REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

and return flow suction filters, tank-integrated filters, including ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters, all the aforesaid being machines or parts of machines; filter aggregates, dehydrating apparatus and separation apparatus, for separating particle contamination including the separation of gases like air out of liquids like oil, all the aforesaid being parts of machines; filter elements, perforated sheet filter and screen filter elements, gap-type tube filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter discs and disc filter elements, filter mats, filter pots, filter cloths, filter bags, filter belts, filter packs and depth filter elements, including woven materials for filters, in each case being parts of machines; heat exchangers, being parts of machines for stationary and mobile applications for exchanging heat between liquid and/or gaseous media; parts of machines, namely, shut-off equipment, shut-off apparatus, shut-off valves, switch-over devices and valves (parts of machines), in particular for hydraulic and pneumatic drive means and propulsion media, in particular inflow pressure and circulating pressure balances, flow control valves, priority valves, shuttle valves, seat valves and slide valves, throttle valves, cover plates, directional control valves, check valves, pressure valves, pressure control valves and pressure limiting valves, optionally with indicators and monitors, vent valves; control apparatus being parts of machines, in particular for hydraulic and pneumatic installations, in particular flow-dividers and control blocks, including valve control blocks; hydraulic or pneumatic operating cylinders, being parts of machines; hydraulic and pneumatic motors and engines, gears, couplings, pumps and compressors, including being machine parts; hydraulic or pneumatic drive units being parts of machines, in particular for process engineering, for general machine construction and for vehicles, in particular for construction machines, for machine tools, for machines for manufacturing plastics, for drives for tools, for presses, for transport installations, for shipping and aeronautics, for chemical and reactor technology, for mining and iron and steel works, and for rolling mills, in particular consisting of at least one hydraulic pump, at least one drive motor and at least one container of metal or plastic for liquids; hydraulic motors and engines; control apparatus for engines and motors, in particular electric, electro-mechanical and electro-hydraulic control apparatus for engines and motors (included in this class); lubricating apparatus and equipment, lubricating installations, supply apparatus, in particular distributors for stationary and mobile application; mechanically operated clamping apparatus, clamping machines and clamping tools; motor-driven hydraulic pressure and feed pumps, being parts of machines, adjustable and non-adjustable; hydraulic drive units for elevator controllers, transport controllers and lift controllers, in particular consisting of a hydraulic pump, a drive motor and a liquid container of metal or plastic; motors; tanks and other storage equipment for liquids being parts of machines; machines for industrial washing and cleaning; electrical motors; elevator operating apparatus.

Class 09

Scientific, nautical, surveying, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; electric control and checking (supervision) installations and components, namely sensors, control and regulating apparatus, checking (supervision) apparatus) for electric motors, included in this

class, in particular for use in the automobile industry, including mobile hydraulics, the semiconductor industry, the food industry, aeronautics, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, and in mining and in the field of steelworks, power plants, wind energy plants, machine tools, transfer presses and plastic injection moulding machines; elevator control panels; resonators; indicating, checking (supervision) and control apparatus for level, pressure, temperature and quantity for gaseous and liquid media, including for dehydrating apparatus and separator apparatus; multicircuit gauge isolators; dosage dispensers; switching equipment, monitoring apparatus and diagnostic apparatus for technical applications; apparatus, instruments and components for conducting, switching, converting, storing, regulating or controlling electricity; transducers; actuators; sensors, including pressure sensors, flow sensors, temperature sensors, level sensors, sensors for detecting state variables of liquids and gases, fluid flow sensors, viscosity sensors, gas sensors, conductivity sensors, sensors for determining relative permittivity, moisture sensors, optical sensors, magnetic sensors, capacitive sensors, chemical sensors, thermoelectric sensors, distance sensors, incline sensor, particle counters, piezoelectric actuators, electrostatic actuators and magnetic actuators; microwave antennas; magnets, including in combination with valve switching components, except ignition magnets for motors and engines; microscopes, in particular for analysis and metrology; optical particle counting apparatus.

