REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

amplifiers; decoders, video game programs, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, life-saving and teaching apparatus and instruments; laboratory apparatus and instruments; telecommunication machines and apparatus; railway signalling apparatus, luminous or mechanical; electronic remote monitoring apparatus and instruments for use in fire alarms, gas alarms and burglar alarms; postage stamp checking apparatus; apparatus for recording, transmission or reproduction of sound or image; magnetic data carriers, recording discs; digital video discs and optical discs, pre-recorded audio, visual and video image digital video discs and optical discs; cash registers, data processing equipment; fire-extinguishing apparatus; radios; MP3 players; headphones; videotapes; cables; electric cables and wires; submarine cable; fiber optic cables; submarine fiber optic cables; telecommunications cables; data cables; geophysical instruments, namely, seismographs, submarine seismographs, digital seismic recorders, seismic digitizers, magnetometers, and geoelectrical instruments to measure changes in conductivity of the earth; vibration sensors; remote sensing devices; air traffic control communications systems consisting of computer hardware and computer software for displaying, transmitting, controlling, switching, routing, and receiving weather data; two-way radios for communication of voice, data, images and video for use by military and other government agencies, computer software for use in the field of air traffic control, namely, for the supervision, maintenance, administration, troubleshooting and configuration of computer software for monitoring the performance of air traffic control systems, mapping definition, uploading software updates and releases, access control, user definition, circuit assignment, hardware editing, recovery and diagnostic reporting, computer software and hardware for use in controlling, managing and monitoring runway; automated fingerprint identification system; biometric device for providing identification and/or authentication of persons; optical sensors for the identification and authentication of persons; fingerprint and/or finger vein scanners; fingerprint and/or finger vein imagers; fingerprint and/or finger vein authentication system; computer software for biometric systems for the identification and authentication of persons; fingerprint and/or finger vein hybrid authentication system, automatic cash registers; automated teller machines (ATM); card readers, namely point of sale card readers; automatic coin cash sorting and counting machines; coin counting and sorting machines; electronic machines for reading credit cards and recording financial operations; computer software for use in connection with the provision of banking services, financial services, investment services, loan services, insurance services, bank account management services, electronic funds transfer, payment services namely for online banking; downloadable computer software for online banking services via a global computer network and wireless devices; hand-held electronic devices for payment and value exchange services and for other personal information service, computer hardware and software for the provision of online banking services, financial services, investment services, loan services, insurance services, bank account management services, monetary transfer services, payment services, financial analysis and financial reports, financial management services, and information services in the field of banking and finance; IPTV (Internet protocol TV) set top boxes, digital receivers for receiving cable television, digital receivers to receive terrestrial television using format ATSC (advanced television systems committee), digital receivers to receive terrestrial television using format DVB-T (digital video broadcasting-terrestrial), digital receivers to receive terrestrial television using format ISDB-T (integrated services digital broadcasting) and Brazilian Digital Television System standards and satellite television digital receiver; radio transmitting apparatus; apparatus for analyzing digital images;

