and systems for altitude control and position control; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, audio compact discs; data processing apparatus and computers; data carriers; transmitters (telecommunication), electric cables, fibre optic cables, electronic apparatus and instruments, electronic storage media; data storage media containing flight and navigation instructions for helicopters, rotary-wing aircraft and drones; optical or infrared monitoring installations and apparatus; thermal imaging apparatus; observation instruments and systems consisting thereof; infrared monitoring and tracking apparatus and systems consisting thereof, in particular positioning systems; secure observation and reconnaissance apparatus and systems consisting thereof; helicopter monitoring apparatus and systems consisting thereof; aerial monitoring apparatus and systems consisting thereof, day/night monitoring apparatus and systems consisting thereof; high-precision optical apparatus; encoders or decoders, digital image and sound data transmitters; telemetry, remote control, radio altimetry and proximity and approach apparatus and instruments for use in the field of aviation and space travel and in instruments for aviation and space travel, detection apparatus and instruments, radar, antenna, sensor and computer security systems; recording apparatus and positioning apparatus, recording instruments and positioning instruments; radars; lidars; electrooptical sensors; computer security systems; radar, antenna and satellite transmitters and receivers, converters and transponders; electric apparatus and equipment for civil and military use; electric and electronic tracking, discovery, detection, monitoring, geopositioning and geolocation apparatus; electric and electronic apparatus and equipment for radiolocation and radio navigation; airborne ground monitoring and reconnaissance apparatus based on radar images and systems consisting thereof; sensors for unmanned aircraft; instruments for navigation by sea, land, air and in space; guidance and navigation apparatus and systems consisting thereof, stationary or portable computers, electronic and telecommunications apparatus and equipment, included in class 9, computer servers, servers and apparatus for data storage, computer workstations, modems; data memories; screens; wireless and satellite-based hardware and software for onboard data networks; multi-platform interfaces, including hardware and software therefor; data storage media and user terminals for position determination, mapping information and course guidance for land vehicles, aircraft, marine vehicles or submarine vehicles; processing apparatus and systems consisting thereof for geographical data, in particular satellite systems, gps; apparatus and equipment for the acquisition, compression, transmission, analysis and recovery of satellite images and aerial photographs; image transmission apparatus based on a digital radio link and systems consisting thereof; optical parts and components; spatial-optical apparatus, equipment and instruments; optical apparatus, equipment and instruments for aerial reconnaissance vehicles; course guidance, radio remote control and autopilot equipment and apparatus; hardware and software (recorded programs) for position determination, monitoring and surveillance in specific geographical areas; monitoring and control hardware and software (recorded programs), position determination, monitoring and surveillance apparatus and systems consisting thereof in specific geographical areas, media for data storage and user terminals (computer terminals) for position determination, navigation, navigation databases, radar or satellite navigation, radio navigation and for the following applications: mapping information, safety and emergency equipment, instruments and apparatus, research (other than for medical use) and life-saving equipment, instruments and apparatus; media for data storage and user terminals for position determination, mapping information, course guidance for land vehicles and aircraft; electric or electronic instruments and apparatus for receiving, processing and/or transmission of navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for testing, analysis and performance monitoring of navigation data and navigation signals, and elements and components relating thereto; electric and electronic apparatus and instruments for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; computer software (recorded programs) for measuring, verification, checking, reviewing, testing and monitoring of positions and navigation data relating thereto; satellite positioning and satellite navigation apparatus and equipment consisting thereof; telecommunications and radio communications apparatus, hardware and software for telecommunications and radio communications networks, hardware and software for digital telecommunications networks; communications and radio communications networks via wires,

