NOTICES AND INFORMATION PERTAINING TO TRADE MARK APPLICATION AND REGISTRATION PROCEDURES

A) GENERAL

Pre-2004 Circulars

Amendment to Specification

Presently, whenever the Registrar raises an objection to the specification of goods or services, the agent representing the applicant would write to the Registrar with a proposed amendment to the specification. Only if the Registrar agrees to the proposed amendment will the agent file Form TM 27 to effect the amendment. The processing of such letters by the Registrar slows down the registration process considerably.

To shorten the registration process, agents should file Form TM 27 to effect the amendment straightaway instead of writing to the Registrar for her confirmation. If agents are relying on precedents in support of the amendment, they should enclose such precedents with the Form TM 27.

Certificates of Registration

The Trade Marks Act 1998 was revised on 30 December 1999 and accorded the same chapter number as the repealed Trade Marks Act, that is, chapter 332. To facilitate the Registry's operations, for both applications made under the repealed Trade Marks Act and applications made under the Trade Marks Act 1998 which have been accepted for registration and are not subject to opposition proceedings, the Registrar will issue certificates of registration which are headed:

SINGAPORE
TRADE MARKS ACT
(CHAPTER 332)
CERTIFICATE ISSUED UNDER SECTION 15(5)

Description of Device on Form TM 4

The purpose of the description of device on Form TM 4 is to assist the Registrar in conducting a search for conflicting marks. The description need not be too detailed; a general description is sufficient.

Disclaimers of Chinese Characters and Foreign Characters

A disclaimer relating to Chinese characters is published in the Journal as follows:

Registration of this mark shall give no right to the exclusive use of the Chinese character(s) of which the hanyu pinyin is "_____".

For characters other than Chinese characters (for example, Japanese characters), the disclaimer reads:

Registration of this mark shall give no right to the exclusive use of the _____ character(s) of which the transliteration is "_____".

Examination Practice With Respect to Colours in Marks

To avoid any confusion, this notice documents the Registrar's practice in relation to the examination of :

- (i) trade marks consisting solely of colours; and
- (ii) trade marks consisting of colours as a component or as an element in combination with other elements or components.

Such examination practice has been effected by the Registrar in relation to both national applications and international registrations designating Singapore.

(i) Trade Marks Consisting Solely of Colours

Where the trade mark consists solely of colours, the Registrar will need to be satisfied that the colours per se are capable of distinguishing the applicant's goods or services from those dealt with by others. As it will be necessary to determine the precise scope of such a claim, it will be necessary for the applicant to provide a description of the claim in the application form. For the purpose of an illustration, if the trade mark sought for registration is the colour "neon pink" and the colour is applied to the packaging of the goods, an appropriate description would be: "The trade mark is the colour neon pink as applied to an aspect of packaging of the goods as claimed as shown in the representation of the mark on the application form". Such a description will enable the Registrar to examine the mark as filed.

(ii) Trade Marks Consisting of Colours As a Component of the Mark

Where the trade mark consists of colours in combination with other elements such as a letter, word, name, signature, numeral, device, brand, heading, label, ticket, shape, aspect of packaging, the trade mark will be examined as a whole. If the trade mark as a whole is capable of distinguishing the applicant's goods or services from those dealt with by others, the trade mark will be registered as filed, that is, in the colours as filed. The Registrar does not require a colour limitation in such a case. The Registrar will also not seek to clarify whether the colour(s) as an element of the mark constitute a distinctive feature of the mark or not as the mark will be examined as a whole and registration rights will be conferred on the mark as a whole.

Mark Numbers Preceded by the Letter "L"

Search reports obtained from the Registry and examination letters issued by the Registrar may contain references to marks with numbers preceded by the letter "L" instead of the letter "T". These are marks which have been recorded with the Registrar for purposes of rule 13. The prefix "T" refers to marks which are the subject matter of trade mark applications or registrations.

(Multiple Classes, this circular was removed on 3 July 2009)

Representation of Marks

Marks published in the Journal and reflected on the certificates of registration appear exactly as represented on the application forms. Applicants and agents are reminded to provide clear representations of marks on the application forms. The marks should also be of reasonably large size (but not larger than A4) to ensure that all the features are clearly shown.

Series Clause

For applications for registration published in the Gazette on or after 15 January 1999 for opposition purposes, the series clause should read as follows:

"Application for a series of _____ (number) marks."

Service of Documents in Opposition, Revocation, Invalidation and Rectification Proceedings

When filing notices of opposition, counter-statements and applications for revocation, invalidation or rectification with the Registrar, a copy of the same must be served on the relevant party or parties concerned. Please refer to Rules 29, 30, 31, 32, 56, 57, 58, 65, 66 and 66A of the Trade Marks Rules as amended by the Trade Marks (Amendment) Rules 2000.

The requirement of service of evidence on the relevant party or parties concerned remains unchanged. Please refer to Rules 32, 33, 34, 56, 59 and 66A.

It would be greatly appreciated if trade marks agents filing the aforesaid documents with the Registrar could indicate in their covering letters that they have served the necessary on the relevant party or parties concerned in compliance with the Rules.

Validity of Priority Claims

Under Section 10 of the Trade Marks Act 1999, a person may claim a right of priority for the registration of a trade mark from the date on which a corresponding application was filed in a "Convention country" ("Convention application") if the application for the registration of the trade mark is filed within 6 months after the date on which the Convention application is made. A "Convention country" refers to a country or territory, other than Singapore, which is a party to the Paris Convention or a member of the World Trade Organisation. For the purpose of assessing the validity of a priority claim, IPOS will assess whether the "Convention application" was filed in a relevant country which has already become a Convention country as at the date of the filing of the Convention application in the Convention country.

For example,

Trademark application filed in country A on 3 Oct 2001.

Country A became a member of the Paris Convention or WTO on 2 Jan 2002.

Trademark application filed in SG = 3 Feb 2002 (claims priority of earlier application in country A).

Question: Is the claim to priority (application filed in country A) in the Singapore application valid?

Answer: No

(Translation of Non-English words, Circular No. 4/2005, dated 30 March 2005. This circular is replaced by Circular No. 17/2007, dated 7 May 2007)

Amendment of Typographical Errors in Class Numbers in Form TM 4 (Circular No. 21/2005, dated 21 October 2005)

An amendment of the class number in Form TM 4 may be amended by lodging Form TM 27 with fee for each amended class of goods / services, but only if

- (i) a re-search in the new amended class revealed no prior conflicting marks;
- (ii) all of the items in the specification did not fall under the class as filed but in one other class; and
- (iii) that mistake was obvious to a third party inspecting the Register.

Three examples have been provided for illustrative purposes.

Example 1:

An application was filed in Class 5 in respect of "clothing, hats and shoes". An amendment of the class number from "5" to "25" would be allowed.

Example 2:

An application was filed in Class 5 in respect of "all goods in this class". An amendment of the class number from "5" to "25" would not be allowed because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. It was possible that the applicant intended to claim all goods in Class 5.

Example 3:

An application was filed in Class 5 in respect of "clothing, hats and pesticides". An amendment of the class number from "5" to "25" would not be allowed, even with the deletion of the item, "pesticides" because it would not be obvious to a third party inspecting the Register that the correct class intended to be claimed was Class 25 and not Class 5. Since "pesticides" was correctly claimed in Class 5, it was possible that the applicant intended to claim "pesticides" in Class 5 but had incorrectly classified "clothing and hats" in Class 5 as well. It would be necessary for the applicant to file a fresh application in Class 25 in respect of "clothing and hats".

2007 Circulars

Trade Marks (Amendment) Act 2007 (Act No. 3/2007) (Circular No. 7/2007, dated 14 February 2007)

The Trade Marks (Amendment) Act 2007 has been passed by Parliament on 22 January 2007 and has received Presidential assent on 1 February 2007.

Some of the key amendments include:

Provision for multiple class registration

Registration for trademarks is presently based on single classes. The amendments will now allow for a multi-class registration. A multi-class registration allows for one single application in multiple classes of goods and services to lead to one registration. Upon registration, the registration is maintained as one, resulting in the need to renew only once for the renewal to be effective for all the classes of goods and services registered.

Division of an application for registration

To complement a multiple-class system, it is now possible to divide a trademark application into two or more applications. A trademark applicant may divide up his application into two or more applications so that those classes of goods or services that do not face opposition or objection can proceed to registration first. Division will therefore expedite trademark registration where appropriate.

