REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

USB cables; Jump cables; Audio cable; Data cables; Cable modems; Modem cables; Power cables; Ribbon cable; Jumper cables; Coaxial cable; Coaxial cables; Cable locators; Battery cables; Booster cables; Optical cables; Printer cables; Warning cables; Cable detectors; Computer cables; Electric cables; Ignition cables; Extension cables; Electrical cable; Cables, electric; Cable jump leads; Cable connectors; Submarine cables; Telephone cables; Measuring cables; Microphone cables; Jump start cables; Electrical cables; Connection cables; Electronic cables; Fibre optic cable; Fibre optic cables; Fibre-optic cables; Fiber optic cables; Electrical cabling; Radio relay cables; Ships wiring cables; Thermocouple cables; Optical fiber cables; Optical fibre cables; Electric cable ducts; Electric cable boxes; Communications cables; Telephone cable heads; Battery starter cables; Audio cable connectors; Battery booster cables; Active cable assemblies; Active cable connectors; Cable covers (conduits); Electric adapter cables; Electric cable channels; Electric wire and cable; Underwater power cables; Rubber cables (electric); Telecommunication cables; Telecommunications cable; Electric cable couplings; Data transmission cables; Flexible electric cables; Coaxial cable connectors; Insulated electric cables; Electric extension cables; Electric cable connectors; Electric cables and wires; Electric wires and cables; Telecommunications cables; Starter cables for motors; USB cables for cellphones; Strain relief cable glands; Refractory electric cables; Metallic cables (electric); Electrical cable apparatus; Electrical cable connectors; Conduit for electric cables; Ducting for electric cables; Insulated electrical cables; Fibre interconnection cable; Cable television converters; Bundles of electric cabling; Interface cables (electric); Sheaths for electric cables; Electrical connecting cables; Electric cable installations; Connecting electrical cables; Cable television transmitters; Cable television installations; Conductors for electric cables; Heat resistant electric cables; Connections for electric cables; Couplings for electrical cables; Cable trays for electric cables; Cable joints of metal, electric; Sheaths for optical fibre cable; Splice boxes for optical cables; Microwave cables with connector; Cabling for transmitting signals; Aerial cables for heavy currents; Electric cable protector modules; Electrical communications cables; Fibre [fiber (Am.)] optic cables; Electrical cable extension reels; Instrumentation cables (electric); Cable for electrical transmission; Cable ladders for electric cables; Cable outlets for electric cables; Cable splices for electric cables; Mineral insulated electric cables; Threaded cable connectors of metal; Telephone cables of optical fibres; Cables for electronic transmission; High temperature cables (electric); Connection blocks (electric cable); Insulated telecommunications cables; Electrical cables for sale on drums; Electrical cables for sale on reels; Cable junctions for electric cables; Cable ducts for electric conductors; Apparatus for testing optical cables; Coaxial cables incorporating filters; Flexible sheaths for electric cables; Tags for identifying electric cables; Joint boxes for housing cable joints; Junction sleeves for electric cables; Male connectors for electrical cables; Cable television head end transcoders; Apparatus for recording cable layouts; Apparatus for joining electric cables; Combined electrical and optical cables; Cables for optical signal transmission; Cables for signal transmission systems; Electrical cable distribution trunking; Manually operated electric cable reels; Prefabricated ducts for electric cables; Devices for locating underground cables; Female connectors for electrical cables; Electrical cables for use in connections; Electrical cables in the form of ribbons; Apparatus for locating electrical cables; Receivers for receiving cable

television; Pin and socket strips for electric cables; Cable assemblies for mounting transducers; Cable covering panels for electric cables; Cable television apparatus and instruments; Electrical cables for connecting computers; Terminals (connectors) for electric cables; Electrical connectors for electrical cables; Flexible ducting containing electric cables; Glass fibre conduits for electricity cables; Insulated cable for electrical installations; Electrical cables for lighting installations; Connections for use with optical fibre cables; Digital transmission apparatus on copper cable; Cable glands for use with electrical apparatus; Apparatus for the location of faults in cables; Apparatus for use in testing electrical cables; Apparatus for recording the positions of cables; Materials for electricity mains [wires, cables]; Plastic insulated cables (electric) for printers; Ribbon cable for connecting electronic apparatus; Vibration dampers for overhead electrical cables; Cable identification markers for electric cables; Cable installations for the transmission of data; Cable sleeves for the marking of electric cables; Cables for the transmission of sounds and images; Cables for electrical signal transmission systems; Cable television subscriber receiver descramblers; Cable installations for the transmission of voice; Apparatus for transmitting radio signals by cable; Spark plug cables for internal combustion engines; Plastic insulated cables (electric) for computers; Optical detectors for use with fibre optic cables; Identification marking devices for electric cables; Electrical terminals connected to electrical cables; Electrical detectors for locating sub surface cables; Optical transmitters for use with fibre optic cables; Flexible ducting of metal for holding electric cables; Apparatus for the location of faults in cable sheaths; Apparatus for measuring the characteristics of cables; Cable management installations for power transmission; Remote control devices (other than cables for machine); Terminations (connections) for sealing electric cables; Coaxial cables for use in cable television installations; Electric cable spreading boxes for electric cable glands; Electric cables for use with telecommunication apparatus; Electric cables for the transmission of sounds and images; Cable conduits of plastics materials for wiring harnesses; Wiring looms and harnesses for vehicles (electric cables); Non-metallic flexible ducting for holding electric cables; Pulse code modulation apparatus for transmission via cable; Sensors in the form of panels containing fibre optic cable; Articles adapted for use in the ducting of computer cables; Articles adapted for use in the support of computer cables; Cabling for transmitting signals over mains wiring systems; Flat electrical cable for multipin interconnection systems; Flexible sheaths of plastics materials for electric cables; Cable management installations for data signal transmission; Cable connectors for use in the data communications industry; Pulse code modulation instruments for transmission via cable; Cable reels (non-mechanical) incorporating electrical sockets; Flexible sheaths of elastomeric materials for electric cables; Cables for transmitting and receiving cable television signals; Transmission cables adapted for coupling to vehicle instruments; Meters for measurement of the characteristics of electric cables; Cabling networks (installations) incorporating fibre optic cables; Cable converters for television being telecommunications apparatus; Port racks being terminals for use in electrical cable installations; Electric security monitoring apparatus incorporating fibre optic cables; USB chargers; Battery chargers; Wireless chargers; Chargers for batteries; Portable field chargers; Electric battery chargers; Chargers for electric batteries; Chargers for electronic cigarettes; Battery chargers for use with telephones; Power supply devices for battery chargers; Consumer type nickel cadmium battery chargers; Fax devices; Video devices; Memory devices; Acoustic devices; Weighing devices; Branching devices; Ciphering devices; Calibration devices; Observation devices; Measurement devices; Gas sensing devices; Radiopaging devices; Solid-