cables, fibre optic technology, radio or satellite; call centre servers, multiplexers and demultiplexers, electric and electronic apparatus and instruments for the control and management of networks; receivers (telecommunications), electronic and radioelectric signal transmission apparatus; satellites for scientific use and satellites for receiving and transmission of radioelectric signals; computer terminals, communications terminals, stationary or portable computer terminals or communications terminals; apparatus for communications, transmission and receiving of data, speech, and image and multimedia data; network apparatus, in particular protocol converters and systems consisting thereof for gateways; basic equipment for and access interfaces to internet protocol (ip) networks; devices and equipment and apparatus consisting thereof for the transmission of messages, information, data, and sound and images over the airways, and via cables, fibre optic technology, telephones, satellites, terminals, telecommunications networks and computer networks; telecommunications and desktop automation terminals for military applications; telephone apparatus, mobile telephones, cordless telephones, radio paging apparatus and equipment, facsimile machines, pdas (personal digital assistants), mobile apparatus for internet access, replacement parts for the aforesaid goods, enabling communications and conducting of secure transactions and online trading; software programs in a computer-usable format, being provided on magnetic or optical storage media or as a downloadable format and being usable with the aforesaid goods; software programs for secure communications, enabling the authentication, checking, recording and analysis of business relationships/transactions by means of a system of controlled access rights and notifications, apparatus for satellite telecommunications and satellite telecommunications stations consisting thereof, in particular in aircraft; software, software (recorded programs) for communications and radio communications networks for data transmission by means of wires, cables, fibre optic technology, radio or satellite; software, software (recorded programs) for the management, administration, architecture management, configuration and protection of local or remote networks for speech, images and data; apparatus and software (recorded programs) for securing access to computer and internet protocol (ip) networks; software (recorded programs) for encryption and decryption; software (recorded programs) for encoding and decoding; software (recorded programs) for the architecture, management and securing of access to computer networks and internet protocol (ip) networks; simulation, modelling, testing and experiment software; servers for modelling simulations of and for tests and experiments relating to civil and military operations; software (recorded programs) for computers for the development, optimisation and performance analysis of methods and algorithms, and processors (cpus) and software modules for the processing and/or generation of navigation signals and/or navigation data in relation to navigation or cartography; software for the planning, acquisition, processing and dissemination of reconnaissance information and data (intelligence information), solely in the fields of reconnaissance and geography for defence and security purposes, all of the aforesaid goods for digital radio networks; software for digital radio networks, enabling user access to voice services and data, including group communications in relay mode, individual conversations, short messages, and data localisation and transmission, all of the aforesaid goods for digital radio networks; software (recorded programs) for the providing of access to an electronic messaging service; software for transaction security for intranet and internet data terminals, control stations and terminals for the display of information in graphics and text format; secure data processing apparatus, secure telecommunications apparatus and equipment consisting thereof; handheld electronic devices for wireless receiving and/or transmission of secure data (in particular for messages) and electric and electronic apparatus and equipment enabling users to store or manage personal information; software for forwarding secure messages, internet e-mails and/or other data to one or more handheld electronic devices from a database stored on a pc or a server or belonging thereto; software for the synchronisation of secure data between a remote station/apparatus and a fixed station/apparatus or a remote station/apparatus; electric and electronic apparatus and instruments, in particular computers and processors (cpus) for data and computer software (recorded programs) for the development, optimisation and performance analysis of methods and algorithms, and processors (cpus) and software modules for the processing and/or generation of navigation signals and/or navigation or cartography data; electric and/or electronic apparatus, electric and/or electronic instruments and apparatus for displaying reports, analyses and measurement results, in particular in the form of graphics, charts and diagrams resulting from the performance analysis and monitoring of navigation signals and/or data; electric and electronic apparatus and instruments for the

