siren speakers and electronic siren controllers, namely tone generators and amplifiers for sirens; computer software to control communication hardware for operating and controlling closed circuit cameras; switch units incorporating magnetically actuated reed switches for use in burglary and fire sensing alarm systems, in industrial position sensing apparatus, in revolution counters, in equipment cabinet safety interlock systems, in industrial position controlling apparatus, in electrical cables and in pump and valve controlling apparatus and home security alarm systems; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of particular substances; electrical and electronic checking apparatus for screening individuals, baggage, and cargo for the presence of explosives and/or narcotics; apparatus for detecting presence of explosives and other contraband; time or condition sensing apparatus for initiating and controlling regeneration or washing cycles for water treatment equipment; bioreactors for culturing cells; portable analysis instruments, namely probes with recording devices for converting microprocessor data for the measurement of organic and inorganic substances in water; filters and filter housings for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use, filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic controls for water treatment and processing, namely equipment for treating industrial and commercial water supply systems, water boilers, water cooling systems, water cooling circuits and closed water supply systems, systems for processing paper and pulp, fuel processing systems and systems for processing metals in order to analyse the system's chemistry, determine the correct treatment programme, apply the required treatment and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper fields; electronic controllers used for processing information in the water treatment and pulp and paper fields; apparatus for use in industrial water systems to measure and control ph and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment; laboratory testing equipment-namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water; electronic and electrochemical products, namely, fuel cells; equipment for converting photoelectric radiation into electrical energy, namely, photovoltaic solar modules, photovoltaic solar hybrid modules, electronic sensors for measuring solar radiation, photocell; apparatus for converting electronic radiation to electrical energy, namely photovoltaic solar modules, systems, components, and all associated balance of system components; printers, laser beam printers, inkjet printers, multifunction and multipurpose printers, parts for all of the foregoing; electronic portable devices for the wireless reception and/or transmission of data, enabling the user to keep track of or manage personal information and enabling transmission and reception of voice communications, videos and images; software for the synchronization of data between a remote station or unit and a fixed or remote station or unit and software which enables and provides one-way and two-way wireless connectivity to data; portable digital electronic devices and software related thereto; portable electronic devices for wireless data reception and/or transmission; software for the redirection of messages, e-mail, and/or other data from a personal computer or a server to one or

more handheld electronic devices; computer software and programs for managing and operating wireless devices; telecommunications devices; computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for browsing and navigating through web sites on said networks; computer software for sending and receiving short messages and electronic mail and for filtering non-text information from the data; portable electronic devices for voice, video, data and image communication; computer game software for mobile handsets; electronic game software for mobile telephone receivers; computer software packages; batteries, dry cells, rechargeable batteries, battery chargers, storage batteries, solar cells, fuel cells; charcoal and carbon electrodes for dry cell batteries, wiring apparatus, electrical connectors, electrical cables, electrical ducts, floor ducts adapted for housing electrical cables, ballasts (for discharge lamps), under-carpet wiring systems, dimmer switches, circuit breakers, magnetic contactors and starters, circuit protectors, switch gears, electric junction boxes, appliance switches, outlet sockets, electrical plugs, insulating materials, electric time switches, other wiring devices; signalling apparatus and instruments, video door telephone apparatus, interphone systems, electric door chimes, intercommunication apparatus, fire alarms, gas alarms, anti-theft warning apparatus, emergency portable interphones; machines and acoustic apparatus, thermionic valves (radio), tape players/recorders, radio cassette recorders, portable tape players, compact disc players/recorders, mini disc players/recorders, minidisc decks, dvd (digital versatile disc) audio players/recorders, secure digital players and recorders, secure digital cards, loudspeakers, tuners, amplifiers, stereo component systems; disk readers, graphic equalizers, radio alarm clocks, integrated circuit (ic) recorders, digital sound processors, headphones, communications head sets, microphones, cassette player/recorders, pre-recorded compact disc software, electric megaphones, language laboratories, car stereos, public address systems, mixing consoles, devices for cleaning audio equipment, namely devices for cleaning magnetic heads; audio cables, video cables, other audio devices; audio-visual machines and apparatus, television receivers, cathode ray tube display screens, cathode ray tubes, image capture tubes, plasma television receivers, plasma display, lcd television receivers, liquid crystal display monitors, television receivers combined with video tape recorders; combined television receiver with disk player, antennas, tuners for satellite broadcasting, tuners for televisions, internet terminals, video viewers, videocassette recorders, camcorders, camcorders, video printers, laserdisc players, video cd (compact disc) players, video cd (compact disc) software, dvd (digital versatile disc) video players/recorders; colour video systems for large-scale display, catv (cable television) systems, hard disk drives, video imagers, optical-electronic display, multi-use electronic display systems, closed circuit video systems, dvd software (digital versatile disc), television cameras, video switches; non-linear editing systems, editing controllers, dvd (digital versatile