REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Electronic interlocking devices; Electronic decoding instruments; Electronic data input apparatus; Electronic switching amplifiers; Electronic regulating apparatus; Electronic remote control units; Electronic navigating apparatus; Electronic navigation apparatus; Diaries (electronic organisers); Electronic calculating machines; Fixed electronic signal filters; Electronic visual display units; Electronic variable speed units; Plug-in cartridges (electronic); Waveguides (electronic devices); Weekly publications (electronic); Tripods for electronic apparatus; Telephone registers (electronic); Process controllers (electronic); Programmed electronic components; Electronic translating apparatus; Frequency invertors (electronic); Electronic banking installations; Electronic controlling apparatus; Electronic control installations; Data recorded in electronic form; Coils being electronic apparatus; Electronic process control units; Electronic measuring instruments; Electronic data output apparatus; Electronic key telephone systems; Electronic generator instruments; Electronic hand-held calculators; Electronic flight control systems; Electronic home command apparatus; Electronic drives for paper tapes; Electronic memories for computers; Electronic navigation instruments; Electronic surveillance apparatus; Circuits (electric or electronic); Hand-held electronic dictionaries; Electronic verification apparatus; Programmable electronic apparatus; Process control units (electronic); Portable digital electronic scales; Light-emitting electronic pointers; Motor control centres (electronic); Telephone books in electronic form; Text layout apparatus (electronic); Touch sensitive electronic screens; Topographic apparatus (electronic); Transmitters of electronic signals; Vocabulary note books (electronic); Chargers for electronic cigarettes; Coils being electronic instruments; Components for electronic circuits; Connectors for electronic circuits; Cables for electronic transmission; Electronic communication apparatus; Electronic calculators for scoring; Electronic audio effects apparatus; Electronic apparatus for surveying; Electronic apparatus for telemetry; Electronic bricks to produce light; Electronic bricks to produce sound; Electronic point of sale terminals; Electronic data processing devices; Electronic mail handling apparatus; Electronic key telephone apparatus; Electronic magnetic recording media; Electronic identification apparatus; Electronic data processing machines; Electronic system control apparatus; Electronic bulletin board apparatus; Electronic collars to train animals; Electronic damper control apparatus; Electronic cruise control apparatus; Apparatus for electronic publishing; Casings for opto-electronic devices; Databases (electronic publications); Telephone message pads (electronic); Telephone number lists (electronic); Remote control devices (electronic); Surveillance apparatus (electronic); Target sights for guns (electronic); Microchips for electronic apparatus; Pocket-sized electronic calculators; Electronic timing control apparatus; Electronic time recording apparatus; Housings for electronic instruments; Radios with electronic data decoders; Motor control apparatus (electronic); Stock control apparatus (electronic); Score display apparatus (electronic); Testing devices for electronic parts; Training guides in electronic format; Directories (electric or electronic); Cards incorporating electronic chips; Apparatus for connecting electronics; Electronic colour analysis apparatus; Electronic communication instruments; Electronic text processing apparatus; Electronic mixers for mixing signals; Electronic design analysis apparatus; Electronic data processing equipment; Electronic data processing apparatus; Electronic data collection apparatus; Electronic drives for magnetic tapes; Electronic echo cancelling apparatus; Electronic image recording apparatus; Electronic in-vehicle parking meters; Electronic interconnection equipment; Electronic identification instruments; Electronic image processing apparatus; Electronic global positioning systems; Electronic distance measuring devices; Electronic data interchange apparatus; Electronic memory units for computers;

Electronic message handling apparatus; Electronic publications, downloadable; Electronic bricks to produce movement; Cases adapted for electronic circuits; Digital electronic controls for tools; Downloadable electronic game programs; Training manuals in electronic format; Silicon chips (electronic components); Electronically encoded magnetic cards; Electronic timing control instruments; Housings for electronic sub-assemblies; Plug-in electronic cards for computers; Motor control instruments (electronic); Power packs for electronic flashlights; Process control apparatus (electronic); Traffic control apparatus (electronic); Target location apparatus (electronic); Telephone index notebooks (electronic); Electric or electronic display screens; Electric or electronic control modules; Electric or electronic control screens; Cards incorporating electronic devices; Cases adapted for electronic equipment; Aiming apparatus (electronic guidance); Electronic apparatus for relaying data; Electronic cards for processing images; Electronic communication installations; Electronic control apparatus for lamps; Electronic control operating apparatus; Electronic remote printing controllers; Electronic seals for tamper indication; Electronic signal generating apparatus; Electronic signal processing apparatus; Electronic pens [visual display units]; Electronic musical recording apparatus; Electronic devices for data processing; Electronic digital switching apparatus; Electronic digital telephone exchanges; Electronic direction finding apparatus; Electronic facsimile mailing apparatus; Electronic image recording instruments; Electronic key telephone installations; Electronic magnetic recording materials; Electronic image processing instruments; Electronic equipment for mine detection; Electronic distance measuring apparatus; Electronic noise cancellation apparatus; Electronic control devices for turbines; Electronic control apparatus for valves; Electronic control apparatus for motors; Electronic control apparatus for robots; Electronic calculators for gas analysis; Electronic cards containing information; Electronic apparatus for remote control; Electronic article surveillance systems; Clamps for electronic noise suppression; Check controls (electric or electronic); Cases adapted for electronic components; Electric or electronic control stations; Electronic access control installations; Test equipment for electronic apparatus; Traffic guidance apparatus (electronic); Semiconductors being electronic devices; Plug-in electronic construction modules; Network protection devices (electronic); Interconnectors for electronic circuits; Electronic viewers for use with cameras; Extension leads for electronic apparatus; Process control instruments (electronic); Printed electronic circuits for machines; Programs for electronic image processing; Target sights for artillery (electronic); Telephone directories in electronic form; Traffic control instruments (electronic); Electronic apparatus for data processing; Electronic apparatus for detecting leaks; Domestic electronic monitoring apparatus; Electrical and electronic burglar alarms; Communications electronics for computers; Apparatus for electronic image reception; Electronic apparatus for printing images; Electronic apparatus for text processing; Electronic control apparatus for engines; Electronic signal transmission apparatus; Electronic devices for transmitting data; Electronic data communications apparatus; Electronic data processing installations; Electronic hardware for image processing; Electronic information storage materials; Electronic distance measuring instruments; Electronic starters for fluorescent lamps; Electronic television satellite apparatus; Electronic remote data transfer apparatus; Electronic programmable logic controllers; Electronic panels for displaying messages; Electronic control apparatus for lighting; Electronic control apparatus for machines; Electronic brake controllers for vehicles; Apparatus for testing electronic circuits; Computer documentation in electronic form; Circuit boards for electronic engineering; Computers and electronic processing units; Control panels for electronic supervision;

Terminal strips for electronic components; Printed electronic circuits for apparatus; Liquid crystal electronic display modules; Electronically encoded identity bracelets; Hermetically sealed boxes for electronics; Hard discs for electronic data processing; Encoded cards for opening electronic locks; Instruments for electronic data processing; Electronically encoded identity wristbands; Electronic weighing scales for kitchen use; Process controlling apparatus (electronic); Traffic control installations (electronic); Testing apparatus for electronic equipment; Target surveillance apparatus (electronic); Solid-state integrated electronic circuits; Electric or electronic display instruments; Electronic apparatus for manipulating data; Electronic alarms, other than for vehicles; Electronic animal identification apparatus; Closures being electronically programmable; Apparatus for use in electronic publishing; Cards bearing electronically recorded data; Electronic circuits for use with computers; Electronic components for electric guitars; Electronic printers for use with computers; Electronic memory integrated circuit chips; Electronic dynamometric clamping apparatus; Electronic financial transaction apparatus; Electronic instruments for recording images; Electronic manipulative image input devices; Electronic memories being computer programs; Electronic test apparatus for testing welds; Electronic control apparatus for gear pumps; Electronic control installations for cranes; Apparatus for testing electronic components; Approximation electronic discharge elements; Apparatus for electronic image transmission; Apparatus for electronic digital processing; Apparatus for electronic recording of sound; Ceramic components for electronic apparatus; Electronic apparatus for controlling access; Computer workstations for electronic design; Testing apparatus for electronic components; Traffic guidance