REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Apparatus for linking computers into networks; Computer based control apparatus for machines; Wheel balancing apparatus utilising computers; Computer software for the analysis of defects; Data carriers incorporating computer programs; Interactive multimedia computer game programs; Computer programs for commercial transactions; Computer programs relating to word processing; Computer apparatus for computer aided testing; Digital video adaptors for use with computers; Computer programs for video and computer games; Connection graphics language computer programs; Magnetic tapes for visual electronic computers; Plug-in cartridges bearing computer programmes; Computer software to automate data warehousing; Electrical data output apparatus for computers; Charging appliances for rechargeable equipment; Computer apparatus for computer aided drafting; Punched cards for use with computers (encoded); Semiconductor apparatus for use with computers; Magnetic tapes for storing computer programmes; Computer programs for use in molecular biology; Computer software for processing address files; Computer programs for the creation of networks; Devices for use in the networking of computers; Computer programs for scientific data analysis; Data being magnetically recorded for computers; Computer software downloaded from the internet; Computer related voice communication apparatus; Recording material bearing computer programmes; Memory devices for use with computer apparatus; Circuit boards for use with computer keyboards; Computer programs stored on magnetic materials; Magnetic discs for storing computer programmes; Data being electrically recorded for computers; Computer installations for the storage of data; Visual display apparatus for use with computers; Recorded computer programs in the form of tapes; Computer software for processing digital images; Data recording materials for use with computers; Computer controlled automatic testing apparatus; Computer controlled fuel dispensing instruments; Units adapted for the storage of computer disks; Magnetic tape for recording computer programmes; Computer programs for use in telecommunications; Computer controlled workstations for data entry; Recorded computer programs in the form of cards; Computer programs for designing control systems; Recorded computer programs in the form of disks; Recorded computer programs in the form of wires; Computer programs for use in fitting spectacles; Computer programs relating to computer networks; Computer networks for the communication of data; Computer programs relating to motorcycle racing; Computer programs relating to financial matters; Computer software for wireless content delivery; Computer programs for testing computer hardware; Computer programs for use in database management; Computer systems designed for project management; Semiconductor memories being computer programmes; Computer controlled apparatus for voting systems; Simulation software for use in digital computers; Electronic memories comprising computer programs; Data processing apparatus for use with computers; Computer programs for use in fluid flow analysis; Computer programs for use in desk top publishing; Electronic data apparatus for use with computers; Magnetic tapes for recording computer programmes; Magnetic cards for recording computer programmes; Audio racks adapted for use with audio equipment; Computer discs containing business documentation; Printed circuit boards for mounting in computers; Magnetic discs for recording computer programmes; Recording discs for use with computer programmes; Computer apparatus for recording telephone calls; Computer programs relating to housing management; Computer

hardware publications in electronic form; Computer software for use in controlling machines; Image processing apparatus for personal computers; Keyboards for entering information into computers; Computer programs for analysing computer hardware; Training guides in the form of a computer program; Paging interface apparatus for use with computers; Computer programs for electronic image processing; Record carriers for computer programmes (optical); Computer hardware for use with drilling apparatus; Computer programs for use by travel organisations; Computer installations for the processing of data; Computer apparatus for computer aided engineering; Computer programs relating to local area networks; Boxes adapted for storing computer software disks; Pre-recorded data carriers for use with computers; Storage file units for computer program recording; Computer apparatus for use with computer networks; Computer programs for management of manufacturing; Computer apparatus for use in local area networks; Plastic insulated cables (electric) for computers; Graphic printers for use with computing apparatus; Computer programs for producing computer graphics; Computer programs in the field of design analysis; Recorded computer programs for scientific research; Electronic memories for the input of computer data; Record carriers for computer programmes (magnetic); Alignment equipment for electronic audio apparatus; Computer hardware for use with drilling instrument; Personal computers for use with video game devices; Microprocessor based computer compatible apparatus; Computer programs for electronic design automation; Magnetic tape drives for storing computer programs; Computer software for analysing market information; Computer programs for use as reporting directories; Installations for use in forming computer networks; Computer programs for the petrochemical industries; Cards for use with computers (encoded or magnetic); Computer hardware for use with drilling operations; Personal computers incorporating computer software; Electronic publications recorded on computer media; Computer software programs for database management; Training manuals in the form of a computer program; Electronic memories comprising computer programmes; Computer programs for use as searching directories; Input apparatus for transferring data to computers; Computer programs for use in computer-aided design; Television display monitors for use with computers; Computer programs stored on magnetic data carriers; Computer programs for use with