state devices; Gas metering devices; Localisation devices; Data storage devices; Echo ranging devices; Echo sounding devices; Electric plug devices; Bubble memory devices; Communication devices; Piezoelectric devices; GPS navigation device; Semiconductor devices; Telemonitoring devices; Energy control devices; Communications devices; Battery charge devices; Computer input devices; Cursor control devices; Computer memory devices; Data processing devices; Bells [warning devices]; Electric timing devices; Fire protection devices; Firmware memory devices; Electro-optical devices; Voltage testing devices; Rotating memory devices; Sound recording devices; Printer sharing devices; Position sensing devices; Residual current devices; Timers (control devices); Track ball input devices; Magnetic storage devices; Electric locking devices; Angle indicating devices; Computer control devices; Acoustic coupling devices; Colour correction devices; Image enhancement devices; Optical measuring devices; Electronic memory devices; Electronic storage devices; Electrical release devices; Image intensifying devices; Image data capture devices; Integrated optical devices; Lubricant metering devices; Anti-theft warning devices; Computer interface devices; Electric measuring devices; Timing (measuring) devices; Telecommunications devices; Solid-state memory devices; Telephone listening devices; Electric time-relay devices; Computer peripheral devices; Computer data input devices; Barometric tripping devices; Measuring devices, electric; Input devices for computers; Filters for optical devices; Electrical discharge devices; Photographic storage devices; Armbands (floatation devices); Devices for switch cupboards; Devices for measuring energy; Semiconductor memory devices; Radiation monitoring devices; Surface acoustic wave devices; Data processing input devices; Metal bells (warning devices); Low voltage switching devices; Liquid flow measuring devices; Electrical data input devices; Electrical controlling devices; Personal communication devices; Casings for electronic devices; Audiovisual devices (apparatus); Devices for system load control; Microscope illuminating devices; Mounting devices for electrodes; Electro-optical control devices; Electrochemical testing devices; Electronic interlocking devices; Waveguides (electronic devices); Wire diameter measuring devices; Power supply devices (batteries); Playback devices for audio tapes; Playback devices for video tapes; Devices for measuring boat speed; Devices for measuring wind speed; Electric circuit control devices; Electric current control devices; Electric mains monitoring devices; Devices for measuring water depth; Devices for supporting spectacles; Devices for supporting sunglasses; Data storage devices bearing data; Components for electrical devices; Electromechanical control devices; Power supply devices (rectifiers); Remote control devices (electric); Safety locking devices (electric); Stabilizing devices for aircrafts; Underwater communications devices; Vacuum devices for laboratory use; Stabilizing devices for spacecraft; Electronic data processing devices; Electrical circuit control devices; Mounting devices for movie-cameras; Mounting devices for video cameras; Marine underwater acoustic devices; Control devices (timing) for ovens; Ancillary input and output devices; Electric anti-interference devices; Electric control devices for ovens; Electric contact separating devices; Electric mosquito repellent devices; Devices for storing measured values; Autocues (script prompting devices); Casings for opto-electronic devices; Cards incorporating optical devices; Infrared devices for aiming weapons; Image making devices for simulators; Optical frequency metrology devices; Electromechanical measuring devices; Remote control devices (electronic); Reprographic (photocopying) devices; Power supply devices (transformers); Tariff devices for recording payment; Testing devices for electronic parts; Time clocks [time recording devices]; Emergency fire exit devices of metal; Hands free devices for mobile-phones; Infrared devices for guiding weapons; Connecting devices for data transfer; Devices for measuring

wind direction; Devices for producing optical prints; Devices for producing digital prints; Electric control devices for machines; Electric control devices for turbines; Automatic emergency reporting devices; Network protection devices (electric); Microphones for communication devices; Electronic distance measuring devices; Electrically operated locking devices; Electrical contact separating devices; Switching devices for electric relays; Releasable locking devices (electric); Plastic cuvettes for pipetting devices; Security devices for computer hardware; Security devices for computer software; Electrical devices for storage of data; Electronic devices for data processing; Magnetically operated stirring devices; Cards incorporating electronic devices; Connecting devices for data collection; Control devices (thermostats) for ovens; Data storage devices for recording data; Devices for locating underground cables; Alarm devices (other than for vehicles); Anti-interference devices [electricity]; Electric devices for transporting money; Devices for measuring water temperature; Devices for measuring a person's weight; Devices for wireless radio transmission; Manipulating devices for laboratory use; Listening devices for monitoring babies; Metal casings for semiconductor devices; Network protection devices (electronic); Mounting devices for television cameras; Electronic control devices for turbines; Semiconductors being electronic devices; Storage racks for sound bearing devices; Pointing devices for use with computers; Timing devices for controlling machines; Revolutions per minute governing devices; Electronic devices for transmitting data; Exposure meters for photographic devices; Head protecting devices for tape players; Peripheral control devices for computers; Peripheral sharing devices for computers; Devices for transmitting measured values; Electric control devices for compressors; Apparatus for testing electrical devices; Devices for analyzing genome information; Devices for switching over energy tariffs; Devices for locating subterranean objects; Devices for measuring electric quantities; Road traffic direction devices (luminous); Security devices for windows of buildings; Power supply devices for battery chargers; Switching devices for electric contactors; Water sprinkling devices for fire control; Testing devices for tyre assembly machines; Sighting devices for firearms (telescopic); Electric control devices for machine tools; Devices for locating underground pipelines; Computer measuring devices containing data; Microwave devices (other than for cooking); Electrical devices for controlling rodents; Electrical devices for transmission of data; Electrical switching for monitoring devices; Electrically operated fluid control devices; Electromechanical devices for closing doors; Electronic manipulative image input devices; Optical devices, other than for medical use; Input devices for data processing apparatus; Devices for detecting exposure to radiation; Devices for hands-free use of mobile phones; Data storage devices containing photographs; Battery charging devices for motor vehicles; Electric devices for displaying information; Devices for measuring exposure to radiation; Devices for producing digital reproductions; Devices for producing optical reproductions; Road traffic direction devices (mechanical); Sensing devices (other than for medical use); Playing devices for sound and image carriers; Traffic-light apparatus [signalling devices]; Capacitive styluses for touch screen devices; Heat sensitive devices for security purposes; Electrical devices for the switching of data; Electrochemical power generating fuel devices; Electronic devices for information processing; Piezo alarm devices (other than for vehicles); Recording devices for sound and image carriers; Testing apparatus for checking optical devices; Electronic baby monitoring (listening) devices; Electronic control devices for rotary machines; Electromechanical control devices for clutches; Measuring devices (other than for medical use); Memory devices for use with computer apparatus; Devices for locating underground utility lines; Devices for use in the networking of computers; Electric control devices

for lifting apparatus; Electric control devices for energy management; Electric control devices for heating management; Electric devices for programming machine cycles; Personal protection devices (electronic alarms); Measuring devices in the nature of feeder pumps; Electrical devices for data information display; Thermal image observation devices for naval use; Protective devices (against accident or injury); Sight devices (telescopic) for naval weapon use; Sensing devices for the control of air currents; Electrical devices for the switching of messages; Electronic measuring devices for telephone lines; Magnetic discs being information storage devices; Optical devices for viewing through closed doors; Anti-theft locking devices for protecting radios; Immunostaining devices (not for medical purposes); Information storage devices (encoded or magnetic); Identification marking devices for electric wires; Electrical devices for communication by facsimile; Plastic cuvettes for devices for sample labelling; Plastic cuvettes for devices for sample splitting; Testing apparatus for checking electronic devices; Timing devices for industrial processing apparatus; Protection devices for personal use against injury; Reading devices for cards incorporating microchips; Electrical starting devices for discharge lighting; Electromechanical devices for closing garage doors; Identification marking devices for electric cables; Personal computers for use with video game devices; Control devices (timing) for heating installations; Electric control devices for heating installations; Computers for managing control devices for aircraft; Communication devices for linking computer networks; Paper handling devices (parts of computer printers); Pens with conductive point for touch screen devices; Tissue sampling devices, other than for medical use; Time controlled feeding devices for aquatic animals; Information storage devices (electric or electronic); Electronic security devices, other than for vehicles; Electronic measuring devices for telephone exchanges; Electrical security devices, other than for vehicles; Data storage devices for recording computer programs; Electric anti-theft devices, other than for vehicles; Electric devices for use in the protection of motors; Electric ignition devices for igniting at a distance; Electric security locking devices for armoured doors; Electric anti-theft devices (other than for vehicles); Devices for linking terminals on a computer apparatus; Machine readable devices for cashless payment systems; Thermal image observation devices for terrestrial use; Protection devices for personal use against accidents; Sight devices (telescopic) for terrestrial weapon use; Sensing devices for the automatic control of machines; Safety devices for use with electric plugs and sockets; Splicing devices for use in the editing of audio tapes; Splicing devices for use in the editing of video tapes; Remote control devices (other than cables for machine); Thermal detection devices (other than for medical use); Ultrasound imaging devices, other than for medical use; Plastic cuvettes for devices for sample identification; Electrical anti-theft devices, other than for vehicles; Door security devices of metal for buildings (optical); Door security devices of metal for buildings (electric); Control devices (thermostats) for heating installations; Paper handling devices (parts of photocopying machines); Tape units for backing up computer data storage devices; Pulse sending devices (other than for medical purposes); Specimen collection devices, other than for medical use; Sight devices (telescopic) for aeronautical weapon uses; Reading devices for cards incorporating electronic chips; Molecular sieves (devices) for scientific laboratory use; Memory devices bearing programmes for use with computers; Electronic inverters being car door self-locking devices; Electrical anti-tamper devices (other than for vehicles); Electric security locking devices for the doors of safes; Electric devices for use in the protection of generators; Accelerated ion devices (other than for treating the air); Molecular filtering devices for scientific laboratory use; Inspection devices (other than for medical or dental use); Information storage devices in the form of magnetic discs; Information

