REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Class 07

Electric coffee grinders; electric food blenders; electric food grinders; electric food processors; electric food slicers; electric juice extractors; mechanical mixing machines; electric motors other than for land vehicles, steam and gas turbines and parts thereof; electric, generators and their parts; aircraft engines; electric alternators; gas compressors; air-conditioning compressors; washing machines; gas and electric clothes drying machines; dishwashers; garbage disposers and compactors; electric mixers; electric knives; electric can openers; axial and centrifugal compressors; reciprocating compressors; screw and vane compressors; rotary, vacuum, electric, submersible and centrifugal pumps; turbo expanders, namely, compressors; CNG refueling machines for land vehicles and industrial equipment and accessories and parts for all the foregoing, namely, pumps, valves, fuel filters, filter casings, distributor rotors, blades, bearings, and mechanical seals; steam condensers; pumps, namely, centrifugal pumps; diaphragm pumps, bellows pumps and process and transfer pumps; fluid control devices, namely, pump control valves; regulators being parts of machines; filter cartridges for various industrial machines for filtration applications, namely for the filtration of potable water, beer in the brewing industry, and other specialty chemicals; machines for the feeding and application of chemicals for industrial uses; boat engines; turbochargers for engines; fuel injectors; vehicle engine parts, namely, high frequency motor spindles with high frequency electric converters and power supply units, rocker arms, push rods, oil coolers, crankcase breathers, oil tanks, ignition parts for internal combustion engines, namely, points, radiators, water pumps, starter motors, pumps for cooling engines, engine bearings, engine camshafts, engine rods, and engine mufflers; apparatus, equipment and instruments for the generation of power, namely, electric generators and wind powered electricity generators; turbines (other than for land vehicles); turbines for power generation; wind turbines for power generation; engines for the generation of electricity, and parts and fittings for all the aforesaid; machines for transmitting (generating) electricity; transmission control mechanisms; control installations; distribution machines; air condensers.

Class 09

Navigation apparatus for vehicles in the nature of on-board computers; optical inspection apparatus for railway system use; railway signals, namely, crossing warning systems; high-frequency switching power supplies; electrical engine controllers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices for the rail and transit industries; electrical devices and electrical power distribution products, namely, capacitors, circuit breakers, circuit breaker load centers, circuit closers, circuit interrupters, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supplies, electricity distribution boards and boxes, electricity distribution consoles, electricity switchboards and

switchboxes; computer software for persons who troubleshoot and maintain programmable controllers; computer software for analyzing blood vessels including cardiac vessels which also provides calculation functions with respect to blood vessels; computer software for use with medical patient monitoring equipment; computer software for receiving, processing, transmitting and displaying data, for use in developing personalized asset allocation programs; computer software for collecting data involving vital medical signs; computer software for use in electrical power systems analyses; computer software for regulating and managing vehicle fleet maintenance services; computer software for use by customers to obtain lease portfolio information; computer software for a radiology information system for use by radiologists and radiology departments in the database management of employee and patient information; computer software for graphical user interface; computer software for underground navigation, namely, for navigation of down hole probe assembly for oil drilling and drilling assemblies for routing underground utilities; radios; mobile radios; transceivers; walkie-talkies; antennas; television transmitting and receiving sets; electronic communication apparatus; electric smoke alarms; electric door chimes; batteries; battery chargers; fuel cells for converting chemical energy into electrical energy; electrochemical gas generating and sensing apparatus; electrical wires; electrical cables and conductors; electrical wiring fixtures; lightning arresters; electrical resistors; transformer; vacuum tubes; diodes; condensers; connectors; radar and acoustic apparatus; computer terminals and printers and parts thereof; apparatus for electrophoresis not for medical purposes; chromatography columns and pumps; apparatus for bioinformatics systems, namely, computer hardware and software for processing biological information; scintillation counter to measure beta emitting nuclides; imaging apparatus for radioactive and luminescent emissions, namely, CCD cameras and scanners; synthesis and purification integrated systems comprising of chromatography columns, cartridges, fraction collectors, mixers, monitors, pumps, recorders, and analysis software; apparatus for micro arrays, namely, probes, slides, buffers, bacterial controls, racks, and trays, all not for medical purposes; laboratory glassware; computer software for hospital operating room management; computer software for critical care information management; industrial process control software; computer software programs and program manuals sold as a unit for use in factory management; software for creating graphics displays and editing dynamic data interfaces for real time graphics applications for industrial and business applications; communications software for connecting computer network users; factory automation software for control, monitoring, simulation, communications, data logging, collection, and factory automation; software to integrate manufacturing machine operations and control processes; software to provide data for visualization, track problems, and generate production reports; packaged software for use in the operation and programming of grinding machines in the manufacturing industry; industrial process control hardware, namely, computer monitors, laptop, computers, Ethernet cards, and cables; computer networking hardware; memory cards; microchips; microprocessors; computer network hubs, switches and routers; computer displays and terminals; computer whiteboards; system boards and processors; industrial process controller featuring call control, operator interface, gage interfaces, and data collectors; manufacturing execution systems and document management software; digital signal processing products and systems, namely, industrial automation controls and

