REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

software for cardiac vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information, software for collecting data concerning vital signs, software for analyzing electrical systems and electronic instruction manuals sold as a unit therewith, software for employees of financial institutions used for assessing customers' financial investments and processing the sale of the identified investments, software for obtaining information on the risk of flooding with regard to real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial computer services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient monitoring, software installed on and used with PCs and medical monitoring equipment for graphic user interfaces, software for sending encrypted and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to route subterranean installations; electronic, nuclear, industrial and laboratory instruments and apparatus, for testing, measuring, calculating and monitoring; electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; condensers (capacitors); switches for lighting; input/output controls and devices; fuses; controls for lighting; switch boxes, LEDs, namely light-emitting diodes, voltage regulators for electric power, voltage surge protectors, voltage surge limiters, voltmeters, electrical circuit boards, relays and timers, solenoids and limit switches, manual full-voltage starters, reduced-voltage starters, electric switches and disconnecting switches, splitters for circuit boards and pumping panels, circuit breakers and disconnecting switches, transformers, electric circuit and electric lighting boards, electric wires, cables, cords and conductors, electric wiring and accessories, lightning conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centers and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for particle or laser rays microfabrication; apparatus for bio-informatics systems; scintillation apparatus; imaging apparatus for radioactive and luminescent emissions; integrated synthesis and purification systems; oligonucleotide-producing apparatus; optical laser systems for digital imaging; glassware for laboratories; vials and micro-vials; microtiter plates; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software and manuals therefor sold as unit for factory management; graphic interface computer programs for controlling machines in industrial automation applications; software for creating graphic presentations and editing dynamic data interfaces for real-time graphic applications for industrial and commercial use; communication software for connecting computer network users; software for plastic injection molding; software for controlling, monitoring, simulating, communicating, recording and collecting data and for factory automation;

software for integration of manufacturing machine operations, process control, supply of data for displaying, problem monitoring and production report generation; software packages for operating and programming grinders in the manufacturing industry; computer hardware for monitoring industrial processes, namely computer monitors; portable computers, Ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors and system cards; call controllers, operator interfaces, reference interfaces and data collectors; applications for manufacture and control, namely for statistical process control, data collection, direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; distributed and remote input/output equipment, input/output modules, interface modules, electricity supplies and assembly equipment; anti-theft and burglar alarm systems; security devices, namely logic programming computers, control panels, electronic burglar detectors, electronic glass-breakage detectors, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, electronic motion-sensitive switches, fixed connection sirens, audio loudspeakers, electronic navigation systems, access control and alarm monitoring systems; fire, heat and smoke alarms and detectors; computer cards access control systems; card readers, card encoders and encoded cards for card-operated access control systems; video cameras; video devices for object recognition; video devices for object tracking; video devices for reading license plates; video devices for checking alarms; video devices for facial recognition; video devices for vehicle recognition; video devices for traffic detection; video devices for access door control; video devices for burglar detection; processing hardware or software used for analyzing digital video images for automatically extracting, recording and reporting information automatically, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radio-frequency transceivers; transceivers for electrical lines; communication monitoring equipment for operating closed-circuit cameras; communication monitoring equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of a closed-circuit camera operating system; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fiber-optic transmission systems, namely fiber-optic transmitters, receivers and transceivers for transmission of video signals, audio signals and data via optical fibers; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and readers and encoders thereof; magnetic access cards and readers and encoders thereof; memory access cards and readers and encoders thereof; proximity cards and readers and encoders thereof; electronic keys and their readers and encoders; barcode access cards and their readers, encoders and laminators; access keypads; radio-frequency tracking tags; tracking and control systems consisting of one or several radio-frequency beacons, detectors and transceivers for

