**PRACTICE DIRECTION NO. 1 OF 2009
HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days:

This Practice Direction will come into effect on 1st day of June, 2009.

A. Hours Of Business

Subject to rules 79(4) and 79(6A) of the Trade Marks Rules, the hours of business of the Registry shall be 8.30 am to 5.30 pm from Monday to Friday, except on a day which is an excluded day.

B. Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.
- (2) All Saturdays shall be excluded days for any business under the Trade Marks Act and Rules, where the time for doing the business expires on that date and where the business was not done by that date.

Dated this 14th day of May, 2009

PRACTICE DIRECTION NO. 3 OF 2006

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 15 December 2006.

A. Hours Of Business

Subject to rules 79(4) and 79(6A) of the Trade Marks Rules, the hours of business of the Registry shall be as follows:

- (a) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
- (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.

B. Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.
- (2) Subject to B(1), all Saturdays shall be excluded days for any business under the Trade Marks Act and Rules, where the time for doing the business expires on that date and where the business was not done by that date.

Dated this 15th day of November 2006.

**IN THE REGISTRY OF TRADE MARKS, INTELLECTUAL PROPERTY OFFICE OF
SINGAPORE****PRACTICE DIRECTION NO. 2 OF 2005****REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

PRACTICE DIRECTION NO. 2 OF 2004

HOURS OF BUSINESS AND EXCLUDED DAYS

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

CHIAM LU LIN
ACTING REGISTRAR
REGISTRY OF TRADE MARKS

NOTICES AND INFORMATION PERTAINING TO TRADE MARK APPLICATION AND REGISTRATION PROCEDURES

A) GENERAL

Pre-2004 Circulars

Amendment to Specification

Presently, whenever the Registrar raises an objection to the specification of goods or services, the agent representing the applicant would write to the Registrar with a proposed amendment to the specification. Only if the Registrar agrees to the proposed amendment will the agent file Form TM 27 to effect the amendment. The processing of such letters by the Registrar slows down the registration process considerably.

To shorten the registration process, agents should file Form TM 27 to effect the amendment straightaway instead of writing to the Registrar for her confirmation. If agents are relying on precedents in support of the amendment, they should enclose such precedents with the Form TM 27.

Certificates of Registration

The Trade Marks Act 1998 was revised on 30 December 1999 and accorded the same chapter number as the repealed Trade Marks Act, that is, chapter 332. To facilitate the Registry's operations, for both applications made under the repealed Trade Marks Act and applications made under the Trade Marks Act 1998 which have been accepted for registration and are not subject to opposition proceedings, the Registrar will issue certificates of registration which are headed:

SINGAPORE
TRADE MARKS ACT
(CHAPTER 332)
CERTIFICATE ISSUED UNDER SECTION 15(5)

Description of Device on Form TM 4

The purpose of the description of device on Form TM 4 is to assist the Registrar in conducting a search for conflicting marks. The description need not be too detailed; a general description is sufficient.

Disclaimers of Chinese Characters and Foreign Characters

A disclaimer relating to Chinese characters is published in the Journal as follows:

Registration of this mark shall give no right to the exclusive use of the Chinese character(s) of which the hanyu pinyin is "_____".

For characters other than Chinese characters (for example, Japanese characters), the disclaimer reads:

Registration of this mark shall give no right to the exclusive use of the _____ character(s) of which the transliteration is "_____".

Examination Practice With Respect to Colours in Marks

To avoid any confusion, this notice documents the Registrar's practice in relation to the examination of :

- (i) trade marks consisting solely of colours; and
- (ii) trade marks consisting of colours as a component or as an element in combination with other elements or components.

Such examination practice has been effected by the Registrar in relation to both national applications and international registrations designating Singapore.

(i) Trade Marks Consisting Solely of Colours

Where the trade mark consists solely of colours, the Registrar will need to be satisfied that the colours per se are capable of distinguishing the applicant's goods or services from those dealt with by others. As it will be necessary to determine the precise scope of such a claim, it will be necessary for the applicant to provide a description of the claim in the application form. For the purpose of an illustration, if the trade mark sought for registration is the colour "neon pink" and the colour is applied to the packaging of the goods, an appropriate description would be: "The trade mark is the colour neon pink as applied to an aspect of packaging of the goods as claimed as shown in the representation of the mark on the application form". Such a description will enable the Registrar to examine the mark as filed.

(ii) Trade Marks Consisting of Colours As a Component of the Mark

Where the trade mark consists of colours in combination with other elements such as a letter, word, name, signature, numeral, device, brand, heading, label, ticket, shape, aspect of packaging, the trade mark will be examined as a whole. If the trade mark as a whole is capable of distinguishing the applicant's goods or services from those dealt with by others, the trade mark will be registered as filed, that is, in the colours as filed. The Registrar does not require a colour limitation in such a case. The Registrar will also not seek to clarify whether the colour(s) as an element of the mark constitute a distinctive feature of the mark or not as the mark will be examined as a whole and registration rights will be conferred on the mark as a whole.

Mark Numbers Preceded by the Letter "L"

Search reports obtained from the Registry and examination letters issued by the Registrar may contain references to marks with numbers preceded by the letter "L" instead of the letter "T". These are marks which have been recorded with the Registrar for purposes of rule 13. The prefix "T" refers to marks which are the subject matter of trade mark applications or registrations.

(Multiple Classes, this circular was removed on 3 July 2009)

Representation of Marks

Marks published in the Journal and reflected on the certificates of registration appear exactly as represented on the application forms. Applicants and agents are reminded to provide clear representations of marks on the application forms. The marks should also be of reasonably large size (but not larger than A4) to ensure that all the features are clearly shown.

Series Clause

For applications for registration published in the Gazette on or after 15 January 1999 for opposition purposes, the series clause should read as follows:

"Application for a series of _____ (number) marks."

Service of Documents in Opposition, Revocation, Invalidation and Rectification Proceedings

When filing notices of opposition, counter-statements and applications for revocation, invalidation or rectification with the Registrar, a copy of the same must be served on the relevant party or parties concerned. Please refer to Rules 29, 30, 31, 32, 56, 57, 58, 65, 66 and 66A of the Trade Marks Rules as amended by the Trade Marks (Amendment) Rules 2000.

The requirement of service of evidence on the relevant party or parties concerned remains unchanged. Please refer to Rules 32, 33, 34, 56, 59 and 66A.

It would be greatly appreciated if trade marks agents filing the aforesaid documents with the Registrar could indicate in their covering letters that they have served the necessary on the relevant party or parties concerned in compliance with the Rules.

Validity of Priority Claims

Under Section 10 of the Trade Marks Act 1999, a person may claim a right of priority for the registration of a trade mark from the date on which a corresponding application was filed in a "Convention country" ("Convention application") if the application for the registration of the trade mark is filed within 6 months after the date on which the Convention application is made. A "Convention country" refers to a country or territory, other than Singapore, which is a party to the Paris Convention or a member of the World Trade Organisation. For the purpose of assessing the validity of a priority claim, IPOS will assess whether the "Convention application" was filed in a relevant country which has already become a Convention country as at the date of the filing of the Convention application in the Convention country.

For example,

Trademark application filed in country A on 3 Oct 2001.

Country A became a member of the Paris Convention or WTO on 2 Jan 2002.

Trademark application filed in SG = 3 Feb 2002 (claims priority of earlier application in country A).

Question: Is the claim to priority (application filed in country A) in the Singapore application valid?

Answer: No

2004 Circulars

(Application to Register a Change in Ownership (TM 22), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 3/2008, dated 1 February 2008)

(Application to Register a Licensee (TM 37), Circular No. 13/2004, dated 18 June 2004. This circular is replaced by Circular No. 24/2007, dated 29 June 2007)

(Marks published for opposition purposes, Circular No. 16/2004, dated 2 July 2004. This circular is replaced by Circular No. 8/2009, dated 3 July 2009).

Applications for registration of sound marks (Circular No. 25/2004, dated 17 December 2004)

To assist the Registrar in the examination of applications for registration of sound marks, the Registrar may request the applicant to submit 2 copies of a CD-ROM recording of the sound mark sought for registration.

2005 Circulars

(Translation of Non-English words, Circular No. 4/2005, dated 30 March 2005. This circular is replaced by Circular No. 17/2007, dated 7 May 2007)

Amendment of Typographical Errors in Class Numbers in Form TM 4 (Circular No. 21/2005, dated 21 October 2005)

An amendment of the class number in Form TM 4 may be amended by lodging Form TM 27 with fee for each amended class of goods / services, but only if

- (i) a re-search in the new amended class revealed no prior conflicting marks;
- (ii) all of the items in the specification did not fall under the class as filed but in one other class; and
- (iii) that mistake was obvious to a third party inspecting the Register.

Three examples have been provided for illustrative purposes.

Example 1:

An application was filed in Class 5 in respect of "clothing, hats and shoes". An amendment of the class number from "5" to "25" would be allowed.

Example 2:

An application was filed in Class 5 in respect of "all goods in this class". An amendment of the class number from "5" to "25" would not be allowed because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. It was possible that the applicant intended to claim all goods in Class 5.

Example 3:

An application was filed in Class 5 in respect of "clothing, hats and pesticides". An amendment of the class number from "5" to "25" would not be allowed, even with the deletion of the item, "pesticides" because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. Since "pesticides" was correctly claimed in Class 5, it was possible that the applicant intended to claim "pesticides" in Class 5 but had incorrectly classified "clothing and hats" in Class 5 as well. It would be necessary for the applicant to file a fresh application in Class 25 in respect of "clothing and hats".

Trade Marks Act (Chapter 332) (2005 Revised Edition) (Circular No. 24/2005, dated 16 December 2005)

Pursuant to Order Under Section 11(3) of the Revised Edition of the Laws Act (Chapter 275) [S 467/2005], the Trade Marks Act (2005 Revised Edition) came into operation on 31 July 2005.

Statutes (Miscellaneous Amendments) (No. 2) Act 2005 (Act No. 42 of 2005) (Circular No. 25/2005, dated 23 December 2005)

Section 21 of the Statutes (Miscellaneous Amendments) (No. 2) Act 2005 which amends the Trade Marks Act will come into operation on 1 January 2006.

A summary of some of the amendments to the Trade Marks Act (Cap. 332, 2005 Ed.) are:

(a) Convention country

The definition of "Convention country" in section 2(1) is amended to provide that except in section 10 and paragraph 13 of the Third Schedule (claiming priority) "Convention country" includes Singapore.

(b) Examination of application for registration

An application for registration will be treated as withdrawn if the applicant fails to respond to the Registrar's queries or objections regarding the registrability of the trade mark within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(c) Collective marks

An application for registration of a collective mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar's queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

(d) Certification marks

An application for registration of a certification mark will be treated as withdrawn if the applicant fails to file the regulations governing the use of the mark, pay the prescribed fee for lodging the regulations, or respond to the Registrar's queries or objections regarding the registrability of the trade mark, within the period specified by the Registrar for doing so.

The Rules, which are being amended to come into operation on 1 January 2006, will deal with restoration of applications which are treated as withdrawn and the conditions for such restoration.

Trade Marks (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

Trade Marks (International Registration) (Amendment) Rules 2005 Notification (Circular No. 27/2005, dated 30 December 2005)

The above Notifications were gazetted on 28 December 2005 and it declared that the Trade Marks (Amendment) Rules 2005 and Trade Marks (International Registration) (Amendment) Rules 2005 would come into operation on 1 January 2006.

Trade Marks (Amendment) Rules 2005

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 7 : Service of documents

Non-fee bearing documents (except documents pertaining to hearings) may be sent to the Registry by facsimile transmission. However, each facsimile transmitted document must be legible and the responsibility for ensuring legibility rests with the sender.

(b) Rule 9 : Address for service

An address for service indicated on Form TM 19 and Form TM 24 is effective only for renewal matters and does not become the proprietor's address for service for all other matters pertaining to that trade mark.

(c) Rule 21 : Deficiencies in application

The amendment clarifies the actions that will be taken by the Registry if minimum filing requirements are not met.

(d) Rules 32, 33, 34 : Extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings

The second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation/rectification proceedings have to be made on Form TM 50, for which a fee will be imposed.

(e) Rule 50 : Notice of renewal

The Registrar's notice to the proprietor informing him of the date of expiry of the trade mark registration will be sent to the proprietor's address for service for renewal purposes, that is, the address for service indicated on Form TM 19 or Form TM 24, if one has been lodged, or if none, to the proprietor's address for service.

(f) Rule 77B : Restoration of applications treated as withdrawn

Applications which are treated as withdrawn under the Act or Rules by reason that the applicant has failed to do any act on time may be restored by filing Form TM 40 with fee within three months from the date of the Registrar's notice informing the applicant of that fact.

(g) Removal of Forms TM 9, TM 14, TM 15 and TM 16

Forms TM 9, TM 14, TM 15 and TM 16 have been removed and Forms TM 4, TM 11, TM 12 and TM 13 respectively will be used in their place.

Trade Marks (International Registration) (Amendment) Rules 2005

The following is a summary of some of the amendments in the Trade Marks (International Registration) (Amendment) Rules 2005 which will come into force on 1 January 2006:

(a) Rule 5 : Specification of Goods/Services

The amendment clarifies that the Registrar is entitled to raise an objection against vague terms in the specification of goods / services of an International Registration designating Singapore.

(b) Rule 28 : Notification to International Bureau

The amendment clarifies that in relation to an international application, the Registry will notify the International Bureau where the basic application is treated as withdrawn and is not restored in accordance with the Trade Marks Rules.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 1 January 2006. A separate edition of the Trade Marks Journal containing a consolidation of forms to be used in proceedings before the Registrar will be available online at www.ipos.gov.sg from 30 December 2005.

The changes made to the forms are as follows:

- (a) All forms have been amended to incorporate information on the estimated time needed to complete the form.
- (b) Amendments have also been made to Forms TM 1, TM 4, TM 11, TM 12, TM 13, TM 19, TM 22, TM 24, TM 37 and MP 1.
- (c) Form TM 4, TM 11, TM 12 and TM 13 will now be used in place of Forms TM 9, TM 14, TM 15 and TM 16 respectively.
- (d) The Trade Marks (Amendment) Rules 2005 also introduce:
 - I. Form TM 40 for restoration of an application treated as withdrawn. The fee for this form is \$130; and
 - II Form TM 50 for second and subsequent requests for extension of time to file evidence by way of a statutory declaration in opposition/revocation/invalidation proceedings. The fee for this form is \$100 in respect of each trade mark.

2006 Circular**The State of Incorporation** (Circular No. 30/2006, dated 27 October 2006)

Please note with respect to companies incorporated in the United States of America, the state of incorporation must be indicated on all trade marks forms. This is because companies incorporated in different states of America are separate and distinct legal entities.

If the state of incorporation of a United States of America company is not indicated on Form TM 4, a Form TM 26 will be required for the insertion of the state of incorporation.

2007 Circulars

Trade Marks (Amendment) Act 2007 (Act No. 3/2007) (Circular No. 7/2007, dated 14 February 2007)

The Trade Marks (Amendment) Act 2007 has been passed by Parliament on 22 January 2007 and has received Presidential assent on 1 February 2007.

Some of the key amendments include:

Provision for multiple class registration

Registration for trademarks is presently based on single classes. The amendments will now allow for a multi-class registration. A multi-class registration allows for one single application in multiple classes of goods and services to lead to one registration. Upon registration, the registration is maintained as one, resulting in the need to renew only once for the renewal to be effective for all the classes of goods and services registered.

Division of an application for registration

To complement a multiple-class system, it is now possible to divide a trademark application into two or more applications. A trademark applicant may divide up his application into two or more applications so that those classes of goods or services that do not face opposition or objection can proceed to registration first. Division will therefore expedite trademark registration where appropriate.

Relief Measures for Procedural Oversight

The Act also provides for relief measures to alleviate procedural mistakes by trademark applicants, notably missed time limits. The relief measures provide the avenue for a trademark applicant to maintain the rights in an application that has been filed, even when time limits have been missed.

Registration of Licence of Pending Trademarks

The amendments will now allow for registration of licences relating to pending trademarks. Prior to the amendments, only licences relating to registered trademarks can be recorded on the register.

The Trade Marks (Amendment) Act 2007 will come into operation on a date to be notified.

A copy of the Trade Marks (Amendment) Act 2007 can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Cautionary Notice on Unsolicited Mail about Unofficial Registration Services (Circular No. 13/2007, dated 11 April 2007)

It has been brought to our attention that trade mark proprietors and/or agents whose trade marks have been published in recent IPOS Trade Marks eJournals are receiving letters from companies for payments for unofficial registration services.

These companies use names, abbreviations or emblems that appear to be “official” and send out letters which resemble invoices to trade mark proprietors and/or agents with details of the proprietor, the trade mark, class(es) of goods or services, etc. These companies will offer to register marks in registers or publications for a fee, and in return, claim they will send the respondent a copy of the publication.

Please treat such letters as unsolicited mails. These companies are neither related to nor connected with IPOS. There is no obligation to pay for such services as they are not official services.

The only office constituted under Singapore laws that provides registration services for trade marks in Singapore is our office, the Intellectual Property Office of Singapore (IPOS).

Upon receiving such letter or invoice, if you are in any doubt, please consult your trade mark agent, your lawyer, or email us for clarification.

Amendments to the Trade Marks Act, the Trade Marks Rules and the Trade Marks (International Registration) Rules (Circular No. 17/2007, dated 7 May 2007)

The Trade Marks (Amendment) Act 2007, the Trade Marks (Amendment) Rules 2007 and the Trade Marks (International Registration) (Amendment) Rules 2007 have been gazetted and will come into force on 2 July 2007.

The (Amendment) Act and (Amendment) Rules can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Trade Marks (Amendment) Rules 2007

The following is a summary of some of the amendments in Trade Marks (Amendment) Rules 2007:

(a) Rule 17 : Division of applications for registration

An application for registration may be divided, at the request of the applicant, into 2 or more separate applications for registration. The request for division is to be made on Form TM 8 and a fee of \$280 is chargeable for each new divisional application created.

(b) Rule 22 : Amendment of application

Form TM 27 (Request to change the details of an application for registration) will no longer be used. In its place are Forms TM 27A and TM 27B. Form TM 27A is chargeable on a per class basis while Form TM 27B is chargeable on a per trade mark basis.

Form TM 27A is to be used for amendments pertaining to the class number, the specification of goods or services to which the application for registration relates, or the particulars of any claim to a right of priority included in the application for registration.

Form TM 27B is to be used for any other amendment not involving the above.

(c) Rule 56 : Application to alter registered trade mark

The proprietor of a registered trade mark may apply to the Registrar on Form TM 27B for alteration of the registered mark. Form TM 35, the form which is currently used, will no longer be used as from 2 July 2007.

(d) Rule 57 : Rectification of an error or omission in the register

An application to the Registrar for the rectification of an error or omission in the register may be made by the proprietor of a registered trade mark or by any other person.

Where the application is made by the proprietor of a registered trade mark, the amendment shall be made on –

- (a) Form TM 27A, where the amendment pertains to the class number, the specification of goods or services to which the registration relates, or the particulars of any claim to a right of priority;
- (b) Form TM 27B, for any other amendment not involving the above.

Where the application for rectification is made by any other person, the application shall be made on Form TM 28.

(f) Rule 77B : Reinstatement of application, right or thing

Subject to certain exceptions, an applicant, proprietor or other interested person who has missed a time limit for action before the Registry, may apply on Form TM 40 to have his rights reinstated, if:

- 1) the request for reinstatement is made within 6 months from the date of expiration of the time limit;
- 2) the omitted act is completed together with the request; and
- 3) the failure to comply with the time limit is unintentional.

Trade Marks (International Registration) (Amendment) Rules 2005

The Trade Marks (International Registration) (Amendment) Rules 2007 has been amended to make it clear that division does not apply to international registrations designating Singapore.

Amendment of Trade Mark Forms

Some trade mark forms have been revised and the revised forms are to be used from 2 July 2007. A separate edition of the Trade Marks Journal containing a consolidation of all Trade Mark forms will be available for sale from 29 June 2007.

The changes made to the forms are as follows:

(a) All forms have been amended to indicate whether the fee for that particular form is payable on a per class, per trade mark or per form basis. The fee structure is as shown in the table below.

Per form basis	Per trade mark basis	Per class basis
TM 26	TM 1	TM 4
MP 3	TM 7	TM 11
	TM 10	TM 12
	TM 20	TM 13
	TM 22	TM 19
	TM 27 B	TM 21
	TM 29	TM 24
	TM 30	TM 27 A
	TM 31	TM 28
	TM 33	TM 32
	TM 34	TM 44
	TM 37	TM 45
	TM 38	TM 50
	TM 39	MP 1
	TM 40	MP 2
	TM 42	
	TM 46	

(b) Where fees are payable on a per class basis, such as renewal forms and opposition forms, the class numbers affected by the request, are to be indicated on the form.

(c) Amendments have been made to all forms, with the exception of Form TM 23.

(d) Forms TM 18 and TM 35 have been removed.

(e) Forms TM 8, TM 27A and TM 27B are new.

Translation of Non-English words (Circular No. 17/2007, dated 7 May 2007)

For purposes of rule 20(2), where the mark consists of non-English words, it is not necessary to file with the Registrar a certified translation by a qualified translator. A copy of relevant extracts from relevant dictionaries showing the meaning of each word and the words as a whole in English will be sufficient. However, it will be necessary to indicate on the application form that the mark consists of non-English word/words. A failure to include such an indication on the application form will have to be rectified by the filing of amendment via Form TM 27 with the requisite fee. The applicant should forward to the Registrar the requisite translation and/or the transliteration together with a copy of relevant extracts from dictionaries or relevant certification as soon as possible.

As regards the indication on the application form, it is necessary to submit an accurate and complete translation and/or transliteration of the non-English words in the mark.

Two examples are provided below as illustration.

Example 1:

An application was filed for the mark consisting of three Chinese Characters which is the phonetic equivalent of the Applicant's company name.

菲立士

The transliteration of the Chinese characters of which the mark consists is "Fei Li Shi" which has no meaning and it is the phonetic equivalent of the Applicant's company name "Philips".

An appropriate indication in the Application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below.	
The Chinese characters of which the mark consists is derived from the Applicant's company name i.e. it is the phonetic equivalent of "Philips"	
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows:	
Representation of the words(s)/ characters	菲立士
Language of word(s)/character(s)	Chinese
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Chinese characters as a whole: no meaning. It is the phonetic equivalent of the Applicant's company name "Philips".

		(Enclosed dictionary exact/ Certified translation/ supporting document of the same)	
	Transliteration of character(s)	Transliteration of the Chinese characters: "Fei Li Shi".	

Example 2:

An application was filed for the mark consisting of two Chinese Characters and the word "SINGER" (which is part of the Company name).

勝家
SINGER

Company : THE SINGER COMPANY LIMITED

The transliteration of the Chinese characters appearing in the mark is "Sheng Jia" which has no meaning.

An appropriate indication in the application form may read as:

9 If the mark contains or consists of word(s) not being English word(s), provide the derivation of the word(s). If it is invented, state so. If it can be translated, fill in Part 10 below. The Chinese characters "勝家" appearing in the mark is used to denote a brand name of Singer's product.									
10 If the mark contains or consists of non-English word(s), and/or non-Roman character(s), provide the English translation and/or transliteration as follows: <table border="1" style="width: 100%;"> <tr> <td style="width: 50%;">Representation of the words(s)/ characters</td> <td style="width: 50%;">勝家</td> </tr> <tr> <td>Language of word(s)/character(s)</td> <td>Chinese</td> </tr> <tr> <td>Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole</td> <td> Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole) </td> </tr> <tr> <td>Transliteration of character(s)</td> <td>Sheng Jia</td> </tr> </table>		Representation of the words(s)/ characters	勝家	Language of word(s)/character(s)	Chinese	Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)	Transliteration of character(s)	Sheng Jia
Representation of the words(s)/ characters	勝家								
Language of word(s)/character(s)	Chinese								
Translation of each word(s)/ character(s) and the word(s)/ character(s) taken together as a whole	Translation of the Characters as a whole: no meaning. (Enclosed dictionary exact/ Certified translation/ supporting document showing meaning of each of the Chinese characters and characters taken as whole)								
Transliteration of character(s)	Sheng Jia								

Application to Register a Licensee (TM 37) (Circular No. 24/2007, dated 29 June 2007)**(i) Processing Of An Application To Register A Licensee (TM 37)**

An application to register a licence (Form TM 37) filed on or after 2/7/2007, will be processed by the Registry even though the status of the mark is still pending registration. However where the application to register a licence (Form TM 37) was filed before 2/7/2007, it will be processed only after the mark has been registered.

(ii) Licence Commencement Date

The licence commencement date (i.e. the date entered in Part 5 of TM 37) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1/7/2004, the earliest licence commencement date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1/7/2004, the earliest licence commencement date is the trade mark application date.

(iii) Exclusive Licence Periods Do Not Overlap

Where there are 2 exclusive licences or more, the licence periods involving the same goods or services should not overlap.

(iv) Licensed Goods/Services Should Not Be Wider Than Trade Mark Application/Registration

The list of licensed goods or services (Annex of TM 37) should not be wider than those under the trade mark application/registration.

Deficiencies in applications for registration : amendments after filing (Circular No. 28/2007, dated 27 July 2007)

The Registrar has been conducting formalities check on all applications for registration to ensure that they contain all formal requirements under the Trade Marks Act.

Where the application does not comply with the requirements which are essential for a filing date to be accorded, the filing date will not be accorded until all the deficiencies have been rectified. In such cases, the application will be accorded the earliest date on which all essential requirements for filing date are complied with. There is no need for the correction to be accompanied by the relevant amendment form. The essential requirements for filing date are spelt out in section 5(2) and (3) of the Trade Marks Act.

In respect of other deficiencies or irregularities that do not affect the filing date, amendments must be effected through the lodgement of the relevant trade mark forms, such as Form TM 27A, Form TM 27B and Form TM 26.

This practice pertains only to new applications filed with effect from 01 August 2007.

The Geneva Conventions (Amendment) Act (Circular No. 40/2007, dated 5 December 2007)

The Geneva Conventions (Amendment) Act was passed in Parliament on 12 November 2007. Under the Act, the following emblems may not be used in Singapore, unless approval is given by the Ministry of Health:

- Red Cross emblem
- Red Crescent emblem
- Red Crystal emblem
- Red Lion and Sun emblem

			
Red Cross emblem	Red Crescent emblem	Red Lion and Sun emblem	Red Crystal emblem

With the commencement of the Act, the Registrar will object to trade mark applications consisting of or containing these emblems or emblems closely resembling them, under Section 7(5) of the Trade Marks Act, unless consent from the Ministry of Health is furnished. This is so even for applications lodged before the effective date of the Act.

Proprietors of registered trade marks containing or consisting of such emblems, or emblems closely resembling them, should note that in spite of their registration, they have one year from 12 November 2007 to cease using the emblems.

2008 Circulars

Image of e-filed mark (Circular No. 11/2008, dated 4 July 2008)

IPOS has encountered certain electronic trade mark applications which have images of marks that have jagged and blurred edges in our database and the images of the mark will not appear as clear as intended by the applicants in the trade mark journal and certificate of registration. The reason for the blurred image of marks is that applicants attach images of the marks with a lot of background or blank space. To ensure that such images are not too small for viewing purposes, IPOS has to make adjustment to the marks which then result in blurred images.

In order to ensure that the image of mark is accurately captured by IPOS, applicants should crop the mark with little background or blank space and save the image as approximately 480 x 480 pixel. This will remove the need for IPOS to make adjustment to the image in the publication and the registration certificate and the applicant can then obtain clear and accurate image of the mark.

(Translation Clause, Circular No. 12/2008, dated 11 July 2008. This circular was removed on 1 August 2008)

Return of assignment deeds and other registrable transaction documents (Circular No. 14/2008, dated 26 September 2008)

The Registry will stop its practice of returning deeds of assignment and other documents lodged in support of applications for transfer of ownership and recordal of other registrable transactions.

However, should the applicant wish for the return of such documents, he may make his request known at the time of lodgement of the recordal application on a covering letter accompanying the application to that effect. The letter shall provide contact details so that the Registry may make the necessary arrangements for the return of the documents. This practice will affect all applications lodged on or after 1 October 2008.

Launch of e-Communications Portal on 1 December 2008 (Circular No. 17/2008, dated 28 November 2008)**Trade Marks (Amendment) Rules 2008; Trade Marks (International Registration) (Amendment) Rules 2008** (Circular No. 17/2008, dated 28 November 2008)

IPOS will launch the e-Communications Portal on 1 December 2008. The e-Communications Portal is an electronic online system developed by IPOS for the main purpose of facilitating the sending, receipt and exchange of all correspondence, relating to trademark applications and prosecutions, between IPOS and registered account holders. The following firms and companies will be taking part in the pilot scheme that is scheduled for the initial period of 6 months.

DREW AND NAPIER LLC
DONALDSON & BURKINSHAW
ELLA CHEONG SPRUSON & FERGUSON (SINGAPORE) PTE LTD
ALLEN & GLEDHILL LLP
RODYK & DAVIDSON LLP
WONG & LEOW LLC
AMICA LAW LLC
LLOYD WISE
ALBAN TAY MAHTANI & DE SILVA
ONE LEGAL LLC
PATRICK MIRANDAH CO. (S) PTE LTD
HAQ & SELVAM
NAMAZIE & CO
TITO ISAAC & CO LLP
PHILIPS ELECTRONICS SINGAPORE PTE LTD
SAMUEL SEOW LAW CORPORATION

The Trade Marks Rules have been amended to give effect to the sending, receipt and exchange of correspondence via the e-Communications Portal. In particular, the changes in the Rules will:-

- (a) provide for service of documents by the Registrar as well as by applicants by electronic communication through the e-Communications Portal;
- (b) provide for the sending of a true and complete image of the original paper document by electronic communication through the e-Communications Portal for documents that are required to be signed, made on oath or affirmed or are required to be attested;
- (c) provide for the extension of deadlines that fall on excluded days in spite of the availability of the e-Communications Portal;

- (d) treat the date of receipt of documents received by IPOS as the day on which the documents are received by IPOS as long as the time of receipt is before the midnight of the day.

