REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, point-of-sale transaction analysis, video enabled applications and store execution functions; computer hardware and software for the remote control, remote operation, remote monitoring and remote management via the cloud, internet, or wireless networks of apparatus, systems and devices in the nature of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, point-of-sale transaction analysis, video enabled applications and store execution functions; computer operating systems; computer servers; electronic display devices in the nature of video display screens, namely, video monitors; video cameras; video systems, namely, remote video monitoring system consisting primarily of digital video recorders, multiplexed signal processors for display and recording of multiple cameras, and recorded event retrieval systems comprising video recorders, processors and software; closed circuit television systems for security and surveillance, namely, closed captioned television (CCTV) and surveillance cameras and housings, domes and related parts thereof, digital video recording hardware, namely, cameras, switchers, monitors, microphones, and recorders and software for management of the recordings; encoding and decoding apparatus and instruments; video surveillance hardware and software, namely, building security systems comprising software and hardware for video security, closed circuit television, digital video surveillance, digital video recording, storage and management, keyboards, encoders/decoders, video analytics, point of sale monitoring and integrated electronic security systems; video surveillance cameras; video surveillance systems, namely, camera hardware systems for IP video surveillance; security surveillance apparatus, namely, cameras for security and surveillance; electric and electronic video surveillance installations; image processing apparatus, namely, raster image processors, electronic cards for processing images; lasers for non-medical purposes; thermal imaging apparatus for night vision, not for medical use; fire detection systems, namely, fire detection systems and devices, namely, fire and smoke alarms; intrusion detection systems, comprised of intrusion detectors, namely, gate, door and window position sensors, gate, door and window contact sensors, motion sensors, motion detectors, door and window glass break sensors and detectors, and panic buttons in the nature of anti-intrusion alarms and accompanying accessories, namely, detection control panels, configuration software, keypad controllers, alarm sensors, electric switches, electric contacts and electric relays, telephone dialing equipment, hardwire and cellular connectors, central intrusion monitoring stations consisting of audio and visual annunciators, namely, sirens, horns, strobes, and lights; computer networking hardware and data communications equipment in the nature of communications servers; burglar alarms; warning equipment, namely, warning horns, sirens, bells, electric warning lights and anti-intrusion alarms; access control devices, namely, computer servers, security and facilities management software, namely, software to control building environment, access and security systems, network software and communication cards, namely, software and computer network interface cards that allow connection to and communication with a network of building access control systems, computers, computer monitors, keyboards, modems and computer peripherals, system controllers, namely, electronic controllers used as part of building access control systems, digital door locks, exit requesters, namely, exit control devices that detect movement and deactivate locking mechanisms in access control systems, alarm

sensors, electric switches, electric contacts, electric relays, security and access cards, namely, cards encoded with security features for identification purposes, electronic card readers, pin computer keypads, biometric recognition apparatus in the nature of a biometric identification apparatus, namely, biometric fingerprint door locks and biometric scanners used as part of access control systems, power supplies, cabinets specially adapted to control and protect the aforementioned access control devices; panic button alarms, namely, a device featuring buttons that trigger an alarm in case of building entry, building intrusions, building exits and emergencies; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; asset management and tracking systems consisting of inventory control systems, namely, computer software and hardware for the purpose of controlling inventory and prevent losses in the field of retail security, theft prevention devices, namely, security tags, stickers, labels, display cases, sensors and alarms and radio frequency identification (rfid), microwave, electromagnetic, and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; network routers; wireless routers; safety, security, protection and signaling devices, namely, flashing safety lights; measuring, detecting and monitoring instruments, indicators and controllers, namely, distance measuring apparatus; telecommunications hardware and software for monitoring and alerting remote sensor status via the internet; calculating machines, data processing equipment and computers; computer hardware and parts, fittings and accessories in the nature of computer peripherals therefor; anti-theft alarms, anti-theft alarm keypads, and electric anti-theft alarm control panels; gas detectors for detecting the presence of gas; magnetic and electromagnetic object detectors; transponders; antennas; electronic security and surveillance devices, namely, electronic security labels, markers, and electronic card readers, sensors, transmitters, receivers, and controllers utilizing radio-frequency identification (rfid), microwave, electromagnetic, radio-frequency and acoustic-magnetic signaling for tracing or tracking of persons, animals, vehicles, or goods; deactivators and detachers for use with inventory control and anti-theft labels and tags; sensors and detector units for security purposes for detecting proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; sensors and detectors for security purposes for gathering safety and security data, namely, proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion, not being for medical use; sensors and detectors for security purposes for gathering data for transmission to insurance agencies in relation to the status of property, commercial premises and domestic premises, namely, flood detection, flare up, full grease traps, alarm/disarm of security systems, door openings, weather threats, regionalized crime threats, regionalized intrusions, trouble signals from alarm and access control panels (including door forces), presence detection, and the presence of explosive materials; sensors and detectors for security purposes for gathering, processing and transmitting data using internet of things technology, namely, proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; data streaming apparatus in the nature of digital media streaming devices; data streaming software; motion sensors, namely, electronic motion sensitive switches; optical beam sensors for detecting, counting and tracking people; infra-red sensors, namely, remote sensors for use in

detecting the presence of gas for industrial purposes, for use in detecting flames and for detecting; electronic sensors for detecting, counting and tracking people; computer software used in the operation, control, monitoring and management of anti-theft alarms, inventory control systems, theft-prevention devices, people tracking devices and asset tracking devices; communications hardware and software for the remote control, remote operation, remote monitoring and remote management of apparatus, systems and devices, all such control, operation, monitoring and management being cloud-based, via the internet, or via wireless networks; fire alarms; fire alarm systems comprising fire alarms, fire, heat and smoke detectors and sensors, flame detectors, electric control panels, wireless network repeaters, initiating devices in the nature of smoke detectors, heat detectors, flame detectors, motion detectors, sprinkler water flow detectors, switches indicating actuation of fire suppression systems, magnetic door/window contacts, alarm pull stations and fire alarm boxes in the nature of a device that initiates an alarm signal when activated by hand, enabled for operation in a wireless system; electric control panels; touch sensitive electric control panels for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices and sprinkler systems for fire protection; ethernet repeaters; thermostats; wireless fire alarm systems comprising fire and smoke detectors, electric control panels, and wireless network repeaters; carbon monoxide detectors; fire hoses; fire hose nozzles; smoke alarms; carbon monoxide alarms; safety equipment, namely, fire escape ladders; fire beaters; fire pumps; fire sprinklers; fire trucks; fire engines; fire fighting vehicles in the nature of fire trucks and fire engines; fire extinguishers; fire boats; fire blankets; fireproof clothing, namely, clothing for protection against fire; fire resistant gloves; fireproof garments; fire detection apparatus, namely, network systems, multiplex systems, stand-alone fire detection systems, voice communication systems and fire alarm emergency phone systems, comprising graphical command centers, fire alarm pull boxes and manual fire alarm pull station, smoke detectors and sensors, flame detectors, heat detectors and sensors, water flow switches, sprinkler supervisory switches, electronic control apparatus for opening and closing of doors, modems, fiber optic line drivers, alarm communicator transmitters and receivers, audible and visible notification appliances, electrical annunciators, intercoms, crt monitors and printers, batteries and chargers and transient suppressors; fire extinguishing apparatus, namely, fire control devices, apparatus and equipment, namely, fire extinguishing apparatus for use to disperse, water, chemical foam solution or chemical powder, featuring storage tanks for fire-fighting agents, valves and pipes for distributing agents, inductors, generators for high-expansion foam, cannons, nozzles and ejectors; fire extinguishing apparatus; fire extinguishing systems in the nature of fire extinguishing apparatus; fire extinguishing apparatus, namely, fire suppression systems and component parts thereof, for use in pre-engineered restaurant, vehicle and industrial systems, comprised of agent storage containers, mechanical releasing devices, electro-mechanical releasing devices and pneumatic releasing devices, mechanical detection, electric detection, comprised of thermal detection, rate of rise detection, heat detection, and linear wire detection, system discharge devices; sprinkler systems for fire protection; sprinkler heads for fire sprinklers; detection and control equipment for smoke, namely, smoke detectors; detection and control equipment for heat, namely, heat detectors; detection and control equipment for flame, namely, fire and smoke detectors; automatic fire extinguishing apparatus; electric alarms for fire; fire break glass units; asbestos safety screens for firemen; sprinkler systems for fire extinguishing; safety equipment, namely, fire escape ladders; fire extinguishing apparatus for automobiles; fire extinguishing apparatus, namely, water sprinkling devices for fire control;