determining and checking the location and movements of tangible assets, stocks and individuals; infrared sensors; computer hardware and software for managing infrastructures and monitoring systems for accessing infrastructures and components thereof, namely control boards, access card readers and video imaging, video surveillance, digital hard disk recording, network transmission and remote access equipment and systems; networked digital video storage servers, applications for surveillance and access control, alarm and security monitoring, computer software and hardware for monitoring and operating access and security systems comprising locking systems, doors, access and identification devices and security cases in the form of boxes for securing keys; surveillance systems sold separately or as components or in the form of sets such as systems comprising one or several surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera stands, lenses, video monitors, video recorders, digital recorders, video recording media, video switches, control panels, numerical pad controls, joysticks, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders, readers and encoders; data processing computer software and hardware; electric power supplies, namely batteries, rectifiers/regulators of current/voltage and transformers; control panels, namely electronic apparatus designed for electronically monitoring a predefined activity and for activating an anti-theft alarm; loudspeakers for sirens and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras; switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, in industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on individuals, in luggage and freight; electric and electronic checking apparatus for detecting the presence of explosives and/or narcotics on individuals, in luggage and freight; apparatus for detecting the presence of explosives and other contraband; timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for water treatment equipment; control valves for water treatment and filtering equipment; bioreactors for cell culture; portable analysis instruments, namely a probe with a recorder for data conversion equipped with microprocessors for measuring organic and inorganic products in water; filters and filter housings for laboratories; membrane filters for laboratories; silt density measuring devices; deionization devices for laboratories, filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flow meters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other applications in life sciences; electronic controls for water treatment and processes, namely apparatus for treatment of industrial and commercial water supply systems, boiler water systems, water cooling systems, cooling water systems and closed water-supply systems, systems for paper and pulp treatment, fuel treatment systems and metal treatment systems for analyzing the

chemistry of the system, determining the proper treatment program, applying the desired treatment and monitoring the effectiveness of the treatment; data management software in the field of paper, pulp and water treatment; electronic controls for data processing in the field of paper, pulp and water treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; electric apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed; mobile laboratory equipped with equipment and instruments for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial waters, for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation, photo-cells; apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of data, enabling users to store or manage personal information and to transmit and receive voice, video and image communications; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic apparatus and software related thereto; portable electronic devices for wireless data reception and/or transmission; software for re-orientation of messages, electronic mail and/or other data from a personal computer or a server towards one or several portable electronic devices; computer software and programs for wireless device operation and management; telecommunication devices; software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks, and for navigation on the aforesaid networks websites; software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game software for mobile telephone receivers; electronic game software for mobile telephone receivers; software packages; batteries, dry cells and batteries, rechargeable batteries, battery chargers, storage batteries, solar cells and batteries, fuel cells; carbon electrodes, wiring apparatus, connectors (electric), electric cables, electric ducts, floor ducts specially designed for housing electric cables, ballast (for discharge lamps), under carpet wiring systems, code lighting-switches, circuit breakers, magnetic contactors and starter switches, circuit protectors, switching devices, electric connecting boxes, device switches, output jacks, plugs (electric), electric timers; signaling apparatus and instruments, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas-leak alarms, anti-theft alarms, portable emergency intercoms; acoustic machines and apparatus, radios, tape recorders/players, radio cassette recorders, portable tape players, compact disc recorders/players, minidisc recorders/players, minidisc decks consoles, DVD (digital versatile disc) audio recorders/players, secured digital recorders/players, secured digital cards, loudspeakers, tuners, amplifiers, stereo component systems, disc readers, graphic equalizers, radio alarm clocks, integrated circuit recorders, digital audio processing devices, earphones, headphones, microphones, cassette recorders/players, software for compact discs (prerecorded), electric megaphones, language laboratories, audio systems for cars, public address systems, audio mixers, audio equipment cleaning equipment, namely magnetic head cleaning

