PRACTICE DIRECTION NO. 1 OF 2013
ALTERNATIVES TO ONLINE FILING DURING SERVICE DISRUPTION**

This practice direction is issued by the Registrar to provide alternatives to online filing of form and/or document when a service disruption occurs.

This practice direction will come into effect on 1st May 2013.

- (1) In the event that the electronic online service (EOS) is unavailable for extended periods (for example, due to system downtime), a notice will be placed on the IPOS' website with the title "Alternatives Available for Filing of Form and/or Document".
- (2) On the broadcast of such a notice on IPOS' website, online payment fees will apply to forms submitted over the counter prior to 5 pm on that day if notification has been made to IPOS by contacting IPOS System Administrator at 6339 8616.

Dated this day 16th day of April 2013.

PRACTICE DIRECTION NO. 2 OF 2005
REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

PRACTICE DIRECTION NO. 2 OF 2004
HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

Applications Published for Opposition Purposes under the Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Notice is hereby given that any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Date of Protection in Singapore: 25/09/2012

Class 01

Chemicals; adhesives [not for stationery or household purposes]; plant growth regulating preparations; fertilizers; reagent paper; unprocessed plastics [plastics in primary form].

Class 06

Irons and steels; nonferrous metals and their alloys; ores of metal; metal materials for building or construction; valves of metal, other than parts of machines; liquid storage tanks or reservoirs [of metal]; industrial water storage tanks [of metal]; metal flanges; metal junctions for pipes, with synthetic resin lining for water and sewage water pipes; metal junctions for pipes.

Class 07

Machines for the repair and renewal of aging sewage lines by producing and inserting lining pipes into the sewage lines; machines for drilling continuous hole to install another sewage line to the above said lining pipes; construction machines and apparatus; loading-unloading machines and apparatus; machines and apparatus (machine tools) for repairing and fixing; filtering machines and model filters fitted therefor; chemical processing machines and apparatus; food or beverage processing machines and apparatus; valves [machine elements not for land vehicles].

Class 09

Automatic adjusting/regulating machines and instruments; apparatus for adjusting/regulating quantity of tap water flow; flow measuring apparatus; flow adjusting/regulating apparatus; liquid flow automatic controlling machines and instruments; water quality analysis apparatus; water quality testing apparatus; water quality measuring instruments; turbidimeters; measuring or testing machines and instruments; power controllers; power distribution or control machines and apparatus; rotary converters; phase modifiers; optical fiber cables; cable protecting tubes; electric wires and cables; data media recorded with computer programs; electronic machines and apparatus, other than geiger counters, high frequency welders, cyclotrons, industrial X-ray machines and apparatus [not for medical use], industrial betatrons [not for medical use], magnetic prospecting machines, magnetic object detectors, seismic exploration machines and apparatus, hydrophone machines and apparatus, echo sounders, ultrasonic flaw detectors, ultrasonic sensors, electronic door closing systems and electron microscopes; electron tubes; semi-conductor

elements; electronic circuits [not including those recorded with computer programs]; computer programs; electronic publications; remote control telemetering machines and instruments; remote control apparatus; telecommunication machines and apparatus.

Class 11

Toilets [water-closets]; fittings for the bathroom; fixtures for the bathroom; bathroom furniture (sanitary ware); bathroom installations including bathtub; bathroom suites; air-conditioning apparatus [for industrial purposes]; filters for sewage treatment unit; ultra filtration membrane water reuse apparatus [waste water treatment equipment]; membrane separation treatment apparatus [waste water treatment equipment]; tilting tube settling apparatus for waste water treatment tanks; waste water treatment tanks for industrial purposes; septic tanks for industrial purposes; solar water heaters; membrane filters for water purifying apparatus; water purifying apparatus; waste water treatment tanks for household purposes; septic tanks for household purposes; bath fittings; membrane filtration apparatus.

