REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

instruments and equipment for the firing or launching of decoy targets to lure underwater guided missiles, torpedoes and depth charges lifejackets, flotation vests and flotation collars; electronic sensors and electronic monitoring apparatus and instruments to record and monitor acceleration and pressure in individuals in support of the diagnosis and treatment of traumatic brain injury; CD-ROM and web-based interactive multimedia training systems, including software and table-top training systems for land and armaments systems, including for vehicles, armoured vehicles, combat vehicles, weapons systems, artillery systems, intelligent munitions, firearms, explosives, computer software, computer hardware, sensors, electronics, communications equipment, navigations systems, radar systems, information systems and electrical power systems; CD-ROM and web-based interactive multimedia training systems for naval ship operation and combat, including pc based software incorporating scenario generation and animation; diagnostics systems for vehicles; fire extinguishing and detection systems and apparatus for vehicles; fire hoses; temperature control apparatus for use in vehicles; electronic camouflage systems for vehicles, namely, computer software, computer hardware and electronic panels of pixels which are individually heated and cooled to enable the vehicle to blend in with its surroundings; electrical and electronic apparatus, instruments and systems for generating artificial fog or smoke, including smoke screens; electric and electronic systems associated with the arm, deploy, operation, guidance and control of rockets, missiles, projectiles and torpedoes; optical filtration apparatus for vehicles; electro-optical gun sights; video trackers and target detection systems; tilt sensors for vehicles; GPS receiving, guidance and navigation systems for vehicles and weapons; anti-jamming technologies for GPS systems; computer hardware and software used in military operations for tactical planning, command, control, communications, intelligence, decision making, navigation, and diagnostics; non-line-of-sight voice, video and data communications software, hardware, apparatus and instruments; fire control systems for weapons; vehicle-mounted electronic devices which project the magnetic signature ahead of the host vehicle for detonating explosive devices with a magnetic influence fuse; electrical and electronic countermeasure devices; stealth technology systems comprised of computer hardware, software, electrical and/or electronic apparatus for ships, submarines, aircraft, helicopters, amphibious vehicles and land vehicles; electrical and electronic apparatus and instruments for monitoring, collection and compilation of environmental information and data, including underwater conditions, weather, and population and distribution of marine animals; software tools for monitoring and predicting environmental impact; satellite reception apparatus; hardware and software providing meteorological and oceanographic data; navigation systems, sonar systems, battery systems and acoustic homing systems for torpedoes, underwater missiles and depth charges; underwater acoustic transducers; circuit boards; hardware, software electrical and electronic components for 3D printers; software, hardware, communications systems, apparatus, components, instruments and equipment used in connection with geographic information systems and remote sensing technology; testing apparatus for open architecture avionics; applications to support software generation for customised military and naval mission controls; clothing and equipment for aircraft pilot protection, safety and control, including helmet, visor and suit with position monitoring and data display capabilities, oxygen mask, microphone, radio, arm restraints, and pressure capabilities; aircraft, land vehicle and marine vehicle simulators; head-up displays; electronic helmet-mounted displays for use by pilots, drivers and crew of aircraft, land vehicles and marine vehicles; protective clothing, body armour, armoured and bullet-proof vests, protective headgear, protective helmets, protective footwear, protective eyewear, protective masks and respiratory masks (not for medical use); parts and fittings for

all of the aforesaid goods; publications, newsletters, magazines, brochures, reports, certificates, user manuals, user guides, technical manuals, technical datasheets, and educational, training and instructional manuals, all in electronic and/or downloadable form; computer software for interpreting fingerprints or palm prints.