alarms for the detection of inflammable gases; dispersion systems in the nature of fire extinguishing apparatus, comprised of chemical powder and/or chemical foam comprised of storage tanks for the firefighting agents, valving and piping to deliver the agents, proportioning controllers in the nature of devices that proportion and control the mixing of foam and water to form foam solution for fire extinguishing and fire fighting, high expansion foam generators, monitors in the nature of fire fighting monitors that spray foam or liquids on fires, nozzles and eductors in the nature of a proportioning device that introduces a foam concentrate for fire extinguishing and fire fighting; flame detection instruments, namely, flame detecting instrument comprised of an infrared flame detector and CCTV camera; fire suppression nozzles, namely, flood and local application nozzles for use in carbon dioxide fire suppression systems; equipment for dispersing dry chemicals and foam chemicals for firefighting, namely, storage tanks for the firefighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and educators; security cameras; security and fire alarms; security warning apparatus, namely, sensors for detecting body heat, motion, and vibrations; security control apparatus in the nature of wireless electric controllers to remotely monitor and control the function and status of security systems; personal security alarms; electronic security tags; radio frequency identification (rfid) tags; electronic security and surveillance devices, namely, electromagnetic tags, acoustomagnetic tags, radio frequency identification (rfid) labels, electromagnetic labels, acoustomagnetic labels, radio frequency identification (rfid) readers, electromagnetic readers, acoustomagnetic readers, radio frequency identification (rfid) sensors, electromagnetic sensors, acoustomagnetic sensors, radio frequency identification (rfid) transmitters, electromagnetic transmitters, acoustomagnetic transmitters, radio frequency identification (rfid) receivers, electromagnetic receivers, acoustomagnetic receivers, electrical controllers for acoustomagnetic sensor detection systems, and electronic controllers for rfid readers; security surveillance apparatus comprised of hardware for video recorders, disc storage containers, encoders, decoders, and keyboards, and software for digital video recording, storage, management, point of sale monitoring, analytics, and security systems integration; automatic access security apparatus, namely, comprised of entry door systems comprising touch pads and security doors; facilities management software, namely, software to control building environmental, access and security systems; security control panels for security alarms; motion detectors; motion sensing input devices, namely, motion detectors in the nature of motion sensing controls for protecting property; security alarm systems, namely, building security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; personal security alarms that connect to a wireless communications network, namely, wireless security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; anti-theft alarms in the nature of burglar alarms not for vehicles; anti-theft alarm keypads; electric anti-theft alarm control panels; electronic article surveillance devices, namely, uhf radio frequency identification (rfid) and acousto-magnetic (am) integrated traffic and metal foil detection sensors, transmitters, receivers and electrical controllers; electronic apparatus for monitoring and tracking, namely, electronic apparatus for monitoring and tracking, namely, detaching devices and deactivators for use with inventory control and anti-theft labels; wireless controllers to monitor and control the functioning of other electronic devices, namely, electronic apparatus for monitoring and tracking sensors, cameras and monitors for alarm monitoring systems; intercoms; intercom apparatus in the nature of voice evacuation systems comprising intercoms, audio speakers and microphones; nurse call systems

for use in health care environments, namely, a system for telecommunication, locating and calling nurses, productivity and work flow enhancement, event processing, and reporting, comprised of a computer, telephone, infrared transmitters and antennae, visual and audible alarms notification devices, pagers, intercoms, signaling dome lights and zone lamps, emergency code terminals, data entry devices, remote communicators, remote controllers, and computer software for interfacing, operating, or controlling the communication devices; vehicle tracking apparatus, namely, vehicle locating, tracking and security system comprised of an antenna and radio transmitter to be placed in a vehicle; digital signage; emergency notification system, namely, mass notification systems, comprised of speakers, signboards, strobes, sirens, pagers, signaling lights, telephones, cell phones and computers for alerting and instructing individuals during emergency and/or disaster situations; computer hardware and software systems for tracking equipment and assets using gps data on a device on the tracked equipment and assets; asset management and tracking systems, namely, electronic tracking devices using radiofrequency or global positioning (gps) technology, desktop software, mobile applications, barcode scanners and barcode labels which provide the means to locate physical objects, collect data on its usage and whereabouts and report on all activity; encoded micro particulates, plastic labels in the nature of anti-shoplifting labels that can be attached to goods; electronic readers in the nature of radio-frequency identification (rfid) readers, bar code readers, smart card readers, radio-frequency identification tag readers, electronic card readers, magnetic strip readers and electronic readers and controllers for controlling access to a premises; electronic devices for assisting emergency personnel with injured persons needing assistance, comprised of sensors for determining status of person and apparatus for sending electronic alerts to emergency personnel; apparatus for monitoring the size, number, flow rate and direction of objects moving through an area, namely, video cameras, display monitors, sensors and detectors; positioning tags in the nature of electronic tags for goods; electronically encoded personnel identity badges; encoded patient bracelets, magnetic; asset tracking tags in the nature of electronic tags for goods; temperature sensors with radio, low frequency, and infrared communication capability; optical readers, namely, electronic wireless input modules for reading data from personnel and article monitoring devices and systems; computer software for securing access to physical property, assets and buildings; computer software for data collection, namely, gathering intelligence in the nature of inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, operational compliance, point-of-sale transaction analysis, video enabled applications and store execution functions; computer software for monitoring and controlling systems and devices for the management of motorways and tunnels; flame detection apparatus, namely, fire detectors; flame detectors in the nature of fire and smoke detectors; combustion gas detectors for detecting the presence of gas; gas sensors for measuring gas concentration; gas alarms; gas testing instruments; gas detecting apparatus in the nature of gas sensors for measuring gas concentration, namely, wireless and mobile gas detecting apparatus for detecting the presence of gas; gas leak alarm systems comprising sensors for measuring gas concentration and gas alarms; programmable logic controller (plc) devices; fire pump control valves, namely, directional valves for delivering fire suppression gas as component of an inert gas fire suppression system; building security systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station, namely, electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, home and residential environmental monitoring, control and automation

systems; building security systems comprising electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and residential environments; facilities management software, namely, application software for use on computers and hand-held devices to enable the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and/or residential environments; electrical controlling devices; electric control devices for building energy management systems and security systems; automation process control systems comprising wireless and wired controllers, controlled devices, and software for appliances, lighting, hvac (heating, ventilation and air conditioning), security and other commercial electrical power monitoring and control applications for buildings, facilities and plants; electrical and electronic controls and control, automation and optimization systems comprised of wireless and wired controllers, controlled devices, and software for building, facility, and plant devices and apparatus, in the nature of regulating environmental systems, safety, security systems, fire systems, sprinkler systems, water flow systems, surveillance systems, tracking systems, emergency systems, energy systems, lighting, sound, display, threat detection systems, access systems, and asset management systems; electrical and electronic controls and controls systems comprised of wireless and wired controllers, controlled devices, and software for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; access control and alarm monitoring systems, namely, on-site and field hardware, software, sensors, monitors, controls, control systems and apparatus for individual and integrated on-site and remote monitoring, control, operation, automation and optimization of, and interaction with, building, facility and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware, software, and systems for

gathering, collecting, aggregating, storing, sorting, analyzing and reporting data; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices, monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; graphical user interface software; software for creating, configuring, engineering, installing and operating of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and operation of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone or other mobile device; galvanic batteries; polymer lithium-ion batteries; rechargeable batteries for electric vehicles and electronic devices; accumulators; electric primary and secondary elements, namely, electric primary and secondary electrical circuits; electric fuel elements, namely, fuel cells; electric batteries, being specially designed as parts or accessories for land, air and water vehicles; chargers and parts therefor, for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; rectifiers and switching apparatus, namely, electrical switches, and battery-regulating electrical switches, electrical cell switches and capacitance meters, namely, electric meters for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; automobile accessories, namely, starter batteries; apparatus for testing galvanic elements, batteries and electric fuel cells specially designed as parts or accessories for land, air and water vehicles, namely, voltmeters, and for parts for the aforesaid goods; apparatus and instruments for conducting, switching, transforming, accumulating, regulating, and controlling electricity, namely, electricity

conduits, power switches, distribution boxes for electrical power, current transformers; apparatus for monitoring of automotive batteries, namely, battery monitors; grids for batteries, namely, conductive grids for batteries; component parts of batteries, namely, internal frames for the purpose of providing structural durability; component parts of batteries, namely, vent caps; industrial batteries; downloadable mobile application software for use with battery monitoring, battery diagnostic and battery safety devices that may be attached to a battery to monitor the performance and performance characteristics of a battery; downloadable mobile application software for education relating to battery technology; battery management systems, namely, hardware and computer software for monitoring and managing battery charging, output, and performance and for thermal control; actuators, namely, electric actuators; electrical actuators, electric controls, and switches for air ventilation and air conditioning systems and equipment; solenoid valves; electric control valves; automatic terminal unit valves; electric actuators, namely, terminal unit valve actuators; temperature monitors (valves) for central heating radiators; electric controls for automatic valves; computer software, namely, automated energy management and fault detection software designed specifically to monitor, measure, analyze, track, collect, record, transmit and store energy and resource consumption data from existing building control systems and building automation systems to enable users to control multiple building control systems and building automation systems to monitor, track, manage, control, conserve and optimize energy and resource usage, and to allow real time viewing and manipulation of energy and resource usage by way of graphic displays on personal computers, servers and wireless devices and to send and receive data and alerts to users of energy and resource usage, and electronic computer manuals and instructions relating thereto; computer software for software application integration, namely, software to allow integration with building control systems and building automation systems from different vendors, and to transmit and receive data and instructions between the device or equipment and the building control system or building automation system and other software and allowing software to control the building control system or building automation system network and the devices and equipment connected thereunder; computer software, namely, application programming interface library for the integration of third party building control systems and building automation systems with other building energy management system software or frameworks.

