REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Class 01

Chemicals used in industry and science, in particular for the methodical use of filters and apparatus, polymers and polymer solutions for producing filtration membranes and membrane adsorbers; enzymes used in industry; enzymes used in science; biocatalysts; nucleases; diagnosis kits consisting of diagnostic reagents for scientific purposes (not for medical or veterinary purposes) and of diagnostic testing materials, other than for medical or veterinary use; test reagent diagnosis kits consisting of chemical reagents for diagnostic purposes or research purposes (not for medical or veterinary purposes); reagents and assay systems in the form of kits for microbiological and microbial analysis for scientific purposes or research purposes, in particular for conducting polymerase chain reactions for detecting nucleic acids; kits consisting of chemicals for separating of nucleic acids for scientific purposes or research purposes.

Class 06

Metal containers, in particular metal containers for holding and transporting flexible bags for biological, medical or pharmaceutical fluids; containers of metal; transportable buildings of metal, clean room systems for biotechnological applications consisting of transportable buildings of metal.

Class 07

Machines for the chemical industry; mixing machines; mixers (machines); vibrators for industrial purposes; electric sealing apparatus, in particular for plastic hoses; electrotechnical and electronic equipment and apparatus, namely centrifuges (machines); vessel holders for centrifuges (parts of machines), centrifuge beakers (parts of machines); centrifuge chambers (parts of machines); housings and filter housings of plastic (parts of machines); apparatus for connecting and separating plastics (machines), apparatus for the sterile connection and separation of plastic vessels (machines), including plastic hoses, tubes, bags and containers.

Class 09

Scientific instruments, apparatus and equipment, including laboratory equipment; weighing apparatus and instrument and parts therefor, scales of all kinds, including precision balances; mass comparators; load cells; mechanical, electric and electronic components for scales and weighing installations; electric metal detectors; electronic testing apparatus for air and liquid filters; measuring and checking devices and parts therefor, optical measuring, signaling and checking (supervision) apparatus and instruments, in particular microscopes, apparatus for analyzing gases, spectrometers, including for fluorescence and NIR spectra and apparatus for measuring turbidity;

probes for scientific purposes, in particular sensors; refractometers; pH meters, measuring apparatus for determining the moisture content of substances, measuring apparatus operating according to the principle of high-frequency technology, including microwave resonance technology, measuring apparatus for determining enzymatic reactions, electrochemical measuring apparatus, conductivity measuring apparatus, measuring apparatus for determining biomass, pressure and temperature, ultrasonic measuring apparatus for determining flow; collection and filter apparatus (laboratory device) for airborne germs and parts therefor; filter installations of stainless steel (laboratory and measuring devices); containers, housings and filter housings (parts of filter installations for laboratory and measuring devices); scientific apparatus, instruments and equipment for producing medical and pharmaceutical preparations and for the treatment of living organisms, in particular fermenters, mechanical shakers, homogenizers, freeze-drying installations, electrofusion and transfection apparatus, electrophoresis apparatus, thermostats and peripheral devices for computers and scientific and laboratory apparatus, in particular printers, data input, data display, data transfer, data reproduction, data storage and control apparatus; density measurement devices; test weights; software, in particular for controlling apparatus, equipment and installations and for controlling processes and for applications; apparatus for the cultivation of cell cultures (not for medical purposes); plastic bags for scientific and laboratory purposes, namely for the cultivation of cells; cell culture vessels having sensors; laboratory vessels and laboratory apparatus for cultivating, incubating, staining and analyzing biological materials, including microorganisms, cells and tissue; laboratory shakers; platforms for laboratory shakers, in particular having measuring stations for capturing physical data and/or having data interfaces for exchanging data with external apparatus; laboratory centrifuges; vessel holders for laboratory centrifuges, laboratory centrifuge beakers; laboratory centrifuge chambers; laboratory apparatus for mixing biopharmaceutical media, in particular by means of vibration, rotation and undulation; dosing devices, in particular for single use; interconnected apparatus of plastic, including hoses, pipes, bags, containers and filters for pharmaceutical or biotechnology applications for scientific and laboratory purposes; pipettes, multi-channel pipettes, pipetting aids, pipette tips, filters for use in pipettes or pipette tips; pipette holders; charging stations for pipettes; pipette accessories; syringes for use with pipettes; dispensers (dosing devices), in particular being attachments for containers; laboratory incubators; microtiter plates; devices for reading microtiter plates; bioreactors and fermenters for laboratory use, in particular with plastic bags; filters, filter apparatus and installations for laboratory purposes; membrane filters, membrane absorbers, absorbers and filter nonwovens, including all the aforesaid goods being parts for filter systems or being stand-alone filters for laboratory purposes.