transceiver modules; magnetic encoders; codecs, namely, video codecs, universal codecs, audio codecs and voice codecs; converters, television receivers; direct broadcasting satellite receivers; extended-definition television and radio receivers; computer software for controlling and managing electronic medical charts; satellites; satellite digital receiver; computer software and hardware for use in monitoring, reporting, controlling, measuring and detecting water seepage; sensors for use in monitoring, reporting, controlling, measuring and detecting water seepage; water conservation and control system sold as a kit comprised of water leak detecting devices, water sensors, a CPU, a control unit with audible alarm and wireless transmitters; computer hardware, software and electronic controller for use in controlling, measuring and checking constant pressure frequency and for controlling automation frequency of electric pumps; electronic circuit cards for the control of pumps; computer programs and software for the management of pumps and water control systems; remote controls for variable frequency controllers for controlling constant pressure frequency and for controlling automation frequency of electric pumps; electric motor control equipments comprising electrical controllers for variable frequency controllers for controlling constant pressure frequency and controlling automation frequency of electric pumps; software programmable microprocessors; electric and electronic pressure sensors for variable frequency controllers for sensing constant pressure and sensing pressure in relation to automation of electric pumps; liquid level sensors; pressure sensors; temperature sensors; inverters; electronic equipment for point-of-sales (POS) systems, namely, point-of-sale terminals, bar code readers, optical readers, advertisement display monitors, keyboards, printers, scanners, radio transmitters, radio receivers, computer hardware, and computer operating software; computer software and hardware for use in watching, monitoring and securing under water, computer software and hardware for use in watching, monitoring and securing port and harbor; monitoring cameras; sensors; computer software for use in customer management, order management, billing management, route management, product management, inventory management, communication management and reporting and data management; devices for wireless radio transmission; radio frequency identification (RFID) credentials, namely, cards and tags, and readers for radio frequency identification credentials; electronic hardware for interfacing a computer with near field communication devices, namely, Radio-Frequency Identification (RFID) tags, Radio-Frequency Identification (RFID) stickers, Radio-Frequency Identification (RFID) cards, Radio-Frequency Identification (RFID) readers, smart card readers and NFC readers, namely, near field communication (NFC) technology-enabled readers; computer software and hardware for use in managing, monitoring and controlling train network systems; computer software and hardware for use in managing, monitoring and controlling train traffic control, traffic control; computer hardware and software for use in managing, monitoring and controlling electronic tool collecting systems; computer software for use in managing, monitoring and controlling electronic toll collection systems; computer software and hardware for use in managing, monitoring, watching and controlling facilities, namely, police, fire department, prison and other official institutions; computer software and hardware for use in the field of paternity, immigration control, criminal, other identity investigations, citizen services, law enforcement, public administration services, critical infrastructure management, information management, emergency and disaster management and inter-agency collaboration; computer software and hardware for use in tracking mail; digital radio receiver; computer software and hardware for use in managing, monitoring and controlling digital radio networks; computer software and hardware for use in

managing, monitoring and controlling fire operations center; computer software and hardware for use in charging emergency call from fire operations center to fire fighters; computers and computer software for converting elevation data point clouds from remote sensing devices into data, and for analyzing, displaying and printing the data in the field of three dimensional feature extraction, manipulation, display, and geographic registration; electronic apparatus and instruments for use in inertial navigation systems aided by global positioning system (GPS) and/or other sensor data, consisting of electronic hardware, sensors, and input and output devices with integrated computer software for use in manned and unmanned air, sea and ground platforms, robotics, remote sensing and mapping; cloud computing software for use in exchanging, distributing, transmitting, sharing, receiving, downloading, displaying, transferring, uploading, editing, collecting, managing, sending, organizing and storing data, information; computer software and hardware for consisting of cloud computing system; computer software in the field of energy consumption for use in tracking, monitoring, controlling and managing energy consumption; computer software for use in controlling, managing, and monitoring power storage systems; batteries, battery chargers and battery boxes; solar batteries; batteries and battery chargers for use in electric cars; accumulators, lithium-ion batteries, rechargeable batteries, battery packs, battery modules, electrical storage batteries, rechargeable storage batteries, battery cells, fuel cell electrodes; electric power storage apparatus; energy storage and supply systems comprised primarily of electric storage batteries and power supplies; power-supply machines and apparatus, namely, electrical power supplies, electrical storage batteries, charge controllers and inverters, power distributing boxes and power cables; energy management system consisting of computer hardware and computer software for managing, controlling and monitoring building energy environment; facility surveillance system consisting of computer hardware, computer software, monitoring cameras and sensors; computer software and hardware for use in filing and paying taxes; automatic computing machines for issuing copies of family registers and registered seals; computer software and hardware for use in making an inquiry into family registers information; computer software for managing student education systems; computer application software for mobile phones, portable media players, handheld computers, namely, software for in general education, namely, test preparation, foreign language, reading, writing, handwriting, spelling, English, math, social studies, history and science; downloadable electronic publications in the nature of periodicals in the field of life, education and entertainment; children's educational software; computer and applications software programmes, platforms and apparatus for document management, and for creating searchable databases of information and data, all in the field of electronic publishing, and for use in professional development and education; computer software and computer applications software for use with mobile phones and tablet computers and computer software platforms for downloading, transmitting, receiving, providing, publishing, extracting, encoding, decoding, reading, storing and organising audiovisual, videographic and written data; downloadable electronic publications in the nature of articles, booklets, books, brochures, directories, journals, leaflets, magazines, newsletters, periodicals and reports; computer software and hardware for use in radio communication in the field; robust computers; robust laptop computers; robust tablet computers; robust personal digital assistants; robust telecommunication apparatus, namely, phones, cellular phones.

