REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Class 37

Engineering services for construction, maintenance, repair and installation purposes including grouting and sealing of faults, cavities, gaps, fractures and fissures in structures (including buildings, walls, basements, cellars, roofs, rooftop structures, lift walls, tunnels, dam walls, reservoirs, silos, waste disposal sites, pits, retaining walls, ponds, storm water systems, drainage systems, bulkheads, tanks and compressed gas reservoirs), geological formations and mines (including for sealing/grouting underground storage dams, ventilation shafts and chambers, pilot holes, raised bores, ore passes, tunnels, abandoned workings, water plugs, salt

NOH2O

mines and salt domes); curtain grouting; pre-grouting in new mining developments; grouting and sealing for developing declines and shaft sinking operations; waterproofing and gasproofing; water seepage control; pressure grouting services; advisory service relating to grouting and sealing; ground and soil stabilisation; grout reinforcement.

Specifications of goods/services amended to read:-

Class 09

Alarm panels; amplifiers; automatic transfer switches; electrical switchboards; batteries; battery and uninterruptible electrical power supply monitoring systems, namely microprocessor based hardware and software used to monitor and test the status of battery backup and uninterruptible electrical power supply systems; battery backup power systems; battery chargers; battery racks; computer hardware and peripherals for remote access and control of computers, not for data security or cryptographic network security; computer hardware and peripherals, namely, KVM (keyboard, video and mouse) and serial console switches; condensers; capacitors; controllers for power supplies; cooling devices for computer hardware and telecommunication equipment; computer hardware and software for data center infrastructure configuration and management, excluding Domain Name System ("DNS") infrastructure configuration and management; data center and computer room management systems comprised primarily of uninterruptible power supplies, electronic controller for controlling air conditioning and temperature, air flow sensors, software for monitoring data center and computer room infrastructure equipment, and also containing a cooling system comprised primarily of air cooling apparatus, cooling evaporators, air conditioning units, electric fans, water cooling towers and associated electronic fan controls, air conditioning controls and power controllers, cabinets specially adapted for computer hardware equipment, and racks, curtains, doors and containment panels for use with computer systems, all sold together as a unit; data center monitoring and control systems, namely, microprocessor based hardware and software used to monitor and control electrical and electronic equipment, and environmental conditions in a data center, telecommunication center, computer room or electronic equipment room environment, not for data security or cryptographic network security; electric control switches; electric power converters; electric

power monitoring and control systems, namely, microprocessor based hardware and software used to monitor the status and control electrical power systems, power transfer switches, electric load banks, electric power distribution units, battery systems and uninterruptible electrical power supply systems; electrical power control systems, namely, paralleling switchgears; electrical power distribution units; electrical power load banks; electrical power transfer switches; electronic controls for server racks and data center cooling units; enclosures, cabinets, shelters and racks for computer servers and electrical and electronic equipment; fan trays for cooling of telecommunication devices; fire pump controllers; heat regulating apparatus; climate control and cooling systems for telecom and datacom equipment; inverters; lighting ballasts; lighting controls; microprocessor based hardware and software used to monitor and control cooling and air handler units for data centers and other computer and telecommunications equipment applications; monitors for fire pumps; power conditioners; power conditioning equipment; power conversion devices; power converters; power distribution units; power dividers; power supplies; power switches; rectifiers; regulating apparatus, electric; regulators for phase shifting of communication signal regulators for phase shifting of electronic signals; remote electrical power control switches; remote controllers for power supplies; server rack monitoring systems, namely microprocessor based hardware and software used to monitor the status of electronic and electrical equipment in a server rack; server racks; server racks comprising integrated cooling units; signaling panels, luminous or mechanical; software for data center infrastructure configuration and management, excluding Domain Name System ("DNS") infrastructure configuration and management; testing apparatus not for medical purposes, namely, testing apparatus for batteries; transfer switches; transformers; uninterruptible electrical power supplies; voltage regulators; voltage surge protectors; voltage surge suppressors; voltmeters.