storage devices in the form of magnetic tapes; Electric devices for use in the protection of transformers; Receiving devices for connection to communication networks; Reflective devices for the prevention of traffic accidents; Thermal image capture devices (other than for medical use); Thermal image transfer devices (other than for medical use); Protection devices against X-rays, not for medical purposes; Electric devices for transmission of data between computers; Devices for use in the electrochemical treatment of liquids; Components comprising glass bushings for electrical devices; Electronic devices for indicating the interaction of fields; Fibre optic viewing devices, other than for medical purposes; Cursor control devices for use with computer display systems; Casings made from light metal for carrying electrical devices; Electronic devices for use in the self-locking of car windows; Hand-operated portable cleaning devices for phonograph records; Liquid dosage devices that measure the amounts to be dispensed; Call barring devices for use with telecommunications apparatus; Adhesion testers for surface mounted device attachment testing; Mechanically operating devices for use in inspecting ammunition; Electrical socket outlets protected by residual current devices; Illuminating devices for checking the authenticity of bank notes; Information storage devices for use in data processing apparatus; Metal security (anti-theft) devices (electric, not for vehicles); Personal computers for use with coin operated video game devices; Data readers being optical devices for data processing apparatus; Devices in the nature of spectacles for viewing televised images; Release devices operated by pyrotechnics for use with life rafts; Vacuum drawdown devices for exposing lithographic printing plates; Electric devices for transmission of data between microprocessors; Data readers being acoustic devices for data processing apparatus; Photographic storage devices bearing representations of typefaces; Hand-operated portable cleaning devices for sound recording disks; Electronic devices for the transmission of data between computers; Electrical devices for security purposes (other than for vehicles); Timers for switching on electrical devices at pre-programmed times; Security devices for doors of buildings (electric locking devices); Release devices operated by radar apparatus for use with life rafts; Tracking devices for facilitating accurate underground earth boring; Devices for analyzing protein sequence used as laboratory apparatus; Devices incorporating microprocessors for controlling transit fares; Devices in the nature of spectacles for displaying televised images; Devices for producing photographically produced signals for printers; Illuminating devices for checking the authenticity of printed matter; Transformers being electromagnetic devices for military applications; Security devices for windows of buildings (electric locking devices); Etching devices (electrical apparatus, other than for stationery use); Devices in the nature of spectacles for viewing recorded video images; Measuring devices having digital displays (other than for medical use); Transformers being electromagnetic devices for industrial applications; Electronic devices for the transmission of data between microprocessors; Electronic devices for the adjustment of the headlights of motor vehicles; Devices for converting image information to digital signals for computers; Remote control devices for industrial operations (electric or electronic); Computer software for controlling the operation of audio and video devices; Protection devices against X-rays (Roentgen rays), not for medical purposes; Sensing devices for the control of temperatures (other than for medical use); Sensing devices for the control of liquid levels (other than for medical use); Photographic storage devices bearing representations of typefaces in encoded form; Implantable devices for scientific use in measuring the composition of body fluids; Devices incorporating microprocessors for use in fare payments on public transport; Transducer devices for converting incident ultrasonic signals to electrical signals; Downloadable computer game software via a global

computer network and wireless devices; Transducer devices for converting incident electromagnetic signals to electrical signals; Devices for preventing the theft of vehicle audio equipment (part of the audio equipment); Multifunctional devices which incorporate copier and facsimile functions in the standalone mode; Specimen collection devices (containers) for samples extracted from the body (for laboratory use); LAN [local area network] computer cards for connecting portable computer devices to computer networks; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Electronic pens; Electronic tags; Electronic locks; Electronic cards; Electronic tubes; Electronic tuners; Electronic cables; Electronic timers; Electronic relays; Electronic scales; Electronic meters; Electronic sensors; Electronic tablets; Electronic tagging; Electronic sorters; Electronic diaries; Electronic filters; Electronic agendas; Locks (electronic); Electronic circuits; Electronic balances; Electronic decoders; Electronic switches; Electronic scanners; Electronic memories; Electronic plotters; Electronic notebooks; Electronic key cards; Electronic interfaces; Electronic mail boxes; Electronic digitisers; Electronic door locks; Electronic metronomes; Electronic regulators; Electronic telephones; Electronic assemblies; Electronic cash tills; Electronic components; Electronic amplifiers; Electronic timetables; Electronic transducers; Electronic whiteboards; Electronic controllers; Electronic copy boards; Electronic calculators; Electronic blackboards; Electronic rain gauges; Electronic scale rules; Electronic photometers; Electronic directories; Electronic dictionaries; Electronic dynamometers; Electronic mail servers; Electronic memory units; Electronic book readers; Electronic card readers; Electronic coding units; Electronic transformers; Memo books (electronic); Ships logs (electronic); Touch pads (electronic); Transistors [electronic]; Memo boards (electronic); Electronic yarn cleaners; Electronic warning bells; Electronic circuit cards; Electronic circuit board; Electronic data carriers; Electronic control units; Electronic control desks; Electronic plug-in cards; Electronic notice boards; Electronic security tags; Electronic entry systems; Electronic display boards; Electronic display panels; Electronic mail terminals; Electronic mail apparatus; Electronic logic circuits; Electronic label printers; Electronic tags for goods; Electronic spell-checkers; Electronic memory devices; Electronic marking gauges; Electronic circuit boards; Electronic cash registers; Text editors (electronic); Storage cards (electronic); Electronic weighing scales; Microelectronic components; Plug-in cards (electronic); Electronic audio apparatus; Electronic control systems; Audio electronic apparatus; Electronic memory circuits; Electronic microprocessors; Electronic storage devices; Electronic speed recorders; Electronic semi-conductors; Electronic radio apparatus; Electronic remote displays; Electronic distance meters; Electronic flash apparatus; Electronic encryption units; Electronic drives for discs; Electronic desk calculators; Electronic mailing machines; Electronic indicator boards; Electronic indicator panels; Electronic miniature relays; Electronic paging apparatus; Electronic pressure sensors; Electronic control circuits; Electronic coding apparatus; Electronic colour analysers; Printed electronic circuits; Electronic timing apparatus; Target seekers (electronic); Speed reducers (electronic); Spell checkers (electronic); Score recorders (electronic); Target trackers (electronic); Tactile screens (electronic); Electronic video multiplexer; Electronic weighing machines; Electronic circuit substrate; Electronic control apparatus; Audio electronic instruments; Applied electronic apparatus; Calculators being electronic; Cases for electronic diaries; Data recorded electronically; Electronic process apparatus; Electronic programming units; Electronic photo-flash units; Electronic message repeaters; Electronic speed controllers; Electronic sliding callipers; Electronic display apparatus; Electronic magnetic apparatus; Electronic

