REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Machines and appliances [machines] for use in building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting, piling, injecting grout, compacting, grouting, mixing, underpinning, pumping and lifting; ground improvement machines and apparatus [machines]; machines and appliances [machines] for use in the improvement of the engineering properties of the ground; lifting platforms; drilling platforms; excavators; machines for use in digging trenches or building walls; machines for injecting product into the ground; machines and devices [machines] for use in the construction of piles; pile drivers and compacting machines; depth vibrators [machines] for industrial use; machines for mixing grout; tunnel grouting machines; machines and appliances [machines] for use in mixing and pumping of bentonite and polymers used as lubricants for microtunnel and pipejack construction; pumps; water pumps, air pumps and grout pumps; machines and appliances [machines] for use in the grouting, construction of slurry and diaphragm walls; machines and appliances [machines] for use in the formation of ground anchorages; machines and equipment [machines] for the compaction and stabilisation of soil; vibro-compaction machines and equipment [machines]; vibrators for industrial use; machines and equipment [machines] for soil mixing and injection; drilling rods; drilling accessories; rotary percussive machines and equipment [machines]; drilling rigs, floating or non floating; grout pumps; high pressure ram and piston pumps; agitation tanks as part of machine; floating plant namely floating cranes and piling rigs; cranes; pumping equipment; parts and fittings for the aforesaid goods.

Class 09

Scientific, monitoring, measuring, sensing, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [supervision], life-saving, teaching apparatus and instruments; geotechnical and structural monitoring and measuring apparatus and instrumentation; sensors; geodetic measurement systems; equipment for measuring tensile stress applied by a prestressed bar; equipment for

measuring the strain of prestressed or reinforced concrete, and for measuring the strain of steel wires, cables and strands or the like in motion or not; vibration, noise and dust monitoring systems; monitoring systems for retaining walls, large slab movements, sewer deformation and tunnel deformation and track twist and cant calculations; drilling inclination monitoring systems; autonomous driller-operated drill rig alignment systems; apparatus and instruments for structural health monitoring using fiber optic sensing; web based monitoring software program to provide a full site overview; application programming interface and accompanying software that enables the monitoring, processing, displaying, storing and transmitting of data and information; measurement systems capable of displaying the surface settlement in real time, as well as writing and reviewing grouting instructions to purpose built grouting pump containers, grout control monitors, grouting data (borehole position, grouting phases, initial grout pressure, final grout pressure, grout volume per step and cumulated, etc.) in real time with the site monitoring data; cameras and accessories; mounts for cameras; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; calculating machines, data processing apparatus, computers; computer software; electronic information, testing, monitoring and analysis systems; electronic apparatus for the provision and display of data; information monitoring and testing apparatus; data and information downloaded from the Internet including information; electronic information gathering apparatus; data gathering apparatus; telecommunications apparatus and instruments; fire-extinguishing apparatus; safety clothing, headwear, footwear and eyewear for protection against accident or injury; parts and fittings for the aforesaid goods.

Class 35

Business management in the field of civil engineering management; business management of construction projects; business management services; business management consultancy; business support services, namely business assistance and business consultancy; provision of business assistance; assistance in management of business activities; personnel management; outsourcing services; recruitment of computer staff; procurement services; inventory management services; stock management services; business administration, clerical, telephone receptionist and office function services; advertising and marketing services; public relations services; data collection; commercial and business data analysis; administrative purchase order processing services; stock management services; contract negotiation and management services; transaction processing services, being office functions; accounting services; audits relating to property and property management; business management relating to supply chain; business management in the field of transport and delivery services; business management in the field of transport namely rail management services; business management in the field of transport namely transport logistics management services; fleet management services, namely billing and consulting in connection with the administrative management of fleet; business management of vehicle fleet management services; business management in the field of transport namely highway network management services; business management in the field of transport namely footway management services; business management in the field of transport namely traffic sign management services; business management in the field of transport namely road furniture management services; business management in the field of transport namely transport network management services; business management in the field of transport namely transport network operational

