PRACTICE DIRECTION NO. 2 OF 2005
REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Class 01

Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry.

Class 05

Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic substances adapted for medical use, food for babies; plasters, materials for dressings; material for stopping teeth, dental wax; disinfectants; preparations for destroying vermin; fungicides, herbicides.

Class 07

Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; semiconductor manufacturing machines and systems; machines for the manufacture of semiconductor components; liquid crystal manufacturing machines and systems; machines for the manufacture of liquid crystal display panels ; electric polishing machines and apparatus for wafer; parts and accessories for semiconductor manufacturing machines and systems; parts and accessories for liquid crystal manufacturing machines and systems; parts and accessories for machines for the manufacture of semiconductor components; parts and accessories for machines for the manufacture of liquid crystal display panels ; parts and accessories for electric polishing machines and apparatus for wafer.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording

discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; photographic equipment and parts and accessories therefor; cameras and parts and accessories therefor; digital cameras and parts and accessories therefor; camera lenses; batteries and battery chargers for cameras and digital cameras; remote controls for cameras and digital cameras; cases adapted for cameras and digital cameras; straps for cameras and digital cameras; binoculars; telescopes; range finders; computer software for editing and managing of photographs and movies; electronic publications; non-contact measuring machines and instruments; computer software; liquid crystal projector; cameras with liquid crystal projector; digital cameras with liquid crystal projector; microscopes; electron microscopes; biological microscopes; X-ray electron microscopes; rifle scope; telescopic sights; monoculars; spectacles; eyeglasses; glasses; eyewear; ophthalmic lenses; optical lenses; lenses for spectacles; lenses for eyeglasses; lenses for glasses; lenses for eyewear; eyeglass frames; solid state memory card; flash memory card; cell culture and observation system for laboratory use; magnifying glasses; crossbow scope; digital photo frame; telescope for firearm; sighting telescopes for firearms; semiconductor manufacturing apparatus; semiconductor testing apparatus; liquid crystal testing apparatus; parts and accessories for semiconductor manufacturing apparatus; parts and accessories for semiconductor testing apparatus; parts and accessories for liquid crystal testing apparatus; cases especially made for photographic apparatus and instruments; filters for ultraviolet rays for cameras and digital cameras; filters for cameras and digital cameras; flash-bulbs for cameras and digital cameras; flashlights for cameras and digital cameras; shutter releases for cameras and digital cameras; shutters for cameras and digital cameras; slides [photography]; spools for cameras and digital cameras; stands for photographic apparatus; transparencies [photography]; viewfinders for cameras and digital cameras; tripods for cameras and digital cameras; epidiascopes; mobile phones; cellular phones; Smartphones; handheld communications interface devices; scanners [data processing equipment]; CCD (charge-coupled device) cameras; SD memory cards; Flash memory cards; USB hubs; flash card readers; video game software.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; diagnostic apparatus for medical purposes; hearing aids for the deaf; artificial eyes; lenses [intraocular prostheses] for surgical implantation; ophthalmoscopes; gastroscopes; arterial blood pressure measuring apparatus; hearing protectors; medical apparatus and instruments; testing apparatus for medical purposes; Roentgen apparatus for medical purposes; Roentgen rays (protection devices against -), for medical purposes.

Class 11

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; electric coffee makers; humidifier; LED flashlights; electric toasters.

Class 14

Precious metals and their alloys and goods in precious metals or

coated therewith, not included in other classes; jewellery, precious stones; horological and chronometric instruments; pin badge for wear [trinkets or jewellery]; key rings of precious metals.

Class 16

Paper, cardboard and goods made from these materials, not included in other classes; printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; photograph stands; calendars; albums; magazines [periodicals]; books; newspapers; stickers [stationery]; trading cards (printed matter); decoration sticker for cameras.

Class 18

Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins, hides; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery; drawstring bags [shopping bags]; drawstring bags [handbags] drawstring bags (leather or imitations of leather); quilting pouches (bags); quilting pouches (leather or imitations of leather); card cases [notecases]; business card cases; key cases; shopping bags; backpacks; rucksacks; handbags; leather cloth.

Class 21

Household or kitchen utensils and containers; combs and sponges; brushes (except paint brushes); brush-making materials; articles for cleaning purposes; steelwool; unworked or semi-worked glass (except glass used in building); glassware, porcelain and earthenware not included in other classes; tumblers; mugs; drinking flasks; water bottle; vacuum bottles; drinking glasses; drinking vessels; lunch boxes.

Class 24

Textiles and textile goods, not included in other classes; bed and table covers; vinyl coated cloth; labels of cloth; towels of textile; handkerchiefs of textile.

Class 25

Clothing, footwear, headgear; vests; waistcoats; jackets [clothing]; raincoats; caps; hats; headgear for wear; wristbands; sports overuniforms; aprons [clothing]; T-shirts.

Class 28

Games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; toys; playing cards; golf implements; archery implements.

Class 30

Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flour and preparations made from cereals, bread, pastry and confectionery, ices; honey, treacle; yeast, baking-powder; salt, mustard; vinegar, sauces (condiments); spices; ice.

Class 37

Building construction; repair; installation services; semiconductor

manufacturing machines and systems installation; liquid crystal manufacturing machines and systems installation; repair or maintenance of liquid crystal manufacturing machines and system; repair or maintenance of semiconductor manufacturing machines and systems; repair or maintenance of photographic equipment; repair or maintenance of cameras; repair or maintenance of digital cameras; repair or maintenance of camera lenses; repair or maintenance of optical apparatus and instruments; repair or maintenance of microscopes; repair or maintenance of binoculars; repair or maintenance of telescopes; repair or maintenance of range finders; semiconductor testing apparatus installation; liquid crystal testing apparatus installation; repair or maintenance of semiconductor testing apparatus; repair or maintenance of liquid crystal testing apparatus; repair of spectacles; repair or maintenance of measuring or testing machines and instruments; repair or maintenance of telecommunication devices and apparatus; repair or maintenance of electronic machines and apparatus; repair or maintenance of hearing aids; repair or maintenance of medical apparatus and instruments.

Class 41

Education; providing of training; entertainment; sporting and cultural activities; photography and providing information on photography; arranging, conducting and organization of seminars for photograph and providing information on photograph; arranging, conducting and organization of photography classes and providing information on photography classes; arranging, conducting and organization of photography events and providing information on photography events; arranging, conducting and organization of photography contests and providing information on photography contests; rental of cameras and parts and accessories therefor; arranging, conducting and organization of photo exhibitions and providing information on photo exhibitions; providing photo exhibition facilities (presentation, exhibitions) and providing information thereon; digital imaging services; providing on-line digital imaging services; photography; educational and instruction services relating to photography; educational and instruction services relating to maintenance, repair and operation of photographic equipment and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of measuring or testing machines and instruments and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of optical machines and instruments and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of semiconductor manufacturing machines and systems (including semiconductor testing apparatus and other peripheral equipments) and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of liquid crystal manufacturing machines and systems (including liquid crystal testing apparatus and other peripheral equipments) and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of telecommunication devices and apparatus and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of electronic machines and apparatus and their parts and fittings; educational and instruction services relating to maintenance, repair and operation of eyeglasses (spectacles) manufacturing machines and apparatus and their parts and fittings; providing on-line electronic publications [not downloadable]; arranging, conducting and organization of seminars, providing information thereof; entertainment services, namely

provision of image files and video files [not downloadable] via the Internet; rental of optical machines and instruments; preparation of texts, editing and production of publications for entertainment purposes; preparation of texts, editing and production of publications in relation to photography.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; rental of web servers; rental of data storage area of servers on the internet [electronic data storage]; providing software for editing and managing of photographs and movies via Internet [not downloadable]; rental of web servers for Internet chat; rental of measuring or testing machines and instruments.

