REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 07

Machines for the chemical industry, beverage industry, agriculture, metal treating, textile industry, waste disposal and waste process industry, food industry, wood processing and plastics processing, as well as machine tools; mechanical apparatus and instruments for the pressure increase of water; couplings and transmission components, other than for land vehicles; agricultural implements, other than hand-operated; pumps for heating installations; pumps being machines, namely for building installations, water supply and water disposal, industry and agriculture (other than pumps for medical purposes and air pumps), cleaning apparatus and systems; base plate mounted pumps; glanded pumps; glandless pumps; multi-stage centrifugal pumps; borehole pumps; effluent pumps; sewage pumps; pumps being machines and pump systems consisting thereof for drinking and process water, wastewater, ground water, wastewater treatment, drainage, all included in this class; pumps for pressure increase; insulation jackets being parts of pumps; mixers and stirring units being machines for wastewater treatment; elevating apparatus being machines; mechanical elevating apparatus for wastewater and excrements; spare parts for pumps, included in this class; motors, in particular electric motors, other than for land vehicles; spare parts for motors, included in this class; crankcases for machines, motors and engines; control mechanisms for machines, motors and engines; fittings for engine boilers; joints being parts of engines; speed governors for machines, motors and engines; speed adjusters for machines, motors and engines; pressure reducers being parts of machines; pressure regulators being parts of machines; pressure valves being parts of machines; electrically operated brushes being parts of machines; filters being parts of machines, motors or engines; taps being parts of machines, motors or engines; couplings, other than for land vehicles; compressors for refrigerators; pumps being parts of machines, motors or engines; pump diaphragms; regulators being parts of machines; slides being parts of machines; ventilators for motors; valves being parts of machines; self-regulating fuel pumps; regulators, in particular pressure regulators.

Class 09

Scientific, nautical, surveying, photographic, film, optical, weighing, measuring, signal, control, salvage and teaching apparatus and instruments; apparatus and instruments for conduction, connection, conversion, storage, regulation and control of electricity; mechanical devices and apparatus for the analysis and dosing of water; equipment for recording, transmission and reproduction of sound and images; magnetic data carriers; calculating machines; fire extinguishers; regulation and control devices, included in this class; electrotechnical instruments included in this class, namely armatures, indicators, electric installations for the remote control of industrial operations, apparatus for commutation, regulating apparatus, distribution consoles and control panels, electro-dynamic apparatus for the remote control of signals, coils, sensors, monitoring apparatus and electric connectors; junction boxes and distribution boxes for electricity; sprinkler systems and water systems for fire protection; laboratory

devices for measuring and evaluation of water quality, included in this class; fuel cells; electronic publications, downloadable; bus systems for data processing, consisting of hardware and software; software; optical, magnetic and electronic data carriers; testing apparatus, not for medical purposes; connections for electric lines; electric batteries; films, exposed; observation instruments; magnetic encoders (data processing); identity cards, encoded; service cards, encoded; CDs for sound and/or images; computers; computer operating systems, stored; computer peripheral devices; computer programs, stored; computer programs, downloadable; computer software, stored; data processing apparatus; dosage dispensers; fuse wire; revolution counters; choking coils; pressure measuring apparatus; pressure indicators; electric installations for the remote control of industrial operations; electric connectors; electric couplings; electric transformers; electric wires; electric cables; electric capacitors; electromagnetic coils; anti-interference devices for electricity; telerupters; remote controls; devices for the remote control of apparatus and instruments, including bidirectional control; semiconductors; integrated circuits; interfaces being interface apparatus or programs for computers; electric cable ducts; wire connectors for electricity; smart cards being integrated circuit cards; boiler control instruments; terminals for electricity; comparators; electric contacts; electric regulating apparatus; copper wire, insulated; educational and teaching apparatus; electric conductors; luminous signs; optical fibres; magnetic tapes; encoded cards, magnetic; solenoid valves being electromagnetic switches; quantity indicators; measuring apparatus; measuring instruments; microprocessors; modems; monitors being computer hardware; monitors being computer programs; apparatus and instruments for physics; RFID chips; RFID scanners; cathodic anti-corrosion apparatus; switches; electric apparatus for commutation; distribution consoles for electricity; control panels for electricity; electrical sensors for the acquisition of physical values, namely pressure sensors, differential pressure sensors, temperature sensors, flow sensors, acceleration sensors; simulators for the steering and control of vehicles and aircrafts; computer memories; electric coils; plugs; sockets; bar code readers; electricity conduits; ammeters; circuit breakers; electric converters; telemetric apparatus and instruments; temperature control units and/or thermostats; thermometers, not for medical purposes; thermostats; sound recording carriers; voltage surge protectors; electric monitoring apparatus; junction sleeves for electric cables; connectors for electricity; heat regulating apparatus; water level indicators; automatic time switches; computer central processing units; electrical ducts.