management services; business management in the field of facilities management services, the management of energy and utilities, health and safety, receptions, switchboards, building maintenance, security, cleaning, vending, landscaping, waste, pest control, mail systems and portering; business management in the field of built environment management services; business management services relating to the maintenance and provision of rough terrain and mechanical handling equipment; business management services for the collection, treatment and recycling of waste; business project management services; individual (manual) processing of data; electronic processing of data using computer software; preparing business feasibility studies and reports in relation to the aforesaid services; consultancy, advisory and information services relating to all the aforesaid services; design of advertisements and advertising material for others.

Class 37

Building services, construction, maintenance and renovation of public works, civil and geotechnical engineering services; construction, installation and renovation services namely piling, ground improvement, ground reinforcement, cement strengthening, grout reinforcement, maintenance and repair of foundations; stabilization, underpinning and strengthening of soil, earth and ground by cement and grout injection, by compaction and by insertion of reinforcing materials and piling; construction of buildings, public works, permanent and civil engineering structures, excavation of trenches or walls in the earth, soil stabilisation by injection of preparations into soil for their fortification or their waterproofing as well as for the laying of reinforcements or ties to fortify the earth; sealing of porous ground strata; tunnelling and ground drilling; tunneling and ground drilling for transportation systems, bridges, roadways, railroads, water, sewage and drains, electricity, gas, telecommunications, baggage handling tunnels, deep water drilling, ground stabilization and settlement control; repair, restoration, maintenance and underpinning of buildings, walls, bridges, tunnels, mines, airport runways, embankments, dams, docks, quays, jetties, piers, groynes and of moles; maintenance and repair of buildings relating to prevention, diminution and correction of building subsidence and settlement; construction and repair of houses, buildings, transportation systems, bridges, roadways, railroads, and dams, levies, seawalls, and tunnels, excavations, drilling pilots, wells, trenches, enclosures, or tunnels; installation of piling and retention systems; installation of pre-formed piles or piles cast in situ; construction of trench drains; ground improvement services for construction projects; constructing foundations for, and the maintenance of, wharves, jetties and other marine structures; ground vibro-compaction services; installation of vibro concrete columns; ground compaction services; ground stabilisation services; underpinning services; installation of rock and soil anchors, nails and minipiles; provision of specialty grouting services, compaction grouting, jet grouting and fracture (compensation) grouting in the ground in new construction projects, repair and maintenance work, excavation support, and settlement control; ground modification services; civil engineering underground, foundation work, in particular pile foundation, drilling and other special civil engineering underground works, including excavation and soil improving work; construction information; building construction supervision; building construction monitoring; underwater construction; installation of pipeline anchor systems and accessories; blasting operations, namely, rock blasting and soil blasting; building, repair, maintenance and demolition services in relation to buildings and civil engineering structures; demolition; construction, maintenance and repair services for roads, tracks, runways, bridges, bridge abutments, stabilized land structures, earth stabilization structures by means of mechanical effect, earth stabilization devices, earthworks, retaining walls, dikes, tunnels, gutters, chambers, retention basins, reservoirs, silos and

historical monuments, waste processing facilities; earthmoving; land clearing; dredging; repair and maintenance of aboveground storage tanks; installation of utility and drainage systems; supervising in the field of construction; installing, commissioning [installation and maintenance], maintaining and repairing all types of geotechnical and structural instrumentation, monitoring apparatus and instruments and other geotechnical instrumentation; rental of construction equipment; construction contract and project management services; construction facilities management; construction, repair, maintenance and installation of infrastructures; engineering construction namely mechanical engineering [construction] and structural engineering services [construction]; civil engineering construction; electric appliance installation and repair; construction services, namely, building, public works and civil engineering contractor services; repair, installation and maintenance of computers and computer network systems; repair, maintenance and installation of telecommunications systems; maintenance of plant and rough terrain mechanical handling equipment; installation of communications and data networks and systems, fire and safety systems, and security systems; rental of plant for construction and demolition purposes; consultancy, advisory and information services relating to all the aforesaid services.