Class 17

Valves of rubber or vulcanized fiber [not including machine elements]; gaskets; junctions for pipes [not of metal]; random packings of rubber; random packings of plastics; waterproof packings; joint packings; materials for jointing (packings); floating anti-pollution barriers; electrical insulating materials; plastic substances, semi-processed; seals; flexible pipes of plastics (other than parts of sanitary installations); pipes of rubber; junctions for pipes of plastics; joint packings for pipes; junctions, not of metal, for pipes; plastic pipe junctions connecting to metal pipes; synthetic resin junctions for connecting metal pipes and synthetic resin pipes.

Class 19

Ceramic building materials, bricks and refractory products; building materials made of linoleum for fixing to existing walls or floors; plastic building materials; asphalt, and asphalt building or construction materials; rubber building or construction materials; plaster [for building purposes]; lime building or construction materials; building or construction materials of plaster; prefabricated building kits [not of metal]; cement and its products; building timber; building stone; water-pipe valves [not of metal or plastics]; mounting pipes of plastics for sewerage system or waste water and rain water; collecting pipes of plastics; water and hot-water pipes of plastics; water supply and sewerage pipes of plastics; water pipes of plastics; drain pipes of plastics for construction; drain pipes of plastics; rigid pipes, not of metal [building]; plastic pipes for building or construction; synthetic resin pipes for building or construction; lining pipes of synthetic

resins for water supply and sewerage pipes.

Class 20

Loading pallets, not of metal; valves of plastics [not including machine elements]; reservoirs, not of metal nor of masonry; containers for transport [not of metal]; industrial packaging containers of plastics [not including plastic stoppers and lids]; water tanks for household purposes [not of metal or masonry].

Class 37

Plumbing of sewerage pipe renewal; consultancy in the field of plumbing of sewerage pipe renewal; providing information on plumbing of sewerage pipe renewal; repair or maintenance of pipe manufacturing machines for lining pipe for sewer line; repair or maintenance of mine borers for mounting pipes for sewer line; rental of pipe manufacturing machines for lining pipe for sewer line; rental of mine borers for mounting pipes for sewer line; plumbing other than plumbing of sewerage pipe renewal; construction; construction consultancy; monitoring of operation condition of air-conditioner, heating equipment, plumbing system, etc., in a building by remote communication access; on-line operation and controlling of air-conditioner, heating equipment, plumbing system, etc., in a building; operation, check or maintenance of building equipment; repair or maintenance of sewage pipes; repair or maintenance of water pollution control equipment; repair or maintenance of water- pipes; repair or maintenance of water purifying apparatus; rental of construction machines and apparatus and providing information therefore; repair or maintenance of electronic machines and apparatus.

Class 42

Plumbing design; water supply and sewage system design; building and construction design; design of waste water treatment equipment; construction drafting; surveying; consultancy for geological surveys or research; information on geological surveys or research through communications by computer terminals; geological surveys or research; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; designing; computer software design, computer programming, or maintenance of computer software; seismic assessment and diagnosis of building; research on building construction or city planning; testing or research on prevention of pollution; testing or research on electricity; testing or research on civil engineering; rental of computers; providing computer programs.

(International Registration No. 1165127)

Date of International Registration: 17/05/2011

Date of Protection in Singapore: 17/05/2011

EISENMANN

The following claim is made in the International Registration:
Colours claimed: Red, HKS N15, CYMK (10, 100, 90, 0).