interfaces; computer mainframes; processing computers; computer controllers; computer disc drives; computer swivel bases; pre-recorded software; computing instruments; computer digital maps; translation computers; communication software; programmable computers; computer input devices; circuits for computers; computer program tapes; mainframes (computers); programs for computers; printers for computers; computer game software; computer control units; speakers for computers; plotters for computers; computer linking units; computer cards (smart); computer add-on boards; memories for computers; computer installations; computer program discs; housings for computers; joysticks for computers; computing installations; personal home computers; computer memory devices; apparatus for computing; terminals for computers; computer circuit boards; computer sub-assemblies; toy computers (working); data processing software; ring nodes for computers; computer design hardware; computer interface cards; computer cards (encoded); computer swivelling arms; interfaces for computers; linked computer networks; components for computers; computer driven printers; computer interface units; juke boxes for computers; computer imaging systems; computer control devices; computer input apparatus; telecommunications cable; printer spooler software; disk drives for computers; computer memory apparatus; computer cards (magnetic); computer display monitors; process control computers; computer games cartridges ; work stations (computers); underwater dive computers; computer software programs; interfaces (for computers); computer display apparatus; computer network apparatus; computer interface devices; computer input instruments; computer programming units; satellite imagery software; computer magnetic memories; computer software products; juke boxes (for computers); computer software packages; computer graphics software; add-on-cards for computers; telecommunications devices; interactive video software; computer storage apparatus; recorded computer programs; computer control apparatus; computer swivelling stands; recorded computer software; linking units for computers; program discs for computers; mouse [computer peripheral]; swivel stands for computers; computer graphics apparatus; disk drives (for computers); computer memory instruments; computer modelling language; computer data input devices; anti-static computer covers; upgrade cards for computers; fonts for computer printers; engineering design software; computer operating programs; telecommunications networks; disc drives (for computers); shaped covers for computers; thermal printers (computer); computer peripheral devices; cases adapted for computers; computer memory drive units; computer software, recorded; telecommunications machines; input devices for computers; computer software (recorded); computer interface apparatus; computer hard disc apparatus; monitors (computer hardware); computer controlled printers; monitors (computer programs); telecommunications apparatus; magnetic disks for computers; integrated software packages; reconditioned computer parts; power supplies for computers; data communications software; computer operated digitisers; computer controlled plotters; computer display instruments; computer instruction records; process controlling software; computer software (programs); telecommunications equipment; coin-operated computer units; video game computer programs; computer data input apparatus; table representation software; electrical computer apparatus; computer graphics instruments; computer monitoring apparatus; component parts for computers; navigation computers for cars; accounting computer

terminals; computer outputting apparatus; interface cards for computers; stands for computer equipment; support for computer terminal; electronic computer apparatus; input apparatus for computers; trackers (computer apparatus); interactive computer software; computer networking apparatus; aerials for telecommunications; computer programs for printers; computer aided design programs; computer communications modems; computer programs for scanners; computer network installations; encoded programs for computers; computer apparatus for drawing; magnetic supports for software; computer interfacing apparatus; telecommunications instruments; interface boards for computers; computer interface instruments; computer data in recorded form; screens for use with computers; computing visual display units; computer programs for printing; discs bearing computer programs; telecommunications switchboards; computer cards containing chips; computer monitoring instruments; magnetic platforms for software; control apparatus for computers; printers for use with computers; computer aided design apparatus; trackballs (computer apparatus); monitors for use with computers; computer data storage apparatus; programs for personal computers; memories for use with computers; recorded programs for computers; consoles for use with computers; on-board computers for vehicles; apparatus for linking computers; telecommunications multiplexers; transmitters (telecommunication); telecommunications installations; keyboards for use with computers; program cartridges for computers; storage racks for computer discs; computer programs for office use;; computer communication apparatus; add-in cards for micro computers; storage racks for computer disks; pre-recorded computer programmes; cleaning guns for computer disks; security apparatus for computers; disc (disk) drives for computers; plug-in components for computers; computer graphic input apparatus; joysticks for use with computers; computer memory storage apparatus; computer programs for video games; computer chess games (programmes); business programmes for computers; tape decks for use with computers; computer programs for calculators; computer programs for translating; local area computer installations; personal computer cards (punched); multiprocessor computer apparatus; programs for computers (recorded); voice actuated computer apparatus; computer installations (networks); personal computer cards (encoded); programmed video games (software); print out apparatus for computers; computer apparatus for addressing; computer networking installations; electronic memories for computers; digitizers for use with computers; computer programs for tape drives; computer programs stored on discs; computer based training apparatus; magnetic tape drives for computers; computer aided facsimile apparatus; work stations (computer apparatus); assembler programmes for computers; tape drives for use with computers; personal computer cards (magnetic); disc drives for use with computers; telecommunications alarm apparatus; computer bridge games (programmes); computer programs recorded on disc; remote control units for computers; machine readable computer programs; tracker balls (computer apparatus); computer programs relating to food; cabinets adapted to hold computers; wrist rests for use with computers; mats for use with a computer mouse; computer software for time control; computer graphics display stations; storage apparatus for computer data; computer programs recorded on cards; insulated telecommunications cables; transmitters for use with computers; filter screens for computer screens; computer programs for playing games; breadboards for computer programmes; voice

