REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

## Class 01

Chemical solutions for calibrating measuring and analyzing devices, except medical and veterinary devices.

## Class 06

Check valves; air charger and tank drainer valves; boiler and expansion tank fittings for hot water heating systems each including separate air and water passages; automatic and manual air vents for hot water heating and cooling systems, pipe fittings for branch flow circuitry from a main pipe circuit; shutoff and throttling valves with flow measuring capabilities and tank fittings; flow control valves, pressure reducing valves, pressure relief valves, dual unit valves consisting of pressure reducing and pressure relief valves, water mixing valves, check valves pressure actuated to close and gravity actuated to open, valves for use with water heating coils arranged to reverse the flow through and backwash the coils when the faucet is opened, pipe fittings for hot water heating systems; all being made of metal.

## Class 07

Pumps, namely, centrifugal pumps, positive displacement pumps, gear pumps, submersible pumps and pump motors, flexible impeller pumps, vane pumps, macerator pumps, bilge pumps, live well/aerator pumps, engine cooling pumps, oil drain pumps, diaphragm pumps, solids handling pumps, vacuum pumps, split case pumps, self-priming pumps, sludge pumps, process pumps, stock pumps, magnetic drive pumps, fire pumps, boiler feed pumps, peripheral pumps, self-priming pumps, drum pumps, close-coupled pumps, surface irrigation pumps, circulating pumps, booster pumps, machine pumps, airlift pumps, water pumps for pools, spas, whirlpools, wastewater treatment applications, heating, cooling, ventilation, and air conditioning applications, and general domestic, commercial, agricultural, marine, and industrial uses, and related parts, fittings, and accessories, namely, pump monitoring gauges, shafts for pumps, pump motor couplings, pump and pump motor bearings, pump seals, gaskets for pumps, pump lantern rings, pump impellers; solar powered pump installation for pumping water, comprised of a solar panel for production of electricity, non-metal garden stake for securing the solar panel, rechargeable battery, submersible pump, pump controller, and plastic intake hose; submersible mixers for general dewatering, flood control, waste handling, sewage disposal systems and flow generation; blowers for marine vessels; steam and hydronic

machine parts, namely, steam, float, bucket, temperature, control, thermostatic valves; venting, steam, water supply, and tempering valves as machine parts; pneumatic, temperature, and pressure pilots as machine parts; pressure and temperature regulators as machine parts; strainers and vacuum breakers as machine parts; and surface condensers; Small commercial and residential pumping systems, namely, liquid pumps, piping, valves, pressure gauges, pressure switches, timers, relays and electrical switchgear, all mounted as a unit on a steel base, used for turf irrigation, providing variable flows of water at constant pressure; condensate units comprising - centrifugal pumps, steel receivers, float switches, control panels, water level gauges, thermometers, inlet strainers, butterfly valves, manual alternators, pressure gauges; all sold as a unit; sanitary pumps for pumping food products (machines).

#### **Class 09**

Microprocessor based pump controllers; flow meters, flow meter systems including a balancing valve for hvac fluid systems; electric safety controls and valves, namely boiler water feeders to safeguard steam and hot water boilers against the hazards of low water conditions, automotive feeder cut-off combination valves, float operated valves, liquid flow switches, liquid level controls, water level regulators (other than valves being parts of sanitary installations), boiler control apparatus, pressure indicator plug for valves, proportioning regulators, pump controllers sequencing blow down valves, and replacement head mechanisms for feeders, cut-offs and pump controllers; electrical switches, namely, flow switches, float operated switches and snap switches; instruments for monitoring and controlling water and wastewater treatment processes, namely mechanical, pneumatic and electronic control panels, controllers, transmitters, gauges, receivers, tables, samplers, regulators, rate set stations, indicators, turbidimeters, ph meters, consoles, consolettes, programmable logic controllers, programmers, power supplies, cables, computers, monitors, printers, electric valve actuators, data recorders, ultrasonic flow transmitters, autodialers, venturi flow elements, insert tubes, flumes, and parts and components therefore; electrical and optical measurement, measuring, signal and monitoring apparatus and instruments, namely temperature indicators, acid hydrometers, barometers, measuring apparatus for temperature and humidity levels in gases and solid substances, vibration meters, sound level meters, gas detectors for detecting the presence of carbon monoxide, carbon dioxide, nitrogen, nitrogen oxide, and ethylene gases, voltmeters, resistance measuring instruments, frequency meters, accelerometers, ammeters, anemometer, apparatus for testing gas, liquids and solids, automatic fluid-composition control machines and instruments, barometers, calorimeters, concentration meters, densimeters, electric meters, electronic apparatus for testing the sterility of medical equipment,