Class 11

Lighting, heating, steam generation, cooking, drying, ventilating and water conduit apparatus as well as sanitary installations; mechanic apparatus and instruments for water heating, treatment, softening and purification; heating installations, namely water heating installations; heating elements; electric heating apparatus; heating boilers; heat pumps; heat accumulators; heat exchangers; solar collectors for heating applications; hot water installations; water conduits and distributions systems; pressure water tanks; heating, ventilation and air-conditioning (HVAC) and cooling apparatus, namely air conditioning systems and apparatus, humidifiers, cooling systems and machines, water cooling systems, all the aforesaid in open or closed circuit cooling towers, refrigerating appliances and installations; water treatment systems and parts thereof; water supply installations; fountains; installations for water recovery, namely installations for

water treatment, included in this class; desalination plants; filters for drinking water; water filtering apparatus; installations for rainwater and ground water utilization, included in this class, namely installations for water supply, water treatment, sprinkling, watering and irrigation, all the afore-mentioned goods for use with submersible motor pumps, for pressure regulation, with electric control and accessories, and for water tanks; water softening plants and apparatus; water purification installations; water sterilizers; water disinfectant apparatus; apparatus for swimming pools, included in this class, namely chlorinating units; counter current installations for swimming pools; whirlpools; purification installations for sewage; installations for wastewater treatment, namely membranes and filters; expansion tanks for central heating systems; automatic watering installations; chlorinating units for swimming pools; steam generating installations; district heating plants and apparatus; filters being parts of household or industrial installations; taps, included in this class; refrigerators; air cooling apparatus; oil burners; regulating accessories for water or gas apparatus and pipes; safety accessories for water or gas apparatus and pipes; thermostatic valves being parts of heating installations; volume expansion automats and automatic pressurizers for heating and cooling water systems as well as for drinking and/or process water systems; water heaters; hot water installations; water-bearing fittings; water purification instruments and machines.

Class 37

Construction; installation work; installation, maintenance and repair of pumps, pump stations, mixers and stirring units, elevation systems, sewage plants, sewage disposal plants and sewerage; installation, maintenance and repair of motors and engines; installation, maintenance and repair of heating and air conditioning systems; installation, maintenance and repair of regulating and control systems and of additional components for heating, ventilation and air-conditioning (HVAC) and water treatment systems; installation of district and local heat networks; installation of wastewater treatment and disposal plants as well as installation of basins, ponds and pits for water preservation; construction, repair, maintenance and installation services regarding flood protection, pressure drainage, ground water lowering, namely mining and surface mining; construction and maintenance services relating to civil engineering of systems for water, effluent and compressed air extraction as well as construction and maintenance services relating to civil engineering of systems for pressure drainage and ground water lowering, namely mining and surface mining; construction and maintenance services relating to civil engineering of systems for excrement and mud extraction; information on repair work; installation, maintenance and repair of machines, namely pumps; installation, maintenance and repair of electrical systems and apparatus including control and regulating systems; installation, maintenance and repair of computers (hardware); plumbing; overhaul of worn out or destructed motors and engines.