Class 07

Installations for cleaning waste air, in particular adsorption installations and condensation installations; machines and installations assembled therefrom for materials-handling technology, in particular circular conveyors, power-and-free conveyors, electric telfer lines, namely electric telfer conveyor systems, electric floor-level railways, namely electric floor-level conveyor systems, electric pallet tracks, driver-less transport systems, pallet-conveying systems, belt and plate transport systems, roller track systems, under-floor conveyors, cross-bar conveyors, multiple-strand chain conveyors, towing, carrying and accumulating chain conveyors, vertical transport conveyors, motor-driven raising, lowering and tilting devices, motor-driven devices for feeding and dispensing workpieces, sorting installations for packages and packs, warehouse pre-zone conveyors, assembly and testing belts, assembly bench circular conveyors; gantry robots as machines; automatic handling systems for materials-handling and warehousing ; automatic handling systems for painting technology, namely conveyor systems for coating processes used for the transport of painting goods during the process of pre-treatment and dip-coating; piece goods machines, namely electric monorail system conveyors, electric pallet conveyors, power and free conveyors, floor conveyor systems, container conveyor systems, shuttle conveyors, tray conveyors, assembly conveyors, in-floor conveyors used for order picking and in-house transport of goods; distributing, sorting and order-picking machines; installations and motor-driven devices for warehousing technology, namely motor-driven storage and retrieval machines; lifting beam stores as machine parts; machines and installations assembled therefrom for the surface treatment and surface-coating of metals, in particular run-through and timed-cycle washing machines, powder coating installations, electrode position painting installations, spraying and dipping installations for conventional paints and aqueous paints, spray stands, splash-boards, spray booths, whirl-sintering installations, electron beam hardening installations; installations for pre-treating areas prior to coating, in particular for flat and rolled metal sheets; complete painting lines, consisting of pre-treatment installations and coating installations; enamelling installations, consisting of pre-treatment installations, coating installations and conveyors; machines and installations assembled

therefrom for the surface-coating of tubes made of different materials; machines and installations assembled therefrom for coating electrical components with casting resin; coating and laminating machines; paint-stripping installations, essentially consisting of chemical paint-stripping basins and high-pressure paint-stripping machines; machines and installations assembled therefrom for painting wooden and plastic parts; motor-driven handling appliances and robots for loading and unloading firing supports; oil/water separating installations; installations for separating solvents from water, installations for aqueous paint recycling in the form of filtration and mechanical recuperation via special overspray-collecting systems; installations for printing ink recycling in the form of filtration.

Class 11

Drying apparatuses and installations, in particular ovens for drying surface coatings, drying installations for sawn timber; high-temperature firing kilns for ceramic products, in particular for sanitary ware, porcelain ware, structural ceramics and technical ceramics; dryers and firing kilns for the ceramics industry; sintering furnaces, including ones with a protective gas atmosphere; low-pressure (vacuum) furnaces, ovens for the vapour deposition of chemicals onto a substrate; installations for recycling valuable substances and energy from industrial wastes and biomasses, namely installations for the pyrolysis, low-temperature carbonization and combustion of industrial wastes and biomasses; waste water purifying installations; filters as parts of industrial installations; filling racks for furnaces; filling devices for furnaces; gas burners; gas-cleaning appliances; gas scrubbers (parts of gas installations); cooling installations; heating appliances for solid, liquid or gaseous fuels; heating, steam-generating, cooling, drying and ventilating appliances; installations with regenerative, thermal and catalytic combustion, namely thermal oxidation systems for the treatment and decontamination of exhaust gases; installations for the conditioning and cleaning of water, in particular softening installations, desalination installations, sedimentation installations, filtration installations, flocculation and precipitation installations, flotation installations, emulsion-splitting installations, ultrafiltration installations, reverse-osmosis installations, ion-exchanger installations, detoxification and neutralization installations; complete painting lines, consisting of paint ovens, waste air and water installations; enamelling installations, consisting of enamel-dryers and enamel ovens; waste air installations, namely exhaust air purification systems and apparatus for the exhaustion of waste gases; drying and curing machines for non-metallic materials and installations assembled therefrom; paint-stripping installations, essentially consisting of paint-stripping ovens; solar panels for heat generation; solar energy installations.

Class 42

Scientific and technological services and research work and designer services relating thereto; industrial analysis and research services, engineers' services; technical planning and design of the machines and installations specified in Classes 7 and 11; design of computer software for the machines and installations specified in Classes 7 and 11.

