REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

equipment and computers; computer hardware and data processing equipment; computer hardware components; telecommunications apparatus to enable connection to databases and the Internet; communications hardware, namely routers, servers and transmitters; computer hardware and software for providing secure remote access to computer and communication networks; telecommunication cables; computer operating system software; software for the collection, publishing, organization, modification, transmission, storage and sharing of data; computer software for creating searchable databases; satellites for receiving and transmitting radio signals; sunglasses; satellites for scientific and commercial use; all the aforementioned goods for aviation; personal flotation devices, namely life jackets and life-saving rafts; safety apparatus for the prevention of accident or injury, including reflective safety bands to be worn on the body, specifically the arm, safety goggles, including, protective watercraft goggles; protective belts, namely, lumbar protector belts (worker support belts); protective clothing; flight simulation games software.

Class 12

Vehicles; apparatus for locomotion and transport by land, air, water and rail; aircraft; space vehicles; launching rockets (spacecraft); balloons (aircraft); aircraft components included in this class, namely, structural parts of aircraft, namely, wings, fins, fuselage, root, fins, rudder, centerboard, wing, tail, landing gear wheels, landing gears; air apparatus, namely, remote-controlled aircraft (other than toys); screw-propellers for boats; military vehicles, namely, aircraft; seat covers for vehicles; parts and connecting elements (fittings) for all the aforementioned goods (included in this class); aeronautical machines.

Class 25

Clothing, footwear, headgear.

Class 28

Games and toys; gymnastic and sporting articles not included in other classes; scale model vehicles and their parts (included in this class), in particular model aircraft and in particular model airplanes; toy vehicles; paragliders; jigsaw puzzles [games]; playing cards; protective suits, vests for water sports activities, gloves for games.

Class 37

Construction, maintenance, repair and dismantling of aircraft and air and space craft; painting of aircraft and of air and space vehicles; installation services of aircraft, and for air and space craft; computer hardware maintenance; vehicle service stations [refueling and maintenance]; transport fueling services [fuel supply]; air refueling; application of coatings for aircraft and for air and space craft; application of coatings for vehicles; provision of information relating to construction, repair and maintenance of aircraft and air and space vehicles.

Class 41

Teaching; training; training in the field of aeronautics; organization of air shows for information and entertainment; entertainment services; sporting and cultural activities; video production; training services by means of simulators.

Class 42

Computer programming; engineering services, namely industrial services in the mechanical, scientific, technological and aerospace fields, scientific and technological services, and research and design related services;

industrial analyses; scientific and technological consulting, engineering services providing scientific and technological assessments, calculations, research and opinions in the field of science and technology; technical support, surveying, research, testing, monitoring in the field of technology, in particular transport, environmental protection and energy technology; testing of materials; weather forecasting services; design, creation and development of computer hardware and software; design, creation of computer images; engineering (technical assessment); maintenance of computer software; mechanical research; technical research in the field of aeronautics; technological flight simulation services; technical project studies; technological consultancy and technical research; advice and research relating to environmental protection; industrial design services; engineering and testing services for the certification of quality or standards of vehicles; technical flight tests; software installation; software consultancy; software development [design]; rental of computer software; software as a service [SaaS]; software as a service (SaaS); updating of software; design, development and maintenance of computer programs and software relating to the safety of aircraft and aircraft.

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and analytical apparatus and instruments (other than medical); precision measuring apparatus; measuring, counting, alignment and calibrating instruments; monitoring apparatus, electric; probes for scientific

purposes; temperature sensing apparatus for scientific use; imaging devices for scientific purposes; image analyzers; apparatus for capturing and developing images; central processing units for processing information, data, sound or images; image scanners, computer programs for image processing; cameras; camcorders, in particular high-resolution stereo cameras; apparatus and instruments for steering, optical apparatus and instruments; physics (apparatus and instruments for -); teaching apparatus; surveying apparatus and instruments for the switching, transforming, accumulating, regulating or controlling electricity; frequency meters; sound locating instruments; masts for wireless aerials; gas testing instruments; speed checking apparatus for vehicles; apparatus for recording, transmission or reproduction of sound or images; digital recording media; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing equipment; computers; data processing equipment, encoders (data processing), computer software, computer programs (recorded and downloadable); computer software applications, downloadable; compact discs (CD-roms, sound, images); computer memory devices; downloadable image files; optical data carriers; electronic publications, downloadable; interfaces for computers; microprocessors; testing and trial apparatus for air travel, space travel and motor vehicles; wind tunnels, including transonic, high enthalpy or cryogenic wind tunnels; test benches for motors, engines and rockets; space simulation chambers, pressure chambers, navigation apparatus, navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus; aeronautical communications apparatus; data acquisition apparatus for air travel; radio communications devices and radio communications apparatus for air travel; computers for managing control devices for aircraft; flight simulators for aircraft; medical simulators [teaching aids]; scientific research and laboratory apparatus, educational apparatus and simulators; radar apparatus; radar systems; radar apparatus; radar antennas; radar receivers; radar detectors; radar apparatus; microwave detectors [radar]; communications equipment; on-board computers; measuring and regulating apparatus; recording machines; stabilising apparatus for air and space vehicles; apparatus for analysis [other than for medical use]; diagnostic apparatus, not for medical purposes; chemistry apparatus and instruments; astronomy (apparatus and instruments for -); distance measuring apparatus; apparatus and instruments for recording distance; breathing apparatus (except for artificial respiration); observation instruments; chemistry apparatus and instruments; transmitters and receivers of electric signals, in particular for telecommunications; signals, luminous or mechanical; electro-dynamic apparatus for the remote control of signals; solar energy collectors for power generation; solar modules for electricity generation; particle accelerators; telescopes; monitoring apparatus, electric; printed circuit boards; printed circuits; electrical conductors; semiconductors; electrical inductors; electric installations for the remote control of industrial operations; ignition (electric apparatus for remote -); transistors [electronic]; accumulators (electric), in particular for vehicles; electrical connecting parts; antennas, in particular for receiving data and/or for data transmission, command transmission and rail surveying by satellites; antennae for communication with space vehicles; traffic control apparatus (electronic); traffic guidance apparatus [electronic]; steering apparatus, automatic, for vehicles; intelligent, cognitive controls, namely cognitive wireless communications systems, intelligent electronics systems for use in apparatus and installation construction for control of machines; voltage regulators for vehicles; electric batteries, in particular lithium ions and lithium metal batteries, lithium-air or lithium-sulphur batteries, in particular for motor vehicles; fuel cells, in particular solid