Relief Measures for Procedural Oversight

The Act also provides for relief measures to alleviate procedural mistakes by trademark applicants, notably missed time limits. The relief measures provide the avenue for a trademark applicant to maintain the rights in an application that has been filed, even when time limits have been missed.

Registration of Licence of Pending Trademarks

The amendments will now allow for registration of licences relating to pending trademarks. Prior to the amendments, only licences relating to registered trademarks can be recorded on the register.

The Trade Marks (Amendment) Act 2007 will come into operation on a date to be notified.

A copy of the Trade Marks (Amendment) Act 2007 can be purchased at SNP Corporation Ltd (www.snpcorp.com/webshop/).

Cautionary Notice on Unsolicited Mail about Unofficial Registration Services (Circular No. 13/2007, dated 11 April 2007)

It has been brought to our attention that trade mark proprietors and/or agents whose trade marks have been published in recent IPOS Trade Marks eJournals are receiving letters from companies for payments for unofficial registration services.

These companies use names, abbreviations or emblems that appear to be “official” and send out letters which resemble invoices to trade mark proprietors and/or agents with details of the proprietor, the trade mark, class(es) of goods or services, etc. These companies will offer to register marks in registers or publications for a fee, and in return, claim they will send the respondent a copy of the publication.

Please treat such letters as unsolicited mails. These companies are neither related to nor connected with IPOS. There is no obligation to pay for such services as they are not official services.

The only office constituted under Singapore laws that provides registration services for trade marks in Singapore is our office, the Intellectual Property Office of Singapore (IPOS).

Upon receiving such letter or invoice, if you are in any doubt, please consult your trade mark agent, your lawyer, or email us for clarification.

Application to Register a Licensee (TM 37) (Circular No. 24/2007, dated 29 June 2007)**(i) Processing Of An Application To Register A Licensee (TM 37)**

An application to register a licence (Form TM 37) filed on or after 2/7/2007, will be processed by the Registry even though the status of the mark is still pending registration. However where the application to register a licence (Form TM 37) was filed before 2/7/2007, it will be processed only after the mark has been registered.

(ii) Licence Commencement Date

The licence commencement date (i.e. the date entered in Part 5 of TM 37) should not predate the date from which the proprietor's rights in the mark accrue. For a trade mark application filed on or after 1/7/2004, the earliest licence commencement date is the trade mark application date.

(iii) Exclusive Licence Periods Do Not Overlap

Where there are 2 exclusive licences or more, the licence periods involving the same goods or services should not overlap.

(iv) Licensed Goods/Services Should Not Be Wider Than Trade Mark Application/Registration

The list of licensed goods or services (Annex of TM 37) should not be wider than those under the trade mark application/registration.

Deficiencies in applications for registration : amendments after filing (Circular No. 28/2007, dated 27 July 2007)

The Registrar has been conducting formalities check on all applications for registration to ensure that they contain all formal requirements under the Trade Marks Act.

Where the application does not comply with the requirements which are essential for a filing date to be accorded, the filing date will not be accorded until all the deficiencies have been rectified. In such cases, the application will be accorded the earliest date on which all essential requirements for filing date are complied with. There is no need for the correction to be accompanied by the relevant amendment form. The essential requirements for filing date are spelt out in section 5(2) and (3) of the Trade Marks Act.

In respect of other deficiencies or irregularities that do not affect the filing date, amendments must be effected through the lodgement of the relevant trade mark forms, such as Form TM 27A, Form TM 27B and Form TM 26.

This practice pertains only to new applications filed with effect from 01 August 2007.

The Geneva Conventions (Amendment) Act (Circular No. 40/2007, dated 5 December 2007)

The Geneva Conventions (Amendment) Act was passed in Parliament on 12 November 2007. Under the Act, the following emblems may not be used in Singapore, unless approval is given by the Ministry of Health:

- Red Cross emblem
- Red Crescent emblem
- Red Crystal emblem
- Red Lion and Sun emblem

			
Red Cross emblem	Red Crescent emblem	Red Lion and Sun emblem	Red Crystal emblem

With the commencement of the Act, the Registrar will object to trade mark applications consisting of or containing these emblems or emblems closely resembling them, under Section 7(5) of the Trade Marks Act, unless consent from the Ministry of Health is furnished. This is so even for applications lodged before the effective date of the Act.

Proprietors of registered trade marks containing or consisting of such emblems, or emblems closely resembling them, should note that in spite of their registration, they have one year from 12 November 2007 to cease using the emblems.

2008 Circulars

Image of e-filed mark (Circular No. 11/2008, dated 4 July 2008)

IPOS has encountered certain electronic trade mark applications which have images of marks that have jagged and blurred edges in our database and the images of the mark will not appear as clear as intended by the applicants in the trade mark journal and certificate of registration. The reason for the blurred image of marks is that applicants attach images of the marks with a lot of background or blank space. To ensure that such images are not too small for viewing purposes, IPOS has to make adjustment to the marks which then result in blurred images.

In order to ensure that the image of mark is accurately captured by IPOS, applicants should crop the mark with little background or blank space and save the image as approximately 480 x 480 pixel. This will remove the need for IPOS to make adjustment to the image in the publication and the registration certificate and the applicant can then obtain clear and accurate image of the mark.

(Translation Clause, Circular No. 12/2008, dated 11 July 2008. This circular was removed on 1 August 2008)

Return of assignment deeds and other registrable transaction documents (Circular No. 14/2008, dated 26 September 2008)

The Registry will stop its practice of returning deeds of assignment and other documents lodged in support of applications for transfer of ownership and recordal of other registrable transactions.

However, should the applicant wish for the return of such documents, he may make his request known at the time of lodgement of the recordal application on a covering letter accompanying the application to that effect. The letter shall provide contact details so that the Registry may make the necessary arrangements for the return of the documents. This practice will affect all applications lodged on or after 1 October 2008.

IPOS will launch the e-Communications Portal on 1 December 2008. The e-Communications Portal is an electronic online system developed by IPOS for the main purpose of facilitating the sending, receipt and exchange of all correspondence, relating to trademark applications and prosecutions, between IPOS and registered account holders. The Trade Marks Rules have been amended to give effect to the sending, receipt and exchange of correspondence via the e-Communications Portal. In particular, the changes in the Rules will:-

- (a) provide for service of documents by the Registrar as well as by applicants by electronic communication through the e-Communications Portal;
- (b) provide for the sending of a true and complete image of the original paper document by electronic communication through the e-Communications Portal for documents that are required to be signed, made on oath or affirmed or are required to be attested;

It is to be noted that applicants must still comply with the requirement to provide an address for service under rule 9. The electronic address of these persons, if they are using the eCommunications Portal to send documents to and receive documents from the Registrar, is not intended to be part of their address for service. However, service of documents by electronic communication through the eCommunications Portal is intended to be valid service notwithstanding that there is an address for service filed in accordance with rule 9.

The Trade Marks (International Registration) Rules have also been amended to permit the use of one Form for multiple classes of goods or services for Forms for use in opposition, namely Form TM 11 and Form TM 12.

A copy of the Trade Marks (Amendment) Rules 2008 and the Trade Marks (International Registration) (Amendments) Rules 2008 are available for sale at SNP Corporation Ltd. (<http://www.snpcorp.com/webshop/>).

Application for Renewal of Registration (Form TM 19) (Circular No. 18/2008, dated 12 December 2008)

With effect from 1st January 2009, the Registrar will not be issuing renewal certificates confirming that a mark has been renewed. This is applicable to all applications for renewal of registration (Form TM 19) lodged on or after 1st January 2009.

For applications for renewal made online, the renewal will be processed instantaneously and an acknowledgement of the renewal showing the extended expiry date will be displayed for printing. These acknowledgements of renewal will remain available for printing for a period of one month from the renewal application date. In very limited circumstances, such as where there are pending applications affecting the validity of the trade mark, instant renewal will not be possible and the applicant will be notified that the acknowledgement of renewal will be posted in due course.

Where the application for renewal is posted or submitted over the counter, the applicant will not be receiving any acknowledgement from the Registry. The onus will be on the applicant to check the expiry date of the mark at www.etrademarks.gov.sg within 2 weeks of lodgement of the application for renewal of registration (Form TM 19) to confirm that the expiry date has been extended by the Registry. If the expiry date has not been extended, applicants are advised to contact our Renewal Officer at 63302 707 immediately for assistance.

This change in practice does not apply to Late Application for Renewal of Registration (Form TM 24) and Application for Restoration and Renewal of Registration Removed from the Register (Form TM 21).