Class 37

Installation, maintenance and repair of kitchen hood suppression systems; installation services, namely, CCTV and security equipment installation, smoke detector installation, fire extinguisher installation, intrusion system, automatic sprinklers installation; installation of emergency lights, installation of access control systems, installation of theft prevention devices and monitoring systems comprising electronic video surveillance cameras with computer hardware and software; installation, repair and maintenance services of computer hardware and peripherals, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices; installation, repair, and maintenance services of fire protection systems, electrical communications systems, alarm, security, and access control systems, heating systems, ventilating and air conditioning systems, electronic monitoring equipment and apparatus, traffic and transport management systems; installation, maintenance, and repair of systems for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems for industrial, commercial,

governmental facilities; installation, repair and maintenance of refrigeration systems, fire detection systems and alarm systems, security access systems, sprinkler systems, piping, special hazard warning systems, and fixed, portable and passive fire protection systems; building maintenance and repair; fire alarm repair; fire alarm installation; installation of fire detection systems; building repair, namely, repair of fire damage; fire extinguisher recharging services; maintenance and repair of fire alarm installations; technical support services, namely, technical advisory services in the field of installation of fire prevention equipment; providing information in the field of repair and maintenance of fire alarms; providing information in the field of installation and maintenance of security systems; installation advisory services in the field of security and safety equipment; construction, repair, installation, maintenance services and inspection in the course of construction of fire protection systems, electrical communications systems, alarm systems, security and access control systems, ventilating and air conditioning systems, pipelines, valves, valve fittings and actuators, traffic and transport management systems, heating, and temperature sensing systems; leasing of building machinery for construction sites; construction project management services, namely, supervision of construction and renovation of facilities; management consultation in the field of facilities management, namely, consultation in the field of physical maintenance of facilities; facilities management services, namely, repair and maintenance of building management systems and equipment in facilities, namely, heating, ventilation, air conditioning, lighting, power, fire, access control and security systems and equipment; installation, maintenance, and repair services of fire protection and extinguishing apparatus, namely, fire alarms, detection and suppression systems, namely, fire extinguishers; installation, maintenance, and repair of security systems, apparatus and equipment; installation and maintenance of fire protection systems; technical consultation in the field of building construction, namely, mechanical building construction; consulting services in the field of installation and maintenance of alarm response and verification systems; consulting services in the field of installation and maintenance of vehicle security systems and vehicle navigation systems; repair of clothing for protection against fire; repair, installation, and maintenance services for anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels, magnetic and electromagnetic object detectors, transponders, antennas, encoded micro particulates, electronic article detection equipment; repair, installation, and maintenance of radio frequency identification (RFID), electromagnetic, radio frequency and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; repair, installation, and maintenance of customer tracking and surveillance apparatus in the nature of camera hardware systems for IP video surveillance, electronic surveillance and tracking apparatus in the nature of video surveillance installations, detachers and deactivators for use with inventory control and anti-theft tags and labels, tag deactivators, including hooks, tag detachers, including hooks; Installation, maintenance, and repair of electrical and electronic controls and control, automation and optimization devices, apparatus and systems for buildings, facilities and plants; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; installation, maintenance, and repair of electrical and electronic controls and control systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation,

maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; maintenance and repair of vehicles for the transportation of persons and goods, including automobiles, trucks, boats and motorcycles; maintenance and repair of parts and accessories for vehicles for the transportation of persons and goods, including without limitation, electric accumulators, batteries, hybrid and electric battery systems, cells and voltaic cells, starter batteries, and their parts, and related products for maintenance, charging and monitoring for vehicles for the transportation of persons and goods; services of installation and maintenance of batteries and filters; computer and telephone battery recharge services; installation and maintenance of electronic monitoring equipment and apparatus, namely, electronic transmitters and receivers for transmitting and receiving signals, including voice signals, motion detectors and monitors; building construction advisory services, including but not limited to, building construction consultancy on building use, installation of building automation equipment, general building contractor services; building consultancy in relation to construction project management services for a smart building; advisory services relating to building construction regarding computer integrated construction; advisory services relating to building construction regarding integrated design and construction planning system for computer integrated construction; onsite building project management; advisory services relating to building construction regarding construction project management which utilizes computer systems; building project management; advisory services relating to the construction of buildings which comprise of building management systems, implements online computer software systems and integrates computer systems and building automation for the environmental quality of the building; and advisory services relating to the installation of building automation equipment; consultancy services relating to the installation and maintenance of heating, ventilation, cooling and air conditioning equipment for the optimization of energy efficiency at chiller plants.

Class 45

Security services, namely, alarm response and verification services; monitoring and remote monitoring of burglar and security alarms, security systems and home automation systems for security purposes; firefighting services; monitoring fire alarms; fire prevention consultation; rental of fire extinguishers; rental of fire alarms; providing information relating to the rental of fire alarms and fire extinguishers; fire detection and suppression services, namely, responding to fire alarms and providing firefighting services; fire prevention consultation, namely, provision of fire prevention-related advice; fire prevention consultation, namely, consulting services in evaluation of fire scenes; emergency response alarm monitoring services, namely, monitoring of alert devices by a remote monitoring center for the dispatch of emergency public health and security services and notification to third parties; monitoring of security systems for protecting personal property; monitoring burglar and security alarms; surveillance services, namely, electronic monitoring services for security purposes in the field of residences, businesses and commercial properties; security guard services; security guarding for facilities; providing information relating to security guard services; alarm response and verification services; home security alarm monitoring, namely, monitoring and control of alarm and security

systems, of water flow and of home automation systems for security purposes; monitoring burglar and security alarms, namely, centralized burglar and fire alarm services, namely, monitoring centralized burglar and fire alarm services; security services for buildings, namely, control of building environmental access and security systems relating to the heating, ventilation, air conditioning and lighting of buildings, by providing physical access to properties via a remote call-in locking device; security services in the nature of monitoring of telephone calls from subscribers and notifying emergency responders when appropriate; theft recovery services in the nature of tracking, locating and monitoring of vehicles for security purposes via a computer network, namely, stolen vehicle tracking; tracking services for homes, people, and businesses, namely, tracking, locating, and monitoring services for recovering people, and stolen property; physical security consultancy, namely, through call centers, for all of the aforesaid services; leasing of firefighting equipment; home security alarm monitoring, namely, monitoring services relating to fire protection and extinguishing systems and to security and security monitoring systems and to apparatus for such systems and to computer software for such systems and apparatus; security services for buildings, namely, control of lighting systems and control of HVAC (heating, ventilation and air conditioning) systems for security purposes; controlling and monitoring services to protect homes, residences, businesses and commercial properties, namely, monitoring building environmental access systems and building security systems for protecting personal property; home security alarm monitoring, namely, intrusion detection and control services, namely, tracking, locating and monitoring services for preventing the intrusion of burglars; surveillance services; surveillance services, namely, closed-circuit surveillance; rental of security surveillance apparatus and equipment; providing reconnaissance and surveillance services; forensic analysis of surveillance video for fraud and theft prevention purposes; surveillance services, namely, cloud based surveillance services; surveillance services, namely, cloud based closed-circuit surveillance; rental services in the field of physical security, namely, cloud based rental of security surveillance apparatus and equipment; surveillance services, namely, cloud based provision of reconnaissance and surveillance services; surveillance services, namely, cloud based forensic analysis of surveillance video for fraud and theft prevention purposes; surveillance services, namely, monitoring and controlling of computer equipment for safety, rescue, security and enforcement purposes; cloud based security services, namely, alarm response and verification services; physical security consultancy, namely, provision of advice and information in the fields of cloud based and non-cloud based security, safety, fire detection and suppression, access control, intrusion, loss prevention and building environments and security, safety, fire detection and suppression, access control, intrusion, loss prevention and building environmental apparatus, systems and devices; surveillance services, namely, monitoring of computer security system for security purposes; surveillance services, namely, monitoring and controlling building, facility and plant automation and optimization systems; surveillance services, namely, monitoring and controlling building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; surveillance services, namely, monitoring and controlling computer systems and data derived from building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; rental services in the field of physical security, namely, leasing of anti-theft and security alarms, antennas, labels, tags, apparatus, devices and systems; rental services in the field of physical security, namely, leasing of electronic security and

surveillance devices; rental services in the field of physical security, namely, leasing of video surveillance, video security, security surveillance, security management, monitoring and theft-prevention hardware; rental services in the field of physical security, namely, leasing of video surveillance, video security, security surveillance, security management, monitoring and theft-prevention equipment.

