This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

PRACTICE DIRECTION NO. 2 OF 2004

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

NOTICES AND INFORMATION PERTAINING TO TRADE MARK APPLICATION AND REGISTRATION PROCEDURES

A) GENERAL

Pre-2004 Circulars

Amendment to Specification

Presently, whenever the Registrar raises an objection to the specification of goods or services, the agent representing the applicant would write to the Registrar with a proposed amendment to the specification. Only if the Registrar agrees to the proposed amendment will the agent file Form TM 27 to effect the amendment. The processing of such letters by the Registrar slows down the registration process considerably.

To shorten the registration process, agents should file Form TM 27 to effect the amendment straightaway instead of writing to the Registrar for her confirmation. If agents are relying on precedents in support of the amendment, they should enclose such precedents with the Form TM 27.

Certificates of Registration

The Trade Marks Act 1998 was revised on 30 December 1999 and accorded the same chapter number as the repealed Trade Marks Act, that is, chapter 332. To facilitate the Registry's operations, for both applications made under the repealed Trade Marks Act and applications made under the Trade Marks Act 1998 which have been accepted for registration and are not subject to opposition proceedings, the Registrar will issue certificates of registration which are headed:

SINGAPORE
TRADE MARKS ACT
(CHAPTER 332)
CERTIFICATE ISSUED UNDER SECTION 15(5)

Description of Device on Form TM 4

The purpose of the description of device on Form TM 4 is to assist the Registrar in conducting a search for conflicting marks. The description need not be too detailed; a general description is sufficient.

Disclaimers of Chinese Characters and Foreign Characters

A disclaimer relating to Chinese characters is published in the Journal as follows:

Registration of this mark shall give no right to the exclusive use of the Chinese character(s) of which the hanyu pinyin is "_____".

For characters other than Chinese characters (for example, Japanese characters), the disclaimer reads:

Registration of this mark shall give no right to the exclusive use of the _____ character(s) of which the transliteration is "_____".

Examination Practice With Respect to Colours in Marks

To avoid any confusion, this notice documents the Registrar's practice in relation to the examination of :

- (i) trade marks consisting solely of colours; and
- (ii) trade marks consisting of colours as a component or as an element in combination with other elements or components.

Such examination practice has been effected by the Registrar in relation to both national applications and international registrations designating Singapore.

(i) Trade Marks Consisting Solely of Colours

Where the trade mark consists solely of colours, the Registrar will need to be satisfied that the colours per se are capable of distinguishing the applicant's goods or services from those dealt with by others. As it will be necessary to determine the precise scope of such a claim, it will be necessary for the applicant to provide a description of the claim in the application form. For the purpose of an illustration, if the trade mark sought for registration is the colour "neon pink" and the colour is applied to the packaging of the goods, an appropriate description would be: "The trade mark is the colour neon pink as applied to an aspect of packaging of the goods as claimed as shown in the representation of the mark on the application form". Such a description will enable the Registrar to examine the mark as filed.

(ii) Trade Marks Consisting of Colours As a Component of the Mark

Where the trade mark consists of colours in combination with other elements such as a letter, word, name, signature, numeral, device, brand, heading, label, ticket, shape, aspect of packaging, the trade mark will be examined as a whole. If the trade mark as a whole is capable of distinguishing the applicant's goods or services from those dealt with by others, the trade mark will be registered as filed, that is, in the colours as filed. The Registrar does not require a colour limitation in such a case. The Registrar will also not seek to clarify whether the colour(s) as an element of the mark constitute a distinctive feature of the mark or not as the mark will be examined as a whole and registration rights will be conferred on the mark as a whole.

Mark Numbers Preceded by the Letter "L"

Search reports obtained from the Registry and examination letters issued by the Registrar may contain references to marks with numbers preceded by the letter "L" instead of the letter "T". These are marks which have been recorded with the Registrar for purposes of rule 13. The prefix "T" refers to marks which are the subject matter of trade mark applications or registrations.

Multiple Classes

Although the application form TM 4 allows the specification to relate to more than one class of goods or services, the application will be accorded a series of application numbers according to the number of classes and the Registrar examines the mark in relation to each class separately.

The advantage of allowing more than one class of goods or services to be filed on one Form TM 4 is that applicants need not repeat the same details (such as applicant's name and address, representation of the mark, agent's particulars) on more than one application form. Further, as each class is treated as a separate application for examination and registration purposes, applicants do not have to be concerned with the division and merger of applications.

Representation of Marks

Marks published in the Journal and reflected on the certificates of registration appear exactly as represented on the application forms. Applicants and agents are reminded to provide clear representations of marks on the application forms. The marks should also be of reasonably large size (but not larger than A4) to ensure that all the features are clearly shown.

Series Clause

For applications for registration published in the Gazette on or after 15 January 1999 for opposition purposes, the series clause should read as follows:
"Application for a series of _____ (number) marks."

Service of Documents in Opposition, Revocation, Invalidation and Rectification Proceedings

When filing notices of opposition, counter-statements and applications for revocation, invalidation or rectification with the Registrar, a copy of the same must be served on the relevant party or parties concerned. Please refer to Rules 29, 30, 31, 32, 56, 57, 58, 65, 66 and 66A of the Trade Marks Rules as amended by the Trade Marks (Amendment) Rules 2000.

The requirement of service of evidence on the relevant party or parties concerned remains unchanged. Please refer to Rules 32, 33, 34, 56, 59 and 66A.

It would be greatly appreciated if trade marks agents filing the aforesaid documents with the Registrar could indicate in their covering letters that they have served the necessary on the relevant party or parties concerned in compliance with the Rules.

Validity of Priority Claims

Under Section 10 of the Trade Marks Act 1999, a person may claim a right of priority for the registration of a trade mark from the date on which a corresponding application was filed in a "Convention country" ("Convention application") if the application for the registration of the trade mark is filed within 6 months after the date on which the Convention application is made. A "Convention country" refers to a country or territory, other than Singapore, which is a party to the Paris Convention or a member of the World Trade Organisation. For the purpose of assessing the validity of a priority claim, IPOS will assess whether the "Convention application" was filed in a relevant country which has already become a Convention country as at the date of the filing of the Convention application in the Convention country.

For example,

Trademark application filed in country A on 3 Oct 2001.

Country A became a member of the Paris Convention or WTO on 2 Jan 2002.

Trademark application filed in SG = 3 Feb 2002 (claims priority of earlier application in country A).

Question: Is the claim to priority (application filed in country A) in the Singapore application valid?

Answer: No

2004 Circulars

(Application to Register a Change in Ownership (TM 22), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 3/2008, dated 1 February 2008)

(Application to Register a Licensee (TM 37), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 24/2007, dated 29 June 2007)

Marks published for opposition purposes (Circular No. 16/2004, dated 2 July 2004)

The following types of publication in the Trade Marks Journal are subjected to opposition:

	Notice of Opposition via <u>Form</u>
1) Application published before registration;	TM 11
2) Collective or certification marks published before registration;	TM 14
3) Alteration to registered marks;	TM 11
4) Amendment to regulations governing use of collective or certification marks;	TM 14
5) Application amended after publication	TM 11

With respect to items 3)-5), the ground(s) stated in the Notice of Opposition must be confined strictly to the alteration or amendment. The Notice of Opposition must be lodged within 2 months from the date the alteration or amendment is published in the Trade Marks journal. If an extension of time to file the notice of opposition is required, the request must be filed using Form TM 48 within 2 months from the date of publication of the alteration or amendment. The maximum extension of time for filing Notice of Opposition is 4 months from the date of publication of the alteration or amendment. Rules 29(2) to (8) and 31 to 40 apply to these oppositions with the necessary modifications.

Applications for registration of sound marks (Circular No. 25/2004, dated 17 December 2004)

To assist the Registrar in the examination of applications for registration of sound marks, the Registrar may request the applicant to submit 2 copies of a CD-ROM recording of the sound mark sought for registration.

2005 Circulars

(Translation of Non-English words, Circular No. 4/2005, dated 30 March 2005. This circular is replaced by Circular No. 17/2007, dated 7 May 2007)

Amendment of Typographical Errors in Class Numbers in Form TM 4 (Circular No. 21/2005, dated 21 October 2005)

An amendment of the class number in Form TM 4 may be amended by lodging Form TM 27 with fee for each amended class of goods / services, but only if

- (i) a re-search in the new amended class revealed no prior conflicting marks;
- (ii) all of the items in the specification did not fall under the class as filed but in one other class; and
- (iii) that mistake was obvious to a third party inspecting the Register.

Three examples have been provided for illustrative purposes.

Example 1:

An application was filed in Class 5 in respect of "clothing, hats and shoes". An amendment of the class number from "5" to "25" would be allowed.

Example 2:

An application was filed in Class 5 in respect of "all goods in this class". An amendment of the class number from "5" to "25" would not be allowed because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. It was possible that the applicant intended to claim all goods in Class 5.

Example 3:

An application was filed in Class 5 in respect of "clothing, hats and pesticides". An amendment of the class number from "5" to "25" would not be allowed, even with the deletion of the item, "pesticides" because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. Since "pesticides" was correctly claimed in Class 5, it was possible that the applicant intended to claim "pesticides" in Class 5 but had incorrectly classified "clothing and hats" in Class 5 as well. It would be necessary for the applicant to file a fresh application in Class 25 in respect of "clothing and hats".

Statutes (Miscellaneous Amendments) (No. 2) Act 2005 (Act No. 42 of 2005) (Circular No. 25/2005, dated 23 December 2005)

Section 21 of the Statutes (Miscellaneous Amendments) (No. 2) Act 2005 which amends the Trade Marks Act will come into operation on 1 January 2006.

A summary of some of the amendments to the Trade Marks Act (Cap. 332, 2005 Ed.) are:

(a) Convention country

The definition of "Convention country" in section 2(1) is amended to provide that except in section 10 and paragraph 13 of the Third Schedule (claiming priority) "Convention country" includes Singapore.

(b) Examination of application for registration

An application for registration will be treated as withdrawn if the applicant fails to respond to the Registrar's queries or objections regarding the registrability of the trade mark within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(c) Collective marks

An application for registration of a collective mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar's queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(d) Certification marks

An application for registration of a certification mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar's queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

Trade Marks (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

Trade Marks (International Registration) (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

The above Notifications were gazetted on 28 December 2005 and it declared that the Trade Marks (Amendment) Rules 2005 and Trade Marks (International Registration) (Amendment) Rules 2005 would come into operation on 1 January 2006.

Trade Marks (Amendment) Rules 2005

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 7 : Service of documents

Non-fee bearing documents (except documents pertaining to hearings) may be sent to the Registry by facsimile transmission. However, each facsimile transmitted document must be legible and the responsibility for ensuring legibility rests with the sender.

(b) Rule 9 : Address for service

An address for service indicated on Form TM 19 and Form TM 24 is effective only for renewal matters and does not become the proprietor's address for service for all other matters pertaining to that trade mark.

(c) Rule 21 : Deficiencies in application

The amendment clarifies the actions that will be taken by the Registry if minimum filing requirements are not met.

(d) Rules 32, 33, 34 : Extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings

The second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings have to be made on Form TM 50, for which a fee will be imposed.

(e) Rule 50 : Notice of renewal

The Registrar's notice to the proprietor informing him of the date of expiry of the trade mark registration will be sent to the proprietor's address for service for renewal purposes, that is, the address for service indicated on Form TM 19 or Form TM 24, if one has been lodged, or if none, to the proprietor's address for service.

(f) Rule 77B : Restoration of applications treated as withdrawn

Applications which are treated as withdrawn under the Act or Rules by reason that the applicant has failed to do any act on time may be restored by filing Form TM 40 with fee within three months from the date of the Registrar's notice informing the applicant of that fact.

(g) Removal of Forms TM 9, TM 14, TM 15 and TM 16

Forms TM 9, TM 14, TM 15 and TM 16 have been removed and Forms TM 4, TM 11, TM 12 and TM 13 respectively will be used in their place.

Trade Marks (International Registration) (Amendment) Rules 2005

The following is a summary of some of the amendments in the Trade Marks (International Registration) (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 5 : Specification of Goods/Services

The amendment clarifies that the Registrar is entitled to raise an objection against vague terms in the specification of goods / services of an International Registration designating Singapore.

(b) Rule 28 : Notification to International Bureau

The amendment clarifies that in relation to an international application, the Registry will notify the International Bureau where the basic application is treated as withdrawn and is not restored in accordance with the Trade Marks Rules.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 1 January 2006. A separate edition of the Trade Marks Journal containing a consolidation of forms to be used in proceedings before the Registrar will be available online at www.ipos.gov.sg from 30 December 2005.