It is to be noted that applicants must still comply with the requirement to provide an address for service under rule 9. The electronic address of these persons, if they are using the eCommunications Portal to send documents to and receive documents from the Registrar, is not intended to be part of their address for service. However, service of documents by electronic communication through the eCommunications Portal is intended to be valid service notwithstanding that there is an address for service filed in accordance with rule 9.

The Trade Marks (International Registration) Rules have also been amended to permit the use of one Form for multiple classes of goods or services for Forms for use in opposition, namely Form TM 11 and Form TM 12.

A copy of the Trade Marks (Amendment) Rules 2008 and the Trade Marks (International Registration) (Amendments) Rules 2008 are available for sale at SNP Corporation Ltd. (<http://www.snpcorp.com/webshop/>).

Application for Renewal of Registration (Form TM 19) (Circular No. 18/2008, dated 12 December 2008)

With effect from 1st January 2009, the Registrar will not be issuing renewal certificates confirming that a mark has been renewed. This is applicable to all applications for renewal of registration (Form TM 19) lodged on or after 1st January 2009.

For applications for renewal made online, the renewal will be processed instantaneously and an acknowledgement of the renewal showing the extended expiry date will be displayed for printing. These acknowledgements of renewal will remain available for printing for a period of one month from the renewal application date. In very limited circumstances, such as where there are pending applications affecting the validity of the trade mark, instant renewal will not be possible and the applicant will be notified that the acknowledgement of renewal will be posted in due course.

Where the application for renewal is posted or submitted over the counter, the applicant will not be receiving any acknowledgement from the Registry. The onus will be on the applicant to check the expiry date of the mark at www.etrademarks.gov.sg within 2 weeks of lodgement of the application for renewal of registration (Form TM 19) to confirm that the expiry date has been extended by the Registry. If the expiry date has not been extended, applicants are advised to contact our Renewal Officer at 63302 707 immediately for assistance.

This change in practice does not apply to Late Application for Renewal of Registration (Form TM 24) and Application for Restoration and Renewal of Registration Removed from the Register (Form TM 21).

To reflect the change in practice in Form TM 19, an information note has been incorporated into the form. This revised form should be used from 1st January 2009.

A copy of the revised Form TM 19 will be available for downloading by end of December 2008 at www.ipos.gov.sg.

2009 Circulars**Trade Marks Work Manual** (Circular No. 5/2009, dated 24 April 2009)

The Registry of Trade Marks has added six new chapters to the existing Trade Marks Work Manual. The six new chapters cover the following topics:

- (1) Marks contrary to public policy or morality;
- (2) Names and representation of famous people, building, etc;
- (3) Other grounds of refusal;
- (4) Deceptive marks;
- (5) Licences; and
- (6) Slogans.

You may access the Trade Marks Work Manual online at:

<http://www.ipos.gov.sg/leftNav/tra/IP+Resources.htm>

Marks published for opposition purposes (Circular No. 8/2009, dated 3 July 2009)

The following types of publication in the Trade Marks Journal are subjected to opposition:

	Notice of Opposition via <u>Form</u>
1) Application published before registration;	TM 11
2) Collective or certification marks published before registration;	TM 11
3) Alteration to registered marks;	TM 11
4) Amendment to regulations governing use of collective or certification marks;	TM 11
5) Application amended after publication	TM 11

With respect to items 3)-5), the ground(s) stated in the Notice of Opposition must be confined strictly to the alteration or amendment. The Notice of Opposition must be lodged within 2 months from the date the alteration or amendment is published in the Trade Marks journal. If an extension of time to file the notice of opposition is required, the request must be filed using Form TM 48 within 2 months from the date of publication of the alteration or amendment. The maximum extension of time for filing Notice of Opposition is 4 months from the date of publication of the alteration or amendment. Rules 29(2) to (8) and 31 to 40 apply to these oppositions with the necessary modifications.

Costs for attending Case Management Conferences and Pre-Hearing Reviews (Circular No. 10/2009, dated 28 August 2009)

In opposition, invalidation and revocation proceedings for trade mark applications or registrations, the Registrar has, as a matter of course, directed parties to attend case management conferences and pre-hearing reviews at the appropriate time for the purpose of achieving a just, expeditious and economical disposal of the matter pursuant to the power conferred on the Registrar in the Trade Marks Rules. The Registrar will treat the costs for attending such case management conferences and pre-hearing reviews in the same vein as for attending interlocutory hearings, which costs may be included as party and party costs under rule 73 of the Trade Marks Rules to be awarded to the successful party at the end of the proceedings.

B) PERTAINING TO COLLECTIVE AND CERTIFICATION MARKS**Pre-2004 Circular****Publication of Collective Mark and Certification Mark Applications**

Collective mark and certificate mark applications are published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "Collective and Certification Marks Applications Published for Opposition Purposes". Pursuant to the First and Second Schedules of the Trade Marks Act (Cap. 332, 1999 Ed.), the Regulations governing the use of the collective and Certification Marks are available for inspection at the Registry of Trade Marks.

2004 Circular

Regulations Governing the Use of Certification/Collective Marks (Circular No. 7/2004, dated 19 March 2004)

The filing with the Registrar of regulations governing the use of certification or collective marks under rule 63 of the Trade Marks Rules must be accompanied by Form TM 10. Regulations filed without Form TM 10 will not be recognised and will be returned. The filing of TM 10 without regulations attached will also be rejected.

C) PERTAINING TO FORMS**Pre-2004 Circular****Form TM 26**

A request to change the name, address or other particulars (except trading nature) of an applicant for registration, proprietor of a registered trade mark or other interested person, where the change does not affect the representation of the trade mark, should be made on Form TM 26.

2004 Circulars**Form TM 26 Notification Letter** (Circular No. 8/2004, dated 26 March 2004)

Please note that the main purpose of the Notification Letter is to inform as to the fact that the name and/or address of the applicant/proprietor has/have been updated. Thus, the Notification Letter cannot be treated as conclusive as to the status of marks reflected therein.

Where there is no reply within the given period to our latest examination report, an application will be updated as abandoned notwithstanding any interim Notification Letter from the Registrar.

Form TM 1 [Request to appoint or change an agent or to enter or change an address for service] (Circular No. 18/2004, dated 30 July 2004)

One Form TM 1 may be used for multiple trade mark numbers. However, the fee for this form is still charged on a per trade mark number basis unless the request is to alter an agent's name and/or address for service which does not affect the legal entity of the agent. In such a case, only a single set of fee is payable.

Kindly note that it is not necessary to lodge Form TM 1 together with forms such as TM 4, TM 9, TM 11, TM 14, TM 19, TM 22, TM 24, TM 26, TM 28, TM 29, TM 37 and TM 48 as each of these forms contains a section for the indication of an address for service.

2006 Circular**Erratum - Form TM 40** (Circular No. 1/2006, dated 13 January 2006)

Please note that the title of Form TM 40 should read as "REQUEST FOR RESTORATION OF APPLICATION TREATED AS WITHDRAWN" and Part 2 of the Form should read as "Particulars of applicant/registered proprietor". Please visit IPOS website at <http://www.ipos.gov.sg> to download the corrected Form TM 40.

2007 Circular**Form TM 32** (Circular No. 32/2007, dated 21 September 2007)

Part 4 of Form TM 32 which used to read as "Goods or services to be cancelled" has been amended to "Goods or services to remain". The amendment is to ensure that there is clarity in the residual specification. Please visit IPOS website at <http://www.ipos.gov.sg> to download the amended Form TM 32.

The Registrar will reject the old Form TM 32 (V02/01/07) with effect from 1 October 2007.

It is also to be noted that Form TM 32 is the appropriate Form to file to effect any amendment to specifications of goods or services of registrations that has the effect of cancelling some goods or services or narrowing down the specifications. For example, Form TM 32 is to be filed to effect an amendment from "books" in Class 16 to "books *relating to business management*" in Class 16.

2008 Circular**Application to Register a Change in Ownership (TM 22)** (Circular No. 3/2008, dated 1 February 2008)**i)Effective Date when Subsequent Proprietor/Applicant for Registration Took Ownership**

The effective date when the subsequent proprietor/applicant for registration took over ownership (i.e. the date entered in Part 4 of Form TM 22) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed before 1 July 2004, the earliest assignment effective date is the trade mark application date or the priority date, if any. For a trade mark application filed on or after 1 July 2004, the earliest assignment effective date is the trade mark application date.

ii)Address for Service of Subsequent Proprietor/Applicant for Registration

The address for service entered in Part 5 of the Form TM 22 is effective for all proceedings in respect of the trade mark including the subject application for change of ownership. As such, there is no need to lodge Form TM 1 together with Form TM 22 for this purpose.

Form TM 1 will be required only if:-

- a. there is a change of agent whilst the TM 22 is being processed; or
- b. the agent will not be continuing to act for the subsequent proprietor / applicant for registration after TM 22 is recorded.

Such Form TM 1 appointing the agent solely for "Assignment" matters (Part 3 of Form TM 1) will not be processed until a subsequent Form TM 1 appointing an agent for "Application for registration / Registration" is received.

iii)Correction of Errors in Relation to a Recorded Change of Ownership

Once a change in ownership has been recorded according to the request, should the owner need to correct any errors in the recorded details, Form TM 27B is required. Should the assignment(s) need to be re-recorded and re-examined, the relevant Form TM 22 with fees will need to be re-lodged.

iv)Covering Letter

To ensure that the transactions are recorded accurately, please lodge a covering letter stating :-

- a. the sequence of events;
- b. the exact nature of the transaction, and
- c. the trade mark numbers involved.

When e-filing, a covering letter can be attached via the “covering letter” button for eTM 22 and 27B.

2009 Circulars**eCommunications** (Circular No. 2/2009, dated 27 February 2009)

The Registry has been receiving Trade Mark Forms via the eCommunications portal. Please note that this portal is to facilitate the exchange of correspondences only. All forms should be either eFiled, submitted over the counter or posted to us.

Enhancements made to eTM 22 (Application to register a change of ownership)
(Circular No. 4/2009, dated 27 March 2009)

With immediate effect, users may file up to 50 trade mark numbers in one eTM 22 (Application to register change of ownership) form provided that all the trade mark numbers belong to the same assignor under the same IPOS assigned company code. A link is included in the eForm to a search page allowing applicants to check their company code.

Efiling multiple assignment applications (Circular No. 4/2009, dated 27 March 2009)

This is to inform users that eTrademarks may be used to efile multiple assignment applications. So long as there exists a prior assignment application which has not yet been recorded by the Registry, when the user attempts to efile a subsequent assignment application, the field under "Current Proprietor's details" is intentionally left blank by the system for the user to enter the correct details. For example in the case of an assignment from A to B (1st TM 22), and then from B to C (2nd TM 22), the user will have to input B's details manually when efilng the second TM 22.

Form TM 4 - Application to register a trade mark, collective mark or certification mark
(Circular No. 9/2009, dated 21 August 2009)

Form MP 1 - Request to transform an international registration into national application(s) (Circular No. 9/2009, dated 21 August 2009)

With effect from 15/09/2009, an Application to register a trade mark, collective mark or certification mark and a Request to transform an international registration into national application(s) must be made on version V05/01/09 of Form TM4 and MP 1 respectively. The corresponding electronic Form TM 4 available on eTrademarks will also be amended on the same day. The changes are found at Annex A of both forms and pertain to the information to be provided when making a priority claim.

Annex A

Annex A is amended so that where the priority claim is not in respect of all the goods or services claimed in the class, the applicant is to state the goods or services in respect of which priority is claimed. This amendment is to ensure that there is clarity in the scope of the priority claim.

D) PERTAINING TO eTRADEMARKS**Pre-2004 Circular****New Features of IPOS' eTrademarks Services****(1) Generation of Check Digit/Year of Trade Mark Numbers**

A new eService for the generation of year/check digit of Trade Mark Number is added to IPOS Online Transactions. This eService has two fields for entry. One is for the old TM No format while the other is for the new TM No format. For the old TM No format, both the year and the check digit would be generated. For the new TM No format, the check digit will be generated.

This eService is already available.

(2) Attachment for Form TM26

The eService for Form TM26 has been enhanced. As filing of Form TM26 usually requires a covering letter to list the TM numbers and sometimes to explain a certain situation, it can only be submitted through the counter. With this enhancement, when a Form TM26 is submitted, it allows for a covering letter to be attached to the said form. This is to facilitate the filing of Form TM26 through eTrademarks.

This eService is already available.

(3) Filing of mark in colour or greyscale

With effect from 1 November 02, eTrademarks will be accepting colour or greyscale attachments for marks filed for Forms TM4 and TM9 in addition to the current black and white. Marks filed in colour or greyscale would be printed in greyscale for the Acknowledgement Letter, Trade Marks Journal and Certificate of Registration. Please note that viewing and printing of the mark images from the Enquiry System would still be in black and white.

(4) "Save/Save As" feature

The "Save/Save As" feature has been implemented on 4 December 02, from 10am onwards. This feature would be available for Forms TM4 and TM9. Any application that is saved would be kept in IPOS' system for 3 working days excluding the current day. All saved documents residing in IPOS' database for more than 3 working days would be removed.

(5) Display Mark Image

The "Display Mark Image" feature has been implemented on 4 December 02, from 10am onwards. Mark images attached to Forms TM4 and TM9 will be displayed for viewing.

2004 Circular

Online Trademarks Search and Enquiry System (Circular No. 4/2004, dated 6 February 2004)

The Intellectual Property Office of Singapore is pleased to announce that its eTrademarks Search has been made available from 30 January 2004.

The following search services have been made available through the system:

Search for similar marks;

Search for marks belonging to a proprietor;

Search for mark detailed information, registered marks, pending marks, certification marks, collective marks, expired marks, cancelled marks, expired marks, withdrawn marks, abandoned marks, expunged marks, refused marks, destroyed marks and article 6ter based on relevant periods.

The services will be offered free of charge.

To access this service, please log on to the eTrademarks webpage and click on the eTrademarks Search link.

E) PERTAINING TO INTERNATIONAL APPLICATIONS AND REGISTRATIONS UNDER THE MADRID PROTOCOL**Pre-2004 Circulars****Singapore's Accession to the Madrid Protocol**

Singapore acceded to the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Madrid Protocol) on 31 July 2000. The Madrid Protocol came into operation in Singapore on 31 October 2000.

Publication of International Registration Designating Singapore for Opposition Purposes

International registrations designating Singapore under the Madrid Protocol are treated in the same manner as Singapore national applications, and are therefore published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap. 332, 1999 Ed.)". Unlike Singapore national applications, they are not published according to the class of goods or services, but are published according to the international registration number.

Request for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore

Such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) using WIPO's prescribed Form MM9(E). Form TM 26 is not the relevant form to be used.

Form MM9(E) is available for downloading at www.ipos.gov.sg

2004 Circulars**Issuance of Registration Certificates for Protected International Trade Marks (Singapore)** (Circular No. 13/2004, dated 18 June 2004)

The Registrar has received queries as to whether IPOS issues registration certificates for protected international trade marks (Singapore). Please note that IPOS does NOT issue such certificates.

Under the Madrid Protocol, an Office which has examined an international registration in which it is designated and found no grounds for refusal may issue a statement of grant of protection. However, it is not obliged to do so and no legal consequences follow from the fact that no such statement is given. Further, such statements will only be issued if it is still within the 18-month time limit from the date of notification of the international registration. Where no such statements are issued, by the end of the 18-month time limit, the international registration will be regarded as protected in Singapore. In the Singapore context, IPOS does issue such statements, as a matter of customer service, if at the time of issuance, it is still within the said period.

In cases where a provisional refusal or a provisional refusal based on opposition has been issued, a confirmation or withdrawal of such a provisional refusal in the form of a letter of final decision in accordance with Rule 17(5) of the Common Regulations under the Madrid Agreement and Protocol relating to the Madrid Agreement concerning the International Registration of marks will be sent to the International Bureau, who will in turn transmit a copy to the holder of the international registration.

Requests for Recording of Changes in the Ownership of the International Registrations Designating Singapore or where Singapore is the Office of Origin (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM5(E). Form MM5(E) is available for downloading at www.ipos.gov.sg

Form TM 22 should not be lodged for such recordation of change in ownership.

Where Singapore is the Office of Origin, requests for recording of changes in the ownership must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. However, Form TM 22 may be lodged (if appropriate) to record the change in ownership of the basic application or basic registration.

Requests for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore or where Singapore is the Office of Origin (this serves to replace an existing pre-2004 circular in the journal) (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM9(E). Form MM9(E) is available for downloading at www.ipos.gov.sg

Form TM 26 should not be lodged for such recordation of change in name and/or address.

Where Singapore is the Office of Origin, requests for recording of changes in the name and/or address of the holder must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. In such a case, TM 26 should be lodged to amend the change in name and/or address of the basic application or basic registration.

Requests for Designation Subsequent to the International Registration (Circular No. 21/2004, dated 19 November 2004)

In accordance with Rule 24 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM4(E). Form MM4(E) is available for downloading at www.ipos.gov.sg

2005 Circulars

Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore (Circular No. 21/2005, dated 21 October 2005)

Pursuant to Rule 20bis(6)(b) of the Common Regulations under the Madrid Protocol, Singapore has notified the Director General of the World Intellectual Property Organisation on 21 March 2002 that Singapore law would not give effect to the recording of trade mark licenses in the International Register. Accordingly, any recording of a license made under Rule 20bis(3) of the Common Regulations will have no effect on any International Registration designating Singapore. However, the holder of such an International Registration may still record the relevant license with IPOS by lodging Form TM37, and the fee of S\$60 per class of goods or services.

2007 Circular

(Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters, Circular No. 42/2007, dated 28 December 2007. This Circular is replaced by Circular No. 1/2008, dated 11 January 2008)

2008 Circulars**Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters** (Circular No. 1/2008, dated 11 January 2008)

With effect from 1 January 2008, there will be some amendments to the Administrative Instructions for the Application of the Madrid Agreement Concerning the International Registration of Marks and the Protocol Relating Thereto ("AI"). The amendments are necessary for the implementation of a more broad-based electronic communications platform for the benefit of users of the Madrid system.

The AI can be found here (http://www.wipo.int/madrid/en/legal_texts/admin_instructions.htm) and the International Bureau's ("IB") notification of the amendments can be found here (http://www.wipo.int/edocs/madrdocs/en/2007/madrid_2007_20.doc).

Please note that under the new Section 19 of the AI, fees payable to the IB must be made

- i. by debit to a current account with the IB,
- ii. by payment into the Swiss postal account or to any of the specified bank accounts of the IB, or
- iii. by credit card, where, in the context of an electronic communication envisaged in Section 11, an electronic interface for online payment has been made available by the IB.

The previous modes of payment by cash at the IB and by a banker's cheque would no longer be available.

Please note that while Section 19 now provides that in the context of electronic communications, fees due to the IB may be paid by credit card only in relation to specific types of transaction or request in respect of which a dedicated electronic interface has been provided, the IB has advised that this mode of payment by credit card would not be applicable to the filing of international applications.

If you are filing an international application through IPOS on and after 2 January 2008, please note that our previous primary mode of payment to the IB via a banker's cheque is no longer available in light of the changes in the AI. Instead, your payment in Swiss Francs to the IB can be made by either options (i) or (ii) as stated above.

Current Account

If you conduct regular monetary transactions with the IB, you may opt to open a current account with them. Please see http://www.wipo.int/madrid/en/guide/part_d/pdf/account.pdf for details.

Bank Transfer

We envisage that the majority of applicants and agents are likely to use bank transfers under (ii) as the preferred mode of payment. Details of WIPO's postal account and bank account are as follows:

WIPO bank account
IBAN No. CH51 0483 5048 7080 8100 0
Credit Suisse, CH-1211 Geneva 70
Swift/BIC: CRESCHZZ80A

WIPO postal account
IBAN No. CH03 0900 0000 1200 5000 8
Swift/BIC: POFICHBE

The above account details are found on page 6 of the Form MM2(E).

To confirm that the payment has been made, the applicant must indicate the payment details of the bank's transfer transaction in the appropriate space provided in IB's Form MM2(E) Application for International Registration Governed Exclusively by the Madrid Protocol at the time of filing. You must also provide us with a photocopy of the bank's transaction advice.

If you have any queries regarding the above, please do not hesitate to call our Customer Service Officer at 6339 8616 or email us at ipos_enquiry@ipos.gov.sg.

Requests for Recording of a Renewal for International Registrations where Singapore is the Office of Origin (Circular No. 5/2008, dated 22 February 2008)

For an international registration where Singapore is the Office of Origin, a request for the recording of a renewal may be made by the holder or his agent upon payment of the relevant fees in Swiss Francs to WIPO via any of the following ways:-

(a) lodgement of WIPO's Form MM11(E) or an official letter from the holder indicating the necessary information (number(s) of the international registration(s) concerned and the purpose of the payment);

<http://www.wipo.int/madrid/en/forms/>

(b) lodgement done online at WIPO Marks E-Renewal System portal
<http://www.wipo.int/madrid/en/services/>; or

(c) lodgement of Form MM11(E) or the official letter mentioned under (a) through IPOS, together with a separate fee of S\$85 for handling the renewal request.

Kindly note that the above renewal is only effective for the international registration. Holders should lodge IPOS Form TM 19 in order to renew the Singapore basic registration, if necessary.

With regard to the renewal of an international registration where Singapore is *not* the Office of Origin, even if Singapore had been designated, such a request must be effected via (a) or (b). It is also possible to do so via the Office of Origin of that international registration provided that that Office of Origin has agreed to collect the renewal fees and forward them to WIPO.

We wish to emphasise that IPOS Form TM 19 must not be lodged for the renewal of any international registrations designating Singapore. Only WIPO would be able to process the renewal of that international registration.

E-Payments to the World Intellectual Property Organization (Circular No. 19/2008, dated 26 December 2008)

The World Intellectual Property Organization (WIPO) has introduced an E-Payment Service at <https://webaccess.wipo.int/epayment/>, which allows payment of fees notified in their irregularity letters or other WIPO communications with regard to international applications or registrations.

Payments can be made through the WIPO Current Account or by credit card.

To make payment through the WIPO Current Account, you will be required to provide the userID and the password generated by them for the current account holders. If you do not have a current account, please read Current Account at WIPO at

http://www.wipo.int/resource/en/wipo_account.html for details, on how to open, use or close a current account with WIPO, if you are thinking of opening one.

If you already have a WIPO current account, but do not have a password, please send an email to WIPO at income.accounts@wipo.int, mentioning E-Payment as the subject matter.

To make payment by credit card, please follow the steps in the E-Payment Service. American Express, Mastercard and Visa are acceptable to WIPO.

Unfortunately at this stage, WIPO is still unable to accept payment via credit card for the filing of international applications. For such applications, the only payment modes are via the WIPO Current Account, or the Swiss postal account or any of the specified bank accounts of WIPO.

F) PERTAINING TO THE CLASSIFICATION OF GOODS AND SERVICES**(I) General Information****Pre-2004 Circulars**

(8th Edition of the International Classification of Goods and Services, this circular was removed on 18 January 2008)

Compliance with the International Classification of Goods and Services

To assist the Registrar in expediting the acceptance of trade mark applications for registration, agents are reminded to ensure that the specifications of goods or services set out in the application forms conform with the International Classification of Goods and Services as far as possible. Very often, the Registrar receives applications where the marks are acceptable for registration but the specifications are not in order. This slows down the registration process.

Precedents in Support of Specification

In the examination of the specification of goods or services for compliance with the International Classification of Goods and Services, the Registrar is prepared to rely on precedents relating to Singapore, United Kingdom, Australia and Hong Kong registrations. Applicants and agents are therefore free to file these precedents in support of their specifications of goods and services for the Registrar's consideration.

However, the Registrar would not rely on such precedents in the following situations:

- (a) where the precedent relates to goods or services which have been accepted by the Registrar concerned in the wrong class;
- (b) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change of classes by the Special Union for the International Classification of Goods and Services for the purposes of the Registration of Marks (Nice Union);
- (c) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change or clarification of practice by the Registry concerned.

The use of square brackets [] and round brackets () in specifications

An expression between square brackets is intended to define more precisely the text or item preceding the brackets. Square brackets are used when the item is ambiguous for classification purposes. Round brackets are used to qualify the text or item preceding the brackets to ensure the correct classification. Round brackets are used when it is possible that the item can be classified in various classes depending on the intended goods or services sought to be covered.

Use of the term "Internet" in specifications of goods and services

In view of the widespread use of the term "Internet" in the generic sense, the Registrar will henceforth not raise any objections to the use of the term "Internet" in the specifications of goods and services of Singapore national applications or international registrations designating Singapore.

However, the use of the term “Internet” in specifications of goods and services is generally not encouraged as the word “Internet” is a registered trade mark in some countries and may be objected to by the designated offices of these countries in respect of international applications originating from Singapore filed under the Madrid Protocol. This may arise where the term “Internet” is listed in a Singapore national application or registration and the Singapore national application or registration forms the basis of an international application originating from Singapore under the Madrid Protocol. In the circumstances, it is advisable for applicants to use the term “global communications network” instead.

2004 Circulars

Underlining of precedents for objections on specification of goods / services (Circular No. 19/2004, dated 3 September 2004)

When lodging precedents to overcome the Registrar’s objection on the specification of goods / services, the Registrar requests that the relevant portions of the precedents to be underlined for greater visibility. This would assist the Registrar to identify and consider the relevant portions of the precedents in order to assess whether the objection should be waived.

Vague descriptions in specifications (Circular No. 20/2004, dated 12 November 2004)

A clear description of the goods or services claimed in a trade mark application is important as it determines the scope of the application. As such, the indication of goods, for example “pouches and the like”, is not acceptable as the expression, “and the like”, is vague. In the example given, it is not clear as to what other goods the applicant is claiming apart from pouches.

2005 Circular

(Use of acronyms for specifications of goods and/or services, Circular No. 6/2005, dated 22 April 2005. This circular was removed on 18 January 2008)

2006 Circular

International Classification of Goods and Services

NICE Classification – Ninth Edition (Circular No. 32/2006, dated 8 November 2006)

The ninth edition of the NICE Classification for the purposes of the registration of trade marks will come into effect on **1 January 2007**. Copies can be ordered online at <http://www.wipo.int/ebookshop?lang=eng>

The majority of the changes involve Classes 14, 20, 21, 26, 34, 42 and 45 but minor changes and additions have also been made to other classes. For more information regarding the specific changes, please refer to the *Nice Union Report CLIM/CE/20/* which is obtainable at the following link

http://www.wipo.int/meetings/en/doc_details.jsp?doc_id=52419

The eighth edition of the NICE Classification shall still apply to all applications filed before 1 January 2007. Applications filed on or after 1 January 2007 shall be filed in accordance with the ninth edition of the NICE Classification. For the avoidance of doubt, there will be

no reclassification of goods and services for existing applications filed prior to 1 January 2007, after the 9th Edition of the NICE Classification comes into force.

2007 Circular

Use of registered trade marks in specifications of goods and services (Circular No. 38/2007, dated 14 November 2007)

Registered trade marks which are ordinary dictionary words are allowed to be used in specifications of goods and services as a descriptor. This practice is consistent with our previous journal notice on the use of the term, "Internet", which has become generic. However, words which are invented and have been registered as trade marks will not be acceptable in specifications of goods and services. Instead, applicants should use ordinary English words to describe their goods and services. For example, a specification of goods which reads "bluetooth-enabled devices for communications, namely telephones, handsets, headsets, speakers, microphones and earphones" should be amended to "devices for communications which are enabled by short range radio technology, namely telephones, handsets, headsets, speakers, microphones and earphones".

(II) Information on specific items**Pre-2004 Circulars**

(Cereal-based beverages, Beverages made from cereals, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Club [dining] services

With effect from 31 October 2003, the Registrar will accept the specification “club [dining] services” in Class 43 instead of Class 41 of the International Classification of Goods and Services. The emphasis on the word “dining” puts the item more in line with the class heading and explanatory notes of Class 43.

Consultancy Services

In the 8th edition of the International Classification of Goods and Services, consultancy services will be classified according to their subject matter. For example, consultancy services relating to telecommunications will be classified in Class 38, transportation consultancy services in Class 39 and intellectual property consultancy services in Class 42. The Registry had been taking this position in its examination of applications.

WIPO has clarified that pending the coming into force of the 8th edition, the correct classification is in accordance with the 7th edition where such services are classified in class 35 if they are business-related and class 42 if they are non-business-related. Hence, the Registry is adopting this stand.

However, in order not to prejudice any party who has acted on the Registrar’s earlier position on such services, the Registry will not reject consultancy services which have been classified according to their subject matter.

Desserts

With effect from 31 October 2003, the Registrar will not accept a specification consisting of “desserts” per se. This is in line with the World Intellectual Property Organization’s view that the said item, without further qualification, is vague.

Examples of acceptable descriptions are :

“Desserts [Jellies for food]” in Class 29 or

“Desserts [Ice cream]” in Class 30

(Executor services, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Mail order services

A specification of services consisting of or containing "mail order services" is unacceptable as it does not conform to the International Classification of Goods and Services and should be reworded to "the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order" in accordance with the practice in the United Kingdom.