flowmeters, food timers, gas sensors for measuring gas concentration, hygrometers, liquid analyzers, pressure recorders, pyrometers, salinometers, speedometers, temperature sensors, thermistors, viscosimeters, electric meters and timers for testing oil and fat quality; vacuum measurement instruments, namely pressure gauges; built-in thermometers; electronic contact thermometers; thermostats; residual flue-gas analyzers; bar code readers; electrical energy utilization metering devices; data loggers for the storage of measurement data regarding physical and chemical properties and parameters; electronic measuring, signaling and testing devices, namely ion selective electrodes; orp sensors for measuring a reducing or oxidizing strength of a solution; ionmeters; sensor extensions and holders; flow measuring apparatus; analyzers for measuring the content of chemical or biological material in water or waste water, and water filters for use therewith; field monitors for on-site monitoring and analyzing of bod, ph-value, amounts of oxygen and other chemical substrates in liquids; meters, monitors and sensors for measuring oxygen, temperature, ph range and conductivity; bod sensors for measuring the biological oxygen demand; sensors for determining soil respiration, biodegradation, biogas, anaerobic degradation and microbiology; measurement devices for soil respiration rates; colony counters; photometers; turbidity meters; multiplexers; multiparameter meters for liquid, water and waste water analysis; stirrers, namely, an electrically actuated stirrer for stirring a liquid sample in a test container or having an actuated stirring mechanism coacting with an electromagnetic stirring element through the container wall; thermostating chambers, namely, electrically headed and/or cooled chambers to keep test samples at a desired temperature; electrical sensors; analyzers for nitrate, ammonia, ammonium, phosphate, total phosphate and other chemicals comprised in water or waste and for a combined measurement of these parameters; software, printers, connecting cables and measuring stations for measuring devices for measuring bod, temperature, oxygen content and the content of chemical substrates in liquids, especially water and waste water; adapters for connecting sensors to cables and measuring devices; meters, measuring apparatus, instruments and appliances, namely, ph-meters, conductivity meters, dissolved oxygen meters, redox meters, photometers, spectrophotometers, and multi-parameter meters, namely, combined ph, ion selective electrode (ise), conductivity and dissolved oxygen (d.o.), oxidation reduction potential (orp), and t meters; photometer accessories sold as a unit with photometers, namely, cuvettes, vials, optical filters, halogen lamps, paper rolls, cables, cell holders, temperature sensors, stirrers, printers, deuterium lamps, automatic cell changers, sippers, filter sets, quartz cells, flowthrough cells, cylindrical cells and micro cells, glass cells; titrators, piston burettes, sample changers, namely, sample containers for laboratory testing;