equipment; audio cables, video cables, other audio machines; audiovisual machines and apparatus, television sets, cathode ray tube display devices, cathode ray tubes, image pick-up tubes, plasma television sets, plasma displays, LCD (liquid crystal display) television sets, liquid crystal display monitors, television sets combined with video tape recorders, television sets combined with disc players, antennas, tuners for satellite broadcasting, television tuners, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, software for video CD (compact disc), video recorders/players for DVDs, color video systems for large-scale display, cable television systems, hard disk units, video imaging devices, electric optical display boards, multi-purpose electric display systems, closed-circuit video equipment systems, software for DVDs, television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems, light emitting diodes (LED) displays, other audiovisual machines; optical disc machines and apparatus; optical disc units, optical disc recorders, optical disc players, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private auto-switch systems, global positioning system receivers, radiotelephones, marine radars, radio-paging receivers, mobile communication systems, multi-channel access radio systems, electric panels for traffic information, videoconferencing systems, private portable telephone systems, local network systems, AV codecs (coder-decoders), navigation systems for cars (road guidance systems), electronic systems for road toll collection, GPS (global positioning system) antennas; surveillance (monitoring) apparatus and instruments, communication and surveillance systems for apartment structures, intruder detection systems, automated systems for surveillance and control of functions in buildings, security apparatus with several electrical layers; automatic control machines and instruments, electric distribution boards, road signal control apparatus, bus location systems, ultrasound vehicle detectors, information and telecommunication networks for road traffic management, light dimmers, light switches, inverters, programmable control systems, transformers, cabinets, domestic electricity production systems, power capacitors; data processing equipment; computers and computer peripherals, word processors, software (recorded), image scanners for personal computers, printers, PC (personal computer) cards, computer keyboards, mouse(data processing equipment), CD-ROM (compact disc-read only memory) units, diskette units, card reading/writing systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants (PDAs), DVD-RAM/ROM (digital versatile disc-random access memory / read only memory) units, CAD/CAM (computer-aided design/computer-aided manufacturing) systems, hard disk units, electronic calculators, uninterrupted power supplies for computers / communication / broadcasting; external storage devices, video cassettes, cleaning heads, D-VHS (video data home systems), other computer peripherals; video tapes, audio cassettes, diskettes, optical discs, mini-discs, DVDs (digital versatile discs), integrated circuit memory cards; weighing and measuring apparatus and instruments, thermoluminescent dosimetry systems, portable x-ray dosimeters, electronic meters, ammeters, electricity consumption meters, grip measuring devices, electric apparatus for measuring leakance, electric insulation meters, thermometers, measuring system processors, electric multi-circuit sector voltage monitors, micro-precision measuring devices, body fat monitors, pacers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; sensors, light-sensitive sensors, thermometric sensors, position sensors, angular velocity sensors, rotation sensors, angle sensors, dew point sensors, other sensors;

electric components, light emitting diodes, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, semi-conductor storage devices, one chip micro-computers, electric condenser, microphones cartridge, gray-scale image processors, thermal printing heads, magnetic heads, permanent magnets, connectors, relays, display components, semi-conductor lasers, charge coupling devices (CCD device), image detectors, film capacitors, over-oxygenation membrane units, electric tuner units, high-frequency units, coin validation units, note validation units, magnetic card reading/writing devices, voltage-controlled oscillators, phase-locking circuit synthesizing modules, wireless communication module units, optical transmission components, printed wiring boards, loudspeaker components, electricity supplies, AC (alternating current) adaptors, focusing magnets, inductors (coils), capacitors for electric apparatus, electric signal filters, transformers, deflection coils, thermistors, varistors, piezoelectric ceramic components, acoustic-optical components, resistances, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-welding wiring boards, transparent touch panels, electroluminescent components, remote control units, magnetic resistance elements, thermal disconnects; data processing equipment, in particular for financial applications; operating system programs; computer hardware and software, in particular for local and wide-range computer networks development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank card memories; automatic ticket dispensers; accounting machines; encoded cards, including magnetic cards and integrated circuit cards, in particular for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; automated banking machines; encoders and decoders; modems; encoded magnetic cards, electronic data carrier cards, encoded magnetic card readers, electronic data cards reader, electronic encryption systems, computer hardware, computer terminals, software used in financial services, in the banking and telecommunication industries; electric and electronic products, namely calculating machines, pocket planners, alarms; bank cards, including printed bank cards and bank cards with magnetic memory and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automated teller machines (ATMs); data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; mouse pads; machines for transmission, distribution, control, transfer of electricity, control and switching devices; liquid control devices, namely, flow meters, manostats, sequential timers, electric switches and controls; audio amplifiers for keyboards, external memories for musical instruments; systems for managing data and preserving archives in the field of anesthesia; gradient coils, namely magnetic gradient coils for magnetic resonance imaging.