oxide fuel cells and polymer membrane fuel cells, in particular for vehicles; fuel cell electrodes; electrolyzers; electric converters, in particular in the form of electro-chemical energy converters, in particular batteries and fuel cells and electrolyzers; furnaces for laboratory use; electricity transformers; step-up transformers; capacitors; electronic notice boards; lasers, not for medical purposes; laser scalpels, other than for medical use; solid state lasers, in particular disc lasers, with continuous-wave or pulsed operation; carbon dioxide (co2) lasers; eye-safe lasers; high-energy lasers, in particular chemical oxygen iodine lasers; high-power laser sources; satellites for scientific purposes; commutation (electric apparatus for -); electric distribution consoles; integrated circuits, electrical control boards; signals, luminous or mechanical; electro-dynamic apparatus for the remote control of signals; instrumentation simulators; instrumentation simulators; instrumentation simulators; simulators for the steering and control of vehicles; simulators for operation of cars, trains, air and space vehicles; simulators for training personnel in the flying of aircraft; laser pointers for advertising purposes; mousepads (mouse mats) for advertising purposes; magnets; magnets for decorative purposes, including fridge magnets and magnets for pinning to clothing for advertising purposes; apparatus and instruments for communications and high-frequency engineering; in particular apparatus and instruments for measurement and for transmission of commands; scanners (data processing equipment), in particular body scanners, in particular with terahertz technology; computer programs and software, irrespective of the recording or broadcast medium, namely software which can be recorded on a magnetic medium or downloaded from an external computer network, preferably in the field of energy technology, in particular in the field of thermal and chemical energy storage and of ceramic materials and in the field of fibre-reinforced ceramic composite materials; optical apparatus and instruments, communication devices and instruments and telecommunications apparatus for measuring traffic in regions and towns with test vehicles; apparatus for recording, transmission or reproduction of sound or images for laboratory use, research relating to traffic in regions and towns; scientific apparatus and instruments; apparatus and instruments for scientific research in laboratories; laboratory apparatus for use in scientific specimens; apparatus and instruments for controlling rockets, in particular apparatus and instruments for transmitting commands and for measurement in the form of signals (including telemetry, telecommand and radar); navigation apparatus for satellite and rockets; aircraft landing guidance apparatus; satellites for scientific purposes; flight controlling apparatus; in-flight testing equipment; apparatus for checking flight parameters; electronic attitude control systems for use with cold gas regulators; thermoelectric sensors; magnetic sensors, optoelectronic sensors for observing the earth and space exploration, sun sensors, star trackers and gyro platforms for orientating objects in space, in particular for rockets and satellites; satellite earth stations, receiving antennas for satellite broadcast, satellite broadcasting instruments, small satellites; satellites for signal transmission, satellites for communication purposes, satellites for navigation purposes, satellites for scientific purposes, satellite antennas, satellite receivers, satellite receiving apparatus, satellite receiving devices, satellite apparatus, satellite communications apparatus, satellite navigation apparatus, satellite processors, satellite dishes, satellite broadcasting and receiving apparatus, satellite transmission apparatus, satellite transmission equipment, satellite transmission devices, satellite transmission instruments, computer software for control of satellites, encryption apparatus for satellite television signals; computer software for access to databases, in particular with information relating to measurement technology and test installations; recorded computer programmes [programs], recorded

computer software; computer software, in particular for radiation identification and recording and reproduction of radiation identification or in the field of data capture, use and analysis of space weather conditions and warning in the event of unusual space weather, including solar storms; all of the aforesaid goods being in particular for robots, automation devices and optical information systems, and being in particular for the field of energy technology, in particular for the field of thermal and chemical energy storage; all of the aforesaid goods in this class, in particular for the field of remote sensing, in particular receiving and recording of data by means of antennae systems for archiving remote sensing data in a data archive for visualisation, evaluation and reproduction of geodata, and for services using satellite data, including satellite-based crisis information and atmospheric information, archiving data in a data archive, visualisation, evaluation and reproduction of geodata, services using satellite data, including satellite-based crisis information and atmospheric information, in particular for providing traffic information and traffic routing, directing of passenger flow and aircraft; all of the aforesaid goods in this class being particularly suitable for measuring traffic in regions and towns, preferably with test vehicles; all of the aforesaid goods in this class being in particular for laboratory use, research relating to traffic in regions and towns; all of the aforesaid goods in this class being in particular for the field of remote sensing, in particular for the field of remote sensing relating to atmospheric correction of optical image data, in particular archiving of data in a data archive, visualisation of geodata, atmospheric correction of data; all of the aforesaid goods in this class being in particular for the field of remote sensing, in particular receiving and recording of data by means of antennae systems for archiving remote sensing data in a data archive for visualisation, evaluation and reproduction of geodata, and for services using satellite data, including satellite-based crisis information and atmospheric information, archiving data in a data archive, visualisation, evaluation and reproduction of geodata, services using satellite data, including satellite-based crisis information and atmospheric information; the aforesaid goods being in particular for providing traffic information and traffic routing, directing of passenger flow and aircraft; all of the aforesaid goods in this class being particularly suitable for measuring traffic in regions and towns, preferably with test vehicles; all of the aforesaid goods in this class, being in particular for the field of energy technology, in particular for the field of solar thermal technology; the aforesaid goods in this class, in particular for radiation identification, for the recording and reproduction of radiation identification; human-machine interfaces.

Class 41

Providing of training, providing of further training, in particular for junior scientists, school children, students and doctoral students, including for industrial mechanics, electricians, in particular providing of further training for technical staff for test bench mechanics; technical training relating to safety; consultancy services relating to engineering education; conducting of engineering courses, teaching events, information events and symposia; conducting of information events in relation to engineering, preferably in the fields of air and space travel, energy, traffic and security; training services relating to the use of computer aided engineering systems; publishing of printed matter, in particular books, non-fiction books, children's books and school books, magazines, notebooks, newspapers (including in electronic form); education, including in the form of practical training; writing of texts, other than publicity texts; online publication of electronic, non-downloadable publications and of books and magazines; publication of electronic books and journals on-line; electronic desktop publishing; layout services, other

than for advertising purposes; arranging and conducting of conferences, congresses, symposia, seminars and workshops for training; organising of education exhibitions; performances (presentation of live -); movie studios; film production, other than advertising films; creating image, film and sound representations for illustrating the material (film production); photography; photographic reporting; videotaping, including in the form of live streaming; providing on-line videos, not downloadable; organisation of competitions, in particular in the form of prize contests and in particular in the form of selection the best representation of a research theme; organisation of sports competitions; education; providing of training; personnel training; the aforesaid services being in particular in relation to personnel selection and/or personnel training in different professional groups and sectors, in particular for selection of employees to work in the fields of air and space travel, in particular pilots, air traffic controllers, astronauts and astronaut support staff; film production services namely creating image, film and sound representations using remote sensing data (including satellite image data, or image data from airborne platforms, including radio data and radar data) for illustrating the material; the aforesaid services in this class being in particular in the field of air travel, space travel, satellite technology for use in environmental science and geoscience, in climate research, traffic research and energy research; entertainment; sporting and cultural activities; archive libraries for archiving of data in a data archive.

Class 42

Engineering services, engineering services for others; technical engineering; engineering services; engineering consultancy services; preparation of engineering reports; technical inspection services; technical project studies; engineering project management services; technological consultation services; technical research; conducting technical research projects and technical research studies; development of new technology for others; technical data analysis services; technical data analysis services; technical testing services; technical survey services; technical writing; writing of technological research reports; technical testing; professional consultancy relating to technology exploitation; engineering research; technological engineering analysis; engineering consultancy services; engineering services for the analysis of machinery; telecommunications engineering; technical design and planning of telecommunications networks; technical design and planning of telecommunications equipment; development of land vehicles, aeroplanes, aircraft, space vehicles and of rockets and satellites; engineering in the field of energy technology, energy production, in the field of alternative energy production and energy usage, in the field of production of electricity and natural gas; technical advice in connection with energy-saving measures; development of integrated energy concepts; consultancy in relation to energy usage; technological consulting services in the field of alternative energy generation; research and technical project planning and preparing of technical project studies in relation to use of natural or alternative energy sources; design and development of regenerative energy generation systems; energy auditing; development of energy and power management systems; technical design and planning of water purifying installations, including with the help of solar energy; technological consultancy in the field of solar thermal production of synthetic fuels; technical information in relation to environmentally friendly and ecological innovations; technical design and planning of power plants, including of solar thermal power plants, wind parks, wind power plants or of hybrid power plants or power plant components, including of gas turbines or of combustion chamber systems; physics (research), industrial design, software development and chemistry services; technical measuring and testing; conducting of measurements in