location apparatus; Electronic locks for vehicles; Electronic keyboard apparatus; Electronic telephone diallers; Electronic scanning apparatus; Electronic safety instruments; Electronic mail installations; Electronic metering apparatus; Electronic protectors' relays; Electronic pocket translators; Apparatus for electronic mail; Electronic computer apparatus; Electronic component carriers; Electronic counting apparatus; Encoded electronic chip cards; Optical electronic components; Military electronic apparatus; Speed regulators (electronic); Speed controllers (electronic); Skeleton switches (electronic); Pocket translators, electronic; Operating systems (electronic); Electronic waveform generators; Electronic weighing indicators; Electronic valves (thermionic); Limiters (electronic circuits); Integrated electronic circuits; Electronic currency converters; Electronic cigarette batteries; Card operated electronic locks; Casings for electronic devices; Electronic personal organisers; Electronic receiving apparatus; Electronic signal transmitters; Electronic switching apparatus; Electronic interface apparatus; Electronic integrated circuits; Electronic measurement sensors; Electronic measuring apparatus; Electronic gauging instruments; Electronic decoding instruments; Electronic data input apparatus; Electronic interlocking devices; Electronic switching amplifiers; Electronic regulating apparatus; Electronic remote control units; Electronic navigating apparatus; Electronic navigation apparatus; Diaries (electronic organisers); Electronic calculating machines; Fixed electronic signal filters; Electronic variable speed units; Electronic visual display units; Plug-in cartridges (electronic); Waveguides (electronic devices); Weekly publications (electronic); Telephone registers (electronic); Tripods for electronic apparatus; Process controllers (electronic); Programmed electronic components; Electronic translating apparatus; Frequency invertors (electronic); Electronic banking installations; Electronic controlling apparatus; Electronic control installations; Data recorded in electronic form; Coils being electronic apparatus; Electronic process control units; Electronic measuring instruments; Electronic key telephone systems; Electronic hand-held calculators; Electronic data output apparatus; Electronic generator instruments; Electronic drives for paper tapes; Electronic flight control systems; Electronic home command apparatus; Electronic memories for computers; Electronic navigation instruments; Electronic surveillance apparatus; Circuits (electric or electronic); Hand-held electronic dictionaries; Electronic verification apparatus; Programmable electronic apparatus; Process control units (electronic); Portable digital electronic scales; Light-emitting electronic pointers; Motor control centres (electronic); Transmitters of electronic signals; Touch sensitive electronic screens; Topographic apparatus (electronic); Text layout apparatus (electronic); Telephone books in electronic form; Vocabulary note books (electronic); Chargers for electronic cigarettes; Coils being electronic instruments; Components for electronic circuits; Connectors for electronic circuits; Cables for electronic transmission; Electronic bricks to produce light; Electronic bricks to produce sound; Electronic audio effects apparatus; Electronic apparatus for surveying; Electronic apparatus for telemetry; Electronic calculators for scoring; Electronic communication apparatus; Electronic point of sale terminals; Electronic key telephone apparatus; Electronic mail handling apparatus; Electronic data processing devices; Electronic data processing machines; Electronic magnetic recording media; Electronic identification apparatus; Electronic system control apparatus; Electronic collars to train animals; Electronic bulletin board apparatus; Electronic damper control apparatus; Electronic cruise control apparatus; Apparatus for electronic publishing; Casings for opto-electronic devices; Databases (electronic publications); Target sights for guns (electronic); Surveillance apparatus (electronic); Telephone message pads (electronic); Telephone number lists (electronic); Microchips for electronic apparatus; Pocket-sized electronic

calculators; Remote control devices (electronic); Electronic time recording apparatus; Electronic timing control apparatus; Housings for electronic instruments; Radios with electronic data decoders; Motor control apparatus (electronic); Testing devices for electronic parts; Training guides in electronic format; Score display apparatus (electronic); Stock control apparatus (electronic); Directories (electric or electronic); Cards incorporating electronic chips; Apparatus for connecting electronics; Electronic data collection apparatus; Electronic communication instruments; Electronic colour analysis apparatus; Electronic text processing apparatus; Electronic mixers for mixing signals; Electronic image recording apparatus; Electronic in-vehicle parking meters; Electronic interconnection equipment; Electronic design analysis apparatus; Electronic data processing equipment; Electronic data processing apparatus; Electronic echo cancelling apparatus; Electronic drives for magnetic tapes; Electronic distance measuring devices; Electronic global positioning systems; Electronic data interchange apparatus; Electronic identification instruments; Electronic image processing apparatus; Electronic memory units for computers; Electronic message handling apparatus; Electronic publications, downloadable; Electronic bricks to produce movement; Cases adapted for electronic circuits; Digital electronic controls for tools; Downloadable electronic game programs; Silicon chips (electronic components); Training manuals in electronic format; Electronic timing control instruments; Electronically encoded magnetic cards; Housings for electronic sub-assemblies; Motor control instruments (electronic); Plug-in electronic cards for computers; Process control apparatus (electronic); Power packs for electronic flashlights; Traffic control apparatus (electronic); Telephone index notebooks (electronic); Target location apparatus (electronic); Electric or electronic display screens; Electric or electronic control modules; Electric or electronic control screens; Cards incorporating electronic devices; Cases adapted for electronic equipment; Aiming apparatus (electronic guidance); Electronic apparatus for relaying data; Electronic communication installations; Electronic cards for processing images; Electronic control apparatus for lamps; Electronic control operating apparatus; Electronic remote printing controllers; Electronic seals for tamper indication; Electronic signal generating apparatus; Electronic signal processing apparatus; Electronic musical recording apparatus; Electronic pens [visual display units]; Electronic image recording instruments; Electronic key telephone installations; Electronic direction finding apparatus; Electronic digital switching apparatus; Electronic digital telephone exchanges; Electronic devices for data processing; Electronic facsimile mailing apparatus; Electronic distance measuring apparatus; Electronic equipment for mine detection; Electronic magnetic recording materials; Electronic image processing instruments; Electronic noise cancellation apparatus; Electronic control devices for turbines; Electronic control apparatus for motors; Electronic control apparatus for robots; Electronic control apparatus for valves; Electronic cards containing information; Electronic calculators for gas analysis; Electronic apparatus for remote control; Electronic article surveillance systems; Clamps for electronic noise suppression; Check controls (electric or electronic); Cases adapted for electronic components; Electric or electronic control stations; Electronic access control installations; Semiconductors being electronic devices; Test equipment for electronic apparatus; Traffic guidance apparatus (electronic); Plug-in electronic construction modules; Network protection devices (electronic); Interconnectors for electronic circuits; Electronic viewers for use with cameras; Extension leads for electronic apparatus; Printed electronic circuits for machines; Process control instruments (electronic); Programs for electronic image processing; Traffic control instruments (electronic); Target sights for artillery (electronic); Telephone directories in electronic