The changes made to the forms are as follows:

- (a) All forms have been amended to incorporate information on the estimated time needed to complete the form.
- (b) Amendments have also been made to Forms TM 1, TM 4, TM 11, TM 12, TM 13, TM 19, TM 22, TM 24, TM 37 and MP 1.
- (c) Form TM 4, TM 11, TM 12 and TM 13 will now be used in place of Forms TM 9, TM 14, TM 15 and TM 16 respectively.
- (d) The Trade Marks (Amendment) Rules 2005 also introduce:
 - I. Form TM 40 for restoration of an application treated as withdrawn. The fee for this form is \$130; and
 - II Form TM 50 for second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation proceedings. The fee for this form is \$100 in respect of each trade mark.

2006 Circular**The State of Incorporation** (Circular No. 30/2006, dated 27 October 2006)

Please note with respect to companies incorporated in the United States of America, the state of incorporation must be indicated on all trade marks forms. This is because companies incorporated in different states of America are separate and distinct legal entities.

If the state of incorporation of a United States of America company is not indicated on Form TM 4, a Form TM 26 will be required for the insertion of the state of incorporation.

2007 Circulars

Trade Marks (Amendment) Act 2007 (Act No. 3/2007) (Circular No. 7/2007, dated 14 February 2007)

The Trade Marks (Amendment) Act 2007 has been passed by Parliament on 22 January 2007 and has received Presidential assent on 1 February 2007.

Some of the key amendments include:**Provision for multiple class registration**

Registration for trademarks is presently based on single classes. The amendments will now allow for a multi-class registration. A multi-class registration allows for one single application in multiple classes of goods and services to lead to one registration. Upon registration, the registration is maintained as one, resulting in the need to renew only once for the renewal to be effective for all the classes of goods and services registered.

Division of an application for registration

To complement a multiple-class system, it is now possible to divide a trademark application into two or more applications. A trademark applicant may divide up his application into two or more applications so that those classes of goods or services that do not face opposition or objection can proceed to registration first. Division will therefore expedite trademark registration where appropriate.

Relief Measures for Procedural Oversight

The Act also provides for relief measures to alleviate procedural mistakes by trademark applicants, notably missed time limits. The relief measures provide the avenue for a trademark applicant to maintain the rights in an application that has been filed, even when time limits have been missed.

Registration of Licence of Pending Trademarks

The amendments will now allow for registration of licences relating to pending trademarks. Prior to the amendments, only licences relating to registered trademarks can be recorded on the register.

The Trade Marks (Amendment) Act 2007 will come into operation on a date to be notified.

A copy of the Trade Marks (Amendment) Act 2007 can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Cautionary Notice on Unsolicited Mail about Unofficial Registration Services (Circular No. 13/2007, dated 11 April 2007)

It has been brought to our attention that trade mark proprietors and/or agents whose trade marks have been published in recent IPOS Trade Marks eJournals are receiving letters from companies for payments for unofficial registration services.

These companies use names, abbreviations or emblems that appear to be “official” and send out letters which resemble invoices to trade mark proprietors and/or agents with details of the proprietor, the trade mark, class(es) of goods or services, etc. These companies will offer to register marks in registers or publications for a fee, and in return, claim they will send the respondent a copy of the publication.

Please treat such letters as unsolicited mails. These companies are neither related to nor connected with IPOS. There is no obligation to pay for such services as they are not official services.

The only office constituted under Singapore laws that provides registration services for trade marks in Singapore is our office, the Intellectual Property Office of Singapore (IPOS).

Upon receiving such letter or invoice, if you are in any doubt, please consult your trade mark agent, your lawyer, or email us for clarification.

Amendments to the Trade Marks Act, the Trade Marks Rules and the Trade Marks (International Registration) Rules (Circular No. 17/2007, dated 7 May 2007)

The Trade Marks (Amendment) Act 2007, the Trade Marks (Amendment) Rules 2007 and the Trade Marks (International Registration) (Amendment) Rules 2007 have been gazetted and will come into force on 2 July 2007.

The (Amendment) Act and (Amendment) Rules can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Trade Marks (Amendment) Rules 2007

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2007:

(a) Rule 17 : Division of applications for registration

An application for registration may be divided, at the request of the applicant, into 2 or more separate applications for registration. The request for division is to be made on Form TM 8 and a fee of \$280 is chargeable for each new divisional application created.

(b) Rule 22 : Amendment of application

Form TM 27 (Request to change the details of an application for registration) will no longer be used. In its place are Forms TM 27A and TM 27B. Form TM 27A is chargeable on a per class basis while Form TM 27 B is chargeable on a per trade mark basis.

Form TM 27A is to be used for amendments pertaining to the class number, the specification of goods or services to which the application for registration relates, or the particulars of any claim to a right of priority included in the application for registration.

Form TM 27B is to be used for any other amendment not involving the above.

(c) Rule 56 : Application to alter registered trade mark

The proprietor of a registered trade mark may apply to the Registrar on Form TM 27B for alteration of the registered mark. Form TM 35, the form which is currently used, will no longer be used as from 2 July 2007.

(d) Rule 57 : Rectification of an error or omission in the register

An application to the Registrar for the rectification of an error or omission in the register may be made by the proprietor of a registered trade mark or by any other person.

Where the application is made by the proprietor of a registered trade mark, the amendment shall be made on –

- (a) Form TM 27A, where the amendment pertains to the class number, the specification of goods or services to which the registration relates, or the particulars of any claim to a right of priority;
- (b) Form TM 27B, for any other amendment not involving the above.

Where the application for rectification is made by any other person, the application shall be made on Form TM 28.

(f) Rule 77B : Reinstatement of application, right or thing

Subject to certain exceptions, an applicant, proprietor or other interested person who has missed a time limit for action before the Registry, may apply on Form TM 40 to have his rights reinstated, if:

- 1) the request for reinstatement is made within 6 months from the date of expiration of the time limit;
- 2) the omitted act is completed together with the request; and
- 3) the failure to comply with the time limit is unintentional.

Trade Marks (International Registration) (Amendment) Rules 2005

The Trade Marks (International Registration) (Amendment) Rules 2007 has been amended to make it clear that division does not apply to international registrations designating Singapore.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 2 July 2007. A separate edition of the Trade Marks Journal containing a consolidation of all Trade Mark forms will be available for sale from 29 June 2007.

The changes made to the forms are as follows:

(a) All forms have been amended to indicate whether the fee for that particular form is payable on a per class, per trade mark or per form basis. The fee structure is as shown in the table below.

Per form basis	Per trade mark basis	Per class basis
TM 26	TM 1	TM 4
MP 3	TM 7	TM 11
	TM 10	TM 12
	TM 20	TM 13
	TM 22	TM 19
	TM 27 B	TM 21
	TM 29	TM 24
	TM 30	TM 27 A
	TM 31	TM 28
	TM 33	TM 32
	TM 34	TM 44
	TM 37	TM 45
	TM 38	TM 50
	TM 39	MP 1
	TM 40	MP 2
	TM 42	
	TM 46	

(b) Where fees are payable on a per class basis, such as renewal forms and opposition forms, the class numbers affected by the request, are to be indicated on the form.

(c) Amendments have been made to all forms, with the exception of Form TM 23.

(d) Forms TM 18 and TM 35 have been removed.

(e) Forms TM 8, TM 27A and TM 27B are new.

Translation of Non-English words (Circular No. 17/2007, dated 7 May 2007)

For purposes of rule 20(2), where the mark consists of non-English words, it is not necessary to file with the Registrar a certified translation by a qualified translator. A copy of relevant extracts from relevant dictionaries showing the meaning of each word and the words as a whole in English will be sufficient. However, it will be necessary to indicate on the application form that the mark consists of non-English word/words. A failure to include such an indication on the application form will have to be rectified by the filing of amendment via Form TM 27 with the requisite fee. The applicant should forward to the Registrar the requisite translation and/or the transliteration together with a copy of relevant extracts from dictionaries or relevant certification as soon as possible.

As regards the indication on the application form, it is necessary to submit an accurate and complete translation and/or transliteration of the non-English words in the mark.

Two examples are provided below as illustration.

Example 1:

An application was filed for the mark consisting of three Chinese Characters which is the phonetic equivalent of the Applicant's company name.

菲立士

The transliteration of the Chinese characters of which the mark consists is "Fei Li Shi" which has no meaning and it is the phonetic equivalent of the Applicant's company name "Philips".

An appropriate indication in the Application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below.	
The Chinese characters of which the mark consists is derived from the Applicant's company name i.e. it is the phonetic equivalent of "Philips"	
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows:	
Representation of the words(s)/ characters	菲立士
Language of word(s)/character(s)	Chinese
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Chinese characters as a whole: no meaning. It is the phonetic equivalent of the Applicant's company name "Philips".

		(Enclosed dictionary exact/ Certified translation/ supporting document of the same)	
	Transliteration of character(s)	Transliteration of the Chinese characters: "Fei Li Shi".	

Example 2:

An application was filed for the mark consisting of two Chinese Characters and the word "SINGER" (which is part of the Company name).

勝家
SINGER

Company : THE SINGER COMPANY LIMITED

The transliteration of the Chinese characters appearing in the mark is "Sheng Jia" which has no meaning.

An appropriate indication in the application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below. The Chinese characters "勝家" appearing in the mark is used to denote a brand name of Singer's product.	
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows:	
Representation of the words(s)/ characters	勝家
Language of word(s)/character(s)	Chinese
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)
Transliteration of character(s)	Sheng Jia

Application to Register a Licensee (TM 37) (Circular No. 24/2007, dated 29 June 2007)**(i) Processing Of An Application To Register A Licensee (TM 37)**

An application to register a licence (Form TM 37) filed on or after 2/7/2007, will be processed by the Registry even though the status of the mark is still pending registration. However where the application to register a licence (Form TM 37) was filed before 2/7/2007, it will be processed only after the mark has been registered.

(ii) Licence Commencement Date

The licence commencement date (i.e. the date entered in Part 5 of TM 37) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1/7/2004, the earliest licence commencement date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1/7/2004, the earliest licence commencement date is the trade mark application date.

(iii) Exclusive Licence Periods Do Not Overlap

Where there are 2 exclusive licences or more, the licence periods involving the same goods or services should not overlap.

(iv) Licensed Goods/Services Should Not Be Wider Than Trade Mark Application/Registration

The list of licensed goods or services (Annex of TM 37) should not be wider than those under the trade mark application/registration.

Deficiencies in applications for registration : amendments after filing (Circular No. 28/2007, dated 27 July 2007)

The Registrar has been conducting formalities check on all applications for registration to ensure that they contain all formal requirements under the Trade Marks Act.

Where the application does not comply with the requirements which are essential for a filing date to be accorded, the filing date will not be accorded until all the deficiencies have been rectified. In such cases, the application will be accorded the earliest date on which all essential requirements for filing date are complied with. There is no need for the correction to be accompanied by the relevant amendment form. The essential requirements for filing date are spelt out in section 5(2) and (3) of the Trade Marks Act.

In respect of other deficiencies or irregularities that do not affect the filing date, amendments must be effected through the lodgement of the relevant trade mark forms, such as Form TM 27A, Form TM 27B and Form TM 26.

This practice pertains only to new applications filed with effect from 01 August 2007.

The Geneva Conventions (Amendment) Act (Circular No. 40/2007, dated 5 December 2007)

The Geneva Conventions (Amendment) Act was passed in Parliament on 12 November 2007. Under the Act, the following emblems may not be used in Singapore, unless approval is given by the Ministry of Health:

- Red Cross emblem
- Red Crescent emblem
- Red Crystal emblem
- Red Lion and Sun emblem

			
Red Cross emblem	Red Crescent emblem	Red Lion and Sun emblem	Red Crystal emblem

With the commencement of the Act, the Registrar will object to trade mark applications consisting of or containing these emblems or emblems closely resembling them, under Section 7(5) of the Trade Marks Act, unless consent from the Ministry of Health is furnished. This is so even for applications lodged before the effective date of the Act.

Proprietors of registered trade marks containing or consisting of such emblems, or emblems closely resembling them, should note that in spite of their registration, they have one year from 12 November 2007 to cease using the emblems.

2008 Circulars

Image of e-filed mark (Circular No. 11/2008, dated 4 July 2008)

IPOS has encountered certain electronic trade mark applications which have images of marks that have jagged and blurred edges in our database and the images of the mark will not appear as clear as intended by the applicants in the trade mark journal and certificate of registration. The reason for the blurred image of marks is that applicants attach images of the marks with a lot of background or blank space. To ensure that such images are not too small for viewing purposes, IPOS has to make adjustment to the marks which then result in blurred images.

In order to ensure that the image of mark is accurately captured by IPOS, applicants should crop the mark with little background or blank space and save the image as approximately 480 x 480 pixel. This will remove the need for IPOS to make adjustment to the image in the publication and the registration certificate and the applicant can then obtain clear and accurate image of the mark.