To reflect the change in practice in Form TM 19, an information note has been incorporated into the form. This revised form should be used from 1st January 2009.

A copy of the revised Form TM 19 will be available for downloading by end of December 2008 at www.ipos.gov.sg.

2004 Circulars**Form TM 26 Notification Letter** (Circular No. 8/2004, dated 26 March 2004)

Please note that the main purpose of the Notification Letter is to inform as to the fact that the name and/or address of the applicant/proprietor has/have been updated. Thus, the Notification Letter cannot be treated as conclusive as to the status of marks reflected therein.

Where there is no reply within the given period to our latest examination report, an application will be updated as abandoned notwithstanding any interim Notification Letter from the Registrar.

Form TM 1 [Request to appoint or change an agent or to enter or change an address for service] (Circular No. 18/2004, dated 30 July 2004)

One Form TM 1 may be used for multiple trade mark numbers. However, the fee for this form is still charged on a per trade mark number basis unless the request is to alter an agent's name and/or address for service which does not affect the legal entity of the agent. In such a case, only a single set of fee is payable.

Kindly note that it is not necessary to lodge Form TM 1 together with forms such as TM 4, TM 9, TM 11, TM 14, TM 19, TM 22, TM 24, TM 26, TM 28, TM 29, TM 37 and TM 48 as each of these forms contains a section for the indication of an address for service.

The Registrar will reject the old Form TM 32 (V02/01/07) with effect from 1 October 2007.

- a. there is a change of agent whilst the TM 22 is being processed; or
- b. the agent will not be continuing to act for the subsequent proprietor / applicant for registration after TM 22 is recorded.

Such Form TM 1 appointing the agent solely for "Assignment" matters (Part 3 of Form TM 1) will not be processed until a subsequent Form TM 1 appointing an agent for "Application for registration / Registration" is received.

iii)Correction of Errors in Relation to a Recorded Change of Ownership

Once a change in ownership has been recorded according to the request, should the owner need to correct any errors in the recorded details, Form TM 27B is required. Should the assignment(s) need to be re-recorded and re-examined, the relevant Form TM 22 with fees will need to be re-lodged.

iv)Covering Letter

To ensure that the transactions are recorded accurately, please lodge a covering letter stating :-

- a. the sequence of events;
- b. the exact nature of the transaction, and
- c. the trade mark numbers involved.

When e-filing, a covering letter can be attached via the “covering letter” button for eTM 22 and 27B.

2009 Circulars**eCommunications** (Circular No. 2/2009, dated 27 February 2009)

The Registry has been receiving Trade Mark Forms via the eCommunications portal. Please note that this portal is to facilitate the exchange of correspondences only. All forms should be either eFiled, submitted over the counter or posted to us.

Enhancements made to eTM 22 (Application to register a change of ownership)
(Circular No. 4/2009, dated 27 March 2009)

With immediate effect, users may file up to 50 trade mark numbers in one eTM 22 (Application to register change of ownership) form provided that all the trade mark numbers belong to the same assignor under the same IPOS assigned company code. A link is included in the eForm to a search page allowing applicants to check their company code.

Efiling multiple assignment applications (Circular No. 4/2009, dated 27 March 2009)

This is to inform users that eTrademarks may be used to efile multiple assignment applications. So long as there exists a prior assignment application which has not yet been recorded by the Registry, when the user attempts to efile a subsequent assignment application, the field under "Current Proprietor's details" is intentionally left blank by the system for the user to enter the correct details. For example in the case of an assignment from A to B (1st TM 22), and then from B to C (2nd TM 22), the user will have to input B's details manually when efilng the second TM 22.

Form TM 4 - Application to register a trade mark, collective mark or certification mark
(Circular No. 9/2009, dated 21 August 2009)

Form MP 1 - Request to transform an international registration into national application(s) (Circular No. 9/2009, dated 21 August 2009)

With effect from 15/09/2009, an Application to register a trade mark, collective mark or certification mark and a Request to transform an international registration into national application(s) must be made on version V05/01/09 of Form TM4 and MP 1 respectively. The corresponding electronic Form TM 4 available on eTrademarks will also be amended on the same day. The changes are found at Annex A of both forms and pertain to the information to be provided when making a priority claim.

Annex A

Annex A is amended so that where the priority claim is not in respect of all the goods or services claimed in the class, the applicant is to state the goods or services in respect of which priority is claimed. This amendment is to ensure that there is clarity in the scope of the priority claim.

D) PERTAINING TO eTRADEMARKS**Pre-2004 Circular****New Features of IPOS' eTrademarks Services****(1) Generation of Check Digit/Year of Trade Mark Numbers**

A new eService for the generation of year/check digit of Trade Mark Number is added to IPOS Online Transactions. This eService has two fields for entry. One is for the old TM No format while the other is for the new TM No format. For the old TM No format, both the year and the check digit would be generated. For the new TM No format, the check digit will be generated.

This eService is already available.

(2) Attachment for Form TM26

The eService for Form TM26 has been enhanced. As filing of Form TM26 usually requires a covering letter to list the TM numbers and sometimes to explain a certain situation, it can only be submitted through the counter. With this enhancement, when a Form TM26 is submitted, it allows for a covering letter to be attached to the said form. This is to facilitate the filing of Form TM26 through eTrademarks.

This eService is already available.

(3) Filing of mark in colour or greyscale

With effect from 1 November 02, eTrademarks will be accepting colour or greyscale attachments for marks filed for Forms TM4 and TM9 in addition to the current black and white. Marks filed in colour or greyscale would be printed in greyscale for the Acknowledgement Letter, Trade Marks Journal and Certificate of Registration. Please note that viewing and printing of the mark images from the Enquiry System would still be in black and white.

(4) "Save/Save As" feature

The "Save/Save As" feature has been implemented on 4 December 02, from 10am onwards. This feature would be available for Forms TM4 and TM9. Any application that is saved would be kept in IPOS' system for 3 working days excluding the current day. All saved documents residing in IPOS' database for more than 3 working days would be removed.

(5) Display Mark Image

The "Display Mark Image" feature has been implemented on 4 December 02, from 10am onwards. Mark images attached to Forms TM4 and TM9 will be displayed for viewing.

E) PERTAINING TO INTERNATIONAL APPLICATIONS AND REGISTRATIONS UNDER THE MADRID PROTOCOL

Pre-2004 Circulars

Singapore's Accession to the Madrid Protocol

Singapore acceded to the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Madrid Protocol) on 31 July 2000. The Madrid Protocol came into operation in Singapore on 31 October 2000.

Publication of International Registration Designating Singapore for Opposition Purposes

International registrations designating Singapore under the Madrid Protocol are treated in the same manner as Singapore national applications, and are therefore published in the Trade Marks Journal for opposition purposes before protection is granted. They are published in a separate section of the Trade Marks Journal titled "International Registrations filed under the Madrid Protocol Published for Opposition Purposes under the Trade Marks Act (Cap. 332, 1999 Ed.)". Unlike Singapore national applications, they are not published according to the class of goods or services, but are published according to the international registration number.

Request for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore

Such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) using WIPO's prescribed Form MM9(E). Form TM 26 is not the relevant form to be used.

Form MM9(E) is available for downloading at www.ipos.gov.sg

2004 Circulars**Issuance of Registration Certificates for Protected International Trade Marks (Singapore)** (Circular No. 13/2004, dated 18 June 2004)

The Registrar has received queries as to whether IPOS issues registration certificates for protected international trade marks (Singapore). Please note that IPOS does NOT issue such certificates.

Under the Madrid Protocol, an Office which has examined an international registration in which it is designated and found no grounds for refusal may issue a statement of grant of protection. However, it is not obliged to do so and no legal consequences follow from the fact that no such statement is given. Further, such statements will only be issued if it is still within the 18-month time limit from the date of notification of the international registration. Where no such statements are issued, by the end of the 18-month time limit, the international registration will be regarded as protected in Singapore. In the Singapore context, IPOS does issue such statements, as a matter of customer service, if at the time of issuance, it is still within the said period.

In cases where a provisional refusal or a provisional refusal based on opposition has been issued, a confirmation or withdrawal of such a provisional refusal in the form of a letter of final decision in accordance with Rule 17(5) of the Common Regulations under the Madrid Agreement and Protocol relating to the Madrid Agreement concerning the International Registration of marks will be sent to the International Bureau, who will in turn transmit a copy to the holder of the international registration.

Requests for Recording of Changes in the Ownership of the International Registrations Designating Singapore or where Singapore is the Office of Origin (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM5(E). Form MM5(E) is available for downloading at www.ipos.gov.sg

Form TM 22 should not be lodged for such recordation of change in ownership.