Provision of information for business or domestic purposes in Class 38

With effect from 30 July 2003, a specification which reads "provision of information for business or domestic purposes" in class 38 will not be acceptable. The applicant is requested to further qualify the specification so that it will read as "provision of information in the field of telecommunications for business or domestic purposes". This is in line with the General Remarks as provided in the Nice Classification that the subject matter of the information being provided determines the correct class for the services.

(Provision of user access time to the global computer network, Pre-2004 Circular. This circular was removed on 26 September 2007)

(Storage of data, information or documents, Pre-2004 Circular. This circular was removed on 5 December 2008)

2004 Circulars**Retailing of services** (Circular No. 2/2004, dated 7 January 2004)

With effect from 7 January 2004, the Registrar will not accept a specification containing a claim for "retailing of services" or "the bringing together, for the benefit of others, of a variety of services (excluding the transport thereof), enabling customers to conveniently view and purchase those services". Applicants will be asked to clarify on the type(s) of services they are providing and to apply for such services in the appropriate class(es).

WIPO's Recommendation No. 16 (Circular No. 4/2004, dated 6 February 2004)

For applications lodged on or after 13 January 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Pastilles and chewing gum for cosmetic purposes - Class 3
- (2) Soap bubbles and foam generators for shows - Class 11
- (3) Lenyards (Keycards) - Class 14

(Joss sticks, Circular No. 5/2004, dated 13 February 2004. This circular was removed on 20 March 2009)

Canned foodstuffs of plant origin (Circular No. 6/2004, dated 5 March 2004)

For applications lodged on or after 12 March 2004, the Registrar will accept the specification "canned foodstuffs of plant origin" in Class 30 instead of Class 29. This is in line with the explanatory note of Class 30 which states "Class 30 includes mainly foodstuffs of plant origin prepared for consumption or conservation".

Manufacturing of goods (Circular No. 12/2004, dated 11 June 2004)

For applications lodged on or after 18 June 2004, a specification of services consisting of or containing "manufacturing of goods" is unacceptable as it does not conform to the International Classification of Goods and Services. If a person is manufacturing goods, registration should be sought for the goods only.

As appropriate, the specification may be phrased as "custom assembling of materials [for others]" or "custom manufacturing of goods [for others]". For example, where the items in question are cell cultures, it may be more appropriate to describe the service as "custom manufacturing of cell cultures [for others]". However, if the goods in question are clothing, "custom assembling of clothing [for others]" would be more appropriate.

(Providing search engines for the internet, Circular No. 12/2004, dated 11 June 2004. This circular was removed on 20 March 2009)

WIPO's Recommendation No. 17 (Circular No. 17/2004, dated 9 July 2004)

For applications lodged on or after 16 July 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Packaging containers of regenerated cellulose - Class 16
- (2) Refilling of empty toner cartridges - Class 37.

Provision of news (Circular No. 19/2004, dated 3 September 2004)

For applications lodged on or after 10 September 2004, the Registrar will not accept a specification consisting of "provision of news" *per se*. This is in line with the World Intellectual Property Organization's view that this description, without further qualification, is vague. The subject matter of the news provided and the purpose for which it is provided are important in determining the class to which it should fall under. Generally, these services are classified in the same classes as the services that correspond to the subject matter of the information. Examples of acceptable descriptions are:-

"Provision of business news [business management]" in Class 35;

"Provision of news [telecommunication services]" in Class 38; and

"Provision of news for entertainment purposes" in Class 41.

Leasing services (Circular No. 20/2004, dated 12 November 2004)

With effect from 19 November 2004, the Registrar will accept “leasing services” only in Class 36 regardless of the nature of the goods to which it relates. This is in line with the World Intellectual Property Organization’s view that it is a form of financial service.

“Rental services”, on the other hand, will still be classified in the same class as the services provided. For example, “rental of telecommunication apparatus” will be classified in Class 38 while “rental of medical apparatus” will be classified in Class 44.

2005 Circulars**Computerised communication network security and other security services** (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar will only accept “computerised communication network security” and like services in Class 42 and not in Class 45, as such items are forms of computer services classified under Class 42.

Class 45 covers services for the protection and security of individuals and property in general, eg “security services for buildings”, “personal body guarding” and “night guards”. If such services and information relating to such services are offered online or via a computer network, they will be classified under Class 45 as well.

However, Class 42 will cover security services if they pertain to security of computer networks or the internet, eg. “computerised communication network security”, or if such services are offered as a form of computer service, eg “data security services [firewalls]” or “professional consultancy relating to computer security”. It would not be correct to classify such computer security services in Class 45.

It is also useful to note that the International Classification of Goods and Services (8th Edition) classifies some security services in Class 39. Security services relating to transport, eg. “guarded transport of valuables” and “escorting of travellers”, are classified under Class 39 and not Class 45.

WIPO’s Recommendation No. 18 (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Enzymes for human consumption – Class 29
- (2) Soya milk [condiment] – Class 30
- (3) Supervision of teamwork to improve its effectiveness – Class 35
- (4) Consultancy in the field of computer security – Class 42
- (5) Therapy services – Class 44

Prepared meals (Circular No. 6/2005, dated 22 April 2005)

For applications lodged on or after 29 April 2005, the Registrar will not accept a specification consisting of “prepared meals” per se as the said item, without further qualification, is vague and may fall within several classes. The item should specify the content of the prepared meals, for example,

“Prepared meals consisting of meat” in Class 29 or

“Prepared meals containing principally of rice” in Class 30.

2006 Circulars**Crib bumpers** (Circular No. 3/2006, dated 3 February 2006)

For applications lodged on or after 10 February 2006, the Registrar will only accept the item, “crib bumpers”, in Class 20. This item is a type of cushion for lining the base and sides of the crib and serves a protective purpose for the baby. Since the item “cushions” is listed in Class 20 of the Nice Classification, by analogy, the item, “crib bumpers”, should be classified in Class 20 as well.

Retail services and other like services in Class 35 (Circular No. 6/2006, dated 24 February 2006)

The Registrar has revised her practice concerning retail services and other like services in Class 35. This revision in practice shall take effect for all applications lodged on or after 3 March 2006

In the past, applicants, in most instances, are required to list the goods to which the retail services relate. With the revised practice, where it is practical, it is still advisable to list the goods to which the retail services relate. However, the Registrar will no longer insist on such a requirement in all cases, as long as the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”, is used in conjunction with the means of bringing goods together. Thus, in cases where it is not practical to list all the goods to which the retail services relate, the Registrar will accept an indication of the means of bringing goods together and displaying such goods for the benefit of customers, for example, from a retail outlet, a wholesale outlet or a distributor outlet. Such an indication can be inserted at the end of the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”.

With the revised practice, “wholesale services” will also be treated in the same manner as “retail services”.

The following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

(a) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(b) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(c) “Retail services in relation to [list the goods]”;

(d) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(e) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(f) “Wholesale services in relation to [list the goods]”;

(g) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet”;

(h) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”; and

(i) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”.

The Registrar is prepared to accept similar descriptions of the above services provided that the services are clearly described and fall within the ambit of retail or wholesale services. Please note that vague descriptions such as “distributorship services” are not acceptable as the term “distributorship” may encompass more than just retail or wholesale services, for example, it may include transportation services.

Interior decoration services (Circular No. 22/2006, dated 7 July 2006)

For applications lodged on or after 14 July 2006, the Registrar will only accept “interior decoration services” in Class 42 and not in Class 37, as such services are analogous to the item “design of interior décor” which is listed in Class 42 of the International Classification of Goods and Services (8th Edition).

WIPO’s Recommendation No. 19 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

(1) Incontinence garments – Class 5

(2) Telephone ring tones [downloadable] – Class 9

(3) Milk jam – Class 29

(4) Toasted natural wood chips added to wine to improve its flavour – Class 30

WIPO's Recommendation No. 20 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

- (1) Paper sheets, sensitized, for carrying photographic imaging materials – Class 1
- (2) Slot machines[vending machines] – Class 9
- (3) Paper sheets, not sensitized, for carrying photographic imaging materials – Class 16
- (4) Slot machines[amusement] – Class 28
- (5) Stand-alone video game machines – Class 28

Technical consultancy services (Circular No. 25/2006, dated 16 August 2006)**Technical support services** (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar will classify “technical consultancy services”, “technical support services” and other similar technical advisory and technical information services according to their subject matters. The General Remarks in the Nice Classification (8th Edition) states that services that provide advice, information or consultation are in principle classified in the same classes as the services that correspond to the subject matter of the advice, information or consultation. Further, in line with the view of the World Intellectual Property Organization, the Registrar will consider indications such as “technical consultancy services” and “technical support services”, *per se* as too broad and vague and objections will be taken. Such indications will have to be specified in respect of their subject matters for the purpose of classification.

2007 Circulars**WIPO's Recommendation No. 21** (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Scoreboards for sports, other than mechanical or electric – Class 20
- (2) Advice on tax preparation – Class 35
- (3) Advice on fiscal assessments, advice on fiscal valuations – Class 36
- (4) Carbon offsetting services [recycling] – Class 40
- (5) Prenatal exercises – Class 41
- (6) Weblog [blog] services [on-line publication of journals or diaries] – Class 41
- (7) Creating and maintaining weblogs [blogs] for others – Class 42
- (8) Hosting of weblogs [blogs] – Class 42
- (9) Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting – Class 42
- (10) Carbon offsetting services [reforestation] – Class 44

Providing on-line forums (Circular No. 27/2007, dated 25 July 2007)

Operating chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing discussion services on-line (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar will only accept the items "providing on-line forums", "operating chat rooms", "providing chat rooms", and "providing discussion services on-line" in Class 38, regardless of the topic of the discussion. These items are analogous to the items "electronic bulletin board services [telecommunication services]" and "providing internet chatrooms" listed in Class 38 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Arranging and conducting of colloquiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conferences (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of congresses (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of seminars (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of symposiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conventions (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of exhibitions (Circular No. 27/2007, dated 25 July 2007)

The Registrar wishes to clarify that the above items with the exception of the last, viz.

"arranging and conducting of colloquiums";
"arranging and conducting of conferences";
"arranging and conducting of congresses";
"arranging and conducting of seminars";
"arranging and conducting of symposiums"; and
"arranging and conducting of conventions"

are classified in Class 41, regardless of the topic relating to these services. It is the purpose of the service and not the topic that determines their classification in Class 41. By virtue of their dictionary definitions, the terms, "colloquiums", "conferences", "congresses", "seminars", "symposiums" and "conventions" refer to activities linked with training or education, both of which are proper to Class 41. To illustrate, "arranging and conducting of conferences for commercial or advertising purposes" and "arranging and conducting of seminars for commercial or advertising purposes" are both classified under Class 41.

However, the item, "arranging and conducting of exhibitions", will be classified according to the subject matter since this service only refers to showing of products or services to the public, and is not primarily offered for the purposes of training or education. By analogy, "organization of exhibitions for commercial or advertising purposes" is listed in Class 35 of the NICE Classification (Ninth Edition), but "organization of exhibitions for cultural or educational purposes" is listed in Class 41 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Providing access to databases (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Providing of user access to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to databases (Circular No. 33/2007, dated 26 September 2007)

For applications lodged on or after 3 October 2007, the Registrar will accept these and other analogous items in Class 38 only. These are essentially telecommunication services and are classified under Class 38 whether they are provided by an Internet Service Provider or a non-Internet Service Provider. Hence, our previous journal notice on the classification of these services based on the status of the applicant is no longer applicable.

Consistent with our previous journal notice on “leasing” (Circular No. 20/2004, dated 12 November 2004), applicants should also avoid using the term, “leasing”, in any class except Class 36, as “leasing services”, are acceptable only in Class 36. With regards to the above items in Class 38, an example of an acceptable description would be “rental of access time to databases” and not “leasing of access time to databases”.

2008 Circulars

Cereal-based beverages (Circular No. 7/2008, dated 5 March 2008)

Beverages made from cereals (Circular No. 7/2008, dated 5 March 2008)

Executor services (Circular No. 7/2008, dated 5 March 2008)

The pre-2004 circulars on “cereal-based beverages/ beverages made from cereals” in Class 32 and “executor services” in Class 42 have been removed in light of recent directives from the World Intellectual Property Organisation.

A specification of goods consisting of or containing “cereal-based beverages” or “beverages made from cereals” will be classified in Class 30 by analogy to “cereal preparations” that are classified under Class 30 of the NICE Classification.

A specification of services consisting of or containing “executor services” will be classified in Class 36 because such services generally relate to the administration of money, investments, real estate, assets, and other valuables. Such services are analogous to “fiduciary services” and “trusteeship services” both of which are classified under Class 36 of the NICE Classification.

The above changes affect all applications lodged on or after 12 March 2008.

Retail services and other like services in Class 35 (Circular No. 9/2008, dated 2 May 2008)

In addition to Circular No. 6/2006, the Registrar will accept the descriptions for applications lodged on or after 9 May 2008 (where it is not practical to list all the goods to which the retail services or wholesale services relate):

- a. "retail services"
- b. "wholesale services"

However, the Registrar will continue to reject descriptions such as "distributorship services", "mail order services", "departmental store services", "supermarket services", or "internet shopping". These terms are considered vague as they include services more than retail and wholesale services.

With the addition, the following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

- a. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- b. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- c. "Retail services in relation to [list the goods]";
- d. "Retail services";
- e. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- f. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- g. "Wholesale services in relation to [list the goods]";
- h. "Wholesale services";
- i. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- j. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- k. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view

and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;

- l. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;
- m. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- n. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- o. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- p. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- q. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”; and
- r. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”.

WIPO's Recommendation No. 22 (Circular No. 16/2008, dated 21 November 2008)

For applications lodged on or after 28 November 2008, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Milk ferments [bacteria preparations] used in making foodstuffs - Class 1
- (2) Wind turbines - Class 7
- (3) Pill distributor and organizer boxes for medical purposes - Class 10
- (4) Electronic cigarettes for medical purposes - Class 10
- (5) Meditation stones - Class 14
- (6) Pill boxes [not for medical purposes] - Class 21
- (7) Tablecloth holders - Class 21
- (8) Electronic cigarettes, not for medical purposes - Class 34
- (9) Publicity film production - Class 35
- (10) Illustrators' services - Class 42
- (11) Diamond authentication and certification services - Class 42

(12) Electronic data storage - Class 42

(13) Advice concerning cooking recipes - Class 43

Electronic data storage (Circular No. 16/2008, dated 21 November 2008)

Storage of data, information or documents (Circular No. 16/2008, dated 21 November 2008)

The pre-2004 circular on "Storage of data, information or documents" (Class 35 or 39) has been removed in light of recent directive from the World Intellectual Property Organization.

A specification of services consisting of "Electronic data storage" will be classified in Class 42 instead of 35 by analogy to "Duplication of computer programs" and "Data conversion of computer programs and data [not physical conversion]" which are classified under Class 42 of the NICE Classification. This is in conformity with the explanatory note "Class 42 includes mainly services provided by ... computer programmers, etc.".

On the other hand, if the data, information or documents are being stored physically, for example, in a warehouse, then it is proper to Class 39. The determining factor is **where** the data, information, or documents are being stored. Examples of items which are proper to Class 39 are:

- i. "Data storage"
- ii. "Information storage"
- iii. "Storage of electronically-stored data, information or documents".

The above changes affect all applications lodged on or after 28 November 2008.

2009 Circulars

Association services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "association services" per se because the item, without further qualification, is vague and may fall within several classes. The World Intellectual Property Organization also regards this description as being vague and takes the view that a service should not in principle commence with the description "association services" even if it is followed by a qualifier. For example, the description, "association services, namely arranging business introductions", is not acceptable.

In light of the above, applicants should avoid using descriptions beginning with "association services". A description like "association services, namely, promoting the general interests of those concerned with the importance of health and nutrition", should be reworded to "business promotion relating to the importance of health and nutrition, provided through an association" in order for it to be classified in Class 35.

Concierge services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "concierge services" per se because the item, without further qualification, is vague and may fall within several classes. This is in line with the view of the World Intellectual Property Organization that the description is vague and can fall within several classes.

In light of the above, applicants should specify the exact nature of the concierge services that are being claimed. If they insist on using the description, "concierge services", that must be qualified by a precise description of the concierge service. The following are examples of acceptable descriptions.

- i. "Concierge services for the arranging of tours" in Class 39
- ii. "Concierge services, namely, the delivery of luggage for guests" in Class 39
- iii. "Concierge services, namely, arranging for theater tickets" in Class 41
- iv. "Concierge services relating to restaurant reservations" in Class 43
- v. "Concierge services [baggage inspection for security purposes]" in Class 45.

On the other hand, descriptions such as "concierge services for others comprising of making requested personal arrangements and providing customer specific information to meet the needs of individuals", "hotel and resort concierge services", and "personal services rendered by others to meet the needs of individuals, namely, concierge services" are not acceptable since the exact nature of the services is unclear.

Personal and/or social services rendered by others to meet the needs of individuals (Circular No. 7/2009, dated 19 June 2009)

This is to clarify that a description consisting of "personal and/or social services rendered by others to meet the needs of individuals" in Class 45 has never been acceptable to the Registrar because it is vague and too broad in scope. For the purpose of clarity, applicants must specify the exact nature of the services that they wish to claim.

If, however, an applicant insists on using this description, it must be qualified by a precise description of the personal or social services claimed. An example of an acceptable description would be "personal services rendered by others to meet the needs of individuals, namely baby sitting".

Ancillary Services / Related Services (Circular No. 11/2009, dated 25 September 2009)

For applications lodged on or after 2 October 2009, the Registrar will not accept a description containing "ancillary services", "related services" or their equivalent, regardless of whether they are preceded or followed by a specific term. This is because the exact nature of these descriptions remains unclear. The addition of qualifiers such as "included in this class" or "all in this class" in such descriptions does not help in making those descriptions any clearer. The following are some examples of the objectionable descriptions:-

- (a) "advertising services; services ancillary or related to the aforementioned included in this class";
- (b) "services ancillary or related to the provision of business management services; all in this class"; and

(c) “all services relating or ancillary to computer services; all included in Class 42”.

In such cases, the Registrar will request that the applicant specify the “ancillary services” and “related services” claimed so that the specification is clear and unambiguous.

This practice direction is consistent with Circular No. 20/2004 that relates to “Vague descriptions in specifications”.

G) CIRCULARS RELATED TO PROCEEDINGS BEFORE THE HEARINGS AND MEDIATION DIVISION**2009 Circulars****Applications for Security for Costs***(HMD Circular No. 1/2009, dated 20 November 2009)*

Section 70 of the Trade Marks Act (Cap 332) 2005 Rev. Ed. provides:-

If a person who neither resides nor carries on business in Singapore —

(a) gives notice of opposition under section 13; or

(b) applies to the Registrar under section 22 or 23 for the registration of a trade mark to be revoked or to be declared invalid, as the case may be,
the Registrar may require the person to give security for the costs for the proceedings and may, if security is not given, dismiss the proceedings.

[Emphasis added].

It is clear from the above that the application for security for costs can be a 2 - stage process. Thus, the Registrar will deal with such applications as a 2-stage process.

(I) Application for security for costs

Firstly, provided that a person neither resides nor carries on business in Singapore, the Registrar then has the discretion to require a person to provide security for costs of the proceedings, but only if the Registrar thinks it is just to do so in the circumstances of the case.

The factors that would be taken into consideration in deciding whether to grant security for costs in a trade mark opposition, invalidation or revocation are similar to the factors that would be taken into account in deciding whether to grant security for costs in a civil suit. Thus as provided in the Singapore Civil Procedure ("the White Book"), such factors include, amongst others:-

- (i) the likelihood of the opponent succeeding;
- (ii) whether the order for security for costs will stifle a genuine claim; and
- (iii) where the opponent is a limited company, whether there is any evidence that the opponent is unable to pay costs.

Based on a consideration of the above, the Registrar then may or may not order security for costs to be given.

(II) Application for proceedings to be dismissed

In the event that the party whom the Registrar has ordered to provide security for costs fails to do so, the party to whom security for costs has been granted can then apply for the proceedings to be dismissed. The Registrar will call for submissions in writing from both parties and exercise her discretion to decide whether the proceedings should be dismissed. If parties request an interlocutory hearing to decide the issue, or if the Registrar thinks it appropriate, the Registrar may also fix an interlocutory hearing to hear the parties in person.

Completion of Form TM 28

(HMD Circular No. 2/2009 dated 20 November 2009)

Form TM 28 is used for 3 different types of proceedings:-

- (i) Application for revocation of registration of a trade mark (Rule 57(1)(a) of the Trade Marks Rules 2008 Rev. Ed. (TMR));
- (ii) Application for declaration of invalidity of registration of a trade mark (Rule 57(1)(b) of the TMR); and
- (iii) Application for rectification of the register by persons other than the proprietor of the trade mark (Rule 57(1A)(b)).

Thus, when completing the form, please ensure that: -

- (i) the correct information is provided in Form TM 28 pursuant to the particular type of proceedings for which the Form TM 28 is filed; and
- (ii) the statement of grounds provided under Part 5 of Form TM 28 is worded consistently in accordance with the type of proceedings pursued under TM 28 ie application for revocation / declaration of invalidity / rectification of the register, as applicable.

In the event of any inconsistencies between the statement of grounds and the type of proceedings indicated, the applicant would generally be directed to re-file Form TM 28 with a clear indication as to the type of proceedings pursued, unless there are exceptional reasons for the Registrar to exercise her discretion to waive the need for such correction. The earlier application will be treated as withdrawn and the application date will be the later filing date. Fees paid are non-refundable as the need to re-file is attributable to the applicant or his agents.

Filing of Form TM 11 by Joint-Opponents

(HMD Circular No. 3/2009, dated 20 November 2009)

Under the provisions relating to oppositions in the Trade Marks Act (Cap 332) 2005 Rev. Ed. and Trade Marks Rules 2008 Rev. Ed., there is no prohibition against joint-opponents opposing a trade mark application.

In such an instance, it is sufficient for the purposes of the opposition that one Form TM 11 be filed. To reflect that there are joint-opponents opposing the registration of a particular trade mark, the opponents simply need to indicate, at Part 3 of TM 11, the particulars of the different opponents opposing such a registration.

The fees which are chargeable for TM 11 will depend upon the number of classes included in TM 11.

Similarly, in such circumstances, for the purpose of lodging evidence via statutory declarations (this will occur at a later stage in an opposition proceeding), the joint-opponents need to file only one set of evidence via statutory declarations provided that it is clear from each statutory declaration that the deponent has been duly authorized by all the joint-opponents to give such evidence on their behalf.

Service of Form TM 11 (Notice of Opposition) and Form TM 28 (Application for Revocation / Declaration of Invalidity / Rectification)*(HMD Circular No. 4/2009, dated 20 November 2009)*

Service of Form TM 11 and Form TM 28 is regulated under Rule 29 and Rule 57 of the Trade Marks Rules 2008 Rev. Ed. (TMR) respectively.

Rule 29(2) provides that the opponent shall serve on the applicant a copy of the notice of opposition at the same time as the notice of opposition is filed with the Registrar.

Rule 57(3) provides that the applicant for revocation / declaration of invalidity / rectification shall, if he is not the proprietor of the registered trade mark, serve a copy of the application and the statement of grounds on which the application is based on the registered proprietor at the same time as he files the application and statement of grounds with the Registrar.

For the purpose of ensuring compliance with the above Rules, the opponent / applicant is to indicate clearly, on the cover letter enclosing the notice of opposition or application for revocation / declaration of invalidity / rectification to the Registrar, that a copy of Form TM 11 or Form TM 28, as applicable, has been served on the applicant / registered proprietor. Failure to do so will be taken as non-compliance with Rule 29(2) or Rule 57(3) respectively. Accordingly, the Registrar will treat the case as no proper service of Form TM 11 and Form TM 28 respectively, unless the opponent / applicant proves otherwise.

In such an event, Form TM 11 / Form TM 28 will be rejected as non-compliant. The opponent / applicant will have to re-file Form TM 11 / Form TM 28 afresh and serve the same on the applicant / registered proprietor.

In relation to Form TM 11, in the event that the notice of opposition cannot be re-filed as the 2-month or 4-month maximum time period has expired, the prospective opponent will then have to consider filing for invalidation after the mark has been registered.

Service of Form TM 12 (Counter-statement)*(HMD Circular No. 5/2009, dated 20 November 2009)*

Service of Counter-statement for opposition is regulated under Rule 31 of the Trade Marks Rules 2008 Rev. Ed. (TMR) and service of Counter-statement for an application for revocation / declaration of invalidity / rectification is regulated under Rule 58 of the TMR.

Rule 31(2) provides that the applicant shall serve on the opponent a copy of the Counter-statement at the same time as it is filed with the Registrar.

Rule 58(2) provides that the registered proprietor shall serve on the applicant a copy of the Counter-statement at the same time as he files the Counter-statement with the Registrar.

For the purpose of ensuring compliance with the above Rules, the applicant / registered proprietor is to indicate clearly, on the cover letter enclosing Form TM 12 to the Registrar, that the same has been served on the opponent / applicant. Failure to do so will be taken as non-compliance with the Rules. Accordingly, the Registrar will treat the case as no proper service of Form TM 12.

In such an event of non-service, and provided that the irregularity would not result in a detriment to the other party that cannot be remedied, the Registrar would generally, pursuant to Rule 83, exercise her discretion to direct that the procedural irregularity be

rectified by issuing deadlines for service of the Form TM 12 on the other party and an order as to costs against the applicant / registered proprietor as appropriate.

Applications Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Mats adapted [shaped] for use in motor vehicles; wood fibre mats adapted [shaped] for the interior trim of land vehicles; fibreglass mats other than for insulation or textile use, adapted [shaped] for use in motor vehicles.

Class 17

Tapes (Adhesive-) other than stationery and not for medical or household purposes; adhesive masking tapes [other than for household or stationery purposes]; tapes of epoxy impregnated fibreglass for insulating; fibreglass fabrics for insulation; tape for automotive body repair.

Class 21

Cloths for cleaning purposes; cloths for polishing; non-textile cloths for domestic cleaning.

Class 24

Fibreglass fabrics for textile use.

Class 27

Mats for vehicles [not shaped]; foldaway mats; non-slip mats; mats for automotive body repair.

THE ARMOR ALL/STP PRODUCTS COMPANY

1221 BROADWAY, OAKLAND, CALIFORNIA 94612-1888,
UNITED STATES OF AMERICA.

AGENT: WONG & LEOW LLC, 1 TEMASEK AVENUE, #27-01
MILLENNIA TOWER, SINGAPORE 039192

T0901072J 02/02/2009 (36)

Registration of this mark shall give no right to the exclusive use of the words "Tax Free".

Class 36

Financial services; services in the provision of tax (VAT/GST) refunds to tourists; providing tax refund payment services to tourists via cash, cheque, credit card, electronic payments and internet; cheque services; currency processing and conversion services; credit card services; advisory services relating to all foregoing services.

FINTRAX GROUP HOLDINGS LIMITED

TULLY BUSINESS PARK, BALLINAHOWN, CO GALWAY,
IRELAND.