actuated computer instruments; computer data interchange apparatus; computer operated control apparatus; carriers adapted for computer discs; computer controlled sound apparatus; computer programs recorded on tapes; computer programs recorded on drums; computer output microfilm recorders; apparatus for computer aided design; computer image projection apparatus; mobile telecommunications apparatus; computer operating systems programs; computer data recording instruments; magnetic tape units (for computers); cleaning guns for computer keyboards; punched tapes for use with computers; computer programs for computer games; computer programs for sales purposes; programs for use with computer games; telecommunications switching systems; storage racks for computer diskettes; computer games programmes (software); computer aided teleprinter apparatus; storage discs for use with computers; computer programs for use in farming; printed circuit boards for computers; cleaning discs for computer software; computer interfaces for clinical use; digital telecommunications apparatus; computer apparatus for personalising; network management computer software; encoded tapes for use with computers; data storage apparatus for computers; cartridges for video games (software); computer programs for processing data; computer assisted language programmes; programs for computer generated music; computer graphics operating apparatus; electronic memory units for computers; circuit boards for use with computers; computer aided design (cad) apparatus; magnetic cards for use with computers; computer operating programs, recorded; computer controlled sound instruments; computer games entertainment software; games software for use with computers; program cartridges for computer games; cellular telecommunications apparatus; machine tools controlled by computers; computer programs for laser machining; computer programs for data processing; instructional apparatus for computing; laser printers for use with computers; transmitting sets (telecommunication); portable telecommunications apparatus; electric leads for use with computers; industrial computer software programs; computer programs for text processing; computer apparatus for remote billing; computer controlled drafting machines; recorded material for use by computers; computer apparatus for processing data; magnetic cards being computer software; computer graphics plotting instruments; computer programs for use in insurance; computer programs for use by air lines; computer controlled desk top recording; computer apparatus for process control; telecommunications circuit board units; peripheral control cards for computers; telecommunications switching apparatus; plug-in electronic cards for computers; computer apparatus for educational use; digital telecommunications instruments; computer backgammon games (programmes); security devices for computer hardware; data collection computer installations; computer programs recorded on carriers; computer programs for image processing; publications in computer readable form; input apparatus for use with computers; security devices for computer software; computer programs for medical purposes; computer data recorded on optical discs; computer programs for planning seminars; pointing devices for use with computers; video games on tape (computer software); magnetically recorded computer programs; computer programs for measuring colours; computer programs for comparing colours; computer programs recorded on filaments; computer programs for managing seminars; computer terminals for banking purposes; cleaning discs for computer disk drives; storage apparatus for computer programs; computer programs for detecting colours; cellular telecommunications

instruments; personal computer enhancement circuitry; video games on disc (computer software); computer apparatus for medical purposes; computer software for business purposes; telecommunications security instruments; cards bearing data for use in computers; ink jet printers for use with computers; peripheral sharing devices for computers; computer programmes (programs), recorded; computer apparatus for transmitting data; programmable telecommunication apparatus; fibre optic telecommunications apparatus; computer programs for orchestral staging; computer programs for studying languages; computer software for accounting systems; magnetic cards bearing computer programs; computer network operating installations; apparatus for computer aided manufacture; display apparatus for use with computers; computer controls for lighting apparatus; video games programs (computer software); cartridges for computer games (software); computer aided design analysis apparatus; display terminals for use with computers; printing machines for use with computers; communications electronics for computers; peripheral control devices for computers; video game programs for use in computers; computer programs for project management; printer apparatus for use with computers; electrically recorded data for computers; magnetically recorded data for computers; peripheral interface units for computers; computer programs stored in digital form; memory controllers for use with computers; interactive computers for use in training; programs for computer print out apparatus; printing apparatus for use with computers; computer programs for graphic elaborators; automatic printers for use with computers; data recorded in computer accessible form; computer programs for financial reporting; scanners for entering data into computers; data carriers bearing computer programmes; computer programs recorded on paper tapes; computer programs stored on data carriers; computer networks for the storage of data; programs for processing data on computers; keyboard apparatus for use with computers; computer programs (downloadable software); plug-in cards bearing computer programmes; computer documentation in electronic form; printout apparatus for use with computers; tapes encoded with computer readable data; computer programs for positioning of text; cards encoded to access computer software; computer programs for promotional purposes; optical fibre telecommunications apparatus; computers and electronic processing units; instruments adapted for use with computers; computer programs recorded on floppy discs; computer programs for planning exhibitions; computer programs for managing exhibitions; computer programs for financial management; computer programs in machine readable form; computer programs for planning conferences; controlling software for computer printers; magnetic recordings of computer programmes; computer programs for managing conferences; electronic printers for use with computers; magnetic computer tapes for recording data; video game programs for use with computers; non-impact printers for use with computers; electrical cables for connecting computers; television monitors for use with computers; computer measuring devices containing data; computer controls for lighting instruments; waveguides (telecommunications components); magnetic discs bearing computer programmes; computer apparatus for the storage of data; computer terminals for accounting purposes; mouse mats for use with computer apparatus; data carriers containing computer programs; computer apparatus for the control of data; print out apparatus for use with computers; electronic circuits for use with computers; industrial controls incorporating software; data being optically recorded for computers;

communications processing computer software; data stored for access by computer programs; compact disc players for use with computers; television receivers for use with computers; computer aided automobile driving apparatus; computer programs used in molecular biology; computer workstations for electronic design; computer programs recorded on magnetic wire; computer apparatus for remote meter reading; telecommunications ground station apparatus; print trimmers (parts of computer printers); computer programs recorded on data carriers; computer programs for the creation of masks; computer programs for use by tour operators; computer programs for use in communications; electronic memories being computer programs; computer programs recorded on magnetic tape; interface apparatus for computing apparatus; data input apparatus for use with computers; motor vehicle diagnostic computer apparatus; data interconnecting computer installations; network controllers being computer apparatus; computer programs for use by travel agencies; computing apparatus for handling information; electric apparatus for storing computer data; data processing software for word processing; computer software designed to estimate costs; computer programs recorded on magnetic media; computer apparatus for computer aided design; computer software applications, downloadable; electronic components for telecommunications; programming apparatus for use with computers; cartridges (software) for use with computers; apparatus for telecommunications engineering; materials bearing recorded computer programs; computer programs for processing information; electronic materials being computer programs; computer networks for the processing of data; computer aided manufacturing (cam) apparatus; wheel balancing apparatus utilising computers; computer software for the analysis of defects; data carriers incorporating computer programs; programs (computer -) [downloadable software]; computer programs for commercial transactions; transmitting apparatus for telecommunications; computer apparatus for computer aided testing; digital video adaptors for use with computers; computer programs relating to word processing; computer related data communication apparatus; computer interface units for translating data; instruction programmes for use with computers; apparatus for linking computers into networks; computer based control apparatus for machines; encoded programs for weapon systems computers; encoded data in the form of computer listings; telecommunications digital exchange apparatus; computer programs for the management of sales; instructional materials for computer programs; computer controlled fuel dispensing apparatus; computer software for analysing address files; apparatus for controlling computer programmes; plug-in cartridges bearing computer programmes; magnetic tapes for visual electronic computers; electrical data output apparatus for computers; computer installations for the storage of data; computer apparatus for computer aided drafting; connection graphics language computer programs; punched cards for use with computers (encoded); computer software downloaded from the internet; computer related voice communication apparatus; recording material bearing computer programmes; memory devices for use with computer apparatus; data being electrically recorded for computers; magnetic discs for storing computer programmes; computer programs stored on magnetic materials; circuit boards for use with computer keyboards; devices for use in the networking of computers; earth satellites for use in telecommunications; computer software for processing address files; computer programs for scientific data analysis; computer programs for the creation of networks; data being magnetically recorded for