installations (electronic); Random access memory (RAM) electronic discs; Printed electronic circuits for televisions; Electronic weighing scales for personal use; Secure terminals for electronic transactions; Digital electronic controls for manipulators; Data carriers for electronic data processing; Display apparatus (electrical or electronic); Electrical connectors for electronic modules; Electronic apparatus for manipulating images; Electronic apparatus for monitoring machines; Apparatus for testing electronic instruments; Electronic control installations for sensors; Electronic components for telecommunications; Electronic apparatus for reading information; Electronic materials being computer programs; Electronic machines for reading credit cards; Electronic instruments for digitising images; Electronic flash guns for use in photography; Electronic data communications installations; Electronic devices for information processing; Electronic flashlights for use in photography; Electronic flash bulbs for use in photography; Electronic flash cubes for use in photography; Electronic tags for security control purposes; Electronic calculators for estimating liquids; Apparatus for transmitting electronic signals; Electronic apparatus for information delivery; Electronic apparatus for information exchange; Door entry apparatus (electric or electronic); Digital electronic controls for machine tools; Solid-state electronic data storage materials; Storage materials for data in electronic form; Information carriers (electric or electronic); Recording apparatus for opto-electronic discs; Multilingual electronic hand-held translators; Optical electronic label reader installations; Magnetic tapes for visual electronic computers; Remote electric or electronic control stations; Terminals for the electronic transfer of funds; Test apparatus for testing electronic circuits; Data recorded electronically from the internet; Electric switches for electronic power control; Apparatus for monitoring electronic components; Apparatus for searching electronic information; Electronic baby monitoring (listening) devices; Electronic control apparatus for closing doors; Electronic control devices for rotary machines; Electronic tags for inventory control purposes; Electronic surveillance apparatus for articles; Electronic

security apparatus for use in homes; Electronic point of sale transaction terminals; Electronic digital building automation systems; Electronic displays incorporating moving lights; Electronic mechanisms for coin operated lockers; Electronic control installations for electrodes; Electronic controlled access security apparatus; Apparatus for monitoring electronic instruments; Apparatus for electronic information processing; Apparatus for use in electronic countermeasures; Circulators (electric or electronic components); Electronic and recorded multimedia publications; Motor control protection apparatus (electronic); Personal protection devices (electronic alarms); Galena crystal detectors for use in electronics; Electronic timers for lubricating installations; Electronic units for transmitting audio signals; Random access memory (RAM) electronic cartridges; Multilingual electronic pocket sized translators; Ribbon cable for connecting electronic apparatus; Electronic apparatus for jamming weapons systems; Electronic apparatus for controlling toll points; Digital cassettes for electronic data processing; Electric power supplies for electronic apparatus; Cabinets adapted to contain electronic apparatus; Electronic data apparatus for use with computers; Electronic control apparatus for vehicle engines; Electronic control apparatus for sewing machines; Electronic control apparatus for electric motors; Electronic components for security installations; Electronic automatic ticket examination machines; Electronic measuring devices for telephone lines; Electronic memories comprising computer programs; Electronic security apparatus for use in offices; Electronic sensors for measuring solar radiation; Electronic digitizers for video picture analysis; Electronic instruments for recording information; Electronic instruments for the receiving of data; Electronic guidance controls for sensing purposes; Electronic flash apparatus for use in photography; Electronic filing apparatus for use in the office; Electronic screening apparatus for screening mail; Electronic apparatus for the transmission of data; Electronic apparatus for transmitting information; Electronic ballasts for operating discharge lamps; Electronic circuits for data processing apparatus; Electronic components in the nature of microchips; Electronic control apparatus for military weapons; Electronic control installations for fuel burners; Computer hardware publications in electronic form; Computer programs for electronic image processing; Testing apparatus for checking electronic devices; Tele-radio controls for electronic burglar alarms; Peripheral control cards for electronic apparatus; Identification apparatus (electric or electronic); Illuminated electronic moving information displays; Electronic vehicle guidance systems for warehouses; Vibration dampeners for electronic audio