PRACTICE DIRECTION NO. 2 OF 2005
REGISTRATION AS ACCOUNT HOLDER TO E-FILE AND PAY BY GIRO**

This Practice Direction is issued by the Registrar under Rule 78B(1) of the Trade Marks Rules, to specify the procedure for applying to the Registrar to be registered as an account holder.

This Practice Direction will come into effect on 1 January 2006.

Any person who wishes to use eTrademarks to effect a transaction and make payment by GIRO must register with the Intellectual Property Office of Singapore (IPOS) as an Account Holder. Approval is at the sole discretion of IPOS. Upon approval, an eTrademarks account will be created in the name of the person and the person will receive a User ID and Password.

To register, access IPOS address at <http://www.ipos.gov.sg> and [download the eTrademarks Account Holder Registration Form](#).

The person may appoint an Administrator to administer and manage his eTrademarks Account through the eTrademarks "[Maintenance of Authorised Representatives](#)" service.

The responsibilities of the Administrator are as follows:

- appointment of one or more Representatives to access eTrademarks and make payment by GIRO on behalf of the Account Holder;
- updating of the particulars of the Representatives; and
- removal of any Representative's rights to access eTrademarks and make payment by GIRO on behalf of the Account Holder.

These responsibilities are to be conducted through the eTrademarks "Maintenance of Authorised Representatives" service.

Please note that all Authorized Representatives must be CPF account holders with SingPass. The Authorized Representatives are required to sign in using their SingPass to ensure security for GIRO deductions for the online transactions. If the person does not have a GIRO account with IPOS, please complete the [GIRO Application Form](#) and submit it to IPOS.

The completed eTrademarks Account Holder Registration Form and GIRO Application Form should be mailed or couriered to the Intellectual Property Office of Singapore with the address 51 Bras Basah Road #04-01 Plaza By The Park Singapore 189554 and attentioned to Mrs Ang-Ong Bee Lian. Fax submissions are not acceptable.

Dated this 30th day of December 2005.

PRACTICE DIRECTION NO. 2 OF 2004
HOURS OF BUSINESS AND EXCLUDED DAYS**

This Practice Direction is issued by the Registrar under Section 78 of the Trade Marks Act, to specify the hours of business of the Registry and the days which are to be treated as excluded days.

This Practice Direction will come into effect on 1 July 2004.

Hours Of Business

- (1) The hours of business of the Registry shall be as follows:
 - (b) 8.30 am to 12.30 pm and 1.30 pm to 5.30 pm from Monday to Friday, except on a day which is an excluded day; and
 - (b) 8.30 a.m. to 1.00 p.m. on any Saturday which is not an excluded day.
- (2) Notwithstanding paragraph (1), for the purposes of carrying out of any transaction referred to in rule 78A(2) by means of the electronic online system, the Registry shall be taken to be open every day at all hours, except on any day which is an excluded day for the purposes of carrying out of transactions by means of the electronic online system.

Excluded Days

- (1) All Sundays, public holidays and such other days as the Registrar may specify, shall be excluded days for all purposes under the Act and the Rules.

Dated this 1st day of July 2004.

Application Published for Opposition Purposes Under The Trade Marks Act (Cap.332, 2005 Ed.)

Registration has been applied for in the respect of the following Trade Marks under the provisions of the Trade Marks Act (Cap. 332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Computer antivirus software; computer software for providing network, Internet, and computer security; computer software for providing online identity protection and parental control; computer software for providing intrusion detection and prevention; computer software for scanning, detecting, and removing viruses, worms, Trojan horses, adware, spyware, and other malware; Internet security software, including computer software for use in the monitoring and control of computer and online activity; computer software for