Class 42

Scientific and technological services and research and services of a designer in respect of these; industrial analysis and research services; design and development of computer hardware and software; update of computer software; software update by microprocessor-controlled apparatus and instruments; technical consultancy, related to design and development of hardware, software, pumps, electric engines, heating and sanitary systems as well as of regulating and control

systems; computer systems design; computer software design; services of a software engineer; services of a physicist; services of a technical measuring and testing laboratory; services of an engineer; conducting technical tests and checks; conducting technical measuring; conducting scientific studies; electronic data storage; computer programming; provision of information relating to technological research; scientific consultancy; technical research; engineering research; implementation of computer programs in networks; installation, maintenance and repair of software for computer systems; calibration and functional testing of measuring equipment; configuration of computer networks by software; construction drafting and engineering technical project management; material testing; maintenance and installation of software; quality control; technical research projects and studies and information related thereto; rental and maintenance of computer software; rental of software for Internet access; scientific research.

Class 07

Engine control and regulating devices; starters for combustion engines; generators of electricity; generator regulators; spark-plugs; radiators and radiator cowlings for land, air and water vehicles; compressors and parts therefor; distributor valves and spark plug sockets; pumps for windscreen washing installations; filters (parts of motors and engines); starters for motors and engines; air-cooled condensers; refrigerant compressors; pumps, in particular coolant pumps; valves (parts of machines); pneumatic and electric actuators for engines and motors; cooling radiators for internal combustion engines and electric motors and parts and components therefore as assemblies; cooling modules and coolant coolers as parts of motors and engines; low temperature coolers as parts of motors and engines; oil coolers as parts of motors and engines; fuel coolers as parts of motors and engines; fan drives; fan couplings; fan blades; fan drives; oil modules as parts of motors and engines; exhaust gas recirculation modules for motor vehicles; fluid friction couplings; exhaust gas heat exchangers; exhaust gas recirculation valves; vacuum cleaners; assembly tools (other than hand-operated); charge coolers; valves.

Class 09

Pressure control apparatus and speed control apparatus, sensors for registering the operating status and environment of motor vehicles, the interiors thereof and parts thereof, including drive motors, chassis, heating and cooling systems; filament lamp control apparatus; temperature control and regulating apparatus for motors and engines; electric seat, steering wheel and mirror adjustment apparatus; level control and regulating apparatus; voltage converters; sockets; plugs; fuses and fuse boxes; cables; cable assemblies; electric cable connectors; terminals; alarms; safety devices for vehicle passengers, namely apparatus for the monitoring, control and release thereof; speed regulating and control apparatus; distance warning and regulating systems; camera systems for recording the environment; batteries; board computers; navigation systems; jump leads; workshop and installation requisites, namely battery chargers, rectifiers, network equipment, headlamp adjustment apparatus, current and voltage meters, apparatus for testing vehicle geometry, engine testing apparatus for testing speed, ignition point, dwell angle and compression, cable tie wraps, crimp connectors; battery terminals; combined acoustic and optical signalling devices, apparatus with electromechanical, electromagnetic and electronic signal sequence generators, electric clock generators, namely electronic and electric flashers; electric relays; switch and switching devices, namely switch boxes, electric, hydraulic switches, pressure switches, press switches, tilt switches and push button switches, rotary switches, rocker switches, touch control and pull switches, hazard warning light switches, flasher switches, light switches, dimmer switches, brake light switches, windscreen wiper and washer switches, steering column switches, door contact switches, ignition switches, glow plug ignition switches, short-circuiting switches, dc switches, ac switches, pressure switches and level switches for water and oil, gear switches; electric

and electronic automatic switching devices; reflective warning triangles; electric power feeders and power distributors for lights; devices for measuring and regulating temperature, in particular air or coolant temperature, mainly consisting of coolant thermostats, electric control apparatus or sensors; electric wiring harnesses; central processing unit coolers; battery coolers; control panels being modules and parts for cockpits for motor vehicles; storage batteries; light-emitting diodes (LEDs); organic LEDs for interior and exterior lights; buzzers; ac buzzers; vehicle body control and regulating apparatus, namely vehicle body electronic modules and vehicle chassis electronic modules; condensers.

