**PRACTICE DIRECTION NO. 1 OF 2009
HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days:

This Practice Direction will come into effect on 1st day of June, 2009.

A. Hours Of Business

Subject to rules 79(4) and 79(6A) of the Trade Marks Rules, the hours of business of the Registry shall be 8.30 am to 5.30 pm from Monday to Friday, except on a day which is an excluded day.

B. Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.
- (2) All Saturdays shall be excluded days for any business under the Trade Marks Act and Rules, where the time for doing the business expires on that date and where the business was not done by that date.

Dated this 14th day of May, 2009

PRACTICE DIRECTION NO. 3 OF 2006

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 15 December 2006.

A. Hours Of Business

Subject to rules 79(4) and 79(6A) of the Trade Marks Rules, the hours of business of the Registry shall be as follows:

- (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
- (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.

B. Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.
- (2) Subject to B(1), all Saturdays shall be excluded days for any business under the Trade Marks Act and Rules, where the time for doing the business expires on that date and where the business was not done by that date.

Dated this 15th day of November 2006.

PRACTICE DIRECTION NO. 2 OF 2005

REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

PRACTICE DIRECTION NO. 2 OF 2004

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

CHIAM LU LIN
ACTING REGISTRAR
REGISTRY OF TRADE MARKS

NOTICES AND INFORMATION PERTAINING TO TRADE MARK APPLICATION AND REGISTRATION PROCEDURES

A) GENERAL

Pre-2004 Circulars

Amendment to Specification

Presently, whenever the Registrar raises an objection to the specification of goods or services, the agent representing the applicant would write to the Registrar with a proposed amendment to the specification. Only if the Registrar agrees to the proposed amendment will the agent file Form TM 27 to effect the amendment. The processing of such letters by the Registrar slows down the registration process considerably.

To shorten the registration process, agents should file Form TM 27 to effect the amendment straightaway instead of writing to the Registrar for her confirmation. If agents are relying on precedents in support of the amendment, they should enclose such precedents with the Form TM 27.

Certificates of Registration

The Trade Marks Act 1998 was revised on 30 December 1999 and accorded the same chapter number as the repealed Trade Marks Act, that is, chapter 332. To facilitate the Registry's operations, for both applications made under the repealed Trade Marks Act and applications made under the Trade Marks Act 1998 which have been accepted for registration and are not subject to opposition proceedings, the Registrar will issue certificates of registration which are headed:

SINGAPORE
TRADE MARKS ACT
(CHAPTER 332)
CERTIFICATE ISSUED UNDER SECTION 15(5)

Description of Device on Form TM 4

The purpose of the description of device on Form TM 4 is to assist the Registrar in conducting a search for conflicting marks. The description need not be too detailed; a general description is sufficient.

Disclaimers of Chinese Characters and Foreign Characters

A disclaimer relating to Chinese characters is published in the Journal as follows:

Registration of this mark shall give no right to the exclusive use of the Chinese character(s) of which the hanyu pinyin is "_____".

For characters other than Chinese characters (for example, Japanese characters), the disclaimer reads:

Registration of this mark shall give no right to the exclusive use of the _____ character(s) of which the transliteration is "_____".

Examination Practice With Respect to Colours in Marks

To avoid any confusion, this notice documents the Registrar's practice in relation to the examination of :

- (i) trade marks consisting solely of colours; and
- (ii) trade marks consisting of colours as a component or as an element in combination with other elements or components.

Such examination practice has been effected by the Registrar in relation to both national applications and international registrations designating Singapore.

(i) Trade Marks Consisting Solely of Colours

Where the trade mark consists solely of colours, the Registrar will need to be satisfied that the colours per se are capable of distinguishing the applicant's goods or services from those dealt with by others. As it will be necessary to determine the precise scope of such a claim, it will be necessary for the applicant to provide a description of the claim in the application form. For the purpose of an illustration, if the trade mark sought for registration is the colour "neon pink" and the colour is applied to the packaging of the goods, an appropriate description would be: "The trade mark is the colour neon pink as applied to an aspect of packaging of the goods as claimed as shown in the representation of the mark on the application form". Such a description will enable the Registrar to examine the mark as filed.

(ii) Trade Marks Consisting of Colours As a Component of the Mark

Where the trade mark consists of colours in combination with other elements such as a letter, word, name, signature, numeral, device, brand, heading, label, ticket, shape, aspect of packaging, the trade mark will be examined as a whole. If the trade mark as a whole is capable of distinguishing the applicant's goods or services from those dealt with by others, the trade mark will be registered as filed, that is, in the colours as filed. The Registrar does not require a colour limitation in such a case. The Registrar will also not seek to clarify whether the colour(s) as an element of the mark constitute a distinctive feature of the mark or not as the mark will be examined as a whole and registration rights will be conferred on the mark as a whole.

Mark Numbers Preceded by the Letter "L"

Search reports obtained from the Registry and examination letters issued by the Registrar may contain references to marks with numbers preceded by the letter "L" instead of the letter "T". These are marks which have been recorded with the Registrar for purposes of rule 13. The prefix "T" refers to marks which are the subject matter of trade mark applications or registrations.

(Multiple Classes, this circular was removed on 3 July 2009)

Representation of Marks

Marks published in the Journal and reflected on the certificates of registration appear exactly as represented on the application forms. Applicants and agents are reminded to provide clear representations of marks on the application forms. The marks should also be of reasonably large size (but not larger than A4) to ensure that all the features are clearly shown.

Series Clause

For applications for registration published in the Gazette on or after 15 January 1999 for opposition purposes, the series clause should read as follows:

"Application for a series of _____ (number) marks."

Service of Documents in Opposition, Revocation, Invalidation and Rectification Proceedings

When filing notices of opposition, counter-statements and applications for revocation, invalidation or rectification with the Registrar, a copy of the same must be served on the relevant party or parties concerned. Please refer to Rules 29, 30, 31, 32, 56, 57, 58, 65, 66 and 66A of the Trade Marks Rules as amended by the Trade Marks (Amendment) Rules 2000.

The requirement of service of evidence on the relevant party or parties concerned remains unchanged. Please refer to Rules 32, 33, 34, 56, 59 and 66A.

It would be greatly appreciated if trade marks agents filing the aforesaid documents with the Registrar could indicate in their covering letters that they have served the necessary on the relevant party or parties concerned in compliance with the Rules.

Validity of Priority Claims

Under Section 10 of the Trade Marks Act 1999, a person may claim a right of priority for the registration of a trade mark from the date on which a corresponding application was filed in a "Convention country" ("Convention application") if the application for the registration of the trade mark is filed within 6 months after the date on which the Convention application is made. A "Convention country" refers to a country or territory, other than Singapore, which is a party to the Paris Convention or a member of the World Trade Organisation. For the purpose of assessing the validity of a priority claim, IPOS will assess whether the "Convention application" was filed in a relevant country which has already become a Convention country as at the date of the filing of the Convention application in the Convention country.

For example,

Trademark application filed in country A on 3 Oct 2001.

Country A became a member of the Paris Convention or WTO on 2 Jan 2002.

Trademark application filed in SG = 3 Feb 2002 (claims priority of earlier application in country A).

Question: Is the claim to priority (application filed in country A) in the Singapore application valid?

Answer: No

2004 Circulars

(Application to Register a Change in Ownership (TM 22), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 3/2008, dated 1 February 2008)

(Application to Register a Licensee (TM 37), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 24/2007, dated 29 June 2007)

(Marks published for opposition purposes, Circular No. 16/2004, dated 2 July 2004. This circular is replaced by Circular No. 8/2009, dated 3 July 2009).

Applications for registration of sound marks (Circular No. 25/2004, dated 17 December 2004)

To assist the Registrar in the examination of applications for registration of sound marks, the Registrar may request the applicant to submit 2 copies of a CD-ROM recording of the sound mark sought for registration.

2005 Circulars

(Translation of Non-English words, Circular No. 4/2005, dated 30 March 2005. This circular is replaced by Circular No. 17/2007, dated 7 May 2007)

Amendment of Typographical Errors in Class Numbers in Form TM 4 (Circular No. 21/2005, dated 21 October 2005)

An amendment of the class number in Form TM 4 may be amended by lodging Form TM 27 with fee for each amended class of goods / services, but only if

- (i) a re-search in the new amended class revealed no prior conflicting marks;
- (ii) all of the items in the specification did not fall under the class as filed but in one other class; and
- (iii) that mistake was obvious to a third party inspecting the Register.

Three examples have been provided for illustrative purposes.

Example 1:

An application was filed in Class 5 in respect of "clothing, hats and shoes". An amendment of the class number from "5" to "25" would be allowed.

Example 2:

An application was filed in Class 5 in respect of "all goods in this class". An amendment of the class number from "5" to "25" would not be allowed because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. It was possible that the applicant intended to claim all goods in Class 5.

Example 3:

An application was filed in Class 5 in respect of "clothing, hats and pesticides". An amendment of the class number from "5" to "25" would not be allowed, even with the deletion of the item, "pesticides" because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. Since "pesticides" was correctly claimed in Class 5, it was possible that the applicant intended to claim "pesticides" in Class 5 but had incorrectly classified "clothing and hats" in Class 5 as well. It would be necessary for the applicant to file a fresh application in Class 25 in respect of "clothing and hats".

Trade Marks Act (Chapter 332) (2005 Revised Edition) (Circular No. 24/2005, dated 16 December 2005)

Pursuant to Order Under Section 11(3) of the Revised Edition of the Laws Act (Chapter 275) [S 467/2005], the Trade Marks Act (2005 Revised Edition) came into operation on 31 July 2005.

Statutes (Miscellaneous Amendments) (No. 2) Act 2005 (Act No. 42 of 2005) (Circular No. 25/2005, dated 23 December 2005)

Section 21 of the Statutes (Miscellaneous Amendments) (No. 2) Act 2005 which amends the Trade Marks Act will come into operation on 1 January 2006.

A summary of some of the amendments to the Trade Marks Act (Cap. 332, 2005 Ed.) are:

(a) Convention country

The definition of "Convention country" in section 2(1) is amended to provide that except in section 10 and paragraph 13 of the Third Schedule (claiming priority) "Convention country" includes Singapore.

(b) Examination of application for registration

An application for registration will be treated as withdrawn if the applicant fails to respond to the Registrar's queries or objections regarding the registrability of the trade mark within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(c) Collective marks

An application for registration of a collective mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar's queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(d) Certification marks

An application for registration of a certification mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar's queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

Trade Marks (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

Trade Marks (International Registration) (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

The above Notifications were gazetted on 28 December 2005 and it declared that the Trade Marks (Amendment) Rules 2005 and Trade Marks (International Registration) (Amendment) Rules 2005 would come into operation on 1 January 2006.

Trade Marks (Amendment) Rules 2005

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 7 : Service of documents

Non-fee bearing documents (except documents pertaining to hearings) may be sent to the Registry by facsimile transmission. However, each facsimile transmitted document must be legible and the responsibility for ensuring legibility rests with the sender.

(b) Rule 9 : Address for service

An address for service indicated on Form TM 19 and Form TM 24 is effective only for renewal matters and does not become the proprietor's address for service for all other matters pertaining to that trade mark.

(c) Rule 21 : Deficiencies in application

The amendment clarifies the actions that will be taken by the Registry if minimum filing requirements are not met.

(d) Rules 32, 33, 34 : Extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings

The second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings have to be made on Form TM 50, for which a fee will be imposed.

(e) Rule 50 : Notice of renewal

The Registrar's notice to the proprietor informing him of the date of expiry of the trade mark registration will be sent to the proprietor's address for service for renewal purposes, that is, the address for service indicated on Form TM 19 or Form TM 24, if one has been lodged, or if none, to the proprietor's address for service.

(f) Rule 77B : Restoration of applications treated as withdrawn

Applications which are treated as withdrawn under the Act or Rules by reason that the applicant has failed to do any act on time may be restored by filing Form TM 40 with fee within three months from the date of the Registrar's notice informing the applicant of that fact.

(g) Removal of Forms TM 9, TM 14, TM 15 and TM 16

Forms TM 9, TM 14, TM 15 and TM 16 have been removed and Forms TM 4, TM 11, TM 12 and TM 13 respectively will be used in their place.

Trade Marks (International Registration) (Amendment) Rules 2005

The following is a summary of some of the amendments in the Trade Marks (International Registration) (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 5 : Specification of Goods/Services

The amendment clarifies that the Registrar is entitled to raise an objection against vague terms in the specification of goods / services of an International Registration designating Singapore.

(b) Rule 28 : Notification to International Bureau

The amendment clarifies that in relation to an international application, the Registry will notify the International Bureau where the basic application is treated as withdrawn and is not restored in accordance with the Trade Marks Rules.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 1 January 2006. A separate edition of the Trade Marks Journal containing a consolidation of forms to be used in proceedings before the Registrar will be available online at www.ipos.gov.sg from 30 December 2005.

The changes made to the forms are as follows:

- (a) All forms have been amended to incorporate information on the estimated time needed to complete the form.
- (b) Amendments have also been made to Forms TM 1, TM 4, TM 11, TM 12, TM 13, TM 19, TM 22, TM 24, TM 37 and MP 1.
- (c) Form TM 4, TM 11, TM 12 and TM 13 will now be used in place of Forms TM 9, TM 14, TM 15 and TM 16 respectively.
- (d) The Trade Marks (Amendment) Rules 2005 also introduce:
 - I. Form TM 40 for restoration of an application treated as withdrawn. The fee for this form is \$130; and
 - II Form TM 50 for second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation proceedings. The fee for this form is \$100 in respect of each trade mark.

2006 Circular**The State of Incorporation** (Circular No. 30/2006, dated 27 October 2006)

Please note with respect to companies incorporated in the United States of America, the state of incorporation must be indicated on all trade marks forms. This is because companies incorporated in different states of America are separate and distinct legal entities.

If the state of incorporation of a United States of America company is not indicated on Form TM 4, a Form TM 26 will be required for the insertion of the state of incorporation.

2007 Circulars

Trade Marks (Amendment) Act 2007 (Act No. 3/2007) (Circular No. 7/2007, dated 14 February 2007)

The Trade Marks (Amendment) Act 2007 has been passed by Parliament on 22 January 2007 and has received Presidential assent on 1 February 2007.

Some of the key amendments include:

Provision for multiple class registration

Registration for trademarks is presently based on single classes. The amendments will now allow for a multi-class registration. A multi-class registration allows for one single application in multiple classes of goods and services to lead to one registration. Upon registration, the registration is maintained as one, resulting in the need to renew only once for the renewal to be effective for all the classes of goods and services registered.

Division of an application for registration

To complement a multiple-class system, it is now possible to divide a trademark application into two or more applications. A trademark applicant may divide up his application into two or more applications so that those classes of goods or services that do not face opposition or objection can proceed to registration first. Division will therefore expedite trademark registration where appropriate.

Relief Measures for Procedural Oversight

The Act also provides for relief measures to alleviate procedural mistakes by trademark applicants, notably missed time limits. The relief measures provide the avenue for a trademark applicant to maintain the rights in an application that has been filed, even when time limits have been missed.

Registration of Licence of Pending Trademarks

The amendments will now allow for registration of licences relating to pending trademarks. Prior to the amendments, only licences relating to registered trademarks can be recorded on the register.

The Trade Marks (Amendment) Act 2007 will come into operation on a date to be notified.

A copy of the Trade Marks (Amendment) Act 2007 can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Cautionary Notice on Unsolicited Mail about Unofficial Registration Services (Circular No. 13/2007, dated 11 April 2007)

It has been brought to our attention that trade mark proprietors and/or agents whose trade marks have been published in recent IPOS Trade Marks eJournals are receiving letters from companies for payments for unofficial registration services.

These companies use names, abbreviations or emblems that appear to be “official” and send out letters which resemble invoices to trade mark proprietors and/or agents with details of the proprietor, the trade mark, class(es) of goods or services, etc. These companies will offer to register marks in registers or publications for a fee, and in return, claim they will send the respondent a copy of the publication.

Please treat such letters as unsolicited mails. These companies are neither related to nor connected with IPOS. There is no obligation to pay for such services as they are not official services.

The only office constituted under Singapore laws that provides registration services for trade marks in Singapore is our office, the Intellectual Property Office of Singapore (IPOS).

Upon receiving such letter or invoice, if you are in any doubt, please consult your trade mark agent, your lawyer, or email us for clarification.

Amendments to the Trade Marks Act, the Trade Marks Rules and the Trade Marks (International Registration) Rules (Circular No. 17/2007, dated 7 May 2007)

The Trade Marks (Amendment) Act 2007, the Trade Marks (Amendment) Rules 2007 and the Trade Marks (International Registration) (Amendment) Rules 2007 have been gazetted and will come into force on 2 July 2007.

The (Amendment) Act and (Amendment) Rules can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Trade Marks (Amendment) Rules 2007

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2007:

(a) Rule 17 : Division of applications for registration

An application for registration may be divided, at the request of the applicant, into 2 or more separate applications for registration. The request for division is to be made on Form TM 8 and a fee of \$280 is chargeable for each new divisional application created.

(b) Rule 22 : Amendment of application

Form TM 27 (Request to change the details of an application for registration) will no longer be used. In its place are Forms TM 27A and TM 27B. Form TM 27A is chargeable on a per class basis while Form TM 27B is chargeable on a per trade mark basis.

Form TM 27A is to be used for amendments pertaining to the class number, the specification of goods or services to which the application for registration relates, or the particulars of any claim to a right of priority included in the application for registration.

Form TM 27B is to be used for any other amendment not involving the above.

(c) Rule 56 : Application to alter registered trade mark

The proprietor of a registered trade mark may apply to the Registrar on Form TM 27B for alteration of the registered mark. Form TM 35, the form which is currently used, will no longer be used as from 2 July 2007.

(d) Rule 57 : Rectification of an error or omission in the register

An application to the Registrar for the rectification of an error or omission in the register may be made by the proprietor of a registered trade mark or by any other person.

Where the application is made by the proprietor of a registered trade mark, the amendment shall be made on –

- (a) Form TM 27A, where the amendment pertains to the class number, the specification of goods or services to which the registration relates, or the particulars of any claim to a right of priority;
- (b) Form TM 27B, for any other amendment not involving the above.

Where the application for rectification is made by any other person, the application shall be made on Form TM 28.

(f) Rule 77B : Reinstatement of application, right or thing

Subject to certain exceptions, an applicant, proprietor or other interested person who has missed a time limit for action before the Registry, may apply on Form TM 40 to have his rights reinstated, if:

- 1) the request for reinstatement is made within 6 months from the date of expiration of the time limit;
- 2) the omitted act is completed together with the request; and
- 3) the failure to comply with the time limit is unintentional.

Trade Marks (International Registration) (Amendment) Rules 2005

The Trade Marks (International Registration) (Amendment) Rules 2007 has been amended to make it clear that division does not apply to international registrations designating Singapore.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 2 July 2007. A separate edition of the Trade Marks Journal containing a consolidation of all Trade Mark forms will be available for sale from 29 June 2007.

The changes made to the forms are as follows:

(a) All forms have been amended to indicate whether the fee for that particular form is payable on a per class, per trade mark or per form basis. The fee structure is as shown in the table below.

Per form basis	Per trade mark basis	Per class basis
TM 26	TM 1	TM 4
MP 3	TM 7	TM 11
	TM 10	TM 12
	TM 20	TM 13
	TM 22	TM 19
	TM 27 B	TM 21
	TM 29	TM 24
	TM 30	TM 27 A
	TM 31	TM 28
	TM 33	TM 32
	TM 34	TM 44
	TM 37	TM 45
	TM 38	TM 50
	TM 39	MP 1
	TM 40	MP 2
	TM 42	
	TM 46	

(b) Where fees are payable on a per class basis, such as renewal forms and opposition forms, the class numbers affected by the request, are to be indicated on the form.

(c) Amendments have been made to all forms, with the exception of Form TM 23.

(d) Forms TM 18 and TM 35 have been removed.

(e) Forms TM 8, TM 27A and TM 27B are new.

Translation of Non-English words (Circular No. 17/2007, dated 7 May 2007)

For purposes of rule 20(2), where the mark consists of non-English words, it is not necessary to file with the Registrar a certified translation by a qualified translator. A copy of relevant extracts from relevant dictionaries showing the meaning of each word and the words as a whole in English will be sufficient. However, it will be necessary to indicate on the application form that the mark consists of non-English word/words. A failure to include such an indication on the application form will have to be rectified by the filing of amendment via Form TM 27 with the requisite fee. The applicant should forward to the Registrar the requisite translation and/or the transliteration together with a copy of relevant extracts from dictionaries or relevant certification as soon as possible.

As regards the indication on the application form, it is necessary to submit an accurate and complete translation and/or transliteration of the non-English words in the mark.

Two examples are provided below as illustration.

Example 1:

An application was filed for the mark consisting of three Chinese Characters which is the phonetic equivalent of the Applicant's company name.

菲立士

The transliteration of the Chinese characters of which the mark consists is "Fei Li Shi" which has no meaning and it is the phonetic equivalent of the Applicant's company name "Philips".

An appropriate indication in the Application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below.	
The Chinese characters of which the mark consists is derived from the Applicant's company name i.e. it is the phonetic equivalent of "Philips"	
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows:	
Representation of the words(s)/ characters	菲立士
Language of word(s)/character(s)	Chinese
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Chinese characters as a whole: no meaning. It is the phonetic equivalent of the Applicant's company name "Philips".

		(Enclosed dictionary exact/ Certified translation/ supporting document of the same)	
	Transliteration of character(s)	Transliteration of the Chinese characters: "Fei Li Shi".	

Example 2:

An application was filed for the mark consisting of two Chinese Characters and the word "SINGER" (which is part of the Company name).

勝家
SINGER

Company : THE SINGER COMPANY LIMITED

The transliteration of the Chinese characters appearing in the mark is "Sheng Jia" which has no meaning.

An appropriate indication in the application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below. The Chinese characters "勝家" appearing in the mark is used to denote a brand name of Singer's product.									
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows: <table border="1" style="width: 100%;"> <tr> <td style="width: 50%;">Representation of the words(s)/ characters</td> <td>勝家</td> </tr> <tr> <td>Language of word(s)/character(s)</td> <td>Chinese</td> </tr> <tr> <td>Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole</td> <td> Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole) </td> </tr> <tr> <td>Transliteration of character(s)</td> <td>Sheng Jia</td> </tr> </table>		Representation of the words(s)/ characters	勝家	Language of word(s)/character(s)	Chinese	Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)	Transliteration of character(s)	Sheng Jia
Representation of the words(s)/ characters	勝家								
Language of word(s)/character(s)	Chinese								
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)								
Transliteration of character(s)	Sheng Jia								

Application to Register a Licensee (TM 37) (Circular No. 24/2007, dated 29 June 2007)**(i) Processing Of An Application To Register A Licensee (TM 37)**

An application to register a licence (Form TM 37) filed on or after 2/7/2007, will be processed by the Registry even though the status of the mark is still pending registration. However where the application to register a licence (Form TM 37) was filed before 2/7/2007, it will be processed only after the mark has been registered.

(ii) Licence Commencement Date

The licence commencement date (i.e. the date entered in Part 5 of TM 37) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1/7/2004, the earliest licence commencement date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1/7/2004, the earliest licence commencement date is the trade mark application date.

(iii) Exclusive Licence Periods Do Not Overlap

Where there are 2 exclusive licences or more, the licence periods involving the same goods or services should not overlap.

(iv) Licensed Goods/Services Should Not Be Wider Than Trade Mark Application/Registration

The list of licensed goods or services (Annex of TM 37) should not be wider than those under the trade mark application/registration.

Deficiencies in applications for registration : amendments after filing (Circular No. 28/2007, dated 27 July 2007)

The Registrar has been conducting formalities check on all applications for registration to ensure that they contain all formal requirements under the Trade Marks Act.

Where the application does not comply with the requirements which are essential for a filing date to be accorded, the filing date will not be accorded until all the deficiencies have been rectified. In such cases, the application will be accorded the earliest date on which all essential requirements for filing date are complied with. There is no need for the correction to be accompanied by the relevant amendment form. The essential requirements for filing date are spelt out in section 5(2) and (3) of the Trade Marks Act.

In respect of other deficiencies or irregularities that do not affect the filing date, amendments must be effected through the lodgement of the relevant trade mark forms, such as Form TM 27A, Form TM 27B and Form TM 26.

This practice pertains only to new applications filed with effect from 01 August 2007.

The Geneva Conventions (Amendment) Act (Circular No. 40/2007, dated 5 December 2007)

The Geneva Conventions (Amendment) Act was passed in Parliament on 12 November 2007. Under the Act, the following emblems may not be used in Singapore, unless approval is given by the Ministry of Health:

- Red Cross emblem
- Red Crescent emblem
- Red Crystal emblem
- Red Lion and Sun emblem

			
Red Cross emblem	Red Crescent emblem	Red Lion and Sun emblem	Red Crystal emblem

With the commencement of the Act, the Registrar will object to trade mark applications consisting of or containing these emblems or emblems closely resembling them, under Section 7(5) of the Trade Marks Act, unless consent from the Ministry of Health is furnished. This is so even for applications lodged before the effective date of the Act.

Proprietors of registered trade marks containing or consisting of such emblems, or emblems closely resembling them, should note that in spite of their registration, they have one year from 12 November 2007 to cease using the emblems.

2008 Circulars

Image of e-filed mark (Circular No. 11/2008, dated 4 July 2008)

IPOS has encountered certain electronic trade mark applications which have images of marks that have jagged and blurred edges in our database and the images of the mark will not appear as clear as intended by the applicants in the trade mark journal and certificate of registration. The reason for the blurred image of marks is that applicants attach images of the marks with a lot of background or blank space. To ensure that such images are not too small for viewing purposes, IPOS has to make adjustment to the marks which then result in blurred images.

In order to ensure that the image of mark is accurately captured by IPOS, applicants should crop the mark with little background or blank space and save the image as approximately 480 x 480 pixel. This will remove the need for IPOS to make adjustment to the image in the publication and the registration certificate and the applicant can then obtain clear and accurate image of the mark.

(Translation Clause, Circular No. 12/2008, dated 11 July 2008. This circular was removed on 1 August 2008)

Return of assignment deeds and other registrable transaction documents (Circular No. 14/2008, dated 26 September 2008)

The Registry will stop its practice of returning deeds of assignment and other documents lodged in support of applications for transfer of ownership and recordal of other registrable transactions.

However, should the applicant wish for the return of such documents, he may make his request known at the time of lodgement of the recordal application on a covering letter accompanying the application to that effect. The letter shall provide contact details so that the Registry may make the necessary arrangements for the return of the documents. This practice will affect all applications lodged on or after 1 October 2008.

Launch of e-Communications Portal on 1 December 2008 (Circular No. 17/2008, dated 28 November 2008)**Trade Marks (Amendment) Rules 2008; Trade Marks (International Registration) (Amendment) Rules 2008** (Circular No. 17/2008, dated 28 November 2008)

IPOS will launch the e-Communications Portal on 1 December 2008. The e-Communications Portal is an electronic online system developed by IPOS for the main purpose of facilitating the sending, receipt and exchange of all correspondence, relating to trademark applications and prosecutions, between IPOS and registered account holders. The following firms and companies will be taking part in the pilot scheme that is scheduled for the initial period of 6 months.

DREW AND NAPIER LLC
DONALDSON & BURKINSHAW
ELLA CHEONG SPRUSON & FERGUSON (SINGAPORE) PTE LTD
ALLEN & GLEDHILL LLP
RODYK & DAVIDSON LLP
WONG & LEOW LLC
AMICA LAW LLC
LLOYD WISE
ALBAN TAY MAHTANI & DE SILVA
ONE LEGAL LLC
PATRICK MIRANDAH CO. (S) PTE LTD
HAQ & SELVAM
NAMAZIE & CO
TITO ISAAC & CO LLP
PHILIPS ELECTRONICS SINGAPORE PTE LTD
SAMUEL SEOW LAW CORPORATION

The Trade Marks Rules have been amended to give effect to the sending, receipt and exchange of correspondence via the e-Communications Portal. In particular, the changes in the Rules will:-

- (a) provide for service of documents by the Registrar as well as by applicants by electronic communication through the e-Communications Portal;
- (b) provide for the sending of a true and complete image of the original paper document by electronic communication through the e-Communications Portal for documents that are required to be signed, made on oath or affirmed or are required to be attested;
- (c) provide for the extension of deadlines that fall on excluded days in spite of the availability of the e-Communications Portal;

- (d) treat the date of receipt of documents received by IPOS as the day on which the documents are received by IPOS as long as the time of receipt is before the midnight of the day.

It is to be noted that applicants must still comply with the requirement to provide an address for service under rule 9. The electronic address of these persons, if they are using the eCommunications Portal to send documents to and receive documents from the Registrar, is not intended to be part of their address for service. However, service of documents by electronic communication through the eCommunications Portal is intended to be valid service notwithstanding that there is an address for service filed in accordance with rule 9.

The Trade Marks (International Registration) Rules have also been amended to permit the use of one Form for multiple classes of goods or services for Forms for use in opposition, namely Form TM 11 and Form TM 12.

A copy of the Trade Marks (Amendment) Rules 2008 and the Trade Marks (International Registration) (Amendments) Rules 2008 are available for sale at SNP Corporation Ltd. (<http://www.snpcorp.com/webshop/>).

Application for Renewal of Registration (Form TM 19) (Circular No. 18/2008, dated 12 December 2008)

With effect from 1st January 2009, the Registrar will not be issuing renewal certificates confirming that a mark has been renewed. This is applicable to all applications for renewal of registration (Form TM 19) lodged on or after 1st January 2009.

For applications for renewal made online, the renewal will be processed instantaneously and an acknowledgement of the renewal showing the extended expiry date will be displayed for printing. These acknowledgements of renewal will remain available for printing for a period of one month from the renewal application date. In very limited circumstances, such as where there are pending applications affecting the validity of the trade mark, instant renewal will not be possible and the applicant will be notified that the acknowledgement of renewal will be posted in due course.

Where the application for renewal is posted or submitted over the counter, the applicant will not be receiving any acknowledgement from the Registry. The onus will be on the applicant to check the expiry date of the mark at www.etrademarks.gov.sg within 2 weeks of lodgement of the application for renewal of registration (Form TM 19) to confirm that the expiry date has been extended by the Registry. If the expiry date has not been extended, applicants are advised to contact our Renewal Officer at 63302 707 immediately for assistance.

This change in practice does not apply to Late Application for Renewal of Registration (Form TM 24) and Application for Restoration and Renewal of Registration Removed from the Register (Form TM 21).

To reflect the change in practice in Form TM 19, an information note has been incorporated into the form. This revised form should be used from 1st January 2009.

A copy of the revised Form TM 19 will be available for downloading by end of December 2008 at www.ipos.gov.sg.

2009 Circulars**Trade Marks Work Manual** (Circular No. 5/2009, dated 24 April 2009)

The Registry of Trade Marks has added six new chapters to the existing Trade Marks Work Manual. The six new chapters cover the following topics:

- (1) Marks contrary to public policy or morality;
- (2) Names and representation of famous people, building, etc;
- (3) Other grounds of refusal;
- (4) Deceptive marks;
- (5) Licences; and
- (6) Slogans.

You may access the Trade Marks Work Manual online at:

<http://www.ipos.gov.sg/leftNav/tra/IP+Resources.htm>

Marks published for opposition purposes (Circular No. 8/2009, dated 3 July 2009)

The following types of publication in the Trade Marks Journal are subjected to opposition:

	Notice of Opposition via <u>Form</u>
1) Application published before registration;	TM 11
2) Collective or certification marks published before registration;	TM 11
3) Alteration to registered marks;	TM 11
4) Amendment to regulations governing use of collective or certification marks;	TM 11
5) Application amended after publication	TM 11

With respect to items 3)-5), the ground(s) stated in the Notice of Opposition must be confined strictly to the alteration or amendment. The Notice of Opposition must be lodged within 2 months from the date the alteration or amendment is published in the Trade Marks journal. If an extension of time to file the notice of opposition is required, the request must be filed using Form TM 48 within 2 months from the date of publication of the alteration or amendment. The maximum extension of time for filing Notice of Opposition is 4 months from the date of publication of the alteration or amendment. Rules 29(2) to (8) and 31 to 40 apply to these oppositions with the necessary modifications.

Costs for attending Case Management Conferences and Pre-Hearing Reviews (Circular No. 10/2009, dated 28 August 2009)

In opposition, invalidation and revocation proceedings for trade mark applications or registrations, the Registrar has, as a matter of course, directed parties to attend case management conferences and pre-hearing reviews at the appropriate time for the purpose of achieving a just, expeditious and economical disposal of the matter pursuant to the power conferred on the Registrar in the Trade Marks Rules. The Registrar will treat the costs for attending such case management conferences and pre-hearing reviews in the same vein as for attending interlocutory hearings, which costs may be included as party and party costs under rule 73 of the Trade Marks Rules to be awarded to the successful party at the end of the proceedings.

B) PERTAINING TO COLLECTIVE AND CERTIFICATION MARKS**Pre-2004 Circular****Publication of Collective Mark and Certification Mark Applications**

Collective mark and certificate mark applications are published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "Collective and Certification Marks Applications Published for Opposition Purposes". Pursuant to the First and Second Schedules of the Trade Marks Act (Cap. 332, 1999 Ed.), the Regulations governing the use of the collective and Certification Marks are available for inspection at the Registry of Trade Marks.

2004 Circular

Regulations Governing the Use of Certification/Collective Marks (Circular No. 7/2004, dated 19 March 2004)

The filing with the Registrar of regulations governing the use of certification or collective marks under rule 63 of the Trade Marks Rules must be accompanied by Form TM 10. Regulations filed without Form TM 10 will not be recognised and will be returned. The filing of TM 10 without regulations attached will also be rejected.

C) PERTAINING TO FORMS**Pre-2004 Circular****Form TM 26**

A request to change the name, address or other particulars (except trading nature) of an applicant for registration, proprietor of a registered trade mark or other interested person, where the change does not affect the representation of the trade mark, should be made on Form TM 26.

2004 Circulars**Form TM 26 Notification Letter** (Circular No. 8/2004, dated 26 March 2004)

Please note that the main purpose of the Notification Letter is to inform as to the fact that the name and/or address of the applicant/proprietor has/have been updated. Thus, the Notification Letter cannot be treated as conclusive as to the status of marks reflected therein.

Where there is no reply within the given period to our latest examination report, an application will be updated as abandoned notwithstanding any interim Notification Letter from the Registrar.

Form TM 1 [Request to appoint or change an agent or to enter or change an address for service] (Circular No. 18/2004, dated 30 July 2004)

One Form TM 1 may be used for multiple trade mark numbers. However, the fee for this form is still charged on a per trade mark number basis unless the request is to alter an agent's name and/or address for service which does not affect the legal entity of the agent. In such a case, only a single set of fee is payable.

Kindly note that it is not necessary to lodge Form TM 1 together with forms such as TM 4, TM 9, TM 11, TM 14, TM 19, TM 22, TM 24, TM 26, TM 28, TM 29, TM 37 and TM 48 as each of these forms contains a section for the indication of an address for service.

2006 Circular**Erratum - Form TM 40** (Circular No. 1/2006, dated 13 January 2006)

Please note that the title of Form TM 40 should read as "REQUEST FOR RESTORATION OF APPLICATION TREATED AS WITHDRAWN" and Part 2 of the Form should read as "Particulars of applicant/registered proprietor". Please visit IPOS website at <http://www.ipos.gov.sg> to download the corrected Form TM 40.

2007 Circular**Form TM 32** (Circular No. 32/2007, dated 21 September 2007)

Part 4 of Form TM 32 which used to read as "Goods or services to be cancelled" has been amended to "Goods or services to remain". The amendment is to ensure that there is clarity in the residual specification. Please visit IPOS website at <http://www.ipos.gov.sg> to download the amended Form TM 32.

The Registrar will reject the old Form TM 32 (V02/01/07) with effect from 1 October 2007.

It is also to be noted that Form TM 32 is the appropriate Form to file to effect any amendment to specifications of goods or services of registrations that has the effect of cancelling some goods or services or narrowing down the specifications. For example, Form TM 32 is to be filed to effect an amendment from "books" in Class 16 to "books *relating to business management*" in Class 16.

2008 Circular**Application to Register a Change in Ownership (TM 22)** (Circular No. 3/2008, dated 1 February 2008)**i)Effective Date when Subsequent Proprietor/Applicant for Registration Took Ownership**

The effective date when the subsequent proprietor/applicant for registration took over ownership (i.e. the date entered in Part 4 of Form TM 22) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1 July 2004, the earliest assignment effective date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1 July 2004, the earliest assignment effective date is the trade mark application date.

ii)Address for Service of Subsequent Proprietor/Applicant for Registration

The address for service entered in Part 5 of the Form TM 22 is effective for all proceedings in respect of the trade mark including the subject application for change of ownership. As such, there is no need to lodge Form TM 1 together with Form TM 22 for this purpose.

Form TM 1 will be required only if:-

- a. there is a change of agent whilst the TM 22 is being processed; or
- b. the agent will not be continuing to act for the subsequent proprietor / applicant for registration after TM 22 is recorded.

Such Form TM 1 appointing the agent solely for "Assignment" matters (Part 3 of Form TM 1) will not be processed until a subsequent Form TM 1 appointing an agent for "Application for registration / Registration" is received.

iii)Correction of Errors in Relation to a Recorded Change of Ownership

Once a change in ownership has been recorded according to the request, should the owner need to correct any errors in the recorded details, Form TM 27B is required. Should the assignment(s) need to be re-recorded and re-examined, the relevant Form TM 22 with fees will need to be re-lodged.

iv)Covering Letter

To ensure that the transactions are recorded accurately, please lodge a covering letter stating :-

- a. the sequence of events;
- b. the exact nature of the transaction, and
- c. the trade mark numbers involved.

When e-filing, a covering letter can be attached via the “covering letter” button for eTM 22 and 27B.

2009 Circulars**eCommunications** (Circular No. 2/2009, dated 27 February 2009)

The Registry has been receiving Trade Mark Forms via the eCommunications portal. Please note that this portal is to facilitate the exchange of correspondences only. All forms should be either eFiled, submitted over the counter or posted to us.

Enhancements made to eTM 22 (Application to register a change of ownership)

(Circular No. 4/2009, dated 27 March 2009)

With immediate effect, users may file up to 50 trade mark numbers in one eTM 22 (Application to register change of ownership) form provided that all the trade mark numbers belong to the same assignor under the same IPOS assigned company code. A link is included in the eForm to a search page allowing applicants to check their company code.

Efiling multiple assignment applications (Circular No. 4/2009, dated 27 March 2009)

This is to inform users that eTrademarks may be used to efile multiple assignment applications. So long as there exists a prior assignment application which has not yet been recorded by the Registry, when the user attempts to efile a subsequent assignment application, the field under "Current Proprietor's details" is intentionally left blank by the system for the user to enter the correct details. For example in the case of an assignment from A to B (1st TM 22), and then from B to C (2nd TM 22), the user will have to input B's details manually when efile the second TM 22.

Form TM 4 - Application to register a trade mark, collective mark or certification mark
(Circular No. 9/2009, dated 21 August 2009)

Form MP 1 - Request to transform an international registration into national application(s) (Circular No. 9/2009, dated 21 August 2009)

With effect from 15/09/2009, an Application to register a trade mark, collective mark or certification mark and a Request to transform an international registration into national application(s) must be made on version V05/01/09 of Form TM4 and MP 1 respectively. The corresponding electronic Form TM 4 available on eTrademarks will also be amended on the same day. The changes are found at Annex A of both forms and pertain to the information to be provided when making a priority claim.

Annex A

Annex A is amended so that where the priority claim is not in respect of all the goods or services claimed in the class, the applicant is to state the goods or services in respect of which priority is claimed. This amendment is to ensure that there is clarity in the scope of the priority claim.

D) PERTAINING TO eTRADEMARKS**Pre-2004 Circular****New Features of IPOS' eTrademarks Services****(1) Generation of Check Digit/Year of Trade Mark Numbers**

A new eService for the generation of year/check digit of Trade Mark Number is added to IPOS Online Transactions. This eService has two fields for entry. One is for the old TM No format while the other is for the new TM No format. For the old TM No format, both the year and the check digit would be generated. For the new TM No format, the check digit will be generated.

This eService is already available.

(2) Attachment for Form TM26

The eService for Form TM26 has been enhanced. As filing of Form TM26 usually requires a covering letter to list the TM numbers and sometimes to explain a certain situation, it can only be submitted through the counter. With this enhancement, when a Form TM26 is submitted, it allows for a covering letter to be attached to the said form. This is to facilitate the filing of Form TM26 through eTrademarks.

This eService is already available.

(3) Filing of mark in colour or greyscale

With effect from 1 November 02, eTrademarks will be accepting colour or greyscale attachments for marks filed for Forms TM4 and TM9 in addition to the current black and white. Marks filed in colour or greyscale would be printed in greyscale for the Acknowledgement Letter, Trade Marks Journal and Certificate of Registration. Please note that viewing and printing of the mark images from the Enquiry System would still be in black and white.

(4) "Save/Save As" feature

The "Save/Save As" feature has been implemented on 4 December 02, from 10am onwards. This feature would be available for Forms TM4 and TM9. Any application that is saved would be kept in IPOS' system for 3 working days excluding the current day. All saved documents residing in IPOS' database for more than 3 working days would be removed.

(5) Display Mark Image

The "Display Mark Image" feature has been implemented on 4 December 02, from 10am onwards. Mark images attached to Forms TM4 and TM9 will be displayed for viewing.

2004 Circular

Online Trademarks Search and Enquiry System (Circular No. 4/2004, dated 6 February 2004)

The Intellectual Property Office of Singapore is pleased to announce that its eTrademarks Search has been made available from 30 January 2004.

The following search services have been made available through the system:

Search for similar marks;

Search for marks belonging to a proprietor;

Search for mark detailed information, registered marks, pending marks, certification marks, collective marks, expired marks, cancelled marks, expired marks, withdrawn marks, abandoned marks, expunged marks, refused marks, destroyed marks and article 6ter based on relevant periods.

The services will be offered free of charge.

To access this service, please log on to the eTrademarks webpage and click on the eTrademarks Search link.

E) PERTAINING TO INTERNATIONAL APPLICATIONS AND REGISTRATIONS UNDER THE MADRID PROTOCOL**Pre-2004 Circulars****Singapore's Accession to the Madrid Protocol**

Singapore acceded to the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Madrid Protocol) on 31 July 2000. The Madrid Protocol came into operation in Singapore on 31 October 2000.

Publication of International Registration Designating Singapore for Opposition Purposes

International registrations designating Singapore under the Madrid Protocol are treated in the same manner as Singapore national applications, and are therefore published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap. 332, 1999 Ed.)". Unlike Singapore national applications, they are not published according to the class of goods or services, but are published according to the international registration number.

Request for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore

Such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) using WIPO's prescribed Form MM9(E). Form TM 26 is not the relevant form to be used.

Form MM9(E) is available for downloading at www.ipos.gov.sg

2004 Circulars**Issuance of Registration Certificates for Protected International Trade Marks (Singapore)** (Circular No. 13/2004, dated 18 June 2004)

The Registrar has received queries as to whether IPOS issues registration certificates for protected international trade marks (Singapore). Please note that IPOS does NOT issue such certificates.

Under the Madrid Protocol, an Office which has examined an international registration in which it is designated and found no grounds for refusal may issue a statement of grant of protection. However, it is not obliged to do so and no legal consequences follow from the fact that no such statement is given. Further, such statements will only be issued if it is still within the 18-month time limit from the date of notification of the international registration. Where no such statements are issued, by the end of the 18-month time limit, the international registration will be regarded as protected in Singapore. In the Singapore context, IPOS does issue such statements, as a matter of customer service, if at the time of issuance, it is still within the said period.

In cases where a provisional refusal or a provisional refusal based on opposition has been issued, a confirmation or withdrawal of such a provisional refusal in the form of a letter of final decision in accordance with Rule 17(5) of the Common Regulations under the Madrid Agreement and Protocol relating to the Madrid Agreement concerning the International Registration of marks will be sent to the International Bureau, who will in turn transmit a copy to the holder of the international registration.

Requests for Recording of Changes in the Ownership of the International Registrations Designating Singapore or where Singapore is the Office of Origin (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM5(E). Form MM5(E) is available for downloading at www.ipos.gov.sg

Form TM 22 should not be lodged for such recordation of change in ownership.

Where Singapore is the Office of Origin, requests for recording of changes in the ownership must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. However, Form TM 22 may be lodged (if appropriate) to record the change in ownership of the basic application or basic registration.

Requests for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore or where Singapore is the Office of Origin (this serves to replace an existing pre-2004 circular in the journal) (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM9(E). Form MM9(E) is available for downloading at www.ipos.gov.sg

Form TM 26 should not be lodged for such recordation of change in name and/or address.

Where Singapore is the Office of Origin, requests for recording of changes in the name and/or address of the holder must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. In such a case, TM 26 should be lodged to amend the change in name and/or address of the basic application or basic registration.

Requests for Designation Subsequent to the International Registration (Circular No. 21/2004, dated 19 November 2004)

In accordance with Rule 24 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM4(E). Form MM4(E) is available for downloading at www.ipos.gov.sg

2005 Circulars

Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore (Circular No. 21/2005, dated 21 October 2005)

Pursuant to Rule 20bis(6)(b) of the Common Regulations under the Madrid Protocol, Singapore has notified the Director General of the World Intellectual Property Organisation on 21 March 2002 that Singapore law would not give effect to the recording of trade mark licenses in the International Register. Accordingly, any recording of a license made under Rule 20bis(3) of the Common Regulations will have no effect on any International Registration designating Singapore. However, the holder of such an International Registration may still record the relevant license with IPOS by lodging Form TM37, and the fee of S\$60 per class of goods or services.

2007 Circular

(Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters, Circular No. 42/2007, dated 28 December 2007. This Circular is replaced by Circular No. 1/2008, dated 11 January 2008)

2008 Circulars**Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters** (Circular No. 1/2008, dated 11 January 2008)

With effect from 1 January 2008, there will be some amendments to the Administrative Instructions for the Application of the Madrid Agreement Concerning the International Registration of Marks and the Protocol Relating Thereto ("AI"). The amendments are necessary for the implementation of a more broad-based electronic communications platform for the benefit of users of the Madrid system.

The AI can be found here (http://www.wipo.int/madrid/en/legal_texts/admin_instructions.htm) and the International Bureau's ("IB") notification of the amendments can be found here (http://www.wipo.int/edocs/madrdocs/en/2007/madrid_2007_20.doc).

Please note that under the new Section 19 of the AI, fees payable to the IB must be made

- i. by debit to a current account with the IB,
- ii. by payment into the Swiss postal account or to any of the specified bank accounts of the IB, or
- iii. by credit card, where, in the context of an electronic communication envisaged in Section 11, an electronic interface for online payment has been made available by the IB.

The previous modes of payment by cash at the IB and by a banker's cheque would no longer be available.

Please note that while Section 19 now provides that in the context of electronic communications, fees due to the IB may be paid by credit card only in relation to specific types of transaction or request in respect of which a dedicated electronic interface has been provided, the IB has advised that this mode of payment by credit card would not be applicable to the filing of international applications.

If you are filing an international application through IPOS on and after 2 January 2008, please note that our previous primary mode of payment to the IB via a banker's cheque is no longer available in light of the changes in the AI. Instead, your payment in Swiss Francs to the IB can be made by either options (i) or (ii) as stated above.

Current Account

If you conduct regular monetary transactions with the IB, you may opt to open a current account with them. Please see

http://www.wipo.int/madrid/en/guide/part_d/pdf/account.pdf for details.

Bank Transfer

We envisage that the majority of applicants and agents are likely to use bank transfers under (ii) as the preferred mode of payment. Details of WIPO's postal account and bank account are as follows:

WIPO bank account
IBAN No. CH51 0483 5048 7080 8100 0
Credit Suisse, CH-1211 Geneva 70
Swift/BIC: CRESCHZZ80A

WIPO postal account
IBAN No. CH03 0900 0000 1200 5000 8
Swift/BIC: POFICHBE

The above account details are found on page 6 of the Form MM2(E).

To confirm that the payment has been made, the applicant must indicate the payment details of the bank's transfer transaction in the appropriate space provided in IB's Form MM2(E) Application for International Registration Governed Exclusively by the Madrid Protocol at the time of filing. You must also provide us with a photocopy of the bank's transaction advice.

If you have any queries regarding the above, please do not hesitate to call our Customer Service Officer at 6339 8616 or email us at ipos_enquiry@ipos.gov.sg.

Requests for Recording of a Renewal for International Registrations where Singapore is the Office of Origin (Circular No. 5/2008, dated 22 February 2008)

For an international registration where Singapore is the Office of Origin, a request for the recording of a renewal may be made by the holder or his agent upon payment of the relevant fees in Swiss Francs to WIPO via any of the following ways:-

(a) lodgement of WIPO's Form MM11(E) or an official letter from the holder indicating the necessary information (number(s) of the international registration(s) concerned and the purpose of the payment);

<http://www.wipo.int/madrid/en/forms/>

(b) lodgement done online at WIPO Marks E-Renewal System portal
<http://www.wipo.int/madrid/en/services/>; or

(c) lodgement of Form MM11(E) or the official letter mentioned under (a) through IPOS, together with a separate fee of S\$85 for handling the renewal request.

Kindly note that the above renewal is only effective for the international registration. Holders should lodge IPOS Form TM 19 in order to renew the Singapore basic registration, if necessary.

With regard to the renewal of an international registration where Singapore is *not* the Office of Origin, even if Singapore had been designated, such a request must be effected via (a) or (b). It is also possible to do so via the Office of Origin of that international registration provided that that Office of Origin has agreed to collect the renewal fees and forward them to WIPO.

We wish to emphasise that IPOS Form TM 19 must not be lodged for the renewal of any international registrations designating Singapore. Only WIPO would be able to process the renewal of that international registration.

E-Payments to the World Intellectual Property Organization (Circular No. 19/2008, dated 26 December 2008)

The World Intellectual Property Organization (WIPO) has introduced an E-Payment Service at <https://webaccess.wipo.int/epayment/>, which allows payment of fees notified in their irregularity letters or other WIPO communications with regard to international applications or registrations.

Payments can be made through the WIPO Current Account or by credit card.

To make payment through the WIPO Current Account, you will be required to provide the userID and the password generated by them for the current account holders. If you do not have a current account, please read Current Account at WIPO at

http://www.wipo.int/resource/en/wipo_account.html for details, on how to open, use or close a current account with WIPO, if you are thinking of opening one.

If you already have a WIPO current account, but do not have a password, please send an email to WIPO at income.accounts@wipo.int, mentioning E-Payment as the subject matter.

To make payment by credit card, please follow the steps in the E-Payment Service. American Express, Mastercard and Visa are acceptable to WIPO.

Unfortunately at this stage, WIPO is still unable to accept payment via credit card for the filing of international applications. For such applications, the only payment modes are via the WIPO Current Account, or the Swiss postal account or any of the specified bank accounts of WIPO.

F) PERTAINING TO THE CLASSIFICATION OF GOODS AND SERVICES**(I) General Information****Pre-2004 Circulars**

(8th Edition of the International Classification of Goods and Services, this circular was removed on 18 January 2008)

Compliance with the International Classification of Goods and Services

To assist the Registrar in expediting the acceptance of trade mark applications for registration, agents are reminded to ensure that the specifications of goods or services set out in the application forms conform with the International Classification of Goods and Services as far as possible. Very often, the Registrar receives applications where the marks are acceptable for registration but the specifications are not in order. This slows down the registration process.

Precedents in Support of Specification

In the examination of the specification of goods or services for compliance with the International Classification of Goods and Services, the Registrar is prepared to rely on precedents relating to Singapore, United Kingdom, Australia and Hong Kong registrations. Applicants and agents are therefore free to file these precedents in support of their specifications of goods and services for the Registrar's consideration.

However, the Registrar would not rely on such precedents in the following situations:

- (a) where the precedent relates to goods or services which have been accepted by the Registrar concerned in the wrong class;
- (b) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change of classes by the Special Union for the International Classification of Goods and Services for the purposes of the Registration of Marks (Nice Union);
- (c) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change or clarification of practice by the Registry concerned.

The use of square brackets [] and round brackets () in specifications

An expression between square brackets is intended to define more precisely the text or item preceding the brackets. Square brackets are used when the item is ambiguous for classification purposes. Round brackets are used to qualify the text or item preceding the brackets to ensure the correct classification. Round brackets are used when it is possible that the item can be classified in various classes depending on the intended goods or services sought to be covered.

Use of the term "Internet" in specifications of goods and services

In view of the widespread use of the term "Internet" in the generic sense, the Registrar will henceforth not raise any objections to the use of the term "Internet" in the specifications of goods and services of Singapore national applications or international registrations designating Singapore.

However, the use of the term “Internet” in specifications of goods and services is generally not encouraged as the word “Internet” is a registered trade mark in some countries and may be objected to by the designated offices of these countries in respect of international applications originating from Singapore filed under the Madrid Protocol. This may arise where the term “Internet” is listed in a Singapore national application or registration and the Singapore national application or registration forms the basis of an international application originating from Singapore under the Madrid Protocol. In the circumstances, it is advisable for applicants to use the term “global communications network” instead.

2004 Circulars

Underlining of precedents for objections on specification of goods / services (Circular No. 19/2004, dated 3 September 2004)

When lodging precedents to overcome the Registrar’s objection on the specification of goods / services, the Registrar requests that the relevant portions of the precedents to be underlined for greater visibility. This would assist the Registrar to identify and consider the relevant portions of the precedents in order to assess whether the objection should be waived.

Vague descriptions in specifications (Circular No. 20/2004, dated 12 November 2004)

A clear description of the goods or services claimed in a trade mark application is important as it determines the scope of the application. As such, the indication of goods, for example “pouches and the like”, is not acceptable as the expression, “and the like”, is vague. In the example given, it is not clear as to what other goods the applicant is claiming apart from pouches.

2005 Circular

(Use of acronyms for specifications of goods and/or services, Circular No. 6/2005, dated 22 April 2005. This circular was removed on 18 January 2008)

2006 Circular

International Classification of Goods and Services

NICE Classification – Ninth Edition (Circular No. 32/2006, dated 8 November 2006)

The ninth edition of the NICE Classification for the purposes of the registration of trade marks will come into effect on **1 January 2007**. Copies can be ordered online at <http://www.wipo.int/ebookshop?lang=eng>

The majority of the changes involve Classes 14, 20, 21, 26, 34, 42 and 45 but minor changes and additions have also been made to other classes. For more information regarding the specific changes, please refer to the *Nice Union Report CLIM/CE/20/* which is obtainable at the following link

http://www.wipo.int/meetings/en/doc_details.jsp?doc_id=52419

The eighth edition of the NICE Classification shall still apply to all applications filed before 1 January 2007. Applications filed on or after 1 January 2007 shall be filed in accordance with the ninth edition of the NICE Classification. For the avoidance of doubt, there will be

no reclassification of goods and services for existing applications filed prior to 1 January 2007, after the 9th Edition of the NICE Classification comes into force.

2007 Circular

Use of registered trade marks in specifications of goods and services (Circular No. 38/2007, dated 14 November 2007)

Registered trade marks which are ordinary dictionary words are allowed to be used in specifications of goods and services as a descriptor. This practice is consistent with our previous journal notice on the use of the term, "Internet", which has become generic. However, words which are invented and have been registered as trade marks will not be acceptable in specifications of goods and services. Instead, applicants should use ordinary English words to describe their goods and services. For example, a specification of goods which reads "bluetooth-enabled devices for communications, namely telephones, handsets, headsets, speakers, microphones and earphones" should be amended to "devices for communications which are enabled by short range radio technology, namely telephones, handsets, headsets, speakers, microphones and earphones".

(II) Information on specific items**Pre-2004 Circulars**

(Cereal-based beverages, Beverages made from cereals, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Club [dining] services

With effect from 31 October 2003, the Registrar will accept the specification “club [dining] services” in Class 43 instead of Class 41 of the International Classification of Goods and Services. The emphasis on the word “dining” puts the item more in line with the class heading and explanatory notes of Class 43.

Consultancy Services

In the 8th edition of the International Classification of Goods and Services, consultancy services will be classified according to their subject matter. For example, consultancy services relating to telecommunications will be classified in Class 38, transportation consultancy services in Class 39 and intellectual property consultancy services in Class 42. The Registry had been taking this position in its examination of applications.

WIPO has clarified that pending the coming into force of the 8th edition, the correct classification is in accordance with the 7th edition where such services are classified in class 35 if they are business-related and class 42 if they are non-business-related. Hence, the Registry is adopting this stand.

However, in order not to prejudice any party who has acted on the Registrar’s earlier position on such services, the Registry will not reject consultancy services which have been classified according to their subject matter.

Desserts

With effect from 31 October 2003, the Registrar will not accept a specification consisting of “desserts” per se. This is in line with the World Intellectual Property Organization’s view that the said item, without further qualification, is vague.

Examples of acceptable descriptions are :

“Desserts [Jellies for food]” in Class 29 or

“Desserts [Ice cream]” in Class 30

(Executor services, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Mail order services

A specification of services consisting of or containing "mail order services" is unacceptable as it does not conform to the International Classification of Goods and Services and should be reworded to "the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order" in accordance with the practice in the United Kingdom.

Provision of information for business or domestic purposes in Class 38

With effect from 30 July 2003, a specification which reads "provision of information for business or domestic purposes" in class 38 will not be acceptable. The applicant is requested to further qualify the specification so that it will read as "provision of information in the field of telecommunications for business or domestic purposes". This is in line with the General Remarks as provided in the Nice Classification that the subject matter of the information being provided determines the correct class for the services.

(Provision of user access time to the global computer network, Pre-2004 Circular. This circular was removed on 26 September 2007)

(Storage of data, information or documents, Pre-2004 Circular. This circular was removed on 5 December 2008)

2004 Circulars**Retailing of services** (Circular No. 2/2004, dated 7 January 2004)

With effect from 7 January 2004, the Registrar will not accept a specification containing a claim for "retailing of services" or "the bringing together, for the benefit of others, of a variety of services (excluding the transport thereof), enabling customers to conveniently view and purchase those services". Applicants will be asked to clarify on the type(s) of services they are providing and to apply for such services in the appropriate class(es).

WIPO's Recommendation No. 16 (Circular No. 4/2004, dated 6 February 2004)

For applications lodged on or after 13 January 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Pastilles and chewing gum for cosmetic purposes - Class 3
- (2) Soap bubbles and foam generators for shows - Class 11
- (3) Lenyards (Keycards) - Class 14

(Joss sticks, Circular No. 5/2004, dated 13 February 2004. This circular was removed on 20 March 2009)

Canned foodstuffs of plant origin (Circular No. 6/2004, dated 5 March 2004)

For applications lodged on or after 12 March 2004, the Registrar will accept the specification "canned foodstuffs of plant origin" in Class 30 instead of Class 29. This is in line with the explanatory note of Class 30 which states "Class 30 includes mainly foodstuffs of plant origin prepared for consumption or conservation".

Manufacturing of goods (Circular No. 12/2004, dated 11 June 2004)

For applications lodged on or after 18 June 2004, a specification of services consisting of or containing "manufacturing of goods" is unacceptable as it does not conform to the International Classification of Goods and Services. If a person is manufacturing goods, registration should be sought for the goods only.

As appropriate, the specification may be phrased as "custom assembling of materials [for others]" or "custom manufacturing of goods [for others]". For example, where the items in question are cell cultures, it may be more appropriate to describe the service as "custom manufacturing of cell cultures [for others]". However, if the goods in question are clothing, "custom assembling of clothing [for others]" would be more appropriate.

(Providing search engines for the internet, Circular No. 12/2004, dated 11 June 2004. This circular was removed on 20 March 2009)

WIPO's Recommendation No. 17 (Circular No. 17/2004, dated 9 July 2004)

For applications lodged on or after 16 July 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Packaging containers of regenerated cellulose - Class 16
- (2) Refilling of empty toner cartridges - Class 37.

