cutting machines; food slicers; slicers (machines, electric); sausage making machines; labelling machines (other than for office use); printers (other than for office use); moving and handling equipment; agitators; lifting and hoisting equipment; handling machines, automatic (manipulators); palletisers; machines for lifting and accessories; bottle filling machines; bottle washing machines; bottle capping machines; conveyors; belt conveyors; loading machines; automatic loading systems; manure augers; vacuum packing machines; packaging machines; wrapping machines; foil wrapping machines; engines, powertrains, and generic machine parts; pressure regulators (parts of machines); heat exchangers being machine parts; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; pistons (parts of machines and engines); regulators (parts of machines); steam traps; control mechanisms for machines, engines or motors; valves (machine parts); connection fittings for machines; expansion compensators, namely machine parts for compensating thermal stress; cleaners (machine parts); machines for the energy and power plant industry; machines for the energy technology, as far as comprised in Class 7; compressors for refrigerators; machines for agglomeration, granulation and lamination (coating) of materials, including foodstuffs and pharmaceutical preparations, and plants composed of the aforementioned machines used for applying the fluid bed technology for commercial purposes; sealing machines for industrial purposes; filling machines; distilling machines; atomizers; machines using microwave technology for commercial purposes; machines for agricultural engineering purposes; environmental technology machines for commercial purposes; machines for industrial plant construction; machine tools; machines and installations composed thereof for applying the spraying technology and spray drying technology for commercial purposes; agricultural, earthmoving, construction, oil and gas extraction and mining equipment; agricultural equipment; electric machines for the processing of foodstuffs; fodder presses; rotary and linear milking parlor installations; semi-automatic and automatic milking machines; milking installations; component parts for milking machines; pumps and pulsators for the dairy industry; udder washing and spraying apparatus; automatic feeding machines; milking parlor equipment, namely manure scrapers; tractor-towed farm implements; waste management systems, processing systems and recovery systems for manure, slurry and other animal waste, namely pumps or scrapers for the transport of solid and liquid animal excretions as well as presses for the separation of undigested solid elements; mechanized livestock feeders; machines and machine-operated equipment for cleaning and disinfecting purposes for use in the processing industry, including the food processing industry, in particular the dairy industry, namely machines for the disinfection of teats and hooves; installations and components for processing and the disposal of manure and slurry for the generation of energy, namely pumps and conveyors; sweeping and cleaning machines; cleaning devices and machine-type cleaning apparatus, in particular chemical and/or mechanical cleaning apparatus and installations, in particular for the dairy industry, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; stable cleaning machines; road rollers; robots (machines); condensing installations; mechanical watering systems for livestock; vacuum machines and installations composed thereof; vacuum installations being parts of milking machines; bottling plants for the bottling of solid, pasty and liquid substances and of heterogeneous substance mixtures; pumps for the food processing industry, including milking machine pumps; extractors for milking clusters, namely apparatus for removing the milking equipment from the udder; all included in class 7.