programmable logic controllers; electrical apparatus for the control of machine tools, namely, an adaptive control product in the nature of an external controller to optimize machine tool cutting performance of rough and semi-rough cuts; electrical power supplies, and mounting hardware adapted for electrical power supplies; intrusion and burglar alarm systems; security devices, namely, programming logic computers, control panels, electronic intrusion detectors, electronic glass break sensors, electronic vibration sensors, magnetic contacts for use in security systems, electronic switch plates, electronic motion sensors for alarm systems, electronic motion sensitive switches, hard wire sirens, audio speakers, electronic speaker drivers, access, control and alarm monitoring systems; fire, heat, and smoke detecting and alarm units; computer card operated access control systems; card readers, card encoders, and encoded cards for use with card operated access control systems; video cameras; video object recognizers; video object trackers; video license plate readers; video alarm verifiers; video face recognizers; video vehicle recognizers; video traffic detectors; video access floor controllers; video intrusion detectors; processing hardware and software that analyzes digital video images to automatically extract, record, and report intelligence, and remote video monitoring systems for security and surveillance applications; central video monitors; cameras; closed circuit video systems; short range wireless radio frequency transceivers; power line transceivers; communication control hardware, namely, keypad controllers, matrix switchers, multiplexers, digital video recorders, integrated pan-tilt-zoom domes, remote video controllers, receivers, electronic alarms, management controls and triggers, and video transmission devices in the nature of video transmitters sold separately or as part of a system for operating closed circuit cameras; fiber-optic transmission systems, namely, fiber-optic transmitters, receivers, and transceivers used in the transmission of video, audio, and data signals over optical fiber, electro mechanical locks; magnetic locks; electric keys; handheld electronic hardware, namely, handheld programmable units and handheld computers for receiving, controlling, storing, manipulating, displaying data, transmitting data, and for operating electronic locks; electronic key fobs and readers and encoders therefor; access keypads; radio frequency tracking tags, tracking and control system comprising one or more radio frequency tags, transceivers, and sensors used to determine and monitor the location and movement of tangible assets, of inventory, and of individuals; infrared sensors; computer hardware and software for facilities management and controlling facility access systems and components therefor, namely, control panels, access card readers, equipment and systems for video imaging, video monitoring, digital hard drive recording, network transmission and remote access; networked digital video storage servers for access control and surveillance applications, alarm monitoring, and security; computer software and hardware for controlling and operating security and access systems comprising of electronic locks, doors, and identification ports; devices and security enclosures in the nature of electronic boxes, namely safes for securing keys; surveillance equipment sold individually as components or together as a system comprising of one or more surveillance cameras, covert cameras, close circuit television cameras, camera housings, camera mounts, camera lenses, video monitors, video recorders, digital recorders, video storage media, video switches, control panels, keypad controllers, joystick controllers, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controllers, control panel housing, switch housing, transformer switches, splitters, coaxial cables, connectors, motion detectors,

microphones, and speakers; computer user interface software and control software for managing security, fire, and access systems; hand-held electronic computer and communication hardware for receiving, controlling, storing, manipulating, displaying, and transmitting data for the purpose of operating electronic locks; pre-recorded magnetic data carriers featuring identification and security information; data processing software and computer hardware; siren speakers and electronic siren drivers, namely, tone generators and amplifiers adapted to be used for sirens; switch units incorporating magnetically actuated reed switches for use in burglary and in fire sensing alarm systems, in industrial position sensing apparatuses and in revolution counters and in equipment cabinet safety interlock systems and in industrial position controlling apparatus and, in pump and valve controlling apparatus; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; electric control valves for water conditioning and water filtration equipment; bioreactors for culturing cells; portable analytical instruments, namely, probes with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water; filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; silt density measuring device; deionization units for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters, and regulators all for laboratory use; ozone monitors; laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, for use in the treatment of boiler water systems, for use in the treatment of cooling water systems, for use in the treatment of closed water systems, for use in the treatment of pulp and paper processing systems, for use in the treatment of fuel processing systems, and for use in the treatment of metal processing systems to analyze the chemistry of the system, determine the proper treatment program, apply the desired treatment, and monitor the effectiveness of the treatment; computer software for data management in the water treatment and pulp and paper processing fields; electronic controllers used for processing information in the water treatment and pulp and paper processing fields; apparatus for use in industrial water systems to measure and control pH and conductivity; electronic apparatus for feeding chemicals to an industrial or commercial or municipal water system in measured amounts; laboratory testing equipment namely deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure pH, conductivity, and chromate concentration of industrial and domestic waters in order to conduct inorganic and microbiological analysis of water; avionic sensor systems, namely, navigation systems; computer hardware and software, for use with medical patient monitoring equipment, and for receiving, processing, transmitting and displaying data; computer software for accessing information directories that may be downloaded from the global computer network; computer software for controlling and managing patient medical information; electric control devices for heating and energy management; electrical apparatus, namely, charging stations for charging electric vehicles; electrical power distribution units; electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, track switches, lights and for detecting ground faults, broken rails, and power failures; electronic sensors for monitoring energy utilization, temperatures, positions, distances, speed, and acceleration; electrical substations comprised of