stirrers for laboratory use, titration vessels, titration tips, titration electrodes, volumetric karl-fisher titrators, coulometric karl-fisher titrators; instruments for quantitative analytical chemistry, namely, water distillers, titrators, piston burettes, sample changers, stirrers, titration vessels, titration tips, titration electrodes, volumetric karl-fisher titrators; coulometric karl-fisher titrators; instruments for quantitative analytical chemistry, namely, physical or chemical sensor system for the detection of concentrations of ions and substances in liquids; software for titration which calculates concentrations, storing of titration parameters and maintains a database of titration results and parameters; software for viscosity measuring apparatus, namely, software for controlling of viscosity measuring instruments, calculation of viscosities, storing of measuring parameters and providing a database of measuring results and parameters; software for photometry measuring methods, namely, software for controlling of spectrophotometers, calculation of concentrations, storing of measuring parameters, and providing a database of measuring results and parameters; laboratory apparatus, instruments, and appliances not already listed, namely, ph electrodes, oxygen electrodes, orp electrodes, conductivity electrodes, laboratory electrodes, temperature sensors; connection cables for use in connection with electrodes; automatic viscosity measurement systems, namely, electronic time-measuring units to determine viscosity; thermostats, viscometers, hotplates for use in laboratories, laboratory stirrers; laboratory measuring instruments, titrators, namely, piston burettes metering system combined with a ph-meter for electrical regulation, and titration vessels in the nature of flasks as parts of titrators; electrical or electronically controlled titration automats, namely, physical or chemical sensor system for the detection of concentrations of ions and substances in liquids; flow and level instrumentation for the monitoring and control of fluids-namely, differential pressure units, recorders, indicators, switches, controllers, transmitters, meters, densitometers, computers, sealed sensor systems consisting of assemblies, tubing and differential pressure units and analyzers; boiler pressure controls; pressure relief valves for boilers, water tanks and heaters; float actuated electrical switches, flow switches for making or breaking an electrical circuit; liquid level controls used to guard against low or high levels; time delay relays.

#### **Class 11**

Accumulator tanks for marine vessels [pressurized water tanks], waste water purification units; heat exchangers for general use; special purpose heat exchangers including: tankless water heaters, heat exchangers for heating water with steam or hot water, hot water storage tank with built in heating coil, water heater for insertion within fluid heating space of a boiler, water heater of the tankless type arranged to trap air in the casing thereof when

connected to a closed hot water heating system, converters for transferring heat from steam to water, aftercoolers for air and gases, air vents, oil coolers for cooling quenching oil, quench tank; heat transfer apparatus (other than parts of machines) consisting of coolers, expansion tanks, pumps, temperature air separation devices and electrical controls; fuel oil preheaters; disinfection, decontamination and/or degermination units to neutralize and/or separate harmful substances from liquids, namely, sewage, industrial or other waters; disinfection, decontamination and/or degermination units to neutralize and/or separate harmful substances from gases, namely, air; disinfection, decontamination and/or degermination units to neutralize and/or separate harmful substances from soil, by means of chemical/physical treatment, combined UV light and ozone treatment and/or UV radiation treatment; units to irradiate flowing liquids with UV light; water filters and waste water purification installations for the treatment, purification, filtration and supply of water and for the treatment of waste water, effluent and sewage; equipment for filtering municipal, commercial or industrial water and wastewater, namely plastic filter underdrain blocks, clay filter underdrain blocks, porous plates for supporting media in filters, filter media, gravel for supporting filter media in filters, piping, agitators, supports and stabilizers for piping and agitators, wash troughs, nozzles, effluent troughs, weirs and baffles, weir pans, gates and guides for controlling water flow, valves, specialty filters, pilot filter equipment, blowers and compressors for supplying backwash air to filters, cartridge filters, with or without skimmers; sludge collection equipment for wastewater treatment, namely floating siphon sludge collectors, skimmers and scum troughs; blenders, namely plow blenders for wastewater sludge treatment and parts and components therefor; equipment for the treatment of wastewater, namely, aeration diffusers, diffuser piping, clarifiers, complete activated sludge processing plants, and parts therefore; wastewater treatment and disposal plants in the nature of activated sludge plants, and parts therefor for the treatment of liquid and solid contaminants included in municipal and industrial waste water; lights for marine vessels, namely, search lights, flood lights and docking lights.