Provision of news (Circular No. 19/2004, dated 3 September 2004)

For applications lodged on or after 10 September 2004, the Registrar will not accept a specification consisting of "provision of news" *per se*. This is in line with the World Intellectual Property Organization's view that this description, without further qualification, is vague. The subject matter of the news provided and the purpose for which it is provided are important in determining the class to which it should fall under. Generally, these services are classified in the same classes as the services that correspond to the subject matter of the information. Examples of acceptable descriptions are:-

"Provision of business news [business management]" in Class 35;

"Provision of news [telecommunication services]" in Class 38; and

"Provision of news for entertainment purposes" in Class 41.

Leasing services (Circular No. 20/2004, dated 12 November 2004)

With effect from 19 November 2004, the Registrar will accept “leasing services” only in Class 36 regardless of the nature of the goods to which it relates. This is in line with the World Intellectual Property Organization’s view that it is a form of financial service.

“Rental services”, on the other hand, will still be classified in the same class as the services provided. For example, “rental of telecommunication apparatus” will be classified in Class 38 while “rental of medical apparatus” will be classified in Class 44.

2005 Circulars**Computerised communication network security and other security services** (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar will only accept “computerised communication network security” and like services in Class 42 and not in Class 45, as such items are forms of computer services classified under Class 42.

Class 45 covers services for the protection and security of individuals and property in general, eg “security services for buildings”, “personal body guarding” and “night guards”. If such services and information relating to such services are offered online or via a computer network, they will be classified under Class 45 as well.

However, Class 42 will cover security services if they pertain to security of computer networks or the internet, eg. “computerised communication network security”, or if such services are offered as a form of computer service, eg “data security services [firewalls]” or “professional consultancy relating to computer security”. It would not be correct to classify such computer security services in Class 45.

It is also useful to note that the International Classification of Goods and Services (8th Edition) classifies some security services in Class 39. Security services relating to transport, eg. “guarded transport of valuables” and “escorting of travellers”, are classified under Class 39 and not Class 45.

WIPO’s Recommendation No. 18 (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Enzymes for human consumption – Class 29
- (2) Soya milk [condiment] – Class 30
- (3) Supervision of teamwork to improve its effectiveness – Class 35
- (4) Consultancy in the field of computer security – Class 42
- (5) Therapy services – Class 44

Prepared meals (Circular No. 6/2005, dated 22 April 2005)

For applications lodged on or after 29 April 2005, the Registrar will not accept a specification consisting of “prepared meals” per se as the said item, without further qualification, is vague and may fall within several classes. The item should specify the content of the prepared meals, for example,

“Prepared meals consisting of meat” in Class 29 or

“Prepared meals containing principally of rice” in Class 30.

2006 Circulars**Crib bumpers** (Circular No. 3/2006, dated 3 February 2006)

For applications lodged on or after 10 February 2006, the Registrar will only accept the item, “crib bumpers”, in Class 20. This item is a type of cushion for lining the base and sides of the crib and serves a protective purpose for the baby. Since the item “cushions” is listed in Class 20 of the Nice Classification, by analogy, the item, “crib bumpers”, should be classified in Class 20 as well.

Retail services and other like services in Class 35 (Circular No. 6/2006, dated 24 February 2006)

The Registrar has revised her practice concerning retail services and other like services in Class 35. This revision in practice shall take effect for all applications lodged on or after 3 March 2006

In the past, applicants, in most instances, are required to list the goods to which the retail services relate. With the revised practice, where it is practical, it is still advisable to list the goods to which the retail services relate. However, the Registrar will no longer insist on such a requirement in all cases, as long as the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”, is used in conjunction with the means of bringing goods together. Thus, in cases where it is not practical to list all the goods to which the retail services relate, the Registrar will accept an indication of the means of bringing goods together and displaying such goods for the benefit of customers, for example, from a retail outlet, a wholesale outlet or a distributor outlet. Such an indication can be inserted at the end of the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”.

With the revised practice, “wholesale services” will also be treated in the same manner as “retail services”.

The following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

(a) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(b) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(c) “Retail services in relation to [list the goods]”;

(d) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(e) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(f) “Wholesale services in relation to [list the goods]”;

(g) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet”;

(h) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”; and

(i) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”.

The Registrar is prepared to accept similar descriptions of the above services provided that the services are clearly described and fall within the ambit of retail or wholesale services. Please note that vague descriptions such as “distributorship services” are not acceptable as the term “distributorship” may encompass more than just retail or wholesale services, for example, it may include transportation services.

Interior decoration services (Circular No. 22/2006, dated 7 July 2006)

For applications lodged on or after 14 July 2006, the Registrar will only accept “interior decoration services” in Class 42 and not in Class 37, as such services are analogous to the item “design of interior décor” which is listed in Class 42 of the International Classification of Goods and Services (8th Edition).

WIPO’s Recommendation No. 19 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

(1) Incontinence garments – Class 5

(2) Telephone ring tones [downloadable] – Class 9

(3) Milk jam – Class 29

(4) Toasted natural wood chips added to wine to improve its flavour – Class 30

WIPO's Recommendation No. 20 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

- (1) Paper sheets, sensitized, for carrying photographic imaging materials – Class 1
- (2) Slot machines[vending machines] – Class 9
- (3) Paper sheets, not sensitized, for carrying photographic imaging materials – Class 16
- (4) Slot machines[amusement] – Class 28
- (5) Stand-alone video game machines – Class 28

Technical consultancy services (Circular No. 25/2006, dated 16 August 2006)**Technical support services** (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar will classify “technical consultancy services”, “technical support services” and other similar technical advisory and technical information services according to their subject matters. The General Remarks in the Nice Classification (8th Edition) states that services that provide advice, information or consultation are in principle classified in the same classes as the services that correspond to the subject matter of the advice, information or consultation. Further, in line with the view of the World Intellectual Property Organization, the Registrar will consider indications such as “technical consultancy services” and “technical support services”, *per se* as too broad and vague and objections will be taken. Such indications will have to be specified in respect of their subject matters for the purpose of classification.

2007 Circulars**WIPO's Recommendation No. 21** (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Scoreboards for sports, other than mechanical or electric – Class 20
- (2) Advice on tax preparation – Class 35
- (3) Advice on fiscal assessments, advice on fiscal valuations – Class 36
- (4) Carbon offsetting services [recycling] – Class 40
- (5) Prenatal exercises – Class 41
- (6) Weblog [blog] services [on-line publication of journals or diaries] – Class 41
- (7) Creating and maintaining weblogs [blogs] for others – Class 42
- (8) Hosting of weblogs [blogs] – Class 42
- (9) Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting – Class 42
- (10) Carbon offsetting services [reforestation] – Class 44

Providing on-line forums (Circular No. 27/2007, dated 25 July 2007)

Operating chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing discussion services on-line (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar will only accept the items "providing on-line forums", "operating chat rooms", "providing chat rooms", and "providing discussion services on-line" in Class 38, regardless of the topic of the discussion. These items are analogous to the items "electronic bulletin board services [telecommunication services]" and "providing internet chatrooms" listed in Class 38 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Arranging and conducting of colloquiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conferences (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of congresses (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of seminars (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of symposiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conventions (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of exhibitions (Circular No. 27/2007, dated 25 July 2007)

The Registrar wishes to clarify that the above items with the exception of the last, viz.

"arranging and conducting of colloquiums";

"arranging and conducting of conferences";

"arranging and conducting of congresses";

"arranging and conducting of seminars";

"arranging and conducting of symposiums"; and

"arranging and conducting of conventions"

are classified in Class 41, regardless of the topic relating to these services. It is the purpose of the service and not the topic that determines their classification in Class 41. By virtue of their dictionary definitions, the terms, "colloquiums", "conferences", "congresses", "seminars", "symposiums" and "conventions" refer to activities linked with training or education, both of which are proper to Class 41. To illustrate, "arranging and conducting of conferences for commercial or advertising purposes" and "arranging and conducting of seminars for commercial or advertising purposes" are both classified under Class 41.

However, the item, "arranging and conducting of exhibitions", will be classified according to the subject matter since this service only refers to showing of products or services to the public, and is not primarily offered for the purposes of training or education. By analogy, "organization of exhibitions for commercial or advertising purposes" is listed in Class 35 of the NICE Classification (Ninth Edition), but "organization of exhibitions for cultural or educational purposes" is listed in Class 41 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Providing access to databases (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Providing of user access to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to databases (Circular No. 33/2007, dated 26 September 2007)

For applications lodged on or after 3 October 2007, the Registrar will accept these and other analogous items in Class 38 only. These are essentially telecommunication services and are classified under Class 38 whether they are provided by an Internet Service Provider or a non-Internet Service Provider. Hence, our previous journal notice on the classification of these services based on the status of the applicant is no longer applicable.

Consistent with our previous journal notice on “leasing” (Circular No. 20/2004, dated 12 November 2004), applicants should also avoid using the term, “leasing”, in any class except Class 36, as “leasing services”, are acceptable only in Class 36. With regards to the above items in Class 38, an example of an acceptable description would be “rental of access time to databases” and not “leasing of access time to databases”.

2008 Circulars

Cereal-based beverages (Circular No. 7/2008, dated 5 March 2008)

Beverages made from cereals (Circular No. 7/2008, dated 5 March 2008)

Executor services (Circular No. 7/2008, dated 5 March 2008)

The pre-2004 circulars on “cereal-based beverages/ beverages made from cereals” in Class 32 and “executor services” in Class 42 have been removed in light of recent directives from the World Intellectual Property Organisation.

A specification of goods consisting of or containing “cereal-based beverages” or “beverages made from cereals” will be classified in Class 30 by analogy to “cereal preparations” that are classified under Class 30 of the NICE Classification.

A specification of services consisting of or containing “executor services” will be classified in Class 36 because such services generally relate to the administration of money, investments, real estate, assets, and other valuables. Such services are analogous to “fiduciary services” and “trusteeship services” both of which are classified under Class 36 of the NICE Classification.

The above changes affect all applications lodged on or after 12 March 2008.

Retail services and other like services in Class 35 (Circular No. 9/2008, dated 2 May 2008)

In addition to Circular No. 6/2006, the Registrar will accept the descriptions for applications lodged on or after 9 May 2008 (where it is not practical to list all the goods to which the retail services or wholesale services relate):

- a. "retail services"
- b. "wholesale services"

However, the Registrar will continue to reject descriptions such as "distributorship services", "mail order services", "departmental store services", "supermarket services", or "internet shopping". These terms are considered vague as they include services more than retail and wholesale services.

With the addition, the following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

- a. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- b. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- c. "Retail services in relation to [list the goods]";
- d. "Retail services";
- e. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- f. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- g. "Wholesale services in relation to [list the goods]";
- h. "Wholesale services";
- i. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- j. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- k. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view

and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;

- l. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;
- m. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- n. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- o. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- p. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- q. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”; and
- r. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”.

WIPO's Recommendation No. 22 (Circular No. 16/2008, dated 21 November 2008)

For applications lodged on or after 28 November 2008, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Milk ferments [bacteria preparations] used in making foodstuffs - Class 1
- (2) Wind turbines - Class 7
- (3) Pill distributor and organizer boxes for medical purposes - Class 10
- (4) Electronic cigarettes for medical purposes - Class 10
- (5) Meditation stones - Class 14
- (6) Pill boxes [not for medical purposes] - Class 21
- (7) Tablecloth holders - Class 21
- (8) Electronic cigarettes, not for medical purposes - Class 34
- (9) Publicity film production - Class 35
- (10) Illustrators' services - Class 42
- (11) Diamond authentication and certification services - Class 42

(12) Electronic data storage - Class 42

(13) Advice concerning cooking recipes - Class 43

Electronic data storage (Circular No. 16/2008, dated 21 November 2008)

Storage of data, information or documents (Circular No. 16/2008, dated 21 November 2008)

The pre-2004 circular on "Storage of data, information or documents" (Class 35 or 39) has been removed in light of recent directive from the World Intellectual Property Organization.

A specification of services consisting of "Electronic data storage" will be classified in Class 42 instead of 35 by analogy to "Duplication of computer programs" and "Data conversion of computer programs and data [not physical conversion]" which are classified under Class 42 of the NICE Classification. This is in conformity with the explanatory note "Class 42 includes mainly services provided by ... computer programmers, etc.".

On the other hand, if the data, information or documents are being stored physically, for example, in a warehouse, then it is proper to Class 39. The determining factor is **where** the data, information, or documents are being stored. Examples of items which are proper to Class 39 are:

- i. "Data storage"
- ii. "Information storage"
- iii. "Storage of electronically-stored data, information or documents".

The above changes affect all applications lodged on or after 28 November 2008.

2009 Circulars

Association services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "association services" per se because the item, without further qualification, is vague and may fall within several classes. The World Intellectual Property Organization also regards this description as being vague and takes the view that a service should not in principle commence with the description "association services" even if it is followed by a qualifier. For example, the description, "association services, namely arranging business introductions", is not acceptable.

In light of the above, applicants should avoid using descriptions beginning with "association services". A description like "association services, namely, promoting the general interests of those concerned with the importance of health and nutrition", should be reworded to "business promotion relating to the importance of health and nutrition, provided through an association" in order for it to be classified in Class 35.

Concierge services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "concierge services" per se because the item, without further qualification, is vague and may fall within several classes. This is in line with the view of the World Intellectual Property Organization that the description is vague and can fall within several classes.

In light of the above, applicants should specify the exact nature of the concierge services that are being claimed. If they insist on using the description, "concierge services", that must be qualified by a precise description of the concierge service. The following are examples of acceptable descriptions.

- i. "Concierge services for the arranging of tours" in Class 39
- ii. "Concierge services, namely, the delivery of luggage for guests" in Class 39
- iii. "Concierge services, namely, arranging for theater tickets" in Class 41
- iv. "Concierge services relating to restaurant reservations" in Class 43
- v. "Concierge services [baggage inspection for security purposes]" in Class 45.

On the other hand, descriptions such as "concierge services for others comprising of making requested personal arrangements and providing customer specific information to meet the needs of individuals", "hotel and resort concierge services", and "personal services rendered by others to meet the needs of individuals, namely, concierge services" are not acceptable since the exact nature of the services is unclear.

Personal and/or social services rendered by others to meet the needs of individuals (Circular No. 7/2009, dated 19 June 2009)

This is to clarify that a description consisting of "personal and/or social services rendered by others to meet the needs of individuals" in Class 45 has never been acceptable to the Registrar because it is vague and too broad in scope. For the purpose of clarity, applicants must specify the exact nature of the services that they wish to claim.

If, however, an applicant insists on using this description, it must be qualified by a precise description of the personal or social services claimed. An example of an acceptable description would be "personal services rendered by others to meet the needs of individuals, namely baby sitting".

Ancillary Services / Related Services (Circular No. 11/2009, dated 25 September 2009)

For applications lodged on or after 2 October 2009, the Registrar will not accept a description containing "ancillary services", "related services" or their equivalent, regardless of whether they are preceded or followed by a specific term. This is because the exact nature of these descriptions remains unclear. The addition of qualifiers such as "included in this class" or "all in this class" in such descriptions does not help in making those descriptions any clearer. The following are some examples of the objectionable descriptions:-

- (a) "advertising services; services ancillary or related to the aforementioned included in this class";
- (b) "services ancillary or related to the provision of business management services; all in this class"; and

(c) “all services relating or ancillary to computer services; all included in Class 42”.

In such cases, the Registrar will request that the applicant specify the “ancillary services” and “related services” claimed so that the specification is clear and unambiguous.

This practice direction is consistent with Circular No. 20/2004 that relates to “Vague descriptions in specifications”.

G) CIRCULARS RELATED TO PROCEEDINGS BEFORE THE HEARINGS AND MEDIATION DIVISION**2009 Circulars****Applications for Security for Costs***(HMD Circular No. 1/2009, dated 20 November 2009)*

Section 70 of the Trade Marks Act (Cap 332) 2005 Rev. Ed. provides:-

If a person who neither resides nor carries on business in Singapore —

(a) gives notice of opposition under section 13; or

(b) applies to the Registrar under section 22 or 23 for the registration of a trade mark to be revoked or to be declared invalid, as the case may be,
the Registrar may require the person to give security for the costs for the proceedings and may, if security is not given, dismiss the proceedings.

[Emphasis added].

It is clear from the above that the application for security for costs can be a 2 - stage process. Thus, the Registrar will deal with such applications as a 2-stage process.

(I) Application for security for costs

Firstly, provided that a person neither resides nor carries on business in Singapore, the Registrar then has the discretion to require a person to provide security for costs of the proceedings, but only if the Registrar thinks it is just to do so in the circumstances of the case.

The factors that would be taken into consideration in deciding whether to grant security for costs in a trade mark opposition, invalidation or revocation are similar to the factors that would be taken into account in deciding whether to grant security for costs in a civil suit. Thus as provided in the Singapore Civil Procedure ("the White Book"), such factors include, amongst others:-

- (i) the likelihood of the opponent succeeding;
- (ii) whether the order for security for costs will stifle a genuine claim; and
- (iii) where the opponent is a limited company, whether there is any evidence that the opponent is unable to pay costs.

Based on a consideration of the above, the Registrar then may or may not order security for costs to be given.

(II) Application for proceedings to be dismissed

In the event that the party whom the Registrar has ordered to provide security for costs fails to do so, the party to whom security for costs has been granted can then apply for the proceedings to be dismissed. The Registrar will call for submissions in writing from both parties and exercise her discretion to decide whether the proceedings should be dismissed. If parties request an interlocutory hearing to decide the issue, or if the Registrar thinks it appropriate, the Registrar may also fix an interlocutory hearing to hear the parties in person.

Completion of Form TM 28

(HMD Circular No. 2/2009 dated 20 November 2009)

Form TM 28 is used for 3 different types of proceedings:-

- (i) Application for revocation of registration of a trade mark (Rule 57(1)(a) of the Trade Marks Rules 2008 Rev. Ed. (TMR));
- (ii) Application for declaration of invalidity of registration of a trade mark (Rule 57(1)(b) of the TMR); and
- (iii) Application for rectification of the register by persons other than the proprietor of the trade mark (Rule 57(1A)(b)).

Thus, when completing the form, please ensure that: -

- (i) the correct information is provided in Form TM 28 pursuant to the particular type of proceedings for which the Form TM 28 is filed; and
- (ii) the statement of grounds provided under Part 5 of Form TM 28 is worded consistently in accordance with the type of proceedings pursued under TM 28 ie application for revocation / declaration of invalidity / rectification of the register, as applicable.

In the event of any inconsistencies between the statement of grounds and the type of proceedings indicated, the applicant would generally be directed to re-file Form TM 28 with a clear indication as to the type of proceedings pursued, unless there are exceptional reasons for the Registrar to exercise her discretion to waive the need for such correction. The earlier application will be treated as withdrawn and the application date will be the later filing date. Fees paid are non-refundable as the need to re-file is attributable to the applicant or his agents.

Filing of Form TM 11 by Joint-Opponents

(HMD Circular No. 3/2009, dated 20 November 2009)

Under the provisions relating to oppositions in the Trade Marks Act (Cap 332) 2005 Rev. Ed. and Trade Marks Rules 2008 Rev. Ed., there is no prohibition against joint-opponents opposing a trade mark application.

In such an instance, it is sufficient for the purposes of the opposition that one Form TM 11 be filed. To reflect that there are joint-opponents opposing the registration of a particular trade mark, the opponents simply need to indicate, at Part 3 of TM 11, the particulars of the different opponents opposing such a registration.

The fees which are chargeable for TM 11 will depend upon the number of classes included in TM 11.

Similarly, in such circumstances, for the purpose of lodging evidence via statutory declarations (this will occur at a later stage in an opposition proceeding), the joint-opponents need to file only one set of evidence via statutory declarations provided that it is clear from each statutory declaration that the deponent has been duly authorized by all the joint-opponents to give such evidence on their behalf.

Service of Form TM 11 (Notice of Opposition) and Form TM 28 (Application for Revocation / Declaration of Invalidity / Rectification)*(HMD Circular No. 4/2009, dated 20 November 2009)*

Service of Form TM 11 and Form TM 28 is regulated under Rule 29 and Rule 57 of the Trade Marks Rules 2008 Rev. Ed. (TMR) respectively.

Rule 29(2) provides that the opponent shall serve on the applicant a copy of the notice of opposition at the same time as the notice of opposition is filed with the Registrar.

Rule 57(3) provides that the applicant for revocation / declaration of invalidity / rectification shall, if he is not the proprietor of the registered trade mark, serve a copy of the application and the statement of grounds on which the application is based on the registered proprietor at the same time as he files the application and statement of grounds with the Registrar.

For the purpose of ensuring compliance with the above Rules, the opponent / applicant is to indicate clearly, on the cover letter enclosing the notice of opposition or application for revocation / declaration of invalidity / rectification to the Registrar, that a copy of Form TM 11 or Form TM 28, as applicable, has been served on the applicant / registered proprietor. Failure to do so will be taken as non-compliance with Rule 29(2) or Rule 57(3) respectively. Accordingly, the Registrar will treat the case as no proper service of Form TM 11 and Form TM 28 respectively, unless the opponent / applicant proves otherwise.

In such an event, Form TM 11 / Form TM 28 will be rejected as non-compliant. The opponent / applicant will have to re-file Form TM 11 / Form TM 28 afresh and serve the same on the applicant / registered proprietor.

In relation to Form TM 11, in the event that the notice of opposition cannot be re-filed as the 2-month or 4-month maximum time period has expired, the prospective opponent will then have to consider filing for invalidation after the mark has been registered.

Service of Form TM 12 (Counter-statement)*(HMD Circular No. 5/2009, dated 20 November 2009)*

Service of Counter-statement for opposition is regulated under Rule 31 of the Trade Marks Rules 2008 Rev. Ed. (TMR) and service of Counter-statement for an application for revocation / declaration of invalidity / rectification is regulated under Rule 58 of the TMR.

Rule 31(2) provides that the applicant shall serve on the opponent a copy of the Counter-statement at the same time as it is filed with the Registrar.

Rule 58(2) provides that the registered proprietor shall serve on the applicant a copy of the Counter-statement at the same time as he files the Counter-statement with the Registrar.

For the purpose of ensuring compliance with the above Rules, the applicant / registered proprietor is to indicate clearly, on the cover letter enclosing Form TM 12 to the Registrar, that the same has been served on the opponent / applicant. Failure to do so will be taken as non-compliance with the Rules. Accordingly, the Registrar will treat the case as no proper service of Form TM 12.

In such an event of non-service, and provided that the irregularity would not result in a detriment to the other party that cannot be remedied, the Registrar would generally, pursuant to Rule 83, exercise her discretion to direct that the procedural irregularity be

rectified by issuing deadlines for service of the Form TM 12 on the other party and an order as to costs against the applicant / registered proprietor as appropriate.

Applications Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

T0707811E 12/04/2007 (35)

CONNELL

Class 35

Business management services including business management services in relation to asset management, financial planning, strategic business development and implementation, information management, defence, security, training, technology transfer, consulting and civil engineering and road safety audits; information, advisory and consultancy services in relation to the foregoing; advertising; market research; personnel recruitment and management; estimating for marketing purposes; cost analysis; negotiation of contracts (for others), administration of business affairs; quality assurance [business] administration; compilation of mathematical and statistical data; preparation of statistics for mathematical models; business risk management; compilation and systemization of information into computer databases; strategic business planning; corporate planning; taxation advice [accountancy]; accountancy; business feasibility studies; economic analysis for business purposes; business project management; all excluding import and export agency services; distribution of industrial specialty chemicals and minerals, consumer food products and animal feeds.

Class 01

Chemicals used in industry in this class; Chemicals used in effluent mining, storage, transportation and treatment; Chemicals used in water storage, supply, treatment, purification, re-use, transmission, transportation and distribution; Energy commodities, namely, gas and ethane; Energy from sources, namely, coal-seam methane; Energy supplies, namely, ethane and other gases.

Class 04

Fuels, including natural gas, fuel gas, compressed natural gas, liquefied gas and all other gases in this class; Energy commodities, namely, electrical energy, gas, petroleum and petroleum based products, and other fuels; Energy from sources, namely, coal fired generation, gas fired generation, wind generation, solar generation, hydro electric generation, tidal generation, geothermal sources, biofuels, landfill gas, natural gas reserves, oil reserves, petroleum and petroleum based products; Energy supplies, namely, electrical energy, gas, petroleum and petroleum based products and other fuels.

Class 06

Metals; Metal building materials; Metal posts, including metal posts for power cables and transmission towers; Metal containers and cylinders, including metal containers and cylinders for natural gas, fuel gas, compressed natural gas and liquefied gas; Metal containers and pipes for water and effluent.

Class 07

Machines, machine tools, motors and engines in this class; Machines, machine tools, motors and engines in this class relating to energy supply, generation, transmission, transportation and distribution; Machines, machine tools, motors and engines in this class relating to effluent mining, storage, transportation and treatment; Machines, machine tools, motors and engines in this class relating to water storage, supply, treatment, purification, re-use, transmission, transportation and distribution; Installations, assemblies and structures for generating electrical power, including turbine electricity generating installations (power stations); Installations, assemblies and structures for pumping water.

Class 09

Scientific, surveying, measuring, signalling, checking and teaching apparatus and instruments; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling energy, including electricity; Apparatus for recording,

transmission or reproduction of sound or images; Magnetic data carriers and recording discs; Data processing equipment; Computer programs for energy, natural gas, water and utility facilities management and control, and energy and water consumption and conservation; Switches; Meters; Electrical and electronic filters; Analysis and testing equipment and devices in this class; Switches, meters, electrical and electronic filters, analysis and testing equipment and devices in this class for use in connection with energy supply, generation, transmission, transportation, distribution and consumption; Telecommunications and communications equipment, apparatus and systems; Online and electronic publications.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; Installations, apparatus and infrastructure in this class, relating to energy supply, generation, transmission, transportation and distribution; Installations, apparatus and infrastructure in this class, relating to effluent mining, storage, transportation and treatment; Installations, apparatus and infrastructure in this class, relating to water storage, supply, treatment, purification, re-use, transmission, transportation and distribution; Domestic and industrial gas or electrically operated or fuelled appliances, equipment and machines in this class, including stand alone and ducted heating and cooling equipment, gas or electrically operated or fuelled refrigeration apparatus, gas or electrically operated or fuelled energy conversion devices and machines, including power generators.

Class 12

Vehicles; Vehicles and apparatus for locomotion by land, air or water; Engines and motors in this class for vehicles; Parts and accessories for vehicles.

Class 16

Paper, cardboard and goods made from these materials in this class; Printed matter; Brochures, pamphlets, magazines, booklets, printed publications, printed advertisements; Bookbinding material; Photographs; Stationery; Office requisites; Instructional and teaching material (except apparatus); Plastic materials for packaging in this class.

Class 17

Rubber and goods made from rubber in this class; Plastics in extruded form for use in manufacture; Packing, stopping and insulating materials; Flexible pipes in this class, including non-metallic cables and pipes; Insulating materials and insulators for electricity mains.

Class 19

Buildings and building materials made of non-metallic materials; Non-metallic rigid pipes for building; Non-metallic building materials for use in energy supply, generation, transmission, transportation and distribution; Non-metallic building materials for use in effluent mining, storage, transportation and treatment; Non-metallic building materials for use in water storage, supply, treatment, purification, re-use, transmission, transportation and distribution; Non-metallic posts for power cables and transmission towers; Non-metallic containers, cylinders and storage apparatus; Liquid storage tanks made of non-metallic materials.

Class 35

Advertising; Business management; Business administration; Office functions; Business services for the creation, management, provision, acquisition, financing, operation and ownership of businesses and facilities relating to power, energy, effluent and water treatment involved in fuel and other energy commodity supply and distribution, fuel transportation, electricity transmission, power sales and energy usage, effluent mining, effluent storage and transportation, water storage, water supply, water treatment, water transmission and transportation, water sale and water usage by others, energy supply, energy generation, energy transmission, energy transportation, energy distribution, brokering, monitoring, use and conservation of energy and water, or energy and water quality, reliability, and efficiency; Wholesaling and/or retailing of electricity operated or fuelled appliances, equipment and machines; Wholesaling and/or retailing of gas operated or fuelled appliances, equipment and machines; Metering, billing and customer advisory services in this class; Commercial and business services relating to telecommunications and the transport industry; Commercial and business services relating to the collection, storage, transportation, treatment and disposal of waste products; Commercial and business services relating to the management and remediation of contaminated land; Dissemination of advertising and business information; Organization, operation and supervision of customer loyalty schemes; Business services for the organization, operation and supervision of carbon offsetting schemes.

Class 36

Financial affairs; Monetary affairs; Financial affairs and services, including financial modelling, accounts payable and receivable management, including billing and collection activities, financial and statutory reporting, debt and cash management, management accounting, budgeting and forecasting, cash management activities, credit risk management; Taxation services, including planning, forecasting, reporting and tax returns; Financial risk management

services including management, negotiation and provision of swaps and future contracts; Financial management services and advice on emissions trading transactions; Bill payment services; Carbon trading services; Information about all of the aforesaid services.

Class 37

Construction services; Repair services; Installation services; Maintenance services; Construction, repair, maintenance and installation services relating to effluent mining, storage, transportation and treatment; Construction, repair, maintenance and installation services relating to water storage, supply, treatment, purification, re-use, transmission, transportation and distribution; Construction, repair, maintenance and installation services relating to supply and distribution of energy, including electricity and gas; Power generation facilities, stations and distribution networks and associated plant, pipelines, fixtures and fittings, power distribution systems and networks; Energy generation, transmission and distribution facilities and infrastructure, construction, installation and maintenance of heating and cooling systems, railways and railways infrastructure.

Class 38

Telecommunications and communication services; Telecommunications services for control systems and infrastructure; Consulting services relating to the provision of telecommunications services; Communication services for electronic, telephone and online bill payment.

Class 39

Transportation and distribution services; Packaging and storage services; Transmission, transportation, distribution, storage and supply of gas, electricity, water and effluent and related services in this class; Operation of gas fuelling stations and terminals; Operation of electrical sub-stations and transmission equipment; Railway transport; Warehousing services; Logistics services; Management of railways, railway infrastructure and railway operations and related information, consultancy and advisory services; Provision of all forms of energy, including electricity and gas; Provision of water including treated, purified and recycled water; Consultancy services in this class on the use, distribution, transmission, transportation, supply and storage of gas, electricity, fuels and other forms of energy and water, including the giving of advice and the carrying out of work in relation to such use, distribution, transmission, transportation, supply and storage; Consulting services relating to the provision of transport.

Class 40

Treatment of materials; Treatment of materials, including production and generation of energy and services associated with

the production of energy; Production and generation of energy, including from gas, electricity and water; Processing, separation and fractionating liquids from natural gas; Processing of gas; Effluent treatment services; Water treatment services; Consulting services in the field of energy generation, effluent treatment, water recycling and treatment and waste product treatment.

Class 41

Education services; Training services; Education services in relation to the use, management, safety, benefits and advantages of gas and gas operated and powered devices and appliances, and of buildings incorporating such devices and appliances; Training services, including training services related to the use of gas operated and powered devices and appliances; Promotion of the use of gas and other gas operated and powered devices and appliances for education and training purposes; Education services in relation to the use, management, safety, benefits and advantages of electricity and electricity operated and powered devices and appliances, and of buildings incorporating such devices and appliances and of power distribution systems and networks; Training services related to the use of electric operated and powered devices and appliances; Promotion of the use of electricity and other electric operated and powered devices and appliances for education and training purposes; Education services in relation to the use, management, safety, benefits and advantages of effluent treatment, water recycling and re-use, and of buildings incorporating systems for the use of recycled water and of water distribution systems and networks; Training services in relation to the use of recycled water; Promotion of the use of recycled water for education and training purposes; Educational services, including conducting classes, workshops, and seminars in the field of energy-related and water-related, community and environmental issues and distributing related course materials; Education services in relation to all aspects of water supply and the conservation and efficient use of water; Education services in relation to all aspects of emissions reduction and trading; Education services in relation to all aspects of new and alternative energy sources and the conservation and efficient use of new and alternative energy sources.

Class 42

Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Design and development of computer hardware and software; Engineering and design services in the field of energy generation; Engineering and design services relating to the supply, transmission, transportation, storage and distribution of energy, electricity, gases and fuels; Engineering and design services relating to the storage, supply, transmission, transportation and distribution of effluent;

Engineering and design services relating to the storage, supply, treatment, purification, re-use, transmission, transportation and distribution of water; Engineering and design services relating to the development, ownership, and management of utility networks; Engineering and design services relating to the use, monitoring and conservation of energy quality, reliability and efficiency and of heating and cooling systems; Engineering and design services relating to the use, monitoring and conservation of water quality, reliability and efficiency; Professional, engineering, design and consultancy services in this class on the management, use, operation, transmission, generation, distribution and storage of all forms of energy including gas and electricity, including the provision of associated technical and engineering reports to consumers and potential consumers on the use, transmission, transportation, generation, distribution and storage of such energy; Professional, engineering, design and consultancy services in this class on the management, use, operation, collection, transmission, transportation, treatment and storage of effluent, including the provision of associated technical and engineering reports to consumers and potential consumers on the use, collection, transmission, transportation, treatment, and storage of effluent; Professional, engineering, design and consultancy services in this class on the management, use, operation, transmission, transportation, treatment, distribution and storage of water, including the provision of associated technical and engineering reports to consumers and potential consumers on the use, transmission, treatment, distribution and storage of water; Services of engineers engaged in valuing, estimates, research and reports; Services in this class relating to the exploration for gas; Scientific and industrial research into matters concerning water, gas, electricity and other forms of energy, effluent and water; Computer programming; On-line services on a global computer network relating to energy and water usage; Consultancy services providing advice on emissions reduction; Technical engineering services relating to the provision of transport; Design of telecommunications for control systems and infrastructure.

T0905745Z 26/05/2009 (01 02 03 04 09 17 40)

The first mark in the series is limited to the colours as shown in the representation on the form of application.

Application for a series of four marks.

Class 01

Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry.

Class 02

Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists.

Class 03

Bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices.

Class 04

Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; inverters; electric inverters, for use in air-conditioning apparatus.

Class 17

Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal.

Class 40

Treatment of materials; rental of air-conditioning apparatus.

JOIN THE EVOLUTION

Radio antenna and transmission line equipment, namely, radio frequency antennas, coaxial cables and parts therefor; coaxial cable accessories, namely, transmitting inductors, impedance matching and phasing devices, phase monitors, and antenna code beacons and obstacle lights; base station antennas; point to point antennas; microwave antennas; dual-polarized antennas; remote electrical downtilt antennas; Worldwide Interoperability for Microwave Access (WiMax) and broadband antennas; radiating Radio Frequency (RF) cables for indoor and tunnel applications, and fiber optic cable; signal splitters for Radio Frequency (RF) apparatus; indoor antennas; products, equipment, devices and components for telecommunications mobile location solutions, location based solutions and radio frequency spectrum management, namely, coaxial switching equipment, radio antenna, frequency transmitters and receivers; mobile location computing and operating platforms; network management and test tools, namely, satellite dishes, processors, and receivers; network development software for the optimization of telecommunication networks; remote radio heads; coaxial foam cables, coaxial air and Radio Frequency (RF) specialty cable; cable connectors; cable connector assemblies; broadband cables; cable assemblies; waveguides for high frequency and high power Radio Frequency (RF) delivery; steel and metal infrastructure components for use in wireless communications, namely antenna mounts, cable support components, equipment support and mounting platforms; cable accessories, namely surge protectors, cable hangers, adaptors, grounding kits; passive and active radio frequency components for extending wireless network and signal coverage; cross-band Radio Frequency (RF) couplers; diplexers; triplexers; repeaters; bi-directional amplifiers; tower mounted amplifiers; multi-channel power amplifiers; in-building wireless components, networks, and systems consisting of operating platforms containing data transmitters and receivers, wireless networks, and gateways for collecting data; distributed communications systems and components consisting of operating platforms containing data transmitters and receivers, wireless networks, and gateways for collecting data; elliptical waveguides for high frequency and high power Radio Frequency (RF) delivery; rigid and flexible waveguides for high frequency and high power Radio Frequency (RF) delivery; antenna system pressurization equipment for use in pressurizing Radio Frequency (RF) transmission lines and antennas; devices and products used in cellular communications, namely, wired, fiber optics and wireless repeaters used in mobile communications and indoor, in-building communication wireless and wired infrastructure products primarily in the cellular and Personal Communications Service (PCS) frequency bands for the

purpose of extending the range and reach of bi-directional voice and data communications; and base station extender products and cell receiver and transmitter enhancers, namely, repeaters and bidirectional amplifiers to extend the range of base station communications; communications devices for radio, cellular and personal communications service frequency use, and parts therefor, namely, antennas, electrical and electronic devices for improving, modifying transmission and reception characteristics of antennas and of radio telephones, namely, antenna mounts, transmitters, receivers and transceivers and parts thereof, boosters, repeaters, distributed antennas, base stations, mobile telephone switching offices, amplifiers, filters, duplexers, combiners, conductors, and couplers, and parts and sub-assemblies thereof; call processing software and specialized digital signal processing software for use in the cellular, personal communications service and radio frequencies; fiber optic transceivers for transmitting and receiving information for radio, for cellular and personal communications service frequencies, for telephone, and for cable television, and units for testing, measuring and characterizing the Radio Frequency (RF) signal properties in the radio, cellular and personal communications service frequencies; television transmitting antennas; earth station antennas; computer networking hardware, peripherals and accessories, namely, token-ring bridges, adaptor cards, interfacing cards, port expansion cards, and emulation cards; radiating electrical, optical, and fiber optic transmission lines; computer software for use in networking to connect network users; electrical transmission equipment, namely, antennas, and masts and positioners therefor; waveguides for high frequency and high power RF delivery; electrical transmission lines; coaxial switching equipment; telecommunications cable, namely, coaxial, twisted pair, fiber optic cable, and hybrid coaxial, twisted pair, fiber optical cable, and connectors therefor; electric wires in the nature of patch cables; fiber optic interconnection and cross connection cables; telecommunications adaptors; telecommunications connectors, plugs, jacks, and connecting blocks; telecommunications devices that repeat, reshape or reformat signals from data terminals and controllers; telecommunications brackets, clips and clamps to house and support cable and telecommunications equipment all distributed as a unit; hardware specially fitted to a house and support electrical and optical cable and telecommunications equipment, namely, frames, cabinets, and horizontal and vertical cable managers; face plates specially fitted for electrical and fiber optic connections; computer hardware, namely, wireless access points devices for connecting wireless communication devices together to form a wireless network; hardware for use in networking, namely, midspan power injectors and patch panels; electrical zone wiring boxes; computer software to manage, monitor, and control telecommunication network

infrastructure connectivity.

(fuel); Extra fine oils for motors; Extreme pressure oils; Fine oils for motors; Firelighters; Firewood; Fish oil, not edible; Flux oils; Fossil fuels; Fragranced candles; Friction modifiers; Froth flotation oils; Fuel; Fuel briquettes; Fuel for lighting purposes; Fuel for motor vehicles; Fuel for portable fireplaces; Fuel for use in barbecues; Fuel gas; Fuel in the form of brickettes; Fuel in the form of briquettes; Fuel mixtures; Fuel oil; Fuel products of pressed wood chips; Fuel with an alcoholic base; Fuels; Fuels derived from crude oil; Fuels derived from oil; Fuels for barbecues; Fuels for cooking; Fuels for heating purposes; Fuels for lighters; Fuels in liquid form; Fuels with an alcoholic base; Gas (fuel); Gas cartridges; Gas for firearms; Gas for lighting; Gas fuels; Gas mixtures; Gas oil; Gaseous fuels; Gases for flame heating; Gases for use as fuel; Gases for use as illuminants; Gases for use in cooking; Gases for use in heating; Gases for use in lighting; Gasoline; Gear oils; Graphited lubricants; Grease for arms (weapons); Grease for belts; Grease for boots; Grease for brake shoes; Grease for leather; Grease for shoes; Greases; Greases for technical purposes; Greases for the lubrication of cables; Greases for the lubrication of exposed gears; Greases for the lubrication of joints; Greases for use with ball-bearings; Greases for weapons; Heat treatment oils for use in metal working; Heating oils containing additives; High pressure greases; High-octane petrol; Household fuel Additives, non-chemical, to motor-fuel; Alcohol (fuel); Animal fat for technical uses; Anthracite; Anti-seize substances (oils); Anti-skid agents; Automobile fuels; Automotive engine oils; Automotive final drive oils; Automotive lubricants for car engines; Automotive lubricating compounds; Barbecue briquettes; Barbecue fuel made from woodchips; Barbecue lighting fuel; Barbecue liquid lighters; Beeswax; Belt dressings; Belting wax; Benzene; Benzine; Benzol; Benzole; Binding preparations for solid fuels; Biodiesel fuel; Biofuel; Biogas; Bitumen emulsions for fuel; Blocks of peat (fuel); Bone oil for industrial purposes; Bottled gas; Brickwork preservatives (oils); Briquettes; Briquettes (Combustible -); Briquettes of bitumen; Briquettes of coal; Butane for lighting; Butane gas for use as a fuel; Cable lubricants; Candle assemblies; Candles; Candles for use in the decoration of cakes; Carbon dioxide for lighting; Carburants; Carnauba wax; Casting oils; Castor oil for technical purposes; Cement preservatives (oils); Ceresine; Chain grease; Chain oil; Charcoal (fuel); Charcoal based products for use as a fuel; Chassis grease; Christmas lights (candles); Christmas tree candles; Christmas tree decorations for illumination (candles); Coal; Coal based fuels; Coal briquettes; Coal dust (fuel); Coal naphtha; Coal tar oil; Coke; Combustible agglomerated fuels; Combustible briquettes; Combustible compositions; Combustible fuels; Combustible gases; Combustible masses; Combustible materials; Combustible oil; Combustible products; Combustible waxes; Combustion enhancers (oils);

Combustion enhancers (petroleum products); Combustion promoting additives; Compositions for binding dust; Compositions for preserving brickwork (oils); Compositions for preserving cement (oils); Compositions for preserving concrete (oils); Concrete preservatives (oils); Concrete sealing agents (oils); Coolants for metal working operations; Coolants for use in machine cutting; Cooling fluids for use in metalworking operations; Corrosion penetrating oils; Crude oil; Crude oil products derived from the refining of crude; Cutting fluids; Cutting oils; Deep drawing lubricants; Demoulding oil; Diesel fuel; Diesel oil; Dispersions of paraffins in water for use in waterproofing particle boards; Dressings for wire ropes; Drilling fluids; Duct lubricants; Dust absorbing compositions; Dust absorbing compositions in the nature of oils; Dust absorbing preparations; Dust binding compositions; Dust binding compositions for sweeping; Dust binding compositions in the nature of oils; Dust laying compositions; Dust removing preparations; Dust suppressants; Dust wetting compositions; Dust wetting compositions in the nature of oils; Electrical energy; Emulsions of bitumen for use as fuel; Emulsions of oil for use as a fuel; Engine oils; Engine starting sprays; Engineering oils; Ethanol (fuel); Extra fine oils for motors; Extreme pressure oils; Fine oils for motors; Firelighters; Firewood; Fish oil, not edible; Flux oils; Fossil fuels; Fragranced candles; Friction modifiers; Froth flotation oils; Fuel; Fuel briquettes; Fuel for lighting purposes; Fuel for motor vehicles; Fuel for portable fireplaces; Fuel for use in barbecues; Fuel gas; Fuel in the form of brickettes; Fuel in the form of briquettes; Fuel mixtures; Fuel oil; Fuel products of pressed wood chips; Fuel with an alcoholic base; Fuels; Fuels derived from crude oil; Fuels derived from oil; Fuels for barbecues; Fuels for cooking; Fuels for heating purposes; Fuels for lighters; Fuels in liquid form; Fuels with an alcoholic base; Gas (fuel); Gas cartridges; Gas for firearms; Gas for lighting; Gas fuels; Gas mixtures; Gas oil; Gaseous fuels; Gases for flame heating; Gases for use as fuel; Gases for use as illuminants; Gases for use in cooking; Gases for use in heating; Gases for use in lighting; Gasoline; Gear oils; Graphited lubricants; Grease for arms (weapons); Grease for belts; Grease for boots; Grease for brake shoes; Grease for leather; Grease for shoes; Greases; Greases for technical purposes; Greases for the lubrication of cables; Greases for the lubrication of exposed gears; Greases for the lubrication of joints; Greases for use with ball-bearings; Greases for weapons; Heat treatment oils for use in metal working; Heating oils containing additives; High pressure greases; High-octane petrol; Household fuel briquettes; Hydrocarbon compositions; Hydrocarbon fuels derived from tar; Illuminants; Illuminating grease; Illuminating materials; Illuminating oil; Illuminating wax; Industrial fuel oil; Industrial grease; Industrial lubricants; Industrial oil; Industrial oils for the lubrication of

surfaces; Industrial paraffins; Industrial wax; Isolating oils; Kerosene; Kerosene for domestic heating; Lamp oils; Lamp wicks; Landfill gas; Lanolin; Lighter fuel; Lighting fuel; Lignite; Lignite briquettes; Ligroin; Linseed oils for paints; Liquefied gas; Liquefied natural gas; Liquefied petroleum; Liquid fuels; Liquid gas; Liquid petroleum gas; Low ash content coal; Low sulphur coal; Lubricants; Lubricants being gear oils; Lubricants containing low friction additives; Lubricants for agricultural implements; Lubricants for cables; Lubricants for industrial apparatus; Lubricants for machines; Lubricants for metal working; Lubricants for metallic surfaces; Lubricants for motor vehicles; Lubricants for plastic materials; Lubricants for polymeric surfaces; Lubricants for surgical apparatus; Lubricants for use in industrial processes; Lubricants for use in machine cutting; Lubricants for use in the machining of metal; Lubricants for use on conveyors; Lubricants for use on wire ropes; Lubricants for use with power cables; Lubricants having cleaning properties; Lubricants in the nature of oils; Lubricating agents, other than for medical use; Lubricating fluids; Lubricating graphite; Lubricating grease; Lubricating oil; Lubricating oils being hydraulic oils; Lubricating oils for automotive apparatus; Lubricating oils for cooling metal during cutting; Lubricating oils for laser printers; Lubricating oils for petrol engines; Lubricating oils for use as a cutting fluid; Lubricating oils for wheels; Machine cutting fluids; Manufactured solid fuels; Marine greases; Marine oils; Masonry preservatives (oils); Mazut; Metal cutting compounds; Metal preservatives (oils); Metalworking (cutting) fluids; Metalworking lubricants; Metalworking oils; Methylated spirit; Mineral coal; Mineral fuel; Mineral oils; Moistening oil; Motor fuel; Motor oil; Motor spirit; Motor vehicle lubricants; Mould release agents containing oils; Mould release oils; Mould release preparations; Naphtha; Natural gas; Nightlights (candles); Non-chemical additive concentrates for lubricants; Non-chemical additive concentrates for motor fuels; Non-chemical additives for combustion enhancers; Non-chemical additives for coolants; Non-chemical additives for cutting oils; Non-chemical additives for engine oils; Non-chemical additives for fuels; Non-chemical additives for gearbox oils; Non-chemical additives for greases; Non-chemical additives for hydraulic fluids; Non-chemical additives for lubricants; Non-chemical additives for oils; Non-chemical additives for petroleum products; Non-chemical additives for transmission oils; Non-chemical additives to motor fuel; Non-chemical anti-freezing additives for fuels; Non-chemical petrol additives; Non-slipping preparations; Non-slipping preparations for belts; Oil based lubricants; Oil for the preservation of leather; Oil for the preservation of masonry; Oil well drilling lubricants; Oil-gas; Oils containing rust preventing additives; Oils containing water dispersant additives; Oils for automobiles; Oils for engines; Oils for paints; Oils for releasing

form work (building); Oils for surface treatment; Oils for tempering metals; Oils for the preparation of leather; Oils for the preservation of masonry; Oils for thermic treatment of metals; Oils for turbines; Oils for turbo units; Oils for use in the textile industry; Oils for use with machine tools; Oils in the form of emulsions; Oleine; Ozocerite (ozokerite); Paper spills for lighting; Paraffin; Paraffin wax; Peat (Blocks of -) (fuel); Peat (fuel); Peat briquettes (fuel); Peat fuel oils; Penetrants; Penetrating agents; Penetrating greases; Penetrating oils; Perfumed candles; Petrol; Petrol additives (non-chemical); Petrol additives (petrochemical); Petroleum; Petroleum (raw or refined); Petroleum by-products; Petroleum coke; Petroleum ether; Petroleum gas; Petroleum jelly for industrial purposes; Preparations for absorbing dust; Preparations for binding dust; Preparations for enhancing the combustion of fossil fuels; Preparations for loosening joints; Preparations for loosening rusted metal components; Preparations for lubricating joints; Preparations for reducing sliding friction between two surfaces; Preservatives for brickwork (oils); Preservatives for buildings (oils); Preservatives for cement (oils); Preservatives for concrete (oils); Preservatives for leather (oils and greases); Preservatives for metals (grease); Preservatives for metals (oils); Preservatives for rubber (grease); Preservatives for rubber (oils); Preservatives for the surfaces of buildings (oils); Preservatives for tiles (oils); Process oil for use in bitumen extenders; Producer gas; Products for protecting concrete (oils); Products for sealing brickwork (oils); Products for sealing concrete (oils); Products for use in stamping metals (fluids); Products for use in straining metals (fluids); Propane for heating; Propane for lighting; Propane for use as fuel; Propane gas; Rape oil for industrial purposes; Rapeseed oil for industrial purposes; Release agents (oils); Release agents in the nature of grease; Releasing agents in the nature of oils; Scented candles; Shock absorbing oils; Smokeless compositions for use as ingredients of fuels; Smokeless fuels; Solid fuels; Solid lubricants for textiles; Solid oxygen fuel; Solid propellants; Solidified gas (fuel); Solidified gases (fuel); Soya bean oil preparations for non-stick treatment of cooking utensils; Soya bean oil preparations for non-stick treatment of cooking utensils; Spray-on lubricants; Stearine; Substances for use in absorbing dust; Substances for use in binding dust; Sunflower oil for industrial purposes; Synthetic compressor oils; Synthetic gas (fuel); Synthetic linear alcohols (fuel); Synthetic lubricants; Synthetic lubricating oils; Synthetic oils; Tallow; Tapers; Tapers for lighting; Technical oils; Textile oil; Vaporised fuel mixtures; Vaporized fuel mixtures; Vegetable charcoals; Vegetable oils for lubricating food processing machines; Vegetable oils for the non-stick treatment of cooking utensils; Waterproofing preparations in the form of oils for motor car ignition systems; Wax (raw material); Wax for use in manufacture; Wax lights; White oils; Wicks; Wicks for candles; Wood briquettes; Wood coal

for grilling; Wood spills for lighting; Wool grease; Xylene; Xylol.

Class 09

Abacuses; Abdomen protectors for protection against injury (other than parts of sports suits or adapted for use in specific sporting activities); Absorption filters; Accelerated ion devices (other than for treating the air); Accelerometers; Accelerometers integrated with global positioning apparatus; Access control cards (encoded or magnetic); Access interfaces for managed private circuit networks; Accounting apparatus; Accounting computer terminals; Accounting installations; Accounting machines; Accumulator boxes; Accumulator charging apparatus; Accumulator jars; Accumulators, electric; Accumulators, electric, for vehicles; Acid hydrometers; Acid proof clothing; Acid proof footwear; Acidimeters for batteries; Acidity analysers; Acidity meters; Acidity sensor assemblies; Acoustic (sound) alarms; Acoustic apparatus for recording sound; Acoustic apparatus for reproducing sound; Acoustic conduits; Acoustic control circuits; Acoustic couplers; Acoustic devices; Acoustic discs; Acoustic discs for data processing; Acoustic instruments; Acoustic microscope apparatus; Acoustic microscopes installations; Acoustic modems; Acoustic pulse-echo ranging apparatus for industrial use; Acoustic pulse-echo ranging apparatus for marine use; Acoustic receivers for telephonic communication with computers; Acoustic recording discs; Acoustic recording supports; Acoustic records; Acoustic sensing apparatus; Acoustic signallers for lubricating installations; Acoustic temperature measurement apparatus; Acoustic warning apparatus; Acoustical diffusers; Acoustical discs; Actinometers; Active cable assemblies; Active cable connectors; Active electronic labels containing coded information; Active infra-red sensors; Actuators; Actuators (electric switches); Adaptors for connecting telephones to hearing aids; Adaptors for converting alternating current to direct current; Adaptors for converting direct current to alternating current; Adaptors for use with electric plugs; Add-in cards for micro computers; Add-on circuit boards; Add-on-cards for computers; Adding machines; Additional lenses; Adhesion testers for surface mounted device attachment testing; Adhesive gap control apparatus; Adhesive gap control instruments; Adhesive security tapes (encoded); Adhesive security tapes (magnetic); Adhesive splicing tape for joining cinematographic films; Adhesive splicing tape for joining magnetic tape; Advertising boards (electric or luminous); Advertising display apparatus (electric or luminous); Advertising display signs (electric or luminous); Advertising signboards (electric); Advertising signboards (luminous); Aerial amplifiers; Aerial boosters; Aerial combiners; Aerial converters; Aerial filters; Aerial measuring apparatus; Aerial platforms for use in fire fighting; Aerial reconnaissance apparatus; Aerial sockets; Aerials; Aerials for radio; Aerials for radio receivers; Aerials for telecommunications;

Aerials for television; Aerials for the reception of signals; Aerials for the transmission of signals; Aerometers; Aeronautical communications apparatus; Aeronautical communications instruments; After idling timers; Agitating apparatus (laboratory or scientific); Agitating instruments (laboratory or scientific); Aiming apparatus (electronic guidance); Aiming apparatus (telescopic sights); Aiming sights (telescopic); Aiming telescopes; Air analysis apparatus; Air break switches; Air circuit breakers; Air operated electric switches; Air temperature sensors; Air traffic control apparatus; Airborne data acquisition apparatus; Airborne data acquisition instruments; Airborne meteorological apparatus; Airborne meteorological instruments; Aircraft cockpit instrumentation; Aircraft landing guidance apparatus; Aircraft landing guidance instruments; Airwave encoded data information receivers; Alarm bells; Alarm bells, electric; Alarm control apparatus; Alarm devices (other than for vehicles); Alarm installations for buildings; Alarm instruments, other than for vehicles; Alarm management apparatus; Alarm management installations; Alarm panels; Alarm sensors; Alarm signalling apparatus; Alarm signalling receivers; Alarm signalling transmitters; Alarm systems incorporating control and visual display apparatus; Alarms; Alarms for controlling the movement of human beings; Alcohol testing apparatus; Alcoholmeters; Alidades; Alignment equipment for electronic audio apparatus; Alkaline accumulators; Alloyed steel wire (electric); Alternating current adaptors; Alternating current power apparatus; Alternating current power installations; Alternator rectifiers; Altimeters; Ammeters; Amorphous heads for video tape recorders; Amplification apparatus; Amplification instruments; Amplifier tuners; Amplifiers; Amplifiers being audio apparatus; Amplifiers for transducers; Amplifiers for use in cars for entertainment purposes; Amplifiers for use with gramophones; Amplifying apparatus; Amplifying tubes; Amplifying valves; Amplitude frequency modulation tuners; Amplitude modulation tuners; Ampoules for laboratory use; Ampoules for scientific use; Amusement apparatus adapted for use with an external display monitor or screen; Amusement apparatus for use with television screens; Amusement gaming apparatus for use with television receivers; Anaerobic chambers for laboratory or scientific use; Analogue circuits; Analogue control apparatus; Analogue converters; Analogue displays; Analogue master modules; Analogue output modules; Analogue precision potentiometers; Analogue recording apparatus; Analogue slave modules; Analogue sound modifiers; Analogue to digital audio converters; Analogue to digital converters; Analogue to digital data converters; Analysers for microplates; Analytical apparatus for use in clinical chemistry; Analytical orthoprojectors; Analytical plotters; Anatomical models for instructional purposes; Anatomical models for teaching purposes; Ancillary input and output controllers; Ancillary input

and output devices; Anemometers; Anemometric installations; Angle gauges; Angle indicating apparatus; Angle indicating devices; Angle plates; Animated cartoons; Animated cartoons in the form of cinematographic films; Animated cinematographic films prepared for exhibitions; Animated films; Announcement apparatus; Annual calendar programming installations; Annunciators; Anode batteries; Anodes; Anodes for cathodic protection; Anodes for use in chlorine-alkali cells with mercury cathodes; Anodes having hydrodynamic means for electrolyte recirculation; Anodes made of metal alloys for use in protecting against corrosion; Answering machines; Antenna boosters; Antenna masts; Antenna positioners; Antenna terminal boards; Antenna timing units; Antenna transmission wire; Antennae; Antennae apparatus; Antennae arrays; Antennae arrays for use in radio broadcasting; Antennae filters; Antennas; Antennas for car radios; Antennas for radios; Antennas for receiving audio signals; Antennas for receiving television signals; Antennas for the reception of electromagnetic waves; Antennas for the transmission of electromagnetic waves; Antennas for wireless communication apparatus; Anti-dazzle shades; Anti-dazzle spectacles; Anti-dust headsets; Anti-glare apparatus for visual display units; Anti-glare filter screens for cathode ray tubes; Anti-glare filters for televisions and computer monitors; Anti-glare filters for visual display units; Anti-glare glasses; Anti-glare screens; Anti-glare visors; Anti-gravity suits; Anti-interference devices (electricity); Anti-noise apparatus for noise suppression; Anti-noise filters; Anti-noise rotors; Anti-pollution masks for respiratory protection; Anti-static bars adapted for ionization; Anti-static computer covers; Anti-static guard wrist straps; Anti-static keyboard strips; Anti-theft alarm apparatus (other than for vehicles); Anti-theft alarm installations (other than for vehicles); Anti-theft alarms (other than for vehicles); Anti-theft alarms adapted for use with video apparatus; Anti-theft electrical alarm systems (other than for vehicles); Anti-theft locking devices for protecting radios; Anti-theft warning apparatus; Anti-theft warning devices; Anticathodes; Apertometers (optics); Aperture gauges; Apertures; Apertures being optical components for use in microscopy systems; Apparatus adapted for carrying contact lenses; Apparatus adapted for identifying magnetically recorded information; Apparatus adapted for splicing magnetic tapes; Apparatus adapted for winding magnetic tapes; Apparatus and instruments for astronomy; Apparatus and instruments for controlling electricity; Apparatus and instruments for physics; Apparatus and instruments for regulating electricity; Apparatus and instruments for switching electricity; Apparatus containing treated silica for use in analyses; Apparatus controlled by computers for analysing samples; Apparatus designed to control the performance of apparatus; Apparatus designed to monitor the performance of apparatus; Apparatus for accumulating electricity; Apparatus for

amplifying sound; Apparatus for analysing alcohol in body fluids (other than for medical use); Apparatus for analysing alcohol in breath (other than for medical use); Apparatus for analysing bacteria in biological samples (other than for medical use); Apparatus for analysing gases (other than for medical use); Apparatus for analysing images (other than for medical use); Apparatus for analysing substances (other than for medical use); Apparatus for analysing substances in gases (other than for medical use); Apparatus for analysing substances in liquids (other than for medical use); Apparatus for analysing the composition of air (other than for medical use); Apparatus for analysing the output of a camera; Apparatus for analysis (other than for medical use); Apparatus for applying laser radiation (other than for medical purposes); Apparatus for applying photographs to substrates; Apparatus for applying pictures to substrates; Apparatus for applying relief patterns to substrates; Apparatus for artificially distorting video images; Apparatus for artificially distorting video signals; Apparatus for Abacuses; Abdomen protectors for protection against injury (other than parts of sports suits or adapted for use in specific sporting activities); Absorption filters; Accelerated ion devices (other than for treating the air); Accelerometers; Accelerometers integrated with global positioning apparatus; Access control cards (encoded or magnetic); Access interfaces for managed private circuit networks; Accounting apparatus; Accounting computer terminals; Accounting installations; Accounting machines; Accumulator boxes; Accumulator charging apparatus; Accumulator jars; Accumulators, electric; Accumulators, electric, for vehicles; Acid hydrometers; Acid proof clothing; Acid proof footwear; Acidimeters for batteries; Acidity analysers; Acidity meters; Acidity sensor assemblies; Acoustic (sound) alarms; Acoustic apparatus for recording sound; Acoustic apparatus for reproducing sound; Acoustic conduits; Acoustic control circuits; Acoustic couplers; Acoustic devices; Acoustic discs; Acoustic discs for data processing; Acoustic instruments; Acoustic microscope apparatus; Acoustic microscopes installations; Acoustic modems; Acoustic pulse-echo ranging apparatus for industrial use; Acoustic pulse-echo ranging apparatus for marine use; Acoustic receivers for telephonic communication with computers; Acoustic recording discs; Acoustic recording supports; Acoustic records; Acoustic sensing apparatus; Acoustic signallers for lubricating installations; Acoustic temperature measurement apparatus; Acoustic warning apparatus; Acoustical diffusers; Acoustical discs; Actinometers; Active cable assemblies; Active cable connectors; Active electronic labels containing coded information; Active infra-red sensors; Actuators; Actuators (electric switches); Adaptors for connecting telephones to hearing aids; Adaptors for converting alternating current to direct current; Adaptors for converting direct current to alternating current; Adaptors for use with electric plugs; Add-in

cards for micro computers; Add-on circuit boards; Add-on-cards for computers; Adding machines; Additional lenses; Adhesion testers for surface mounted device attachment testing; Adhesive gap control apparatus; Adhesive gap control instruments; Adhesive security tapes (encoded); Adhesive security tapes (magnetic); Adhesive splicing tape for joining cinematographic films; Adhesive splicing tape for joining magnetic tape; Advertising boards (electric or luminous); Advertising display apparatus (electric or luminous); Advertising display signs (electric or luminous); Advertising signboards (electric); Advertising signboards (luminous); Aerial amplifiers; Aerial boosters; Aerial combiners; Aerial converters; Aerial filters; Aerial measuring apparatus; Aerial platforms for use in fire fighting; Aerial reconnaissance apparatus; Aerial sockets; Aerials; Aerials for radio; Aerials for radio receivers; Aerials for telecommunications; Aerials for television; Aerials for the reception of signals; Aerials for the transmission of signals; Aerometers; Aeronautical communications apparatus; Aeronautical communications instruments; After idling timers; Agitating apparatus (laboratory or scientific); Agitating instruments (laboratory or scientific); Aiming apparatus (electronic guidance); Aiming apparatus (telescopic sights); Aiming sights (telescopic); Aiming telescopes; Air analysis apparatus; Air break switches; Air circuit breakers; Air operated electric switches; Air temperature sensors; Air traffic control apparatus; Airborne data acquisition apparatus; Airborne data acquisition instruments; Airborne meteorological apparatus; Airborne meteorological instruments; Aircraft cockpit instrumentation; Aircraft landing guidance apparatus; Aircraft landing guidance instruments; Airwave encoded data information receivers; Alarm bells; Alarm bells, electric; Alarm control apparatus; Alarm devices (other than for vehicles); Alarm installations for buildings; Alarm instruments, other than for vehicles; Alarm management apparatus; Alarm management installations; Alarm panels; Alarm sensors; Alarm signalling apparatus; Alarm signalling receivers; Alarm signalling transmitters; Alarm systems incorporating control and visual display apparatus; Alarms; Alarms for controlling the movement of human beings; Alcohol testing apparatus; Alcoholmeters; Alidades; Alignment equipment for electronic audio apparatus; Alkaline accumulators; Alloyed steel wire (electric); Alternating current adaptors; Alternating current power apparatus; Alternating current power installations; Alternator rectifiers; Altimeters; Ammeters; Amorphous heads for video tape recorders; Amplification apparatus; Amplification instruments; Amplifier tuners; Amplifiers; Amplifiers being audio apparatus; Amplifiers for transducers; Amplifiers for use in cars for entertainment purposes; Amplifiers for use with gramophones; Amplifying apparatus; Amplifying tubes; Amplifying valves; Amplitude frequency modulation tuners; Amplitude modulation tuners;