transformers, circuit breakers, circuit switchers, voltage regulators, fuses, capacitors, relays, rectifiers, and electric power converters; power inverters; electronic control devices for energy management; electronic automation products, namely, electrical routers and electrical hubs; computer software and hardware for the management, distribution, monitoring, and control of energy; automated systems, namely, hardware and communications devices for planning, scheduling, controlling, monitoring, and providing information on transportation assets and parts thereof; automation systems, namely, computer hardware for embedded operating systems and PC based computer software, for monitoring specified conditions and controlling respective innovative devices within a designated area; computer hardware and software systems for automated train control and traffic supervision, namely, location tracking, vehicle monitoring, vehicle controlling, dispatching, signaling, communication, and data transmission; computer software for management of railway networks; wireless communication devices for voice, data, or image transmission; traffic management equipment, namely, display monitors, computers, auto compasses, and software to manage traffic; computer software for interfacing and interacting with remote control locomotives and locomotive hardware; LED traffic and rail signals; electronic fuel level gauges; automated fuel station management systems comprising of computer operating software, metered fuel pumps, rate control panels, fuel lines, and dispensing nozzles for fueling land, marine, and aircraft vehicles; gas meters; electrical and scientific apparatus, namely, general-purpose high-precision electric computer-controlled valves for use in high-precision flow applications; optical imaging apparatus; microscopes and high accuracy electro-mechanical actuators; automated DNA optical scanners; automated microscopy systems comprising of microscopes, computer hardware, and software; electromechanical hardware and software systems comprising of computers, computer software, electromechanical positioners for micro positioning control, all for use in the field of photonics, or in the fields of digital flow control, or in the field of analysis of biological samples, or in the field of semiconductor testing and inspection, or in the field of microscopy, or in the field of optical scanning, or in the field of scanning systems for lasers; computer software for microscopy, imaging, and informatics in the field of clinical and diagnostic testing; electric actuators; electric valve actuators; precision positioning systems comprised of optical indexers, namely, an optical train with a camera and a filter wheel that enables image data to be digitized, microscopy stages, electronic control circuitry, motion control chassis, linear actuators, screw actuators, linear sliders, electric motors, and tunable lasers for use in digitizing images in the fields of photonics, biomedical imaging, fluidics, mass flow valves, life sciences, semiconductor manufacturing, and clinical diagnostics; scientific instruments and apparatus, namely modular biologics manufacturing system used for growing, purifying, concentrating, isolating, and packaging biological materials in chemical, biotechnological, or pharmaceutical processes, consisting of a bioreactor used to grow cell cultures and fermentations, a mechanical mixing machine for agitating biological media, a filler machine used for packaging pharmaceutical products, a separation machine used for isolating, purifying, and concentrating biological materials, and connecting computer hardware and software; computer hardware and software for use in industrial processing plants and refineries in the chemical, petrochemical, and processing industries.