equipment; Computer programs for electronic design automation; Circulators in the nature of electronic components; Cabinets adapted to contain electronic instruments; Alignment equipment for electronic audio apparatus; Electronic components for identification apparatus; Electronic cards containing commercial information; Electronic publications recorded on computer media; Electronic telephone data communications apparatus; Electronic memories for the input of computer data; Electronic memories comprising computer programmes; Electronic memories for the output of computer data; Electronic memories incorporating computer programs; Electronic guidance controls for detecting purposes; Electronic apparatus for the control of car parking; Electronic control apparatus for automatic machines; Electronic controllers for use with a swimming tank; Ceramic products for use in electronic applications; Domestic control apparatus (electric or electronic); Pulse generators for electronic revolution counters; Electronic thermometers, other than for medical use; Installations for the electronic processing of data; Magnetic discs for the electronic recording of data; Printed publications in electronically readable form; Information storage devices (electric or electronic); Speed variators (electronic) being parts of machines; Disc drives for electronic

data processing apparatus; Electronic apparatus for interfacing video apparatus; Electronic controllers for factory moulding machines; Electronic control apparatus for computer programmes; Electronic control apparatus for industrial machines; Electronic components for use with cathode ray tubes; Electronic apparatus for testing communication links; Electronic cameras for recording images magnetically; Electronic memories for the storage of computer data; Electronic memories for the control of computer data; Electronic measuring devices for telephone exchanges; Electronic printing apparatus for use with computers; Electronic security devices, other than for vehicles; Electronic print out apparatus for use with computers; Electronic networking apparatus for telephone systems; Electronic apparatus for sensing electrostatic fields; Electronic anti-theft bollards to prevent shoplifting; Electronic analysers, other than for medical purposes; Active electronic labels containing coded information; Software for ensuring the security of electronic mail; Flat screens for electronic data processing apparatus; Remote access online electronic information apparatus; Multilingual electronic hand-held currency converters; Personal computer work stations (electronic apparatus); Network terminating apparatus (electric or electronic); Information storage apparatus (electric or electronic); Instruments for use in reception of electronic signals; Substrates for carrying information in electronic form; Apparatus for programming electronic control apparatus; Electronic apparatus for providing communication links; Electronic control apparatus for agricultural machines; Electronic controls for automatically operating valves; Electronic data carriers in the form of identity cards; Electronic control apparatus for use with vacuum pumps; Electronic security equipment, other than for vehicles; Electronic security installations for use in buildings; Electronic security apparatus, other than for vehicles; Electronic instruments for testing electronic circuits; Electronic interpolation apparatus for electric motors; Electronic flashlight apparatus for use in photography; Electronic data input apparatus for use with computers; Electronic data output apparatus for use with computers; Electronic memory units for bearing computer programmes; Electronic control apparatus for sanitary installations; Electronic apparatus for the measurement of toxic gases; Apparatus for placing capacitors in electronic circuits; Electronic apparatus for counter-jamming weapon systems; Electronic apparatus for developing communication links; Transmitters for the transmission of electronic signals; Industrial process controllers (electric or electronic); Information carrying materials (electric or electronic); Liquid level control apparatus (electric or electronic); Programmable electronic apparatus for use with machines; Reading devices for cards incorporating electronic chips; Multilingual electronic pocket sized currency converters; Information storage instruments (electric or electronic); Electronic apparatus for home use with display apparatus; Electric and electronic video surveillance installations; Electronic inverters being car door self-locking devices; Electronic interlocking modules for railway signal cabins; Electronic equipment for testing environmental conditions; Electronic measuring apparatus for monitoring toxic gases; Electronic module calibrators, other than for medical use; Electronic apparatus for linking televisions to computers; Automatic electronic autoclaves for experimental purposes; Electronic checkout apparatus for use with cash registers; Memory cartridges for hand-held electronic game apparatus; Program carriers for electronic data processing apparatus; Stroboscopic electronic flash guns for use in photography; Speed controllers (electronic) for dual carburettor motors; Precision sensors being parts electronic control apparatus; Installations (electric or electronic) for use in security; Electronic visual display apparatus for use with computers; Electronic components for the storage of computer programs; Electronic apparatus for neutralising electrostatic fields; Electronic measuring apparatus for determining toxic