(Translation Clause, Circular No. 12/2008, dated 11 July 2008. This circular was removed on 1 August 2008)

Return of assignment deeds and other registrable transaction documents (Circular No. 14/2008, dated 26 September 2008)

The Registry will stop its practice of returning deeds of assignment and other documents lodged in support of applications for transfer of ownership and recordal of other registrable transactions.

However, should the applicant wish for the return of such documents, he may make his request known at the time of lodgement of the recordal application on a covering letter accompanying the application to that effect. The letter shall provide contact details so that the Registry may make the necessary arrangements for the return of the documents. This practice will affect all applications lodged on or after 1 October 2008.

B) PERTAINING TO COLLECTIVE AND CERTIFICATION MARKS**Pre-2004 Circular****Publication of Collective Mark and Certification Mark Applications**

Collective mark and certificate mark applications are published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "Collective and Certification Marks Applications Published for Opposition Purposes". Pursuant to the First and Second Schedules of the Trade Marks Act (Cap. 332, 1999 Ed.), the Regulations governing the use of the collective and Certification Marks are available for inspection at the Registry of Trade Marks.

2004 Circular**Regulations Governing the Use of Certification/Collective Marks** (Circular No. 7/2004, dated 19 March 2004)

The filing with the Registrar of regulations governing the use of certification or collective marks under rule 63 of the Trade Marks Rules must be accompanied by Form TM 10. Regulations filed without Form TM 10 will not be recognised and will be returned. The filing of TM 10 without regulations attached will also be rejected.

C) PERTAINING TO FORMS**Pre-2004 Circular****Form TM 26**

A request to change the name, address or other particulars (except trading nature) of an applicant for registration, proprietor of a registered trade mark or other interested person, where the change does not affect the representation of the trade mark, should be made on Form TM 26.

2004 Circulars**Form TM 26 Notification Letter** (Circular No. 8/2004, dated 26 March 2004)

Please note that the main purpose of the Notification Letter is to inform as to the fact that the name and/or address of the applicant/proprietor has/have been updated. Thus, the Notification Letter cannot be treated as conclusive as to the status of marks reflected therein.

Where there is no reply within the given period to our latest examination report, an application will be updated as abandoned notwithstanding any interim Notification Letter from the Registrar.

Form TM 1 [Request to appoint or change an agent or to enter or change an address for service] (Circular No. 18/2004, dated 30 July 2004)

One Form TM 1 may be used for multiple trade mark numbers. However, the fee for this form is still charged on a per trade mark number basis unless the request is to alter an agent's name and/or address for service which does not affect the legal entity of the agent. In such a case, only a single set of fee is payable.

Kindly note that it is not necessary to lodge Form TM 1 together with forms such as TM 4, TM 9, TM 11, TM 14, TM 19, TM 22, TM 24, TM 26, TM 28, TM 29, TM 37 and TM 48 as each of these forms contains a section for the indication of an address for service.

2006 Circular**Erratum - Form TM 40** (Circular No. 1/2006, dated 13 January 2006)

Please note that the title of Form TM 40 should read as "REQUEST FOR RESTORATION OF APPLICATION TREATED AS WITHDRAWN" and Part 2 of the Form should read as "Particulars of applicant/registered proprietor". Please visit IPOS website at <http://www.ipos.gov.sg> to download the corrected Form TM 40.

2007 Circular**Form TM 32** (Circular No. 32/2007, dated 21 September 2007)

Part 4 of Form TM 32 which used to read as "Goods or services to be cancelled" has been amended to "Goods or services to remain". The amendment is to ensure that there is clarity in the residual specification. Please visit IPOS website at <http://www.ipos.gov.sg> to download the amended Form TM 32.

The Registrar will reject the old Form TM 32 (V02/01/07) with effect from 1 October 2007.

It is also to be noted that Form TM 32 is the appropriate Form to file to effect any amendment to specifications of goods or services of registrations that has the effect of cancelling some goods or services or narrowing down the specifications. For example, Form TM 32 is to be filed to effect an amendment from "books" in Class 16 to "books *relating to business management*" in Class 16.

2008 Circular**Application to Register a Change in Ownership (TM 22)** (Circular No. 3/2008, dated 1 February 2008)**i)Effective Date when Subsequent Proprietor/Applicant for Registration Took Ownership**

The effective date when the subsequent proprietor/applicant for registration took over ownership (i.e. the date entered in Part 4 of Form TM 22) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1 July 2004, the earliest assignment effective date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1 July 2004, the earliest assignment effective date is the trade mark application date.

ii)Address for Service of Subsequent Proprietor/Applicant for Registration

The address for service entered in Part 5 of the Form TM 22 is effective for all proceedings in respect of the trade mark including the subject application for change of ownership. As such, there is no need to lodge Form TM 1 together with Form TM 22 for this purpose.

Form TM 1 will be required only if:-

- a. there is a change of agent whilst the TM 22 is being processed; or
- b. the agent will not be continuing to act for the subsequent proprietor / applicant for registration after TM 22 is recorded.

Such Form TM 1 appointing the agent solely for "Assignment" matters (Part 3 of Form TM 1) will not be processed until a subsequent Form TM 1 appointing an agent for "Application for registration / Registration" is received.

iii)Correction of Errors in Relation to a Recorded Change of Ownership

Once a change in ownership has been recorded according to the request, should the owner need to correct any errors in the recorded details, Form TM 27B is required. Should the assignment(s) need to be re-recorded and re-examined, the relevant Form TM 22 with fees will need to be re-lodged.

iv)Covering Letter

To ensure that the transactions are recorded accurately, please lodge a covering letter stating :-

- a. the sequence of events;
- b. the exact nature of the transaction, and
- c. the trade mark numbers involved.

When e-filing, a covering letter can be attached via the “covering letter” button for eTM 22 and 27B.

D) PERTAINING TO eTRADEMARKS**Pre-2004 Circular****New Features of IPOS' eTrademarks Services****(1) Generation of Check Digit/Year of Trade Mark Numbers**

A new eService for the generation of year/check digit of Trade Mark Number is added to IPOS Online Transactions. This eService has two fields for entry. One is for the old TM No format while the other is for the new TM No format. For the old TM No format, both the year and the check digit would be generated. For the new TM No format, the check digit will be generated.

This eService is already available.

(2) Attachment for Form TM26

The eService for Form TM26 has been enhanced. As filing of Form TM26 usually requires a covering letter to list the TM numbers and sometimes to explain a certain situation, it can only be submitted through the counter. With this enhancement, when a Form TM26 is submitted, it allows for a covering letter to be attached to the said form. This is to facilitate the filing of Form TM26 through eTrademarks.

This eService is already available.

(3) Filing of mark in colour or greyscale

With effect from 1 November 02, eTrademarks will be accepting colour or greyscale attachments for marks filed for Forms TM4 and TM9 in addition to the current black and white. Marks filed in colour or greyscale would be printed in greyscale for the Acknowledgement Letter, Trade Marks Journal and Certificate of Registration. Please note that viewing and printing of the mark images from the Enquiry System would still be in black and white.

(4) "Save/Save As" feature

The "Save/Save As" feature has been implemented on 4 December 02, from 10am onwards. This feature would be available for Forms TM4 and TM9. Any application that is saved would be kept in IPOS' system for 3 working days excluding the current day. All saved documents residing in IPOS' database for more than 3 working days would be removed.

(5) Display Mark Image

The "Display Mark Image" feature has been implemented on 4 December 02, from 10am onwards. Mark images attached to Forms TM4 and TM9 will be displayed for viewing.

E) PERTAINING TO INTERNATIONAL APPLICATIONS AND REGISTRATIONS UNDER THE MADRID PROTOCOL

Pre-2004 Circulars

Singapore's Accession to the Madrid Protocol

Singapore acceded to the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Madrid Protocol) on 31 July 2000. The Madrid Protocol came into operation in Singapore on 31 October 2000.

Publication of International Registration Designating Singapore for Opposition Purposes

International registrations designating Singapore under the Madrid Protocol are treated in the same manner as Singapore national applications, and are therefore published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap. 332, 1999 Ed.)". Unlike Singapore national applications, they are not published according to the class of goods or services, but are published according to the international registration number.

Request for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore

Such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) using WIPO's prescribed Form MM9(E). Form TM 26 is not the relevant form to be used.

Form MM9(E) is available for downloading at www.ipos.gov.sg

2004 Circulars**Issuance of Registration Certificates for Protected International Trade Marks (Singapore)** (Circular No. 13/2004, dated 18 June 2004)

The Registrar has received queries as to whether IPOS issues registration certificates for protected international trade marks (Singapore). Please note that IPOS does NOT issue such certificates.

Under the Madrid Protocol, an Office which has examined an international registration in which it is designated and found no grounds for refusal may issue a statement of grant of protection. However, it is not obliged to do so and no legal consequences follow from the fact that no such statement is given. Further, such statements will only be issued if it is still within the 18-month time limit from the date of notification of the international registration. Where no such statements are issued, by the end of the 18-month time limit, the international registration will be regarded as protected in Singapore. In the Singapore context, IPOS does issue such statements, as a matter of customer service, if at the time of issuance, it is still within the said period.

In cases where a provisional refusal or a provisional refusal based on opposition has been issued, a confirmation or withdrawal of such a provisional refusal in the form of a letter of final decision in accordance with Rule 17(5) of the Common Regulations under the Madrid Agreement and Protocol relating to the Madrid Agreement concerning the International Registration of marks will be sent to the International Bureau, who will in turn transmit a copy to the holder of the international registration.

Requests for Recording of Changes in the Ownership of the International Registrations Designating Singapore or where Singapore is the Office of Origin (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM5(E). Form MM5(E) is available for downloading at www.ipos.gov.sg

Form TM 22 should not be lodged for such recordation of change in ownership.

Where Singapore is the Office of Origin, requests for recording of changes in the ownership must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. However, Form TM 22 may be lodged (if appropriate) to record the change in ownership of the basic application or basic registration.

Requests for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore or where Singapore is the Office of Origin (this serves to replace an existing pre-2004 circular in the journal) (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM9(E). Form MM9(E) is available for downloading at www.ipos.gov.sg

Form TM 26 should not be lodged for such recordation of change in name and/or address.

Where Singapore is the Office of Origin, requests for recording of changes in the name and/or address of the holder must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. In such a case, TM 26 should be lodged to amend the change in name and/or address of the basic application or basic registration.

Requests for Designation Subsequent to the International Registration (Circular No. 21/2004, dated 19 November 2004)

In accordance with Rule 24 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM4(E). Form MM4(E) is available for downloading at www.ipos.gov.sg

2005 Circulars

Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore (Circular No. 21/2005, dated 21 October 2005)

Pursuant to Rule 20bis(6)(b) of the Common Regulations under the Madrid Protocol, Singapore has notified the Director General of the World Intellectual Property Organisation on 21 March 2002 that Singapore law would not give effect to the recording of trade mark licenses in the International Register. Accordingly, any recording of a license made under Rule 20bis(3) of the Common Regulations will have no effect on any International Registration designating Singapore. However, the holder of such an International Registration may still record the relevant license with IPOS by lodging Form TM37, and the fee of S\$60 per class of goods or services.

(Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters, Circular No. 42/2007, dated 28 December 2007. This Circular is replaced by Circular No. 1/2008, dated 11 January 2008)

2008 Circulars**Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters** (Circular No. 1/2008, dated 11 January 2008)

With effect from 1 January 2008, there will be some amendments to the Administrative Instructions for the Application of the Madrid Agreement Concerning the International Registration of Marks and the Protocol Relating Thereto ("AI"). The amendments are necessary for the implementation of a more broad-based electronic communications platform for the benefit of users of the Madrid system.

The AI can be found here (http://www.wipo.int/madrid/en/legal_texts/admin_instructions.htm) and the International Bureau's ("IB") notification of the amendments can be found here (http://www.wipo.int/edocs/madrdocs/en/2007/madrid_2007_20.doc).

Please note that under the new Section 19 of the AI, fees payable to the IB must be made

- i. by debit to a current account with the IB,
- ii. by payment into the Swiss postal account or to any of the specified bank accounts of the IB, or
- iii. by credit card, where, in the context of an electronic communication envisaged in Section 11, an electronic interface for online payment has been made available by the IB.

The previous modes of payment by cash at the IB and by a banker's cheque would no longer be available.

Please note that while Section 19 now provides that in the context of electronic communications, fees due to the IB may be paid by credit card only in relation to specific types of transaction or request in respect of which a dedicated electronic interface has been provided, the IB has advised that this mode of payment by credit card would not be applicable to the filing of international applications.

If you are filing an international application through IPOS on and after 2 January 2008, please note that our previous primary mode of payment to the IB via a banker's cheque is no longer available in light of the changes in the AI. Instead, your payment in Swiss Francs to the IB can be made by either options (i) or (ii) as stated above.