disc) authoring systems, light-emitting diode displays, other audio-visual machines; optical-disc equipment and apparatus; optical disk drives, optical disc recorders, optical disc players, optical disc changers, optical disk cartridges, optical disc recording systems; communication machines and apparatus, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private automatic branch exchange systems, receivers for global positioning systems, radiotelephones, marine radars, radio pagers, mobile communication systems, multi-channel access radio systems, electric traffic information signs, videoconferencing systems, private mobile telephone systems, local network systems, av codecs (coders-decoders), car navigation systems (road guidance systems), electronic systems for road toll collection, gps antennas (global positioning systems); checking (supervision) apparatus and instruments, communication and monitoring systems for apartment buildings, intruder detection systems, automated systems for monitoring and controlling functions within buildings, electric multi-layer security apparatus; automatic controlling machines and instruments, electric distribution boards, traffic-signal control apparatus, bus location system, ultrasonic vehicle detectors, information and telecommunications networks for managing road traffic, light dimmers, daylight switches, inverters, programmable controllers, transformers, cubicles, home electricity generation system, power capacitors; data processing equipment; computers and computer peripheral devices, word processors, computer software (recorded), image scanners for personal computers, printers, pc (personal computer) cards, computer keyboards, mice (data processing equipment), cd-rom (compact disc with read-only memory) drives, floppy disk drives, card readers/writers, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals,

personal digital assistants, dvd-ram/rom (digital versatile disc - random-access memory/read-only memory) drives, cad/cam (computer-aided design/computer-aided manufacturing) systems, hard disk drives, electronic calculators, uninterrupted power sources for computers/communication/broadcasting; external storage media, video cassettes, cleaning heads, d-vhs (video systems for household use), other kinds of computer peripherals; video cassettes, audio tapes, floppy disks, optical discs, minidisks, dvds (digital versatile discs), integrated circuit memory cards; weighing and measuring apparatus and instruments, thermoluminescence dosimetry systems, portable x-ray dosimeters, electronic counters, ammeters, power consumption meters, clamp meters, electric leakage meters, electric insulation meters, thermometers, measurement system processors, multi-circuit type electric power monitor, micro-precision measurements, body fat monitor, step counter, audio/video analysers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; sensors, photo sensor, temperature sensors, position sensors, angular speed sensors, rotation sensors, angle sensors, dew sensors other sensors; electrical components, luminescent diodes, liquid crystals, lcd modules; magnetrons, diodes, transistors [electronic], temperature controlling apparatus, integrated circuits, audio-video circuit boards, single-chip microcomputers, microphone cartridges for electric condensers, half-tone image processors, thermal print heads, magnetic heads, permanent magnets, electric couplings, relay, display components, solid-state lasers, charge-coupled device (ccd device), image sensors; film capacitors, membrane units for oxygen enrichment, electric tuner units, high frequency units, coin validation units, note validation units, magnetic card readers/writers, voltage controlled oscillators, phase-locked loop synthesiser modules, wireless communication module units, optical transmission components, printed wiring boards, speaker components, electricity supplies; alternating current (ac) adapters, focusing magnets, inductors (coils), capacitors for electrical appliances, filters for electrical signals, electricity transformers, deflection yokes, thermistor, varistors, piezoelectric ceramic components, acousto-optical devices, resistors, potentiometer, encoder, printing units, hybrid integrated circuits; switching components, heat sealable wiring boards, panels with transparent keys, electro luminescence elements, remote control unit, magnetic resistance elements, thermal disconnection; data processing equipment, in particular for financial applications; computer operating programs; computer hardware and software, in particular for the development, maintenance and use of local and wide area computer networks; systems for reading memory cards and systems for reading data in memories including integrated circuit memories and banking card memories; teller machines (automated -) [atm]; accounting machines; coded cards including magnetic cards and cards including integrated circuits, in particular, for financial applications; apparatus for reading cards, printing apparatus including printing apparatus for data processing systems and financial transaction systems; machines for banking establishments; encoders and decoders; modems; magnetic coded card readers, electronic data carrier cards, magnetic coded card readers, electronic data carrier card readers, electronic encryption units, computer hardware, computer terminals, computer software for use in the financial services, banking and telecommunications industries; electrical and electronic goods, namely calculating machines, pocket planners, alarms; banking cards including printed banking cards and banking cards using magnetic memories and integrated circuit memories; banking card, credit cards, debit cards including such cards having integrated circuits and microprocessors; memory cards; automatic cash dispensers; equipment for data processing and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse mats; parts and fittings for transmission, distribution and control of electricity; induction devices, devices for transferring electricity, devices for monitoring and regulating electricity, electricity metering instruments, electrical protective devices, switch panels, switch panel devices, wiring devices and supplies; liquid monitoring devices, namely flow meters, manostats, automatic sequential time switches, switches and electric controls; electric devices for killing insects, audio amplifiers for keyboards, external memories for musical instruments; systems for the management of data and the safekeeping of files relating to anaesthesia; gradient coils, namely magnetic gradient coils for magnetic resonance imaging; all included in class 9.