Ampoules for laboratory use; Ampoules for scientific use; Amusement apparatus adapted for use with an external display monitor or screen; Amusement apparatus for use with television screens; Amusement gaming apparatus for use with television receivers; Anaerobic chambers for laboratory or scientific use; Analogue circuits; Analogue control apparatus; Analogue converters; Analogue displays; Analogue master modules; Analogue output modules; Analogue precision potentiometers; Analogue recording apparatus; Analogue slave modules; Analogue sound modifiers; Analogue to digital audio converters; Analogue to digital converters; Analogue to digital data converters; Analysers for microplates; Analytical apparatus for use in clinical chemistry; Analytical orthoprojectors; Analytical plotters; Anatomical models for instructional purposes; Anatomical models for teaching purposes; Ancillary input and output controllers; Ancillary input and output devices; Anemometers; Anemometric installations; Angle gauges; Angle indicating apparatus; Angle indicating devices; Angle plates; Animated cartoons; Animated cartoons in the form of cinematographic films; Animated cinematographic films prepared for exhibitions; Animated films; Announcement apparatus; Annual calendar programming installations; Annunciators; Anode batteries; Anodes; Anodes for cathodic protection; Anodes for use in chlorine-alkali cells with mercury cathodes; Anodes having hydrodynamic means for electrolyte recirculation; Anodes made of metal alloys for use in protecting against corrosion; Answering machines; Antenna boosters; Antenna masts; Antenna positioners; Antenna terminal boards; Antenna timing units; Antenna transmission wire; Antennae; Antennae apparatus; Antennae arrays; Antennae arrays for use in radio broadcasting; Antennae filters; Antennas; Antennas for car radios; Antennas for radios; Antennas for receiving audio signals; Antennas for receiving television signals; Antennas for the reception of electromagnetic waves; Antennas for the transmission of electromagnetic waves; Antennas for wireless communication apparatus; Anti-dazzle shades; Anti-dazzle spectacles; Anti-dust headsets; Anti-glare apparatus for visual display units; Anti-glare filter screens for cathode ray tubes; Anti-glare filters for televisions and computer monitors; Anti-glare filters for visual display units; Anti-glare glasses; Anti-glare screens; Anti-glare visors; Anti-gravity suits; Anti-interference devices (electricity); Anti-noise apparatus for noise suppression; Anti-noise filters; Anti-noise rotors; Anti-pollution masks for respiratory protection; Anti-static bars adapted for ionization; Anti-static computer covers; Anti-static guard wrist straps; Anti-static keyboard strips; Anti-theft alarm apparatus (other than for vehicles); Anti-theft alarm installations (other than for vehicles); Anti-theft alarms (other than for vehicles); Anti-theft alarms adapted for use with video apparatus; Anti-theft electrical alarm systems (other than for vehicles); Anti-theft locking devices for protecting radios;

Anti-theft warning apparatus; Anti-theft warning devices; Anticathodes; Apertometers (optics); Aperture gauges; Apertures; Apertures being optical components for use in microscopy systems; Apparatus adapted for carrying contact lenses; Apparatus adapted for identifying magnetically recorded information; Apparatus adapted for splicing magnetic tapes; Apparatus adapted for winding magnetic tapes; Apparatus and instruments for astronomy; Apparatus and instruments for controlling electricity; Apparatus and instruments for physics; Apparatus and instruments for regulating electricity; Apparatus and instruments for switching electricity; Apparatus containing treated silica for use in analyses; Apparatus controlled by computers for analysing samples; Apparatus designed to control the performance of apparatus; Apparatus designed to monitor the performance of apparatus; Apparatus for accumulating electricity; Apparatus for amplifying sound; Apparatus for analysing alcohol in body fluids (other than for medical use); Apparatus for analysing alcohol in breath (other than for medical use); Apparatus for analysing bacteria in biological samples (other than for medical use); Apparatus for analysing gases (other than for medical use); Apparatus for analysing images (other than for medical use); Apparatus for analysing substances (other than for medical use); Apparatus for analysing substances in gases (other than for medical use); Apparatus for analysing substances in liquids (other than for medical use); Apparatus for analysing the composition of air (other than for medical use); Apparatus for analysing the output of a camera; Apparatus for analysis (other than for medical use); Apparatus for applying laser radiation (other than for medical purposes); Apparatus for applying photographs to substrates; Apparatus for applying pictures to substrates; Apparatus for applying relief patterns to substrates; Apparatus for artificially distorting video images; Apparatus for artificially distorting video signals; Apparatus for attracting lightning; Apparatus for automatically placing messages via telecommunications equipment; Apparatus for automatically timing light-exposure; Apparatus for bearing visual recordings; Apparatus for breathing purposes (other than artificial respiration); Apparatus for broadcasting audio signals; Apparatus for broadcasting visual signals; Apparatus for carrying images; Apparatus for carrying sound; Apparatus for carrying-out assays (other than for medical purposes); Apparatus for carrying-out diagnostic tests (other than for medical purposes); Apparatus for changing record player needles; Apparatus for charging accumulator batteries; Apparatus for checking boiler efficiency; Apparatus for checking the contents of luggage; Apparatus for checking the correct assembly of fittings; Apparatus for checking the integrity of solder joints; Apparatus for checking the pressure of pneumatic tires of vehicles; Apparatus for checking the temperature of vehicle brakes; Apparatus for checking the tensions

of ink-level strips; Apparatus for cleaning the heads of video recorders; Apparatus for climatic technology; Apparatus for collecting by radio frequency; Apparatus for collecting encoded data for supply to computers; Apparatus for communication; Apparatus for computation; Apparatus for computer aided design; Apparatus for computer aided manufacture; Apparatus for computer numerical control of machines; Apparatus for computing; Apparatus for conducting scientific experiments in satellites; Apparatus for conducting scientific experiments in space vehicles; Apparatus for connecting electrical circuit components; Apparatus for connecting electrics; Apparatus for connecting electronics; Apparatus for containing microporous hollow fibres for conducting membrane separations; Apparatus for controlling cameras; Apparatus for controlling computer programmes; Apparatus for controlling lighting; Apparatus for controlling the input of data; Apparatus for controlling the operation of machines (computer); Apparatus for controlling the operation of machines (electric); Apparatus for controlling the operation of machines (electronic); Apparatus for controlling the operation of machines (remote); Apparatus for controlling the output of data; Apparatus for controlling the processing of data; Apparatus for controlling the storage of data; Apparatus for controlling the supply of electrical current; Apparatus for converting digital values into graphic information; Apparatus for copying diskettes; Apparatus for copying disks; Apparatus for creating digital effects; Apparatus for curling the hair (hand-held, electric); Apparatus for cutting film; Apparatus for cutting magnetic tapes; Apparatus for cutting video tapes; Apparatus for data collection; Apparatus for data communication between laser copying machines; Apparatus for data communications between computers; Apparatus for data entry; Apparatus for data input; Apparatus for data memories; Apparatus for data output; Apparatus for data processing; Apparatus for data storage; Apparatus for data transmitting; Apparatus for decoding (reading) encoded cards; Apparatus for decoding encoded signals; Apparatus for decoding magnetically recorded information; Apparatus for decoding signals displayed on a screen into braille; Apparatus for detecting defects in telephone apparatus; Apparatus for detecting fire; Apparatus for detecting gases; Apparatus for detecting light obscuring substances; Apparatus for detecting smoke; Apparatus for detecting vapours; Apparatus for developing films; Apparatus for developing photographic film; Apparatus for developing x-ray films; Apparatus for diagnostic purposes (other than medical); Apparatus for digital signal processing; Apparatus for digitising geometric data contained in documents; Apparatus for digitising the contours of the feet; Apparatus for dispensing flares; Apparatus for displaying images; Apparatus for displaying information; Apparatus for displaying measurements; Apparatus for displaying picture signals; Apparatus for displaying

pre-recorded messages; Apparatus for displaying the path followed by a vehicle; Apparatus for displaying the position of vehicles; Apparatus for driving away animals (electric); Apparatus for driving away insects (electric); Apparatus for driving away parasites (electric); Apparatus for drying photographic prints; Apparatus for editing cinematographic film; Apparatus for editing cinematographic films; Apparatus for editing motion picture films; Apparatus for electric welding; Apparatus for electrical heat tracing; Apparatus for electrical safety protection; Apparatus for electrical signal transmission; Apparatus for electricity distribution; Apparatus for electricity supply; Apparatus for electronic digital processing; Apparatus for electronic image reception; Apparatus for electronic image transmission; Apparatus for electronic information processing; Apparatus for electronic mail; Apparatus for electronic publishing; Apparatus for electronic recording of sound; Apparatus for environmental testing of electronic components; Apparatus for evaluating distance tachographs in railway vehicles; Apparatus for evaluating distance tachographs in road vehicles; Apparatus for evaluating rotary revolutions in vehicles; Apparatus for evaluating speed tachographs in railway vehicles; Apparatus for evaluating speed tachographs in road vehicles; Apparatus for evaluating tachometers in railway vehicles; Apparatus for evaluating tachometers in road vehicles; Apparatus for exposing lithographic printing plates; Apparatus for extinguishing fires; Apparatus for fault detection; Apparatus for fermentation (laboratory apparatus); Apparatus for filing information; Apparatus for games adapted for use with an external display screen or monitor; Apparatus for gathering information; Apparatus for generating characters; Apparatus for generating images; Apparatus for generating noise; Apparatus for guarding data communication systems against unauthorised access; Apparatus for handling information; Apparatus for heavy current electrical engineering; Apparatus for identifying cows; Apparatus for image processing; Apparatus for in-cartridge recording on magnetic tape; Apparatus for in-cassette recording on magnetic tape; Apparatus for indicating measurements; Apparatus for information processing; Apparatus for information teleprocessing; Apparatus for information transmission; Apparatus for input of data; Apparatus for inputting information into a computer; Apparatus for inserting text into television pictures; Apparatus for interconnecting data processing equipment; Apparatus for introducing gases into arbitrary media; Apparatus for issuing reading cards bearing encoded information; Apparatus for joining electric apparatus to electric wires; Apparatus for joining electric cables; Apparatus for joining plastic pipes; Apparatus for laboratory use (other than medical); Apparatus for lighting control; Apparatus for limiting excess voltages; Apparatus for linking computers; Apparatus for linking computers into networks; Apparatus for liquid

chromatography (for laboratory use); Apparatus for localisation for vehicles via radio-electrical transmission; Apparatus for localisation for vehicles via satellites; Apparatus for locating electrical cables; Apparatus for long-distance microphonic monitoring; Apparatus for low power electrical engineering; Apparatus for machining by electric spark erosion; Apparatus for making prints from video images; Apparatus for making sound on discs; Apparatus for making sound on tapes; Apparatus for managing energy supplies; Apparatus for mass flow measurement; Apparatus for measured valve acquisition; Apparatus for measurement of gas components in air; Apparatus for measuring; Apparatus for measuring agents; Apparatus for measuring amounts of products for filling into sacks; Apparatus for measuring biomagnetic signals; Apparatus for measuring board materials; Apparatus for measuring distance; Apparatus for measuring humidity; Apparatus for measuring liquids; Apparatus for measuring noise; Apparatus for measuring overheat; Apparatus for measuring paper; Apparatus for measuring physiological stress (other than for medical purposes); Apparatus for measuring pressure; Apparatus for measuring temperature (other than for medical purposes); Apparatus for measuring the characteristics of cables; Apparatus for measuring the contents of containers of hazardous materials; Apparatus for measuring the contents of refuse containers; Apparatus for measuring the swing speed of bats; Apparatus for measuring the swing speed of golf clubs; Apparatus for measuring the temperature of fluids; Apparatus for measuring the thickness of skins; Apparatus for message sending; Apparatus for meteorological monitoring; Apparatus for metering liquids from containers; Apparatus for metering liquids from vessels; Apparatus for microfilming; Apparatus for micrographics; Apparatus for monitoring atmospheric conditions; Apparatus for monitoring combustion; Apparatus for monitoring electrical components; Apparatus for monitoring electrical instruments; Apparatus for monitoring electronic components; Apparatus for monitoring electronic instruments; Apparatus for monitoring fluid pipes; Apparatus for monitoring gas in the atmosphere; Apparatus for monitoring picture quality parameters of video signals; Apparatus for monitoring the operations of engines; Apparatus for monitoring vacuum pumps; Apparatus for mounting cinematographic cameras on stands; Apparatus for mounting in vehicles for displaying information for route planning; Apparatus for mounting in vehicles for displaying traffic information; Apparatus for mounting in vehicles for receiving traffic information; Apparatus for navigation; Apparatus for network communication; Apparatus for optical signal transmission; Apparatus for optical signalization; Apparatus for payment with magnetically encoded cards; Apparatus for payment with magnetically memory cards; Apparatus for performing cytological specimen examination (for

laboratory use); Apparatus for performing diagnostic analysis of electronic components; Apparatus for personal use for protection against accident; Apparatus for personal use for protection against injury; Apparatus for personnel entry control; Apparatus for photographing; Apparatus for placing capacitors in electronic circuits; Apparatus for plain language text recognition; Apparatus for planning patterns for weaving machines; Apparatus for playing pre-recorded video cassettes; Apparatus for printing photographic film; Apparatus for processing audio signals; Apparatus for processing banknotes; Apparatus for processing data; Apparatus for processing data programmes; Apparatus for processing data relating to images; Apparatus for processing digital data; Apparatus for processing digital video signals; Apparatus for processing exposed medical X-ray films; Apparatus for processing exposed photographic films and papers; Apparatus for processing histological specimens; Apparatus for processing information; Apparatus for processing photographic film; Apparatus for processing photographs; Apparatus for processing recorded sound; Apparatus for processing valuable papers; Apparatus for processing video signals; Apparatus for producing analogue for music; Apparatus for producing free radicals; Apparatus for producing ozone; Apparatus for producing pre-recorded cartridges; Apparatus for producing pre-recorded magnetic tape cassettes; Apparatus for programming data; Apparatus for programming electronic control apparatus; Apparatus for programming machine tools for the machining; Apparatus for protecting computers from electrical power supply faults; Apparatus for protecting the human eyes from radiation; Apparatus for protection against accident; Apparatus for protection against assault; Apparatus for protection against injury; Apparatus for protection against radio-active materials; Apparatus for providing a featureless background for use in photography; Apparatus for radio; Apparatus for radiolocation; Apparatus for reading (decoding) encoded cards; Apparatus for reading bar codes; Apparatus for reading data; Apparatus for reading data on magnetic apparatus; Apparatus for reading data on optical apparatus; Apparatus for reading information; Apparatus for reading of diazo reproduction; Apparatus for reading of microfiches; Apparatus for reading of microfilms; Apparatus for reading recorded data; Apparatus for rearranging the order of photographs; Apparatus for rearranging the order of sheet materials; Apparatus for receiving cash payments; Apparatus for receiving data; Apparatus for receiving electromagnetic radiation; Apparatus for receiving information from a computer; Apparatus for receiving satellite broadcast signals; Apparatus for recharging electrical accumulators; Apparatus for recoding digitally stored pictures; Apparatus for recoding digitally stored specifications; Apparatus for recording; Apparatus for recording audio signals; Apparatus for recording cable layouts; Apparatus for recording

data in magnetic readable form; Apparatus for recording digital information; Apparatus for recording distance; Apparatus for recording electrical information; Apparatus for recording humidity; Apparatus for recording images; Apparatus for recording on magnetic tape; Apparatus for recording pictures; Apparatus for recording radiation; Apparatus for recording sound; Apparatus for recording television signals on discs; Apparatus for recording the positions of cables; Apparatus for recording video; Apparatus for recording visual images; Apparatus for recording visual signals; Apparatus for relapping and recontouring worn magnetic heads; Apparatus for remote control of automatically guided vehicles; Apparatus for remote data transmission; Apparatus for remote meter reading; Apparatus for remote surveying; Apparatus for remote tactile sensing; Apparatus for reproducing stereophonic sound recorded on discs; Apparatus for reproducing stereophonic sound recorded on magnetic tapes; Apparatus for reproducing video; Apparatus for reproduction of film; Apparatus for reproduction of sound; Apparatus for reproduction of video images; Apparatus for rescue operations; Apparatus for retrieving data; Apparatus for rinsing of articles; Apparatus for sampling in materials processing installations; Apparatus for sampling the ambient atmosphere; Apparatus for scanning; Apparatus for scanning relief patterns applied to substrates; Apparatus for scanning text for printing; Apparatus for scanning the retina for the security identification of persons; Apparatus for scientific research in laboratories; Apparatus for scientific use; Apparatus for searching electronic information; Apparatus for sending data; Apparatus for sending messages; Apparatus for sensing colour; Apparatus for sensing movement; Apparatus for setting the classification of coins; Apparatus for setting the classification of counters; Apparatus for setting the number of coins; Apparatus for setting the number of counters; Apparatus for signalization in industry; Apparatus for signalization in mines; Apparatus for signalling; Apparatus for signalling aircraft; Apparatus for signalling missiles; Apparatus for signalling ships; Apparatus for signalling vehicles; Apparatus for simulating the effect of air borne vehicles; Apparatus for simulating the effect of land borne vehicles; Apparatus for simulating the effect of water borne vehicles; Apparatus for simulating the performance of air borne vehicles; Apparatus for simulating the performance of land borne vehicles; Apparatus for simulating the performance of water borne vehicles; Apparatus for sorting coins; Apparatus for sorting paper money; Apparatus for sorting tickets; Apparatus for sound level measurement; Apparatus for sound reproduction; Apparatus for sound transmission; Apparatus for speech inputting for voice recognition; Apparatus for speech outputting for voice recognition; Apparatus for splicing magnetic tapes; Apparatus for splicing optical fibres; Apparatus for storing pre-determined quantities of

pharmaceuticals; Apparatus for storing programs; Apparatus for supplying electric power to metal melting furnaces; Apparatus for suppressing explosions; Apparatus for suppressing fires; Apparatus for surface measurements; Apparatus for taking soundings; Apparatus for telecommunications engineering; Apparatus for telegraphy; Apparatus for telephone communication; Apparatus for telephone networks; Apparatus for television; Apparatus for television transmission; Apparatus for testing electrical apparatus; Apparatus for testing electrical components; Apparatus for testing electrical devices; Apparatus for testing electrical instruments; Apparatus for testing electronic circuits; Apparatus for testing electronic components; Apparatus for testing electronic instruments; Apparatus for testing fermentation samples; Apparatus for testing friction characteristics; Apparatus for testing fuses; Apparatus for testing in the aircraft industry; Apparatus for testing in the automotive industry; Apparatus for testing in the shipbuilding industry; Apparatus for testing optical cables; Apparatus for testing printed circuit boards; Apparatus for testing the integrity of sealed packages; Apparatus for testing the porosity of coatings; Apparatus for testing the quality of food products; Apparatus for testing wear characteristics; Apparatus for text processing; Apparatus for the acquisition of data; Apparatus for the acquisition of information; Apparatus for the acquisition of signals; Apparatus for the amplification of sound or images; Apparatus for the analysis of air; Apparatus for the analysis of fissile materials; Apparatus for the analysis of gas; Apparatus for the analysis of nucleic sequences; Apparatus for the automatic control of aircraft; Apparatus for the automatic control of missiles; Apparatus for the automatic control of ships; Apparatus for the automatic control of vehicles; Apparatus for the communication of data; Apparatus for the control of electric current; Apparatus for the control of power supply to electrically driven motors; Apparatus for the control of unmanned flying objects; Apparatus for the conversion of data; Apparatus for the conversion of information; Apparatus for the detection of explosives; Apparatus for the detection of micro-organisms in foods; Apparatus for the detection of moisture; Apparatus for the detection of radiation; Apparatus for the directional control of aircraft; Apparatus for the directional guidance of unmanned flying objects; Apparatus for the exposure of films for integrated circuits; Apparatus for the graphic display of data; Apparatus for the guidance of weapon systems; Apparatus for the guidance of weapons; Apparatus for the identification of samples; Apparatus for the location of faults in cable sheaths; Apparatus for the location of faults in cables; Apparatus for the measurement of moisture levels; Apparatus for the monitoring of personnel; Apparatus for the processing of data; Apparatus for the processing of digital information; Apparatus for the processing of information; Apparatus for the projection of

films for integrated circuits; Apparatus for the projection of visual images; Apparatus for the recording of images; Apparatus for the recording of sound; Apparatus for the recording of sound or images; Apparatus for the remote control of aircraft; Apparatus for the remote control of industrial operations; Apparatus for the remote control of mirrors; Apparatus for the remote control of missiles; Apparatus for the remote control of ships; Apparatus for the remote control of signals; Apparatus for the remote control of vehicles; Apparatus for the reproduction of documents; Apparatus for the reproduction of images; Apparatus for the reproduction of optical images; Apparatus for the reproduction of pictures; Apparatus for the reproduction of sound; Apparatus for the reproduction of sound or images; Apparatus for the safety of persons in distress at sea; Apparatus for the separation of antibodies (not for medical purposes); Apparatus for the separation of proteins (not for medical purposes); Apparatus for the storage of data; Apparatus for the storage of information; Apparatus for the storage of physical measurements; Apparatus for the storage of pictorial data; Apparatus for the storage of textual data; Apparatus for the supply of electricity; Apparatus for the testing of air; Apparatus for the testing of electrical circuits; Apparatus for the testing of gas; Apparatus for the transfer of film material to video; Apparatus for the transmission of data; Apparatus for the transmission of documents; Apparatus for the transmission of documents between two locations; Apparatus for the transmission of electrical signals; Apparatus for the transmission of images; Apparatus for the transmission of sound; Apparatus for the transmission of sound or images; Apparatus for the validation of monetary credit values; Apparatus for the volumetric measurement of liquids; Apparatus for the volumetric transfer of liquids; Apparatus for the welding of materials; Apparatus for transmission via satellites; Apparatus for transmitting audio signals; Apparatus for transmitting data; Apparatus for transmitting data by the telephone network; Apparatus for transmitting data via the telephone; Apparatus for transmitting electronic signals; Apparatus for transmitting film images onto television screens; Apparatus for transmitting images; Apparatus for transmitting information; Apparatus for transmitting messages via the telephone; Apparatus for transmitting radio signals by cable; Apparatus for transmitting signals; Apparatus for transmitting television signals via satellite; Apparatus for use in access control; Apparatus for use in audio-visual communication; Apparatus for use in communication engineering; Apparatus for use in communications between computers; Apparatus for use in communications networks; Apparatus for use in controlling pitch; Apparatus for use in data logging; Apparatus for use in desktop publishing; Apparatus for use in detecting signal levels; Apparatus for use in digital communication transmission; Apparatus for use in electronic

countermeasures; Apparatus for use in electronic publishing; Apparatus for use in electrophoresis procedures; Apparatus for use in electroplating; Apparatus for use in fuel measurement; Apparatus for use in high-frequency reception; Apparatus for use in high-frequency transmission; Apparatus for use in igniting gas burners; Apparatus for use in in-vitro diagnosis (other than medical); Apparatus for use in laboratories; Apparatus for use in laboratory analysis; Apparatus for use in non-destructive testing; Apparatus for use in protection against theft; Apparatus for use in remote control; Apparatus for use in security control; Apparatus for use in teletranscription; Apparatus for use in teletransmission; Apparatus for use in testing communication channels; Apparatus for use in testing electrical cables; Apparatus for use in the automation of industrial robots; Apparatus for use in the detection of mobile objectives; Apparatus for use in the inspection of baggage by means of X-Rays; Apparatus for use in the protection of power lines; Apparatus for weighing; Apparatus relating to chromatography (not for medical purposes); Apparatus to check franking; Apparatus to check stamping mail; Appliances for communication; Appliances for measuring the thickness of leather; Appliances for paging individuals; Appliances for regulating power actuated brakes; Appliances for the recording of messages; Appliances for the reproduction of messages; Appliances for the transmission of messages; Appliances for use in the analysis of gases (other than for medical use); Appliances for use in the analysis of liquids (other than for medical diagnosis); Application software; Applied electronic apparatus; Applied electronic machines; Applied radio apparatus; Applied ultrasonic echo sounders; Applied ultrasonic flaw detectors; Approximation detectors; Approximation electronic discharge elements; Aqualungs; Aquarium thermostats; Arc cutting apparatus (electric); Arc gauging apparatus; Arc suppression coils; Arc welding apparatus (electric, other than machines); Arc welding electrodes; Arm pads for protective purposes (other than adapted for use in sporting activities); Armament testing apparatus for use on aircraft; Armatures; Armatures (electricity); Armbands (flotation devices); Armbands (luminous) for protection against accident or injury; Armbands (photo luminescent) for protection against accident or injury; Armbands (reflective) for protection against accident or injury; Arrestor holder apparatus; Arresters; Articles adapted for preventing electromagnetic interference; Articles adapted for use in the ducting of computer cables; Articles adapted for use in the support of computer cables; Articles for protection against accident; Articles for protection against injury; Articles for recording visual images; Articles of clothing for protection against accident; Articles of clothing for protection against acids; Articles of clothing for protection against fire; Articles of fire resistant clothing; Articles of footwear (protective); Articles of footwear for protection against accidents; Articles of

footwear for protection against injury; Articles of headgear (helmets); Articles of headgear for protection against accident or injury; Articles of industrial clothing for protection against accident; Articles of industrial clothing for protection against injury; Articles of leather clothing for protection against accident or injury; Articles of protective clothing (against accident or injury); Articles of protective clothing for wear by motorcyclists for protection against accident or injury; Articles of protective clothing made of rubber to prevent accident or injury; Articles of protective clothing to prevent accident or injury; Articles of protective headgear for cyclists; Articles of protective headgear for motor cyclists; Artificial intelligence apparatus; Asbestos clothing for protection against fire; Asbestos gloves for protection against accidents; Asbestos screens for firemen; Aspirators; Assaying instruments for mycotoxins; Assembler programmes for computers; Attenuators; Audible alarms (other than for vehicles); Audio amplifiers; Audio and video receivers; Audio apparatus; Audio apparatus for vehicles; Audio cable; Audio cable connectors; Audio cassette players; Audio cassette recorders; Audio cassettes; Audio cassettes for language teaching; Audio cassettes for use with sound recording machines; Audio compact discs; Audio conference apparatus; Audio conference instruments; Audio digital discs; Audio digitisers; Audio discs; Audio door entry systems; Audio dubbing apparatus; Audio electrical apparatus for in-car entertainment; Audio electronic apparatus; Audio electronic instruments; Audio equipment; Audio frequency apparatus; Audio head cleaners; Audio installations; Audio instruments; Audio level oscillators; Audio magnetic tapes; Audio mixing apparatus; Audio mixing console apparatus; Audio mixing desks; Audio mixing machines; Audio oscillators; Audio players; Audio processing apparatus; Audio processing apparatus for use with video apparatus; Audio products for use in vehicles; Audio racks adapted for use with audio equipment; Audio recording apparatus; Audio recording instruments; Audio recording of intra-uterine sounds; Audio recordings; Audio signal level controlling apparatus; Audio signal processing apparatus; Audio speakers; Audio speakers for automobiles; Audio speakers for home; Audio switching apparatus; Audio tape cassettes; Audio tape players; Audio tape recorders; Audio tapes; Audio test instruments; Audio testing apparatus; Audio timers; Audio transmitter units; Audiovisual aids (apparatus); Audiovisual apparatus; Audiovisual apparatus for use in satellite broadcasting; Audiovisual devices (apparatus); Audiovisual display apparatus adapted for use with computers; Audiovisual display apparatus for use with computers; Audiovisual instruments; Audiovisual instruments for communication between two stations; Audiovisual photographic instruments; Audiovisual teaching apparatus; Aural monitoring apparatus; Auto transformer starters being control apparatus; Auto-focus photographic cameras; Auto-pilots; Autocues (script

prompting devices); Automated analysers for body fluids (other than for medical use); Automated banking machines; Automated cash machines; Automated clinical chemical analysers; Automated control installations; Automated control panels; Automated teller machines (ATM); Automated ticket printing apparatus; Automatic access control apparatus; Automatic access control systems; Automatic access security apparatus; Automatic analysers (other than for medical diagnosis); Automatic answering apparatus for communications apparatus; Automatic apparatus for attachment to bottles for pouring measured quantities; Automatic appliances for steering; Automatic bank note dispensers; Automatic bank tellers; Automatic barriers for vehicles; Automatic blockers for roads; Automatic boat steering systems; Automatic cash dispensers; Automatic closers (electric) for blinds; Automatic closers (electric) for doors; Automatic coin-operated machines; Automatic control apparatus; Automatic control apparatus for electroplating installations; Automatic control installations for engines; Automatic control installations for motors; Automatic control instruments; Automatic control operating apparatus; Automatic controllers and timers for irrigation and sprinkler watering systems; Automatic dialling apparatus; Automatic dialling instruments; Automatic disc changers; Automatic dispensing (vending) machines; Automatic dispensing (vending) machines for visiting cards; Automatic distribution apparatus; Automatic distribution machines; Automatic distributors for pre-payment apparatus; Automatic door apparatus (electric); Automatic door closing apparatus (electric); Automatic door opening apparatus (electric); Automatic dosage apparatus; Automatic dosing apparatus for dishwashing machines; Automatic dosing apparatus for industrial dishwashing machines; Automatic electric door operating equipment; Automatic electric steering gears for ships; Automatic electronic autoclaves for experimental purposes; Automatic emergency reporting devices; Automatic fire extinguishing apparatus; Automatic indicators of low pressure in vehicle tires (tyres); Automatic indicators of low pressure in vehicle tyres; Automatic indicators of low pressure in vehicle tyres (tires); Automatic inspection apparatus for industrial use; Automatic inspection apparatus utilising cameras; Automatic inspection instruments for industrial use; Automatic machines for taking photographs; Automatic message recorders; Automatic money processing apparatus for the delivery of money; Automatic money processing apparatus for the storage of money; Automatic payment machines; Automatic pilots; Automatic pipetting instruments; Automatic printers for use with computers; Automatic programming apparatus; Automatic radar plotting aids; Automatic receipt issuing machines; Automatic sample change apparatus; Automatic security barriers; Automatic speed synchronising apparatus; Automatic stability control apparatus; Automatic steering apparatus; Automatic telephone diallers with a

memory; Automatic telephone exchange apparatus; Automatic temperature regulators; Automatic test apparatus (for medical use); Automatic test apparatus (other than for medical use); Automatic test instruments for monitoring telephone lines; Automatic ticket dispensing machines; Automatic time switches; Automatic timers for use with beverage makers; Automatic timers for use with cooking appliances; Automatic timers for use with kettles; Automatic timing switches; Automatic titrating apparatus; Automatic token-operated machines; Automatic turnstiles; Automatic vehicle speed control apparatus; Automatic vending machines; Automatic vending machines for the dispensing of beverages; Automobile cigarette lighters; Automotive electric batteries; Automotive electrical components; Automotive performance testing apparatus; Auxiliary relays; Axle box counters; Axle load indicating apparatus for use on vehicles; Axle measuring apparatus; Axle pulse generators; Azimuth instruments; Baby alarms; Background audio broadcasting apparatus; Backwash safety apparatus for use with foundation pipes; Bacteriological culture plates (petri dishes); Bags adapted for carrying photographic apparatus; Bags adapted or shaped to contain cameras; Bags adapted to carry video apparatus; Balance installations; Balance testing machines for tyres; Balances; Balances (steelyards); Balancing apparatus; Balancing instruments; Ballasts for electrical lighting fittings; Balun blocks; Baluns; Banana plugs; Bank cards being encoded; Bank cards being machine readable; Bank cards being magnetic; Bank cards incorporating magnetic data carriers; Banking cards (encoded or magnetic); Banking cards (encoded or magnetic) for credit purposes; Banking cards (encoded or magnetic) for debit purposes; Bar code decoders; Bar code labels; Bar code printers (apparatus); Bar code readers; Bar code terminals; Bar graph indicators; Barometers; Barometric tripping devices; Baroscopes; Baroscopes for industrial use; Barrier apparatus for use in crowd control (automatic, coin or counter operated); Bars for spectacles; Bathing floats; Bathroom scales; Batteries; Batteries for electric vehicles; Batteries for land vehicles; Batteries for lighting; Batteries for pocket lamps; Batteries, electric; Batteries, electric, for vehicles; Battery adaptors; Battery booster cables; Battery boxes; Battery cables; Battery charge indicators; Battery charge monitors; Battery chargers; Battery collars; Battery ground strap connectors; Battery holders; Battery housing covers; Battery jars; Battery leads; Battery packs; Battery powered beacons; Battery separators; Battery starter cables; Battery starters; Battery terminals; Battery testers; Battery testing apparatus; Battery testing apparatus for sale in kit form; Battery tie down connectors; Beacon lamps; Beacon receivers; Beacons, luminous; Beam samplers; Beam splitters; Bell pushes; Bell transformers; Bells (warning devices); Bells for doors; Bells, signal; Benzine meters; Bespoke optical apparatus; Bespoke optical instruments;

Betatrons; Beverage dispensing (vending) apparatus; Bi-polar transistors; Bill validators; Binoculars; Bio-assay apparatus; Bio-sensors; Bioemitters; Biological glassware; Biological safety cabinets; Bioreactor apparatus; Bioreactor instruments; Bioreactors for laboratory use; Bioreactors for research use; Biosensors based on fluorescence-optical principles of measurement; Blank DVDs; Blank audio cassette tapes; Blank audio tapes; Blank cartridges for recording of data; Blank compact discs (CDs); Blank data cartridges containing a format of recording instructions; Blank discs; Blank magnetic tapes; Blank tape cartridges; Blank tapes; Blank video cassette tapes; Blank video cassettes; Blank video magnetic discs; Blank video tapes; Blankets of metallised plastic for emergency survival purposes; Blanking plates; Blanking plates adapted for electrical connections; Blanking plates for ducting containing exposed electrical conductors; Blanks for contact lenses; Blanks for ophthalmic lenses; Blanks for use in the manufacture of lenses; Bleeder kits for testing brakes; Bleepers for vehicles to give audible warning whilst the vehicle is reversing; Blinkers (signalling lights); Blood cell analysing apparatus (other than for medical use); Blood cell separation apparatus (other than for medical use); Blood centrifuging tubules (other than for medical use); Blood group analysers (other than for medical use); Blueprint apparatus; Board assemblies; Body function monitoring apparatus (other than for medical purposes); Body weighing scales; Boiler control apparatus; Boiler control instruments; Bomb sights; Books recorded on disc; Books recorded on tape; Boom poles for sound transmission apparatus; Booster cables; Boots (protective footwear); Boots that glow (for protective purposes); Bore checking gauges; Bore testing instruments; Borehole surveying apparatus; Borehole surveying instruments; Boring rods; Bows adapted for spectacle frames; Boxes adapted for housing electric instruments; Boxes adapted for storing computer software disks; Boxes adapted for transporting computer software disks; Boxes adapted for use with electric plug sockets; Boxes for displaying signals on railway engines; Brake pad wear sensors; Brake testing apparatus; Branch boxes (electricity); Branch switches; Branch terminals; Branching devices; Breadboards for computer programmes; Breathing apparatus for diving; Breathing apparatus for protective purposes; Breathing apparatus for underwater swimming; Breathing apparatus for use under water; Breathing apparatus, except for artificial respiration; Breathing masks; Brine measuring apparatus; Broadband data interconnecting computer installations; Broadcast signal processor apparatus; Broadcast transmitters; Broadcasting apparatus; Broadcasting instruments; Bubble memory devices; Buffers (electric); Building automation installations; Bulk liquid metering apparatus; Bullet-proof vests; Bullet-proof waistcoats; Bundles of electric cabling; Buoyancy aids; Buoyancy aids for personal wear; Buoyancy aids for protection against accident; Buoyancy aids for

protection against injury; Buoyancy aids in the nature of life jackets; Buoyancy clothing; Buoyancy compensators; Buoyancy jackets; Buoyancy suits; Buoys for marine use; Burglar alarm apparatus (other than for vehicles); Bus bar chambers; Bus bar support frames; Bus bars; Bus interfaces; Busbars (electric connections); Business programmes for computers; Butt fusion heater irons; Buzzers; Buzzers, electric; CDs; Cabinets adapted for electrotechnical apparatus; Cabinets adapted for scientific apparatus and instruments; Cabinets adapted to contain electronic apparatus; Cabinets adapted to contain electronic instruments; Cabinets adapted to hold communications apparatus; Cabinets adapted to hold computers; Cabinets adapted to hold electrical apparatus; Cabinets adapted to store reels of magnetic tapes; Cabinets for loudspeakers; Cable assemblies for mounting transducers; Cable conduits of plastics materials for wiring harnesses; Cable connectors for use in the data communications industry; Cable converters for television being telecommunications apparatus; Cable covering panels for electric cables; Cable covers (conduits); Cable detectors; Cable ducts for electric conductors; Cable for electrical transmission; Cable glands for use with electrical apparatus; Cable identification markers for electric cables; Cable installations for the transmission of data; Cable installations for the transmission of voice; Cable joints of metal, electric; Cable junctions for electric cables; Cable ladders for electric cables; Cable locators; Cable management installations for data signal transmission; Cable management installations for power transmission; Cable outlets for electric cables; Cable reels (non-mechanical) incorporating electrical sockets; Cable sleeves for the marking of electric cables; Cable splices for electric cables; Cable television apparatus and instruments; Cable television head end transcoders; Cable television installations; Cable television subscriber receiver descramblers; Cable trays for electric cables; Cables for electronic transmission; Cables for optical signal transmission; Cables for signal transmission systems; Cables, electric; Cabling for transmitting signals; Cabling for transmitting signals over mains wiring systems; Cabling networks (installations) incorporating fibre optic cables; Calculating apparatus; Calculating disks; Calculating instruments; Calculating machines; Calculator programmes; Calculators; Calculators being electronic; Calibrating apparatus; Calibrating rings; Calibration checking instruments; Calibration devices; Calibration installations; Calibration instruments; Calibrators; Calipers; Call barring devices for use with telecommunications apparatus; Call charging apparatus for use with telecommunications apparatus; Call logging apparatus; Callipers (measuring instruments); Calorimeters; Camcorders; Camera apparatus; Camera body caps; Camera cases adapted or shaped to contain a camera; Camera control apparatus; Camera filters; Camera housings; Camera lenses; Camera mounts; Camera rails; Camera range finders; Camera

shutter releases; Camera shutters; Camera slings; Camera stands; Camera straps; Camera tubes; Cameras; Cameras (photography); Cameras for making masters for use in duplicating machines; Cameras for military use; Cameras for use in broadcasting; Cameras for use in identification; Cameras for use in portrait photography; Canoeists' helmets; Capacitance boxes; Capacitance manometers for absolute pressure measurement; Capacitance meters; Capacitance resistance networks; Capacitance resistance packaged circuits; Capacitators; Capacitators for use with electrostatic precipitators; Capacitive probes; Capacitive voltage transformers; Capacitor protection relay; Capacitor switching reactors; Capacitors; Capacitors for use with electrostatic precipitators; Capacity measures; Capillary tubes; Capillary tubing; Capsule microphones; Car aerials; Car audio apparatus; Car audio instruments; Car batteries; Car cassette apparatus; Car cassette decks; Car compact disc players; Car radio receivers; Car radios; Car speaker components; Car speakers; Car stereo apparatus; Car stereo instruments utilising power supply apparatus; Car stereos; Car telephones; Carbon articles for electrical use; Carbon dioxide detectors (other than for medical use); Carbon dioxide monitors for laboratory use; Carbonic acid gas analysers; Carcass weighing machines; Card operated electronic locks; Card readers; Card readers for credit cards; Card reading apparatus; Card swipe machines; Cards bearing coded data in magnetic form; Cards bearing coded data in punched-out form; Cards bearing data for use in computers; Cards bearing data for use in data processing apparatus; Cards bearing data for use in data storage apparatus; Cards bearing electronically recorded data; Cards bearing integrated circuits; Cards bearing magnetic or encoded data for input; Cards bearing sound recordings; Cards bearing video recordings; Cards being encoded or magnetic for use with microprocessors; Cards being readable material for bearing users documentation; Cards carrying magnetically, optically or electronically recorded or encoded information; Cards encoded to access computer software; Cards encoded with security features for authentication purposes; Cards encoded with security features for identification purposes; Cards for cash dispensers (encoded or magnetic); Cards for use as charge cards (encoded or magnetic); Cards for use as credit cards (encoded or magnetic); Cards for use as data carriers (encoded or magnetic); Cards for use with computers (encoded or magnetic); Cards for use with data processing apparatus (encoded/magnetic); Cards for use with word processing apparatus (encoded/magnetic); Cards incorporating electronic chips; Cards incorporating electronic devices; Cards incorporating integrated circuits; Cards incorporating microprocessors; Cards incorporating optical devices; Cards incorporating programmes; Cards made of plastic (encoded or magnetic); Cards of plastics bearing magnetically encoded information; Carpenters' rules; Carrier frequency

repeaters; Carrier transmission apparatus; Carriers adapted for compact discs; Carriers adapted for computer discs; Carriers adapted for mobile phones; Carriers for bearing data; Carriers for bearing images; Carriers for bearing sound; Carriers for dark plates (photography); Carriers for message transmission; Carriers for recorded materials; Carriers in the form of blank cassettes; Carriers in the form of cards being pre-recorded with information; Carriers in the form of chips for the reproduction of data; Carriers in the form of chips for the storage of data; Carriers in the form of discs; Carriers in the form of records; Carriers in the form of tapes provided with data; Carriers in the form of tapes provided with programs; Carriers in the form of wire; Carrying cases adapted for DVDs; Carrying cases adapted for audio cassettes; Carrying cases adapted for compact discs (CDs); Carrying cases adapted for spectacles; Carrying cases adapted for sunglasses; Carrying cases adapted for visual cassettes; Carrying cases for contact lenses; Cartographic apparatus; Cartographic instruments; Cartoon sequences recorded on disc; Cartoon sequences recorded on film; Cartoon sequences recorded on tape; Cartridge alignment protractors; Cartridge tapes for the recordal of signals; Cartridges (software) for use with computers; Cartridges adapted for use with data carriers; Cartridges for computer games (software); Cartridges for magnetic discs; Cartridges for magnetic tapes; Cartridges for projectors; Cartridges for toner (empty) for use with computers; Cartridges for video games (software); Cartridges of magnetic tape for recording computer programs; Cartridges with memory integrated circuits; Cases adapted for batteries; Cases adapted for binoculars; Cases adapted for cameras; Cases adapted for cells; Cases adapted for cinematographic apparatus; Cases adapted for computers; Cases adapted for contact lenses; Cases adapted for electric circuits; Cases adapted for electronic circuits; Cases adapted for electronic components; Cases adapted for electronic equipment; Cases adapted for eyeglasses; Cases adapted for glasses; Cases adapted for goggles; Cases adapted for lenses; Cases adapted for microcircuits; Cases adapted for mobile phones; Cases adapted for music recordings; Cases adapted for optical equipment; Cases adapted for photographic apparatus; Cases adapted for photographic equipment; Cases adapted for photographic instruments; Cases adapted for power supplies; Cases adapted for semiconductors; Cases adapted for spectacles; Cases adapted for storing compact discs; Cases adapted for sunglasses; Cases adapted for television display apparatus; Cases adapted for video recordings; Cases adapted for word processors; Cases and containers for recorded media (tapes, cassettes and discs); Cases especially made for photographic apparatus and instruments; Cases fitted with dissecting instruments (microscopy); Cash calculating machines; Cash cards (encoded); Cash cards (magnetic); Cash delivery terminals; Cash disbursement cards (encoded); Cash disbursement cards (magnetic); Cash dispensers;

Cash dispensing apparatus; Cash dispensing machines; Cash register enhancement boards; Cash registers; Casings for electronic devices; Casings for opto-electronic devices; Casings made from light metal for carrying electrical devices; Cassette cartridges; Cassette cases; Cassette decks; Cassette detection switches; Cassette driving mechanisms; Cassette head cleaners for audio tapes; Cassette head cleaners for video tapes; Cassette players; Cassette recorders; Cassette recorders incorporating radios; Cassette stereos; Cassette tape decks; Cassette tape holders; Cassette tape players; Cassette tape recorders for audio systems; Cassette tapes relating to monthly news reviews; Cassettes (audio); Cassettes (video); Cassettes containing sound recordings; Cassettes containing video recordings; Cast optical plastics materials in the form of rods; Cast optical plastics materials in the form of sheets; Catalyst carriers for use in scientific instruments; Catalyst substrates for use in signalling apparatus; Cathode ray tube displays; Cathode ray tube monitoring apparatus; Cathode ray tubes; Cathodes; Cathodic anti-corrosion apparatus; Cathodic apparatus for protection against rust; Cathodic protection apparatus; Cathodic protection instruments; Cathodic screens; Cathodic tubes; Ceiling roses (electric); Cell counting units for laboratory use; Cell culture apparatus for laboratory use; Cell culture instruments for laboratory use; Cell switches (electricity); Cells (electric); Cellular mobile telephones; Cellular phones; Cellular radio alarm communication apparatus; Cellular radio alarm communication instruments; Cellular radio telephone apparatus; Cellular radio telephone instruments; Cellular telecommunications apparatus; Cellular telecommunications instruments; Cellular telephones; Centering apparatus for photographic transparencies; Central alarm units (other than for vehicles); Central door locking apparatus; Central door locking apparatus for vehicles; Central heating programmers; Central processing unit boards; Central processing units; Central processing units (processors); Centralised fault display interface units; Centrifugal apparatus for laboratory use; Centrifugal separating machines for laboratory use; Centrifuge separators for laboratory use; Centrifuges for laboratory use; Centring apparatus for photographic transparencies; Ceramic capacitors; Ceramic components for electrical apparatus; Ceramic components for electronic apparatus; Ceramic parts for converting electrical energy into mechanical energy; Ceramic products for use in electrical applications; Ceramic products for use in electronic applications; Ceramic resonators; Ceramic wafers bearing printed circuits; Ceramics for use in conductors; Ceramics for use in the super-conductor industry; Chains for glasses; Chains for spectacles; Chains for sunglasses; Change-over switches for use in demagnetising electromagnetic apparatus; Change-over switches for use in demagnetizing electromagnetic instruments; Channel buoys (marking); Channel buoys (signalling); Channel selectors for

televisions; Character carriers of exposed photographic film; Character generators; Character recognition apparatus; Character recognition instruments; Character signal generators; Character verification apparatus; Character verification instruments; Charge cards (encoded); Charge cards (magnetic); Charge meters; Chargers for electric batteries; Charging apparatus; Charging counters; Charging recorders; Charging systems for battery operated domestic kitchen appliances; Chart display apparatus; Chart plotting apparatus; Chart plotting instruments; Chart recorders; Check controls (electric or electronic); Check measuring apparatus; Check measuring instruments; Checking (supervision) apparatus; Checking (supervision) apparatus and instruments; Checking (supervision) installations; Checking (supervision) instruments; Checking and accounting machines for bottle returns (automatic); Checking apparatus for use in connection with vehicle maintenance; Checking apparatus having measuring capabilities; Checkweighers; Chemical analysers (apparatus), other than for medical use; Chemical analysis apparatus for non-medical purposes; Chemical apparatus for the oxidation of organic material; Chemical diagnostic reagents for scientific use; Chemical dosing (measuring) apparatus for introducing chemicals into water; Chemical materials for effecting molecular separation (laboratory); Chemical reaction apparatus; Chemical reactors; Chemical vapour deposition reactors; Chemiluminescence-analysers; Chemistry apparatus and instruments; Cheque cards (encoded); Cheque cards (magnetic); Cheque guarantee cards (encoded); Cheque guarantee cards (magnetic); Cheques incorporating encoded laminated strips; Cheques incorporating magnetic laminated strips; Chest protectors for the prevention of accident or injury (other than specifically adapted for sport); Chips (integrated circuits); Chips arrays and sensors using DNA, genetic and other biological and diagnostic materials (scientific apparatus and instruments); Chokes for radio interference suppression; Choking coils (impedance); Chromatogram analysers for scientific or laboratory use; Chromatographic apparatus for scientific or laboratory use; Chromatographic columns for analytical chromatography (other than for medical use); Chromatographic columns for scientific laboratory use; Chromatographic instruments for scientific laboratory use; Chromatographs for scientific or laboratory use; Chromatography apparatus for laboratory use; Chromatography columns for scientific or laboratory use; Chromatography instruments for scientific or laboratory use; Chromatography plates for scientific or laboratory use; Chronographs (time recording apparatus); Cigar lighters for automobiles; Cigarette lighters for motor vehicles; Cine films prepared for exhibition; Cine-cameras; Cinematographic apparatus; Cinematographic apparatus and instruments; Cinematographic apparatus for viewing films; Cinematographic cameras; Cinematographic

equipment; Cinematographic film (exposed); Cinematographic films prepared for exhibition; Cinematographic instruments; Cinematographic slides; Ciphering apparatus adapted for use with radio communication systems; Ciphering devices; Circuit boards; Circuit boards for electrical engineering; Circuit boards for electronic engineering; Circuit boards for use in the emulation of computer terminals; Circuit boards for use with computer keyboards; Circuit boards for use with computers; Circuit boards for use with graphic display units; Circuit breakers; Circuit cards; Circuit closers; Circuit distributors; Circuit fuses; Circuit openers; Circuit switches being operated by invertors; Circuit switches being operated by motors; Circuit testers; Circuit testing apparatus; Circuit testing instruments; Circuits (electric or electronic); Circuits for computers; Circuits for use in the display of graphics; Circulators (electric or electronic components); Citizen band radio transceivers; Civil sockets; Clamp meters; Clamps being electrical connections; Clamps for electronic noise suppression; Cleaning adapters for typewheels; Cleaning apparatus especially adapted for use with recording and playback equipment and recorded material; Cleaning apparatus for DVDs; Cleaning apparatus for compact discs (CDs); Cleaning apparatus for phonograph records; Cleaning apparatus for recording heads; Cleaning apparatus for sound recording discs; Cleaning apparatus for sound tapes; Cleaning apparatus for video discs; Cleaning apparatus for video tapes; Cleaning cassette tapes for video recorder heads; Cleaning cassettes for recording heads; Cleaning discs for computer disk drives; Cleaning discs for computer software; Cleaning guns for computer disks; Cleaning guns for computer keyboards; Cleaning tapes for tape drives; Clinical chemistry analysers, other than for medical or veterinary use; Clinometers; Clip switches; Clips for divers and swimmers (Nose); Clips for making electrical connections to electrical components; Clips for making electrical connections to electronic components; Clock crystal oscillators; Clock generators; Clock-radios; Closed circuit communication apparatus; Closed circuit television; Closed circuit television apparatus; Closed circuit television cameras; Closed circuit television instruments; Closed circuit television monitoring apparatus; Closed circuit television monitoring installations; Closed circuit television security apparatus; Closed circuit television surveillance cameras to detect fire; Closed circuit video apparatus for use in access control; Closed circuit video installations; Closures being electronically programmable; Closures for containers for laboratory use; Closures for evacuated collection tubes; Cloth ironing apparatus (hand-held); Clothes for protection against accident; Clothes for protection against injury; Clothes incorporating reflective material for protection against accident; Clothing especially made for laboratories; Clothing for protection against accident or injury; Clothing for protection against accidents, irradiation and fire; Clothing for protection

against fire; Clothing for protection against injury; Clothing for protection against smoke; Coated ophthalmic lenses; Coatings for ophthalmic lenses; Coatings in the form of holographic film supports; Coaxial adaptors; Coaxial attenuators; Coaxial cable; Coaxial cable connectors; Coaxial cables; Coaxial cables for use in cable television installations; Coaxial cables incorporating filters; Coaxial connectors; Coaxial relays; Coaxial resonators; Coaxial switches; Code cameras; Code reading modules; Coded bank cards; Coded signalling apparatus; Coded transmitting apparatus; Coders for use with audio karaoke apparatus; Coders for use with video karaoke apparatus; Coding apparatus; Coding installations for subscription television channels; Coding instruments; Coding modulators; Coils (electromagnetic); Coils being electrical apparatus; Coils being electrical instruments; Coils being electronic apparatus; Coils being electronic instruments; Coils for electrical magnets; Coils, electric; Coin accumulators (totalisers); Coin change dispensers; Coin counting machines; Coin discriminating machines; Coin dispensing machines; Coin operated vending machines; Coin operated vending machines; Coin release apparatus; Coin sorting machines; Coin validating machines; Coin-operated access control apparatus; Coin-operated access control systems; Coin-operated access security apparatus; Coin-operated apparatus for dispensing beverages; Coin-operated apparatus for preparing beverages; Coin-operated computer units; Coin-operated fluid dispensers for dispensing pre-measured amounts; Coin-operated gates for car parks; Coin-operated gates for car parks or parking lots; Coin-operated mechanisms; Coin-operated mechanisms for television sets; Coin-operated musical automata (juke boxes); Coin-operated operating mechanisms; Coin-operated phonographs; Coin-operated telephones; Coin-operated vending machines; Coin-operated vending machines for dispensing; Cold cathode tubes; Collection tubes (laboratory apparatus); Collectors, electric; Collimating position indicating apparatus, other than for medical, surgical or veterinary use; Colony counters; Colorimeters; Colorimetric comparators for scientific use; Colorimetric comparators other than for medical use; Colour correction apparatus; Colour correction devices; Colour display apparatus; Colour hard copy printers; Colour image setters; Colour monitors; Colour photocopying machines; Colour picture tubes; Colour pyrometers, other than for medical use; Colour separation scanners; Colour video printers for use with cameras; Colour video printers for use with video cameras; Colour video printers for use with video tape recorders; Colour video processors; Colour viewers for transparencies; Column assemblies (laboratory apparatus); Columns for affinity chromatography (other than for medical use); Columns for liquid affinity chromatography (other than for medical use); Combined electrical and optical cables; Combined radio and cassette tape players; Combined radio and cassette tape

recorders; Combustion gas detectors; Commercial alarm systems (other than for vehicles); Commercial alarm systems for buildings; Commercial alarm systems for shops; Communication apparatus; Communication commutating apparatus; Communication devices; Communication devices for linking computer networks; Communication installations; Communication instruments; Communication interface units; Communication modems; Communication routing apparatus; Communication routing instruments; Communication software; Communications antennae; Communications apparatus; Communications cabinets; Communications cables; Communications carriers; Communications controllers; Communications devices; Communications electronics for computers; Communications head sets; Communications networks; Communications processing computer software; Communications processors; Communications programmes; Communications systems; Commutating apparatus; Commutation reactors; Commutators; Compact cassettes; Compact disc audio reproducers; Compact disc changers; Compact disc holders; Compact disc playback machines; Compact disc players; Compact disc players for use with computers; Compact disc read only memories; Compact disc read only memory drives; Compact disc recorders; Compact discs (audio-video); Compact discs (read-only memory); Compact discs bearing sound recordings; Compact discs containing recorded sound; Compact discs containing recorded video; Compact discs having images recorded thereon; Compact discs having sound recorded thereon; Comparators; Compass control units; Compass displays; Compasses (measuring instruments); Compasses for ships; Compilers; Complimentary metal oxide semiconductor testers; Component parts for computers; Components comprising glass bushings for electrical devices; Components for computers; Components for electric circuits; Components for electrical devices; Components for electrical installations; Components for electronic circuits; Components for over-voltage protection for electrical apparatus; Composite electrical apparatus for the guidance of weapons; Composite optical apparatus for the aiming of weapons; Compressed air breathing apparatus; Compressed air emergency respirators; Computer Aided Design (CAD) apparatus; Computer Aided Manufacturing (CAM) apparatus; Computer add-on boards; Computer aided automobile driving apparatus; Computer aided design analysis apparatus; Computer aided design apparatus; Computer aided design instruments for laser machining systems; Computer aided design programmes; Computer aided design programs; Computer aided facsimile apparatus; Computer aided teleprinter apparatus; Computer aided teleprinter apparatus having word processing functions; Computer apparatus; Computer apparatus adapted for use with visual display units; Computer apparatus for addressing; Computer apparatus for computer aided design; Computer

apparatus for computer aided drafting; Computer apparatus for computer aided engineering; Computer apparatus for computer aided manufacturing; Computer apparatus for computer aided testing; Computer apparatus for drawing; Computer apparatus for educational use; Computer apparatus for personalising; Computer apparatus for process control; Computer apparatus for processing data; Computer apparatus for recording telephone calls; Computer apparatus for remote billing; Computer apparatus for remote meter reading; Computer apparatus for the control of data; Computer apparatus for the management of telephone calls; Computer apparatus for the measurement of brakes on motor vehicles; Computer apparatus for the measurement of exhaust gas emissions on motor vehicles; Computer apparatus for the measurement of suspension on motor vehicles; Computer apparatus for the storage of data; Computer apparatus for the transmission of telephone calls; Computer apparatus for transmitting data; Computer apparatus for use in local area networks; Computer apparatus for use in monitoring biochemical reactions (other than for medical use); Computer apparatus for use with computer networks; Computer apparatus having speech generation capabilities; Computer assisted language programmes; Computer backgammon games (programmes); Computer based apparatus for designing the layout of electronic circuits; Computer based apparatus for designing the layout of printed circuit boards; Computer based apparatus for the implementation of electronic circuits; Computer based apparatus for the implementation of printed circuit boards; Computer based apparatus for use in the enhancement of video signals; Computer based control apparatus for assembly lines; Computer based control apparatus for machine tools; Computer based control apparatus for machines; Computer based development apparatus for testing electronic circuits; Computer based development apparatus for testing printed circuit boards; Computer based development apparatus for the design of electronic circuits; Computer based development apparatus for the design of printed circuit boards; Computer based electrophoresis image processing apparatus; Computer based training apparatus; Computer bridge games (programmes); Computer buses; Computer cables; Computer cards (encoded); Computer cards (magnetic); Computer cards (smart); Computer cards containing chips; Computer chess games (programmes); Computer chips; Computer circuit boards; Computer circuits; Computer communication apparatus; Computer communications modems; Computer components; Computer control apparatus; Computer control devices; Computer control units; Computer controlled apparatus for furnishing voice responses to data inputs; Computer controlled apparatus for testing printed circuit boards; Computer controlled apparatus for voting systems; Computer controlled automatic testing apparatus; Computer controlled desk top recording; Computer controlled drafting machines; Computer

controlled electro-mechanical apparatus for automatically dispensing products; Computer controlled electro-mechanical instruments for automatically dispensing products; Computer controlled fuel dispensing apparatus; Computer controlled fuel dispensing instruments; Computer controlled installations of liquid crystal display screens; Computer controlled installations of video display apparatus; Computer controlled mechanisms for coin operated lockers; Computer controlled plotters; Computer controlled printers; Computer controlled sound apparatus; Computer controlled sound instruments; Computer controlled telecommunications exchange apparatus; Computer controlled workstations for data entry; Computer controllers; Computer controllers for operating lighting apparatus; Computer controllers for operating sound instruments; Computer controls; Computer controls for lighting apparatus; Computer controls for lighting instruments; Computer data in recorded form; Computer data input apparatus; Computer data input devices; Computer data interchange apparatus; Computer data recorded on optical discs; Computer data recording instruments; Computer data storage apparatus; Computer databases; Computer design hardware; Computer digital maps; Computer disc drives; Computer discs; Computer discs containing business documentation; Computer diskettes; Computer disks; Computer display apparatus; Computer display instruments; Computer display monitors; Computer documentation in electronic form; Computer driven printers; Computer firmware; Computer game programs; Computer games adapted for use with an external display screen or monitor; Computer games apparatus adapted for use with an external display screen or monitor; Computer games apparatus adapted for use with cathode ray tubes; Computer games apparatus adapted for use with monitors; Computer games cartridges adapted for use with an external display screen or monitor; Computer games entertainment software; Computer games instruments adapted for use with an external display screen or monitor; Computer games programmes (software); Computer games programs; Computer games programs (software); Computer games programs downloaded via the internet (software); Computer games programs downloaded via the internet (software); Computer games programs recorded on tapes (software); Computer games software; Computer graphic input apparatus; Computer graphics apparatus; Computer graphics display stations; Computer graphics instruments; Computer graphics operating apparatus; Computer graphics plotting instruments; Computer graphics software; Computer hard disc apparatus; Computer hardware; Computer hardware for use in computer-assisted software engineering; Computer hardware for use with drilling apparatus; Computer hardware for use with drilling instrument; Computer hardware for use with drilling operations; Computer hardware publications in electronic form;