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; garbage bags of paper or of plastics; napkins of paper for removing make-up; decalcomanias; address plates for addressing machines; address stamps; addressing machines; folders for papers; document files [stationery]; albums; almanacs; moisteners [office requisites]; announcement cards [stationery]; document laminators for office use; aquarelles; architects' models; calculating tables; wristbands for the retention of writing instruments; atlases; stickers [stationery]; money clips; moisteners for gummed surfaces [office requisites]; cabinets for stationery [office requisites]; mats for beer glasses; pictures; paintings [pictures], framed or unframed; biological samples for use in microscopy [teaching materials]; plans; pencils; pencil holders; pencil leads; pencil sharpeners, electric or non-electric; pencil sharpening machines, electric or non-electric; pads [stationery]; booklets; paperweights; letter trays; postage stamps; writing paper; pamphlets; bookbinding material; bookbinding cords; bookbinding apparatus and machines [office equipment]; bookbinding cloth; fabrics for bookbinding; bookbindings; books; bookends; office requisites, except furniture; clips for offices; comic books; diagrams; document holders [stationery]; printed matter; printers' reglets; electrotypes; printing blocks; inking sheets for document reproducing machines; inking sheets for duplicators; printers' blankets, not of textile; printing type; letters [type]; covers [stationery]; tickets; labels, not of textile; stencil cases; flags of paper; folders [stationery]; binding strips [bookbinding]; inking ribbons; inking ribbons for computer printers; typewriter ribbons; spools for inking ribbons; chromos; artists' watercolor saucers; paint boxes [articles for use in school]; paint trays; penholders; pen clips; pen cases; pens [office requisites]; pen wipers; humidity control sheets of paper or plastic for foodstuff packaging;

figurines [statuettes] of papier mâché; filter paper; finger-stalls [office requisites]; isinglass for stationery or household purposes; bottle envelopes of cardboard or paper; bottle wrappers of cardboard or paper; correcting fluids [office requisites]; flyers; plastic film for wrapping; sheets of reclaimed cellulose for wrapping; molds for modelling clays [artists' materials]; forms, printed; photographs [printed]; photo-engravings; postage meters for office use; fountain pens; trays for sorting and counting money; geographical maps; song books; terrestrial globes; greeting cards; graphic representations; graphic reproductions; etching needles; engraving plates; engravings; gums [adhesives] for stationery or household purposes; elastic bands for offices; gummed tape [stationery]; gummed cloth for stationery purposes; stands for pens and pencils; handbooks [manuals]; hand labelling appliances; hand-rests for painters; stapling presses [office requisites]; hectographs; histological sections for teaching purposes; wood pulp paper; wood pulp board [stationery]; envelopes [stationery]; hat boxes of cardboard; paper coffee filters; calendars; coasters of paper; index cards [stationery]; cards; tags for index cards; cardboard tubes; catalogues; adhesive tapes for stationery or household purposes; apparatus for mounting photographs; gluten [glue] for stationery or household purposes; adhesives for stationery or household purposes; adhesive bands for stationery or household purposes; adhesive tape dispensers [office requisites]; clipboards; bags for microwave cooking; carbon paper; copying paper [stationery]; correcting tapes [office requisites]; correcting ink [heliography]; credit card imprinters, non-electric; chalk for lithography; chalk holders; balls for ball-point pens; french curves; bibs of paper; teaching materials [except apparatus]; glue for stationery or household purposes; bookmarkers; steel letters; luminous paper; lithographs; lithographic works of art; lithographic stones; office perforators; perforated cards for jacquard looms; punches [office requisites]; blotters; loose-leaf binders; plastic bubble packs for wrapping or packaging; painters' brushes; canvas for painting; palettes for painters; house painters' rollers; paintbrushes; painters' easels; marking chalk; marking pens [stationery]; graining combs; stencils; pencil lead holders; modelling paste; modelling materials; plastics for modelling; modelling clay; modelling wax, not for dental purposes; musical greeting cards; note books; paper-clips; numbering apparatus; oleographs; files [office requisites]; pantographs [drawing instruments]; paper; electrocardiograph paper; paper for recording machines; stationery; paper tapes and cards for the recordal of computer programmes; paper ribbons; paper sheets [stationery]; filtering materials [paper]; face towels of paper; towels of paper; papier m?ch?; flower-pot covers of paper; paper knives [office requisites]; paper bows; table napkins of paper; handkerchiefs of paper; conical paper bags; cardboard; pastels [crayons]; tracing patterns; tracing cloth; tracing paper; parchment paper; seals [stamps]; posters; placards of paper or cardboard; advertisement boards of paper or cardboard; plastic cling film, extensible, for palletization; place mats of paper; portraits; postcards; prospectuses; erasing products; rubber erasers; scrapers [erasers] for offices; erasing shields; etchings; paper for radiograms; ledgers [books]; passport holders; drawing boards; drawing pens; tracing needles for drawing purposes; thumbtacks; drawing t-squares; chaplets; newsletters; indexes; cream containers of paper; trading cards other than for games; absorbent sheets of paper or plastic for foodstuff packaging; stencils [stationery]; boxes of cardboard or paper; holders for checkbooks [cheque books]; slate pencils; writing slates; signboards of paper or cardboard; shields [paper seals]; tailors' chalk; manifolds [stationery]; patterns for dressmaking; patterns for making clothes; drawer liners of paper, perfumed or not; nibs; nibs of gold; inkstands; writing instruments; writing or drawing books; writing chalk; writing cases [stationery]; typewriters, electric or non-electric; typewriter keys; rollers for typewriters; writing materials; writing cases [sets]; writing brushes;

writing pads; printed publications; stencil plates; handwriting specimens for copying; school supplies [stationery]; self-adhesive tapes for stationery or household purposes; composing frames [printing]; galley racks [printing]; sealing wax; sealing machines for offices; sealing compounds for stationery purposes; sealing wafers; stamps [seals]; silver paper; steel pens; photograph stands; starch paste [adhesive] for stationery or household purposes; steatite [tailor's chalk]; sealing stamps; holders for stamps [seals]; cases for stamps [seals]; inking pads; stamp pads; stamp stands; prints [engravings]; embroidery designs [patterns]; ink; inkwells; ink stones [ink reservoirs]; ink sticks; tablecloths of paper; table linen of paper; toilet paper; printing sets, portable [office requisites]; transparencies [stationery]; indian inks; envelope sealing machines, for offices; tablemats of paper; bags [envelopes, pouches] of paper or plastics, for packaging; cardboard articles; packaging material made of starches; packing paper; duplicators; mimeograph apparatus and machines; square rulers; vignetting apparatus; viscose sheets for wrapping; waxed paper; blackboards; composing sticks; writing board erasers; xuan paper for chinese painting and calligraphy; drawing materials; drawing pads; drawing sets; drawing instruments; charcoal pencils; drawing rulers; drawing squares; graphic prints; chart pointers, non-electronic; printed timetables; periodicals; magazines [periodicals]; newspapers; paper shredders for office use; paper clasps; numbers [type]; cigar bands; compasses for drawing.

Class 35

Advertising; business management; business administration; office functions; updating of advertising material; business inquiries; business management and organization consultancy; business management consulting; personnel management consultancy; advisory services for business management; procurement services for others [purchasing goods and services for other businesses]; import-export agency services; business consulting services; business auditing; computerised file management; advertising agencies; auctioneering services; transcription of communications [office functions]; relocation services for businesses; retail or wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; business investigation; business efficiency expert services; drawing up statements of account; tax preparation; economic forecasting; commercial information agencies; commercial information and advice for consumers [consumer advice shop]; invoicing; photocopying services; business management of performing artists; business management of sports people; business management of hotels; publication of publicity texts; commercial or industrial management assistance; business information; commercial administration of the licensing of the goods and services of others; payroll preparation; modelling for advertising or sales promotion; marketing services; market research; market research; opinion polling; data search in computer files for others; business research; public relations services; on-line advertising on a computer network; consultancy relating to business organisation; outsourcing services [business assistance]; employment agencies; personnel recruitment; psychological testing for the selection of personnel; outdoor advertising; assistance in management of business activities; presentation of goods on communication media, for retail purposes; radio commercials; news clipping services; shop window dressing; word processing; typing services; secretarial services; sponsorship search; shorthand; systemization of information into computer databases; telephone answering for unavailable subscribers; telemarketing services; organisation of trade fairs for commercial or advertising purposes; dissemination of advertisements; writing of publicity texts; sales promotion for others; office machines and equipment rental; rental of photocopying machines; rental of vending machines; rental of advertising space; publicity material rental; rental of

advertising time on communication media; arranging subscriptions to telecommunication services for others; arranging newspaper subscriptions for others; advertising by mail order; distribution of samples; direct mail advertising; document reproduction; administrative processing of purchase orders; demonstration of goods; advertising; publicity columns preparation; business appraisals; business auditing.

