REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

By consent of the registered proprietor of TM No T8103559I.

Class 03

Bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices.

Class 06

Common metals and their alloys; metal building materials; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; tool handles of metal; goods of common metal not included in other classes; ramps of metal for use in missile projection systems.

Class 07

Aircraft engines; machines and machine tools especially for the manufacture and repair of vehicles and apparatus for locomotion by land, air and water and parts thereof and in particular for the manufacture and repair of aeronautical engines; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); turbines other than for land vehicles; (auxiliary) power units other than for land vehicles; parts and connecting elements (fittings) for the aforesaid goods; tools (parts of machines); machine tools; aeronautical machines.

Class 08

Irons (non-electric hand tools); hand tools, hand-operated.

Class 09

Software; computer programs; computers; data processing apparatus; scientific (except for medical purposes), nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments (included in this class); apparatus for recording, transmission or reproduction of sound or images; publications (electronic), downloadable; magnetic data carriers, magnet recording carriers; information processing equipment and computers; pre-recorded and blank discs, pre-recorded and blank audio and video cassettes; pre-recorded and blank compact discs; transmitters, receivers, apparatus for transmitting electronic and radio signals; transponders; navigation

apparatus for vehicles; navigational instruments; satellite navigational apparatus; avionic instruments, equipment and systems related thereto; simulators for the steering and control of vehicles; flight simulation software; scientific satellites; satellites for receiving and transmitting radio signals; electric cables, fibre-optic cables; fuel dispensing pumps for service stations; sunglasses; satellites for scientific and commercial purposes.

Class 12

Vehicles; apparatus for locomotion by land, air, water and rail; aircraft; spacecraft; launch vehicles for spacecraft; air balloons; aerostructures included in this class; aeronautical apparatus; screw-propellers; military vehicles for transport, in particular by air; seat covers for vehicles; parts and connecting elements (fittings) for all aforesaid goods.

Class 13

Firearms, ammunition and projectiles; missiles (projectiles); signalling rockets; explosives; fireworks.

Class 14

Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes; jewellery, precious stones; horological and chronometric instruments; key rings and chains (trinkets or fobs).

Class 16

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; book binding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; pens; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; flyers; posters; labels, not of textile; flags of paper.

Class 17

Rubber, gutta-percha, gum and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes not of metal; carbon fibres, other than for textile use; plastic fibres, not for use in textiles.

Class 18

Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins, hides; trunks and travelling bags; umbrellas, parasols and walking sticks; handbags; shopping bags; sport bags.

Class 21

Household or kitchen utensils and containers; combs and sponges); mugs; cups; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes.

Class 24

Textiles and textile goods, not included in other classes; fabric impervious to gases for aeronautical balloons; banners; flags, not of paper; furniture coverings of textile; covers (loose) for furniture; curtains of textile or plastic; fabrics for textile use; textile labels; textile material.

Class 25

Clothing, footwear, headgear.

Class 28

Games and playthings; gymnastic and sporting articles not included in other classes; scale model vehicles and their parts, in particular models of aircraft and in particular model aeroplanes; toy vehicles; paragliders; puzzles; playing cards.

Class 35

Advertising; business management; business administration; office functions; commercial consultancy in the field of aeronautics; business organisational consultancy in the field of aeronautics; market research; marketing of aircrafts and parts thereof; organisation of exhibitions and trade fairs for commercial or advertising purposes; business management of participants of sporting events; advertising of sporting and cultural events; advertising and promotional services including promotion of products and services of third parties through sponsorship arrangements.

Class 36

Insurance; financial affairs; financing services; monetary affairs; hire-purchase financing, loans (financing); real estate affairs; financial sponsorship; valuation of patents; valuation of industrial rights and copyright.

Class 37

Construction; repair, maintenance and dismantling, in particular in the field of vehicles and of apparatus for locomotion by land, air or water as well as driving motors; installation services; maintenance of computer hardware; vehicle service stations (refuelling and maintenance); refuelling of vehicles; air refuelling; maintenance of measuring instruments, jigs, tools and spares.