providing online transaction security; fraud protection software; computer optimization software; computer software to prevent, diagnose, and repair computer problems; computer maintenance software; computer software for the back-up, storage, restoration and recovery of data, folders, and files; enterprise security software; fire wall software; privacy control software; content filtering software; cloning software, namely, software for cloning computer hard drives, software for cloning computer operating systems, software for cloning data files, software reconfiguring personal computers; computer software for the creation of virtual private network; computer utility software; computer utility software for removal of computer applications and software; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software, namely, middleware for interfacing client applications and networked or host based databases; computer software for use in updating other computer software; computer software for use in networking applications; computer software for sending and receiving facsimile transmissions from computers; computer software for connecting and managing remote computers, for synchronization of files through e-mail, for providing security to remote computer users, for implementing computer, software and network security measures for remote computer users; computer software for file management and transfer; computer software for telecommuting, namely, for connecting to and use of a remote computer network, a remote computer and mobile devices; computer software for facsimile transmission; computer software for use with a home or remote office for connecting computer network users to global networks; computer software and databases for use in diagnosis, repair and configuration of computers, computer software and computer peripherals; computer software, hardware, firmware and peripherals for network and Internet security data and system protection, and storage, server, client, and application performance management; downloadable software; computer hardware; computer hardware appliances that provide firewall, content filtering, intrusion alert, virus protection, virtual private networking and other security functions and file serving storage management; computer software for use in file, disk and systems management; computer software for use in data storage management and storage area networks; computer software for backing up and restoring computer data; computer software for use in disaster recovery; computer software for use in removable storage media management; computer software for monitoring, identifying, and rectifying file, disk, system, and computer network problems and errors; computer software for use in the field of enterprise information management; computer software for use in the field of online analytical processing (OLAP); computer software for generating reports from databases; computer software for scheduling automated processes; computer software for use in the central management of computer attached to a computer network; computer software for replicating and archiving files from one data store to another; computer software for metering the use of the other computer software; computer software for use in developing data analysis applications and other computer software; computer programs for data communications applications, and for the encryption and authentication of electronic information; computer programs for use in the field of computer system administration, namely, programs for the administration and management of computer programs and electronic data about computer systems; computer programs for managing the software configurations of

computer systems and computer networks; computer programs for the sending and receiving of computer software across a computer network to accomplish software distribution and computer programs for installing and upgrading other computer software without manual user intervention; computer programs for copying data from one electronic storage medium to another electronic storage medium; computer programs for use in teaching and training users in the use of computer software and/or computer hardware; computer programs for remotely monitoring, evaluating, demonstrating and controlling other computer programs or computer processes; computer programs for locking-down one or more computers on a computer network; computer hardware and software for authenticating users and maintaining and managing access to computer data, computer content, electronic communications, and computer networks; embedded software for network monitoring and security; embedded software for authenticating users and maintaining and managing access to computer data, computer content, electronic communications, and computer networks; computer software, namely, content management software which filters, monitors, reports on and controls use of and access to locations on computer systems and networks and on global communication networks; electronic mail and news group filtering software which prevents or shunts delivery of defined categories or origins of electronic mail messages and news postings; protection software which detects electronic inquiries for information from computer systems or of users of computer systems and organizes, monitors, controls and prevents provision of such information; privacy management software which prevents, monitors, certifies, aggregates and reports on the distribution and use of personal identification information on computer systems and networks and on global communications networks; file transfer filtering software which prevents, monitors, reports on or shunts delivery of defined categories, origins, volumes, or timeframes of electronic files; and chat filtering software which prevents, monitors, reports on, analyzes, or shunts delivery of defined categories, senders, recipients, origins, volumes or timeframes of conversations transmitted or stored electronically; computer software; computer software in the field of cryptographic network security and data security functions; computer software for integration of information logic and data between computer networks; computer software for automating a process for authentication of identity using existing databases in connection with the issuance and management of digital certificates used for authentication or encryption of digital communications, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer networks; computer software, namely, encryption software to enable secure transmission of digital information, namely, confidential, financial and credit card information over the Internet, as well as over other modes of communication between computing devices; computer software to integrate managed security services, namely, public key infrastructure (PKI) services, digital certificate issuance, verification, management and enterprise software integration, with existing communications networks, software and services; computer software for use in analysis and reporting of firewall log data; computer software platform for bridging Internet and telephony services and enabling users to communicate and transact business faster across multiple networks via wire line phones, mobile phones, personal computers, PDAs and other personal electronic devices; computer software platform for providing faster Internet connections, website resolution and e-mail deliveries;