wind tunnels on space, air and land vehicles; model measurements of electric motors in wind tunnels; conducting of aerodynamic, aeroelastic, fluidic, aeroacoustic and aerothermodynamic measurements in wind tunnels; conducting of (stationary) vibration tests for structural dynamic examinations of aircraft and individual components for aircraft; conducting of tests on engine and gas turbine components in high pressure combustion chamber test rigs; conducting of laser-optic measuring procedures, in particular for fluid flow analysis; material testing; fire tests for fire protection qualifications, in particular for engine and aeroplane components; material testing; technical project studies; planning of technical projects in the engineering sector; design and development of new technology for others; laboratory research services; research in the field of engineering; research in the field of natural science; scientific research; research relating to technology; advisory services relating to technological research; consultancy services relating to technological research; advisory services relating to scientific instruments; technological analysis services; technical project studies; research relating to technology; scientific testing services; scientific testing services; conducting of scientific studies; conducting of technical feasibility studies; preparation of technical project analysis studies; provision of scientific information; providing science technology information; preparation of scientific reports; preparation of technological reports; conducting engineering surveys; technological consultancy; provision of technological information; technological services and design relating thereto; engineering design and consultancy; technical scientific consultancy and research and (engineering) research in relation to fluid dynamics, in relation to flow technology, to aeroelastics, drive technology, building purposes, structural technology, vehicle design, lightweight fibre composite structures, adaptive systems, flight guidance, airports, energy, energy technology, energy production, energy usage, oceanography, geophysics, seismology, hydrology, glaciology, biology, planetary geology, air traffic, flight systems, high-frequency technology, radar systems, microwave sensors, communication and navigation in air and space travel, and in marine travel, medicine, in particular in the field of aviation and space medicine; scientific research in the field of materials physics in space, in particular research into the properties of melts and the solidification thereof, astrophysics, methodology for remote sensing, meteorology, climatology, optical sensor systems, atmosphere physics, planetary exploration, space travel drives, space travel systems, telecommunications technology, robotics and mechatronics, solar systems, system dynamics, regulation technology, technical physics, technical thermodynamics, aeroplane engine acoustics, combustion technology, traffic on land, water and air, transport systems technology, materials, air transport systems, space flights and astronaut training, simulation and software technology, in relation to ergonomics, in relation to electrical energy, energy technology, in particular in relation to energy supply systems and in relation to environmental technology, in relation to security, including in relation to security of information systems and in relation to maritime security, air traffic control and preventing collisions between aeroplanes, ships and trains; technical consultancy in the field of environmental engineering and environmental science; industrial engineering design services; scientific and industrial research; technical assessments relating to design; technical surveying; scientific analysis; airborne remote monitoring of scientific explorations and investigations; laboratory (scientific -) services; chemical laboratories, laboratory (scientific -) services; chemical analysis; advisory services relating to science; physics [research]; biological research; research in the field of technology and engineering; mechanical research; technical research in the field of air and space travel; technical consultation in the field of aerospace engineering; design of aircraft, space vehicles and land vehicles

and of parts for aircraft, space vehicles and land vehicles; bacteriological research; solar research; research in the field of environmental protection; underwater exploration; research relating to security; research and development for others; technological consultancy and preparation of technical and scientific surveys, (engineering) scientific consultancy in the field of energy saving and environmental technology; consultancy in the area of information technology (IT); design and development of navigation systems, including for navigation of aeroplanes and ships; conducting of tests and measurements, in particular of models, conducting of research assignments in the fields of natural science, engineering and medicine; scientific testing services, determining concentrations of emissions and hazardous substances; planning and design of test installations; rental of test installations, machines, in particular measuring vehicles, transportable rocket launch pads, satellite control devices, antennae for conducting scientific space missions; rental of electronic equipment, driving motors, data processing installations, test equipment, in particular for air and space travel and for energy production and conversion and for recording of traffic data, for the purpose of quality testing and technical testing; cartography services; research in the field of earth observation; construction drafting; testing [inspection] of vehicles for roadworthiness; weather forecasting; computer hardware and software consultancy; design and development of computer hardware and software; technical research relating to computers; research relating to the computerised automation of technical processes; consultancy in the design and development of computer hardware; providing information on computer technology and programming via a web site; cloud computing; technological advisory services relating to data processing; advisory services relating to computer programming; technical consultancy relating to the installation and maintenance of computer software; computer system analysis; computer virus protection services; provision of search engines for the internet; providing on-line information in the field of technological research from a computer database or the internet; electronic storage of scientific, scientific and technical, and professional business news and information; computerised data storage services for retrieval of information from the internet; monitoring of computer systems by remote access; digitalization of documents [scanning]; rental of computers and computer software; design of computer software and computerised systems; design of information systems relating to management; updating of computer software; scientific computer programming; computer aided scientific research services; computer aided scientific analysis services; computer-assisted technical data analysis; computer-aided engineering; provision of online numeric simulation software for development of aerodynamically efficient land and air and space vehicles, in particular conducting of numeric aerophysical simulation; development of computer software for flow simulation and for aerophysical simulation; testing of aeroelastic stability limits of aeroplanes, helicopters and turbomachines by means of numeric simulation; designing, installing, copying, updating, maintaining and rental of computer software and computer programs; preparation of data processing programmes; computer programming; computer programming; engineering services, surveying, technical project management in the field of electronic data processing; engineering in relation to energy supply systems; data conversion of computer programs and data [not physical conversion]; conversion of data or documents from physical to electronic media; recovery of computer data; engineering services for applications on large and medium-sized computer systems; engineering services relating to computers; engineering services relating to computer programming; engineering services relating to automatic data processing; engineering relating to data processing and information technology; computer programming for data processing and

communication systems; consultancy relating to software for communication systems; image processing software design; design and development of computer software for controlling, regulating and monitoring of solar energy systems, design, development and programming of energy management software; creation of computer programs for the energy industry; engineering services relating to information technology; engineering services relating to the design of communications systems; scientific computer programming services; engineering in relation to communications technology; engineering services relating to the design of communications systems; engineering relating to robot technology or robotics; consultancy relating to software for communication systems; maintenance and updating of software for communication systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development of methods for simulation of a complete air transport system; technological analysis services; technological consultation services; technological consultation services; technological services relating to computers; technological services and design relating thereto; technological services and research relating thereto; technological research relating to computers; research relating to technology; safety technological testing services; IT security services in the nature of protection and recovery of computer data; design and development of software for control, regulation and monitoring of solar energy systems; design and development of computer software for regulating the position of satellites; technical advice relating to safety; leasing of scientific instruments; rental of scientific equipment, in particular of antennae for operation of scientific space missions; advisory services relating to science; advisory services relating to science; scientific services and design relating thereto; scientific services and research relating thereto; scientific research; scientific research; scientific and industrial research; scientific and technological services and research and design relating thereto; industrial analysis and research; all of the aforesaid services in this class being in particular for the development of mechatronic components, automation processes, for integration of mechanics, optics, electronics and software development for creating "intelligent mechanisms", including robots, for development of man-machine interfaces, for development of robotic astronauts, humanoid robots for extra-vehicular activities during space missions and planetary rovers for supporting people in space, in particular robot servicing and exploration, for development of autonomous rovers for the moon and for mars, for development and conception of robotics for production of fibre composite structures, for highly integral production of fibre composite structures, and related technologies for automated assembly of large aviation structures, for development of mechatronic systems for aeroplane technology and vehicle technology, for development of automation devices and optical information systems, in particular of real time information systems, design and regulation of multi-body systems and aircraft; engineering, physics (research), chemistry services, natural sciences research, in particular energy (or quality) auditing, accreditation and certification in accordance with national and international standards, guidelines and legal norms in the field of technology, and the development of these standards, guidelines and legal norms, in particular in the field of energy technology, preferably solar technology, preferably solar thermal technology; computer programming, data processing (electronic data storage) by means of computers, development of computer software, preferably in the field of solar thermal technology; all of the aforesaid services in this class being preferably for operation of a satellite control centre, control and monitoring of satellites and for conducting of scientific space missions; German aerospace technical planning, to be adopted by the German government; scientific research, in particular for medical purposes and in