Class 36

Insurance; financial affairs; monetary affairs; real estate affairs; card services; debit card services; issue of tokens of value; issuance of credit cards; issuing of travellers' cheques; banking; pawnbrokerage; pawnbrokerage; stock exchange quotations; clearing-houses, financial; brokerage of carbon credits; deposit of valuables; actuarial services; stockbroking services; estate brokerage; brokerage; retirement payment services; savings bank services; stocks and bonds brokerage; debt collection agencies; rent collection; electronic transfer of funds; fiscal valuations; insurance information; financial information; factoring; fire insurance underwriting; financial consultancy; financial sponsorship; financial valuation of standing timber; financial evaluation of wool; financial evaluation [insurance, banking, real estate]; financing services; apartment house management; currency trading and exchange services; business liquidation services, financial; installment loans; online banking; real estate agency; real estate property management; investment services; health insurance; credit agencies; credit leasing; life insurance underwriting; mortgage banking; numismatic appraisal; organization of collections; charitable fund raising; stamp appraisal; jewellery appraisal; antique appraisal; real-estate valuations; art appraisal; repair costs evaluation [financial appraisal]; verification (check [cheque]); debt advisory services; marine insurance underwriting; warranty services; accident insurance underwriting; loans [financing]; leasing of office space; renting of flats; mutual funds; insurance brokerage; financial management; trusteeships; arranging letting of real estate; leasing of farms; insurance consultation; insurance; safe deposit services; leasing of accommodation [apartments]; customs brokerage.

Class 38

Telecommunications; information about telecommunication; television broadcasting; cable television broadcasting; radio broadcasting; providing user access to global computer networks; providing telecommunications connections to a global computer network; providing internet chatrooms; providing online forums; providing telecommunication channels for teleshopping services; wire service; wireless broadcasting; electronic bulletin board services [telecommunications services]; electronic mail; telex services; communications by fiber [fibre] optic networks; communications by computer terminals; communications by telephone; telecommunications routing and junction services; cellular telephone communication; computer aided transmission of messages and images; paging services [radio, telephone or other means of electronic communication]; satellite transmission; voice mail services; facsimile transmission; telephone services; telegraph services; communications by telegrams; transmission of telegrams; teleconferencing services; transmission of digital files; transmission of greeting cards online; message sending; rental of facsimile apparatus; rental of message sending apparatus; rental of modems; rental of telephones; rental of telecommunication equipment; rental of access time to global computer networks; providing access to databases; videoconferencing services.

Class 01

Compositions for fire extinguishing and prevention; fire extinguishing chemicals, namely, fire extinguishing compositions; fire extinguishing preparations, namely, chemicals for fighting forest fires; fire retardant chemicals, namely, fire suppression chemicals; fire extinguishing preparations, namely, fire extinguishing foaming concentrates; fire extinguishing preparations, namely, fire extinguishing foaming surfactants; fire extinguishing preparations, namely, fire extinguishing fluorochemical surfactants; chemical composition for solidification of fluids and for absorbing spills and controlling spillage of hazardous waste; chemicals for treating hazardous waste, namely, chemical agents for controlling hazardous spills; fireproofing preparations; fire retardant chemicals; fire extinguishing compositions; fire extinguishing preparations; fire extinguishing media, namely, fire extinguishing preparations, namely, fire extinguishing powder, fire-fighting foam; fire retarding chemicals, compositions and preparations; fire extinguishing compositions, namely, fire extinguishing foams and foam compositions; fire protection chemical compositions in the nature of fire retardant and suppression, extinguishing chemicals; chemical preparations for use in the control and prevention of fires; fire extinguishing preparations, namely, dry chemicals for fire extinguishing; fire extinguishing preparations,

namely, dry chemicals for fire suppression; fire suppression preparations, namely, foam for fire suppression; chemical sealants used for buildings which penetrate through walls, floors and ceilings for fire prevention, namely, fireproof seals in the nature of chemical sealants used for buildings which penetrate through walls, floors and ceilings for fire prevention.

Class 09

Components, parts and fittings for sprinkler and fire extinguishing and suppression systems, namely, metal pipes, metal tubes, metal hoses, metal valves not being parts of machines, metal conduits for fluids, metal couplings and metal fittings therefor; actuators for mechanisms, namely, pneumatic valve actuators for use in fire protection systems; lighting apparatus, namely, emergency warning lights for use in fire protection and security lighting; emergency lighting apparatus, namely, emergency warning lights; electronic control grids; software for use with the collection of data, for connecting to a global computer network, for remotely controlling lighting devices within a building, for receiving, processing, transmitting and displaying data, for control, operation, monitoring and management of heating, ventilating, air conditioning and other building environment control equipment and systems and for the collection, management, analysis, storage, transmission and reporting of data in the field of security, safety, health, fire detection and suppression, access control, intrusion, customer care, loss prevention, inventory, business and retail performance, customer traffic, environmental, and energy management and lighting apparatus, systems and devices; computer hardware and software for the connection via the cloud, internet or wireless networks of apparatus, systems and devices in the nature of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, point-of-sale transaction analysis, video enabled applications and store execution functions; computer hardware and software for the remote control, remote operation, remote monitoring and remote management via the cloud, internet, or wireless networks of apparatus, systems and devices in the nature of security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices, and systems for inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, point-of-sale transaction analysis, video enabled applications and store execution functions; computer operating systems; computer servers; electronic display devices in the nature of video display screens, namely, video monitors; video cameras; video systems, namely, remote video monitoring system consisting primarily of digital video recorders, multiplexed signal processors for display and recording of multiple cameras, and recorded event retrieval systems comprising video recorders, processors and software; closed circuit television systems for security and surveillance, namely, closed captioned television (CCTV) and surveillance cameras and housings, domes and related parts thereof, digital video recording hardware, namely, cameras, switchers, monitors, microphones, and recorders and software for management of the recordings; encoding and decoding apparatus and instruments; video surveillance hardware and software, namely, building security systems comprising software and hardware for video security, closed circuit television, digital video surveillance, digital video recording, storage and management, keyboards, encoders/decoders, video analytics, point of sale monitoring and integrated electronic security systems; video surveillance cameras; video surveillance systems, namely, camera hardware systems for IP video surveillance;

security surveillance apparatus, namely, cameras for security and surveillance; electric and electronic video surveillance installations; image processing apparatus, namely, raster image processors, electronic cards for processing images; lasers for non-medical purposes; thermal imaging apparatus for night vision, not for medical use; fire detection systems, namely, fire detection systems and devices, namely, fire and smoke alarms; intrusion detection systems, comprised of intrusion detectors, namely, gate, door and window position sensors, gate, door and window contact sensors, motion sensors, motion detectors, door and window glass break sensors and detectors, and panic buttons in the nature of anti-intrusion alarms and accompanying accessories, namely, detection control panels, configuration software, keypad controllers, alarm sensors, electric switches, electric contacts and electric relays, telephone dialing equipment, hardwire and cellular connectors, central intrusion monitoring stations consisting of audio and visual annunciators, namely, sirens, horns, strobes, and lights; computer networking hardware and data communications equipment in the nature of communications servers; burglar alarms; warning equipment, namely, warning horns, sirens, bells, electric warning lights and anti-intrusion alarms; access control devices, namely, computer servers, security and facilities management software, namely, software to control building environment, access and security systems, network software and communication cards, namely, software and computer network interface cards that allow connection to and communication with a network of building access control systems, computers, computer monitors, keyboards, modems and computer peripherals, system controllers, namely, electronic controllers used as part of building access control systems, digital door locks, exit requesters, namely, exit control devices that detect movement and deactivate locking mechanisms in access control systems, alarm sensors, electric switches, electric contacts, electric relays, security and access cards, namely, cards encoded with security features for identification purposes, electronic card readers, pin computer keypads, biometric recognition apparatus in the nature of a biometric identification apparatus, namely, biometric fingerprint door locks and biometric scanners used as part of access control systems, power supplies, cabinets specially adapted to control and protect the aforementioned access control devices; panic button alarms, namely, a device featuring buttons that trigger an alarm in case of building entry, building intrusions, building exits and emergencies; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; asset management and tracking systems consisting of inventory control systems, namely, computer software and hardware for the purpose of controlling inventory and prevent losses in the field of retail security, theft prevention devices, namely, security tags, stickers, labels, display cases, sensors and alarms and radio frequency identification (rfid), microwave, electromagnetic, and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; network routers; wireless routers; safety, security, protection and signaling devices, namely, flashing safety lights; measuring, detecting and monitoring instruments, indicators and controllers, namely, distance measuring apparatus; telecommunications hardware and software for monitoring and alerting remote sensor status via the internet; calculating machines, data processing equipment and computers; computer hardware and parts, fittings and accessories in the nature of computer peripherals therefor; anti-theft alarms, anti-theft alarm keypads, and electric anti-theft alarm control panels; gas detectors for detecting the presence of gas; magnetic and electromagnetic object detectors; transponders; antennas; electronic security and surveillance devices, namely, electronic security labels, markers, and electronic card readers, sensors, transmitters, receivers, and controllers utilizing radio-frequency identification (rfid), microwave,

