CLASS : 9—cont.

connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment or products, and personnel; computer hardware and software for identifying, locating or tracking assets, equipment or people; computer hardware and software for real-time location systems; computer hardware, namely, hand-held and portable computers; computer operating systems and portable radio receivers and transmitters; computer peripherals for mobile computing and mobile communication devices; computer programs and program manuals all sold as a unit for use in the fields of software development tools, sales management systems, financial systems, agricultural systems, sales training, advertising systems, process control, job control, environmental monitoring, order logging, diagnostics, databasing activities, spreadsheet analysis, word processing, communication systems, repair and maintenance systems, presentation systems, quality control systems; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, or wristbands; computer programs for managing printer operation, maintenance or supplies replenishment; computer programs for operating printers; computer software and computer programs used for transmission, reproducing and receiving of sound, images, video and data over a telecommunications network or system between terminals and for enhancing and facilitating use and access to computer networks and telephone networks; computer software and manuals sold as a unit for the management and control of manufacturing, distribution center and warehouse inventory business operations; computer software for assessing and protecting wireless and wired computer networks, servers, applications and desktops against attack, intrusion and misuse; computer software for computer system an application development, deployment and management; downloadable software for printers; computer software for driving printers to print labels; computer software, namely, software for use in connection with supply chain management and execution; computer software for operating wireless local area networks and for managing input/output operations on handheld computers; computer software for protecting data/information stored on and/or transmitted across wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer data, contact information, preferences and customer satisfaction information; computer software for the management and control of manufacturing, distribution center and warehouse inventory management operations; computer software for the management and monitoring of handheld computers; computer software in the field of database and information management; computer software offered as a feature of cellular or mobile phones to browse and access commonly used applications on the phone; computer software to create and process business forms; computer software, namely, communications protocol software for mobile computing and mobile communication devices; computer software that enables and provides two-way wireless voice, images, sound recordings, printed text and data communication connections and the wireless transfer of voice, images, sound recordings, printed text and data information; computer telephony software enabling telephone and communication activities to be performed through a network; computer telephony software for displaying and updating data received from the network; computer utility software for performing computer maintenance work; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies; connector to connect printers and computers; disc drives; electrical connectors; electrical controllers and data processors; electronic user manuals sold therewith; fast communication links for data transfer; fixed and portable radio frequency identification devices and readers; hand held scanners that automatically identify the presence of bar codes and radio frequency identification tags; handheld and integrated laser scanners; computer and network management software and hardware for the management and monitoring of rugged hand held personal computers; integrated voice and data enabled wide area wireless radio; linear and area imagers and digital cameras; magnetic card and smart card reading devices; memory devices; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; mobile or hand held printers for labels and business forms; modem devices; near field communication (nfc) technology-enabled devices, namely, printers; pagers; portable and fixed radio frequency computer and network management software and hardware all for use with the management and monitoring of personal digital assistants, vehicle mounted computers and electronic personal organizers; portable and fixed radio frequency receivers and transmitters; portable and handheld computers for incorporating bar code and radio frequency

CLASS : 9—cont.

identification tag scanners and operating software therefore; portable computers with auto identification functionality and operating software therefore; pressure and temperature sensors; printers, namely, mobile printers; printers, print engines and printer modules for testing rfid transponders, reading and writing rfid data, and creating encoded smart tags and labels by applying rfid components; printer components, namely, printheads; thermal printers; radar and radar detectors; radio frequency identification printing and encoding machines; radio frequency identification, rfid, smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; readers and tags for real-time location systems; radio transceivers and operating software therefore; computer interface boards, computer cables, electrical connectors, and computer peripherals therefore, all sold as a unit; computer software containing communications protocols for handheld mobile electronic devices; receivers and transmitters; smartphone applications and software to develop smartphone applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning devices for physical inventory control; software to design, configure, operate and trouble-shoot communications systems; software to design cards; software to design labels and configure label printers; software to manage and drive card printers; software for enabling a general-purpose computer to print and/or read bar codes; software to design, configure, operate and trouble-shoot real-time location system; software to program and manage network printers; telecopier; machines; telemetry tag that transmits the location of objects such as vehicles, inventory, containers equipment or products and personnel; two-way radios; ultra wideband (uwb) radar systems comprising radar; ultra wideband communications systems comprising uwb transmitters and receivers; ultra wideband signal generators; voice processing devices; digital dictation machines; digital answer telephone machines; wireless ethernet bridges; wireless local area network hardware equipment, namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, electronic controllers, electronic mini-controllers and antennas; wristband printers; computer software and hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment; computer software and hardware that allows viewing, analyzing, filtering and managing data from people, devices, machines and equipment; computer software and hardware that allows remote updating, managing and configuring devices, machines and equipment; computer software and hardware used to build logical workflow from data; computer software and hardware used to transfer information to devices wirelessly and manage wireless devices; electronic label printers; portable computer terminals; radio frequency identification tags (rfid tags); radio frequency identification readers (rfid readers); identification cards (encoded or magnetic); all included in Class 9.