#### Class 35

Charitable services, namely, promoting public awareness about global water resources, sanitation, sustainability efforts, and related philanthropies.

#### Class 36

Charitable fund-raising services.

#### Class 37

Installation and repair of instrumentation used by others to

monitor and control water and wastewater treatment processes, installation and repair of water and wastewater treatment equipment used by others; installation, repair and maintenance of electronic measuring apparatus, instruments and appliances used for laboratory testing and measurement.

**Class 40**

Charitable services in the nature of emergency water treatment.

**Class 42**

Instrumentation testing and design services for others, pilot filter testing services for others, and water and wastewater treatment equipment testing and design services for others; computer programming for others; installation and maintenance computer software; engineering services; consultation and research in the field of physics; scientific research; technology research in the field of measurement engineering, programming, sensor engineering, computer hardware, and transmitter engineering; technological consultation in the aforementioned fields; technical and scientific surveying; providing project planning services in the field of information and communications networks; product development for others; calibration of measuring instruments; performance testing on measuring instruments; certifications, namely, testing, analysis and evaluation of goods and services of others for the purpose of certification; industrial analysis and research services for chemical analytics; design and development of computer hardware and software for chemical analytics; installation, repair and maintenance of software.

### Class 09

Telecommunication machines and apparatus; electronic machines, apparatus and their parts; electronic publications; magnetic tapes, cards, sheets, discs, optical discs, electronic circuits recorded with pictures, images of drawings and character information; downloadable text data and image files of pictures and drawings; recorded video discs and video tapes; compact discs (audio-video); magnetic cards, sheets and tapes (audio); downloadable image files; computer programs (including downloadable computer programs); measuring or testing machines and instruments.

### Class 35

Advertising and publicity services; providing information concerning commercial sales; marketing research or analysis; providing business assistance to others in the operation of data processing apparatus namely, computers, typewriters, telex machines and other similar office machines; retail services or wholesale services for adhesives (not for stationery or household purposes); retail services or wholesale services for detergents for use in manufacturing processes; retail services or wholesale services for anti-rust greases; retail services or wholesale services for metal pulleys, springs and valves (not including machine elements); retail services or wholesale services for metal junctions for pipes and metal flanges; retail services or wholesale services for keys (mechanical element) and cotter pins; retail services or wholesale services for paint spraying booths of metal; retail services or wholesale services for metal moulds for forming cement products; retail services or wholesale services for irons and steels; retail services or wholesale services for containers of metal for transport; retail services or wholesale services for loading and unloading pallets of metal and turn-tables for load handling and traversers for load handling; retail services or wholesale services for nonferrous metals and their alloys; retail services or wholesale services for metal hardware; retail services or wholesale services for wire ropes; retail services or wholesale services for wire nets and gauzes; retail services or wholesale services for industrial packaging containers of metal; retail services or wholesale services for metal stepladders and ladders; retail services or wholesale services for tool boxes of metal (empty); retail services or wholesale services for metal nameplates and door nameplates; retail services or wholesale services for metalworking machines and tools; retail services or wholesale services for chemical processing machines and apparatus; retail services or wholesale services for plastic

processing machines and apparatus; retail services or wholesale services for semiconductor manufacturing machines and systems; retail services or wholesale services for non-electric prime movers (not for land vehicles) and parts thereof; retail services or wholesale services for repairing fixing machines and apparatus; retail services or wholesale services for machine elements (not for land vehicles); retail services or wholesale services for loading-unloading machines and apparatus; retail services or wholesale services for lumbering, woodworking, or veneer or plywood making machines and apparatus; retail services or wholesale services for painting machines and apparatus; retail services or wholesale services for packaging or wrapping machines and apparatus; retail services or wholesale services for machines and apparatus for manufacturing rubber goods; retail services or wholesale services for pulp making, papermaking or paper-working machines and apparatus; retail services or wholesale services for printing or bookbinding machines and apparatus; retail services or wholesale services for pneumatic or hydraulic machines and instruments; retail services or wholesale services for food or beverage processing machines and apparatus; retail services or wholesale services for measuring or testing machines and instruments; retail services or wholesale services for gaskets; retail services or wholesale services for packings; retail services or wholesale services for rubber hoses; retail services or wholesale services for electrical machinery and apparatuses; retail services or wholesale services for building materials; retail services or wholesale services for printed matter; retail services or wholesale services for bladed or pointed hand tools, hand tools, hardware; retail services or wholesale services for paper and stationery; retail services or wholesale services for metal stoppers and lids and caps (for industrial packaging containers).