electromagnetic, radio-frequency and acoustic-magnetic signaling for tracing or tracking of persons, animals, vehicles, or goods; deactivators and detachers for use with inventory control and anti-theft labels and tags; sensors and detector units for security purposes for detecting proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; sensors and detectors for security purposes for gathering safety and security data, namely, proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion, not being for medical use; sensors and detectors for security purposes for gathering data for transmission to insurance agencies in relation to the status of property, commercial premises and domestic premises, namely, flood detection, flare up, full grease traps, alarm/disarm of security systems, door openings, weather threats, regionalized crime threats, regionalized intrusions, trouble signals from alarm and access control panels (including door forces), presence detection, and the presence of explosive materials; sensors and detectors for security purposes for gathering, processing and transmitting data using internet of things technology, namely, proximity, carbon monoxide levels, heat, gas, temperature increase, glass break, smoke detection, flooding, fire, flame flare ups, full grease traps, alarm/disarm of security systems, open doors, weather threats, crime threats and motion; data streaming apparatus in the nature of digital media streaming devices; data streaming software; motion sensors, namely, electronic motion sensitive switches; optical beam sensors for detecting, counting and tracking people; infra-red sensors, namely, remote sensors for use in detecting the presence of gas for industrial purposes, for use in detecting flames and for detecting; electronic sensors for detecting, counting and tracking people; computer software used in the operation, control, monitoring and management of anti-theft alarms, inventory control systems, theft-prevention devices, people tracking devices and asset tracking devices; communications hardware and software for the remote control, remote operation, remote monitoring and remote management of apparatus, systems and devices, all such control, operation, monitoring and management being cloud-based, via the internet, or via wireless networks; fire alarms; fire alarm systems comprising fire alarms, fire, heat and smoke detectors and sensors, flame detectors, electric control panels, wireless network repeaters, initiating devices in the nature of smoke detectors, heat detectors, flame detectors, motion detectors, sprinkler water flow detectors, switches indicating actuation of fire suppression systems, magnetic door/window contacts, alarm pull stations and fire alarm boxes in the nature of a device that initiates an alarm signal when activated by hand, enabled for operation in a wireless system; electric control panels; touch sensitive electric control panels for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal health and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, home automation devices and sprinkler systems for fire protection; ethernet repeaters; thermostats; wireless fire alarm systems comprising fire and smoke detectors, electric control panels, and wireless network repeaters; carbon monoxide detectors; fire hoses; fire hose nozzles; smoke alarms; carbon monoxide alarms; safety equipment, namely, fire escape ladders; fire beaters; fire pumps; fire sprinklers; fire trucks; fire engines; fire fighting vehicles in the nature of fire trucks and fire engines; fire extinguishers; fire boats; fire blankets; fireproof clothing, namely, clothing for protection against fire; fire resistant gloves; fireproof garments; fire detection apparatus, namely, network systems, multiplex systems, stand-alone fire detection systems, voice communication systems and fire alarm emergency phone systems, comprising graphical command

centers, fire alarm pull boxes and manual fire alarm pull station, smoke detectors and sensors, flame detectors, heat detectors and sensors, water flow switches, sprinkler supervisory switches, electronic control apparatus for opening and closing of doors, modems, fiber optic line drivers, alarm communicator transmitters and receivers, audible and visible notification appliances, electrical annunciators, intercoms, crt monitors and printers, batteries and chargers and transient suppressors; fire extinguishing apparatus, namely, fire control devices, apparatus and equipment, namely, fire extinguishing apparatus for use to disperse, water, chemical foam solution or chemical powder, featuring storage tanks for fire-fighting agents, valves and pipes for distributing agents, inductors, generators for high-expansion foam, cannons, nozzles and ejectors; fire extinguishing apparatus; fire extinguishing systems in the nature of fire extinguishing apparatus; fire extinguishing apparatus, namely, fire suppression systems and component parts thereof, for use in pre-engineered restaurant, vehicle and industrial systems, comprised of agent storage containers, mechanical releasing devices, electro-mechanical releasing devices and pneumatic releasing devices, mechanical detection, electric detection, comprised of thermal detection, rate of rise detection, heat detection, and linear wire detection, system discharge devices; sprinkler systems for fire protection; sprinkler heads for fire sprinklers; detection and control equipment for smoke, namely, smoke detectors; detection and control equipment for heat, namely, heat detectors; detection and control equipment for flame, namely, fire and smoke detectors; automatic fire extinguishing apparatus; electric alarms for fire; fire break glass units; asbestos safety screens for firemen; sprinkler systems for fire extinguishing; safety equipment, namely, fire escape ladders; fire extinguishing apparatus for automobiles; fire extinguishing apparatus, namely, water sprinkling devices for fire control; alarms for the detection of inflammable gases; dispersion systems in the nature of fire extinguishing apparatus, comprised of chemical powder and/or chemical foam comprised of storage tanks for the firefighting agents, valving and piping to deliver the agents, proportioning controllers in the nature of devices that proportion and control the mixing of foam and water to form foam solution for fire extinguishing and fire fighting, high expansion foam generators, monitors in the nature of fire fighting monitors that spray foam or liquids on fires, nozzles and eductors in the nature of a proportioning device that introduces a foam concentrate for fire extinguishing and fire fighting; flame detection instruments, namely, flame detecting instrument comprised of an infrared flame detector and CCTV camera; fire suppression nozzles, namely, flood and local application nozzles for use in carbon dioxide fire suppression systems; equipment for dispersing dry chemicals and foam chemicals for firefighting, namely, storage tanks for the firefighting agents, valving and piping to deliver the agents, proportioning controllers, high expansion foam generators, monitors, nozzles and eductors; security cameras; security and fire alarms; security warning apparatus, namely, sensors for detecting body heat, motion, and vibrations; security control apparatus in the nature of wireless electric controllers to remotely monitor and control the function and status of security systems; personal security alarms; electronic security tags; radio frequency identification (rfid) tags; electronic security and surveillance devices, namely, electromagnetic tags, acoustomagnetic tags, radio frequency identification (rfid) labels, electromagnetic labels, acoustomagnetic labels, radio frequency identification (rfid) readers, electromagnetic readers, acoustomagnetic readers, radio frequency identification (rfid) sensors, electromagnetic sensors, acoustomagnetic sensors, radio frequency identification (rfid) transmitters, electromagnetic transmitters, acoustomagnetic transmitters, radio frequency identification (rfid) receivers, electromagnetic receivers, acoustomagnetic receivers, electrical controllers for acoustomagnetic sensor detection systems, and electronic controllers for rfid readers; security surveillance apparatus

comprised of hardware for video recorders, disc storage containers, encoders, decoders, and keyboards, and software for digital video recording, storage, management, point of sale monitoring, analytics, and security systems integration; automatic access security apparatus, namely, comprised of entry door systems comprising touch pads and security doors; facilities management software, namely, software to control building environmental, access and security systems; security control panels for security alarms; motion detectors; motion sensing input devices, namely, motion detectors in the nature of motion sensing controls for protecting property; security alarm systems, namely, building security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; personal security alarms that connect to a wireless communications network, namely, wireless security alarm systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station; anti-theft alarms in the nature of burglar alarms not for vehicles; anti-theft alarm keypads; electric anti-theft alarm control panels; electronic article surveillance devices, namely, uhf radio frequency identification (rfid) and acousto-magnetic (am) integrated traffic and metal foil detection sensors, transmitters, receivers and electrical controllers; electronic apparatus for monitoring and tracking, namely, electronic apparatus for monitoring and tracking, namely, detaching devices and deactivators for use with inventory control and anti-theft labels; wireless controllers to monitor and control the functioning of other electronic devices, namely, electronic apparatus for monitoring and tracking sensors, cameras and monitors for alarm monitoring systems; intercoms; intercom apparatus in the nature of voice evacuation systems comprising intercoms, audio speakers and microphones; nurse call systems for use in health care environments, namely, a system for telecommunication, locating and calling nurses, productivity and work flow enhancement, event processing, and reporting, comprised of a computer, telephone, infrared transmitters and antennae, visual and audible alarms notification devices, pagers, intercoms, signaling dome lights and zone lamps, emergency code terminals, data entry devices, remote communicators, remote controllers, and computer software for interfacing, operating, or controlling the communication devices; vehicle tracking apparatus, namely, vehicle locating, tracking and security system comprised of an antenna and radio transmitter to be placed in a vehicle; digital signage; emergency notification system, namely, mass notification systems, comprised of speakers, signboards, strobes, sirens, pagers, signaling lights, telephones, cell phones and computers for alerting and instructing individuals during emergency and/or disaster situations; computer hardware and software systems for tracking equipment and assets using gps data on a device on the tracked equipment and assets; asset management and tracking systems, namely, electronic tracking devices using radiofrequency or global positioning (gps) technology, desktop software, mobile applications, barcode scanners and barcode labels which provide the means to locate physical objects, collect data on its usage and whereabouts and report on all activity; encoded micro particulates, plastic labels in the nature of anti-shoplifting labels that can be attached to goods; electronic readers in the nature of radio-frequency identification (rfid) readers, bar code readers, smart card readers, radio-frequency identification tag readers, electronic card readers, magnetic strip readers and electronic readers and controllers for controlling access to a premises; electronic devices for assisting emergency personnel with injured persons needing assistance, comprised of sensors for determining status of person and apparatus for sending electronic alerts to emergency personnel; apparatus for monitoring the size, number, flow rate and direction of objects moving through an area, namely, video cameras, display monitors, sensors and detectors; positioning tags in the nature of electronic tags for