Class 38

Telecommunications; pager and mobile phone services and electronic communication services; communication services provided by means of fibre-optic networks; telecommunication services via satellite; communication services via computer terminals; provision of telecommunication connections to a global computer network; telephone communication services; transmission of news and information; rental of telecommunication apparatus; rental of apparatus for transmitting images; rental of modems; transmission of messages and images by means of computers; communication services by computer terminals, radio and TV broadcasting; mobile phone services; satellite transmission services; rental of access time to computer databases; rental of access time to computers for handling of data.

Class 39

Transport; air transport; packaging and storage of goods; storage of aircrafts and parts of aircraft; travel arrangement; freighting; vehicle rental; air traffic management; traffic information; flight planning services, provision of flight information, provision of flight plans, air traffic control services, air navigation services, navigational advisory services, ground traffic control services for aircraft, management of aircraft operations, management of airfield operations, rescue operations (transport); airport operation services, in particular airport management and organisation; air travel consultancy, in particular information about air travel; recovery of aircrafts.

Class 40

Recycling of aircrafts.

Class 41

Education; training; training in the aeronautical field; arranging of airshows for educational and entertainment purposes; entertainment; sporting and cultural activities; video-tape film production.

Class 42

Computer programming; industrial analysis, scientific and technological services and research and design related thereto; industrial analyses; testing of installation of computer systems; computer programming for the creation and restoration of computerized data in databases; professional scientific and technological consultancy, non-business; engineering services, providing technical and industrial research in the field of science and technology; scientific and technological services, namely providing technical and industrial valuations, calculations, and opinions in the field of science and technology; engineering, physics and chemistry services; technical consultancy, assessment, research, testing and monitoring in the field of technology, in

particular transport, environmental protection, energy technology; material testing; provision of meteorological information, in particular weather forecasting; drafting, design and development of computer hardware and software; drafting and design of computer images; engineering (technical assessment); maintenance of software; mechanical research; aeronautical research; computer programming; technological flight simulation services; technical projects studies; technical research and consultancy; research and consultancy in the field of environmental protection; industrial design; design of interior decor; graphic arts designing; maintenance of computer software; testing services for the certification of quality or standards of vehicles; technical flight tests.

Class 43

Services for providing food and drink; temporary accommodation; hotels; catering (food and drink); restaurants; cafes; snack-bars; cafeterias.

Class 45

Exploitation of patents, in particular through granting of licences for industrial property rights; exploitation of patents; consultancy on security matters; negotiating and exploitation of industrial property rights and copyright, in particular through granting of licences to others for the use of industrial property rights and copyright; exploitation of industrial property rights and copyright.

Class 09

Apparatus, instruments and software for automatic identification or recognition of persons, fingerprints or palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features; biometric identification and control systems (apparatus, software); computers and software for biometric apparatus for identification and authentication of persons; software for biometric systems for identification and authentication of persons; software for detecting persons; software for reading fingerprints, palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features; optical, optronic or electroacoustic sensors for sensing fingerprints, palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features; card readers; biometric terminals; electric locks or devices for controlling access to buildings, services, equipment or networks by means of verifying fingerprints, palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features; systems (apparatus, software) for protecting information or communications by means of verifying fingerprints, palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features; signal processing software for use in detecting and identifying persons or biometric features of persons in the field of security and access control; apparatus, instruments and software for detecting and identifying counterfeit documents; fixed, portable and on-board equipment for medico-legal security applications; apparatus, instruments and software for secure game, lottery or betting applications; optronic sensors for data capture from game, lottery or betting tickets; electronic readers; electronic devices (apparatus and software) for verifying and identifying digital data; electronic apparatus, instruments, software, terminals, electronic devices (apparatus and software) for reading, for authentication and for identifying digital data; software, terminals and electronic devices (apparatus and software) for reading, for authenticating and for identifying machine-readable areas on personal administrative documents that feature an electronic chip capable of transmitting data with or without contact (such as passports, visas, identity cards, drivers' licences, health cards, voting cards, resident cards, residence permits and health professionals' cards); password identification devices (apparatus, software); apparatus and instruments, software, terminals, readers for data processing; data storage apparatus and instruments; software for verifying and identifying secure digital data;