gases; Electronic search apparatus for locating avalanche victims; Electronic test apparatus for testing bonds between metals; Electronic instruments for monitoring systems in buildings; Electronic instruments for controlling systems in buildings; Electronic equipment for measuring environmental conditions; Electronic devices for indicating the interaction of fields; Electronic temperature monitors, other than for medical use; Electronic safety installations for use in nuclear reactors; Electronic measuring apparatus for use in ophthalmic optics; Electronic monitoring apparatus, other than for medical use; Electronic apparatus for measuring environmental conditions; Computer programs used for electronic cash register systems; Consoles adapted for mounting units of electronic equipment; Electronic chips for the manufacture of integrated circuits; Electronic weighing machines incorporating digital displays; Electronic ultrasonic defection apparatus for motor vehicles; Terminals for electronically processing credit card payments; Electronic controls for machines for use in cutting minerals; Apparatus for environmental testing of electronic components; Electronic apparatus for home use with audiovisual playbacks; Electronic pilot apparatus for the remote control of vessels; Electronic temperature recorders, other than for medical use; Electronic display apparatus for use with exercise equipment; Electronic devices for use in the self-locking of car windows; Electronic identification cards for use in reserving services; Electronic identification cards for use in obtaining services; Electronic pilot apparatus for the remote control of vehicles; Electronic monitoring instruments, other than for medical use; Electronic apparatus for identifying personnel prior to entry; Consoles for the desktop installation of electronic apparatus; Electronic controls for machines for use in crushing minerals; Electronic connectors for use in the printed circuit industry; Electronic cameras for recording images on magnetic materials; Electronic apparatus for the regulation of packaging machines; Speed governors (electronic) for machines, engines and motors; Labels carrying electronically recorded or encoded information; Portable electronic apparatus for the analysis of machine data; Consoles housing electronic apparatus for programming purposes; Electronic apparatus for controlling the operation of machines; Electronic theft prevention apparatus, other than for vehicles; Electronic signal processing apparatus for musical instruments; Electronic identification cards for use in paying for services; Electronic scoring instruments for recording the score in games; Control units for use in electronic key telephone installations; Electronic control apparatus for use in transmitting facsimiles; Shaped flexible covers for the controls of electronic apparatus; Typeface data recorded on electronically readable data carriers; Portable electronic apparatus for the collection of machine data; Optical electronic label reader installations for industrial use; Installations (electric or electronic) for use in access control; Indicator lamps showing programming of electronic switching gear; Electronic data carriers with computer programs (machine script); Electrically powered apparatus for testing electronic assemblies; Clips for making electrical connections to electronic components; Electronic frequency converters for high velocity electro motors; Electronic instruments for testing electronic circuit components; Electronic instruments for the measurement of process parameters; Electronic keypad controlled mechanisms for coin operated lockers; Electronic devices for the transmission of data between computers; Electronic flash apparatus for use in photography exposure meters; Electronic navigational and positioning apparatus and instruments; Consoles housing electronic apparatus for visual display purposes; Headgear adapted to secure audio electronic apparatus to the head; Instruments (electric and electronic) for the control of machines; Terminals for the electronic payment of charges with credit cards; Scientific electronic apparatus (other than for medical diagnosis); Headgear adapted to secure visual electronic apparatus to the head;