goods; electronically encoded personnel identity badges; encoded patient bracelets, magnetic; asset tracking tags in the nature of electronic tags for goods; temperature sensors with radio, low frequency, and infrared communication capability; optical readers, namely, electronic wireless input modules for reading data from personnel and article monitoring devices and systems; computer software for securing access to physical property, assets and buildings; computer software for data collection, namely, gathering intelligence in the nature of inventory and asset management, anti-shoplifting and loss prevention, device health monitoring, consumer traffic patterns, operational compliance, point-of-sale transaction analysis, video enabled applications and store execution functions; computer software for monitoring and controlling systems and devices for the management of motorways and tunnels; flame detection apparatus, namely, fire detectors; flame detectors in the nature of fire and smoke detectors; combustion gas detectors for detecting the presence of gas; gas sensors for measuring gas concentration; gas alarms; gas testing instruments; gas detecting apparatus in the nature of gas sensors for measuring gas concentration, namely, wireless and mobile gas detecting apparatus for detecting the presence of gas; gas leak alarm systems comprising sensors for measuring gas concentration and gas alarms; programmable logic controller (plc) devices; fire pump control valves, namely, directional valves for delivering fire suppression gas as component of an inert gas fire suppression system; building security systems comprising software and hardware for providing picture, video, alarm status, building plans, and other information to a remote station, namely, electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, home and residential environmental monitoring, control and automation systems; building security systems comprising electric and electronic devices and computer software for the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and residential environments; facilities management software, namely, application software for use on computers and hand-held devices to enable the remote monitoring and control of, and electronic and audio interaction with, thermostats, heating and air conditioning apparatus, humidifiers, ventilating apparatus, smoke detectors and alarms, carbon monoxide detectors and alarms, fire detectors and alarms, proximity sensors, security and access systems, alarms and sensors, lighting, light sensors, motion sensors, moisture sensors, environmental hazard detectors, wireless local area network enabled cameras, and smart appliances in homes and/or residential environments; electrical controlling devices; electric control devices for building energy management systems and security systems; automation process control systems comprising wireless and wired controllers, controlled devices, and software for appliances, lighting, hvac (heating, ventilation and air conditioning), security and other commercial electrical power monitoring and control applications for buildings, facilities and plants; electrical and electronic controls and control, automation and optimization systems comprised of wireless and wired controllers, controlled devices, and software for building, facility, and plant devices and apparatus, in the nature of regulating environmental systems, safety, security systems, fire systems, sprinkler systems, water flow systems, surveillance systems, tracking systems, emergency systems, energy systems, lighting, sound, display, threat detection systems, access systems, and asset management systems; electrical and electronic controls and controls systems comprised

of wireless and wired controllers, controlled devices, and software for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; access control and alarm monitoring systems, namely, on-site and field hardware, software, sensors, monitors, controls, control systems and apparatus for individual and integrated on-site and remote monitoring, control, operation, automation and optimization of, and interaction with, building, facility and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware, software, and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting data from building, facility and plant devices, monitors, monitoring systems, sensors, controls, control systems, and apparatus for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; computer hardware and software for wired and wireless networking of building, facility and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, asset management, automation and optimization devices, apparatus and systems; graphical user interface software; software for creating, configuring, engineering, installing and operating of building, facility, and plant control, environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, threat detection, access, asset management, automation and optimization devices, apparatus and systems; software for recording, tracking, auditing and reporting the performance and compliance of environmental controls systems; application software for enabling the monitoring, control and

operation of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection using a remote computer, smart phone or other mobile device; galvanic batteries; polymer lithium-ion batteries; rechargeable batteries for electric vehicles and electronic devices; accumulators; electric primary and secondary elements, namely, electric primary and secondary electrical circuits; electric fuel elements, namely, fuel cells; electric batteries, being specially designed as parts or accessories for land, air and water vehicles; chargers and parts therefor, for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; rectifiers and switching apparatus, namely, electrical switches, and battery-regulating electrical switches, electrical cell switches and capacitance meters, namely, electric meters for electric batteries, being specially designed as parts or accessories for land, air and water vehicles; automobile accessories, namely, starter batteries; apparatus for testing galvanic elements, batteries and electric fuel cells specially designed as parts or accessories for land, air and water vehicles, namely, voltmeters, and for parts for the aforesaid goods; apparatus and instruments for conducting, switching, transforming, accumulating, regulating, and controlling electricity, namely, electricity conduits, power switches, distribution boxes for electrical power, current transformers; apparatus for monitoring of automotive batteries, namely, battery monitors; grids for batteries, namely, conductive grids for batteries; component parts of batteries, namely, internal frames for the purpose of providing structural durability; component parts of batteries, namely, vent caps; industrial batteries; downloadable mobile application software for use with battery monitoring, battery diagnostic and battery safety devices that may be attached to a battery to monitor the performance and performance characteristics of a battery; downloadable mobile application software for education relating to battery technology; battery management systems, namely, hardware and computer software for monitoring and managing battery charging, output, and performance and for thermal control; actuators, namely, electric actuators; electrical actuators, electric controls, and switches for air ventilation and air conditioning systems and equipment; solenoid valves; electric control valves; automatic terminal unit valves; electric actuators, namely, terminal unit valve actuators; temperature monitors (valves) for central heating radiators; electric controls for automatic valves; computer software, namely, automated energy management and fault detection software designed specifically to monitor, measure, analyze, track, collect, record, transmit and store energy and resource consumption data from existing building control systems and building automation systems to enable users to control multiple building control systems and building automation systems to monitor, track, manage, control, conserve and optimize energy and resource usage, and to allow real time viewing and manipulation of energy and resource usage by way of graphic displays on personal computers, servers and wireless devices and to send and receive data and alerts to users of energy and resource usage, and electronic computer manuals and instructions relating thereto; computer software for software application integration, namely, software to allow integration with building control systems and building automation systems from different vendors, and to transmit and receive data and instructions between the device or

equipment and the building control system or building automation system and other software and allowing software to control the building control system or building automation system network and the devices and equipment connected thereunder; computer software, namely, application programming interface library for the integration of third party building control systems and building automation systems with other building energy management system software or frameworks.

Class 37

Installation, maintenance and repair of kitchen hood suppression systems; installation services, namely, CCTV and security equipment installation, smoke detector installation, fire extinguisher installation, intrusion system, automatic sprinklers installation; installation of emergency lights, installation of access control systems, installation of theft prevention devices and monitoring systems comprising electronic video surveillance cameras with computer hardware and software; installation, repair and maintenance services of computer hardware and peripherals, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices, anti-theft alarms, inventory control systems, theft-prevention devices, electronic video surveillance cameras, personnel and asset tracking devices; installation, repair, and maintenance services of fire protection systems, electrical communications systems, alarm, security, and access control systems, heating systems, ventilating and air conditioning systems, electronic monitoring equipment and apparatus, traffic and transport management systems; installation, maintenance, and repair of systems for providing heating, ventilating, air conditioning, refrigeration, energy, lighting, fire alarm, and security access systems for industrial, commercial, governmental facilities; installation, repair and maintenance of refrigeration systems, fire detection systems and alarm systems, security access systems, sprinkler systems, piping, special hazard warning systems, and fixed, portable and passive fire protection systems; building maintenance and repair; fire alarm repair; fire alarm installation; installation of fire detection systems; building repair, namely, repair of fire damage; fire extinguisher recharging services; maintenance and repair of fire alarm installations; technical support services, namely, technical advisory services in the field of installation of fire prevention equipment; providing information in the field of repair and maintenance of fire alarms; providing information in the field of installation and maintenance of security systems; installation advisory services in the field of security and safety equipment; construction, repair, installation, maintenance services and inspection in the course of construction of fire protection systems, electrical communications systems, alarm systems, security and access control systems, ventilating and air conditioning systems, pipelines, valves, valve fittings and actuators, traffic and transport management systems, heating, and temperature sensing systems; leasing of building machinery for construction sites; construction project management services, namely, supervision of construction and renovation of facilities; management consultation in the field of facilities management, namely, consultation in the field of physical maintenance of facilities; facilities management services, namely, repair and maintenance of building management systems and equipment in facilities, namely, heating, ventilation, air conditioning, lighting, power, fire, access control and security systems and equipment; installation, maintenance, and repair services of fire protection and extinguishing apparatus, namely, fire alarms, detection and suppression systems, namely, fire extinguishers; installation, maintenance, and repair of security systems, apparatus and equipment; installation and maintenance of fire protection systems; technical consultation in the field of building construction, namely, mechanical building construction; consulting services in the field of installation and maintenance of alarm