Class 35

Advertising services; provision of advertising through the development, operation and administration of digital signage systems and digital

advertising systems for others; providing advertising space on websites on the Internet; information services for promoting the goods and services of others; consultant services and advisory services in the field of business; business information services; business development services; provision of information relating to business, business administration and business statistics; commercial sales promotion; provision of business information in CD-ROM format or via local and global computer information networks; importing and exporting of goods of others; import and export agency; tracking of inventory; agency services for completing customs formalities, namely, completion of customs formalities; import; export agency services, return management, namely, business administration relating to returned merchandise; consulting services for business management; business consulting and information services; business management consulting services and business management and consulting services relating to a computer system that integrates natural language processing (NLP), computational linguistics (CL), machine learning (ML), and information retrieval (IR), including text analysis, pattern recognition and image analysis and which is capable of understanding general human queries and formulating responses; data processing services and cloud-based business services, namely, business consultation services via cloud computing networks; business consulting with relation to strategy, technology deployment, sales, and business processes; providing others with information relating to business, business administration and business statistics; providing others with business information via local and global computer information networks; on-line retail store service for consumer electronic devices and related accessories; customer relationship management; customer management services for others, namely, responding to customer inquiries for others in the fields of telecommunications, computer networking, computer hardware and software technology; arranging and conducting trade show exhibitions in the fields of computers, computer services, and information technology; arranging and conducting trade show exhibitions in the field of electronic business transactions via a global computer network; arranging and conducting trade show exhibitions in the field of a computer that integrates natural language processing (NLP), computational linguistics (CL), machine learning (ML), and information retrieval (IR), including text analysis, pattern recognition and image analysis and which is capable of understanding general human queries and formulating responses; preparation of reports on software defined networking (SDN), network functional virtualization, and network virtualization users and projects for commercial purposes; electronic data processing for third parties; account auditing relating to energy consumption for others; business organizational consulting with relation to strategy, technology deployment, sales, and business processes in the field of power storage systems.

Class 39

Logistics consultancy services relating to tracking the transportation, warehousing, transshipment and distribution of goods; information services, namely, traffic information, train traffic information and air traffic information; energy distribution and storage services, namely, distribution and storage of electricity; distribution of energy; consultation and arranging services for the logistics of goods between shippers and carriers; provision of information and data on databases and/or the Internet, in the logistics field, regarding processing and franking of mail; transportation logistics services in the fields of computers and computer products; follow-up services, namely the electronic tracking of freight documents, parcels, packets, letters and pallets; tracking the transportation, warehousing, transshipment and distribution of goods.

