REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 07

Machines and machine tools; electronic components for machines and machine tools; machines for producing and for assembling printed circuit cards; labeling machines; finishing machines, setting machines and machines for creating bundles; thermal devices as parts of the aforementioned goods, namely ventilators, compressor impellers, heat sinks.

Class 08

Hand tools and implements, hand-operated; tools and hand tools and related accessories; parts and components for hand tools.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking [supervision], life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording disks; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing apparatus and computer hardware and peripheral devices for computers; computer software; computer wiring systems; electromechanical systems and parts and components related thereto; connectors and connection systems; electrical connectors, components for connectors, particularly containers; connections for equipment ("plug-in" connections); couplings, connections and joints; connector housings; components of wiring systems, particularly punchdown blocks (bars for multiple connections); jacks, plugs, connecting cords, connecting panels; wires and cables, cables of fiber optics; underwater cables, telecommunication cables, fiber optic and wiring harnesses, electrically conductive cable terminations; collars for wiring not of metal; housings for ground connections and guard shields for high voltage cables; connectors, lugs, splices for high voltage cables for industry in aerial and underground installations, including terminals; electrical cables for lighting installations; canals for electrical wiring, cassettes for managing fiber optic cables (plug and play cassettes), components of cabling for improving transmission of signals, particularly plates, divider coils, blocks, brackets, wiring ducts, rings and clips, housing for outlets and panels, and overvoltage protector devices; communication equipment, particularly electric jacks, plugs,

blocks, terminal strips, connector panels, connectors for couplings and cords, signal repeaters, signal conditioners, communication distribution frames, couplers for fiber optics, fiber optical wavelength-division multiplexers/demultiplexers, connection modules, interface modules, test modules, disconnection modules, connection and commutation chassis, switching (patching); devices for switching and monitoring electrical power supplies; control modules for connection and switching, data line emulators and monitors, transmission test kits, test cards for network switches (PBX), controllers for switching and controllers for networks, switching cards, switching cables, digital signal cross-circuit modules, transmission circuit boards, signaling sub-boards, transmission setting plates and connection designation bands; test equipment for private lines for carrying out tests on communication systems comprising test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, monitor loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, pulse generators, external impellers, loop returns and control devices for test baseplates, sold as a modular unit; electrical apparatus used as components of a private line test system for carrying out tests on communication systems, particularly test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, external impellers, loop returns and control devices for test baseplates; electrical apparatus used as components of a private line test system for carrying out tests on return loops, for controlling and testing two-wire communication lines, comprising an emitter and a receiver, sold as a unit; electrical apparatus used as components of a private line test system for carrying out tests on emitters and receivers, used in return loop test systems, for controlling and testing two-wire communication lines; electrical apparatus used as components of a private line test system for carrying out tests on fuse panels; electrical apparatus used as components of a private line test system for carrying out tests on terminals used in systems for condition monitoring, for controlling and supplying diagnostics for telemetry and information in a remote communication network system, particularly principal display terminals; electrical apparatus used as components of a private line test system for carrying out tests on systems for condition monitoring for controlling circuits and supplying diagnostics for telemetry and information in a remote communication network system, principal

display terminals sold as a unit; electrical apparatus used as components of a private line test system for carrying out tests on audio distribution amplifiers; electrical apparatus used as components of a private line test system for carrying out tests on loudspeaker monitors; electrical apparatus used as components of a private line test system for carrying out tests on series loop access systems, for providing access to series loop circuits comprising access panels to series loops and control panels relating thereto, sold as a unit; switching panels (patching); electronic components of apparatus for communication and communication devices, particularly terminal blocks, conference bridges, jack panels, jacks, transfer switches, coupling leads, plugs, reels for telephones, repeating reels, connector cables, solid state telegraphic relays; battery chargers, particularly battery chargers for aircraft and battery chargers for industrial and leisure vehicles; ammeters for direct current, transformers; private line test equipment for carrying out tests on communication systems comprising access modules, line selection modules, signal and/or composition modules, test modules and ohmmeters, sold as a unit, current sensors, magnetic amplifiers, diffusion filters, speed monitors for motors for monitoring the speed of electric motors, power units for providing a power supply to electrical apparatus, particularly computers; mechatronic systems, namely synergistic and systematic combinations of mechanics, electronics and computing in real-time, relays, automobile telecommunication devices, computing and industrial relays, electronic apparatus, electrical apparatus, namely electrical apparatus used in relation with the aerospace industry and the defence industry (except armaments), with computing, electronics, electrical tools, gardening tools, multiswitches, fixed stations, network interface cards, cards for computers, systems for the distribution of electrical power including rail transportation systems, network wiring for buildings, automobiles, transportation namely with all kinds of water, air and land vehicles particularly aircraft, cars, trucks, boats, motor cycles, bicycles, telecommunications networks, industrial engines, lighting, machine tools and production monitoring equipment, heating, ventilation and air-conditioning, components for security systems, instrumentation and medical equipment as well as in relation with devices for assisting mobility and medical diagnostic devices and railway devices; terminals; splices, support sockets for chips; linear, digital, analogical, electronic, electrical circuits; bridge circuits; integrated circuits; electrical adapters, hybrid adapters; sensors, magnetic sensors, radar sensors, inductive sensors; gas sensors; wireless components and subsystems; antennas; aerial systems; audio- and video-receivers; GPS receivers; circuit boards; electrical distribution boxes; multi-circuit electrical bands; touch screens; tactile computers, interactive screens; monitors for computers; computer monitor bezels, computer network nodes, switches and

routers; apparatus for computer networking; apparatus for linking computers in networks, apparatus for protecting computers against electrical power supply problems; electrical components intended for single use in computer wiring ducts, electrical components intended for single use in supporting computer cables, emergency controls for computers; broadband data interconnection computer installations; electronic components for computers; fiber optic computer installations for use with computers; components of connections ("plug-in") for computer modems; electrical processing equipment, namely connectors between wires and boards, boards and boards, cables and boards and cables and cables; inductors, high current indicators, cable wind indicators, chokes, high current indicators, drum core indicators, shielded cable reel inductors, non shielded reel inductors, electric inductors; LAN protocol magnetic elements; magnetic modules; resistors; resistances, electric; commutators; switches, electric; chip cards; fiber optic products; electro-optical products; circuit board assemblies for multiple connectors; circuit board assembly interconnections for multiple connectors; attenuators; multiplexers; amplifiers; data communication systems; heat-shrink sheaths; filters, electrical line filters; signal filters, duplexers; capacitors; transformers; couplers; batteries; battery terminals; microwave products, circuit mixers, frequency modulators; converters; heat sinks; heat sinks intended for electronic apparatus; measuring devices; controllers; radio frequency identification tags for radio frequency identification (RFID), protective devices against short circuits; switches, electric; fuses; radar systems; components of radio frequencies (RF); cabinets for loudspeakers, switchboxes (electricity), distribution boxes (electricity), cabinets intended for computers; thermoretractable sheaths and their enclosures; electrical and electronic components for identification and labelling; electronic and electrical panels; fiber optic panels; radios; accessories for radios; converters, electric; keyboards; screens; touchscreen systems, namely touchscreens, touchscreen monitors, computer keyboards, touchscreen computers, electronic components for touchscreen technology, particularly micro controllers and electronic accessories, particularly magnetic tapes or credit card readers, small display devices for frontal display, for use with touchscreens and touchscreen computers; electrical sleeves, electrical connectors, electrical spacers, voltage surge protectors, electrical equipment for applying voltage and grounding; link boxes; electrical control cabinets; vibration indicators; electrical fuses, light-emitting diodes [LED]; telecommunication equipment, particularly terminal blocks for cables for moving and insulating; electrical protection devices (except for insulators) and against voltage surge for electrical and electronic telecommunications systems and data telecommunication systems; connectors, namely voltage surge protectors, fuses, diodes for fuses, thermo-protective

switches and varistors; cable systems for telecommunication; dividers; optical dividers; multi-user wall housings; residential wall and floor cabinets for cabled or optical links; computer equipment including gateways, switches, bridges, connectors, cables, relays, sensors, routers, concentrators, repeaters and network adapters, equipment and components for use in transmission of data, text, video, audio and voice transfer by broadband, radio broadcasting, cable broadcasting, coaxial cable, copper wires, fiber optics, radio, telephone, twisted pairs, wire, wireless and other telecommunication technology; computer software for use in the use and management of telecommunications systems, in equipment and in communications on such systems; electrical metal connectors and connectors, accessories for wiring for electrical distribution networks, electrical terminals and junctions, electrical locking devices; lighting controllers; electrical and electronic cable systems for vehicles, wiring harnesses for vehicles; controls for LEDs; electrical and electronic control operating systems adapted for electrical cable harnesses and connectors; accessories namely, clamps being electrical connections, electrical terminals and crimp terminals for electricity conduits which distribute electricity; devices for managing cables, electrical lines; acoustic products, namely surface waves, sonic and ultrasonic waves traveling on the surface of a screen, systems for recognizing audio impulses, audio microphones; electrical and electronic interfaces such as parts of the abovementioned goods; acoustic pick-ups, particularly audio microphones, micro controllers for tactile recognition of acoustic waves, software for tactile recognition of acoustic waves.