facsimile apparatus; Vibration dampeners for electronic audio equipment; Computer based control apparatus for machine tools; Computer programs relating to computer aided design; Computer software for processing market information; Computer workstations (apparatus and installations); Computer based control apparatus for assembly lines; Paper handling devices (parts of computer printers); Electronic memories for the output of computer data; Magnetic cards for the storage of computer programs; Paper feed apparatus for use with computer printers; Communication devices for linking computer networks; Apparatus for inputting information into a computer; Television display apparatus for use with computers; Computers for managing control devices for aircraft; Apparatus for data communications between computers; Computer apparatus for computer aided manufacturing; Electronic memories incorporating computer programs; Apparatus for receiving information from a computer; Materials bearing computer programs in encoded form; Credit card encoding machines [computer peripherals]; Computer software for processing digital music files; Operating computer software for main frame computers; Electrical

control apparatus being computer operated; Installations for use in the networking of computers; Electronic control apparatus for computer programmes; Computer programs recorded on magnetic data carriers; Apparatus for computer numerical control of machines; Input apparatus for transferring data from computers; Electronic memories for the control of computer data; Computer games programs recorded on tapes (software); Electronic printing apparatus for use with computers; Paper guiding apparatus (parts of computer printers); Computer programs recorded on data storage materials; Data storage devices for recording computer programs; Materials for carrying computer data in optical form; Audiovisual display apparatus for use with computers; Industrial controls incorporating computer apparatus; Computer controllers for operating sound instruments; Electronic memories for the storage of computer data; Computer programs for integrated circuit diagnostics; Computer installations for the communication of data; Computer software programs for spreadsheet management; Mobile work stations (computer, other than furniture); Materials for carrying computer data in magnetic form; Electrical print out apparatus for use with computers; Personal computer software applications, downloadable; Computer games programmes downloaded via the internet; Computer programs in the field of molecular modelling; Apparatus for use in communications between computers; Computer controllers for operating lighting apparatus; Process control units using process control computers; Electronic print out apparatus for use with computers; Credit card embossing machines [computer peripherals]; Devices for linking terminals on a computer apparatus; Broadband data interconnecting computer installations; Technical literature in the form of computer programs; Computer programs for editing images, sound and video; Computer programs in the field of communication links; Electronic security equipment, other than for vehicles; Cartridges for toner (unfilled) for use with computers; Computer programs for the creation of elementary cells; Computer programs for designing printed circuit boards; Computer programs recorded in computer accessible form; Computer software for authorising access to data bases; Boxes adapted for transporting computer software disks; Electronic data input apparatus for use with computers; Electrical data input apparatus for use with computers; Magnetic carriers for the storage of computer programs; Paper feeding apparatus for use with computer printers; Personal computer work stations (electronic apparatus); Navigation apparatus for vehicles [on-board computers]; Optical discs bearing machine readable computer program; Computer programs for use in defining machineable parts; Recorded computer programs in the form of punched cards; Tape units for backing up computer data storage systems; Electronic data output apparatus for use with computers; Computer programs for use in computer aided engineering; Apparatus for interconnecting data processing equipment; Integrated circuit cards storing computer game programs; Computer programs relating to the training of personnel; Apparatus controlled by computers for analysing samples; Memory cartridges on which computer programs are stored; Electronic memory units for bearing computer programmes; Computer installations for the control of machine tools; Tape units for backing up computer data storage devices; Memory devices bearing programmes for use with computers; Computer software for controlling self-service terminals; Computer apparatus having speech generation capabilities; Computer apparatus for the management of telephone calls; Paper strips bearing punched (encoded) computer programs; Input apparatus for use with

computers for handling data; Computer controlled mechanisms for coin operated lockers; Machine readable carriers for stored computer programmes; Anti-glare filters for televisions and computer monitors; Magnetic recording materials bearing computer programmes; Paper bearing computer programs in machine readable form; Magnetic recording apparatus bearing computer programmes; Computer based electrophoresis image processing apparatus; Computer controlled telecommunications exchange apparatus; Computer programs for use in developing computer programs; Computer programs for use in computer-aided manufacturing; Programs for setting up performance analysis in computers; Interactive entertainment software for use with computers; Semiconductor memory cartridges bearing computer programmes; Remote control apparatus connected by modems to computers; Magnetic supports containing recorded computer programmes; Computer programs for use with structured system analysis; Installations for the remote loading of computer software; Electronic equipment for testing environmental conditions; Electronic apparatus for linking televisions to computers; Digital interactive video adaptors for use with computers; Computer software to maintain and operate computer system; Machine readable material for bearing computer