Class 14

Parts, ingots and medals of precious metals or their alloys, whether commemorative or not; jewelry, precious stones; pins; timepieces and chronometric instruments; key rings.

Class 16

Paper, cardboard; printed matter, in particular stamps; newspapers, periodicals, books, photographs and posters; bookbinding material; stationery; adhesives (glues) for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except

furniture); instructional or teaching material (except apparatus); plastic materials for packaging (not included in other classes); printing type; printing blocks; computer printouts; chequebooks, punched cards; newspapers and periodicals in the field of information technology; paper shredders, electric staplers, battery-powered letter openers, electric pencil sharpeners, electric hole punches, electronic typewriters, ribbon cartridges for electronic typewriters, apparatus for printing checks, thermal paper.

Class 18

Leather and imitations of leather, not included in other classes, leather vanity cases [not fitted], leather bags for mountain-climbing, leather rucksacks [backpacks], leather wallets [purses], briefcases [leather goods], leather attaché-cases, leather suitcases, leather school bags, leather handbags, key cases [leatherware], leather straps; animal skins; trunks and suitcases; umbrellas, parasols and walking sticks; whips, harness and saddlery.

Class 21

Utensils and containers for household or kitchen use; combs and sponges; brushes (except paintbrushes); brush-making materials; articles for cleaning purposes; steel wool; unworked or semi-worked glass (except building glass); glassware, porcelain and earthenware not included in other classes; implements for cleaning clothing, toothbrushes; electric toothbrushes; ultrasound cleaning apparatus for dentures; dental floss, holders for dental floss, toothpicks, holders for toothpicks; non-electric implements and materials included in this class, all for cleaning; parts and components of all the aforesaid goods included in this class; holders and dispensers for all the aforesaid goods, all included in this class; electric trouser presses; household utensils; electric devices for killing insects.

Class 25

Clothing, footwear, headgear.

Class 28

Games, toys; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; playing cards; electric floats for fishing, apparatus for tying fishing lines to hooks, electronic apparatus for practicing golf, wax applicators for skis, stationary exercise bicycles and rollers.

Class 35

Advertising; dissemination of advertising matter via all media, particularly in the form of thematic messages focused on human values; advertising by sponsoring; commercial business management; commercial administration; office functions; promotion of the goods and services of others, by means of contractual agreements, particularly sponsoring and licensing agreements, enabling them to gain additional notoriety and/or enhanced image and/or a surge of sympathy derived from the notoriety and/or enhanced image resulting from cultural and sporting events, particularly international events, and/or a surge of sympathy generated by the above; promotion of the goods and services of others by means of what is referred to as the initial interest factor leading the public to consider, among a multitude of competitors, goods or services presented to the public by means of signs, emblems or messages aimed at capturing its attention; promotion of the goods and services of others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; commercial administration of the participation of national teams to an international athletic competition, and promotion of the support to said teams with the public and concerned circles; inventory