Aerated beverages making machines; aerated water making apparatus; aerators; aerocondensers; agricultural machines; air condensers; air suction machines; apparatus for drawing up beer (under pressure); beer pumps; bellows [machines]; beverage preparation machines, electromechanical; blowing engines; blowing machines for the compression, exhaustion and transport of gases; boiler tubes [parts of machines]; bookbinding apparatus and machines for industrial purposes; bottle capping machines; bottle filling machines; bottle sealing machines; bottle stoppering machines; bottle washing machines; brake linings other than for vehicles; brewing machines; calenders; carburetter feeders; carburetters; cartridges for filtering machines; catalytic converters; central vacuum cleaning installations; centrifugal machines; centrifugal pumps; cigarette machines for industrial purposes; circuit board assembling machines; clack valves [parts of machines]; cleaning (Machines and apparatus for-), electric; compressed air engines; compressed air machines; compressed air pumps; compressors [machines]; compressors for refrigerators; condensing installations; control cables for machines, engines or motors; control mechanisms for machines, engines or motors; controls (Hydraulic-) for machines, motors and engines; controls (Pneumatic-) for machines, motors and engines; converters for steel works; conveyors [machines]; couplings other than for land vehicles; crushing machines; current generators; cutters [machines]; cutting machines; cylinders for machines; dairy machines; de-aerators for feedwater; die-cutting and tapping machines; die-stamping machines; diggers [machines]; disintegrators; machines for the manufacture of deoxyribonucleic acid (DNA) chips; drain cocks; drainage machines; dressing (Apparatus for-); drilling machines; driving motors other than for land vehicles; dust exhausting installations for cleaning purposes; dust removing installations for cleaning purposes; dynamos; edible pastes making machines; electromechanical machines for chemical industry; elevating apparatus; elevators [lifts]; embossing machines; escalators; excavators; exhausts for motors and engines; feeding apparatus for engine boilers; feedwater regulators; filling machines; filtering machines; filters [parts of machines or engines]; filters for cleaning cooling air, for engines; finishing machines; fittings for engine boilers; flour mill machines; flour mills; flues for engine boilers; food preparation machines, electromechanical; foundry machines; fuel conversion apparatus for internal combustion engines; fuel economisers for motors and engines; gasifiers; generators of electricity; glass working machines; grease rings [parts of machines]; handling machines, automatic [manipulators]; heat exchangers [parts of machines]; high pressure washers; holding devices for machine tools; hoppers [mechanical

discharging]; hydraulic door openers and closers [parts of machines]; hydraulic turbines; igniting devices for internal combustion engines; inking apparatus for printing machines; labellers [machines]; leather-working machines; lifting apparatus; lifts, other than ski-lifts; looms [machines]; machine tools; machines for the textile industry; machining (Apparatus for-); manifold (Exhaust-) for engines; metalworking machines; milking machines; milling machines; mills [machines]; mixers [machines]; mixing machines; molding machines; molds [parts of machines]; mortising machines; motors, electric, other than for land vehicles; motors, other than for land vehicles; notchers [machine tools]; oil refining machines; packaging machines; packing machines; painting machines; paper feeders [printing]; papermaking machines; plunger pistons; pneumatic door openers and closers [parts of machines]; pneumatic hammers; pneumatic or hydraulic machines and instruments; pneumatic transporters; pneumatic tube conveyors; presses; presses [machines for industrial purposes]; pressing machines to make satin-like; pressure reducers [parts of machines]; pressure regulators [parts of machines]; pressure valves [parts of machines]; printing cylinders; printing machines; printing machines for use on sheet metal; printing plates; printing presses; printing rollers for machines; pump diaphragms; pumps [machines]; pumps [parts of machines, engines or motors]; pumps for heating installations; punching machines; reduction gears other than for land vehicles; regulators [parts of machines]; robots [machines]; rolling mill cylinders; rolling mills; sealing machines for industrial purposes; separators; sewage pulverizers; shears, electric; sieves [machines or parts of machines]; sifting machines; sizing machines; smoothing presses; sorting machines for industry; speed governors for machines, engines and motors; springs [parts of machines]; steam/oil separators; stereotype machines; stitching machines; sugar making machines; superheaters; teat cups for milking machines; thermic lances [machines]; tobacco processing machines; torque converters other than for land vehicles; transmission shafts, other than for land vehicles; transmissions for machines; transmissions, other than for land vehicles; trimming machines; tympan [parts of printing presses]; typesetting machines; universal joints [Cardan joints]; vacuum pumps [machines]; valves [parts of machines]; vibrators [machines] for industrial use; vulcanisation apparatus; washing apparatus; waste compacting machines; waste disposers [machines]; water heaters [parts of machines]; weaving looms; welding apparatus, gas-operated; welding machines, electric; wrapping machines; machines for use in combustion installations; assembling machines; industrial process controllers [hydraulic]; industrial process controllers [pneumatic]; pressure controllers [regulators] being parts of machines; pressure controllers [valves] being parts of machines; process controllers [hydraulic]; process controllers [mechanical]; process controllers [pneumatic]; current

generators (alternators and DC generators); disintegrators; electronics parts manufacturing machines; moulding machines; moulds [parts of machines]; semiconductor manufacturing machines, apparatus and installations; shearing machines for animals; transporting machines; control valves; motorized valves; solenoid valves; valve operators; valve positioners (parts of machines); valve rotators; waste disposals.

Class 09

Abacuses; accumulators, electric; acoustic conduits; actinometers; aerometers; air analysis apparatus; alarms; ammeters; amplifiers; amplifying valves; anemometers; anode batteries; anodes; anticathodes; anti-theft warning apparatus; apertometers [optics]; automated teller machines [ATM]; apparatus for monitoring combustion; electronic control installations for fuel burners and automatic combustion instruments; apparatus for the automatic control, regulation and monitoring of combustion; bar code readers; barometers; batteries, electric; bells [warning devices]; biometric recognition access control units; apparatus for use in access control; biometric access control apparatus; biometric authentication device for access control; boiler control instruments; branch boxes [electricity]; calculating machines; calorimeters; camcorders; cameras [photography]; capacity measures; cathodes; cathodic anti-corrosion apparatus; central processing units [processors]; chargers for electric batteries; chemistry apparatus and instruments; chips [integrated circuits]; chromatography apparatus for laboratory use; circuit breakers; circuit closers; clothing for protection against accidents, irradiation and fire; coils, electric; coin-operated apparatus (Mechanisms for-); commutation (Electric apparatus for-); commutators; compact disc players; compact discs [audio-video]; compact discs [read-only memory]; comparators; computer keyboards; computer memories; computer operating programs, recorded; computer peripheral devices; computer programmes [programs], recorded; computer programs [downloadable software]; computer software, recorded; computers; conductors, electric; connections for electric lines; connections, electric; connectors [electricity]; contacts, electric; contacts, electric, of precious metal; control panels [electricity]; controller; converters; converters, electric; counter-operated apparatus (Mechanisms for-); couplers [data processing equipment]; current rectifiers; data processing apparatus; densimeters; densitometers; detectors; diagnostic apparatus, not for medical purposes; diffraction apparatus [microscopy]; discharge tubes, electric, other than for lighting; disk drives for computers; disks, magnetic; distance measuring apparatus; distance recording apparatus; distribution boards [electricity]; distribution consoles [electricity]; deoxyribonucleic acid (DNA) chips; ducts [electricity]; DVD players; dynamometers; ear plugs; electric installations for the remote control of industrial

operations; electric apparatus for remote ignition; electric loss indicators; electric welding apparatus; electro-dynamic apparatus for the remote control of signals; electromagnetic coils; electromagnetic flowmeters; electronic pens [visual display units]; electronic publications, downloadable; electronic tags for goods; elevator operating apparatus; encoded cards, magnetic; exposure meters [light meters]; false coin detectors; fibre [fiber (Am.)] optic cables; fingerprints recognition access control units; fire alarms; fire escapes; food analysis apparatus; frequency meters; fuel dispensing pumps for service stations; galvanometers; gas alarms; gas leak alarm systems; gas testing instruments; gasoline pumps for service stations; gasometers; gates for car parks (Coin-operated-); gradient indicators; heat regulating apparatus; heliographic apparatus; hydrometers; hygrometers; identity cards, magnetic; igniting apparatus, electric, for igniting at a distance; image processing devices; incubators for bacteria culture; indicators [electricity]; integrated circuit cards [smart cards]; integrated circuits; intercommunication apparatus; interfaces for computers; inverters [electricity]; invoicing machines; ionisation apparatus, not for the treatment of air; iris recognition access control units; juke boxes for computers; lactometers; lasers, not for medical purposes; life saving apparatus and equipment; light dimmers [regulators], electric; light-emitting electronic pointers; lighting ballasts; locks, electric; magnetic data media; magnetic encoders; magnetic tape units for computers; magnetic tapes; manometers; material testing instruments and machines; measures; measuring apparatus; measuring devices, electric; measuring instruments; measurement recorders; logging (recording or measuring) apparatus; metal detectors for industrial or military purposes; meteorological balloons; meteorological instruments; meters; microprocessors; modems; money counting and sorting machines; monitoring apparatus, electric; monitors [computer hardware]; monitors [computer programs]; mouse [data processing equipment]; mouse pads; nautical apparatus and instruments; notebook computers; observation instruments; optical apparatus and instruments; optical character readers; optical data media; optical discs; optical fibers [fibres] [light conducting filaments]; optical glass; optical goods; optical lenses; ovens for laboratory experiments; ozonizers (ozonators); palm vein recognition access control units; pedometers; phototelegraphy apparatus; photovoltaic cells; physics (Apparatus and instruments for-); plates for batteries; plotters; plugs, sockets and other contacts [electric connections]; pocket calculators; portable telephones; precision balances; precision measuring apparatus; pressure gauges; pressure indicator plugs for valves; pressure indicators; pressure measuring apparatus; printed circuits; printers for use with computers; probes for scientific purposes; protection devices for personal use against accidents; push buttons for bells; quantity indicators; radar apparatus; readers [data

processing equipment]; reducers [electricity]; refractometers; regulating apparatus, electric; remote control apparatus; roentgen apparatus not for medical purposes; salinometers; satellites for scientific purposes; scales; scanners [data processing equipment]; sealing plastics (Electrical apparatus for-) [packaging]; self-regulating fuel pumps; semi-conductors; signalling panels, luminous or mechanical; simulators for the sports training; simulators for the steering and control of vehicles; smoke detectors; solar batteries; solenoid valves [electromagnetic switches]; sonars; sound recording apparatus; sounding apparatus and machines; speaking tubes; spectroscopes; speed indicators; spherometers; sprinkler systems for fire protection; steering apparatus, automatic, for vehicles; switchboards; switches, electric; tachometers; telephone receivers; telephone transmitters; temperature indicators; testing apparatus not for medical purposes; theft prevention installations, electric; thermionic lamps and tubes; thermometers, not for medical purposes; thermostats; time clocks [time recording devices]; time recording apparatus; transformers [electricity]; transistors [electronic]; transmitters [telecommunication]; transmitters of electronic signals; vacuum gauges; variometers; vending machines; video game cartridges; video recorders; viscosimeters; voltage surge protectors; voltmeters; wafers [silicon slices]; water level indicators; wavemeters; weighing apparatus and instruments; weighing machines; welding apparatus, electric; workmen's protective face-shields; wrist rests for use with computers; security systems and installations; coin-operated gates for car parks or parking lots; computer programs [downloadable software] and softwares; ancillary input and output controllers; communications controllers; computer controllers; controller circuit boards; controller interface modules; controllers for plasma deposition [not for medical use]; controllers for plasma etching [not for medical use]; digital controllers; disc controllers; disc drive controllers; electric fence controllers; electrical controllers for controlling the speed of motors; electrically operated servo-position controllers; electronic controllers; electronic digital controllers for controlling digital flow control valves; electronic programmable logic controllers; fluid flow controllers [electrical apparatus]; graphic display controller circuit board assemblies; hard disk controllers; industrial process controllers [electric or electronic]; infrared remote controllers; inverter controllers; laser printer controllers; level controllers [electrical apparatus]; lock controllers [electric]; memory controllers for use with computers; mouse controllers; multiport controllers; network controllers being computer apparatus; port sharing printer controllers; positioning controllers for servomotors; positioning controllers for stepping motors; power controllers [electric]; pressure controllers [gauges]; process control digital controllers; process control units being controller modules; process controllers [electric]; process controllers

[electronic]; programmable controllers; remote controllers; remote printing controllers (electric-); remote printing controllers (electronic-); speed controllers [electrical]; speed controllers [electronic]; stopper motor controllers; temperature controllers; temperature controllers apparatus for machines; terminal controllers [electric]; thermostat controllers; detectors (leak detectors, infrared detectors, ultraviolet detectors, human detectors, flame detectors); distribution machines, automatic; divers' apparatus; electric apparatus for remote ignition; electrical or pneumatic measuring apparatus and instrument, pressure meters, corrosion meters, pH meters, flow meters, temperature meters [not for medical use], shock meters, humidity meters, liquid level meters; electrodes; electro-dynamic apparatus for the remote control of signals; electromagnetic flow meters and converters; fingerprint access control units; floats for bathing and swimming; integrated circuit cards; memory cards; lasers, not for medical purposes; liquid crystal displays (LCD), cathode ray tubes (CRT) displays, display panels and apparatus [electrical or electronic]; recorders; program control apparatus; protective helmets; sensors [measuring apparatus], other than for medical use; sensors for pressure, corrosion, flow, temperature, shock or humidity; pH and image sensors; signal bells; slide-rules; slot machines [vending machines]; supervisory control and data acquisition and distribution system (comprised of computers, cathode ray tubes (CRT), process controllers, analog modules, data acquisition, recording and analyzing devices, alarms, report-printers, softwares and communication networks for such); temperature meters (including both indicating and transmitting type); transmitters of electronic or electric signals relating to pressure, temperature, water level, flow rate, ph, shock, humidity, sensors of flow; urinometers; valve operators [electric controls]; control valves (electric-).

Class 10

Air cushions for medical purposes; air mattresses, for medical purposes; air pillows for medical purposes; analysis (apparatus for use in medical-); arterial blood pressure measuring apparatus; bandages (supportive-); bed pans; blankets, electric, for medical purposes; blood testing apparatus; commode chairs; contraceptives, non-chemical; finger guards for medical purposes; gloves for medical purposes; hot air therapeutic apparatus; hot air vibrators for medical purposes; ice bags for medical purposes; massage apparatus; medical apparatus and instruments; nursing appliances; suspensory bandages; vibromassage apparatus.

Class 11

Air conditioning apparatus; air conditioning installations; air cooling apparatus; air deodorising apparatus; air driers [dryers]; air filtering installations; air purifying apparatus and machines;

air reheaters; air sterilizers; air valves for steam heating installations; bath tubs for sitz baths; boiler pipes [tubes] for heating installations; boilers, other than parts of machines; burners; central heating radiators; chromatography apparatus for industrial purposes; coils [parts of distilling, heating or cooling installations]; cookers; cooling appliances and installations; cooling installations and machines; dampers [heating]; desiccating apparatus; drying apparatus; drying apparatus and installations; expansion tanks for central heating installations; fans [air-conditioning]; fans [parts of air-conditioning installations]; faucets for pipes (am.); feeding apparatus for heating boilers; filters [parts of household or industrial installations]; filters for air conditioning; filters for drinking water; flare stacks for use in the oil industry; flushing apparatus; footwarmers, electric or non-electric; freezers; friction lighters for igniting gas; fuel economizers; furnaces; gas apparatus (regulating and safety accessories for-); gas boilers; gas condensers, other than parts of machines; gas lighters; gas pipes (regulating and safety accessories for-); gas scrubbing apparatus; hair driers [dryers]; hand drying apparatus for washrooms; heat accumulators; heat exchangers, not parts of machines; heat pumps; heat regenerators; heating apparatus; heating apparatus, electric; heating boilers; heating installations; heating installations (hot water-); heating plates; hot air apparatus; humidifiers for central heating radiators; hydrants; incinerators; ionisation apparatus for the treatment of air; level controlling valves in tanks; lighting apparatus and installations; oil-scrubbing apparatus; ovens, other than for experimental purposes; pasteurisers; pipe line cocks [spigots]; purification installations for sewage; radiators [heating]; refrigerating apparatus and machines; refrigerating appliances and installations; regulating and safety accessories for water apparatus; sanitary apparatus and installations; scrubbers [parts of gas installations]; solar collectors [heating]; stoves [heating apparatus]; thermostatic valves [parts of heating installations]; ventilation [air-conditioning] installations and apparatus; ventilation hoods; ventilation hoods for laboratories; washers for water taps; waste water treatment tanks for household purposes; waste water treatment tanks for industrial purposes; water conduits installations; water distribution installations; water or gas apparatus and pipes (regulating accessories for-); water or gas apparatus and pipes (safety accessories for-); water purification installations; water supply installations; combustion apparatus; pressure controllers [regulators] for gas apparatus; pressure controllers [regulators] for gas pipes; pressure controllers [regulators] for water apparatus; pressure controllers [regulators] for water pipes; temperature controllers [valves] for central heating radiators; cookers; cooling installations and machines; solar water heaters.

Class 35

Advertising; advertising agencies; advertising material (updating of-); analysis (cost price-); auditing; business appraisals; business consultancy (professional-); business consultancy for environmental systems and quality control; business inquiries; business investigations; business management and organization consultancy; business management assistance; business management by researching, planning and marketing implementation for product quality improvement; business management consultancy; business management consultancy for facilities for elderly people; business organization consultancy; business research; commercial information agencies; commercial or industrial management assistance; compilation of information into computer databases; data search in computer files for others; demonstration of goods; direct mail advertising; document reproduction; efficiency experts; file management (computerized-); import-export agencies; invoicing; business administration of licensing of goods and services of others; management (advisory services for business-); marketing research; marketing studies; on-line advertising on a computer network; organization of exhibitions for commercial or advertising purposes; organization of trade fairs for commercial or advertising purposes; outdoor advertising; outsourcing services [business assistance]; procurement services for others [purchasing goods and services for other businesses]; rental (office machines and equipment-); rental of advertising space; rental of photocopying machines; rental of vending machines; sales promotion for others; systemization of information into computer databases; arranging subscriptions to telecommunication service for others.

Class 37

Air conditioning apparatus installation and repair; boiler cleaning and repair; building construction supervision; building insulating; building of fair stalls and shops; building sealing; burglar alarm installation and repair; burner maintenance and repair; cabinet making [repair]; cleaning of buildings [exterior surface]; cleaning of buildings [interior]; computer hardware (installation, maintenance and repair of-); construction; construction information; damp-proofing [building]; disinfecting; electric appliance installation and repair; electrical wiring services; elevator installation and repair; factory construction; fire alarm installation and repair; freezing equipment installation and repair; furnace installation and repair; heating equipment installation and repair; installation of doors and windows; machinery installation, maintenance and repair; office machines and equipment installation, maintenance and repair; painting, interior and exterior; plumbing; pump repair; rebuilding machines that have been worn or partially destroyed; rental of bulldozers; rental of construction equipment; rental of cranes [construction equipment];

repair information; repair of security locks; riveting; roofing services; rustproofing; signs (painting or repair of-); strong-room maintenance and repair; telecommunication wiring; wiring work (interior); residential, commercial and industrial installation and repair of electrical and computer wiring and cabling; telephone installation and repair; upholstery; upholstery repair; vermin exterminating, other than for agriculture; vulcanization of tires [tyres] [repair]; wallpapering; warehouse construction and repair; window cleaning.

Class 38

Providing internet chatrooms; computer aided transmission of messages and images; communications by computer terminals; cellular telephone communication; providing access to databases; telecommunication (information about-); telex services; teleconferencing services; facsimile transmission; rental of facsimile apparatus; voice mail services; message sending; rental of message sending apparatus; rental of modems; satellite transmission; communications by fiber [fibre] optic networks; telecommunications routing and junction services; information about telecommunication; rental of telecommunication equipment; electronic mail; electronic bulletin board services [telecommunications services]; providing user access to a global computer network [service providers]; providing telecommunications connections to a global computer network; rental of access time to global computer networks; communications by telegrams; sending of telegrams; communications by telephone; rental of telephones; news agencies; paging services [radio, telephone or other means of electronic communication]; cable television broadcasting.

Class 39

Air transport; arranging of tours; boat rental; boat storage; boat transport; booking of seats for travel; brokerage (freight-); brokerage (transport-); car parking; car rental; car transport; delivery of goods; distribution of energy; electricity distribution; escorting of travellers; freight forwarding; freighting; goods (storage of-); hauling; information (transportation-); packaging of goods; parcel delivery; portorage; railway transport; refloating of ships; rental of wheelchairs; stevedoring; storage; storage (physical-) of electronically-stored data or documents; storage containers (rental of-); storage information; storage of goods; transport; transport and storage of waste; transportation information; travel reservation; underwater salvage; unloading cargo; vehicle rental; warehouses (rental of-); water distribution; water supplying; wrapping of goods.

Class 40

Air deodorizing; air freshening; air purification; assembling of

materials (custom-) for others; boiler-making; destruction of waste and trash; electroplating; flour milling; incineration of waste and trash; information (material treatment-); metal plating; millworking; paper finishing; paper treating; photographic printing; photogravure; printing; printing (offset-); production of energy; recycling of waste and trash; rental of air conditioning apparatus; rental of generators; rental of space heating apparatus; sorting of waste and recyclable material [transformation]; vulcanization [material treatment]; rental of waste compacting machines; rental of waste disposers; waste treatment [transformation]; water treating.

Class 41

Bookmobile services; health club services; entertainment; instruction services; teaching; education information; videotaping; practical training [demonstration]; correspondence courses; entertainment information; recreation information; sign language interpretation; rental of audio equipment; rental of movie projectors and accessories; rental of videotapes; digital imaging services; rental of video cameras; rental of cine-films; educational examination; rental of video cassette recorders; rental of radio and television sets; rental of sports equipment, except vehicles; recreation facilities (providing-); electronic desktop publishing; microfilming; providing sports facilities; layout services, other than for advertising purposes; dubbing; videotape editing; organization of exhibitions for cultural or educational purposes; arranging and conducting of conferences; arranging and conducting of seminars; arranging and conducting of symposiums; lending libraries; translation; rental of toys and play equipment; rental of sound recordings.

Class 42

Architectural consultation; architecture; bacteriological research; biological research; calibration [measuring]; computer programming; computer rental; computer software (updating of-); computer software consultancy; computer software design; computer system design; computer systems analysis; computer virus protection services; construction drafting; consultancy (computer software-); consultancy in the field of computer hardware; consultancy in the field of energy-saving; conversion of data or documents from physical to electronic media; creating and maintaining web sites for others; data conversion of computer programs and data [not physical conversion]; design of interior decor; duplication of computer programs; engineering; graphic arts designing; hosting computer sites [web sites]; industrial design; installation of computer software; maintenance of computer software; material testing; mechanical research; packaging design; project studies (technical-); computer services for the protection of computer systems against computer virus;

providing search engines for the internet; quality control; recovery of computer data; rental of computer software; rental of web servers; research (geological-); research and development for others; research in the field of environmental protection; land surveys; technical research; urban planning; weather forecasting; monitoring, including remote controlling services of air conditioner and water supply installations through use of telecommunication facilities.

Class 43

Retirement homes; rental of meeting rooms; rental of chairs, tables, table linen, glassware; rental of linen; rental of furnishings, namely curtains and floor coverings including rugs; rental of furniture; rental of beds; rental of mattress.

Class 44

Aromatherapy services; chiropractics; convalescent homes; dentistry; farming equipment rental; health care; health counselling; health counselling (internet-); health counselling (telephone-); providing health information; homes (convalescent-); homes (nursing-); hospices; hospitals; massage; medical assistance; medical clinics; nursing homes; nursing, medical; pharmacy advice; physical therapy; physiotherapy; psychologist (services of a-); rental of sanitation facilities; rest homes; extermination of vermin for agriculture, horticulture and forestry; rental of medical apparatus; rental of nursing care products; provision of medical information; provision of medical institution information; provision of nursing care information; provision of nursing care facilities information for elderly and/or disabled persons; rental of portable toilets (rental of sanitation facilities); rental of physical invalid aids (other than wheelchairs, scooters and other vehicles) including bath tubs for care, walking aids, wheelchair ramps or slopes and welfare equipment; rental of towels.

Class 45

Fire alarms (rental of-); inspection of factories for safety purposes; licensing of computer software [legal services]; fire extinguishers (rental of-); consultancy (intellectual property-); licensing of intellectual property; monitoring services relating to the security of premises; security surveillance; opening of security locks; guards; consultancy (security-); monitoring of burglar and security alarms; night guards; clothing rental; biometric security services.

International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap.332, 1999 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$340).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 09

Electronic apparatus and electronic instruments (included in this class), consultation software (recorded), sales software (recorded), as well as software (included in this class) for printing presses, offset printing presses, as well as machinery for the graphics industry and machinery for further processing of printed matter or paper; electronic regulating devices, control devices, monitoring devices, quality control devices, production control devices, temperature control devices, web tension control devices, consultation software (recorded), sales software (recorded), and software in the form of parts or as accessories of printing presses, rotary offset printing presses, machinery for the graphics industry and machinery for further processing of printed matter or paper, namely for transporting, cutting, folding, gathering, stitching, packing, collating, sorting, binding, scanning, perforating, gluing, stapling, strapping, banding, book-binding; electrical and electronic measuring and testing apparatus and instruments for setting and pre-setting of subassemblies and parts of printing presses, rotary offset printing presses, as well as machinery for the graphics industry and machinery for further processing of printed matter or paper; consultation software (recorded) and/or sales software (recorded) in connection with electrical and electronic measuring and testing apparatus and instruments for setting and pre-setting of sub assemblies and parts of printing presses, rotary offset printing presses, as well as machinery for the graphics industry and machinery for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of ink metering devices, ink rollers, dampening rollers, registration setting devices in printing presses, rotary offset printing presses, as well as machinery for the graphics industry and machinery for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of transporting and/or storing of printed matter or paper or rolls of paper for printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control,

remote operation, remote monitoring, control and/or regulation of devices for changing printing plates; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of devices for cleaning rollers in inking or dampening devices and/or cylinders in printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of devices for mounting and/or adjusting of rollers in inking or dampening devices and/or cylinders in printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of inking or dampening devices and/or printing group cylinders in printing groups; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of arrangements for controlling the temperature in inking and dampening devices and/or cylinders of printing groups; electrical and electronic apparatus and instruments, consultation software, sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of cutting devices and/or cutting cylinders in printing presses, offset printing presses, as well as machinery for the graphics industry and machinery for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software (recorded), sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of registration in printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; electrical and electronic apparatus and instruments, consultation software (recorded), sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of quality control devices in printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; electrical and electronic apparatus and instruments (included in this class), consultation software

(recorded), sales software (recorded), as well as software for the remote control, remote operation, remote monitoring, control and/or regulation of web tensions in printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; consultation software (recorded), sales software (recorded), software in connection with the pre-press stage, printing of printed matter, further processing of printed matter, production control, production planning, management information in connection with printing presses, rotary offset printing presses, as well as machinery for the graphics industry, machinery for further processing of printed matter or paper, and their parts; electrical and electronic apparatus and instruments (included in this class), consultation software (recorded), sales software (recorded), as well as software for interfaces and/or data transfer in printing presses, rotary offset printing presses, as well as machinery for the graphics industry, machinery for further processing of printed matter or paper, and their parts; software (recorded) for the remote control, remote operation, remote monitoring, control and/or regulation of devices for transporting and/or storing of printed matter or paper or rolls of paper for printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; software (recorded) for transporting, packaging and storing of remote control devices, remote operating devices, remote monitoring devices, control and/or regulating devices of arrangements for transporting or storing of printed matter or paper or rolls of paper for printing presses, offset printing presses, as well as machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; parts for the above mentioned goods, included in this class.

Class 35

Promotion of sales of printing presses, of rotary offset printing presses, machinery for the graphics industry, as well as machinery for the further processing of printed matter or paper, and their parts; business counseling in connection with the sale of goods, for example the sale of printing presses, of rotary offset printing presses, machinery for the graphics industry, as well as machinery for the further processing of printed matter or paper, and their parts; organizational counseling, personnel management counseling, business counseling, management information on business in connection with the pre-press stage, printing of printed matter, further processing of printed matter, production control, production planning, interfaces or data transfer, and/or in connection with arrangements for transporting or storing of printed matter or paper or rolls of paper for printing presses, for

offset printing presses, as well as for machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; organizational counseling, personnel management counseling, business counseling, management information on business in connection with electronic regulating devices, control devices, monitoring devices, quality control devices, production control devices, temperature control devices and/or web tension control devices as parts or accessories of printing presses, for offset printing presses, for machinery for the graphics industry and machinery for further processing of printed matter or paper, namely for transporting, cutting, folding, gathering, stitching, packing, collating, sorting, binding, scanning, perforating, gluing, stapling, strapping, banding, book-binding; organizational counseling, personnel management counseling, business counseling, management information on business in connection with electrical and electronic measuring and testing apparatus and instruments for setting and pre-setting of subassemblies and parts of printing presses, rotary offset printing presses, of machinery for the graphics industry as well as machinery for further processing of printed matter or paper; organizational counseling, personnel management counseling, business counseling, management information on business in connection with remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices for ink metering, ink rollers, dampening rollers, registration adjustment devices, of arrangements for mounting and/or adjusting rollers in inking and dampening devices and/or cylinders, of arrangements for cleaning rollers in inking and dampening devices and/or cylinders, of cutting devices and/or cutting cylinders, of registers, of web tensions and/or for quality control devices, for, or in connection with printing presses, offset printing presses, of machinery and mechanical devices for the graphics industry, or machinery and mechanical devices for further processing of printed matter or paper; organizational counseling, personnel management counseling, business counseling, management information on business, quality management counseling in connection with remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices for arrangements for changing printing plates, inking and/or dampening devices and/or printing group cylinders in printing groups, and/or of arrangements for controlling the temperature in inking and dampening devices and/or cylinders of printing groups; advertising in connection with printing presses, rotary offset printing presses, machinery for the graphics industry, as well as machinery for further processing of printed matter or paper, and their parts.

Class 36

Financial counseling in connection with the sale of goods, financial

investment counseling regarding printing presses, offset rotary printing presses, machinery for the graphics industry, as well as machinery for further processing of printed matter or paper, and their parts; financial investment counseling regarding the pre-press stage, printing of printed matter, further processing of printed matter, production control, production planning, interfaces, data transfer, and/or in connection with arrangements for transporting or storing of printed matter or paper or rolls of paper for printing presses, for offset printing presses, as well as for machinery and mechanical devices for the graphics industry and machinery and mechanical devices for further processing of printed matter or paper; financial investment counseling regarding electronic regulating devices, control devices, monitoring devices, quality control devices, production control devices, temperature control devices and/or web tension control devices as parts or accessories of printing presses, for offset printing presses, for machinery for the graphics industry and machinery for further processing of printed matter or paper, namely for transporting, cutting, folding, gathering, stitching, packing, collating, sorting, binding, scanning, perforating, gluing, stapling, strapping, banding, book-binding; financial investment counseling regarding electrical and electronic measuring and testing apparatus and instruments for setting and pre-setting of subassemblies and parts of printing presses, rotary offset printing presses, of machinery for the graphics industry and of machinery for further processing of printed matter or paper; financial investment counseling regarding remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices of ink metering, ink rollers, dampening rollers, registration adjustment devices, of arrangements for mounting and/or adjusting rollers in inking and dampening devices and/or cylinders, of arrangements for cleaning rollers in inking and dampening devices and/or cylinders, of cutting devices and/or cutting cylinders, of registers, of web tensions and/or for quality control devices, for, or in connection with printing presses, rotary offset printing presses, of machinery and mechanical devices for the graphics industry, as well as for machinery and mechanical devices for further processing of printed matter or paper; financial investment counseling regarding the remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices for arrangements for changing printing plates, of inking and/or dampening devices and/or printing group cylinders in printing groups, and/or of arrangements for controlling the temperature in inking and dampening devices and/or cylinders in printing groups.