computer software for identity security; computer software for authentication and identity management information security; computer software for digital information and data access; computer software for detecting identity fraud; computer software and firmware for the management, transmission, and storage of data and information; computer software for use in networking computers; computer software for use in computer emulation; computer software for use in operating electronic mail; computer software for use in operating voice mail and voice messaging; computer software for use in database management; computer software for use in monitoring computers for security purposes; computer software for use with computer servers for controlling and managing server applications; computer telephony software; computer software for use in accessing databases; downloadable electronic publications in the nature of reference, user, technical and instructional manuals and data sheets for use with computer software, hardware, peripherals and firmware and downloadable electronic publications in the nature of manuals, white papers, articles, blogs, instructional materials, teaching materials, newsletters, magazines, newspapers, books, pamphlets in the fields of computer software and computer and on-line security, and technical documentation manuals in electronic format relating to computer hardware and software, digital telecommunications, consumer electronics, and information technologies.

Class 16

Computer user manuals in the field of computers, computer hardware, computer software, computer peripherals, computer security, computer services, and computer networks; printed matter and publications, namely, books, magazines, newsletters, work books, quick reference guides, technical reference manuals and conference materials in the field of computers, computer hardware, computer software, computer peripherals, and computer networks; labels and holographic labels, not of textile.

Class 38

Transmission of anti-virus scanning and other network security software via a global computer network and electronic transmission of electronic mail communications and data featuring encryption and decryption through the management and filtering of mail sent via global computer network; information and consultancy with regard to aforementioned services; providing on-line forums for transmission of messages among computer users concerning computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer-related equipment, computer security, information technology, electronic commerce technology and global computer network technology, mobile computing, communications networks and devices, and telecommunications equipment and devices; providing on-line chat rooms for transmission of messages among computer users concerning computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer-related equipment, computer security, information technology, electronic commerce technology and global computer network technology, mobile computing, communications networks and devices, and telecommunications equipment and devices; providing data delivery services, namely electronic transmission of data; electronic mail and instant messaging services.

Class 42

Computer advisory and consultancy services in the field of computer hardware and software; network and Internet security services; computer hardware and software consultation; computer consultation in the field of computer security; computer diagnostic testing services; computer services, namely, data recovery services; technical support services, namely, repair of computer software; technical support services, namely, providing back-up computer programs and facilities; computer virus protection services; computer software installation services; computer programming; computer software design for others; technical consultation in the field of computer software installation and maintenance; consulting services in the field of design, implementation and use of computer hardware and software systems for others; development, updating, provision and maintenance of software for networks and standalone computers in the fields of security, database management, and anti-virus protection and monitoring security systems; providing information in the field of network and Internet security; providing technical information in the field of computer software applications; application service provider services; providing online information on computer software, namely software updates; updating of computer software; hosting of online database featuring information relating to computers, computer hardware, computer software, computer networks, computer-related services, data storage management, enterprise information management and online analytical processing (OLAP); remote or on-site monitoring of computer systems; monitoring the computer systems of others and providing back-up computer programs and facilities; integration of computer systems and networks; computer services, namely providing information concerning the encryption and authentication of electronic data; consultancy in the field of computer security for the secure transmission of communications; encryption and decryption of data and communications; computer security services in the nature of monitoring internet data and restricting access to and by computer networks to and of undesired web sites; providing authentication of identity; issuance and management of digital certificates for authentication or encryption of a digital communication, or authentication of a digital signature in an electronic transaction or communication, over the Internet and other computer network and providing technical and customer support in connection therewith; development, design, implementation, testing, analysis, and consulting services in the field of security, access, authorization, authentication encryption, and identification systems for computers, computer hardware and computer networks; development, integration and operation of computer systems to support issuance and management of digital certificates; digital certificate and digital signature verification services (electronic cryptology services); computer related services, namely, managed computer network and Internet security services, namely, public key infrastructure (PKI) verification, authentication and management, digital certificate issuance, verification and management, and enterprise software integration; computer services, namely, providing search engines for obtaining data on a global computer network; computer consultation regarding computer networks and internal computer networks, security services for computer networks and internal computer networks, namely, installation, design and customization of Internet and network firewall software for others; computer consulting services in the field of security integration, network security, network architecture, encryption technology, and computer security; security verification of computer network