Class 42

Technical services and technical consulting services for creating, designing and maintaining web sites for others and technical services and technical consultation for computer programs and design and development of computer hardware; design of computer hardware, computer software, web sites and computer network systems for others; providing others with information relating to computer hardware and computer software; maintenance and updating of computer software and web sites; computer network systems analysis; services relating to the technical supervision and inspection of electronic apparatus and instruments including electronic computers; rental services of electronic computing and scientific apparatus, instruments and implements; repair services of computer software programs and web sites; hosting computer websites providing environmental monitoring information, notifying individuals of natural and manmade disasters or acts of terrorism and how to respond to such disasters or acts of terrorism; providing environmental monitoring information, via a web site, about global warming, its effect on nature and the environment, suspended particles in the atmosphere, the reflectance of the earth's surface, rain measurement, amount of water vapor and sea surface temperature; consulting services in the field of energy management; energy monitoring services for others, namely, viewing or recording the timing or level of use and control of electricity used by selected devices; computer software development, computer programming and maintenance of computer software in the field of energy usage management and energy efficiency; design of home and business electric energy control systems for others and engineering services in the field of computerized temperature, fire, safety, security and light control, energy usage management monitoring; computer consulting services; advice on designing, selecting, and using computer hardware and systems; technical support services, namely, trouble-shooting for computers, servers, and software problems; computer system design services for others; computer systems analysis; interconnecting computer hardware and software, namely, computer programming for integrating computer systems, networks and software; testing computer software and hardware, namely, testing operation and functionality of software, computers and servers; software installation, updating and maintenance; design and development of a disaster-prevention systems; cloud computing services for autonomous community; consultation and advisory services in the fields of computer hardware, computer software and computer network system design; information services in the field of energy efficiency; consulting services in the field of computer networking, computer network functional virtualization and computer network virtualization.

Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; boilers as parts of machines; fuel feeders; cleaning machines for industrial installations; log handling, debarking, chipping, chip screening, chip handling, and bark and biomass handling machines; chipper knives as parts of chipping machines; rotating motors except for land vehicles and drives; roll conveyors for wood processing; washing, flotation, dispersing, refining, deflaking, broke handling, fiber recovering, wet end chemical handling, thickening, forming, pressing, sizing, coating, calendaring, reeling, parent roll handling, bonding, dewatering, screening, pulping, delignification, defibrating, feeding, grinding, separating, scrubbing, mixing, filtration, creping, sheet transferring, cleaning and bleaching machines for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing; blades as parts of wood processing machines; coating blades as parts of machines, doctor blades and cutting blades for winders; blow line separators; chip feeders; drum filters and their nozzles; pumps and separators; mixer kits containing stator, rotor and scraper ring; mixers for liquids and gases; spray pipes as parts of machines; cyclones for wood processing; screen baskets as parts of machines; green and white liquor handling machines; slaking machines for industrial process and causticizing machines; lime mud handling machines; drives and gear boxes except for land vehicles; lime re-burning machines; filters for machines; bearings for machines; screening machines for pulp drying; dewatering machines; cutting machines; baling and bale handling machines; paper and board winding and roll handling machines; folding machines; oil coolers and filters; oil tanks for machines; down feeding machines; packaging machines; pressing machines; press stamps with hydraulic cylinders; tying machines for industrial use; screw drainers for draining and transporting; pre-heating and heating machines as parts of process machines; disc refining, cone refining, cone disc refining, high consistency refining and low consistency refining machines; cyclone separators; steam separators; water jet pumps; drop-in machines for feeding; lignin removal machines; industrial cleaning machines utilizing pressure jets; cleaning machines for industrial installations; forming fabric shaking machine; web handling machines for pulp and paper manufacturing; silencers for machines and motors; rolls being parts of machines; brake pads for machines; machine saws; segment bars for machines; blades and blade holders for machines; paper machines; machines for cleaning, purifying, utilizing and recycling water; dust removing installations for cleaning purposes; sheet stabilizing machines; web turning machines; sheet cooling machines; trim conveying

