computer software consulting; computer systems analyses; designing and creating homepages and internet pages; software design services; design of computer systems; certification agency services (trust centres), namely issuing and management of digital codes and/or digital signatures; computer programming; technical testing; design and development of electronic data security systems; computer programming; installation and maintenance of software; installation and maintenance of software for internet access; installation of computer programs; configuring computer networks by means of software; server administration; technical project management in the field of electronic data processing; rental of computer; rental of computer software; computer rental; rental of data processing equipment; rental of web servers; computer software maintenance; the aforesaid goods limited in each case to the field of enterprise resource planning (ERP); electronic data storage.

Date of Notification: 22/11/2018

Class 09

Computer hardware; computer software for business purposes; computer peripheral devices; software for cloud computing; computer encryption software; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software and firmware for providing cryptocurrency indices; computer software for transmitting, displaying and storing transaction, identification, and financial information, including in the fields of banking, cryptocurrency transactions, private messaging, and mobile applications; handheld digital electronic devices; global positioning system (GPS) apparatus; wireless communication devices for voice, data or image transmission; downloadable electronic publications; computer game software; electronic game programs; downloadable computer software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currency, and managing digital currency payment and exchange transactions; computer software for analyzing market information; computer software programs for database management; parts and fittings for all the aforementioned goods.

Class 35

Business consulting services; business consulting services in the field of cryptocurrency; advertising; marketing services; market research services; business information services; business management and administration services; business management provided on-line from a computer database or the Internet; advisory services relating to electronic data processing; arranging of commercial contracts; business advice and analysis of cryptocurrency market; online advertising on a computer network; computerised business promotion; advertising services provided over the Internet; promoting the goods and services of others via computer and communication networks; the provision of business information in the field of cryptocurrency; information, advisory and consultancy services relating to all the aforesaid.

Class 36

Financial services; financial services relating to cryptocurrencies; financial investment services; electronic transfer of virtual currencies; funds transfer services; electronic money transfer services; currency transfer services; currency trading and exchange services; electronic cash transactions; electronic money transfer services; electronic credit card transactions; electronic funds transfer services; investment services; brokerage services; financial advisory and consultancy services; financial analysis and research services; financial information for investors; financial information in the nature of rates of exchange; foreign currency exchange; foreign exchange transaction; facilitation of financial transactions using unconventional currency systems and bartering; facilitation of cryptocurrency transactions; providing financial services and information regarding tokens, digital assets and block chain based investing through a marketplace; information, advisory and consultancy services relating to all the aforesaid.

Class 38

Telecommunications services; telecommunication services between data

bases; data transmission; data transmission using block chain technology; digital data transmission; email and instant messaging services; audio, text and video broadcasting services over computer or other communication networks; telecommunication services for data communication or data transmission; consulting services in the field of data communication; transmission of data via data streaming; transmission, broadcasting and reception of data, signals and information processed by computers or telecommunication equipment; information, advisory and consultancy services relating to all the aforesaid.

Class 42

Computer programming; hardware development; consulting services in the field of hardware development; developing hardware in the field of data transmission and data protection; developing hardware in the field of cryptography; developing hardware for data conversion; developing hardware for software using block chain technology; designing software; developing software; developing software using block chain technology; software engineering; developing software for protecting data; consulting in the field of software development; software engineering for data processing programs; customer specific software development; platform as a service (PaaS) services featuring computer software platforms for cloud computing; software as a service (SaaS) services; computer programming in the field of cryptocurrency exchange; creation, development and maintenance of software for conducting financial transactions; website design consultancy; creating and maintaining web sites for others; hosting computer sites (web sites) of others; hosting, managing, developing, analysing, updating and maintaining applications, computer operating systems, software, and web sites; information, advisory and consultancy services relating to all the aforesaid.

Class 07

Motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; automatic vending machines; pumps [parts of machines, engines or motors]; vacuum pumps [machines]; vacuum pump stands; electrical motors, except for

VINDUR

land vehicles, in particular for air-conditioning and heating apparatus; compressors for refrigerators; aerators; air condensers; compressed air pumps; compressed air machines; pneumatic transporters; compressed air engines; reducers (pressure -) [parts of machines]; extracting machines; vacuum cleaning equipment; machines and installations for transvasing and processing dusty and gaseous products in closed systems and clean-air systems, in particular for use in the chemical, cosmetics, food and pharmaceutical industries; micronization (grinding and milling) installations; apparatus and installations for the supply and disposal of chemicals; filling and sealing machines; filling machines; laminar flow installations (parts of machines), in particular for the pharmaceutical and food industries; laminar flow overhead structures being parts of production machines incorporating heating and/or cooling installations; pipetting robots incorporating laminar flow overhead structures; electrically operated suction apparatus, being a component of working boxes, work booths and workstations.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; air and climate analysis apparatus and devices; temperature analysis apparatus and devices; temperature indicating apparatus; temperature shock testing apparatus; ozone testing apparatus; corrosion testers; dust and rain testing apparatus; measuring and control devices for air conditioning technology; heat flow meters; data processing apparatus and installations, and components therefor, including monitors, printers, keyboards, scanners, personal computers; electric power supply apparatus; apparatus for measuring, controlling and obtaining physical values, including temperature, pressure, humidity and vibration; special test stands, in particular for environment simulation installations; emission test chambers for characterization of volatile organic compounds (VOCs); test systems for stability testing in the pharmaceutical industry; apparatus for testing electromagnetic compatibility; electric and/or electronic control and regulating apparatus; heat regulating apparatus; furnaces for laboratory use; testing apparatus not for medical purposes; material testing instruments and machines; gas testing instruments; precision measuring apparatus; computer programs; electric and/or electronic temperature and humidity regulators and sensors; power supply units; data displays (included in this class), apparatus for recording, transmission or reproduction of information; electrical cabling; parts for scientific apparatus and instruments, included in this class; computer hardware and software for installations, machines and apparatus for capturing and siphoning emissions and pollutants; sensor installations for emission and pollutant capture, in particular for product, personal and room protection; scientific research and laboratory apparatus, educational apparatus and simulators; furniture especially made for laboratories; apparatus for transvasing acids and alkaline solutions for laboratories; safety cabinets for laboratory use for personal protection; weighing cabinets; weighing apparatus and instruments; laminar flow cabinets for laboratory use, in particular for product and personal protection, for mixing, bottling and weighing high-efficiency substances in the chemical and pharmaceutical industry; negative and positive pressure cabins for laboratory use for personal, product and