management services; business consultation relating to stock monitoring services; advertising by means of direct marketing for others consisting in marketing of databases; consultation relating to advertising by means of direct marketing for others consisting in marketing of databases; advisory services in connection with business reorganization; truck and automobile fleet management services, namely billing and consulting in connection with the administrative management of truck and automobile fleets; business administration consultancy; administrative management of power plants of others; business consultation in connection with the management of power plants, commercial services, namely administration of contracts for repair and servicing, business management services relating to supply chain and consulting services relating to the purchase and supply of chemical services and products, business assistance relating to supply management and product inventory, business assistance relating to limitation of costs; business consulting, marketing, analysis of prices and costs concerning devices for electrochemical purification of liquids for industrial use; administrative and commercial management of computer files; computer file management; data input and processing services; retail sale of electric and electronic machines and apparatus (the bringing together, for the benefit of others, of a range of goods so as to enable customers to view and purchase said goods at their convenience in a retail store carrying electrical goods), information concerning the retail sale of raw materials, commercial information, commercial information agencies, rental of photocopiers; promotion of the sale of goods and services of others including by means of advertisements, promotional competitions, awarding of prizes and bonuses in the form of promotional lotteries, discounts, reduction tokens and value-added offers in connection with the use of payment cards; promotion of sporting events and competitions for use by others; promotion of concerts and cultural events for others, organization of exhibitions for commercial or advertising purposes; provision of documentation, namely direct mail advertising, distribution of advertising material, distribution of samples, reproduction of documents; advertising concerning the promotion of commercial sales of goods and services for retail sale purposes; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertainment and sightseeing tours, tourist agency services; maintenance of computerized databases.

Class 06

Common metals and their alloys; metal building materials; transportable buildings of metal; non-electric cables and wires of common metal; goods of common metal not included in other classes; pipes and tubes of metal; bourdon tubes; metal tubes of plated materials, plated with common

metals; profile tubes of common metals and their alloys, plated metallic materials and stainless steels; tubes made from expansion alloys; tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys; hollow metallic waveguides; thin-wall tubes of common metals and heat-treatable copper/beryllium alloys; precision tubes of common metals, stainless steels and special materials of common metals; composite materials of common metals, laminar composite materials of common metals and fibre composite materials of common metals; thermobimetal snap discs and snap elements; thermobimetal ribbons and strips; stamped and moulded parts made out of thermobimetal; metallic assemblies; nickel and nickel alloys, and steel being ribbons, wires, tubes and profiles; thermobimetals of iron/nickel alloys, stainless steels and special materials of common metals being ribbons and strips; thermobimetals, stamped and moulded thermobimetal parts with defined properties and assemblies of thermobimetals; roll seam welded metal ribbons and profile sections; electroplated metal ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated; deep-drawn and extruded high-precision metal parts in special shapes of metallic materials.

Class 07

Machines, machine tools, motors and engines; bourdon tubes; tubes of plated materials, plated with precious metals; profile tubes of precious metals and their alloys, plated materials; tubes made from expansion alloys; tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys; hollow metallic waveguides; precision tubes made out of precious metals and special materials; composites, laminar composites and composite fibre materials; thermobimetal snap discs and snap elements; thermobimetal ribbons and strips; stamped and moulded parts of thermobimetal; metallic assemblies; thermobimetals of special materials as ribbons and strips; thermobimetals, stamped and moulded parts with defined properties and assemblies of thermobimetals; roll seam welded ribbons and profile sections; electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated; deep-drawn and extruded high-precision parts in special shapes of metallic materials; all the aforesaid goods being parts of machines, machine tools and engines included in this class.