equipments; broke conveying equipments; machines and equipments for bio refinery process; wet lap machines; steam boxes and moisturizing devices as parts of machines; hot water spreading equipment as parts of machines; machines for ethanol manufacturing; presses; biomass drying machines; biomass crushing machines; machines for producing coal and fuel from biomass; hoods for paper, board and tissue machines; gasifiers.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; electronic speed control equipment; computer software for controlling debarking process; electronic position indicators; electronic material detectors; optical measuring apparatus for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation, fiber manufacturing and biomass refining; computer process control and system operating software for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation, fiber manufacturing and biomass refining; electronic process control equipment; alkali measuring apparatus; apparatus for measuring physical conditions and movements of air; electronic indicators; computer software for process optimization; electronic control panels; computer software for energy efficiency analysis; electric oscillators; computer software and electronic sensors for collecting data of industrial operations; downloadable electronic instruction manuals.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; industrial boilers; fluidized bed boilers, heating boilers; hot water boilers; burners; heating and energy plants for producing energy and energy sources; pyrolyzers as parts of pyrolyzing equipment; air and gas cleaning apparatus and machines; flue gas scrubbers, electrostatic precipitators as parts of equipment, bag filters as parts of equipment, vent gas scrubbers, odor gas removing equipment, cooking machines; steaming bins for pre-steaming wood chips; pressure diffusers; filters and filtering units for industrial apparatus; heating apparatus for pulping; water treatment units; evaporators; recovery boilers for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation, fiber manufacturing and biomass refining; ash conveying and leaching installations; heat recovery machines; air conditioning and ventilation units for machine rooms; apparatus for collecting dust from the air; bed reactors for firing fuels to produce energy; humidifiers; cooling machines; heat recovery machines; pyrolysing reactors; gasification plants, pyrolysis plants, torrefaction plants, steam explosion plants and biorefining plants for producing energy and energy sources; drying machines for chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing.

Class 37

Building construction; repair; installation services; installation, maintenance and repair services of boilers, burners, power plants, heating plants, air and gas cleaning machines; inspection and remote diagnosis services for monitoring the condition and function of boilers, burners, fuel feeders, power plants, heating plants, air and gas cleaning machines, and

cleaning machines for industrial installations; installation, maintenance and repair services of machines and equipments in the field of chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation and fiber manufacturing and biomass refining; inspection and remote diagnosis services for monitoring the condition of machines and equipments in the field of chemical recovery, pulp, fiber, paper, board and tissue manufacturing, power generation, fiber manufacturing and biomass refining.

Date of Protection in Singapore: 29/07/2015

The following claim is made in the International Registration: Colour(s) claimed: Silver gray.

Class 01

Industrial chemicals; protein [raw material]; ferments for chemical purposes; reagents for chemical purposes, other than for medical or veterinary purposes; reagents for use in scientific apparatus for chemical or biological purposes; diagnostic reagents for scientific or research use; biochemicals for in vitro and in vivo scientific use; reagent paper, other than for medical or veterinary purposes; reagents for genetic research purposes, other than for medical or veterinary purposes; flour and starch for industrial purposes.

Class 35

Retail or wholesale services for pharmaceutical preparations, veterinary preparations, medical apparatus and instruments, veterinary apparatus and instruments; retail services or wholesale services for processed food.

Class 37

Repair or maintenance of computers; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of laboratory apparatus and instruments; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of medical machines and apparatus; repair or maintenance of chemical processing machines and apparatus; sterilization of medical machines and apparatus; repair or maintenance of electronic machines and apparatus and providing information relating thereto; repair or maintenance of veterinary apparatus and instruments and providing information relating thereto.

Class 39

Logistics services consisting of the transportation, packaging, and storage of goods.

Class 40

Rental of chemical processing machines and apparatus; custom manufacture of pharmaceuticals; custom manufacture of medical devices for others.

Class 41

Educational and instruction services relating to arts, crafts, sports or general knowledge; arranging, conducting and organization of seminars; organization of sports events and competitions; providing electronic publications; publication of books; language interpreter services; translation.