form; Electronic apparatus for data processing; Electronic apparatus for detecting leaks; Domestic electronic monitoring apparatus; Electrical and electronic burglar alarms; Communications electronics for computers; Apparatus for electronic image reception; Electronic apparatus for printing images; Electronic apparatus for text processing; Electronic control apparatus for engines; Electronic data communications apparatus; Electronic signal transmission apparatus; Electronic hardware for image processing; Electronic information storage materials; Electronic data processing installations; Electronic devices for transmitting data; Electronic distance measuring instruments; Electronic remote data transfer apparatus; Electronic television satellite apparatus; Electronic starters for fluorescent lamps; Electronic panels for displaying messages; Electronic programmable logic controllers; Electronic control apparatus for lighting; Electronic control apparatus for machines; Electronic brake controllers for vehicles; Apparatus for testing electronic circuits; Computer documentation in electronic form; Circuit boards for electronic engineering; Computers and electronic processing units; Control panels for electronic supervision; Terminal strips for electronic components; Printed electronic circuits for apparatus; Electronically encoded identity bracelets; Liquid crystal electronic display modules; Hermetically sealed boxes for electronics; Hard discs for electronic data processing; Instruments for electronic data processing; Electronically encoded identity wristbands; Encoded cards for opening electronic locks; Electronic weighing scales for kitchen use; Process controlling apparatus (electronic); Testing apparatus for electronic equipment; Traffic control installations (electronic); Target surveillance apparatus (electronic); Solid-state integrated electronic circuits; Electric or electronic display instruments; Electronic apparatus for manipulating data; Electronic alarms, other than for vehicles; Electronic animal identification apparatus; Closures being electronically programmable; Apparatus for use in electronic publishing; Cards bearing electronically recorded data; Electronic circuits for use with computers; Electronic components for electric guitars; Electronic printers for use with computers; Electronic memory integrated circuit chips; Electronic dynamometric clamping apparatus; Electronic financial transaction apparatus; Electronic instruments for recording images; Electronic manipulative image input devices; Electronic memories being computer programs; Electronic test apparatus for testing welds; Electronic control apparatus for gear pumps; Electronic control installations for cranes; Apparatus for testing electronic components; Approximation electronic discharge elements; Apparatus for electronic image transmission; Apparatus for electronic digital processing; Apparatus for electronic recording of sound; Ceramic components for electronic apparatus; Electronic apparatus for controlling access; Computer workstations for electronic design; Traffic guidance installations (electronic); Testing apparatus for electronic components; Printed electronic circuits for televisions; Random access memory (RAM) electronic discs; Electronic weighing scales for personal use; Secure terminals for electronic transactions; Digital electronic controls for manipulators; Data carriers for electronic data processing; Display apparatus (electrical or electronic); Electrical connectors for electronic modules; Electronic apparatus for manipulating images; Electronic apparatus for monitoring machines; Apparatus for testing electronic instruments; Electronic control installations for sensors; Electronic data communications installations; Electronic components for telecommunications; Electronic apparatus for reading information; Electronic materials being computer programs; Electronic machines for reading credit cards; Electronic instruments for digitising images; Electronic flash guns for use in photography; Electronic flash bulbs for use in photography; Electronic flash cubes for use in photography; Electronic devices for information processing; Electronic flashlights for

use in photography; Electronic tags for security control purposes; Electronic calculators for estimating liquids; Apparatus for transmitting electronic signals; Electronic apparatus for information delivery; Electronic apparatus for information exchange; Door entry apparatus (electric or electronic); Digital electronic controls for machine tools; Solid-state electronic data storage materials; Storage materials for data in electronic form; Information carriers (electric or electronic); Recording apparatus for opto-electronic discs; Optical electronic label reader installations; Multilingual electronic hand-held translators; Magnetic tapes for visual electronic computers; Remote electric or electronic control stations; Terminals for the electronic transfer of funds; Test apparatus for testing electronic circuits; Data recorded electronically from the internet; Electric switches for electronic power control; Apparatus for monitoring electronic components; Apparatus for searching electronic information; Electronic baby monitoring (listening) devices; Electronic control apparatus for closing doors; Electronic control devices for rotary machines; Electronic surveillance apparatus for articles; Electronic tags for inventory control purposes; Electronic security apparatus for use in homes; Electronic point of sale transaction terminals; Electronic digital building automation systems; Electronic displays incorporating moving lights; Electronic mechanisms for coin operated lockers; Electronic timers for lubricating installations; Electronic control installations for electrodes; Electronic controlled access security apparatus; Apparatus for monitoring electronic instruments; Apparatus for electronic information processing; Apparatus for use in electronic countermeasures; Circulators (electric or electronic components); Electronic and recorded multimedia publications; Motor control protection apparatus (electronic); Personal protection devices (electronic alarms); Galena crystal detectors for use in electronics; Electronic units for transmitting audio signals; Multilingual electronic pocket sized translators; Ribbon cable for connecting electronic apparatus; Random access memory (RAM) electronic cartridges; Electronic apparatus for jamming weapons systems; Electronic apparatus for controlling toll points; Digital cassettes for electronic data processing; Electric power supplies for electronic apparatus; Cabinets adapted to contain electronic apparatus; Electronic data apparatus for use with computers; Electronic components for security installations; Electronic control apparatus for electric motors; Electronic control apparatus for vehicle engines; Electronic control apparatus for sewing machines; Electronic security apparatus for use in offices; Electronic sensors for measuring solar radiation; Electronic measuring devices for telephone lines; Electronic memories comprising computer programs; Electronic digitizers for video picture analysis; Electronic instruments for recording information; Electronic instruments for the receiving of data; Electronic guidance controls for sensing purposes; Electronic flash apparatus for use in photography; Electronic filing apparatus for use in the office; Electronic screening apparatus for screening mail; Electronic control apparatus for military weapons; Electronic components in the nature of microchips; Electronic control installations for fuel burners; Electronic apparatus for the transmission of data; Electronic apparatus for transmitting information; Electronic ballasts for operating discharge lamps; Electronic circuits for data processing apparatus; Computer hardware publications in electronic form; Computer programs for electronic image processing; Peripheral control cards for electronic apparatus; Identification apparatus (electric or electronic); Testing apparatus for checking electronic devices; Tele-radio controls for electronic burglar alarms; Vibration dampeners for electronic audio equipment; Illuminated electronic moving information displays; Electronic vehicle guidance systems for warehouses; Computer programs for electronic design automation; Circulators in the nature of electronic

components; Cabinets adapted to contain electronic instruments; Alignment equipment for electronic audio apparatus; Electronic cards containing commercial information; Electronic components for identification apparatus; Electronic publications recorded on computer media; Electronic telephone data communications apparatus; Electronic memories comprising computer programmes; Electronic memories for the input of computer data; Electronic memories for the output of computer data; Electronic memories incorporating computer programs; Electronic thermometers, other than for medical use; Electronic guidance controls for detecting purposes; Electronic control apparatus for automatic machines; Electronic controllers for use with a swimming tank; Electronic apparatus for the control of car parking; Ceramic products for use in electronic applications; Domestic control apparatus (electric or electronic); Installations for the electronic processing of data; Magnetic discs for the electronic recording of data; Pulse generators for electronic revolution counters; Printed publications in electronically readable form; Information storage devices (electric or electronic); Speed variators (electronic) being parts of machines; Disc drives for electronic data processing apparatus; Electronic apparatus for interfacing video apparatus; Electronic apparatus for testing communication links; Electronic cameras for recording images magnetically; Electronic controllers for factory moulding machines; Electronic control apparatus for industrial machines; Electronic components for use with cathode ray tubes; Electronic control apparatus for computer programmes; Electronic security devices, other than for vehicles; Electronic memories for the storage of computer data; Electronic memories for the control of computer data; Electronic measuring devices for telephone exchanges; Electronic printing apparatus for use with computers; Electronic print out apparatus for use with computers; Electronic networking apparatus for telephone systems; Electronic apparatus for sensing electrostatic fields; Electronic anti-theft bollards to prevent shoplifting; Electronic analysers, other than for medical purposes; Active electronic labels containing coded information; Software for ensuring the security of electronic mail; Flat screens for electronic data processing apparatus; Remote access online electronic information apparatus; Multilingual electronic hand-held currency converters; Personal computer work stations (electronic apparatus); Network terminating apparatus (electric or electronic); Information storage apparatus (electric or electronic); Instruments for use in reception of electronic signals; Substrates for carrying information in electronic form; Apparatus for programming electronic control apparatus; Electronic apparatus for providing communication links; Electronic control apparatus for agricultural machines; Electronic control apparatus for use with vacuum pumps; Electronic controls for automatically operating valves; Electronic data carriers in the form of identity cards; Electronic security equipment, other than for vehicles; Electronic security installations for use in buildings; Electronic security apparatus, other than for vehicles; Electronic flashlight apparatus for use in photography; Electronic data input apparatus for use with computers; Electronic instruments for testing electronic circuits; Electronic interpolation apparatus for electric motors; Electronic data output apparatus for use with computers; Electronic memory units for bearing computer programmes; Electronic control apparatus for sanitary installations; Electronic apparatus for the measurement of toxic gases; Apparatus for placing capacitors in electronic circuits; Electronic apparatus for counter-jamming weapon systems; Electronic apparatus for developing communication links; Transmitters for the transmission of electronic signals; Liquid level control apparatus (electric or electronic); Information carrying materials (electric or electronic); Industrial process controllers (electric or electronic); Programmable electronic apparatus for use with machines;