Class 12

Aircraft; fixed wing aircraft; rotary wing aircraft; prototype aircraft; military aircraft; combat aircraft; training aircraft; fast jet training aircraft; aircraft for aerial and acrobatic display purposes; unmanned air vehicles; autonomous air vehicles; remotely piloted air vehicles; unmanned aerial aircraft; unmanned air vehicles for the transport and release of guided weapons; land vehicles; armoured land vehicles; military land vehicles; tracked land vehicles; land vehicles for combat purposes; land vehicles for command and control purposes; land vehicles for the transport of military personal and equipment; land vehicles for emergency, search and rescue purposes; land vehicles for mine clearance purposes; land vehicles for site clearance purposes; autonomous land vehicles; tanks; motorised and non-motorised land vehicles equipped for the transport, launch and operation of weapons and/or equipped with apparatus for control and guidance of weapons; amphibious vehicles; autonomous amphibious vehicles; marine and submersible vehicles; ships; patrol ships; boats; rigid inflatable boats (RIBs); aircraft carriers; frigates; destroyers; corvettes; submarines; nuclear submarines; autonomous underwater vehicles; weapon carriage and release equipment for installation in or on military aircraft, land vehicles or marine vehicles; parts and fittings for all of the aforesaid goods. Aircraft; helicopters; aerial vehicles; air cushion borne vehicles; pilotless aircraft; unmanned air vehicles; remotely piloted vehicles; drones; pilotless aircraft for the transport and release of guided weapons (missile buses); stand-off weapon carriers; land vehicles; tanks; motorised and non-motorised land vehicles equipped for the transport, launch and operation of weapons and/or equipped with apparatus for control and guidance of weapons, including radar apparatus, target surveillance apparatus, target recognition apparatus, target tracking apparatus and military communications apparatus; weapon carriage and release equipment for installation in or on military aircraft, land or marine vehicles; spacecraft; satellites for transportation; marine and submersible vehicles; ships; patrol ships; frigates; tanker ships; merchant ships; destroyers; corvettes; submarines; nuclear submarines; conventional submarines; amphibious vehicles; autonomous underwater vehicles; propellers for air vehicles, air cushion vehicles, or sea vehicles; ground erosion preventative apparatus for very short take off and landing aircraft; wing-in-ground effect vehicles; load carrying (lifting) attachments for vehicles; load carrying vehicles; parachutes, vacuum sealed parachutes, and parachute packs; shock absorbers for vehicles and vehicle parts; energy-absorbing and shock-absorbing seats for use in vehicles; blast-absorbing seats for use in vehicles; safety restraints and harnesses for use in vehicles; armour and armoured bodies for land and water vehicles; armour and armoured bodies for aircraft; mine protected vehicles; armoured military vehicles; armoured commercial vehicles; armoured and mine protected utility vehicles; land vehicles for transporting military cargo personnel, and hazardous and non-hazardous materials and waste; strengthened chassis for use in armoured vehicles; strengthened and armoured parts for vehicles, including fuel tanks, floors, tires, batteries, seats, benches, and ballistic resistant windscreens and windows; ram bumpers for vehicles; vehicles implementing hybrid drive technology which combines conventional fuel with electricity; vehicles and armoured vehicles used for medical treatment and evacuation; vehicle parts and fittings for obstacle and mine clearance, earth moving, excavation, digging, dozing, loading, gripping, towing, winching and route-marking; vehicles and

vehicle parts and fittings operated by remote control; removable modular arm systems for vehicles; aircraft carriers; landing docks for helicopters; yachts and parts and fittings for all the aforesaid goods; electric propulsion mechanisms for land vehicles, trucks, buses, trains and light rail transit; hybrid propulsion systems which combine conventional fuel with electricity for use in land vehicles, trucks, buses, trains and light rail transit.

Class 16

Writing instruments; printed matter, publications, newsletters, magazines, brochures, reports, certificates, user manuals, user guides, technical manuals, technical datasheets, and educational, training and instructional manuals, brochures, posters, wall charts, books and photographs; maps and navigational charts; instructional, training and teaching materials; publicity materials; decals; paper tapes and cards for the recordal of computer programs.