Computer housings; Computer image projection apparatus; Computer imaging systems; Computer input apparatus; Computer input devices; Computer input instruments; Computer installations; Computer installations (networks); Computer installations for the communication of data; Computer installations for the control of laundry machines; Computer installations for the control of machine tools; Computer installations for the processing of data; Computer installations for the storage of data; Computer installations incorporating a central processing unit; Computer instruction records; Computer interface apparatus; Computer interface cards; Computer interface devices; Computer interface instruments; Computer interface units; Computer interface units for translating data; Computer interfaces; Computer interfaces for clinical use; Computer interfacing apparatus; Computer keyboards; Computer linking units; Computer magnetic memories; Computer mainframes; Computer measuring devices containing data; Computer memories; Computer memory apparatus; Computer memory devices; Computer memory drive units; Computer memory instruments; Computer memory storage apparatus; Computer modelling language; Computer modems; Computer modules; Computer monitoring apparatus; Computer monitoring instruments; Computer monitors; Computer mice; Computer network apparatus; Computer network installations; Computer network operating installations; Computer networking apparatus; Computer networking installations; Computer networks; Computer networks for the communication of data; Computer networks for the processing of data; Computer networks for the storage of data; Computer operated control apparatus; Computer operated controls for mechanical handling apparatus; Computer operated digitisers; Computer operating programs; Computer operating programs, recorded; Computer operating systems programs; Computer output microfilm recorders; Computer outputting apparatus; Computer peripheral devices; Computer plotters; Computer printers; Computer program discs; Computer program tapes; Computer programmes (programs) and recorded software distributed online; Computer programmes (programs), recorded; Computer programming units; Computer programs (downloadable software); Computer programs for analysing computer hardware; Computer programs for automating molecular biological processes; Computer programs for calculators; Computer programs for commercial transactions; Computer programs for comparing colours; Computer programs for computer games; Computer programs for data processing; Computer programs for data processing; Computer programs for designing control systems; Computer programs for designing printed circuit boards; Computer programs for detecting colours; Computer programs for dynamic simulation of oil well drilling; Computer programs for electronic design automation; Computer programs for electronic image

processing; Computer programs for establishing pump operating schedules; Computer programs for financial management; Computer programs for financial reporting; Computer programs for graphic elaborators; Computer programs for image processing; Computer programs for integrated circuit diagnostics; Computer programs for laser machining; Computer programs for management of manufacturing; Computer programs for managing conferences; Computer programs for managing exhibitions; Computer programs for managing seminars; Computer programs for measuring colours; Computer programs for medical purposes; Computer programs for monitoring computer systems performance; Computer programs for office use; Computer programs for orchestral staging; Computer programs for planning conferences; Computer programs for planning exhibitions; Computer programs for planning seminars; Computer programs for playing games; Computer programs for positioning of text; Computer programs for printers; Computer programs for printing; Computer programs for processing data; Computer programs for processing information; Computer programs for producing computer graphics; Computer programs for project management; Computer programs for promotional purposes; Computer programs for providing a graphical presentation of data; Computer programs for sales purposes; Computer programs for scanners; Computer programs for scientific data analysis; Computer programs for simulating the trading in futures and options; Computer programs for studying languages; Computer programs for tape drives; Computer programs for testing computer hardware; Computer programs for text processing; Computer programs for the analysis of data processing efficiency; Computer programs for the analysis of data processing performance; Computer programs for the analysis of data processing procedures; Computer programs for the control of telecommunication apparatus; Computer programs for the control of telecommunication instruments; Computer programs for the creation of elementary cells; Computer programs for the creation of masks; Computer programs for the creation of networks; Computer programs for the design of plate fin heat exchangers; Computer programs for the evaluation of thermal radiation levels; Computer programs for the management of sales; Computer programs for the management of the manufacturing processes; Computer programs for the petrochemical industries; Computer programs for the rating of plate fin heat exchangers; Computer programs for translating; Computer programs for use as reporting directories; Computer programs for use as searching directories; Computer programs for use by air lines; Computer programs for use by tour operators; Computer programs for use by travel agencies; Computer programs for use by travel organisations; Computer programs for use in communications; Computer programs for use in computer aided engineering; Computer

programs for use in computer-aided design; Computer programs for use in computer-aided manufacturing; Computer programs for use in database management; Computer programs for use in defining machineable parts; Computer programs for use in desk top publishing; Computer programs for use in developing computer programs; Computer programs for use in farming; Computer programs for use in fitting spectacles; Computer programs for use in fluid flow analysis; Computer programs for use in insurance; Computer programs for use in molecular biology; Computer programs for use in processing data relating to financial records; Computer programs for use in telecommunications; Computer programs for use with computer integrated manufacturing installations; Computer programs for use with facsimile apparatus; Computer programs for use with structured system analysis; Computer programs for video games; Computer programs in machine readable form; Computer programs in machine readable form recorded on electronic media; Computer programs in machine readable form recorded on paper tape; Computer programs in the field of communication links; Computer programs in the field of design analysis; Computer programs in the field of molecular modelling; Computer programs recorded in computer accessible form; Computer programs recorded on cards; Computer programs recorded on carriers; Computer programs recorded on data carriers; Computer programs recorded on data storage materials; Computer programs recorded on disc; Computer programs recorded on diskettes for producing lettering; Computer programs recorded on drums; Computer programs recorded on filaments; Computer programs recorded on floppy discs; Computer programs recorded on magnetic data carriers; Computer programs recorded on magnetic media; Computer programs recorded on magnetic tape; Computer programs recorded on magnetic wire; Computer programs recorded on paper tapes; Computer programs recorded on tapes; Computer programs relating to computer aided design; Computer programs relating to computer networks; Computer programs relating to financial matters; Computer programs relating to food; Computer programs relating to housing management; Computer programs relating to local area networks; Computer programs relating to motorcycle racing; Computer programs relating to the creation of graphic images; Computer programs relating to the creation of photographic images; Computer programs relating to the manipulation of graphic images; Computer programs relating to the manipulation of photographic images; Computer programs relating to the training of personnel; Computer programs relating to word processing; Computer programs stored in digital form; Computer programs stored on data carriers; Computer programs stored on discs; Computer programs stored on magnetic data carriers; Computer programs stored on magnetic materials; Computer programs used in molecular biology; Computer related

data communication apparatus; Computer related voice communication apparatus; Computer screens; Computer software; Computer software (programs); Computer software (recorded); Computer software adapted for use in the operation of computers; Computer software designed to estimate costs; Computer software designed to estimate resource requirements; Computer software downloaded from the internet; Computer software for accounting systems; Computer software for analysing address files; Computer software for analysing market information; Computer software for authorising access to data bases; Computer software for business purposes; Computer software for communicating purposes between microcomputers; Computer software for communication between computer processes; Computer software for processing address files; Computer software for processing market information; Computer software for the analysis of defects; Computer software for time control; Computer software for use in controlling machines; Computer software packages; Computer software products; Computer software programs; Computer software programs for database management; Computer software programs for spreadsheet management; Computer storage apparatus; Computer sub-assemblies; Computer swivel bases; Computer swivelling arms; Computer swivelling stands; Computer systems; Computer systems designed for project management; Computer tapes; Computer terminals; Computer terminals for accounting purposes; Computer terminals for banking purposes; Computer terminals for use with credit cards at point of sale; Computer terminals for use with debit cards at point of sale; Computer terminals for use with encoded cards at point of sale; Computer terminals for use with magnetic cards at point of sale; Computer timetables; Computer workstations (apparatus and installations); Computer workstations for electronic design; Computers; Computers and electronic processing units; Computing apparatus; Computing apparatus for handling information; Computing installations; Computing instruments; Computing visual display units; Concentration meters; Condensers (capacitors); Conductive films for electrical purposes; Conductive tapes for electrical purposes; Conductivity meters; Conductor bars; Conductor rails for the supply of electrical power to vehicles; Conductor wires for the supply of electrical power to vehicles; Conductors for electric cables; Conductors, electric; Conduit couplings (electric); Conduit for electric cables; Conduit protectors (electric); Conduits for receiving optical fibres; Connectable blocks for instruction in geometry; Connectable blocks for instruction in mathematics; Connecting devices for data collection; Connecting devices for data transfer; Connecting elements for communication networks; Connecting modules for electric controls; Connection blocks (electric cable); Connection boards (electric); Connection boxes (electricity); Connection elements for plastic optical fibres; Connection graphics language computer programs; Connections

for electric cables; Connections for electric lines; Connections for electrical purposes; Connections for use with breathing apparatus (other than for artificial respiration); Connections for use with optical fibre cables; Connections for use with optical fibres; Connections for use with underwater breathing apparatus; Connections, electric; Connectors (electricity); Connectors being electrical terminals; Connectors for electronic circuits; Connectors for fibre optics; Connectors for joining electrical wires; Connectors for use with circuit boards; Consistometers; Consoles adapted for mounting units of electronic equipment; Consoles for the desktop installation of electronic apparatus; Consoles for use with computers; Consoles for use with control apparatus; Consoles for use with data processing apparatus; Consoles for use with monitoring apparatus; Consoles housing electronic apparatus for programming purposes; Consoles housing electronic apparatus for visual display purposes; Consumable electrodes for use in welding; Consumer control units; Consumer type nickel cadmium battery chargers; Consumer type power supplies; Consumer type rechargeable nickel cadmium batteries; Contact lens cases; Contact lens cleaning unit; Contact lens containers; Contact lens holders; Contact lenses; Contact probes for printed circuit boards; Contacts, electric; Contacts, electric, of precious metal; Containers adapted for carrying semiconductor wafers; Containers adapted for containing semiconductor wafers; Containers adapted for use in laboratories; Containers for batteries; Containers for contact lenses; Containers for films; Containers for microscope slides; Containers for spectacles; Containers for the storage of audio cassettes; Containers for the storage of audio tapes; Containers for the storage of floppy discs; Containers for the storage of photographic transparencies; Containers incorporating electric sockets; Contents gauges; Continuity testers; Contour apparatus; Control (inspection) apparatus; Control amplifiers; Control apparatus (thermostats) for use in conserving energy in boilers; Control apparatus (time clocks) for use in conserving energy in boilers; Control apparatus for audio signals; Control apparatus for computers; Control apparatus for determining position; Control apparatus for diluting (measuring) cleaning chemicals; Control apparatus for electric indoor light installations; Control apparatus for the management of data communication installations; Control apparatus for the management of text communication installations; Control apparatus for the management of voice communication installations; Control apparatus for use in refrigeration; Control apparatus for video reproducing apparatus; Control boxes for headphones; Control centres being parts of alarm systems; Control centres being parts of electrical speech communications; Control circuits; Control circuits for use in connection with motor vehicles; Control consoles for lighting apparatus; Control consoles for lighting instruments; Control devices (thermostats) for heating installations; Control devices (thermostats) for ovens; Control

devices (timing) for heating installations; Control devices (timing) for ovens; Control modules for vehicles and vehicle systems (onboard); Control panels (electricity); Control panels comprising electrical apparatus; Control panels for electronic supervision; Control programs for data terminals; Control stations; Control surface actuators; Control units (thermostats) for heating installations; Control units (thermostats) for use in electric immersion heaters; Control units (timing) for heating installations; Control units (timing) for use in electric immersion heaters; Control units for use in electronic key telephone installations; Controllable camera shutter mechanisms; Controlled access security apparatus (closed circuit television); Controlled rate release apparatus for scientific use (other than medical); Controlled rate release pumps for delivering pre-measured quantities (other than for medical use); Controller circuit boards; Controller interface modules; Controllers for plasma deposition (not for medical use); Controllers for plasma etching (not for medical use); Controllers for use with electronic games; Controllers for windscreen and windshield wipers; Controlling software for computer printers; Converters being telecommunications apparatus for television signals; Converters for analogue signals; Converters for digital signals; Converters, electric; Conveyed wave terminals; Cooker control apparatus; Cooker control panels; Cooker control units; Coordinate analysing machines (other than for medical use); Coordinate measuring apparatus; Coordinate measuring apparatus for industrial measuring techniques; Coordinate measuring instruments; Copper balun connector coils; Copper wire, insulated; Cordless telephone apparatus; Cordless telephones; Cords for eyeglasses; Cords for matrix plugs; Cords for spectacles; Correcting lenses (optics); Correction lenses; Corrective lenses; Corrective lenses for eye protection wear for sports; Correlation gradulators; Cosmographic instruments; Countdown timers; Counter balance weights; Counterfeit (false) coin detectors; Counterfeit money detecting apparatus; Counterfeit money detecting machines; Counters; Counting apparatus; Counting apparatus for teaching arithmetic to children; Counting instruments; Counting machines; Counting pens; Couplers (data processing equipment); Coupling capacitors; Coupling fields; Couplings for electrical cables; Couplings, electric; Cover plates adapted for electrical condensers; Covers for electric outlets; Covers for headphones; Crane weighers; Crash helmets; Crash helmets for cyclists; Crash helmets for motorcyclists; Crash test dummies; Credit card controlled ticket issuing machines; Credit card embossing machines {computer peripherals}; Credit card encoding machines {computer peripherals}; Credit card imprinters, electric; Credit card payphones; Credit card processing terminals; Credit card terminals; Credit cards (encoded); Credit cards (magnetic); Credit cards with a magnetic strip; Crimping irons for the hair (electric); Crossover networks

for audio apparatus; Crucibles (laboratory); Cryomagnetic apparatus; Cryomagnetic instruments; Cryomonitors; Cryostats for laboratory use; Cryptographic apparatus; Crystal filters; Crystal oscillators; Culture dishes; Culture plates; Cupels (laboratory); Curling tongs (electric hand instruments); Current breakers; Current collectors; Current collectors for agricultural trailers; Current collectors for caravans; Current collectors for carriages; Current collectors for industrial trailers; Current converters; Current limiters; Current limiting reactors; Current overload protectors; Current plugs; Current rectifiers; Current shunts; Current transformers; Current-meters; Cursor control devices; Cursor control devices for use with computer display systems; Cut outs; Cutting apparatus for plastic foils for photographic purposes; Cycle meters; Cyclists' glasses; Cyclists' helmets; Cyclometers; Cyclotrons; Cryogenic turbine meters; Cyromicrotomes; Cytometers; DVD players; DVD recorders; DVDs; Dairy farm monitoring apparatus; Dampness detectors; Darkroom apparatus; Darkroom filters; Darkroom instruments; Darkroom lamps (photography); Darkroom lights; Darkroom safelights; Darkroom tents; Darkroom timers; Darkrooms (photography); Dashboard warning lamps; Data access apparatus for use in accessing stored information; Data acquisition apparatus; Data acquisition instruments; Data banks; Data bearing discs; Data bearing tapes; Data being electrically recorded for computers; Data being magnetically recorded for computers; Data being optically recorded for computers; Data buffers; Data bus interface units; Data capture apparatus; Data capture instruments; Data carriers; Data carriers bearing computer programmes; Data carriers bearing machine readable data; Data carriers bearing machine readable programs; Data carriers containing computer programs; Data carriers equipped with controlling programs; Data carriers equipped with governing programs; Data carriers for computers having software recorded thereon; Data carriers for electronic data processing; Data carriers for use with data processing apparatus; Data carriers in the form of optical discs; Data carriers incorporating computer programs; Data carriers incorporating computer programs written in machine code; Data carriers incorporating controlling programs; Data carriers incorporating machine readable data; Data carriers incorporating programs; Data carriers incorporating regulating programs; Data carriers provided with controlling programs; Data carriers provided with regulating programs; Data carriers recorded with programs to enable data to be displayed; Data carrying instruments; Data carrying materials; Data cartridges; Data collecting machines; Data collection apparatus; Data collection computer installations; Data collection instruments; Data collectors; Data communications apparatus; Data communications hardware; Data communications installations; Data communications instruments; Data communications receivers;

Data communications software; Data compact discs; Data compilations; Data compressors; Data conversion apparatus; Data display apparatus; Data display instruments; Data encoded on floppy discs; Data encoding apparatus; Data encryption apparatus; Data entry apparatus; Data entry terminals; Data exchange units; Data exit terminals; Data feeders; Data feeders for use with artificial intelligence; Data feeders linked with artificial intelligence; Data files; Data handling apparatus; Data handling installations; Data in machine readable form; Data information processing apparatus; Data information processing units; Data input apparatus for use with computers; Data interconnecting computer installations; Data logging apparatus; Data memories; Data meters; Data networks; Data packet switching apparatus; Data packet switching installations; Data printer apparatus; Data processing apparatus; Data processing apparatus for use in information storage; Data processing apparatus for use with computers; Data processing apparatus producing data in printed form; Data processing apparatus producing data in type form; Data processing components; Data processing devices; Data processing equipment; Data processing information carriers; Data processing input devices; Data processing installations; Data processing installations incorporating expandable architecture; Data processing instruments; Data processing machines; Data processing materials; Data processing programmes; Data processing programmes for archiving in computer aided design; Data processing programmes for editing in computer aided design; Data processing programmes for simulating behaviour; Data processing programmes for the production of newspapers; Data processing programmes for the production of periodicals; Data processing programs; Data processing programs recorded on data carriers; Data processing programs stored on data carriers; Data processing software; Data processing software for graphic representations; Data processing software for word processing; Data processing systems; Data processing terminals; Data processing units; Data processors; Data processors for business data; Data processors for control of material supply; Data processors for workshop controls; Data programmes; Data protection backup units; Data readers being acoustic devices for data processing apparatus; Data readers being optical devices for data processing apparatus; Data receivers; Data receiving apparatus; Data recorded electronically; Data recorded electronically from the internet; Data recorded in computer accessible form; Data recorded in electronic form; Data recorded in machine-readable form; Data recorded in magnetic readable form; Data recorded on magnetic materials; Data recorded on optical materials; Data recording apparatus; Data recording machines; Data recording materials; Data recording materials for use with computers; Data retrieval apparatus; Data security apparatus; Data security instruments; Data sorting apparatus;

Data storage apparatus; Data storage apparatus for computers; Data storage apparatus for use with data processing apparatus; Data storage cartridges; Data storage cassettes; Data storage devices; Data storage devices bearing data; Data storage devices containing photographs; Data storage devices for recording computer programs; Data storage devices for recording data; Data storage discs; Data storage installations; Data storage instruments; Data storage machines; Data storage media (other than paper) for recording computer programs; Data stored for access by computer programs; Data switches; Data switching apparatus; Data terminals; Data terminals for the communication of data to a central computer system; Data terminals for the entry of data to a central computer system; Data terminals for the validation of data; Data transfer apparatus; Data transfer instruments; Data transmission apparatus; Data transmission cables; Data transmission installations; Data transmission networks; Data transmitters; Data transmitting apparatus; Data transmitting instruments; Database programs; Databases; Databases (electronic publications); Day sights for weapons (telescopic); De-fluxing apparatus for magnetic tape machines; De-icing programmers; De-magnetizing apparatus; Decade switches; Decanting units; Decoders; Decompression chambers; Decorative magnets; Deep sea reversing thermometers; Deflecting coils; Deflecting yokes; Deflection yokes; Degassers; Delay line glass; Delay lines; Delivery metering apparatus for liquids; Delivery metering apparatus for solids; Demagnetisers; Demagnetising apparatus; Demagnetizers; Demagnetizing apparatus for magnetic tapes; Demodulators; Demultiplexers; Densimeters; Densitometers; Depth determination apparatus; Depth gauges; Depth sounders; Desk calculators; Desk printers for use with calculators; Desk programme modules for use with calculators; Desktop publishing apparatus; Desktop publishing programmes; Desoldering tools (electric); Detecting apparatus for scientific laboratory use; Detecting instruments, other than for medical use; Detection apparatus employing acoustic waves (other than for medical use); Detection apparatus employing electromagnetic waves (other than for medical use); Detection apparatus for chemical substances (other than for medical use); Detection apparatus, other than for medical use; Detectors; Detectors for biotechnological fractionation; Detectors for biotechnological separation; Detectors for use with spectrograph apparatus; Developed motion picture films; Development apparatus for data processing apparatus; Devices for converting image information to digital signals for computers; Devices for detecting exposure to radiation; Devices for linking terminals on a computer apparatus; Devices for locating subterranean objects; Devices for locating underground cables; Devices for locating underground pipelines; Devices for locating underground utility lines; Devices for measuring a person's weight; Devices for measuring boat speed; Devices for measuring electric quantities;

Devices for measuring energy; Devices for measuring exposure to radiation; Devices for measuring water depth; Devices for measuring water temperature; Devices for measuring wind direction; Devices for measuring wind speed; Devices for preventing the theft of vehicle audio equipment (part of the audio equipment); Devices for producing digital prints; Devices for producing digital reproductions; Devices for producing optical prints; Devices for producing optical reproductions; Devices for producing photographically produced signals for printers; Devices for storing measured values; Devices for supporting spectacles; Devices for supporting sunglasses; Devices for switch cupboards; Devices for switching over energy tariffs; Devices for system load control; Devices for transmitting measured values; Devices for use in the electrochemical treatment of liquids; Devices for use in the networking of computers; Devices in the nature of spectacles for displaying televised images; Devices in the nature of spectacles for viewing recorded video images; Devices in the nature of spectacles for viewing televised images; Devices incorporating microprocessors for controlling transit fares; Devices incorporating microprocessors for use in fare payments on public transport; Dewing sensors; Diacs; Diagnostic apparatus for industrial use; Diagnostic apparatus for monitoring machine lubrication systems; Diagnostic apparatus for scientific use; Diagnostic apparatus for use in vehicle repair; Diagnostic apparatus, not for medical purposes; Diagnostic imaging apparatus, other than for medical use; Diagnostic instruments, other than for medical use; Diagnostic measuring apparatus, other than for medical use; Diagnostic starting installation analysers; Diagnostic testing apparatus for use in immunoassay procedures (other than medical); Diagnostic testing instruments for use in immunoassay procedure (other than medical); Diagnostic ultrasound apparatus, other than for medical use; Diagnostic ultrasound instruments, other than for medical use; Diagnostic viewers for evaluating the condition of local area network installations; Diagnostic viewing aids in the nature of transceivers; Diagnostic viewing transceivers for evaluating local area network apparatus; Dial gauge instruments; Dial gauges; Diaphragms (acoustics); Diaphragms (parts of cameras); Diaphragms (parts of loudspeaker apparatus); Diaphragms (parts of optical apparatus); Diaphragms (photography); Diaphragms for scientific apparatus; Diapositives; Diapositives (projector slides); Diapositives for use with slide projectors; Diaries (electronic organisers); Dictating machines; Dictation cassettes; Dielectric boards for printed circuits; Diesel injector testers; Diesel test apparatus; Diesel test instruments; Differential pressure transmitters for measurement purposes; Diffraction apparatus (microscopy); Diffusers for use with photographic flash lamps; Digital amplifiers; Digital analysers; Digital apparatus; Digital audio cassette tapes; Digital audio disc players; Digital audio players; Digital audio signal

processors; Digital audio tape players; Digital audio tape recorders; Digital audio tapes; Digital boards; Digital cassettes for electronic data processing; Digital control apparatus for power units; Digital controllers; Digital controls for machine tools; Digital controls for robots; Digital cross-connected switching apparatus; Digital data receiving apparatus; Digital data transmission apparatus; Digital data transmitting apparatus; Digital direct current power supplies; Digital effects units; Digital electrical gauges adapted for use in controlling air pressure; Digital electrical gauges adapted for use in measuring; Digital electronic controls for machine tools; Digital electronic controls for manipulators; Digital electronic controls for tools; Digital functional generators; Digital graphic scanners; Digital image processors for the analysis of transparencies; Digital image processors for the evaluation of transparencies; Digital indicators; Digital interactive video adaptors for use with computers; Digital map making apparatus; Digital measuring apparatus; Digital measuring instruments; Digital multimeters; Digital music (downloadable) from the Internet; Digital music (downloadable) provided from MP3 web sites on the internet; Digital optical transmission apparatus; Digital optical transmission instruments; Digital panel meters; Digital plotters; Digital potentiometers; Digital printing cameras; Digital regulating apparatus; Digital regulating instruments; Digital signal processing apparatus; Digital slave modules; Digital sound processors; Digital tablets; Digital telecommunications apparatus; Digital telecommunications instruments; Digital telephone sets; Digital telephone switching apparatus; Digital televisions; Digital testers for use in testing electric voltage; Digital thermometers, other than for medical purposes; Digital to analogue converters; Digital to analogue data converters; Digital transmission apparatus on copper cable; Digital transmission apparatus on optical fibre; Digital type temperature compensated crystal oscillators; Digital video adaptors for displaying text with video pictures; Digital video adaptors for use with computers; Digital video apparatus for broadcasting; Digital video apparatus for professional television use; Digital video equipment for studio use; Digital vision mixers; Digital voltmeters; Digitally controlled locks; Digitally stored images; Digitally stored photographs; Digitiser pads; Digitisers; Digitized land maps; Digitized sea charts; Digitized typefaces stored in electrical data carriers; Digitized typefaces stored in magnetic data carriers; Digitizers; Digitizers for use with computers; Digitizing printers; Digitizing scanners; Dimmer switches; Dimmers; Dimming apparatus for electric lighting; Diodes; Dip determination apparatus; Dip meters; Dipsticks for liquids; Direct broadcasting apparatus for the reception of data; Direct broadcasting apparatus for the reception of programmes; Direct broadcasting apparatus for the transmission of data; Direct broadcasting apparatus for the transmission of programmes; Direct current converters; Direction beacons; Direction finders;

Direction finding apparatus; Directional compasses; Directional couplers; Directional signage (luminous or mechanical); Directories (electric or electronic); Disc (disk) drives for computers; Disc cartridges; Disc controllers; Disc drive cartridges; Disc drive controllers; Disc drive units; Disc drivers; Disc drives; Disc drives (for computers); Disc drives for electronic data processing apparatus; Disc drives for use with computers; Disc drives relating to integrated systems; Disc drives relating to sub-systems; Disc driving apparatus; Disc files; Disc memories; Disc players; Disc records; Discharge tubes, electric, other than for lighting; Discount cards (encoded); Discount cards (magnetic); Discs bearing computer programs; Discs bearing video recordings; Discs being recording supports; Discs containing programs for data processing; Discs for bearing sound; Discs for bearing video images; Discs for the transmission of data; Disk drives (for computers); Disks (magnetic); Dispensers for electrical components; Dispensing (vending) apparatus; Dispensing (vending) apparatus for alcoholic beverages; Dispensing (vending) machines; Dispensing apparatus for delivering measured quantities of alcoholic drinks; Dispensing apparatus for delivering measured quantities of beverages; Displacement pickups; Displacement transducers; Display apparatus (electrical or electronic); Display apparatus for use with computers; Display apparatus for use with data processing installations; Display cards (magnetic or encoded); Display components using illuminated points; Display components using illuminated segments; Display monitors; Display signs of metal (luminous or mechanical); Display signs of non-metallic materials (luminous or mechanical); Display terminals; Display terminals for use with computers; Disposable laboratory apparatus for scientific use; Disposable scientific apparatus; Distance measurers; Distance measuring apparatus; Distance measuring instruments; Distance meters; Distance recorders for land vehicles; Distance recording apparatus; Distance sensors; Distillation apparatus for scientific purposes; Distribution amplifiers; Distribution bars; Distribution boards (electricity); Distribution boxes (electricity); Distribution circuit breaker boards; Distribution consoles (electricity); Distribution fuse boards; Distribution machines, automatic; Distribution panel boards (electricity); Distribution units (electricity); Distributor boards (electricity); Distributors being automotive electrical components; Disturbance waveform analysers; Divers' apparatus; Divers' boots; Divers' face masks; Divers' gloves; Divers' goggles; Divers' hoods; Divers' instruments; Divers' knee pads; Divers' life jackets; Divers' masks; Divers' nose clips; Divers' suits; Divers' weight belts; Diving apparatus; Diving boots; Diving equipment; Diving fins; Diving gloves; Diving goggles; Diving instruments; Diving snorkels; Diving suits; Diving weights; Document processing apparatus (other than office machines); Document reading apparatus (other than office machines); Document retrieval

apparatus (other than office machines); Document scanning apparatus (other than office machines); Document sorting apparatus (other than office machines); Document storage apparatus; Document verification apparatus; Dog whistles; Domestic control apparatus (electric or electronic); Domestic electronic monitoring apparatus; Domestic security installations for buildings (electric or electronic); Domestic switches (electric); Door chimes (electric); Door closers, electric; Door entry apparatus (electric or electronic); Door entry apparatus utilising audio apparatus; Door entry apparatus utilising video apparatus; Door openers, electric; Door phones; Door security devices of metal for buildings (electric); Door security devices of metal for buildings (optical); Door viewers (peepholes); Doppler apparatus for use in the safe docking of ships; Doppler apparatus for use in the safe docking of submarines; Doppler apparatus for use in the safe docking of submersibles; Doppler instruments for use in the safe manoeuvring of ships; Doppler instruments for use in the safe manoeuvring of submarines; Doppler instruments for use in the safe manoeuvring of submersibles; Dosage dispensers; Dosimeters; Dosing apparatus for dishwashing preparations; Dosing apparatus for laboratory purposes; Dot matrix printers; Double layer capacitors; Double pole switches; Downloadable music files; Downloadable ring tones for mobile phones; Drafting plotters; Drainers for use in photography; Dressmakers' measures; Dressmakers' measuring tape; Drink dispensers; Drinks dispensing machines; Drive units for compact discs; Drives for magnetic recording materials; Drives for optical recording materials; Driving apparatus for switch points; Dry batteries; Dry cells; Dry photomic plates (photo mask blanks); Dry-cell batteries; Dry-type transformers; Drying apparatus for photographic prints; Drying apparatus for photographic prints; Drying racks (photography); Dual amplifier balancers; Ducting (electricity); Ducting containing electrical conductors; Ducting for electric cables; Ducts (electricity); Ducts for electrical wiring; Ducts for housing electrical wires; Ducts, electricity; Dummy logs; Dummy sensors; Duplex filters; Duplexers; Dust aspirators; Dust monitors; Dynamic filters for use in the control panels of fire alarm systems; Dynamic filters for use in the control panels of fire detection systems; Dynamometers; Ear defenders; Ear plugs; Ear plugs for divers; Ear protecting devices; Ear protectors; Ear protectors against sound; Earphones (other than hearing aids for the deaf); Earphones for radios; Earphones for recording apparatus; Earplugs for divers; Earth leakage circuit breakers; Earth leakage circuit protection apparatus; Earth leakage distribution units; Earth leakage protected socket outlet boxes; Earth satellites for use in earth observation; Earth satellites for use in telecommunications; Earth satellites for use in the security surveillance of national spacecraft; Earth terminals; Earth testers; Earthing apparatus; Earthing clamps; Earthquake simulation

apparatus; Earthquake simulation instruments; Echo cancellers; Echo flow detectors; Echo ranging devices; Echo sounders; Editing apparatus for cinematographic films; Editing appliances for cinematographic films; Education apparatus connectable to television receivers; Education software; Educational apparatus; Educational materials in the form of computer programmes for teaching languages; Educational materials in the form of pre-recorded discs for teaching languages; Educational materials in the form of pre-recorded tapes for teaching languages; Educational science sets; Egg timers (sandglasses); Egg-candlers; Ejector seat training apparatus; Elastic wave meters; Electric access control apparatus; Electric access control installations for use with encoded cards; Electric access control systems; Electric access security apparatus; Electric accumulators; Electric actuators; Electric adapter cables; Electric adapter connectors; Electric adapter plugs; Electric adaptor rings; Electric adaptor units; Electric adaptors; Electric advertising apparatus with alternative displays; Electric air regulators; Electric alarms for fire; Electric alarms for smoke; Electric amplifiers (current); Electric amplifiers (signal); Electric amplifiers (sound); Electric amusement apparatus adapted for use with an external display screen or monitor; Electric anti-interference devices; Electric anti-theft devices (other than for vehicles); Electric anti-theft devices, other than for vehicles; Electric anti-theft instruments (other than for vehicles); Electric apparatus and instruments; Electric apparatus for charging batteries; Electric apparatus for commutation; Electric apparatus for controlling; Electric apparatus for controlling the operations of machines; Electric apparatus for curling hair; Electric apparatus for data processing; Electric apparatus for dispensing measured quantities; Electric apparatus for ink jet coding; Electric apparatus for ink jet copying; Electric apparatus for killing insects; Electric apparatus for protection against insects; Electric apparatus for remote ignition; Electric apparatus for storing computer data; Electric apparatus for the exchange of digital signals; Electric apparatus for the transmission of analogue signals; Electric apparatus for the transmission of digital signals; Electric apparatus for transmitting sound; Electric apparatus for use in parking control; Electric apparatus for use in traffic control; Electric apparatus for vehicle problem diagnosis; Electric apparatus having a light to attract insects to an electrified grid; Electric apparatus incorporating oscillators; Electric apparatus incorporating resonators; Electric apparatus relating to telecommunications; Electric appliances for operating doors; Electric arc apparatus; Electric arc cutting apparatus; Electric arc torches; Electric arc welding apparatus; Electric arc welding apparatus; Electric batteries; Electric batteries for land vehicles; Electric batteries for powering electric vehicles; Electric batteries for use in air vehicles; Electric batteries for water vehicles; Electric battery chargers; Electric bell pushes;

Electric bells; Electric blanking plugs; Electric boosters; Electric branch boxes; Electric breakers (switches); Electric bridge rectifiers; Electric buzzers; Electric cable boxes; Electric cable channels; Electric cable connectors; Electric cable couplings; Electric cable ducts; Electric cable installations; Electric cable protector modules; Electric cable spreading boxes for electric cable glands; Electric cables; Electric cables for use with telecommunication apparatus; Electric calling consoles; Electric capacitors; Electric cells; Electric cells for providing electric power to weapons systems; Electric checking (supervision) apparatus; Electric chimes for doors; Electric cigar lighters for vehicles; Electric circuit boards; Electric circuit breakers; Electric circuit components; Electric circuit control devices; Electric circuit interrupters; Electric circuit testers; Electric circuits; Electric closers; Electric closers for doors; Electric closers for windows; Electric coils; Electric combination locks; Electric communication apparatus; Electric components; Electric computer games adapted for use with an external display screen or monitor; Electric computer games adapted for use with visual display units; Electric condensers; Electric conduit swivels of metal; Electric connecting plugs; Electric connection plugs; Electric connection units; Electric connector boxes; Electric connector sockets; Electric connector units; Electric connectors; Electric contact blocks; Electric contact boards; Electric contact fuses; Electric contact separating devices; Electric contact switches; Electric control apparatus; Electric control apparatus (other than valves); Electric control apparatus for agricultural machines; Electric control apparatus for automobile electrical apparatus; Electric control apparatus for automobile electrical equipment; Electric control apparatus for engines; Electric control apparatus for fans; Electric control apparatus for heaters; Electric control apparatus for hot platen presses; Electric control apparatus for industrial machines; Electric control apparatus for lights; Electric control apparatus for machine tools; Electric control apparatus for machines; Electric control apparatus for military weapons; Electric control apparatus for motor land vehicles; Electric control apparatus for motors; Electric control apparatus for opening doors; Electric control apparatus for robots; Electric control apparatus for servo systems; Electric control apparatus for use with machines; Electric control apparatus for use with motors; Electric control apparatus for vehicle engines; Electric control boards; Electric control boxes; Electric control desks; Electric control devices for compressors; Electric control devices for heating installations; Electric control devices for lifting apparatus; Electric control devices for machine tools; Electric control devices for machines; Electric control devices for ovens; Electric control devices for turbines; Electric control installations; Electric control instruments for engines; Electric control operating apparatus; Electric control valves; Electric controlled access security apparatus; Electric controls for

automatically operating valves; Electric controls for programmable sound generators; Electric converters; Electric cords for musical amplifiers; Electric cords for musical instruments; Electric couplings; Electric crumb scoops; Electric curlers for the hair; Electric curling tongs; Electric current adaptors; Electric current control devices; Electric current distribution apparatus; Electric current meters; Electric current rectifiers; Electric current sensors; Electric current transformers; Electric devices for attracting and killing insects; Electric devices for displaying information; Electric devices for programming machine cycles; Electric devices for transmission of data between computers; Electric devices for transmission of data between microprocessors; Electric devices for transporting money; Electric devices for use in the protection of generators; Electric devices for use in the protection of motors; Electric devices for use in the protection of transformers; Electric discharge apparatus; Electric discharge tubes, other than for lighting; Electric discharge tubes, other than for lighting; Electric door bells; Electric door chimes; Electric door closers; Electric door control apparatus; Electric door locks; Electric door locks for vehicles; Electric door openers; Electric dry cells; Electric ducting conduit installations of metal; Electric ducting conduits of metal; Electric ducting of non-metallic materials; Electric ducts of non-metallic materials; Electric dust removing apparatus for phonograph records; Electric dust removing apparatus for sound recordings; Electric edge sealing apparatus for packing; Electric extension cables; Electric extension leads; Electric extension outlet sockets; Electric fence controllers; Electric fence energisers; Electric fences; Electric filters; Electric flat irons; Electric flat irons for pressing clothes; Electric flow meters; Electric fluid flow control apparatus; Electric furnaces for laboratory use; Electric fuse boxes; Electric fuses; Electric gate apparatus for access control; Electric gramophones; Electric hair curlers; Electric hair curling apparatus; Electric hair curling irons; Electric hair curling tongs; Electric hair rollers; Electric hair setting apparatus containing heated hair rollers; Electric hair styling implements; Electric hair styling wands; Electric hair waving apparatus; Electric hair waving appliances; Electric hand flash lamps for photographic use; Electric hand implements for hair curling; Electric hand implements for hair straightening; Electric horns (other than for vehicles); Electric hot plate welding apparatus; Electric igniting apparatus for igniting at a distance; Electric ignition apparatus for gas fired appliances; Electric ignition apparatus for liquid fuel burning equipment; Electric ignition devices for igniting at a distance; Electric indicating (supervision) apparatus; Electric installations for preventing theft (other than for vehicles); Electric installations for the remote control of fuel dispensing apparatus; Electric installations for the remote control of industrial operations; Electric instruments for use in the diagnosis of blood (laboratory apparatus); Electric

inverters; Electric irons; Electric junction boxes; Electric keyboards for data input; Electric leads; Electric leads for amplifiers; Electric leads for audio dubbing; Electric leads for dubbing; Electric leads for electric guitars; Electric leads for microphones; Electric leads for speakers; Electric leads for use with computers; Electric lighted tactile switches; Electric lock switches; Electric locking devices; Electric locking installations; Electric locks; Electric locks for vehicles; Electric loss indicators; Electric loss indicators; Electric magnetic compasses; Electric magnetic interference suppression filters; Electric mains distribution panels; Electric mains monitoring apparatus; Electric mains monitoring devices; Electric mains power units; Electric mains testers; Electric mains transformers; Electric measuring apparatus; Electric measuring devices; Electric measuring instruments; Electric monitoring apparatus; Electric mosquito repellent devices; Electric motor checking (monitoring or supervision) apparatus; Electric motor controlling apparatus; Electric navigating apparatus; Electric navigation instruments; Electric operators (switches) for vehicle windows; Electric operators (switches) for windows; Electric operators for doors; Electric or electronic control modules; Electric or electronic control screens; Electric or electronic control stations; Electric or electronic display instruments; Electric or electronic display screens; Electric oscillators; Electric ovens for laboratory use; Electric over voltage protectors; Electric phonographs; Electric plotting apparatus; Electric plug adapters; Electric plug boxes; Electric plug devices; Electric plugs; Electric power analysers; Electric power converters; Electric power line detectors; Electric power storage apparatus; Electric power supplies (other than generators); Electric power supplies being rectifiers for marine use; Electric power supplies being transformers for marine use; Electric power supplies for electronic apparatus; Electric power supplies for endoscopes for medical purposes; Electric power supply sockets; Electric power supply units; Electric power supply units having stabilised output voltage; Electric power units; Electric programming units; Electric protective relays; Electric pushbutton panels; Electric rapid acting control apparatus; Electric reactors; Electric read switches; Electric rectifiers; Electric regulating apparatus; Electric regulating modules; Electric relays; Electric remote control apparatus; Electric resistance coils; Electric resistance welding apparatus; Electric resistances; Electric resistors; Electric reversing alarms for self propelled machines (other than vehicles); Electric rotary switches; Electric safety cut-out fuses; Electric security apparatus (other than locks) for vehicles; Electric security apparatus for buildings; Electric security apparatus for the detection of intruders in buildings; Electric security apparatus for the prevention of theft from buildings; Electric security locking devices for armoured doors; Electric security locking devices for the doors of safes;

Electric security monitoring apparatus incorporating fibre optic cables; Electric servomechanisms; Electric shaver sockets; Electric shunt boxes; Electric signalling apparatus; Electric signs; Electric skeleton switches; Electric slide switches; Electric smoke detectors; Electric smoke sensors; Electric socket outlets; Electric sockets; Electric soldering apparatus; Electric soldering instruments; Electric soldering irons; Electric sound excluding apparatus other than for medical use; Electric steam irons; Electric storage batteries; Electric storage batteries for land vehicle engines; Electric storage batteries for use with engines; Electric storage batteries for use with motors; Electric striking plates for locks; Electric switchboxes; Electric switches; Electric switches being leaf switches; Electric switches for electronic power control; Electric switching apparatus; Electric terminal carrier assemblies; Electric terminal lugs; Electric terminals; Electric test boxes for testing light circuits on semi-trailers; Electric theft prevention installations (other than for vehicles); Electric thermostats; Electric time-relay devices; Electric timers; Electric timing devices; Electric transformers; Electric transmission filters; Electric traps for insects; Electric trouser presses; Electric valves (thermionic); Electric visual reproducing apparatus; Electric welding apparatus; Electric welding guns; Electric welding instruments; Electric welding torches; Electric wire; Electric wire welding apparatus, other than machines; Electric wires; Electric wires of metal alloys; Electric wiring; Electric wiring connectors; Electric wiring harnesses; Electrical access apparatus; Electrical access control apparatus; Electrical access control installations; Electrical accounting machines; Electrical accumulators; Electrical adaptors; Electrical adjustment apparatus; Electrical amplifiers; Electrical amplifiers for driving servo motors; Electrical amplifiers for sound signals; Electrical amplifiers for use with musical instruments; Electrical anti-tamper apparatus (other than for vehicles); Electrical anti-tamper devices (other than for vehicles); Electrical anti-theft devices, other than for vehicles; Electrical anti-theft installations, other than for vehicles; Electrical apparatus (other than generators) for use in energy supply; Electrical apparatus for altering video games; Electrical apparatus for analysis (other than for medical use); Electrical apparatus for cleaning contact lenses; Electrical apparatus for controlling machines; Electrical apparatus for controlling the speed of motors; Electrical apparatus for converting alternating current to direct current; Electrical apparatus for converting signals into visual information; Electrical apparatus for converting video games; Electrical apparatus for corrosion control; Electrical apparatus for data acquisition; Electrical apparatus for demagnetising; Electrical apparatus for detecting motor vehicles; Electrical apparatus for dispensing and mixing measured quantities of beverages (automatic vending machines); Electrical apparatus for dispensing essential oils; Electrical apparatus for fitting to vehicles to display visual

information; Electrical apparatus for ironing; Electrical apparatus for measuring purposes; Electrical apparatus for mixing sounds; Electrical apparatus for monitoring; Electrical apparatus for nautical use for detecting battery voltage; Electrical apparatus for opening doors; Electrical apparatus for opening skylights; Electrical apparatus for plating electrical circuits; Electrical apparatus for plating printed circuits; Electrical apparatus for recording data; Electrical apparatus for recording video images; Electrical apparatus for rust control; Electrical apparatus for sealing plastics (packaging); Electrical apparatus for security purposes (other than for vehicles); Electrical apparatus for soldering electronic components to printed circuit boards; Electrical apparatus for testing alloys; Electrical apparatus for the distribution of electric power; Electrical apparatus for the graphic equalisation of sound; Electrical apparatus for the input of data; Electrical apparatus for the locating of personnel; Electrical apparatus for the output of data; Electrical apparatus for the paging of personnel; Electrical apparatus for the signalling of personnel; Electrical apparatus for the transmission of audio signals; Electrical apparatus for transmitting sound; Electrical apparatus for use in operating doors; Electrical apparatus for use in printing; Electrical apparatus for use in publishing; Electrical apparatus for use in regulation; Electrical apparatus for use in testing video games; Electrical apparatus for use in the calculation of data; Electrical apparatus for use in the encoding of data; Electrical apparatus for use in the production of colour images; Electrical apparatus incorporating televisions; Electrical apparatus incorporating ultra violet light tubes for the control of insects; Electrical appliances for perming the hair; Electrical appliances for styling the hair; Electrical appliances for the care of the hair; Electrical arc welding apparatus; Electrical arc welding heads; Electrical armatures; Electrical batteries; Electrical batteries for cars; Electrical bells; Electrical branch boxes; Electrical brazing apparatus; Electrical bridges; Electrical cable; Electrical cable apparatus; Electrical cable connectors; Electrical cable distribution trunking; Electrical cable extension reels; Electrical cables for connecting computers; Electrical cables for lighting installations; Electrical cables for sale on drums; Electrical cables for sale on reels; Electrical cables in the form of ribbons; Electrical cabling; Electrical calculating machines; Electrical capacitors; Electrical cells; Electrical charge apparatus; Electrical checking apparatus; Electrical cigarette lighters being fittings in vehicles; Electrical circuit boards; Electrical circuit breakers; Electrical circuit components; Electrical circuit control devices; Electrical circuit testers; Electrical circuitry; Electrical circuits for hydraulic control; Electrical coils; Electrical coils for incorporation into fans; Electrical coils for use in fluid pressure apparatus; Electrical communicating apparatus; Electrical communication apparatus for transmitting data; Electrical communication installations;

Electrical communication instruments; Electrical communication machines; Electrical communications apparatus adapted for use on vehicles; Electrical communications apparatus for use with interconnecting computers; Electrical communications cables; Electrical components; Electrical components for assembly line machines; Electrical components for use with television aerials; Electrical components for use with television apparatus; Electrical computer apparatus; Electrical conductors; Electrical conduits; Electrical connecting cables; Electrical connecting instruments; Electrical connecting terminal blocks; Electrical connection adapters; Electrical connection boxes; Electrical connection insulation apparatus; Electrical connections; Electrical connectors; Electrical connectors for connecting laptop computers to telephone lines; Electrical connectors for electrical cables; Electrical connectors for electronic modules; Electrical connectors for printed circuit boards; Electrical connectors for use between a semi-trailer and tractor unit; Electrical contact separating devices; Electrical contacts; Electrical contacts made from precious metals; Electrical contractors condensing lenses; Electrical control apparatus; Electrical control apparatus being computer operated; Electrical control apparatus for automatic gates for car parks; Electrical control apparatus for electric welding machines; Electrical control apparatus for use in welding processes; Electrical control apparatus for use with heating installations; Electrical control boards; Electrical control circuits; Electrical control instruments; Electrical control panels; Electrical control panels for burglar alarm systems; Electrical control panels for fire alarm systems; Electrical control panels for smoke alarm systems; Electrical control units for electrical appliances; Electrical control units for lighting installations; Electrical controllers for controlling the speed of motors; Electrical controlling apparatus for motors; Electrical controls; Electrical controls for determining the dropping points of substances; Electrical controls for determining the melting point of substances; Electrical converters; Electrical converters for controlling access to premises; Electrical couplers; Electrical coupling apparatus; Electrical coupling sleeves; Electrical couplings; Electrical curling tongs; Electrical current distribution apparatus; Electrical current transport means; Electrical cut-outs; Electrical data converters; Electrical data input apparatus for use with computers; Electrical data input devices; Electrical data output apparatus for computers; Electrical data processing apparatus; Electrical delay lines; Electrical detectors for locating hidden objects; Electrical detectors for locating sub surface cables; Electrical detectors for locating underground pipes; Electrical devices for communication by facsimile; Electrical devices for controlling rodents; Electrical devices for data information display; Electrical devices for security purposes (other than for vehicles); Electrical devices for security purposes in vehicles; Electrical devices for storage of data; Electrical devices

for the switching of data; Electrical devices for the switching of messages; Electrical devices for transmission of data; Electrical digital control apparatus; Electrical discharge devices; Electrical discharge tubes, other than for lighting purposes; Electrical displays; Electrical distributing busbars; Electrical distribution apparatus; Electrical distribution boxes; Electrical distribution cases; Electrical distribution frames; Electrical distribution installations; Electrical distributors; Electrical door entry apparatus in combination with a telephone; Electrical door entry apparatus in combination with a video camera; Electrical door entry apparatus in combination with an intercom; Electrical door entry control apparatus; Electrical dosing apparatus for adhesives; Electrical dosing apparatus for paints; Electrical drives for controlling apparatus; Electrical drives for regulating apparatus; Electrical ducts; Electrical enclosures made from sheet steel; Electrical energising apparatus for domestic appliances; Electrical energising apparatus for heating appliances; Electrical energising apparatus for lighting appliances; Electrical extension leads; Electrical facsimile signal receiving apparatus; Electrical facsimile signal recording apparatus; Electrical facsimile signal transmitting apparatus; Electrical feed through apparatus; Electrical frequency converters; Electrical fuses; Electrical gas discharge indicia displays; Electrical hair crimpers; Electrical hair straighteners; Electrical hair wave makers; Electrical harnesses; Electrical ignition apparatus for gas fired appliances; Electrical ignition apparatus for liquid fuel burning apparatus; Electrical impulse generators for the detonating of weapons; Electrical impulse generators for the firing of weapons; Electrical indicating devices; Electrical insect killing apparatus; Electrical instruments for checking light; Electrical instruments for checking sound; Electrical instruments for detecting material stress; Electrical instruments for metering the price of dispensed fluids; Electrical instruments for monitoring light; Electrical instruments for monitoring sound; Electrical instruments for recording light; Electrical instruments for recording sound; Electrical instruments for signalling purposes; Electrical instruments for telecommunications purposes; Electrical interfaces; Electrical interference avoidance apparatus; Electrical inverters; Electrical irons for ironing clothes; Electrical junction boxes; Electrical leads; Electrical limiters; Electrical line filters for use with electrical power packs; Electrical locks; Electrical locks for vehicles; Electrical mains wiring apparatus for use with domestic appliances; Electrical measuring apparatus; Electrical measuring apparatus for use in automobiles; Electrical measuring instruments; Electrical message switching apparatus for use in communications installations; Electrical meters; Electrical multi-pin interconnection apparatus; Electrical openers for garage doors; Electrical plug connectors; Electrical plug-in apparatus comprising supporting and guide rails; Electrical plugs; Electrical

power adaptors; Electrical power outlet boxes; Electrical power packs comprising transformers and rectifiers; Electrical power supply apparatus (other than generators); Electrical print out apparatus for use with computers; Electrical print out apparatus for use with electronic data processing apparatus; Electrical print out apparatus for use with electronic text processing apparatus; Electrical process control instruments; Electrical products testing apparatus; Electrical push button panels; Electrical push button switch assemblies; Electrical push button switches; Electrical push buttons being luminous; Electrical push leaf switches; Electrical push switches; Electrical receivers; Electrical recharging apparatus; Electrical recorders; Electrical rectifiers; Electrical reducing transformers; Electrical regulating apparatus; Electrical relays; Electrical release devices; Electrical remote control apparatus; Electrical resistance coils; Electrical resistance elements; Electrical resistance elements made of ceramic materials; Electrical resistance wire; Electrical resistances for incorporation into air-conditioning apparatus; Electrical resistances for incorporation into heating apparatus; Electrical resistances for incorporation into ventilating apparatus; Electrical resistors; Electrical safety cut-out fuses; Electrical scales; Electrical security apparatus, other than for vehicles; Electrical security devices, other than for vehicles; Electrical sensing apparatus incorporating heaters; Electrical sensors; Electrical signalling apparatus; Electrical signalling instruments; Electrical socket outlets protected by residual current devices; Electrical sockets; Electrical soldering bits; Electrical soldering irons; Electrical solid-state components; Electrical starting apparatus for discharge lighting; Electrical starting devices for discharge lighting; Electrical storage batteries; Electrical striking plates being controls for lock release in buildings; Electrical supply apparatus (other than generators); Electrical supply units (other than generators); Electrical surge arrestors; Electrical switch apparatus protected by synthetic covers; Electrical switch assemblies; Electrical switch boards; Electrical switch boxes; Electrical switch cabinets; Electrical switch timers; Electrical switches; Electrical switches for automobile controls; Electrical switchgear; Electrical switching apparatus; Electrical switching for monitoring devices; Electrical switching instruments; Electrical tape jigs (measuring instruments); Electrical telegraph wires; Electrical telephone wires; Electrical terminal connectors; Electrical terminals; Electrical terminals adapted to be connected to electrical connection leads; Electrical terminals connected to electrical cables; Electrical test apparatus; Electrical testing instruments; Electrical thermal processing apparatus utilising infrared energy; Electrical time switches; Electrical timetables; Electrical tracking; Electrical tracks for light fittings; Electrical tracks for lights; Electrical transducers for producing sound from electrical signals; Electrical transformers; Electrical transformers for use with

lighting; Electrical transmitters; Electrical trunking installations; Electrical tuning filters; Electrical units for data conditioning; Electrical units for signal conditioning; Electrical weighing apparatus; Electrical welding apparatus; Electrical welding instruments; Electrical wires; Electrical wiring harnesses; Electrical wiring installations; Electrically conductive metal components for use as earthing; Electrically controlled display apparatus; Electrically controlled steering activators; Electrically controlled variable speed drives for electric motors; Electrically driven swivel tilt apparatus for video cameras; Electrically driven tilt apparatus for video cameras; Electrically heated apparatus for curling hair; Electrically heated apparatus for styling hair; Electrically heated appliances for waving hair; Electrically heated clothing; Electrically heated curling appliances; Electrically heated hair styling appliances; Electrically heated hair waving appliances; Electrically heated rods for curling hair; Electrically heated soldering irons; Electrically insulated boards for printed circuits; Electrically operated alarms, other than for vehicles; Electrically operated desoldering hand piece; Electrically operated door closers; Electrically operated door controls; Electrically operated drive units for closing doors; Electrically operated drive units for closing garage doors; Electrically operated drive units for closing grilles; Electrically operated drive units for closing shutters; Electrically operated drive units for controlling doors; Electrically operated drive units for controlling garage doors; Electrically operated drive units for controlling grilles; Electrically operated drive units for controlling shutters; Electrically operated drive units for lifting doors; Electrically operated drive units for lifting garage doors; Electrically operated drive units for lifting grilles; Electrically operated drive units for lifting shutters; Electrically operated fluid control devices; Electrically operated fluid flow regulators; Electrically operated latches; Electrically operated locking devices; Electrically operated precision mechanical rheostats; Electrically operated remote control mechanisms for closing doors; Electrically operated remote control mechanisms for opening doors; Electrically operated security apparatus, other than for vehicles; Electrically operated servo-position controllers; Electrically operated speed sensing apparatus; Electrically operated speed sensing apparatus for incorporation into vehicles; Electrically operated theft prevention installations, other than for vehicles; Electrically operated valve actuators; Electrically operated window closers; Electrically powered apparatus controlling the specific gravity of solutions used in printing; Electrically powered apparatus for fault diagnosis in electronic assemblies; Electrically powered apparatus for regulating the content of solutions used in printing; Electrically powered apparatus for testing electronic assemblies; Electrically powered apparatus for the repair of electronic assemblies; Electrically punched (encoded) cards for use with computers; Electrically

punched (encoded) tapes for use with computers; Electrically recorded data for computers; Electricity boxes for electrical installations; Electricity conductors; Electricity conduits; Electricity connectors; Electricity control panels; Electricity distribution apparatus; Electricity distribution instruments; Electricity ducts; Electricity generating solar cells and panels; Electricity indicators; Electricity inverters; Electricity junction boxes; Electricity mains apparatus; Electricity metering apparatus; Electricity meters; Electricity storage apparatus; Electricity transformers; Electrified fences; Electrified rails for mounting spot lights; Electrified rigid channels; Electro-dynamic apparatus for the remote control of railway points; Electro-dynamic apparatus for the remote control of signals; Electro-mechanical apparatus (other than for medical use) in measuring the body functions; Electro-optic transducers; Electro-optical apparatus; Electro-optical control devices; Electro-optical couplers; Electro-optical devices; Electro-optical glass for magnetic discs; Electro-optical instruments; Electro-optical sensors; Electroacoustic amplifiers; Electroacoustic apparatus; Electroacoustic apparatus for the production of sound recordings; Electroacoustic convertors; Electroacoustic emphasisers; Electroacoustic instruments for the production of sound recordings; Electrochemical batteries; Electrochemical cells; Electrochemical cells for sensing gas; Electrochemical gas compressors; Electrochemical gas sensors; Electrochemical gas separators; Electrochemical generating cells for containing gases; Electrochemical power generating fuel devices; Electrochemical testing apparatus; Electrochemical testing devices; Electrode assemblies for use in electroplating; Electrode or filler wire feeders (parts of electric arc welding apparatus); Electrodes (other than for medical use) made from glass; Electrodes (other than medical) made from synthetic materials for the measurement of chemical compounds; Electrodes (other than medical) made from synthetic materials for the measurement of ions; Electrodes for acidity measurement (other than for medical use); Electrodes for alkalinity measurement (other than for medical use); Electrodes for arc welding; Electrodes for chemical sensing; Electrodes for civil engineering applications; Electrodes for electric welding; Electrodes for electrical brazing; Electrodes for electrical discharge machines; Electrodes for oxidation reduction measurement; Electrodes for use in electrochemistry; Electrodes for use in the electrolysis of liquid electrolytes; Electrodes for welding; Electrodes with amplifiers; Electrodes without amplifiers; Electrodynamic apparatus for the remote control of storage operations; Electrodynamic apparatus for use in remote control systems; Electrofusion welding apparatus (other than machines); Electrolysers; Electrolytic nickel masters for embossed holograms; Electrolytic ozone generating apparatus; Electromagnetic anti-shoplifting apparatus; Electromagnetic apparatus for the

communication of information; Electromagnetic beam riding apparatus for use with missiles; Electromagnetic beam riding apparatus for use with projectiles; Electromagnetic coils; Electromagnetic conduits; Electromagnetic display components comprising tilting segments; Electromagnetic locks; Electromagnetic logs; Electromagnetic materials bearing information; Electromagnetic materials for bearing information; Electromagnetic materials in the shape of bands; Electromagnetic measuring apparatus; Electromagnetic relays; Electromagnetic speed reducers for vehicles; Electromagnetic switches; Electromagnetic wave apparatus, other than for use in therapy; Electromagnetic wave generators; Electromagnets; Electromechanical apparatus for opening doors; Electromechanical control devices; Electromechanical control devices for clutches; Electromechanical devices for closing doors; Electromechanical devices for closing garage doors; Electromechanical devices for opening garage doors; Electromechanical displays for public information; Electromechanical measuring devices; Electromechanical plug-in relays; Electromechanical signs for public information; Electrometers; Electron beam analysing apparatus; Electron beam measuring instruments; Electron capture detectors; Electron cyclotron resonance apparatus for etching; Electron discharge apparatus; Electron microscopes; Electron multipliers; Electron tubes; Electronic access control installations; Electronic accounting machines; Electronic agendas; Electronic alarms, other than for vehicles; Electronic amplifiers; Electronic amusement apparatus for use with television receivers; Electronic analysers, other than for medical purposes; Electronic and recorded multimedia publications; Electronic apparatus for controlling access; Electronic apparatus for controlling lifting mechanisms for working implements on vehicles; Electronic apparatus for controlling toll points; Electronic apparatus for counter-jamming weapon systems; Electronic apparatus for data processing; Electronic apparatus for detecting leaks; Electronic apparatus for developing communication links; Electronic apparatus for home use with audiovisual playbacks; Electronic apparatus for home use with display apparatus; Electronic apparatus for identifying personnel prior to entry; Electronic apparatus for information delivery; Electronic apparatus for information exchange; Electronic apparatus for interfacing video apparatus; Electronic apparatus for jamming weapons systems; Electronic apparatus for linking televisions to computers; Electronic apparatus for manipulating data; Electronic apparatus for manipulating images; Electronic apparatus for measuring environmental conditions; Electronic apparatus for monitoring machines; Electronic apparatus for neutralising electrostatic fields; Electronic apparatus for printing images; Electronic apparatus for providing communication links; Electronic apparatus for reading

information; Electronic apparatus for relaying data; Electronic apparatus for remote control; Electronic apparatus for scrambling (encoding) voice transmissions; Electronic apparatus for sensing electrostatic fields; Electronic apparatus for surveying; Electronic apparatus for telemetry; Electronic apparatus for testing communication links; Electronic apparatus for text processing; Electronic apparatus for the control of car parking; Electronic apparatus for the measurement of toxic gases; Electronic apparatus for the regulation of packaging machines; Electronic apparatus for the transmission of data; Electronic apparatus for transmitting information; Electronic arcade games (adapted for use with an external display screen or monitor); Electronic article surveillance systems; Electronic assemblies; Electronic audio apparatus; Electronic audio effects apparatus; Electronic audio signal processors for compensating sound distortion; Electronic baby monitoring (listening) devices; Electronic balances; Electronic ballasts for electronically activated ignition apparatus; Electronic ballasts for operating discharge lamps; Electronic banking installations; Electronic blackboards; Electronic blood oxygen saturation monitors (other than for medical use); Electronic blood oxygen saturation recorders (other than for medical use); Electronic blood pressure meters (other than for medical use); Electronic blood pressure monitors (other than for medical use); Electronic blood pressure recorders (other than for medical use); Electronic brake controllers for vehicles; Electronic bricks to produce light; Electronic bricks to produce movement; Electronic bricks to produce sound; Electronic bulletin board apparatus; Electronic cables; Electronic calculating machines; Electronic calculators; Electronic calculators for estimating liquids; Electronic calculators for gas analysis; Electronic calculators for scoring; Electronic cameras for recording images magnetically; Electronic cameras for recording images on magnetic materials; Electronic carbon dioxide monitors (other than for medical purposes); Electronic carbon dioxide recorders (other than for medical purposes); Electronic cards; Electronic cards containing commercial information; Electronic cards containing information; Electronic cards containing information; Electronic cash registers; Electronic cash tills; Electronic checkout apparatus for use with cash registers; Electronic chips (semi-conductors) for the manufacture of integrated circuits; Electronic circuit boards; Electronic circuit substrate; Electronic circuits; Electronic circuits for data processing apparatus; Electronic circuits for use with computers; Electronic coding apparatus; Electronic colour analysers; Electronic colour analysis apparatus; Electronic communication apparatus; Electronic communication installations; Electronic communication instruments; Electronic component carriers; Electronic components; Electronic components for electric guitars; Electronic components for identification apparatus; Electronic components for security installations;