#### **Class 41**

Providing electronic publications; providing images on the Internet web pages for the purposes of education and training; services of reference libraries for literature and documentary records; book rental; rental of recorded magnetic tapes, video discs, compact discs; on-line publication of electronic books, music, images and video.

#### **Class 42**

Computer software design, computer programming, and maintenance of computer software; rental of computers; providing computer programs designed to the specifications of others; provision of scientific information and advice relating to performance and operation of computers, automobiles and other machines that require high levels of personal knowledge, skill or experience of the operators to meet the required accuracy in operating them, all included in this class; designing of machines,

apparatus, instruments (including their parts) or systems composed of such machines, apparatus and instruments; designing; rental of measuring apparatus; rental of drawing instruments adapted for use with computers.

**Class 01**

Chemical reagents for laboratory use, namely, standard solutions, buffer solutions, platinizing solutions, potassium ferrocyanide, sodium chloride solution, amyloglucosidase enzyme, and lithium chloride solution.

**Class 06**

Metal manually operated check valves; metal manually operated air charger and tank drainer valves; ring shaped boiler and expansion tank fittings of metal for hot water heating systems each including separate air and water passages; automatic and manual metal air vent covers for hot water heating and cooling systems, metal pipe fittings for branch flow circuitry from a main pipe circuit; manually operated metal shutoff and throttling valves with flow measuring capabilities and tank fittings; manually operated metal flow control valves, pressure reducing valves, pressure relief valves, dual unit valves consisting of pressure reducing and pressure relief valves, water mixing valves, check valves pressure actuated to close and gravity actuated to open, valves for use with water heating coils arranged to reverse the flow through and backwash the coils when the faucet is opened; metal pipe fittings for hot water heating systems.

**Class 07**

Pumps, namely, centrifugal pumps, positive displacement pumps, gear pumps, submersible pumps and pump motors, flexible impeller pumps, vane pumps, macerator pumps, bilge pumps, live well/aerator pumps, engine cooling pumps, oil drain pumps, diaphragm pumps, solids handling pumps, vacuum pumps, split case pumps, self-priming pumps, sludge pumps, process pumps, stock pumps, magnetic drive pumps, fire pumps, boiler feed pumps, peripheral pumps, drum pumps, close-coupled pumps, surface irrigation pumps, circulating pumps, booster pumps, machine pumps, airlift pumps, water pumps for pools, spas, whirlpools, wastewater treatment applications, heating, cooling, ventilation, and air conditioning applications, and general domestic, commercial, agricultural, marine, and industrial uses, and related parts, fittings, and accessories, namely, shafts for pumps, pump motor couplings, pump and pump motor bearings, pump seals, gaskets for pumps, pump lantern rings, pump impellers; submersible mixers for general dewatering, flood control, waste handling, sewage disposal systems and flow generation; blowers for marine vessels; steam and hydronic

machine parts, namely, steam traps, float traps, bucket traps, temperature control traps, and thermostatic traps; venting, steam, water supply, and tempering valves as machine parts; pneumatic, temperature, and pressure pilots as machine parts; pressure and temperature regulators as machine parts; strainers and vacuum breakers as machine parts; machines, namely, plow blenders for wastewater sludge treatment, and parts and structural components therefore.