Class 42

Designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; design

services; computer software design, computer programming, or maintenance of computer software; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; testing or research on machines, apparatus and instruments; rental of laboratory apparatus and instruments; testing or research on medical apparatus and instruments; testing or research on optical machines and instruments; testing or research on laboratory apparatus and instruments; testing or research on chemical processing machines and apparatus; design and development of medical apparatus and instruments; design and development of optical machines and apparatus; design and development of laboratory apparatus and instruments; design and development of chemical processing machines and apparatus; providing electronic computer programs; software as a service [SaaS]; rental of computer software; rental of application software; providing computer programs for use in medical apparatus and instruments on data networks; rental of computer software for medical apparatus and instruments; rental of computer software for data processing; developing computer software; rental of laboratory optical machines and apparatus.

Class 44

Rental of medical machines and apparatus; dietary and nutritional guidance; provision of medical information; rental of veterinary apparatus and instruments; provision of health information; lifestyle counseling and consultancy for medical purposes; health or medical consultancy; advisory services relating to health; providing information relating to veterinary services.

RHEINHÜTTE PUMPEN
■ THE RIGHT SOLUTION. FOR ANY FLUID.

Date of International Registration: 22/05/2015
Date of Protection in Singapore: 22/05/2015

The German word "Pumpen" appearing in the mark means "Pump".

Class 06

Ironmongery, small items of metal hardware; common metals and their alloys, pipes and tubes of metal, fittings of metal, for installation in pipelines for liquid and gaseous media; tanks; protective sleeves (metal hardware); welding neck flanges (metal hardware).

Class 07

Pumps, motors and engines (except for land vehicles), installations, apparatus and units composed of pumps, motors and engines; machines for the chemical and pharmaceutical industries and for the food industry; housings [parts of machines]; standard pumps, standard chemical pumps, chemical centrifugal pumps, chemical circulating pumps, submersible chemical pumps, unchokeable chemical pumps; axial centrifugal pumps, axially split pumps; magnetic pumps, magnetically coupled pumps; centrifugal pumps, sanitary centrifugal pumps, small centrifugal pumps; impeller pumps; base plate pumps; motor mounted pumps, valveless high-density pumps; densifiers and vacuum pumps [machines], namely rotary compressors; submersible pumps; unchokeable pumps; self-priming pumps; sludge pumps, in particular self-priming sludge pumps; armour-plated pumps; centrifugal pumps; pumps for conveying liquids; pumps (machines) for the chemical and pharmaceutical industries; corrosion-resistant pumps (machines) made of ceramic material; corrosion-resistant vacuum pumps and corrosion-resistant centrifugal pumps; pump impellers; split cases for magnetically coupled pumps; liquid-ring vacuum pumps, namely sliding rings, in particular bearings and shaft and sliding bearings for pumps (machines), sliding rings of metal-ceramic compositions for chemical pumps; bearings; shafts; installations made of ceramic material, namely corrosion-resistant pump systems; auxiliary equipment parts for pumps, namely thermosiphons systems, housing for discharge valves; pumps components, in particular couplings and belts (except for land vehicles); parts for pumps (included in this class); cast parts, namely ferro-silicon cast parts being parts of machines; parts of machines, motors and engines and couplings; seals for pumps, motors and engines; speed governors for machines, engines and motors; mold (machine parts); speed governors for machines, engines and motors; regulators (parts of machines); control mechanisms for machines, engines or motors; valves, clack valves, taps for installation in pipelines for liquid and gaseous media.

