Computer software for management, creation, compression and deployment of software updates over electronic channels; programmable central controllers, interface cards and card cages, namely, frames in which circuit cards are mounted and electrically connected to other circuit cards and circuits, sold separately and as an integral component of remote control systems for use with audio, video and lighting equipment; integrated computerized, electronic system comprised of circuit board, control panel and electrical controller and related software for use in accessing and controlling slide projectors, video projectors, compact disc players, projection screens, lighting systems and other related audio/video equipment; integrated computerized, electronic system comprised of cardframes, control cards, floppy disk drives, slide controller, television control manager, master-post expander, wireless receivers, wired control panels, software panels, data signal modulator, infrared emitted cable, power controller, dual power controller, relay controller, receiver module, extended range antenna, relay receiver, incandescent dimmer module, wireless single projector control, wireless dual

CLASS : 9—cont.

projector control and related software for use in accessing and controlling slide projectors, video projectors, compact disc players, projection screens, lighting systems and other related audio/video equipment; remote control pads for multi-media systems for educational purposes and home entertainment theatre systems; remote controls featuring a user interface and a keypad for multi-media systems for educational purposes and home entertainment; remote control pads for audiovisual equipment, namely, remote control pads for film and still image projectors, remote control pads for dvd players, remote control pads for vcrs, and remote control pads for satellite receivers; remote control pads for lighting; remote control pads for window shades; remote control pads for projector screens; video and audio conferencing equipment; electronic equipment for routing audio, video, and digital signals, namely, computer hardware, switchers, routers, control panels and key pads; computer software, interfaces and interface programs for computers; calculating machines, electronic organizer, electronic notepads, digitizers, touch screens; all aforesaid goods also to use for audio systems and mobiles infotainment systems for automobile; sound recording carriers; magnetic, electronic and optical data storage media; coded servicing and identification cards; integrated circuit cards (smart cards); magnetically encoded cards; memory boards; position sensing gauges; position detection sensors and accessories thereof; navigation apparatus for vehicles (board computers); hardware and software for electronic driving assistance systems; electronic transmitters and receivers for video over ip; computer software and hardware for use in streaming live video and digital signage for video distribution, audio distribution, and video switching systems. wearable digital electronic devices comprising software and protective glass display screens for viewing, sending and receiving texts, emails, data and information from smart phones, tablet computers and portable computers and also featuring a wristwatch; wearable computer peripherals; wearable technology including watches, bracelet and detachable bands for uploading, downloading, accessing, posting, displaying, editing, tagging, blogging, streaming, linking, sharing, remote controlling and providing digital media and information via smartphone, handheld pdas, tablet, notebook, laptop, portable media player, computer, communication and cloud networks; wireless electronic transmitters and wearable receivers for transmitting and receiving streamed audio and video signals from computers, smartphones, handheld pdas, tablets, notebooks, laptops and portable media players; wearable electronic devices for providing physical, visual or audio feedback based on the user's motion, orientation, velocity, or acceleration; electronics, namely, wearable fitness accessories, namely, activity tracker, calorie usage measuring devices, namely, calorimeters, fitness progress tracking devices, wearable as gloves, headbands, wristbands, armbands, in the nature of activity tracker; wearable gps based distance, speed/ pace and gps-compass trackers to be worn on the wrist or arm of a person during exercise; computer application software and downloadable mobile applications for use in connection with the above. downloadable mobile applications for multiple wireless connected accessories with fitness & sport data; user's data and progress of trend or achievement include personal information, location, sleep monitoring data, health data (including heart rate and body weight) for statistical analysis. wireless data streaming between connected accessories and smartphone via wireless communication; record workouts and see exercises in calendar; connection with friends with social media interaction, user's friend list synchronization and start challenges between multiple user's goals and earn badges; mobile tracking with smartphone built-in positioning system on dedicated models to get distance, pace, time during exercise. computer application software, namely, software for use in connection with wearable computer peripherals or wearable computers which provide functionality for the device; downloadable mobile applications for use in connection with wearable computer peripherals or wearable computers which provide functionality for the device; noise cancellation enhancement, for enhancing headphone, audio speakers, and earbud sound; computer software that provides web-based access to applications and services through a web operating system or portal interface; computer software for manipulating digital audio information for use in audio media applications; computer software for downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, storing and organizing audio data video files; computer application software for mobile phones, portable media players, handheld computers, computers, tablets, namely, software for noise cancellation enhancement, for enhancing sound in headphones, audio speakers, and earbuds; downloadable software application for downloading dvr-recorded content for viewing on smartphones [downloadable dvr sideload software]. non-downloadable software for the internet of things (iot); computer hardware modules for use in internet

CLASS : 9—cont.

of things (iot) electronic devices; sensors for the internet of things; computer application software for smart phones, mobile phones, smart tv and handheld electric communication device, which is used for implementing internet of things. wireless communication device featuring voice, data and image transmission including voice, text and picture messaging, a video and still image camera, also functional to purchase music, games, video and software applications over the air for downloading to the device; computer software which provides over the air updates to other software; computer software for management, creation, compression and deployment of software updates over electronic channels; all included in Class 9.