Class 37

Construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair services, all relating to civil engineering installations, buildings, structures and transport infrastructure; construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair services, all relating to the defence, aerospace, aviation, transport and security industries, or utilising defence, aerospace, aviation, transport or security technology; construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair of aircraft, fixed wing aircraft, rotary wing aircraft, prototype aircraft, military aircraft, combat aircraft, training aircraft, fast jet training aircraft, aircraft for aerial and acrobatic display purposes, unmanned air vehicles, autonomous air vehicles, remotely piloted air vehicles, drones, unmanned air vehicles for the transport and release of guided weapons, land vehicles, armoured land vehicles, military land vehicles, tracked land vehicles, land vehicles for combat purposes, land vehicles for command and control purposes, land vehicles for the transport of military personal and equipment, land vehicles for emergency, search and rescue purposes, land vehicles for mine clearance purposes, land vehicles for site clearance purposes, autonomous land vehicles, tanks, motorised and non-motorised land vehicles equipped for the transport, launch and operation of weapons and/or equipped with apparatus for control and guidance of weapons, amphibious vehicles, autonomous amphibious vehicles, marine and submersible vehicles, ships, patrol ships, boats, rigid inflatable boats (RIBs), aircraft carriers, frigates, destroyers, corvettes, submarines, nuclear submarines and autonomous underwater vehicles; construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair of parts and fittings within aircraft, aerial vehicles, land vehicles, amphibious vehicles, marine vehicles and submersible vehicles (excluding computer software); construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair of computer hardware, data processing and transmission apparatus, computer networks, communications networks, communications equipment and wireless communications equipment; consultancy relating to the installation, maintenance and repair of computers; construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair of weapons and weapons systems (excluding computer software); construction, installation, maintenance, servicing, refurbishment, renovation, upgrading and repair of optical apparatus, mechanical apparatus, instruments, equipment, components, systems, controls and displays for military, defence, aerospace, aviation, transport and security purposes (excluding services relating to computer software); contracting for availability services, namely, providing maintenance and servicing for aircraft, aerial vehicles,

land vehicles, marine vehicles and submersible vehicles so that the vehicles are always available, fit and ready for use; information, advice and consultancy relating to all of the aforesaid services; construction, civil engineering, installation, maintenance, servicing, refurbishment, renovation or repair services, all relating to civil engineering installations, buildings, structures, or to the aerospace, transport or defence industries or utilising aerospace, transport or defence technology; maintenance, servicing, refurbishment, renovation, overhaul or repair services, all relating to aircraft, helicopters, aerial vehicles, air cushion borne vehicles, spacecraft, land vehicles, amphibious vehicles, marine and submersible vehicles, combat vehicles, armoured vehicles, weapons, weapon systems, artillery systems, intelligent munitions, firearms, computer hardware, sensors, telecommunication, communications, or data processing and transmission apparatus, optical and mechanical apparatus and instruments, avionics equipment, navigation systems, radar systems, information systems and electrical power systems, defence equipment, and parts and fitting within aircraft; weapon systems maintenance and equipment maintenance; rental leasing of construction equipment; maintenance, repair and overhaul of apparatus, instruments, communications systems for the firing or launching of decoy targets for hostile underwater guided missiles, torpedoes and depth charges; maintenance and repair services in the field of hybrid drive technology which combines conventional fuel with electricity; through life support services, namely maintenance and repair of electronics products; through life support services, namely maintenance and repair of underwater acoustic transducers; assembly (installation) of mechanics, chassis, wiring, electrics, electronics, cabinet, body and other parts, components and/or accessories in relation to aircraft, helicopters, aerial vehicles, air cushion borne vehicles, spacecraft, land vehicles, amphibious vehicles, marine and submersible vehicles, combat vehicles, armoured vehicles, weapons, weapon systems, artillery systems, intelligent munitions, firearms, computer hardware, sensors, telecommunication, communications, or data processing and transmission apparatus, optical and mechanical apparatus and instruments, avionics equipment, navigations systems, radar systems, information systems and electrical power systems, defence equipment, and parts and fitting within aircraft; paint spraying services; repair and maintenance of electronic circuit boards; repair and maintenance services in relation to geographic information systems and remote sensing technology; advice and consultancy relating to all of the aforesaid services; construction of ships and submarines, namely, the building of ships and submarines for customers; installation of computer hardware, electronics, electronic systems, electronic displays, head-up displays, helmet-mounted displays, night vision instruments, sensors, avionics, flight instruments, flight controls, land vehicle controls, throttles, control sticks, marine vehicle controls, weapons and weapons systems; upgrading of aircraft, land vehicle and marine vehicle simulators; providing information relating to the repair or maintenance of nuclear power plant.