examination and identification of segments of space in two or three dimensions; computer software (recorded programs) for the examination and identification of segments of space in two or three dimensions; apparatus for monitoring flight parameters, in particular navigation and control software (recorded programs) for helicopters, rotary-wing aircraft and drones, communications apparatus and systems consisting thereof and communications antenna for aircraft; recording apparatus and systems consisting thereof for apparatus for locomotion and propulsion by land, air or water; automatic flight control apparatus and systems consisting thereof; testing apparatus (real-time systems) for conducting tests on electronic samples and parts, in particular data input, recording, processing and display equipment and apparatus, data buses, data transmission apparatus and systems consisting thereof, analogue-digital and digital-analogue converters, program prototypes, simulators for the simulation of mechanical, electric and electronic functional processes, linking and chaining modules, data analysis apparatus, and changeover, panel and selector switches and coordinator switches, interface apparatus or programs, in particular analogue, digital and discrete data bus interface apparatus or programs; control apparatus for testing apparatus and searchable programs for the aforesaid control equipment recorded on data carriers; searchable test programs recorded on data carriers; instruments, and computer hardware and software for the simulation of electronic samples and mechanical, electric and electronic functional processes; electric and electronic display apparatus for the preparation and conducting of tests on electronic samples and processing of the test results; software, in particular database software for the management of tests on electronic samples for monitoring the configuration and definition of the test system; computer hardware and software for generating test documents; computer hardware and software for linking test installations via telecommunications equipment and/or via the internet and/or via local networks; instruments and installations consisting thereof for the testing of vehicles and apparatus for locomotion and propulsion by land, air and water; sensors and communications apparatus and equipment; sighting telescopes for firearms; telescopes, binoculars, extendable telescopes and binoculars; protective eyewear, in particular eyewear for protection against lasers; distance measuring apparatus, in particular laser distance measuring apparatus, digital magnetic compasses; cameras, in particular reconnaissance cameras, exploratory cameras; equipment for aerial photography; aerial imaging apparatus and aerial cameras; periscope systems; stabilised sensor platforms; night-vision apparatus, residual light amplifiers; laser target illuminators; software for assessing, monitoring and control of data security within an information technology network; industrial geoproduction systems comprising a digital processing chain for producing satellite images, satellite data, aerial photographs, aerial image data, terrestrial data and terrestrial images in 3D (three dimensions); automatic vending machines and mechanisms for coin-operated apparatus; antenna installations, antenna systems; tape recorders; magnetic tape units for computers; magnetic tapes; videotapes; cinematographic cameras; camcorders; compact discs (audio, video); optical compact discs; magnetic disk storage; optical discs; recording discs; optical data media; magnetic data media; radio apparatus (telecommunications); software, solely for the field of satellite imaging and satellite data; apparatus and equipment for the processing of data, in particular via satellites; apparatus and equipment for the simulation of infrastructure development; apparatus and equipment for producing and updating development plans and development charts and for observing plots of agricultural land and optimising crop yield trends and monitoring thereof; compact disc players; optical document readers; character readers; readers; computer software (recorded programs); games software; computer programs (downloadable software); software and software packages for the processing and analysis of photographs, in particular aerial photographs, satellite images or terrestrial images; apparatus and equipment for the processing of data, in particular satellite data; software packages for stereographic reproduction, for generating and preparing digital terrain models, for 3D modelling, ortho, orthophotos and thematic maps; computer files and software packages with geographical, geological, cartographical and topographical data; computer files and software packages comprising reproductions of terrain and digital maps; equipment and apparatus for databases and for accessing databases; computer software for stereographic projections, digital terrain models, orthoimages and thematic maps; computer files and software for geography, geology and topography; computer files and software for ground imaging and digital maps; satellite navigation equipment; satellites for scientific purposes, in particular earth observation satellites; apparatus and equipment for the processing, analysis, reproduction and storage of images, aerial photographs and satellite

CLASS : 9—cont.

