GENERAL INFORMATION

TRADE MARKS ACT 1976

(Act 175)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADE MARKS

Pursuant to section 27 of the Trade Marks Act 1976, the following applications for registration of trade marks have been accepted and hereby published in Intellectual Property Official Journal according to subregulation 120 (3) of the Trademarks Regulation 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Notice of opposition to an application for registration of a trademark may be filed unless extended at the discretion of the Registrar, within two months from the date of publication accompanied by prescribed fee.

Computer hardware; software for social networking and interacting with online communities; computer software development tools; software for use as an application programming interface (api); application programming interface (api) for use in building software applications; application programming interface (api) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; software for creating, managing, and interacting with an online community; software for organizing events, searching for events, calendaring and managing events; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and augmented reality (ar) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; downloadable e-commerce computer software to allow users to perform electronic business transactions via a global computer and communication networks; software for sending and receiving electronic messages, alerts, notifications and reminders; search engine software; magnetically encoded gift cards; software for use in creating, managing, measuring, and disseminating advertising of others; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; virtual reality game software; augmented reality game software; mixed reality game software; virtual reality game computer hardware; augmented reality game computer hardware; mixed reality game computer hardware; computer peripheral devices; virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; electronic game software for wireless devices; electronic game software for handheld electronic devices; electronic game software; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; virtual reality software; augmented reality software; mixed reality software; video game software; interactive multimedia computer game programs; downloadable electronic game programs; computer game software; headsets for use with computers; laser equipment for non-medical purposes; peripherals; software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; software for converting natural language into machine-executable commands; software, namely, an interpretive interface for facilitating interaction between humans and machines; artificial intelligence software; personal assistant software; social assistant software; software development tools to enable mobile software applications to access backend services, namely, data storage, push notifications, and user management; software for mapping services; software for planning activities with other users and making recommendations; software for social and destination mapping; software for making reservations and bookings; software for ordering and/or purchasing goods and services; location-aware software for searching, determining and sharing locations; software for wireless content, data and information delivery; software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; software, namely, an application providing social networking functionalities; software for creating, managing and accessing groups within virtual communities; software for location-based searching and alerts; software for searching and identifying

employment opportunities; software for identifying and allowing users to contact government representatives; software providing a virtual marketplace; software providing location-based weather information; software providing, linking to, or streaming news or current events information; parental control software; software for facilitating interaction and communication between humans and ai (artificial intelligence) platforms; software in the nature of a mobile application for creating, sharing, disseminating and posting advertising; software for geo-location based advertising and product and service promotion; application programming interface (api) software for allowing data retrieval, upload, access and management; software for viewing and interacting with a feed of images, audio-visual and video content, and associated text and data; downloadable computer software for finding content and content publishers, and for subscribing to content; software for organizing images, video, and audio-visual content using metadata tags; software for creating and managing social media profiles and user accounts; software for uploading, downloading, streaming, archiving, transmitting, and sharing images, audio-visual and video content and associated text and data; interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; software for advertisers to communicate and interact with online communities; software for streaming multimedia entertainment content; application programming interface (api) for use in developing ai (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; software for organizing events; computer software, downloadable computer software and mobile application software for use in taking and editing photographs and recording and editing videos; virtual reality computer hardware; virtual reality game computer hardware; virtual reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality experiences; computer game software for home video game consoles; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; headsets for use with video game consoles; computer software; augmented reality computer hardware; virtual reality headsets; augmented reality headsets; virtual reality glasses; augmented reality glasses; virtual reality software for navigating a virtual reality environment; augmented reality software for navigating an augmented reality environment; augmented reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide augmented reality experiences; headsets for virtual reality games; headsets for augmented reality games; handheld virtual reality controllers; handheld augmented reality controllers; video and computer game programs; interactive entertainment software; gesture recognition software; motion tracking sensors for virtual reality technology; motion tracking sensors for augmented reality technology; computer software for controlling the operation of audio and video devices; digital media streaming devices; earphones; headphones; video display software; video display hardware, namely, video drivers for video eyewear; software for navigating a virtual reality environment; software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; virtual reality software for object tracking, motion control and content visualization; augmented reality software for object tracking, motion control and content visualization; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; augmented reality software for users to experience augmented reality visualization, manipulation and immersion; virtual reality software for operating virtual reality headsets; augmented reality software for operating augmented reality headsets; virtual reality software for interactive entertainment; augmented reality software for interactive entertainment; headsets; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; goggles for enabling virtual reality, augmented reality world experiences; software for use in creating and designing virtual reality and augmented reality software; application programming interface (api) for computer software for developing virtual reality and augmented reality experiences; software and firmware for operating system programs; computer operating systems; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; computer hardware and software for operating sensor devices; electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; computer hardware and software for detecting objects, user gestures and commands; software and firmware for controlling, configuring and managing controllers; software and firmware for enabling