computers; computer programs for use in molecular biology; magnetic tapes for storing computer programmes; semiconductor apparatus for use with computers; computer controlled automatic testing apparatus; strategic telecommunication apparatus for ships; units adapted for the storage of computer disks; visual display apparatus for use with computers; recorded computer programs in the form of tapes; computer controlled fuel dispensing instruments; data recording materials for use with computers; magnetic tape for recording computer programmes; computer programs for use in telecommunications; computer controlled workstations for data entry; recorded computer programs in the form of cards; computer programs relating to motorcycle racing; recorded computer programs in the form of disks; recorded computer programs in the form of wires; computer programs relating to computer networks; computer programs for use in fitting spectacles; magnetic tapes for memorising software programs; computer programs for designing control systems; computer networks for the communication of data; computer programs for testing computer hardware; computer programs relating to financial matters; electronic data apparatus for use with computers; computer programs for use in desk top publishing; magnetic tapes for recording computer programmes; magnetic cards for recording computer programmes; simulation software for use in digital computers; electronic memories comprising computer programs; computer programs for use in fluid flow analysis; data processing apparatus for use with computers; computer programs for use in database management; computer systems designed for project management; computer controlled apparatus for voting systems; semiconductor memories being computer programmes; printed circuit boards for mounting in computers; computer programs relating to housing management; computer discs containing business documentation; computer apparatus for recording telephone calls; magnetic discs for recording computer programmes; recording discs for use with computer programmes; boxes adapted for storing computer software disks; magnetic storage materials incorporating software; computer programs relating to local area networks; computer apparatus for computer aided engineering; computer installations for the processing of data; computer apparatus for use with computer networks; computer programs for management of manufacturing; computer apparatus for use in local area networks; plastic insulated cables (electric) for computers; graphic printers for use with computing apparatus; computer programs for producing computer graphics; computer programs in the field of design analysis; computer software for use in controlling machines; computer hardware publications in electronic form; pre-recorded data carriers for use with computers; storage file units for computer program recording; image processing apparatus for personal computers; keyboards for entering information into computers; computer programs for analysing computer hardware; training guides in the form of a computer program; computer programs for use by travel organisations; computer hardware for use with drilling apparatus; record carriers for computer programmes (optical); electric apparatus relating to telecommunications; computer programs for electronic image processing; paging interface apparatus for use with computers; record carriers for computer programmes (magnetic); electronic memories for the input of computer data; recorded computer programs for scientific research; microprocessor based computer compatible apparatus; strategic telecommunication apparatus for aircraft; personal computers for use with video game devices; computer programs for electronic design automation; computer

software for analysing market information; computer programs for use as reporting directories; magnetic tape drives for storing computer programs; computer programs for the petrochemical industries; installations for use in forming computer networks; terminals (connectors) for telecommunication lines; cards for use with computers (encoded or magnetic); computer hardware for use with drilling operations; input apparatus for transferring data to computers; computer programs for use with facsimile apparatus; television display monitors for use with computers; computer programs for use in computer-aided design; computer programs stored on magnetic data carriers; computer based control apparatus for machine tools; computer hardware for use with drilling instrument; training manuals in the form of a computer program; computer software programs for database management; personal computers incorporating computer software; computer programs for use as searching directories; magnetic cards for the storage of computer programs; paper feed apparatus for use with computer printers; communication devices for linking computer networks; paper handling devices (parts of computer printers); apparatus for data communications between computers; apparatus for inputting information into a computer; television display apparatus for use with computers; electronic memories for the output of computer data; telecommunications network management installations; computer apparatus for computer aided manufacturing; electronic memories incorporating computer programs; materials bearing computer programs in encoded form; apparatus for receiving information from a computer; computer programs relating to computer aided design; telecommunications apparatus for measuring purposes; computer workstations (apparatus and installations); computer based control apparatus for assembly lines; computer software for processing market information; computer programs recorded on magnetic data carriers; installations for use in the networking of computers; electronic control apparatus for computer programmes; apparatus for computer numerical control of machines; operating computer software for main frame computers; electrical control apparatus being computer operated; computer programs recorded on data storage materials; paper guiding apparatus (parts of computer printers); telecommunications apparatus for diagnostic purposes; electronic printing apparatus for use with computers; data processing software for graphic representations; input apparatus for transferring data from computers; computer games programs recorded on tapes (software); electronic memories for the control of computer data; credit card encoding machines [computer peripherals]; computer installations for the communication of data; computer programs for integrated circuit diagnostics; electronic memories for the storage of computer data; materials for carrying computer data in optical form; data storage devices for recording computer programs; industrial controls incorporating computer apparatus; audiovisual display apparatus for use with computers; computer controllers for operating sound instruments; credit card embossing machines [computer peripherals]; devices for linking terminals on a computer apparatus; broadband data interconnecting computer installations; technical literature in the form of computer programs; computer programs in the field of communication links; mobile work stations (computer, other than furniture); computer software programs for spreadsheet management; personal computer software applications, downloadable; telecommunications apparatus for interfacing purposes; electrical print out apparatus for use with computers; materials for carrying computer data in magnetic form; computer

programs in the field of molecular modelling; electronic print out apparatus for use with computers; apparatus for use in communications between computers; process control units using process control computers; computer controllers for operating lighting apparatus; cartridges for toner (unfilled) for use with computers; computer programs for the creation of elementary cells; computer programs for designing printed circuit boards; computer software for authorising access to data bases; computer programs recorded in computer accessible form; boxes adapted for transporting computer software disks; electronic data input apparatus for use with computers; electrical data input apparatus for use with computers; navigation apparatus for vehicles (on-board computers); memory apparatus for telecommunications network design; paper feeding apparatus for use with computer printers; magnetic carriers for the storage of computer programs; electrical instruments for telecommunications purposes; telecommunications apparatus for transmission purposes; personal computer work stations (electronic apparatus); electronic memory units for bearing computer programmes; computer installations for the control of machine tools; tape units for backing up computer data storage devices; memory cartridges on which computer programs are stored; strategic telecommunication apparatus for land vehicles; tape units for backing up computer data storage systems; recorded computer programs in the form of punched cards; apparatus controlled by computers for analysing samples; fibre optic connectors for telecommunications apparatus; computer programs for use in computer aided engineering; computer programs relating to the training of personnel; integrated circuit cards storing computer game programs; computer programs for use in defining machineable parts; electronic data output apparatus for use with computers; optical discs bearing machine readable computer program; magnetic recording materials bearing computer programmes; paper bearing computer programs in machine readable form; magnetic recording apparatus bearing computer programmes; computer apparatus for the management of telephone calls; paper strips bearing punched (encoded) computer programs; input apparatus for use with computers for handling data; computer controlled mechanisms for coin operated lockers; machine readable carriers for stored computer programmes; anti-glare filters for televisions and computer monitors; electric cables for use with telecommunication apparatus; machine readable materials for bearing computer programs; memory devices bearing programmes for use with computers; computer apparatus having speech generation capabilities; remote control apparatus connected by modems to computers; interactive entertainment software for use with computers; magnetic supports containing recorded computer programmes; computer programs for use with structured system analysis; installations for the remote loading of computer software; programs for setting up performance analysis in computers; programmed video games contained on cartridges (software); computer programs for use in computer-aided manufacturing; computer based electrophoresis image processing apparatus; computer controlled telecommunications exchange apparatus; computer programs for use in developing computer programs; semiconductor memory cartridges being computer programmes; machine readable material for bearing computer programmes; digital interactive video adaptors for use with computers; electronic apparatus for linking televisions to computers; telecommunications apparatus for use with digital signals; electronic visual display apparatus for use with computers; articles adapted for use in the