firewalls, servers and other network devices from unauthorized access, namely, analyzing global computer information network and internal computer network vulnerability; computer software consultation services for the development of software applications; designing and programming computer controlled communications systems; electronic data storage; data conversion of computer programs and data (not physical conversion) ; virtual private computer networks services; online provision of web-based applications; provision of online non-downloadable software (application services provider); computer services, namely, providing a computer software platform that bridges Internet and telephony services and enables users to communicate and transact business faster across multiple networks via wire line phones, mobile phones, personal computers, PDAs and other personal electronic devices; providing a computer software platform that provides faster Internet connections, web site resolution, and email delivery; application service provider (ASP) featuring billing and customer relationship management software for wireless service providers; data conversion of computer program data or information (not physical conversion) from communication carriers; application service provider (ASP), namely, hosting computer software applications for others; cross-platform conversion of digital content into other forms of digital content for distribution via networks; providing temporary use of on-line, non-downloadable software for storing, managing, tracking and analyzing data in the field of Radio Frequency ID (RFID) and the Electronic Product Code (EPC); designing, creating or maintaining of computer programs for computer networks using Radio Frequency ID (RFID) and the Electronic Product Code (EPC); hosting of digital content over the Internet for use in wireless communications and with wireless communication equipment and apparatus; research services relating to computer hardware and computer software; computer support services, namely, software advisory services and software update services; consultancy services relating to computer hardware and software; providing technical information about computers, computer software and computer networks, including information relating to new computer software applications and using computers at remote locations; application service provider services, namely, providing on-line, non-downloadable software for computer security testing in the fields of computer and Internet security; scientific and technological services, namely, technology consultation in the fields of computers, computer hardware, computer software, computer peripherals, computer systems, computer networks, computer security, information technology, electronic commerce technology and global computer network technology, communications networks and devices, consumer electronics, mobile computing, and telecommunications equipment and devices; information technology project management; providing technology information relating to communications devices, computers, computer hardware, computer software, computer peripherals, and computer networks; Monitoring of computer systems for security purposes; providing security threat management systems, namely, monitoring and tracking of security vulnerabilities and problems in computer software products, the Internet, and computer networks; computer and internet security services in the nature of managed public key infrastructure (PKI) services, namely application and network infrastructure security services; providing user authentication services in electronic commerce transactions; computer and internet security services, namely authentication services for the issuance of digital certificates; providing information relating to global computer network and local area network security; providing

information relating to the prevention of computer viruses and threats; providing information relating to security in computer hardware and software applications; electronic storage of data files for clients to store and retrieve data via a global computer network; electronic document and email archival (storage) services.

Application for a series of two marks.

Class 07

Semiconductor manufacturing machines, semiconductor wafer processing equipment in the nature of industrial robots and operating software sold as an integral component thereof; cryogenically cooled vacuum pumps, often referred to as cryopumps; compressors for cryogenic refrigerators; cryopump systems and parts therefor; machines and machine tools; motors (except for land vehicles); machine coupling and belting (except for land vehicles); incubators for eggs; industrial robots for use in the manufacturing of integrated circuits and other electronic devices; automation machines used in the manufacture of integrated circuits, semiconductors, LEDs and OLED devices; high vacuum pumping systems (machines), combining molecular and cryogenic pumping capabilities; semiconductor wafer processing machines; load port modules (machines) for use in the field of manufacturing automation; automated storage and retrieval machines, integrated material handling machines, and conveyor and sorting machines (industrial), and parts therefor; automated microplate handling machines for industrial use, namely, comprising motorized positioning platforms used to position microplates and related laboratory equipment; vacuum control valves (parts of machines).

Class 09

Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for the tracking, transport, storage and processing of medical and biological samples in the healthcare and medical research industries; Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for supporting drug discovery, bioprocess development, biologics production and regenerative medicine; Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for moving medical and biological substances whether in a liquid or solid state; Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for transporting medical and biological materials from one container to another container or for transporting individual containers from one location to another location; Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for indexing and future retrieval of the compounds; Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for organizing, sorting, storing, archiving, growing, and analyzing tissues for research and medical applications; Robotic operating systems comprising of computer automation hardware and control software integrated therewith, for tracking and control of biological and medical materials; Vacuum gauges, vacuum gauge tubes, vacuum gauge controllers, ionization gauge tubes, ionization gauge controllers; laboratory dosage and replication machines for pharmaceutical and chemical compounds, and parts therefor, and sealing, piercing, and

capping of test tubes, vials and plates for laboratory use, and parts therefor.