electronic devices to share data and communicate with each other; computer operating system software; software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; cameras; batteries; battery chargers; battery cases; battery packs; power charging and power management devices for mobile electronic devices; charging docks; charging stands for mobile electronic devices; base chargers for mobile electronic devices; power banks; external chargers; wireless charging cases; rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; rechargeable external battery packs for use with mobile electronic devices; chargers for batteries; power adapters; electrical adapters; electrical and electronic connectors; power adapters; bags and cases specially adapted for mobile electronic devices; briefcases, backpacks and carrying cases for mobile electronic devices; cases for mobile electronic devices; faceplates; protective covers and cases for mobile electronic devices; protective sleeves for mobile electronic devices; holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; wall mounts for mounting mobile electronic devices; stands for mobile electronic devices; holders for mobile electronic devices; remote controls for mobile electronic devices; electrical audio and speaker cables and connectors; audio speakers; docking stations for mobile electronic devices; loudspeakers; electronic cables parts and fittings; electric cables; connection cables; cables for optical signal transmission; power cables and cable connectors; microphones; audio receivers; audio transmitters; wireless computer peripherals; head-mounted video display; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; software in the nature of a mobile application; sim cards; software for processing images, graphics, audio, video, and text; software, namely, instant messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; software for personal information management, and data synchronization software; software for managing social networking content, interacting with a virtual community, and transmission of images, audio, audio-visual and video content, photographs, videos, data, text, messages, comments, advertisements, media advertising communications and information; software for displaying and sharing a user's location and finding, locating, and interacting with other users and places; software for use in customer relationship management (CRM); software for providing consumer information; messaging software; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for online charitable fundraising services and financial donation services; software for use in facilitating voice over internet protocol (voip) calls, phone calls, video calls, text messages, instant message and online social networking services; telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; communication software and communication computer hardware for providing access to the internet.

Design and development of computer hardware and software; computer services, namely, creating virtual communities for registered users to organize groups, meetings, and events, participate in discussions and engage in social, business and community networking; computer services, in particular, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; computer services, namely, providing search engines for obtaining data via the internet and communications networks; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; providing software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; application service provider (ASP) services, namely, hosting software applications of others; application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; providing non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; computer services, in particular, application service provider featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; providing software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; application service provider featuring application programming interface (API) software for managing, tracking, reporting and measuring media planning, media buying and advertising of others; online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider (ASP) featuring software for use in designing and managing online advertising and marketing campaigns; designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; development of hardware for use in connection with electronic and interactive multimedia games; electronic and interactive multimedia game development services; providing online facilities that gives users the ability to upload, modify and share virtual reality content, information, experiences and data; providing online facilities that gives users the ability to upload, modify and share augmented reality content, information, experiences and data; providing online facilities that gives users the ability to upload, modify and share mixed reality content, information, experiences and data; design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of