support of computer cables; memory apparatus for telecommunications network management; telecommunications apparatus for use with analogue signals; computer apparatus for the transmission of telephone calls; articles adapted for use in the ducting of computer cables; computer installations for the control of laundry machines; paper being magnetic discs for recording computer programs; solid-state electrical apparatus for storing computer data; tapes bearing computer programmes in machine readable form; electronic components for the storage of computer programs; electrically punched (encoded) tapes for use with computers; optical discs for bearing machine readable computer program; cartridges of magnetic tape for recording computer programs; electrically punched (encoded) cards for use with computers; electric devices for transmission of data between computers; computer programs for establishing pump operating schedules; installations for the remote unloading of computer software; computer programs relating to the creation of graphic images; computer operated controls for mechanical handling apparatus; computer terminals for use with debit cards at point of sale; computer software designed to estimate resource requirements; audiovisual display apparatus adapted for use with computers; cursor control devices for use with computer display systems; computer apparatus adapted for use with visual display units; data carriers for computers having software recorded thereon; computer controlled installations of video display apparatus; computer aided design instruments for laser machining systems; computer programs for dynamic simulation of oil well drilling; materials bearing data in encoded form for use with computers; computer programs for the rating of plate fin heat exchangers; recorded computer programs in the form of punched paper tapes; apparatus for collecting encoded data for supply to computers; circuit boards for use in the emulation of computer terminals; computer terminals for use with credit cards at point of sale; computer programs for the design of plate fin heat exchangers; computer programs for monitoring computer systems performance; apparatus for controlling the operation of machines (computer); acoustic receivers for telephonic communication with computers; computer software for communication between computer processes; materials bearing computer programs in magnetic (encoded) form; computer games programs downloaded via the internet (software); insert cards (printed circuit boards) being parts of computers; call barring devices for use with telecommunications apparatus; solid-state electrical apparatus for storing computer programs; computer installations incorporating a central processing unit; computer terminals for use with encoded cards at point of sale; high capacity broadband telecommunications switching apparatus; computer programs for automating molecular biological processes; computer software adapted for use in the operation of computers; data processing programmes for editing in computer aided design; computer terminals for use with magnetic cards at point of sale; computer programs recorded on diskettes for producing lettering; interface instruments for computer control of knitting machines; telecommunications apparatus for use in cellular radio networks; telecommunications apparatus for transferring data to computers; computer programs relating to the manipulation of graphic images; personal computers for use with coin operated video game devices; electronic data carriers with computer programs (machine script); paper cards bearing computer programmes in machine readable form; computer programs for the analysis of data processing procedures; computer programs for providing a graphical presentation of data; recording

materials for the storage of digital computer programs; computer programs for the analysis of data processing efficiency; computer controlled apparatus for testing printed circuit boards; computer programs for the control of telecommunication apparatus; fibre optics communications installations for use with computers; computer programs for the evaluation of thermal radiation levels; games software for use with an external display screen or monitor; data processing programmes for archiving in computer aided design; videotext computer terminals incorporating alphanumeric keyboards; telecommunications instruments for use in cellular radio networks; computer programs relating to the creation of photographic images; paper tapes and cards bearing punched (encoded) computer programs; computer programs for the analysis of data processing performance; computer programs in machine readable form recorded on paper tape; call charging apparatus for use with telecommunications apparatus; electronic devices for the transmission of data between computers; data terminals for the entry of data to a central computer system; computer apparatus for the measurement of brakes on motor vehicles; cable converters for television being telecommunications apparatus; computer programs for the control of telecommunication instruments; network software applications being downloadable computer programs; computer programs for the management of the manufacturing processes; computer software for communicating purposes between microcomputers; computer programs for simulating the trading in futures and options; computer controlled installations of liquid crystal display screens; computer hardware for use in computer-assisted software engineering; computer based apparatus for use in the enhancement of video signals; converters being telecommunications apparatus for television signals; computer based development apparatus for testing electronic circuits; computer aided teleprinter apparatus having word processing functions; data carriers incorporating computer programs written in machine code; data storage media (other than paper) for recording computer programs; mosaic-type heads for impact printing machines for use with computers; materials bearing information in magnetic form for use with computers; computer based apparatus for the implementation of electronic circuits; interactive computers for use in certifying airport security personnel; computer apparatus for the measurement of suspension on motor vehicles; apparatus for protecting computers from electrical power supply faults; computer based development apparatus for testing printed circuit boards; computer programs in machine readable form recorded on electronic media; computer programmes (programs) and recorded software distributed online; electrical connectors for connecting laptop computers to telephone lines; computer based apparatus for designing the layout of electronic circuits; telecommunications apparatus for transmitting data for use with computers; devices for converting image information to digital signals for computers; electronic data processing apparatus for the storage of computer programs; data terminals for the communication of data to a central computer system; fibre optics communications apparatus for use with computer work stations; computer based apparatus for the implementation of printed circuit boards; electrical communications apparatus for use with interconnecting computers; programs written on data carriers for processing encoded data on computers; computer based development apparatus for the design of electronic circuits; computer programs for use in processing data relating to financial records; computer controlled apparatus for furnishing voice responses to data inputs; simulators incorporating digital computers for industrial training

purposes; interfaces between application programs and firmware on real-time computers; recorded software and programmes for use with electronic games of all kinds; computer based apparatus for designing the layout of printed circuit boards; apparatus for automatically placing messages via telecommunications equipment; computer based development apparatus for the design of printed circuit boards; computer programs for use with computer integrated manufacturing installations; educational materials in the form of computer programmes for teaching languages; computer apparatus for use in monitoring biochemical reactions (for medical use); computer apparatus for the measurement of exhaust gas emissions on motor vehicles; miniature hard disk drive storage units on a plug-in card being computer apparatus; game programmes (programs) and software for use with electronic games of all kinds; computer controlled electro-mechanical apparatus for automatically dispensing products; computer controlled electro-mechanical instruments for automatically dispensing products; computer apparatus for use in monitoring biochemical reactions (other than for medical use); video game computer programs for use with game apparatus not requiring a separate means of display; racks and mountings specifically adapted for use with audio, visual, computer and telecommunications equipment; kits comprising recorded materials in the form of discs, software, tapes and other recordings and manuals, sold together as a unit.