Current Account

If you conduct regular monetary transactions with the IB, you may opt to open a current account with them. Please see http://www.wipo.int/madrid/en/guide/part_d/pdf/account.pdf for details.

Bank Transfer

We envisage that the majority of applicants and agents are likely to use bank transfers under (ii) as the preferred mode of payment. Details of WIPO's postal account and bank account are as follows:

WIPO bank account
IBAN No. CH51 0483 5048 7080 8100 0
Credit Suisse, CH-1211 Geneva 70
Swift/BIC: CRESCHZZ80A

WIPO postal account
IBAN No. CH03 0900 0000 1200 5000 8
Swift/BIC: POFICHBE

The above account details are found on page 6 of the Form MM2(E).

To confirm that the payment has been made, the applicant must indicate the payment details of the bank's transfer transaction in the appropriate space provided in IB's Form MM2(E) Application for International Registration Governed Exclusively by the Madrid Protocol at the time of filing. You must also provide us with a photocopy of the bank's transaction advice.

If you have any queries regarding the above, please do not hesitate to call our Customer Service Officer at 6339 8616 or email us at ipos_enquiry@ipos.gov.sg.

Requests for Recording of a Renewal for International Registrations where Singapore is the Office of Origin (Circular No. 5/2008, dated 22 February 2008)

For an international registration where Singapore is the Office of Origin, a request for the recording of a renewal may be made by the holder or his agent upon payment of the relevant fees in Swiss Francs to WIPO via any of the following ways:-

(a) lodgement of WIPO's Form MM11(E) or an official letter from the holder indicating the necessary information (number(s) of the international registration(s) concerned and the purpose of the payment);
<http://www.wipo.int/madrid/en/forms/>

(b) lodgement done online at WIPO Marks E-Renewal System portal
<http://www.wipo.int/madrid/en/services/>; or

(c) lodgement of Form MM11(E) or the official letter mentioned under (a) through IPOS, together with a separate fee of S\$85 for handling the renewal request.

Kindly note that the above renewal is only effective for the international registration. Holders should lodge IPOS Form TM 19 in order to renew the Singapore basic registration, if necessary.

With regard to the renewal of an international registration where Singapore is *not* the Office of Origin, even if Singapore had been designated, such a request must be effected via (a) or (b). It is also possible to do so via the Office of Origin of that international registration provided that that Office of Origin has agreed to collect the renewal fees and forward them to WIPO.

We wish to emphasise that IPOS Form TM 19 must not be lodged for the renewal of any international registrations designating Singapore. Only WIPO would be able to process the renewal of that international registration.

F) PERTAINING TO THE CLASSIFICATION OF GOODS AND SERVICES**(I) General Information****Pre-2004 Circulars**

(8th Edition of the International Classification of Goods and Services, this circular was removed on 18 January 2008)

Compliance with the International Classification of Goods and Services

To assist the Registrar in expediting the acceptance of trade mark applications for registration, agents are reminded to ensure that the specifications of goods or services set out in the application forms conform with the International Classification of Goods and Services as far as possible. Very often, the Registrar receives applications where the marks are acceptable for registration but the specifications are not in order. This slows down the registration process.

Precedents in Support of Specification

In the examination of the specification of goods or services for compliance with the International Classification of Goods and Services, the Registrar is prepared to rely on precedents relating to Singapore, United Kingdom, Australia and Hong Kong registrations. Applicants and agents are therefore free to file these precedents in support of their specifications of goods and services for the Registrar's consideration.

However, the Registrar would not rely on such precedents in the following situations:

- (a) where the precedent relates to goods or services which have been accepted by the Registrar concerned in the wrong class;
- (b) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change of classes by the Special Union for the International Classification of Goods and Services for the purposes of the Registration of Marks (Nice Union);
- (c) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change or clarification of practice by the Registry concerned.

The use of square brackets [] and round brackets () in specifications

An expression between square brackets is intended to define more precisely the text or item preceding the brackets. Square brackets are used when the item is ambiguous for classification purposes. Round brackets are used to qualify the text or item preceding the brackets to ensure the correct classification. Round brackets are used when it is possible that the item can be classified in various classes depending on the intended goods or services sought to be covered.

Use of the term "Internet" in specifications of goods and services

In view of the widespread use of the term "Internet" in the generic sense, the Registrar will henceforth not raise any objections to the use of the term "Internet" in the specifications of goods and services of Singapore national applications or international registrations designating Singapore.

However, the use of the term “Internet” in specifications of goods and services is generally not encouraged as the word “Internet” is a registered trade mark in some countries and may be objected to by the designated offices of these countries in respect of international applications originating from Singapore filed under the Madrid Protocol. This may arise where the term “Internet” is listed in a Singapore national application or registration and the Singapore national application or registration forms the basis of an international application originating from Singapore under the Madrid Protocol. In the circumstances, it is advisable for applicants to use the term “global communications network” instead.

2004 Circulars

Underlining of precedents for objections on specification of goods / services (Circular No. 19/2004, dated 3 September 2004)

When lodging precedents to overcome the Registrar’s objection on the specification of goods / services, the Registrar requests that the relevant portions of the precedents to be underlined for greater visibility. This would assist the Registrar to identify and consider the relevant portions of the precedents in order to assess whether the objection should be waived.

Vague descriptions in specifications (Circular No. 20/2004, dated 12 November 2004)

A clear description of the goods or services claimed in a trade mark application is important as it determines the scope of the application. As such, the indication of goods, for example “pouches and the like”, is not acceptable as the expression, “and the like”, is vague. In the example given, it is not clear as to what other goods the applicant is claiming apart from pouches.

International Classification of Goods and Services

NICE Classification – Ninth Edition (Circular No. 32/2006, dated 8 November 2006)

The ninth edition of the NICE Classification for the purposes of the registration of trade marks will come into effect on **1 January 2007**. Copies can be ordered online at <http://www.wipo.int/ebookshop?lang=eng>

The majority of the changes involve Classes 14, 20, 21, 26, 34, 42 and 45 but minor changes and additions have also been made to other classes. For more information regarding the specific changes, please refer to the *Nice Union Report CLIM/CE/20/* which is obtainable at the following link

http://www.wipo.int/meetings/en/doc_details.jsp?doc_id=52419

The eighth edition of the NICE Classification shall still apply to all applications filed before 1 January 2007. Applications filed on or after 1 January 2007 shall be filed in accordance with the ninth edition of the NICE Classification. For the avoidance of doubt, there will be

no reclassification of goods and services for existing applications filed prior to 1 January 2007, after the 9th Edition of the NICE Classification comes into force.

2007 Circular

Use of registered trade marks in specifications of goods and services (Circular No. 38/2007, dated 14 November 2007)

Registered trade marks which are ordinary dictionary words are allowed to be used in specifications of goods and services as a descriptor. This practice is consistent with our previous journal notice on the use of the term, "Internet", which has become generic. However, words which are invented and have been registered as trade marks will not be acceptable in specifications of goods and services. Instead, applicants should use ordinary English words to describe their goods and services. For example, a specification of goods which reads "bluetooth-enabled devices for communications, namely telephones, handsets, headsets, speakers, microphones and earphones" should be amended to "devices for communications which are enabled by short range radio technology, namely telephones, handsets, headsets, speakers, microphones and earphones".

(II) Information on specific items**Pre-2004 Circulars**

(Cereal-based beverages, Beverages made from cereals, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Club [dining] services

With effect from 31 October 2003, the Registrar will accept the specification “club [dining] services” in Class 43 instead of Class 41 of the International Classification of Goods and Services. The emphasis on the word “dining” puts the item more in line with the class heading and explanatory notes of Class 43.

Consultancy Services

In the 8th edition of the International Classification of Goods and Services, consultancy services will be classified according to their subject matter. For example, consultancy services relating to telecommunications will be classified in Class 38, transportation consultancy services in Class 39 and intellectual property consultancy services in Class 42. The Registry had been taking this position in its examination of applications.

WIPO has clarified that pending the coming into force of the 8th edition, the correct classification is in accordance with the 7th edition where such services are classified in class 35 if they are business-related and class 42 if they are non-business-related. Hence, the Registry is adopting this stand.

However, in order not to prejudice any party who has acted on the Registrar’s earlier position on such services, the Registry will not reject consultancy services which have been classified according to their subject matter.

Desserts

With effect from 31 October 2003, the Registrar will not accept a specification consisting of “desserts” per se. This is in line with the World Intellectual Property Organization’s view that the said item, without further qualification, is vague.

Examples of acceptable descriptions are :

“Desserts [Jellies for food]” in Class 29 or

“Desserts [Ice cream]” in Class 30

(Executor services, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Mail order services

A specification of services consisting of or containing "mail order services" is unacceptable as it does not conform to the International Classification of Goods and Services and should be reworded to "the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order" in accordance with the practice in the United Kingdom.

Provision of information for business or domestic purposes in Class 38

With effect from 30 July 2003, a specification which reads "provision of information for business or domestic purposes" in class 38 will not be acceptable. The applicant is requested to further qualify the specification so that it will read as "provision of information in the field of telecommunications for business or domestic purposes". This is in line with the General Remarks as provided in the Nice Classification that the subject matter of the information being provided determines the correct class for the services.

(Provision of user access time to the global computer network, this circular was removed on 26 September 2007)

Storage of data, information or documents

With effect from 28 May 2003, a specification of services consisting of or containing "storage of data, information or documents" will be classified in Class 39 if it is a physical storage, and in Class 35 if it is a form of electronic storage. The determining factor is where the data, information or documents are being stored. If they are stored in buildings for example, warehouses, then it is proper to Class 39. Examples of items which are proper to Class 39 are:

- (i) "Data storage"
- (ii) "Information storage"
- (iii) "Storage of electronically-stored data, information or documents"

On the other hand, if the data, information or documents are being stored electronically for example, in computers, then it is proper to Class 35. Examples of items which are proper to Class 35 are:

- (i) "Computer-based data storage services"
- (ii) "Computerised data storage services"
- (iii) "Computerised business information storage"
- (iv) "Electronic storage of technical information"

2004 Circulars**Retailing of services** (Circular No. 2/2004, dated 7 January 2004)

With effect from 7 January 2004, the Registrar will not accept a specification containing a claim for “retailing of services” or “the bringing together, for the benefit of others, of a variety of services (excluding the transport thereof), enabling customers to conveniently view and purchase those services”. Applicants will be asked to clarify on the type(s) of services they are providing and to apply for such services in the appropriate class(es).

WIPO’s Recommendation No. 16 (Circular No. 4/2004, dated 6 February 2004)

For applications lodged on or after 13 January 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Pastilles and chewing gum for cosmetic purposes - Class 3
- (2) Soap bubbles and foam generators for shows - Class 11
- (3) Lenyards (Keycards) - Class 14

Joss sticks (Circular No. 5/2004, dated 13 February 2004)

For applications lodged on or after 20 January 2004, the Registrar will accept “joss sticks” in Class 3 of the International Classification of Goods and Services [ICGS] by analogy with the item “incense” listed in the ICGS.

Canned foodstuffs of plant origin (Circular No. 6/2004, dated 5 March 2004)

For applications lodged on or after 12 March 2004, the Registrar will accept the specification “canned foodstuffs of plant origin” in Class 30 instead of Class 29. This is in line with the explanatory note of Class 30 which states “Class 30 includes mainly foodstuffs of plant origin prepared for consumption or conservation”.

Manufacturing of goods (Circular No. 12/2004, dated 11 June 2004)

For applications lodged on or after 18 June 2004, a specification of services consisting of or containing “manufacturing of goods” is unacceptable as it does not conform to the International Classification of Goods and Services. If a person is manufacturing goods, registration should be sought for the goods only.

As appropriate, the specification may be phrased as “custom assembling of materials [for others]” or “custom manufacturing of goods [for others]”. For example, where the items in question are cell cultures, it may be more appropriate to describe the service as “custom manufacturing of cell cultures [for others]”. However, if the goods in question are clothing, “custom assembling of clothing [for others]” would be more appropriate.

Providing search engines for the internet (Circular No. 12/2004, dated 11 June 2004)

For applications lodged on or after 18 June 2004, the Registrar will accept the item “providing search engines for the internet” in Class 42 as it is a form of computer service.

If the said item is a form of telecommunications service, please rephrase it to “providing search engines for the internet [*telecommunications services*]” and the insertion of the qualifier will render the service proper to Class 38 instead.

WIPO’s Recommendation No. 17 (Circular No. 17/2004, dated 9 July 2004)

For applications lodged on or after 16 July 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Packaging containers of regenerated cellulose - Class 16
- (2) Refilling of empty toner cartridges - Class 37.