photographs; computer hardware; database equipment; database access equipment; database management software, in particular for stereographic reproduction, for the storage, preparation, processing and analysis of drawings, images, photos, diagrams, charts, aerial photographs, satellite photographs, surface models and terrain models; data carriers for computer software, computer files, software packages, all containing or being for stereographic reproduction, for the storage, preparation, processing and analysis of surface models and terrain models, images and photos; data processing apparatus and data processing equipment, in particular for satellite data; carriers for dark plates (photography); mirrors (optics); satellite navigation systems; satellites for scientific purposes, in particular earth observation satellites and radar satellites; remote control apparatus and remote control equipment; airborne sensors; transmitters (telecommunication); apparatus and equipment for the processing, analysis, reproduction and storage of satellite images; electric and electronic apparatus and equipment for generating digital contour line models; databases of digital contour line models; computers and computer software for industry, namely the fire brigade and government, with regard to operating systems, customer management, systems for the management of valuables, geographical information systems, computerised construction, real-time visualisation and mobile systems and configuration thereof for use on suitable computer hardware; scientific satellites and satellites for receiving and transmission of radio signals; uss flash drives; adapters, chargers; telephone adapters; usb hardware; computer mice; headphones; laser pointers; bluetooth headsets (wireless headsets for use with mobile telephones); decorative magnets; cases, sheaths and sleeves for touch pads; cases, sheaths and sleeves for telephones, in particular for mobile telephones; sunglasses; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus, equipment and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, all of the aforesaid goods for use in the field of helicopters and rotorcraft; apparatus for recording, transmission or reproduction of sound, images or data, all of the aforesaid goods for use in the field of helicopters and rotorcraft; flight control apparatus and flight control equipment for guiding and controlling helicopters and rotorcraft; electronic controllers for guiding and controlling helicopters and rotorcraft; flight regulating systems and flight control systems with fly-by-wire control for helicopters and rotorcraft; fibre optic flight regulating systems and flight control systems for helicopters and rotorcraft; flight regulating systems and flight control systems for guiding, controlling and self-navigation of helicopters and rotorcraft, comprising flight control apparatus and flight control equipment, electric wire cables or fibre optic cables, sensors for collecting flight data, calculating machines, data processing installations, data processing apparatus and computers, flight data software; glass cockpits for helicopters and rotorcraft, namely cockpits comprising apparatus and equipment for flight control and flight regulation and a dashboard with flight instruments, comprising screens for visual display (lcd/led panels) controlled by flight management systems (computer hardware and computer software) displaying adjustable information for guiding and navigation of helicopters and rotorcraft, for testing and monitoring flight parameters, for testing and monitoring components, parts and onboard equipment for helicopters and rotorcraft; head-up displays (visual field displays) for use in helicopters and rotorcraft, namely transparent electronic display apparatus and screens for providing navigation data, operational data and use data for pilots and co-pilots; flight instruments and flight apparatus for providing information regarding the flight situation of the helicopter or rotorcraft for pilots; autopilots for use in helicopters and rotorcraft; apparatus and equipment for testing the flight parameters of helicopters and rotorcraft; navigation apparatus, navigation equipment and navigation instruments for helicopters and rotorcraft; communications equipment and communications apparatus for helicopters and rotorcraft; avionics equipment and avionics apparatus, in particular regulating systems, control systems, observation systems, monitoring systems, communications systems, navigation systems, systems for weather and anticollision systems for helicopters and rotorcraft; display apparatus and measuring instruments for use in helicopters and rotorcraft; digital displays and digital display apparatus for use in helicopters and rotorcraft; accelerometers, altimeters, radar altimeters, ammeters, anemometers, barometers, flowmeters, frequency meters, manometers, tachometers (revolution counters), thermometers, torquemeters, speedometers, vibration meters, vibration gauges, voltmeters, telemeters, range finders, pressure indicators, fuel gauges, all being for use in helicopters and rotorcraft; oil pressure