programmes; Electronic visual display apparatus for use with computers; Articles adapted for use in the support of computer cables; Computer installations for the control of laundry machines; Computer apparatus for the transmission of telephone calls; Articles adapted for use in the ducting of computer cables; Computer software for application and database integration; Paper bearing magnetic discs for recording computer programs; Tapes bearing computer programmes in machine readable form; Electronic components for the storage of computer programs; Solid-state electrical apparatus for the storing computer data; Installations for the remote unloading of computer software; Consoles adapted for mounting units of electronic equipment; Computer software for creating and editing music and sounds; Computer programs for establishing pump operating schedules; Electric devices for transmission of data between computers; Computer programs used for electronic cash register systems; Computer software for use in programming facsimile machines; Electrically punched (encoded) cards for use with computers; Electrically punched (encoded) tapes for use with computers; Optical discs for bearing machine readable computer program; Cartridges of magnetic tape for recording computer programs; Electronic equipment for measuring environmental conditions; Computer programs relating to the creation of graphic images; Computer software designed to estimate resource requirements; Audiovisual display apparatus adapted for use with computers; Computer terminals for use with debit cards at point of sale; Fault diagnostic equipment for use in the repair of vehicles; Computer software for use in processing semiconductor wafers; Cursor control devices for use with computer display systems; Computer game software for use on mobile and cellular phones; Computer apparatus adapted for use with visual display units; Data carriers for computers having software recorded thereon; Computer controlled installations of video display apparatus; Electronic display apparatus for use with exercise equipment; Software to control and improve audio equipment sound quality; Computer terminals for use with credit cards at point of sale; Computer programs for the design of plate fin heat exchangers; Circuit boards for use in the emulation of computer terminals; Computer programs for monitoring computer systems performance; Recorded computer programs in the form of punched paper tapes; Apparatus for collecting encoded data for

supply to computers; Computer programs for the rating of plate fin heat exchangers; Computer programs for dynamic simulation of oil well drilling; Computer aided design instruments for laser machining systems; Materials bearing data in encoded form for use with computers; Electric ignition apparatus for liquid fuel burning equipment; Computer programs for using the internet and the worldwide web; Computer games programs downloaded via the internet (software); Acoustic receivers for telephonic communication with computers; Apparatus for controlling the operation of machines (computer); Computer software for communication between computer processes; Materials bearing computer programs in magnetic (encoded) form; Insert cards (printed circuit boards) being parts of computers; Electric control apparatus for automobile electrical equipment; Computer terminals for use with encoded cards at point of sale; Computer installations incorporating a central processing unit; Solid-state electrical apparatus for storing computer programs; Interface instruments for computer control of knitting machines; Fault diagnostic equipment for use in the servicing of vehicles; Telecommunications apparatus for transferring data to computers; Computer terminals for use with magnetic cards at point of sale; Computer software adapted for use in the operation of computers; Computer programs for automating molecular biological processes; Data processing programmes for editing in computer aided design; Computer programs recorded on diskettes for producing lettering; Computer programs relating to the manipulation of graphic images; Personal computers for use with coin operated video game devices; Computer programs for the analysis of data processing procedures; Computer programs for providing a graphical presentation of data; Electronic data carriers with computer programs (machine script); Paper cards bearing computer programmes in machine readable form; Computer programs for the enabling of access or entrance control; Solid-state electrical apparatus for storing computer programmes; Recording materials for the storage of digital computer programs; Computer programs for the analysis of data processing efficiency; Computer controlled apparatus for testing printed circuit boards; Fibre optics communications installations for use with computers; Computer programs for the control of telecommunication apparatus; Computer programs for the evaluation of thermal radiation levels; Videotext computer terminals incorporating alphanumeric keyboards; Data processing programmes for archiving in computer aided design; Computer programs in machine readable form recorded on paper tape; Computer programs relating to the creation of photographic images; Computer programs for the analysis of data processing performance; Paper tapes and cards bearing punched (encoded) computer programs; Data terminals for the entry of data to a central computer system; Electronic devices for the transmission of data between computers; Computer game software downloadable from a global computer network; Computer apparatus for the measurement of brakes on motor vehicles; Computer programs for the control of telecommunication instruments; Life saving equipment in the form of hydraulic extending platforms; Network software applications being downloadable computer programs; Computer hardware for use in computer-assisted software engineering; Computer controlled installations of liquid crystal display screens; Computer programs for the management of the manufacturing processes; Computer software for communicating purposes between microcomputers; Computer programs for simulating the trading in futures and options; Computer based apparatus for use in the enhancement of video signals; Safety