Class 09

Electric and electronic apparatus and instruments (included in this class) for content measuring and direction finding apparatus in pump technology, including computer software therefor; electronic switch gears; electric and electronic apparatus and instruments, electric switching apparatus, electric apparatus for monitoring industrial installations and industrial equipment, electric gauges, electric measuring apparatus, in particular flow measuring apparatus for gaseous, liquid and solid machines, electric and electronic apparatus, instruments and switching installations, electric and electronic switching, measuring, control, regulating, testing, diagnostic, checking (supervision) and display apparatus, including computer software and bus systems therefor, electric cables and wires, electric disc drives, electronic components and modules, computer hardware and computer software, measuring, control, regulating, signalling, checking (supervision) and recording devices, apparatus and instruments, and computer programs therefor, electric evaluation and protection devices for recording and controlling electric signals, display devices, apparatus and instruments, parts for the aforesaid devices, apparatus and instruments, computer programs for the operation of the aforesaid devices, apparatus and instruments, electronic data capture, data evaluation, data transmission, data processing, display, control and regulating devices, apparatus and instruments and computer programs therefor, electrotechnical and electronic measuring apparatus, devices and instruments and installations consisting thereof for filling, pressure, flow meter, temperature, pH, redox, conductivity and analytical measurement technology, automation, electric heating, and measuring, electrotechnical and electronic control, checking (supervision) and

regulating apparatus for industrial purposes, electronic sensors, electronic devices and apparatus for recording analogue and digital values, physical variables from electrical engineering and signals, for converting and transforming analogue and digital values, physical variables from electrical engineering and signals, and for outputting analogue and digital values, physical variables from electrical engineering and signals, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, memory-programmable control devices, apparatus for recording, sending, transmission, receiving, reproduction and processing of sounds and/or characters and/or images, communications apparatus for recording, transmission and reproduction of sound or images and installations composed of the aforesaid, apparatus for remote data transmission and data transfer, electric apparatus and electric instruments for controlling and for automatic maintenance of pumps, in particular lubricating devices, speed control devices and oil pump around coolers, apparatus for the transmission of speech, data and images and installations consisting thereof, modems, distribution, ducting and laying systems for electrical installation, electric and electronic apparatus and installations consisting thereof for process technology and measurement data processing, electric apparatus for the detection and measurement of pollutants in air, water and soil, and of noise, vibrations, meteorological data, electric and electronic control apparatus and installations consisting thereof, testing apparatus and parts therefor and installations consisting thereof for detecting and locating leaks in containers for liquid and gaseous substances, testing apparatus and parts therefor and installations consisting thereof for detecting and locating dirt on sensors and for recording measurement values for solid, liquid and gaseous substances, measuring apparatus for process regulation, electric and electronic apparatus for data recording, data processing, remote data retrieval, data switching, data storage and data output, computers and data processing equipment, in particular data recording installations, data processing programs, in particular database software and software for telemetry, apparatus for the recording, monitoring, remote retrieval, transmission, processing, security and evaluation of measurement data, merchandise management systems, electric apparatus for aligning and adjusting pumps to individual needs, in particular for smooth start-up, speed control and pump control; manometers.

Class 37

Repair, maintenance and consultancy relating to the installation of units consisting of pumps, valves, motors and engines as well as equipment comprised of a combination of such products, machines for the chemical and pharmaceutical industries and for the food industry, machine housings, standard pumps, standard chemical pumps, chemical centrifugal pumps, chemical circulating pumps, submersible chemical pumps, unchokeable chemical pumps, axial centrifugal pumps, axially split pumps, magnetic pumps, magnetically coupled pumps, centrifugal pumps, sanitary centrifugal pumps, small centrifugal pumps, impeller pumps, base plate pumps, high-density pumps, valveless high-density pumps, compactors and vacuum pumps, namely rotary compressors, submersible pumps, unchokeable pumps, self-priming pumps, dirty water