Class 38

Telecommunications; radio telecommunications; computer bulletin boards; communication by computer; computer intercommunication; telecommunications consultancy; computer transmission services; computer communication services; communication between computers; computerised data communications; transmission of data by computer; transmission of computerised data; information about telecommunication; computerised communication services; computer data transmission services; telecommunications advisory services; cellular telecommunications services; transmission of messages by computer; hire of telecommunications apparatus; communications by computer terminals; rental of telecommunication apparatus; rental of telecommunication equipment; telegraph telecommunications services; satellite telecommunications services; providing access to computer networks; hire of telecommunications instruments; operation of telecommunications systems; fibre optic telecommunications services; transmission of information by computer; computer network communication services; communication services between computers; hire of telecommunications installations; telecommunications services by satellite; communication of information by computer; optical fibre telecommunications services; provision of telecommunication facilities; operation of telecommunications apparatus; digital network telecommunications services; providing access to online computer databases; provision of communications between computers; communication services over computer networks; charitable services, namely telecommunications; provision of news [telecommunication services]; switching network services (telecommunications); delivery of digital music by telecommunications; chat room services (telecommunications services); advisory services relating to telecommunications; telecommunications routing and junction services; rental of access time to global computer networks; providing user access to global computer networks; operation of wide-band telecommunications networks; computer aided transmission of

messages and images; consultancy services relating to telecommunications; relaying rescue beacon signals (telecommunications); information services relating to telecommunications; communication of data by means of telecommunications; electronic communication service by means of computer; message storage and transmission (telecommunications); video conference services (telecommunications services); netcasting (broadcasting over a global computer network); webcasting (broadcasting over a global computer network); telecommunications services for the distribution of data; remote transmission of data by means of telecommunications; data transmission services over telecommunications networks; computer communications for the transmission of information; providing of access to telecommunication warehousing services; providing telecommunication channels for teleshopping services; electronic bulletin board services (telecommunications services); providing information, including online, about telecommunications; providing telecommunications connections to a global computer network; web portal services (providing user access to global computer network); internet cafe services being the provision of telecommunications access to the internet; transmission of information on a wide range of topics, including online and over a global computer network; providing user access to global computer network and online sites containing information on a wide range of topics; telecommunications security (providing secure connections and access including to computers and the global computer network).

CHARLES & MINX PRIVATE LTD.

41 LORONG N TELOK KURAU, SINGAPORE 425166

ADDRESS FOR SERVICE: CHARLES & MINX PRIVATE LTD.
C/O FUTUREBOOKS SINGAPORE PTE. LTD., 28 MAXWELL
ROAD, #03-05 RED DOT TRAFFIC, SINGAPORE 069120

FRESH IMPACT

T1218720B 07/12/2012 (03 05)

Class 03

Non-medicated toilet preparations, dentifrices, mouth washes (non-medicated) and breath fresheners, dental rinses (non-medicated), non-medicated dental preparations namely dental foam, products for dental hygiene namely dental strips, products for dental hygiene; preparations and substances for cleaning, washing, polishing and deodorising dentures, oral care preparations (non-medicated), dental bleaching gels, tooth polishing preparations, cosmetic stain removal preparations.

Class 05

Medicated oral care products, medicated tooth polishing preparations, medicated tooth whitening preparations, medicated mouthwashes, medicated bleaching preparations; dietetic preparations, chemical products for dental purposes; preparations and substances for the sterilisation and disinfection of dentures; preparations and substances to aid in retention of dentures; denture adhesives and fixatives,

denture base materials.

STAFFORD-MILLER (IRELAND) LIMITED

CLOCHERANE, YOUGHAL ROAD, DUNGARVON, CO.
WATERFORD, IRELAND.

ADDRESS FOR SERVICE: DREW & NAPIER LLC, 10 COLLYER
QUAY, #10-01 OCEAN FINANCIAL CENTRE, SINGAPORE 049315

T1212010H 16/08/2012 (06 19 35 37 40 42)

NS BLUESCOPE LYSAGHT

Class 06

Common metals and alloys of common metals; precoated metal sheet, coil and strip; precoated metal building materials; prepainted metal sheet, coil and strip; prepainted metal building materials; metal in the form of sheets, coils, strips, plates, bars, rods, slabs and ingots; metal roof and wall cladding, ceiling battens, trusses, purlins, structural decking, metal formwork and reinforcing materials for buildings, metal mesh, expanded metals, metal rainwater products; guttering, ridge capping, downpipe and metal rainwater tanks; metal building frames, framing sections and accessories thereto for houses and commercial buildings; transportable buildings of metal; metal fencing materials; posts and panels; pipes and tubes of metal; metal fascias, metal channels, metal angles, brackets, clips and clamps; all of the aforesaid goods made of metal.

Class 19

Non-metallic building materials; non-metallic pipes for building purposes; non-metallic rigid tubes for construction; rigid pipes not of metal for building; reinforcing mesh made of textile fibres for construction purposes; non-metallic roof sheets, non-metallic wall sheets and non-metallic building panels; non-metallic fencing materials; non-metallic posts.

Class 35

Business management and administration; commercial or industrial management assistance; cost-price analysis; computerised file management; compilation and systemisation of information into computer data bases; arranging business introductions between buyers and sellers to facilitate trade; exporting services (purchasing and exporting goods for others); import-export agencies; marketing and promotional services; the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail or wholesale outlet; retailing and wholesaling services in relation to metallic and non-metallic products and building products; online retail services in relation to metallic and non-metallic products and building products; data processing and data retrieval services.

Class 37

Building construction; repair; installation services; construction engineering.

Class 40

Mechanical and chemical services for the treatment or transformation of substances; custom manufacturing services; custom processing of materials; metal coating (not painting), polishing, abrading and cutting services; metal galvanisation and chroming services.

Class 42

Engineering services relating to architecture, including engineering design, engineering surveying and engineering drawing; engineering consulting; scientific and industrial research; technical research; construction planning; construction drafting; off site building project management; industrial design; professional, consultancy and technical services relating to the testing of new products and materials, namely metal products and metal building materials; materials testing; chemical research; chemistry services; electronic data storage.

BLUESCOPE STEEL LIMITED

LEVEL 11, 120 COLLINS STREET, MELBOURNE, VICTORIA,
AUSTRALIA

ADDRESS FOR SERVICE: DREW & NAPIER LLC, 10 COLLYER
QUAY, #10-01 OCEAN FINANCIAL CENTRE, SINGAPORE 049315

40201401690S 20/11/2014 (32)

Registration of this mark shall give no right to the exclusive use of the words "Cerveza Negra".

Class 32

Beer and malt based beverages.

SAN MIGUEL BREWING INTERNATIONAL LIMITED

9/F CITIMARK BUILDING, 28 YUEN SHUN CIRCUIT, SIU LEK
YUEN, SHATIN, N.T., HONG KONG

ADDRESS FOR SERVICE: DREW & NAPIER LLC, 10 COLLYER
QUAY, #10-01 OCEAN FINANCIAL CENTRE, SINGAPORE 049315

40201500385T 07/01/2015 (37)

Class 37

Ship repair; Ship maintenance; Marine fitting out; Marine construction; Marine engineering (construction).

GLOBAL OFFSHORE & MARINE PTE. LTD.

48 TUAS ROAD, SINGAPORE 638500

ADDRESS FOR SERVICE: GLOBAL OFFSHORE & MARINE

PTE. LTD., 48 TUAS ROAD, SINGAPORE 638500

40201500390T 07/01/2015 (09 16 41)

Application for a series of two marks.

Class 09

Educational apparatus; education software; films bearing recorded educational material; audio and video recordings (tapes, cassettes and compact discs); children's educational software; science sets for children being instructional or teaching apparatus; electronic publications (downloadable).

Class 16

Educational materials (other than apparatus) for use in teaching; printed matter for educational purposes; stationery for use in the educational field; lesson plans [printed matter]; cookery books; sheets of paper in booklet form for recording work plans; recipes (printed matter); paper, cardboard and goods made from these materials, not included in other classes; paper display cards; printed paper signs; paper banners; tickets of paper; letterhead [stationery]; cards; calendars; printed matter; promotional flyers; periodical publications; books; booklets; newspapers; magazines; posters; printed cooking guides, timetables and booklets; printed publications relating to children's activities, namely club magazines, books and illustrated publications; gift stationery, namely bags, boxes, wrapping materials and tags (paper or plastic); gift certificates and vouchers (paper or plastic).