Electronic apparatus for scrambling (encoding) voice transmissions; Electronic theft prevention installations, other than for vehicles; Electronic publications including those sold and distributed online; Electronic files for the storage and retrieval of data on microfilm; Electronic instruments for the measurement of electrical parameters; Electronic ballasts for electronically activated ignition apparatus; Electronic carbon dioxide monitors, other than for medical purposes; Electronic control apparatus for use in storing document facsimiles; Weekly publications downloaded in electronic form from the internet; Electronic carbon dioxide monitors (other than for medical purposes); Electronic audio signal processors for compensating sound distortion; Computer based development apparatus for testing electronic circuits; Electronic copying machines (photographic, electrostatic or thermic); Electronic measuring apparatus for monitoring conditions inside ovens; Apparatus for performing diagnostic analysis of electronic components; Electronic carbon dioxide recorders (other than for medical purposes); Electronic copying apparatus (photographic, electrostatic or thermic); Encoded cards for use in relation to the electronic transfer of funds; Photosensitive (exposed) plastics for use in the electronics industry; Computer based apparatus for the implementation of electronic circuits; Electrically powered apparatus for the repair of electronic assemblies; Domestic security installations for buildings (electric or electronic); Computer programs in machine readable form recorded on electronic media; Electronic devices for the transmission of data between microprocessors; Electronic files for the storage and retrieval of data on optical discs; Electronic instruments for monitoring systems associated with buildings; Electronic instruments for controlling systems associated with buildings; Electronic industrial network apparatus for high speed data transmission; Electronic reproducing machines (photographic, electrostatic or thermic); Computer based apparatus for designing the layout of electronic circuits; Electronic blood oxygen saturation monitors (other than for medical use); Electronic blood oxygen saturation recorders (other than for medical use); Electronic devices for the adjustment of the headlights of motor vehicles; Electronic data processing apparatus for the storage of computer programs; Memories and memory extensions for use with electronic games of all kinds; Industrial control apparatus (electronic) for machines, engines or motors; Fibre optics communications apparatus for use with electronic instruments; Remote control devices for industrial operations (electric or electronic); Toner cartridges (unfilled) for electronically operated printing apparatus; Electronic digital controllers for controlling digital flow control valves; Electronic protective fences in the nature of activated invisible barriers; Electronic mixers for mixing signals in the production of audio recordings; Computer based development apparatus for the design of electronic circuits; Electrically powered apparatus for fault diagnosis in electronic assemblies; Electronic testing instruments for testing electrical systems in motor cars; Electronic instruments for receiving facsimile messages in a digital format; Fibre optics communications installations for use with electronic apparatus; Recorded software and programmes for use with electronic games of all kinds; Electronic instruments for transmitting facsimile messages in digital format; Electronic chips (semi-conductors) for the manufacture of integrated circuits; Electronic message switching apparatus for use in communications installations; Programs for the electronic arrangement of graphics in reproduction technology; Interface units for linking electronic store price scanners with system controls; Electronic and magnetic ID cards for use in connection with payment for services; Electrical print out apparatus for use with electronic data processing apparatus; Electrical print out apparatus for use with electronic text processing apparatus; Integrated circuit memory cards for use in playing electronic musical instruments; Program carrying magnetic discs for use with electronic data

processing apparatus; Software for the operational management of portable magnetic and electronic cards; Precision fuel oil delivery control apparatus (electronic) for use on road tankers; Printing fonts that can be downloaded provided by means of electronic transmission; Game programmes (programs) and software for use with electronic games of all kinds; Electronic control units for determining the quantity of fuel injected into motors; Electronic data processing machines for use in photographic finishing laboratories; Electronic control units for determining the quantity of fuel injected into engines; Cards carrying magnetically, optically or electronically recorded or encoded information; Tags carrying magnetically, optically, or electronically recorded or encoded information; Electronic digital automation installations for measuring building services installations; Electronic apparatus for controlling lifting mechanisms for working implements on vehicles; Labels carrying magnetically, optically, or electronically recorded or encoded information; Physical representations of graphic images stored electronically for electronic enhancement; Electronic devices used to locate lost articles employing the global positioning system or cellular communication networks; Kits comprising recorded materials in the form of discs, software, tapes and other recordings and manuals in electronic format, sold together as a unit; Televisions; Ear phones; Door phones; Cell