Class 17

Rubber, gutta-percha, gum, vinyl and products made of semi-processed plastics; packing, stopping and insulating materials; flexible tubes, not of metal; tubing, namely tubing and connection pieces not of metal for pipes, tubing of rubber, heat shrink tubes, tubing for nuclear applications, sheaths for tubing; rubber products; electrical insulating products and electrical insulating materials; tubes; insulating goods and materials; casings for cables of plastic; insulating tape, tapes for cable links, tapes for securing cables, adhesive tapes; insulating sealants, insulating tape and insulating sealing products, tapes for tying cables and for fitting cables; films made of polyester; thermoretractable sheaths; shrinkable sheaths; adhesives other than for medical, stationery or household purposes; thermal insulating materials as parts of the abovementioned goods, namely thermal conduits.

Class 37

Construction; repair, installation services; installation and repair of telecommunication networks; installation, maintenance and repair of telecommunication apparatus; installation, maintenance and repair of telecommunication installations, communications

networks, computer networks and data networks; wiring buildings for transmitting telecommunication, wiring for telecommunication; construction; installation, maintenance and repair; installation, maintenance and repair of electrical systems and equipment; machinery installation, maintenance and repair; services involving maintenance and repair of technical products; installation and repair of telecommunication systems and facilities (computer hardware), computer hardware and computer peripheral devices; installation and repair of equipment and household infrastructure systems (computer hardware); consulting in installation of data cable systems; repair, maintenance and installation consultancy services relating to the performance of data cable systems; consulting in installation of telecommunication systems and networks; all above-mentioned services particularly relating to products under guarantee.

Class 38

Telecommunications; telecommunication services involving terrestrial, wireless and underwater communication; consulting in the field of telecommunication.

The following claim is made in the International Registration:
Colours claimed: Red and blue.

Class 07

Aeroplane engines, electric motors and parts and apparatus for such engines and motors.

Class 12

Aeroplanes and parts (excluding engines).

Class 37

Airplane maintenance and repair services; maintenance, fitting, refurbishment of airplanes and airplane parts, refurbishment of aircraft cabin furnishings; repair and maintenance of electronic and optical devices, engines, motors and driving units consisting of machine parts of aircraft for others; installation of aircraft and parts thereof.

Class 39

Domestic and international air and land transportation services for the carriage of passenger, mail and cargo, air ticket booking services, agency and brokerage services, namely travel agents services for arranging and booking travel, car hire and tours, shipping agency services, forwarding agency services, cargo agency services and agency services for arranging the transportation of goods and persons; piloting, travel booking (reservation services), rental services for aircraft, equipment, power units, parts and components required for flight operations, warehousing and transport of materials required for maintenance, repair, recycling and modernization of aircraft and spare parts.

Class 42

Compilation of computer programs for aircraft and parts thereof, services of scientific and industrial review and research, engineering services, technical expertise, namely preparation of technical projects, technical research and consultancy services, preparation of technical reports, preparation of technical studies, provision of surveys (technical), scientific and technical analysis, technical data analysis services, technical diagnostic testing services, technical drawing services, technical inspection services, technical project studies, technical research, technical studies, technical survey services and technical testing service, for third parties, in the field of aviation, aircraft and flight engineering,

aircraft technical services relating to aircraft engineering, inspection (testing) of electronic databases and software for aircraft and parts thereof, provision of information for aircraft and parts thereof and technological innovation, namely, provision of information relating to the development of aircraft and parts thereof; providing information, including online, about scientific and technological services relating to the development of aircraft and parts thereof and the research and design relating thereto.

Class 09

Electronic data carriers and memories, multimedia products, namely interactive database and computer programs, CD-ROM periodicals and books, electronic periodicals and books, all the aforesaid goods only for promoting the quality of, and the marketing of wine and other alcoholic beverages.

Class 16

Printed matter, in particular newspapers, periodicals, books, award documents and wine labels, all the aforesaid goods only for promoting the quality of, and the marketing of wine and other alcoholic beverages.

Class 21

Household or kitchen utensils and containers (not of precious metal or coated therewith); sponges; brushes (except paint brushes); articles for cleaning purposes; glassware, porcelain and earthenware not included in other classes; household and kitchen utensils for wine, not included in other classes, in particular wine and sparkling wine buckets, decanters, rack adapted for drying decanter and glass, drip collars, bottle sleeves, cleaning brushes, wine glasses.

Class 33

Alcoholic beverages (except beers).

Class 35

Advertising and marketing; import-export agencies, arranging and concluding of commercial transactions, demonstration of goods for advertising and promotional purposes, business consultancy in the fields of buying, selling, marketing, advertising and distribution; organisation of exhibitions for commercial or advertising purposes for the marketing of wine and other alcoholic beverages, all the aforesaid services only for promoting the quality of, and the marketing of wine and other alcoholic beverages.

Class 41

Publication of newspapers, periodicals and books; arranging and conducting of exhibitions, presentations, conferences, seminars, congresses, tasting and wine award ceremonies for promoting the quality of wine and other alcoholic drinks, all the aforesaid for educational purposes; arranging and conducting of presentations, conferences, seminars, congresses, tasting and wine award

ceremonies for promoting the quality of wine and other alcoholic beverages, all the aforesaid for educational and recreation purposes.

Class 01

Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; fertilizers; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives for industrial purposes; sensitized films, unexposed; synthetic resins (unprocessed); thermoplastic synthetic resins for general use in applied arts; chemical intermediates; organosilicon compounds, namely polysiloxanes and silanes in the form of resins, pastes, liquids, elastomers, vulcanizing products and accelerators; antifoamers; catalysts for paints; chemicals used for developing and fixing X-ray films and other chemicals in connection with developing the said films; phosphorescent substances (other than paints); chemical substances used as fissile materials; fuel for nuclear reactors; adhesive materials for industrial purposes; polycrystalline alumina ceramics for general use in applied arts (chemicals); brazing preparations and brazing fluxes; thermoplastic and thermosetting adhesives for industrial purposes; chemical, biochemical and reagent products for use in industry, science and research; chemical products, kits and reagents for analysis or diagnosing for scientific purposes, namely chemical products for use in cell culture and separation, the purification of nucleic acid, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino-acids, organic molecules and markers for use in synthesizing DNA/RNA; luminescence reagents for industrial use; reagents for quantifying the gene expression; reagents for the polymerase chain reaction process; reagents for the rolling circle amplification process; reagents for use in cloning of DNA and vehicles, modification and restriction enzymes; reagents used for labelling, sequencing and fragment analysis of nucleic acids, proteins and custom synthesis; reagents for recombinant protein expression purification; media for use in chromatography (not medical); reagents for electrophoresis, bio-informatics, spectrophotometry and fluorometry; radiochemicals for scientific research purposes; reagents for scintillation assays; reagents for use in fluoroscopic and confocal high-resolution laser microscopy; specialised chemicals for use in industry, science and research; gases and gas mixtures for industrial, research and scientific purposes; chemical preparations and substances for the manufacture of pharmaceutical products, diagnostic preparations and substances; chemical test reagents,

saline solution and reagent-coated paper, all for scientific and laboratory use; fissionable chemical elements for scientific research purposes; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources for use in non-destructive testing, purification or sterilizing techniques (scientific); radionuclides for scientific research purposes; chemical products and compounds for the treatment of water supply systems, wastewater treatment systems, cooling water circuits, steam generation and boiler water systems, boiler condensate systems, liquid separation systems, systems for water clarification and dehydration in aqueous systems, conditioning systems, gas scrubbing systems, industrial process systems, fuel processing systems, gas and hydrocarbon processing systems, petrochemicals and petroleum and gas processing systems, paper and pulp manufacturing systems, plastic and metal coating systems, metal processing systems; chemical products, namely additives (chemical) for gasoline, additives for furnace oil and additives for improving the performance of fuel for turbine engines; test kits containing reagents for determining the presence of algae and active organic organisms in diesel fuel; bacterial cultures and nutrients for the treatment of slurries and wastewater; chemical polymer products for dispersing particulate matter in steam generating equipment; chemical products and compounds used as anti-fouling and demulsifying agents in coke and derivative product manufacturing operations in the iron and steel industry; none of the aforesaid goods comprising photographic, cinematographic or optical products; radiopharmaceutical products for scientific and research uses; polymer membrane materials for separating liquids (chemicals).