particular robotics for medical purposes; contract research for others, tests for rocket engines, in particular liquid rocket engines, tests for development, qualification and trialling of rocket engines and small engines for satellites and space probes; research and development for others; construction drafting; material testing; quality control; technical project studies; research in the field of environmental protection; water analysis; scientific research services; agricultural research services; biological research and research in the field of environmental protection; development of technologies for processing renewable raw materials; engineering, physics (research), chemistry research services, natural sciences (research), in particular consultancy, assessment, research, testing, monitoring, energy auditing, accreditation and certification in accordance with national and international standards, guidelines and legal norms in the field of technology, quality testing, quality control, product specification and product monitoring; technological consultancy of space weather situations; technical analysis of space weather situations; analysis of weather processes (including for efficient and safe air travel), analysis of climate processes (including climate impact of emissions from air travel and of contrails); weather forecasting or reporting services, including solar storm information; the aforesaid services in this class, in particular in the field of radiation protection, in particular in the field of radiation dosimetry and/or space weather identification; development of computer software for radiation identification and recording and reproduction of radiation identification, and in the field of data capture, use and analysis of space weather conditions, warning in the event of specific space weather conditions, including solar storms; the aforesaid services in this class being in particular in the field of power technology and energy technology, in particular in the field of thermal and chemical energy accumulation, in particular with ceramic materials; all of the aforesaid services in this class being in particular in the field of remote sensing, in particular archiving of data in a data archive; visualisation of geodata (geographical information); technical analysis of satellite-based crisis information, using radar; design and implementation of high-resolution imaging radar systems, in particular based on the principle of synthetic aperture radar (SAR), in particular in the field of SAR interferometry for generation of digital elevation models and for analysis of movements and in particular in the field of image analysis and photogrammetric methods for interpretation of high-resolution optical satellite image data, including 3d mapping of town areas and for automated finding of concealed information, including photorealistic 3d world modelling by means of cameras carried by satellites and aeroplanes, including for monitoring of biological and ecological conditions of coastal and inland waters; all of the aforesaid services in this class being also for the operation, calibration and monitoring of the performance of radar instruments, for experimental testing of aeroplane-based radar procedures, for development and operation of microwave sensors and antennae, for research of signatures and scatter mechanisms for radar data, for calibration and validation of radar data, for development of satellite-based systems and procedures for radio transmission and radiolocation; all of the services in this class being in particular for development of a new generation of aircraft radio with complete cross-linkage of aeroplanes and ground control, including partially via satellite; all of the aforesaid services in this class being in particular for the field of remote sensing and georeferencing, in particular archiving of data in a data archive, for visualisation of geodata, for satellite-based crisis information, including humanitarian aid activities in the event of natural disasters, electronic archiving of data from satellites, and similar space travel and flight systems, and from airborne platforms for remote sensing of image data from earth or of image data from other planets in a data archive, electronic archiving of remote sensing data received from satellites and airborne platforms in a data archive, for

optical transmission of satellite and air carrier data through the atmosphere; all of the aforesaid services in this class being in particular for the field of researching planets inside and outside of our solar system, in relation to researching the structure and age of planetary crusts, in relation to analysis of the chemical composition and physical surface characteristics of planets and in relation to geological processes and interactions of planet surfaces with their atmospheres and cosmic radiation environment, in relation to the development of remote sensing instruments and conducting of space experiments and researching the risk potential to the earth from possible collisions with asteroids entering the earth's orbit; all of the aforesaid services in this class being in particular for the field of development of algorithms, processors, procedures and software for processing of satellite data, development of technologies for transmission procedures, receiving systems, data management, archives and validating and test environments for satellite data for operational multi-satellite missions, in particular earth observation satellites; development of software systems for determining atmospheric state variables from satellite data, including for identifying trace gases relevant to the climate, remote detection using lasers, including for detecting chemical, biological and explosive hazardous materials, for locating space debris or for laser-based tracking of the flight paths of debris parts in the universe; all of the aforesaid services in this class being in particular for traffic analysis, from empirical analysis to development of in-house procedures for calculating of future transport demand, for intelligent and environmentally friendly transport and mobility, and for traffic flow optimisation, for preparation of flight noise prognoses, for intermodal mobility, for development of future mobility concepts, for traffic planning and control, and for development of research platforms for transport applications and related data capture, data management, data processing and data visualisation and for preparation of traffic prognoses and for preparation of traffic data management and for determining of driving behaviour in real-life traffic and for testing the acceptance of driver assistance systems and for preparation of technical concepts relating to the cost effectiveness of rail transport in terms of railway and vehicle infrastructure, including increasing security and efficiency of road and rail transport, development of methods for influencing traffic flows and ensuring sufficient traffic flow; all of the aforesaid services in this class being in particular for providing traffic information, traffic observation and traffic routing, for design, analysis and assessment of new air transport concepts in relation to airports and transport links thereto, in relation to flight safety, including navigation and communications technology, flight operation and in relation to aeroplanes for technical, ecological and monetary assessment of air transport systems and for multi-disciplinary conception of virtual goods for the air transport system; all of the aforesaid services in this class being in particular for measuring traffic in regions and towns; all of the aforesaid services in this class being in particular for a laboratory conducting research into traffic in regions and towns; all of the aforesaid services in this class being in particular for the field of remote sensing, in particular for the field of remote sensing relating to atmospheric correction of optical image data, in particular archiving of data in a data archive, visualising of geodata, atmospheric correction of data, for development of multispectral sensors and high-agility satellites, for technical planning for control of rockets, included in this class; all of the aforesaid services in this class being preferably for rail and non-rail traffic, in particular in relation to traction units in the fields of lightweight vehicle construction, multi-material composite construction, hybrid strategies for vehicles, including in relation to weight and fuel saving, secondary energy usage in relation to vehicles, vehicle and chassis design, aerodynamics, aeroelastics, energy management, brake design, drive technology, combustion chamber

modelling for aircraft engines, in particular for reduction of turbulence induced friction phenomena, control technology, security technology, passenger comfort, vehicle safety, passenger flow modelling, mechatronics, sound absorption, in particular in the field of reduction of engine noise, energy-optimised and catenary-free driving and automated test procedures, including driver assistance systems, for development of new lightweight construction concepts for wings, fuselage, tailplanes and drive components for aeroplanes and reproduction thereof in the engineering chain from materials to robotic automated production, for structural development of lightweight fibre composite components by means of tests in test benches and real-life flight experiments; all of the aforesaid services in this class preferably focusing on textile and non-autoclave infusion technology, robotics, in particular in the field of production of fibre composite structures, sensor systems, mechatronics, durometer and thermoplast processing, production integrated quality assurance, and assembly and connection technologies, volume components-RTM technology, online quality assurance for autoclave processes, mould technology, process simulation and aerodynamics, contract development of fibre composite materials; all of the aforesaid services in this class being in the field of high-precision path calculation, monitoring of satellite functions and ground systems related thereto, development of applications for navigation for landing of aeroplanes and for preventing collisions between aeroplanes, trains or ships by means of satellite signals; scientific consultancy for researchers and inventors regarding establishment, maintenance and exploitation of intellectual property rights; scientific and technological consultancy for entrepreneurs; engineering consultancy on structure; consultancy in relation to development and validation (assessment of technical feasibility and functionality) of production processes on industrial scale; consultancy in relation to design of process chains in the field of lightweight production technology; quality assurance of production methods, in particular in the field of lightweight production technology; technological consultancy in relation to development and production of carbon fibre-reinforced plastic components; electronic storage services for archiving data in a data archive; technical design, analysis and safety evaluation of air transport concepts, in particular in relation to airports and transport links thereto, aircraft, air traffic control, including navigation and communications technology, and in relation to flight operation; technological and ecological assessment of air transport systems; design of individual virtual goods for air transport systems; scientific services for control (steering) of satellites through operation of satellite control centres; scientific services for monitoring of satellites through operation of satellite control centres; quality control of satellites; quality control testing of satellites; testing, analysis and monitoring of telecommunication signals of satellites; development of terminal management systems for airports; development of simulation of manufacturing processes and imaging and modelling of passenger flow; providing of scientific information.