Class 11

Filter devices and filters for heating, steam-generating, refrigerating, drying, ventilating, water supply, water treatment, air-conditioning, and sanitary installations and apparatus; spare parts for the aforesaid goods; degassing and water-separating filters; coalescers, high-pressure, medium-pressure and low-pressure filters, liquid filters, line filters and process line filters, gas filters, including for seal gas systems, cyclone filters and other separating filters, filling filters and ventilation filters, full flow filters and bypass filters, multistage filters, return flow filters, including suction filters and return flow suction filters, tank-integrated filters, including ventilating and drying devices, drum filters and strip winding filters, perforated plate filters and screen filters, offline filters and inline filters and spin-on filters, plastic melt filters, membrane filters, filter units together with draining apparatus, all the aforesaid being parts of household or industrial installations; filter elements, perforated sheet filter and screen filter elements, gap-type tube filter elements, rheological filter elements, flow filter elements, filter candles, filter cartridges, filter housings, filter sheets and disc filter elements, filter mats, filter pots, filter cloths, filter bags, filter belts, filter packs and depth filter elements, including woven materials for filters, all the aforesaid being parts of household or industrial installations; gas-technical installations and components, all the aforesaid goods included in this class, in particular for use in the automobile industry, including mobile hydraulics, the semiconductor industry, the food industry, aeronautics, medicine, pharmacy, oil and gas transport technology, environmental engineering, laboratory and testing technology, household and sanitary systems, and in mining and in the field of steelworks, power plants, wind-power installations, machine tools, transfer presses and plastic injection moulding machines; heat exchangers, not being parts of machines for stationary and mobile applications for exchanging heat between liquid and/or gaseous media;

Class 07

Remotely operated machines used for underwater exploration, construction, and facilities maintenance and repair, and for construction, inspections, maintenance, salvage and exploration of underwater and marine structures; remote controlled submersible robots for underwater exploration; industrial robots; machines used for cleaning and repairing offshore platforms; remotely operated machines for inspecting, cleaning and repairing oil and gas pipelines and equipment used in the oil and gas industries, and for inspection and cleaning of marine structures; cutting torches; power operated cutting tools for cutting cables, wires and rope; power operated torque tools; power tools, namely portable precision grinders; oil and gas wellhead casing cutters; hydraulic connectors and junctions for use as structural machine parts used in subsea operations; hydraulic connectors and replacement parts therefor; submersible pumps; pumps used for chemical injection in industrial operations; chemical injection apparatus for use in industrial operations consisting of a chemical tank, one or more pumps, valves, and a flow meter or other similar process instrumentation, namely, for use in applying chemicals during wire line and well service operations and replacement parts therefor; metal parts and replacement parts therefor for pumping system components used in chemical injections in industrial operations, namely, mechanical seal rings, pistons and valve seats; chemical injection pumps; power operated launch and retrieval machine apparatus for use in remotely operated vehicle deployment, consisting of a metal cursor, guide wires and rails, winches and cranes.

Class 09

Electric or electronic control panels for remote operated vehicles; electric or electronic control umbilicals for use with remote operated vehicles and industrial apparatus, namely, thermoplastic hoses, electric cables, high collapse resistant flexible pipes, steel tubes and hybrid combinations used on remote operated vehicles; electric or electronic control umbilicals for use with subsea umbilicals for use in pipeline installation, repair, operation and control of wellheads; electric cables and fiber optic cables; electric or electronic flying leads; electric or electronic jumper assemblies; computer controlled electronic apparatus for torque tools used in remote controlled

operations; computer software for simulation of apparatus staging and operation; computer software for management and inspection scheduling of apparatus used in oil and gas pipelines and oil and gas production; electric and electronic test apparatus for subsea umbilical lines and connections; sonar equipment and replacement parts therefor; production control apparatus and chemical injection apparatus, namely work over control systems used to control and monitor the deployment, operation and retrieval of subsea production equipment, primarily comprising computer hardware and software, electronic control umbilicals, sensors, a operator work station control panels, a hydraulic system, mechanical valves, and ancillary mechanical devices such as tanks to hold fluids; computer controlled electro-hydraulic operating controls used in subsea pipes and cables; electronic control systems for use with remote controlled vehicles, namely, acoustic control pods used to send data between surface ships and remote operated vehicles or other subsea devices; computer controlled electronic acoustic telemetry apparatus for use in underwater communications; electrical connectors and junctions used in subsea operations; computer controlled electro-hydraulic junction plates; computer controlled electro-hydraulic measuring apparatus used to measure distance, elevation and azimuth between subsea points; transducers, electromagnetic acoustic transducers; machines used for inspecting oil and gas pipelines, namely, optical inspection apparatus for industrial use; diving suits; astronaut protection equipment, namely backpack for use with spacesuits, comprising oxygen unit, cooling unit and propulsion unit for extravehicular safety and movement; mouse pads; laptop carrying cases; calculators.