Where Singapore is the Office of Origin, requests for recording of changes in the ownership must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. However, Form TM 22 may be lodged (if appropriate) to record the change in ownership of the basic application or basic registration.

Requests for Recording of Changes in the Name and/or Address of the Holder for International Registrations Designating Singapore or where Singapore is the Office of Origin (this serves to replace an existing pre-2004 circular in the journal) (Circular No. 21/2004, dated 19 November 2004)

For international registrations designating Singapore, in accordance with Rule 25 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM9(E). Form MM9(E) is available for downloading at www.ipos.gov.sg

Form TM 26 should not be lodged for such recordation of change in name and/or address.

Where Singapore is the Office of Origin, requests for recording of changes in the name and/or address of the holder must also be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder. In such a case, TM 26 should be lodged to amend the change in name and/or address of the basic application or basic registration.

Requests for Designation Subsequent to the International Registration (Circular No. 21/2004, dated 19 November 2004)

In accordance with Rule 24 of the Common Regulations, such requests must be presented to the International Bureau of the World Intellectual Property Organization (WIPO) directly by the holder on WIPO's official Form MM4(E). Form MM4(E) is available for downloading at www.ipos.gov.sg

2005 Circulars

(Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore, Circular No. 21/2005, dated 21 October 2005. This Circular is replaced by Circular No. 1/2010, dated 12 February 2010)

2007 Circular

(Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters, Circular No. 42/2007, dated 28 December 2007. This Circular is replaced by Circular No. 1/2008, dated 11 January 2008)

2008 Circulars**Modes of Payment to the International Bureau of the World Intellectual Property Organisation for Madrid Protocol Matters** (Circular No. 1/2008, dated 11 January 2008)

With effect from 1 January 2008, there will be some amendments to the Administrative Instructions for the Application of the Madrid Agreement Concerning the International Registration of Marks and the Protocol Relating Thereto ("AI"). The amendments are necessary for the implementation of a more broad-based electronic communications platform for the benefit of users of the Madrid system.

The AI can be found here (http://www.wipo.int/madrid/en/legal_texts/admin_instructions.htm) and the International Bureau's ("IB") notification of the amendments can be found here (http://www.wipo.int/edocs/madrdocs/en/2007/madrid_2007_20.doc).

Please note that under the new Section 19 of the AI, fees payable to the IB must be made

- i. by debit to a current account with the IB,
- ii. by payment into the Swiss postal account or to any of the specified bank accounts of the IB, or
- iii. by credit card, where, in the context of an electronic communication envisaged in Section 11, an electronic interface for online payment has been made available by the IB.

The previous modes of payment by cash at the IB and by a banker's cheque would no longer be available.

Please note that while Section 19 now provides that in the context of electronic communications, fees due to the IB may be paid by credit card only in relation to specific types of transaction or request in respect of which a dedicated electronic interface has been provided, the IB has advised that this mode of payment by credit card would not be applicable to the filing of international applications.

If you are filing an international application through IPOS on and after 2 January 2008, please note that our previous primary mode of payment to the IB via a banker's cheque is no longer available in light of the changes in the AI. Instead, your payment in Swiss Francs to the IB can be made by either options (i) or (ii) as stated above.

Current Account

If you conduct regular monetary transactions with the IB, you may opt to open a current account with them. Please see http://www.wipo.int/madrid/en/guide/part_d/pdf/account.pdf for details.

Bank Transfer

We envisage that the majority of applicants and agents are likely to use bank transfers under (ii) as the preferred mode of payment. Details of WIPO's postal account and bank account are as follows:

WIPO bank account
IBAN No. CH51 0483 5048 7080 8100 0
Credit Suisse, CH-1211 Geneva 70
Swift/BIC: CRESCHZZ80A

WIPO postal account
IBAN No. CH03 0900 0000 1200 5000 8
Swift/BIC: POFICHBE

The above account details are found on page 6 of the Form MM2(E).

To confirm that the payment has been made, the applicant must indicate the payment details of the bank's transfer transaction in the appropriate space provided in IB's Form MM2(E) Application for International Registration Governed Exclusively by the Madrid Protocol at the time of filing. You must also provide us with a photocopy of the bank's transaction advice.

If you have any queries regarding the above, please do not hesitate to call our Customer Service Officer at 6339 8616 or email us at ipos_enquiry@ipos.gov.sg.

Requests for Recording of a Renewal for International Registrations where Singapore is the Office of Origin (Circular No. 5/2008, dated 22 February 2008)

For an international registration where Singapore is the Office of Origin, a request for the recording of a renewal may be made by the holder or his agent upon payment of the relevant fees in Swiss Francs to WIPO via any of the following ways:-

(a) lodgement of WIPO's Form MM11(E) or an official letter from the holder indicating the necessary information (number(s) of the international registration(s) concerned and the purpose of the payment);

<http://www.wipo.int/madrid/en/forms/>

(b) lodgement done online at WIPO Marks E-Renewal System portal
<http://www.wipo.int/madrid/en/services/>; or

(c) lodgement of Form MM11(E) or the official letter mentioned under (a) through IPOS, together with a separate fee of S\$85 for handling the renewal request.

Kindly note that the above renewal is only effective for the international registration. Holders should lodge IPOS Form TM 19 in order to renew the Singapore basic registration, if necessary.

With regard to the renewal of an international registration where Singapore is *not* the Office of Origin, even if Singapore had been designated, such a request must be effected via (a) or (b). It is also possible to do so via the Office of Origin of that international registration provided that that Office of Origin has agreed to collect the renewal fees and forward them to WIPO.

We wish to emphasise that IPOS Form TM 19 must not be lodged for the renewal of any international registrations designating Singapore. Only WIPO would be able to process the renewal of that international registration.

E-Payments to the World Intellectual Property Organization (Circular No. 19/2008, dated 26 December 2008)

The World Intellectual Property Organization (WIPO) has introduced an E-Payment Service at <https://webaccess.wipo.int/epayment/>, which allows payment of fees notified in their irregularity letters or other WIPO communications with regard to international applications or registrations.

Payments can be made through the WIPO Current Account or by credit card.

To make payment through the WIPO Current Account, you will be required to provide the userID and the password generated by them for the current account holders. If you do not have a current account, please read Current Account at WIPO at

http://www.wipo.int/resource/en/wipo_account.html for details, on how to open, use or close a current account with WIPO, if you are thinking of opening one.

If you already have a WIPO current account, but do not have a password, please send an email to WIPO at income.accounts@wipo.int, mentioning E-Payment as the subject matter.

To make payment by credit card, please follow the steps in the E-Payment Service. American Express, Mastercard and Visa are acceptable to WIPO.

Unfortunately at this stage, WIPO is still unable to accept payment via credit card for the filing of international applications. For such applications, the only payment modes are via the WIPO Current Account, or the Swiss postal account or any of the specified bank accounts of WIPO.

2010 Circular**Effect of the Recording of Licenses in the International Register in respect of International Registrations Designating Singapore** (Circular No. 1/2010, dated 12 February 2010)

Pursuant to Rule 20bis(6)(b) of the Common Regulations under the Madrid Protocol, Singapore has notified the Director General of the World Intellectual Property Organisation on 21 March 2002 that Singapore law would not give effect to the recording of trade mark licenses in the International Register. Accordingly, any recording of a license made under Rule 20bis(3) of the Common Regulations will have no effect on any International Registration designating Singapore. However, the holder of such an International Registration may still record the relevant license with IPOS by lodging Form TM 37, and the fee of S\$60.00 per trade mark number. Similarly, the holder of such an International Registration may request for the amendment or cancellation of the recording of the license via Forms TM 38 and TM 39 respectively.

F) PERTAINING TO THE CLASSIFICATION OF GOODS AND SERVICES**(I) General Information****Pre-2004 Circulars**

(8th Edition of the International Classification of Goods and Services, this circular was removed on 18 January 2008)

Compliance with the International Classification of Goods and Services

To assist the Registrar in expediting the acceptance of trade mark applications for registration, agents are reminded to ensure that the specifications of goods or services set out in the application forms conform with the International Classification of Goods and Services as far as possible. Very often, the Registrar receives applications where the marks are acceptable for registration but the specifications are not in order. This slows down the registration process.

Precedents in Support of Specification

In the examination of the specification of goods or services for compliance with the International Classification of Goods and Services, the Registrar is prepared to rely on precedents relating to Singapore, United Kingdom, Australia and Hong Kong registrations. Applicants and agents are therefore free to file these precedents in support of their specifications of goods and services for the Registrar's consideration.