phones; Phone plugs; Entry phones; Video phones; Mobile phones; Digital phones; Internet phones; Cellular phones; Cell phone cases; Phone appliances; Mobile phone sets; Cell phone straps; Mobile phone cases; Mobile phone covers; Mobile phone straps; Phone extension jacks; Phone extension leads; Entry phone apparatus; Cases for mobile phones; Straps for mobile phones; Hands free kits for phones; Keyboards for mobile phones; Flip covers for smart phones; Cases adapted for mobile phones; Leather cases for mobile phones; Stands adapted for mobile phones; Mobile phones for use in vehicles; Holders adapted for mobile phones; Carriers adapted for mobile phones; Phone covers (specifically adapted); Hands free devices for mobile-phones; Downloadable graphics for mobile phones; Downloadable ring tones for mobile phones; Dustproof plugs for jacks of mobile phones; Devices for hands-free use of mobile phones; Computer game software for use on mobile and cellular phones; Car televisions; Television sets; Television films; Television outlets; Television screens; Television aerials; Television cameras; Television decoder; Plasma televisions; Digital televisions; Television antennas; Television monitors; Television receivers; Television recorders; Television apparatus; Stands for televisions; Television instruments; Aerials for television; Television transmitters; Television camera tubes; Apparatus for television; Closed circuit television; Television receiving sets; Television receiving dishes; Television display monitors; Cable television converters; Filters for television sets; High definition televisions; Television display apparatus; Television transmitting sets; Television signal amplifiers; Cable television transmitters; Cable television installations; Recordings of television films; Television receiving apparatus; Television receivers [TV sets]; Television modulation diplexers; Television monitoring apparatus; Television standards converters; Television aerials for vehicles; Projection television apparatus; Microscope television apparatus; HD (High Definition) televisions; Printed circuits for televisions; Televisions combined with radios; Ultra high definition televisions; Channel selectors for televisions; Closed circuit television cameras; Television transmitting apparatus; Recorded programmes for television; Recordings of television programmes; Radioelectrical television antennae; Closed circuit television apparatus; Television monitors for medical use; Television cameras for surveillance; Television apparatus for video discs; Television apparatus for video tapes; Television receivers for medical use; Television frame store synchronizers; Mobile television broadcasting units; Closed circuit

television instruments; Cable television head end transcoders; Apparatus for television transmission; Television monitors for household use; Television monitors for industrial use; Television receivers for household use; Satellite television signal scramblers; Plasma display panel (PDP) televisions; Video apparatus for television studios; Motion picture films for television use; Mounting devices for television cameras; Extension leads for televisions aerials; Television receivers for industrial use; Television films prepared for video use; Television films prepared for exhibition; Television signal transmission apparatus; Satellite television receiving apparatus; Satellite television signal descramblers; Liquid crystal display (LCD) televisions; Receivers for receiving cable television; Antennas for receiving television signals; Television cameras for undersea surveying; Televisions incorporating video recorders; Terminals (connectors) for television sets; Television cameras for undersea inspection; Television monitors for use with computers; Cable television apparatus and instruments; Housings for use with television apparatus; Television display monitors for medical use; Television receivers for use with computers; Repeaters for radio and television stations; Television display apparatus for medical use; Coin-operated mechanisms for television sets; Closed circuit television security apparatus; Television display monitors for household use; Television cameras for use in weapons systems; Silicon target vidicon for television cameras; Television cameras for the inspection of pipes; Television display monitors for industrial use; Television display apparatus for household use; Television receiving apparatus for medical use; Closed circuit television monitoring apparatus; Cases adapted for television display apparatus; Electrical apparatus incorporating televisions; Wall mountings adapted for television monitors; Wall mountings adapted for television apparatus; Television display apparatus for industrial use; Television cameras for the inspection of drains; Televisions incorporating high definition tuners; Wall mountings adapted for television instruments; Television receiving apparatus for industrial use; DMB (Digital Multimedia Broadcasting) televisions; Remote control apparatus for use with televisions; Cable television subscriber receiver descramblers; Closed circuit television monitoring installations; Program memory cartridges for television