Class 09

Apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; scientific, surveying, electric, electronic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; tubes made from expansion alloys; tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys, in particular for compensating elements, frames for optical lenses and expansion controllers; hollow metallic waveguides for applications in high-frequency engineering of copper and copper alloys, nickel-iron metals and their alloys with a low coefficient of thermal expansion plated with silver, precious metals and precious metal coatings; thin-wall tubes of common metals and heat-treatable copper/beryllium alloys, in particular for further processing into corrugated tubes and measuring springs subjected to high dynamic stresses; precision tubes of common metals, precious metals, stainless steels and special materials, in particular as guide tubes for test pins or plug-in connections; capillary tubes for measuring and control engineering, hydraulics and pneumatics of copper, copper alloys, stainless steel and special alloys; thermobimetal snap-discs and snap elements; thermobimetal ribbons and strips; stamped and moulded parts of thermobimetal; contact parts, solid and plated; contact rivets, solid and plated; stamped flexible

parts of materials plated with precious metals; contact springs; contact part assemblies; riveted, rivet-connected, soldered, resistance and laser-welded assemblies; deep-drawn and extruded parts for electrical engineering and electronics and for measuring and control engineering of precious metals and their alloys, copper and copper alloys, nickel and nickel alloys, stainless steels and materials with special physical properties with regard to expansion behaviour and magnetism, including with electroplated surface coatings; cold extruded parts as heat sinks; load-bearing and connecting elements for power electronics; contact parts and contact laminations for collectors; load-bearing plates and contacting plates; composite electrodes for spark plugs; protective sleeves; screening cans; caps and a number of small high-precision deep-drawn parts in special shapes of metallic materials; semi-finished products and memory elements of shape memory alloys for measuring and control engineering; plated materials with precious metal coatings and substrates of copper material, nickel and nickel alloys and steel, as ribbons, wires, tubes and profile sections, contact bimetals with coatings of precious metal and substrates of conductive copper materials and all coatable nickel materials and steels; roll-seam welded ribbons and profile sections; electroplated ribbons with nickel, tin and precious metals; contact parts and assemblies with inserts and coatings of precious metal and precious metal alloys being welded, soldered, riveted, if required with electroplated coatings; contact rivets of precious metal, solid and coated; composite materials for electrical contacts as fibre and laminar composite materials; tubes as bourdon tubes; profile tubes; tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes; deep-drawn and extruded high-precision parts in special shapes of metallic materials; wires and profile sections of precious metal, solid and coated, and of special alloys and superelastic materials; all the aforesaid goods being parts of electric and electronic instruments.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments; orthopedic articles; suture materials; precision tubes of non-ferrous metals, precious metals, stainless steels and special materials for medical purposes; semi-finished products and memory elements of shape-memory alloys for medical purposes; parts, tubes, wires of nickel/titanium (nitinol) being parts for medical purposes; stainless steel tubes and wires for medical purposes; tubes as bourdon tubes, profile tubes, tubes of plated materials, of special alloys and thin-wall, precision and capillary tubes being parts for medical purposes; tubes of superelastic materials for medical purposes.

Class 12

Vehicles; apparatus for locomotion by land, air or water; bourdon tubes; tubes of plated materials, plated with precious metals; profile tubes of precious metals and their alloys, plated materials; tubes made from expansion alloys; tubes as melt-down alloys for glass/metal or glass/ceramic/metal compounds and of iron/nickel alloys and resistance alloys; hollow metallic waveguides; precision tubes of precious metals and special materials; composite materials, laminar composites materials and fibre composite materials; thermo bimetal snap-discs and snap elements; thermobimetal ribbons and strips; stamped and moulded parts of thermobimetal, metal assemblies; thermobimetals of special materials as ribbons and strips; thermobimetal stamped and moulded parts with defined properties and assemblies of thermobimetals; roll seam welded ribbons and profile sections; electroplated ribbons with nickel and tin, silver, gold, copper, zinc, palladium and chemically nickel-plated; deep-drawn and extruded high-precision parts in special shapes of metallic materials; all the aforesaid goods being parts of vehicles and apparatus for locomotion by land, air or water.

Class 14

Precious metals and their alloys and goods in precious metals or plated therewith, not included in other classes.

Class 16

Stationery, writing instruments; tubes of plated materials, plated with precious metals, profile tubes of precious metals and their alloys, plated materials, precision tubes of precious metals; all the aforesaid goods being parts of writing materials and writing implements.

Class 40

Treatment of materials.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services.