restraints, other than for vehicle seats and sports equipment; Computer based development apparatus for testing electronic circuits; Mosaic-type heads for impact printing machines for use with computers; Data storage media (other than paper) for recording computer programs; Materials bearing information in magnetic form for use with computers; Data carriers incorporating computer programs written in machine code; Computer aided teleprinter apparatus having word processing functions; Computer based apparatus for the implementation of electronic circuits; Interactive computers for use in certifying airport security personnel; Computer apparatus for the measurement of suspension on motor vehicles; Apparatus for protecting computers from electrical power supply faults; Computer utility programs [program performs computer maintenance work]; Computer programs in machine readable form recorded on electronic media; Computer programmes (programs) and recorded software distributed online; Computer based development apparatus for testing printed circuit boards; Machine readable computer programs for use in the reproduction of music; Electrical connectors for connecting laptop computers to telephone lines; Computer based apparatus for designing the layout of electronic circuits; Electronic data processing apparatus for the storage of computer programs; Devices for converting image information to digital signals for computers; Telecommunications apparatus for transmitting data for use with computers; Data terminals for the communication of data to a central computer system; Fibre optics communications apparatus for use with computer work stations; Computer software for controlling and managing access server applications; Computer based apparatus for the implementation of printed circuit boards; Cameras for monitoring and inspecting equipment in a nuclear power station; Computer based development apparatus for the design of electronic circuits; Computer programs for use in processing data relating to financial records; Computer software for controlling the operation of audio and video devices; Programs written on data carriers for processing encoded data on computers; Electrical communications apparatus for use with interconnecting computers; Computer software for organizing and viewing digital images and photographs; Safety harnesses (other than for vehicle seats or being sporting equipment); Interfaces between application programs and firmware on real-time computers; Computer controlled apparatus for furnishing voice responses to data inputs; Simulators incorporating digital computers for industrial training purposes; Computer based apparatus for designing the layout of printed circuit boards; Computer based development apparatus for the design of printed circuit boards; Interface cards for data processing equipment in the form of printed circuits; Apparatus for automatically placing messages via telecommunications equipment; Computer programs for use with computer integrated manufacturing installations; Educational materials in the form of computer programmes for teaching languages; Computer apparatus for use in monitoring biochemical reactions (for medical use); Computer software to enable the transmission of photographs to mobile telephones; Computer apparatus for the measurement of exhaust gas emissions on motor vehicles; Miniature hard disk drive storage units on a plug-in card being computer apparatus; Downloadable computer game software via a global computer network and wireless devices; Computer controlled electro-mechanical apparatus for automatically dispensing products; Computer programs for searching remotely for content on computers and computer networks; Computer controlled electro-mechanical instruments for automatically dispensing products;

Devices for preventing the theft of vehicle audio equipment (part of the audio equipment); Computer apparatus for use in monitoring biochemical reactions (other than for medical use); Computer programs for searching the contents of computers and computer networks by remote control; Video game computer programs for use with game apparatus not requiring a separate means of display; LAN [local area network] computer cards for connecting portable computer devices to computer networks; Racks and mountings specifically adapted for use with audio, visual, computer and telecommunications equipment; Operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROM; Cash registers; Automatic cash registers; Electronic cash registers; Printers for cash registers; Cash register enhancement boards; Electronic checkout apparatus for use with cash registers; Point-of-sale terminals; Point of sale apparatus; Electronic point of sale terminals; Electronic point of sale transaction terminals; Encoded cards for use in point of sale transactions; Computer software; Computer game software; Computer graphics software; Recorded computer software; Computer software packages; Computer software products; Computer software programs; Computer software, recorded; Computer software platforms; Computer operating software; Computer software (programs); Interactive computer software; Computer screen saver software; Computer search engine software; Computer software for encryption; Computer software for time control; Computer software development tools; Computer games programmes (software); Network management computer software; Cleaning discs for computer software; Industrial computer software programs; Computer games entertainment software; Games software for use with computers; Security devices for computer software; Magnetic cards being computer software; Video games on tape (computer software); Computer software for business purposes; Video games on disc (computer software); Computer software for accounting systems; Video games programs (computer software); Cartridges for computer games (software); Cards encoded to access computer software; Computer programs [downloadable software]; Controlling software for computer printers; Communications processing computer software; Computer software designed to estimate costs; Computer software applications, downloadable; Cartridges (software) for use with computers; Computer software to enable searching of data; Computer software for analysing address files.