Class 10

Medical apparatus and instruments, medical diagnostic aids, being parts of the aforementioned medical apparatus and instruments, namely electrophoresis cellulose acetate films, cellulose nitrate filters for electroblotting, polyamide films for DNA binding, culture medium holders, nutrient pads, membranes for detecting antibodies, detecting antigens and purifying antibodies; diagnostic membranes, being parts of the aforementioned medical apparatus and instruments; filters for use in medical devices and apparatus; containers for medical

purposes; flexible plastic bags for medical or pharmaceutical fluids, bags for medical purposes, namely for the cultivation of cells; bioreactors and fermenters, in particular with plastic bags, for medical and pharmaceutical purposes; filters of plastic and apparatus of plastic for sterile connection, being disposable apparatus for the pharmaceutical and biotechnology industries, namely for medical purposes; filter, filter apparatus and installations for medical purposes; filter installations of stainless steel for medical purposes; filter capsules, filter candles, filter winding modules, membranes, membrane filters, membranes absorbers, absorbers and filter nonwovens, including all the aforesaid goods being parts for filter systems or being stand-alone filters for medical purposes.

Class 11

Filters, filter apparatus and installations (parts of industrial installations) for use in technology, biology, food and beverage industry, biotechnology, pharmaceutical industry and chemical industry, genetic engineering and for water and waste water treatment, filter installations of stainless steel (parts of industrial installations) for use in technology, biology, food and beverage industry, biotechnology, pharmaceutical industry and chemical industry, genetic engineering and for water and waste water treatment; filter modules, including cross-flow filter cassettes, filter capsules, filter candles, filter winding modules, membranes, membrane filters, membrane absorbers, absorbers and filter nonwovens, including all the aforesaid goods being parts for filter systems or being stand-alone filters for use in technology, biology, food and beverage industry, biotechnology, pharmaceutical industry and chemical industry, genetic engineering and for water and waste water treatment; apparatus and installations for treating water and for waste water treatment and disposal of liquid solutions in the pharmaceutical, medical and laboratory sectors, apparatus for the deionization of water and for obtaining ultrapure water, and parts for the aforesaid apparatus; apparatus for the depyrogenation of solutions; containers having temperature regulators for chilling biopharmaceutical materials; disposable containers for chilling biopharmaceutical materials, protective devices and frames for disposable containers for the low temperature control of biopharmaceutical materials, temperature control devices for chilling biopharmaceutical materials in disposable containers; storage devices for disposable containers for the low temperature control of biopharmaceutical materials; cooling apparatus; filters of plastic and apparatus of plastic for sterile connection, being disposable apparatus for the pharmaceutical and biotechnology industries, namely for scientific and laboratory purposes.

Class 12

Trolleys for disposable containers for chilling biopharmaceutical materials.

Class 37

Maintenance, repair and servicing of mechanical apparatus and devices, weighing apparatus and instruments, electronic precision balances, scientific apparatus and instruments, laboratory apparatus, electronic filter testing apparatus, apparatus for treating water and treating aqueous solutions in the laboratory sector, apparatus for the deionization of water, apparatus for the depyrogenation of aqueous solutions, filter apparatus, filter apparatus, filter installations, filter

modules, fermenters and bioreactors.

Class 41

Education, providing of training and teaching; arranging and conducting of seminars, in particular relating to product applications and management training; conducting training and seminar programs for the pharmaceutical industry and for the food and beverage industry, in particular in the fields of quality systems and validation of products and methods.

Class 42

Scientific laboratory services, calibration services for test medium supervision, calibration of pipettes, calibration of measuring apparatus in the context of legal metrology; testing services, including conducting tests for the validation of filter systems, bioreactors and fermenters in the context of quality control for manufacturers of pharmaceutical products, conducting integrity tests for filter installations; computer programming; technical consultancy relating to network design; system consultancy, namely computer system analysis, filter system analysis and bioreactor analysis and technical consultancy relating to creating and changing the scale of systems consisting of computers, filter and/or bioreactor installations taking into consideration the mutual compatibility of these installations; creating technical validation concepts, in particular for the pharmaceutical industry and for the food and beverage industry; audits, namely monitoring the conformity of products, installations and technical methods using regulatory and/or legal specifications and guidelines, advice and consultancy on quality audit and quality control for manufacturers of pharmaceutical products and for food and beverage producers during audits, namely during monitoring of the conformity of products, installations and technical methods using regulatory and/or legal specifications and guidelines.