Electronic components for telecommunications; Electronic components for the storage of computer programs; Electronic components for use with cathode ray tubes; Electronic components in the nature of microchips; Electronic computer apparatus; Electronic connectors for use in the printed circuit industry; Electronic control apparatus; Electronic control apparatus for agricultural machines; Electronic control apparatus for automatic machines; Electronic control apparatus for closing doors; Electronic control apparatus for computer programmes; Electronic control apparatus for electric motors; Electronic control apparatus for engines; Electronic control apparatus for gear pumps; Electronic control apparatus for industrial machines; Electronic control apparatus for lamps; Electronic control apparatus for lighting; Electronic control apparatus for machine tools; Electronic control apparatus for machine tools; Electronic control apparatus for machines; Electronic control apparatus for military weapons; Electronic control apparatus for motors; Electronic control apparatus for robots; Electronic control apparatus for sanitary installations; Electronic control apparatus for sewing machine installations; Electronic control apparatus for sewing machines; Electronic control apparatus for use in storing document facsimiles; Electronic control apparatus for use in transmitting facsimiles; Electronic control apparatus for use with vacuum pumps; Electronic control apparatus for valves; Electronic control apparatus for vehicle engines; Electronic control circuits; Electronic control desks; Electronic control devices for rotary machines; Electronic control devices for turbines; Electronic control installations; Electronic control installations for cranes; Electronic control installations for electrodes; Electronic control installations for fuel burners; Electronic control installations for sensors; Electronic control operating apparatus; Electronic control systems; Electronic control units; Electronic control units for determining the quantity of fuel injected into engines; Electronic control units for determining the quantity of fuel injected into motors; Electronic controlled access security apparatus; Electronic controllers; Electronic controllers for factory moulding machines; Electronic controllers for use with a swimming tank; Electronic controlling apparatus; Electronic controls for automatically operating valves; Electronic controls for machines for use in crushing minerals; Electronic controls for machines for use in cutting minerals; Electronic copy boards; Electronic copying apparatus (photographic, electrostatic or thermic); Electronic copying machines (photographic, electrostatic or thermic); Electronic counting apparatus; Electronic cruise control apparatus; Electronic damper control apparatus; Electronic data apparatus for use with computers; Electronic data carriers; Electronic data carriers in the form of identity cards; Electronic data carriers with computer programs (machine script); Electronic data collection apparatus; Electronic data communications

apparatus; Electronic data communications installations; Electronic data input apparatus; Electronic data input apparatus for use with computers; Electronic data interchange apparatus; Electronic data output apparatus; Electronic data output apparatus for use with computers; Electronic data processing apparatus; Electronic data processing apparatus for the storage of computer programs; Electronic data processing devices; Electronic data processing equipment; Electronic data processing installations; Electronic data processing machines; Electronic data processing machines for use in photographic finishing laboratories; Electronic decoders; Electronic decoding instruments; Electronic design analysis apparatus; Electronic devices for data processing; Electronic devices for indicating the interaction of fields; Electronic devices for information processing; Electronic devices for the adjustment of the headlights of motor vehicles; Electronic devices for the transmission of data between computers; Electronic devices for the transmission of data between microprocessors; Electronic devices for transmitting data; Electronic devices for use in the self-locking of car windows; Electronic diaries; Electronic dictionaries; Electronic digital automation installations for measuring building services installations; Electronic digital building automation systems; Electronic digital controllers for controlling digital flow control valves; Electronic digital switching apparatus; Electronic digital telephone exchangers; Electronic digitisers; Electronic digitizers for video picture analysis; Electronic direction finding apparatus; Electronic directories; Electronic display apparatus; Electronic display apparatus for use with exercise equipment; Electronic display boards; Electronic display panels; Electronic displays incorporating moving lights; Electronic distance measuring apparatus; Electronic distance measuring devices; Electronic distance measuring instruments; Electronic distance meters; Electronic door locks; Electronic drives for discs; Electronic drives for magnetic tapes; Electronic drives for paper tapes; Electronic dynamometers; Electronic dynamometric clamping apparatus; Electronic echo cancelling apparatus; Electronic entry systems; Electronic equipment for measuring environmental conditions; Electronic equipment for testing environmental conditions; Electronic facsimile mailing apparatus; Electronic files for the storage and retrieval of data on microfilm; Electronic files for the storage and retrieval of data on optical discs; Electronic filing apparatus for use in the office; Electronic filters; Electronic financial transaction apparatus; Electronic flash apparatus; Electronic flash apparatus for use in photography; Electronic flash apparatus for use in photography exposure meters; Electronic flash bulbs for use in photography; Electronic flash cubes for use in photography; Electronic flash guns for use in photography; Electronic flashlight apparatus for use in photography; Electronic flashlights for use in photography; Electronic flight control systems; Electronic games (adapted for

use with an external display screen or monitor); Electronic games adapted for use with an external display screen or monitor; Electronic games adapted for use with independent visual display facilities only; Electronic games consoles (adapted for use with an external display screen or monitor); Electronic gaming information apparatus (adapted for use with an external display screen or monitor); Electronic gauging instruments; Electronic generator instruments; Electronic guidance controls for detecting purposes; Electronic guidance controls for sensing purposes; Electronic hand-held calculators; Electronic hardware for image processing; Electronic heart rate monitors (other than for medical use); Electronic heart rate recorders (other than for medical use); Electronic heart signal monitors (other than for medical use); Electronic heart signal recorders (other than for medical use); Electronic home command apparatus; Electronic identification apparatus; Electronic identification cards for use in obtaining services; Electronic identification cards for use in paying for services; Electronic identification cards for use in reserving services; Electronic identification instruments; Electronic image processing apparatus; Electronic image processing instruments; Electronic image recording apparatus; Electronic image recording instruments; Electronic in-vehicle parking meters; Electronic industrial network apparatus for high speed data transmission; Electronic information storage materials; Electronic instruments for controlling systems associated with buildings; Electronic instruments for controlling systems in buildings; Electronic instruments for digitising images; Electronic instruments for monitoring systems associated with buildings; Electronic instruments for monitoring systems in buildings; Electronic instruments for receiving facsimile messages in a digital format; Electronic instruments for recording images; Electronic instruments for recording information; Electronic instruments for testing electronic circuit components; Electronic instruments for testing electronic circuits; Electronic instruments for the measurement of electrical parameters; Electronic instruments for the measurement of process parameters; Electronic instruments for the receiving of data; Electronic instruments for transmitting facsimile messages in digital format; Electronic integrated circuits; Electronic interconnection equipment; Electronic interface apparatus; Electronic interfaces; Electronic interlocking devices; Electronic interlocking modules for railway signal cabins; Electronic interpolation apparatus for electric motors; Electronic inverters being car door self-locking devices; Electronic key telephone apparatus; Electronic key telephone installations; Electronic key telephone systems; Electronic keyboard apparatus; Electronic keypad controlled mechanisms for coin operated lockers; Electronic label printers; Electronic label printers; Electronic location apparatus; Electronic locks; Electronic locks for vehicles; Electronic logic circuits; Electronic machines for

dispensing (vending) beverages; Electronic machines for dispensing (vending) cold beverages; Electronic machines for dispensing (vending) hot beverages; Electronic machines for dispensing (vending) snacks; Electronic magnetic apparatus; Electronic magnetic recording materials; Electronic magnetic recording media; Electronic mail apparatus; Electronic mail boxes; Electronic mail handling apparatus; Electronic mail installations; Electronic mail servers; Electronic mail terminals; Electronic mailing machines; Electronic manipulative image input devices; Electronic marking gauges; Electronic materials being computer programs; Electronic measurement sensors; Electronic measuring apparatus; Electronic measuring apparatus for determining toxic gases; Electronic measuring apparatus for monitoring conditions inside ovens; Electronic measuring apparatus for monitoring toxic gases; Electronic measuring apparatus for use in ophthalmic optics; Electronic measuring devices for telephone exchanges; Electronic measuring devices for telephone lines; Electronic measuring instruments; Electronic mechanisms for coin operated lockers; Electronic memories; Electronic memories being computer programs; Electronic memories comprising computer programmes; Electronic memories comprising computer programs; Electronic memories for computers; Electronic memories for the control of computer data; Electronic memories for the input of computer data; Electronic memories for the output of computer data; Electronic memories for the storage of computer data; Electronic memories incorporating computer programs; Electronic memory circuits; Electronic memory devices; Electronic memory integrated circuit chips; Electronic memory units; Electronic memory units for bearing computer programmes; Electronic memory units for computers; Electronic message handling apparatus; Electronic message repeaters; Electronic message switching apparatus for use in communications installations; Electronic metering apparatus; Electronic meters; Electronic metronomes; Electronic microprocessors; Electronic miniature relays; Electronic mixers for mixing signals; Electronic mixers for mixing signals in the production of audio recordings; Electronic module calibrators, other than for medical use; Electronic monitoring apparatus, other than for medical use; Electronic monitoring instruments, other than for medical use; Electronic musical recording apparatus; Electronic navigating apparatus; Electronic navigation apparatus; Electronic navigation instruments; Electronic networking apparatus for telephone systems; Electronic noise cancellation apparatus; Electronic notebooks; Electronic notice boards; Electronic paging apparatus; Electronic panels for displaying messages; Electronic pens (visual display units); Electronic personal organisers; Electronic photo-flash units; Electronic photometers; Electronic pilot apparatus for the remote control of vehicles; Electronic pilot apparatus for the remote control of vessels; Electronic plotters;

Electronic plug-in cards; Electronic pocket translators; Electronic point of sale terminals; Electronic point of sale transaction terminals; Electronic pressure sensors; Electronic print out apparatus for use with computers; Electronic printers for use with computers; Electronic printing apparatus for use with computers; Electronic process apparatus; Electronic process control units; Electronic programmable logic controllers; Electronic programming units; Electronic protective fences in the nature of activated invisible barriers; Electronic protectors' relays; Electronic publications (downloadable); Electronic publications including those sold and distributed online; Electronic radio apparatus; Electronic rain gauges; Electronic receiving apparatus; Electronic regulating apparatus; Electronic regulators; Electronic relays; Electronic remote control units; Electronic remote data transfer apparatus; Electronic remote displays; Electronic remote printing controllers; Electronic reproducing machines (photographic, electrostatic or thermic); Electronic safety installations for use in nuclear reactors; Electronic safety instruments; Electronic scale rules; Electronic scales; Electronic scanners; Electronic scanning apparatus; Electronic scoring instruments for recording the score in games; Electronic screening apparatus for screening mail; Electronic seals for tamper indication; Electronic search apparatus for locating avalanche victims; Electronic security apparatus for use in homes; Electronic security apparatus for use in offices; Electronic security apparatus, other than for vehicles; Electronic security devices, other than for vehicles; Electronic security equipment, other than for vehicles; Electronic security installations for use in buildings; Electronic security tags; Electronic sensors; Electronic signal generating apparatus; Electronic signal processing apparatus; Electronic signal processing apparatus for musical instruments; Electronic signal transmission apparatus; Electronic signal transmitters; Electronic sliding callipers; Electronic sorters; Electronic speed recorders; Electronic spell-checkers; Electronic starters for fluorescent lamps; Electronic storage devices; Electronic surveillance apparatus; Electronic surveillance apparatus for articles; Electronic switches; Electronic switching amplifiers; Electronic switching apparatus; Electronic system control apparatus; Electronic tablets; Electronic tagging; Electronic tags; Electronic tags for goods; Electronic tags for inventory control purposes; Electronic tags for security control purposes; Electronic telephone data communications apparatus; Electronic telephone diallers; Electronic telephones; Electronic television satellite apparatus; Electronic temperature monitors, other than for medical use; Electronic temperature recorders, other than for medical use; Electronic test apparatus for testing bonds between metals; Electronic test apparatus for testing welds; Electronic testing instruments for testing electrical systems in motor cars; Electronic text processing apparatus; Electronic theft prevention

apparatus, other than for vehicles; Electronic theft prevention installations, other than for vehicles; Electronic thermometers, other than for medical use; Electronic time recording apparatus; Electronic timers; Electronic timers for lubricating installations; Electronic timetables; Electronic timing apparatus; Electronic timing control apparatus; Electronic timing control instruments; Electronic transducers; Electronic transformers; Electronic translating apparatus; Electronic tubes; Electronic tuners; Electronic ultrasonic deflection apparatus for motor vehicles; Electronic units for transmitting audio signals; Electronic valves (thermionic); Electronic variable speed units; Electronic vehicle guidance systems for warehouses; Electronic verification apparatus; Electronic video multiplexer; Electronic viewers for use with cameras; Electronic visual display apparatus for use with computers; Electronic visual display units; Electronic waveform generators; Electronic weighing indicators; Electronic weighing machines; Electronic weighing machines incorporating digital displays; Electronic weighing scales; Electronic weighing scales for kitchen use; Electronic weighing scales for personal use; Electronic word processors; Electronic yarn cleaners; Electronically encoded identity bracelets; Electronically encoded identity wristbands; Electrophoresis apparatus; Electrophoresis apparatus; Electrophotographic apparatus; Electrophotographic apparatus for copying images; Electroplating apparatus; Electroplating instruments; Electrostatic copiers; Electrostatic copying machines; Electrostatic interference eliminators; Electrostatic plotters; Electrostatic precipitators; Electrostatic printing apparatus; Electrostatic reproduction apparatus; Elevator alarm systems; Elevator control apparatus; Elevator operating apparatus; Elevator switches; Elongated single domain magnets; Embossed (encoded) cards; Embossed (encoded) tapes; Emergency beacons; Emergency call telephone apparatus; Emergency evacuation apparatus (fire escapes); Emergency fire exit devices of metal; Emergency jump start apparatus; Emergency jump start receptacle assemblies; Emergency radio transmitter buoys; Emissive measuring apparatus; Emitter coupled logic oscillators; Enamelled electric wires; Encased air-cooled transformers; Enclosed switch mode power supply apparatus; Enclosed switchboards; Enclosures for circuit breakers; Encoded cards; Encoded cards for carrying data; Encoded cards for opening electronic locks; Encoded cards for operating security apparatus; Encoded cards for use in point of sale transactions; Encoded cards for use in relation to the electronic transfer of funds; Encoded cards, magnetic; Encoded cards, magnetic; Encoded cash cards; Encoded cheque guarantee cards; Encoded computation programs; Encoded control cards; Encoded credit cards; Encoded data for use in translation; Encoded data in the form of computer listings; Encoded debit cards; Encoded discs; Encoded identification bracelets, magnetic; Encoded keys; Encoded keys for opening

central locking in vehicles; Encoded keys for starting vehicles; Encoded magnetic discs; Encoded magnetic tapes; Encoded meter registers; Encoded optical discs; Encoded programmes for computers; Encoded programmes for data processing apparatus; Encoded programmes recorded on cards; Encoded programmes recorded on disks; Encoded programmes recorded on tapes; Encoded programs; Encoded programs for computers; Encoded programs for data processing apparatus; Encoded programs for processing apparatus; Encoded programs for processors for use in the manufacture of goods; Encoded programs for weapon systems computers; Encoded tapes; Encoded tapes for use with computers; Encoded telephone cards; Encoders; Encoding apparatus; Encoding instruments; Encryption apparatus; Encryption apparatus for use in weapons guidance systems; Endoscopes for industrial use; Endoscopes for technical purposes; Endurance testing machines; Energy control devices; Energy regulators; Engine analysers; Engine diagnostic apparatus; Engine diagnostic instruments; Engine house meters; Engineering design software; Engineers' jigs for use in building; Engineers' rules; Enlargers; Enlarging apparatus (photography); Entry alarm systems, other than for vehicles; Entry control apparatus; Entry phone apparatus; Entry phones; Epidiascopes; Epidiascopic apparatus; Episcopes; Epitaxial reactors; Equalisers; Equatorial telescopes; Erasable programmable read only memories; Ergometers; Escape apparatus; Escape chutes; Escape route indication apparatus; Escape slides; Etching devices (electrical apparatus, other than for stationery use); Ethernet adapters; Evacuation chutes (life saving apparatus); Evaluation apparatus; Evaporation apparatus (for laboratory and scientific use); Exchanges for automatically distributing telephone calls; Exhaust analysers; Expandable data processing apparatus; Expansion cabinets with disc drives; Expansion cabinets with tape drives; Experimental ovens; Experimental ovens (laboratory apparatus); Expert systems diagnosis apparatus; Explosion proof control apparatus; Explosive mine counter-measure apparatus; Exposed X-ray films, other than for medical use; Exposed colour films; Exposed electrical conductors contained within ducting; Exposed film prepared for exhibition; Exposed photographic films; Exposed photographic slides; Exposed sensitised films; Exposed sensitised photographic film; Exposure apparatus for plate-making; Exposure meters (light meters); Exposures; Exposures for use in copying; Exposures for use in photography; Exposures for use in printing; Extension insulated electrical wires in cord form; Extension leads (electric); Extension leads for electrical apparatus; Extension leads for electronic apparatus; Extension leads for telephones; Extension leads for televisions aerials; Extension tube sets; External storage apparatus for use with data processing apparatus; Extinguishers; Extraction columns (laboratory apparatus); Eye cups; Eye protectors; Eye refractometers; Eye shades (headgear); Eye

shades, other than headgear; Eyeglass cases; Eyeglass chains; Eyeglass cords; Eyeglass frame measuring apparatus; Eyeglass frames; Eyeglass holders; Eyeglass lenses; Eyeglass retaining straps; Eyeglass shields; Eyeglasses; Eyeglasses adapted to protect the eyes from accident; Eyeglasses adapted to protect the eyes from injury; Eyeglasses having double gradient filtering lenses; Eyeglasses having filtering lenses; Eyeglasses having ground lenses; Eyeglasses having heat tempered lenses; Eyeglasses having smoked lenses; Eyeglasses with partial vision occlusion; Eyepieces; Eyeshades; Eyewear; Face guards for protection against accident or injury; Face masks for divers; Face masks for protection against accident or injury; Face protectors protection against accident or injury; Face screen carriers; Face shields adapted for use with helmets; Facsimile apparatus; Facsimile copiers; Facsimile instruments; Facsimile machines; Facsimile receiving apparatus; Facsimile receiving instruments; Facsimile receiving machines; Facsimile telegraph apparatus; Facsimile telegraphy apparatus; Facsimile telegraphy machines; Facsimile telegraphy transceiver apparatus; Facsimile terminals; Facsimile transceivers; Facsimile transmission apparatus; Facsimile transmission instruments; Fall arrest apparatus; Fall arresting safety apparatus for the protection of loads; Fall arresting safety apparatus for the protection of workmen; False coin detectors; Faraday rotator glass; Fare collecting machines; Fathometers; Fault current breakers; Fault diagnostic equipment for use in the repair of vehicles; Fault diagnostic equipment for use in the servicing of vehicles; Fault isolation units; Fault voltage breakers; Fault-finding apparatus for machines; Fault-finding apparatus for paper machines; Feeler gauges; Female connectors for electrical cables; Ferrite magnets; Ferrules adapted for electrical conductors; Fibre (fiber (Am.)) optic cables; Fibre interconnection cable; Fibre optic apparatus; Fibre optic cable; Fibre optic cables; Fibre optic cables; Fibre optic connectors for telecommunications apparatus; Fibre optic couplings; Fibre optic instruments (not for medical purposes); Fibre optic link installations; Fibre optic modems; Fibre optic panels; Fibre optic periscopes; Fibre optic receptors; Fibre optic telecommunications apparatus; Fibre optic terminals; Fibre optic viewers (not for medical purposes); Fibre optic viewing devices, other than for medical purposes; Fibre optical elements; Fibre optical sensors; Fibre optics; Fibre optics communications apparatus for use with computer work stations; Fibre optics communications apparatus for use with electronic instruments; Fibre optics communications installations for use with computers; Fibre optics communications installations for use with electronic apparatus; Fibrescopes, other than for medical use; Field glasses; File processors consisting of keyboards for looking up prices; File terminals consisting of keyboards for looking up prices; Film (exposed) prepared for exhibitions; Film advancing winders; Film cassettes; Film cleaners (electrical apparatus); Film clips contained

in cassettes used with hand-held viewers; Film clips contained in cassettes used with projectors; Film cutting apparatus; Film cutting appliances; Film deposition apparatus; Film developers; Film developing apparatus; Film dryers; Film for televisual applications; Film holders; Film lenses; Film matrices; Film processing apparatus; Film processing instruments; Film processors; Film production apparatus; Film projectors; Film recorders; Film recording apparatus; Film reproducing apparatus; Film reproducing instruments; Film screens; Film splicers; Film strip viewers; Film strips (exposed); Film supports incorporating vapour deposits for use in holography; Film supports of glass; Film supports of plastics material; Films (laminates) adapted for use in the printed circuit industry; Films bearing recorded educational material; Films bearing recorded educational material relating to the culinary arts; Films bearing video recordings; Films being magnetically recorded for use with video; Films being optically recorded data for use with video; Films contained within cassettes for use with hand held viewers; Films contained within cassettes for use with projectors; Films for cinematographic exhibitions; Films for reproducing sound; Films for reproducing speech; Films for reproducing vision; Films for sound recordings; Films for the projection of images; Films incorporating lenses; Films on video tape; Films prepared for exhibitions; Films, exposed; Filter bodies of ceramic for ultrafiltration in laboratories; Filter bodies of metal for ultrafiltration in laboratories; Filter bodies of plastics membranes for ultrafiltration in laboratories; Filter cartridges for scientific use in nucleic acid extraction; Filter diaphragms for laboratory use; Filter reactors; Filter screens for computer screens; Filtering apparatus (scientific) for fluids; Filters (laboratory apparatus); Filters (optical) for photography; Filters (photography); Filters (scientific) for gases; Filters being electrical components; Filters for electromagnetic radiation; Filters for radio interference suppression; Filters for respiratory masks; Filters for scientific laboratory use; Filters for television sets; Filters for ultraviolet rays, for photography; Filters for use in plasma fractionation; Filters for use in respiratory masks; Filters for use in science; Filters for use with respiratory apparatus; Filters for use with respiratory face masks; Filters for visual display units; Finished electrode caps; Finished lenses for spectacles; Finished lenses for sunglasses; Finished welding tips; Finite element post-processors; Finite element pre-processors; Fire alarms; Fire beaters; Fire blankets; Fire boats; Fire break glass units; Fire control apparatus; Fire control apparatus using lasers for use with armoured vehicles; Fire control apparatus using lasers for use with tanks; Fire control equipment; Fire detecting apparatus; Fire detecting installations; Fire detecting instruments; Fire detection apparatus; Fire detection installations; Fire detectors; Fire engines; Fire escapes; Fire extinguishers; Fire extinguishers for domestic use; Fire extinguishers for use in land vehicles; Fire

extinguishing apparatus; Fire extinguishing apparatus incorporating hoses; Fire extinguishing installations; Fire extinguishing instruments; Fire extinguishing vehicles; Fire fighting apparatus; Fire fighting appliances; Fire fighting appliances being hand operated; Fire fighting engines; Fire fighting pumps; Fire fighting vehicles; Fire hose nozzles; Fire protection apparatus; Fire protection devices; Fire protection installations; Fire sensors; Fireproof articles of clothing; Firmware; Firmware for small decentralised control systems; Firmware memory devices; Fitted bags for photographic apparatus; Fitted cases adapted for use with video instruments; Fitted cases for contact lenses; Fitted cases for hydrophilic soft contact lenses; Fitted cases for photographic apparatus; Fitted cases for spectacles; Fitted cases for sun glasses; Fitted electric control panels; Fitted electrical switchboards; Fitted electrical terminal blocks; Fittings for lights (switches); Fixed apparatus for calling for assistance; Fixed capacitors; Fixed electronic signal filters; Fixed multi-channel communication apparatus; Fixed radio apparatus for voice transceivers; Fixed radio apparatus for voice transmission; Fixed radio instruments for data transceivers; Fixed radio instruments for data transmission; Fixed resistances; Fixed single channel communication apparatus; Flame detectors; Flame ionization apparatus for use in thin-layer chromatography (not for medical purposes); Flame monitors; Flame sensors; Flame spectrophotometric apparatus; Flame spectroscopy units; Flash bulbs; Flash bulbs (photography); Flash bulbs for use in photography; Flash gun apparatus; Flash guns; Flash guns for cameras; Flash lamps for photographic purposes; Flash light apparatus for use in photography; Flash lighting apparatus for cameras; Flash lights for still-cameras; Flash-bulbs (photography); Flashing lights (luminous signals); Flashlight (photography); Flashlight apparatus; Flashlight instruments; Flashlight signalling apparatus; Flashlights (photography); Flashlights for use in photography; Flat electrical cable for multipin interconnection systems; Flat irons, electric; Flat screen display apparatus; Flat screens for electronic data processing apparatus; Flatbed plotters; Flatness testers; Flatness testing apparatus; Flaw detecting apparatus; Flaw detecting instruments; Flex outlets (electric); Flexible bus bars being electrical apparatus; Flexible capacitors being electrical apparatus; Flexible circuit boards; Flexible circuit substrates having controlled impedance characteristics; Flexible circuits switches being electrical apparatus; Flexible contact lenses; Flexible ducting containing electric cables; Flexible ducting of metal for holding electric cables; Flexible electric cables; Flexible electric control leads; Flexible electrical conductors; Flexible electrical conduits; Flexible printed circuits; Flexible printed circuits incorporating substrates; Flexible sheaths for electric cables; Flexible sheaths for electric conductors; Flexible sheaths of elastomeric materials for electric cables; Flexible sheaths of plastics

materials for electric cables; Flexitime recording installations; Flight control apparatus; Flight controlling apparatus; Flight path controls for missiles; Flight path controls for projectiles; Flight simulators; Flight simulators for aircraft; Flight simulators for space vehicles; Float suits for swimming; Floatation clothing for lifesaving purposes; Floating point operations chips; Floats for bathing and swimming; Floppy disc drives; Floppy disks; Flotation clothing; Flotation products for swimming; Flow benches (testing apparatus) for carburettors; Flow control installations (electric); Flow gauges; Flow measuring apparatus; Flow meters; Flowmeters; Flue gas analysers; Fluid dispensers for measuring contents to be dispensed; Fluid flow controllers (electrical apparatus); Fluid flow meters; Fluid level measuring apparatus for use in motor vehicles; Fluid level sensors; Fluid metering apparatus; Fluid meters; Fluid sampling apparatus (other than for medical use); Fluidized bed dryers; Fluorescence analysers; Fluorescent light control apparatus; Fluorescent photometers; Fluorescent screens; Fluorometers; Flyback transformers; Focused-array loudspeaker systems; Focusing circuits; Fog signals, non-explosive; Folding multimeters; Folding rules (measuring apparatus); Fonts for computer printers; Food analysis apparatus; Foot measuring apparatus; Foot protectors for protection against accident or injury; Footwear for protection against accident; Footwear for protection against fire; Footwear for protection against injury; Force sensing resistors; Force transducers; Forearm guards; Forearm protectors; Formation testing apparatus; Fraction collectors; Frames for eyeglasses; Frames for glasses; Frames for goggles; Frames for lenses; Frames for photographic slides; Frames for photographic transparencies; Frames for protective glasses; Frames for spectacles; Frames for sunglasses; Free passage indicating apparatus for use with electrical barriers; Free passage indicating apparatus for use with electrical swing gates; Free standing loudspeakers incorporating boxes; Free standing reflective warning triangles; Free standing reflectors for protection against accidents; Frequency changers; Frequency converters; Frequency counters; Frequency diverters; Frequency indicators; Frequency invertors (electronic); Frequency meters; Frequency modulated stereo broadcasting apparatus; Frequency modulated stereo receiving instruments; Frequency modulated stereo testing apparatus; Frequency modulation apparatus; Frequency modulators; Frequency reference crystals; Frequency scanners; Frequency stabilising apparatus; Frequency stabilizers; Frequency synthesizers; Frequency transformers; Fresnel lenses for vehicle windows to increase the zone of vision of the driver; Fuel cells; Fuel consumption measuring apparatus; Fuel consumption meters; Fuel dispensing pumps; Fuel dispensing pumps for service stations; Fuel flow measurement apparatus; Fuel gauges; Fuel level indicator controls; Fuel level indicators; Fuel regulating apparatus; Fume cupboards for laboratory use;

Function generators; Function keyboards; Functional generators; Fundus cameras; Furnaces for conducting experiments; Furnaces for laboratory experiments; Furniture adapted for laboratory use; Furniture especially made for laboratories; Fuse blocks; Fuse boxes; Fuse holders; Fuse indicators; Fuse wire; Fused connection units; Fuses; Fuses for commercial premises; Fuses for domestic premises; Fuses for motor land vehicles; Galena crystals (detectors); Galvanic batteries; Galvanic cells; Galvanization apparatus; Galvanizing apparatus; Galvanometers; Game programmes (programs) and software for use with electronic games of all kinds; Games adapted for use with an external display screen or monitor; Games software for use with an external display screen or monitor Gamma cameras; Games software for use with computers; Gamma counters; Garments for protection against fire; Gas analysers (other than for medical use); Gas chromatography apparatus (other than for medical use); Gas detecting apparatus; Gas detecting instruments; Gas detectors, other than for medical use; Gas flow meters; Gas leak alarm systems; Gas liquid detection apparatus; Gas masks; Gas metering devices; Gas meters; Gas pressure indicators; Gas sensing devices; Gas sensors; Gas separation membranes; Gas supply apparatus being parts of breathing apparatus; Gas testing instruments; Gasoline gauges; Gasoline pumps for service stations; Gasometers; Gates (coin operated); Gauge blocks; Gauge comparators; Gauge rods; Gauges; Gauges for checking angles; Gauges for checking dimensions; Gauges for checking shapes; Gauges for measuring angles; Gauges for measuring dimensions; Gauges for measuring shapes; Gauges for measuring the air content of storage tanks; Gauges for measuring the liquid content of storage tanks; Gauges for measuring the thickness of coatings; Gauges for measuring the thickness of coatings applied by finishers; Gauges for measuring the thickness of coatings applied by painters; Gauges for measuring the thickness of coatings applied by platers; Gauges for monitoring the air content of storage tanks; Gauges for monitoring the liquid content of storage tanks; Gauges for use in the cutting of metals; Gauges for use in the treatment of metals; Gauges with digital readout; Gauging instruments for liquids; Gauging sabres; Geiger counters; Genetic probe assay apparatus for sale in kit form; Geodetic instruments; Geodetical apparatus; Geometry apparatus for the control of vehicles; Geophysic apparatus; Geophysical research apparatus; Geoseismic apparatus; Glass covered with an electrical conductor; Glass discs for video discs; Glass electrodes for measuring chemical compounds; Glass electrodes for measuring ions; Glass electrodes for measuring redox; Glass fibre conduits for electricity cables; Glass for protection against high energy radiation; Glass ophthalmic lenses; Glass substrate plates; Glass substrates; Glass to metal seals being semi-conductor components; Glass tubing for laboratory use; Glass wafers for integrated circuits; Glasses adapted to protect the

eyes; Glasses cases; Glasses for optical use; Glasses frames; Glassware for laboratory use (specifically adapted); Glassware for scientific use (specifically adapted); Glazing apparatus for photographic prints; Global positioning apparatus; Global positioning instruments; Gloves for divers; Gloves for industrial purposes for protection against injury; Gloves for industrial purposes for protection against x-rays; Gloves for industrial use for protection against accidents; Gloves for insulating (for protection against accident or injury); Gloves for protection against X-rays for industrial purposes; Gloves for protection against accidents; Gloves for protection against injury; Gloves for the protection of the wearer to prevent injury; Glow modulators; Glow plug testers; Glow whistles; Goggles; Goggles for aviators; Goggles for industrial safety; Goggles for motor cyclists; Goggles for personal protection in the course of welding; Goggles for protection against accident; Goggles for protection against injury; Goggles for skiing; Goggles for sports; Goggles for swimming; Goggles for the protection of the eyes; Goggles for use in sports; Goggles used in sports; Golf club gauges; Golf simulation apparatus; Goniometers; Gradient indicators; Graduated glassware; Gramophone record players; Gramophone record turntables; Gramophone records; Graphic cameras; Graphic circuit boards; Graphic decoders for use with audio karaoke systems; Graphic decoders for use with video karaoke systems; Graphic display apparatus (electric); Graphic display controller circuit board assemblies; Graphic display recording apparatus; Graphic display terminals; Graphic equalisers; Graphic equalizers; Graphic equalizers for use in vehicles; Graphic printers for use with computing apparatus; Graphic recorders; Graphic terminals; Graphical plotters; Graphics display terminals; Graphics output apparatus; Graphics tablets; Gravimeters; Gravity meters; Grid switch panels; Grids for batteries; Grip size gauges; Ground based apparatus for controlling satellites; Ground based instruments for controlling space vehicles; Ground to air communications apparatus; Guidance systems for missiles; Guided wave intercoms; Guitar amplifiers; Guitar microphones; Gun sights; Gunnery training simulator apparatus; Gyro compasses; Gyros; Gyroscopes; Gyroscopes for use in stabilisation and navigational systems; Gyrostabilized aiming sights; Hair curling apparatus being electrically heated; Hair waving tongs (electric hand implements); Hair-curlers, electrically heated; Hand held calculators; Hand held computer games (for use with television receivers only); Hand held electronic games (for use with television receivers only); Hand held lasers for measuring distances; Hand held light pens for automatically reading identification markings; Hand held magnets for collecting ferromagnetic materials; Hand held magnets for use in handling ferromagnetic materials; Hand held protective screens for use by industrial workers; Hand held receivers; Hand implements for hair styling (electric); Hand

microphones with directional characteristic; Hand protectors (other than adapted for sporting use); Hand-operated gramophones; Hand-operated portable cleaning devices for phonograph records; Hand-operated portable cleaning devices for sound recording disks; Handles being parts of electric irons; Hands free kits for phones; Hard discs; Hard discs for electronic data processing; Hard disk controllers; Hard disk drives; Hard disks; Hard drive recorders for use with television receivers; Hard drives; Hardening furnaces for experimental purposes; Hardware for the channel expansion of recorders; Harnesses for breathing apparatus; Hazard detecting apparatus for use in buildings; Hazard detecting installations for use in buildings; Head cleaning disks (audio) for sale in kit form; Head cleaning tapes (recording); Head demagnetisers; Head protecting devices for tape players; Head straps for goggles; Headgear adapted for use in the reception of auditory stimuli; Headgear adapted for use in the reception of visual stimuli; Headgear adapted to secure audio electronic apparatus to the head; Headgear adapted to secure visual electronic apparatus to the head; Headgear for protection against accident; Headgear for protection against injury; Headgear for use by cyclists for protection against accident; Headgear for use by cyclists for protection against injury; Headgear for use by motorcyclists for protection against accident; Headgear for use by motorcyclists for protection against injury; Headgear for use by racing drivers for protection against accident; Headgear for use by racing drivers for protection against injury; Headphone amplifiers; Headphone consoles; Headphone-microphone combinations; Headphones; Headphones for audio apparatus; Headphones for microphones; Headwear for cyclists for protection against injury; Headwear for sporting activities for protection against injury; Hearing aids, other than for the deaf; Heat detecting apparatus; Heat detecting instruments; Heat detectors; Heat exchange crucibles for scientific use; Heat exchange tubes; Heat exchange tubes for laboratory use; Heat regulating apparatus; Heat resistant electric cables; Heat resistant electric wires; Heat resistant insulated conductors; Heat sensing identification indicators; Heat sensitive cameras for security purposes; Heat sensitive devices for security purposes; Heat sensors; Heat sequence apparatus for biochemical reactions; Heat sinks for conducting heat away from electrical components; Heated hairbrushes (electric); Heating furnaces specifically adapted for laboratory experiments; Heating meters; Height controls; Helical resistance wire coils; Heliographic apparatus; Helmet cases of leather specifically adapted to contain helmets; Helmet communications systems; Helmet mounted display apparatus; Helmets for motorcyclists; Helmets for protection against accidents; Helmets for protection against injury; Helmets for scooter riders; Helmets for use in sports; Hemline markers; Hermetically sealed boxes for electronics; Hi-fidelity loudspeakers;

High capacity broadband telecommunications switching apparatus; High definition televisions; High density information magnetic cards; High fidelity apparatus; High fidelity audio apparatus; High fidelity instruments; High fidelity sound reproducing apparatus; High frequency coils; High frequency converters; High frequency generators, other than for medical use; High frequency modulators; High frequency transducers; High power laser glasses; High pressure microwave supply apparatus for diamond deposition; High resolution monitors; High speed data transmission apparatus; High temperature cables (electric); High tension batteries; High tension connectors for spark plugs; High voltage capacitors; High voltage direct-current transmission installations; High voltage multipliers; High voltage power supplies; High voltage reactors; High voltage series reactors; High voltage transformers; High-frequency apparatus; Hip protectors, other than specially made for playing sports; Hip-guards, other than specially made for playing sports; Hob control apparatus; Holders adapted for mobile phones; Holders adapted for the display of audio cassettes; Holders adapted for the display of compact discs; Holders adapted for the display of video cassettes; Holders adapted for the protection of audio cassettes; Holders adapted for the protection of compact discs; Holders adapted for the protection of video cassettes; Holders adapted for the storage of audio cassettes; Holders adapted for the storage of compact discs; Holders adapted for the storage of video cassettes; Holders adapted for use with lenses; Holders for electric coils; Holders for electric coils; Holders for electrical components; Holders for photographic films; Holders for tapes; Holders for test tubes; Holders for the transport of cassettes; Holders for the transport of discs; Holders for the transport of tapes; Holders for video tapes; Hollow fibre membrane elements for scientific use; Hollow glass containers for laboratory use; Hollow glass containers for measuring; Holograms; Holographic apparatus; Holographic cameras; Holographic discs; Holographic film; Holographic identity cards; Holographic images; Holographic plates; Holographic security apparatus; Home computers; Homing head control circuits; Homing heads; Hook switches; Horizontal lifelines; Horns for loudspeakers; Horns for signalling; Hot air driers for photographic use; Hourglasses; Household thermometers; Housings adapted for loudspeakers; Housings for computers; Housings for electrical apparatus; Housings for electrical instruments; Housings for electrical sub-assemblies; Housings for electronic instruments; Housings for electronic sub-assemblies; Housings for measuring apparatus; Housings for use with television apparatus; Humidity measuring apparatus; Humidity measuring instruments; Humidity meters; Humidity sensors; Humidity switches; Hybrid circuits; Hybrid integrated circuits; Hydrometers; Hydrophilic soft contact lenses; Hydrophones; Hygrometers; Hygrometry products; Identification apparatus (electric or electronic); Identification card verification

apparatus; Identification cards (encoded); Identification cards (machine readable); Identification cards (magnetic); Identification labels (encoded); Identification labels (machine readable); Identification labels (magnetic); Identification marking devices for electric cables; Identification marking devices for electric wires; Identification sheaths for electric wires; Identification sleeves of plastics for electrical wiring; Identification sleeves of rubber for electrical wiring; Identification strips (encoded); Identification strips (magnetic); Identification threads for electric wires; Identity cards, encoded; Identity cards, magnetic; Igniting apparatus, electric, for igniting at a distance; Ignition cables; Ignition cables for internal combustion engines; Ignition cables for motor vehicles; Ignition coils for internal combustion engines; Ignition insulators; Ignition leads; Ignition spark detectors; Ignition spark detectors and sensors for internal combustion engines; Ignition systems, electric, for igniting at a distance; Ignition terminals; Illuminated advertisements; Illuminated advertising apparatus; Illuminated advertising signs; Illuminated articles for publicity purposes; Illuminated electronic moving information displays; Illuminated optical apparatus for use in the displaying of microfilms; Illuminated optical apparatus for use in the reading of microfilms; Illuminated signposts; Illuminated signs; Illuminated signs used for advertising; Illuminating devices for checking the authenticity of bank notes; Illuminating devices for checking the authenticity of printed matter; Illuminometers; Image amplifiers; Image analysers; Image analysing apparatus; Image analysing instruments; Image carriers in the form of discs; Image carriers in the form of graphics; Image carriers in the form of records; Image converter tubes; Image creation apparatus; Image data capture devices; Image data translation apparatus; Image display telephones; Image enhancement devices; Image generation apparatus; Image intensifier tubes; Image intensifiers; Image intensifying devices; Image interpretation apparatus; Image making devices for simulators; Image manipulation apparatus; Image processing apparatus; Image processing apparatus for personal computers; Image processing instruments; Image processing machines; Image processors; Image projectors; Image recording apparatus; Image recording discs; Image recording instruments; Image recording media pre-recorded with information; Image reproducing apparatus; Image scanners; Image scanning apparatus; Image screens; Image setting apparatus; Image sign generators; Image stabilisers; Image synthesizers; Image transmission apparatus; Image transmitting apparatus; Imaging apparatus; Imaging installations; Immersion probes; Immunostaining apparatus (not for medical purposes); Immunostaining devices (not for medical purposes); Immunostaining instruments (not for medical purposes); Impact sensors; Impedance transformers; Implantable devices for scientific use in measuring the composition of body fluids; Impulse

bridges; Impulse field generators; Impulse measuring apparatus (other than for medical use); Impulse measuring instruments (other than for medical use); In-circuit debuggers; In-circuit emulators; In-house communication apparatus; In-vitro diagnostic testing apparatus (other than for medical use); Incentive spirometers for scientific use; Inclinometers; Incubation dishes for scientific or laboratory use; Incubation plates for scientific or laboratory use; Incubators (electricity); Incubators for bacteria culture; Incubators for laboratory use; Indicating apparatus for inspection control; Indication apparatus for displaying information; Indication apparatus for transmitting information; Indication panels; Indication tubes; Indicator lamps showing activation of electrical apparatus; Indicator lamps showing programming of electronic switching gear; Indicator mountings; Indicator panels; Indicator panels with luminous numbers; Indicators (electricity); Indicators for indicating depth; Indicators for indicating direction (other than for vehicles); Indicators for indicating distance; Indicators for indicating speed; Indicators for indicating time; Indicators for the optical monitoring of pressure of gases; Indicators for the optical monitoring of pressure of liquids; Indicators for the optical monitoring of pressure of solids; Inductance capacitance filters; Inductance displacement pickups; Inductance measuring elements; Induction brakes for measuring the capacity of engines; Induction brakes for measuring the power of motors; Induction rods to transmit sound to hearing aid wearers; Induction transmitters; Inductive electrical apparatus; Inductive resistors; Inductor coils; Inductors (electricity); Industrial apparatus for the protection of workers against accidents; Industrial apparatus for the protection of workers against injury; Industrial balancing (measuring) apparatus for rotating objects; Industrial boots for protection against accident; Industrial boots for protection against injury; Industrial computer software programs; Industrial contactor starters (electrical); Industrial control apparatus (electric); Industrial control apparatus (electric) for machines, engines or motors; Industrial control apparatus (electronic); Industrial control apparatus (electronic) for machines, engines or motors; Industrial controls incorporating computer apparatus; Industrial controls incorporating microprocessors; Industrial controls incorporating software; Industrial gloves for protection against accident or injury; Industrial process controllers (electric or electronic); Industrial process identification apparatus; Industrial safety apparatus for the protection of workers against accidents; Industrial safety apparatus for the protection of workers against injury; Industrial safety eye protection articles; Industrial safety glasses; Industrial safety goggles; Industrial safety helmets; Industrial safety instruments for the protection of workmen against accident; Industrial safety instruments for the protection of workmen against injury; Inertial navigation apparatus; Inertial

navigational instruments; Inflatable (safety) clothing; Inflatable apparatus for life-saving purposes; Inflatable dinghies (lifeboats); Inflatable jackets for use in diving; Inflatable jackets for use in life saving; Inflatable jackets for use in under water swimming; Inflatable lifeboats; Inflatable vests for use in diving; Inflatable vests for use in life saving; Inflatable vests for use in under water swimming; Information carriers (electric or electronic); Information carriers (encoded or magnetic); Information carriers in machine readable form; Information carriers in the form of cards; Information carriers in the form of discs; Information carriers in the form of microfiche; Information carriers in the form of tapes; Information carriers on machine readable materials; Information carrying materials (electric or electronic); Information carrying materials (encoded or magnetic); Information display apparatus (luminous); Information display terminals; Information distribution programs; Information processing apparatus; Information storage apparatus (electric or electronic); Information storage devices (electric or electronic); Information storage devices (encoded or magnetic); Information storage devices for use in data processing apparatus; Information storage devices in the form of magnetic discs; Information storage devices in the form of magnetic tapes; Information storage discs (encoded); Information storage discs (magnetic); Information storage discs (optical); Information storage instruments (electric or electronic); Information storage instruments (encoded or magnetic); Information storage tapes (encoded); Information storage tapes (magnetic); Information verification apparatus; Informational programs; Infrared circuit components; Infrared detection apparatus; Infrared detectors; Infrared devices for aiming weapons; Infrared devices for guiding weapons; Infrared drying apparatus for the photographic prints; Infrared filters; Infrared gun sighting apparatus; Infrared locating apparatus; Infrared optical apparatus; Infrared radiators for treatment of fabrics; Infrared remote control apparatus; Infrared remote controllers; Infrared scanners; Infrared sensors; Infrared thermometers; Ink jet printers for use with computers; Ink jet printers for use with data processing apparatus; Inking monitors; Input apparatus for computers; Input apparatus for data processors; Input apparatus for transferring data from computers; Input apparatus for transferring data to computers; Input apparatus for use with computers; Input apparatus for use with computers for handling data; Input apparatus for use with data transmission apparatus; Input devices for computers; Input devices for data processing apparatus; Input modules; Input scanners; Insect killing apparatus incorporating ultra violet lamps; Insert cards (printed circuit boards) being parts of computers; Insertion cards; Inserts for breathing apparatus, other than for medical or surgical use; Inserts for breathing masks, other than for medical or surgical use; Inspection apparatus (other than for

medical or dental use); Inspection apparatus for detecting defects in tires; Inspection apparatus for inspecting the internal surface of tires; Inspection devices (other than for medical or dental use); Inspection glasses (other than for medical or dental use); Inspection instruments (other than for medical or dental use); Inspection mirrors (other than for medical or dental use); Installations (electric or electronic) for use in access control; Installations (electric or electronic) for use in security; Installations for data processing; Installations for monitoring component functions of vehicles; Installations for receiving information; Installations for surveying purposes; Installations for tactical air defence; Installations for the calibrated handling of fluid materials; Installations for the calibrated handling of materials; Installations for the calibrated handling of particulate materials; Installations for the checking of articles; Installations for the electronic processing of data; Installations for the remote control of industrial operations; Installations for the remote loading of computer software; Installations for the remote unloading of computer software; Installations for the transmission of data via electric supply lines; Installations for the weighing of articles; Installations for transmitting images; Installations for use in forming computer networks; Installations for use in the networking of communications apparatus; Installations for use in the networking of computers; Instruction programmes for the input of data; Instruction programmes for the input of text; Instruction programmes for the output of data; Instruction programmes for the output of text; Instruction programmes for the processing of data; Instruction programmes for the processing of text; Instruction programmes for the storage of data; Instruction programmes for the storage of text; Instruction programmes for use with computers; Instructional apparatus; Instructional apparatus for computing; Instructional instruments; Instructional materials (apparatus); Instructional materials for computer programs; Instrument dials; Instrument panels (electric); Instrumentation cables (electric); Instrumentation simulators; Instruments (electric and electronic) for the control of machines; Instruments adapted for the collecting of magnetically encoded personal documents; Instruments adapted for the dispensing of magnetically coded tickets; Instruments adapted for use with computers; Instruments containing eyepieces; Instruments for accumulating electricity; Instruments for analysing photographs; Instruments for checking tickets; Instruments for diagnosis (for scientific use); Instruments for electronic data processing; Instruments for indicating directions; Instruments for indicating planes; Instruments for measuring Young's modulus (not for medical purposes); Instruments for measuring angles; Instruments for measuring gradients; Instruments for measuring length; Instruments for measuring levels of fluids; Instruments for measuring magnetic fields; Instruments for measuring

photographs; Instruments for measuring pressure; Instruments for measuring radiation exposure time; Instruments for measuring sonic velocity; Instruments for measuring speed; Instruments for measuring the electrical conductivity of metals; Instruments for measuring the thickness of coatings; Instruments for measuring velocities; Instruments for measuring wind; Instruments for medical use in testing microbiological samples; Instruments for medical use in testing temperature; Instruments for monitoring traffic; Instruments for producing photographs; Instruments for recording heart activity (other than for medical use); Instruments for scientific research in laboratories; Instruments for scientific use in testing microbiological samples; Instruments for scientific use in the preparation of cells; Instruments for scientific use in treatment of samples before analysis; Instruments for signalling; Instruments for surveying physical data; Instruments for temperature control; Instruments for testing materials at elevated temperatures; Instruments for testing metals; Instruments for testing temperature (other than for medical use); Instruments for the analysis of gases in liquid metal; Instruments for the analysis of liquid metal; Instruments for the processing of data for utility meters; Instruments for the projection of graphic images; Instruments for the recording of data; Instruments for the recording of sound; Instruments for the reproduction of sound; Instruments for the transmission of sound; Instruments for use in biochemical purification (other than for medical use); Instruments for use in gas chromatography (for scientific use); Instruments for use in liquid chromatography (for scientific use); Instruments for use in reception of electronic signals; Instruments for use in terrestrial photogrammetry; Instruments for use on boats in indicating speed; Instruments for weighing; Insulated bottles (flasks) for laboratory use; Insulated cable for electrical installations; Insulated clothing for protection against accident or injury; Insulated electric cables; Insulated electric cables; Insulated electric copper wires; Insulated electric wire; Insulated electrical cables; Insulated electrical wires; Insulated flasks for laboratory use; Insulated fuse wires; Insulated telecommunications cables; Insulated vessels for laboratory use; Insulated wires (electric); Insulating connection boxes (electric); Insulating plates for electrical components; Insulating vessels for laboratory use; Insulation resistance meters; Insulation testers; Integrated audio amplifiers; Integrated card readers; Integrated card writers; Integrated cards (magnetic, electronic or encoded); Integrated circuit boards; Integrated circuit boards for controlling tape drives; Integrated circuit cards; Integrated circuit cards (smart cards); Integrated circuit cards for bearing stored data; Integrated circuit cards for storing data; Integrated circuit cards storing computer game programs; Integrated circuit chips; Integrated circuit diagnostic apparatus employing electron beam technology; Integrated circuit memories; Integrated circuit memory cards for

use in playing electronic musical instruments; Integrated circuit packages; Integrated circuit test clips; Integrated circuits; Integrated circuits for networks for use in identification; Integrated data processing installations; Integrated electric circuits; Integrated electronic circuits; Integrated facility management installations; Integrated optical chips; Integrated optical components for data transmission; Integrated optical devices; Integrated output printers; Integrated service digital network installations; Integrated services digital network components; Integrated software packages; Intensifying screens for x-ray films; Interactive computer software; Interactive computers for use in certifying airport security personnel; Interactive computers for use in training; Interactive data transfer apparatus; Interactive display apparatus (electric); Interactive display instruments (electric); Interactive educational games for use with television receivers; Interactive educational games for use with video apparatus; Interactive entertainment software for use with computers; Interactive graphics screens; Interactive terminals; Interactive video apparatus; Interactive video instruments; Interactive video players; Interactive video software; Interactive video work stations; Interchangeable lens for cameras; Interchangeable lenses; Intercom apparatus; Intercom key apparatus; Intercom key apparatus for connection to telephone networks; Intercom key terminals for connection to a telephone network; Intercommunication apparatus; Intercommunication installations; Intercommunication satellites; Intercommunication systems; Intercommunications apparatus for installation in sea craft; Intercommunications apparatus for installation in vehicles; Interconnectors for electronic circuits; Interface apparatus for computing apparatus; Interface boards for computers; Interface boards for electrical apparatus; Interface cables (electric); Interface cards for computers; Interface cards for electrical apparatus; Interface converters for electrical apparatus; Interface instruments for computer control of knitting machines; Interface network modems; Interface units for electrical apparatus; Interface units for linking electronic store price scanners with system controls; Interfaces (for computers); Interfaces between application programs and firmware on real-time computers; Interfaces for terminals; Interfaces for use with audible data; Interfaces for use with voices; Interference suppression apparatus; Interferometers; Internal combustion engine testing apparatus; Internal combustion engine tuning instruments; Interphones; Interrupters; Interrupting modules; Intruder alarms (other than for vehicles); Intruder detecting apparatus (other than for vehicles); Intruder detecting instruments (other than for vehicles); Intruder detecting sensors (other than anti-theft apparatus for vehicles); Intruder detectors (other than for vehicles); Intruder identification apparatus (other than for vehicles); Intruder identification instruments (other than for vehicles); Intrusion