However, the Registrar would not rely on such precedents in the following situations:

- (a) where the precedent relates to goods or services which have been accepted by the Registrar concerned in the wrong class;
- (b) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change of classes by the Special Union for the International Classification of Goods and Services for the purposes of the Registration of Marks (Nice Union);
- (c) where the precedent relates to goods or services which are no longer classified in the class stated in the precedent in view of a change or clarification of practice by the Registry concerned.

The use of square brackets [] and round brackets () in specifications

An expression between square brackets is intended to define more precisely the text or item preceding the brackets. Square brackets are used when the item is ambiguous for classification purposes. Round brackets are used to qualify the text or item preceding the brackets to ensure the correct classification. Round brackets are used when it is possible that the item can be classified in various classes depending on the intended goods or services sought to be covered.

Use of the term "Internet" in specifications of goods and services

In view of the widespread use of the term "Internet" in the generic sense, the Registrar will henceforth not raise any objections to the use of the term "Internet" in the specifications of goods and services of Singapore national applications or international registrations designating Singapore.

However, the use of the term “Internet” in specifications of goods and services is generally not encouraged as the word “Internet” is a registered trade mark in some countries and may be objected to by the designated offices of these countries in respect of international applications originating from Singapore filed under the Madrid Protocol. This may arise where the term “Internet” is listed in a Singapore national application or registration and the Singapore national application or registration forms the basis of an international application originating from Singapore under the Madrid Protocol. In the circumstances, it is advisable for applicants to use the term “global communications network” instead.

2004 Circulars

Underlining of precedents for objections on specification of goods / services (Circular No. 19/2004, dated 3 September 2004)

When lodging precedents to overcome the Registrar’s objection on the specification of goods / services, the Registrar requests that the relevant portions of the precedents to be underlined for greater visibility. This would assist the Registrar to identify and consider the relevant portions of the precedents in order to assess whether the objection should be waived.

Vague descriptions in specifications (Circular No. 20/2004, dated 12 November 2004)

A clear description of the goods or services claimed in a trade mark application is important as it determines the scope of the application. As such, the indication of goods, for example “pouches and the like”, is not acceptable as the expression, “and the like”, is vague. In the example given, it is not clear as to what other goods the applicant is claiming apart from pouches.

2005 Circular

(Use of acronyms for specifications of goods and/or services, Circular No. 6/2005, dated 22 April 2005. This circular was removed on 18 January 2008)

2006 Circular

International Classification of Goods and Services

NICE Classification – Ninth Edition (Circular No. 32/2006, dated 8 November 2006)

The ninth edition of the NICE Classification for the purposes of the registration of trade marks will come into effect on **1 January 2007**. Copies can be ordered online at <http://www.wipo.int/ebookshop?lang=eng>

The majority of the changes involve Classes 14, 20, 21, 26, 34, 42 and 45 but minor changes and additions have also been made to other classes. For more information regarding the specific changes, please refer to the *Nice Union Report CLIM/CE/20/ which is obtainable at the following link*

http://www.wipo.int/meetings/en/doc_details.jsp?doc_id=52419

The eighth edition of the NICE Classification shall still apply to all applications filed before 1 January 2007. Applications filed on or after 1 January 2007 shall be filed in accordance with the ninth edition of the NICE Classification. For the avoidance of doubt, there will be no reclassification of goods and services for existing applications filed prior to 1 January 2007, after the 9th Edition of the NICE Classification comes into force.

2007 Circular

Use of registered trade marks in specifications of goods and services (Circular No. 38/2007, dated 14 November 2007)

Registered trade marks which are ordinary dictionary words are allowed to be used in specifications of goods and services as a descriptor. This practice is consistent with our previous journal notice on the use of the term, "Internet", which has become generic. However, words which are invented and have been registered as trade marks will not be acceptable in specifications of goods and services. Instead, applicants should use ordinary English words to describe their goods and services. For example, a specification of goods which reads "bluetooth-enabled devices for communications, namely telephones, handsets, headsets, speakers, microphones and earphones" should be amended to "devices for communications which are enabled by short range radio technology, namely telephones, handsets, headsets, speakers, microphones and earphones".

(II) Information on specific items**Pre-2004 Circulars**

(Cereal-based beverages, Beverages made from cereals, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Club [dining] services

With effect from 31 October 2003, the Registrar will accept the specification “club [dining] services” in Class 43 instead of Class 41 of the International Classification of Goods and Services. The emphasis on the word “dining” puts the item more in line with the class heading and explanatory notes of Class 43.

Consultancy Services

In the 8th edition of the International Classification of Goods and Services, consultancy services will be classified according to their subject matter. For example, consultancy services relating to telecommunications will be classified in Class 38, transportation consultancy services in Class 39 and intellectual property consultancy services in Class 42. The Registry had been taking this position in its examination of applications.

WIPO has clarified that pending the coming into force of the 8th edition, the correct classification is in accordance with the 7th edition where such services are classified in class 35 if they are business-related and class 42 if they are non-business-related. Hence, the Registry is adopting this stand.

However, in order not to prejudice any party who has acted on the Registrar’s earlier position on such services, the Registry will not reject consultancy services which have been classified according to their subject matter.

Desserts

With effect from 31 October 2003, the Registrar will not accept a specification consisting of “desserts” per se. This is in line with the World Intellectual Property Organization’s view that the said item, without further qualification, is vague.

Examples of acceptable descriptions are :

“Desserts [Jellies for food]” in Class 29 or

“Desserts [Ice cream]” in Class 30

(Executor services, Pre-2004 Circular. This Circular was replaced by Circular No. 7/2008, dated 5 March 2008)

Mail order services

A specification of services consisting of or containing "mail order services" is unacceptable as it does not conform to the International Classification of Goods and Services and should be reworded to "the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order" in accordance with the practice in the United Kingdom.

Provision of information for business or domestic purposes in Class 38

With effect from 30 July 2003, a specification which reads "provision of information for business or domestic purposes" in class 38 will not be acceptable. The applicant is requested to further qualify the specification so that it will read as "provision of information in the field of telecommunications for business or domestic purposes". This is in line with the General Remarks as provided in the Nice Classification that the subject matter of the information being provided determines the correct class for the services.

(Provision of user access time to the global computer network, Pre-2004 Circular. This circular was removed on 26 September 2007)

(Storage of data, information or documents, Pre-2004 Circular. This circular was removed on 5 December 2008)

2004 Circulars**Retailing of services** (Circular No. 2/2004, dated 7 January 2004)

With effect from 7 January 2004, the Registrar will not accept a specification containing a claim for "retailing of services" or "the bringing together, for the benefit of others, of a variety of services (excluding the transport thereof), enabling customers to conveniently view and purchase those services". Applicants will be asked to clarify on the type(s) of services they are providing and to apply for such services in the appropriate class(es).

WIPO's Recommendation No. 16 (Circular No. 4/2004, dated 6 February 2004)

For applications lodged on or after 13 January 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Pastilles and chewing gum for cosmetic purposes - Class 3
- (2) Soap bubbles and foam generators for shows - Class 11
- (3) Lenyards (Keycards) - Class 14

(Joss sticks, Circular No. 5/2004, dated 13 February 2004. This circular was removed on 20 March 2009)

Canned foodstuffs of plant origin (Circular No. 6/2004, dated 5 March 2004)

For applications lodged on or after 12 March 2004, the Registrar will accept the specification "canned foodstuffs of plant origin" in Class 30 instead of Class 29. This is in line with the explanatory note of Class 30 which states "Class 30 includes mainly foodstuffs of plant origin prepared for consumption or conservation".

Manufacturing of goods (Circular No. 12/2004, dated 11 June 2004)

For applications lodged on or after 18 June 2004, a specification of services consisting of or containing "manufacturing of goods" is unacceptable as it does not conform to the International Classification of Goods and Services. If a person is manufacturing goods, registration should be sought for the goods only.

As appropriate, the specification may be phrased as "custom assembling of materials [for others]" or "custom manufacturing of goods [for others]". For example, where the items in question are cell cultures, it may be more appropriate to describe the service as "custom manufacturing of cell cultures [for others]". However, if the goods in question are clothing, "custom assembling of clothing [for others]" would be more appropriate.