Class 11

Lighting units, namely electric lamps and light sources, incandescent lamps and mountings therefor, interior lights, exterior lights, floodlights, surface-mounted lights, recessed lights for buildings, furniture and kitchen appliances, street lighting; airport lighting; runway lighting; torches; equipment and fittings for land, air and water vehicles, namely ventilators and fans, heating and air conditioning apparatus, and control and regulating apparatus therefor; headlamps being attached or fitted headlamps; full-beam headlights and low beam lights; auxiliary headlamps being wide-beam and broad-beam headlamps, searchlights, fog, reversing, positioning and working lights, special headlamps and parts therefor; lights being built-in and built-on lights, namely ceiling, wall, reading, ashtray, boot, engine compartment, glove compartment, display, warning and access lights; position, marker, contour, parking, tail, brake, flasher, number-plate and rear fog lights, and combinations thereof; heating installations for preventing the icing of vehicle parts, including nozzles, windscreen wiper fluid containers, washers, door closers, exterior rear view mirrors; electric discharge lamps, xenon headlamps, and choke, ignition, control and regulating apparatus therefor; led headlights and led lights, and ballast, ignition, control and regulating apparatus therefor; daylight driving lights; cornering lights; headlamps and lights with variable light diffusion; IR spotlights; ice boxes; cooling installations and cooling apparatus, included in this class; cooling modules and low temperature coolers, included in this class; coolant coolers, included in this class; fans; auxiliary heating apparatus; heating, ventilation and air conditioning systems, air conditioning apparatus and parts and components therefor; fan blades, included in this class; air filters; heat exchangers not parts of machines; heating elements; refrigerant evaporators and refrigerant condensers included in this class; PTC (positive temperature coefficient) auxiliary heating apparatus and PTC (positive temperature coefficient) regulating apparatus; collectors and dryers for coolants, being parts for air-conditioning installations; evaporators and evaporator units, ventilation nozzles; mechanically, electrically, hydraulically and pneumatically operated devices for setting and regulating the range of headlamps; evaporators and evaporator units.

Class 12

Acoustic signalling devices for vehicles, in particular electric horns, horns, disc horns, double tone horns and air horns; brakes; windscreen washers and their parts, in particular control apparatus, nozzles, nozzle holders, water storage tank, hosing; windscreen wiper installations and parts therefor, namely windscreen wiper blades, transmission rods, windscreen wiper motors, control apparatus, switches and sensors; combined windscreen wiper and windscreen

washer devices, namely apparatus mainly consisting of parts of the aforesaid wiper and washer apparatus; headlamp lens and headlamp washer installations; mechanical interior and exterior mirrors and electromechanical and electric parts therefor; electric window lifts; petrol caps; steering wheels; body parts, in particular radiator grills; front, rear and roof spoilers for land vehicles; front and rear aprons; front and rear panels for land vehicles; mudguards and door sills; hub caps; mud flaps; sun blinds adapted for automobiles; car seats for children; luggage racks and bicycle carriers, trailers and parts therefor; brake control and regulating apparatus and traction control apparatus for vehicles; drive train control apparatus for land vehicles; drive train regulating apparatus and regulators for vehicles; steering mechanisms for cars and parts therefor; anti-theft warning apparatus for automobiles; security and central locking systems for vehicles; vehicle immobilising devices and apparatus; pressed, injection moulded, blow moulded parts of plastic, being parts of land, water and air vehicles; gear boxes for land vehicles; cigar lighters for automobiles.

Class 17

Connecting conduits for motor vehicle radiators, included in this class; coolant hoses; refrigerant conduits.

Class 35

Advertising for motor vehicle parts and repair; business management; business administration; office functions.