EISENMANN AG

(International Registration No. 1166742)

Date of International Registration: 16/10/2012
Date of Protection in Singapore: 16/10/2012

alphaJET neo

Class 02

Printing ink, inks for printing in printers and/or offset printing machines and/or digital printing and marking machines; varnishes, lacquers, dyes and/or pigments; inks, in particular printing inks and pastes, in particular electrically conductive or semiconductive inks, electrical insulating inks, inks with magnetic or magnetizable properties, inks with piezoelectric properties, optically variable inks, dirt repellent inks, inks with biocidal properties, olfactory inks, pharmacological printing inks and/or inks releasing active agents and siccatives for printing inks and pastes; binders for printing inks and pastes; engraving inks; primers; masking lacquers; metals in foil form for painters, decorators, printers and artists; mordants.

Class 07

Printing machines; offset rotary printing machines; web-fed rotary printing machines; sheet-fed rotary printing machines; screen printing machines; pad printing machines; flexographic printing machines; gravure printing machines; printing machines for use on sheet metal; lacquering machines; coating machines, in particular working rotationally for web-form and isolated materials; digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet; inkjet printing machines; exposure units as parts of printing machines for the contact print or creation of circuit patterns and printer's copies; numbering machines, imprinting and marking machines, in particular for the graphic sector, the packing sector and data processing; thermal transfer printing machines; laser marking machines; laser printing machines; machines for the graphics industry; machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials, namely for cutting, folding, stacking, sewing, packing, collecting, sorting, binding, scanning, perforating, gluing, stitching, tying, banding, bookbinding; printing plates; accessories, included in this class, for the above-mentioned printing machines, offset printing machines, lacquering machines, coating machines, digital printing and marking machines, inkjet printing machines, and for machines and mechanical apparatus for the graphics industry and for machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials, namely control apparatus, printer engines, inking systems, dampening systems, lacquering systems, reel changers, folder units; machines and mechanical apparatus for

storing printed matter or paper or paper reels or plastics or plastic reels or metal or organic or inorganic materials for printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, and machines and mechanical apparatus for the graphics industry and for machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; conveying machines, conveyor belts, conveying apparatus for conveying printed matter or paper or paper reels or plastics or plastic reels or metal or organic or inorganic materials for printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for changing and/or for bending and/or for stamping printing plates; machines and mechanical apparatus for storing printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus to conveying printing plates for printing machines; machines and mechanical apparatus for cleaning rollers in inking or dampening systems and/or cylinders and/or lacquering systems and/or ink jet print heads and/or laser systems in printing machines, offset printing machines, lacquering machines, coating machines, digital printing and marking machines, inkjet machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for storing and/or adjusting rollers in inking or dampening systems and/or cylinders and/or lacquering systems and/or inkjet printing modules and/or laser systems in printing machines, offset printing machines, lacquering machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for setting up inking and/or dampening systems and/or for printer engine cylinders and/or for lacquering systems in printing devices and/or in lacquering systems and/or for inkjet printing modules and/or laser systems; parts of inking and/or dampening systems and/or inkjet printing modules and/or laser systems and cylinders

in machines for tempering, included in this class; machines and mechanical apparatus for setting up cutting equipment and/or blade cylinders in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and in machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for setting up registers and/or gauge pins in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for quality control in printing machines, offset printing machines, lacquering machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, and machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjusting track tensions in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; lacquering machines, pallet changing and pallet transfer machines; stapling machines; machines for handling sheets/metal plates; accessories, included in this class for the above-mentioned lacquering machines, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets and metal plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing machines, thermal transfer machines, photographic printing machines, label making machines, gravure printing machines, inkjet printing machines, laser marking machines and laser printing machines; parts for the above-mentioned products included in this class.