Reading devices for cards incorporating electronic chips; Multilingual electronic pocket sized currency converters; Information storage instruments (electric or electronic); Electronic apparatus for home use with display apparatus; Electric and electronic video surveillance installations; Electronic inverters being car door self-locking devices; Electronic interlocking modules for railway signal cabins; Electronic equipment for testing environmental conditions; Electronic module calibrators, other than for medical use; Electronic measuring apparatus for monitoring toxic gases; Electronic apparatus for linking televisions to computers; Automatic electronic autoclaves for experimental purposes; Electronic checkout apparatus for use with cash registers; Memory cartridges for hand-held electronic game apparatus; Program carriers for electronic data processing apparatus; Stroboscopic electronic flash guns for use in photography; Speed controllers (electronic) for dual carburettor motors; Precision sensors being parts electronic control apparatus; Installations (electric or electronic) for use in security; Electronic visual display apparatus for use with computers; Electronic components for the storage of computer programs; Electronic apparatus for neutralising electrostatic fields; Electronic search apparatus for locating avalanche victims; Electronic test apparatus for testing bonds between metals; Electronic measuring apparatus for determining toxic gases; Electronic instruments for monitoring systems in buildings; Electronic instruments for controlling systems in buildings; Electronic equipment for measuring environmental conditions; Electronic devices for indicating the interaction of fields; Electronic temperature monitors, other than for medical use; Electronic safety installations for use in nuclear reactors; Electronic measuring apparatus for use in ophthalmic optics; Electronic monitoring apparatus, other than for medical use; Electronic apparatus for measuring environmental conditions; Computer programs used for electronic cash register systems; Consoles adapted for mounting units of electronic equipment; Electronic chips for the manufacture of integrated circuits; Electronic weighing machines incorporating digital displays; Electronic ultrasonic defection apparatus for motor vehicles; Terminals for electronically processing credit card payments; Electronic controls for machines for use in cutting minerals; Apparatus for environmental testing of electronic components; Electronic apparatus for home use with audiovisual playbacks; Electronic pilot apparatus for the remote control of vessels; Electronic temperature recorders, other than for medical use; Electronic display apparatus for use with exercise equipment; Electronic devices for use in the self-locking of car windows; Electronic identification cards for use in obtaining services; Electronic identification cards for use in reserving services; Electronic monitoring instruments, other than for medical use; Electronic pilot apparatus for the remote control of vehicles; Electronic apparatus for identifying personnel prior to entry; Consoles for the desktop installation of electronic apparatus; Electronic controls for machines for use in crushing minerals; Electronic connectors for use in the printed circuit industry; Electronic cameras for recording images on magnetic materials; Electronic apparatus for the regulation of packaging machines; Speed governors (electronic) for machines, engines and motors; Labels carrying electronically recorded or encoded information; Portable electronic apparatus for the analysis of machine data; Consoles housing electronic apparatus for programming purposes; Electronic apparatus for controlling the operation of machines; Electronic theft prevention apparatus, other than for vehicles; Electronic signal processing apparatus for musical instruments; Electronic identification cards for use in paying for services; Electronic scoring instruments for recording the score in games; Control units for use in electronic key telephone installations; Electronic control apparatus for use in transmitting facsimiles; Shaped flexible covers for the controls of electronic apparatus; Typeface data recorded on electronically readable data carriers; Portable electronic

apparatus for the collection of machine data; Optical electronic label reader installations for industrial use; Installations (electric or electronic) for use in access control; Indicator lamps showing programming of electronic switching gear; Electronic data carriers with computer programs (machine script); Electrically powered apparatus for testing electronic assemblies; Clips for making electrical connections to electronic components; Electronic frequency converters for high velocity electro motors; Electronic instruments for the measurement of process parameters; Electronic instruments for testing electronic circuit components; Electronic keypad controlled mechanisms for coin operated lockers; Electronic devices for the transmission of data between computers; Electronic flash apparatus for use in photography exposure meters; Electronic navigational and positioning apparatus and instruments; Consoles housing electronic apparatus for visual display purposes; Headgear adapted to secure audio electronic apparatus to the head; Instruments (electric and electronic) for the control of machines; Terminals for the electronic payment of charges with credit cards; Headgear adapted to secure visual electronic apparatus to the head; Scientific electronic apparatus (other than for medical diagnosis); Electronic apparatus for scrambling (encoding) voice transmissions; Electronic theft prevention installations, other than for vehicles; Electronic publications including those sold and distributed online; Electronic files for the storage and retrieval of data on microfilm; Electronic instruments for the measurement of electrical parameters; Electronic ballasts for electronically activated ignition apparatus; Electronic control apparatus for use in storing document facsimiles; Weekly publications downloaded in electronic form from the internet; Electronic copying machines (photographic, electrostatic or thermic); Electronic audio signal processors for compensating sound distortion; Electronic carbon dioxide monitors (other than for medical purposes); Computer based development apparatus for testing electronic circuits; Apparatus for performing diagnostic analysis of electronic components; Electronic carbon dioxide recorders (other than for medical purposes); Electronic copying apparatus (photographic, electrostatic or thermic); Electronic measuring apparatus for monitoring conditions inside ovens; Photosensitive (exposed) plastics for use in the electronics industry; Encoded cards for use in relation to the electronic transfer of funds; Computer based apparatus for the implementation of electronic circuits; Electrically powered apparatus for the repair of electronic assemblies; Domestic security installations for buildings (electric or electronic); Computer programs in machine readable form recorded on electronic media; Electronic instruments for monitoring systems associated with buildings; Electronic files for the storage and retrieval of data on optical discs; Electronic devices for the transmission of data between microprocessors; Electronic instruments for controlling systems associated with buildings; Electronic industrial network apparatus for high speed data transmission; Electronic reproducing machines (photographic, electrostatic or thermic); Computer based apparatus for designing the layout of electronic circuits; Electronic blood oxygen saturation monitors (other than for medical use); Electronic blood oxygen saturation recorders (other than for medical use); Electronic devices for the adjustment of the headlights of motor vehicles; Electronic data processing apparatus for the storage of computer programs; Fibre optics communications apparatus for use with electronic instruments; Industrial control apparatus (electronic) for machines, engines or motors; Memories and memory extensions for use with electronic games of all kinds; Remote control devices for industrial operations (electric or electronic); Toner cartridges (unfilled) for electronically operated printing apparatus; Electronic digital controllers for controlling digital flow control valves; Electronic protective fences in the nature of activated invisible barriers;