hyperlinks; technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; providing software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices; educational services, namely, organizing and conducting conferences and seminars in the fields of artificial intelligence and the internet of things; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; providing an application programming interface (api) to allow users to perform electronic business transactions via the internet; providing software for processing electronic payments; platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; providing application programming interface (api) software for use in electronic messaging and transmission of audio, video, images, text, content and data; platform as a service (PAAS) featuring computer software platforms for electronic messaging and transmission of audio, video, photographic images, text, graphics and data; providing software for electronic messaging; mapping services; providing software for mapping services; application service provider (ASP) featuring software for mapping services; providing software for sharing and displaying a user's location, planning activities with other users and making recommendations; application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; providing software for social and destination mapping; application service provider (ASP) featuring software to enable or facilitate social and destination mapping; providing software for making reservations and bookings; application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; providing software for ordering and/or purchasing goods and services; application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; providing location-aware software for searching, determining and sharing the location of goods, services and events of interest; application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; providing software for creating, managing and accessing user-created and administered private groups within virtual communities; providing software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing software for searching and identifying employment opportunities; providing software for identifying and allowing users to contact government representatives; providing software for providing a virtual marketplace; providing software for providing location-based weather information; providing software for providing, linking to, or streaming news or current events information; providing software for facilitating interaction and communication between humans and ai (artificial intelligence) platforms; application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and ai (artificial intelligence) platforms; design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; providing online facilities that gives users the ability to upload, modify and share virtual reality content and data; providing online facilities that gives users the ability to upload, modify and share augmented reality content and data; providing online facilities that gives users the ability to upload, modify and share mixed reality content and data; online video ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online video advertising to purchase and sell video advertising inventory; platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; application service provider (ASP) featuring software for use in buying, selling, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider (ASP) featuring software for use in designing and managing online video advertising and marketing campaigns; providing online facilities that give users the ability to engage in social networking and manage their social networking content; providing software for creating and managing social media profiles and user accounts; providing software for modifying photographs, images and audio, video, and audio-video content with photographic filters and augmented reality (ar) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; providing software for finding content and content publishers, and for subscribing to content; providing software for organizing images, video, and audio-visual content using metadata tags; computer services, namely, creating a virtual community for registered users to share, view, subscribe to and interact with images, audio-visual and video content and related data and information; application service provider (ASP) featuring software for social networking,

managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; rental of software that gives users the ability to upload, edit, and share images, videos and audio-visual content; computer services, namely, curating online user-defined content and advertisements and creating social media feeds; providing software for taking photographs and recording audio, audio-visual and video content; providing software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; providing software for streaming multimedia entertainment content; providing software for creating and maintaining an online presence for individuals, groups, companies, and brands; providing software for advertisers to communicate and interact with online communities; personal assistant software; social assistant software; providing online facilities featuring temporary use of non-downloadable software for sending and receiving electronic messages, instant messages, electronic message alerts and reminders, photographs, images, graphics, data, audio, videos and audio-visual content via the internet and communication networks; e-commerce software to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; computer services, namely, providing information in the fields of technology and software development via the internet and communication networks; providing software for use in taking and editing photographs and recording and editing videos; application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; design and development of computer game hardware and software; design and development of virtual reality hardware and software; design and development of mixed reality hardware and software; design and development of video game hardware and software; providing temporary use of non-downloadable software applications for social networking, creating a virtual community, and transmission of virtual reality content and data; computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; computer programming services for creating virtual reality videos and games; design and development of augmented reality hardware and software; software development; development of interactive multimedia software; maintenance and repair of computer software; providing temporary use of non-downloadable computer software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; computer services, namely, providing information in the fields of technology and software development via a global computer network; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer services, namely, cloud hosting provider services; providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; computer services, namely, hosting electronic facilities for others for interactive discussions via communication networks; providing online non-downloadable software; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider (ASP); providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; providing temporary use of online non-downloadable software and applications for instant messaging,

voice over internet protocol (VOIP), video conferencing, and audio conferencing; computer services, namely, creating an online community for registered users to engage in social networking; data encryption services; encrypted electronic transmission and delivery of recovered data; providing software and applications for customer relationship management (CRM); application service provider (ASP) featuring software for customer relationship management (CRM); providing online software platform services that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; computer services, in particular, application service provider featuring application programming interface (API) software for customer relationship management (CRM); hosting of digital [virtual reality and augmented reality] content on the internet; scientific and technological services and research and design relating thereto; industrial analysis and research services; computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; providing software for facilitating and arranging for the financing and distribution of fundraising and donations; providing software for online charitable fundraising services and financial donation services; all included in class 42.

Scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; design and development of computers, computer hardware and computer software; software as a service (SAAS) provider featuring software for enabling unified communications across various networks, media and devices, namely, software for queuing, handling, logging, recording, monitoring, tracking, supervision, management and routing of telephone calls, facsimile transmissions, video, e-mails, and web based messages, and software for monitoring and management of computer and network systems for security and application optimization purposes; installation, maintenance and repair of computer application software for providing unified ip communications services across multiple network infrastructures and communication protocols; integration of telecommunications and data networking equipment and application software for providing unified ip communications services across multiple network infrastructures and communication protocols; computer services, namely, wan (wide area network) operating software design; computer application software optimization services, namely, updating of computer network configurations; development of security systems and contingency planning for computer networks; providing temporary use of non-downloadable computer software for enabling unified ip

communications across various networks, media and devices; computer security consultancy; platform as a service (PAAS) featuring computer software platforms which allow users to upload geographic information system (GIS) and emergency call data, and generate reports regarding data accuracy, completeness and consistency; providing hosting, managing, developing, researching, analyzing, reporting, verifying, updating and maintaining applications, software, web sites, and databases of others, namely, online non-downloadable software for monitoring and alerting remote sensor status via the internet; computer services, namely, cloud-based computer services featuring temporary use of online non-downloadable software for retrieving personally-identifiable information (pii) such as telephone numbers, property records, vehicle records, criminal records, family or business associate information, social media information from commercial and web-based databases and forwarding the summarized, scored and linked information via a flexible, mobile platform to first responder emergency personnel; providing a website featuring technology that enables users to manage and view telecommunications traffic and analysis and reports of telecommunications traffic; research and development for new products for others in the fields of science and technology; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer services, namely, creating an on-line community for registered users to network with other small businesses and enterprise customers, visit virtual small business booths, participate in discussions and webinars, watch keynote speeches and videos, view job boards and engage in on-line social networking in the field of small business; combination and assimilation of computer systems and networks for the purpose of providing automated call routing, automatic location identification and emergency support to public safety answering points; computer services, namely, processing of emergency and non-emergency calls by providing call flow servers to others; providing on-line non-downloadable application programming interface (API) software for transmitting data, voice, text, photographs and video, from telecommunications aggregators or application providers to public safety answering points (PSAPS); providing a website featuring resources, namely, non-downloadable application programming interface (API) software for transmitting data, voice, text, photographs and video, from telecommunications aggregators or application providers to public safety answering points (PSAPS); providing online non-downloadable software for mapping, mashups, common operational picture (COP), searching, address identification, routing, map creation, markups and printing; platform as a service (PAAS) featuring computer software platforms for querying, contextually aggregating and delivering supplemental data to public safety professionals in the field of public safety; providing temporary use of a web-based software application for subscribers to select the electronic means by which others may contact them; support services, namely, computer consultation in the nature of advice on the use and operation of computer software and computer systems; leasing of computers and computer software; computer system integration services, namely, integration of computer software and computer hardware; computer services, namely, acting as an application service provider in the field of knowledge management to host computer application software of others for searching and retrieving information from databases and computer networks; providing temporary use of non-downloadable software in the nature of a mobile application for management and monitoring of utilities; management in the field of standards compliance for emergency communications in the nature of wireline, wireless, and internet communications for network design and deployment, data management services, namely, design and development of computer software for database management, with regard to computer information systems in the nature of geographical information system design and management, and location information systems integration; management in the field of standards compliance for emergency communications in the nature of wireline, wireless and internet communications for network design and deployment, data management services, namely, technical support services in the nature of remote administration and management of in-house and hosted datacenter devices, databases and software applications, with regard to computer information systems in the nature of geographical and location information system design, management and integration; computer services, namely, creating an on-line community for registered users to participate in discussions, engage in social networking, and request and provide feedback; providing a web-hosting platform and hosting web content for others regarding business financial information, investor relations and or public filings; cloud-based services for speech and language recognition and interpretation; cloud-based services for searching, retrieving and delivering information; cloud-based services for analyzing interaction between a business and those communicating with the business, including analyzing interactive voice response systems and activities as well as other automated interactive response systems; cloud-based services for facilitating and reporting upon referral-based marketing;

cloud-based services for mass communications in response to a crisis or emergency; information, consultancy and advisory services relating to all the aforesaid services; all included in class 42.