game sets; Television display monitors for use with computers; Television cameras for the inspection of buildings; Television cameras for the inspection of structures; Television display apparatus for use with computers; Portable cameras for use in television broadcasting; Apparatus for recording television signals on discs; Sound adapters being parts of television instruments; Television transmitting apparatus for industrial use; Satellite television integrated receiver descramblers; Apparatus for inserting text into television pictures; Electrical components for use with television aerials; Hard drive recorders for use with television receivers; Video cameras for use in integrated television editing; Video cameras for use in television transmission suites; Electrical components for use with television apparatus; Education apparatus connectable to television receivers; Digital video apparatus for professional television use; Coaxial cables for use in cable television installations; Anti-glare filters for televisions and computer monitors; Coding installations for subscription television channels; Microwave antenna for the reception of television signals; Music centres incorporating radio and television receivers; Apparatus for transmitting television signals via satellite; Cordless telephones combined with television remote controls; Closed circuit television surveillance cameras to detect fire; Satellite television transmission uplink scrambling apparatus; Television apparatus incorporating sound reproducing apparatus; Apparatus for transmitting film images onto television screens; Cables for transmitting and receiving cable television signals; Controlled access security apparatus (closed circuit television);

Synthesizers for colouring monochrome television picture sources; Transmitting and receiving apparatus for television broadcasting; Transmitters for use in the transmission of television programmes; Cable converters for television being telecommunications apparatus; Converters being telecommunications apparatus for television signals; Portable cameras for making video programmes for television broadcasting; Televisions incorporating clocks with light emitting diode digital displays; Batteries; Battery jars; Battery leads; Battery packs; Battery cases; Battery boxes; Car batteries; Dry batteries; Battery cables; Anode batteries; Battery collars; Battery holders; Battery testers; Solar batteries; Battery starters; Battery chargers; Battery adaptors; Battery terminals; Vehicle batteries; Dry-cell batteries; Electric batteries; Galvanic batteries; Ignition batteries; Battery separators; Batteries, electric; Grids for batteries; Electrical batteries; Stationary batteries; Plates for batteries; Lithium ion batteries; Battery jump starters; Battery housing covers; Battery starter cables; Battery charge devices; Batteries for lighting; Battery booster cables; High tension batteries; Chargers for batteries; Rechargeable batteries; Power units (batteries); Power packs (batteries); Battery charge monitors; Battery powered beacons; Accumulators [batteries]; Containers for batteries; Electric battery chargers; Electrochemical batteries; Battery testing apparatus; Acidimeters for batteries; Batteries for pocketlamps; Battery charge indicators; Power sources (batteries); Mobile telephone batteries; Rechargeable dry batteries; Electric storage batteries; Lithium secondary batteries; Battery tie down connectors; Cases adapted for batteries; Batteries for land vehicles; Electrical storage batteries; Storage batteries (electric); Automotive electric batteries; Electrical batteries for cars; Storage batteries for lighting; Starter batteries for vehicles; Power supply units (batteries); Chargers for electric batteries; Batteries for electric vehicles; Battery ground strap connectors; Nickel-cadmium storage batteries; Power supply devices (batteries); Solar batteries for domestic use; Switches for detaching batteries; Batteries for use in hearing aids; Batteries, electric, for vehicles; Solar batteries for industrial use; Power supply apparatus (batteries); Separators being parts of batteries; Electric batteries for land vehicles; Electric batteries for water vehicles; Battery charging apparatus for vehicles; Battery chargers for use with telephones; Electric apparatus for charging batteries; Rechargeable cellular telephone batteries; Power supply devices for battery chargers; Electric batteries for use in air vehicles; Battery charging devices for motor vehicles; Portable power supply apparatus (batteries); Apparatus for charging accumulator batteries; Consumer type nickel cadmium battery chargers; Battery testing apparatus for sale in kit form; Electric storage batteries for use with motors; Electric storage batteries for use with engines; Uninterruptible power supply apparatus (battery); Electric batteries for powering electric vehicles; Consumer type rechargeable nickel cadmium batteries; Electric storage batteries for land vehicle engines; Rechargeable batteries for use with power hand tools; Charging systems for battery operated domestic kitchen appliances; Electrical apparatus for nautical use for detecting battery voltage.