Provision of news (Circular No. 19/2004, dated 3 September 2004)

For applications lodged on or after 10 September 2004, the Registrar will not accept a specification consisting of “provision of news” *per se*. This is in line with the World Intellectual Property Organization’s view that this description, without further qualification, is vague. The subject matter of the news provided and the purpose for which it is provided are important in determining the class to which it should fall under. Generally, these services are classified in the same classes as the services that correspond to the subject matter of the information. Examples of acceptable descriptions are:-

“Provision of business news [business management]” in Class 35;

“Provision of news [telecommunication services]” in Class 38; and

“Provision of news for entertainment purposes” in Class 41.

Leasing services (Circular No. 20/2004, dated 12 November 2004)

With effect from 19 November 2004, the Registrar will accept “leasing services” only in Class 36 regardless of the nature of the goods to which it relates. This is in line with the World Intellectual Property Organization’s view that it is a form of financial service.

“Rental services”, on the other hand, will still be classified in the same class as the services provided. For example, “rental of telecommunication apparatus” will be classified in Class 38 while “rental of medical apparatus” will be classified in Class 44.

2005 Circulars**Computerised communication network security and other security services** (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar will only accept “computerised communication network security” and like services in Class 42 and not in Class 45, as such items are forms of computer services classified under Class 42.

Class 45 covers services for the protection and security of individuals and property in general, eg “security services for buildings”, “personal body guarding” and “night guards”. If such services and information relating to such services are offered online or via a computer network, they will be classified under Class 45 as well.

However, Class 42 will cover security services if they pertain to security of computer networks or the internet, eg. “computerised communication network security”, or if such services are offered as a form of computer service, eg “data security services [firewalls]” or “professional consultancy relating to computer security”. It would not be correct to classify such computer security services in Class 45.

It is also useful to note that the International Classification of Goods and Services (8th Edition) classifies some security services in Class 39. Security services relating to transport, eg. “guarded transport of valuables” and “escorting of travellers”, are classified under Class 39 and not Class 45.

WIPO’s Recommendation No. 18 (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

- (1) Enzymes for human consumption – Class 29
- (2) Soya milk [condiment] – Class 30
- (3) Supervision of teamwork to improve its effectiveness – Class 35
- (4) Consultancy in the field of computer security – Class 42
- (5) Therapy services – Class 44

Prepared meals (Circular No. 6/2005, dated 22 April 2005)

For applications lodged on or after 29 April 2005, the Registrar will not accept a specification consisting of “prepared meals” per se as the said item, without further qualification, is vague and may fall within several classes. The item should specify the content of the prepared meals, for example,

“Prepared meals consisting of meat” in Class 29 or

“Prepared meals containing principally of rice” in Class 30.

2006 Circulars**Crib bumpers** (Circular No. 3/2006, dated 3 February 2006)

For applications lodged on or after 10 February 2006, the Registrar will only accept the item, “crib bumpers”, in Class 20. This item is a type of cushion for lining the base and sides of the crib and serves a protective purpose for the baby. Since the item “cushions” is listed in Class 20 of the Nice Classification, by analogy, the item, “crib bumpers”, should be classified in Class 20 as well.

Retail services and other like services in Class 35 (Circular No. 6/2006, dated 24 February 2006)

The Registrar has revised her practice concerning retail services and other like services in Class 35. This revision in practice shall take effect for all applications lodged on or after 3 March 2006

In the past, applicants, in most instances, are required to list the goods to which the retail services relate. With the revised practice, where it is practical, it is still advisable to list the goods to which the retail services relate. However, the Registrar will no longer insist on such a requirement in all cases, as long as the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”, is used in conjunction with the means of bringing goods together. Thus, in cases where it is not practical to list all the goods to which the retail services relate, the Registrar will accept an indication of the means of bringing goods together and displaying such goods for the benefit of customers, for example, from a retail outlet, a wholesale outlet or a distributor outlet. Such an indication can be inserted at the end of the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”.

With the revised practice, “wholesale services” will also be treated in the same manner as “retail services”.

The following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

(a) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(b) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(c) “Retail services in relation to [list the goods]”;

(d) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(e) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(f) “Wholesale services in relation to [list the goods]”;

(g) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet”;

(h) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”; and

(i) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”.

The Registrar is prepared to accept similar descriptions of the above services provided that the services are clearly described and fall within the ambit of retail or wholesale services. Please note that vague descriptions such as “distributorship services” are not acceptable as the term “distributorship” may encompass more than just retail or wholesale services, for example, it may include transportation services.

Interior decoration services (Circular No. 22/2006, dated 7 July 2006)

For applications lodged on or after 14 July 2006, the Registrar will only accept “interior decoration services” in Class 42 and not in Class 37, as such services are analogous to the item “design of interior décor” which is listed in Class 42 of the International Classification of Goods and Services (8th Edition).

WIPO’s Recommendation No. 19 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

(1) Incontinence garments – Class 5

(2) Telephone ring tones [downloadable] – Class 9

(3) Milk jam – Class 29

(4) Toasted natural wood chips added to wine to improve its flavour – Class 30

WIPO's Recommendation No. 20 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

- (1) Paper sheets, sensitized, for carrying photographic imaging materials – Class 1
- (2) Slot machines[vending machines] – Class 9
- (3) Paper sheets, not sensitized, for carrying photographic imaging materials – Class 16
- (4) Slot machines[amusement] – Class 28
- (5) Stand-alone video game machines – Class 28

Technical consultancy services (Circular No. 25/2006, dated 16 August 2006)**Technical support services** (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar will classify “technical consultancy services”, “technical support services” and other similar technical advisory and technical information services according to their subject matters. The General Remarks in the Nice Classification (8th Edition) states that services that provide advice, information or consultation are in principle classified in the same classes as the services that correspond to the subject matter of the advice, information or consultation. Further, in line with the view of the World Intellectual Property Organization, the Registrar will consider indications such as “technical consultancy services” and “technical support services”, *per se* as too broad and vague and objections will be taken. Such indications will have to be specified in respect of their subject matters for the purpose of classification.

2007 Circulars**WIPO's Recommendation No. 21** (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Scoreboards for sports, other than mechanical or electric – Class 20
- (2) Advice on tax preparation – Class 35
- (3) Advice on fiscal assessments, advice on fiscal valuations – Class 36
- (4) Carbon offsetting services [recycling] – Class 40
- (5) Prenatal exercises – Class 41
- (6) Weblog [blog] services [on-line publication of journals or diaries] – Class 41
- (7) Creating and maintaining weblogs [blogs] for others – Class 42
- (8) Hosting of weblogs [blogs] – Class 42
- (9) Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting – Class 42
- (10) Carbon offsetting services [reforestation] – Class 44

Providing on-line forums (Circular No. 27/2007, dated 25 July 2007)

Operating chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing discussion services on-line (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar will only accept the items "providing on-line forums", "operating chat rooms", "providing chat rooms", and "providing discussion services on-line" in Class 38, regardless of the topic of the discussion. These items are analogous to the items "electronic bulletin board services [telecommunication services]" and "providing internet chatrooms" listed in Class 38 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Arranging and conducting of colloquiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conferences (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of congresses (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of seminars (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of symposiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conventions (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of exhibitions (Circular No. 27/2007, dated 25 July 2007)

The Registrar wishes to clarify that the above items with the exception of the last, viz.

"arranging and conducting of colloquiums";

"arranging and conducting of conferences";

"arranging and conducting of congresses";

"arranging and conducting of seminars";

"arranging and conducting of symposiums"; and

"arranging and conducting of conventions"

are classified in Class 41, regardless of the topic relating to these services. It is the purpose of the service and not the topic that determines their classification in Class 41. By virtue of their dictionary definitions, the terms, "colloquiums", "conferences", "congresses", "seminars", "symposiums" and "conventions" refer to activities linked with training or education, both of which are proper to Class 41. To illustrate, "arranging and conducting of conferences for commercial or advertising purposes" and "arranging and conducting of seminars for commercial or advertising purposes" are both classified under Class 41.

However, the item, "arranging and conducting of exhibitions", will be classified according to the subject matter since this service only refers to showing of products or services to the public, and is not primarily offered for the purposes of training or education. By analogy, "organization of exhibitions for commercial or advertising purposes" is listed in Class 35 of the NICE Classification (Ninth Edition), but "organization of exhibitions for cultural or educational purposes" is listed in Class 41 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Providing access to databases (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Providing of user access to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to databases (Circular No. 33/2007, dated 26 September 2007)

For applications lodged on or after 3 October 2007, the Registrar will accept these and other analogous items in Class 38 only. These are essentially telecommunication services and are classified under Class 38 whether they are provided by an Internet Service Provider or a non-Internet Service Provider. Hence, our previous journal notice on the classification of these services based on the status of the applicant is no longer applicable.

Consistent with our previous journal notice on “leasing” (Circular No. 20/2004, dated 12 November 2004), applicants should also avoid using the term, “leasing”, in any class except Class 36, as “leasing services”, are acceptable only in Class 36. With regards to the above items in Class 38, an example of an acceptable description would be “rental of access time to databases” and not “leasing of access time to databases”.

2008 Circulars

Cereal-based beverages (Circular No. 7/2008, dated 5 March 2008)

Beverages made from cereals (Circular No. 7/2008, dated 5 March 2008)

Executor services (Circular No. 7/2008, dated 5 March 2008)

The pre-2004 circulars on “cereal-based beverages/ beverages made from cereals” in Class 32 and “executor services” in Class 42 have been removed in light of recent directives from the World Intellectual Property Organisation.

A specification of goods consisting of or containing “cereal-based beverages” or “beverages made from cereals” will be classified in Class 30 by analogy to “cereal preparations” that are classified under Class 30 of the NICE Classification.

A specification of services consisting of or containing “executor services” will be classified in Class 36 because such services generally relate to the administration of money, investments, real estate, assets, and other valuables. Such services are analogous to “fiduciary services” and “trusteeship services” both of which are classified under Class 36 of the NICE Classification.

The above changes affect all applications lodged on or after 12 March 2008.

Retail services and other like services in Class 35 (Circular No. 9/2008, dated 2 May 2008)

In addition to Circular No. 6/2006, the Registrar will accept the descriptions for applications lodged on or after 9 May 2008 (where it is not practical to list all the goods to which the retail services or wholesale services relate):

- a. "retail services"
- b. "wholesale services"

However, the Registrar will continue to reject descriptions such as "distributorship services", "mail order services", "departmental store services", "supermarket services", or "internet shopping". These terms are considered vague as they include services more than retail and wholesale services.

With the addition, the following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

- a. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- b. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- c. "Retail services in relation to [list the goods]";
- d. "Retail services";
- e. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- f. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- g. "Wholesale services in relation to [list the goods]";
- h. "Wholesale services";
- i. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- j. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- k. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view

and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;

- l. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;
- m. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- n. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- o. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- p. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- q. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”; and
- r. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”.

Applications Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Ticket dispensers; juke boxes, musical; vending machines; motor fire engines; answering machines; accumulators, electric; accumulators, electric, for vehicles; actinometers; alidades; altimeters; ammeters; anemometers; anodes; aerials; anticathodes; apertometers (optics); divers' apparatus; high-frequency apparatus; testing apparatus not for medical purposes; remote control apparatus; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; monitoring apparatus, electric; sound recording apparatus; distillation apparatus (microscopy); air analysis apparatus; apparatus to check franking; apparatus to check stamping mail; sound transmitting apparatus; electrical apparatus for sealing plastics (packaging); apparatus for fermentation (laboratory apparatus); electric arc cutting apparatus; electric arc welding apparatus; electric welding apparatus; breathing apparatus, except for artificial respiration; breathing apparatus for underwater swimming; x-rays producing apparatus and installations, not for medical purposes; cash registers; electric apparatus for commutation; intercommunication apparatus; stills for laboratory experiments; projection apparatus; roentgen apparatus not for medical purposes; radiological apparatus for industrial purposes; soldering apparatus, electric; welding apparatus, electric; blueprint apparatus; blinkers (signalling lights); flashing lights (luminous signals); stereoscopic apparatus; telegraphs (apparatus); telephone apparatus; telephone transmitters; facsimile machines; phototelegraphy apparatus; igniting apparatus, electric, for igniting at a distance; acid hydrometers; salinometers; acidimeters for batteries; aerometers; beacons, luminous; barometers; anode batteries; high tension batteries; galvanic batteries; batteries for pocket lamps; batteries for lighting; solar batteries; batteries, electric; balances (steelyards); steelyards (lever scales); gasoline pumps for service stations; petrol pumps for service stations; betatrons; binoculars; electronic tags for goods; magnetic tape units (for computers); computer memories; fire hose nozzles; safety tarpaulins; signalling buoys; life buoys; marking buoys; directional compasses; vacuum gauges; electrolyzers; variometers; scales; letter scales; weighbridges; precision balances; levelling staffs (surveying instruments); rods (surveying instruments); camcorders; video cassettes; video telephones; video screens; viewfinders, photographic; plugs, sockets and other contacts (electric connections); micrometer screws for optical instruments;