Class 37

Installation, maintenance and repair of printing presses, of offset rotary printing presses, of machinery for the graphics industry, as well as for machinery for further processing of printed matter or

paper and their parts; installation, maintenance and repair of pre-press stages, of parts or accessories for further processing of printed matter, of parts or accessories of interfaces and/or parts or accessories for data transfer; installation, maintenance and repair of electronic regulating devices, control devices, monitoring devices, quality control devices, production control devices, temperature control devices and/or web tension control devices as parts or accessories of printing presses, for rotary offset printing presses, for machinery for the graphics industry and machinery for further processing of printed matter or paper, namely for transporting, cutting, folding, gathering, stitching, packing, collating, sorting, binding, scanning, perforating, gluing, stapling, strapping, banding, book-binding; installation, maintenance and repair of electrical and electronic measuring and testing apparatus and instruments for setting and pre-setting of subassemblies and parts of printing presses, rotary offset printing presses, of machinery for the graphics industry as well as for machinery for further processing of printed matter or paper; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices of ink metering, ink rollers, dampening rollers, registration adjustment devices, of arrangements for mounting and/or adjusting rollers in inking and dampening devices and/or cylinders, of arrangements for cleaning rollers in inking and dampening devices and/or cylinders, of cutting devices and/or cutting cylinders, of registers, of web tensions and/or for quality control devices, as parts or accessories of printing presses, offset printing presses, of machinery and mechanical devices for the graphics industry, as well as for machinery and mechanical devices for further processing of printed matter or paper; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices for arrangements for changing printing plates, of inking and/or dampening devices and/or printing group cylinders in printing groups, and/or of arrangements for controlling the temperature in inking and dampening devices and/or cylinders in printing groups.

Class 39

Transportation, packaging and storage of printing presses, of rotary offset printing presses, of machinery for the graphics industry, as well as for machinery for further processing of printed matter or paper and their parts; transportation, packaging and storage of remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices for transporting and/or storing of printed matter or paper or rolls of paper for printing presses, of rotary offset printing presses, of machinery and mechanical devices for the graphics industry, as well as for machinery and mechanical devices for further processing of

printed matter or paper.

Class 42

Technical counseling; software counseling; preparation of software in connection with the planning for printing plants and installations for further processing of printed matter and paper; technical counseling regarding, as well as the preparation of software and actualization of software for printing presses, rotary offset printing presses, machinery for the graphics industry, as well as for machinery for further processing of printed matter or paper and their parts; technical counseling regarding, as well as preparation of software and actualization of software for the pre-press stage, printing of printed matter, further processing of printed matter, production control, production planning, management information, for the interfaces and/or the data transfer, for arrangements for transporting or storing of printed matter or paper or rolls of paper for printing presses, for rotary offset printing presses, for machinery for the graphics industry as well as for machinery for further processing of printed matter or paper and their parts; technical counseling regarding, as well as preparation of software and actualization of software for electronic regulating devices, control devices, monitoring devices, quality control devices, production control devices, temperature control devices and/or web tension control devices as parts or accessories of printing presses, rotary offset printing presses, of machinery for the graphics industry as well as for machinery for further processing of printed matter or paper; technical counseling regarding, as well as preparation of software and actualization of software for remote control, remote operation, remote monitoring, control and/or regulation apparatus and devices of ink metering, ink rollers, dampening rollers, registration adjustment devices, of arrangements for mounting and/or adjusting rollers in inking and dampening devices and/or cylinders, of arrangements for cleaning rollers in inking and dampening devices and/or cylinders, of cutting devices and/or cutting cylinders, of registers, of web tensions and/or of quality control devices, in printing presses, offset printing presses, in machinery and mechanical devices for the graphics industry, as well as in machinery and mechanical devices for further processing of printed matter or paper; technical counseling regarding, as well as preparation of software and actualization of software for remote control, remote operation, remote monitoring, control and/or regulation apparatus of arrangements for changing printing plates, of inking and/or dampening devices and/or printing group cylinders in printing groups, and/or of arrangements for controlling the temperature in inking and dampening devices and/or cylinders of printing groups.

TOMTOM INTERNATIONAL B.V.

**REMBRANDTPLEIN 35, NL-1017 CT AMSTERDAM,
NETHERLANDS.**

T0913481J (01 06 07 08 09 11 16 17 19 20 35 37 40 42)
(International Registration No. 1017801)

Date of International Registration: 03/04/2009

Date of Protection in Singapore: 03/04/2009

The following claim is made in the International Registration:
Colours claimed: Black, white, grey, red and blue.

Class 01

Auxiliary fluids for use with abrasives; synthetic materials for absorbing oil; vulcanization accelerators; acidulated water for recharging accumulators; aluminium acetate; acetate of cellulose, unprocessed; chemicals; acetates; acetic anhydride; bacteriological preparations for acetification; acetone; acetylene; acetylene tetrachloride; acid proof chemical compositions; acids; acidulated water for recharging accumulators; acidulated water for recharging batteries; acrylic resins, unprocessed; actinium; activated carbons; chemical additives for oils; additives, chemical, to drilling muds; additives, chemical, to fungicides; additives, chemical, to insecticides; additives, chemical, to motor fuel; detergent additives to gasoline (petrol); adhesive preparations for surgical bandages; adhesives for billposting; adhesives for industrial purposes; adhesives for paperhanging; adhesives for wall tiles; gas propellents for aerosols; agar-agar; agglutinants for concrete; agricultural chemicals, except fungicides, weedkillers, herbicides, insecticides and parasitocides; manure for agriculture; albumen (animal or vegetable, raw material); iodised albumen; malt albumen; albuminized paper; alcohol; ethyl alcohol; aldehydes; algarovilla (tanning material); alginates (gelling and inflating preparations) other than for alimentary purposes; volatile alkali (ammonia) for industrial purposes; alkalies; alkaline iodides for industrial purposes; alkaline metals; salts of alkaline metals; alkaline-earth metals; alkaloids; chemical preparations for facilitating the alloying of metals; alum; alumina; aluminium acetate; aluminium alum; aluminium chloride; aluminium hydrate; aluminium iodide; aluminium silicate; americium; ammonia; ammonia alum; ammonia (volatile alkali) for industrial purposes; ammoniacal salts; ammonium aldehyde; ammonium salts; amyl acetate; amyl alcohol; chemical preparations for analyses in laboratories, other than for medical or veterinary purposes; anhydrides; anhydrous ammonia; animal albumen (raw material); animal carbon; animal carbon preparations; animal charcoal; anti-boil preparations for engine coolants; antifreeze; anti-frothing solutions for accumulators; anti-frothing solutions for batteries; anti-incrustants; anti-knock substances for internal combustion engines; antimony; antimony oxide; antimony sulphide; anti-sprouting preparations for vegetables; antistatic preparations, other than for household purposes; anti-tarnishing

chemicals for windows; antranilic acid; argon; lead arsenate; arsenic; arsenious acid; artificial resins, unprocessed; artificial sweeteners (chemical preparations); soda ash; astatine; fuel for atomic piles; automobile body fillers; auxiliary fluids for use with abrasives; bacterial preparations other than for medical and veterinary use; oenological bactericides (chemical preparations used in wine making); bacteriological preparations for acetification; bacteriological preparations other than for medical and veterinary use; balm of gurjun (gurjon, gurjan) for making varnish; adhesive preparations for surgical bandages; barium; barium compounds; barium sulphate; baryta; baryta paper; barytes; bases (chemical preparations); basic gallate of bismuth; bate for dressing skins; fixing baths (photography); baths for galvanizing; toning baths (photography); acidulated water for recharging batteries; anti-frothing solutions for batteries; liquids for removing sulphates from batteries; salts for galvanic batteries; bauxite; beer preserving agents; beer-clarifying and preserving agents; bentonite; benzene derivatives; methyl benzene; benzene-based acids; benzoic acid; benzoic sulphinide; methyl benzol; berkelium; bicarbonate of soda for chemical purposes; bichloride of tin; bichromate of potassium; bichromate of soda; adhesives for billposting; foundry binding substances; biochemical catalysts; biological preparations, other than for medical or veterinary purposes; birdlime; bismuth; basic gallate of bismuth; bismuth nitrite for chemical purposes; lamp black for industrial purposes; fat-bleaching chemicals; oil-bleaching chemicals; organic-bleaching chemicals; wax-bleaching chemicals; bleaching preparations (decolorants) for industrial purposes; blood charcoal; blueprint cloth; blueprint paper; bone charcoal; cement for boots; borax; boric acid for industrial purposes; brake fluid; brazing fluxes; brazing preparations; brickwork preservatives, except paints and oils; color-brightening chemicals for industrial purposes; bromine for chemical purposes; by-products of the processing of cereals for industrial purposes; caesium; calcined soda; calcium carbide; calcium cyanamide (fertilizer); calcium salts; californium; camphor, for industrial purposes; car body fillers; carbide; carbolineum for the protection of plants; carbon; carbon black for industrial purposes; carbon for filters; animal carbon preparations; carbon sulphide; carbon tetrachloride; carbonates; carbonic acid; carbonic hydrates; activated carbons; casein for industrial purposes; cassiopium (lutetium); catalysts; catechu; caustic alkali; caustic soda for industrial purposes; caustics for industrial purposes; cellulose; acetate of cellulose-unprocessed; cellulose derivatives (chemicals); cellulose esters for industrial purposes; cellulose ethers for industrial purposes; cement for boots and shoes; cement for mending broken articles; cement for pneumatic tires (tyres); cement (metallurgy); oil cement (putty); cement preservatives, except paints and oils; cement-waterproofing preparations, except paints; ceramic

compositions for sintering (granules and powders); ceramic glazings; ceramic materials in particulate form, for use as filtering media; compositions for the manufacture of technical ceramics; by-products of the processing of cereals for industrial purposes; cerium; animal charcoal; blood charcoal; bone charcoal; chemical additives for oils; fissionable chemical elements; chemical intensifiers for paper; chemical intensifiers for rubber; chemical preparations for facilitating the alloying of metals; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical reagents, other than for medical or veterinary purposes; chemical substances for analyses in laboratories, other than for medical or veterinary purposes; agricultural chemicals, except fungicides, weedkillers, herbicides, insecticides and parasitocides; chemicals for forestry, except fungicides, herbicides, insecticides and parasitocides; industrial chemicals chimney cleaners, chemical; China slip; chlorates; chlorides; chlorine; chloric acid; chromates; chrome alum; chrome salts; chromic acid; chromic salts; chromium oxide; cinematographic film, sensitized but not exposed; citric acid for industrial purposes; clarification preparations; China clay; expanded-clay for hydroponic plant growing (substrate); chimney cleaners, chemical; blueprint cloth; coal saving preparations; cobalt oxide for industrial purposes; collodion; color-brightening chemicals for industrial purposes; salts for coloring metal; colour-brightening chemicals for industrial purposes; salts for colouring metal; combusting preparations (chemical additives to motor fuel); compositions for the manufacture of phonograph records; compost; agglutinants for concrete; concrete preservatives, except paints and oils; concrete-aeration chemicals; chemical condensation preparations; condensation-preventing chemicals; preparations for stimulating cooking for industrial purposes; anti-boil preparations for engine coolants; coolants for vehicle engines; copper sulphate (vitriol); corrosive preparations; cream of tartar, other than for pharmaceutical purposes; creosote for chemical purposes; crotonic aldehyde; cryogenic preparations; cultures of microorganisms other than for medical and veterinary use; curium; currying preparations for leather; currying preparations for skins; cyanides (prussiates); solutions for cyanotyping; cymene; damp proofing preparations, except paints, for masonry; chemical preparations for decarbonising engines; decolorants for industrial purposes; defoliants; degreasing preparations for use in manufacturing processes; degumming preparations; dehydrating preparations for industrial purposes; detergent additives to petrol (gasoline); detergents for use in manufacturing processes; photographic developers; dextrine size; diagnostic preparations, other than for medical or veterinary purposes; diastase for industrial purposes; diatomaceous earth; diazo paper; potassium dioxalate; dioxide of hydrogen; titanium dioxide for industrial purposes; disincrustants; oil dispersants;

petroleum dispersants; dispersions of plastics; distilled water; dolomite for industrial purposes; dressing and finishing preparations for textiles; leather-dressing chemicals; dressing, except oils, for skins; drilling muds; chemical additives to drilling muds; dry ice (carbon dioxide); dysprosium; diatomaceous earth; earth for growing; metal earths; rare earths; electrophoresis gels, other than for medical or veterinary purposes; emollients for industrial purposes; emulsifiers; photographic emulsions; chemical preparations, except pigments, for the manufacture of enamel; opacifiers for enamel; enamel-staining chemicals; anti-boil preparations for engine coolants; engine-decarbonising chemicals; coolants for vehicle engines; enzyme preparations for industrial purposes; enzymes for industrial purposes; epoxy resins, unprocessed; erbium; esters; ethane; ethers; ethyl alcohol; ethyl ether; europium; ion exchangers (chemicals); expanded-clay for hydroponic plant growing (substrate); fire extinguishing compositions; stain-preventing chemicals for use on fabrics; fat-bleaching chemicals; fatty acids; chemicals used in fermenting wine; ferments for chemical purposes; milk ferments for chemical purposes; fermium; fillers for car bodies; tree cavity fillers (forestry); sensitized films, unexposed; filtering materials (chemical preparations); filtering materials (mineral substances); filtering materials (unprocessed plastics); filtering materials (vegetable substances); ceramic materials in particulate form, for use as filtering media; filtering preparations for the beverages industry; must-fining preparation; wine finings; finishing preparations for use in the manufacture of steel; fire extinguishing compositions; fireproofing preparations; fissionable chemical elements; fissionable material for nuclear energy; fixing baths (photography); fixing solutions (photography); flashlight preparations; flocculants; flour for industrial purposes; flower preservatives; flowers of sulphur for chemical purposes; power steering fluid; transmission fluid; brake fluids; fluids for hydraulic circuits; auxiliary fluids for use with abrasives; fluorine; fluorspar compounds; brazing fluxes; soldering fluxes; chemical substances for preserving foodstuffs; chemicals for forestry, except fungicides, herbicides, insecticides and parasiticides; formic acid; formic aldehyde for chemical purposes; foundry molding (moulding) preparations; foundry sand; francium; glass frosting chemicals; hormones for hastening the ripening of fruit; fuel for atomic piles; fuel-saving preparations; fuller's earth for use in textile industry; fulling preparations; fulling preparations for use in textile industry; chemical additives to fungicides; gadolinium; basic gallate of bismuth; gallic acid for the manufacture of ink; gallium; gallnuts; gallotannic acid; galvanizing baths; galvanizing preparations; gambier; gas propellents for aerosols; gas purifying preparations; protective gases for welding; solidified gases for industrial purposes; additives to detergent gasoline; gelatine for industrial purposes; gelatine for photographic purposes;

electrophoresis gels, other than for medical or veterinary purposes; getters (chemically active substances); opacifiers for glass; glass (preparations for preventing the tarnishing of; water glass (soluble glass); glass-frosting chemicals; glass-staining chemicals; glaziers' putty; ceramic glazings; glucose for industrial purposes; glucosides; glue for industrial purposes; gluten (glue), other than for stationery or household purposes; glutinous tree-banding preparations; glutinous tree-grafting preparations; glycerides; glycerine for industrial purposes; glycol; glycol ether; gold salts; grafting mastic for trees; grafting wax for trees; graphite for industrial purposes; grease-removing preparations for use in manufacturing processes; preparations for the separation of greases; plant growth regulating preparations; guano; gum arabic for industrial purposes; gum solvents; tragacanth gum for use in manufactures; gums (adhesives), other than for stationery or household purposes; balm of gurrjun (gurrjon, gurrjan) for making varnish; metal hardening preparations; limestone hardening substances; heavy water; helium; holmium; hormones for hastening the ripening of fruit; horticulture chemicals, except fungicides, herbicides, insecticides and parasiticides; humus; humus top dressing; hydrates; fluids for hydraulic circuits; liquids for hydraulic circuits; hydrazine; hydrochlorates; hydrochloric acid; hydrofluoric acid; hydrogen; hydrogen peroxide; hypochlorite of soda; hyposulphites; dry ice (carbon dioxide); leather-impregnating chemicals; textile-impregnating chemicals; industrial chemicals; compositions for repairing inner tubes of tires (tyres); chemical additives to insecticides; anti-knock substances for internal combustion engines; iodic acid; iodine for chemical purposes; iodine for industrial purposes; iodised albumen; iodised saltslon exchangers (chemical preparations); iron salts; isinglass other than for stationery, household or alimentary purposes; isotopes for industrial purposes; kainite; kaolin; ketones; kieselgur; krypton; lactic acid; lamp black for industrial purposes; lanthanum; lead acetate; lead arsenate; lead oxide; currying preparations for leather; leather glues; mastic for leather; leather-dressing chemicals; leather-impregnating chemicals; leather-renovating chemicals; leather-waterproofing chemicals; lecithin (raw material); preparations for preventing the tarnishing of lenses; lime acetate; lime carbonate; lime chloride; nitrogenous lime (manure); limestone hardening substances; liquids for removing sulphates from accumulators; liquids for removing sulphates from batteries; starch-liquifying chemicals (ungluing agents); lithia (lithium oxide); lithium; litmus paper; loam; lutetium (cassiopium); magnesite; magnesium carbonate; magnesium chloride; magnetic fluid for industrial purposes; malt albumen; manganate; manganese dioxide; mangrove bark for industrial purposes; manure for agriculture; masonry preservatives, except paints and oils; mastic for leather; mastic for tires (tyres); grafting mastic for trees; chemical preparations for

smoking meat; meat tenderizers for industrial purposes; mercuric oxide; mercury; mercury salts; metal annealing preparations; metal earths; metal hardening preparations; metal tempering preparations; metalloids; alkaline metals; alkaline-earth metals; methane; methyl benzene; methyl benzol; methyl ether; cultures of microorganisms other than for medical and veterinary use; preparations of microorganisms other than for medical and veterinary use; chemical preparations to prevent mildew; milk ferments for chemical purposes; mineral acids; moderating materials for nuclear reactors; moistening (wetting) preparations for use in bleaching; moistening (wetting) preparations for use in dyeing; moistening (wetting) preparations for use in the textile industry; foundry molding preparations; mold-release preparations; mordants for metals; chemical additives to motor fuel; foundry moulding preparations; mould-release preparations; drilling muds; must-fining preparations; naphthalene; neodymium; neon; neptunium; toxic gas neutralizers; nitrate of uranium; nitrate paper; nitrates; nitric acid; nitric monoxide; bismuth nitrite for chemical purposes; nitrogen; nitrogenous fertilizers; nitrogenous lime (manure); nitrous oxide; moderating materials for nuclear reactors; gall nuts; oenological bactericides (chemical preparations used in wine making); oil cement (putty); oil dispersants; synthetic materials for absorbing oil; oil-bleaching chemicals; oil-purifying chemicals; chemical additives for oils; oils for currying leather; oils for preparing leather in the course of manufacture; oils for tanning leather; oils for the preservation of food; oil-separating chemicals; oleic acid; olivine (chemical preparations); opacifiers for enamel or glass; organic-bleaching chemicals; oxalates; oxalic acid; oxygen; chemical preparations for the manufacture of paints; palladious chlorides; paper pulp; adhesives for paperhanging; diazo papers; peat (fertiliser); peat pots for horticulture; pectin (photography); perborate of soda; percarbonates; perchlorates; persulphates; persulphuric acid; petroleum dispersants; phenol for industrial purposes; compositions for the manufacture of phonograph records; renovating preparations for phonograph records; phosphates (fertilisers); phosphatides; phosphoric acid; phosphorus; photographic developers; photographic emulsions; photographic paper; photographic sensitizers; chemical preparations for use in photography; reducing agents for use in photography; photometric paper; photosensitive plates; picric acid; chemical preparations for the manufacture of pigments; plant growth regulating preparations; plasticizers; dispersions of plastics; plastics, unprocessed; plastisols; sensitized plates for offset printing; photosensitive plates; sensitized photographic plates; plutonium; polish removing substances; polonium; potash; potash water; potassium; potassium dioxalate; potato flour for industrial purposes; peat pots for horticulture; potting soil; power steering fluid; praseodymium; salts of precious metals for industrial

purposes; brickwork preservatives, except paints and oils; cement preservatives, except paints and oils; concrete preservatives, except paints and oils; flower preservatives; preservatives for pharmaceutical preparations; preservatives for tiles, except paints and oils; masonry preservatives, except paints and oils; chemical substances for preserving foodstuffs; salt for preserving, other than for foodstuffs; sensitized printing plates for offset; promethium; protactinium; protective gases for welding; protein (raw material); prussiates; paper pulp; wood pulp; preparations for the purification of gas; purification preparations; oil-purifying chemicals; water-purifying chemicals; glaziers' putty; pyrogallallic acid; pyroligneous acid (wood vinegar); quebracho for industrial purposes; radiator flushing chemicals; radioactive elements for scientific purposes; radium for scientific purposes; radon; salts from rare earth metals; rare earths; reagent paper; chemical reagents other than for medical or veterinary purposes; acidulated water for recharging accumulators; renovating preparations for phonograph records; reducing agents for use in photography; refrigerants; refrigerating preparations; substances for removing polish; leather-renovating chemicals; renovating preparations for phonograph records; compositions for repairing tires (tyres); acrylic resins, unprocessed; artificial resins, unprocessed; epoxy resins, unprocessed; synthetic resins, unprocessed; rhenium; rock salt; roentgen films, sensitized but not exposed; rubber preservatives; rubidium; substances for preventing runs in stockings; saccharin; sal ammoniac; sal ammoniac spirits; salicylic acid; salpetre; salt for preserving, other than for foodstuffs; salt, raw; saltpeter; salts (chemical preparations); salts (fertilisers); salts for coloring (colouring) metal; salts for galvanic cells; salts for industrial purposes; salts from rare earth metals; salts of alkaline metals; salts of precious metals for industrial purposes; samarium; foundry sand; sauce for preparing tobacco; scale removing preparations, other than for household purposes; scandium; sea water for industrial purposes; seaweeds (fertilizers); sebacic acid; seed preserving substances; selenium; self-toning paper (photography); sensitized cloth for photography; sensitized films, unexposed; sensitized paper; sensitized photographic plates; sensitized plates for offset printing; photographic sensitizers; separating and unsticking (ungluing) preparations; cement for shoes; silicates; silicon; silicones; silver nitrate; silver salt solutions for silvering; ceramic compositions for sintering (granules and powders); size for finishing and priming; sizing preparations; currying preparations for skins; dressing, except oils, for skins; slag (fertilisers); chemical preparations for smoking meat; soap (metallic) for industrial purposes; soda ash; calcined soda; sodium; sodium salts (chemical preparations); water softening preparations; soil conditioning preparations; soldering chemicals; soldering fluxes; solidified gases for industrial purposes; solvents for varnishes; soot for industrial or agricultural purposes; sorrel

salt; spinel (chemical preparations); spirits of salt; spirits of vinegar (dilute acetic acid); enamel and glass-staining-chemicals; stain-preventing chemicals for use on fabrics; starch for industrial purposes; starch paste (adhesive), other than for stationery or household purposes; starch size (chemical preparations); starch-liquifying chemicals (ungluing agents); stearic acid; finishing preparations for use in the manufacture of steel; substances for preventing runs in stockings; strontium; substrates for soil-free growing (agriculture); sulphates; sulphides; sulphonic acids; sulphur; sulphuric acid; sulphuric ether; sulphurous acid; sumac for use in tanning; superphosphates (fertilisers); surface-active chemical agents; adhesive preparations for surgical bandages; artificial sweeteners (chemical preparations); synthetic resins, unprocessed; talc (magnesium silicate); tan; tannic acid; tannin; tanning substances; tan-wood; tapioca flour for industrial purposes; tartar other than for pharmaceutical purposes; tartaric acid; technetium; tellurium; metal tempering preparations; tensio-active agents; terbium; test paper, chemical; tetrachlorides; textile-brightening chemicals; textile-impregnating chemicals; textile-waterproofing chemicals; thallium; thiocarbanilide; thorium; compositions for threading; thulium; preservatives for tiles, except paints and oils; tire repairing compositions; mastic for tires; titanite; titanium dioxide for industrial purposes; sauce for preparing tobacco; toluene; toluol; toning baths (photography); toning salts (photography); toxic gas neutralizers; preparations of trace elements for plants; tragacanth gum for use in manufactures; transmission fluid; tree cavity fillers (forestry); glutinous preparations for tree-banding; glutinous preparations for tree-grafting; tungstic acid; tyre repairing compositions; mastic for tyres; ungluing agents (chemical preparations for liquifying starch); ungluing preparations; unsticking and separating preparations; uranium; uranium oxide; solvents for varnishes; coolants for vehicle engines; vine disease preventing chemicals; wood vinegar (pyroligneous acid); vinic alcohol; viscose; vitriol; volatile alkali (ammonia) for industrial purposes; vulcanisation accelerators; vulcanising preparations; adhesives for wall tiles; adhesives for wallpaper; wallpaper removing preparations; acidulated water for recharging accumulators; distilled water; water glass (soluble glass); heavy water; water purifying chemicals; sea water for industrial purposes; cement-waterproofing chemicals, except paints; leather-waterproofing chemicals; textile-waterproofing chemicals; water-softening preparations; grafting wax for trees; wax-bleaching chemicals; welding chemicals; protective gases for welding; wetting preparations for use in bleaching; wetting preparations for use in dyeing; wetting preparations for use in the textile industry; chemical preparations for protection against wheat blight (smut); chemical preparations to prevent wheat smut; anti-tarnishing chemicals for windows; chemicals used in fermenting wine; wine finings; witherite; wood

alcohol; preparations of the distillation of wood alcohol; wood pulp; tan wood; wood vinegar (pyroligneous acid); xenon; X-ray films, sensitized but not exposed; ytterbium; yttrium; zirconia.