Class 02

Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; natural resins, raw; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of a coating for use in the metal-finishing industry, namely a final aqueous acidic rinse; corrosion inhibitors in the form of a coating for cooling water circuits; corrosion inhibitors in the form of a coating, namely resinous coatings for metal and masonry surfaces; coating materials, namely in the nature of fluids or powders for protection against chemicals, weather damages, scratches, paint chipping; toner cartridges (filled) for printers; ink cartridges for printers; toners in the nature of dyestuffs, toner cartridges (filled) for copiers, toner cartridges (filled) for facsimile machines.

Class 03

Bleaching preparations and other substances for laundry use; cleaning, polishing, degreasing and abrasive preparations; soap; perfumery, essential oils, cosmetics, hair lotions; dentifrices;

chemical cleaning preparations for cleaning steel, galvanized and mixed metal surfaces; scouring solutions for paint containing chemical products and compounds for removing paint from equipment surfaces in operations in paint spraying booths.

Class 04

Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels [including motor spirit] and illuminants; candles and wicks for lighting.

Class 05

Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic substances adapted for medical use, food for babies; plasters, materials for dressings; material for dental fillings and dental impressions; disinfectants; pesticides; fungicides, herbicides; pharmaceutical diagnostic preparations; pharmaceutical, veterinary preparations for diagnostic purposes; pharmaceutical and veterinary substances for medical purposes; diagnostic reagents and products for medical purposes; diagnostic substances for medical purposes; contrasting substances for medical imaging; diagnostic reagents used for scanners for use in vivo; diagnostic imaging media for imaging using magnetic resonance (MRI); radiopharmaceuticals for clinical and medical purposes; pharmaceutical radioactive and reactive non-radioactive products for producing radiopharmaceuticals for in vivo diagnostics or for therapeutic purposes; gases and mixtures for use in medical imaging; medical diagnostic reagents contained in pre-filled flasks; chemical solutions for medical purposes contained in pre-filled cartridges; gases and gas mixtures for medical purposes contained in pre-filled cylinders.

Class 06

Common metals and their alloys; building materials of metal; buildings, transportable, of metal; railway material of metal; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes of metal; safes; goods of common metal not included in other classes; ores of metal; locks of metal; metal security enclosures, namely key cabinets, storage tubes and security storage boxes for keys; sealed metal post boxes for industrial, residential, real-estate and vehicle sales; metal key cabinets (not furniture) for locking, tracking and storing keys; metal safes for keys; metals and alloys in unworked, liquid, sintered, pressed, machined, foil, wire, slug, rod, strip and casting form; key chains of common metal; trolley wire for cabling, metal doors, metal barriers, electric garage doors, acid-resistant high polymer coatings, steel plates, steel panels for office floors, welding wire; hardware of metal, small; small metal articles; soundproof sheet metal.

Class 07

Machines and machine tools; motors, other than for land vehicles; machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; apparatus, equipment and instruments for electricity generation, namely electricity generators and wind turbines generating electricity; turbines for power generation; turbines for production of energy; wind turbines for production of energy; wind turbines linked to wind farms, turbine production installations, namely electricity generating sets; generating sets for use with motors; parts and components of all the above products; solar-powered electricity generators; dynamos; electric motors (other than for land vehicles), gas and steam turbines and components thereof (other than for land vehicles), electric generators and components thereof, aeroplane engines, compressors (engines); washing machines, dishwashers, garbage disposals and compressors (machines); pumps, namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps and transfer pumps; devices for controlling liquids, namely valves, regulators, actuators, ejectors, all the aforesaid being parts of machines; machine parts, namely liquid separation cartridges and components thereof in the nature of semi-permeable membranes; filter cartridges for various manufacturing machinery for filtering applications, including the filtration of coating solutions for the manufacture of magnetic tapes and the filtration of petrochemical products, drinking water, beer in the brewing industry and other special chemicals, all the aforesaid being parts of machines; machines for feeding and applying chemical products used in industry; centrifugal and axial compressors (machines); piston compressors; screw and vane compressors and screw pumps; rotary, vacuum, electrical, submersible and centrifugal pumps; turboexpanders, namely, air and electrical compressors; CNG (compressed natural gas) refuelling machinery for land vehicles and industrial equipment and parts and accessories for all the above goods, namely pumps, valves, fuel filters, filter cases, ignition rotors, blades, bearings and mechanical seals; condensers [steam]; motors for boats; turbocompressors for motors and engines; fuel injectors; welding machines, industrial robots, machines for inserting electronic components, dry etching machines, electrical micro-discharge machines, optical disk production systems, precision joining machines, processing machines for printed wiring boards, parts mounting machines, soldering machines, machines for fastening screws, electric tools; electric motors, electric generators; elevator (lift); washing and drying machines, electric washing machines, electric dishwashers; compressors (not surgical); pumps, electric pumps; mixing, cutting and mincing machines, mixing machines, electric juice extractors, electric food processors, electric meat grinders, electric can openers, electric knife sharpeners, electric coffee grinders, electric ice crushers,

electric machines for processing waste; electric gardening tools, electric lawnmowers, sprayers (machines) for garden use in spraying disinfectants and insecticides; electric cleaning appliances, electric vacuum cleaners, electric floor polishers; electric window-washing devices; electric hand tools and instruments; welding machines; arc, gas or plasma metal cutting machines; mixers, juicers, shakers, food processors, mincers/meat grinders, electric can openers, all the aforesaid being machines.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking [supervision], life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording disks; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; extinguishers; protective helmets for sports; spectacles, sunglasses, goggles for sports; software, computer game programs; self-regulating fuel pumps for refuelling airplane engines; fuel distribution equipment, namely calibrated fuel pumps, electrical fuel level gauges, electric control valves for regulating gas flow rate and fuel lines; automated service-station management systems comprising of computer-operated software, metered fuel pumps, flow-rate control panels, fuel lines and dispensing nozzles, the aforesaid being adapted for use with fuel dispensing pumps for refueling land and water vehicles and airplanes; gas meters; onboard and roadside communication and signaling systems, train inspection systems, crossing notification systems, electric points control apparatus; GPS monitoring and surveillance systems for freight-forwarding industries and railways; electricity distribution devices and products, namely capacitors, circuit breakers, circuit-breaker distribution panels, circuit cut-off switches, cut-outs, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, power supply systems, electricity distribution boards and branch boxes, electricity control consoles, electricity switching panels and boxes; computer software intended for individuals charged with troubleshooting and maintaining programmable controllers, computer software for blood vessel analysis, including cardiac vessels, also with calculation functions with regard to blood vessels, computer software for patient medical monitoring equipment, computer software for receiving, processing, transmitting and displaying data, computer software for the development of customized programs allocation of goods; computer software for use online allowing office equipment vendors to present requests,

manage portfolios and communicate with a company; computer software for accessing information on mortgages and insurance, computer software used for collection of data relating to vital signs, computer software for analysis of electrical systems and electronic instruction manuals sold as sets, computer software for employees of financial institutions for determining financial investments of customers and processing the sale of said investments, computer software designed to obtain information about flooding risks for real-estate property, computer software for developing graphical user interfaces and viewing data, calculation software for mortgage payments, computer software for controlling and managing maintenance services for vehicle fleets, computer software for using and accessing commercial computer services, computer software for customers to obtain information on lease portfolios, computer software for a radiological information system for radiologists and radiology departments, computer software for managing databases containing information on employees and patients for the purposes of archiving and patient monitoring, computer software installed on and used with PCs and medical monitoring equipment for graphical user interfaces, computer software for sending encrypted and compressed data on radio-paging systems (transport), computer software providing access to Web sites where buyers and sellers can do business electronically, and computer software for underground navigation purposes, namely for steering the assembly of borehole viewers for oil drilling and borehole assemblies for guiding underground installations; electronic, nuclear, industrial and laboratory, test, measurement, calculation and control instruments and apparatus, telephones; electrical goods, goods for producing and distributing electricity and protective products against overvoltage, namely lightning conductors, bus ducts; capacitors; contactors for lighting; input/output controls and devices; fuses; lighting controls; switch boxes, LEDs, namely light-emitting diodes, electricity voltage regulators, surge voltage protectors, surge absorbers, voltmeters, electric circuit boards, relays and automatic time switches, solenoids and end switches, across-the-line manual starters, pinch-off voltage starters, electric switches and isolating switches, crossovers for patch panels and pumping panels, circuit breakers and isolators, transformers, electric circuit boards and electric lighting boards, electric wires, cables, cords and leads, electric wiring and attachments, lightning conductors, electricity meters, watt meters, earth resistances, humidity and temperature sensors; industrial calibration sensors, push-button switches, control centers for engines and their electrical control systems and voltage regulators included in this class; computer software and computer programs for medical and industrial use and for research; electrophoresis apparatus; chromatography columns and pumps for scientific or laboratory use; apparatus for microfabrication; apparatus for bio-informatic systems; apparatus for scintillation;