response and verification systems; consulting services in the field of installation and maintenance of vehicle security systems and vehicle navigation systems; repair of clothing for protection against fire; repair, installation, and maintenance services for anti-theft alarms, anti-theft alarm keypads and anti-theft alarm control panels, magnetic and electromagnetic object detectors, transponders, antennas, encoded micro particulates, electronic article detection equipment; repair, installation, and maintenance of radio frequency identification (RFID), electromagnetic, radio frequency and acoustomagnetic tags, labels, readers, sensors, transmitters, receivers and electrical controllers; repair, installation, and maintenance of customer tracking and surveillance apparatus in the nature of camera hardware systems for IP video surveillance, electronic surveillance and tracking apparatus in the nature of video surveillance installations, detachers and deactivators for use with inventory control and anti-theft tags and labels, tag deactivators, including hooks, tag detachers, including hooks; Installation, maintenance, and repair of electrical and electronic controls and control, automation and optimization devices, apparatus and systems for buildings, facilities and plants; installation, maintenance and repair of electrical and electronic controls and control, automation and optimization systems for building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; installation, maintenance, and repair of electrical and electronic controls and control systems for the on-site and remote monitoring, control, operation, automation, and optimization of, and interaction with, building, facility, and plant devices, apparatus and systems for heating, air conditioning, ventilation, refrigeration, energy use, allocation, maintenance, efficiency and stabilization, lighting, sound, communication, luminescent display, audio and video broadcast, battery and storage cell electrical charging, metering and payment, fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, security access and alarms, CCTV, surveillance, asset and personnel tracking, light and motion detection, moisture detection, environmental hazard detection, threat detection and safety, gas detection, alarm and containment, asset management, manufacturing, and equipment and systems fault detection; maintenance and repair of vehicles for the transportation of persons and goods, including automobiles, trucks, boats and motorcycles; maintenance and repair of parts and accessories for vehicles for the transportation of persons and goods, including without limitation, electric accumulators, batteries, hybrid and electric battery systems, cells and voltaic cells, starter batteries, and their parts, and related products for maintenance, charging and monitoring for vehicles for the transportation of persons and goods; services of installation and maintenance of batteries and filters; computer and telephone battery recharge services; installation and maintenance of electronic monitoring equipment and apparatus, namely, electronic transmitters and receivers for transmitting and receiving signals, including voice signals, motion detectors and monitors; building construction advisory services, including but not limited to, building construction consultancy on building use, installation of building automation equipment, general building contractor services; building consultancy in relation to construction project management services for a smart building; advisory services relating to building construction regarding computer integrated construction; advisory services relating to building construction regarding integrated design and construction planning system for computer integrated construction; onsite building project management; advisory services relating to building construction regarding construction project management which utilizes computer systems; building project management; advisory services relating to the construction of buildings which comprise of building

management systems, implements online computer software systems and integrates computer systems and building automation for the environmental quality of the building; and advisory services relating to the installation of building automation equipment; consultancy services relating to the installation and maintenance of heating, ventilation, cooling and air conditioning equipment for the optimization of energy efficiency at chiller plants.

Class 45

Security services, namely, alarm response and verification services; monitoring and remote monitoring of burglar and security alarms, security systems and home automation systems for security purposes; firefighting services; monitoring fire alarms; fire prevention consultation; rental of fire extinguishers; rental of fire alarms; providing information relating to the rental of fire alarms and fire extinguishers; fire detection and suppression services, namely, responding to fire alarms and providing firefighting services; fire prevention consultation, namely, provision of fire prevention-related advice; fire prevention consultation, namely, consulting services in evaluation of fire scenes; emergency response alarm monitoring services, namely, monitoring of alert devices by a remote monitoring center for the dispatch of emergency public health and security services and notification to third parties; monitoring of security systems for protecting personal property; monitoring burglar and security alarms; surveillance services, namely, electronic monitoring services for security purposes in the field of residences, businesses and commercial properties; security guard services; security guarding for facilities; providing information relating to security guard services; alarm response and verification services; home security alarm monitoring, namely, monitoring and control of alarm and security systems, of water flow and of home automation systems for security purposes; monitoring burglar and security alarms, namely, centralized burglar and fire alarm services, namely, monitoring centralized burglar and fire alarm services; security services for buildings, namely, control of building environmental access and security systems relating to the heating, ventilation, air conditioning and lighting of buildings, by providing physical access to properties via a remote call-in locking device; security services in the nature of monitoring of telephone calls from subscribers and notifying emergency responders when appropriate; theft recovery services in the nature of tracking, locating and monitoring of vehicles for security purposes via a computer network, namely, stolen vehicle tracking; tracking services for homes, people, and businesses, namely, tracking, locating, and monitoring services for recovering people, and stolen property; physical security consultancy, namely, through call centers, for all of the aforesaid services; leasing of firefighting equipment; home security alarm monitoring, namely, monitoring services relating to fire protection and extinguishing systems and to security and security monitoring systems and to apparatus for such systems and to computer software for such systems and apparatus; security services for buildings, namely, control of lighting systems and control of HVAC (heating, ventilation and air conditioning) systems for security purposes; controlling and monitoring services to protect homes, residences, businesses and commercial properties, namely, monitoring building environmental access systems and building security systems for protecting personal property; home security alarm monitoring, namely, intrusion detection and control services, namely, tracking, locating and monitoring services for preventing the intrusion of burglars; surveillance services; surveillance services, namely, closed-circuit surveillance; rental of security surveillance apparatus and equipment; providing reconnaissance and surveillance services; forensic analysis of surveillance video for fraud and theft prevention purposes; surveillance services, namely, cloud based surveillance services; surveillance services, namely, cloud based closed-circuit surveillance; rental services in the field

of physical security, namely, cloud based rental of security surveillance apparatus and equipment; surveillance services, namely, cloud based provision of reconnaissance and surveillance services; surveillance services, namely, cloud based forensic analysis of surveillance video for fraud and theft prevention purposes; surveillance services, namely, monitoring and controlling of computer equipment for safety, rescue, security and enforcement purposes; cloud based security services, namely, alarm response and verification services; physical security consultancy, namely, provision of advice and information in the fields of cloud based and non-cloud based security, safety, fire detection and suppression, access control, intrusion, loss prevention and building environments and security, safety, fire detection and suppression, access control, intrusion, loss prevention and building environmental apparatus, systems and devices; surveillance services, namely, monitoring of computer security system for security purposes; surveillance services, namely, monitoring and controlling building, facility and plant automation and optimization systems; surveillance services, namely, monitoring and controlling building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; surveillance services, namely, monitoring and controlling computer systems and data derived from building, facility and plant environmental, safety, security, fire, sprinkler, water flow, surveillance, tracking, emergency, energy, lighting, sound, display, threat detection, access, and asset management devices, apparatus and systems; rental services in the field of physical security, namely, leasing of anti-theft and security alarms, antennas, labels, tags, apparatus, devices and systems; rental services in the field of physical security, namely, leasing of electronic security and surveillance devices; rental services in the field of physical security, namely, leasing of video surveillance, video security, security surveillance, security management, monitoring and theft-prevention hardware; rental services in the field of physical security, namely, leasing of video surveillance, video security, security surveillance, security management, monitoring and theft-prevention equipment.

semiconductor wafers and substrates in the manufacture of semiconductors.

Class 07

Machines for the assembly and packaging of electronic chips; machines for manufacturing semiconductors, and structural parts and fittings therefor; semiconductor manufacturing machines; semiconductor manufacturing machines and systems composed of a vacuum chamber for accommodating semiconductor wafers and structural parts and machines for handling and transferring semiconductor wafers into and out of vacuum chamber, and structural parts and fittings therefor; machines for the treatment of semiconductor wafers, namely, semi-conductor wafer processing equipment, and structural parts and fittings therefor; industrial machines for use in chemical reactions; industrial robots.

Class 09

Electrical reactors for processing semiconductor wafers; reactors for processing semiconductor wafers, namely, chemical reactors for the thermal treatment of semiconductor wafers and reactors for chemical vapor deposition; laboratory chemical reactors; robots being electronic control devices, namely, laboratory robots; electronic controllers for the semiconductor industry; electronic control systems for machines; structural parts and fittings for the aforementioned goods.

Class 35

Business intermediary services in the fields of buying, selling, importing and exporting of equipment for the deposition of thin film layers used in the manufacture of semiconductors, machines and apparatus for the assembly and packaging of electronic chips, apparatus for manufacturing semiconductors and parts and fittings therefor, semiconductor manufacturing machines and systems and parts and fittings therefor, and machines for the treatment of semiconductor wafers and semi-conductor wafer processing equipment and parts and fittings therefor; retail, wholesale, and online retail or wholesale services in the fields of equipment for the deposition of thin film layers used in the manufacture of semiconductors, machines and apparatus for the assembly and packaging of electronic chips, apparatus for manufacturing semiconductors and parts and fittings therefor, semiconductor manufacturing machines and systems and parts and fittings therefor, and machines for the treatment of semiconductor wafers and semi-conductor wafer processing equipment and parts and fittings therefor.

Class 37

Construction, installation, repair and maintenance of semiconductor and semiconductor wafer manufacturing machines and systems.