Class 41

Design, development and provision of training, education, workshops (training), seminars and instructional courses for the military in relation to the use, operation, deployment and maintenance of land and armaments systems, including vehicles, armoured vehicles, combat vehicles, ambulances, land vehicles, armoured land vehicles, military land vehicles, tracked land vehicles, land vehicles for combat purposes, land vehicles for command and control purposes, land vehicles for the transport of military personal and equipment, land vehicles for emergency, search and rescue purposes, land vehicles for mine clearance purposes, land vehicles for site clearance purposes, autonomous land vehicles, tanks, motorised and non-motorised land vehicles equipped for the transport, launch and operation

of weapons and/or equipped with apparatus for control and guidance of weapons, amphibious vehicles, autonomous amphibious vehicles, marine and submersible vehicles, ships, patrol ships, boats, rigid inflatable boats (RIBs), aircraft carriers, frigates, destroyers, corvettes, submarines, nuclear submarines, autonomous underwater vehicles, weapon carriage and release equipment for installation in or on military aircraft, land vehicles or marine vehicles, weapons systems, artillery systems, intelligent munitions, firearms, explosives, computer software, computer hardware, sensors, electronics, communications equipment, navigations systems, radar systems, information systems and electrical power systems; CD-ROM and web-based interactive multimedia training, tabletop training, classroom presentations, laboratory sessions and peer coaching, all in relation to the use, operation, deployment and maintenance of land and armaments systems including vehicles, armoured vehicles, combat vehicles, weapons systems, artillery systems, intelligent munitions, firearms, explosives, computer software, computer hardware, sensors, electronics, communications equipment, navigations systems, radar systems, information systems and electrical power systems; design, development and provision of training, education, workshops (training), seminars and instructional courses for the navy and coastguard in relation to ship operations and combat systems including command, radar, sonar, electronic surveillance measures, electronic counter-measures, electro-optical, missile, gun, close in weapon systems, torpedo, data link, information, communications, navigation, meteorological and oceanographic systems; training and educational services associated with the transfer of technology; training and educational services in the field of intelligence and security; linguistics consultancy, language translating and interpreting services; military base training; preparing training material and on-site training in relation to socio-cultural, human terrain and geopolitical aspects of foreign countries; advice and consultancy relating to all of the aforesaid services; avionics systems training services.

Class 42

Engineering services; engineering consultancy; research, design and development services; industrial analysis and research services; laboratory testing services; metrology and calibration of equipment; electromagnetic compatibility testing services for military and civilian equipment; tool design services; air, sea and land vehicle design, testing and certification services; engineering project management services; defence consultancy, namely computer technical consultancy in relation to the use of computer software and hardware for military vehicles, military aircraft, military marine vehicles and weapons; combat systems requirement analysis; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for military, defence, aerospace, aviation, engineering, transport, security, national security, cyber security and law enforcement purposes; operational support services for computer software; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for aircraft, aerial vehicles, land vehicles, amphibious vehicles, marine vehicles, ships, boats, submarines, weapons and weapons systems; design, development, customisation, integration, configuration and testing of computer hardware, electronics, electronic systems, electronic displays, head-up displays, helmet-mounted displays, night vision instruments, sensors, avionics, flight instruments, flight controls, land vehicle controls, throttles, control sticks, marine vehicle controls, weapons and weapons systems; systems integration services for defence and aerospace systems; circuit board design services; design, development, integration and testing of aircraft, land vehicle and marine vehicle simulators; digital mapping