imaging apparatus for radioactive and luminescent emissions; integrated synthesis and purification systems; laser optical systems for digital imaging; glassware for laboratory use; vials and micro-flasks for laboratory use; microtitration plates; computer software for managing hospital operating theaters; computer software for managing information on intensive care; computer software for controlling industrial operations; computer software and manuals therefor sold as sets for use in managing factories; computer programs with graphic interface for controlling machines in industrial automation applications; computer software for creating graphic presentations and dynamic data print interfaces for graphic applications in real-time for commercial and industrial use; communications software for connecting computer network users; computer software for plastic injection molding; computer software for controlling, monitoring, simulating, communicating, recording and compiling data and factory automation; computer software for integrating manufacturing machine operations, process control, providing data for display, problem monitoring and production report generation; software packages for operating and programming grinders in the manufacturing industry; computer hardware for industrial process control, namely computer screens; laptop computers, Ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; concentrators, commutators and computer network routers, computer accessories, visual display units and terminals; computer whiteboards; central processing units and system cards; call controllers, operator interfaces, reference interfaces and data collectors; computer software for control and manufacturing applications, namely statistical process control, data collection, distributed numerical control; document management systems; products and systems for digital signal processing, namely industrial automation controls and programmable logic controllers; electric control apparatus for machine tools, namely an adaptive control product in the form of an external controller for optimizing machine-tool cutting performance of rough and semi-rough cut; distributed and remote input/output equipment, input/output modules, interface modules, electric power supply units and assembly equipment; burglary and theft alarm systems (other than for vehicles); security devices, namely logic programming computers, operator control panels, electronic burglar detection systems, electronic detectors of breaking glass, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, movement-sensitive electronic switchers, sirens with fixed connection, audio loudspeakers, in-car navigation systems, alarm monitoring and access control systems; fire, heat and smoke alarms and detectors; access control systems using computer cards; card readers, card encoders and encoded cards for access control systems using cards; camcorders; video

devices used for object recognition; video devices used for tracking objects; video devices for reading license plates; video devices used for alarm screening; video devices used for facial recognition; video devices used for vehicle recognition; traffic-responsive video devices; video devices for controlling access doors; video devices for intrusion detection; hardware or software for processing which analyses digital video images to extract, record and report information automatically, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; filming apparatus; closed-circuit video systems; closed-circuit video systems comprising one or more cameras and camera housings; radio frequency, short-range, wireless transceivers; emitter-receivers for power lines; communications control equipment for operating closed-circuit cameras; communications control equipment, namely numerical keypad control devices, matrix switches, multiplexers, digital video recorders, integrated tilt panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of closed-circuit camera operating systems; personal digital assistants configured to be used by real-estate professionals; communication interface devices for PDAs; fiber-optic transmission systems, namely fiber-optic emitters, receivers and transceivers for transmitting video, audio and data signals over fiber-optics; switches, electric; electromechanical locking devices; magnetic cards for locksmiths' goods, access control, presence monitoring, alarms and security systems; electric keys; portable electronic equipment for receiving, controlling, storing, manipulating, displaying and transmitting data and opening electronic locks; electronic access cards and their readers and encoders; magnetic access cards and their readers and encoders; smart access cards and their readers and encoders; proximity cards and their readers and encoders; electronic key tags and their readers and encoders; barcode access cards and their readers, encoders and laminators; numerical access keypads; radio-frequency tracking sensors; control and tracking systems comprising one or more detectors, transceivers and radio-frequency tags for determining and monitoring the location and movements of personal property, stocks and persons; infra-red sensors; computer hardware and software for infrastructure management and infrastructure access system control and components thereof, namely control boards, access card readers and equipment and video imaging and video surveillance systems, digital hard disk recording systems, network transmission and remote access systems; networked digital video storage servers, applications for surveillance and access control, alarm monitoring and security, computer software and hardware for controlling and operating access and security systems comprising locking systems, door systems and access and identification devices; surveillance

equipment sold separately or as parts or as a set as a system comprising one or more surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera supports, camera lenses, video monitors, video recording machines, digital recorders, video recording carriers, video switches, control panels, numerical keypad control devices, joystick controls, interface apparatus for alarms and access control equipment, transceivers, receivers, emitters, signal processors, multiplexers, matrix switches, controls, control panel housings, switch boxes, transformers, commutators, distributors, coaxial cables, connectors, motion sensors, microphones and loudspeakers; user interface software and control software for managing access, security and fire extinguishing systems; locks, electric; portable electronic computer and communication equipment for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locking devices; electronic key tags, readers and encoders; computer software and hardware for data processing; electric power supplies, namely batteries, current/voltage rectifiers/regulators and transformers; control panels, namely electronic apparatus designed to monitor a predetermined activity electronically and activate a theft alarm; siren loudspeakers; drivers of electronic sirens, namely tone generators and amplifiers for sirens; communication equipment control software for operating and controlling closed-circuit cameras; switching devices incorporating magnetically actuated reed switches for theft alarm and fire alarm systems, in industrial tracking apparatus, revolution counters, equipment cupboard security locking systems, industrial apparatus for position monitoring, electric cables and valve and pump control apparatus and domestic security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on persons, in luggage and cargo; electric and electronic checking apparatus for detecting the presence of explosives and/or drugs on persons, in luggage and cargo; apparatus for detecting the presence of explosives and other contraband goods; automatic time switches or apparatus sensitive to changes in conditions for launching and monitoring regeneration of washing cycles for water treatment installations; electric control valves for water treatment and filtering equipment; bioreactors for the culture of cells; portable analysis instruments, namely a probe with a recorder for converting microprocessor data for measuring organic and inorganic products in water; filters and housings of filters for use in laboratories; liquid separation apparatus for use in laboratories; membrane filters for use in laboratories; silt density measurement devices; deionization devices for use in laboratories, filters and casings of filters for use in laboratories; membranes for use in laboratories; liquid flow rate control devices, namely pumps, valves, flow meters and regulators for use in laboratories; ozone monitoring instruments; laboratory equipment, namely porous

titration microplates for use in cell biology and other life science applications; electronic controls and apparatus, namely sensors and programmed integrated circuits, all for the monitoring of industrial processes (determine the correct treatment program, apply the desired treatment and monitor effectiveness of the treatment) including for use in following industrial fields, namely treatment of industrial and commercial water supply systems, boiler water systems, cooling water systems, cooling water circuits and closed water supply systems, paper and pulp treatment systems, fuel processing systems and systems for processing metals to analyse system chemistry; data management software in the field of paper, pulp and water treatment; electronic controls for processing information in the field of paper, pulp and water treatment; apparatus for industrial water supply systems for measuring and monitoring pH values and conductivity; apparatus for supplying chemicals in measured quantities to industrial, commercial or municipal water supply systems; electronic test apparatus for water treatment; laboratory test equipment, namely testing apparatus for deposit rate and corrosion speed; mobile laboratories fitted with equipment and instruments for measuring and monitoring pH values, conductivity and chromate concentrations in domestic and industrial water, for performing inorganic analyses and microbiological tests on water; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation into electricity, namely photovoltaic solar modules, photovoltaic hybrid solar modules, electronic sensors for measuring solar radiation, solar batteries; apparatus for converting electronic radiation into electrical energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, inkjet printers, multifunction and multipurpose printers, parts of all of the above products; portable electronic devices for the wireless reception and/or transmission of data, allowing users to store or manage personal information and allowing the transmission or reception of voice, video and image communications; computer software for synchronizing data between a remote unit and a fixed unit, and computer software allowing simplex and/or duplex wireless connections for data; portable digital electronic devices and related software; portable electronic devices for the wireless reception and/or transmission of data; computer software for redirecting messages, electronic mail and/or other data from a personal computer or a computer server to one or more portable electronic devices; computer software and computer programs for managing and operating wireless devices; telecommunication devices; computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks and for browsing Web sites on the aforesaid networks; computer software for sending and receiving short messages and electronic mail and for filtering