detectors (other than for vehicles); Inverters (electricity); Inverter controllers; Invoicing machines; Ion beam supply apparatus; Ion gauge tubes; Ion implanters; Ionisation apparatus other than for the treatment of air; Ionisation apparatus, not for the treatment of air; Ionisation gauges; Ionising air guns, not for the treatment of air; Ionising brushes, not for the treatment of air; Ionising guns, not for the treatment of air; Ionization apparatus for use in the surface treatment of materials; Ionization instruments, not for the treatment of air; Ionizers, not for the treatment of air; Ionselective electrodes; Irradiation apparatus for the curing of synthetic resins; Jack plugs; Jackets (bullet proof); Jackets (clothing) for protection against accident or injury; Jammers for use as electromagnetic counter measures; Jigs (measuring instruments); Jigs for use in stacking laminations; Joining units (electrical contacts); Joint boxes for housing cable joints; Joint compound for electrical conductivity; Jointing boxes; Joysticks; Joysticks for computers; Joysticks for use with computers; Joysticks for use with visual display units; Juke boxes (for computers); Juke boxes (musical); Jump cables; Jump gauge rods; Jump leads; Jump leads for vehicles; Junction boxes (electricity); Junction boxes for electric wires; Junction boxes for electrical circuits; Junction boxes for electrical purposes; Junction boxes for optical fibres; Junction sleeves for electric cables; Junctions (electrical); Karaoke apparatus; Karaoke equipment; Karaoke machines; Karaoke machines incorporating video discs; Key telephone apparatus; Key telephone instruments; Keyboard amplifiers; Keyboard apparatus for document handling; Keyboard apparatus for document processing; Keyboard apparatus for use with computers; Keyboard switches; Keyboard terminals; Keyboards for data entry; Keyboards for entering information into computers; Keyboards for use in data entry; Keyboards for use with computers; Keyboards for use with data communication apparatus; Keyboards for use with data processing apparatus; Keyboards for use with microprocessors; Keypads; Kilometre recorders for vehicles; Kitchen scales; Kitchen weighing scales; Kits comprising recorded materials including discs, software, tapes and other recordings and manuals, sold together as a unit; Klaxons (sirens); Klystrons; Knee guards for protection against injury (not adapted for use in playing sports); Knee pads for protection against injury (not adapted for use in playing sports); Knee-pads for workers; Lab units for the dilution of liquids (other than for medical use); Lab units for the dispensing of liquids (other than for medical use); Lab units for the incubation of liquids (other than for medical use); Lab units for the mixing of liquids (other than for medical use); Lab units for the transfer of liquids (other than for medical use); Label readers (decoders); Labels (magnetic or encoded) for use in marking products for identification; Labels (magnetic or encoded) for use in marking products for security; Labels (magnetic or encoded) for use in marking products for

verification; Labels carrying magnetically, optically, or electronically recorded or encoded information; Laboratory apparatus (other than for medical use); Laboratory apparatus being disposable after use (other than for medical use); Laboratory apparatus for detecting bacteria (other than for medical use); Laboratory apparatus for metering liquids (other than for medical use); Laboratory apparatus for scientific research; Laboratory articles (other than for medical use); Laboratory beakers; Laboratory centrifuges; Laboratory containers (other than for medical use); Laboratory data processing apparatus; Laboratory dispensers; Laboratory furniture (specifically adapted); Laboratory glassware; Laboratory incubators (other than for medical use); Laboratory instruments (other than for medical use); Laboratory mixers; Laboratory optical apparatus; Laboratory optical instruments; Laboratory oscilloscopes; Laboratory power supply apparatus; Laboratory surveying apparatus; Laboratory trays; Laboratory units for dispensing liquids; Laboratory units for incubating liquids (other than for medical use); Laboratory utensils (other than for medical use); Lactodensimeters; Lactometers; Laminography inspection apparatus (other than for medical use); Lamps for use as warning beacons; Land vehicle aerials; Language libraries; Language translating apparatus; Language translating circuits; Language translating instruments; Laptop computers; Large screen video projectors; Laser beam printers; Laser cards; Laser cutting apparatus, other than for medical use; Laser cutting tools, other than for medical use; Laser diodes; Laser disc players; Laser discs; Laser glass; Laser glass rods; Laser installations, other than for medical use; Laser instruments, other than for medical use; Laser light transmitting apparatus, other than for medical use; Laser light treatment apparatus, other than for medical use; Laser light treatment instruments, other than for medical use; Laser machining tools, other than for medical use; Laser pointers; Laser printer controllers; Laser printers for use with computers; Laser printers for word processors; Laser range finders; Laser ray apparatus for the aiming of weapons; Laser ray apparatus for the guidance of weapons; Laser ray apparatus for the homing of weapons; Laser readable discs; Laser readable discs for recording sound; Laser recordable discs; Laser scalpels, other than for medical use; Laser scanning densitometers; Laser strip cards; Laser welding apparatus; Lasers capable of producing pulsating laser beams (other than for medical use); Lasers for controlling engraving machines; Lasers for controlling machine tools; Lasers for guiding machine tools; Lasers for industrial use; Lasers for machine tools; Lasers for scientific use; Lasers, not for medical purposes; Latex, rubber or vinyl gloves for protection against accidents or injury; Leak detection apparatus; Leak detection instruments; Leak detectors for hydrocarbons; Leak test units; Leak testing apparatus; Leak testing instruments; Leather belt kidney

protectors for motorcyclists (for prevention of accident or injury); Length gauges (measures) other than for medical use; Length measuring apparatus; Length measuring instruments; Lens; Lens blanks; Lens blanks for eyesight correction; Lens blanks for use in ophthalmic lenses; Lens blanks for use in optical lenses; Lens brushes adapted for photographic use; Lens caps; Lens cases; Lens covers; Lens extension tube sets; Lens hoods; Lenses for astrophotography; Lenses for cameras; Lenses for eyeglasses; Lenses for glasses; Lenses for lamps; Lenses for projectors; Lenses for protective masks for workmen; Lenses for safety goggles; Lenses for spectacles; Lenses for sunglasses; Lenses for use by welders; Lenses for use with still cameras; Lenses for video cameras; Letter scales; Letter scales for domestic use; Letter scales for office use; Level controllers (electrical apparatus); Level gauges; Level gauging poles; Level indicators; Level meters; Level sensors; Level switches; Levelling instruments; Levelling staffs (surveying instruments); Levels; Levels (instruments for determining the horizontal); Lever scales (steelyard); Life belts; Life buoys; Life jackets; Life nets; Life preservers; Life rafts; Life saving apparatus and equipment; Life saving apparatus for use at beaches; Life saving apparatus for use at swimming pools; Life saving apparatus utilising chemical oxygen; Life saving equipment in the form of hydraulic extending platforms; Life saving harnesses; Life saving instruments; Life vests; Life-buoys; Life-saving rafts; Lifebelts; Lifejackets; Lift operating apparatus; Lifting magnets; Light boxes other than for medical use; Light conducting filaments (optical fibers (fibres)); Light conductive rods; Light conductors; Light control apparatus; Light dimmers (regulators) (electric); Light emitting diode displays; Light emitting diodes; Light emitting diodes for use in display boards; Light emitting diodes with plugs; Light exposure apparatus; Light filters for cameras; Light flashing apparatus (photographic apparatus); Light flashing apparatus (warning beacons); Light flashing apparatus for direction indicators of vehicles; Light meters; Light modulators; Light pens; Light probes; Light production apparatus for photographic use; Light scattering photometers; Light sensitive relays; Light sensors; Light signalling apparatus for use by persons in emergencies; Light signboards; Light source panels for liquid crystal displays; Light sources (flashlamps) for photographic use; Light switches; Light-emitting electronic pointers; Light-seal revolving doors and hatches for darkrooms; Lighting (flashlamps) for photographic use; Lighting ballasts; Lighting control apparatus; Lightning arresters; Lightning conductors; Lightning conductors (rods); Lightning protection installations; Limit switches; Limiters (electricity); Limiters (electronic circuits); Line apparatus (electric); Line conditioning apparatus; Line drivers; Line printers; Line scanners; Line scanning cameras being image sensing apparatus; Line traps; Line tuners; Lineal measuring instruments; Linear

accelerators for industrial use; Linear actuators (electric); Linear encoders; Linear measuring instruments; Linear modular power supply apparatus; Linear transducers; Linked computer networks; Linking units for computers; Liquid chromatograph apparatus for scientific use; Liquid chromatography columns for scientific use; Liquid chromatography injectors for scientific use; Liquid chromatography instruments for scientific use; Liquid crystal display (LCD) televisions; Liquid crystal display panels for use with overhead projectors; Liquid crystal display screens; Liquid crystal display units; Liquid crystal displays; Liquid crystal electronic display modules; Liquid crystals; Liquid dispensing (vending) apparatus; Liquid dispensing apparatus that measures the amounts to be dispensed; Liquid dosage devices that measure the amounts to be dispensed; Liquid flow measuring apparatus; Liquid flow measuring devices; Liquid fuel supply pumps (self regulating); Liquid level control apparatus (electric or electronic); Liquid level indicators for liquid fuel storage tanks; Liquid level indicators for water tanks; Liquid level indicators for water vessels; Liquid level meters; Liquid level monitoring apparatus; Liquid level switches; Liquid scintillation counters; Liquor dispensing apparatus; Liquor measuring apparatus; Listening devices for monitoring babies; Load break isolators; Load cell digitizers; Load cells; Load cells for measuring force; Load cells for measuring pressure; Load indicators; Load scales for aircraft; Local area computer installations; Local area installations; Local area networking apparatus for the switching of data; Local area networking apparatus for the transmission of data; Local area networks; Local mobile telephone installations; Local mobile telephone systems; Local mobile telephones; Local optical fibre networks; Localisation devices; Lock controllers (electric); Lock switches (electric); Locking apparatus (electric); Locking headers; Locks (electric) with alarms; Locks (electronic); Locks, electric; Loft gauges; Logging (recording or measuring) apparatus; Logic circuits; Logic master modules; Logic probes; Logo scanners; Logs (measuring instruments); Loom production monitoring apparatus; Lorgnette frames; Lorgnettes (opera glasses); Lorgnettes (spectacles); Lottery ticket dispensing apparatus; Loud hailers; Loudness controllers; Loudspeaker apparatus; Loudspeaker boxes; Loudspeaker cabinets; Loudspeaker chassis; Loudspeaker enclosures; Loudspeaker housings; Loudspeaker installations; Loudspeaker stands (adapted for); Loudspeaker systems; Loudspeaker units; Loudspeakers; Loudspeakers for mounting on walls; Loudspeakers for use in cars; Loudspeakers for use in cinemas; Loudspeakers for use in theatres; Loudspeakers for use in vehicles; Low noise converters; Low tension electrical apparatus; Low voltage switching devices; Lubricant metering devices; Luminescence analysers; Luminescence scanners; Luminoflux meters; Luminous advertising apparatus with alternative displays; Luminous advertising displays; Luminous

beacons; Luminous boarding; Luminous electric signs; Luminous indicators; Luminous panels; Luminous poster (advertising) pillars; Luminous rescue and emergency beacons; Luminous rotating advertising supports; Luminous signals; Luminous signals for giving information to pedestrians; Luminous signals with relays; Luminous signs; Luminous signs for roads; Lung function test apparatus for scientific use; MP3 players; Machine monitors; Machine readable cards; Machine readable carriers for stored computer programmes; Machine readable codes; Machine readable computer programs; Machine readable data carriers; Machine readable data carriers incorporating programs; Machine readable data carrying apparatus; Machine readable devices for cashless payment systems; Machine readable information carriers; Machine readable information carriers for recording data; Machine readable material for bearing computer programmes; Machine readable materials; Machine readable materials for bearing computer programs; Machine readable programmes in the form of punched (encoded) cards; Machine readable programmes in the form of punched (encoded) tapes; Machine readable recording materials for retrieving data; Machine readable recording materials for storing information; Machine tools controlled by computers; Machines for automatically cancelling tickets; Machines for automatically issuing tickets; Machines for bank transactions; Machines for calculating; Machines for cash dispensing; Machines for changing money; Machines for checking tickets; Machines for communication; Machines for counting money; Machines for cutting (electric arc); Machines for dispensing (vending) drinks; Machines for dispensing (vending) foods; Machines for dispensing (vending) liquids; Machines for dispensing change (money); Machines for dispensing coins in predetermined quantities; Machines for dispensing frozen beverages (vending); Machines for executing remote financial transactions; Machines for inspecting printed circuit boards; Machines for issuing (vending) postage stamps; Machines for issuing (vending) receipts; Machines for issuing (vending) tickets; Machines for issuing (vending) tokens; Machines for issuing money in predetermined amounts; Machines for measuring; Machines for monitoring the accuracy of dispensing apparatus; Machines for monitoring the accuracy of metering apparatus; Machines for operating gates (automatic or coin operated); Machines for operating turnstiles (electric); Machines for sorting by colour; Machines for sorting by weight; Machines for sorting coins; Machines for testing; Machines for testing the efficiency of aerosol containers; Machines for the centrifugal separation of fluids (scientific); Machines for the exposure of photographic films; Machines for the exposure of photographic plates; Machines for the processing of information; Machines for the servicing of vehicles (electrical tuning); Machines for use in biological reactions in laboratories (science); Machines for use in the analysis of

environmental contaminants (other than medical); Machines for use in the monitoring of environmental contaminants (other than medical); Machines to check stamping (franking); Macroscopes; Magazines downloaded via the internet; Magazines for photographic negatives; Magazines for slides; Magic lanterns; Magnetic boards; Magnetic apparatus; Magnetic audio tape recorders; Magnetic audio tapes; Magnetic bubble memories; Magnetic card reading apparatus; Magnetic cards; Magnetic cards bearing computer programs; Magnetic cards being computer software; Magnetic cards being data carrying materials; Magnetic cards for recording computer programmes; Magnetic cards for recording data; Magnetic cards for the recording of data; Magnetic cards for the storage of computer programs; Magnetic cards for use with computers; Magnetic carriers; Magnetic carriers for the storage of computer programs; Magnetic carriers with digitised type-faces; Magnetic cleaning apparatus for sound recordings; Magnetic cleaning apparatus for video recordings; Magnetic coils; Magnetic compasses; Magnetic components for recording data; Magnetic components for the retrieval of data; Magnetic components for the storage of data; Magnetic computer tapes for recording data; Magnetic control cards; Magnetic credit cards; Magnetic data carriers; Magnetic data carriers for use in controlling machines; Magnetic data carriers in the form of cassettes; Magnetic data carriers in the form of disks; Magnetic data carriers in the form of tapes; Magnetic data carriers in the form of wires; Magnetic data carriers recorded with programmes for instruction; Magnetic data carriers recorded with programmes for instruction in foreign languages; Magnetic data carrying discs; Magnetic data carrying tapes; Magnetic data carrying wires; Magnetic data cartridges; Magnetic data media; Magnetic data memories; Magnetic data recording apparatus; Magnetic data storage materials; Magnetic debit cards; Magnetic detectors; Magnetic disc carriers; Magnetic disc recording apparatus; Magnetic disc reproducing apparatus; Magnetic discs; Magnetic discs bearing computer programmes; Magnetic discs being information storage devices; Magnetic discs for bearing recorded data; Magnetic discs for data storage purposes; Magnetic discs for recording computer programmes; Magnetic discs for recording sound; Magnetic discs for recording video; Magnetic discs for storing computer programmes; Magnetic discs for storing printing images; Magnetic discs for the electronic recording of data; Magnetic discs for the recording of data; Magnetic discs for the storage of data; Magnetic discs recorded with data representative of text; Magnetic disk drives; Magnetic disk recording apparatus; Magnetic disk reproducing apparatus; Magnetic diskettes; Magnetic disks; Magnetic disks for computers; Magnetic disks for data input; Magnetic disks for data processing; Magnetic disks for data storage; Magnetic disks for data transmission; Magnetic disks for storing images; Magnetic disks for the storage of data;

Magnetic drums; Magnetic encoders; Magnetic field generators, other than for medical use; Magnetic filaments; Magnetic filters; Magnetic flexible disks for bearing data; Magnetic floppy discs; Magnetic flux sensors; Magnetic foils; Magnetic hard disc drives; Magnetic hard discs; Magnetic heads; Magnetic heads (transducers); Magnetic heads being components for use in sound recording apparatus; Magnetic identification cards; Magnetic identity cards; Magnetic information carriers; Magnetic material in the form of strips for use on cards; Magnetic material in the form of strips for use on labels; Magnetic materials; Magnetic materials bearing data for video games; Magnetic materials containing graphical information; Magnetic materials containing textual information; Magnetic materials for recording sound; Magnetic materials for recording video; Magnetic materials for the handling of data; Magnetic materials for the storage of data; Magnetic media for storing video games; Magnetic media registers; Magnetic memories contained on disks; Magnetic memories contained on tapes; Magnetic metal detector monitors; Magnetic or encoded cards; Magnetic payment cards; Magnetic platforms for data processing material; Magnetic platforms for software; Magnetic program carriers; Magnetic program storage apparatus; Magnetic recording apparatus bearing computer programmes; Magnetic recording carriers; Magnetic recording charts; Magnetic recording discs; Magnetic recording materials; Magnetic recording materials bearing computer programmes; Magnetic recording media; Magnetic recording media in the form of discs; Magnetic recording mediums; Magnetic recording supports; Magnetic recording tapes; Magnetic recordings; Magnetic recordings of computer programmes; Magnetic register supports; Magnetic resistance sensors; Magnetic resonance imaging apparatus, other than for medical purposes; Magnetic sensors; Magnetic sensors being parts of intruder detection alarm systems; Magnetic separators for scientific use; Magnetic sound tapes; Magnetic stirring apparatus; Magnetic stirring instruments; Magnetic storage devices; Magnetic storage materials incorporating programmes; Magnetic storage materials incorporating software; Magnetic strip readers; Magnetic supports containing recorded computer programmes; Magnetic supports data processing materials; Magnetic supports for acoustic apparatus; Magnetic supports for data recording; Magnetic supports for software; Magnetic switches; Magnetic tape; Magnetic tape cartridges; Magnetic tape cassettes; Magnetic tape drives for computers; Magnetic tape drives for storing computer programs; Magnetic tape duplicating apparatus; Magnetic tape for bearing sound recordings; Magnetic tape for recording computer programmes; Magnetic tape in the form of cartridges; Magnetic tape in the form of cassettes; Magnetic tape splicing apparatus; Magnetic tape units (for computers); Magnetic tapes; Magnetic tapes being data carriers; Magnetic tapes for carrying audio signals; Magnetic tapes

for carrying digital information; Magnetic tapes for memorising software programs; Magnetic tapes for recording computer programmes; Magnetic tapes for recording data; Magnetic tapes for recording sound; Magnetic tapes for recording visual images; Magnetic tapes for storing computer programmes; Magnetic tapes for storing video recordings; Magnetic tapes for the storage of data; Magnetic tapes for visual electronic computers; Magnetic wires; Magnetically encoded cards; Magnetically encoded cards for carrying data; Magnetically operated stirring devices; Magnetically recorded computer programs; Magnetically recorded data for computers; Magnetically shielding cabinets, especially made for laboratory use; Magnetised cards for holding needles; Magnetised cards for holding thread; Magneto-optical discs; Magneto-optical disks; Magnetometers; Magnetrons; Magnets; Magnifiers; Magnifying glasses (optics); Magnifying instruments; Magnifying lenses for use in needlework; Magnifying viewers; Mainframes (computers); Make-up removing appliances, electric; Male connectors for electrical cables; Manipulating devices for laboratory use; Manometer lines, other than for medical use; Manometers; Manual controlled signal storage units; Manual desoldering tools (electric); Manual rectifiers; Manual transparencies; Manually actuated delivery apparatus (electric); Manually operable voice simulation apparatus; Manually operated electric cable reels; Manually operated machines for cancelling tickets; Manually operated machines for dating tickets; Manufacturing control installations (electric); Map measuring instruments; Marine autopilots; Marine communication apparatus; Marine compasses; Marine depth finders; Marine depth sounders; Marine logs (electric); Marine navigation apparatus; Marine transceiver grounding apparatus; Marine transceiver grounding instruments; Marine underwater acoustic devices; Marine vessel steering apparatus (automatic); Maritime rescue apparatus; Maritime safety apparatus; Markers for electric wire; Markers for electrical conductors; Marking buoys; Marking buoys; Marking gauges (joinery); Marking units for spot marking defects in billets; Masers (microwave amplifiers); Mask aligners; Mask scanning apparatus; Masks for diving; Masks for integrated optics circuits exposed by electron beam; Masks for making integrated circuits; Masks for making printed circuits; Masks for personal use against accidents; Masks for protecting the face (other than sporting apparatus); Masks for snorkelling; Masks for swimming; Masks for the production of integrated circuits; Mass flow measuring apparatus; Mass flow meters; Mass flow sensors; Mass memories; Mass spectrometers; Mass storage apparatus (electric); Mass storage instruments (electric); Master audio mixing desks for use in an audio recording studio; Masts (wireless aerials); Masts for aerials; Masts for antennae; Masts for wireless aerials; Material for electricity mains (wires, cables); Material testing apparatus; Material testing instruments; Material testing

instruments and machines; Materials bearing computer programs in encoded form; Materials bearing computer programs in magnetic (encoded) form; Materials bearing data in encoded form; Materials bearing data in encoded form for use with computers; Materials bearing information in magnetic form; Materials bearing information in magnetic form for use with computers; Materials bearing recorded computer programs; Materials for carrying computer data in magnetic form; Materials for carrying computer data in optical form; Materials for electrical screening purposes; Materials testing instruments and machines; Mathematical instruments; Matrix printers; Mats for use with a computer mouse; Measurement apparatus; Measurement apparatus for well testing; Measurement devices; Measurement instruments for use in oil exploration; Measurement instruments for use in oil production; Measures; Measuring T-squares; Measuring apparatus; Measuring apparatus (mass spectrometers) for chemical substances; Measuring apparatus for air pressure; Measuring apparatus for delivery of liquid fuels; Measuring apparatus for indicating dimensions; Measuring apparatus for indicating quantities; Measuring apparatus for lineal measuring; Measuring apparatus for measuring acceleration; Measuring apparatus for measuring speed; Measuring apparatus for metering pumps; Measuring apparatus for non-electrical quantities; Measuring apparatus for nuclear contamination; Measuring apparatus for photometric analysis (other than medical); Measuring apparatus for spectroscopic analysis (other than medical); Measuring apparatus for surface measuring; Measuring apparatus for temperature; Measuring apparatus for use in beverage quality control; Measuring apparatus for use in bioassay techniques (other than medical); Measuring apparatus for use in electrical engineering; Measuring apparatus for use in polymer investigations; Measuring apparatus for use in radio engineering; Measuring apparatus for use in the manufacturing industry; Measuring apparatus for wind direction; Measuring cables; Measuring converters; Measuring devices (other than for medical use); Measuring devices having digital displays (other than for medical use); Measuring devices in the nature of feeder pumps; Measuring devices, electric; Measuring gauges for liquid fuels; Measuring glassware; Measuring instruments; Measuring instruments for checking vehicle body work; Measuring instruments for civil engineering; Measuring instruments for dams; Measuring instruments for determining the ferrite content in steel; Measuring instruments for electric circuits; Measuring instruments for geophysics; Measuring instruments for testing the quality of coatings; Measuring machines (other than for medical use); Measuring probes for monitoring sewage plants; Measuring probes for monitoring waste water plants; Measuring probes for water protection; Measuring pumps; Measuring rods; Measuring rulers; Measuring sensors; Measuring spoons; Measuring stands;

Measuring tapes; Measuring transducers; Measuring tubes; Measuring wheels; Mechanical closers (electric) for doors; Mechanical closers (electric) for windows; Mechanical combination locks (electric); Mechanical contact switches; Mechanical control stations; Mechanical dialling locks (electric); Mechanical digital display apparatus; Mechanical dosing (measuring) apparatus; Mechanical illuminated signboards; Mechanical length-marking apparatus (measuring); Mechanical life saving apparatus; Mechanical locks (electric, metal); Mechanical locks (electric, metal) for use in motor vehicles; Mechanical locks (electric, non-metallic); Mechanical locks (electric, non-metallic) for use in motor vehicles; Mechanical measuring apparatus; Mechanical memory apparatus for pallets; Mechanical recording apparatus; Mechanical room thermostats; Mechanical safety apparatus; Mechanical safety instruments; Mechanical signs; Mechanical storage apparatus for sound; Mechanical storage apparatus for vision; Mechanical swivel heads for cameras; Mechanically operated road traffic control signs; Mechanically operating devices for use in inspecting ammunition; Mechanised coding apparatus; Mechanised identification apparatus; Mechanisms for card operated apparatus; Mechanisms for coin operated apparatus; Mechanisms for coin-operated apparatus; Mechanisms for coin-operated apparatus; Mechanisms for coin-operated apparatus; Mechanisms for compact disc players; Mechanisms for counter-operated apparatus; Mechanisms for counter-operated apparatus; Mechanisms for governing revolutions per minute; Mechanisms for pre-payment apparatus; Mechanisms for use in positioning systems (electric); Media (magnetic) for recording images; Media (optical) for recording images; Media for recording sound; Media for recording visual images (other than sensitised films); Media for the reproduction of images; Media for the reproduction of sound; Medical simulators (teaching aids); Megaphones; Membranes for filtration (scientific); Memo boards (electronic); Memo books (electronic); Memories and memory extensions for use with electronic games of all kinds; Memories being cards of font data for use in lettering machines; Memories for calculators; Memories for computers; Memories for use with computers; Memories for use with microprocessors; Memory apparatus; Memory apparatus for telecommunications network design; Memory apparatus for telecommunications network management; Memory boards; Memory cards; Memory cards containing microprocessors; Memory cartridges for hand-held electronic game apparatus; Memory cartridges on which computer programs are stored; Memory controllers for use with computers; Memory devices; Memory devices bearing programmes for use with computers; Memory devices for use with computer apparatus; Memory expansion cards; Memory modules; Memory programme cartridges for amusement apparatus; Memory programmes; Memory units; Mercury levels; Mercury switches; Mercury

thermometers (other than for medical use); Message display apparatus (electric); Message forwarding apparatus; Message forwarding instruments; Message handling apparatus (electric); Message receiving apparatus; Message receiving instruments; Message sending apparatus; Message sending instruments; Metal advertising panels (luminous); Metal advertising panels (mechanical); Metal bells (electric) for alarms; Metal bells (signals); Metal bells (warning devices); Metal bells for alarms; Metal casings for semiconductor devices; Metal detectors; Metal detectors for industrial or military purposes; Metal detectors for screening personnel; Metal direction indicator panels (electric); Metal direction indicator panels (luminous); Metal direction indicator panels (mechanical); Metal ducts (electric); Metal locks (electric); Metal masts (aerials); Metal monopods for photographic apparatus; Metal oxide semi-conductor transistors; Metal oxide varistors; Metal poles (aerials); Metal security (anti-theft) devices (electric, not for vehicles); Metal signboards (electric); Metal signboards (luminous); Metal signboards (mechanical); Metal tripods for photographic apparatus; Metal welding apparatus (electric); Metallic cables (electric); Metallic wires (electric); Meteorological apparatus; Meteorological balloons; Meteorological instruments; Meteorological observation apparatus; Meteorology instruments; Meter testing apparatus; Metering apparatus; Metering instruments; Metering pumps for dispensing goods in measured quantities (other than medical use); Metering pumps for dispensing substances in measured quantities (other than for medical use); Metering pumps incorporating adjustable drive apparatus; Metering pumps incorporating regulating apparatus; Meters; Meters for checking ink consumption; Meters for measurement of the characteristics of electric cables; Meters for measuring alkalinity; Meters for measuring current; Meters for measuring electrical current; Meters for measuring electrical resistance; Meters for measuring electrical voltage; Meters for measuring gaseous flow; Meters for measuring resistance; Meters for measuring values of electrical parameters; Meters for measuring voltage; Meters for testing humidity; Meters incorporating multimeters for measuring electrical current; Meters incorporating multimeters for measuring electrical resistance; Meters incorporating multimeters for measuring electrical voltage; Meters incorporating visual displays (non-medical); Metric converters; Metronomes; Mice for computers; Microchips; Microchips for electronic apparatus; Microchips for recording data; Microcircuit data carriers; Microcomputer apparatus; Microcomputer assemblies; Microcomputer based batching control installations; Microcomputers; Microcomputers adapted for use in playing games; Microcomputing apparatus; Microcomputing instruments; Microelectric power checking (supervision) apparatus; Microelectronic components; Microfiche; Microfilm (exposed); Microfilm destruction apparatus; Microfilm developing

apparatus; Microfilm printing apparatus; Microfilm processing apparatus; Microfilm readers; Microfilm reading apparatus; Microfilm units; Microfilm viewers; Microfilm viewing apparatus; Microfilming apparatus; Microfilming instruments; Microforms; Micrographic apparatus; Micrometer gauges; Micrometer screws for optical instruments; Micrometers; Micromotors; Microphone buttons; Microphone mixers; Microphone plugs; Microphones; Microphones for record players; Microphonic pick-ups; Microplate readers; Microplates (reagent testing apparatus), other than for medical use; Microprocessing apparatus for controlling; Microprocessing apparatus for monitoring; Microprocessor based computer compatible apparatus; Microprocessor based control systems for use with machine tools; Microprocessor based diagnostic apparatus; Microprocessor based diagnostic instruments; Microprocessor cards; Microprocessor control circuits; Microprocessor controlled apparatus; Microprocessor controls; Microprocessor driven control units for automatic control systems; Microprocessor driven control units for automatic signalling systems; Microprocessor-based control systems for use with machine tools; Microprocessors; Microprocessors for use on motor vehicles; Microprocessors used for the design of components; Microprocessors used for the manufacture of components; Microprocessors used for the testing components; Microscope slides; Microscope television apparatus; Microscope video processors; Microscopes; Microscopes for medical use; Microtitration apparatus (other than for medical use); Microtitration instruments (other than for medical use); Microtomes; Microwave antenna for the reception of satellite data; Microwave antenna for the reception of television signals; Microwave antennae; Microwave apparatus for communication; Microwave apparatus for laboratory use; Microwave cables with connector; Microwave communications apparatus; Microwave communications instruments; Microwave components; Microwave connectors; Microwave decomposing apparatus being scientific laboratory apparatus; Microwave detectors (radar); Microwave devices (other than for cooking); Microwave filters; Microwave instruments; Microwave ovens for experimental purposes; Microwave sensing apparatus; Microwave sensing heads for fitting to bins; Microwave sensing heads for fitting to mixers; Microwave tubes; Microwave type intruder sensors; Milage recorders for vehicles; Mileage recording instruments; Military electronic apparatus; Military optical apparatus; Millimetric radio apparatus; Millimetric wave radar apparatus; Millimetric wave radar instruments; Millivolt meters; Minesweeping (detecting) apparatus; Miniature circuit breakers; Miniature hard disk drive storage units; Miniature hard disk drive storage units on a plug-in card being computer apparatus; Miniature loudspeakers; Minicomputers; Mirrors (optics); Mirrors for inspecting work; Mirrors for surveillance; Mirrors used for security and

surveillance; Missile aiming systems; Missile guidance systems; Missile guiding systems; Missile launch control apparatus; Missile launching systems; Missile trackers; Mixing consoles (electric); Mixing desks (signal); Mixing desks (sound); Mixing swabs for chemical reagents (other than for medical use); Mobile communication terminals; Mobile data apparatus; Mobile data communications apparatus; Mobile data instruments; Mobile phone cases; Mobile phone covers; Mobile phone sets; Mobile phones; Mobile phones; Mobile phones for use in vehicles; Mobile radio broadcasting units; Mobile radio receiving apparatus; Mobile radio transmitting apparatus; Mobile telecommunications apparatus; Mobile television broadcasting units; Mobile trailer fire pumps; Mobile work stations (computer, other than furniture); Modems; Modems for communications networks; Modular instrumentation apparatus; Modular racks adapted for storing DVDs; Modular racks adapted for storing audio cassettes; Modular racks adapted for storing compact discs (CDs); Modular racks adapted for storing video cassettes; Modular sign panels (luminous); Modular sub-assemblies for use in data processing; Modular technician information apparatus; Modulators; Module testing units; Moisture measuring instruments; Moisture meters; Molecular filtering devices for scientific laboratory use; Molecular sieves (devices) for scientific laboratory use; Molecule models being teaching apparatus; Money changing machines; Money counting and sorting machines; Money counting apparatus; Money handling apparatus; Money sorting apparatus; Money transfer terminals; Monitor screens; Monitor speakers; Monitoring apparatus (electric) for testing vehicle bodies; Monitoring apparatus, electric; Monitoring control apparatus (electric); Monitoring installations (electric); Monitoring instruments (electric); Monitoring units (electric); Monitors; Monitors (computer hardware); Monitors (computer programs); Monitors for recording events; Monitors for recording faults; Monitors for use with computers; Monocles; Monoculars; Monolithic ceramic capacitors; Mononuclear cell apparatus, other than for medical use; Mooring load monitoring systems; Mortise gauges; Mosaic-type heads for impact printing machines for use with computers; Motion control booms for use with cameras; Motion control booms for use with microphones; Motion picture apparatus; Motion picture cameras; Motion picture films (recorded); Motion picture films for television use; Motion picture films for theatrical use; Motion picture projectors; Motion picture screens; Motion picture sound recorders (magnetic); Motion pictures; Motor control apparatus (electric); Motor control apparatus (electronic); Motor control centres (electric); Motor control centres (electronic); Motor control instruments (electric); Motor control instruments (electronic); Motor control protection apparatus (electric); Motor control protection apparatus (electronic); Motor drives; Motor drives for cameras; Motor fire engines; Motor ignition delay units; Motor

protection relays; Motor vehicle diagnostic computer apparatus; Motor vehicle electric relays; Motor vehicle electric switches; Motor winders for cameras; Motorcycle crash helmets; Motorcycle helmets; Motorcycle safety helmets; Motorcyclists' clothing for protection against accident or injury; Motorcyclists' helmets; Motorised gears for land vehicles; Moulded case circuit breakers; Mounting apparatus adapted for use with loudspeakers; Mounting apparatus for slide frames for transparencies; Mounting boards for electrical components; Mounting cords (electrical); Mounting cradles (electrical); Mounting devices for electrodes; Mounting devices for movie-cameras; Mounting devices for television cameras; Mounting devices for video cameras; Mounting fittings for radios; Mounts for attachment to helmets; Mounts for attachment to tripods for cameras; Mounts for cameras; Mounts for optical components; Mouse (data processing equipment); Mouse controllers; Mouse mats for use with computer apparatus; Mouse pads; Mouse pointing apparatus; Mouses (data processing equipment); Mouth protectors (gum shields); Mouthguards (teeth protectors); Movement sensors; Moving picture cameras; Multi-microprocessor control apparatus; Multiaxis directional detectors; Multichannel analysers; Multichannel communications boards for microcomputers; Multichannel sound processors; Multichip modules; Multifunction cards (encoded) for financial services; Multifunction cards (magnetic) for financial services; Multifunctional portable calibrating instruments; Multifunctional telephones; Multilayer circuit boards for use with surface mounted components; Multilingual electronic hand-held currency converters; Multilingual electronic hand-held translators; Multilingual electronic pocket sized currency converters; Multilingual electronic pocket sized translators; Multimedia multiplexers; Multimeters with a digital read out; Multimeters with an analogue read out; Multiple control signal transmission units; Multiple stroke component torque indicators; Multiplex; Multiplexers; Multiplexers for bearing data; Multiplexers for recording data; Multiplexers for use in the alternate transmission of data; Multiplexers for use in the alternate transmission of voice signals; Multipole connectors as matrix plugs (program heads) for data processing machines; Multiport controllers; Multiport repeaters; Multiport transceivers; Multiposition camera stands made from aluminium and steel tubing; Multiprocessor chips; Multiprocessor computer apparatus; Multispectral aerial cameras; Music cassettes; Music centres (audio apparatus); Music centres incorporating radio and television receivers; Music centres incorporating sound and video recording and reproducing apparatus; Music recordings; Music reproducing apparatus (other than musical instruments); Music reproducing instruments (other than musical instruments); Music tapes; Musical cassettes; Musical recordings in the form of discs; Musical recordings in the form of tapes; Musical recordings in the form of wires; Musical score

layout apparatus (electrical); Nautical apparatus and instruments; Nautical instruments for use in the navigation of sailing craft; Naval signalling apparatus; Navigation apparatus for vehicles (on-board computers); Navigation apparatus for vehicles (on-board computers); Navigation compasses; Navigation computers for cars; Navigation control instruments for water craft; Navigation instruments (compasses); Navigation instruments (sextants); Navigation systems using inertia reference; Navigation systems using satellite reference; Navigational apparatus for automobiles; Navigational instruments; Needles for record players; Negative temperature resistance coefficient thermistors; Negatives; Neon light indicators for use in electrical circuits; Neon lights (signals); Neon signs; Nephelometric analysers, other than for medical diagnosis; Nets for protection against accidents; Network anti-interference filters; Network applications being computer programs; Network boards; Network connector for radio networks; Network controllers being computer apparatus; Network controlling apparatus; Network junction points for telephone exchange networks; Network management apparatus; Network management computer software; Network management control apparatus; Network protection devices (electric); Network protection devices (electronic); Network terminating apparatus (electric or electronic); Networks for the interconnection of communication systems; Newspapers downloaded via the internet; Newton dynamometers; Noise cancelling apparatus; Noise filters; Noise suppression apparatus; Noise suppressors (electrical components); Noise suppressors for protecting the coil of contactors; Noise suppressors for protecting the coil of relays; Non-autogenous electric welding apparatus; Non-destructive testing apparatus; Non-electrical distress beacons; Non-impact printers for use with computers; Non-impact printers for use with data processing apparatus; Non-linear resistances; Non-motorised telescopes; Non-predictable code calculators; Non-selective electrodes being chemically sensitive probes (other than for medical use); Nose clips for divers and swimmers; Nose clips for swimmers; Notebook computers; Notice boards (luminous signboards); Nuclear detectors for detecting radiation particles; Nuclear resonance spectrometers (other than for medical use); Numerical control apparatus; Numerical control apparatus for industrial automation; Numerical control systems for machine tools; Numerical control systems for machines; Numerical control units; Numerical controls; Numerical counters; Numerical position indicating apparatus; Objectives; Objectives (lenses) (optics); Objectives for photographic reproduction; Objectives for photography; Observation apparatus; Observation devices; Observation instruments; Octants; Odometers; Odometers (mileometers); Office call apparatus; Office machines (data processing); Ohmmeters; Oil change monitors; Oil level indicators; Oil-water level sensors; Oil-water thermistors; On-board

computers; On-board computers for vehicles; On-off sensors; Open and closed-loop control apparatus; Open and closed-loop switching apparatus; Open frame switch mode power supply apparatus; Opera glasses; Operating computer software for main frame computers; Operating system programs; Operating systems (electric); Operating systems (electronic); Operating systems (robotic); Operating systems for personal robots; Operating systems programs; Operation control panels (electric); Operations recording apparatus; Operator controlled electrical data-interface apparatus; Ophthalmic frames; Ophthalmic glasses; Ophthalmic lens centring apparatus; Ophthalmic lenses; Optic discs carrying audio recordings; Optic discs carrying video recordings; Optic tellurite glass; Optical amplifiers; Optical apparatus and instruments; Optical apparatus for displaying photographic transparencies; Optical apparatus for measurement; Optical apparatus for measuring the gloss of materials; Optical apparatus for measuring turbidity of liquid materials; Optical apparatus for portable radio stations; Optical apparatus for processing sound; Optical apparatus for scanning; Optical apparatus for the processing of data; Optical apparatus for the reception of data; Optical apparatus for the recording of data; Optical apparatus for the transmission of data; Optical apparatus for use in aiming weapons; Optical apparatus for use in guiding missiles; Optical apparatus for use in guiding projectiles; Optical apparatus for use in the detection of flaws; Optical apparatus for use in the inspection for flaws; Optical apparatus for use in training operators of weapons systems; Optical apparatus for verifying; Optical apparatus for walkie-talkie apparatus; Optical apparatus in the form of prisms; Optical apparatus in the form of stereo microscopes; Optical apparatus in the form of telescopes; Optical appliances, not for medical purposes; Optical articles, not for medical purposes; Optical beam deflectors; Optical beam detectors; Optical cables; Optical cards; Optical character readers; Optical character readers for data entry; Optical character readers for data processing; Optical character reading apparatus; Optical character recognition apparatus; Optical character writing apparatus; Optical colour measuring apparatus; Optical communication apparatus; Optical communication systems; Optical communications installations; Optical communications instruments; Optical component holders; Optical components for use in laboratory research; Optical components, other than for medical use; Optical condensers; Optical connectors; Optical couplers; Optical data carriers; Optical data carriers in disc form; Optical data carriers in the form of discs (disks); Optical data media; Optical data receiving apparatus; Optical data recording apparatus; Optical data reproducing apparatus; Optical data storage apparatus; Optical data storage apparatus for use in labelling; Optical data storage drives; Optical data storage labels (bar codes); Optical data transmission systems; Optical detection

apparatus, other than for medical use; Optical detection installations, other than for medical use; Optical detectors for use with fibre optic cables; Optical devices for viewing through closed doors; Optical devices, other than for medical use; Optical disc reading apparatus; Optical disc recordings; Optical disc testers; Optical discs; Optical discs; Optical discs bearing machine readable computer program; Optical discs for bearing machine readable computer program; Optical discs for the storage of data; Optical disk recording instruments; Optical disks; Optical document file installations; Optical electronic components; Optical electronic label reader installations; Optical electronic label reader installations for industrial use; Optical emitters; Optical encoders; Optical energy transfer apparatus; Optical fibers (fibres) (light conducting filaments); Optical fibre apparatus, other than for medical use; Optical fibre cables; Optical fibre installations; Optical fibre sensors; Optical fibre splicing apparatus; Optical fibre telecommunications apparatus; Optical fibre temperature probes, other than for medical use; Optical fibre terminal apparatus; Optical fibres; Optical fibres being light conducting filaments; Optical fibres for industrial applications; Optical fibres for use in the storage of images; Optical filters; Optical filters capable of controlling transmission rate of signals; Optical filters for use with cathode ray tubes; Optical filters for use with visual display units; Optical filtration apparatus; Optical finders; Optical frames; Optical glass; Optical glass filters; Optical glasses; Optical goods; Optical goods for personal use; Optical headlamp adjustment apparatus; Optical hydrogels being contact lens blanks; Optical imaging, other than for medical use; Optical information reading apparatus; Optical inspection apparatus for pattern recognition; Optical instruments, other than for medical use; Optical lamps; Optical landing apparatus for use on aircraft carriers; Optical lanterns; Optical laser disc storage materials; Optical lenses; Optical lenses for use with spectacles; Optical lenses for use with sunglasses; Optical materials for recording data; Optical materials for storing data; Optical measurement apparatus; Optical measuring components; Optical measuring devices; Optical memories; Optical microscopes for biological purposes; Optical microscopes for industrial purposes; Optical microscopes for scientific purposes; Optical microscopes for the testing of materials; Optical negatives; Optical networks; Optical plug connectors; Optical positives; Optical power transmission apparatus; Optical printers; Optical processing apparatus; Optical products, other than for medical use; Optical program carriers; Optical programme storage apparatus; Optical projection apparatus; Optical receivers; Optical recording media; Optical scanners for machine readable indicia; Optical scanners, other than for medical use; Optical sensors; Optical signalling apparatus; Optical sound processors for motion picture soundtracks; Optical sources, other than for medical use; Optical

spectacles; Optical speed sensors; Optical storage apparatus; Optical switches; Optical temperature measuring instruments, other than for medical use; Optical transducers for use with electrical apparatus; Optical transmitters; Optical transmitters for use with fibre optic cables; Optical video disk units; Optical viewing apparatus (peep holes) for doors; Optical viewing apparatus, other than for medical use; Optical viewing glasses (peep holes) for doors; Optical viewing glasses, other than for medical use; Optical viewing screens; Optical waveguides; Optical waveguides in the form of glass fibres; Oscillators; Oscillatory measuring apparatus; Oscillographs; Oscilloscopes; Outdoor boots for protection against accident or injury; Outdoor signboards of metal (luminous); Outdoor signboards of metal (mechanical); Outer garments for protection against accident or injury; Ovens for laboratory experiments; Overgarments for protection against accident or injury; Overhead projectors; Overload relays; Overvoltage protection relays; Overvoltage protectors; Oxygen concentration analysers, not for medical use; Oxygen concentration monitors, not for medical use; Oxygen electrodes, not for medical use; Oxygen masks, other than for medical use; Oxygen sensors, other than for medical use; Oxygen transvasing apparatus; Oxygen trim systems; Ozone monitors, other than for medical use; Ozonisers (ozonators); Ozonizing apparatus, other than for medical use; PH electrodes; PH meters; PH probes for control in electrochemical apparatus; PH probes for measurement in electrochemical apparatus; Package testing apparatus; Packaged software; Packet switching apparatus; Packet switching networks; Pads for protecting the body against accident or injury (other than adapted for sports); Pagers; Paging apparatus; Paging instruments; Paging interface apparatus for use with computers; Paging receivers; Pallet control units; Panel boards (electricity); Panel connectors (electric); Panel meters; Panels for advertising (luminous); Panels for advertising (mechanical); Panels for display purposes (luminous); Panels for display purposes (mechanical); Panels for fire alarm apparatus; Panels for publicity purposes (luminous); Panels for publicity purposes (mechanical); Panels for reading information provided by microprocessing apparatus; Panels for the connection of electricity; Panels for the control of electricity; Panels for the distribution of electricity; Panels for water level detection; Panic buttons; Paper bearing computer programs in machine readable form; Paper bearing computer programs in printed form; Paper bearing data in machine readable form; Paper bearing data in printed form; Paper being magnetic discs for bearing data; Paper being magnetic discs for recording computer programs; Paper cards bearing computer programmes in machine readable form; Paper cards bearing data in machine readable form; Paper feed apparatus for use with computer printers; Paper feed apparatus for use with photocopying machines; Paper feeders for electrostatic copying machines; Paper

feeding apparatus for use with computer printers; Paper feeding apparatus for use with photocopying machines; Paper guiding apparatus (parts of computer printers); Paper guiding apparatus (parts of photocopying machines); Paper handling devices (parts of computer printers); Paper handling devices (parts of photocopying machines); Paper program carriers (machine readable); Paper security tapes (encoded); Paper security tapes (magnetic); Paper sensor switches; Paper storage cassettes for audio recordings; Paper storage cassettes for sound recordings; Paper storage cassettes for video recordings; Paper strips bearing punched (encoded) computer programs; Paper tapes and cards bearing punched (encoded) computer programs; Paper tapes for recording data; Parabolic aerial dishes; Parabolic antenna; Parabolic antennae for use in mounting antennae masts; Parabolic antennae for use in positioning antennae masts; Parking meters; Particle accelerators; Particle analyzers, other than for medical use; Particle classifying apparatus; Particle detecting apparatus; Particle detectors; Particle generators; Passive infrared detectors; Passive infrared sensors; Passive input selectors; Passive sensors (other than for medical use); Password generators; Patch panel cords; Patch panel jacks; Patch panel looping plugs; Patch panels; Payment cards being magnetically encoded; Payphones; Pedometers; Peepholes (magnifying lenses) for doors; Peepholes for doors; Penetrations being electrical conduits for passing electrical conductors through walls; Performance testing apparatus (other than for medical use); Peripheral control cards for computers; Peripheral control cards for electrical apparatus; Peripheral control cards for electronic apparatus; Peripheral control devices for computers; Peripheral interface units for computers; Peripheral sharing devices for computers; Periscopes; Periscopes for use on armoured vehicles; Permanent magnetic power castings; Permanent magnets; Personal alarm apparatus; Personal alarms; Personal alarms incorporating lights; Personal communication apparatus; Personal communication devices; Personal communication installations; Personal communications instruments; Personal computer application software; Personal computer cards (encoded); Personal computer cards (magnetic); Personal computer cards (punched); Personal computer enhancement circuitry; Personal computer work stations (electronic apparatus); Personal computers; Personal computers for use with coin operated video game devices; Personal computers for use with video game devices; Personal computers incorporating computer software; Personal digital assistants (PDAs); Personal home computers; Personal identification lights; Personal protection devices (electronic alarms); Personal protection devices (other than firearms or side arms); Personal reflectors coated with a highly reflective material; Personal reflectors for use in road safety; Personal single station public broadcast radio receivers; Personal stereo speaker apparatus; Personal stereos; Personal

stereos; Personal transceivers; Personal voice amplifying instruments; Personal weighing scales; Petri dishes; Petri plates; Petrochemical analyzers; Petrol gauges; Petrol level gauges; Petrol pumps (for service stations); Petrol pumps for service stations; Phantoms {simulated test specimens for calibrating medical x-ray equipment}; Phase angle meters; Phase shifters; Phone appliances; Phone covers (specifically adapted); Phone extension jacks; Phone extension leads; Phone plugs; Phonograph compact discs; Phonograph discs; Phonograph equipment; Phonograph pick-ups; Phonograph records; Phonograph tapes; Phonograph turntables; Phonographic apparatus; Phonographic records; Phonographs; Photo composition apparatus; Photo electron spectroscopy analysers (not for medical purposes); Photo potentiometers; Photo-composition (typesetting) apparatus; Photo-electric detectors units; Photo-electric measuring apparatus; Photo-electric switches; Photo-semiconductors; Photo-type setting apparatus for use in the printing industry; Photo-type setting apparatus utilising laser beams; Photocells; Photocells for use with security lighting; Photocopiers; Photocopiers (photographic, electrostatic, thermic); Photocopiers for copying books; Photocopy machines; Photocopying apparatus; Photocopying instruments; Photocopying machines; Photoelectric image producing cartridges; Photoelectric light pens; Photoelectric measuring apparatus; Photoelectric sensors; Photoelectrical image producing cartridges; Photoglazing apparatus; Photogrammetrical apparatus for producing aerial photographs; Photogrammetrical instruments for evaluating aerial photographs; Photograph frames (for transparencies); Photographic apparatus; Photographic apparatus and instruments; Photographic apparatus for printing purposes; Photographic automatic vending machines; Photographic cameras; Photographic cameras for the instant production of pictures; Photographic copying apparatus utilizing plain paper; Photographic darkroom lighting; Photographic developing apparatus; Photographic developing machines; Photographic duplicating apparatus; Photographic enlargers; Photographic enlarging apparatus; Photographic equipment; Photographic film (exposed); Photographic films (exposed); Photographic films for exhibitions; Photographic films prepared for exhibition; Photographic filters; Photographic flash apparatus; Photographic flashbulbs; Photographic flashlamps; Photographic flashlight apparatus; Photographic flashlighting; Photographic glazing apparatus; Photographic lenses; Photographic lenses for use in aerial photography; Photographic media (films, exposed); Photographic negatives; Photographic objectives for use in aerial photography; Photographic plates (exposed); Photographic plates of glass for laser exposures (exposed); Photographic print-making apparatus; Photographic printers incorporating microfilm readers; Photographic printing apparatus; Photographic printing machines; Photographic processing apparatus; Photographic

projection screens; Photographic projectors; Photographic projectors for cinematographic films; Photographic projectors for slides; Photographic racks; Photographic racks; Photographic screens; Photographic slide projectors; Photographic slide transparencies; Photographic slides; Photographic slides (transparencies) for use in industrial teaching; Photographic slides prepared for exhibition; Photographic storage devices; Photographic storage devices bearing representations of typefaces; Photographic storage devices bearing representations of typefaces in encoded form; Photographic surveying instruments; Photographic transparencies; Photographic transparencies prepared for exhibition purposes; Photographic transparencies relating to rugby football prepared for exhibition; Photographic view finders; Photoionic detectors; Photolithographic installations; Photoluminescent signs; Photomappers; Photomask blanks; Photomask substrates for integrated circuits; Photomasks; Photometers; Photometric analysers (other than for medical use); Photometric apparatus (other than for medical use); Photometric instruments (other than for medical use); Photomicroscopes; Photomultiplier tubes; Photomultipliers; Photosensitive (exposed) plastics for use in the electrical industry; Photosensitive (exposed) plastics for use in the electronics industry; Photosensitive (exposed) plastics for use in the printing industry; Photosensitive drums for processing images; Photosensitive drums for use with copying machines; Photosensitive drums for use with facsimile machines; Photosensitive drums for use with word processor printers; Photosensitive films (exposed); Photosensitive glass; Photosensitive materials (films, exposed); Photosensitive media (films, exposed); Photostatic copiers; Photostatic copying machines; Phototelegraphy apparatus; Phototubes; Phototypesetting apparatus; Photovoltaic cells; Physical analysing apparatus (other than for medical use); Physical analyzers (other than for medical use); Physical representations of graphic images stored electronically for electronic enhancement; Physiological apparatus (other than for medical use); Physiological measuring apparatus, other than for medical use; Physiological monitoring apparatus, other than for medical use; Pick-up arms; Pick-up cartridges; Pick-ups; Pick-ups for electrical musical instruments; Pick-ups for sound amplification; Picks-ups for guitars; Pickup tubes for consumer use; Pickup tubes for industrial use; Pickup tubes for professional use; Picture library framestore apparatus; Picture sound recording equipment; Picture sound reproducing equipment; Picture transmission apparatus; Picture tubes; Piezo alarm devices (other than for vehicles); Piezo electric ceramic materials; Piezoceramic fixed frequency filters; Piezoceramic modules for high voltage generation; Piezoelectric devices; Piezoelectric igniters; Piezoelectric sensors; Piezoelectric tuning forks; Piezoelectric vibratory gyroscopes; Piezoelectrical ceramic parts; Piezoelectrical transducers; Pin and socket strips for electric

cables; Pince-nez; Pince-nez cases; Pince-nez chains; Pince-nez cords; Pince-nez mountings; Pipeline inspection tools incorporating ultrasonic apparatus; Pipes for laboratory apparatus; Pipes for scientific apparatus; Pipet jars; Pipette tips; Pipettes; Pipettes for chemical reagents; Plain paper copiers; Planar chromatography apparatus (other than for medical use); Planar triodes; Plane tables (surveying instruments); Planimeters; Plant propagators (electric); Plasma display apparatus; Plasma etchers; Plasma televisions; Plastic cards (encoded); Plastic cards (magnetic); Plastic cards containing machine-readable information; Plastic cards encoded for controlling machines; Plastic cards for carrying magnetic data; Plastic cards incorporating machine readable codes; Plastic cards incorporating magnetically recorded codes; Plastic coated wire (electric); Plastic conduits for electrical wiring; Plastic covered cards bearing printed matter (encoded); Plastic cups for laboratory use; Plastic cuvettes for devices for sample identification; Plastic cuvettes for devices for sample labelling; Plastic cuvettes for devices for sample splitting; Plastic cuvettes for pipetting devices; Plastic discs for laser discs; Plastic housings adapted for electrical apparatus; Plastic insulated cables (electric) for computers; Plastic insulated cables (electric) for printers; Plastic key cards (encoded); Plastic lenses; Plastic optical fibres; Plastic poles for carrying electric wires; Plastic road cones (illuminated); Plastic road cones incorporating a flashing warning light; Plastic security tapes (encoded); Plastic security tapes (magnetic); Plastic tubing adapted for use in laboratory apparatus; Plastic tubing adapted for use in scientific apparatus; Plate colour proofing apparatus; Plates adapted for holographic recordings; Plates for batteries; Plates for laboratory use; Plates for use in displaying information (luminous); Plates for use in displaying information (mechanical); Plates with an arrangement of plugs for producing electrical connections; Plates with integrated circuits; Playback devices for audio tapes; Playback devices for video tapes; Players for use with video cassettes; Plotter printers; Plotters; Plotters employing electrostatic technology; Plotters employing ink-jet technology; Plotters employing thermal-transfer technology; Plotters for computers; Plotters for use in data processing installations; Plotters for use in printing of text; Plotters for use in the printing of graphics; Plotting apparatus; Plotting machines; Plug adaptors for headphones; Plug boxes (electric); Plug connections (electric); Plug connectors (electric); Plug ferrules (electric); Plug sockets (electric); Plug-in blocks (electric); Plug-in cards (electric); Plug-in cards (electronic); Plug-in cards (encoded); Plug-in cards (memories); Plug-in cards bearing computer programmes; Plug-in cards bearing magnetically stored information; Plug-in cartridges (electric); Plug-in cartridges (electronic); Plug-in cartridges (encoded); Plug-in cartridges (memories); Plug-in cartridges bearing computer programmes; Plug-in cartridges bearing magnetically stored information;

Plug-in components for computers; Plug-in connections (electric); Plug-in connectors (electric); Plug-in connectors of precious metal (electric); Plug-in electrical connectors; Plug-in electronic cards for computers; Plug-in electronic construction modules; Plug-in printed card holders; Plugs (electric); Plugs for connecting hearing aids to programming apparatus; Plugs for electric connection leads; Plugs, sockets and other contacts (electric connections); Plumb bobs; Plumb levels; Plumb lines; Pneumatic apparatus for recording data; Pneumatic apparatus for tabulating data; Pocket calculators; Pocket scales; Pocket telephones; Point of sale apparatus; Point of sale terminals; Point-to-point line of sight radio apparatus; Point-to-point line of sight radio instruments; Point-to-point radio communications apparatus; Point-to-point receivers; Point-to-point transmitters; Pointing devices for use with computers; Polarimeters; Polarization filters; Polycarbonate ophthalmic lenses; Polyphase electricity meters; Pool alarms; Popcorn vending machines; Port racks being terminals for use in electrical cable installations; Port sharing printer controllers; Port sharing printers; Port sharing units; Portable apparatus for receiving satellite transmissions; Portable breathing apparatus (other than for artificial respiration); Portable breathing apparatus for underwater swimming; Portable cameras for making video programmes for television broadcasting; Portable cameras for use in television broadcasting; Portable communication terminals for use in connection with satellites; Portable communications apparatus for aircraft; Portable communications apparatus for ships; Portable communications apparatus for terrestrial vehicles; Portable computers; Portable copiers; Portable digital electronic scales; Portable dosimeters; Portable duplicators; Portable electric sockets (power boards); Portable electrically powered pressure hose testing cabinets; Portable electronic apparatus for the analysis of machine data; Portable electronic apparatus for the collection of machine data; Portable field chargers; Portable gas detecting instruments; Portable gas monitoring instruments; Portable gauging tapes; Portable golf club head speedometers; Portable instruments for monitoring oxygen levels in gaseous mixtures (other than medical use); Portable power supply apparatus (batteries); Portable pressure hose testing cabinets; Portable printers; Portable radio cassette players; Portable radio communications receivers; Portable radio-telephones; Portable radios; Portable receivers; Portable road hazard warning cones (luminous); Portable road hazard warning cones (mechanical); Portable rod dosimeters; Portable signs (luminous) for roads; Portable signs (mechanical) for roads; Portable sound recording apparatus; Portable sound reproducing apparatus; Portable telecommunications apparatus; Portable telephone sets; Portable telephones; Portable telephones combined with television remote controls; Portable test apparatus; Portable test instruments; Portable testing apparatus for aircraft;