Class 06

Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery; small items of metal hardware; pipes and tubes of metal; safes; goods of common metal not included in other classes; ores; ducts of metal for ventilating and air conditioning installations; alloys of common metal; aluminium; aluminium foil; aluminium wire; anchor plates; anchors; angle irons; metal cages for wild animals; traps for wild animals; anti-friction metal; anvils; anvils (portable); armour plate; armour plating; aviaries of metal (structures); badges of metal for vehicles; balls of steel; bands of metal for tying-up purposes; barbed wire; barrel hoops of metal; barrels of metal; crash barriers of metal for roads; bars for metal railings; latch bars of metal; baskets of metal; bird baths (structures of metal); beacons of metal, non-luminous; beak-irons (bick-irons); bed casters of metal; fittings of metal for beds; bells; bells for animals; belt stretchers of metal; belts of metal for handling loads; vice benches of metal; beryllium (glucinium); bicycle parking installations of metal; binding screws of metal for cables; binding thread of metal for agricultural purposes; bindings of metal; bins of metal; bird baths (structures of metal); wind-driven bird-repelling devices made of metal; blooms (metallurgy); boarding stairs of metal, mobile, for passengers; building boards of metal; bolts; bolts, flat; lock bolts; bolts of metal; bottle caps of metal; bottle closures of metal; bottle fasteners of metal; bottles (metal containers) for compressed gas or liquid air; box fasteners of metal; boxes of common metal; safety cash boxes; identification bracelets of metal for hospitals; braces of metal for handling loads; brackets of metal for building; brads; branching pipes of metal; brass, unwrought or semi-wrought; brazing alloys; rods of metal for brazing; bronze; bronzes for tombstones; bronzes (works of art); broom handles of metal; buckles of common metal (hardware); building boards of metal; framework of metal for building; building materials of metal; building or furniture fittings of nickel-silver; building panels of metal; reinforcing materials of metal for building; fittings of metal for buildings; buildings of metal; buildings, transportable, of metal; bungs of metal; mooring buoys of metal; busts of common metal; cabanas of metal; cable joints of metal, non-electric; clips of metal for cables and pipes; cables of metal, non-electric; cadmium; metal cages for wild animals; bottle caps of metal; capsules of metal for bottles; casement windows of metal; cashboxes of metal; casings of metal for oilwells; cask stands of metal; casks of metal; taps for casks, of metal; cast iron, unwrought or semi-wrought;

cast steel; furniture casters of metal; cattle chains; ceilings of metal; celtium (hafnium); ducts and pipes of metal for central heating installations; cermets; chains for dogs; chains of metal; chests of metal; chests of metal for food; chicken-houses, of metal; chill-molds (foundry); chill-moulds (foundry); chimney cowls of metal; chimney pots of metal; chimney shafts of metal; chimneys of metal; chrome iron; chrome ores; chromium; cladding of metal for construction and building; clips of metal for cables and pipes; closures of metal for containers; clothes hooks of metal; cobalt, raw; fittings of metal for coffins; collars of metal for fastening pipes; common metals, unwrought or semi-wrought; containers of metal for compressed gas or liquid air; containers of metal for liquid fuel; containers of metal for storing acids; containers of metal (storage, transport); copper rings; copper, unwrought or semi-wrought; copper wire, not insulated; cornices of metal; cotter pins; couplings of metal for chains; crampons (climbing irons); crampons of metal (cramps); cramps of metal (crampons); crash barriers of metal for roads; diving boards of metal; floating docks of metal for mooring boats; door bells, non-electric; door bolts; door cases of metal; door closers, non-electric; door fittings, of metal; door frames of metal; door handles of metal; door knockers; door openers, non-electric; door panels of metal; door scrapers; door springs, non-electric; door stops of metal; doors of metal; drain pipes of metal; drain traps (valves) of metal; duckboards of metal; elbows of metal for pipes; enclosures of metal for tombs; eye bolts; fences of metal; ferrotitanium; ferrules of metal; ferrules of metal for handles; ferrules of metal for walking sticks; figurines (statuettes) of common metal; filings of metal; firedogs (andirons); fish plates (rails); fittings of metal for beds; fittings of metal for compressed air ducts; fittings of metal for furniture; fittings of metal for windows; flanges of metal (collars); flashing of metal, for building; floating containers of metal; floor tiles, of metal; floors of metal; aluminium foil; foils of metal for wrapping and packaging; foot scrapers; foundry molds (moulds) of metal; frames of metal for building; furnace fire screens; furnace fireguards; furniture casters of metal; galena (ore); gate stops of metal; gates of metal; german silver; germanium; girders of metal; glucinium (beryllium); gold solder; gratings of metal; gravestone slabs of metal; gravestones of metal; grease nipples; greenhouse frames of metal; greenhouses of metal, transportable; grilles of metal; guard rails of metal; gutter pipes of metal; gutters of metal; hafnium (celtium); handcuffs; handling pallets of metal; hardware of metal, small; harness of metal for handling loads; hinges of metal; hooks for slate (metal hardware); hooks (metal hardware); hooks of metal for clothes rails; hoop iron; hoop steel; barrel hoops of metal; hoppers of metal, non-mechanical; horseshoe nails; house numbers of metal, non-luminous; ice moulds of metal; ice nails (climbing irons); identity plates of metal; indium; ingots of common metal; insect screens of metal; stretchers for iron bands (tension links);

molybdenum iron; iron ores; silicon iron; iron slabs; iron strip; iron, unwrought or semi-wrought; iron wire; ironmongery; ironwork for doors; ironwork for windows; jalousies of metal; jets of metal; joists of metal; junctions of metal for pipes; keys; rings of common metal for keys; knife handles of metal; knobs of metal; ladders of metal; latch bars of metal; latches of metal; laths of metal; latticework of metal; lead seals; lead, unwrought or semi-wrought; letter boxes of metal; letters and numerals of common metal, except type; limonite; linings of metal (building); cable linkages of metal, non-electric; lintels of metal; braces of metal for load handling; straps of metal for load handling; loading gauge rods, of metal, for railway wagons; loading pallets, of metal; slings of metal for handling loads; locks of metal for bags; locks of metal for vehicles; locks of metal, other than electric; machine belt fasteners of metal; reinforcing materials of metal for machine belts; magnesium; manganese; manhole covers of metal; manifolds of metal for pipelines; masts of metal; materials of metal for funicular railway permanent ways; meat safes of metal; memorial plaques, of metal; memorial plates of metal; metals in powder form; moldings of metal for cornices; molybdenum; money boxes of metal; monuments of metal; mooring bollards of metal; troughs of metal for mixing mortar; mouldings of metal for cornices; nails; nickel; nickel-silver; niobium; nozzles of metal; numberplates, of metal; nuts of metal; ores of metal; outdoor blinds of metal; packaging containers of metal; tin-plate packings; padlocks; booths of metal for spraying paint; palings of metal; transport pallets of metal; partitions of metal; paving blocks of metal; pegs of metal; penstock pipes of metal; pilings of metal; pillars of metal for buildings; pins for wheels, etc.; pins (hardware); pipe muffs of metal; pipes of metal; pipes of metal, for central heating installations; penstock pipes of metal; reinforcing materials of metal for pipes; pipework of metal; pitons of metal (mountaineering equipment); registration plates of metal; platforms, prefabricated, of metal; plugs of metal; wall plugs of metal; railway points; poles of metal; poles of metal, for electric lines; swimming pools (metal structures); porches of metal (building); posts of metal; posts of metal for electric lines; pot hooks of metal; preserve tins; preserving boxes of metal; props of metal; pulleys of metal, other than for machines; pyrophoric metals; railroad ties of metal; rails of metal; railway material of metal; railway points; railway sleepers of metal; railway switches; reels of metal, non-mechanical, for flexible hoses; refractory construction materials of metal; reinforcing materials of metal for building; reinforcing materials, of metal, for concrete; reinforcing materials of metal for machine belts; rings of common metal for keys; rings of metal; rivets of metal; rocket launching platforms of metal; rods of metal for brazing and welding; roller blinds of steel; roof coverings of metal; roof flashing of metal; roofing of metal; rope thimbles of metal; ropes of metal; runners of metal for sliding

doors; safes (strong boxes); safety cashboxes; safety chains of metal; sash fasteners of metal for windows; sash pulleys; scaffolding of metal; furnace screens; insect screens of metal; screw rings; screws of metal; scythe handles of metal; sealing caps of metal; sealing caps of metal for bottles; sheaf binders of metal; sheet piles of metal; sheets and plates of metal; shims; shuttering of metal for concrete; shutters of metal; signalling panels, non-luminous and non-mechanical, of metal; signboards of metal; signs, non-luminous and non-mechanical, of metal; signs, non-luminous and non-mechanical, of metal, for roads; silicon iron; silos of metal; silver plated tin alloy; silver solder; skating rinks (structures of metal); railway sleepers of metal; sleeves (metal hardware); slings of metal for handling loads; gold solder; silver solder; soldering wire of metal; spring locks; springs (metal hardware); spurs; stair treads (steps) of metal; staircases of metal; statues of common metal; statuettes of common metal; steel alloys; steel buildings; steel masts; steel pipes; steel sheets; steel strip; steel tubes; steel, unwrought or semi-wrought; steel wire; steps (ladders) of metal; stop collars of metal; stops of metal; strap-hinges of metal; straps of metal for handling loads; stretchers for metal bands (tension links); stringers (parts of staircases) of metal; tacks (nails); tanks of metal; tantalum (metal); taps for casks, of metal; telegraph posts of metal; telephone booths of metal; telephone boxes of metal; telfer cables; tension links; tent pegs of metal; thread of metal for tying-up purposes; tie plates; tile floorings of metal; tiles of metal; tiles of metal for building; tin; tin cans; tinfoil; tinplate; tinplate packings; titanium; titanium iron; tombac; enclosures of metal for tombs; monuments of bronze for tombs; monuments of metal for tombs; tombs of metal; tombstone plaques of metal; tombstone stelae of metal; tombstones of metal; tool boxes of metal, empty; tool chests of metal, empty; tool handles of metal; towel dispensers, fixed, of metal; transport pallets of metal; tree protectors of metal; trellis of metal; tubing of metal; tubes of metal; tungsten; tungsten iron; turnstiles, non-automatic; turntables (railways); valves of metal, other than parts of machines; vanadium; weather or wind-vanes of metal; vats of metal; vaults of metal (burial); vice benches of metal; vice claws of metal; wainscotting of metal; wall claddings of metal (building); wall hooks of metal for pipes; wall linings of metal (building); washers of metal; water-pipe of metal; wheel clamps (boots); white metal; wind-driven bird-repelling devices made of metal; winding spools of metal, non-mechanical, for flexible hoses; window casement bolts; window fasteners of metal; window frames of metal; window pulleys; window stops of metal; windows of metal; wire cloth; wire for aerials; wire gauze; wire of common metal; wire of common metal alloys, except fuse; wire rope; wire stretchers (tension links); works of art of common metal; wrapping or binding bands of metal; zinc; zirconium.

Class 07

Acetylene cleaning apparatus; adhesive bands for pulleys; adhesive tape dispensers (machines); aerated beverages making machines; aerated water making apparatus; aerating pumps for aquaria; aerators; aerocondensers; aeronautical engines; aeroplane engines; agitators; agricultural elevators; agricultural implements other than hand-operated; agricultural machines; air brushes for applying colour; air condensers; air cushion devices for moving loads; engines for air cushion vehicles; air pumps (garage installations); air suction machines; alternators; anti-friction bearings for machines; anti-friction pads for machines; anti-pollution devices for motors and engines; aprons (parts of machines); aerating pumps for aquaria; atomisers (machines); automatic grappels for marine purposes; axles for machines; vacuum cleaner bags; ball rings for bearings; ball-bearings; adhesive bands for pulleys; bearing brackets for machines; ball rings for bearings; bearings for transmission shafts; bearings (parts of machines); beaters, electric; beating machines; apparatus for drawing up beer under pressure; beer pumps; bellows (machines); belt conveyors; dynamo belts; belts for conveyors; belts for machines; belts for motors and engines; bending machines; beverage preparation machines, electromechanical; bicycle assembling machines; bicycle dynamos; binding apparatus for hay; bitumen making machines; blade holders (parts of machines); blade sharpening (stropping) machines; chaff cutter blades; blades (parts of machines); blenders, electric, for household purposes; blowing engines; blowing machines for exhaustion of dust, etc.; blowing machines for the compression, exhaustion and transport of gases; blowing machines for the compression, sucking and carrying of grain; engines for boats; motors for boats; bobbins for weaving looms; machine boiler scale collectors; boiler tubes (parts of machines); bookbinding apparatus and machines for industrial purposes; mine borers; bottle capping machines; bottle filling machines; bottle sealing machines; bottle stoppering machines; bottle washing machines; boxes for matrices (printing); bearing brackets for machines; braiding machines; brake linings other than for vehicles; brake segments other than for vehicles; brake shoes other than for vehicles; bread cutting machines; brewing machines; roller bridges; dynamo brushes; brushes, electrically operated; brushes (parts of machines); bulldozers; butter machines; calendars; can openers, electric; capstans; carbon brushes (electricity); carburetter feeders; carburetters; card clothing (parts of carding machines); carding machines; machines and apparatus for carpet shampooing, electric; carriage aprons; carriages for knitting machines; cartridges for filtering machines; catalytic converters; central vacuum cleaning installations; centrifugal machines; centrifugal mills; centrifugal pumps; centrifuges (machines); chaff cutter blades; chaff cutters; chain saws; driving chains other than for land vehicles; chisels for

machines; chucks (parts of machines); churns; cigarette machines for industrial purposes; cinder sifters (machines); clack valves (parts of machines); acetylene cleaning apparatus; cleaning appliances utilizing steam; machines and apparatus for cleaning, electric; clippers (machines); clutches other than for land vehicles; coalcutting machines; coffee grinders, other than hand-operated; coin-operated washing machines; machine boiler scale collectors; air brushes for applying colour; colour-washing machines; compressed air engines; compressed air guns for the extrusion of mastics; compressed air machines; compressed air pumps; compressors for refrigerators; compressors (machines); concrete mixers (machines); condensers (steam) (parts of machines); condensing installations; connecting rods for machines, motors and engines; control cables for machines, engines or motors; control mechanisms for machines, engines or motors; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; fuel conversion apparatus for internal combustion engines; converters for steel works; conveyors (machines); cord making machines; corn husking machines; couplings other than for land vehicles; cowlings (parts of machines); cranes (lifting and hoisting apparatus); crank shafts; crankcases for machines, motors and engines; cranks (parts of machines); cream/milk separators; domestic crushers/grinders, electric; crushing machines; cultivators (machines); motorized cultivators; current generators; curtain drawing devices, electrically operated; cutters (machines); cutting blow pipes, gas-operated; cutting machines; cylinder heads for engines; cylinders for machines; cylinders for motors and engines; pistons for cylinders; dairy machines; darning machines; dashpot plungers (parts of machines); de-aerators for feedwater; degreasers (machines); derricks; pump diaphragms; die-cutting and tapping machines; die-stamping machines; diggers (machines); dishwashers; disintegrators; garbage (waste) disposals; ditchers (ploughs); dividing machines; hydraulic door openers and closers (parts of machines); pneumatic door openers and closers (parts of machines); drain cocks; drainage machines; apparatus for dressing; drill chucks (parts of machines); drilling bits (parts of machines); drilling heads (parts of machines); drilling machines; drilling rigs, floating or non-floating; electric hand drills; pedal drives for sewing machines; driving chains other than for land vehicles; driving motors other than for land vehicles; drums (parts of machines) drying machines; dust exhausting installations for cleaning purposes; dust removing installations for cleaning purposes; dyeing machines; dynamo belts; dynamo brushes; dynamos; earth moving machines; edible pastes making machines; ejectors; electric hammers; electromechanical machines for chemical industry; elevating apparatus; elevator belts; elevator chains (parts of machines); elevators (lifts); embossing machines; emergency power generators; engines for boats; engines, other

than for land vehicles; engraving machines; escalators; excavators; exhausts for motors and engines; expansion tanks (parts of machines); extractors for mines; fan belts for motors and engines; fruit presses, electric, for household purposes; fuel conversion apparatus for internal combustion engines; fuel economisers for motors and engines; garbage disposals; blowing machines for the compression, exhaustion and transport of gases; gasifiers; gear boxes other than for land vehicles; gears for weaving looms; gears, other than for land vehicles; current generators; generators of electricity; glass working machines; glaziers' diamonds (parts of machines); glow plugs for diesel engines; glue guns, electric; blowing machines or fans for the compression, sucking and carrying of grain; grain husking machines; grain separators; automatic grapnels for marine purposes; grating machines for vegetables; grease boxes (parts of machines); grease rings (parts of machines); grinders/crushers, electric, for household purposes; grinding machines; guards (parts of machines); guides for machines; glue guns, electric; spray guns for paint; guns (tools using explosives); hair clipping machines for animals; hair cutting machines for animals; hammers (parts of machines); pneumatic hammers; hand-held tools, other than hand-operated; handling apparatus for loading and unloading; handling machines, automatic (manipulators); hangers (parts of machines); harrows; harvesting machines; haulage apparatus (mining); net hauling machines (fishing); heat exchangers (parts of machines); heel-making machines; hemming machines; high pressure washers; hoists; holding devices for machine tools; hoods (parts of machines); hoppers (mechanical discharging); hosiery looms; housings (parts of machines); corn and grain husking machines; hydraulic door openers and closers (parts of machines); hydraulic engines and motors; hydraulic turbines; igniting devices for internal combustion engines; igniting magnetos; igniting magnetos for engines; incubators for eggs; injectors for engines; inking apparatus for printing machines; ironing machines; jacks (machines); jet engines other than for land vehicles; joints (parts of engines); universal joints (cardan joints); journal boxes (parts of machines); journals (parts of machines); kick starters for motorcycles; kitchen machines, electric; kneading machines; knitting machines; knives, electric; knives for mowing machines; knives (parts of machines); labellers (machines); lace making machines; lasts for shoes (parts of machines); lathes (machine tools); lawnmowers (machines); leather paring machines; leather-working machines; lift belts; lifting apparatus; lifts, other than ski-lifts; loading ramps; loom shafts; looms; looms (machines); lubricating pumps; lubricators (parts of machines); machine fly-wheels; machine tools; machine wheels; machine wheelwork; machines for the textile industry; apparatus for machining; mangles; exhaust manifold for engines; boxes for matrices (printing); matrices for use in printing; meat choppers

(machines); meat mincers (machines); mechanized livestock feeders; metal drawing machines; metalworking machines; milking machines; teat cups (suction cups) for milking machines; milling machines; mills for household purposes, other than hand-operated; mills (machines); millstones; mine borers; mineral water making machines; mineworking machines; mixers (machines); mixing machines; molding machines; molds (parts of machines); mortising machines; kick starters for motorcycles; motorized cultivators; motors, electric, other than for land vehicles; motors for boats; motors, other than for land vehicles; moulding machines; moulds (parts of machines); moving pavements (sidewalks); moving staircases (escalators); mowing and reaping machines; knives for mowing machines; mud catchers and collectors (machines); mufflers for motors and engines; net hauling machines (fishing); notchers (machine tools); nut-tapping machines; oil refining machines; can openers, electric; tin openers, electric; ore treating machines; packaging machines; packing machines; spray guns for paint; painting machines; paper feeders (printing); paper machines; papermaking machines; paring machines; parquet wax-polishers, electric; pedal drives for sewing machines; peeling machines; pepper mills other than hand-operated; piston segments; pistons for cylinders; pistons for engines; pistons (parts of machines or engines); planing machines; printing plates; ploughs; ploughshares; plunger pistons; pneumatic door openers and closers (parts of machines); pneumatic hammers; pneumatic transporters; pneumatic tube conveyors; machines and apparatus for polishing (electric); potters' wheels; power hammers; presses; presses (machines for industrial purposes); smoothing presses; wine presses; pressing machines to make satin-like; pressure reducers (parts of machines); pressure regulators (parts of machines); pressure valves (parts of machines); printing cylinders; printing machines; printing machines for use on sheet metal; printing plates; printing presses; printing rollers for machines; propulsion mechanisms other than for land vehicles; puddling machines; pulleys; adhesive bands for pulleys; pulleys (parts of machines); pulverisers (machines); sewage pulverisers; pump diaphragms; pumps for heating installations; pumps (machines); pumps (parts of machines, engines or motors); vacuum pumps (machines); punches for punching machines; punching machines; rack and pinion jacks; racket stringing machines; radiators (cooling) for motors and engines; rail-laying machines; railroad constructing machines; rakes for raking machines; raking machines; rammers (machines); rams (machines); reapers; reapers and binders; reapers and threshers; pressure reducers (parts of machines); reduction gears other than for land vehicles; reeling apparatus, mechanical; reels for weaving looms; reels, mechanical, for flexible hoses; reels (parts of machines); regulators (parts of machines); ball rings for bearings; grease rings (parts of machines); piston rings; rinsing machines; riveting machines; road

making machines; road rollers; road sweeping machines (self-propelled); robots (machines); connecting rods for machines, motors and engines; roller bearings; roller bridges; printing rollers for machines; rolling mill cylinders; rolling mills; root slicers (machines); rotary printing presses; rotary steam presses, portable, for fabrics; satinizing machines; sausage machines; saw benches (parts of machines); saw blades (parts of machines); saws (machines); machine boiler scale collectors; scissors, electric; sealing joints (parts of engines); sealing machines for industrial purposes; self-oiling bearings; separators; steam/oil separators; sewage pulverizers; shaft couplings (machines); bearings for transmission shafts; loom shafts; plough shares; sharpening machines; sharpening wheels (parts of machines); sheaf-binding machines; shearing machines for animals; shears, electric; shock absorber plungers (parts of machines); shoe lasts (parts of machines); shoe polishers, electric; shovels, mechanical; shredders (machines) for industrial use; shuttles (parts of machines); sidewalks (moving pavements); sieves (machines or parts of machines); sifters; sifting installations; sifting machines; silencers for motors and engines; sizing machines; slide rests (parts of machines); sliders for knitting machines; slides for knitting machines; smoothing presses; snow ploughs; soldering apparatus, gas-operated; soldering blow pipes, gas-operated; soldering irons, gas-operated; sorting machines for industry; sowers (machines); sparking plugs for internal combustion engines; speed governors for machines, engines and motors; spin driers; spinning frames; spinning machines; spinning wheels; spray guns for paint; spraying machines; springs (parts of machines); moving staircases (escalators); stalk separators (machines); stamping machines; stands for machines; starters for motors and engines; stators (parts of machines); steam engine boilers; steam engines; rotary steam presses, portable, for fabrics; steam traps; steam/oil separators; steamrollers; converters for steelworks; stereotype machines; stitching machines; stone working machines; straw (chaff) cutters; stropping machines; stuffing boxes (parts of machines); suction cups for milking machines; suction machines for industrial purposes; sugar making machines; superchargers; superheaters; swaging machines; road sweeping machines (self-propelled); tables for machines; tambours for embroidery machines; taps (parts of machines, engines or motors); tarring machines; teat cups for milking machines; tedding machines; thermic lances (machines); threading machines; threshing machines; tilt hammers; tin openers, electric; tobacco processing machines; hand-held tools, other than hand-operated; holding devices for machine tools; tools (parts of machines); torque converters other than for land vehicles; transmission chains other than for land vehicles; bearings for transmission shafts; transmission shafts, other than for land vehicles; transmissions for machines; transmissions, other than for land vehicles; pneumatic transporters; steam traps; trash

compacting machines; trimming rimming machines; truck lifts; trueing machines; trussing apparatus for hay; tube conveyors, pneumatic; boiler tubes (parts of machines); hydraulic turbines; turbines other than for land vehicles; turbocompressors; turf removing ploughs; turnip cutters (machines); tympan (parts of printing presses); typecasting machines; type-setting machines (photocomposition); type-setting machines (printing); typographic machines; typographic presses; universal joints (cardan joints); vacuum cleaner attachments for disseminating perfumes and disinfectants; vacuum cleaner bags; vacuum cleaner hoses; vacuum cleaners; vacuum pumps (machines); clack valves (parts of machines); valves (parts of machines); vehicle washing installations; vibrators (machines) for industrial use; vulcanisation apparatus; waggon lifts; washing apparatus; washing installations for vehicles; washing machines; coin-operated; washing machines; washing machines (laundry); waste compacting machines; waste disposals; waste disposers (machines); water heaters (parts of machines); water separators; machines and apparatus for wax-polishing, electric; bobbins for weaving loom; weaving looms; weeding machines; welding apparatus, gas-operated; welding machines, electric; machine wheels; spinning wheels; machine wheelwork; whisks, electric, for household purposes; whitewashing machines; winches; wine presses; winnowers; woodworking machines; wrapping machines; wringing machines for laundry.

Class 08

Abrading instruments (hand instruments); adzes (tools); agricultural implements, hand-operated; annular screw plates; side arms; insecticide atomizers (hand tools); augers (hand tools); awls; axes; cutting bars; bayonets; beard clippers; fireplace bellows (hand tools); tool belts (holders); bill-hooks; bits (hand tools); bits (parts of hand tools); blade sharpening instruments; blades for planes; blades (hand tools); blades (weapons); bludgeons; border shears; borers; bow saws; braiders (hand tools); branding irons; breast drills; budding knives; bushhammers; skinning appliances and instruments for butchers' animals; can openers, non-electric; carpenters' augers; razor cases; cattle marking tools; cattle shearers; cattle skinning instruments; cattle stunning appliances; caulking irons; centre punches (hand tools); cheese slicers, non-electric; chisels; choppers (knives); clamps for carpenters or coopers; cleavers; crimping irons; crow bars; eyelash curlers; curling tongs; cuticle nippers; cuticle tweezers; cutlery; cutter bars; cutters; pizza cutters, non-electric; cutting bars; cutting tools (hand tools); daggers; implements for decanting liquids (hand tools); depilation appliances, electric and non-electric; destructing apparatus for plant parasites; glaziers' diamonds (parts of hand tools); dies (hand tools); diggers (hand tools); ditchers (hand tools); drawing knives; drill holders (hand tools); drills; ear-piercing apparatus; earth rammers (hand tools); edge tools (hand tools);

egg slicers, non-electric; embossers (hand tools); emery grinding wheels; engraving needles; expanders (hand tools); extension pieces for braces for screw taps; nail extractors; eyelash curlers; farriers' knives; files (tools); fingernail polishers, electric or non-electric; fire irons; fireplace bellows (hand tools); harpoons for fishing; flat irons, non-electric; fleshing knives (hand tools); forks; foundry ladles (hand tools); frames for handsaws; fruit pickers (hand tools); fullers (hand tools); fulling tools (hand tools); garden tools, hand-operated; gimlets (hand tools); glaziers' diamonds (parts of hand tools); glazing irons; offering irons; gouges (hand tools); grafting tools (hand tools); graving tools (hand tools); emery grinding wheels; grindstones (hand tools); guns (hand tools); guns, hand-operated, for the extrusion of mastics; hackles (hand tools); hainault scythes; hair clippers for animals (hand instruments); hair clippers for personal use, electric and non-electric; hand implements for hair curling non-electric; hair-removing tweezers; hammer sharpeners; hammers (hand tools); hand drills (hand tools); hand pumps; hand tools, hand-operated; harpoons; harpoons for fishing; hatchets; hoes (hand tools); holing axes; hollowing bits (parts of hand tools); hoop cutters (hand tools); hunting knives; ice picks; insecticide atomizers (hand tools); insecticide sprayers (hand tools); insecticide vaporizers (hand tools); irons (non-electric hand tools); lifting jacks, hand-operated; jig-saws; knife steels; knives; knuckle dusters; ladles (hand tools); lasts (shoemakers' hand tools); lawn clippers (hand instruments); leather strops; levers; lifting jacks, hand-operated; livestock marking tools; machetes; mallets (hand instruments); manicure sets; manicure sets, electric; marline spikes; masons' hammers; guns, hand-operated, for the extrusion of mastics; mattocks; meat choppers (hand tools); metal band stretchers (hand tools); milling cutters (hand tools); mincing knives (hand tools); mitre (miter (Am.)) boxes (hand tools); molding irons money scoops; mortars for pounding; mortise axes; mortise chisels; moulding irons; nail buffers, electric or non-electric; nail clippers, electric or non-electric; nail drawers (hand tools); nail extractors; nail files; nail files, electric; nail nippers; nail punches; needle files; needle-threaders; nippers; numbering punches; nutcrackers; oyster openers; palette knives; paring irons (hand tools); paring knives; pedicure sets; penknives; perforating tools (hand tools); pestles for pounding; pickaxes; pickhammers; picks (hand tools); ear piercing apparatus; pin punches; pincers; pizza cutters, non-electric; plane irons; planes; plant parasite killing apparatus; pliers; police batons; polishing irons (glazing tools); priming irons (hand tools); pruning knives; pruning scissors; pruning shears; hand pumps; punch pliers (hand tools); punch rings (knuckle dusters); punches (hand tools); rabbeting planes; rakes (hand tools); sand trap rakes; earth rammers (hand tools); rammers (hand tools); rams (hand tools); rasps (hand tools); ratchets (hand tools); razor blades; razor cases; razor strops; razors, electric or

non-electric; reamer sockets; reamers; riveters (hand tools); riveting hammers (hand tools); sabres; sand trap rakes; saw blades (parts of hand tools); saw holders; saws (hand tools); sword scabbards; scaling knives; scissors; scrapers (hand tools); scraping tools (hand tools); screw stocks (hand tools); extension pieces for braces for screw taps; screwdrivers; screw-thread cutters (hand tools); scythe rings; scythe stones; scythes; secateurs; sharpening instruments; sharpening steels; sharpening stones; sharpening wheels (hand tools); shaving cases; shear blades; shearers (hand instruments); shears; shovels (hand tools); sickles; side arms, other than firearms; silver plate (knives, forks and spoons); instruments and tools for skinning animals; skinning appliances and instruments for butchers' animals; appliances and instruments for slaughtering butchers' animals; sledgehammers; cheese slicers, non-electric; egg slicers, non-electric; spades (hand tools); spanners (hand tools); spatulas (hand tools); spoons; insecticide sprayers (hand tools); squares (hand tools); stamping-out tools (hand tools); stamps (hand tools); stone hammers; sharpening stones; stretchers for wire and metal bands (hand tools); stropping instruments; cattle stunning apparatus; sugar tongs; sword scabbards; swords; syringes for spraying insecticides; table cutlery (knives, forks and spoons); table forks; tableware (knives, forks and spoons); tap wrenches; taps (hand tools); apparatus for tattooing; thistle extirpators (hand tools); threaders; instruments for punching tickets; tin openers, non-electric; tongs; tool belts (holders); tree pruners; trowels; trowels (gardening); truncheons; tube cutters (hand tools); tube cutting instruments; tweezers; insecticide vaporizers (hand tools); vegetable choppers; vegetable knives; vegetable shredders; vegetable slicers; vices; weeding forks (hand tools); sharpening wheels (hand tools); whetstone holders; whetstones; wick trimmers (scissors); ladles for wine; wire stretchers (hand tools); wrenches (hand tools).