non-text information from data; portable electronic devices for voice, video, data and image communications; computer-gaming software for use with mobile telephone handsets; electronic games software for use with mobile telephone handsets; software, packaged software; batteries, dry cell batteries, rechargeable batteries, battery chargers, storage batteries, solar batteries, fuel cells; carbon rods for use as fuel cells in dry batteries, carbon rods for use as welding electrodes; wiring apparatus, electric connectors, electric cables, electric conduits, floor ducts specially designed to receive electric cables, ballast (for discharge lamps), under-carpet wiring systems, lighting code switches, circuit breakers, magnetic contactors and starter switches, circuit protectors, switching devices, electric junction boxes, electric switches for devices, electric sockets, electric plugs, electric timers; signaling apparatus and instruments, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas leak alarms, anti-theft alarm devices, portable emergency intercoms; acoustic devices and apparatus, radios, tape players/recorders, radio cassette recorders, portable tape players, compact disk players/recorders, minidisk players/recorders, consoles for minidisks, audio DVD players/recorders (digital versatile disks), secure digital players/recorders, secure digital maps, loudspeakers, electronic tuners, amplifiers, stereo component systems, disk drives, graphic equalizers, radio alarm clocks, integrated circuit recorders, digital sound processing devices, headphones, headsets, microphones, cassette players/recorders, computer software for compact disks (pre-recorded), electric megaphones, language libraries, audio systems for motor cars, public address systems, mixing consoles, cleaning apparatus especially adapted for use with recording and playback equipment and recorded material; audiovisual machines and apparatus, television receivers, cathode ray tube display monitors, cathode ray tubes, image camera tubes, plasma television receivers, plasma displays, television receivers (liquid crystal displays), liquid crystal displays, television receivers combined with video tape players/recorders, television receivers combined with disk players, antennas, tuners for satellite distribution, tuners for television, Internet terminals, video projectors, video cassette recorders, camscopes, video cameras, video printing apparatus, laser disk players, vcd players, computer software for CDs (video CDs, video players/recorders for DVDs (digital versatile disks), color video systems for large-scale display, cable television systems, computer hard disk drives, video-imagers, electrical optical display boards, multi-use electrical display systems, closed circuit video equipment systems, computer software for DVDs (digital versatile disks), television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems (digital versatile disks), light-emitting diode displays, other audiovisual machines; optical disk machines and apparatus; optical disk drives, optical disk recorders, optical disk

players, optical disk changers, optical disk cartridges, optical disk recording systems; communication machines and apparatus, transmitters and receivers of facsimile messages, transceivers, telephones, mobile/cell phones, cases for mobile/cell phones, telephone answering machines, private automatic exchange systems, global positioning system receivers, radio telephones, marine radars, radio paging receivers, mobile communications systems, multichannel access radio systems, electric traffic information signs, video conferencing systems, systems for private mobile telephones, local network systems, codecs (coders/decoders) AV, car navigation systems (road guidance systems), electronic systems for collection of road tolls, GPS-antennas (global positioning systems); surveillance apparatus and instruments (monitoring), electrical devices for opening doors, communication and surveillance systems for apartment buildings, intrusion detection systems, automated systems for surveillance and function control in buildings, electrical multilayer security apparatus; automatic control machines and instruments, electrical distribution panels, control apparatus for road signs, bus stop systems, ultrasonic vehicle detectors, information and telecommunications networks for road traffic management, light dimmers, pilot light switches, inverters, programmable control systems, transformers, domestic electricity generating systems, power capacitors; data processing apparatus; computers and computer peripheral equipment, text-processing equipment, computer software (recorded), image scanners for personal computers, printers, PC-cards (personal computers), computer keyboards, computer mice (data processing equipment), CD-ROM drives (read-only-memory compact disks), floppy disk drives, card read/write systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants, DVD-RAM/ROM drives (digital versatile disks random access memory/read-only memory), CAD/CAM (computer-aided design/computer-aided manufacturing) systems, computer hard disk drives, electronic calculators, computer software, uninterrupted power supplies for computers/communication/broadcasting; external storage media, video cassettes, cassette head cleaners for video tapes, D-VHS (video systems for the home), computer peripheral devices; video tapes, audio cassettes, diskettes, optical disks, minidisks, DVDs (digital versatile disks), memory cards with integrated circuits; weighing and measuring apparatus and instruments, thermoluminescent dosimetry systems, portable X-ray dosimeters, electronic meters, ammeters, electricity consumption meters, locking gauges, electrical leakage gauges, electrical insulation meters, thermometers, measurement system processors, electric multicircuit-type mains voltage monitors, micrometer gauges, body fat monitors, pedometers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, measuring apparatus;

sensors (measurement apparatus), other than for medical use, photosensitive sensors, thermometric sensors, position sensors, angular rate sensors, rotation sensors, angle sensors, dew point sensors; electric components, light-emitting diodes, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, semiconductor memory (devices), single-chip microcomputers, cartridges for electrical capacitor microphones, half-tone image processors, thermal printing heads, magnetic heads, permanent magnets, connectors, relays, display components, semi-conductor lasers, charge-coupled devices (CCDs), image detectors, film condensers, electric tuner units, high-frequency units, ticket validation units, magnetic card read/write devices, voltage-controlled oscillators, phased-locked loop synthesizer modules, wireless communication modules and/or units, optical transmission components, printed wiring boards, components for loud-speakers, apparatus for electricity supply, AC adapters (alternating current), focusing magnets, inductors (coils), capacitors for electrical apparatus, electrical signal filters, transformers, deflecting yokes, thermistors, varistors, piezoelectric ceramic components, acousto-optic devices, resistors, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-sealable wiring boards, transparent keyboards, electro luminescence elements, remote control units, magnetic resistance elements, thermomagnetic cut-offs devices, electric flat irons, electric hair rollers, electrical hair irons; electric arc welding apparatus, welding electrodes; electric timers; data processing equipment, in particular for financial applications, operating systems programs; computer hardware and software, in particular for the development, maintenance and operation of local-area and wide-area computer networks; systems for reading smart cards and systems for reading stored data including integrated circuit memory units and bank card memory units; automated banking machines; accounting machines; coded cards, including magnetic cards and integrated circuit cards (smart cards), in particular for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; automated banking machines; encoders and decoders; modems; encoded magnetic cards, cards carrying electronic data, coded magnetic card readers, card readers carrying electronic data, electronic systems for encryption, computer hardware, computer terminals, computer software used in financial services, the banking and telecommunication industries; electric and electronic goods, namely calculating machines, pocket agendas, alarms and flashlights (photography); bank cards, including printed bank cards and bank cards incorporating magnetic memory and integrated circuit memory; bank cards, credit cards, debit cards, including such cards fitted with integrated circuits and microprocessors; memory boards; automated teller machines; data

processing equipment and computers incorporating cards fitted with microprocessors and integrated circuits; computer equipment in the form of integrated circuit cards and card readers incorporating transponders and other contactless payment devices; mouse pads; inductive electrical apparatus, electric regulating apparatus; electricity measuring instruments, electric protection devices, switching panels, apparatus for switching panels, wiring and cabling devices and consumables; devices for controlling liquids, namely flow meters, pressure switches, sequential time switches, commutators and electrical controls; electric devices for killing insects; audio amplifiers for keyboards; external memories for musical instruments; hair-curlers, electrically heated; electrical hair irons; hair curlers, electric; data management systems and systems for storing anesthesia archives.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; testing apparatus comprising test tubes, test plates and indicator diagrams for evaluating test results in kit form (medical); medical systems of apparatus and accessories for administering measured doses of pharmaceutical preparations; vials for medical use; cannulae for medical use; syringes for medical purposes; injectors for medical purposes; cartridges for medical use; infusion pumps used for administering liquids intravenously; needles for medical purposes; monitors of cardiac output; heat and humidity exchangers for medical use; bacteria filters for medical use; gas analyzers for medical use; patient monitoring systems, namely, gas monitors (medical); pulse oximeters, multiple parameter monitors, ECG monitors, invasive and non-invasive blood-pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for anaesthesia, intensive care and diagnostic applications; anaesthesia machines and ventilators; intensive care and anaesthesia attachments for a single patient, namely gas sampling lines, adapters for airways, respiratory circuits, spirometric sensors and tubes, tubes, water separators, pulsed oxymetry sensors, non-invasive blood-pressure measuring instruments, wash-out sets, anaesthetic masks, carbon dioxide canisters, temperature-sensing probes and nebulizers, all the aforesaid being medical apparatus; monitors of the central nervous system (medical apparatus); gastric tonometers (medical apparatus); medical diagnostic devices, namely bone densitometers; foetus monitoring apparatus, namely foetus vital signs and pulse monitors; patient monitoring apparatus, namely, vital signs and cardiac monitors, medical imaging systems, namely ultrasound imaging machines for medical diagnostics, imaging devices for screening and diagnostic applications for planning operations and surgery, and their parts and fittings; medical diagnostic apparatus for displaying diagnostic