Class 10

Medical specimen collection vials; medical cannulas; medical syringes; injection devices for pharmaceuticals; disposable cartridge for holding and transferring encapsulated radioisotope brachytherapy sources for use in treating prostate and other cancers; pre-filled cartridges containing contrast media for medical imaging; infusion pumps for intravenous administration of fluids; needles for medical purposes; implantable radiation therapy devices consisting of encapsulated radioisotope brachytherapy sources for use in treating prostate and other cancers; radiation therapy delivery system consisting of radioactive seeds and a bio absorbable carrier assembly; cardiac output monitors; bacteria filters for medical use; gas analyzers for medical purposes; anesthesia record keeping and data management systems and patient monitoring systems, namely, gas monitors, pulse oximeters, multi-parameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for anesthesia, intensive care and diagnostic applications; anesthesia machines and ventilators; intensive care and anesthesia accessories for single patient use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry sensors and tubes, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, intravenous flushing sets; anesthesia masks, carbon dioxide absorbers, temperature probes, nebulizers; central nervous system monitors; gastrointestinal tonometers; gradient coils, namely, magnetic gradient coils used, in magnetic resonance imaging; medical diagnostic devices, namely, bone densitometers; fetal monitoring apparatus, namely, fetal pulse and vital signs monitors; patient monitoring apparatus, namely, heart and vital signs monitor; medical imaging systems, namely, ultrasounds, medical diagnostic imaging machines, imaging devices for screening and diagnostic applications for use in planning intervention and surgery, and parts thereof and attachments thereto; blood glucose monitors, analyzers, and meters; blood glucose monitoring combination kits comprised of lancets, control solution, and test strips all sold as a unit; medical diagnostic apparatus for displaying diagnostic images, namely, spot film apparatus, X-ray image intensifiers, X-ray fluoroscopes, mobile X-ray units, radio graphic film viewers, computerized tomography scanners, nuclear resonance scanners, ultra sound scanners, magnetic resonance scanners, positron emission tomography pet scanners, and parts thereof and attachments thereto including tables and pads; medical devices, namely pressure regulating valves; medical apparatus and instruments, namely, medical respiratory apparatus to enhance breathing; sleep screening apparatus and accessories thereto for use with medical respiratory apparatus and with sleep monitoring devices, namely remote controls, remote alarms, and nasal masks; medical apparatus for intravenous administration of fluids, namely fluid warmers; medical apparatus and surgical devices, namely face masks, breathing circuits, manual resuscitators, pressure infusers, laryngoscopes, anesthesia system comprised of hoses, breathing bags, and Y-elbow fittings; incubators for babies; warming device for stabilizing infant body temperature for medical purposes.

Class 11

Heat exchangers not being parts of machines; chemical heavy wall reactors, nuclear reactors, and accessories and component parts thereof, namely, heat pumps, steam valves and valves for regulating the flow of gases and liquids; electric lamps of all kinds and their parts; electric lighting fixtures and their parts; electric refrigerators

and freezers; air conditioners; humidifiers and dehumidifiers; electric heaters; gas and oil burning furnaces; gas and liquid coolers for use in industry; electric ovens and ranges; electric cooking utensils, namely toasters, skillets, coffee makers, griddles; microwave ovens for cooking; wall cooking ovens; food warming drawers; electric and gas cook tops; gas cooking ovens and ranges; ventilation hoods for stoves; ventilating exhaust fans; water filters; water softening units; clothes dryers; electric fans, flashlights; lamps and lights for vehicles; electric lights for Christmas trees; filter installations for the separation of fluids and solids for industrial use in a wide variety of industries; filter installations for the concentration of fluids and solids for industrial use in a wide variety of industries; filter installations for the recycling of fluids and solids for industrial use in a wide variety of industries; filter apparatus used for filtering solids from gases and liquids or filtering liquids from gases, and for filtering one immiscible liquid from another for industrial use in a wide variety of industries; spirally wound elements or cartridges contained within a tubular plastic sleeve for concentrating products and removing impurities in fluid treatment systems for industrial use in a wide variety of industries; water conditioning units for residential purposes; reverse osmosis modules and membranes therefore for industrial use in a wide variety of industries; water purification units and systems consisting of clarifiers, electro deionization systems, condensate polishers, vacuum degasification units, ultra filtration units, ultraviolet sterilizers, ion exchangers, caustic regeneration systems, reverse osmosis systems, forced draft decarbonator units, filters, chemical feed systems and bulk storage units, sold with automatic controls and instruments to monitor operating parameters of the units and systems electrochemical liquid purification units for use in the industrial, commercial and municipal sectors; convection, ovens; cooking rings; domestic cooking ovens; domestic electric appliances, namely, frypans; electric cooking pots; electric cooktops; electric deep fryers; electric hot plates; electric kettles; electric roasters; electric rotisseries; electric slow cookers; electric stoves; electric tea pots; electric toaster ovens; electric toasters; electric waffle irons; gas cooktops; gas stoves; LED and high-intensity discharge (HID) light fixtures; LED luminaires; solar light fixtures, namely, indoor and outdoor solar powered lighting units and fixtures; electric luminaries; electric kettles for domestic use.

Class 12

Locomotives and engines for land vehicles; airplane propellers; railway bogies; railway couplings; screw propellers for vehicles; torque converters for land vehicles; vehicle propellers.

Class 17

Silicone rubber roof coating; plastic panels, for building construction purposes; plastic glazing compound; silicone and adhesive sealing and caulking compound; silicone and adhesive sealants for general use.

Class 35

Inventory control services; acquisition integration services, namely business consultation with respect to the acquisition and integration of information technologies within a business; business reorganization services, namely providing business consultation in the field of business reorganizations; business management services, namely vehicle fleet management services; supply chain management and consulting services in the areas of chemical product and service

sourcing, and procurement; product inventory and supply management and cost containment; business consulting and information services.