(Providing search engines for the internet, Circular No. 12/2004, dated 11 June 2004. This circular was removed on 20 March 2009)

WIPO's Recommendation No. 17 (Circular No. 17/2004, dated 9 July 2004)

For applications lodged on or after 16 July 2004, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the items stated below in the designated classes:

- (1) Packaging containers of regenerated cellulose - Class 16
- (2) Refilling of empty toner cartridges - Class 37.

Provision of news (Circular No. 19/2004, dated 3 September 2004)

For applications lodged on or after 10 September 2004, the Registrar will not accept a specification consisting of "provision of news" *per se*. This is in line with the World Intellectual Property Organization's view that this description, without further qualification, is vague. The subject matter of the news provided and the purpose for which it is provided are important in determining the class to which it should fall under. Generally, these services are classified in the same classes as the services that correspond to the subject matter of the information. Examples of acceptable descriptions are:-

"Provision of business news [business management]" in Class 35;

"Provision of news [telecommunication services]" in Class 38; and

"Provision of news for entertainment purposes" in Class 41.

Leasing services (Circular No. 20/2004, dated 12 November 2004)

With effect from 19 November 2004, the Registrar will accept “leasing services” only in Class 36 regardless of the nature of the goods to which it relates. This is in line with the World Intellectual Property Organization’s view that it is a form of financial service.

“Rental services”, on the other hand, will still be classified in the same class as the services provided. For example, “rental of telecommunication apparatus” will be classified in Class 38 while “rental of medical apparatus” will be classified in Class 44.

2005 Circulars**Computerised communication network security and other security services** (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar will only accept “computerised communication network security” and like services in Class 42 and not in Class 45, as such items are forms of computer services classified under Class 42.

Class 45 covers services for the protection and security of individuals and property in general, eg “security services for buildings”, “personal body guarding” and “night guards”. If such services and information relating to such services are offered online or via a computer network, they will be classified under Class 45 as well.

However, Class 42 will cover security services if they pertain to security of computer networks or the internet, eg. “computerised communication network security”, or if such services are offered as a form of computer service, eg “data security services [firewalls]” or “professional consultancy relating to computer security”. It would not be correct to classify such computer security services in Class 45.

It is also useful to note that the International Classification of Goods and Services (8th Edition) classifies some security services in Class 39. Security services relating to transport, eg. “guarded transport of valuables” and “escorting of travellers”, are classified under Class 39 and not Class 45.

WIPO’s Recommendation No. 18 (Circular No. 5/2005, dated 1 April 2005)

For applications lodged on or after 8 April 2005, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Enzymes for human consumption – Class 29
- (2) Soya milk [condiment] – Class 30
- (3) Supervision of teamwork to improve its effectiveness – Class 35
- (4) Consultancy in the field of computer security – Class 42
- (5) Therapy services – Class 44

Prepared meals (Circular No. 6/2005, dated 22 April 2005)

For applications lodged on or after 29 April 2005, the Registrar will not accept a specification consisting of “prepared meals” per se as the said item, without further qualification, is vague and may fall within several classes. The item should specify the content of the prepared meals, for example,

“Prepared meals consisting of meat” in Class 29 or

“Prepared meals containing principally of rice” in Class 30.

2006 Circulars**Crib bumpers** (Circular No. 3/2006, dated 3 February 2006)

For applications lodged on or after 10 February 2006, the Registrar will only accept the item, “crib bumpers”, in Class 20. This item is a type of cushion for lining the base and sides of the crib and serves a protective purpose for the baby. Since the item “cushions” is listed in Class 20 of the Nice Classification, by analogy, the item, “crib bumpers”, should be classified in Class 20 as well.

Retail services and other like services in Class 35 (Circular No. 6/2006, dated 24 February 2006)

The Registrar has revised her practice concerning retail services and other like services in Class 35. This revision in practice shall take effect for all applications lodged on or after 3 March 2006

In the past, applicants, in most instances, are required to list the goods to which the retail services relate. With the revised practice, where it is practical, it is still advisable to list the goods to which the retail services relate. However, the Registrar will no longer insist on such a requirement in all cases, as long as the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”, is used in conjunction with the means of bringing goods together. Thus, in cases where it is not practical to list all the goods to which the retail services relate, the Registrar will accept an indication of the means of bringing goods together and displaying such goods for the benefit of customers, for example, from a retail outlet, a wholesale outlet or a distributor outlet. Such an indication can be inserted at the end of the description “the bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods”.

With the revised practice, “wholesale services” will also be treated in the same manner as “retail services”.

The following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

(a) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(b) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet”;

(c) “Retail services in relation to [list the goods]”;

(d) “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(e) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet”;

(f) “Wholesale services in relation to [list the goods]”;

(g) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet”;

(h) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”; and

(i) “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”.

The Registrar is prepared to accept similar descriptions of the above services provided that the services are clearly described and fall within the ambit of retail or wholesale services. Please note that vague descriptions such as “distributorship services” are not acceptable as the term “distributorship” may encompass more than just retail or wholesale services, for example, it may include transportation services.

Interior decoration services (Circular No. 22/2006, dated 7 July 2006)

For applications lodged on or after 14 July 2006, the Registrar will only accept “interior decoration services” in Class 42 and not in Class 37, as such services are analogous to the item “design of interior décor” which is listed in Class 42 of the International Classification of Goods and Services (8th Edition).

WIPO’s Recommendation No. 19 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

(1) Incontinence garments – Class 5

(2) Telephone ring tones [downloadable] – Class 9

(3) Milk jam – Class 29

(4) Toasted natural wood chips added to wine to improve its flavour – Class 30

WIPO's Recommendation No. 20 (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes :

- (1) Paper sheets, sensitized, for carrying photographic imaging materials – Class 1
- (2) Slot machines[vending machines] – Class 9
- (3) Paper sheets, not sensitized, for carrying photographic imaging materials – Class 16
- (4) Slot machines[amusement] – Class 28
- (5) Stand-alone video game machines – Class 28

Technical consultancy services (Circular No. 25/2006, dated 16 August 2006)**Technical support services** (Circular No. 25/2006, dated 16 August 2006)

For applications lodged on or after 23 August 2006, the Registrar will classify “technical consultancy services”, “technical support services” and other similar technical advisory and technical information services according to their subject matters. The General Remarks in the Nice Classification (8th Edition) states that services that provide advice, information or consultation are in principle classified in the same classes as the services that correspond to the subject matter of the advice, information or consultation. Further, in line with the view of the World Intellectual Property Organization, the Registrar will consider indications such as “technical consultancy services” and “technical support services”, *per se* as too broad and vague and objections will be taken. Such indications will have to be specified in respect of their subject matters for the purpose of classification.

2007 Circulars**WIPO's Recommendation No. 21** (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Scoreboards for sports, other than mechanical or electric – Class 20
- (2) Advice on tax preparation – Class 35
- (3) Advice on fiscal assessments, advice on fiscal valuations – Class 36
- (4) Carbon offsetting services [recycling] – Class 40
- (5) Prenatal exercises – Class 41
- (6) Weblog [blog] services [on-line publication of journals or diaries] – Class 41
- (7) Creating and maintaining weblogs [blogs] for others – Class 42
- (8) Hosting of weblogs [blogs] – Class 42
- (9) Preparation of technical projects, technical research and consultancy services in the field of carbon offsetting – Class 42
- (10) Carbon offsetting services [reforestation] – Class 44

Providing on-line forums (Circular No. 27/2007, dated 25 July 2007)

Operating chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing chat rooms (Circular No. 27/2007, dated 25 July 2007)

Providing discussion services on-line (Circular No. 27/2007, dated 25 July 2007)

For applications lodged on or after 1 August 2007, the Registrar will only accept the items "providing on-line forums", "operating chat rooms", "providing chat rooms", and "providing discussion services on-line" in Class 38, regardless of the topic of the discussion. These items are analogous to the items "electronic bulletin board services [telecommunication services]" and "providing internet chatrooms" listed in Class 38 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Arranging and conducting of colloquiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conferences (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of congresses (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of seminars (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of symposiums (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of conventions (Circular No. 27/2007, dated 25 July 2007)

Arranging and conducting of exhibitions (Circular No. 27/2007, dated 25 July 2007)

The Registrar wishes to clarify that the above items with the exception of the last, viz.