images, namely spot film apparatus, image intensifiers, fluoroscopic systems, mobile radiography devices, radiographic film viewers, computed tomograms, nuclear resonance apparatus, ultrasound scanners, magnetic resonance apparatus, positron-emission tomographic (PET) apparatus and parts and fittings therefor, including tables and cushions adapted for medical use; electronic apparatus for measuring blood pressure, laser apparatus for medical treatment, ultrasound diagnostic equipment, acoustic apparatus, laser scalpels, electric massagers, portable vibrators for medical use, low-frequency muscle stimulators for medical use, high-frequency apparatus for medical use, electric air mattresses for preventing bedsores, electric inhalers for therapeutic use, electrically-heated cushions, CCD sensor systems (charge-coupled device), medical apparatus for measuring bone density, all the aforesaid being medical apparatus.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; solar panels for use in heating, solar energy collectors for heating; solar lighting accessories, namely interior and exterior solar lighting fixtures and lighting units; solar thermal installations, namely solar thermal modules; solar water heaters; gas and electric household cooking appliances, namely cooking rings, electric and gas stoves; gas and electric ovens and table ranges; heat exchangers, not parts of machines; thick-walled chemical reactors and nuclear reactors and fittings and components thereof, namely heat pumps, valves and fittings for steam circuits and valves regulating the flow rate of gases and liquids; electric lamps and components thereof; electric lighting accessories and components thereof; freezers, air conditioning apparatus, electric ovens, cookers, electric refrigerators; microwave ovens for cooking; wall-mounted cooking ovens for domestic use; drawers for reheating foods; convection ovens; gas and electric table ranges; gas and electric cooking ovens and cookers; ventilation hoods for cookers and exhaust fans; water filters; water softening apparatus and installations; drying apparatus for washing; electric fans, ceiling fans, flashlights; lamps and lights for vehicles; electric lights for Christmas trees; installations for the separation of liquids; installations for the collection of liquids; installations for the recycling (purification) of waste water; filters for filtering solids from gases and liquids or filtering liquids from gases and for filtering one immiscible liquid from another; water-conditioning devices for residential use; reverse osmosis devices for use in water conditioning apparatus; water purification systems and devices consisting of clarifiers, electric deionization systems, condensate polishing filters, vacuum degassing devices, ultrafiltration devices, ultraviolet sterilization devices, ion exchange units, systems for regenerating acids and

caustic products, reverse osmosis systems, forced-air decarbonation devices, filters, chemical feed systems and storage devices for bulk goods, sold with automatic controllers and instruments for monitoring operating parameters of devices and systems, electrochemical purification devices for liquids for industrial, commercial and municipal purposes; water filtering devices for domestic, industrial and commercial purposes; wastewater purification units; drinking water purification units for domestic, industrial and commercial purposes; devices for separating liquids, namely industrial liquid filters; recycling devices, namely liquid purification devices; water treatment equipment incorporating cartridges; water treatment equipment for domestic purposes, namely water softeners and water conditioners; media filters and depth filters for eliminating deposits, iron, sulphur, tastes and odors from water; water purification devices using reverse osmosis; depth filter units and cartridges for filtering liquids and air for domestic, industrial and commercial purposes; disposable cartridge filters for filtering industrial water; lighting apparatus and installations, incandescent lamps, pre-switching devices for gas discharge lamps, screwed fluorescent lamps, fluorescent lamps, tungsten halogen lamps, electric pocket torches, fluorescent lanterns, lamps, fluorescent lighting apparatus, dynamo lighting kits for bicycles, germicidal lamps, lighting apparatus for industrial use; cooking apparatus and installations, automatic machines for making bread for domestic purposes, electric kettles, electric rice cookers, gas rice cookers, electric slow cookers, electric grills, ovens for cooking, toasters, electric coffee pots, cookers, electric thermos coffee pots, gas cookers, induction cooktops, electric barbecue grills, microwave ovens, gas cookers equipped with oven, electric saucepans, sink basins, kitchen ranges; cooling and freezing apparatus and devices, refrigerators, freezers, hot/cold water dispensers, deep-freeze and refrigerated display cases, electric water coolers, apparatus for making ice; ventilation apparatus and instruments, electric fans, fans, electric air purifiers, extraction hoods for cookers, electric dehumidifiers, electric humidifiers, electrically powered blowers for ventilation and cold air blowing apparatus; air exhaust units, ceiling fans, ceiling louvers being ventilating apparatus, electrostatic precipitators for cleaning air, parts and components thereof, all included in this class; ventilation installations and apparatus; heating apparatus and installations, steam generating, drying, cooling and air-conditioning apparatus, air conditioning apparatus, bladed fan apparatus for air conditioning, apparatus for air freshening by evaporation, stoves, electric radiators, electric blankets, floor heating apparatus, kerosene-burning heaters, electric feet warmers (kotatsu), wireless gas heaters, heating apparatus, cooling apparatus and air-conditioning units; water distribution apparatus; sanitary installations, electric bidets, toilets, toilet seats with hygienic

cleaning function, portable toilets, wastewater treatment systems using aeration, water purifying units, incinerators (waste burners), household waste processors, saunas, bathtubs, bath installations, electric showers; water heaters, gas fired water heaters, water heaters for showers; drying apparatus, dish drying devices, electric hair driers, electric laundry driers, drying apparatus and installations; electric lamps; electric dryers; electrical resistance heating cables; metal kitchen sinks (other than furniture).

Class 12

Vehicles; apparatus for locomotion by land, air or water; diesel and electric motors for land vehicles; bicycles, tires and tubular tires for bicycles, automatic vehicles, electric bicycles; pneumatic tires.

Class 14

Precious metals and their alloys and goods made of or coated with these materials not included in other classes, especially commemorative coins and medals; jewelry, precious stones; lapel pins; horological and chronometric instruments; key rings.

Class 16

Paper, cardboard and goods made from these materials, not included in other classes; printed matter, especially postage stamps; bookbinding material; photographs; stationery; adhesives [glues] for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printing type; printing blocks; data processing forms; chequebooks, credit cards (other than encoded or magnetic), punch cards (stationery); computer newspapers and periodicals; paper shredders, electric staplers, letter openers battery-powered, electric pencil sharpeners, electric punches, electronic typewriters, ribbon cassettes for electronic typewriters, check printing machines, thermal paper; all the aforesaid goods for office use; babies' diapers, babies' diaper pants and diapers of paper or cellulose (disposable).

Class 17

Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible tubes, not of metal; silicon mastic for various uses, especially for caulking bathtubs and filling of boats and automobiles; silicone-based sealants and adhesives for road and weather topping, silicone rubber roof coating; plastic compounds for glazing; plastic materials consisting of sheeting, plates, blocks, all for manufacture; electrical insulating materials, electric insulation devices, including insulating varnish, silicone

rubber compounds; plastic materials in the form of sheets, pins or plates, moulding materials for packing.

Class 18

Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.

Class 19

Building materials, not of metal; rigid pipes, not of metal [building]; asphalt, pitch and bitumen; buildings, transportable, not of metal; monuments, not of metal; thermoplastic building and construction materials, namely molded and extruded thermoplastic materials for use as substitutes for wood, metal or glass, for support or covering; doors, not of metal, gutters for the rain, panels for ceilings, swinging doors, wooden floors, tiles for roofs, prefabricated houses, laminates, means of connection, steps, not of metal, all the aforesaid being building materials, not of metal; roofing, not of metal, fitted with solar cells; panels of plastic for building and construction; thermal insulation materials, thermoplastic materials used as building construction materials for insulation, covering (roof-covering) and glazing, all the aforesaid being building materials, not of metal.

Class 25

Clothing, footwear, headgear.

Class 28

Games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; playing cards; electric floats for fishing, apparatus for knotting fishing lines to fish hooks, electronic apparatus for playing golf, wax applying apparatus for skis, rollers for stationary exercise bicycles.