apparatus and instruments for monitoring personal identity data; integrated circuit cards, integrated circuit cards for running and loading applications on computer terminals; integrated circuit cards for mobile radiocommunication systems; integrated circuit cards for access to, and communication with the users of, data networks; data processing equipment, particularly for integrated circuit card terminals, and parts for the aforesaid goods; operating system software, computer programs, operating system software for integrated circuit cards; databases; apparatus for testing integrated circuit cards; processing devices for IC cards namely reading cards terminals; apparatus for printing and engraving cards.

Class 16

Printed matter, especially printed cards for use as identity cards, telephone cards, checks, credit or bank cards; passports, visa documents, identity cards, driving licences, health cards, voting cards, resident cards, residence permits, health professionals' cards and other personal administrative documents featuring a machine-readable area, all these documents being of paper or cardboard.

Class 38

Telecommunications; interactive telecommunication via the Internet and other telecommunication networks; technical advice in the field of data communication and telecommunication; advice, consulting and information concerning the aforementioned services, especially that transmitted by electronic networks such as the Internet.

Class 42

Technological and engineering expertise consultancy and advice in the field of solutions of controlling persons access; design, research and development of programs and software for reading fingerprints, palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features in the field of access control or authentication of persons; technological and engineering expertise consultancy in the field of solutions of verification of personal records; design, research and development of systems for verifying records; technological and engineering expertise consultancy in the field of identity management platforms; design, research and development of electronic identification programs and software; automation services for computers (computer programming); conversion of data from physical to electronic media; design, installation, maintenance and updating of data processing software; cryptography services; encoding of identity documents; advice, consulting and information concerning the aforementioned services, especially that transmitted by electronic networks such as the Internet.

Class 45

Personal record verification services using alphanumeric and biometric data; delivering (issuance and grant) of identity documents that state rights, such as welfare cards, health cards, drivers' licenses or electoral cards; personalization services for documents, namely verification of personal identification information; identity verification services provided via electronic means.

Class 01

Adhesives and adhesive foils for industrial purposes, including contact adhesives, adhesives and adhesive foils for fixing grinding and polishing pads and foils, polishing cloths and felts, as well as diamond pellets and diamond grinding segments on laps in the optical production; soldering preparations and pastes for the soldering of diamond pellets and diamond grinding segments on grinding laps; optical cements and optical adhesives as well as optical cement and adhesive foils for cementing and fixing of optical parts on loose and fixed multiple blocks in the optical production, namely cementing sealing waxes, colophony cements, wax cements, cementing resins, ultraviolet cements and ultraviolet adhesives as well as contact adhesives; foam inhibitors and defoamers for liquid grinding, polishing, lapping and cooling preparations; preservatives for the preserving of liquid coolants and coolant lubricants; solvents for adhesives and adhesive foils for industrial purposes and for protective lacquers for protecting of particularly finished and polished surfaces in the optical production; chemical cooling preparations and cooling concentrates; chemical coolants for grinding of optical parts; coating (chemicals), other than paint, for spectacle lenses and other optical components, namely metals, metal oxides, metal nitrides, metal fluorides, metal carbides as well as mixtures thereof; raw materials for use as coatings (other than pigments) for spectacle lenses and other optical components, namely metals, metal oxides, metal nitrides, metal fluorides, metal carbides as well as mixtures thereof; waterproof and antistatic coatings (chemicals), other than paint; raw materials for use as waterproof and antistatic coatings (other than pigments); chemical additives for liquid coolants and cooling lubricants; chemical cleaning agents, namely chemical cleaning agents for circulation and supplying facilities used for circulating and supplying liquid grinding, polishing, lapping and cooling preparations; chemical additives for cooling lubricants; chemical cleaning agents for machines for the optical production; chemical cleaning agents and chemical additive concentrates for optical parts, particularly for ultrasonic cleaning machines and

apparatuses; liquid grinding, polishing and lapping chemical preparations as well as chemical additive concentrates.