viscosimeters; circuit closers; wavemeters; voltmeters; coin-operated gates for car parks or parking lots; mechanical signs; switchboxes (electricity); current rectifiers; jigs (measuring instruments); gas testing instruments; gasometers; galvanometers; heliographic apparatus; hygrometers; hydrometers; weights; peepholes (magnifying lenses) for doors; holograms; plotters; loudspeakers; sounding leads; plumb bobs; range finders; telemeters; densimeters; optical goods; detectors; galena crystals (detectors); smoke detectors; counterfeit (false) coin detectors; false coin detectors; slides (photography); transparencies (photography); slide projectors; transparency projection apparatus; diaphragms (photography); dictating machines; dynamometers; floppy disks; phonograph records; sound recording discs; disks (magnetic); optical discs; calculating disks; disk drives (for computers); juke boxes (for computers); electronic notice boards; capacity measures; swimming jackets; bullet-proof waistcoats; life jackets; identification threads for electric wires; nose clips for divers and swimmers; locks, electric; bells (warning devices); alarm bells, electric; electric door bells; signal bells; acoustic conduits; mirrors for inspecting work; road signs, luminous or mechanical; signs, luminous; marine depth finders; probes for scientific purposes; buzzers; buzzers, electric; needles for record players; styli for record players; gauges; measures; pressure measuring apparatus; simulators for the steering and control of vehicles; inverters (electricity); indicators (electricity); pressure indicators; temperature indicators; incubators for bacteria culture; measuring instruments; mathematical instruments; levelling instruments; surveying instruments; azimuth instruments; interfaces (for computers); ionisation apparatus, not for the treatment of air; spark-guards; coaxial cables; fiber optic cables; cables, electric; calipers; slide calipers; screw-tapping gauges; calculating machines; pocket calculators; decompression chambers; cinematographic cameras; electronic pens (visual display units); holders for electric coils; identity cards, magnetic; video game cartridges; encoded cards, magnetic; protective helmets; carriers for dark plates (photography); cathodes; choking coils (impedance); cinematographic film (exposed); computer keyboards; solenoid valves (electromagnetic switches); wire connectors (electricity); electronic agendas; push buttons for bells; mouse pads; magnetic encoders; anti-dazzle shades; anti-glare visors; collectors, electric; calibrating rings; protective suits for aviators; commutators; compact discs (read-only memory); compact discs (audio-video); comparators; marine compasses; computers; laptop computers; notebook computers; capacitors; condensers (capacitors); contacts, electric; contacts, electric, of precious metal; wind socks (for indicating wind direction); branch boxes (electricity); distribution boxes (electricity); junction boxes (electricity); accumulator boxes; accumulator jars; battery boxes; battery jars; cabinets for

loudspeakers; diving suits; reflecting discs for wear, for the prevention of traffic accidents; covers for electric outlets; logs (measuring instruments); lasers, not for medical purposes; lactodensimeters; lactometers; darkroom lamps (photography); neon signs; thermionic lamps and tubes; thermionic valves (radio); amplifying tubes; amplifying valves; flashlights (photography); head cleaning tapes (recording); magnetic tapes; videotapes; surveying chains; fire escapes; rulers (measuring instruments); slide-rules; contact lenses; correcting lenses (optics); optical lenses; lens hoods; optical condensers; sounding lines; electricity conduits; measuring spoons; magnifying glasses (optics); thread counters; waling glasses; magnets; decorative magnets; resuscitation mannequins (teaching apparatus); mouse (data processing equipment); manometers; pressure gauges; divers' masks; solderers' helmets; protective masks; material for electricity mains (wires, cables); accounting machines; voting machines; money counting and sorting machines; material testing instruments and machines; hemline markers; megaphones; diaphragms (acoustics); metal detectors for industrial or military purposes; metronomes; rules (measuring instruments); carpenters' rules; dressmakers' measures; mechanisms for coin-operated apparatus; mechanisms for counter-operated apparatus; coin-operated mechanisms for television sets; shutter releases (photography); micrometer gauges; micrometers; microprocessors; microscopes; microtomes; microphones; modems; lightning arresters; lightning conductors (rods); monitors (computer hardware); animated cartoons; terminals (electricity); junction sleeves for electric cables; cases fitted with dissecting instruments (microscopy); teeth protectors; knee-pads for workers; self-regulating fuel pumps; fuel dispensing pumps for service stations; headphones; surveyors' levels; verniers; sound recording carriers; magnetic data media; optical data media; socks, electrically heated; sheaths for electric cables; identification sheaths for electric wires; weighing machines; punched card machines for offices; furniture especially made for laboratories; shoes for protection against accidents, irradiation and fire; objectives (lenses) (optics); lenses for astrophotography; egg-candlers; extinguishers; fire extinguishing apparatus; electrified fences; limiters (electricity); clothing for protection against accidents, irradiation and fire; clothing for protection against fire; garments for protection against fire; asbestos clothing for protection against fire; ozonisers (ozonators); octants; eyepieces; ohmmeters; wrist rests for use with computers; spectacle frames; eyeglass frames; pince-nez mountings; oscillographs; plumb lines; mirrors (optics); spectacles (optics); sunglasses; goggles for sports; signalling panels, luminous or mechanical; radio pagers; eyeglasses; pince-nez; electronic pocket translators; transmitters (telecommunication); transmitters of electronic signals; switches, electric; periscopes; gloves for divers; asbestos gloves for protection against accidents; gloves for protection

against accidents; magnetic wires; telegraph wires; telephone wires; wires, electric; conductors, electric; copper wire, insulated; fuse wire; wires of metal alloys (fuse wire); computer operating programs, recorded; computer programmes (programs), recorded; computer software (recorded); monitors (computer programs); computer game programs; computer programs (downloadable software); record players; central processing units (processors); processors (central processing units); rods for water diviners; electronic publications (downloadable); distribution consoles (electricity); control panels (electricity); radar apparatus; vacuum tubes (radio); masts for wireless aerials; transmitting sets (telecommunication); radios; vehicle radios; frames for photographic transparencies; screens for photoengraving; walkie-talkies; voltage surge protectors; voltage regulators for vehicles; light dimmers (regulators) (electric); light regulators (electric dimmers); stage lighting regulators; speed regulators for record players; washing trays (photography); marking gauges (joinery); time switches, automatic; relays, electric; safety restraints (other than for vehicle seats and sports equipment); x-ray photographs, other than for medical purposes; rheostats; respirators (other than for artificial respiration); respiratory masks (other than for artificial respiration); respirators for filtering air; retorts; refractometers; refractors; grids for batteries; horns for loudspeakers; saccharometers; light conducting filaments (optical fibers (fibres)); optical fibers (fibres) (light conducting filaments); dog whistles; signalling whistles; whistle alarms; sextants; inductors (electricity); life nets; safety nets; nets for protection against accidents; fire alarms; signals, luminous or mechanical; sirens; scanners (data processing equipment); integrated circuit cards (smart cards); smart cards (integrated circuit cards); connections for electric lines; connections, electric; couplings, electric; connectors (electricity); sonars; sound locating instruments; lighting ballasts; resistances, electric; spectrograph apparatus; spectrometers; speed indicators; alcoholmeters; satellites for scientific purposes; protection devices for personal use against accidents; audiovisual teaching apparatus; radiotelegraphy sets; radiotelephony sets; spectacle glasses; optical glass; glass covered with an electrical conductor; anti-glare glasses; personal stereos; stereoscopes; fire boats; sulphitometers; drying racks (photography); spherometers; integrated circuits; printed circuits; counters; meters; parking meters; postage stamp meters; kilometer recorders for vehicles; milage recorders for vehicles; revolution counters; abacuses; taximeters; ear plugs; ear plugs for divers; tachometers (electricity); cell switches (electricity); reducers (electricity); vehicle breakdown warning triangles; starter cables for motors; discharge tubes, electric, other than for lighting; capillary tubes; x-rays tubes not for medical purposes; telephone receivers; turnstiles, automatic; quantity indicators; automatic indicators of low pressure in vehicle tires; automatic indicators of

low pressure in vehicle tires; gasoline gauges; petrol gauges; electric loss indicators; light-emitting electronic pointers; clinometers; gradient indicators; inclinometers; slope indicators; levels (instruments for determining the horizontal); mercury levels; spirit levels; urinometers; amplifiers; particle accelerators; sprinkler systems for fire protection; electric installations for the remote control of industrial operations; steering apparatus, automatic, for vehicles; balancing apparatus; video recorders; sound reproduction apparatus; invoicing machines; electroplating apparatus; galvanizing apparatus; teleprompters; door closers, electric; tape recorders; distance recording apparatus; protection devices against x-rays (roentgen rays), not for medical purposes; apparatus for games adapted for use with television receivers only; railway traffic safety appliances; data processing apparatus; door openers, electric; oxygen transvasing apparatus; theft prevention installations, electric; electric devices for attracting and killing insects; amusement apparatus adapted for use with television receivers only; drying apparatus for photographic prints; optical character readers; elevator operating apparatus; lift operating apparatus; centering apparatus for photographic transparencies; dosage dispensers; dosimeters; chargers for electric batteries; acoustic (sound) alarms; sound alarms; sounding apparatus and machines; apparatus for editing cinematographic film; editing appliances for cinematographic films; cathodic anti-corrosion apparatus; couplers (data processing equipment); computer peripheral devices; anti-interference devices (electricity); demagnetizing apparatus for magnetic tapes; acoustic couplers; anti-theft warning apparatus; alarms; fog signals, non-explosive; adding machines; readers (data processing equipment); heat regulating apparatus; photocopiers (photographic, electrostatic, thermic); bar code readers; flat irons, electric; filters for respiratory masks; filters for ultraviolet rays, for photography; filters (photography); magic lanterns; optical lamps; optical lanterns; signal lanterns; cameras (photography); glazing apparatus for photographic prints; shutters (photography); darkrooms (photography); photometers; flash-bulbs (photography); enlarging apparatus (photography); photovoltaic cells; containers for contact lenses; spectacle cases; eyeglass cases; pince-nez cases; containers for microscope slides; cases especially made for photographic apparatus and instruments; chromatography apparatus for laboratory use; chronographs (time recording apparatus); eyeglass chains; pince-nez chains; cyclotrons; compasses (measuring instruments); frequency meters; egg timers (sandglasses); fire blankets; chips (integrated circuits); pedometers; meteorological balloons; electrified rails for mounting spot lights; protective helmets for sports; eyeglass cords; pince-nez cords; stands for photographic apparatus; tripods for cameras; eyeshades; switchboards; distribution boards (electricity); workmen's protective face-shields; projection screens; radiology

screens for industrial purposes; fluorescent screens; screens (photography); exposure meters (light meters); welding electrodes; soldering irons, electric; ducts (electricity); galvanic cells; epidiascopes; ergometers; armatures (electricity).

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes.

Class 35

Advertising; business management; business administration; office functions; procurement services for others for goods in Classes 9 and 11 of this international registration.

EXACTLY YOUR CHEMISTRY.

Class 01

Chemical products for use in industry, science, photography, as well as agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manure for agriculture; fire extinguishing compositions; flame retardant substances; tempering and soldering preparations; chemical substances for preserving foodstuffs; antioxidants; tanning substances; adhesives for use in industry; preserving agents for bricks, cement, concrete and masonry (excluding paints and coating oils); brake fluids; coating materials for smoothing and improving rough substrates, (insofar as they belong to this class), particularly for motorcar bodies; chemical additives for fuel; antifreeze; deicing agents for use on roads and other surfaces exposed to the open air; chemicals for preparing colouring agents; degreasing preparations for use in manufacturing processes; organic-bleaching chemicals; synthetic polymers for industrial use.

Class 02

Colours, varnishes, lacquers; wood coatings; pigments and pigmented products; dye-stuffs and agents used for dyeing insofar as they belong to this class; printing inks; printing toners (blacks) for photocopying machines; colouring agents and preparations made using colouring agents consisting of pigments and a support; colouring agents for food and beverage, colouring agents for cosmetic preparations, anti-rust preparations, coatings to protect metals against tarnish and anticorrosive agents; dyes for laundry use; wood preserving agents, mordants; raw natural resins; priming paints; protective agents for metals; organic, non-organic and synthetic colouring agents; leaf metals and metallic powders for painters, decorators, printers and artists; aluminium oxide coatings (in so far as they belong in this class).

Class 03

Cleaning agents, detergents, active washing substances, insofar as they belong to this class, preparations for bleaching, cleaning, polishing, scouring and abrasive preparations, corundum, soaps (all the above-mentioned agents for industrial technical application); colour-removing preparations; perfumery, essential oils, body products, beauty preparations and hair preparations (non-medical), dental preparations; cosmetic suncare products; cosmetics; hair dyes; washing bases as elements of all the above products; plant extracts as raw materials for the cosmetics industry.