Class 29

Meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs, milk and milk products; edible oils and fats.

Class 30

Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flour and preparations made from cereals, bread, pastry and confectionery, ices; honey, treacle; yeast, baking-powder; salt, mustard; vinegar, sauces [condiments]; spices; ice for refreshment.

Class 32

Beer; mineral and aerated waters and other non-alcoholic drinks; fruit drinks and fruit juices; syrups and other preparations for

making beverages.

Class 35

Advertising; dissemination of advertisements by any media, especially in the form of topic-based messages centred on human values; advertising by means of sponsoring; business management; business administration; office functions; promotion of the goods and services of others, through contractual agreements, especially through partnership (sponsoring) and licenses, offering them greater exposure and/or image strength and/or a surge of sympathy derived from that greater exposure and/or that image strength of cultural and sports events, especially international ones, and/or the surge of sympathy derived therefrom; promotion of the goods and services of others by means of what is referred to as the initial interest factor driving the public to consider, from among many competitors, goods or services that are presented to them with personal signs, emblems or messages to capture their attention; promotion of the goods and services of others by the means referred to as image transfer; rental of advertising space of all kinds and on any media, in digital or other form; business administration of the participation of national teams to an international athletic competition and promotion of support to said teams aimed at the public and interested sectors; services relating to inventory management; consulting in stock control services; advertising by means of direct marketing for others consisting of marketing databases; consulting in marketing by direct marketing for others consisting of marketing databases; advisory services in business reorganization; management services for truck and automobile fleets, namely invoicing via a global computer network; advisory services relating to business management of truck and automobile fleets; advisory services with regard to business administration; business management of power stations for others; consultation in the field of operation and management of power plants, business services, namely the administration of repair and services contracts, supply chain management and consulting services in the areas of chemical product and service sourcing and procurement, product inventory and supply management and cost; consulting, marketing, cost and price analyses for electrochemical liquid purification devices for industrial purposes; computerised file management; data input and processing services; consultancy in computerized database and file management; retail sale services relating to electric and electronic machines and apparatus (gathering for others, of a series of goods enabling customers to conveniently view and purchase those goods in a store for the retail sale of electrical goods), information concerning the sale of raw materials, business information, commercial information agencies, photocopying machine rental services; sales promotion for goods and services for others including via advertisements, promotional contests, discounts and bonuses in the form of promotional

lotteries, discounts, reduction points, and value-added offers made in connection with the use of payment cards; promotion of sports competitions and events for the use of others (sales promotions services); promotion of cultural concerts and events of others, organization of exhibitions for commercial or advertising purposes; providing documentation, namely direct mailing, direct mail advertising, distribution of samples, document reproduction; advertisements about commercial sales promotion of goods and services at retail sales level; provision of information in connection with e-commerce and electronic retail selling; providing information in connection with the purchase of goods and services online via the Internet and other computer networks; systemization of information into computer database.

Class 36

Insurance underwriting; banking; banking; banking; real estate affairs, credit card services; financial sponsorship of sporting and cultural activities; rental of property and accessory buildings prepared to receive corporate entertainment events; financing services by means of own funds and private brands; financial analysis and consultation; financial services of credit cards; credit card services, namely extension of credit to others; financial management of assets for others; insurance and reinsurance services, namely underwriting services of all types of insurance; equity capital investment; insurance underwriting services in the field of bonds; underwriting services for financial guarantees; financing for personal loans; mortgage banking services; acquisition financing services; commercial financing services; commercial real estate agency services; mutual funds; investments in private funds and debts; information, advisory and assistance services in all the above fields, hire-purchase financing, insurance brokerage services, credit agency services with respect to commercial and consumer credit, financing services for home loans and banking and financial services; monetary transactions services using bank cards or loyalty store cards; clearing, financial; issuing of checks and letters of credit; financial services; insurance; financial operations; bill payment services; debit card services; payment transaction card services; prepaid card services (financial services); electronic transactions by means of credit and debit card; electronic funds transfer; providing smart charge-cards and electronic cash cards; services for providing cash; credit and payment cards as substitutes for cash; electronic capital transfer; check [cheque] verification; check cashing services; money deposit services and cash dispensing services; payment processing services; provision of financial information through a global computer network; financial sponsorship of festivals and concerts; provision of financial information relating to tourism; financial services for assistance to tourists; hire-purchase financing for telephone apparatus, facsimile machines and other telecommunications

equipment; leasing of transport containers.

Class 37

Construction; repair; installation services; replacement, overhaul and maintenance of power stations, motors, turbines, wind turbines and apparatus, equipment and instruments for the generation of energy and of electricity and components thereof, components parts and ancillary equipment; installation, servicing and repair services for compressors and pumps, namely machines, expansion turbines, fuel pumps and fuel distribution equipment, compressed natural gas (CNG) supply equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-walled reactors and tubular reactors; maintenance and repair services of oil and gas pipelines; drilling and pumping of petroleum and gas; drilling for raw petroleum; installation of petroleum drilling rig pipes and pipelines; rental of tools for gas and petroleum drilling rigs; rental of construction equipment; chemical cleaning services for glass-coated reactor vessels used in the chemical treatment and pharmaceutical industries; maintenance services for heat transfer and condenser systems; services for the repair and maintenance of computerized cooling system equipment, machine repair and maintenance services, electrical instruments, apparatus and equipment; maintenance and repair services in the oil and gas sectors; services in connection with the installation of point-of-sale terminals at retailers; electric appliance installation and repair, repair of radio and television receivers, repair and maintenance of electrical communication apparatus and instruments, repair and maintenance of electrical household appliances, repair and maintenance of electric lighting apparatus, repair and maintenance of electrical distribution and control apparatus, repair and maintenance of electric motors, repair and maintenance of measuring and/or testing machines and instruments, repair and maintenance of medical apparatus and instruments, repair and maintenance of machines and tools for shaping metals, repair and maintenance of cooking apparatus, repair and maintenance of vending machines, repair and maintenance of water purification apparatus, repair and maintenance of musical instruments, repair and maintenance of watches and clocks, repair and maintenance of gas water heaters for domestic purposes, repair and maintenance of bathtubs, repair of toilets equipped with water points, installation, maintenance and repair of computer hardware, repair and maintenance of air-conditioning apparatus, installation, maintenance and repair of office machinery and equipment, installation, maintenance and repair of machinery, vehicle repair, repair and maintenance of electrical communication apparatus and instruments, repair and maintenance of computers, repair and maintenance of electronic printers, telephone repair; installation, servicing and repair services for compressors, pumps, namely machines, expansion

turbines, fuel pumps and fuel distribution equipment, compressed natural gas (CNG) supply equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-walled reactors and tubular reactors; maintenance and repair services for oil and gas wells.

Class 38

Telecommunications; broadcasting of television programs, television broadcasts (live or recorded); cellular telephone communication; communications via electronic computer terminals, databases and telecommunication networks connected to the Internet; communications by telex; communications by telegrams; communications via telephones; communications via fax machines; radio-paging; communications by teleconferencing; television broadcasting; cable television broadcasting; radio broadcasting; news agencies; electronic transmission of messages; broadcasting of a commercial site on the Internet; radio and television broadcasting services provided by means of the Internet; electronic mail; providing access to computer newsletters and online chatrooms; transmission of messages and images by computer; providing access to services of ordering and purchase from home and office by computer and/or interactive communications technologies; telecommunication of information (including Web pages), computer programs and all other data, specifically, data transmitted by electronic communications network; electronic messaging; provision of access to the Internet for users; services providing telecommunication connections to the Internet or to databases; providing access to digital music Web sites on the Internet and to MP3 websites on the Internet; rental of access time to a central database (telecommunications); providing access to search engines; providing internet chatrooms; rental of access time to a central database server; rental of access time to a computer database (telecommunication services); simulcast broadcasting, especially via electronic interconnections, of films and video recordings and sounds; wireless data messaging services, in particular services allowing the user to send and/or receive messages over a wireless data network; one-way and two-way paging services; electronic transmission of data, images, audio and video documents and data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communications networks, cellular networks and satellite networks; electronic transmission of computer software over local and global communications networks, including the Internet, intranets, extranets, television, mobile communications networks, cellular networks and satellite networks; providing access to databases and to local or global communication networks, including the Internet, intranets, extranets, television, mobile communication, cellular and satellite

networks; services for transmitting/relaying messages, namely electronic message transmission; telecommunication services for dissemination of information via mobile telephone, namely, transmission of data to mobile telephones; communication services via mobile telephone; transmission and reception of voice communication services; telecommunication services via data communications and via multimedia networks; rental of access time to a database server center.