"arranging and conducting of colloquiums";
"arranging and conducting of conferences";
"arranging and conducting of congresses";
"arranging and conducting of seminars";
"arranging and conducting of symposiums"; and
"arranging and conducting of conventions"

are classified in Class 41, regardless of the topic relating to these services. It is the purpose of the service and not the topic that determines their classification in Class 41. By virtue of their dictionary definitions, the terms, "colloquiums", "conferences", "congresses", "seminars", "symposiums" and "conventions" refer to activities linked with training or education, both of which are proper to Class 41. To illustrate, "arranging and conducting of conferences for commercial or advertising purposes" and "arranging and conducting of seminars for commercial or advertising purposes" are both classified under Class 41.

However, the item, "arranging and conducting of exhibitions", will be classified according to the subject matter since this service only refers to showing of products or services to the public, and is not primarily offered for the purposes of training or education. By analogy, "organization of exhibitions for commercial or advertising purposes" is listed in Class 35 of the NICE Classification (Ninth Edition), but "organization of exhibitions for cultural or educational purposes" is listed in Class 41 of the NICE Classification (Ninth Edition). This is in line with the view of the World Intellectual Property Organization.

Providing access to databases (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Providing of user access to the internet / global computer networks (Circular No. 33/2007, dated 26 September 2007)

Rental of access time to databases (Circular No. 33/2007, dated 26 September 2007)

For applications lodged on or after 3 October 2007, the Registrar will accept these and other analogous items in Class 38 only. These are essentially telecommunication services and are classified under Class 38 whether they are provided by an Internet Service Provider or a non-Internet Service Provider. Hence, our previous journal notice on the classification of these services based on the status of the applicant is no longer applicable.

Consistent with our previous journal notice on “leasing” (Circular No. 20/2004, dated 12 November 2004), applicants should also avoid using the term, “leasing”, in any class except Class 36, as “leasing services”, are acceptable only in Class 36. With regards to the above items in Class 38, an example of an acceptable description would be “rental of access time to databases” and not “leasing of access time to databases”.

2008 Circulars

Cereal-based beverages (Circular No. 7/2008, dated 5 March 2008)

Beverages made from cereals (Circular No. 7/2008, dated 5 March 2008)

Executor services (Circular No. 7/2008, dated 5 March 2008)

The pre-2004 circulars on “cereal-based beverages/ beverages made from cereals” in Class 32 and “executor services” in Class 42 have been removed in light of recent directives from the World Intellectual Property Organisation.

A specification of goods consisting of or containing “cereal-based beverages” or “beverages made from cereals” will be classified in Class 30 by analogy to “cereal preparations” that are classified under Class 30 of the NICE Classification.

A specification of services consisting of or containing “executor services” will be classified in Class 36 because such services generally relate to the administration of money, investments, real estate, assets, and other valuables. Such services are analogous to “fiduciary services” and “trusteeship services” both of which are classified under Class 36 of the NICE Classification.

The above changes affect all applications lodged on or after 12 March 2008.

Retail services and other like services in Class 35 (Circular No. 9/2008, dated 2 May 2008)

In addition to Circular No. 6/2006, the Registrar will accept the descriptions for applications lodged on or after 9 May 2008 (where it is not practical to list all the goods to which the retail services or wholesale services relate):

- a. "retail services"
- b. "wholesale services"

However, the Registrar will continue to reject descriptions such as "distributorship services", "mail order services", "departmental store services", "supermarket services", or "internet shopping". These terms are considered vague as they include services more than retail and wholesale services.

With the addition, the following descriptions provide guidance on what is considered to be acceptable to the Registrar in future:

- a. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- b. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a retail outlet";
- c. "Retail services in relation to [list the goods]";
- d. "Retail services";
- e. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- f. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a wholesale outlet";
- g. "Wholesale services in relation to [list the goods]";
- h. "Wholesale services";
- i. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- j. "The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a distributor outlet";
- k. "The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view

and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;

- l. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise catalogue by mail order or by means of telecommunications”;
- m. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- n. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network”;
- o. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- p. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a departmental store”;
- q. “The bringing together, for the benefit of others, of a variety of goods [list the goods] (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”; and
- r. “The bringing together, for the benefit of others, of a variety of goods (excluding the transport thereof), enabling customers to conveniently view and purchase those goods from a supermarket”.

WIPO's Recommendation No. 22 (Circular No. 16/2008, dated 21 November 2008)

For applications lodged on or after 28 November 2008, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

- (1) Milk ferments [bacteria preparations] used in making foodstuffs - Class 1
- (2) Wind turbines - Class 7
- (3) Pill distributor and organizer boxes for medical purposes - Class 10
- (4) Electronic cigarettes for medical purposes - Class 10
- (5) Meditation stones - Class 14
- (6) Pill boxes [not for medical purposes] - Class 21
- (7) Tablecloth holders - Class 21
- (8) Electronic cigarettes, not for medical purposes - Class 34
- (9) Publicity film production - Class 35
- (10) Illustrators' services - Class 42
- (11) Diamond authentication and certification services - Class 42

(12) Electronic data storage - Class 42

(13) Advice concerning cooking recipes - Class 43

Electronic data storage (Circular No. 16/2008, dated 21 November 2008)

Storage of data, information or documents (Circular No. 16/2008, dated 21 November 2008)

The pre-2004 circular on "Storage of data, information or documents" (Class 35 or 39) has been removed in light of recent directive from the World Intellectual Property Organization.

A specification of services consisting of "Electronic data storage" will be classified in Class 42 instead of 35 by analogy to "Duplication of computer programs" and "Data conversion of computer programs and data [not physical conversion]" which are classified under Class 42 of the NICE Classification. This is in conformity with the explanatory note "Class 42 includes mainly services provided by ... computer programmers, etc.".

On the other hand, if the data, information or documents are being stored physically, for example, in a warehouse, then it is proper to Class 39. The determining factor is **where** the data, information, or documents are being stored. Examples of items which are proper to Class 39 are:

- i. "Data storage"
- ii. "Information storage"
- iii. "Storage of electronically-stored data, information or documents".

The above changes affect all applications lodged on or after 28 November 2008.

2009 Circulars

Association services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "association services" per se because the item, without further qualification, is vague and may fall within several classes. The World Intellectual Property Organization also regards this description as being vague and takes the view that a service should not in principle commence with the description "association services" even if it is followed by a qualifier. For example, the description, "association services, namely arranging business introductions", is not acceptable.

In light of the above, applicants should avoid using descriptions beginning with "association services". A description like "association services, namely, promoting the general interests of those concerned with the importance of health and nutrition", should be reworded to "business promotion relating to the importance of health and nutrition, provided through an association" in order for it to be classified in Class 35.

Concierge services (Circular No. 6/2009, dated 30 April 2009)

For applications lodged on or after 7 May 2009, the Registrar will not accept a description consisting of "concierge services" per se because the item, without further qualification, is vague and may fall within several classes. This is in line with the view of the World Intellectual Property Organization that the description is vague and can fall within several classes.

In light of the above, applicants should specify the exact nature of the concierge services that are being claimed. If they insist on using the description, "concierge services", that must be qualified by a precise description of the concierge service. The following are examples of acceptable descriptions.

- i. "Concierge services for the arranging of tours" in Class 39
- ii. "Concierge services, namely, the delivery of luggage for guests" in Class 39
- iii. "Concierge services, namely, arranging for theater tickets" in Class 41
- iv. "Concierge services relating to restaurant reservations" in Class 43
- v. "Concierge services [baggage inspection for security purposes]" in Class 45.

On the other hand, descriptions such as "concierge services for others comprising of making requested personal arrangements and providing customer specific information to meet the needs of individuals", "hotel and resort concierge services", and "personal services rendered by others to meet the needs of individuals, namely, concierge services" are not acceptable since the exact nature of the services is unclear.

Personal and/or social services rendered by others to meet the needs of individuals (Circular No. 7/2009, dated 19 June 2009)

This is to clarify that a description consisting of "personal and/or social services rendered by others to meet the needs of individuals" in Class 45 has never been acceptable to the Registrar because it is vague and too broad in scope. For the purpose of clarity, applicants must specify the exact nature of the services that they wish to claim.

If, however, an applicant insists on using this description, it must be qualified by a precise description of the personal or social services claimed. An example of an acceptable description would be "personal services rendered by others to meet the needs of individuals, namely baby sitting".

Ancillary Services / Related Services (Circular No. 11/2009, dated 25 September 2009)

For applications lodged on or after 2 October 2009, the Registrar will not accept a description containing "ancillary services", "related services" or their equivalent, regardless of whether they are preceded or followed by a specific term. This is because the exact nature of these descriptions remains unclear. The addition of qualifiers such as "included in this class" or "all in this class" in such descriptions does not help in making those descriptions any clearer. The following are some examples of the objectionable descriptions:-

- (a) "advertising services; services ancillary or related to the aforementioned included in this class";
- (b) "services ancillary or related to the provision of business management services; all in this class"; and

(c) “all services relating or ancillary to computer services; all included in Class 42”.