Electronic mixers for mixing signals in the production of audio recordings; Computer based development apparatus for the design of electronic circuits; Electrically powered apparatus for fault diagnosis in electronic assemblies; Electronic testing instruments for testing electrical systems in motor cars; Electronic instruments for receiving facsimile messages in a digital format; Recorded software and programmes for use with electronic games of all kinds; Fibre optics communications installations for use with electronic apparatus; Electronic instruments for transmitting facsimile messages in digital format; Electronic chips (semi-conductors) for the manufacture of integrated circuits; Electronic message switching apparatus for use in communications installations; Programs for the electronic arrangement of graphics in reproduction technology; Interface units for linking electronic store price scanners with system controls; Electronic and magnetic ID cards for use in connection with payment for services; Electrical print out apparatus for use with electronic data processing apparatus; Electrical print out apparatus for use with electronic text processing apparatus; Integrated circuit memory cards for use in playing electronic musical instruments; Program carrying magnetic discs for use with electronic data processing apparatus; Software for the operational management of portable magnetic and electronic cards; Precision fuel oil delivery control apparatus (electronic) for use on road tankers; Printing fonts that can be downloaded provided by means of electronic transmission; Game programmes (programs) and software for use with electronic games of all kinds; Electronic control units for determining the quantity of fuel injected into motors; Electronic data processing machines for use in photographic finishing laboratories; Electronic control units for determining the quantity of fuel injected into engines; Cards carrying magnetically, optically or electronically recorded or encoded information; Tags carrying magnetically, optically, or electronically recorded or encoded information; Electronic digital automation installations for measuring building services installations; Electronic apparatus for controlling lifting mechanisms for working implements on vehicles; Labels carrying magnetically, optically, or electronically recorded or encoded information; Physical representations of graphic images stored electronically for electronic enhancement; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Headphones; Microphone plugs; Music headphones; Microphone stands; Microphone cables; Microphone mixers; Stereo headphones; Microphone buttons; Headphone consoles; Headphone amplifiers; Covers for headphones; Stereophonic headphones; Headphones for microphones; Control boxes for headphones; Plug adaptors for headphones; Two-way plugs for headphones; Headphones for audio apparatus; Headphone-microphone combinations; Sound reproducing apparatus with microphone; Stereo headphones for personal entertainment use; Personal headphones for sound transmitting apparatuses; Personal headphones for use with sound transmitting systems; Stereophonic apparatus incorporating headphones for personal use; Mobile phones; Mobile radios; Mobile phone sets; Mobile telephones; Mobile phone cases; Mobile phone covers; Mobile phone straps; Mobile data receivers; Mobile data apparatus; Local mobile telephones; Cases for mobile phones; Mobile data instruments; Straps for mobile phones; Mobile trailer fire pumps; Mobile telephone batteries; Cellular mobile telephones; Keyboards for mobile phones; Local mobile telephone systems; Headsets for mobile telephones; Mobile communication terminals; Mobile or portable fax machines; Mobile radio broadcasting units; Leather cases for mobile phones; Cases adapted for mobile phones; Mobile radio receiving apparatus; Stands adapted for mobile phones; Mobile phones for use in vehicles; Holders adapted for mobile phones; Carriers adapted for mobile phones; Mobile radio transmitting apparatus; Mobile telecommunications apparatus; Mobile

data communications apparatus; Local mobile telephone installations; Hands free devices for mobile-phones; Mobile television broadcasting units; Downloadable graphics for mobile phones; Downloadable ring tones for mobile phones; Dustproof plugs for jacks of mobile phones; Devices for hands-free use of mobile phones; Mobile work stations (computer, other than furniture); Apparatus for use in the detection of mobile objectives; Mobile telephone apparatus with built-in facsimile systems; Computer game software for use on mobile and cellular phones; Voice signalling apparatus for use with mobile radio systems; Computer software to enable the transmission of photographs to mobile telephones; Smartwatches; USB chargers; Blank USB cards; USB flash drives; USB card readers; Blank USB flash drives; USB cables for cellphones; Busbars (electric connections); Electrical distributing busbars; Electronically encoded identity wristbands.

Scientific, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; data processing equipment, computers; computer software; portable and handheld electronic devices for transmitting, storing, manipulating, recording, and reviewing text, images, audio, video and data, including via global computer networks, wireless networks, and electronic communications networks and electronic and mechanical parts and fittings therefor; computers; tablet computers, electronic book readers, audio and video players, computer peripheral devices; computer and portable and handheld electronic device accessories, namely, monitors, displays, keyboards, mouse, wires, cables, modems, printers, disk drives, adapters, adaptercards, cable connectors, plug-in connectors, electrical power connectors, docking stations, including electronic docking stations, headphones and earphones and drivers; charging stations, battery chargers; battery packs; memory cards and memory card readers; speakers, microphones, and headsets; cases, covers, and stands for portable and handheld electronic devices and computers; devices for the display of electronically published materials, in the nature of books, journals, newspapers, magazines, multimedia presentations, television programmes and films; headphones and earphones; data synchronization programs, and application development tool programs for personal and handheld computers; computer software for authoring, downloading, transmitting, sharing receiving, editing, extracting, encoding, decoding, displaying, manipulating, and transferring content, text, visual works, audio works, audio visual works, literary works, data, files, documents and electronic works, graphics, images, and electronic publications via portable electronic devices and computers; downloadable pre-recorded audio and audiovisual content, information, and commentary; downloadable electronic books, magazines, periodicals, newsletters, newspapers, journals, and other publications; database management software; character recognition software; voice recognition software; electronic mail and messaging software; computer software for accessing, browsing and searching online databases; electronic bulletin boards; data synchronization software; application development software; programs for consumer video game apparatus; electronic circuits, magnetic discs, optical discs, optical magnetic discs, magnetic tapes, ROM cards, ROM cartridges, CD-ROMs, and DVD-ROMs storing programs for consumer video game apparatus; electronic circuits, magnetic discs, optical discs, optical magnetic discs, magnetic tapes, ROM cards, ROM cartridges, CD-ROMs, and DVD-ROMs containing downloadable computer programs; game programs for computer; computer programs; electronic circuits, magnetic discs, optical discs, optical magnetic discs,

magnetic tapes, ROM cards, ROM cartridges, CD-ROMs, DVD-ROMs and storage media storing programs for computers; portable computers; monitors for computers; remote controllers for computers; portable terminals for displaying electronic publications; mouse [computer peripheral]; printers for use with computers; computer peripheral devices; monitors [computer hardware]; scanners [data processing equipment]; electronic pens [visual display units]; electronic agendas; flash memory cards; memory modules; optical discs [blank], magnetic discs [blank], compact discs [blank], and magnetic cards [blank]; DVD players; DVD recorders; remote controllers for DVD recorders and players; remote controllers for video disc recorders and players; remote controllers for recording devices; digital audio players; audio recorders; digital video players; portable apparatus for recording and reproduction of music; portable apparatus for recording and reproduction of video; apparatus for recording and reproducing video; monitors for television receiver; television receivers [TV sets] and television transmitters; remote controllers for television receiver [TV set]; remote controllers for radio set; telecommunication machines and apparatus; recorded compact discs; phonograph records; metronomes; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; downloadable music files; exposed cinematographic films; exposed slide films; slide film mounts; downloadable image files; recorded video discs and video tapes; electronic publications; cameras; photographic equipment and apparatus; cinematographic machines and apparatus; optical instruments and apparatus; batteries and cells; rechargeable batteries; AC adapters for consumer video game apparatus; earphones for consumer video game apparatus; microphones for consumer video game apparatus; monitors for consumer video game apparatus; memory cards for consumer video game apparatus; monitors for arcade video game machines; apparatus for image and sound archiving and visualisation, apparatus for recording, transmission or reproduction of sound or images; fittings and software for the aforesaid apparatus; data recordings including audio, video, still and moving images and text; computer software, including software for use in downloading, storing, reproducing and organising audio, video, still and moving images and data; downloadable electronic publications; computer and electronic programmes and equipment and video games programmes; electronic instructional and teaching apparatus and instruments; television and radio signal transmitters and receivers; televisions (TV); television tuners; set-top boxes; television receivers and transmitters; electronic controllers; electronic controllers to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; video game programs; computer hardware, software, and peripherals for personalized, interactive television (TV) programming and for use in generating, displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; wireless controllers to monitor and control the functioning of electronic devices, other than controllers for gaming apparatus; remote controls; joysticks for use with computers; computer touchscreens; downloadable audio works, visual works, audiovisual works and electronic publications; computer software for use on electronic devices, namely computer software development kit consisting of computer software development tools for the development of content and service delivery across global computer networks, wireless networks, and electronic communications networks; computer software for personalized, interactive television programming and accompanying manuals distributed therewith; computer software for use in generating, displaying and manipulating visual media, graphic images, photographs, illustrations, digital animation, video clips, film footage and audio data; application development computer software programs; computer software