Class 02

Paints, varnishes and lacquers for industrial purposes; protective lacquers for protecting of particularly finished and polished surfaces in the optical production as well as thinners for such use, including dip-coating paints for spectacle lenses; colorants for colouring of optical lenses; UV-curing and by thermal polymerization curing lacquers for the coating of surfaces in the optical production; lacquers for the scratch-resistant coating of spectacle lenses.

Class 03

Grinding, polishing and lapping abrasives in powder form for the preparation of liquid grinding, polishing and lapping slurries for the processing of particularly optical parts with loose abrasive.

Class 04

Cooling lubricants; cooling lubricants containing diamond suspensions; cooling lubricants containing diamond lubricants; cooling lubricants containing oxide polishing suspensions; non-chemical additives for coolants and lubricants for grinding optical parts with diamond tools; non-chemical additive concentrates for coolants and lubricants for grinding optical parts with diamond tools; mineral oil free lubricants; lubricants based on vegetable oil, particularly for the processing of mineral glass and plastics in optical production; mineral cooling oils for grinding of optical parts; cutting oils; waxes for the blocking of semi-finished optical parts; oils, greases and lubricants for high-vacuum pumps and other vacuum applications.

Class 06

Alloys of common metal for the blocking of semi-finished optical parts; metallic consumables for application in electron beam guns and ion guns, particularly crucible liners and evaporation boats from molybdenum and other high-melting metals as well as filaments from tungsten wire; sputter targets, consisting of metals and metal oxides.

Class 07

Machine-driven tools for optical machinery as well as parts thereof and accessories therefor, included in this class, namely drills, turning tools with blades from tungsten carbide, PCD (Poly Crystal Diamond), CVD (Chemical Vapor Deposition) or natural diamond, milling heads with PCD (Poly Crystal Diamond) blades and blades from tungsten carbide, sintered and electroplated special shape milling cutters, diamond plano cutters, diamond radial milling cutters, diamond circular grinding tools, diamond grinding wheels,

diamond plano grinding wheels, diamond slicing wheels, diamond cup grinding wheels, diamond centering wheels, diamond chamfering wheels and discs, diamond hollow drills, diamond grinding segments to cover flat grinding wheels, diamond pellets with metal or resin bond of the diamond particles to cover form tools, sintered and electroplated diamond grinding pads and foils, form tools for grinding, polishing and lapping processing of particularly optical parts by means of bound and loose abrasive, grinding pads, grinding tapes and grinding foils with bound abrasive, polishing base, including polishing pads, polishing discs, polishing tapes, polishing foils, polishing cloths and polishing felts; workpiece chucks (parts of machines) for optical machinery as well as parts thereof, including collet chucks and workpiece holders with membranes; workpiece holders (parts of machines) to clamp optical lenses; blocking pieces (parts of machines) from aluminium alloys or plastics and blocking rings (parts of machines) from stainless steel as well as attachment, plano and prism rings (parts of machines) for the blocking of semi-finished optical parts, particularly semi-finished ophthalmic blanks, for further processing thereof; filter papers, non-woven filter materials and filter cloths, as parts of machines, for filtering of particles from liquid coolants and cooling lubricants; plasma and ion (Kaufman-) sources for the ion-supported operation of coating devices [parts of coating machines]; spare parts for coating devices, particularly graphite and stainless steel anodes, gas distributors, insulators and thermal transfer plates [parts of coating machines].

Class 09

Apparatus, comprising monitor crystals (derived from quartz crystal ceramics) and a metallic electrode, for measuring layer thickness in coating devices.

Class 17

Plastic film, not for wrapping, used to protect finished and polished surfaces in the optical production

Class 20

Trays made of plastic for optical parts.