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; abacuses; accounting machines; accumulator boxes; accumulator jars; accumulators, electric; accumulators, electric, for vehicles; acid hydrometers; acidimeters for batteries; acoustic conduits; acoustic couplers; acoustic (sound) alarms; actinometers; adding machines; aerials; aerometers; agendas, electronic; air analysis apparatus; alarm

bells, electric; alarms; alcoholmeters; alidades; altimeters; ammeters; amplifiers; amplifying tubes; amplifying valves; amusement apparatus adapted for use with an external display screen or monitor; anemometers; animated cartoons; anode batteries; anodes; answering machines; antennas; anticathodes; anti-dazzle shades; anti-glare glasses; anti-glare visors; anti-interference devices (electricity); anti-theft warning apparatus; apertometers (optics); armatures (electricity); asbestos clothing for protection against fire; asbestos gloves for protection against accidents; asbestos screens for firemen; apparatus and instruments for astronomy; lenses for astrophotography; electric devices for attracting and killing insects; audiovisual teaching apparatus; automated teller machines (ATM); protective suits for aviators; azimuth instruments; precision balances; balances (steelyards); balancing apparatus; meteorological balloons; bar code readers; barometers; batteries, electric; batteries, electric, for vehicles; batteries for lighting; batteries for pocketlamps; battery boxes; battery chargers; battery jars; beacons, luminous; alarm bells, electric; signal bells; bells (warning devices); betatrons; binoculars; blinkers (signalling lights); blueprint apparatus; fire boats; boiler control instruments; branch boxes (electricity); breathing apparatus, except for artificial respiration; breathing apparatus for underwater swimming; bullet-proof waistcoats; signalling buoys; buzzers; buzzers, electric; cabinets for loudspeakers; coaxial cables; cables, electric; fibre optic cables; junction sleeves for electric cables; calculating disks; calculating machines; calibrating rings; calipers; camcorders; cameras, cinematographic; cameras (photography); capacitors; capacity measures; capillary tubes; carpenters' rules; carriers for dark plates (photography); animated cartoons; cases especially made for photographic apparatus and instruments; cases fitted with dissecting instruments (microscopy); pince-nez cases; cash registers; cassette players; cathodes; cathodic anti-corrosion apparatus; cell switches (electricity); centering apparatus for photographic transparencies; central processing units (processors); chargers for electric batteries; chemistry apparatus and instruments; DNA chips; chips (integrated circuits); choking coils (impedance); chromatography apparatus for laboratory use; chronographs (time recording apparatus); cigar lighters for automobiles; cinematographic cameras; apparatus for editing cinematographic film; cinematographic film, exposed; circuit breakers; circuit closers; cleaning apparatus for phonograph records; cleaning apparatus for sound recording discs; clinometers; nose clips for divers and swimmers; time clocks (time recording devices); clothing especially made for laboratories; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; coaxial cables; choking coils (impedance); coils, electric; electromagnetic coils; mechanisms for coin-operated apparatus; coin-operated gates for car parks or

parking lots; equipment); couplings, electric; covers for electric outlets; crucibles (laboratory); cupels (laboratory); current rectifiers; electric arc cutting apparatus; cyclotrons; darkroom lamps (photography); darkrooms (photography); magnetic data media; optical data media; data processing apparatus; decompression chambers; demagnetizing apparatus for magnetic tapes; densimeters; densitometers; detectors; metal detectors for industrial or military purposes; smoke detectors; diagnostic apparatus, not for medical purposes; diaphragms (acoustics); diaphragms for scientific apparatus; diaphragms (photography); dictating machines; diffraction apparatus (microscopy); light dimmers (regulators), electric; discharge tubes, electric, other than for lighting; optical discs; disk drives for computers; disks, magnetic; distance measuring apparatus; distance recording apparatus; distillation apparatus for scientific purposes; distribution boards (electricity); distribution boxes (electricity); distribution consoles (electricity); distribution machines, automatic; divers' apparatus; divers' masks; diving suits; DNA chips; dog whistles; door closers, electric; door openers, electric; dosage dispensers; dosimeters; drainers for use in photography; dressmakers' measures; drying apparatus for photographic prints; drying racks (photography); ducts (electricity); DVD players; dynamometers; earplugs; earplugs for divers; editing appliances for cinematographic films; egg timers (sandglasses); egg-candlers; electric arc cutting apparatus; electric arc welding apparatus; electric door bells; electric installations for the remote control of industrial operations; electric loss indicators; electric welding apparatus; materials for electricity mains (wires, cables); electrified fences; electrified rails for mounting spot lights; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; electrolyzers; electronic notice boards; electronic pens (visual display units); electronic pocket translators; electronic publications, downloadable; electronic tags for goods; electroplating apparatus; elevator operating apparatus; magnetic encoders; enlarging apparatus (photography); epidiascopes; ergometers; exposure meters (light meters); extinguishers; eyeglass cases; eyeglass chains; eyeglass cords; eyeglass frames; eyeglasses; eyepieces; instruments containing eyepieces; eyeshades; workmen's protective face-shields; facsimile machines; false coin detectors; electrified fences; apparatus for fermentation (laboratory apparatus); film cutting apparatus; films, exposed; filters for respiratory masks; filters for ultraviolet rays, for photography; filters (photography); fire alarms; fire beaters; fire blankets; fire boats; clothing for protection against fire; fire engines; fire escapes; fire extinguishing apparatus; fire hose nozzles; asbestos screens for firemen; flash-bulbs (photography); flashing lights (luminous signals); flashlights (photography); flat irons, electric; floats for bathing and swimming; floppy disks; fluorescent screens;

fog signals, non-explosive; food analysis apparatus; frames for photographic transparencies; apparatus to check franking; frequency meters; fuel dispensing pumps for service stations; self-regulating fuel pumps; furnaces for laboratory experiments; furniture especially made for laboratories; fuse wire; fuses; galena crystals (detectors); galvanic batteries; galvanic cells; galvanizing apparatus; galvanometers; apparatus for games adapted for use with an external display screen or monitor; garments for protection against fire; gas testing instruments; gasoline gauges; gasoline pumps for service stations; gasometers; gauges; glass covered with an electrical conductor; graduated glassware; glazing apparatus for photographic prints; gloves for divers; gloves for protection against accidents; gloves for protection against X-rays for industrial purposes; goggles for sports; gradient indicators; grids for batteries; hair-curlers, electrically heated; hands free kits for phones; head cleaning tapes (recording); headphones; heat regulating apparatus; heliographic apparatus; protective helmets; protective helmets for sports; riding helmets; hemline markers; high tension batteries; high-frequency apparatus; holders for electric coils; holograms; horns for loudspeakers; hydrometers; hygrometers; encoded identification bracelets, magnetic; identification sheaths for electric wires; identification threads for electric wires; identity cards, magnetic; igniting apparatus, electric, for igniting at a distance; electric apparatus for remote ignition; inclinometers; incubators for bacteria culture; indicators (electricity); quantity indicators; speed indicators; water level indicators; inductors (electricity); integrated circuit cards (smart cards); integrated circuits; intercommunication apparatus; interfaces for computers; inverters (electricity); invoicing machines; ionisation apparatus, not for the treatment of air; jigs (measuring instruments); juke boxes for computers; juke boxes, musical; junction boxes (electricity); junction sleeves for electric cables; kilometer recorders for vehicles; knee-pads for workers; laboratory trays; lactodensimeters; lactometers; magic lanterns; optical lanterns; laptop computers; lasers, not for medical purposes; appliances for measuring the thickness of leather; lens hoods; lenses for astrophotography; letter scales; levelling instruments; levelling staffs (surveying instruments); levels (instruments for determining the horizontal); life belts; life buoys; life jackets; life nets; life saving apparatus and equipment; life-saving rafts; lift operating apparatus; light conducting filaments (optical fibers (fibres)); light dimmers (regulators), electric; traffic light apparatus (signalling devices); light-emitting electronic pointers; lighting ballasts; lightning arresters; lightning conductors (rods); limiters (electricity); locks, electric; logs (measuring instruments); loudspeakers; magnetic tape units for computers; magnetic tapes; magnetic wires; magnets; decorative magnets; magnifying glasses (optics); make-up removing appliances, electric; resuscitation mannequins (teaching

apparatus); manometers; marine compasses; marine depth finders; marking buoys; marking gauges (joinery); protective masks; masts for wireless aerials; material testing instruments and machines; mathematical instruments; measures; measuring apparatus; measuring devices, electric; measuring glassware; measuring instruments; measuring spoons; mechanical signs; megaphones; mercury levels; wires of metal alloys (fuse wire); meteorological balloons; meteorological instruments; meters; metronomes; micrometer gauges; micrometer screws for optical instruments; micrometers; microphones; microprocessors; microscopes; microtomes; milage recorders for vehicles; mirrors for inspecting work; mirrors (optics); modems; money counting and sorting machines; monitoring apparatus, electric; monitors (computer hardware); monitors (computer programs); motor fire engines; mouse (data processing equipment); mouse pads; coin-operated musical automata (juke boxes); nautical apparatus and instruments; naval signalling apparatus; navigation apparatus for vehicles (on-board computers); navigational instruments; needles for record players; neon signs; nets for protection against accidents; safety nets; nose clips for divers and swimmers; notebook computers; electronic notice boards; objectives (lenses) (optics); observation instruments; octants; ohmmeters; optical apparatus and instruments; optical character readers; optical fibers (fibres) (light conducting filaments); optical glass; optical goods; optical lamps; optical lenses; oscillographs; ovens for laboratory experiments; oxygen transvasine apparatus; ozonisers (ozonators); parking meters; particle accelerators; pedometers; peepholes (magnifying lenses) for doors; periscopes; personal stereos; petrol gauges; petrol pumps for service stations; phonograph records; photocopiers (photographic, electrostatic, thermic); photometers; phototelegraphy apparatus; photovoltaic cells; apparatus and instruments for physics; pince-nez; pince-nez cases; pince-nez chains; pince-nez cords; pince-nez mountings; pipettes; plane tables (surveying instruments); planimeters; plates for batteries; plotters; plugs, sockets and other contacts (electric connections); plumb bobs; plumb lines; pocket calculators; polarimeters; portable telephones; postage stamp meters; precision balances; precision measuring apparatus; pressure gauges; automatic indicators of low pressure in vehicle tires (tyres); pressure indicator plugs for valves; pressure indicators; pressure measuring apparatus; printed circuits; printers for use with computers; prisms (optics); probes for scientific purposes; projection apparatus; projection screens; protection devices against X-rays (roentgen rays), not for medical purposes; protection devices for personal use against accidents; protective suits for aviators; voltage surge protectors; protractors (measuring instruments); punched card machines for offices; push buttons for bells; pyrometers; quantity indicators; radar apparatus; radio pagers; radiological apparatus for industrial purposes; radiology

screens for industrial purposes; radios; vehicle radios; radiotelegraphy sets; radiotelephony sets; railway traffic safety appliances; range finders; readers (data processing equipment); audio- and videoreceivers; telephone receivers; apparatus for changing record player needles; record players; reducers (electricity); reflecting discs for wear, for the prevention of traffic accidents; refractometers; refractors; regulating apparatus, electric; relays, electric; shutter releases (photography); remote control apparatus; resistances, electric; respirators for filtering air; respirators, other than for artificial respiration; respiratory masks, other than for artificial respiration; safety restraints, other than for vehicle seats and sports equipment; retorts; retorts' stands; revolution counters; rheostats; road signs, luminous or mechanical; rods for water diviners; rods (surveying instruments); roentgen apparatus not for medical purposes; roentgen films, exposed; rulers (measuring instruments); rules (measuring instruments); saccharometers; safety nets; safety tarpaulins; salinometers; satellite navigational apparatus; satellites for scientific purposes; scales; lever scales (steelyards); scanners (data processing equipment); screens for photoengraving; screens (photography); screw-tapping gauges; electrical apparatus for sealing plastics (packaging); semi-conductors; sextants; sheaths for electric cables; shoes for protection against accidents, irradiation and fire; shutters (photography); sighting telescopes for firearms; signal lanterns; signalling panels, luminous or mechanical; signalling whistles; signals, luminous or mechanical; transmitters of electronic signals; signs, luminous; simulators for the steering and control of vehicles; sirens; slide calipers; slide projectors; slide-rules; slides (photography); slope indicators; sockets, plugs and other contacts (electric connections); socks, electrically heated; solar batteries; solderers' helmets; soldering apparatus, electric; soldering irons, electric; solenoid valves (electromagnetic switches); sonars; sound alarms; sound locating instruments; sound recording apparatus; sound recording carriers; sound recording discs; sound recording strips; sound reproduction apparatus; sound transmitting apparatus; sounding apparatus and machines; sounding leads; sounding lines; spark-guards; speaking tubes; spectacle cases; spectacle frames; spectacle glasses; spectacles (optics); spectrograph apparatus; spectroscopes; speed checking apparatus for vehicles; speed indicators; speed measuring apparatus (photography); speed regulators for record players; spherometers; spirit levels; spools (photography); protective helmets for sports; sprinkler systems for fire protection; stage lighting regulators; apparatus to check stamping mail; stands for photographic apparatus; starter cables for motors; steering apparatus, automatic, for vehicles; stereoscopes; stereoscopic apparatus; stills for laboratory experiments; styli for record players; sulphitometers; sunglasses; surveying apparatus and instruments; surveying chains; surveying instruments; surveyors' levels;

swimming belts; swimming jackets; switchboards; switchboxes (electricity); switches, electric; tachometers; tape recorders; taximeters; teaching apparatus; teeth protectors; telegraph wires; telegraphs (apparatus); telemeters; telephone apparatus; telephone transmitters; telephone wires; teleprinters; teleprompters; telerupters; telescopes; teletypewriters; television apparatus; temperature indicators; terminals (electricity); test tubes; testing apparatus not for medical purposes; theft prevention installations, electric; theodolites; thermionic lamps and tubes; thermionic valves (radio); thermometers, not for medical purposes; thermostats; thermostats for vehicles; thread counters; ticket dispensers; time recording apparatus; time switches, automatic; tone arms for record players; totalizers; transformers (electricity); transistors (electronic); transmitters of electronic signals; transmitters (telecommunication); transmitting sets (telecommunication); transparencies (photography); transparency projection apparatus; tripods for cameras; electric discharge tubes, other than for lighting; turnstiles, automatic; urinometers; vacuum gauges; vacuum tubes (radio); variometers; vehicle breakdown warning triangles; vending machines; verniers; video cassettes; video game cartridges; video recorders; video screens; video telephones; videotapes; viewfinders, photographic; viscosimeters; voltage regulators for vehicles; voltage surge protectors; voltmeters; voting machines; wafers (silicon slices); waling glasses; walkie-talkies; washing trays (photography); water level indicators; water wings; wavemeters; weighbridges; weighing apparatus and instruments; weighing machines; weights; welding apparatus, electric; welding electrodes; whistle alarms; wind socks for indicating wind direction; wire connectors (electricity); wires, electric; word processors; wrist rests for use with computers; X-ray films, exposed; X-ray photographs, other than for medical purposes; X-rays producing apparatus and installations, not for medical purposes; X-rays tubes not for medical purposes.

Class 11

Heat accumulators; steam accumulators; acetylene burners; acetylene flares; acetylene generators; air conditioners for vehicles; air conditioning apparatus; air conditioning installations; air cooling apparatus; air deodorising apparatus; air driers (dryers); air filtering installations; ionisation apparatus for the treatment of air; air purifying apparatus and machines; air reheaters; air sterilizers; air valves for steam heating installations; lighting installations for air vehicles; alcohol burners; anti-dazzle devices for automobiles (lamp fittings); anti-glare devices for vehicles (lamp fittings); anti-splash tap nozzles; aquarium filtration apparatus; aquarium heaters; aquarium lights; arc lamps; furnace ash boxes; ash conveyor installations, automatic; ash pits for furnaces; atomic piles; autoclaves (electric pressure cookers); automobile lights; anti-dazzle devices for automobiles (lamp

fittings); bakers' ovens; lava rocks for use in barbecue grills; barbecues; bath fittings; hot air bath fittings; bath installations; sauna bath installations; bath linings; bath plumbing fixtures; bath tubs; bath tubs for sitz baths; heaters for baths; spa baths (vessels); bedwarmers; beverages cooling apparatus; bicycle lights; bidets; blankets, electric, not for medical purposes; boiler pipes (tubes) for heating installations; boilers, other than parts of machines; brackets for gas burners; bread baking machines; bread toasters; burners; acetylene burners; burners for lamps; gas burners; germicidal burners; incandescent burners; laboratory burners; carbon for arc lamps; electrically heated carpets; ceiling lights; central heating radiators; clean chambers (sanitary installations); chandeliers; chimney blowers; chimney flues; lamp chimneys; Chinese lanterns; electric lights for Christmas trees; chromatography apparatus for industrial purposes; clean chambers (sanitary installations); coffee filters, electric; coffee machines, electric; coffee percolators, electric; coffee roasters; coils (parts of distilling, heating or cooling installations); gas condensers, other than parts of machines; installations for conditioning air; refrigerating containers; cookers; cooking apparatus and installations; cooking rings; cooking utensils, electric; coolers for furnaces; cooling appliances and installations; cooling installations and machines; cooling installations for liquids; cooling installations for tobacco; cooling installations for water; shower cubicles (enclosures (Am.)); curling lamps; heating cushions (pads), electric, not for medical purposes; cycle lights; dampers (heating); deep fryers, electric; defrosters for vehicles; heating apparatus for defrosting windows of vehicles; apparatus for dehydrating foodstuffs organic materials; dental ovens; deodorising apparatus, not for personal use; desalination plants; desiccating apparatus; light diffusers; discharge tubes, electric, for lighting; disinfectant apparatus; disinfectant dispensers for toilets; disinfectant distributors for toilets; refrigerating display cabinets (display cases); disposable sterilization pouches; distillation apparatus; distillation columns; diving lights; air driers; hair driers; filters for drinking water; drip irrigation emitters (irrigation fittings); air dryers; hair dryers; drying apparatus; drying apparatus and installations; drying apparatus for fodder and forage; fuel economizers; electric appliances for making yogurt; electric lamps; electrically heated carpets; heating elements; evaporators; expansion tanks for central heating installations; extractor hoods for kitchens; fairy lights for festive decoration; fans (air-conditioning); electric fans for personal use; fans (parts of air-conditioning installations); faucets for pipes (Am.); feeding apparatus for heating boilers; heaters, electric, for feeding bottles; heating filaments, electric; filaments for electric lamps; magnesium filaments for lighting; coffee filters, electric; filters for air conditioning; filters for drinking water; filters (parts of household or industrial installations); fire bars; fireplaces, domestic; bath

fittings; fittings, shaped, for furnaces; fittings, shaped, for ovens; flare stacks for use in the oil industry; flares; flashlights (torches); chimney flues; flues for heating boilers; flushing apparatus; flushing tanks; footmuffs, electrically heated; footwarmers, electric or non-electric; forage drying apparatus; forges, portable; fountains; ornamental fountains; framework of metal for ovens; freezers; friction lighters for igniting gas; fruit roasters; fuel economizers; fumigation apparatus, not for medical purposes; furnace ash boxes; furnace grates; furnaces; coolers for furnaces; cooling vats for furnaces; loading apparatus for furnaces; furnaces, other than for experimental purposes; shaped fittings for furnaces; regulating and safety accessories for gas apparatus; gas boilers; gas burners; brackets for gas burners; gas condensers, other than parts of machines; gas generators (installations); gas lamps; gas lighters; regulating and safety accessories for gas pipes; gas scrubbers (parts of gas installations); gas scrubbing apparatus; acetylene generators; gas generators (installations); germicidal burners; germicidal lamps for purifying air; glue-heating appliances; furnace grates; griddles (cooking appliances); grills (cooking appliances); hair driers (dryers); hand drying apparatus for washrooms; headlights for automobiles; hearths; heat accumulators; heat exchangers, not parts of machines; heat pumps; heat regenerators; heaters, electric, for feeding bottles; heaters for baths; heaters for heating irons; heaters for vehicles; immersion heaters; heating apparatus; heating apparatus, electric; heating apparatus for defrosting windows of vehicles; heating apparatus for solid, liquid or gaseous fuels; heating boilers; heating cushions (pads), electric, not for medical purposes; heating elements; heating filaments, electric; heating installations; hot water heating installations; heating installations (water); heating plates; extractor hoods for kitchens; hot air apparatus; hot air bath fittings; hot air ovens; hot plates; hot water bottles; luminous house numbers; humidifiers for central heating radiators; hydrants; ice boxes; ice chests; ice machines and apparatus; immersion heaters; incandescent burners; incinerators; ionisation apparatus for the treatment of air; kettles, electric; kiln furniture (supports); kilns; kitchen ranges (ovens); laboratory burners; laboratory lamps; lamp casings; lamp chimneys; lamp glasses; lamp globes; lamp mantles; lamp reflectors; lamp shades; lamps; burners for lamps; electric lamps; lamps for directional signals of automobiles; globes for lamps; lampshade holders; lanterns; lanterns for lighting; laundry dryers, electric; laundry room boilers; lava rocks for use in barbecue grills; level controlling valves in tanks; light bulbs; light bulbs, electric; light bulbs for directional signals for vehicles; light diffusers; lighters; gas lighters; lighting apparatus and installations; lighting apparatus for vehicles; lighting installations for air vehicles; diving lights; lights, electric, for christmas trees; lights for automobiles; lights for vehicles; loading apparatus for furnaces; luminous house numbers; luminous tubes for lighting;

magnesium filaments for lighting; malt roasters; microwave ovens (cooking apparatus); microwave ovens for industrial purposes; milk cooling installations; miners' lamps; mixer taps for water pipes; anti-splash tap nozzles; installations for processing nuclear fuel and nuclear moderating material; nuclear reactors; oil burners; oil lamps; oil-scrubbing apparatus; ornamental fountains; oven fittings made of fireclay; microwave ovens for industrial purposes; ovens, other than for experimental purposes; shaped fittings for ovens; oxhydrogen burners; heating pads (cushions), electric, not for medical purposes; pasteurisers; coffee percolators, electric; petrol burners; pipe line cocks (spigots); pipes (parts of sanitary installations); plate warmers; hot plates; pocket searchlights; pocket torches, electric; pocket warmers; polymerisation installations; disposable sterilization pouches; pressure cookers (autoclaves), electric; pressure cooking saucepans, electric; pressure water tanks; processing installations for fuel and nuclear moderating material; projector lamps; purification installations for sewage; radiator caps; radiators, electric; radiators (heating); nuclear reactors; refining towers for distillation; lamp reflectors; vehicle reflectors; refrigerating apparatus and machines; refrigerating appliances and installations; refrigerating cabinets; refrigerating chambers; refrigerating containers; refrigerating display cabinets (display cases); refrigerators; heat regenerators; regulating accessories for water or gas apparatus and pipes; regulating and safety accessories for gas apparatus; regulating and safety accessories for gas pipes; regulating and safety accessories for water apparatus; air reheaters; roasters; coffee roasters; roasting apparatus; roasting jacks; roasting spits; rotisseries; safety accessories for water or gas apparatus and pipes; safety lamps; sanitary apparatus and installations; pressure cooking saucepans, electric; sauna bath installations; scrubbers (parts of gas installations); searchlights; toilet seats; purification installations for sewage; shower cubicles (enclosures (Am.)); showers; sinks; bath tubs for sitz-baths; sockets for electric lights; water softening apparatus; solar collectors (heating); solar furnaces; soldering lamps; spa baths (vessels); flare stacks for use in oil refineries; standard lamps; steam accumulators; steam boilers, other than parts of machines; steam facial apparatus (saunas); steam generating installations; sterilizers; stills; stoves; stoves (heating apparatus); street lamps; structural plates for ovens; swimming pools chlorinating units; tanning apparatus (sun beds); taps (cocks, spigots) (faucets (Am.)) for pipes; taps (faucets); thermostatic valves (parts of heating installations); toasters; cooling installations for tobacco; tobacco roasters; toilet bowls; toilet seats; toilets, portable; toilets (water-closets); torches for lighting; pocket torches, electric; discharge tubes, electric, for lighting luminous tubes for lighting; turkish bath cabinets, portable; ultraviolet ray lamps, not for medical purposes; urinals (sanitary fixtures); level controlling

valves in tanks; thermostatic valves (parts of heating installations); vehicle headlights; vehicle reflectors; air conditioners for vehicles; anti-dazzle devices for vehicles (lamp fittings); defrosters for vehicles; heating apparatus for defrosting windows of vehicles; lighting apparatus for vehicles; lights for vehicles; ventilation (air-conditioning) installations and apparatus; ventilation (air-conditioning) installations for vehicles; ventilation hoods; ventilation hoods for laboratories; waffle irons, electric; walk-in refrigerators; warming pans washers for water taps wash-hand basins (parts of sanitary installations); wash- hand bowls (parts of sanitary installations); washing coppers; hand drying apparatus for washrooms; water closets; water conduits installations; water distribution installations; water filtering apparatus; water flushing installations; water heaters; water heaters (apparatus); water intake apparatus; regulating accessories for water or gas apparatus and pipes; safety accessories for water or gas apparatus and pipes; water purification installations; water purifying apparatus and machines; water softening apparatus and installations; water sterilizers; water supply installations; watering installations, automatic; watering machines for agricultural purposes; water-pipes for sanitary installations; whirlpool-jet apparatus.

Class 16

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites, except furniture; instructional and teaching material, except apparatus; plastic materials for packaging, not included in other classes; printers' type; printing blocks; address plates for addressing machines; address stamps; addressing machines; adhesive bands for stationery or household purposes; adhesive tape dispensers (office requisites); adhesive tapes for stationery or household purposes; adhesives (glues) for stationery or household purposes; advertisement boards of paper or cardboard; albums; almanacs; announcement cards (stationery); aquarelles; architects' models; arithmetical tables; artists' watercolor (watercolour) saucers; atlases; babies' diapers of paper and cellulose, disposable; babies' napkin-pants (diaper-pants) of paper and cellulose, disposable; babies' napkins of paper and cellulose, disposable; conical paper bags; bags (envelopes, pouches) of paper or plastics, for packaging; bags for microwave cooking; garbage bags of paper or of plastics; balls for ball-point pens; bibs of paper; binding strips (bookbinding); biological samples for use in microscopy (teaching materials); blackboards; blotters; blueprints; bookbinding apparatus and machines (office equipment); bookbinding cloth; bookbinding cords; bookbinding material; bookbindings; bookends; booklets; bookmarkers; books; bottle envelopes of cardboard or paper; bottle wrappers of cardboard or

paper; boxes for pens; boxes of cardboard or paper; plastic bubble packs for wrapping or packaging; cabinets for stationery (office requisites); calculating tables; calendars; canvas for painting; carbon paper; cardboard; cardboard articles; cardboard tubes; cards; cases for stamps (seals); catalogues; chalk for lithography; chalk holders; chaplets; charcoal pencils; chart pointers, non-electronic; charts; chromolithographs (chromos); chromos; cigar bands; clipboards; clips for offices; cloth for bookbinding; coasters of paper; paper coffee filters; comic books; compasses for drawing; composing frames (printing); composing sticks; copying paper (stationery); cords for bookbinding; correcting fluids (office requisites); correcting ink (heliography); covers of paper for flower pots; covers (stationery); cream containers of paper; credit card imprinters, non-electric; decalcomanias; diagrams; document files (stationery); document laminators for office use; drawer liners of paper, perfumed or not; drawing boards; drawing instruments; drawing materials; drawing pads; drawing pens; drawing pins; drawing sets; drawing squares; drawing T-squares; duplicators; elastic bands for offices; electrocardiograph paper; electrotypes; embroidery designs (patterns); engraving plates; engravings; envelope sealing machines, for offices; envelopes (stationery); erasing products; erasing shields; etching needles; etchings; fabrics for bookbinding; face towels of paper; figurines (statuettes) of papier mache; files (office requisites); filter paper; filtering materials (paper); finger-stalls (office requisites); flags of paper; flower-pot covers of paper; folders for papers; folders (stationery); forms, printed; fountain pens; franking machines (stamping machines); french curves; galley racks (printing); garbage bags of paper or of plastics; geographical maps; glue for stationery or household purposes; gluten (glue) for stationery or household purposes; graining combs; graphic prints; graphic representations; graphic reproductions; greeting cards; gummed cloth for stationery purposes; gummed tape (stationery); gums (adhesives) for stationery or household purposes; hand labelling appliances; handbooks (manuals); handkerchiefs of paper; hand-rests for painters; handwriting specimens for copying; hat boxes of cardboard; hectographs; histological sections for teaching purposes; holders for checkbooks (cheque books); holders for stamps (seals); house painters' rollers; hygienic paper; index cards (stationery); indexes; Indian inks; ink; ink sticks; ink stones (ink reservoirs); inking pads; inking ribbons; inking ribbons for computer printers; inking sheets for document reproducing machines; inking sheets for duplicators; inkstands; inkwells; isinglass for stationery or household purposes; jackets for papers; labels, not of textile; ledgers (books); letter trays; letters (type); lithographic stones: lithographic works of art; lithographs; loose-leaf binders; luminous paper; magazines (periodicals); manifolds (stationery); manuals (handbooks); marking chalk; mats for beer glasses; mimeograph apparatus and machines; modelling

clay; molds for modelling clays; modelling materials; modelling paste; modelling wax, not for dental purposes; moisteners for gummed surfaces (office requisites); moisteners (office requisites); molds for modelling clays (artists' materials); money clips; moulds for modelling clays (artists' materials); apparatus for mounting photographs; musical greeting cards; napkins of paper for removing make-up; newsletters; newspapers; nibs; nibs of gold; note books; numbering apparatus; numbers (type); obliterating stamps; office perforators; office requisites, except furniture; oleographs; packaging material made of starches; packing paper; pads (stationery); paint boxes (articles for use in school); paintbrushes; painters' brushes; painters' easels; paintings (pictures), framed or unframed; palettes for painters; pamphlets; pantographs (drawing instruments); paper; paper bows; paper clasps; paper for recording machines; paper knives (cutters) (office requisites); paper ribbons; paper sheets (stationery); paper shredders for office use; paper tapes and cards for the recordal of computer programmes; paper-clips; paperweights; papier mache; parchment paper; passport holders; pastels (crayons); pastes for stationery or household purposes; patterns for dressmaking; patterns for making clothes; pen cases; pen clips; pen wipers; pencil holders; pencil lead holders; pencil leads; pencil sharpeners, electric or non-electric; pencil sharpening machines, electric or non-electric; pencils; penholders; pens (office requisites); perforated cards for jacquard looms; periodicals; photo-engravings; photograph stands; photographs; pictures; placards of paper or cardboard; place mats of paper; plans; plastic cling film, extensible, for palletization; plastic film for wrapping; plastics for modeling; portraits; postage stamps; postcards; posters; printed matter; printed publications; printed timetables; printers' blankets, not of textile; printers' reglets; printing blocks; printing sets, portable (office requisites); printing type; prints (engravings); prospectuses; punches (office requisites); paper for radiograms; rollers for typewriters; rosaries; rubber erasers; drawing rulers; square rulers; school supplies (stationery); scrapbooks; scrapers (erasers) for offices; sealing compounds for stationery purposes; sealing machines for offices; sealing stamps; sealing wafers; sealing wax; seals (stamps); self-adhesive tapes for stationery or household purposes; sheets of reclaimed cellulose for wrapping; shields (paper seals); signboards of paper or cardboard; silver paper; slate pencils; song books; spools for inking ribbons; square rulers; stamp pads; stamp stands; stamps (seals); stands for pens and pencils; staples for offices; stapling presses (office requisites); starch paste (adhesive) for stationery or household purposes; stationery; steatite (tailor's chalk); steel letters; steel pens; stencil cases; stencil plates; stencils; stencils (stationery); stickers (stationery); table linen of paper; table napkins of paper; tablecloths of paper; tablemats of paper; tags for index cards; tailors' chalk; teaching materials (except apparatus); tear-off

calendars; terrestrial globes; thumbtacks; tickets; tissues of paper for removing make-up; toilet paper; towels of paper; tracing cloth; tracing needles for drawing purposes; tracing paper; tracing patterns; transfers (decalcomanias); transparencies (stationery); trays for sorting and counting money; type (numerals and letters); typewriter keys; typewriter ribbons; typewriters, electric or non-electric; vignetting apparatus; viscose sheets for wrapping; watercolors (paintings); watercolours (paintings); waxed paper; wood pulp board (stationery); wood pulp paper; wrappers (stationery); wrapping paper; wristbands for the retention of writing instruments; writing board erasers; writing brushes; writing cases (sets); writing cases (stationery); writing chalk; writing instruments; writing materials; writing or drawing books; writing pads; writing paper; writing slates; writing tablets; xuan paper for Chinese painting and calligraphy.