Class 45

Security consultancy; safety auditing; information services relating to safety; security services, in particular for airlines; fire-fighting; alternative dispute resolution services; safety consultancy in relation to safeguarding of German space travel interests at an international level by means of representing the federal government in matters relating to space travel, namely safety consultancy in relation to designing the German space travel programme on behalf of the federal government, consultancy services relating to the integration of all German travel activities at a national, European and international level into the German space travel programme, namely, safety consultancy with regard to the German national space and innovation programme, the German research and

development programme, and with regard to German security and safety contributions towards the European space agency (ESA) and the European organisation for the exploitation of meteorological satellites (EUMETSAT), safety consultancy with regard to space travel and security research in the EU framework programme for research, in particular with regard to earth observation, navigation and satellite communications, safety consultancy relating to EU space policy, compilation of information in relation to safety evaluation of space travel activities in the EU, providing of safety information and consultancy services to German companies and research facilities relating to tenders and funding opportunities in the horizon 2020 EU research programme, legal support for companies in planning and preparing applications; licensing of technology; licensing of intellectual property; consultancy relating to intellectual property management; legal services; security services for the protection of property and individuals.

Cleaners; vehicle cleaning preparations; abrasive pastes; rust removing preparations; sandpapers.

Class 04

Lubricants; automotive greases; industrial greases; dry lubricants; lock lubricants; high pressure greases; engine oils; cutting oils; axle gear oils; haldex coupling oils; antifriction oils; protecting oils; fork oils.

Class 05

First aid boxes; animal repellents.

Class 06

Bonnet locks; tankcap locks; bootlid locks; door locks; locking knobs; pipes of metal; tubes of metal; metal grommets; metal rivets; rivets; tool board hooks; access ramps.

Class 07

Engines, motors; brake flushing machines; cowlings as part of machines; oil filters; oil pumps; fuel filters; fuel pumps; fuel nozzles; injection pumps; compressors; fans for motors and engines; cam chains; tensioners; vacuum cleaners; welding machines; air filters for vehicle engines; intake manifolds; changeover valves; belts for machines; belt drives; belt tensioners; belt pulleys; timing belts; v-belts; alternators; starter alternators; AC generators; regulators; carbon brushes for alternators; stators; alternator freewheel clutches; alternator fans; air pumps; ejectors; compressors; ignition distributors; ignition coils;

condensers (ignition parts for internal combustion engines); spark plugs; distributor plugs; coil plugs for internal combustion engines; glow plugs; bearings; lifting platforms; crankshafts; crank cases for engines; starter pinions; automotive exhaust systems; automotive exhaust pipes; catalytic converters; front silencers; middle silencers; end silencers; sports silencers; particulate filters; pipe connectors [parts of machines]; camshafts; carburettors; carburettor dampers; separators; milling machines; routers for milling machines; delta sanders; burnishing machines; honing tools; water pumps; vacuum pumps; pistons; soldering tools; propshaft ejectors; spring compressors; nail guns; staple guns; oil traps; grease traps; hydraulic filters; fan cowlings; oil coolers; clamping sleeves; crankshaft dampers; starters for vehicles; camshafts for vehicles; gears for camshafts; gears for crankshafts.

Class 08

Saws; grease guns; hammers; hammer heads; hammer shafts; hammer wedges; jacks; snow shovels; hand-operated air pumps; ice scrapers; cutters; thread cutters; pipe cutters; pullers; nail extractors [hand tools]; pliers; spanners; expanders; cutting wheels; wrenches; files; file blades; file handles; grinding pads; tensioner spindles (hand-tools); square keys (hand-tools); flaring tools, pipe bending tools; centre punches [hand tools]; mandrels (hand-tools); filter wrenches; ratchets; screwdrivers; crimping pliers; dies; die stocks; cable strippers; scissors; knives; cutter blades; reamers; screwdriver bits sets; drill bits; chisels; mounting wedges; tyre levers; oil filter belts [hand tools]; spark plug spanners; tweezers; dismantling tools; scribes; nut splitters; spatulas (hand-tools); scrapers; punches; scrubbers [cleaning tools]; hex keys; sockets (hand-tools); levers.

Class 09

Electronic control units; electric control modules; cable harnesses; set for repairing or exchanging electric wire harnesses for automobiles, containing connectors, cables, wires, connector terminals and adapters; connecting cables; headlight range adjustment control units; switches; electric relays; electronic relays; electromagnetic relays; solid state relays; safety relays; lighting ballasts; ballasts for electrical lighting fittings; ballasts for gas discharge lamps; sensors; resonators; measuring, detecting and monitoring instruments, indicators and controllers; sensors and detectors; time measuring instruments (not including clocks and watches); distance and dimension measuring instruments; electronic meters; pressure meters; heating meters; power meters; speed meters; level meters; callipers; dial gauges; knife-edged rulers; engine testers; instruments for diagnosis; brake pressure testers; lambda control testers; brake testers; emission diagnosis equipment; emission analysers; self-diagnosis equipment (computer, cables and monitor); headlight aiming testers; ABS testers; CO measuring devices; dynamometers; battery chargers; battery starters; battery testers; batteries; battery acid testers; battery relays; battery adaptors; injection meters; software for diagnosis instruments; thermometers; filler scales; manometers; display monitors; display terminals; head-up displays; lubricant dosage dispensers; oil dosage dispensers; wide angle lenses; gauges; tachographes; voltmeters; tractors; ammeters; fuse testers; brake fluid testers; rulers as measuring instrument; fire extinguishers; pressure converters; alternator rectifiers; ignition cables; ignition cable kits; central locking systems, namely, electric locks; remote control for central locking systems; hand sensors for remote control; electric bonnet locks; electric tankcap locks; electric bootlid locks; electric door locks; tyre pressure control systems; cameras; back-up cameras; monitors for parking assistance; control displays for parking assistance; aerials; aerial heads; aerial boosters; aerial telescopes; radios; CD-players; combinations of radio and CD;

DVD players; audio amplifiers; navigation systems; loudspeakers; navigation system software; accident data recorders; roof monitors; sockets; switches; fuses; plugs; electric cables; cable connectors; resistors; cruise control for vehicles; cruise control alarms; flasher units [electronic switching unit]; switch boxes; electric switches; hydraulic switches; pressure switches; press switches; tilt switches; push button switches; rotary switches; rocker switches; touch control and pull switches; hazard warning light switches; flasher switches; light switches; dimmer switches; brake light switches; windscreen wiper and washer switches; steering column switches; door contact switches; ignition switches; glow plug ignition switches; short-circuiting switches; DC switches; AC switches; pressure switches; level switches for water and oil; gear switches; electric and electronic automatic switching devices; light sensors; photoelectric sensors; electric sensors; electronic sensors; sensors for determining position; climate sensors; rain-light sensors; steering sensors; medium sensors; accelerator pedal sensors; temperature management sensors; torque and angle sensors; transmission range sensors; vehicle level sensors; throttle position sensors; motion sensors; sensor switches; heat sensors; magnetic sensors; measuring sensors; shock sensors; humidity sensors; piezoelectric sensors; movement sensors; timing sensors; temperature sensors; ultrasonic sensors; alarm sensors; infrared sensors; motion sensors; position sensors; distance sensors; vibration sensors; acceleration sensors; proximity sensors; level sensors; pressure sensors; optical sensors; pollutant sensors; electro-optical sensors; LED position sensors; sensors and detectors; electronic measurement sensors; electronic pressure sensors; optical speed sensors; air temperature sensors; air quality sensors; magnetic resistance sensors; electric current sensors; on-off sensors; fluid level sensors; sensors for engines; remote temperature sensors; liquid level sensors; oil level sensors; coolant-temperature sensors; oil-water level sensors; sensors for measuring speed; active infrared sensors; brake pad wear sensors; wiper blade wear sensors; sensors for measuring depth; sensors for determining temperature; relay sockets; overload relays; thermal relays; radio relays; step relays; power relays; coaxial relays; electronic relays; electromagnetic relays; electric relays; electrical relays; radio relay cables; light sensitive relays; solid-state relays; safety relays [electric]; electronic miniature relays; motor protection relays; overvoltage protection relays; pulse operated latching relays; thermostats; glow indicators; pre-resistors; rod magnets; rotating beacons; strobe-type beacons; lane departure warning systems; emergency triangles; parking warning systems; holders for separate electronic devices.