Class 09

Electronic devices or electronic instruments, consultancy software

(recorded), sales software (recorded) and software included in this class for printing machines, offset rotary printing machines, lacquering machines, coating machines, digital printing and marking machines, inkjet machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, and for machines for the graphics industry and for machines for the further processing of printed matter or paper; electronic devices and electronic instruments, consultancy software (recorded), sales software (recorded) and software (included in this class) for drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines, label making machines, gravure printing machines, inkjet printing devices, laser marking devices and laser printing devices; electronic regulating apparatus, control devices, monitoring devices, quality control devices, production control devices, temperature monitoring devices, web tension controls; consultancy software (recorded), sales software (recorded), and software as parts or accessories for printing machines, offset rotary printing machines, coating machines, digital printing and marking machines, inkjet machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines for the graphics industry and machines for the further processing of printed matter or paper, namely for transporting, cutting, folding, stacking, sewing, packing, collecting, sorting, binding, scanning, controlling, perforating, gluing, stitching, tying, banding, bookbinding; electronic regulating apparatus, control devices, monitoring devices, quality control devices, production control devices, temperature monitoring devices, consultancy software (recorded), sales software (recorded) and software as parts or accessories for lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines, label making machines, gravure printing machines, inkjet printing devices, laser marking devices and laser printing devices; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment of sub-assemblies and parts of printing machines, offset rotary printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines for the graphics industry and machines for the further

processing of printed matter or paper or plastics or metal or organic or inorganic materials; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment of sub-assemblies and parts for lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines, label making machines, gravure printing machines, inkjet printing devices, laser marking devices and for laser printing devices; consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment of sub-assemblies and parts of printing machines, offset rotary printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines for the graphics industry and machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded) and/or sales software (recorded) for electric and electronic measuring and testing apparatus and instruments for the adjustment and pre-adjustment of sub-assemblies and parts of lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines, label making machines, gravure printing machines, inkjet printing devices, laser marking devices and for laser printing devices; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, controlling and/or adjusting ink slides, ink rollers, dampening rollers, register adjusting devices in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines for the graphics industry and machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, control and/or adjustment of devices for changing and/or transporting and/or storing of printing plates; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring,

controlling and/or adjusting devices for cleaning rollers in inking or dampening systems and/or cylinders and/or in ink jet print heads and/or laser systems in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and in machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, control and/or adjustment of devices for storing and/or adjusting rollers in inking or dampening systems and/or cylinders and/or ink jet print heads and/or laser systems in printing machines, offset printing machines and in machines and mechanical apparatus for the graphics industry and in machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, control and/or regulation of inking and/or dampening systems and/or printer engine cylinders in printing devices; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, control and/or adjustment of devices for tempering inking or dampening systems and/or cylinders and/or ink jet print heads and/or laser systems in printing devices; consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control and/or regulation of cutting devices and/or blade cylinders in printing machines, offset rotary printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, and machines for the graphics industry and in machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, control and/or regulation of registers and/or gauge pins in printing machines, offset printing machines, machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded), and software for remote control, remote operation, remote monitoring, control, and/or regulation of quality control in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink

jets, ink jet printers working with one or several colors and machines and mechanical apparatus for the graphics industry and machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded) and software for remote control, remote operation, remote monitoring, control, and/or adjustment for quality control in lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing machines, thermal transfer machines, photographic printing machines, label maker machines, gravure printing machines, inkjet printing machines, laser marking machines and laser printing machines; consultancy software (recorded), sales software (recorded), software for remote control, remote operation, remote monitoring, control and/or regulation of web tension settings in printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; consultancy software (recorded), sales software (recorded), software for data processing devices for pre-press, for printing printed matter, for the further processing of printed matter, for production control, for production planning; consultancy software (recorded), sales software (recorded), software for data processing devices for printing machines, for printing printed matter, for the further processing of printed matter, for production control, for production planning; consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer for printing machines, offset rotary printing machines, coating machines, for digital printing and marking machines, for inkjet machines, for ink jet printers, in particular with one or several ink jets, for ink jet printers working with one or several colors, for machines for the graphics industry, for machines for the further processing of printed matter or paper or parts thereof; consultancy software (recorded), sales software (recorded), software for interfaces and/or data transfer for lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing machines, thermal transfer machines, photographic printing machines, label