Class 17

Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal; cellulose acetate, semi-processed; acrylic resins (semi-finished products); adhesive bands other than stationery and not for medical or household purposes; adhesive tapes other than stationery and not for medical or household purposes; anti-dazzle films for windows (tinted films); floating anti-pollution barriers; artificial resins (semi-finished products); asbestos; asbestos cloth; asbestos coverings; asbestos fabrics; asbestos felt; asbestos fibers (fibres); asbestos mill boards; asbestos packing; asbestos paper; asbestos safety curtains; asbestos sheets; asbestos slate; asbestos soles; bags (envelopes, pouches) of rubber, for packaging; balata; adhesive bands other than stationery and not for medical or household purposes; bands of rubber for unscrewing jar lids; bark coverings for sound insulation; boiler composition to prevent the radiation of heat; brake lining materials, partly processed; shock-absorbing buffers of rubber; insulators for cables; canvas hose pipes; paper for electrical capacitors; carbon fibers (fibres), other than for textile use; caulking materials; foil of regenerated cellulose, other than for packing; clack valves of rubber; clutch linings; compressed air pipe fittings, not of metal; connecting hose for vehicle radiators; cords of rubber; cotton wool for packing (caulking); cylinder jointings; dielectrics (insulators); draught excluder strips; ebonite (vulcanite); ebonite (vulcanite) molds (moulds); elastic threads, not for use in textiles; elastic yarns, not for use in textiles; insulators for electric mains; expansion joint fillers; fiberglass (fibreglass) fabrics, for insulation; insulating fabrics; insulating felt; vulcanized fiber; fiberglass for insulation; glass fibers, for insulation; plastic fibers, not for use in textiles; expansion joint fillers; plastic film, not for wrapping; filtering

materials (semi-processed foams or films of plastic); fire hose; flexible tubes, not of metal; foam supports for flower arrangements (semi-finished products); foil of regenerated cellulose, other than for packing; foils of metal for insulating; gaskets; glass wool for insulation; insulating gloves; gum, raw or partly processed; guttapercha; compositions to prevent the radiation of heat; non-conducting materials for retaining heat; watering hose; hoses of textile material; substances for insulating buildings against moisture; insulating materials; insulating oils; insulating paints; insulating paper; insulating plaster; insulating refractory materials; insulating tape and band; insulating varnish; metal foil for insulation; insulators; pipe jackets, not of metal; bands of rubber for unscrewing jar lids; joint packings; junctions, not of metal, for pipes; latex (rubber); chemical compositions for repairing leaks; liquid rubber; lute; mica, raw or partly processed; mineral wool (insulator); pipe muffs, not of metal; packing (cushioning, stuffing) materials of rubber or plastics; padding materials of rubber or plastics; paper for electrical capacitors; pipe gaskets; joint packings for pipes; reinforcing materials, not of metal for pipes; plastic sheeting for agricultural purposes; plastic substances, semi-processed; insulators for railway tracks; synthetic resins (semi-finished products); rings of rubber; stuffing rings; water-tight rings; rubber material for recapping tires (tyres); rubber, raw or semi-worked; rubber sleeves for protecting parts of machines; rubber solutions; rubber stoppers; synthetic rubber; sealant compounds for joints; seals; self-adhesive tapes, other than stationery and not for medical or household purposes; sheets of reclaimed cellulose, other than for packing; slag wool (insulator); soldering threads of plastic; soundproofing materials; stops of rubber; stuffing of rubber or plastic; threads of plastic materials, not for textile use; threads of rubber, not for use in textiles; insulating oil for transformers; valves of india-rubber or vulcanized fiber (fibre); viscose sheets, other than for packing; viscose sheets, other than for wrapping; washers of rubber or vulcanized fiber (fibre); waterproof packings; water-tight rings; weatherstripping; weatherstripping compositions.

Class 19

Building materials (non-metallic); non-metallic rigid pipes for building; asphalt, pitch and bitumen; non-metallic transportable buildings; monuments, not of metal; alabaster; alabaster glass; angle irons, not of metal; aquaria (structures); aquarium gravel; aquarium sand; arbours (structures); artificial stone; asbestos cement; asbestos mortar; asphalt; asphalt paving; aviaries, not of metal (structures); agglomerated bagasses of cane (building material); balustrading; beacons, not of metal, non-luminous; beams, not of metal; bicycle parking installations, not of metal; binding agents for making briquettes; bird baths (structures, not of metal); bitumen; bituminous coatings for roofing; bituminous

products for building; cement for blast furnaces; blinds (outdoor), not of metal and not of textile; floor boards; branching pipes, not of metal; bricks; earth for bricks; building cardboard (asphalted); framework for building, not of metal; building materials, not of metal; building stone; building timber; buildings, not of metal; buildings, transportable, not of metal; busts of stone, concrete or marble; cabanas not of metal; caissons for construction work under water; calcareous marl; calcareous stone; building cardboard; casement windows, not of metal; cask wood; ceilings, not of metal; cement; fireproof cement coatings; cement posts; cement slabs; raw chalk; chicken-houses, not of metal; chimney cowl, not of metal; chimney pots, not of metal; chimney shafts, not of metal; chimneys, not of metal; cladding, not of metal, for building; clay; potters clay (raw material); clinker ballast; clinker stone; coal tar; coatings (building materials); concrete; concrete building elements; shuttering, not of metal, for concrete; construction materials, not of metal; cork (compressed); cornices, not of metal; coverings, not of metal, for building; crash barriers, not of metal, for roads; diving boards, not of metal; floating docks, not of metal, for mooring boats; door casings, not of metal; door frames, not of metal; door panels, not of metal; doors, not of metal; drain pipes, not of metal; drain traps (valves), not of metal or plastic; duckboards, not of metal; ducts, not of metal, for ventilating and air-conditioning installations; tomb or grave enclosures, not of metal; facings, not of metal, for building; fair huts; felt for building; fences, not of metal; figurines (statuettes) of stone, concrete or marble; fire burrs; fireclay; fireproof cement coatings; flashing, not of metal, for building; parquet floor boards; floor tiles, not of metal; parquet flooring; floors, not of metal; folding doors, not of metal; foundry molds (moulds), not of metal; framework, not of metal, for building; cement for furnaces; furrings of wood; gates not of metal; alabaster glass; building glass; granite; glass granules for marking out roads; grave or tomb enclosures, not of metal; gravel; gravestone slabs, not of metal; gravestones; greenhouse frames, not of metal; greenhouses, transportable, not of metal; grog (fired refractory material); grout; gutter pipes, not of metal; gutters, not of metal; gypsum; hips for roofing; horticultural frames, not of metal; huts; insect screens not of metal; insulating glass (building); jalousies, not of metal; joists, not of metal; laths, not of metal; latticework, not of metal; lengthening pieces, not of metal, for chimneys; letter boxes of masonry; lighting slabs; lime; limestone; linings, not of metal, for building; lintels, not of metal; lumber; luminous paving; macadam; magnesia cement; manhole covers, not of metal; mantlepieces; marble; calcareous marl; masts (poles), not of metal; memorial plaques, not of metal; moldable wood; moldings, not of metal, for building; moldings, not of metal, for cornices; monuments, not of metal; mooring bollards, not of metal; mortar for building; mosaics for building; mouldable wood; mouldings, not of metal, for

building; mouldings, not of metal, for cornices; olivine for building; paint spraying booths, not of metal; palings, not of metal; palisading, not of metal; building panels, not of metal; pantiles; building paper; paperboard for building; partitions, not of metal; paving blocks, not of metal; paving slabs, not of metal; perches; pigsties; pilings, not of metal; gutter pipes, not of metal; penstock pipes, not of metal; rigid pipes, not of metal (building); water pipes, not of metal; pitch; planks (wood for building); plaster; plate glass (windows), for building; platforms, prefabricated, not of metal; plywood; poles, not of metal, for electric power lines; swimming pools (structures, not of metal); porches, not of metal, for building; posts, not of metal; posts, not of metal, for electric power lines; potters' clay; props, not of metal; quartz; railroad ties, not of metal; railway sleepers, not of metal; reeds, for building; refractory construction materials, not of metal; reinforcing materials, not of metal, for building; road coating materials; road marking sheets and strips of synthetic material; binding material for road repair; materials for making and coating roads; rock crystal; rocket launching platforms, not of metal; roof coverings, not of metal; roof flashing, not of metal; roofing, not of metal; roofing, not of metal, incorporating solar cells; roofing slates; rubble; safety glass; sand, except foundry sand; silver sand; sandstone for building; sandstone tubes; scaffolding, not of metal; scantlings (carpentry); schists; sheet piles, not of metal; shingle; shutters, not of metal; signalling panels, non-luminous and non-mechanical, not of metal; signs, non-luminous and non-mechanical, not of metal, for roads; non-luminous and non-mechanical signs, not of metal; silica (quartz); sills, not of metal; silos, not of metal; silver sand; skating rinks (structures, not of metal); cement slabs; lighting slabs; slabs, not of metal; slag (building material); slag stone; slate; slate powder; stables; stained-glass windows; staircases, not of metal; stair-treads (steps), not of metal; statues of stone, concrete or marble; statuettes of stone, concrete or marble; stave wood; stone; works of stonemasonry; binding agents for making stones; stringers (parts of staircases), not of metal; surfacings, not of metal, for building; swimming pools (structures, not of metal); tanks of masonry; tar; tarred strips, for building; telegraph posts, not of metal; telephone booths, not of metal; telephone boxes, not of metal; terra cotta; tile floorings, not of metal; tiles, not of metal; tiles, not of metal, for building; manufactured timber; sawn timber; worked timber; tombs (monuments), not of metal; tombs, not of metal; tombstone plaques, not of metal; tombstone stelae, not of metal; tombstones; trellises, not of metal; tufa; vaults, not of metal (burial); veneer wood; veneers; vinyl siding; wainscotting, not of metal; wall claddings, not of metal, for building; wall linings, not of metal, for building; wall tiles, not of metal, for building; water-pipe valves, not of metal or plastic; window frames, not of metal; window glass, except glass for vehicle windows; window glass, for building;

windows, not of metal; stained-glass windows; wood for making household utensils; wood paneling; wood paving; wood pulp board, for building; wood, semi-worked; works of art of stone, concrete or marble; xylolith.

Class 20

Air cushions, not for medical purposes; air mattresses, not for medical purposes; air pillows, not for medical purposes; yellow amber; ambroid bars; ambroid plates; animal hooves; animal horns; stuffed animals; stag antlers; armchairs; works of art of wood, wax, plaster or plastic; artificial honeycombs; sleeping bags for camping; bakers' bread baskets; bamboo; bamboo curtains; barrel hoops, not of metal; barrels, not of metal; fishing baskets; baskets, not of metal; bassinets; bead curtains for decoration; bed casters, not of metal; bed fittings, not of metal; bedding, except linen; beds; beds for household pets; hospital beds; hydrostatic (water) beds, not for medical purposes; bedsteads of wood; beehives; comb foundations for beehives; sections of wood for beehives; benches (furniture); vice benches not of metal; work benches; binding screws, not of metal, for cables; bins, not of metal; bins of wood or plastic; stuffed birds; slatted indoor blinds; boarding stairs, not of metal, mobile, for passengers; display boards; bolsters; bolts, not of metal; book rests (furniture); bottle caps, not of metal; bottle casings of wood; bottle closures, not of metal; bottle racks; corks for bottles; nesting boxes; nesting boxes for household pets; boxes of wood or plastic; identification bracelets, not of metal, for hospital purposes; picture frame brackets; bakers' bread baskets; broom handles, not of metal; brush mountings; bungs, not of metal; mooring buoys not of metal; busts of wood, wax, plaster or plastic; cabinet work; index cabinets (furniture); medicine cabinets; cable clips, not of metal; cable or pipe clips of plastics; bottle caps, not of metal; sealing caps, not of metal; plastic key cards, not encoded; carts for computers (furniture); cases of wood or plastic; bottle casings of wood; cask hoops, not of metal; cask stands, not of metal; casks, not of metal; casks of wood for decanting wine; taps for casks, not of metal; furniture casters, not of metal; chairs (seats); chests for toys; chests, not of metal; chests of drawers; wind chimes (decoration); chopping blocks (tables); animal claws; cable and pipe clips of plastics; towel closets (furniture); bottle closures, not of metal; closures, not of metal, for containers; clothes hooks, not of metal; coat hangers; coathooks, not of metal; coatstands; coffin fittings, not of metal; coffins; comb foundations for beehives; closures, not of metal, for containers; containers, not of metal, for liquid fuel; containers, not of metal (storage, transport); packaging containers of plastic; coral; cork bands; corks; corks for bottles; corozo; costume stands; cots; counters (tables); covers for clothing (wardrobe); garment covers (storage); cradles; crates; cupboards; curtain holders, not of textile material; curtain hooks; curtain

rails; curtain rings; curtain rods; curtain rollers; curtain tie-backs; bamboo curtains; bead curtains for decoration; cushions; pet cushions; deck chairs; decorations of plastic for foodstuffs; desks; desks (furniture); dinner wagons (furniture); towel dispensers, not of metal, fixed; display boards; display stands; divans; dog kennels; door fittings, not of metal; door handles, not of metal; doors for furniture; dowels, not of metal; drain traps (valves) of plastic; draughtman's tables; dressing tables; dressmakers' dummies; drinking straws; easy chairs; edgings of plastic for furniture; embroidery frames; fans for personal use, non-electric; figurines (statuettes) of wood, wax, plaster or plastic; filing cabinets; fire screens, domestic; fireguards; fishing baskets; bed fittings, not of metal; coffin fittings, not of metal; door fittings, not of metal; furniture fittings, not of metal; window fittings, not of metal; flagpoles; floating containers, not of metal; flower-pot pedestals; flower-stands (furniture); fodder racks; decorations of plastic for foodstuffs; footstools; foundations for beehives; embroidery frames; picture frames; funerary urns; furniture; furniture casters, not of metal; furniture fittings, not of metal; furniture of metal; office furniture; furniture partitions of wood; partitions of wood for furniture; school furniture; furniture shelves; garment covers (storage); silvered glass (mirrors); fire guards; gun racks; hairdressers' chairs; hampers (baskets); hand-held mirrors (toilet mirrors); door handles, not of metal; knife handles, not of metal; tool handles not of metal; handling pallets, not of metal; coat hangers; hat stands; head-rests (furniture); high chairs for babies; hinges, not of metal; honeycombs; curtain hooks; hooks, not of metal, for clothes rails; barrel hoops, not of metal; cask hoops, not of metal; animal hooves; horn, unworked or semi-worked; animal horns; reels, not of metal, non-mechanical, for flexible hoses; winding spools, not of metal, non-mechanical, for flexible hoses; hospital beds; house numbers, not of metal, non-luminous; nesting boxes for household pets; hydrostatic beds, not for medical purposes; identification bracelets, not of metal, for hospitals; identity plates, not of metal; index cabinets (furniture); indoor window blinds (shades) (furniture); mats for infant playpens; infant walkers; inflatable publicity objects; ivory, unworked or semi-worked; kennels for household pets; plastic key cards, not encoded; keyboards for hanging keys; knife handles, not of metal; ladders of wood or plastics; latches, not of metal; lecterns; letter boxes, not of metal or masonry; library shelves; containers, not of metal, for liquid fuel; loading gauge rods, not of metal, for railway waggons (wagons); loading pallets, not of metal; lockers; locks, not of metal, for vehicles; locks, other than electric, not of metal; magazine racks; mannequins; massage tables; mats for infant playpens; mats, removable, for sinks; straw mattress; mattresses; spring mattresses; meat chests, not of metal; medicine cabinets; meerscham; mirror tiles; hand held mirrors (toilet mirrors);

mirrors (looking glasses); mobiles (decoration); moldings for picture frames; mooring buoys, not of metal; troughs, not of metal, for mixing mortar; mother-of-pearl, unworked or semi-worked; mouldings for picture frames; nameplates, not of metal; nesting boxes; nesting boxes for household pets; newspaper display stands; numberplates, not of metal; nuts, not of metal; office furniture; oyster shells; packaging containers of plastic; loading pallets, not of metal; transport pallets, not of metal; flower-pot pedestals; tent pegs, not of metal; pegs (pins), not of metal; pet cushions; picture frame brackets; picture frames; moldings (mouldings) for picture frames; pillows; pins (pegs), not of metal; pipe or cable clips of plastics; placards of wood or plastics; plaited straw, except matting; straw plaits; plate racks; registration plates, not of metal; playpens for babies; mats for infant playpens; plugs (dowels), not of metal; plugs, not of metal; poles, not of metal; pulleys of plastics for blinds; racks (furniture); curtain rails; loading gauge rods, not of metal, for railway waggons (wagons); rattan; reeds (plaiting materials); reels, not of metal, non-mechanical, for flexible hoses; reels of wood for yarn, silk, cord; registration plates, not of metal; reservoirs, not of metal nor of masonry; curtain rings; rivets, not of metal; curtain rods; picture rods (frames); stair rods; curtain rollers; saw horses; school furniture; scratching posts for cats; screens (furniture); screws, not of metal; scythe handles, not of metal; sealing caps, not of metal; seats; seats of metal; sections of wood for beehives; settees; shells; shelves for filing-cabinets (furniture); shelves for storage; shelves for typewriters; shoulder poles (yokes); showcases (furniture); sideboards; signboards of wood or plastics; silvered glass (mirrors); removable mats or covers for sinks; slatted indoor blinds; sleeping bags for camping; sofas; spring mattresses; stag antlers; stair rods; mobile boarding stairs, not of metal, for passengers; stakes for plants or trees; costume stands; stands for calculating machines; statues of wood, wax, plaster or plastic; statuettes of wood, wax, plaster or plastic; staves of wood; steps (ladders), not of metal; stools; stoppers for bottles, not of glass, metal or rubber; stoppers, not of metal; straw edgings; straw mattresses; straw plaits; straws for drinking; stuffed animals; table tops; tables; tables of metal; tailors' dummies; tanks, not of metal nor of masonry; taps for casks, not of metal; tea carts; tea trolleys; tent pegs, not of metal; mirror tiles; tool handles, not of metal; tortoiseshell; tortoiseshell imitation; towel closets (furniture); towel dispensers, fixed, not of metal; transport pallets, not of metal; drain traps of plastic (valves); trays, not of metal; trestles (furniture); trolleys for computers (furniture); trolleys (furniture); troughs, not of metal, for mixing mortar; typing desks; umbrella stands; funerary urns; valves, not of metal, other than parts of machines; water-pipe valves of plastic; vats, not of metal; vice benches, not of metal; dinner wagons (furniture); infant walkers; wall plugs, not of metal; washstands (furniture); water beds, not for medical purposes; water-pipe

valves of plastic; wax figures; waxcomb for beehives; whalebone, unworked or semi-worked; wickerwork; wind chimes (decoration); winding spools, not of metal, non-mechanical, for flexible hoses; window fittings, not of metal; casks of wood for decanting wine; wood ribbon; work benches; works of art, of wood, wax, plaster or plastic; woven timber blinds (furniture); writing desks; yellow amber.

Class 35

Advertising; business management; business administration; office functions; accounting; drawing up of statements of accounts; commercial administration of the licensing of the goods and services of others; administrative processing of purchase orders; advertising; advertising agencies; advertising by mail order; updating of advertising material; dissemination of advertising matter; rental of advertising space; commercial information and advice for consumers (consumer advice shop); cost price analysis; telephone answering for unavailable subscribers; business appraisals; arranging newspaper subscriptions for others; arranging subscriptions to telecommunication services for others; business management of performing artists; business management assistance; auctioneering; auditing; bill-posting; book-keeping; business appraisals; professional business consultancy; business information; business inquiries; business investigations; business management and organization consultancy; business management assistance; business management consultancy; business management of hotels; business organization consultancy; business research; relocation services for businesses; commercial information agencies; commercial or industrial management assistance; presentation of goods on communication media, for retail purposes; price comparison services; compilation of information into computer databases; compilation of statistics; compilation of information into computer databases; systemization of information into computer databases; professional business consultancy; cost price analysis; data search in computer files for others; demonstration of goods; direct mail advertising; dissemination of advertising matter; distribution of samples; document reproduction; economic forecasting; efficiency experts; employment agencies; evaluation of standing timber; evaluation of wool; organization of exhibitions for commercial or advertising purposes; computerized file management; economic forecasting; grading of wool; import-export agencies; commercial information agencies; business information; business inquiries; business investigations; invoicing; layout services for advertising purposes; commercial administration of the licensing of the goods and services of others; advisory services for business management; personnel management consultancy; marketing research; marketing studies; modelling for advertising or sales promotion; news clipping services; office machines and equipment rental;

on-line advertising on a computer network; opinion polling; organization of trade fairs for commercial or advertising purposes; outdoor advertising; outsourcing services (business assistance); payroll preparation; personnel recruitment; photocopying; price comparison services; word processing; procurement services for others (purchasing goods and services for other businesses); psychological testing for the selection of personnel; public relations; publication of publicity texts; publicity; publicity agencies; publicity columns preparation; publicity material rental; publication of publicity texts; writing of publicity texts; radio advertising; radio commercials; rental of advertising time on communication media; rental of photocopying machines; rental of vending machines; presentation of goods on communication media, for retail purposes; sales promotion for others including retail and wholesale services; secretarial services; shop window dressing; shorthand; sponsorship search; tax preparation; telephone answering for unavailable subscribers; television advertising; television commercials; transcription; typing; updating of advertising material.

Class 37

Building construction; repair; installation services; air conditioning apparatus installation and repair; airplane maintenance and repair; anti-rust treatment for vehicles; artificial snow-making services; asphaltting; boiler cleaning and repair; bricklaying; building construction supervision; building insulating; building of fair stalls and shops; building sealing; cleaning of buildings (exterior surface); cleaning of buildings (interior); rental of bulldozers; burglar alarm installation and repair; burner maintenance and repair; cabinet making (repair); car wash; chimney sweeping; diaper cleaning; dry cleaning; rental of cleaning machines; cleaning of clothing; vehicle cleaning; clock and watch repair; cleaning of clothing; clothing repair; installation, maintenance and repair of computer hardware; construction; rental of construction equipment; construction information; damp-proofing (building); demolition of buildings; diaper cleaning; disinfecting; drilling of wells; dry cleaning; electric appliance installation and repair; elevator installation and repair; factory construction; film projector repair and maintenance; fire alarm installation and repair; freezing equipment installation and repair; fur care, cleaning and repair; furnace installation and repair; furniture maintenance; furniture restoration; harbour construction; heating equipment installation and repair; installation of doors and windows; interference suppression in electrical apparatus; irrigation devices installation and repair; kitchen equipment installation; knife sharpening; laundering; leather care, cleaning and repair; lift installation and repair; linen ironing; machinery installation, maintenance and repair; masonry; mending clothing; mining extraction; motor vehicle maintenance

and repair; motor vehicle wash; office machines and equipment installation, maintenance and repair; painting, interior and exterior; paper hanging; parasol repair; photographic apparatus repair; pier breakwater building; pipeline construction and maintenance; plastering; plumbing; pressing of clothing; pumicing; pump repair; quarrying services; rat exterminating; rebuilding engines that have been worn or partially destroyed; rebuilding machines that have been worn or partially destroyed; refilling of toner cartridges; renovation of clothing; rental of cranes (construction equipment); rental of excavators; rental of road sweeping machines; repair information; repair of security locks; restoration of musical instruments; restoration of works of art; re-tinning; retreading of tires (tyres); riveting; road paving; roofing services; rustproofing; safe maintenance and repair; sanding; scaffolding; shipbuilding; shoe repair; painting or repair of signs; street cleaning; strong-room maintenance and repair; swimming-pool maintenance; telephone installation and repair; umbrella repair; underwater construction; underwater repair; upholstering; upholstery repair; varnishing; vehicle lubrication (greasing); vehicle maintenance; vehicle polishing; vehicle repair; vehicle service stations (refuelling and maintenance); vehicle wash; vermin exterminating, other than for agriculture; vulcanization of tires (tyres) (repair); wallpapering; warehouse construction and repair; washing; washing of linen; window cleaning.

Class 40

Abrasion; rental of air conditioning apparatus; air deodorizing; air freshening; air purification; clothing alteration; slaughtering of animals; applying finishes to textiles; custom assembling of materials for others; blacksmithing; fabric bleaching; boiler-making; bookbinding; burnishing by abrasion; cadmium plating; chromium plating; processing of cinematographic films; cloth cutting; cloth dyeing; cloth edging; cloth fireproofing; cloth pre-shrinking; cloth treating; cloth waterproofing; clothing alteration; colour separation services; coppersmithing; crease-resistant treatment for clothing; custom assembling of materials for others; custom fashioning of fur; cloth cutting; decontamination of hazardous materials; services of a dental technician; destruction of waste and trash; photographic film development; dressmaking; cloth dyeing; fur fyeing; dyeing services; textile dyeing; cloth edging; electroplating; embroidery; production of energy; engraving; fabric bleaching; fabric fireproofing; fabric waterproofing; cloth fireproofing; firing pottery; flour milling; food and drink preservation; food smoking; freezing of foods; framing of works of art; freezing of foods; fruit crushing; fulling of cloth; fur conditioning; custom fashioning of fur; fur dyeing; fur glossing; fur mothproofing; fur staining; galvanization; gilding; glass-blowing; fur glossing; gold-plating; grinding; optical glass grinding; rental of space heating apparatus;

incineration of waste and trash; material treatment information; key cutting; knitting machine rental; laminating; laser scribing; leather staining; leather working; lithoeraohic printing; magnetization; material treatment information; metal casting; metal plating; metal tempering; metal treating; flour milling; millworking; fur mothproofing; textile mothproofing; nickel plating; offset printing; processing of oil; optical glass grinding; paper finishing; paper treating; pattern printing; permanent-press treatment of fabrics; photocomposing services; photographic film development; photographic printing; photogravure; planing (saw mill); metal plating; pottery firing; cloth pre-shrinking; printing; lithographic printing; offset printing; photographic printing; processing of oil; production of energy; quilting; recycling of waste and trash; refining services; rental of air conditioning apparatus; rental of generators; rental of space heating apparatus; saddlery working; fur staining; sawing (saw mill); laser scribing; shoe staining; silkscreen printing; silver-plating; skin dressing; slaughtering of animals; soldering; sorting of waste and recyclable material (transformation); stripping finishes; tailoring; tanning; taxidermy; metal tempering; textile fireproofing; textile mothproofing; textile treating; applying finishes to textiles; timber felling and processing; tin-plating; vulcanization (material treatment); warping (looms); destruction of waste and trash; incineration of waste and trash; recycling of waste and trash; waste treatment (transformation); water treating; cloth waterproofing; window tinting treatment, being surface coating; woodworking; wool treating; framing of works of art.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; analysis for oil-field exploitation; architectural consultation; architecture; authenticating works of art; bacteriological research; biological research; calibration (measuring); chemical analysis; chemical research; chemistry services; cloud seeding; computer programming; computer rental; computer software consultancy; computer software design; updating of computer software; computer system design; computer systems analysis; computer virus protection services; construction drafting; consultancy in the field of computer hardware; consultancy in the field of energy-saving; conversion of data or documents from physical to electronic media; cosmetic research; creating and maintaining web sites for others; data conversion of computer programs and data (not physical conversion); design of interior decor; dress designing; duplication of computer programs; engineering; geological prospecting; geological research; geological surveys; graphic arts designing; hosting computer sites (web sites); industrial design; installation of computer software; land surveying; maintenance of

computer software; material testing; mechanical research; meteorological information; oil prospecting; oil-field surveys; oil-well testing; packaging design; physics (research); technical project studies; providing search engines for the Internet; quality control; recovery of computer data; rental of computer software; rental of web servers; research and development for others; research in the field of environmental protection; styling (industrial design); surveying; technical research; textile testing; underwater exploration; urban planning; vehicle roadworthiness testing; weather forecasting.

CARGO PLUS LLC

942 WINDEMERE DRIVE NW, SALEM, OR 97304, UNITED STATES OF AMERICA

T0913484E (09)

(International Registration No. 1017892)

Date of International Registration: 22/10/2009

Date of Protection in Singapore: 22/10/2009

FLATSCREEN CONNOISSEUR

Class 09

Home theatre products, namely televisions, LCD televisions, plasma televisions, flat panel televisions and DVD players.

Priority Claims:

Class 09

23/04/2009

UNITED STATES OF AMERICA

Partial goods/services claimed in this application.

NUVISION U.S., INC.

**7901 E. PIERCE STREET, SUITE A, SCOTTSDALE, AZ 85257,