gauges and oil pressure indicators, oil temperature gauges and oil temperature indicators, fuel pressure gauges and fuel pressure indicators, fuel temperature gauges and fuel temperature indicators, height indicators, position indicators (artificial horizon), airspeed indicators, course deviation indicators, first limit indicators (fu), directional indicators, horizontal situation indicators (hsi), radio-magnetic indicators (rmi), turn indicators and vertical speed indicators (variometers), all being for use in helicopters and rotorcraft; inertial navigation systems (inertial measurement units) for use in helicopters and rotorcraft; gyroscopes, rate gyroscopes, laser gyroscopes (gyrolasers) for use in helicopters and rotorcraft; compasses, gyrocompasses, magnetic compasses and radio compasses (automatic direction finders) for use in helicopters and rotorcraft; vhf omnidirectional range (vor) receivers for use in helicopters and rotorcraft; global positioning systems (gps) for use in helicopters and rotorcraft; ground-proximity warning systems (gpws), enhanced ground-proximity warning systems (egpws) and terrain awareness and warning systems (taws) for use in helicopters and rotorcraft; sensors for use in helicopters and rotorcraft, in particular acceleration measurement sensors, air temperature sensors, alarm sensors, distance sensors, electric sensors, electrooptical sensors, electronic sensors, electronic measurement sensors, fire sensors, fluid level sensors, frost sensors, gas sensors, heat sensors, moisture sensors, crash sensors, impact sensors, infrared sensors, level sensors, load sensors, light sensors, magnetic sensors, movement sensors, noise sensors, optical sensors, piezoelectric sensors, position switches, position transmitters and position sensors, pressure sensors, approach sensors and proximity sensors, smoke sensors, speed sensors, temperature sensors, torque sensors, vibration sensors, sensors for tracking actual and projected disturbances; detectors for use in helicopters and rotorcraft, in particular carbon dioxide detectors, carbon monoxide detectors, fire detectors, heat detectors, leak detectors, immersion detectors, movement detectors, particle detectors, approach detectors, proximity detectors and proximity switches, radar detectors, rotor speed detectors, vibration detectors; transducers for use in helicopters and rotorcraft comprising, in particular, resonant transducers, magnetostrictive transducers, piezoelectric transducers, electrostatic transducers, transducers with variable resistance (variable-resistance transducers), electrooptical transducers, electroacoustic transducers, power transducers, high-frequency transducers, linear transducers, measurement transducers, pressure transducers, torque transducers, ultrasound transducers; power supply units for helicopters and rotorcraft; electric accumulators for helicopters and rotorcraft; electric valves (thermionic), solenoid valves, magnetic valves for use in helicopters and rotorcraft; electric regulators and supply voltage regulators for helicopters and rotorcraft; commutators, collectors and rectifiers for use in helicopters and rotorcraft; electric inverters for use in helicopters and rotorcraft; electric switches for use in helicopters and rotorcraft; pressure switches for use in helicopters and rotorcraft; electric actuators for use in helicopters and rotorcraft; fuel supply regulators, fuel flow regulators and fuel quantity regulators for use in helicopters and rotorcraft; timers (time recording instruments and time recording apparatus) for use in helicopters and rotorcraft; calculating machines, in particular pocket calculators, first limit calculating machines, in particular first limit pocket calculators, obstacle avoidance calculating machines, in particular obstacle avoidance pocket calculators, navigation calculating machines, in particular navigation pocket calculators, all being for use in the field of helicopters and rotorcraft; calculating machines, in particular pocket calculators for assessing the technical condition and technical state, damage to and use and operating time of helicopters and rotorcraft; data processing apparatus and data processing equipment, data processors, computers, computer hardware and computer peripheral apparatus, all being for use in the field of helicopters and rotorcraft; circuit boards and printed circuits for use in helicopters and rotorcraft; couplers and connecting lines (data processing apparatus) for helicopters and rotorcraft; onboard computers for helicopters and rotorcraft; air data computers for use in helicopters and rotorcraft; symbol generators (display processing computers) for use in helicopters and rotorcraft; computer monitors, screens for optical and visual display, flat panel display screens, touch screens and multi-functional led screens and multifunctional lcd screens, all being for use in the field of helicopters and rotorcraft; instruments and apparatus for airborne data acquisition for use in helicopters and rotorcraft; flight data recorders for use in helicopters and rotorcraft; digital voice recorders for use in helicopters and rotorcraft; decoders, encoders, signal scramblers and descramblers, electronic encryption and decryption apparatus, all being for use in the field of helicopters and rotorcraft; telecommunications apparatus and telecommunications equipment for use in the field of helicopters and rotorcraft; transponders for