#### **Class 09**

Microprocessor based pump controllers; flow meters; electrical switches, namely, flow switches, float operated switches and snap switches; electrical and optical measurement, measuring, signal and monitoring apparatus and instruments, namely, temperature indicators, acid hydrometers, barometers, measuring apparatus for temperature and humidity levels in gases and solid substances, vibration meters, sound level meters, gas detectors for detecting the presence of carbon monoxide, carbon dioxide, nitrogen, nitrogen oxide, and ethylene gases, voltmeters, resistance measuring instruments, frequency meters, accelerometers, ammeters, anemometer, apparatus for testing gas, liquids and solids, automatic fluid-composition control machines and instruments, barometers, calorimeters, concentration meters, densimeters, electric meters, flowmeters, food timers, gas sensors for measuring gas concentration, hygrometers, liquid analyzers, pressure recorders, pyrometers, salinometers, speedometers, temperature sensors, thermistors, viscosimeters, electric meters and timers for testing oil and fat quality; vacuum measurement instruments, namely, pressure gauges; built-in thermometers; electronic contact thermometers; thermostats; residual flue-gas analyzers; bar code readers; electrical energy utilization metering devices; data loggers for the storage of measurement data regarding physical and chemical properties and parameters; electronic measuring, signaling and testing devices, namely, ion selective electrodes; ionmeters; electronic sensor extension cords and holders; flow-through adapters; analyzers for measuring the content of chemical or biological material in water or waste water, and water filters for use therewith; field monitors for on-site monitoring and analyzing of ph-value, amounts of oxygen and other chemical substrates in liquids; meters, monitors and sensors for measuring oxygen, temperature, ph range; sensors for determining soil respiration, biodegradation, biogas, anaerobic degradation and microbiology; measurement devices for soil respiration rates; colony counters; photometers; turbidity meters; multiplexers; multiparameter meters for liquid, water and waste water analysis; electrical sensors; analyzers for nitrate, nitrite, ammonia, ammonium, phosphate, total phosphate and other chemicals comprised in water or waste and for a combined measurement of these parameters; photometer accessories sold as a unit with

photometers, namely, cuvettes, vials, optical filters, halogen lamps, paper rolls, cables, cell holders, temperature sensors, stirrers, printers, deuterium lamps, automatic cell changers, sippers, filter sets, thermopacks, quartz cells, flowthrough cells, cylindrical cells and micro cells, glass cells, flowthrough cells, cylindrical cells and micro cells; titrators, piston burettes, sample changers, namely, sample containers for laboratory testing; stirrers for laboratory use; instruments for quantitative analytical chemistry, namely, physical or chemical sensor system for the detection of concentrations of ions and substances in liquids; software for titration which calculates concentrations, storing of titration parameters and maintains a database of titration results and parameters; software for viscosity measuring apparatus, namely, software for controlling of viscosity measuring instruments, calculation of viscosities, storing of measuring parameters and providing a database of measuring results and parameters; software for photometry measuring methods, namely, software for controlling of spectrophotometers, calculation of concentrations, storing of measuring parameters, and providing a database of measuring results and parameters; laboratory apparatus, instruments, and appliances not already listed, namely, pH electrodes, oxygen electrodes, conductivity electrodes, laboratory electrodes, temperature sensors; connection cables for use in connection with electrodes; automatic viscosity measurement systems, namely, electronic time-measuring units to determine viscosity; thermostats, viscometers, hotplates for use in laboratories, laboratory stirrers; laboratory measuring instruments, titrators, namely, piston burettes metering system combined with a pH-meter for electrical regulation, and titration vessels in the nature of flasks as parts of titrators; electrical or electronically controlled titration automats, namely, physical or chemical sensor system for the detection of concentrations of ions and substances in liquids; float actuated electrical switches, flow switches for making or breaking an electrical circuit; liquid level controls used to guard against low or high levels; time delay relays; pump monitoring gauges; heat-reflecting shields for use with temperature probes used in research laboratories and medical facilities; computer software for controlling environmental water quality monitoring systems; computer software for displaying, calibrating and uploading data collected by environmental monitoring instruments and transferring it to computers; analytical instruments, namely, carbon dioxide monitors for non-medical use in the bioprocessing and fermentation industries; electrochemical, electrophysical and electro-optical sensors for measuring water quality and bioprocessing parameters and temperature, used in measuring, monitoring and creating analytical solutions for the global biosystems market; sensor-based, bioanalytical instruments, namely, biochemistry analyzers, monitors and probes for measuring carbohydrates, vitamins,