Class 41

Academies (education); cooking classes; children's entertainment services; holiday camp services (entertainment); provision of children's educational services through play groups; consultancy and advisory services relating to education; arranging of exhibitions for educational purposes; coaching (education and training); conducting of educational conferences and seminars; design and conducting of educational courses; education services (assessment, instruction and research); event management services (organization of educational, entertainment, sporting or cultural events); management of education services and educational events; mentoring (education and training); organisation of competitions and contests (education or entertainment); providing facilities for educational purposes; publication of educational materials; providing online electronic publications (not downloadable); publication of educational texts; rental of educational materials or apparatus; vocational guidance (education or training advice); providing information, including online, about education, training, entertainment, sporting and cultural activities.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

LUXPLUS

T1415748C (11)
(International Registration No. 1217856)

Colors, varnishes, lacquers, antirust agents; wood and concrete protection products in the form of paints.

Class 06

Metallic structural parts; shaped expansion and contraction joint sections of metal for use in the field of civil engineering, for bridges, traffic lanes, parking facilities and other constructions of all types, including parts and components thereof, such as transitions, assembly and support fittings, fastening parts, coatings and linings metal as well as metal films which are heat and fire resistant; fittings of metal for use in the field of civil engineering, for bridges, traffic lanes, parking facilities and other constructions of all types.

Class 17

Rubber, gutta-percha, gum, asbestos, mica and goods made thereof, included in this class; plastic material in extruded form for use in production; sealing, packaging and insulation materials for use in the construction, repair and maintenance industries namely fillers, mastics and sealing materials for expansion and contraction joints in the construction, repair and maintenance industries, damp-proofing insulation products in the field of civil engineering, refractory blankets, sheets and films, refractory ceramic fibers and fire barriers for use as insulating material in the construction, repair and maintenance industries; plastics for extruded form for use in

manufacture in the field of civil engineering, for bridges, traffic lanes, parking facilities and other constructions of all types; polymer damp-proofing films; sealant compounds for metallic and non-metallic joints.

Class 19

Nonmetallic structural parts including shaped expansion and contraction joint sections of non-metal for use in the field of civil engineering, for bridges, traffic lanes, parking facilities and other constructions of all types, including parts and components thereof, particularly transitions, assembly and support fittings, fastening parts, coatings and linings as well as building materials which are refractory, heat and fire resistant (not made of metal); coatings, namely polymer linings; linings for use in the construction, repair and maintenance of buildings.

Date of International Registration : 03/05/2011
Date of Protection in Singapore: 03/05/2011

Class 07

Machines and machine tools; electronic components for machines and machine tools; machines for producing and for assembling printed circuit cards; labeling machines; finishing machines, setting machines and machines for creating bundles; thermal devices as parts of the aforementioned goods, namely ventilators, compressor impellers, heat sinks.

Class 08

Hand tools and implements, hand-operated; hand tools; parts and components for hand tools; all included in Class 8.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking [supervision], life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording disks; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines; data processing apparatus and computer hardware and peripheral devices for computers; computer software; computer wiring systems; electromechanical systems and parts and components related thereto; electrical connectors and connection systems; electrical connectors, components for connectors, particularly containers; connections for equipment ("plug-in" connections); electrical couplings, electrical connections and joints; connector housings; components of wiring systems, particularly punchdown blocks (bars for multiple connections); jacks, plugs, connecting cords, connecting panels; wires and cables, cables of fiber optics; underwater cables, telecommunication cables, fiber optic and wiring harnesses, electrically conductive cable terminations; collars for wiring not of metal; housings for ground connections and guard shields for high voltage cables; parts for high voltage cables for industry in aerial and underground installations, including external terminals with oil baths, dry exterior terminals; electrical cables for lighting installations; canals for electrical wiring, cassettes for managing fiber optic cables (plug and play cassettes), components of cabling for improving transmission of signals, particularly plates, divider coils, blocks, brackets, wiring ducts, rings and clips, housing for outlets and panels, and overvoltage protector devices; communication equipment, particularly electric jacks, plugs, blocks, terminal strips, connector panels, connectors for couplings and cords, signal repeaters, signal conditioners, communication distribution frames, couplers for fiber optics, fiber optical wavelength-division multiplexers/demultiplexers, connection modules, interface modules, test modules, disconnection modules, connection and commutation chassis, switching (patching); devices for switching and monitoring electrical power supplies; control modules for connection and switching, data line emulators and monitors, transmission test kits, test cards for network switches (PBX), controllers for switching and controllers for networks, switching cards, switching cables, digital signal cross-circuit modules, transmission circuit boards, signaling sub-boards, transmission setting plates and connection designation bands; test equipment for private lines for carrying out tests on communication systems comprising test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, electrical terminals, repeating reels, terminal signal converters, signal relays, cords with

plugs, monitor loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, pulse generators, external impellers, loop returns and control devices for test baseplates, sold as a modular unit; electrical apparatus used as components of a private line test system for carrying out tests on communication systems, particularly test modules, service modules, signal test modules, cable reels, electrical panels and cable cages, particularly with the option of oscillation, amplification, attenuation, and comprising kits, electrical terminals, repeating reels, terminal signal converters, signal relays, cords with plugs, loudspeakers, control devices for transmission buffers, automatic level control devices, bridge transformers, external impellers, loop returns and control devices for test baseplates; electrical apparatus used as components of a private line test system for carrying out tests on return loops, for controlling and testing two-wire communication lines, comprising an emitter and a receiver, sold as a unit; electrical apparatus used as components of a private line test system for carrying out tests on emitters and receivers, used in return loop test systems, for controlling and testing two-wire communication lines; electrical apparatus used as components of a private line test system for carrying out tests on fuse panels; electrical apparatus used as components of a private line test system for carrying out tests on terminals used in systems for condition monitoring, for controlling and supplying diagnostics for telemetry and information in a remote communication network system, particularly principal display terminals; electrical apparatus used as components of a private line test system for carrying out tests on systems for condition monitoring for controlling circuits and supplying diagnostics for telemetry and information in a remote communication network system, principal display terminals sold as a unit; electrical apparatus used as components of a private line test system for carrying out tests on audio distribution amplifiers; electrical apparatus used as components of a private line test system for carrying out tests on loudspeaker monitors; electrical apparatus used as components of a private line test system for carrying out tests on series loop access systems, for providing access to series loop circuits comprising access panels to series loops and control panels relating thereto, sold as a unit; switching panels (patching); components of apparatus for communication and communication devices, particularly terminal blocks, conference bridges, jack panels, jacks, transfer switches, coupling leads, plugs, reels for telephones, repeating reels, connector cables, solid state telegraphic relays; battery chargers, particularly battery chargers for aircraft and battery chargers for industrial and leisure vehicles; ammeters for direct current, transformers; private line test equipment for carrying out tests on communication systems comprising access modules, line selection modules, signal and/or composition modules, test modules and ohmmeters, sold as a unit, current sensors, magnetic amplifiers, diffusion filters, speed monitors for motors for monitoring the speed of electric motors, power units for providing a power supply to electrical apparatus, particularly computers; mechatronic systems, namely synergistic and systematic combinations of mechanics, electronics and computing in real-time, relays, automobile telecommunication devices, computing and industrial relays, electronic apparatus, electrical apparatus, namely electrical apparatus used in relation with the aerospace industry and the defence industry (except armaments), with computing, electronics, electrical tools, gardening tools, multiswitches, fixed stations, network interface cards, cards for computers, systems for the distribution of electrical power including rail transportation systems, network wiring for buildings, automobiles, transportation