Class 42

Design and development of computer programs; software consultancy; installation, integration and maintenance of computer software; services in the field of technology and development services related thereto; industrial analyses; commercial advice on the technology of plastic materials (insofar as they belong to this class); testing and research services; technical, scientific and configuration services; services provided by chemists, industrial chemists and chemical laboratories; technical consultancy in the field of chemistry and chemical engineering, namely advice on implementing manufacturing processes in technical installations; advice in the chemical and technical field, namely in the area of analysis, coordination of colouring agents, and standardisation; scientific advice and scientific research services on the industrial use of paints, dyes, pigments and colouring agents; technical advice on refining textiles; providing technical knowledge (licensing); creating, installing, maintaining and updating client-specific computer programs in the area of the industrial use of chemicals, paints, dyes, pigments and colouring agents; research in the area of environmental protection; advice on the environmental effects of manufacturing processes and of chemicals and paints used in manufacturing processes (in so far as they belong to this class); advice on energy saving issues; development of new products.

Class 06

Common metals and their alloys; steel, unwrought or semi-wrought, including stainless steel, carbon steel, coated steel, coated quenched steel, chromium steel, galvanized steel, electrogalvanized steel, lacquer coated steel, coloured steel and aluminium-coated steel; unwrought or semi-wrought cast iron; scrap metals (waste iron); iron, unwrought or semi-wrought, including tinsplate, iron for direct reduction and directly reduced iron; metal ores, including crude or processed ores; metal building materials; laminated or sectional metal building materials, such as heavy sections, steel sections, non-metallic joists, sheet piles and girders; reinforcing materials, of metal, for concrete; metal plates for lining for building; metal flooring, metal floor tiles, metal partitions, metal multi-layered panels, metal sidings, metal claddings and covers (building materials); transportable metal buildings, including metal shelters and parts of shelters, buildings of metal profiles, for residential use, which can also be used as small commercial or industrial premises; metal materials for railway tracks, including rails and their components; non-electric cables and wires of common metal, including metal soldering wire and barbed wire; metal tubes and pipes (building materials); non-electrical metal ironmongery; metal hardware; metallic grates and screens; metal fences, wire mesh and cloths, coated or not (building materials); springs (metal hardware); metal wire drawing, bolt and nail industry products not included in other classes; sheet metal, multi-layered sheet metals and multi-layered metal products not included in other classes; armour plating; metal ferrules; frames of metal for building; metal tanks and containers; metal boxes (not included in other classes), including welded metal boxes and their components such as welded bottoms of tins, rings and sealing caps of metal; cans of metal, including cans for beverages; cans of metal and lids of metal for them; wrappings of common metal and of tinsplate; foundry moulds of metal; iron and steelworks products not included in other classes, including billets, sheet metal, iron slabs, foils, strips, blank, binders, spools, profiled strips, bars, girders, joists, strip, pins, tubes, wires, cables, blocks, ingots and forging ingot, ultra heavy torch cut metal products not

included in other classes; steel balls; slab; heavy metal products not included in other classes, including forged, moulded, cast, die-cast, pressed, welded or machined metal pieces, used in all industries.

Class 07

Machinery and machine tools, especially rolling mills, rolling mill cylinders, continuous metal casting machines, machines for cutting and slicing, machines for forming, oxygen cutting, machining, welding, stubbing, drawing metals, metal sheets and plates; converters for steelworks (machines); metal parts for vehicle motors included in this class; machine coupling and transmission components (except for land vehicles).

Class 09

Scientific, weighing, measuring, signalling, monitoring (checking) and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmitting and reproducing sound or images; magnetic, optical, image and sound recording media, compact discs; apparatus and instruments for measuring, controlling, analysing and inspecting the quality of materials, especially iron and steelworks products and steels; data processing equipment, such as software; multimedia training tools, especially magnetic, optical, image and sound media.

Class 12

Vehicles and apparatus for locomotion by land, by sea and by water; metal parts for vehicles included in this class; bodyworks and car body components; bumpers, bonnets, suspensions, vehicle crossmembers, chassis, wheels, metal axles, vehicle front end and back end assemblies; motors for land vehicles.

Class 19

Non-metallic building materials, paving slabs, plates, facings, flooring, roofing, cladding panels, composite slabs, profiles, multilayer panels, partitions, all these goods being not of metal; reinforcing materials, not of metal for building purposes; non-metallic transportable buildings, non-metallic shelters and parts of shelters; buildings and profiles for residential use and for small non-metallic buildings for commercial or industrial purposes; non-metallic rigid pipes for building; non-metallic monuments.

Class 21

Household and kitchen utensils and containers; utensils and containers intended for cooking and being heated; bottles, drinking vessels, tins, flasks (not of precious metal); non-metallic boxes, especially biscuit tins, lunch boxes, bread bins, soap boxes, tea

caddies; aerosols, their parts and component parts (metal cans for aerosol spraying, caps, cups, valves), for non-medical use.

Class 39

Air, rail, maritime and road transport of goods, especially of steel and metal materials; delivery of goods; wrapping of goods; storage and warehousing of goods; storage of ores, of metals and of alloys; freight by air, by sea and by land.

Class 40

Treatment of materials; treatment of ores, of steel, of common metals and their alloys; treatment of metals and all mechanical, thermomechanical or chemical transformation of the properties and characteristics of metals; direct reduction of iron, metal tempering, finishing metal surfaces, soldering, casting, anodizing, chrome plating, sintering, electrolytic zinc plating, phosphatizing, milling, forming, tinning, galvanizing, nickel plating, laminating, armour plating, cutting, polishing, magnetizing, plating, drawing, pickling, metal soldering, metal coating, recycling metal goods; treatment of materials during the manufacturing process of metal goods, such as forging, pressing, deburring, machining, rolling and forming of metals; vacuum treatment; nitriding [treatment of materials], assembly of metal profiles; treatment of materials for boilermaking.

Class 41

Education; technical and non-technical training courses; editing and publishing of books, reviews, pamphlets, instruction and teaching manuals; education and publishing and electronic publication of books and periodicals; production of films, short videos and video tapes; production of radio and audiovisual programs; arranging and conducting of colloquiums, conferences, seminars, conventions, exhibitions for cultural, educational or recreational purposes; entertainment; organization of games and competitions (recreation and culture).

Class 42

Scientific and technological services, and related research and design services; industrial analysis and research services; software design and development; consultation and information relating to the aforesaid services, also in the context of services rendered to customers; materials testing and mechanical research, as well as related consulting and information; technical project studies; consulting, scientific and technical information services for improving the quality of goods and services in the field of metals, steels and their applications (quality control); expert reports and engineering works in the field of metals, steels and their applications; construction consulting, also relating to the choice and use of steels; drawing up of construction plans; design and

development of software, especially for iron and steel working;
design of software to provide global solutions for building
purposes.

Industrial oils and greases; lubricants; dust absorbing, wetting and binding products, fuels (including petrol); lighting fuel; fuel gas for lighting; solidified fuel gases; gasoline; vaporized fuels; fuels; naphtha; paraffin; petroleum (crude or refined).

Class 06

Common metals and their alloys; metal building materials; transportable metal constructions; metal materials for railway tracks; non-electric cables and wires of common metal; ironmongery and small items of metal hardware; metal pipes and tubes; safes; metal constructions; metal building materials; metal piping; packaging containers of metal; goods of common metal not included in other classes; metal ores; piping for pipelines made of metal for carrying energy resources, especially of petroleum and gas; metal tanks for holding gas, petroleum and their derivatives; metal ducts.

Class 07

Machines and machine tools; motors, other than for land vehicles; machine coupling and transmission components (except for land vehicles); agricultural implements, other than hand operated; egg incubators; machines, machine tools and industrial mechanised tools for the gas, petroleum and electricity industries.

Class 12

Vehicles; apparatus for locomotion by land or by air for carrying agricultural foodstuffs or metals or energy and bio-energy products.

Class 19

Non-metallic building materials; non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable constructions; non-metallic monuments; tubes and pipes, including pipelines, all non-metallic for carrying petroleum, gas and their derivatives.

Class 22

Ropes, strings, nets, tents, tarpaulins, sails; bags (envelopes, pouches) made of textile materials for packaging purposes; bags for the transport and storage of materials in bulk; padding and stuffing materials (except of rubber or plastics); raw fibrous textile materials.

Class 23

Yarns and threads for textile use.

Class 24

Textiles and textile goods, not included in other classes; bed and table covers; bath linen (except clothing); bed linen; household linen; table linen (textile); face towels (of textile); canvas for tapestry or embroidery; travelling rugs; curtains made of textile fabrics; blinds (curtains) made of textile fabrics; textile wall hangings, non-woven textile fabrics.

Class 29

Meat, fish, poultry and game; meat extracts; preserved, frozen, dried or cooked vegetables and fruits; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats.

Class 30

Coffee, artificial coffee, tea, cocoa, sugar, rice, tapioca, sago; flours and preparations made from cereals, bread, pastry and confectionery, ices; honey, treacle syrup; yeast, baking-powder; salt, mustard; vinegar, sauces (condiments); spices; ice for refreshment.

Class 31

Agricultural, horticultural and forestry products and grains not included in other classes; live animals; fresh fruits and vegetables; natural seeds, plants and flowers; animal foodstuffs; malt.

Class 32

Beers; mineral and aerated waters and other non-alcoholic drinks; fruit drinks and fruit juices; syrups and other preparations for making beverages.

Class 35

Advertising; business management; business administration; office functions; advertising, sales promotion and merchandising services for goods in the field of energy products and their derivatives; assistance and consultancy services in the field of business management of companies in the energy sector; business intermediary services in the nature of facilitating wholesale and retail trade of energy products, namely, petroleum and its derivatives, gas and its derivatives and electricity, through computer networks or other telecommunication networks; market research and studies, also in connection with the search for suppliers and offers and for purchasing, all with a view to the wholesale and retail reselling of products in the energy sector (such as petroleum and its derivatives, gas and its derivatives and electricity).

Class 36

Insurance; financial affairs; monetary affairs; real estate affairs; financial services, especially loan, credit, funds transfer and insurance services, in the field of trade in petroleum and its derivatives, gas and its derivatives and electricity.

Class 37

Construction; repair; installation services.

Class 38

Telecommunications; rental of fibre-optics (telecommunication equipment).

Class 39

Transport by land or by air, as well as storage of agricultural, mining, bio-energy, energy products and their derivatives; services for distribution (transport), collection (storage) and dispatching agricultural, mining, bio-energy, energy and petroleum products and their derivatives, gas and its derivatives and electricity; equipment rental services for the aforementioned services.

Class 40

Materials treatment services; processing of agricultural products, namely winemaking, distilling, threshing, fruit pressing and flour milling.

Class 42

Scientific and technological services and research and design relating thereto; analysis and industrial research services; design and development of computers and software; scientific and technological services in the fields of exploitation, producing, processing, storage and transport of energy products, especially petroleum and derivatives thereof, gas and derivatives thereof and of electricity; scientific and industrial research and design services

in the field of energy and energy products, especially petroleum and its derivatives, gas and its derivatives and electricity; expertise and geological prospecting services; expertise and analysis services in connection with exploitation of petroleum and natural gas deposits; research and development services in connection with chemistry; engineering services in the energy sector; research and development services concerning new products; petroleum and natural gas inspection services; computer software design and programming services for the energy industry; bacteriological control and chemical analysis services.