Portable transmitters; Portable units for playing cassettes; Portable units for recording cassettes; Portable warning cones (luminous for external use); Portable warning cones (luminous for indoor use); Portable warning cones (mechanical) for external use; Portable warning cones (mechanical) for indoor use; Portable warning cones for outdoor use; Position fixing apparatus; Position sensing devices; Positioning controllers for servomotors; Positioning controllers for stepping motors; Positive displacement meters; Positive temperature resistance coefficient thermistors; Post column reactors; Postage scales; Postage stamp meters; Posture apparatus for maintaining alignment of shield excavators during tunnelling; Potentiometers; Pouches for cinematographic apparatus; Pouches for optical apparatus; Pouches for photographic apparatus; Power amplifiers for creating effects; Power amplifiers for use in sound reproduction; Power analysers; Power capacitors; Power cells (electric); Power conditioners; Power conditioning apparatus; Power controllers (electric); Power controlling apparatus (electric); Power distributing apparatus for street lighting; Power distribution apparatus for use in electrical systems; Power distributors (electrical); Power dividers (electric); Power generation monitoring apparatus; Power installations (other than generators); Power line disturbance analysers; Power line monitoring systems; Power line phase meters; Power line protectors; Power meters; Power modules; Power modules for sequential control; Power output amplifiers; Power packs (batteries); Power packs (transformers); Power packs for aerial boosters; Power packs for electronic flashlights; Power regulating apparatus; Power relays; Power sources (batteries); Power sources connected to audio apparatus for use in motor vehicles; Power sources for arc welding; Power sources for electric arc welding; Power sources for welding apparatus; Power stabilisers; Power supplies for computers; Power supply apparatus (batteries); Power supply apparatus (rectifiers); Power supply apparatus (transformers); Power supply devices (batteries); Power supply devices (rectifiers); Power supply devices (transformers); Power supply devices for battery chargers; Power supply units (batteries); Power supply units (rectifiers); Power supply units (transformers); Power supply units being scientific apparatus; Power supply units comprising rectifiers; Power supply units comprising transformers; Power supply units for aerial amplifiers; Power system meters; Power testers; Power units (batteries); Power units (transformers); Power units for supplying (other than generating) electrical current; Powered respirators (other than for artificial respiration); Pre-formed floor ducts of metal (electric); Pre-formed non-metallic floor ducts (electric); Pre-insulated terminals (electric); Pre-patch boards; Pre-programmed discs; Pre-programmed read only memory compact discs; Pre-programmed tapes; Pre-recorded DVDs; Pre-recorded audio cassette tapes; Pre-recorded audio discs; Pre-recorded audio

records; Pre-recorded audio tapes; Pre-recorded cassette tapes; Pre-recorded cassettes; Pre-recorded cinematographic films; Pre-recorded compact discs (disks)(CDs); Pre-recorded compact interactive discs; Pre-recorded computer programmes; Pre-recorded data carriers for use with computers; Pre-recorded discs; Pre-recorded discs for reproducing images; Pre-recorded discs for reproducing sound; Pre-recorded diskettes; Pre-recorded films; Pre-recorded gramophone records; Pre-recorded instructional video tapes; Pre-recorded magnetic audio tapes; Pre-recorded magnetic discs; Pre-recorded magnetic disks; Pre-recorded magnetic recording materials; Pre-recorded magnetic tapes; Pre-recorded motion picture films; Pre-recorded motion picture videos; Pre-recorded music videos; Pre-recorded optical tapes; Pre-recorded phonograph records; Pre-recorded software; Pre-recorded sound carriers; Pre-recorded video cassette tapes; Pre-recorded video cassettes; Pre-recorded video discs; Pre-recorded video films; Pre-recorded video programmes; Pre-recorded video tapes; Pre-recorded video tapes for instructional purposes; Pre-recorded video tapes for teaching purposes; Pre-recorded videos; Pre-wired circuit boards; Preamplifiers; Precision apparatus for measuring the strength of concrete structures; Precision balances; Precision cassettes for the adjustment of drives; Precision dispensing apparatus; Precision fuel oil delivery control apparatus (electric) for use on road tankers; Precision fuel oil delivery control apparatus (electronic) for use on road tankers; Precision measuring apparatus; Precision measuring instruments; Precision measuring rods; Precision measuring rules; Precision sensors being parts electronic control apparatus; Precision sensors being parts of alarm systems; Prefabricated ducts for electric cables; Prescription eyeglasses; Prescription eyewear; Present position indicator apparatus; Pressure actuated manhole covers; Pressure actuated vacuum vents; Pressure amplifiers; Pressure controllers (gauges); Pressure garments for protection against accident or injury; Pressure gauge body protectors; Pressure gauges; Pressure gauges for pneumatic tires; Pressure indicator plugs for valves; Pressure indicators; Pressure measurement apparatus; Pressure measurement tools; Pressure measuring apparatus; Pressure meters; Pressure monitors, other than for medical use; Pressure recorders; Pressure regulators (gauges); Pressure scales; Pressure sensitive apparatus; Pressure sensors; Pressure switches; Pressure transducers; Pressure transmitters; Pressure vessels for experimental purposes; Pressure welding dip switches; Pressure-to-current converters; Pressurisation units; Pressurised suits for protection against accident or injury; Pressurised suits for use by aviators; Price calculating machines; Price labels in bar code form; Primary cells; Print cameras; Print counters; Print cutters (photographic apparatus); Print dryers (photographic apparatus); Print out apparatus for computers; Print out apparatus for use data

processing apparatus; Print out apparatus for use with computers; Print servers; Print trimmers (parts of computer printers); Printed bank cards (encoded); Printed bank cards (magnetic); Printed cards (encoded); Printed cards (magnetic); Printed cash cards (encoded); Printed cash cards (magnetic); Printed circuit board contact probes; Printed circuit boards; Printed circuit boards for computers; Printed circuit boards for mounting in computers; Printed circuit boards for remote data transmission; Printed circuit cards; Printed circuit expansion boards; Printed circuits; Printed circuits for motors; Printed circuits for televisions; Printed circuits for use with timing mechanisms; Printed circuits on substrates of flexible film; Printed circuits on substrates of plastics material; Printed electric circuits; Printed electronic circuits for apparatus; Printed electronic circuits for machines; Printed electronic circuits for televisions; Printed labels bearing information in machine readable form; Printed matter incorporating machine readable security markings; Printed motion picture film; Printed publications in electronically readable form; Printed publications in machine readable form; Printed publications in optically recorded form; Printed substrates for printed circuit boards; Printed tags (machine readable); Printed wiring boards; Printer apparatus for use with computers; Printer apparatus for use with data processing apparatus; Printer buffers; Printer cables; Printer converters; Printer programmes; Printer programs; Printer sharers; Printer sharing devices; Printer spooler software; Printer stands (adapted); Printers for cash registers; Printers for computers; Printers for data processing apparatus; Printers for electric controllers; Printers for use with computers; Printers for word processors; Printers incorporating lasers; Printers' type in digitised form; Printing apparatus for use with computers; Printing apparatus for use with data processing apparatus; Printing communication apparatus; Printing dissemination apparatus; Printing machines for use with computers; Printing plate scanners; Printing process simulators; Printing units being parts of automatic ticket issuing machines; Printout apparatus; Printout apparatus for data processing apparatus; Printout apparatus for use with computers; Prismatic reflectors made of glass; Prisms (optics); Private automatic branch exchanges; Private automatic branch exchanges for data; Private automatic branch exchanges for voice; Private branch exchange apparatus; Private branch exchanges; Private telephone exchange apparatus; Private telephone switching exchange apparatus; Probes connected to microprocessing apparatus for scientific use; Probes for scientific purposes; Probes for use with integrated circuits (other than for medical use); Process automation apparatus for vacuum apparatus; Process computers; Process control apparatus (electric); Process control apparatus (electronic); Process control computers; Process control configuration; Process control digital controllers; Process control instruments (electric);

Process control instruments (electronic); Process control operator consoles; Process control operator interface units; Process control tuning modules; Process control units (electric); Process control units (electronic); Process control units being controller modules; Process control units using process control computers; Process controllers (electric); Process controllers (electronic); Process controlling apparatus (electric); Process controlling apparatus (electronic); Process controlling software; Process indicators; Process monitors; Process plant monitoring apparatus; Process signal converters; Process signal isolators; Processing apparatus for use in electrophotography; Processing apparatus for use with photographic films; Processing apparatus for use with photographic paper; Processing circuit boards; Processing computers; Processing programmes recorded on data carriers; Processing responses; Processors (central processing units); Processors for X-ray films (other than for medical purposes); Processors for X-ray plates (other than for medical purposes); Processors for photosensitive films (other than for medical purposes); Processors for photosensitive paper; Program carriers for electronic data processing apparatus; Program carriers in the form of magnetic discs; Program carriers in the form of magnetic wires; Program carrying magnetic discs for use with electronic data processing apparatus; Program cartridges for computer games; Program cartridges for computers; Program cassettes; Program control apparatus; Program discs for computers; Program discs for video games; Program libraries for traction control systems; Program memory cartridges for television game sets; Programmable calculators; Programmable computers; Programmable control apparatus; Programmable controllers; Programmable controls; Programmable controls for lighting installations; Programmable digital read-out units; Programmable electronic apparatus; Programmable electronic apparatus for use with machines; Programmable logic arrays; Programmable telecommunication apparatus; Programmable timers; Programmed control apparatus; Programmed controls for flame cutting machines; Programmed electronic components; Programmed machine-readable data recording material (magnetic); Programmed video games (software); Programmed video games contained on cartridges (software); Programmers for central heating installations; Programmers for synthesizer modules; Programming apparatus; Programming apparatus for use with computers; Programming instructions for data processing apparatus (recorded); Programming machines; Programs (recorded); Programs bearing encoded information; Programs for calculators; Programs for computer generated music; Programs for computer print out apparatus; Programs for computers; Programs for computers (recorded); Programs for data processing apparatus (recorded); Programs for data processing apparatus recorded on cards; Programs for data processing apparatus

recorded on disks; Programs for data processing apparatus recorded on tapes; Programs for data-processing; Programs for electronic image processing; Programs for microcomputers; Programs for personal computers; Programs for processing data on computers; Programs for recording data in reproduction technology; Programs for scanners; Programs for setting up performance analysis in computers; Programs for the design of control information systems; Programs for the electronic arrangement of graphics in reproduction technology; Programs for the processing of information on calculators; Programs for the recording of images in printing; Programs for use in communications; Programs for use with computer games; Programs for use with data processors; Programs for use with data processors; Programs for word-processing; Programs in the form of printed matter for computers; Programs recorded on card data carriers; Programs recorded on cardboard data carriers; Programs recorded on data carriers; Programs recorded on machine readable data carriers; Programs recorded on magnetic cards; Programs recorded on magnetic data carriers; Programs recorded on magnetic tapes; Programs recorded on optical data carriers; Programs recorded on paper data carriers; Programs recorded on paper tapes; Programs written on data carriers for processing encoded data on computers; Projection apparatus; Projection instruments; Projection screens; Projection television apparatus; Projection video apparatus; Projector screens; Projectors; Propeller control apparatus (automatic); Proportioning (counting) apparatus; Proportioning units; Protection apparatus for personal use against accidents (other than sports articles or part of sports suits); Protection apparatus for personal use against injury (other than sports articles or part of sports suits); Protection devices against X-rays (Roentgen rays), not for medical purposes; Protection devices against X-rays, not for medical purposes; Protection devices against roentgen rays, not for medical purposes; Protection devices for personal use against accidents; Protection devices for personal use against injury; Protective apparatus for the prevention of drowning; Protective apparatus for the prevention of hypothermia; Protective apparatus in the nature of goggles; Protective apparatus in the nature of visors; Protective articles for sporting purposes (other than sporting articles or parts of sports suits); Protective articles for use in martial arts (not adapted); Protective belts for the prevention of accidents; Protective belts for the prevention of injury; Protective breathing masks (other than for artificial respiration); Protective breathing masks made of non-woven materials (other than for medical or surgical use); Protective caps for cameras; Protective caps made of insulating materials; Protective circuits for the ignition systems of engines; Protective clothing; Protective clothing (body armour); Protective clothing for diving; Protective clothing for participants in motor sports (for the prevention of accidents); Protective

clothing for participants in motor sports (for the prevention of injuries); Protective clothing for the prevention of injury; Protective clothing for use in cleanrooms for the prevention of accidents; Protective clothing for use in cleanrooms for the prevention of injury; Protective clothing for use in controlled environments (for the prevention of accident or injury); Protective clothing made from ballistic resistant materials; Protective clothing of plastics; Protective containers adapted to contain photographic apparatus; Protective containers for contact lenses; Protective devices (against accident or injury); Protective elbow pads for use against accidents (other than sports articles); Protective eye pieces; Protective eye shields for welders; Protective eye wear; Protective eye wear for sports; Protective face shields for workers (against accident or injury); Protective footwear for the prevention of accident or injury; Protective footwear including boots and shoes (reinforced); Protective glasses (spectacles); Protective gloves for persons in industry working with X-rays; Protective gloves for use in industry for the prevention of accident or injury; Protective goggles; Protective hats (other than for the prevention of accident or injury); Protective hats for the prevention of accident or injury; Protective headgear for cyclists; Protective headgear for the prevention of accident or injury; Protective helmets; Protective helmets for sport; Protective helmets for cyclists; Protective helmets for industrial use; Protective helmets for motor cyclists; Protective helmets for skiers; Protective helmets for sports; Protective hoods for protection against harmful environments; Protective hoods for protection against hostile environments; Protective hoods for protection against smoke; Protective instruments; Protective masks; Protective outer clothing (for protection against accident or injury); Protective paddings, other than adapted for use in sports for protection against injury; Protective pouches adapted for use with audio cassettes; Protective pouches adapted for use with floppy disks; Protective screens for protection whilst exposed to radiation (other than for medical use); Protective shields for welding operatives; Protective shoes (against accident or injury); Protective spectacles; Protective sports helmets; Protective sports helmets for use in aquatic sports; Protective sports helmets made of synthetic materials; Protective structures against radiation (other than for medical use); Protective suits (against accident or injury); Protective suits against cold (against accident or injury); Protective suits against heat (against accident or injury); Protective suits for aviators; Protective suits for helicopter pilots; Protective visors; Protective work clothing (for protection against accident or injury); Prototypes; Protractors (measuring instruments); Proximity detectors; Proximity detectors for use in connection with motor vehicles; Proximity fuses; Proximity switches; Public access information data terminals; Public address amplifying apparatus; Public address apparatus; Public address installations; Public

address instruments; Public address speaker systems; Public address systems; Public payphones; Publications in computer readable form; Publications in machine readable form; Pulse code modulating processors; Pulse code modulation apparatus for transmission via cable; Pulse code modulation apparatus for transmission via microwave; Pulse code modulation apparatus for transmission via optical fibres; Pulse code modulation apparatus for transmission via radio; Pulse code modulation apparatus for transmission via satellite; Pulse code modulation instruments for transmission via cable; Pulse code modulation instruments for transmission via microwave; Pulse code modulation instruments for transmission via optical fibres; Pulse code modulation instruments for transmission via radio; Pulse code modulation instruments for transmission via satellite; Pulse code modulation multiplexing instruments; Pulse counters (other than medical apparatus); Pulse generators (other than for medical use); Pulse generators for electronic revolution counters; Pulse meters for sporting purposes (measuring apparatus); Pulse operated latching relays; Pulse sending devices (other than for medical purposes); Pumps for liquid fuels for use in filling stations (self regulating); Pumps for the extraction of gases (laboratory apparatus); Pumps for the extraction of liquids (laboratory apparatus); Pumps for the extraction of vapour (laboratory apparatus); Pumps for use in liquid chromatography (other than medical); Pumps for use in service stations in dispensing liquid fuels; Punched card machines for offices; Punched cards containing data in encoded form; Punched cards for use with computers (encoded); Punched disks containing data in encoded form; Punched paper containing data in encoded form; Punched paper tape rolls containing data in encoded form; Punched paper tapes containing data in encoded form; Punched tapes containing data in encoded form; Punched tapes for use with computers; Purification apparatus (laboratory, other than medical); Purification installations (laboratory, other than medical); Purification machines (laboratory, other than medical); Push button telephone dials; Push buttons for bells; Push-on accumulators; Pyroelectric infrared sensors; Pyrometers; Quantity indicators; Quartz crystal oscillators; Quartz glass thermometers; Quartz movements for watches; Racks adapted to hold audio cassettes; Racks adapted to hold audio recordings in disc form; Racks adapted to hold audio tapes; Racks adapted to house audio apparatus; Racks adapted to house video apparatus; Racks and mountings specifically adapted for use with audio, visual, computer and telecommunications equipment; Radar; Radar antennas; Radar apparatus; Radar apparatus for use in navigation; Radar connectors; Radar detectors; Radar displays; Radar installations; Radar instruments; Radar jamming apparatus; Radar receivers for use with weapons systems; Radar receivers with amplifiers; Radar reflecting apparatus; Radar reflector apparatus; Radar transmitters; Radar transmitters for

use with weapons systems; Radiation dosimeters; Radiation measuring apparatus; Radiation measuring instruments; Radiation monitoring devices; Radiation sensing apparatus; Radiation tubes; Radio alarm apparatus; Radio alarm clocks; Radio antennae; Radio apparatus; Radio apparatus incorporating digital clocks; Radio beacons; Radio broadcast receiving sets; Radio broadcasting sets; Radio buoys; Radio cardiographic apparatus, other than for medical purposes; Radio cassette players; Radio cassette recorders; Radio cassette tape recorders; Radio cassette tape reproducers; Radio clocks; Radio control apparatus; Radio control units; Radio control units for remote keyless entry installations; Radio converters; Radio echo sounders; Radio facsimile apparatus; Radio for radio communication networks; Radio frequency mixers; Radio operated door lock controls; Radio operated public address apparatus; Radio pagers; Radio receivers; Radio receivers for connection to hearing aids; Radio receivers for recording sound by means of magnetic tape; Radio receivers for use in cars; Radio receivers for use in radio telephones; Radio receiving apparatus incorporating sound recording apparatus; Radio receiving apparatus incorporating sound reproducing apparatus; Radio receiving sets; Radio receiving sets for use in automobiles; Radio receiving sets incorporating clocks; Radio receiving tuners; Radio recorders; Radio relays; Radio remote control apparatus; Radio sets; Radio signal antennae; Radio signal transmission apparatus; Radio signal tuners; Radio signalling instruments for use in tracking; Radio transceivers; Radio transceivers for use in radio telephones; Radio transmission apparatus; Radio transmitters; Radio transmitters for navigational use; Radio transmitters for use in radio telephones; Radio transmitting apparatus; Radio tuners; Radio wave receiving antennae; Radio wave transmitting aerials; Radio wave transmitting aerials for use with weapons systems; Radio-fixing aids; Radio-frequency antennas; Radio-frequency components; Radio-frequency filters; Radio-frequency modulators; Radio-frequency power meters; Radio-frequency receivers; Radio-frequency transmitter; Radio-inter-communications apparatus; Radiocommunication apparatus; Radiocommunication guard installations; Radiocommunication instruments; Radioelectric apparatus; Radioelectric transmission apparatus; Radioelectrical antennae; Radioelectrical television antennae; Radioisotope apparatus, other than for medical use; Radioisotope detection apparatus, other than for medical use; Radioisotope detector apparatus, other than for medical use; Radiological apparatus for industrial purposes; Radiological apparatus for industrial use; Radiological apparatus, other than for medical use; Radiology screens for industrial purposes; Radiometers for use in research; Radiopagers; Radiopaging apparatus; Radiopaging apparatus incorporating alpha-numeric displays; Radiopaging apparatus incorporating

audible signals; Radiopaging devices; Radiopaging installations; Radiopaging instruments; Radios; Radios incorporating a cassette tape players and quartz analogue clock; Radios incorporating alarm clocks; Radios incorporating alarms; Radios incorporating apparatus for the playback for audio tapes; Radios incorporating clocks; Radios incorporating clocks with light emitting diode digital displays; Radios incorporating liquid crystal display clocks; Radios incorporating quartz analogue clocks; Radios with electronic data decoders; Radios with light generating means; Radios with sound generating means; Radioscopy (fluoroscopy) apparatus, other than for medical use; Radiotelegraphy sets; Radiotelephone apparatus; Radiotelephone instruments; Radiotelephones; Radiotelephones for land use; Radiotelephones for maritime use; Radiotelephones for terrestrial use; Radiotelephoning apparatus; Radiotelephony sets; Radium tubes, other than for medical purposes; Radon gas detectors; Railroad control apparatus for the control of traffic on railways; Railroad signalling apparatus for the control of traffic on railways; Railroad signalling apparatus for the control of traffic on roads; Railway traffic control signals; Railway traffic safety apparatus; Railway traffic safety appliances; Railway traffic signalling instruments; Random access memory (RAM) electronic cartridges; Random access memory (RAM) electronic discs; Range finders; Rapid intervention engines for fire-fighting purposes; Rapid scan cameras; Rare earth magnets; Rate gyros; Reaction units containing chemical reagents (other than for medical diagnostic use); Reactor enclosures; Read only memories (ROM); Read only memory (ROM) cards; Read only memory (ROM) cartridges; Read only memory (ROM) discs; Read only memory cartridges for storing data; Read only memory cartridges in cartridge form; Read only memory cartridges in cassette form; Read only memory programmes; Read out tubes; Readers (data processing equipment); Readers for encoded cards; Readers for encoded disks; Readers for encoded tapes; Readers for integrated circuit cards; Readers for memory cards; Reading aids (optical); Reading aids in the form of magnifying glasses; Reading aids in the form of magnifying glasses and incorporating a light; Reading apparatus for high density magnetic cards; Reading apparatus for high density magnetic disks; Reading apparatus for high density magnetic tapes; Reading apparatus for magnetic cards; Reading apparatus for magnetic disks; Reading apparatus for magnetic tapes; Reading devices for cards incorporating electronic chips; Reading devices for cards incorporating microchips; Reading glasses; Reading machines for integrated circuit cards; Reading machines for integrated circuit cartridges; Reading machines for integrated circuits; Ready made articles of clothing (protective against injury); Real-time data processing apparatus; Receivers for frequency modulated signals; Receivers for paging; Receiving antennae for vehicle radios; Receiving antennas for satellite

broadcast; Receiving devices for connection to communication networks; Receiving terminals for signals; Receiving tubes; Receptacles for contact lenses; Receptacles for microscope slides; Rechargeable batteries; Rechargeable batteries for use with power hand tools; Rechargeable cells; Rechargeable cellular telephone batteries; Rechargeable dry batteries; Recognition apparatus incorporating scanners; Reconditioned computer parts; Reconnaissance apparatus; Record (data) carriers in the form of encoded cards; Record (data) carriers in the form of encoded labels; Record (data) carriers in the form of punched cards; Record (data) carriers in the form of punched paper tapes; Record albums (discs); Record carriers for computer programmes (magnetic); Record carriers for computer programmes (optical); Record changers (parts of record players); Record discs bearing sound recordings; Record player turntables; Record players; Recorded compact discs; Recorded computer programs; Recorded computer programs; Recorded computer programs for scientific research; Recorded computer programs in the form of cards; Recorded computer programs in the form of disks; Recorded computer programs in the form of punched cards; Recorded computer programs in the form of punched paper tapes; Recorded computer programs in the form of tapes; Recorded computer programs in the form of wires; Recorded computer software; Recorded data (encoded); Recorded data (magnetic); Recorded data files; Recorded discs bearing images; Recorded discs bearing sound; Recorded film; Recorded films; Recorded image carriers; Recorded magnetic audio tapes; Recorded magnetic discs; Recorded magnetic sound tapes; Recorded magnetic tapes; Recorded magnetic video tapes; Recorded material for use by computers; Recorded phonograph records; Recorded picture carriers; Recorded programmes for radio; Recorded programmes for television; Recorded programs for computers; Recorded software and programmes for use with electronic games of all kinds; Recorded sound carriers; Recorded tape cassettes; Recorded tapes; Recorded tapes in cassette form; Recorded video cassettes; Recorded video tapes; Recorders for use with video cassettes; Recorders for use with video tapes; Recording apparatus; Recording apparatus for opto-electronic discs; Recording apparatus for use with magnetic tape; Recording discs; Recording discs (magnetic); Recording discs for the reproduction of images; Recording discs for the reproduction of sound; Recording discs for use with computer programmes; Recording discs in analogue form; Recording discs in digital form; Recording discs of card (blank); Recording discs of paper (blank); Recording manometers for laboratory use; Recording material bearing computer programmes; Recording materials for bearing encoded data; Recording materials for sound reproduction; Recording materials for the storage of data (magnetic); Recording materials for the storage of digital computer programs; Recording materials

of card for the storage of data (encoded); Recording materials of paper for the storage of data (encoded); Recording media for audio signals; Recording media for video signals; Recording substrates (magnetic); Recording substrates (optical); Recordings of television films; Recordings of television programmes; Recordings on cassettes; Recordings on discs; Recordings on discs (magnetic); Recordings on discs of card; Recordings on discs of paper; Recordings on tapes; Recordings on tapes (magnetic); Recordings on tapes of card; Recordings on tapes of paper; Records (sound recordings); Records bearing data; Records bearing entertainment material; Records bearing recorded sound; Records bearing recorded video images; Records bearing songs; Records bearing sound recordings; Records bearing video recordings; Records being pre-recorded; Records for bearing pictures; Records for reproducing visual images; Records in the form of cartridges; Records in the form of cassettes; Records in the form of discs; Records in the form of wires; Rectifiers; Reducers (electricity); Reed contact switches; Reel to reel magnetic tape players; Reel to reel magnetic tape recorders; Reels for cinematographic film; Reels for exposed film; Reels for films; Reels for graphic arts film; Reels for lithographic film; Reels for magnetic tapes; Reels for microfilm; Reels for photographic film; Reference apparatus for use in test comparisons (laboratory or scientific apparatus); Reference apparatus for use in testing (laboratory or scientific apparatus); Reference gauges; Reference standards apparatus for use in test comparisons (laboratory or scientific apparatus); Reflecting discs for protective clothing; Reflecting discs for wear; Reflecting discs for wear, for the prevention of traffic accidents; Reflecting items for wear, for the prevention of traffic accidents (not being clothing); Reflecting strips for wear; Reflection filters; Reflective articles for the prevention of traffic accidents; Reflective clothing for the prevention of accidents; Reflective devices for the prevention of traffic accidents; Reflectometers; Reflectors for the prevention of traffic accidents; Reflow soldering apparatus (electric); Refractometers; Refractors; Refractory electric cables; Refrigerated beverage dispensing (vending) units; Refrigerated beverage dispensing units (coin-operated); Refrigerated vending apparatus; Refrigerated vending instruments; Refrigerated vending machines; Refrigerator magnets; Refrigerator magnets (decorative magnets); Regulated direct current power supplies; Regulated power supply apparatus; Regulating apparatus, electric; Regulating transformers; Regulators for use in diving; Relative position indicating apparatus; Relay sockets; Relays with name bearing tags; Relays, electric; Releasable locking devices (electric); Release devices operated by pyrotechnics for use with life rafts; Release devices operated by radar apparatus for use with life rafts; Remote access online electronic information apparatus; Remote alarms (other than anti-theft for vehicles); Remote control apparatus; Remote control apparatus connected by modems to

computers; Remote control apparatus for cameras; Remote control apparatus for lighting units; Remote control apparatus for sound reproduction apparatus; Remote control apparatus for use with televisions; Remote control apparatus for use with video cassette recorders; Remote control devices (electric); Remote control devices (electronic); Remote control devices (other than cables for machine); Remote control devices for industrial operations (electric or electronic); Remote control instruments for the closing of windows; Remote control instruments for the opening of windows; Remote control locking apparatus; Remote control loudness controllers for connecting to hearing aids; Remote control mechanisms; Remote control operating apparatus (electric); Remote control operating apparatus (electro-dynamic); Remote control systems for use with cranes; Remote control systems utilising beams of light; Remote control systems utilising laser beams; Remote control units; Remote control units for computers; Remote control units for photographic lighting apparatus; Remote control units for radiators; Remote control units for room heaters; Remote controlled apparatus for use with garage doors; Remote controlled apparatus for use with gates; Remote controllers; Remote controllers for models; Remote controls; Remote controls for automatically operating valves; Remote controls for operating flying objects; Remote controls for operating flying toys; Remote controls for operating rail vehicles; Remote controls for operating scale model vehicles; Remote controls for operating toys in the form of vehicles; Remote controls for operating vehicle alarms; Remote controls for operating vehicle door locks; Remote controls for operating vehicles; Remote data gathering apparatus; Remote data processing apparatus; Remote electric or electronic control stations; Remote entry control apparatus for buildings; Remote entry point control apparatus; Remote management apparatus for payphones; Remote monitoring apparatus; Remote processing monitors; Remote reading fluid level indicators; Remotely controlled alarm locks; Remotely controlled cameras and other remotely controlled sensors; Remotely controlled door locks; Remotely operated mounts for cinematographic cameras; Repacked columns for scientific use; Repeaters; Repeaters for use in data networking; Replacement lenses; Replacement nose pieces for diving apparatus; Replacement seals for use between lenses and frames; Reproducing apparatus for films; Reproduction (photocopying) apparatus; Reproduction apparatus; Reprographic (photocopying) apparatus; Reprographic (photocopying) devices; Reprographic instruments; Rescue apparatus; Research apparatus for scientific use; Research instruments for scientific use; Reserve electrical power supply apparatus (other than generators); Residual current apparatus; Residual current devices; Residual light image amplifiers; Resistance boxes; Resistance oscillator thermometers; Resistance temperature detectors; Resistance testing apparatus; Resistance welding apparatus;

Resistance-thermometers; Resistances, electric; Resistor networks; Resistors; Resistors for use in the electrical ignition systems of vehicles; Resolution wedges; Resolvers; Resonators; Respiration monitors, other than for medical use; Respirators (other than for artificial respiration); Respirators for filtering air; Respirators for protective purposes; Respiratory apparatus, other than for medical use; Respiratory gas blending apparatus, other than for medical use; Respiratory helmets, other than for artificial respiration; Respiratory masks (other than for artificial respiration); Respiratory monitoring apparatus (non-medical); Respiratory monitors (non-medical); Respiratory protection apparatus (non-medical); Resuscitation mannequins (teaching apparatus); Reticles; Retinal cameras (other than for medical use); Retorts; Retorts' stands; Reverse motion alarms, other than for vehicles; Reversed osmosis membranes for scientific use; Revolution counters; Revolutions per minute governing devices; Revolutions per minute governing mechanisms; Rheometers; Rheostats; Ribbon cable; Ribbon cable for connecting electronic apparatus; Riding helmets; Rigid protective helmets; Ring nodes for computers; Rising main systems (electric); Road cones (luminous); Road cones (mechanical); Road hazard warning lights for use with road cones; Road hazard warning lights for use with traffic cylinders; Road map display apparatus for assisting in the navigation of a vehicle; Road signs (luminous); Road signs (mechanical); Road signs, luminous or mechanical; Road surface measuring instruments; Road traffic direction devices (luminous); Road traffic direction devices (mechanical); Road warning lamps; Road warning lanterns; Roadside display boards (luminous); Roadside display boards (mechanical); Robotic electrical control apparatus; Robotic electrical welding apparatus; Robots with articulated arms for manipulating laboratory apparatus; Rod antennas; Rods (surveying instruments); Rods for water diviners; Roentgen apparatus not for medical purposes; Roentgen films, exposed; Rolled wire (electric); Room thermostats; Rotary anti-cathodes for X-ray tubes (other than for medical use); Rotary cam limit switches; Rotary encoders; Rotary gas meters; Rotary hearth furnaces for experimental purposes; Rotary magnetic recording disks; Rotary movement measuring apparatus; Rotary movement signalling apparatus; Rotating memory devices; Rotators being mechanisms for use with antenna; Rubber cables (electric); Rubber shoes for protection against accident or injury; Rubberised clothing for use in industry (for protection against accident or injury); Rulers (measuring instruments); Rules (measuring instruments); Saccharometers; Safe load indicating apparatus; Safe load indicating instruments; Safe load indicators; Safety alarms (other than for vehicles); Safety apparatus (for the prevention of accident or injury); Safety apparatus for arresting the fall of climbers; Safety apparatus for arresting the fall of workmen; Safety apparatus for industrial use; Safety apparatus

for use at sea; Safety arming units; Safety belts for rescue purposes; Safety boots for use in industry (for protection against accident or injury); Safety cabinets for scientific purposes; Safety caps; Safety clothing for protection against accident or injury; Safety devices for use with electric plugs and sockets; Safety face shields for use in industry; Safety footwear for protection against accident or injury; Safety glasses (optical); Safety glasses for protecting the eyes; Safety gloves for protection against accident or injury; Safety goggles; Safety goggles for motorcyclists; Safety harnesses (other than for vehicle seats or being sporting equipment); Safety harnesses for workers working at heights; Safety hats (protective helmets); Safety headgear; Safety headwear; Safety helmets; Safety helmets incorporating breathing apparatus; Safety life belts; Safety life jackets; Safety locking devices (electric); Safety monitoring apparatus (electric); Safety nets; Safety relays (electric); Safety restraints (other than for vehicle seats and sports equipment); Safety rope systems for persons working at heights; Safety signals (audible), other than for vehicles; Safety signals (luminous); Safety signals (mechanical); Safety signals in the form of flashing beacons; Safety signals in the form of flashing lights; Safety signs (luminous); Safety signs (mechanical); Safety spectacles; Safety survival suits; Safety tarpaulins; Salinometers; Sample preparation columns (other than for medical use); Samplers (signal); Sampling apparatus being laboratory apparatus; Sampling apparatus being scientific apparatus; Sampling network analysers (scientific apparatus); Satellite apparatus; Satellite boxes being parts and fittings of satellite apparatus; Satellite broadcasting antennae; Satellite broadcasting apparatus; Satellite broadcasting instruments; Satellite communication apparatus; Satellite communications equipment; Satellite communications instruments; Satellite communications terminals; Satellite dishes; Satellite dishes (antennae); Satellite earth stations; Satellite imagery software; Satellite navigational apparatus; Satellite receivers; Satellite receiving aerials; Satellite receiving apparatus; Satellite signal receiving antennae; Satellite television integrated receiver descramblers; Satellite television receiving apparatus; Satellite television signal descramblers; Satellite television signal scramblers; Satellite television transmission uplink scrambling apparatus; Satellite transceivers; Satellite transmitting aerials; Satellite transmitting apparatus; Satellites for communication purposes; Satellites for scientific purposes; Satellites for signal transmission; Scales; Scanners (data processing equipment); Scanners for entering data into computers; Scanners for use with facsimile machines; Scanning apparatus for use in the printing industry; Scanning apparatus, other than for medical use; Scanning instruments, other than for medical use; Scanning machines, other than for medical use; Scanning probes, other than for medical use; Science sets for children being instructional

apparatus; Science sets for children being teaching apparatus; Scientific apparatus; Scientific apparatus and instruments; Scientific apparatus for chromatography (other than for medical diagnosis); Scientific apparatus for diagnostic testing of biological samples (other than for medical use); Scientific apparatus for industry; Scientific apparatus for installation in aircraft; Scientific apparatus for installation in vehicles; Scientific apparatus for isolating the organic fraction of rocks; Scientific apparatus for laboratory purposes (other than for medical diagnosis); Scientific apparatus for laboratory use (other than for medical diagnosis); Scientific apparatus for testing samples of soil; Scientific apparatus for testing samples of water; Scientific apparatus for the electrophoretic separation of molecules (other than for medical diagnosis); Scientific apparatus for the receiving of data; Scientific apparatus for use in analytical tests (other than medical); Scientific apparatus for use in controlling biochemical reactions (other than for medical purposes); Scientific apparatus for use in diagnostic applications (other than for medical use); Scientific apparatus for use in effecting biochemical reactions (other than for medical use); Scientific apparatus for use in laboratories (other than for medical diagnosis); Scientific apparatus for use in the preparation of materials (other than for medical use); Scientific apparatus for use in the processing of histological specimens (other than for medical purposes); Scientific apparatus for use in the separation of chemical compounds (other than for medical use); Scientific apparatus for use in the washing of samples in sample processing (other than for medical purposes); Scientific apparatus for use in water purification; Scientific calculators; Scientific electrical apparatus (other than for medical use); Scientific electronic apparatus (other than for medical diagnosis); Scientific equipment; Scientific glassware; Scientific instruments; Scope screen apparatus; Score display apparatus (electric); Score display apparatus (electronic); Score recorders (electric); Score recorders (electronic); Screens (photography); Screens for cinematographic projection; Screens for photoengraving; Screens for photographic projection; Screens for use in photography; Screens for use with computers; Screens for use with visual display units; Screensavers; Screw-tapping gauges; Seat belt warning lights; Seat controls; Secure digital cards; Secure transmission apparatus; Secure transmission instruments; Security alarm systems (other than for vehicles); Security alarms (other than for vehicles); Security apparatus for computers; Security apparatus for elevators; Security apparatus for processing audio signals; Security apparatus for processing video and/or audio signals; Security apparatus for receiving audio signals; Security apparatus for receiving video signals; Security apparatus for storing audio signals; Security apparatus for storing video signals; Security apparatus for transmitting audio signals; Security apparatus for transmitting video signals; Security apparatus incorporating lights

for use in buildings; Security apparatus incorporating lights for use on the exterior of buildings; Security control apparatus; Security control instruments; Security devices for computer hardware; Security devices for computer software; Security devices for doors of buildings (electric locking devices); Security devices for windows of buildings; Security devices for windows of buildings (electric locking devices); Security helmets; Security installations, other than for vehicles; Security passes (encoded); Security passes (magnetic); Security surveillance apparatus; Security systems for buildings; Security systems for elevators; Security systems, other than for vehicles; Security warning apparatus; Seismic apparatus; Seismic processing installations; Seismic recording apparatus; Seismographic apparatus; Selenium voltage surge protectors; Self regulating fuel pumps; Self regulating metering pumps (other than for medical use); Self regulating pumps and dispensing apparatus for gaseous fuels; Self-adhesive labels (encoded); Self-adhesive labels (magnetic); Self-adhesive labels bearing data in bar code form; Self-contained breathing apparatus, other than for artificial respiration; Self-contained electronic tabletop game apparatus for use with television receivers; Self-inflating life rafts; Self-regulating fuel pumps; Self-service banking apparatus; Self-synchronizing digital encryptors; Semi-conductors; Semi-finished ophthalmic lenses; Semi-permeable membranes for scientific use; Semiconductor apparatus; Semiconductor apparatus for use with computers; Semiconductor chips; Semiconductor devices; Semiconductor elements; Semiconductor instruments; Semiconductor manufacturing apparatus; Semiconductor memories; Semiconductor memories being computer programmes; Semiconductor memory apparatus; Semiconductor memory cartridges being computer programmes; Semiconductor memory devices; Semiconductor memory instruments; Semiconductor wafers; Semiconductors (integrated circuits); Semiconductors being electronic devices; Sensing apparatus (other than for medical use); Sensing apparatus being parts of anti-theft apparatus; Sensing apparatus being parts of intruder detection apparatus; Sensing apparatus being parts of outside lighting apparatus; Sensing apparatus for use with doors; Sensing apparatus for use with windows; Sensing devices (other than for medical use); Sensing devices for the automatic control of machines; Sensing devices for the control of air currents; Sensing devices for the control of liquid levels (other than for medical use); Sensing devices for the control of temperatures (other than for medical use); Sensitised reprographic films (exposed); Sensitised reprographic plates (exposed); Sensitized films (exposed); Sensitized microfilms, exposed; Sensor apparatus, other than for medical use; Sensor switches; Sensors (measurement apparatus), other than for medical use; Sensors for determining road surface wetness; Sensors for engines; Sensors for measuring depth; Sensors for measuring

speed; Sensors for measuring wind speed; Sensors for monitoring buildings against unauthorised access; Sensors for monitoring grounds against unauthorised access; Sensors for monitoring rooms against unauthorised access; Sensors for real time data input apparatus; Sensors for real time data output apparatus; Sensors for securing buildings against unauthorised access; Sensors for securing grounds against unauthorised access; Sensors for securing rooms against unauthorised access; Sensors for the determination of elements in molten steel; Sensors for trace analysis in the beverage industry; Sensors for trace analysis in the food industry; Sensors for tracking missiles in flight; Sensors for tracking projectiles in flight; Sensors for use in the control of engines; Sensors for use in the control of motors; Sensors for use with machine tools; Sensors in the form of panels containing fibre optic cable; Sensors incorporating optical fibres; Sensors used in meteorology; Sensors used in oceanography; Sensors used in plant control; Separating apparatus for laboratory use; Separation apparatus for laboratory use; Separation cartridges for use in chromatography (other than for medical use); Separation columns for gas chromatography (other than for medical use); Separation columns for measuring purposes; Separation columns for scientific purposes; Separation columns for weighing purposes; Separation control apparatus (other than for medical use); Separation instruments (other than for medical use); Separators being parts of batteries; Servo-systems for flowmeters; Set squares (measuring); Set-top boxes (digital signal receivers); Sextants; Shaft identification gauges; Shaking machines for laboratory use; Shaped covers for computers; Shaped flexible covers for keyboards; Shaped flexible covers for the controls of electrical apparatus; Shaped flexible covers for the controls of electronic apparatus; Shaped padding for protecting parts of the body (other than parts of sports suits); Sheaths for electric cables; Sheaths for electrical wires; Sheaths for hand held remote control units; Sheaths for optical fibre cable; Sheaths for optical wires; Shields for protecting the body against ballistic threat; Shields for protecting the body against injury; Shields for protecting the faces of workmen; Shin guards for protection against injury (other than sports articles or parts of sports suits); Shin pads for protection against injury (other than sports articles or parts of sports suits); Shin protectors for protection against injury (other than sports articles or parts of sports suits); Ship to shore communications apparatus; Shipboard control apparatus (automatic); Ships logs (electric); Ships logs (electronic); Ships wiring cables; Ships' steering gear (automatic); Shock absorption pads for protection against injury (other than parts of sports suits); Shock calibrators; Shock recorders; Shock sensors; Shock wave apparatus, other than for medical use; Shoe-based pedometers; Shoes for protection against accidents, irradiation and fire; Shoes for protection against injury; Shooting glasses (optical); Shotblasters' helmets; Shunt

reactors; Shutter (photography); Shutter releases (photography); Shutter sensors; Shutters (photography); Shutters for cameras; Side pieces for goggles; Sight devices (telescopic) for aeronautical weapon uses; Sight devices (telescopic) for naval weapon use; Sight devices (telescopic) for terrestrial weapon use; Sight glasses (optical); Sight glasses for use with chemical and physical apparatus; Sight glasses for use with electrotechnical apparatus; Sight glasses for use with physics and chemical apparatus; Sight range finders; Sighting devices for firearms (telescopic); Sighting instruments (telescopic); Sighting telescopes for firearms; Sights for artillery (telescopic); Sights for firearms (telescopic); Sign apparatus (luminous, mechanical) for roads; Sign apparatus (luminous, non-mechanical) for roads; Sign apparatus (non-metallic, luminous, mechanical) for roads; Sign boards (luminous); Sign boards (mechanical); Sign makers (cutting plotters); Signal adapting apparatus; Signal amplifiers; Signal analysis apparatus for use in weapon control systems; Signal attenuation apparatus; Signal bells; Signal conditioners; Signal convertors; Signal couplers; Signal delay apparatus; Signal generators; Signal lanterns; Signal multiplexers; Signal processing apparatus; Signal processing apparatus for remote diagnosis; Signal processors; Signal processors for audio speakers; Signal splitters; Signal station drivers; Signal transmission apparatus; Signal transmitters; Signal transmitting apparatus utilising optical fibres; Signal tuners; Signalization apparatus for railways; Signalling apparatus; Signalling apparatus and instruments; Signalling apparatus for use in emergencies; Signalling apparatus using fluorescent lamps; Signalling buoys; Signalling equipment; Signalling instruments; Signalling lamps; Signalling lanterns; Signalling panels, luminous or mechanical; Signalling whistles; Signals, luminous or mechanical; Signs being illuminated; Signs being luminous; Signs being photoluminescent; Signs being reflective; Signs made of plastics (luminous or mechanical); Signs of metal (luminous or mechanical); Signs, luminous; Signs, luminous, inflatable; Silent cinematographic films; Silent videos; Silicon chips (electronic components); Silicon controlled reactors; Silicon controlled rectifiers; Silicon microaccelerometers; Silicon on insulator wafers; Silicon rubber layered electrical connectors; Silicon slices (wafers); Silicon target vidicon for television cameras; Silicon voltage apparatus; Silicon wafer carriers for handling integrated circuits; Silicon wafer slices; Silicon wafers; Simulation apparatus; Simulation software for use in digital computers; Simulators; Simulators for leisure installations; Simulators for simulating the effect of earthquakes; Simulators for simulating the effect of nuclear explosions; Simulators for simulating the effect of storms; Simulators for simulating the effect of waves; Simulators for simulating the effect of wind; Simulators for simulating the operation of aircraft; Simulators for simulating the operation of land vehicles; Simulators for simulating the operation of motor

vehicles; Simulators for simulating the operation of space vehicles; Simulators for simulating the operation of watercraft; Simulators for simulating the operation of weapons; Simulators for the steering and control of vehicles; Simulators for training operators in weapons systems control; Simulators for training personnel in rifle marksmanship; Simulators for training personnel in the driving of vehicles; Simulators for training personnel in the flying of aircraft; Simulators for training personnel in the flying of space vehicles; Simulators for training personnel in the ground control of aircraft; Simulators for training personnel in the operation of aircraft; Simulators for training personnel in the operation of land vehicles; Simulators for training personnel in the operation of motor vehicles; Simulators for training personnel in the operation of space vehicles; Simulators for training personnel in the operation of watercraft; Simulators for training personnel in the operation of weapons; Simulators for training personnel in the use of firearms; Simulators incorporating digital computers for industrial training purposes; Single use cameras; Sirens; Skateboard helmets; Skeleton switches (electric); Skeleton switches (electronic); Ski clothing for protection against injury; Ski glasses; Ski goggles; Ski wear for protection against injury; Skiing glasses; Skin temperature indicators, other than for medical use; Skull guards for protection against injury; Slatted blind controls (electric); Sleeved rails, electric; Slide calipers; Slide frames for transparencies; Slide frames for use in photography; Slide projection lenses; Slide projectors; Slide-rules; Slides (photography); Slides for overhead projectors; Sliding callipers for measuring; Sliding contacts for potentiometers; Sliding contacts for variable transformers; Sliding contacts made of carbon; Sliding contacts made of carbon silver; Sliding squares (measuring instruments); Slings for cameras; Slip gauges; Slope indicators; Slot machines (vending machines); Smart cards (integrated circuit cards); Smart cards (machine readable cards); Smoke alarms; Smoke detecting apparatus; Smoke detection apparatus; Smoke detectors; Smoke hoods (life saving apparatus); Smoke protection hoods (life saving apparatus); Smoke sensors; Smoke/fume extractor unit for use with electric soldering irons; Smoothing reactors; Snorkel tubes; Snorkels; Snow goggles; Sockets (electrical); Sockets for electric plugs; Sockets for electric plugs for use on domestic electrical apparatus; Sockets for testing integrated circuits; Sockets, plugs and other contacts (electric connections); Socks, electrically heated; Software drivers; Soil moisture meters; Solar batteries; Solar batteries for domestic use; Solar batteries for industrial use; Solar cells for electricity generation; Solar collectors electricity generation; Solar energy collectors for electricity generation; Solar energy operating apparatus; Solar panels for electricity generation; Solderers' helmets; Soldering apparatus, electric; Soldering installations (electric); Soldering irons, electric; Soldering pots; Solenoid controls for automatically operating

valves; Solenoid operated valves; Solenoid valves (electromagnetic switches); Solenoid valves (electromagnetic switches); Solenoids; Solid ink cartridges (empty) for ink-jet printers; Solid-state component relays; Solid-state devices; Solid-state electric current rectifiers; Solid-state electrical apparatus for storing computer data; Solid-state electrical apparatus for storing computer programmes; Solid-state electrical apparatus for storing computer programs; Solid-state electronic data storage materials; Solid-state integrated circuits; Solid-state integrated electronic circuits; Solid-state lasers; Solid-state liquid level control unit for use in refrigeration; Solid-state memories; Solid-state memory devices; Solid-state relays; Solid-state video recorders; Solids etched with precision graduations; Sonar apparatus; Sonar controlled release mechanisms; Sonar doppler logs; Sonars; Sonobuoys; Sorting apparatus for sorting and counting money; Sorting machines for sorting money; Sound adapters being parts of radio receiving apparatus; Sound adapters being parts of television instruments; Sound adaption apparatus for use with electric guitars; Sound adaption apparatus for use with musical instruments; Sound alarms; Sound alarms, other than for vehicles; Sound amplifiers; Sound amplifying apparatus; Sound amplifying receivers; Sound and vibration absorbing and damping fittings and feet, especially adapted for use with audio equipment; Sound carriers; Sound carriers in cassette form; Sound carriers in disc form; Sound carriers in tape form; Sound cassettes; Sound compositions for self study; Sound consoles; Sound discs; Sound generation apparatus; Sound locating apparatus; Sound locating instruments; Sound mixing apparatus; Sound mixing apparatus for recording; Sound mixing apparatus for the broadcasting of theatre sound; Sound mixing apparatus for use in video dubbing; Sound monitoring apparatus; Sound players; Sound processors; Sound receiving head sets; Sound reception apparatus; Sound record sampling apparatus; Sound record storage apparatus; Sound recorders; Sound recording apparatus; Sound recording carriers; Sound recording consoles; Sound recording devices; Sound recording discs; Sound recording instruments; Sound recording instruments for use with video; Sound recording machines; Sound recording materials; Sound recording strips; Sound recording tapes; Sound recordings; Sound recordings in the form of cassettes; Sound recordings in the form of discs (disks); Sound recordings in the form of gramophone records; Sound recordings in the form of phonograph records; Sound recordings in the form of records; Sound recordings in the form of tapes; Sound recordings on magnetic tapes; Sound recordings on record; Sound records; Sound records in the form of discs; Sound records in the form of pre-recorded video tapes; Sound records in the form of tapes; Sound records in the form of wires; Sound registering discs; Sound registering tapes; Sound reinforcement apparatus; Sound reproducing apparatus; Sound reproducing apparatus for use in

automobiles; Sound reproducing apparatus for use in cars; Sound reproducing apparatus with keyboard; Sound reproducing apparatus with microphone; Sound reproducing instruments; Sound reproducing magnetic tapes in cassette form; Sound reproduction apparatus; Sound reverberation units; Sound samplers; Sound tapes; Sound tracks (recordings); Sound transmitting apparatus; Sounding apparatus and machines; Sounding leads; Sounding lines; Soundproof cabinets (laboratory apparatus); Sources of optical beams for communications; Sources of ultrasonic fields, other than for use in medical diagnosis; Spark gap tubes; Spark plug cables for internal combustion engines; Spark-guards; Speaker switches; Speakers (audio equipment); Speakers for compact disc players; Speakers for computers; Speakers for record players; Speakers for tape players; Speaking apparatus; Speaking machines; Speaking tubes; Spear lenses; Special furniture for laboratory use; Special glass carrier substrates for biologically significant substances; Specimen collection devices (containers) for samples extracted from the body (for laboratory use); Specimen collection devices, other than for medical use; Specimen containers other than for medical use; Specimen samplers, other than for medical use; Spectacle cases; Spectacle chains; Spectacle frames; Spectacle frames having elastic hinges; Spectacle glasses; Spectacle holders; Spectacle lenses; Spectacle mountings; Spectacle support bands, chains, cords, and straps; Spectacles; Spectacles (glasses); Spectacles (optics); Spectacles for sports; Spectacles used in information science; Spectrocolorimeters, other than for medical diagnostic use; Spectrograph apparatus; Spectrographic apparatus; Spectrographic instruments; Spectrographs; Spectrometers; Spectrometry apparatus; Spectrophotometer; Spectroscopes; Spectrum analysers, other than for medical use; Speech aid apparatus for use by persons with a disease of the larynx; Speech communications apparatus for use in noisy environments; Speech communications apparatus to enable persons with a disease of the larynx to speak; Speech processors; Speech recognisers; Speech recognition apparatus; Speech synthesizers; Speed checking apparatus; Speed checking apparatus for land vehicles; Speed checking apparatus for vehicles; Speed controllers (electronic); Speed controllers (electronic) for dual carburettor motors; Speed governors (electronic) for machines, engines and motors; Speed indicators; Speed indicators for land vehicles; Speed indicators for vehicles; Speed measuring apparatus; Speed measuring apparatus (photography); Speed measuring apparatus for vehicles; Speed meters; Speed reducers (electrical); Speed reducers (electronic); Speed regulators (electrical); Speed regulators (electronic); Speed regulators for record players; Speed repeaters; Speed variators (electric) being parts of machines; Speed variators (electronic) being parts of machines; Speedometers; Speedometers for indicating the speed of land vehicles; Speedometers for indicating

the speed of moving objects; Speedometers for indicating the speed of self-propelled machines; Spell checkers (electronic); Spelling verifiers; Spherometers; Spirit levels; Spirometers for scientific use; Spirometers for scientific use in examining the function of the lungs; Splice boxes (electric); Splice boxes for optical cables; Splice boxes for optical fibres; Splice connectors (electric); Splice connectors (optical); Splicing devices for use in the editing of audio tapes; Splicing devices for use in the editing of video tapes; Splicing machines for use in the editing of audio tapes; Splicing machines for use in the editing of magnetic tape; Splicing machines for use in the editing of video tape; Spool adaptors (parts for sound recording apparatus); Spool adaptors (parts for video playing apparatus); Spool adaptors (parts for video recording apparatus); Spool unwinders for cinematographic use; Spools (photography); Spools for cinematographic films; Spools for holding photographic films; Spools for magnetic tapes; Spools for photographic films; Spools for sound recording tapes; Spools for use with photographic apparatus; Spools for use with sound recording apparatus; Spools for use with video playing apparatus); Spools for use with video recording apparatus); Spools of metal (parts of sound recording apparatus); Spools of metal (parts of video recording apparatus); Sport bags adapted (shaped) to contain protective helmets; Sport glasses (binoculars); Sport glasses (eye glasses); Sport glasses (protective spectacles); Sport glasses (spectacles); Sporting articles (hats) for equestrian use (for protective purposes); Sporting articles (helmets) for protective purposes; Sporting articles (padding) for protective purposes (other than parts of sports suits or being sporting articles); Sporting articles for wear (helmets) adapted for use in a specific sport; Sporting articles for wear for protective purposes (other than adapted for use in a specific sport); Sporting life jackets; Sports glasses (binoculars); Sports glasses (eye wear); Sports glasses (goggles); Sports glasses (spectacles); Sports glasses (telescopes); Sports goggles; Sports helmets; Spot welding apparatus (electric); Sprayers (automatic installations) for fire extinguishing; Sprayers (installations) for fire extinguishing; Sprays (apparatus) being fire control equipment; Spring balances; Spring callipers; Sprinkler apparatus (automatic) for fire extinguishing; Sprinkler installations for fire extinguishing; Sprinkler systems for fire extinguishing; Sprinkler systems for fire protection; Sputtering apparatus; Sputtering instruments; Square rulers for measuring; Squares (measuring); Squeeze blower brushes for cleaning camera lenses; Squeeze blower brushes for cleaning optical apparatus; Stabilisers for reducing the pitch and roll of ships; Stabilizers for drill strings; Stabilizing devices for aircrafts; Stabilizing devices for spacecraft; Stabilizing gyroscopes; Stage lighting controls; Stage lighting dimmers; Stage lighting regulators; Stamp dispensing (vending) machines for postage stamps; Stands for computer equipment; Stands for floppy discs; Stands for photographic apparatus; Stands for printers; Stands for

telephones; Stands for televisions; Stands for word processors; Start timers for burners; Starter batteries for vehicles; Starter boards being metal coated panels; Starter cables for motors; Starter electromagnets; Starters for electric lamps; Starters for electric motors; Starters for fluorescent lighting; Static electric converters; Static elimination bars; Static power converters; Static power supply units; Stationary batteries; Steel masts for aerials; Steel masts for wireless aerials; Steel rules for measuring; Steelyards (lever scales); Steering apparatus, automatic, for vehicles; Steering gears for vehicles (automatic); Step relays; Stereo amplifiers; Stereo amplifying apparatus; Stereo apparatus; Stereo cassette recorders; Stereo cassette tape players; Stereo evaluating apparatus; Stereo extension transmitters; Stereo headphones; Stereo headphones for personal entertainment use; Stereo hi-fidelity apparatus; Stereo interpretation apparatus; Stereo receivers; Stereo signal generator apparatus; Stereo tuners; Stereometric cameras; Stereophonic amplifiers; Stereophonic apparatus; Stereophonic apparatus incorporating headphones for personal use; Stereophonic headphones; Stereophonic sound units; Stereos; Stereoscopes; Stereoscopic apparatus; Stereoscopic viewers; Stethoscopes for use by motor mechanics; Still cameras; Still movie video-cameras; Still movie-recording apparatus; Still video cameras; Still video printers; Still video receivers; Still video recorders; Still video transmitters; Stills for experimental purposes; Stills for laboratory experiments; Stock control apparatus (electric); Stock control apparatus (electronic); Stomach protectors (other than adapted for use in a specific sport); Stopper motor controllers; Storage apparatus for audio discs; Storage apparatus for cassettes; Storage apparatus for computer data; Storage apparatus for computer programs; Storage batteries (electric); Storage batteries for lighting; Storage cards (electric); Storage cards (electronic); Storage cards (smart cards); Storage cells (electric); Storage containers adapted for audio cassettes; Storage containers adapted for compact discs; Storage containers adapted for video cassettes; Storage discs for use with computers; Storage file units for computer program recording; Storage materials for data in electronic form; Storage materials for data in magnetic form; Storage racks for DVDs; Storage racks for audio cassettes; Storage racks for compact discs (CDs); Storage racks for computer discs; Storage racks for computer diskettes; Storage racks for computer disks; Storage racks for discs (sound recordings); Storage racks for disks; Storage racks for floppy disks; Storage racks for magnetic tapes; Storage racks for sound bearing devices; Storage racks for video cassettes; Stoves for testing materials; Stoves for use in experiments; Strain gauges; Strain relief cable glands; Stranded wires (electric); Strapped down inertial apparatus; Straps for spectacles; Straps for sunglasses; Strategic telecommunication apparatus for aircraft; Strategic telecommunication apparatus for land vehicles; Strategic

telecommunication apparatus for ships; Streamers being apparatus for use in seismology; Stress gauges; Stress gauges for measuring; Stress gauges for measuring stresses; Stress gauges for measuring stresses in deposited films on gallium arsenide wafers; Strip terminals; Strips of film (cinematographic, exposed); Strips of film (cinematographic, unexposed); Strips of film (photographic, exposed); Strips of film (photographic, unexposed); Strips of sensitised film (exposed); Strips of sensitised photographic film (exposed); Strobe lights (warning beacons); Strobe lights for checking; Strobe lights for checking the speed of engines; Strobe lights for checking the timing of engines; Strobe lights for indicating; Strobe lights for measuring; Stroboscopic electronic flash guns for use in photography; Stroboscopic lamps (warning beacons); Stroboscopic lamps for checking; Stroboscopic lamps for checking the speed of engines; Stroboscopic lamps for checking the timing of engines; Stroboscopic lamps for indicating; Stroboscopic lamps for measuring; Stud detectors; Styli; Styli for record players; Stylus (light pens); Submarine cables; Substrates (printed circuit boards) ready for etching; Substrates (wafers); Substrates for carrying information in electronic form; Substrates for carrying information in magnetic form; Substrates for carrying information in optical form; Substrates for holographs; Substrates for photographs (exposed); Substrates for photographs (unexposed); Suits for boys (protective against accident or injury); Suits for divers; Sulphitometers; Sun exposure indicator {dosimeter}; Sun spectacles; Sun visors (eyewear); Sunglass cases; Sunglasses; Sunglasses being optical apparatus; Sunglasses being optically corrected; Sunglasses being tinted; Sunlight collecting apparatus for electricity generation; Sunlight transmitting apparatus; Superconductive magnet apparatus; Superconductive magnet instruments for magnetic resonance imaging; Superconductive magnet instruments for magnetic resonance spectroscopy; Superheated steam sterilisable sensors; Supervision (control) apparatus (automatic); Supervision (control) apparatus (electric); Support for computer terminal; Support garments for the protection against accident or injury; Suppressors for electrical appliances; Surface acoustic wave devices; Surface acoustic wave filters; Surface inspecting apparatus; Surface measuring apparatus; Surface monitoring instruments; Surge arresters; Surge diverters; Surge protection apparatus; Surge protective diodes; Surge protectors; Surge suppressors; Surgical microscopes; Surround processors; Surveillance apparatus; Surveillance apparatus (electronic); Surveillance instruments; Surveying apparatus and instruments; Surveying chains; Surveying instruments; Surveying poles; Surveyors' gradient measurement apparatus incorporating spirit levels; Surveyors' levels; Surveyors' poles; Suspension rails (electrified) for electrical lighting fixtures; Swimming belts; Swimming floats; Swimming flotation aids adapted for incorporation into bathing suits; Swimming goggles;