services; generation of reports, namely, preparation of reports containing data, information and analysis relating to pilot, driver or crew member decision-making and performance of aircraft, land vehicles and marine vehicles; information technology consultancy services; research, design, development and customisation of computer software, computer firmware, computer hardware, computer systems and computer architectures; preparation of reports relating to computer data, computer software, computer firmware, computer hardware, computer operating systems, computer networks, communications networks, the security of computer networks and the security of communications networks; monitoring, diagnostic and maintenance services for computer operating systems; analytical services relating to computers, computer networks and communications networks; forensic analysis of computer operating systems, namely, analysis of computers and computer systems in order to search for, locate and reconstitute deleted data; computerised storage services; data conversion of computer programs and data (not physical conversion); recovery of computer data; analytical services relating to computers, computer software, computer networks and communications networks; incident investigations and management relating to threats and malicious behaviour in connection with computer operating systems, computer networks and communications networks; information, advice and consultancy relating to computer security, computer network security and communications network security; provision of computer virus protection consultancy services in order to minimise the damage caused by cyber-attacks, and how to recover from cyber-attacks; computerised data services, namely identifying, capturing, searching, exploring, analysing, processing, storing, managing, monitoring, aggregating and modelling of data and transactions, and of patterns and networks in data and transactions; preparation of technical reports; information, advice and consultancy relating to all of the aforesaid services; environmental consultancy; software and programming services; combat systems requirement analysis, design, integration, test, trials and/or support services; ship design consultancy; submarine design consultancy; laboratory testing services including simulated environments, environmental stress screening, metrology and/or calibration of equipment; systems integration services for aerospace systems; technical engineering and support services in the field of hybrid electric technology information services in relation to engineering; design and development of hybrid drive technology which combines conventional fuel with electricity; design and development of electronic camouflage technology for vehicles; engineering, development and testing services in relation to ships and submarines; design, engineering, development and testing services in relation to land and armaments systems, including for vehicles, armoured vehicles, combat vehicles, weapons systems, artillery systems, intelligent munitions, firearms, explosives, computer software, computer hardware, sensors, electronics, communications equipment, navigations systems, GPS, radar systems, information systems and electrical power systems; design and development of stealth technology for ships, submarines, aircraft, helicopters, amphibious vehicles and land vehicles; advisory services relating to environmental protection; monitoring and predicting environmental impact; testing of military weapons and electronic systems; scientific and technological services and research and design relating to electronic systems in the sectors of naval, land and air defence; scientific and technological services and research and design in connection with oil and gas; scientific and technological services and research and design in connection with renewable energy; scientific and technological services and research and design in connection with space technology; scientific, technological services, research, design and testing in connection with electronics; scientific and technological services and research and design in connection with electronics systems, subsystems and modules, including the

development of prototypes, in-house testing, thermal stress screening, vibration stress screening, temperature screening, environmental stress screening and functional testing; scientific and technological services and research, design and testing in connection with underwater acoustic transducers; chemical and metallurgical analysis services; design, research and development in relation to 3d printing; design, research and development in relation to encapsulation, metallisation and metal plating; design, engineering, development and testing services in relation to radar techniques and systems, and consultancy relating thereto; computer and data security services; research and consultancy in relation to social science; design, development, research, consultancy, analysis, modeling and testing services in relation to geographic information systems and remote sensing technology; design, development, research, consultancy, analysis, modeling and testing services in relation to intelligence, surveillance and reconnaissance systems; testing services in relation to avionics systems; design and development of applications to support software generation for customised military and naval mission controls; advice and consultancy relating to all of the aforesaid services; maintenance of computer software; maintenance, repair and overhaul of software for the firing or launching of decoy targets for hostile underwater guided missiles, torpedoes and depth charges.