Class 10

Medical devices for storing medical materials at a variety of temperatures ranging from -200 to 200C; medical equipment, namely, automated biochemical assay systems comprising microplate readers, robotics fluid dispensers and reagent stores; microplate readers for medical laboratory analysis; fluid dispensing devices for medical use; automated medical compound storage apparatus (for medical use) comprising addressable storage compartments, fluid dispensing devices and robotics; automated microplate handling machines for medical use.

Class 11

Refrigeration units cryogenic use; portable mechanical refrigeration chillers, capable of supplying liquid coolant, and refrigeration gas chillers, all the aforesaid goods for use in cryogenic refrigeration at temperatures less than 160k; refrigeration units in the nature of closed-cycle refrigeration systems for cryogenic use; refrigerator systems and parts therefor; cryogenic refrigerators, gas condensers, other than parts of machines and parts therefor; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; refrigeration systems for industrial use; refrigeration units comprising a closed-cycle system for cryogenic use.

Class 37

Repair and maintenance services for fab manufacturing equipment, namely semiconductors; maintenance and repair of high-vacuum pumps, and consulting services in connection therewith.

Class 39

Providing automated storage of pharmaceutical and chemical compounds for laboratory use.

Class 40

Custom manufacture of automated systems for laboratory storage, dosage and replication to the specification of others.

Class 41

Training in the use and operation of fab manufacturing equipment; training others in connection with the maintenance and repair of high-vacuum pumps.

Class 42

Computer hardware and software diagnostic services involving the interpretation and analysis of computer stored or computer relayed data taken from electronic systems involved in controlling and monitoring such processes; advisory and consultancy services relating thereto; technical inspection and testing of fab manufacturing equipment; technical data analysis in the field of fabrication facility manufacturing equipment; pharmaceutical research and development services in the areas of assay development, compound screening, compound and chemical identification, and drug target identification and characterization; computer services, namely, providing temporary use of online non-downloadable software for laboratory

administration, processing and handling of laboratory compounds and operating and managing laboratory storage, dosage and replication machines; electronic storage of data in the field of laboratory storage, dosage and replication; monitoring of the condition of fabrication facility manufacturing equipment.

Priority Claims:

Class 07

06/12/2011

United States of America

Semiconductor manufacturing machines, semiconductor wafer handling systems in the nature of industrial robots and operating software sold as an integral component thereof; cryogenically cooled vacuum pumps, often referred to as cryopumps; compressors for cryogenic refrigerators; cryopump systems and parts therefor; machines and machine tools; motors (except for land vehicles); machine coupling and belting (except for land vehicles); agricultural implements; incubators for eggs; industrial robot used for transport in the process of manufacturing integrated circuits and other electronic devices; tool platforms used in the manufacture of integrated circuits, semiconductor, led and oled devices; high vacuum pumping systems, combining molecular and cryogenic pumping capabilities, comprised of turbo-pumps, connectors, valves, controller cables, control modules, key pads and displays units semi conductor wafer processing machines, load port module for use in the field of manufacturing automation; Automated storage and retrieval machines, integrated material handling machines, and conveyor and sorting machines, and parts therefor; laboratory dosage and replication machines for pharmaceutical and chemical compounds, and parts therefor, and sealing, piercing, and capping of test tubes, vials and plates for laboratory use, and parts therefore.

International Registration Filed Under The Madrid Protocol Published For Opposition Under The Trade Marks Act (Cap.332, 2005 Ed.)

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

Collective and Certification Marks Published For Opposition Purposes

Registration has been accepted in respect of the following Collective and Certification Marks filed under the provisions of the Trade Marks Act (Cap. 332, 1992 Ed.), Trade Marks Act (Cap. 332, 2005 Ed.) and the Madrid Protocol.

OPPOSITION

Any person who wishes to oppose the registration of any of the marks published in the class groups which follow may within two months from the date of this journal file a Notice of Opposition on Form TM 11 (fee \$374 and Service Bureau charges).

Formal opposition should not be filed until after reasonable notice has been given to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expenses of preparing the Notice of Opposition are incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order for Costs if the opposition is uncontested by the Applicant.

VINO NOBILE DI MONTEPULCIANO