pumps, in particular self-priming sludge pumps, armour-plated pumps, centrifugal pumps, pumps for conveying liquids, pumps (machines) for the chemical and pharmaceutical industries, corrosion-resistant pumps (machines) made of ceramic material, corrosion-resistant vacuum pumps and corrosion-resistant centrifugal pumps, pump impellers, split cases for magnetically coupled pumps, liquid-ring vacuum pumps, namely sliding rings, in particular bearings and shaft and sliding bearings for pumps (machines), sliding rings of metal-ceramic compositions for chemical pumps, protective sleeves, bearings, shafts, installations made of ceramic material, namely corrosion-resistant pump systems, pump protection apparatus, namely loading monitors, pump monitoring apparatus, in particular apparatus for vibration measurement, leak monitoring and temperature control, and other auxiliary apparatus required for the operation of pumps, auxiliary equipment parts for pumps, namely manometers, thermosiphons systems, housing for discharge valves and welding neck flanges, pumps components, in particular couplings and belts (except for land vehicles), parts for pumps (included in class 7 of this application), cast parts, namely ferro-silicon cast parts being parts of machines, parts of machines, motors and engines and couplings, seals for pumps, motors and engines, speed governors for machines, engines and motors, moulds (parts of machine), speed controlling mechanisms for motors and engines, regulators (part of machines), control mechanisms for machines, motors or engines, electric and electronic apparatus and instruments, electric switching apparatus, electric apparatus for monitoring industrial installations and industrial equipment, electric gauges, electric measuring apparatus, in particular flow measuring apparatus for gaseous, liquid and solid machines, electronic motors and engines (except for land/water vehicles), electric and electronic apparatus, instruments and switching installations, electric and electronic switching, measuring, control, regulating, testing, diagnostic, checking (supervision) and display apparatus, electric cables and wires, electric drives, electronic components and modules, computer hardware, measuring, control, regulating, signalling, checking (supervision) and recording devices, apparatus and instruments, electric evaluation and protection devices for recording and controlling electric signals, display devices, apparatus and instruments, parts for the aforesaid devices, apparatus and instruments for the operation of the aforesaid devices, apparatus and instruments, electronic data capture, data evaluation, data transmission, data processing, display, control and regulating devices, apparatus and instruments, electrotechnical and electronic measuring apparatus, devices and instruments and installations consisting thereof for filling, pressure, flow meter, temperature, pH, redox, conductivity and analytical measurement technology, automation, electric heating, and measuring, electrotechnical and electronic control, checking (supervision) and regulating apparatus for industrial purposes, electronic sensors, electronic devices and apparatus for recording analogue and digital values, physical variables from electrical engineering and signals, for converting and transforming analogue and digital values, physical variables from electrical engineering and signals, and for outputting analogue and digital values, physical variables from electrical engineering and signals, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and devices, weighing, counting, testing and electric switching apparatus, electric switch and control cabinets, cable cabinets (electricity), fuse boxes (electricity), junction boxes (electricity), distribution boxes (electricity), control panels (electricity), control engineering apparatus and devices for switching installations and network control engineering apparatus and

devices, memory-programmable control devices, apparatus for recording, sending, transmission, receiving, reproduction and processing of sounds and/or characters and/or images, communications apparatus for recording, transmission and reproduction of sound or images and installations composed of the aforesaid, apparatus for remote data transmission and data transfer, electric apparatus and electric instruments for controlling and for automatic maintenance of pumps, in particular lubricating devices, speed control devices and oil pump around coolers, apparatus for the transmission of speech, data and images and installations consisting thereof, modems, distribution, ducting and laying systems for electrical installation, electric and electronic apparatus and installations consisting thereof for process technology and measurement data processing, electric apparatus for the detection and measurement of pollutants in air, water and soil, and of noise, vibrations, meteorological data, electric and electronic control apparatus and installations consisting thereof, testing apparatus and parts therefor and installations consisting thereof for detecting and locating leaks in containers for liquid and gaseous substances, testing apparatus and parts therefor and installations consisting thereof for detecting and locating dirt on sensors and for recording measurement values for solid, liquid and gaseous substances, measuring apparatus for process regulation, electric and electronic apparatus for data recording, data processing, remote data retrieval, data switching, data storage and data output, computers and data processing equipment, in particular data recording installations for telemetry, apparatus for the recording, monitoring, remote retrieval, transmission, processing, security and evaluation of measurement data, electric apparatus for aligning and adjusting pumps to individual needs, in particular for smooth start-up, speed control and pump control.