use in the field of helicopters and rotorcraft; transmitters for use in the field of helicopters and rotorcraft; transceivers for use in the field of helicopters and rotorcraft; radio transmitters, radio receivers and radio signal tuners for use in the field of helicopters and rotorcraft; antennas, antenna installations and antenna systems and satellite dishes, modems, telephone apparatus and telephone receivers for use in the field of helicopters and rotorcraft; amplifiers for use in the field of helicopters and rotorcraft; headphones, microphones, loudspeakers for use in the field of helicopters and rotorcraft; cameras, camcorders and infrared cameras for use in helicopters and rotorcraft; electronic card readers for use in the field of helicopters and rotorcraft; radars and radar systems for use in the field of helicopters and rotorcraft; alarm installations, alarms and alarm equipment for use in helicopters and rotorcraft; emergency locator transmitters for helicopters and rotorcraft; computer software for use in the field of aircraft, helicopters and rotorcraft; computer software for flight control of aircraft, helicopters and rotorcraft; computer software for navigation assistance and flight guidance assistance for aircraft, helicopters and rotorcraft; computer software for managing and recording flight data for aircraft, helicopters and rotorcraft; computer software for the design, production, manufacture, testing, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; equipment, apparatus, parts, components and fittings for aircraft, helicopters and rotorcraft; data acquisition software and data processing software for the design, production, manufacture, control, flying, guidance, navigation, monitoring, security, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the regulating of parameters for apparatus used for the design, production, manufacture, control, guidance, flying, navigation, surveying, maintenance, servicing and repair of aircraft, helicopters and rotorcraft; computer software for support during the search and remediation (troubleshooting) of faults and malfunctions, damage, mechanical faults and defects and the exchange and replacement of expired and worn parts of aircraft, helicopters and rotorcraft; computer software for displaying malfunctions, faults, failures, breakdowns and abnormalities in aircraft, helicopters and rotorcraft and for suggesting countermeasures for rectifying the aforesaid events; computer software for digital cartography for use in the field of aircraft, helicopters and rotorcraft; computer software for the preparation and creation of flight plans for aircraft, helicopters and rotorcraft; computer software for mission planning for aircraft, helicopters and rotorcraft; computer software for the presentation of flight reports for aircraft, helicopters and rotorcraft; computer software for tracking and locating aircraft, helicopters and rotorcraft; computer software for the identification and authentication of individuals for use in the field of aircraft, helicopters and rotorcraft; computer software for encoding, decoding, encryption, decryption of data for use in the field of aircraft, helicopters and rotorcraft; artificial vision systems and enhanced vision systems, namely computer hardware systems and computer software systems for displaying a realistic three-dimensional representation of the external world and for adding real-time information recorded by sensors installed on helicopters and rotorcraft, to support aircraft, helicopters and rotorcraft during flight and navigation through the enhancement of the situational perception and situation-dependent awareness of the pilot; day/night-vision goggles, residual light amplification goggles for use in helicopters and rotorcraft; maintenance and servicing equipment (maintenance kits) for helicopters and rotorcraft predominantly comprising computer hardware and computer software, sensors, cables and wires, for measuring and analysing vibrations in the main and tail rotors, transmission shafts and other dynamic components and assemblies and providing of computerised tuning (setting) of flight parameters; testing installations and testing stands for aircraft, helicopters and rotorcraft; testing means for aircraft, helicopters and rotorcraft, electronic equipment and apparatus for helicopters and rotorcraft and flight simulators for helicopters and rotorcraft; flight simulators for aircraft, helicopters and rotorcraft; flight simulation software for aircraft, helicopters and rotorcraft; flight manuals (handbooks) and maintenance and servicing manuals (handbooks) for aircraft, helicopters and rotorcraft in electronic format, being recorded on computer-readable media or being downloadable; electronic publications with regard to aircraft, helicopters and rotorcraft, being recorded on computer-readable media or being downloadable; software for video games; fire extinguishers for use in helicopters and rotorcraft; cd storage wallets; all included in class 9.