Class 39

Transport; packaging and storage of goods; arranging of tours; storage services for carriers containing immobile and mobile images; distribution of petroleum or gas by pipeline; rental of automobiles, aircraft, motor coaches and watercraft; deliveries and storage of chemicals in the field of water treatment and paper and paste manufacturing systems; boat transport; transport reservation; travel information services, travel reservation and travel booking services, assistance services for transport planning before the journey, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross that country; ticket reservations for transport; information services in the field of tourism, namely transportation information; information services in the field of tourism, namely information services on ticket reservations for transport, tours and sightseeing tours; information services in the field of tourism, namely information services on the tour and transportation schedules; services related to transportation for assistance to tourists, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross that country; tourist reservation services, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross that country, namely ticket reservation services and reservation services for transportation; information services related to prices, timetables and means of transportation; assistance services to tourists concerning ticket reservations for transport, tours and sightseeing tours, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross that country; assistance services to tourists relating to schedules for sightseeing tours, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross

that country; tourist reservation services, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross that country, namely ticket reservation services for transportation purposes, travel and sightseeing tours.

Class 40

Treatment of materials; developing cinematographic films; photograph enlargements, photograph printing, developing photographic films; rental of photographic machines and instruments for developing, printing, enlarging or finishing; refining of petroleum products; gas treatment services; petroleum and gas refining; wastewater treatment services, water treatment services, namely desalination, purification, treatment, cleaning ion exchange resins; biological (cell) membrane regeneration services, namely to restore the quality performance to biological (cell) membrane elements and to extend biological (cell) membrane life.

Class 41

Teaching; providing of training; entertainment; sporting and cultural activities, televised cultural and sporting entertainment; organization of exhibitions for cultural or educational purposes; operating lotteries and competitions; betting and gaming services linked to, or in connection with, sport; entertainment services provided at sports events or concerning sports events; organization of sporting and cultural activities and events; organizing real or virtual sports competitions; management of sports facilities; audio and video equipment rental services; production, presentation and distribution of films and video and audio recordings; rental of films and video and audio recordings; presentation, rental and/or provision by means of a computer network of interactive educational and entertainment goods, namely compact disks interactive (CDIs), CD-ROMs, computer games; production of radio and television programs featuring coverage of sports and sporting events; production services for radio and television programs and videotapes; production of cartoons; production of animated shows for television; ticket reservation services for shows and sports events; timing of sports events; arranging of beauty contests; interactive entertainment; online betting services; providing games on the Internet; providing raffle services; information on entertainment or education, provided online from a data bank or from the Internet; electronic games services provided by means of the Internet; providing online electronic publications (not downloadable); publication of books, magazines and texts (other than advertising texts) and periodicals; publication of books, magazines and texts (other than advertising texts) and electronic magazines online; provision of digital music (not downloadable) from the internet; providing digital music (not downloadable) from

internet MP3 web sites; providing sports results; information services in connection with sport and sports events; rental of recorded sounds and images; audio production services; information services relating to sports events provided online from a computer database or from the Internet; editing and publishing services; providing digital music (non-downloadable); providing non-downloadable digital music, namely music from the opening and closing ceremonies of international sporting events, via the Internet; publication of statistics regarding sporting results and audience ratings for sporting competitions; providing of training in the operation and functioning of signaling and crossing notification systems for transit industries and railways; educational services in medical imaging and diagnostics, namely organisation of seminars, conferences, symposiums or workshops related to the pharmaceutical industry, for physicians and employees of pharmaceutical companies; educational services, namely organisation of seminars, conferences, symposiums or workshops in the field of life sciences and biotechnology for scientists and researchers; organisation of seminars on problems of industrial water treatment; training services in all the above fields; services providing training in management and medical matters through the use of instructions and demonstrations provided online, via the Internet, intranets and extranets; educational services, namely conducting practical training workshops, classes and seminars comprising demonstrations in the medical and management field; organization and holding of classes, seminars and all training activities in the field of computing; concert planning and production; reservation of seats for shows; cinema presentations; entertainment information; film production; production of shows; theatrical productions; providing golf facilities; health club services; sport camp services; presentation of live performances; film performances; organization of shows (impresario services); holiday camp services (entertainment); movie studios; news reporters services; provision of online electronic publications (not downloadable); music hall services; educational services, namely conducting classes, seminars, presentations, video presentations, providing educational material, namely disseminating materials in the area of financial literacy; educational services in the field of tourism; provision of information relating to reservation of tickets for entertainment events; provision of information relating to entertainment; provision of information on schedules relating to sporting, cultural and entertainment activities; services relating to entertainment for assistance to tourists, namely tourist assistance services in the nature of activity scheduling for sporting, cultural and other entertainment events; reservation services for entertainment activities; booking of tickets for entertainment events.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; carrying out laboratory analyses; design and development of computers and software; services linked to wind and wind energy, namely professional engineering and design consulting services and engineering services; design for others regarding wind energy; industrial design services; design of equipment and installations for producing energy, wind energy and electricity; engineering services, technical consulting and research for the gas and petroleum industries; petroleum and gas exploration services; geophysical survey services for the petroleum and gas industries; analysis of oil and gas fields; oil and gas prospecting, namely well locating and testing; oil and gas well testing; inspection of oil and gas pipelines; technical diagnostic testing and remote monitoring services for compressors, pumps, turbo-expanders, gasoline pumps and fuel distribution equipment, compressed natural gas (CNG) replenishment equipment, gas turbines, steam turbines, air-cooled heat exchangers, vapour condensers, thick-walled reactors and tubular reactors; providing information technology solutions in the field of transit and railway industries worldwide; computer programming services for others; computer software analysis and design services for others; computer consulting services; computer software updating and maintenance for others; installation of computer software; computer system analysis and design services for others; advisory services in connection with chemical research; medical research consultancy services relating to the discovery and evaluation of medicines and ingredients having diagnostic, prophylactic and/or therapeutic properties; medical and scientific research consultancy services relating to methods for diagnosing using laser based optical systems; development and design of high through put screening assays for drug development services; biotechnological services; technical software support services for factory automation, namely services for computer software maintenance and periodic provision of computer software updates; bespoke design of security access systems; design and advisory services regarding the configuration of systems used in applications supporting fiber-optic technology; technical support services, namely solution of computer hardware, electronic communication, video and computer software problems; technical consulting services regarding computer hardware and computer software in the field of access and security systems; technical consulting services concerning surveillance cameras; bespoke design services for security systems, access systems and control systems for inventory and tangible assets for others; laboratory and testing services for separating liquids and membrane testing; engineering and advisory services concerning water treatment, water supply systems, cooling water circuits, industrial boiler water systems, water supply systems and industrial processes, industrial fuel processing systems, paper and pulp manufacturing systems,

systems for processing plastics and metals; engineering and technical support services for the design and configuration of computer hardware and software systems for use in the treatment of water supply systems paper and pulp manufacturing systems, petroleum and petrochemical products processing systems and systems for metal and plastic finishing; advisory services in all the above fields; computer software programming services in the field of monetics; development of computer programs for securing data transfer; industrial research and development work in the field of computing; developing computerized databases and computer programs; computer software development relating to machines, apparatus and instruments; rental of data processing apparatus; services in computer engineering; hosting computer sites (Web sites); maintenance of computer software; providing search engines for the internet; quality control; recovery of computer data; research and development of new products for third parties; technical project studies; land surveying; updating of computer software; maintenance of computer software; engineering, testing and research relating to electric appliances, machines and instruments; computer rental; recovery of computer data.

Class 43

Services for providing food and drink; cafeteria and restaurant services; reception and hospitality services, namely provision of food and drink; food and drink catering; reservation of hotels and temporary accommodation; bar services; cafes; rental of meeting rooms; tourist homes; provision of information relating to the availability of accommodation; provision of information relating to the availability of food and drink; provision of tourist accommodation; reservation of hotel accommodation and reservation of meals; provision of information relating to hotels and provision of information relating to food and meal; reservation services for hotel rooms, accommodation, food and meals.

Class 44

Medical services; medical and pharmaceutical toxicological inspections, namely drug use testing services in the nature of anti-doping testing; veterinary services; hygienic and beauty care for human beings and animals; agriculture, horticulture and forestry services; advisory services in the field of medical imaging and diagnostics (medical services); advisory services concerning prophylactic, therapeutic and diagnostic properties of pharmaceutical preparations; medical information services; medical imaging services; medical diagnostic services; advisory services in all the above fields; rental of medical systems.