Class 11

Headlights; tail lights; fog lights; work lights; spot lights; license plate lights; reverse lights; search lights; door lights; interior lights; marker lights; rear fog lights; door footwell lights; park position lights; door puddle lights; engine bay lights; daytime running lights; bend headlight systems; rear reflectors; reflex reflectors; light holders; taxi top lights; reading lights; cornering lights; light housings; light glasses; light bulbs; light bulb sockets; light reflectors; light frames; light covers; light caps; light seals [lighting fixtures]; igniters; light seals [lighting fixtures]; light gaskets [lighting fixtures]; warning security lights; auxiliary brake lights; lamp bases for rotating beacons; seals for lights [lighting fixtures]; gaskets for lights [lighting fixtures]; air conditioning devices; vehicle air conditioning systems; vehicle heating systems; vehicle ventilation systems; air conditioning fans; air conditioning filters; coolant tubes; heat exchangers; radiators; gas condensers, other than parts of machines; evaporators; dryers; lampshade holders; nozzles; water tanks; hose lines for air conditioning installations; expansion valves being parts of air conditioning installations; blowers; air filters; disinfectant apparatus for

air conditioning; seat heating apparatus; seat cooling apparatus; electric cool boxes; air dehumidifiers; separate heaters for vehicles; oil pre-heaters; washer fluid pipes; washer fluid jets.

Class 12

Brake facings; brake drums; brake cylinders; brake discs; brake shoes; brake pads; brake power regulators; brake boosters; brake callipers; brake hoses; brake valves; brake pressure valves; brake pressure regulators; brake gas springs; brake master cylinders; brake system vacuum pumps; brake fluid expansion tank; brake calliper gaskets; brake shafts; hydraulic units (brake system); brake lines; brake fluid hydraulic filters; brake shoe bolts; brake pedals; accelerator pedals; pedal pads; mounting plates; cranks; spindle drives for brakes; spacers for brakes; stop plates [structural parts for automobiles]; conical pulleys; brake shoe mountings; tank caps; luggage carriers for vehicles; automobile chains; wheel bearings; axle bearings; screws for use in automobiles; holding brackets [structural parts for automobiles]; pedal units; clutches for land vehicles; power clutches for land vehicles; friction clutches for land vehicles; jaw clutches for land vehicles; hydraulic clutches for land vehicles; clutch cables; clutch levers; clutch discs; clutch cylinders; clutch hoses; clutch pedals; clutch pedal pads; shuttle valves [structural parts for automobiles]; torsion dampers; clutch actuation systems; clutch brakes; clutch plates; clutch peak torque limiters; compensation tanks (clutch); tool trolleys; roof rack storage containers for land vehicles; tow bars; covers for vehicles; seat covers; windscreen covers; snow chains for vehicles; child's safety seats; air pumps for vehicles; safety head rests; rear view mirrors; interior mirrors; exterior mirrors; mudflaps for vehicles; steering wheel covers; cigarette lighters; door handles; ashtrays; grab handles; dashboards; seat squab; centre consoles; cup holders; arm rests for vehicles; axles for vehicles; axle drives; couplings for vehicles; dampers; vibration dampers; cranks for vehicles; crank cases for vehicles; starter pinions for vehicles; pinions for vehicles; shock absorbers; steering gears; steering racks; steering apparatus; steering shafts; steering boxes; steering covers; wheels; tyres; wheel hubs; wheel rims; tyre valves; broken tyre valves repair kits, containing valve inserts, plugs and dust caps; window wiper systems; wiper blades; wiper blade rubbers; wiper arms; wiper motors; wiper gears; wiper linkages; water pumps for windor wiper systems; washer nozzles; window lifts for vehicles; seat adjustment systems for vehicles; boat racks; bicycle racks; luggage nets; ski racks; surfboard racks; roof racks; transport platforms; tow bar carriers; fuel tanks; caps for fuel tanks; filler caps; backup alarms; footrests for motorcycles; footboards for motorcycles; heel guards for motorcycles; stands for motorcycles; license plate holders for motorcycles; tail lowerings for motorcycles; tail risings for motor cycles; chain guards for motorcycles; horns for vehicles; electric horns; disc horns; twin-tone horns; air horns; trailer hitches for vehicles; footboards for trailer hitches.

Class 17

Gaskets for automotive use; seals; oil seals; fluid seals; plastic seals; glass fibre; hoses; coolant hoses; hose linings; clutch linings; brake linings; pipe linings (not of metal); couplings; insulators; adhesive tapes; sealants; sealing compounds.

Class 21

Brushes; oil funnels; sponges; steelwool; oil funnels.

Class 27

Floor mats for vehicles.

Class 35

Advertising for motor vehicle parts and repair; business management; business administration; office functions.

Advertising; public relations; promotional services; business management and organization consultancy; advice for conducting commercial transactions; commercial business management; commercial administration; office functions; account auditing; business management services provided by consultants and consulting concerning company management; compilation and systematization of information into computer databases; computer file management; consultancy on data processing.

Class 41
Education and entertainment; education and further training; provision of non-downloadable online electronic publications.

Class 42
Services provided by technical consultants relating to franchising, namely providing technical expertise (software design and development) for franchisees regarding software tools for teaching and the control of learning objectives.

Class 45
Intellectual property licensing.

Class 01
Chemicals; drying agents for compressed air used for air compressors for railway cars; drying agents for compressed air used for air compressors for automobiles; unprocessed plastics in all forms; artificial resins, unprocessed; plastics, unprocessed; resins for 3D printers; adhesives for 3D printers; starch for 3D printers; sand for foundry sand mold for 3D printers.

Class 04
Solid lubricants; industrial oil; lubricants; industrial grease; lubricants used for moving parts of vacuum equipment.

Class 06
Metal materials for building or construction; doors of metal; gates of metal; palings of metal; fences of metal; revolving doors of metal; sliding doors of metal; hinged door of metal; folding doors of metal; platform doors of metal; platform screen doors of metal; platform edge doors of metal; rails of metal; rail base of metal for automatic doors; metal covers for open-close driving apparatus; metal runners for door hangers; runners of metal; joinery fittings of metal; sliding doors [of metal]; folding doors [of metal]; hinged door [of metal]; common metals for use in 3D printer modeling; nonferrous metals for use in 3D printer modeling; iron

and steel; nonferrous metals and their alloys; alloyed iron; couplings and joints for clamps.