Class 12

Remotely operated vehicles used for underwater exploration, salvage, construction, inspection, and facilities maintenance and repair; underwater exploration vehicles, namely, towed sonar sleds.

Class 17

Non-metal, plastic, thermoplastic, rubber hoses and high collapse resistant non-metal flexible pipes for commercial industrial marine use, namely; subsea umbilical hoses for industrial operations, namely, for use with remote operating vehicles, for use in pipeline and wellhead installation, maintenance, control and repair and for use in supplying hydraulic fluid to undersea operations; non-metal, plastic and rubber hoses for commercial industrial marine use, namely, subsea umbilical hoses for industrial operations and marine exploration and subsea recovery operations; non-metal, plastic and rubber hoses for commercial industrial marine use, namely, subsea umbilical hoses for use in pipeline installation, repair, operation and control of wellheads; non-metal, plastic and rubber hoses for commercial industrial marine use, namely, subsea umbilicals for use in containing airflow lines, electric cables, steel tubes, thermoplastic hoses, high voltage electric power cables and fiber optics.

Class 35

Leasing of employees; business services, namely, business management, administration and organization in relation to facilities and business management of technical operations; industrial management assistance.

Class 37

Construction management; construction, maintenance, and repair of

subsea oil field wells; maintenance and/or repair of subsea oil field wells; underwater building and construction, maintenance, inspection and repair services; marine construction; leasing of apparatus used in oil and gas production and pipelines, namely, remote operated vehicles, pipeline inspection equipment, subsea skids, and well intervention tooling; repair and maintenance of subsea telecommunication cable systems and equipment; repair and maintenance services relating to fiber optic cable systems; repair and maintenance services relating to equipment used in the fields of marine construction and exploration, oil and gas exploration, pipeline construction, and space exploration; pipeline repair services; construction project management services relating to underwater building and construction and underwater industrial operations; machinery maintenance and repair; repair of ships, submarines, and remote operated vehicles; installation of insulation on space vehicles and rockets; construction, maintenance and repair of amusement park rides.

Class 39

Launch and retrieval of remote operated vehicles; diving and underwater salvage; leasing of boats, ships, and remote operated subsea vehicles; underwater salvage services, namely, underwater search and recovery services relating to subsea telecommunication cable systems; underwater salvage services, namely underwater search and recovery services relating to submerged vehicles.

Class 41

Conducting seminars in the field of subsea construction maintenance and repair, subsea tie-backs and pipeline and wellhead maintenance and repair, and operation, use and maintenance of remote operated vehicles and subsea construction equipment; rental of diving equipment.

Class 42

Underwater engineering, diving inspection (engineering inspection), and surveying services; computer services, namely, providing simulation of procedures for subsea activities, equipment testing, software installation, software maintenance and evaluation and real time simulation design and testing; engineering, research and development in the field of diving and remotely operated vehicle (ROV) operations; technical consultation, research and support services and engineering services in the field of habitation and life support in underwater and space environments; technical engineering and inspection services in the fields of oil and gas production and aerospace, namely, research and development, materials testing, weld testing, oil and gas well and pipeline testing, storage tank testing, and component testing; underwater structural inspection services; underwater exploration; new product engineering, research and development services for others in the field of robotics, materials testing, and oil and gas production equipment, life support systems, remote operated vehicles, and subsea tooling; inspection of subsea oil field wells and pipeline inspection services; underwater and structural inspection services; inspection of fiber optic cable systems; inspection of subsea telecommunication cable systems; inspection of equipment used in the fields of marine construction and exploration, oil and gas exploration, pipeline construction and space exploration; inspection of ships, submarines and remote operated vehicles for seaworthiness; industrial design services; technical consultation, research and

support services and engineering services for amusement park rides and shows; underwater building inspection services.

Collective and Certification Marks Published For Opposition Purposes

Registration has been accepted in respect of the following Collective and Certification Marks filed under the provisions of the Trade Marks Act (Cap. 332, 1992 Ed.), Trade Marks Act (Cap. 332, 2005 Ed.) and the Madrid Protocol.

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.