environment protection, in particular for microbiological laboratories for parenterals, solids or active substance production; wind tunnels; weighing apparatus and transvasing apparatus for laboratory use; machines and installations for weighing dusty and gaseous products in closed systems and clean-air systems, in particular for use in the chemical, cosmetics, food and pharmaceutical industries; sampling apparatus being laboratory apparatus; environment simulation rooms and apparatus for research, development and production; apparatus and devices for controlling and regulating cold, heat, air conditioning, light, air mixture, excess pressure and negative pressure, vacuum, sound and vibration; apparatus and devices for generating sound and vibration; chambers for material and equipment testing; chambers for research and environmental tests with plants, animals and human beings; apparatus and equipment for simulating cold, heat, humidity, climate, light, air composition, air speed, air filtration, corrosion, vacuum, excess pressure, noise and vibration; apparatus for measuring temperature in cabinet form, for use in stables or swimming pools; temperature-regulating devices; workstations for laboratory use, namely, clean air climate boxes for weighing operations.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; air conditioning apparatus; heat treatment installations; apparatus and devices for generating cold air, heat, air conditioning, light, air mixture, the aforesaid goods incorporating apparatus and devices for regulating and generating excess pressure, negative pressure and vacuum; cryogenic freezers incorporating storage chests; refrigerating and freezing apparatus and chambers; freezing and refrigerating cells; containers for air conditioning; evaporators for evaporative determination in environmental test chambers and fuel evaporation chambers; equipment and installations for heat treatment for production, research and development purposes; heated cabinets and drying cabinets; drawer ovens; dryers for continuous drying and heating processes, in particular continuous ovens, paternoster furnaces, chest ovens, tempering furnaces and baking ovens; ovens for heat treatment under inert gas; dry heat sterilizers; clean room sterilizers and dryers; vacuum drying chambers and dryers; microwave systems; filters for air conditioning; air filtering installations; air heating apparatus; dryers (air -); humidifiers; ventilation hoods; air cooling apparatus; air deodorizing apparatus; hot air apparatus; hot air ovens; heat pumps; heat regenerators; heat accumulators; heat exchangers, not parts of machines; evaporators; room air conditioners, in particular in cabinet form, including for air conditioning computer rooms, measurement spaces and clean rooms for the food and the pharmaceutical industries, and functional areas in hospitals, including operating theatres or intensive care units; room air humidifiers, humidifiers and dehumidifiers; special purpose air conditioning apparatus, in particular in box form; ceiling coolers; climatically controlled chests, namely, air-conditioning units; window-mounting air-conditioners; water re-cooling towers; chest freezers; apparatus for refrigerating cooling water; drying apparatus and installations; heating apparatus, electric; apparatus for heating; heating installations; heating apparatus for solid, liquid or gaseous fuels; stoves; ovens and microwave ovens for industrial purposes; ovens, other than for laboratory purposes; refrigerating cabinets; cooling apparatus and refrigerating machines; cold rooms; freezing appliances and installations; air purifying apparatus and machines; air sterilizers; clean rooms and sterile rooms (sanitary installations); cooling appliances and installations; fans (air-conditioning); climate control apparatus for environmental and climate simulation chambers, namely, pressure controllers [regulators] for gas apparatus, pressure controllers [regulators] for water apparatus, heat regulators [valves] being parts of

heating installations, control devices [thermostatic valves] for heating installations, level control valves, regulating valves [level controlling in tanks], temperature control apparatus [valves] for central heating installations, temperature control valves [parts of water supply installations], temperature sensitive controls for automatically operating valves [parts of heating installations]; apparatus and instruments for generating clean air; electrically operated air cleaning apparatus for removing pollutants in treatment, processing and production machines and installations; air cleaning and filtering installations for removing pollutants and odors from the air; air-conditioning and ventilating apparatus; lighting installations; apparatus and installations for the filtration of gaseous substances; exhaust air collection hoods; exhaust fans; sterile air distributors; special manlocks being parts of clean room; clean room material sluices; clean room manlocks; air filters; fans [parts of air-conditioning installations]; installations for the extraction of pollutants.