making machines, gravure printing machines, inkjet printing devices, laser marking devices and laser printing devices; software (recorded) for remote control, remote operation, remote monitoring, control and/or regulation of devices for transporting and/or storing of printed matter or paper or paper rolls or plastics or plastic reels for printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; software (recorded) for transport, packaging, and storing remote controls, remote operation, remote monitoring devices, control and/or regulation equipment for devices for transporting and/or storing printed matter or paper or paper reels or plastics or plastic reels for printing machines, offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines and mechanical apparatus for the graphics industry and for machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; parts for the goods noted above included in this class; accessories, included in this class, for the above-noted ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors; encoders.

Class 42

Technological consultancy, software consultancy, computer system design, creation of software for planning printing plants and facilities for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; technological consultancy with regard to printing machines, offset rotary printing machines, coating machines, digital print and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines for the graphics industry, machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials and parts therefor, creating and updating software for the above-noted machines; technological consultancy with regard to lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing machines, thermal transfer machines, photographic printing

machines, label making machines, gravure printing machines, inkjet printing machines, laser marking machines and laser printing machines; technological consultancy with regard to pre-press, data preparation and continuous data preparation, variable data printing including from databases, the printing of printed matter, production control, production planning, management information for interfaces and/or for data transfer, for devices for transporting and/or storing printed matter or paper or paper reels or plastics or metal or organic or inorganic materials for printing machines, for offset rotary printing machines, coating machines, digital print and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines for the graphics industry, machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials and parts thereof; creation and updating of software for the above-noted processes; technological consultancy with regard to electronic regulating apparatus, control devices, monitoring devices, quality control devices, production control devices, temperature monitoring devices as parts or as accessories of inkjet printing devices; technological consultancy with regard to the electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for sub-assemblies and parts of printing machines, offset rotary printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, for machines and mechanical apparatus for the graphics industry and for machines and mechanical apparatus for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; creation and updating of software for the goods noted above; technological consultancy with regard to electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for sub-assemblies and parts of lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines, label making machines, gravure printing machines, inkjet printing devices, laser marking devices and for laser printing devices; technological consultancy with regard to remote control, remote operation, remote monitoring, control, and/or regulating apparatus and devices for ink slides, ink rollers, damping rollers, register adjusting devices, devices for storing and/or adjusting rollers in inking or dampening systems and/or cylinders for devices for cleaning rollers in inking or dampening systems and/or cylinders,

and/or ink jet print heads and/or laser systems, for cutting devices and/or blade cylinders, for registers and gauge pins for web tension settings in printing machines, in offset printing machines, coating machines, digital printing and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines for the graphics industry and machines or mechanical apparatus for further processing of printed matter or paper or plastics materials or metal or organic or inorganic materials; creating and updating software for the above-noted goods; technological consultancy with regard to remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for devices for changing, and/or storing printing plates, inking and/or dampening systems and/or printer engine cylinders and/or for devices for tempering for inking and dampening systems and/or cylinders and/or ink jet print heads and/or laser systems in print devices; creating and updating software for the above-noted goods; technological consultancy with regard to consumables during the operation of printing machines, offset rotary printing machines, coating machines, digital print and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines for the graphics industry, machines for further processing of printed matter or paper or plastics or metal or organic or inorganic materials; technological consultancy with regard to consumables during the operation of lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines, label making machines, gravure printing machines, inkjet printing devices, laser marking devices and for laser printing devices; technological consultancy with regard to material for maintaining printing machines, offset rotary printing machines, coating machines, digital print and marking machines, inkjet printing machines, ink jet printers, in particular with one or several ink jets, ink jet printers working with one or several colors, machines for the graphics industry, machines for the further processing of printed matter or paper or plastics or metal or organic or inorganic materials; technological consultancy with regard to material for the maintenance of lacquering machines, drying machines, drying ovens, pallet changing and pallet transfer machines, stapling machines, machines for handling sheets/plates, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, bar-marking machines, hot embossing devices, thermal transfer devices, photographic printing machines,

label making machines, gravure printing machines, inkjet printing devices, laser marking devices and for laser printing devices; construction planning, in particular for metal construction; technical project planning, research in the area of technology.