Class 01

Transfer membranes for protein and nucleic acids for biotechnology and medical research use; reagent grade water; reagents for scientific or medical research use; biological and biochemical reagents to maintain human embryonic stem cells and/or human embryos in in-vitro culture for in-vitro scientific and research use; gene expression technology reagents, namely ubiquitous chromatin opening elements, for scientific or research purposes; mouse embryonic stem cells and biological and biochemical reagents to maintain mouse embryonic stem cells and/or mouse embryos in in-vitro culture for in-vitro scientific and research use; reagents, with or without reagent carriers, for detecting analytes of biological/chemical relevance applied to diagnostics or scientific, environmental, agricultural, or biomedical research; assay kits including reagents, with or without reagent carriers, for detecting analytes of biological/chemical relevance applied to diagnostics or scientific, environmental, agricultural, or biomedical research; molecular based assays for use in the pharmaceutical and biopharmaceutical industries, specifically in the determination and identification of microorganisms; molecular biology products, namely RNA purification kits composed primarily of the following reagents, streptavidin covalently coupled to surface of magnetic porous glass particles, biotinylated oligo probes, buffers and release solution for scientific or research use; RNA isolation kits composed primarily of the following reagents: guanidine thiocyanate, citrate buffer, b-mercaptoethanol, sodium acetate, phenol-chloroform-isoamyl alcohol and isopropanol for scientific or research uses; nucleic acid labeling kits composed primarily of the following reagents, buffers, alkaline phosphatase, polynucleotide kinase, marker control, ATP and nuclease-free water for scientific or research uses; magnetic particles, cloning vectors, controlled pore glass products used as packing media for chromatography and as a solid phase for biomolecule immobilization and columns, amidites and reagents for DNA and RNA synthesis and purification, nucleic acid labeling, polymerase chain reaction reagents, enzymes, hybridization reagents and electrophoresis reagents all for scientific or research use; media for performing chromatographic separations; chemicals for industrial

purposes, namely protein purifiers; reagents for use in biological processing; chromatographic packing and columns containing such packing; chemical reagents useful in liquid chromatographic analysis; bovine serum albumin for laboratory and research use; reagents for medical or scientific research use; kits for the expression, amplification, purification and analysis of biological samples, said kits consisting primarily of one or more of the following: proteins, nucleic acids, cells, gels, probes, buffers, stains and associated reagents and devices for carrying out said purposes; biochemical reagents for research purposes, namely cell culture media components, supplements and additives; biochemicals for scientific and research use, namely monoclonal antibodies, polyclonal antibodies, purified recombinant proteins, purified natural proteins, fetal bovine serum, cell growth supplements, namely biochemicals for affinity purification, biochemicals for western immuno blotting, biochemicals for immunocyto chemistry; biochemical preparations derived from blood serum used as growth promoters in tissue cultures and microbiological media; diagnostic preparations, namely DNA/RNA hybridization and detection kits for scientific or research use; hybridization membranes for scientific or research use; chemical solutions containing deionized water, dextran sulfate, formamide, sodium ions, sodium dodecyl sulfate, urea, deoxyribonucleic acid, bovine serum albumin and polyvinyl-pyrrolidone for use in solid phase nucleic acids hybridization methods of gene analysis in biomedical and biotechnical research; blood serum fraction used in in vitro biological research for modifying surfaces of red and white blood cells; combination of blood albumen and fibrinogen, useful for separating tumor cells from leucocytes and erythrocytes; reagents relating to biomedical applications for scientific, diagnostic or research use; scientific research test kit consisting of buffers, caspase substrate and inhibitor, and luciferase substrate for detection of proteases activity of caspase-3; kit consisting primarily of diagnostic reagents for scientific or research use, namely for use in the quantitative detection of nucleic acids; test kits comprised a combination of anti-phosphotyrosine antibodies for the detection of protein phosphorylation for scientific or research use; diagnostic test kits consisting of reagents, control slides and instructions for scientific or research use; diagnostic preparation for scientific use consisting primarily of a bioluminescent protein; biological and biochemical reagents to maintain mammalian embryonic stem cells and/or mammalian embryos in in-vitro culture for in-vitro scientific and research use.

Class 07

Caustic resistant cartridges for beer applications, namely for use in filtration of beer in the brewing industry; filling machines featuring pre-sterilized component bags, tubing and filling needles, for dispensing of bulk formulated liquid pharmaceutical,

biopharmaceutical and diagnostic products; filters for machines, namely sterilizing grade filter cartridges for use in the biopharmaceutical and food and beverage industries; filters for machines, namely tangential flow filters for preparation of biological samples for use in the pharmaceutical and biotechnology industries; disposable filtration and purification products and assemblies, namely filters, capsules, biobags, connectors, tubing sets, filter holders, pressure sensors, temperature sensors and other sensors; mixers; bioreactors and the like; disposable manufacturing components and assemblies for the biopharmaceutical industry, namely filling machines for filling bottles, vials and syringes and single use disposable non-metal connectors for use in forming sterile connections; power-operated hand-held crimping tool for sealing and cutting tubing in the biopharmaceutical and food and beverage industries.

Class 09

Chromatography column; laboratory filters, namely ultrafiltration filter for water; kits comprised primarily of a device having one or more sample wells, one or more bottles of reagents and one or more bottles of wash solution for use in genomic and proteomic research; multiple well plates for use in the sample preparation and purification of DNA samples; electronic monitor for determining the total organic carbon content in water; fluorescence detection system for microorganisms comprised primarily of filters, namely microporous membranes, fluorescent indicator panel displays and photo-optic readers for use in the detection, enumeration and identification of microorganisms; filters for use in laboratories; laboratory device, namely a closed vial and piping to dilute soluble powdered products for sterility testing; well filtration devices, namely laboratory filters using cast-in-place filtration for filtering and purifying laboratory liquid solutions; sterility testing devices for liquids and powders comprising of one or more sealed canisters containing a membrane, vent filter and adaptors for connecting the canister or canisters to the product being tested for scientific, laboratory or industrial uses; electronic testing device, namely an air monitor for performing microbial analysis of the air in clean rooms; kits comprised primarily of at least one or more multiple well filtration plate, at least one multiple well collection plate, one or more bottles of reagents and one or more bottles of wash solution for use in genomic research; ultrafiltration membrane for purposes of concentrating, diafiltering and purifying biomolecules in laboratory devices and process applications; ultrafiltration membranes for use with fluids in the pharmaceutical industry; scientific apparatus, namely a laboratory testing system comprised of a filter contained within a filtration funnel and parts therefor sold as a unit for the collection, isolation and counting of micro-organisms; filtering apparatus, namely laboratory filters and part therefor for microbiological analyses; vacuum manifold

for filtration of liquids from filter plates for laboratory and research use; laboratory filters, namely bottle caps for use in sterilizing filtration in laboratories; filter units for laboratory use for removing contaminants from water and other liquids; filters for use with ultra high pressure liquid chromatography systems; purification units for laboratory use for removing contaminants from water and other liquids; apparatus and equipment for testing the sterility of liquid preparations by filtration and/or incubation; bioluminescence system for detecting contamination in liquids in the pharmaceutical, biopharmaceutical, cosmetic and beverage industries; filtration elements for removal of viruses from solutions; apparatus for performing chromatographic separations and parts thereof for industrial and laboratory use; laboratory filters; purification cartridge comprised of ion exchange resin, for laboratory use in removing contaminants from water; adsorptive separation devices in the nature of laboratory pipettes and parts thereof; multiple well membrane filter for laboratory and research use; regenerated cellulose ultrafiltration membranes for laboratory use; process chromatography systems comprised of valves, columns, slurry tanks, liquid tanks and slurry transfer skids, and components thereof; pilot and process chromatography apparatus, namely pilot and production chromatography columns; filtration membranes for laboratory use; cartridges for laboratory use in removing contaminants from water; filtering units for clinical laboratory use, for removing contaminants from water; ultrafiltration membranes for use in fluid processing for producing drugs; laboratory filters for filtering and purifying laboratory liquid solutions such as tissue culture media; computer software for management of biopharmaceutical purification processes; laboratory and process scale membrane filtration systems comprising pumps, electronic controls, filters, piping, valves and cartridges; filter holder containing a membrane laboratory filter for pharmaceutical, life science and health care use, sold as a unit; test units for determining the integrity and/or pore-size distribution of membrane filters; laboratory sample concentrator unit; disposable centrifugal filters for use in medical and research laboratories; laboratory equipment, namely tissue arrayers; disposable filters and microconcentrators for use in research and medical laboratories, forensic science, life science; disposable filtration devices, for purification of fluid biological and chemical samples, for use in research and clinical laboratories; magnetic controlled pore glass; chromatography apparatus and instruments; parts and fittings for all the aforesaid goods; sterilizing laboratory filter holders primarily for use in the analysis of particulate or biological contamination; laboratory equipment, namely filtration devices for in-vitro diagnostic applications; inserts for culture plates for laboratory use; liquid filtering and solute concentrating unit for laboratory use; chromatography apparatus; electro-elution apparatus for the eluting of molecules from sections of

electrophoresis gel; equipment for use in cell culture, namely membranes and membrane cartridges for laboratory and industrial use; fluid separation apparatus for laboratory separations or analyses; microprocessor-based pressure control units; liquid filtering and solute concentrating unit for laboratory and industrial use; laboratory filters for in-vitro separation of proteins from body fluids; clinical or laboratory sample concentrator unit; ultrafiltration membranes, ultrafiltration units and parts thereof; electronic and electrical testing apparatus for laboratory contaminants and clinical analysis, namely electrophoresis separators; incubators for microbiological samples on filters; ultraviolet sterilizers for filter holder between filtrations and for water supplies; separators for fluids in successively smaller size filters; sterilizing filters; and stainless steel filter holders for liquid filters.

Class 11

Tangential flow fluid filtration system comprised of a tangential flow filtration membrane cassette holder, scale, feed pump and piping and valves therefor, for purification of biopharmaceuticals; purification units for laboratory use, for removing contaminants from water and other liquids; water purification system for analytical grade water; point of use purified water dispenser; liquid filters for use in the pharmaceutical, food and beverage industries; hydrophobic vent membrane for industrial use in venting filter devices; filters for sterilizing air and gas streams; filters and membrane absorbers for filtering and removing trace contaminants from water and biological fluids in the manufacturing setting for the biopharmaceutical industry; water purifiers for clinical analyzers; filter for use in the pharmaceutical and biopharmaceutical industries; graded density depth filter used in pharmaceutical, biopharmaceutical, cosmetics and water clarification industries; polypropylene depth filter for use in removing particles and microorganisms from liquids and gases; liquid filtration unit and filtration membrane for virus removal from solutions for industrial use; filter cartridge for the removal of particulates, bacteria, colloids and microorganisms from gases and liquids for industrial, laboratory and medical use; filters, filter cartridges, filter housings, and parts therefor for use for filtering contamination particles in the pharmaceutical and biotechnology industry; water purification units and parts therefor; water purification units and components thereof; pilot scale tangential flow filtration system for pharmaceutical or biotech use comprising of housing, pump, filters, tank, valves, sensors, computer hardware, for clarification or ultrafiltration of fluids; filtering units for in-process testing for filtering microbiological liquids; ultrafiltration membrane filter cartridges for use with fluids in the pharmaceutical industry; sterilizing grade filter cartridges for use in biopharmaceutical applications; filter units for use in life science

and pharmaceutical applications, namely membrane filter cartridges for the separation of biomolecules in the biopharmaceutical production; ultra filtration water filter used to remove RNASE, DNASE, endocrine disruptor molecules and pyrogens from water for use by scientists in laboratories to prevent any interference in experiments using such water; purification units for removing contaminants from water and other liquids; liquid treatment equipment, namely sterilizing grade filter cartridge unit for use in the pharmaceutical, biopharmaceutical and food and beverage industries; sterilizing filtration units for non-medical use, namely bottle caps for use with sterilizing filtration units in laboratories; filters for use in solvents and solvent based fluids in the pharmaceutical and chemical industries; water purification units containing ion exchange resins; water purification units for laboratory use; membranous filtering units for pharmaceuticals, beverage, food and biopharmaceutical products; fluorocarbon polymer filters for filtration of liquid process chemicals, for industrial use; membrane filters made from porous sheet material and free of particles for purifying process liquids used in the manufacture of pharmaceutical, biopharmaceutical and food and beverage products; filter units for use in life science and pharmaceutical applications; filter elements and holders therefor, for use in fluid processing; membrane filters for fluid processing; apparatus for the purification of water and other liquids by reverse osmosis, including filters and holders therefor; apparatus for purification of water, including a filter element and a holder therefor; membranes and apparatus used in dialysis, reverse osmosis and ultrafiltration and like processes and parts thereof; ultrafiltration membranes; water conditioning apparatus; ultrafiltration membranes, not including nursing equipment or parts thereof used in the feeding of infants; water conditioning units; filters and filtration apparatus.

Class 42

Analytical testing services, namely evaluation testing for pharmaceutical, biopharmaceutical and chemical products, featuring testing for safety, toxicity, content, identity, purity, configuration and function, using chemical, in-vitro or in-vivo assays, analyses and models for the pharmaceutical biopharmaceutical industries; analytical services for the research or screening of molecules or biological samples; pharmaceutical research and testing services, namely application, filtration and validation of microbiological and physicochemical system; pharmaceutical and biological research services, namely antisera studies, immunogen preparation, immunization and production, antibody characterization, antibody purification, antibody packaging, hybridoma development and selection, preparation of custom tissue cultures, immunoassay development and testing, immunogenicity testing and vivarium services in the nature of

pharmacological, safety and toxicity research, in-vivo modeling, antibody generation and cell line development, and custom antibody production; custom production of cell cultures and biological products in the nature of antibodies and proteins and related reagents; human plasma donor centers; blood plasma collection services, namely locating and screening blood plasma donors; collecting, preserving and testing blood plasma products used in the development and manufacture of diagnostic and therapeutic products; conducting clinical trials on medical products.

Collective and Certification Marks Published for Opposition Purposes

Registration has been accepted in respect of the following Collective and Certification Marks filed under the provisions of the Trade Marks Act (Cap. 332, 1992 Ed.), Trade Marks Act (Cap. 332, 1999 Ed.) and the Madrid Protocol.

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.