Class 38

Communication and telecommunication services; communications by computer and between computers; providing access to web sites on the Internet; electronic sending of data, messages and information and documentation via the Internet or other databases; providing access to computer, electronic and online databases; providing online communications links which transfer web site users to other local and global web pages; facilitating access to third party web sites via a universal login; providing online chat rooms and electronic bulletin boards; providing access to computer databases in the fields of business interaction; audio, text and video broadcasting services over computer or other communication networks namely, uploading, posting, displaying, tagging, and electronically transmitting data, information, audio and video images; providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; providing online forums for communication on topics of general interest; providing online forums for the buying and selling of products and materials and exchanging of sourcing data via a computerized network; delivery of data and news by electronic transmission; providing access to websites and electronic news services online allowing the download of information and data; transmitting audio, video, multimedia, and advertising content to computers, mobile telephones, media players, and other mobile digital devices; providing temporary internet access to use on-line non-downloadable software to enable users to program audio, video, text and other multimedia content; providing wireless telecommunications via electronic communications networks; wireless digital messaging, paging services, and electronic mail services, including services that enable a user to send and/or receive messages through a wireless data network; provision of electronic telecommunications connections and access to electronic communications networks, for transmission or reception of audio, video or multimedia content; provision of telecommunications connections to electronic communication networks, for transmission or reception of audio, video or multimedia content; providing access to digital music web sites on the Internet; provision of access time to web-sites featuring multimedia materials; transmission of data by audio-visual apparatus controlled by data processing apparatus or computers; providing users with access time to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party

computer servers, computer processors and computer users; transmission of electronic media or information via computer and communication networks; preparation of reports relating to communications and telecommunications; consultancy, advisory and information services relating to all the aforesaid services; providing access to a photo and/or video sharing portal.

Class 41

Training and education in the fields of building, construction, public and civil engineering work, geotechnology, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; organisation and management of training and education in the fields of building, construction, public and civil engineering work, ground engineering, ground improvement, mining, drilling, boring, blasting and piling; organisation and management of sporting and recreational events and facilities services; safety training; arranging and conducting conferences, congresses, seminars, symposiums, and workshops; organization of conferences and workshops for commercial or advertising purposes; production of films, video films and programmes relating to training, instruction and information in the form of video tapes, CDs and CD-ROMs; providing on-line electronic publications (not downloadable); publication of electronic books, magazines, newspapers, journals, periodicals, and other publications on-line; publication of printed matter, books, texts, journals, magazines, periodicals and other publications, other than publicity texts; film and video production and editing; publication of electronic journals and web logs, featuring user generated or specified content; provision of electronic publications (not downloadable); providing information related to entertainment news, education and training matters from searchable indexes and databases of information, including text, electronic documents, databases, graphics and audio visual information, on computer and communication networks; provision of educational and instructional material; consultancy, advisory and information services relating to all the aforesaid services.

Class 42

Consultant engineer services; engineering, ground engineering, engineering design, engineering research, surveying, design and construction planning services in the fields of building, construction, public and civil engineering work, ground improvement and geotechnical work; monitoring services in the field of civil engineering; geotechnical engineering services, such as soil investigations; engineering project management services; engineering consultancy in the field of piling and civil construction services in the infrastructure and mining sectors; engineering consultancy in the field of construction of buildings, public works, permanent and civil engineering structures, excavation of trenches or walls in the earth, injection of preparations into soil for their fortification or their waterproofing as well as for the laying of reinforcements or ties to fortify the earth; technical project planning and inspection services; surveying the site for unexploded ordnance or unexploded bombs; blasting and explosives engineering services; consulting services in civil engineering and industrial engineering in the fields of stabilizing and sanitation of the ground; consulting in civil engineering and industrial engineering in the fields of sealing and protection against fire and rust; architecture and architectural consultancy services; advisory, consultancy or analytical services relating to material evaluation and testing; scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; engineering design services featuring the provision of pre-design data evaluation, typically for consulting engineers; soil analysing services including drilling bore holes for soil investigations and