namely with all kinds of water, air and land vehicles particularly aircraft, cars, trucks, boats, motor cycles, bicycles, telecommunications networks, industrial engines, lighting, machine tools and production monitoring equipment, heating, ventilation and air-conditioning, components for security systems, instrumentation and medical equipment as well as in relation with devices for assisting mobility and medical diagnostic devices and railway devices; electrical terminals; splices, support sockets for chips; linear, digital, analogical, electronic, electrical circuits; bridge circuits; integrated circuits; electrical adapters, hybrid adapters; sensors, magnetic sensors, radar sensors, inductive sensors; gas sensors; wireless components and subsystems; antennas; aerial systems; audio- and video-receivers; GPS receivers; circuit boards; electrical distribution boxes; multi-circuit electrical bands; touch screens; tactile computers, interactive screens; monitors for computers; computer monitor bezels, computer network nodes, switches and routers; apparatus for computer networking; apparatus for linking computers in networks, apparatus for protecting computers against electrical power supply problems; electrical components intended for single use in computer wiring ducts, electrical components intended for a single use in supporting computer cables, emergency controls for computers; broadband data interconnection computer installations; electronic components for computers; fiber optic computer installations for use with computers; components of connections ("plug-in") for computer modems; electrical processing equipment, namely connectors between wires and boards, boards and boards, cables and boards and cables and cables; inductors, high current indicators, cable wind indicators, chokes, high current indicators, drum core indicators, shielded cable reel inductors, non shielded reel inductors, electric inductors; LAN protocol magnetic elements; magnetic modules; resistors; resistances, electric; commutators; switches, electric; chip cards; fiber optic products; electro-optical products; circuit board assemblies for multiple connectors; circuit board assembly interconnections for multiple connectors; attenuators; multiplexers; amplifiers; data communication systems; heat-shrink sheaths mainly for use with electrical cables, electrical wires and electrical conductors; filters being electrical components, electrical line filters; signal filters, duplexers; capacitors; transformers; couplers; batteries; battery terminals; microwave connectors, cables, components and parts thereof, circuit mixers, frequency modulators; electrical signals converters; heat sinks for conducting heat away from electrical components; heat sinks intended for electronic apparatus; measuring devices; controllers; radio frequency identification tags for radio frequency identification (RFID), protective devices against short circuits; switches, electric; fuses; radar systems; components of radio frequencies (RF); cabinets for loudspeakers, switchboxes (electricity), distribution boxes (electricity), cabinets intended for computers; electrical and electronic components for identification and labelling; electronic and electrical panels; fiber optic panels; radios; parts for radios; converters, electric; keyboards; video and monitor screens; touchscreen systems, namely touchscreens, touchscreen monitors, computer keyboards, touchscreen computers, electronic components for touchscreen technology, particularly micro controllers and electronic accessories, particularly magnetic tapes or credit card readers, small display devices for frontal display, for use with touchscreens and touchscreen computers; electrical sleeves, electrical connectors, electrical spacers, voltage surge protectors, electrical equipment for applying voltage and grounding; link boxes; electrical control cabinets; vibration indicators; electrical fuses, light-emitting

diodes [LED]; telecommunication equipment, particularly terminal blocks for cables for moving and insulating; electrical protection devices (except for insulators) and against voltage surge for electrical and electronic telecommunications systems and data telecommunication systems; connectors, namely voltage surge protectors, fuses, diodes for fuses, thermo-protective switches and varistors; cable systems for telecommunication; power dividers (electric); optical dividers; residential wall and floor cabinets for cabled or optical links; computer equipment such as gateways, switches, bridges, routers, concentrators, repeaters and network adapters, equipment and components for use in transmission of data, text, video, audio and voice transfer by broadband, radio broadcasting, cable broadcasting, coaxial cable, copper wires, fiber optics, radio, telephone, twisted pairs, wire, wireless and other telecommunication technology; computer software for use in the use and management of telecommunications systems, in equipment and in communications on such systems; electrical metal connectors and connectors, accessories for wiring for electrical distribution networks, electrical terminals and junctions, electrical locking devices; lighting controllers; systems for cables for vehicles, wiring harnesses for vehicles; controls for LEDs; systems for electrical cable harnesses and connectors; accessories namely, clamps being electrical connections, electrical terminals and crimp terminals for electricity conduits which distribute electricity; devices for managing cables, electrical lines; acoustic products, namely surface waves, sonic and ultrasonic waves traveling on the surface of a screen, systems for recognizing audio impulses, audio microphones; electrical and electronic interfaces such as parts of the abovementioned goods; acoustic pick-ups, particularly audio microphones, micro controllers for tactile recognition of acoustic waves, software for tactile recognition of acoustic waves.

Class 17

Rubber, gutta-percha, gum, vinyl and products made of semi-processed plastics; packing, stopping and insulating materials; flexible tubes, not of metal; tubing, namely tubing and connection pieces not of metal for pipes, tubing of rubber, heat shrink tubes, tubing for nuclear applications, sheaths for tubing; rubber products; electrical insulating products and electrical insulating materials; non-metallic tube fittings; casings for cables of plastic; insulating tape, tapes for cable links, tapes for securing cables, adhesive tapes (other than for household, medical or stationery use); insulating sealants, insulating tape and insulating sealing products, tapes for tying cables and for fitting cables (other than for household, medical or stationery use); films made of polyester; thermoretractable sheaths; shrinkable sheaths; adhesives other than for medical, stationery or household purposes; thermal devices as parts of the abovementioned goods, namely thermal conduits.

Class 37

Construction; repair, installation services; installation and repair of telecommunication networks; installation, maintenance and repair of telecommunication apparatus; installation, maintenance and repair of telecommunication installations, communications networks, computer networks and data networks; wiring buildings for transmitting telecommunication, wiring for telecommunication; construction; installation, maintenance and repair; installation, maintenance and repair of electrical systems and equipment; machinery installation, maintenance and repair; services involving maintenance and repair of technical products; installation and repair of telecommunication

systems and facilities (computer hardware), computer hardware and computer peripheral devices; installation and repair of equipment and household infrastructure systems (computer hardware); consulting in installation of data cable systems; repair, maintenance and installation consultancy services relating to the performance of data cable systems; consulting in installation of telecommunication systems and networks; all above-mentioned services particularly relating to products under guarantee.

Class 38

Telecommunications; services involving terrestrial, wireless and underwater communication; consulting in the field of telecommunication.

Priority Claims:

Class 07

01/12/2010