Priority Claims:

Class 02

17/04/2012

GERMANY

All goods/services claimed in this application.

Class 07

17/04/2012

GERMANY

All goods/services claimed in this application.

19/12/2012

UNITED KINGDOM

All goods/services claimed in this application.

GLAXO GROUP LIMITED

**980 GREAT WEST ROAD, BRENTFORD, MIDDLESEX TW8
9GS, UNITED KINGDOM**

**ADDRESS FOR SERVICE: DONALDSON & BURKINSHAW
LLP, P.O. BOX 3667 ROBINSON ROAD POST OFFICE,
SINGAPORE 905667**

YETIFREEZE

T1312742D (29 30 32)

(International Registration No. 1169686)

Date of International Registration: 27/07/2012

Date of Protection in Singapore: 27/07/2012

Class 29

Fish; preserved, frozen, dried and cooked fruit and vegetables; jellies, jams, compotes; eggs, milk and dairy products; edible oils and fats; fats for food; butter; charcuterie; salted meats; crustaceans (not live); canned meat or fish; cheese; milk beverages, milk predominating; jellies, frozen fruit purees, jams, compotes which can be packed in standard packaging or individual flexible pouches standard or in the form of ready-to-eat lollipops.

Class 30

Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flour and preparations made from cereals, bread, pastry and confectionery, edible ices; honey, treacle; yeast, baking-powder; salt, mustard; vinegar, sauces (condiments); spices; ice for refreshment; sandwiches, pizzas; pancakes; cookies; cakes; rusks; sugar confectionery; chocolate; beverages based on cocoa, coffee, chocolate or tea; confectionery with water and syrup, or milk, or fruit, or with other ingredients in flexible packaging, marketed as a freezable liquid, or in solid or gelled form; edible ices, stick ice made with water and syrup, or milk, or fruit, or with other ingredients, these goods being deep-frozen; water-based ices, fruit ices, sorbets, milk ices, ice cream, frozen yoghurt, frozen confectioneries, ice desserts; frozen ice desserts; ice cubes and blocks of ice; preparations for making desserts and confectionery products, aromatic preparations for food, starch for food, natural sweeteners, ice, natural or artificial.

Class 32

Beers; mineral and aerated waters; beverages based on fruit and fruit juices; syrups and other preparations for making beverages; lemonades; fruit nectars; soda water; non-alcoholic aperitifs; beverages, non-alcoholic packaged in flexible bags having the form of plastic tube ready to consume.

Priority Claims:

Class 29

27/01/2012

FRANCE

All goods/services claimed in this application.

T1319683C (33)**(International Registration No. 1183591)****Date of International Registration: 15/10/2013****Date of Protection in Singapore: 15/10/2013**

The trade mark consists of a three dimensional shape of a bottle bearing front and back labels, a neck tag and a capsule. The front label prominently bears the words "Jameson", "Triple Distilled Irish Whiskey" and "John Jameson & Son" (the latter in cursive script) and a coat of arms, and the back label prominently bears the words "Jameson Irish Whiskey"; the front of the neck tag bears a round red seal with gold lettering "JJ&S" and the back of the neck tag bears the same coat of arms; the top of the capsule bears the same round red seal with gold lettering "JJ&S", with the word "Jameson" written in gold cursive script several times encircling the capsule. The front of the bottle is embossed with the words "Product of Ireland" between images of two men carrying barrels over their shoulders, and the back is embossed with "Since 1780" and "John Jameson & Son" (the latter in cursive script); the bottom of the bottle is embossed with a cross-hatching around the outside, with the letters "JJ&S" embossed in the middle.

The following claim is made in the International Registration:
Colours Claimed: Cream, green, red, black, white and gold.

Class 33

Irish whiskey; alcoholic beverages all containing Irish whiskey; all originating from Ireland.