Class 07

Machine elements, not for land vehicles; power transmissions and gearing for machines, not for land vehicles; reduction gears; reduction gears for industrial robots; reduction gears for machine tools; reduction gears for semi-conductor manufacturing machines; reduction gears with electric motors; hydraulic motors; hydraulic motors for crawler driving unit blank; hydraulic controls for motors and engines; hydraulic valve actuators; driving devices for wind-powered electricity generators; driving units for hydraulic power units used for construction machines and loading-unloading machines and apparatus; winch motors for cranes; motors for crane rotary units; rotation drive device for hydraulic shovels; driving units for base of reflector panels used for solar photovoltaic power generation; driving units for pedestal of solar mirrors for solar thermal power generation; driving units for the windmills of wind-powered power generation; driving units for tracking systems for the sun with reflector solar panels used for solar thermal power generation; construction machines and apparatus and their parts; loading-unloading machines and apparatus and their parts; agricultural machines, agricultural implements other than hand-operated, and their parts and fittings; cranes; truck cranes; power shovels; hydraulic excavators; valves, machine elements, not for land vehicles; pressure regulation valves [machine elements]; pressure control valves; pressure operated valves not for land vehicles; automatic control valves; control valves for hydraulic equipment control valves for hydraulic machinery; control valves for truck cranes; generators of electricity; apparatus for generating power; wind-powered electricity generation systems and their parts and fittings; wind-powered electricity generators and their parts and fittings; motors for wind-powered electricity generators; wind turbines and wind mills; semiconductor manufacturing machines and systems and their parts; semiconductor manufacturing machines and their parts; controllers for semiconductor manufacturing machines and systems; semi-conductor wafer processing machines and equipment; robots [machines] for delivering semi-conductor wafer used for semi-conductor wafer processing equipment; robots [machines] for delivering liquid crystal glass substrate; pneumatic snow blowing machines for railway points and their parts and fittings; air injection nozzles for pneumatic snow blowing machines for railway points; air tanks for pneumatic snow blowing machines for railway points; non-electric prime movers [not for land vehicles] and parts thereof; internal combustion engines [not for land vehicles]; fuel injector for internal combustion engines for vessels; control valves for fuel injector for internal combustion engines for vessels; non-electric prime movers for vessels and aircraft; brakes [machine elements not for land vehicles]; actuators used for engines for vessels; speed governors for machines, motors and engines; emulsion fuel supply apparatus; transmissions for machines actuators; actuators [parts of machines]; actuators for landing gear for aircraft; linear actuators; hydraulic actuators and electrohydraulic actuators used for actuating variable wings of aircrafts; valves for aircraft; starters for motors and engines; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors]; alternators; direct current generators; motors [not including those for land vehicles]; motors for aircraft; engine fuel supplying apparatus for aircraft; parts and fittings for fuel supplying apparatus for aircraft; fueling nozzles for airplane engines; pneumatic or hydraulic machines and instruments; engine fuel pumps; electric door openers and their parts and fittings; door closers, hydraulic; door openers, hydraulic; drive devices for automatically opening and closing gates; drive devices for opening and

closing automatic doors; door closers, electric; door openers, electric; drive devices for opening and closing automatic doors; drive devices for opening and closing automatic revolving doors; door closers, pneumatic; door openers, pneumatic; motors, electric, other than for land vehicles; motors for automatic doors; packaging or wrapping machines and apparatus; packaging machines; filling packaging machines and their parts and fittings; vacuum packaging or vacuum wrapping machines and apparatus; machines for packaging food; machines for bagging and packaging; full automatic machines for packaging cosmetics; full automatic machines for packaging chemicals; vacuum pumps for use in filling packaging machines; vacuum pumps for use in vacuum packaging or vacuum wrapping machines and apparatus; filling machines; machines for filling and sealing food; machines and apparatus for filling food; machines and apparatus for filling pharmaceuticals; machines and apparatus for filling chemicals; machines and apparatus for filling cosmetics; canning machines; bottle filling machines; pumps [machines]; vacuum pumps [machines]; stairlifts for wheelchairs; electric stairlifts for wheelchairs; plastic processing machines and apparatus; metalworking machines and tools; metalworking machine tools; primary metal forming machines and apparatus; secondary metal forming machines and apparatus ; wire forming machines; forming machines; metal polishing and grinding machines; rolling mills; tubing mills for metalworking; wire extruding machines; wire drawing machines; mechanical press for metalworking; hydraulic presses for metalworking; shearing machines for metalworking; forging machines; bending machines for metalworking; oil hydraulic presses for metalworking; metalworking machines and tools for processing of constant velocity joints; sputtering apparatus for forming metallic thin film; sputtering apparatus; hot press apparatus; amorphous alloy manufacturing apparatus using argon gas and metal materials; glove box with gas circulation refining apparatus for assembling electronic components [assembling machines]; microwave plasma chemical vapor deposition apparatus; cultivating machines and implements; spraying machines; sprayers for agricultural purposes; plasma spraying apparatus for agricultural purposes; self-running spraying apparatus for agricultural purposes; vacuum apparatus for chemical processing machines; carbon cluster synthesizing apparatus; vacuum valves [machine elements not for land vehicles]; leak valves; gas valves; bellows valves; couplings and joints other than for land vehicles; hermetic seal orifice for chemical processing machines; meter gauge orifice for chemical processing machines; automatic piping switching machines used in connection with food or beverages processing equipment; automatic piping switching machines used in connection with chemical equipment manufacturing chemicals; automatic piping switching machines used in connection with pharmaceutical manufacturing machines; automatic piping connecting machines used in connection with food or beverages processing equipment; automatic piping connecting machines used in connection with chemical equipment manufacturing chemicals; automatic piping connecting machines used in connection with pharmaceutical manufacturing machines; connectors equipped with automatic piping switching machines used in connection with food or beverages processing equipment; connectors equipped with automatic piping switching machines used in connection with chemical equipment manufacturing chemicals; connectors equipped with automatic piping switching machines used in connection with pharmaceutical manufacturing machines; connectors equipped with automatic piping connecting machines used in connection with food or beverages processing equipment; connectors equipped with automatic piping connecting machines used in connection with chemical equipment manufacturing chemicals; connectors equipped with automatic piping connecting machines used in connection with pharmaceutical manufacturing machines; 3D printers; stereolithographic

3D printers; 3D printers for three-dimensional molding; solar photovoltaic power generators consisting of sun tracking devices equipped with reflector panels; solar thermal power generation systems; driving unit controllers for base of reflector panels used for solar photovoltaic power generation; automatic gate openers, electric; air compressors for railway cars and their parts and fittings; air compressors for railway cars; air compressors for air brakes used for railway cars; air compressors for lifting pantographs of railways cars; passenger step systems [machines] for railway cars built into platform; air compressors for vehicles and their parts; air compressors for automobiles; oily separator for land vehicles; oily water separator for land vehicles; vacuum pumps for land vehicles.

Class 09

Telecommunication machines and apparatus; electronic controllers for reduction gears for servo motors; electronic controllers for driving units; measuring or testing machines and instruments; testing apparatus not for medical purposes; sensors [measurement apparatus] other than for medical use; sensors for tracking sunlight; photovoltaic installations for generating electricity [photovoltaic power plants]; solar energy collectors for solar photovoltaic power generation; photovoltaic apparatus and installations for generating solar electricity; pedestals for solar panels for production of electricity; apparatus for testing vehicle brakes; apparatus for testing railway car brakes; apparatus for testing air source supplying apparatus for land vehicles; apparatus for testing air source supplying apparatus for railway cars; apparatus for testing door opening-closing instruments for land vehicles; apparatus for testing door opening-closing instruments for railway cars; position sensors; distance sensors; proximity sensors; level sensors; pressure sensors; remote control apparatus; radio communication machines and apparatus for vessels; voyage data recorders; digital display apparatus for voyage information used for vessels engine remote controls; remote control apparatus for engines for marine vessels; remote control panels for engines for vessels; electronic speed remote control apparatus for auxiliary machines for marine vessels; inductive sensors used for remote control apparatus for engines for marine vessels; remote control apparatus for screws for marine vessels; electronic equipment, apparatus and their parts; electronic control apparatus for vessels; power distribution or control machines and apparatus; high voltage power distribution or control machines and apparatus; high voltage power supplies; power supplies; electric connectors; distribution boxes [electricity] switchboxes [electricity]; distribution boards [electricity] plugboards; distribution transformers; electronic control apparatus for actuating and controlling aircraft wings; electronic control apparatus for automatic door opening-closing apparatus; electronic control apparatus for automatic opening-closing gate apparatus and other electronic automatic opening-closing door apparatus for railway platforms; access control system with authentication functions; electronic control apparatus for automatic doors and their fitted barriers; electronic control apparatus for automatic door apparatus for platforms; remote controlling apparatus used for changing automatic door closing mode or clearance between automatic doors; digital display units (projectors) for electronic automatic doors; electronic opening-closing regulating apparatus for electronic automatic doors; remote monitoring apparatus for railway platform doors; announcement apparatus for electronic automatic doors; electronic control apparatus for turnstile gate apparatus; electronic locks; sensors for electronic automatic doors; computer software; software for creating modeling data for 3D printers; software for converting modeling data for 3D printers; vacuum gauges; gas quantity measuring machines; gas content measuring machines within aluminium; remote control apparatus for agricultural machines, agricultural implements other than hand-

operated; remote control apparatus for sprayers for agricultural purposes; remote control apparatus for plasma sprayers for agricultural purposes; fluid deterioration and contamination level measuring apparatus; measuring apparatus of chemical ingredients within fluid; measuring apparatus of degree of oxygen saturation within fluid; deterioration and contamination level measuring apparatus of oil or grease; electric actuators.