providing soil data to consulting engineers, for their analysis and provision of advice; civil engineering design services; conducting engineering feasibility studies; research services and consultancy thereof, all relating to science, technology, engineering and manufacturing; design services and research and consultancy thereof, all relating to science, technology, engineering and manufacturing; design of piling and retention systems; design of pre-formed piles or piles cast in situ; design of rock and soil anchors, nails and minipiles; design of prestressed, post-tensioned concrete material; design of pipeline anchor systems and accessories; design of engineered helical (or "screw") piles and pipeline anchor systems to control pipeline buoyancy and prevent floating of pipelines in extremely wet areas; design of piling solutions and ground improvement solutions and foundation systems; design of post-tension cable systems to the construction industry; structures design services; technical inspection services in the fields of building, construction planning, public and civil engineering work and geotechnical work; services for monitoring industrial processes in the fields of building, construction planning, public and civil engineering work and geotechnical work; technical inspection services for large tanks in the petroleum and petrochemical industries to ensure compliance with applicable codes and standards; conducting technical tests and checks and technical measurements; provision of technical surveys, especially geological surveys, as well as of scientific surveys; construction drafting; subsoil testing, in particular pressure sounding; structural engineering services in the nature of structural health monitoring using fiber optic sensing; providing temporary use of non-downloadable web based monitoring software to provide a full site overview; engineering services in the field of building technology, namely, building information modelling services to support digitisation of ground engineering; website security services; computer technology support services; computer programming; software development and design services; repair, installation and maintenance of computer software; website design, maintenance and hosting; technical support services, namely, troubleshooting of computer software problems and troubleshooting in the nature of diagnosing problems with computer hardware and consumer electronics; computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) featuring software to enable or facilitate the uploading, downloading, streaming, posting, displaying, blogging, linking, sharing or otherwise providing electronic media or information over communication networks; computer services namely, programming of customized web pages featuring user-defined or specified information, personal profiles, audio, video, photographic images, text, graphics and data; multimedia and audio-visual software consulting services; graphic design for the compilation of web pages on the Internet; information relating to computer hardware or software provided on-line from a global computer network or the Internet; providing search engines for obtaining data via communications networks; application service provider (ASP) services featuring software for authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing text, graphics, images, and electronic publications; providing search engines for obtaining data on a global computer network; operating search engines; computer consulting and technological support services for scanning information into computer discs; providing information in the form of text, data, image, audio, video and multimedia content in the fields of computer hardware, computer software, computer peripherals and information technology equipment via an online searchable database; technical consultancy services, namely, providing information, including in the form of directories, in the fields of technology via databases; digital imaging

services namely the creation of digital images; electronic data storage for storage of data on, in or out of computer databases; energy efficiency services; energy sustainability services; technical data analysis; analysis of technical data relating to trend; data security consultancy relating to individual data issues; surveying for landscaping design; land surveying; material testing; mechanical engineering and electrical engineering; software development and maintenance of construction and construction-related processes; back office operations, namely IT support services, for the construction industry; computer consultancy services for the construction industry; technical research, namely, analysis services and expert appraisals in the field of building, construction, public and civil engineering work, ground improvement and geotechnical work; technical research, namely, carrying out expert appraisals, reports, studies, analyses and development of concepts and preliminary engineering drafts in the field of security, environment, energy, building, construction, public and civil engineering work, ground engineering and improvement and geotechnical work; preparing technical studies and reports in relation to the aforesaid services; consultancy, advisory and information services relating to all the aforesaid services; environmental engineering; mechanical and electrical engineering.