Swimming jackets; Swimming masks; Swimming snorkels; Switch cabinets (electric); Switch mode power supply apparatus (electric); Switch mountings for use with land vehicles; Switch panels (electric); Switch plates (electric); Switch points (electric); Switch socket outlets (electric); Switch-over circuits (electric); Switchboards; Switchboards for telephone exchanges; Switchboxes (electricity); Switched mode power supply apparatus (electric); Switched splitters for electric power; Switched spurs (electric); Switches (electric) for signals (electric); Switches (electric) to monitor speeds of rotation; Switches activated by clocks; Switches for detaching batteries; Switches incorporating clocks; Switches, electric; Switchgear (electric); Switching boxes for use in electrical engineering; Switching devices for electric contactors; Switching devices for electric relays; Switching power supply apparatus; Swivel stands for computers; Sync generators; Synchro sensors; Synchronous capacitors; Synchronous data communications apparatus; Synchronous data units; Synchronous data-link control adaptors; Synthesised sound apparatus; Synthesised sound recordings; Synthesizers for colouring monochrome television picture sources; Table multimeters; Table representation software; Table top electronic games (adapted for use with an external display screen or monitor); Table-top beverage dispensing machines; Tables (furniture), specially made for laboratory purposes; Tables adapted for projectors; Tables of metal (furniture) specially made for laboratory purposes; Tablets for computers; Tachographs; Tachometers; Tactical guided missile apparatus; Tactical guided missile installations; Tactile screens (electronic); Tactile switches (electric); Tag type indicator panels; Tags carrying magnetically, optically, or electronically recorded or encoded information; Tags for identifying electric cables; Tags for identifying electric conductors; Tags for identifying electric wires; Talking books; Talking machines; Talking scales; Tap boxes; Tap changers for electric transformers; Tape back-up (data storing) apparatus; Tape back-up apparatus; Tape cartridges; Tape cassette players; Tape cassettes; Tape cutters for editing sound recordings; Tape decks (sound recording apparatus); Tape decks (sound reproducing apparatus); Tape decks for use with computers; Tape decks for use with data processors; Tape drive apparatus for data processors; Tape drives; Tape drives for use with computers; Tape driving units; Tape encoding (punching) units; Tape encryption units; Tape head cleaning cassettes; Tape measures; Tape measures for use in sewing; Tape players; Tape recorders; Tape recorders incorporating radio receivers; Tape recorders incorporating radios; Tape recording machines; Tape recordings of music; Tape recordings of songs; Tape recordings relating to fictional characters; Tape spools (parts of sound recording apparatus); Tape units for backing up computer data storage devices; Tape units for backing up computer data storage systems; Tapes bearing computer programmes in machine

readable form; Tapes bearing machine readable information; Tapes bearing machine readable information for replay; Tapes bearing sound recordings; Tapes being optical data carriers; Tapes encoded with computer readable data; Tapes encoded with machine readable data; Tapes for bearing audio recordings; Tapes for bearing silent video recordings; Tapes for bearing sound; Tapes for bearing visual recordings; Tapes for carrying audio recordings; Tapes for recording data magnetically; Tapes for reproducing sound; Tapes for reproducing sound signals; Tapes for the recordal of images in machine readable form; Target location apparatus (electric); Target location apparatus (electronic); Target location apparatus (optical); Target location apparatus (telescopic); Target seekers (electronic); Target seekers (optical); Target seekers (telescopic); Target seeking heads; Target sights for artillery (electronic); Target sights for artillery (laser); Target sights for artillery (telescopic); Target sights for guns (electronic); Target sights for guns (laser); Target sights for guns (telescopic); Target surveillance apparatus (electronic); Target surveillance apparatus (optical); Target surveillance apparatus (satellite); Target surveillance apparatus (telescopic); Target trackers (electronic); Target trackers (optical); Target trackers (satellite); Target trackers (telescopic); Tariff devices for recording payment; Taximeters; Tea making (vending) machines; Teaching apparatus; Teaching apparatus for training in autorelaxation techniques; Teaching apparatus for use as study aids; Teaching apparatus relating to medical matters; Teaching apparatus relating to optical matters; Teaching instruments; Teaching machines; Teaching programmes recorded on data carriers; Technical literature in the form of computer programs; Technical literature in the form of magnetic recordings; Technical literature in the form of sound recordings; Technical thermometers; Tee squares (measuring); Teeth protectors; Telautographs; Tele-radio controls for electronic burglar alarms; Telecinema apparatus; Telecommunications alarm apparatus; Telecommunications apparatus; Telecommunications apparatus for diagnostic purposes; Telecommunications apparatus for interfacing purposes; Telecommunications apparatus for measuring purposes; Telecommunications apparatus for transferring data to computers; Telecommunications apparatus for transmission purposes; Telecommunications apparatus for transmitting data for use with computers; Telecommunications apparatus for use in cellular radio networks; Telecommunications apparatus for use with analogue signals; Telecommunications apparatus for use with digital signals; Telecommunications cable; Telecommunications circuit board units; Telecommunications devices; Telecommunications digital exchange apparatus; Telecommunications equipment; Telecommunications ground station apparatus; Telecommunications installations; Telecommunications instruments; Telecommunications instruments for use in cellular

radio networks; Telecommunications machines; Telecommunications multiplexers; Telecommunications network management installations; Telecommunications networks; Telecommunications security instruments; Telecommunications switchboards; Telecommunications switching apparatus; Telecommunications switching systems; Teleconvertors; Telecopy terminals; Telecopying apparatus; Telefacsimile apparatus; Telefacsimile machines; Telefacsimile units; Telegraph wires; Telegraphic apparatus; Telegraphic instruments; Telegraphs (apparatus); Teleguiding apparatus; Telematic apparatus; Telematic terminal apparatus; Telemeter apparatus; Telemeters; Telemetry apparatus; Telemetry installations; Telemetry instruments; Telemonitoring devices; Telephone aerial installation components; Telephone aerials; Telephone answering apparatus; Telephone answering machines; Telephone apparatus; Telephone apparatus adapted for use on credit; Telephone apparatus for cars; Telephone apparatus for communication by sound; Telephone apparatus for communication by vision; Telephone apparatus for telephone exchanges; Telephone apparatus for the recording of sound; Telephone apparatus for the reproduction of sound; Telephone apparatus for the transmission of sound; Telephone apparatus for use by persons with hearing difficulties; Telephone apparatus for use by persons with speech handicaps; Telephone apparatus for use by the handicapped; Telephone apparatus incorporating monitors; Telephone apparatus with prepayment by coin; Telephone apparatus with prepayment by magnetic card; Telephone appliances; Telephone books in electronic form; Telephone cable heads; Telephone cables; Telephone cables of optical fibres; Telephone call cost calculators; Telephone call management apparatus; Telephone call management systems; Telephone call monitoring apparatus; Telephone cards (coded); Telephone circuits; Telephone communications apparatus; Telephone concentrators; Telephone connecting cords; Telephone cords; Telephone digital switching transmission apparatus; Telephone directories in electronic form; Telephone directory data bases; Telephone distribution frames; Telephone earpieces; Telephone equipment; Telephone exchange apparatus; Telephone handsets; Telephone handsets for domestic use; Telephone handsets incorporating microphones; Telephone index notebooks (electronic); Telephone installations; Telephone instruments; Telephone intercom apparatus; Telephone keyboards; Telephone listening devices; Telephone machines with pre-recorded messages; Telephone management installations; Telephone measuring apparatus; Telephone message pads (electronic); Telephone modems; Telephone number lists (electronic); Telephone outlets; Telephone receivers; Telephone recorders; Telephone registers (electronic); Telephone ring tones (downloadable); Telephone security instruments; Telephone sets; Telephone socket outlets; Telephone stands (parts of telephones); Telephone station sets;

Telephone subsets; Telephone switchboards; Telephone switching apparatus; Telephone switching instruments; Telephone switching systems; Telephone test apparatus; Telephone transmitters; Telephone wire connection boxes; Telephone wires; Telephones for domestic use; Telephones for vehicles; Telephones incorporating answering machines; Telephones incorporating clocks; Telephones incorporating intercommunication systems; Telephones incorporating radios; Telephones incorporating radios and alarm clocks; Telephonic apparatus; Telephonic apparatus for the transmission of messages; Telephonic appliances; Telephonic communication apparatus; Telephonic communication instruments; Telephonic dialling apparatus by vocal synthesizer; Telephonic installations for business use; Telephony apparatus; Telephony installations; Teleprinters; Teleprocessing apparatus; Teleprocessing monitors; Teleprompters; Telerupters; Telescopes; Telescopes for use in measuring; Telescopes for use in observing; Telescopic firearm sights; Telescopic measures with a digital read out; Telescopic rules; Telescopic sights for firearms; Telethermometers; Teletypewriters; Television aerials; Television aerials for vehicles; Television antennas; Television apparatus; Television apparatus for video discs; Television apparatus for video tapes; Television apparatus incorporating sound reproducing apparatus; Television camera tubes; Television cameras; Television cameras for surveillance; Television cameras for the inspection of buildings; Television cameras for the inspection of drains; Television cameras for the inspection of pipes; Television cameras for the inspection of structures; Television cameras for undersea inspection; Television cameras for undersea surveying; Television cameras for use in weapons systems; Television display apparatus; Television display apparatus for household use; Television display apparatus for industrial use; Television display apparatus for medical use; Television display apparatus for use with computers; Television display monitors; Television display monitors for household use; Television display monitors for industrial use; Television display monitors for medical use; Television display monitors for use with computers; Television films; Television films prepared for exhibition; Television films prepared for video use; Television frame store synchronizers; Television games; Television instruments; Television modulation diplexers; Television monitoring apparatus; Television monitors; Television monitors for household use; Television monitors for industrial use; Television monitors for medical use; Television monitors for use with computers; Television outlets; Television receivers; Television receivers for household use; Television receivers for industrial use; Television receivers for medical use; Television receivers for use with computers; Television receiving apparatus; Television receiving apparatus for industrial use; Television receiving apparatus for medical use; Television receiving dishes; Television receiving sets; Television recorders;

Television screens; Television sets; Television signal amplifiers; Television signal transmission apparatus; Television standards converters; Television transmitting apparatus; Television transmitting apparatus for industrial use; Television transmitting sets; Televisions; Televisions combined with radios; Televisions incorporating clocks with light emitting diode digital displays; Televisions incorporating high definition tuners; Televisions incorporating video recorders; Telewriters; Telex apparatus; Telex interface data translating apparatus; Telex machines; Telex receiving apparatus; Telex transmission apparatus; Teller assist units; Temperature compensated crystal oscillators; Temperature compensation controls; Temperature control apparatus (electric switches); Temperature control apparatus (electric switches) for machines; Temperature control apparatus (electric switches) for vehicles; Temperature control apparatus (thermostats); Temperature control apparatus (thermostats) for machines; Temperature control apparatus (thermostats) for vehicles; Temperature controlled electric flat irons; Temperature controllers; Temperature controllers apparatus for machines; Temperature controlling apparatus; Temperature controlling apparatus (thermostats, other than valves) for central heating installations; Temperature controlling apparatus for machines; Temperature controlling apparatus for use in vehicle engines; Temperature controlling instruments; Temperature display units; Temperature feedback units; Temperature gauges; Temperature indicating apparatus; Temperature indicators; Temperature irons; Temperature limiters (thermostats) incorporating bi-metallic discs; Temperature limiters (thermostats) incorporating expansion rods; Temperature limiters (thermostats, other than valves) for central heating installations; Temperature limiters for machines; Temperature limiters for metal moulding machines; Temperature limiters for use in metal moulding; Temperature limiters for use in vehicle engines; Temperature limiters for use in vehicle heating systems; Temperature logging apparatus; Temperature matrix regulators; Temperature measurement instruments; Temperature measuring apparatus for household use; Temperature measuring apparatus for industrial use; Temperature measuring apparatus for scientific use; Temperature measuring instruments for household use; Temperature measuring instruments for industrial use; Temperature measuring instruments for scientific use; Temperature meters for household use; Temperature meters for industrial use; Temperature meters for scientific use; Temperature monitors (other than valves) for central heating installations; Temperature monitors (valves) for central heating radiators; Temperature monitors for household use; Temperature monitors for industrial use; Temperature monitors for machines; Temperature monitors for metal moulding machines; Temperature monitors for scientific use; Temperature monitors for use in metal moulding; Temperature monitors for vehicle engines; Temperature

monitors for vehicle heating systems; Temperature recorders (other than for medical use); Temperature recorders for testing static electricity; Temperature recording apparatus (other than for medical use); Temperature regulators (thermostats) incorporating bi-metallic discs; Temperature regulators (thermostats) incorporating expansion rods; Temperature regulators for vehicle engines; Temperature regulators for vehicle heating systems; Temperature responsive control apparatus for vehicle engines; Temperature responsive control apparatus for vehicle heating systems; Temperature scanners for industrial use; Temperature scanners for scientific use; Temperature sensing apparatus for industrial use; Temperature sensing apparatus for machines; Temperature sensing apparatus for metal moulding machines; Temperature sensing apparatus for scientific use; Temperature sensing apparatus for use in metal moulding; Temperature sensing apparatus for vehicle engines; Temperature sensing apparatus for vehicle heating systems; Temperature sensitive controls for automatically operating valves; Temperature sensitive testing apparatus for industrial use; Temperature sensitive testing apparatus for scientific use; Temperature sensitive testing instruments for industrial use; Temperature sensitive testing instruments for scientific use; Temperature sensors (thermostats) incorporating bi-metallic discs; Temperature sensors (thermostats) incorporating expansion rods; Temperature sensors for industrial use; Temperature sensors for metal moulding machines; Temperature sensors for scientific use; Temperature sensors for use in metal moulding; Temperature sensors for vehicle engines; Temperature sensors for vehicle heating systems; Temperature switches; Tensiometers; Tension monitoring instruments for thread manufacturing machines; Tension monitoring instruments for thread processing machines; Terminal boxes (electrical); Terminal boxes for electric conductors; Terminal controllers (electric); Terminal resistors for aerial leads; Terminal strips for electronic components; Terminal tables adapted for audio apparatus; Terminal tables adapted for video apparatus; Terminals (connectors) for electric cables; Terminals (connectors) for electrical wiring; Terminals (connectors) for optical fibres; Terminals (connectors) for telecommunication lines; Terminals (connectors) for television sets; Terminals (connectors) for video recorders; Terminals (electricity); Terminals (electricity); Terminals for checking documents; Terminals for computers; Terminals for data processing; Terminals for electronically processing credit card payments; Terminals for office use; Terminals for processing credit card transactions; Terminals for processing credit cards; Terminals for remote data processing; Terminals for the electronic payment of charges with credit cards; Terminals for the electronic transfer of funds; Terminations (connections) for sealing electric cables; Terminations (connections) for sealing thermocouples; Terminological data

bases; Test apparatus for industrial use; Test apparatus for scientific use; Test apparatus for testing electronic circuits; Test beds; Test benches; Test benches for carburettors; Test benches for pressure tests on transformers; Test clips, other than for medical use; Test dishes (other than for medical use); Test electrodes, other than for medical use; Test equipment for electronic apparatus; Test equipment other than for medical use; Test instruments for temperature measuring sensors; Test leads; Test probe assemblies for integrated circuits; Test probes for the automatic testing of bare circuit boards; Test probes for the automatic testing of loaded circuit boards; Test rigs for manometer adjustments; Test sockets for integrated circuits; Test stands for use in vehicle workshops; Test trays; Test tubes; Test tubes for immunological purposes; Test tubes for microbiological purposes; Testing apparatus for checking components used in weapons systems; Testing apparatus for checking electronic devices; Testing apparatus for checking optical devices; Testing apparatus for diagnostic purposes (other than medical); Testing apparatus for disc wheels; Testing apparatus for electronic components; Testing apparatus for electronic equipment; Testing apparatus for motor land vehicles; Testing apparatus for sale in kit form (other than medical); Testing apparatus for tires; Testing apparatus for wheels; Testing apparatus not for medical purposes; Testing baths for testing aerosol valves; Testing devices for electronic parts; Testing devices for tyre assembly machines; Testing instruments for measuring the surface roughness; Testing instruments for use in fault finding on motor vehicle engines; Testing probes, other than for medical purposes; Tetrodes; Text editors (electronic); Text layout apparatus (electric); Text layout apparatus (electronic); Textual information published on magnetic materials; Textual information published on optical materials; Theft prevention alarms (other than for vehicles); Theft prevention installations (other than for vehicles); Theft prevention installations, electric; Theodolites; Theodolites for use in surveying; Thermal array oscillographic recorders; Thermal clothing for protection against accident or injury; Thermal contacts; Thermal controls; Thermal controls (thermostats); Thermal controls (thermostats) for central heating installations; Thermal controls (thermostats) for engines; Thermal controls (thermostats) for machines; Thermal controls (thermostats) for motors; Thermal cutoffs; Thermal cutouts; Thermal detection devices (other than for medical use); Thermal electric compresses, other than for medical use; Thermal energy measuring apparatus; Thermal image apparatus (other than for medical use); Thermal image capture devices (other than for medical use); Thermal image observation devices for naval use; Thermal image observation devices for terrestrial use; Thermal image transfer devices (other than for medical use); Thermal imaging apparatus (other than for medical use); Thermal imaging apparatus for night vision;

Thermal linescan recorders; Thermal printer heads; Thermal printers (computer); Thermal protective aids (clothing) for protection against accident or injury; Thermal sensors (thermostats); Thermal storage apparatus for electricity generation; Thermal storage instruments for electricity generation; Thermal suits for aviators; Thermal suits for protection against accident or injury; Thermal switches; Thermally insulated clothing for protection against accident or injury; Thermally insulated flasks for scientific use; Thermic copiers; Thermic copying machines; Thermionic lamps and tubes; Thermionic valves (radio); Thermistor probes; Thermistors; Thermistors made of conductive polymer materials; Thermocouple cables; Thermocouple sheaths; Thermocouple wires; Thermocouples; Thermocouples for converting temperature into electrical signals; Thermoelements; Thermographic apparatus, other than for medical use; Thermography apparatus; Thermohydrometers; Thermometers, not for medical purposes; Thermoprinters; Thermoregulators; Thermosonic bonding apparatus; Thermostat control apparatus; Thermostat controllers; Thermostat controllers for heating installations; Thermostat wires; Thermostats; Thermostats for vehicles; Thick film hybrid circuits; Thick film hybrid integrated circuits; Thickness gauges; Thread counters; Threading gauges; Three dimensional picture manipulators; Three dimensional viewers; Throughflow operated laboratory centrifuges filters; Thrust measuring apparatus; Thyratrons; Thyristors; Ticket cancelling (checking) machines; Ticket data compiling machines; Ticket dispensers; Ticket dispensing machines; Ticket issuing machines; Ticket printing apparatus; Ticket printing machines; Ticket processing machines; Ticket validating machines; Ticket vending machines; Tightness checking apparatus; Tightness checking apparatus for gas valves; Tiltmeters; Tiltmeters for vehicles; Time base correctors; Time cards (encoded); Time cards (machine readable); Time cards (magnetic); Time cards (punched); Time clocks (time recording devices); Time clocks (time recording); Time coding apparatus; Time controlled feeding devices for aquatic animals; Time correction filters; Time data generators; Time delay generators; Time delay units; Time dividers for digital communication apparatus; Time division multiplexers; Time lapse video cassette recorders; Time programmers; Time recording apparatus; Time recording instruments; Time registering apparatus; Time regulating apparatus; Time switches, automatic; Time-code generators; Timers (control devices); Timers for automatic apparatus; Timers for switching on electrical devices at pre-programmed times; Timing (measuring) devices; Timing apparatus; Timing devices for controlling machines; Timing devices for industrial processing apparatus; Tissue coagulators (apparatus) for laboratory use; Tissue coagulators (apparatus) for scientific use; Tissue sampling apparatus, other than for medical use; Tissue sampling devices,

other than for medical use; Titration cells; Titration controllers; Toggle switches (electric); Tomographic apparatus, other than for medical use; Tomographic instruments, other than for medical use; Tone acknowledging apparatus; Tone arms for gramophones; Tone arms for record players; Tone pads; Tone paging; Toner cartridges (empty) for dot matrix printers; Toner cartridges (empty) for electronically operated printing apparatus; Toner cartridges (empty) for laser printers; Toner cartridges (empty) for use with electrostatic photocopiers; Toner cartridges (empty) for use with photocopying machines; Toner cartridges (empty) for use with photographic photocopiers; Toner cartridges (empty) for use with thermic photocopiers; Tonometers for measuring (not for medical purposes); Toolmakers' microscopes; Topographic apparatus (electric); Topographic apparatus (electronic); Topographic apparatus (optical); Topographic apparatus for military use; Torque measuring apparatus; Torque meters; Torque transducers; Totalizers; Totalizers (counting apparatus); Touch pads (electric); Touch pads (electronic); Touch sensitive control panels; Touch sensitive electronic screens; Toy cameras (capable of taking a photograph); Toy computers (working); Toy telephones (functioning); Toy walkie-talkies (functioning); Toys in the form of cameras (capable of taking a photograph); Trace material analysers (other than for medical use); Trace organic concentrators (other than for medical use); Tracing lines; Tracing plates; Trackballs (computer apparatus); Tracker balls (computer apparatus); Trackers (computer apparatus); Tracking being electrical conductive material for the connection of light fittings; Tracking devices for facilitating accurate underground earth boring; Tractor unit circuit outputs for use with electric connectors; Trading cards (magnetic); Traffic cones (luminous); Traffic cones (mechanical); Traffic cones incorporating a flashing light; Traffic cones incorporating a warning beacon; Traffic control apparatus (electronic); Traffic control apparatus (lighting); Traffic control apparatus (luminous); Traffic control apparatus (mechanical); Traffic control installations (electronic); Traffic control installations (lighting); Traffic control installations (luminous); Traffic control installations (mechanical); Traffic control instruments (electronic); Traffic control instruments (lighting); Traffic control instruments (luminous); Traffic control instruments (mechanical); Traffic guidance apparatus (electronic); Traffic guidance apparatus (luminous sign); Traffic guidance apparatus (mechanical); Traffic guidance installations (electronic); Traffic guidance installations (luminous signs); Traffic guidance installations (mechanical); Traffic information panels (luminous signs); Traffic light apparatus (signalling devices); Traffic signs (luminous); Traffic signs (mechanical); Training aids (apparatus); Training apparatus (teaching apparatus); Training guides in electronic format; Training guides in the form of a computer program; Training

manuals in electronic format; Training manuals in the form of a computer program; Training materials (apparatus); Training simulators for civil aviation purposes; Transceivers; Transcribing machines; Transcription apparatus; Transducer apparatus; Transducer devices for converting incident electromagnetic signals to electrical signals; Transducer devices for converting incident ultrasonic signals to electrical signals; Transducer energisers; Transducers; Transducers, other than for medical use; Transformer breakdown testers; Transformer units; Transformers (electricity); Transformers being electromagnetic devices for industrial applications; Transformers being electromagnetic devices for military applications; Transformers operating as rectifiers; Transient protection apparatus; Transient suppression coils; Transistor sockets; Transistor testers; Transistors (electronic); Transit compasses; Translating machines; Translation apparatus; Translation computers; Transmission cables adapted for coupling to vehicle instruments; Transmitter receivers; Transmitter simulators; Transmitters (telecommunication); Transmitters being emergency electrical communications apparatus; Transmitters for broadcasting in frequency modulation; Transmitters for emitting distress signals; Transmitters for the transmission of electric signals; Transmitters for the transmission of electronic signals; Transmitters for use in emergency communications; Transmitters for use in security; Transmitters for use in the transmission of television programmes; Transmitters for use with computers; Transmitters of electronic signals; Transmitting apparatus; Transmitting apparatus for producing facsimile copies of documents; Transmitting apparatus for radio; Transmitting apparatus for satellite broadcast; Transmitting apparatus for telecommunications; Transmitting apparatus for use in communications; Transmitting instruments; Transmitting magnetic compasses; Transmitting sets (telecommunication); Transmitting tubes; Transparencies (exposed photographic film) for use with projectors; Transparencies (photography); Transparencies for luminous signs; Transparency projection apparatus; Transparent film in roll form (photographic, exposed); Transparent film in sheet form (photographic, exposed); Transparent films (photographic, exposed) for overhead projectors; Transponder units; Transponders; Transport lines for particle clusters; Transportable guitar amplifiers; Travel adaptors for electric plugs; Travel distance monitors; Travel guides in the form of audio recordings; Travel guides in the form of video recordings; Travelling wave tubes; Trays for holding detection tubes (not for medical use); Trays for the storage of microchips; Triggering circuits; Trimmer capacitors; Trimmer resistors; Trip computers; Trip counters; Tripods for binoculars; Tripods for cameras; Tripods for electronic apparatus; Tripods for loudspeakers; Tripods for microphones; Tripods for photographic apparatus; Tripods for video cameras; Tube holders being

laboratory apparatus; Tubes (pipettes) for scientific use; Tubes for electrical purposes; Tubes for scientific use; Tubes for temperature measurement; Tubing casing for electric wires; Tubing for laboratory purposes in the pharmaceutical industry; Tubing made from glass for laboratory use; Tubular welding electrodes (electric); Tumbler switches; Turbine meters; Turnstiles (coin operated); Turnstiles (counter operated); Turnstiles, automatic; Turntable ladders for use by fire brigades; Turntables (gramophones); Turntables (parts for microscopes); Two-way plugs for headphones; Two-way wireless communication systems; Type styles in the form of recorded data; Typeface data recorded on electronically readable data carriers; Typeface fonts pre-recorded on magnetic media; Typeface fonts stored in semiconductor memories for use in printers; Typefaces in the form of recorded data; Tyre gauges; Tyre matching apparatus; Tyre matching instruments; Tyre monitoring apparatus; Tyre monitoring instruments; Tyre pressure gauges; UV radiation exposure indicator (dosimeter); Ultra filters for laboratory apparatus; Ultra filtration filters (laboratory apparatus); Ultra filtration installations (laboratory); Ultra filtration membranes for laboratory apparatus; Ultrafiche (exposed); Ultrafuges for laboratory use; Ultrahigh frequency translator apparatus; Ultramicrometers; Ultramicroscopes; Ultramicrotomes; Ultrasonic apparatus for scanning components for flaws; Ultrasonic apparatus for the drying of articles; Ultrasonic apparatus, other than for medical use; Ultrasonic cleaning apparatus for laboratory use; Ultrasonic cleaning instruments for laboratory use; Ultrasonic degreasing apparatus for laboratory use; Ultrasonic diagnostic apparatus for laboratory use; Ultrasonic diagnostic instruments for laboratory use; Ultrasonic fluid measuring apparatus; Ultrasonic generators being parts for ultrasonic cleaning machines; Ultrasonic glass delay lines; Ultrasonic measuring apparatus; Ultrasonic microphones; Ultrasonic probes, other than for medical use; Ultrasonic sensors, other than for medical use; Ultrasonic sound apparatus, other than for medical use; Ultrasonic testing apparatus, other than for medical use; Ultrasonic thickness gauges; Ultrasonic transducers; Ultrasonic transducers being parts for ultrasonic cleaning machines; Ultrasonic wave type intruder sensors; Ultrasonic welding apparatus for plastics assembly; Ultrasound diagnostic apparatus, other than for medical use; Ultrasound imaging devices, other than for medical use; Ultraviolet detection apparatus; Ultraviolet filters, other than for medical use; Umbrellas for photographic use; Under carpet electrical wiring installations; Undersuits for divers; Underwater acoustic detecting apparatus; Underwater communications devices; Underwater dive computers; Underwater sonar navigational apparatus; Underwater sonar surveying apparatus; Underwater telephone apparatus for use by divers; Unijunction transistors; Uninterruptable power supply apparatus; Uninterruptable power supply instruments;

Uninterruptible power supply apparatus (battery); Units adapted for the storage of audio cassettes; Units adapted for the storage of computer disks; Units adapted for the storage of video cassettes; Units for converting information received in machine readable format; Units for decoding information received in machine readable format; Units for displaying information received in machine readable format; Universal disturbance analysers; Universal timers; Unrecorded audio cassettes; Unrecorded magnetic tapes; Unrecorded video cassettes; Unrecorded videodiscs; Unrecorded videodisks; Unrecorded videos; Unsensitised photographic plates; Upgrade cards for computers; Urinometers; User guides in machine readable format; User programmes in machine readable form; Utensils for photographic purposes; VHS equipment; Vacuum apparatus for laboratory use; Vacuum capacitors; Vacuum climatic testing apparatus; Vacuum deposition technology instruments; Vacuum devices for laboratory use; Vacuum drawdown devices for exposing lithographic printing plates; Vacuum flasks for laboratory use; Vacuum gauges; Vacuum measuring instruments; Vacuum physics technology apparatus; Vacuum probes for laboratory use; Vacuum probes for scientific use; Vacuum tubes (radio); Value added network apparatus; Value cards (machine readable); Value cards (magnetic); Value cards for accreditation purposes (machine readable); Value cards for accreditation purposes (magnetic); Value cards for financial purposes (machine readable or magnetic); Value cards for financial purposes (magnetic); Value cards for security purposes (machine readable or magnetic); Value cards for security purposes (magnetic); Valve operators (electric controls); Vapour deposition apparatus; Vapour monitoring apparatus for the detection of leaks; Variable capacitors; Variable resistances; Variable resistors; Variable speed control apparatus; Variometers; Varistors; Vehicle batteries; Vehicle breakdown warning triangles; Vehicle fuses; Vehicle guide apparatus; Vehicle location instruments; Vehicle locks (electric); Vehicle mounted apparatus for fire fighting; Vehicle parking meters; Vehicle radios; Vehicle stereos; Vehicle test stands (incorporating testing apparatus); Vehicle tracking apparatus; Vehicular communication apparatus; Vending apparatus; Vending machines; Vending machines for dispensing stamps; Vending machines for printed articles; Vending machines for tickets; Vending machines for vouchers; Ventilation suits; Ventilator breathing apparatus (other than for artificial respiration); Ventilator exhalation valves (other than for artificial respiration); Ventilator exhalation valves being parts of underwater breathing apparatus; Verniers; Vertical measuring machines; Vial plugs; Vials for laboratory use; Vials for scientific purposes; Vials for use in biochemical reactions; Vibrating separators (laboratory apparatus); Vibrating spatulas for laboratory use; Vibrating spatulas for scientific use; Vibration apparatus for the purpose of introducing forces into test models;

Vibration apparatus for the purpose of shaking test models; Vibration dampers for overhead electrical cables; Vibration detectors; Vibration exciters; Vibration gauges; Vibration generating apparatus for laboratory use; Vibration isolation apparatus; Vibration sensors; Vibratory screening apparatus for laboratory use; Vibratory separation apparatus for laboratory use; Video acquisition transition apparatus; Video amplifying apparatus; Video apparatus; Video apparatus for television studios; Video baroscopes for industrial use; Video camera security apparatus; Video camera security installations; Video camera security instruments; Video cameras; Video cameras adapted for monitoring purposes; Video cameras adapted for security purposes; Video cameras combined with video recorders; Video cameras for use in integrated television editing; Video cameras for use in television transmission suites; Video cards; Video cartridges; Video cassette players; Video cassette recorders; Video cassette storage units; Video cassettes; Video cassettes bearing visual images; Video cassettes for bearing recorded motion pictures; Video character generators; Video circuit boards; Video communications apparatus; Video communications instruments; Video compact discs; Video conferencing apparatus; Video coupling apparatus; Video data converting apparatus; Video detectors; Video devices; Video digitisers; Video digitizers; Video display apparatus; Video display instruments; Video display screens; Video display terminal filters; Video display terminals; Video display units; Video door telephone apparatus; Video door telephone installations; Video editing apparatus; Video effects apparatus; Video effects machines; Video enhancers; Video equipped remote visual inspection apparatus; Video films; Video films prepared for exhibitions; Video game amusement apparatus (adapted for use with an external display screen or monitor); Video game apparatus for use with televisions only; Video game cartridges; Video game computer programs; Video game computer programs for use with game apparatus not requiring a separate means of display; Video game liquid program memory cartridges; Video game machines adapted for use with an external display screen or monitor); Video game programs; Video game programs for coin-operated apparatus; Video game programs for use in computers; Video game programs for use with computers; Video games on disc (computer software); Video games on tape (computer software); Video games programs (computer software); Video intercom apparatus; Video local area network controllers; Video mixers; Video mixing apparatus; Video modifying apparatus; Video monitor controllers; Video monitors; Video multiplexing apparatus; Video multiplexing apparatus for use with video camera installations; Video phones; Video playback apparatus; Video players; Video printers; Video printing apparatus; Video processing apparatus; Video processors; Video production apparatus; Video projection apparatus; Video

projection monitors; Video projectors; Video recorders; Video recording apparatus; Video recording apparatus incorporating sound reproducing apparatus; Video recording discs; Video recording instruments; Video recording materials; Video recording tapes; Video recordings; Video recordings in the form of tapes; Video recordings incorporating sound track; Video records; Video records in the form of discs; Video reproducing apparatus; Video reproduction instruments; Video scanning apparatus; Video scanning instruments; Video screens; Video signalling apparatus; Video surveillance apparatus; Video surveillance cameras; Video switching apparatus; Video tape cassettes; Video tape editing apparatus; Video tape editing controllers; Video tape players; Video tape recorders; Video tape recorders incorporating video cameras; Video tape recording apparatus; Video tape reproducing apparatus; Video tapes; Video teleconferencing apparatus; Video telephones; Video terminals; Video transmitters; Video transmitting apparatus; Video tuners; Video wall installations; Videodisc players; Videodisc recorders; Videodiscs; Videodisk players; Videodisk recorders; Videodisks; Videophone; Videorecorders; Videos; Videotapes; Videotext computer terminals incorporating alphanumeric keyboards; Videotext keyboard terminals for use with telephone apparatus; Vidicons; View data terminals; Viewdata display terminals; Viewers; Viewers for use with slides; Viewers for use with transparencies; Viewfinders, photographic; Viewing apparatus; Viewing apparatus (peepholes) for doors; Vinyl pressed records; Vinyl records; Viscometers; Viscosimeters; Visors (protective); Visors for the protection of welders; Visual display apparatus; Visual display apparatus for reading data; Visual display apparatus for recording data; Visual display apparatus for use in training personnel; Visual display apparatus for use with computers; Visual display screens; Visual display terminals; Visual display unit screen filters; Visual display unit text apparatus; Visual display units; Visual inspection apparatus; Visual inspection instruments; Visual instruments for examining semiconductor apparatus; Visual monitoring apparatus; Visualization apparatus; Vocabulary note books (electronic); Vocoders; Voice actuated computer apparatus; Voice actuated computer instruments; Voice amplifiers for detecting doorbells; Voice amplifiers for detecting ringing mechanisms; Voice amplifiers for detecting telephone rings; Voice apparatus for analogue network apparatus; Voice apparatus for digital network apparatus; Voice facsimile communication apparatus; Voice frequency telephony apparatus; Voice frequency transmission apparatus; Voice logging apparatus; Voice mail systems; Voice operated coders; Voice processing apparatus; Voice processing instruments; Voice processing systems; Voice processors; Voice recognisers; Voice response equipment; Voice signalling apparatus for use with line telephone systems; Voice signalling apparatus for use with mobile radio systems; Voice signalling apparatus for use

with radio paging systems; Voice synthesizers; Voice transmission apparatus; Volt meters; Voltage blocks to prevent electricity flow down a material supply line in apparatus; Voltage controlled crystal oscillators; Voltage controlled temperature compensated crystal oscillators; Voltage conversion apparatus; Voltage conversion apparatus for land based use; Voltage conversion apparatus for shipboard use; Voltage converters; Voltage detectors; Voltage dividers; Voltage limiters; Voltage meters; Voltage regulators; Voltage regulators for land vehicles; Voltage regulators for transport apparatus; Voltage regulators for vehicles; Voltage spike suppressors; Voltage stabilisers; Voltage stabilising apparatus; Voltage surge protectors; Voltage testers; Voltage testing devices; Voltage testing instruments; Voltage transformers; Voltage-to-current converters; Voltmeters; Volume control pedals; Volumetric measuring apparatus; Voting machines; Voucher reading apparatus; Wafers (silicon slices); Waling glasses; Walkie-talkies; Wall mountings adapted for television apparatus; Wall mountings adapted for television instruments; Wall mountings adapted for television monitors; Wall plates adapted for electrical components; Wall plates for electrical components; Wall plates for electrical connections; Wallet pouches for the storage of magnetic discs (specifically adapted); Warm air furnaces for laboratory experiments; Warning alarms (other than for vehicles); Warning apparatus (other than for vehicles); Warning cables; Warning indicating apparatus (other than for vehicles); Warning lamps (beacons); Warning lamps for indicating the presence of X-ray radiation; Warning lamps for indicating the presence of radiation; Warning light for mounting on the roof of emergency services vehicles; Warning lights (beacons); Warning lights (flashing beacons); Warning loud speaker apparatus for mounting on the roof of emergency services vehicles; Warning triangles; Warp monitoring apparatus for textile machines; Washing trays (photography); Water distress beacons; Water jets for fire extinguishing purposes; Water leakage detection alarms; Water level detection apparatus; Water level gauges; Water level indicators; Water level regulators (other than valves being parts of sanitary installations); Water meters; Water quality monitoring equipment; Water quality sampling equipment; Water sprinkling devices for fire control; Water stills; Water temperature regulators; Water timers; Water wings; Waterproof deck glands; Waterproof moulded polyethylene cylinders for storing life saving apparatus; Waterproof safety clothing for the prevention of accident; Waterproof safety clothing for the prevention of injury; Wattmetres; Wave filters adapted for use with microwaves; Wave meters adapted for use with microwaves; Wave receivers adapted for use with microwaves; Waveform recording apparatus; Waveguides; Waveguides (electronic devices); Waveguides (optical components); Waveguides (telecommunications components); Wavemeters; Weapon simulators; Weapons control apparatus;

Weapons control installations; Weapons simulators; Weather chart receivers; Weather information apparatus; Weather information instruments; Weather protecting housings for cameras (specifically adapted); Weekly publications (electronic); Weekly publications downloaded in electronic form from the internet; Weighbridges; Weighers; Weighing apparatus and instruments; Weighing devices; Weighing instruments; Weighing machines; Weighing scales; Weighing scales for kitchen use; Weighing scales for medical use; Weighing scales for personal use; Weight transducers; Weights; Weights for measuring; Welding apparatus, electric; Welding apparatus, electric (other than machines); Welding current generators; Welding electrodes; Welding helmets; Welding machine control apparatus; Welding masks; Welding torches (electric); Wet diving suits; Wet suits for divers; Wet suits for diving; Wheel alignment measuring apparatus; Wheel alignment measuring instruments; Wheel alignment meters; Wheel balancing apparatus; Wheel balancing apparatus utilising computers; Wheel balancing instruments; Wheel balancing machines; Whistle alarms; Whistles (warning apparatus); Whistles for signalling; Wideband phase-angle voltmeters; Wind measurement apparatus; Wind socks (for indicating wind direction); Wind tunnels being measuring installations; Wind tunnels being testing installations; Winding wires; Windsocks; Wire connectors (electricity); Wire free data transmission apparatus; Wire gauges; Wire patch cords; Wire shielded against electromagnetic interference; Wire telephones; Wired communication apparatus; Wireless apparatus; Wireless communication apparatus; Wireless high frequency transmission instruments; Wireless instruments; Wireless pulse transmitters; Wireless receiving apparatus; Wireless telegraphy apparatus; Wireless telephones; Wireless transmission apparatus; Wireless transmission apparatus for remote control; Wireless transmitters; Wires for communication; Wires for electric fences; Wires of metal alloys (fuse wire); Wires, electric; Wiring apparatus for electricity; Wiring looms and harnesses for vehicles (electric cables); Wood signs (luminous); Word processing apparatus; Word processing installations; Word processing instruments; Word processing programmes; Word processors; Word processors comprising keyboards; Word processors comprising printout apparatus; Word processors comprising video display screens; Work stations (computer apparatus); Work stations (computers); Working shoes (protective against accident or injury); Workmen's protective face-shields; Wrist rests for use with computers; Wrist supports for the prevention of injury; Wrist supports for the prevention of injury whilst participating in sport; X-ray analysers (other than for medical use); X-ray apparatus for industrial purposes; X-ray film cassettes; X-ray film frames, other than for medical use; X-ray film holders, other than for medical use; X-ray film imaging apparatus, other than for medical use; X-ray film mounts, other than for medical use; X-ray film processors, other

than for medical use; X-ray films, exposed; X-ray illuminators, other than for medical use; X-ray laminographic inspection apparatus, other than for medical use; X-ray photographic apparatus, other than for medical use; X-ray photographs, other than for medical purposes; X-ray plates (exposed) other than for medical use; X-ray producing apparatus (other than for medical use); X-ray scanners (other than for medical use); X-ray sensitive films (other than for medical use); X-ray spectroscopy apparatus (other than for medical use); X-ray structure analysis apparatus (other than for medical use); X-ray structure analysis instruments (other than for medical use); X-ray viewers other than for medical use; X-rays producing apparatus and installations, not for medical purposes; X-rays tubes not for medical purposes; Xerographic copying machines; Yarn counters; Yarn detectors for signalling the absence of yarns; Yarn detectors for signalling the presence of yarns; Zener components; Zener diodes; Zone plate antennas.

Class 36

Accident insurance; Accident insurance underwriting; Accommodation bureaux (apartments); Accommodation letting agency; Account debiting services; Acquisition for financial investment; Actuarial services; Actuarial services relating to financial transactions; Administration of capital investment services; Administration of financial affairs; Administration of fund investment; Administration of group insurance; Administration of insurance business; Administration of insurance claims; Administration of insurance plans; Administration of insurance portfolios; Administration of investment funds; Administration of investments; Administration of mutual funds; Administration of mutual funds; Administration of pension funds; Administration of pension schemes; Administration of shares; Administration of trusts; Administrative services relating to investments; Advancement of funds; Advice on finance for retirement; Advice on fiscal assessments; Advice on fiscal valuations; Advice regarding credit; Advice regarding lending services; Advice relating to insurance; Advice relating to investment for retirement; Advice relating to investments; Advice relating to loan recovery services; Advice relating to mortgages for residential properties; Advice relating to pensions; Advice services relating to enhancement of mortgages; Advisory services relating to (financial) risk management; Advisory services relating to banking; Advisory services relating to credit; Advisory services relating to finance; Advisory services relating to financial investment; Advisory services relating to financial matters; Advisory services relating to financial planning; Advisory services relating to financing; Advisory services relating to futures; Advisory services relating to insurance; Advisory services relating to insurance claims; Advisory services relating to investment finance; Advisory services relating to investments; Advisory

services relating to life insurance; Advisory services relating to loan services; Advisory services relating to money management; Advisory services relating to mortgages; Advisory services relating to mutual funds; Advisory services relating to real estate ownership; Advisory services relating to real estate valuations; Advisory services relating to unit trusts; Agencies for the exchange of currency; Agencies for the exchange of financial operations; Agencies for the exchange of money; Agency services for arranging travel insurance; Agency services for bonds; Agency services for lending on mortgage; Agency services for securities; Agency services for the leasing of real estate property; Agency services for the selling on commission of real property; Annuity services; Antique appraisal; Antique appraisal services (Valuation); Apartment house management; Apartment letting agency; Apartment rental services; Appraisal (valuation) of stamps; Appraisal of real estate; Appraisals (Valuation) of antiques; Appraisals (Valuation) of jewellery; Appraisals (Valuation) of stamps; Appraisals for insurance purposes; Arranging of insurance; Art appraisal; Bail bond services; Bail-bonding; Bailiff services (debt collection); Bank account information services; Bank account services; Bank card services; Bank cheque card services; Bank note checking; Bankers clearing house services; Bankers' clearing services; Bankers' clearing-house services; Banking; Banking insurance; Banking services in relation to the electronic transfer of funds; Banking services provided for schools; Banking services relating to travellers' cheques; Benevolent fund services; Bonding (provision of financial guarantees); Bonds brokerage services; Brokerage; Brokerage advisory services relating to insurance; Brokerage of bonds; Brokerage of building society savings agreements; Brokerage of currency; Brokerage of futures; Brokerage of futures contracts; Brokerage of insurance; Brokerage of real estate; Brokerage of securities; Brokerage of shares; Brokerage of stocks; Brokerage or underwriting of warranties and guarantees; Brokerage services for bonds; Brokerage services for securities; Brokerage services relating to debt instruments; Brokerage services relating to financial instruments; Brokerage services relating to municipal bonds; Brokerage services relating to mutual funds; Brokerage services relating to the securities markets; Budget account services; Building society services; Bullion brokerage services; Bureau de change services; Business appraisals for financial valuation; Business insurance underwriting; Business liquidation services (financial); Buying and selling currency; Capital fund investment; Capital fund management; Capital investment; Capital investment advisory services; Capital investment in real estate; Capital investments; Capitalization services; Caravan insurance services; Carbon brokerage services; Carbon trading services; Card accessed banking services; Card operated financial services; Cash card services; Cash disbursement services; Cash dispenser services;

Cash dispensing services; Cash management; Cash processing; Cashing of personal cheques; Charge-card services; Charitable collections; Charitable fund raising; Charitable fundraising; Charitable services, namely financial services; Check (cheque) verification; Cheque account services; Cheque authorization services; Cheque cashing services; Cheque clearing; Cheque evaluation services; Cheque guarantee services; Claims handling services; Claims settlement agency services; Clearing (financial); Clearing house financial services; Clearing-houses (financial); Co-operative credit society services; Collection of credit sales; Collection of debts; Collection of fees, payments or tolls (for others); Collection of payments; Commercial lending; Commercial mortgage brokerage; Commercial property investment services; Commercial real estate agency services; Commodities brokerage; Commodities exchange services; Commodities financing; Commodities insurance; Commodities investment advisory services; Commodities investment consultation services; Commodities, gold, mercantile, monetary and security exchanges; Commodity trading (financial services); Comparison of performance of securities; Computerised banking services; Computerised financial services; Computerised transfer of funds; Conducting financial feasibility studies; Conducting of financial transactions; Conducting valuations; Consultancy in establishing employee benefit funds; Consultancy services relating to credit; Consultancy services relating to finance; Consultancy services relating to insurance; Consultancy services relating to investment; Consultancy services relating to personal finance; Consultation services relating to financial matters; Consultation services relating to real estate; Consultations (Financial); Consultations (Insurance); Consultations relating to banking; Consultations relating to credit; Consultations relating to investment; Consumer credit services; Contract guarantee services; Contributory benefit scheme services; Corporate finance consultancy; Corporate finance services; Corporate financing; Corporate funds management; Corporate lending; Corporate trust services; Corporate trustee services; Credit (financing); Credit account insurance brokerage; Credit bureaux; Credit card registration services; Credit card services; Credit character investigations and reporting; Credit insurance underwriting; Credit rating agencies; Credit union services; Currency exchange services; Customs agents; Customs brokerage; Debit card services; Debit collection; Debt collecting; Debt collection agencies; Debt collection agency services; Debt factoring; Debt management services; Debt recovery; Debt recovery agency; Debt restructuring; Deposit accounts services; Deposit of valuables; Deposit savings; Deposit services; Deposit-holding; Deposit-taking; Deposits of valuables; Direct debit services; Discount card services; Discount factoring; Dispensing of cash; Domestic property finding services; Economic financial research services; Electronic Funds transfer; Electronic

banking; Electronic money transfer services; Electronic payment services; Emergency financial services; Endowment insurance services; Environmental brokerage services; Equity financing; Equity release services; Escrow services; Estate agencies; Estate agency; Estate agent services; Estate brokerage; Estate duty planning; Estate management; Estate planning services (arranging financial affairs); Estimates for financial purposes; Estimates for insurance purposes; Evaluation of real estate; Exchange brokerage; Exchanging money; Executor and trustee services; Export credit management; Export factoring; Export finance services; Extended guarantee insurance; Extended warranties services; Extended warranty insurance; Factoring; Factoring of debts; Factoring of financial undertakings; Factoring services for invoices; Fiduciary; Fiduciary services; Finance leasing; Financial advice; Financial advice relating to taxation; Financial advice relating to wills; Financial advisory services; Financial advisory services for companies; Financial advisory services for individuals; Financial advisory services relating to retirement plans; Financial advisory services relating to tax; Financial advisory services relating to taxation; Financial advocacy services; Financial analysis; Financial appraisals; Financial assessments; Financial asset management; Financial assistance; Financial banking; Financial brokerage; Financial business appraisals; Financial clearing house service; Financial consultancy; Financial consultation services; Financial credit services; Financial database services; Financial economic advisory services; Financial economic analysis; Financial evaluation (insurance, banking, real estate); Financial evaluations; Financial exchange services; Financial fund management; Financial grant services; Financial guarantee assessment services; Financial guarantee services; Financial information; Financial information services; Financial intermediary services; Financial investigation services; Financial investment; Financial investment advisory services; Financial investment fund services; Financial investment management services; Financial investment research services; Financial leasing; Financial lending; Financial loan services; Financial loss management; Financial management; Financial management advisory services; Financial market information services; Financial modelling services; Financial nominee services; Financial payment services; Financial planning; Financial portfolio management; Financial research; Financial risk management; Financial savings services; Financial securities; Financial services; Financial sponsorship; Financial sponsorship of education, training, entertainment, sporting or cultural activities; Financial strategy consultancy services; Financial transaction services; Financial trust management; Financial underwriting; Financial valuation services; Financial valuations; Financing of home loans; Financing of investments; Financing of personal loans; Financing services; Fire insurance; Fire insurance underwriting; Fire insurance valuations;

Fiscal assessments; Fiscal valuations; Fund investments; Gold exchanges; Guarantee insurance services; Guarantee services; Guaranteed loans; Guaranteeing loans; Guarantees; Health insurance; Health insurance underwriting; Hire purchase financing; Hire-purchase financing; Home banking; Home contents insurance; Household insurance services; Housing agency; Housing agents; Income tax financial advice; Independent financial planning advice; Industrial financing services; Industrial investment; Information services relating to banking; Information services relating to insurance; Insolvency services (financial); Instalment credit financing; Instalment loan financing; Instalment loans; Insurance; Insurance administration; Insurance advice; Insurance advisory services; Insurance agency services; Insurance arranging services; Insurance brokerage; Insurance brokering; Insurance broking; Insurance claim assessments; Insurance claim settlements; Insurance claims adjustment services; Insurance consultancy; Insurance consultation services; Insurance for businesses; Insurance for legal expenses; Insurance for offices; Insurance for property owners; Insurance for third party liability; Insurance guarantees; Insurance information; Insurance investigations; Insurance loss assessment; Insurance management services; Insurance of anti-theft systems; Insurance of buildings; Insurance of communications apparatus; Insurance of goods while in transit; Insurance premium financing services; Insurance relating to property; Insurance research; Insurance risk management; Insurance services; Insurance services for mobile telephones; Insurance services for the protection of mortgages; Insurance services relating to aviation; Insurance services relating to boats; Insurance services relating to credit; Insurance services relating to goods; Insurance services relating to legal costs; Insurance services relating to pension funds; Insurance services relating to property; Insurance services relating to real estate; Insurance services relating to sport; Insurance services relating to travel; Insurance services relating to vehicles; Insurance studies; Insurance underwriting; Interest rate risk management; International banking; International fund investment; Internet banking; Investing of funds; Investment; Investment account services; Investment advice; Investment analysis; Investment asset management; Investment bank services; Investment banking; Investment brokerage; Investment business services; Investment consultancy; Investment consultations; Investment custody; Investment fund management; Investment information; Investment management; Investment management of funds; Investment performance monitoring; Investment planning; Investment portfolio management services; Investment research; Investment trust management; Investment trust services; Investment trusteeship; Invoice discounting services; Issuance of bonds; Issuance of credit cards; Issuance of guarantees; Issue of credit cards; Issue of letters of credit; Issue of statements of

account; Issue of tokens of value; Issuing of cash vouchers; Issuing of cheques; Issuing of credit cards; Issuing of guarantees; Issuing of letters of credit; Issuing of mortgage bonds; Issuing of negotiable instruments; Issuing of promissory notes; Issuing of statements of accounts; Issuing of tokens of value in relation to customer loyalty schemes; Issuing of tokens of value in relation to incentive schemes; Issuing of travel vouchers; Issuing of travellers' checks (cheques); Issuing of vouchers; Issuing of vouchers or tokens of value in relation to the supply of benefits for customer loyalty and frequent buyer schemes; Issuing of vouchers or tokens of value in relation to the supply of benefits for frequent flyer schemes; Issuing tokens of value; Jewellery appraisal; Jewellery appraisal (valuation); Jewelry appraisal; Land leasing services; Lease purchase finance; Lease-purchase financing; Leasing of accommodation; Leasing of apartments; Leasing of buildings; Leasing of farms; Leasing of freehold property; Leasing of houses; Leasing of office space; Leasing of property; Leasing of real estate; Leasing of shopping premises; Legal expenses insurance; Lending against securities; Lending against security; Lending on mortgage; Letting of apartments; Letting of office accommodation; Letting of showrooms; Life assurance; Life assurance brokerage; Life assurance consultancy; Life insurance; Life insurance underwriting; Loan financing; Loan guarantees; Loan services; Loan services for property investment; Loans (financing); Loans against securities; Loss adjustment; Loss assessments; Management consultancy relating to insurance; Management of finances; Management of financial assets; Management of funds; Management of investments; Management of pension funds; Management of property; Management of real estate; Management of securities; Management of shares; Management of stocks; Management of unit trusts; Management pensions schemes; Marine insurance; Marine insurance underwriting; Medical insurance; Medical, surgical or hospital health insurance; Merchant banking; Monetary affairs consultancy; Monetary exchange; Monetary transaction services; Monetary transfer; Money brokerage; Money deposit services; Money exchange services; Money exchanging; Money lending; Money order services; Money transfer services; Monitoring of financial portfolios; Monitoring of investment funds; Monitoring of pension funds; Mortgage advice; Mortgage and savings services; Mortgage banking; Mortgage banking and brokerage; Mortgage banking insurance; Mortgage brokerage services; Mortgage brokering; Mortgage broking; Mortgage financing services; Mortgage insurance; Mortgage investment management; Mortgage lending; Mortgage loan services; Mortgage loans; Mortgage protection policies; Mortgage services; Mortgaging; Motor insurance; Motor vehicle insurance services; Mutual fund management; Mutual fund services; Mutual funds; National debt collection; National money transfer services; Nominee services; Numismatic appraisal;

Application for a series of four marks.

Class 01

Acids; adhesives for industrial purposes; agricultural chemicals, except fungicides; alcohol for industrial purposes; amides for use in industry; chemical additives for oils; chemical additives for use in manufacture; chemical fuel additives; chemical preparations for scientific purposes; chemical substances for use in manufacture; chemical substances for use in the manufacture of products for household use; chemicals for use in the manufacture of cosmetics; chemicals used in industry; detergents for use in manufacturing processes; emollients for industrial purposes; emulsifiers; esters of fatty acids for use as pharmaceutical preparations; esters of fatty acids for use in manufacture; esters; fatty acids; fertilizing preparations; glycerides; glycerine esters; glycerine for industrial purposes; industrial chemicals; ingredients for cosmetics; ingredients for skin care preparations; oleic acid; paper pulp; soap for industrial purposes; stearic acid; surface-active chemical agents; surfactants for use in personal care products; tanning substances; triglycerides.

Class 03

Bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; soaps; essential oils; abrasives; perfumery; cosmetics; toiletries; hair lotions; oils for cosmetic purposes; oils for perfumes and scents; dentifrices; anti-perspirants; hair care preparations and products; non-medicated skincare preparations; non-medicated body care preparations; non-medicated sun-care preparations.

Class 04

Industrial oils and greases; fuels (including motor spirit) and illuminants; candles and wicks for lighting; wax; wax for use in manufacture; fuel; diesel fuel; diesel oil; alcohol; olein; stearin; tallow; lubricants; lighting fuel; coal; industrial wax; carnauba wax.

Class 05

Esters of fatty acids for use as pharmaceutical preparations; oils for pharmaceutical purposes; alcohol for pharmaceutical purposes; glycerine for medical purposes; pharmaceutical preparations; skin care (pharmaceutical preparations for-); air purifying preparations; deodorants, other than for personal use; detergents for medical purposes; disinfectants for hygiene purposes; sterilizing preparations; food for babies; veterinary preparations; fungicides; herbicides; parasitocides; pesticides; insecticides; medicated additives for animal foods; nutritional additives for

medical purposes; mineral additives; medicated bodycare preparations.

Class 16

Bags of paper or plastics, for packaging; wrappers of cardboard or paper; boxes of cardboard or paper; cardboard; cardboard articles; paper; packing paper; wrapping paper; advertisements boards of paper or cardboard; plastic film for wrapping; viscose sheets for wrapping; stationery; envelopes; office requisites, except furniture; pens; pencils; printed matter; printing blocks; printing type; printed advertising materials; calendars.

Class 29

Coconut oil; palm oil for food; palm kernel oil for food; edible oils; fats; shortenings being mixtures of edible oils and edible fats; margarine; vegetable ghee [edible fats]; hydrogenated vegetable oils; nuts, prepared; corn oil; maize oil; rape oil for food; sesame oil; sunflower oil for food; nuts, prepared; peanuts, processed; peanut butter.

Class 30

Flour; biscuits; cookies; bread; cakes; candy for food; confectionery; edible ices; cereal preparations; pastry; noodles; vermicelli (noodles); pasta; chocolate; cocoa; cocoa-based beverages; coffee; coffee-based beverages; tea; sugar; rice; sago; starch products for food; honey; yeast; leaven; salt; mustard; vinegar; condiments; dressings for salad; sauces; seasonings; spices; essences for foodstuffs; flavourings.

Class 31

Rice, unprocessed; beans, fresh; fruit, fresh; nuts; peanuts; cashew kernels; grains; cereal seeds, unprocessed; sesame; barley; copra; malt for brewing and distilling; plant seeds; plants; pet food; animal foodstuffs; animal feed; non-medicated additives for animal foodstuffs.

Class 35

Advertising; import-export agencies; sales promotion for others; procurement services for others; the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail or wholesale outlet; presentation of goods on communication media, for retail purposes; retail services; rendering business assistance in connection with the establishment and/or operation of person to person wholesale and retail merchandising of various goods namely edible oils and edible fats, chemicals, foods, food supplements, cosmetics, detergents, cleaning preparations, candles, oral and body products, soaps and animal feed; business advisory services relating to the establishment of

franchises; business advisory services relating to product development; marketing advisory services; advisory, information and consultancy services relating to all the aforesaid.

Class 39

Warehousing of goods; arrangements for the transport of goods by rail, vehicles, motor vehicles, aircrafts and ships; unloading cargo; cargo handling; delivery of goods; freighting; freight shipping; freight transportation services; packing of freight; freight forwarding namely recording, identifying and monitoring of goods; brokerage (freight-); brokerage (transport-); transport, packaging and storage of goods; stevedoring; advisory services relating to transportation; advisory, information and consultancy services relating to all the aforesaid.

Class 40

Milling; processing of oil; fodder processing; refining of oil; processing of materials; processing of chemicals; processing of agricultural products; chemical processing of liquids; food and drink processing (for others); advisory, information and consultancy services relating to all the aforesaid.

International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.