amino acids and dissolved gases; bioanalytical systems comprised of optical, electrochemical, potentiometric and photometric sensors for measuring carbohydrates, vitamins, amino acids and dissolved gases; and laboratory equipment, namely, pumps, valves and vacuum tubing for measuring and detecting fluid movement; optical and electronic chemical sensors for extended monitoring of water quality and quantity by sensing PH, oxidation-reduction potential and dissolved oxygen; electrochemical sensors for measuring water quality parameters, namely, temperature, dissolved oxygen, conductivity, total dissolved solids and pH.

#### **Class 11**

Toilets for marine vessels, accumulator tanks for marine vessels, namely, drainage water treatment tanks; waste water purification units; heat exchangers for general use; special purpose heat exchangers namely, tankless water heaters, heat exchangers for heating water with steam or hot water, hot water storage tank with built in heating coil, water heater for insertion within fluid heating space of a boiler, water heater of the tankless type arranged to trap air in the casing thereof when connected to a closed hot water heating system, converters for transferring heat from steam to water, namely, water heaters, aftercoolers for air and gases, namely, evaporative air coolers, air vents, namely, direct vents for gas appliances, quench tank; fuel oil preheaters; units to irradiate flowing liquids with UV light; water filters and waste water purification installations for the treatment, purification, filtration and supply of water and for the treatment of waste water, effluent and sewage; equipment for filtering municipal, commercial or industrial water and wastewater, namely, plastic filter underdrain blocks, clay filter underdrain blocks, porous plates for supporting media in filters, filter media, gravel for supporting filter media in filters, piping, agitators, supports and stabilizers for piping and agitators, wash troughs, nozzles, effluent troughs, weirs and baffles, weir pans, gates and guides for controlling water flow, valves, specialty filters, pilot filter equipment, blowers and compressors for supplying backwash air to filters, carriage filters, with or without skimmers all sold as a unit; sludge collection equipment for wastewater treatment, namely, floating siphon sludge collectors, skimmers and scum troughs sold as a unit; equipment for the treatment of wastewater, namely, aeration diffusers, diffuser piping, clarifiers, complete activated sludge processing plants, and structural parts therefore sold as a unit; lights for marine vessels, namely, search lights, flood lights and docking lights.

#### **Class 16**

Chart paper, printer paper, and printer ribbons.

#### **Class 35**

Charitable services, namely, promoting public awareness about global water resources, sanitation, sustainability efforts, and related philanthropies.

**Class 37**

Installation, repair and maintenance of electronic measuring apparatus, instruments and appliances used for laboratory testing and measurement.

**Class 40**

Charitable services in the nature of emergency water treatment.

**Class 42**

Pilot filter testing services for others, and water and wastewater treatment equipment testing and design services for others; computer programming for others; installation and maintenance of computer software; engineering services; consultation and research in the field of physics; scientific research; technology research in the field of measurement engineering, programming, sensor engineering, computer hardware, and transmitter engineering; technological consultation in the aforementioned fields; technical and scientific surveying; product development for others; calibration of measuring instruments; performance testing on measuring instruments; certifications, namely, testing, analysis and evaluation of goods and services of others for the purpose of certification; industrial analysis and research services for chemical analytics; design and development of computer hardware and software for chemical analytics; installation, repair and maintenance of software.