for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; computer software enabling content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works to be downloaded to and accessed on a computer or other portable consumer electronic device; computer and electronic game software; downloadable software in the nature of a mobile application for computers or other portable consumer electronic device; remote controls for portable and handheld electronic devices and computers; software for use in connection with electronic publications; software tool in the nature of a publication/book exploration guide; computer software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Internet browser software; mobile computers, and mobile communications devices; computer and mobile device software for enhancing uploading and downloading capabilities on computers, mobile computers, and mobile communications devices; computer software enabling content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works to be downloaded to and accessed on a computer or other portable consumer electronic device, computer and electronic game software, publishing software; downloadable audio works, visual works, audiovisual works, and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, guides, quizzes, tests, journals and manuals on a variety of topics including those of interest to children; downloadable software in the nature of a mobile application in the field of childhood education and development for developing cognitive skills, counting skills, fine motor skills, imaginative play, language, and creative expression; downloadable video games, interactive game programs and applications for computer or other portable consumer electronic device; computer software for transmitting, sharing, receiving, downloading, streaming, displaying and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works via portable electronic devices and computers and global computer and communications networks; parental control software; television standards converters; television program decoders; interactive television terminal sets; software for interactive televisions; internet connected interactive televisions; internet connected interactive television set top boxes; computer programmes for interactive televisions and for interactive games, quizzes and puzzles and parts and fittings for all the aforesaid goods.

Class 16

Paper, cardboard and goods made from these materials in the nature of printed matter, bookbinding material, photographs, stationery, printing blocks, printed matter in the field of computers and tablet computers, printed matter in the field of multi-media products, interactive products and online services, printed publications, books, magazines, newsletters, periodicals, brochures, booklets, pamphlets, manuals, journals, leaflets, greeting card, advertising and promotional material, catalogues, catalogues relating to computer software, computer brochures, computer handbooks, computer hardware publications, computer hardware reference manuals, computer hardware users guide, computer manuals, publications relating to technology, digital technology and gadgets, catalogues relating to musical apparatus and instruments, catalogues relating to TV, telecommunications apparatus, mobile phones, handheld and mobile digital electronic devices for the sending and receiving of telephone calls, faxes, electronic mail, video, instant messaging, music,

audio-visual and other multimedia works, and other digital data, music books, music instruction manuals, music magazines, telephone and address books, agendas, diaries, calendars, posters, mounted and unmounted photographs, booklets for sale with audio tapes, parts and fittings for all the aforesaid goods.

Class 28

Games and playthings; gymnastic and sporting articles not included in other classes; handheld units for playing electronic games, other than those adapted for use with an external display screen or monitor; games featured on a portable handheld device; hand-held electronic games and apparatus; games, electronic games, and apparatus for video games; controllers for games consoles; computer game apparatus; protective carrying cases specially adapted for handheld games units; video game machines; controllers for video game machines; consumer video game apparatus with camera function; consumer video game apparatus; controllers and joysticks for consumer video game apparatus; protective films for controller of consumer video game apparatus; handheld game apparatus with liquid crystal displays; card game toys and their accessories; game machines and apparatus; consumer video game machines fitted with a camera function adapted for use with external display screen or monitor; consumer video game machines adapted for use with external display screen or monitor; protective films for liquid crystal displays for handheld game apparatus with liquid crystal displays; sports equipment, parts and fittings for all the aforesaid goods.

Class 35

Advertising; business management; business administration; office functions; business management services relating to the provision of sponsorship for television programmes; retail store and online retail store services featuring goods in Classes 9, 16 and 28 of this application, toys, clothing and accessories, and sporting goods; creating indexes of online information, sites and other resources available on global networks for others; providing consumer product information relating to books, consumer electronics, video games, compact discs, DVDs, toys, games, clothing and accessories, sporting goods, tools and home improvement supplies, and automotive supplies via an on-line searchable database; providing an on-line commercial information directory; dissemination of advertising for others via an on-line electronic communications network; providing a searchable on-line advertising guide featuring the goods and services of other on-line vendors; computerized database management services; on-line ordering services; organisation, production and presentation of fashion shows, business competitions, exhibitions and events for advertising, promotional and commercial purposes.

Class 38

Telecommunications; electronic transmission of voice, data and images through a global communications network; communication services for transmitting, caching, accessing, receiving, downloading, streaming, broadcasting, sharing, displaying, formatting, mirroring and transferring text, images, audio, video and data via telecommunications networks, wireless communications networks, and the internet; providing an internet forum; providing access to telecommunications networks for the transfer of images, messages, audio, visual, audiovisual and multimedia works among auxiliary devices or electronic devices, namely, e-readers, handheld and mobile digital electronic devices, portable electronic devices, portable digital devices, tablets, or computers; streaming of audio, visual and audiovisual material via the Internet or other computer or communications network; providing online chat rooms and internet forums for the transmission of photos, videos, text, data, images and other

electronic works by members of an online community; transmission of podcasts; transmission of webcasts; providing access to global computer networks that enable users to access and share content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing access to global computer networks that enable users to share content, photos, videos, text, data, images and other electronic works relating to entertainment, including, movies, television, audiovisual works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities, tournaments, art, dance, musicals, exhibitions, sports instruction, clubs, radio, comedy, contests, visual works, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion, multimedia presentations, history, language, liberal arts, math, business, science, technology, hobbies, culture, sports, arts, psychology, and philosophy; providing access to a web site that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing access to a web site that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share photos, videos, text, data, images and other electronic works; providing access to web portals for entertainment in the field of movies, television, audiovisual works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities, tournaments, art, dance, musicals, exhibitions, sports instruction, clubs, radio, comedy, contests, visual works, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion shows, and multimedia presentations; broadcasting; communications and telecommunications; transmission, broadcast, reception and providing access to global computer networks for the dissemination of audio, video, still and moving images, text and data whether in real or delayed time; electronic mail services; interactive broadcasting services; rental of radio and television broadcasting facilities; providing access to and leasing of access time to a computer database; provision of information and advisory services relating to any of the aforesaid services; communication services, namely, transmitting, receiving, downloading, streaming, broadcasting text, images, audio, video and data via telecommunications networks, wireless communications networks, and the Internet; providing chat rooms for the transmission of messages concerning topics of general interest among computer users in online communities; providing access to online directories, databases, current events websites and blogs, and on-line reference materials; providing access to telecommunications networks for the transfer of images, messages, audio, visual, audiovisual and multimedia works among electronic devices, namely, e-readers, handheld and mobile digital electronic devices, mobile devices smart devices, portable electronic devices, portable digital devices, tablets, or computers; providing an internet forum and online chat rooms for the transmission of messages among computer users in online communities; providing access to telecommunications networks for the transfer of images, messages, audio, visual, audiovisual and multimedia works among auxiliary devices or electronic devices, namely, e-readers, mobile devices, smart devices, portable electronic devices, portable digital devices, tablets, or computers; providing virtual environments in which users can interact for recreational, leisure, or entertainment purposes; providing access to an on-line searchable database featuring consumer product information regarding books, consumer electronics, video games, compact discs, DVDs, toys, games, clothing and accessories, sporting goods, tools and home improvement supplies, and automotive supplies; providing temporary Internet access to use on-line non-downloadable software to

enable users to program audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs; providing access to websites for the purposes of social networking; providing access to online computer databases and online searchable databases in the field of social networking; providing access to on-line computer databases and on-line searchable databases in the field of social networking; providing access to searchable databases in the field of social networking.

Class 39