Class 10

Medical apparatus and instruments; artificial limbs; electronically regulated artificial limbs; electronically regulated bionic knees; electronically regulated prosthetic knees; bionic knees; prosthetic knees; walking aids for medical purposes, including handcart type walking assisting device, walk aid cars, electric handcart type walking assisting device, and electric walk aid cars; artificial limbs for the lower-leg; lower limb prosthetics; electronically regulated lower limb orthosis; lower limb orthosis; electronically regulated upper limb orthosis; upper limb orthosis; electronically regulated lower limb prosthetics.

Class 11

Drying apparatus and installations; vacuum drying machines; industrial furnaces; melting furnaces [for industrial purposes]; heating furnaces [for industrial purposes]; gas circulation refining apparatus.

Class 12

Mechanical elements for land vehicles; brakes for land vehicles; brakes for land vehicles and their parts and fittings; brakes systems for railway cars and their parts and fittings; brakes for railway cars; brake shoes for railway cars; brake systems for railway cars; brake control systems for railway cars; brake setting devices for railway cars; brake pads for railway cars; actuators for brakes used for railway cars; brake cylinders for railway cars; pneumatic control valves for land vehicles; air dryers for railway cars; air filters used for air dryers for railway cars; air reservoirs for railway cars; leaning angle control apparatus for railway cars; pneumatic control valves for leaning angle control apparatus for railway cars; railway cars and their parts and fittings; automatic door for railway cars and their parts and fittings; automatic door systems for railway cars; door rails for railway cars; apparatus connecting doors and door engines of railway cars; doors for railway cars; emergency exit doors for railway cars and parts thereof; passenger steps for railway cars; door actuators for railway cars; door cylinders for railway cars; seats for railway cars and their parts and fittings; rotatable seat systems for railway cars; compressed air supplying units for land vehicles; air dryers for automobiles; air filters for air dryers for automobiles; brake systems for automobiles and their parts and fittings; brakes for automobiles; air brakes for automobiles; brake chambers for automobiles; hydraulic clutches for automobiles; air dryers used for brakes for automobiles; brake valves for automobiles; air brake hoses for automobiles; air brake hose couplings for automobiles; pneumatic control valves for air brakes for automobiles; clutch pedals for automobiles; automobiles and their parts and fittings; clutch systems for automobiles and their parts and fittings; clutches for automobiles; clutch operation cylinders for automobiles; master clutch cylinders for automobiles; hydraulic dampers for clutches for automobiles; orifice valves for clutches for automobiles; shaft couplings for clutch shaft for automobiles; automatic doors for land vehicles and their parts and fittings; passenger steps for land vehicles; automatic doors for motor buses; passenger steps for automobiles; oil collectors used for air dryers for land vehicles; oil collectors used for oil separators for land vehicles; oil collectors for oily water separators for land vehicles; oil collectors for land vehicles; vessels and their parts and

fittings; pneumatic control gears for vessels; aircraft and their parts and fittings; motors for land vehicles; landing gear for aircraft; flight control gears; oil hydraulic system components for aircraft; apparatus for actuating aircraft wings; controllers for apparatus for actuating aircraft wings; fueling nozzles for aircraft being aircraft parts; fuel pumps for aircraft being aircraft parts; wheelchairs; electric nursing care wheelchairs; electric wheelchairs; electric trolleys; external electric wheels for wheelchairs.

Class 17

Plastic semi-worked products for use as material; plastic substances, semi-processed; filamentary synthetic resins for 3D printers.

Class 19

Doors, not of metal; palings, not of metal; fences, not of metal; revolving doors, not of metal; folding doors, not of metal; platform doors of glass; platform screen doors of glass; platform edge doors of glass; runners, not of metal; joinery fittings, not of metal; doors, not of metal; sliding doors, not of metal; hinged doors, not of metal.

Class 37

Repair or maintenance of machine elements, not for land vehicles; repair or maintenance of transmissions for machines; repair or maintenance of reduction gears; repair or maintenance of reduction gears for industrial robots; repair or maintenance of reduction gears for machine tools; repair or maintenance of reduction gears for semi-conductor manufacturing machines; repair or maintenance of hydraulic power units for construction or loading-unloading machines and apparatus; repair or maintenance of hydraulic motors; repair or maintenance of hydraulic valve actuators; repair or maintenance of driving devices for hydraulic power units for construction or loading-unloading machines and apparatus; repair or maintenance of driving units consisting of reducers with electric motors; repair or maintenance of valves (machine elements); installation, maintenance and repair of solar photovoltaic power generators; installation, maintenance and repair of solar thermal power generation systems; installation, maintenance and repair of driving units for tracking systems for the sunlight with reflector panels used for solar thermal power generation; installation, maintenance or repair of apparatus for generating electricity; repair or maintenance of apparatus for generating electricity and their parts and fittings; installation of wind-powered electricity generation systems; installation of wind-powered electricity generators, installation, maintenance and repair of windmill and wind turbines; repair or maintenance of semi-conductor manufacturing machines and systems; repair or maintenance of controllers for reduction gears; repair or maintenance of electronic controllers for driving units consisting of reducers with electric motors; machinery installation; consultancy regarding machinery installation; repair or maintenance of construction machines and apparatus and their parts; repair or maintenance of loading-unloading machines and apparatus and their parts; repair or maintenance of agricultural machines and implements and their parts; repair and maintenance of land, water, air and railway vehicles; repair or maintenance of railway cars and their parts and fittings; repair or maintenance of brakes for railway cars; repair or maintenance of automatic door for railway cars; repair or maintenance of rotatable seat systems for railway cars; repair or maintenance of pneumatic snow blowing machines for railway points; repair or maintenance of compressed air supplying apparatus for railway cars; repair and maintenance of automobiles and parts thereof; repair or maintenance of brakes for automobiles; repair or maintenance of clutches control systems for automobiles; repair or maintenance of air dryers for

automobiles; repair or maintenance of air compressors for land vehicles; repair or maintenance of air compressors for automobiles; repair or maintenance of automatic doors for motor buses; repair or maintenance of oil collectors used for air dryers for land vehicles; repair or maintenance of oil collectors used for oil separators for land vehicles; repair or maintenance of oil collectors used for oily water separators for land vehicles; repair or maintenance of oil collectors for land vehicles; repair or maintenance of pans and fittings of vessels; repair or maintenance of engines for vessels and their parts and fittings; repair or maintenance of instruments for vessels; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of electronic machines and apparatus; repair or maintenance of remote control apparatus; repair or maintenance of remote control apparatus for vessels; aircraft maintenance or repair; repair or maintenance of aircraft parts; repair or maintenance of aircraft engines and engine parts; repair or maintenance of landing gear for aircraft, flight control gears, oil hydraulic system components for aircraft, apparatus for actuating aircraft wings; repair or maintenance of machine elements; repair or maintenance of actuators; repair or maintenance of brakes [machine elements not for land vehicles]; repair or maintenance of valves [machine elements not for land vehicles]; repair or maintenance of aircraft actuators; repair or maintenance of valves for aircraft.