In such cases, the Registrar will request that the applicant specify the “ancillary services” and “related services” claimed so that the specification is clear and unambiguous.

This practice direction is consistent with Circular No. 20/2004 that relates to “Vague descriptions in specifications”.

2010 Circular

WIPO's Recommendation No. 23 (Circular No. 2/2010, dated 5 March 2010)

For applications lodged on or after 12 March 2010, the Registrar, following the recommendations of the World Intellectual Property Organization, will accept the following items in the designated classes:

1. Trophies of common metals (Class 6)
2. Trophies of precious metals (Class 14)
3. Brackets for setting up flat screen TV sets (Class 9)
4. Baby gates (Class 20)
5. Decorative sand bottles (Class 21)
6. Ankle garters (Class 26)
7. Storage of human cells (Class 39)
8. Rental of water dispensers (Class 43)
9. Service of actual notice (Class 45)

G) CIRCULARS RELATED TO PROCEEDINGS BEFORE THE HEARINGS AND MEDIATION DIVISION**2009 Circulars****Applications for Security for Costs***(HMD Circular No. 1/2009, dated 20 November 2009)*

Section 70 of the Trade Marks Act (Cap 332) 2005 Rev. Ed. provides:-

If a person who neither resides nor carries on business in Singapore —

(a) gives notice of opposition under section 13; or

(b) applies to the Registrar under section 22 or 23 for the registration of a trade mark to be revoked or to be declared invalid, as the case may be,
the Registrar may require the person to give security for the costs for the proceedings and may, if security is not given, dismiss the proceedings.

[Emphasis added].

It is clear from the above that the application for security for costs can be a 2 - stage process. Thus, the Registrar will deal with such applications as a 2-stage process.

(I) Application for security for costs

Firstly, provided that a person neither resides nor carries on business in Singapore, the Registrar then has the discretion to require a person to provide security for costs of the

proceedings, but only if the Registrar thinks it is just to do so in the circumstances of the case.

The factors that would be taken into consideration in deciding whether to grant security for costs in a trade mark opposition, invalidation or revocation are similar to the factors that would be taken into account in deciding whether to grant security for costs in a civil suit. Thus as provided in the Singapore Civil Procedure ("the White Book"), such factors include, amongst others:-

- (i) the likelihood of the opponent succeeding;
- (ii) whether the order for security for costs will stifle a genuine claim; and
- (iii) where the opponent is a limited company, whether there is any evidence that the opponent is unable to pay costs.

Based on a consideration of the above, the Registrar then may or may not order security for costs to be given.

(II) Application for proceedings to be dismissed

In the event that the party whom the Registrar has ordered to provide security for costs fails to do so, the party to whom security for costs has been granted can then apply for the proceedings to be dismissed. The Registrar will call for submissions in writing from both parties and exercise her discretion to decide whether the proceedings should be dismissed. If parties request an interlocutory hearing to decide the issue, or if the Registrar thinks it appropriate, the Registrar may also fix an interlocutory hearing to hear the parties in person.

Completion of Form TM 28

(HMD Circular No. 2/2009 dated 20 November 2009)

Form TM 28 is used for 3 different types of proceedings:-

- (i) Application for revocation of registration of a trade mark (Rule 57(1)(a) of the Trade Marks Rules 2008 Rev. Ed. (TMR));
- (ii) Application for declaration of invalidity of registration of a trade mark (Rule 57(1)(b) of the TMR); and
- (iii) Application for rectification of the register by persons other than the proprietor of the trade mark (Rule 57(1A)(b)).

Thus, when completing the form, please ensure that: -

- (i) the correct information is provided in Form TM 28 pursuant to the particular type of proceedings for which the Form TM 28 is filed; and
- (ii) the statement of grounds provided under Part 5 of Form TM 28 is worded consistently in accordance with the type of proceedings pursued under TM 28 ie application for revocation / declaration of invalidity / rectification of the register, as applicable.

In the event of any inconsistencies between the statement of grounds and the type of proceedings indicated, the applicant would generally be directed to re-file Form TM 28 with a clear indication as to the type of proceedings pursued, unless there are exceptional reasons for the Registrar to exercise her discretion to waive the need for such correction. The earlier application will be treated as withdrawn and the application date will be the later filing date. Fees paid are non-refundable as the need to re-file is attributable to the applicant or his agents.

Filing of Form TM 11 by Joint-Opponents

(HMD Circular No. 3/2009, dated 20 November 2009)

Under the provisions relating to oppositions in the Trade Marks Act (Cap 332) 2005 Rev. Ed. and Trade Marks Rules 2008 Rev. Ed., there is no prohibition against joint-opponents opposing a trade mark application.

In such an instance, it is sufficient for the purposes of the opposition that one Form TM 11 be filed. To reflect that there are joint-opponents opposing the registration of a particular trade mark, the opponents simply need to indicate, at Part 3 of TM 11, the particulars of the different opponents opposing such a registration.

The fees which are chargeable for TM 11 will depend upon the number of classes included in TM 11.

Similarly, in such circumstances, for the purpose of lodging evidence via statutory declarations (this will occur at a later stage in an opposition proceeding), the joint-opponents need to file only one set of evidence via statutory declarations provided that it is clear from each statutory declaration that the deponent has been duly authorized by all the joint-opponents to give such evidence on their behalf.

Service of Form TM 11 (Notice of Opposition) and Form TM 28 (Application for Revocation / Declaration of Invalidity / Rectification)*(HMD Circular No. 4/2009, dated 20 November 2009)*

Service of Form TM 11 and Form TM 28 is regulated under Rule 29 and Rule 57 of the Trade Marks Rules 2008 Rev. Ed. (TMR) respectively.

Rule 29(2) provides that the opponent shall serve on the applicant a copy of the notice of opposition at the same time as the notice of opposition is filed with the Registrar.

Rule 57(3) provides that the applicant for revocation / declaration of invalidity / rectification shall, if he is not the proprietor of the registered trade mark, serve a copy of the application and the statement of grounds on which the application is based on the registered proprietor at the same time as he files the application and statement of grounds with the Registrar.

For the purpose of ensuring compliance with the above Rules, the opponent / applicant is to indicate clearly, on the cover letter enclosing the notice of opposition or application for revocation / declaration of invalidity / rectification to the Registrar, that a copy of Form TM 11 or Form TM 28, as applicable, has been served on the applicant / registered proprietor. Failure to do so will be taken as non-compliance with Rule 29(2) or Rule 57(3) respectively. Accordingly, the Registrar will treat the case as no proper service of Form TM 11 and Form TM 28 respectively, unless the opponent / applicant proves otherwise.

In such an event, Form TM 11 / Form TM 28 will be rejected as non-compliant. The opponent / applicant will have to re-file Form TM 11 / Form TM 28 afresh and serve the same on the applicant / registered proprietor.

In relation to Form TM 11, in the event that the notice of opposition cannot be re-filed as the 2-month or 4-month maximum time period has expired, the prospective opponent will then have to consider filing for invalidation after the mark has been registered.

Service of Form TM 12 (Counter-statement)*(HMD Circular No. 5/2009, dated 20 November 2009)*

Service of Counter-statement for opposition is regulated under Rule 31 of the Trade Marks Rules 2008 Rev. Ed. (TMR) and service of Counter-statement for an application for revocation / declaration of invalidity / rectification is regulated under Rule 58 of the TMR.

Rule 31(2) provides that the applicant shall serve on the opponent a copy of the Counter-statement at the same time as it is filed with the Registrar.

Rule 58(2) provides that the registered proprietor shall serve on the applicant a copy of the Counter-statement at the same time as he files the Counter-statement with the Registrar.

For the purpose of ensuring compliance with the above Rules, the applicant / registered proprietor is to indicate clearly, on the cover letter enclosing Form TM 12 to the Registrar, that the same has been served on the opponent / applicant. Failure to do so will be taken as non-compliance with the Rules. Accordingly, the Registrar will treat the case as no proper service of Form TM 12.

In such an event of non-service, and provided that the irregularity would not result in a detriment to the other party that cannot be remedied, the Registrar would generally, pursuant to Rule 83, exercise her discretion to direct that the procedural irregularity be

rectified by issuing deadlines for service of the Form TM 12 on the other party and an order as to costs against the applicant / registered proprietor as appropriate.
